"Such stuff as dreams are made of—" lard-cooked food. No wonder Willie has the nightmare—even the stomach of a grown-up will occasionally rebel at the havoc worked by lard-made indigestion.

Lard is made from hog fat. It is not always digestible, even at its best. Why then take chances with lard or imitations of Cottolene?

Cottolene contains not an ounce of hog-fat. It is a vegetable product—made from the choicest cotton oil, refined by our exclusive process, packed in a cleanly way in patent, air-tight top pails, and protected from all dirt, dust and contamination.

If you want purer, more healthful food, and food which will not disturb you after you have eaten it, be sure that it is cooked in Cottolene.

GATES BROTHERS SECURE BURL BID

TWIN FALLS ARCHITECTS WILL PLAN NEW SCHOOL.

Building—Costing—\$45,000. Will Be Among Finest in the State When Completed—Complete Gymnasium to Be Installed.

The firm of Gates Brothers, architects of this city, are the successful bidders for the new school building for the town of Burl. The securing of this bid speaks highly for the local firm in view of the fact that practically all architects of the state were their competitors.

A full supply always on hand at the Twin Falls News office.

It will be one of the finest in the state. It is to be first-class in every respect and will be combined for both grade and high school purposes. It will be constructed of brick with stone trimmings and will comprise two stories and a complete basement. A gymnasium, equipped with shower baths and lockers, will be installed in the basement, and an assembly room, intended principally for study purposes, to be with a reference library, will be finished complete on the second floor.

The total cost of the construction of the building will be between \$45,000 and \$50,000. The remainder of the \$50,000 bonds, voted upon recently, will be expended upon the grounds and for equipment. Contracts for the erection of the building will be let in the near future.

Of Interest to Every New-York Life Policy-Holder and all Prospects for Insurance

Chief Examiner Nelson B. Hadley, New York State Insurance Department, closes the report of a long and searching examination of the New-York Life Insurance Company in the following language:

"CONCLUSION.

"The final results of this examination show that the work of the Company is done efficiently and economically; its claims paid promptly; its policy-holders are treated fairly; its dividends are apportioned and paid without discrimination; and that the Company complies with the requirements of the law and the rulings of the supervising authorities in both the spirit and the letter."

The New-York Life Insurance Company is a PURELY MUTUAL ORGANIZATION managed by trustees selected by the policy-holders.

There is not a dollar of capital stock; there are therefore no stockholders to share the profits of the business.

"For in that He Himself hath suffered, being tempted, He is able to succor them that are tempted."—Hebrews 4:15.

Our study for today is a most interesting one. It points us to the time when Jesus reached the age of manhood. He was not a child, but a man, with an open spot to God as the world's Saviour. He was not a child, but a man, with an open spot to God as the world's Saviour. He was not a child, but a man, with an open spot to God as the world's Saviour.

There too He became the antitype of the Passover Lamb, the antitype of the Atonement Day sacrifice. There He gave up His life to the doing of the Father's will. There He was crucified for us. There He was crucified for us. There He was crucified for us.

PEST HOUSE INSTEAD OF JAIL

Sam Lynch, Confessed Bootlegger, Suffers With Small Pox on Top of Fins.

What was a county jail loss was a pest house gain last Monday morning when Sam Lynch, of Milner, was taken to the latter institution following the conviction of Lynch for bootlegging.

Lynch was sentenced to thirty days in the county jail by the court after being admitted to the jail by a physician who pronounced him a smallpox sufferer and ordered his confinement in the pest house.

Smallpox charges of illegal liquor selling were preferred against George W. P. Barry, both of Twin Falls.

BRYAN RECEPTION PLANS SHATTERED

PEERLESS LEADER WILL HAVE SHORT STAY HERE.

A Short Address Will Be Made by the Candidate Upon His Arrival, Following Which He Will Leave for the North Side.

Owing to pressing business engagements, William Jennings Bryan will not be able to accept the reception planned for him in this city on next Tuesday, nor to receive the full course of hospitality that had been arranged for him by the committee appointed at the meeting of the Jefferson club on last Friday evening.

A telegram was received by Senator Hornbrook Tuesday morning from Mr. Bryan's brother stating that the Colonel would arrive here on the afternoon train and that it would be necessary for him to get away before his ranch near Jerome and return, if possible, in time to take the Oregon train for the east.

Should the weather conditions be unfavorable, it is probable that the school audience will be procured for the meeting and address.

It had been planned that a large number of prominent Democrats from the county would be present at the banquet to be given next Tuesday evening, and that the occasion would be a gala one in the county for democracy.

"PRIZE-WINNING" RECIPE FOR RAISIN BREAD.

Soak one yeast cake in 1 1/2 cups of potato water; mix in enough flour to make a stiff batter; beat five minutes. Let stand over night. In the morning add two cups sweet milk, into which put one rounded tablespoon coltsfoot. 1 tablespoon salt, 8 tablespoons sugar. When milk is lukewarm mix with the yeast; add enough flour to make a stiff batter; beat about ten minutes; let rise. When sufficiently raised add two cups seeded or seedless raisins; mix; add more flour and knead until dough is smooth; roll into loaves. Bake one hour and twelve on top.

