

## NEW EXCHANGE BOING BUSINESS

Statewide Sale of City Well Satisfied With Results for Accomplished Under Plan

Twins Falls, Nov. 15.—The exchange of city well lands in this county, which was organized just a month ago, has met with phenomenal success by the property owners as only 200 executive listings have been turned in to the secretary, J. C. Lindsay.

The executive listing plan after two months' operation by the property owners has been a success. The exchange, for the benefits to be derived by so doing, is easily explained, and those who are interested in it are "highly pleased" with the plan.

"A property owner may list his property with any member of the exchange who will furnish a copy of the listing to the secretary, and he in turn, will list it with the other members; thereby 26 dealers will be working on the listing, and the owner has only to deal with one subsequent listing. The exchange member has the same listing and the same price and cannot boost the price according to his fancy."

The commission charged by the exchange is the same as formerly, namely 6 per cent on the first \$5000 and 12 1/2 per cent on the balance. The exchange was not organized for the purpose of raising commissions or for any trust methods, but to eliminate many of the features which are charged against all dealers for the misgivings of the few.

The following new members have been received into the exchange: The Hollister Realty company, Gamble & Chapin, Ferguson Fruit & Land company and J. W. Craven, making a total city membership of 23 and their homes in Twin Falls at over \$500 dealers throughout the United States.

The exchange was recently accepted into the National association of real estate exchanges, placing its members in direct contact with over 6500 dealers throughout the United States.

The day she arrived, Mr. Kaufman became ill, and it was found that the malady was cholera. Immediately the entire household was quarantined. When he had almost recovered the Kaufman baby was taken with it, and convalescence had barely begun when the Sizer boy caught it. However, he is well now and shows no trace of the disease. Mrs. Sizer escaped it. Mr. Sizer, who superintendent of the Smith & Smith Candy company, was first notified of his wife and boy's situation in Boise by a telegram which had been telephoned to the Western Union office, communication by mail being impossible.

## COUNTY BOOKS SHOW VAST INCREASE IN TAX

Fallacy of Speculation in Individual Cases Exposed—Farmers Suffer by an Average 25 Per Cent Advance in Patented Lands

Valuations so Much Greater Than in Cases of Acreage of State Board of Equalization, (Increased Acreage and Lower Mill Levy). Total Tax on Patented Lands is \$94,500, as Compared with \$64,500 for 1910, or an Average of \$30.00 as Compared with \$20.00 for 20 Acres.

Not only the utter fallacy of the statement that taxes will be reduced, or, as later contended, at least, not materially raised under the Democratic premature cash-value scheme, inaugurated this year before necessary amendments had been made to the constitution and statutes, has been absolutely proven, but also the fact that the burden of the increase will be borne by the farmers is undeniably established by the tax roll. This was not practically completed in Twin Falls county.

This year, the farmer will pay \$38 upon the same property, for which last year, the levy was \$28. This is not in an individual case, but is the proportionate advance extending to every acre of patented land in Twin Falls county.

In 1910 the total value of all of the property in Twin Falls county, after having been equalized, was \$7,719,624. In 1911 the total value of the same property is \$10,747,172. This is almost exactly three times as great.

In 1910 the tax rate was: State 7.5 mills; county 1.2 mills; total, 8.7 mills. Of course this did not include the independent school district tax nor the city taxes for paving, sidewalks and sewers.

In 1911 the tax rate is: State 3 mills; county, 9 mills; total, 12 mills. This is the tax on the face of it, but the increase in valuation is so excessive that the low rate is scarcely any mitigation. In the independent school district, the 12 mills is to be added 10 mills, making 22 mills, and in the city, paving and sewerage, which is the most highly profitable when fed into the profit on beef, pork and mutton is much greater than hay.

**PORTLAND MEN OFFER TO FINANCE STOCK RAISING**  
Effort to Provide Means for Marketing Hay Crop at Home Revived—C. M. McAllister, Agent of Union Stock Yards Company, Visits Twin Falls, Following Brief Stay Here by W. P. Dickie, President of Cattle Loan Association.

The efforts made last year to interest the farmers of the Twin Falls tract in stock raising and feeding of all kinds of livestock, and the success of providing a highly profitable home market for the thousands of tons of hay in the country at that time, has been revived, and C. M. McAllister, agent of the Union Stock Yards company, is here in the city, and has been interested in the Twin Falls hay market. This is the procedure followed in the eastern states.

## LARGE LIVE STOCK RECEIPTS

Farmers of the Tract are Feeding on the Stock

An interview by Sam Ballentyne published in the Statesman on Monday, November 6, stating that there is sufficient hay on the Twin Falls tract to feed the stock of the sheep in the state during the winter, is said by prominent farmers of the tract to be probably correct in so far as the month of October is concerned, but probably for that purpose. While an immense crop has harvested—probably larger than that of last year—the stock of sheep on the tract is not the farmers have taken time by the forelock and have shipped in thousands of head of stock to feed on the ground. On the Twin Falls tract approximately 1000 head have been shipped in, and more are to follow. The Oregon Short Line reports receipts of 30 cars of stock at this station during the month of October, and this is only a small portion of the receipts for the entire tract. Hanson, reporting on cars for the month of October, reports that the market for hay is strong and special inducements are made for shipments, especially for Missouri river stock to rate of 40 cents being secured by the Commercial club of this city, instead of 30, as stated by Mr. Ballentyne. However, in spite of the fact that 65 cars were loaded out on this point during the month of October, indicating that the farmers prefer to hold their crop and feed it rather than sell it at present prices.

"CASH INTRIGUE" APPRECIATED

Montana Young Woman Pays Sincere Tribute to Talented Author

That the efforts of the News publisher to serve a class of readers which will appeal to its readers are not entirely without results is seen to advantage in the following letter received at the office recently.

Riciville, Montana, Nov. 8, 1911. Mr. George Randolph Chester, Care of Twin Falls News, Idaho.

Dear Sir: Just to let you know how much I enjoy "The Cash Intrigue".

Our family went out berrying in September and after dinner I picked up a lonely magazine to read while I rested.

"The Cash Intrigue" fascinated me, although it was a continued story and already in the second or third issue.

The team started for home and I had to leave the book behind. Some time after I discovered it in the Twin Falls News, which we have been taking for some time. I was glad to be able to continue it again.

Now I watch the mail for the paper, and the story is the only thing I am serious about. All newspapers have news.

I am sure many enjoy your work.

Two Holes In The Household Purse

If you use butter otherwise than as a spread for bread, you are wasting money, because Cottolene will make just as light cake and pastry as you ever made from butter, and it can be bought about the price you pay for lard.

One-third less Cottolene, moreover, is required than of either butter or lard. With Cottolene you save in another way. Lard-cooked food leads to indigestion, and indigestion sooner or later lands you into the hands of the doctor. Use Cottolene and your bills will be less both with your grocer and with your family doctor.

For those who desire only to obtain two credits there will be available a wide choice from the professional courses offered. These include methods in reading, language, history, arithmetic and geography, as well as principles of education, sociology, etc.

All academic courses will be available to those who desire to strengthen themselves along the lines of English, history, manual training, sewing or cooking.

HOUSEHOLD CARES

Tax the Women of Twin Falls the Same as Elsewhere

Hard to attend to household duties with a constantly aching back. A woman should not have a bad back.

And she wouldn't if the kidneys were well. Doan's Kidney Pills make well kidneys.

Twin Falls women should profit by the following experience. Mrs. M. W. Danielson, Old Town, American Falls, Idaho, says: "Two years ago I had an attack of kidney trouble. My back ached so severely that I could not get out of a chair without dragging something for support. The pain in my joints was almost unbearable, especially after I remained seated for any length of time. I always felt tired and could do only part of my housework. My kidneys were in bad shape; dizziness bothered me, and my health became all run down. Doan's Kidney Pills were recommended to me. I procured a supply and the contents of two boxes effected a cure. I am only too glad to recommend them to my friends. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States."

Remember the name—Doan's—and take no other.

Breaking Tabernacle Foundations and the One True Religion

**A GREAT REFORMER**

**Era's Methods Criticized Unjustly.**  
Era vii, 15-26—Nov. 11.

"The hand of our God is upon all them for good that we desire."