This recipe was the grand prize in the California Raisin Growers' bread contest. The use of Coltsfoot as shortening is significant.

MRS. PUCKETT DIED.

Successor After a Lingering Illness of Four Years.

Mrs. W. T. Puckett, 63 years of age, died at her home two miles northwest of the city Sunday morning at 6:45 o'clock. Her death was the result of a complication of diseases, followed an illness of two years. Her condition had been critical for the past four weeks.

Mrs. Puckett was born in Knapville, Iowa. With her family she had resided on the Twin Falls tract for the past four years. Besides her husband, Mrs. Puckett is survived by three sons and six daughters. She had been a member of the Methodist church for a number of years.

Funeral services were held from Walker's undertaking parlors Tuesday afternoon at 2 o'clock with the Rev. Mr. Parker and the Rev. Mr. Woodhull officiating. Interment was made in the Twin Falls cemetery.

MINERALS IN THE HUMAN BODY.

The human body contains, among other constituents, about two pounds of phosphorus, which is essential to the health of the bones and the vigor of the brain. This phosphorus, if extracted and put to another use, would make up about 4,000 packages of friction matches.

Besides phosphorus, the body contains a few ounces of sodium and half an ounce of potassium. The quantity of the latter would be sufficient for many experiments in a class in chemistry.

In addition to sodium and potassium there are a few grains of magnesium, enough to make the "silver rain" for a family's stock of rockets on a Fourth of July evening or to create a brilliant light visible at a considerable distance. -Harp's Weekly.

DYQERT-FELT WEDDING.

Miss Rosa Dyqert and Earl Felt were married at the home of the bride's parents on Blue Lake boulevard last Saturday evening by the Rev. John Gourley, D. D. The bridegroom is a member of the firm of Atwood, Felt, and with Mrs. Felt will reside in this city.

ALLSHIE BOOMED FOR GOVERNOR

(Continued from page 1)

this year in order to swing sufficient support in the south.

Mr. Haines has openly announced his candidacy; he has opened headquarters in this city, and it is said that he has won over to his cause a large number of the voters of the state. Both of these men must be reckoned with, whether Judge Allshie runs or not.

HAIN ON LIT.

Mr. Hain of Twin Falls is still under the impression that a strong compromise candidate, so far as surface indications go there is no active work being done for him in the capital, but he says that he had occasion to recall the old saying that "still water runs deep."

Fred W. Gooding seems to be one of it altogether and it is taken for granted that he has started his active participation in politics in order that his [brother] former Governor—Frank H. Gooding, may have a better field. It is the prevailing opinion around the capital that former Governor Gooding is planning to succeed Senator Heyburn in the United States senate.

New Congress Timber.

One new element of importance has been thrown into the congressional situation by the announcement of the candidacy of Charles W. Beale of Wallace. Mr. Beale is a lawyer, a public speaker of unusual force and a Republican known especially well in all parts of the north. He is a firm supporter of President Taft and his policies and for this reason will be able to raise a distinct issue with Congressman French, who has been inclined to side with the Progressives. His votes with the Democrats on a number of the tariff issues has aroused the ire of the woolmen and the mine owners especially. It is thought by some that he will have trouble in securing a nomination this year. By others the opinion is held that he will display his political ability to just as good advantage this year as he has in the past.

It seems to be the opinion that Mr. Beale is brought forward at this time for the purpose of defeating French; that he cannot be a candidate at the expense of the south; that he must get to Washington by defeating French if he gets there at all.

In the south there is little change in the situation as it relates to congressional candidates. The alliance of James H. Brady adds an element of uncertainty. Close friends of Mr. Brady's assert that he will not permit the use of his name, but the purchase of the Mountainhome irrigation project will make it necessary for him to cut out politics and devote all his time to business affairs. Other friends are just as positive in saying that he will accept the nomination if tendered, so that you see Mr. Brady says nothing himself, if he finally decides to keep out it is generally conceded that the nomination from the southern district will go to Addison T. Smith of Twin Falls. Col. Hamer still balances on the brink afraid to take the dive. Ern A. Burrell has purchased a business in Maryland and will look back there from Weiser. He has given it out that he is out of politics for the present.

BETTER OPTICAL SERVICE

By Dr. Robert A. Parrott, Optician.

In every trade, profession or branch of work there are found a few men who, from special fitness or education, or both, are better prepared to serve you in their line than the multitude of others in the same field. Since optical requires special ability in both professional and mechanical work, men who are fitted to do it equally well are scarce. Therefore you cannot be too particular about the selection of the man in whom you invest your eyes. The professional work that is amply and measuring of your eye defects, must be skillfully and correctly done. The mechanical part—making and adjustment of your glasses, is no less important.

Every phase of optical work is done here in the most up-to-date manner. From the first slip in the examination to the final adjusting of the frame or mounting not a single thing is overlooked or neglected. The work is done myself, and having had such fine success with the most difficult, neglected cases, I do not hesitate to say that I can give you just what you need.