Era was a learned Jew who headed a great reformation movement. As God's agent he was largely responsible for the maintenance of the Jewish faith and nation. His family had been amongst the many carried captive by Nebuchadnezzar. Like many others that became rooted in the new soil of Babylonia, he was not among the fifty-three thousand to return to Jerusalem when King Cyrus gave the opportunity. Era, imbued with a spirit of religious fervor based upon faith in God and His promises, to Israel headed another company bound for Jerusalem—seventy-eight years after the return of the exiles.

The Jews evidently were prosperous in Babylon and their exile, for a time at least led them to earnest study of the Law and the Prophets. In fact, Judah, probably under Era as one of its chief representatives, seems to have prospered more in Babylon than in Jerusalem, not as a whole, but a certain plus few. These were vexed only from time to time because of the poverty of their brethren in Jerusalem, and that matters religious were not prosperous there, and the rebuilding of the temple which represented and presided in the nation was but poorly served.

Deeply in earnest for a revival of the true religion, Era laid the matter before the representatives in Babylon as before the Exilarch King, with favorable results. Large donations were made for the repairs to the temple and the institution of its worship upon a proper basis to give aid and help the interests of the Jewish cause in Jerusalem. The donations of gold and silver totaled a little more than two million dollars, and the number of persons who volunteered to be of the company was about seventeen hundred. The donations were a public trust and Era, in his capacity as the treasurer between twelve principal men of his party, taking receipts from each.

Before the journey proper was begun, a fast was proclaimed and the Almighty God was entreated to grant His blessing upon the undertaking and to direct the conduct of the travelers. They were not without cause for fear for themselves, for it must have been generally known that they carried a large amount of treasure with them, and the country through which they must pass was infested with robbers who might pounce upon them at any time and carry off their treasure, which consisted of large supplies of wheat, wine and oil besides the gold and silver.

"In All Thy Ways Acknowledge Him"

The beginning of the journey with fasting and prayer gives us an insight into Era's power and efficiency. "God went with him" as he walked with God, he sought to know and to do the Divine will. Surely it is vain that any would attempt to serve the Lord and yet not to love Him, and before Him and to make request for His blessing and guidance. We submit that fasting and prayer and earnest effort to know and to do the Divine will are far more efficacious for good than are large donations of money. Perhaps there has been too great a reliance on the part of many to attend to the matter of religious work at home and abroad, save along financial lines, forgetful, in part at least, that labor is vain unless the Lord grant His blessing.

The fact that notwithstanding our wonderful financial efforts during the past century there are today twice

**PEOPLE BATTLE TO BEAT**

That the citizens of Twin Falls county have been so long in the courts, who look upon the business in connection with the construction of the building.

"It has been my pleasure to be present at the dedication of the new court house in this city, and I take this opportunity of saying that in my judgment it is by far the finest structure of its kind to be found in the state of Idaho."

"The citizens of this county have furnished a splendid example to the people of the older and earlier settled counties of the state."

Doesn't Our Court House.

"I am a resident of Idaho county, the oldest county of the state, and by the way, I may add, the largest county in area, not only in Idaho, but in the United States. It is a county of great wealth, and yet, I regret to say, it does not own a court house. It is true of many of the older counties. It speaks well for the industry and public interests of this, almost the newest community in the state, that they have seen fit to tax themselves for a purpose so worthy and patriotic."

"I would add that it is this kind of men and women who are rapidly populating the state of Idaho and increasing our greatness as a commonwealth."

**A BOLD STEP**

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret medicinal compounds, Dr. R. W. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so his published broad-cast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines.

**This Dr. Pierce has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits and placed them in a class all by themselves by making them remedies of known composition. By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.**

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's Favorite Prescription. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. W. Pierce, Buffalo, N. Y., and requesting the same.

From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, overworked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their women. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

**The Way of Transgressors.**

Era and his party reached Jerusalem in safety after a journey of eighty-four miles. The exact distance can be covered in less than three days with our modern conveniences, which surely seem to be precursors of the glorious Messianic Kingdom, the wondrous prosperity of which has so long been foretold.

Era has been censured as narrow and cruel because of the reforms at Jerusalem which he is seeking to lead and advise. The Jews who first returned from Babylon were full of zeal for the Divine Law, and refused to intermarry or to have social dealings with the heathen neighbors; but as their prosperity lagged their zeal slackened. Carelessness and irreligion came in. Hence Era found that many Jews were intermarrying with their neighbors, and that a condition of things prevailed which if continued would mean the annihilation of the nation which God had given the promise of national continuity, and the promise that ultimately He would use them as a nation for the sending out of His seed, and the which He has promised shall yet bless all the families of the earth.

A general assembly or convocation of Israelites was called for and held to consider this matter of mixed marriages and the requirements of the Law, and any failing to be represented were notified that they would be in danger of being cut off from the congregation, as aliens. It was a time of weeping and sorrow and distress amongst the people as they realized that conformity to the Law would mean the breaking of family ties. The Divine Law had been broken and now the penalty was to be felt. The way of the transgressors was hard.

This requirement of the Law can only be understood by those who realize that Israel was under a special Covenant with God by the compact at Mt. Sinai, and that the nation was subject to every feature of that Law. No such law is or ever has been put upon other nations nor upon Christians, who are not under the Law but under Grace. We must not, however, object to the Jew's being faithful to the Covenant for that Law Covenant was with him, and he was to keep it; and it will remain until it shall be superseded by the New Law Covenant, referred to in Jeremiah xxxii, 31. The great prophet Isaiah says that God will be the Mediator of that New Covenant, and its sealing will be affected by the blood of the "better sacrifice of this Gospel Age."

To the Christian the next thing corresponding to this Law is the Apostolic injunction that the consecrated follow to avoid all intermarry with the world, but "only in the Lord" (II Corinthians vi, 14; I Corinthians vi, 39). There is surely Divine wisdom in this injunction, yet it is not a law, and Christians who have married unconsecrated persons are not to leave them, but to fulfill their marriage covenant.—I Corinthians vii, 14.

**Malthoid Roofing**

Most roofing guarantees are a joke. Experience teaches the longer a roofing is guaranteed to last, the poorer it is. Manufacturers inexperienced in making roofings—without knowledge as to their dependability—without responsibility as to their own financial standing, will very often guarantee their roofing for any number of years simply to get the order.

The roofing generally fails and so does the firm that makes it and they never live to make good their guarantee.

Malthoid Roofing is made to make good and while its manufacturers guarantee it, their guarantee is unnecessary because the roofing in itself is sufficient to do all that is claimed for it.

For twenty-six years, the makers of Malthoid Roofing have made and guaranteed their roofing and not one single purchaser can ever say that this Company has failed to make good a guarantee.

You can depend upon the responsibility of the makers of Malthoid Roofing, and you will never have to bother about guarantees if you use Malthoid Roofing.

**A PECULIAR SITUATION**  
 A peculiar business situation developed in Twin Falls last week as a result of the efforts of a young man who came to town, solicited and secured a quantity of advertising from local business men and then, all according to contract, approached a local newspaper with a view to purchasing in its columns the necessary space to accommodate the advertisements he had secured from the business men at prices two and three times as high as the paper itself would have charged him.

The stranger presented his proposition, the business men fell for it. The stranger would have pocketed the difference between the price he had obtained from the business man and the amount he paid the paper for the space he needed and everything had fair to go as merrily as the proverbial marriage bell.

But it didn't. The Manufacturers and Merchants' association wouldn't let it. This is an association supported by the business men to censor on all untried advertising schemes. As a result of this censorship, the plans of the young solicitor went all aglee, and the entire deal went through, but just think what might have happened if the business men had been utterly without protection. They didn't see that they were agreeing to pay three prices for identically the same advertising they could have obtained collectively or individually at space rates from the newspapers themselves. Somebody had to tell them.

When we tell you that "Arrow" Flour will make better bread than the brands of flour being shipped into this locality by outside mills. We believe it will. And after a fair trial, if this flour does not give you satisfactory results, you can get your money back—yes, every cent of it. The grocer who sells you "Arrow" Flour will guarantee every sack. We contract all our grain from home growers, and our mill merits the support of home trade. Why not buy a HOME product when you get as good or better article?