A visit to my office will incur no obligation.

SIGNING WITH A CROSS.

Persons who cannot write their names are about to get a substitute sign of the cross (X). Adversely kings and nobles used the same sign, but not ignorantly; it was used by those who could write as well as by those who could not. As a symbol that the person making it pledged himself by his Christian faith to the truth of the matter to which he affixed the cross. Hence, although people now write or subscribe their names, they are still said to sign.

HORTICULTURAL LAW WILL BE ENFORCED

INSPECTORS ARE EXAMINING TREES FOR INFECTION.

Owners of Orchards Will Be Notified of Presence of Pests Dangerous to the Industry With Orders for Their Removal.

Since the first of February the State Horticultural Department has been throughout the whole state inspecting orchards and trees, and where infestation is found, the owner, or persons in charge, are being notified to eradicate the same. The work is being done at an early date this year and the entire state will be covered. All parties will be notified in writing if any infection is found upon their trees.

This work is being done by the deputies in each of the inspection districts of the state. The department finds that most of the people are willing and glad to comply with the law which requires them to eradicate pests and diseases found upon their trees. At this time the deputy inspectors are serving written notices, giving the parties where infection is found, ample time in which to have their trees sprayed, the time limit being from thirty to sixty days, according to the size and condition of the orchard.

Notice has been given by the department that there will only be one service served upon each party, and at the end of the limit of the notice, if the time the deputy inspector will re-visit the district and see if the same has been complied with, and if the same has not been complied with, the owner or person in charge will be subject to arrest and fine for non-compliance. While the department does not wish to have any one in the enforcement of the horticultural law, the law which requires the different insect pests to be eradicated will be enforced.

NEW POTATO FOOD IS PLANNED

Local Men Are Interested in the Preparation of an Appetizing Breakfast Dish.

The fame of the Idaho potato is soon to become world wide. German fried, French fried, baked or hashed, brown a common dish with all potatoes. But through a new preparation, the Idaho tuber is to be converted into "potato meal" and will take its place among the widely used breakfast foods. It will be "poor in a bowl," and

Experiment with potato meal have been conducted by scientists and the results as a nutritious food have been established. It is to be prepared by a special process, and will take its place among the widely used breakfast foods.

It is expected that the manufacture of the new meal will begin early this spring at a mill to be operated at Jerome. The stock of the company is being taken up by Twin Falls and North Side men. Under operation the firm will be known as the American Cereal Company, L. C. The manager of Jerome will superintend the manufacture of the commodity, and W. J. Dodge, also of Jerome, will have as secretary of the company.

LAND BOARD CHANGES RULES

Three Years Now Allowed for Final Proof of Residence on Salmon Tract.

According to advice received here from B. P. Shawhan, Carey Act commissioner at Boise, the state land department has recent action, has changed much of the hardships and inconveniences heretofore experienced by the holders on the Salmon River tract.

Under the former rule proof of residence was required to be established within six months after the delivery of the provisions of the new law. Now the provisions now has three years within which to establish his residence. The conditions attached to the provisions are, however, that one-third of the land must be cultivated during the first year, one-fourth during the second year, and that final proof be established during the third year.

STATE AGRONOMISTS TO MEET

Much of Interest Will Be Presented to Association at the Falls, March 1 and 2.

The seventh annual meeting of the Idaho State Agronomy Association will be held in Idaho Falls, Idaho, on Friday and Saturday, March 1st and 2d. This association is state wide in its scope and has for its object the betterment of pure seeds and the betterment of soil cultural conditions of both irrigated and drained agriculture.

The speakers for the session will represent large members of the state agricultural college and commercial institute specialists. The range of discussion will include the following subjects: Tobacco Growing; Spraying Potatoes; Growing Alfalfa Seed; Dry and Irrigated Land; Manipulating Land; When and What to Fertilize; Pure Seed Laws of Heredity and Seed Selection; Treatment of Field Seeds; The Duty of Water in Idaho; Pure Potatoes in Farm Management; Pure Growers; Crop Rotations; Growing Cereals in Idaho; and The Contribution of Pure Seed. Production in Idaho.

While these subjects will occupy the main portion of the session's attention, there will be ample opportunity to discuss local and local topics. These meetings are for the public and the farmers in particular. There is no admission fee.

WEEKLY LIVE STOCK LETTER

Kansas City Stock Yards, Feb. 16-20, 1912. Received here the week, 29,000; last week, 28,000; same week last year, 39,000. Beef cattle sold a little lower Tuesday, but all gains have been made on other days, and the close of the week is a little stronger than close of last week. Bulls are an exception, selling 25c to 50c lower, and steers many local ones a quarter less. Prime steers sold at \$7.75 to \$8.10 during the week, and middle-class fed steers from \$6 to \$7.25; fed quarters this steers at \$4.75 to \$5.00. Colorado steers from the Arkansas valley were here Monday, and received a bid of \$7.20. He sent them to St. Louis, where they sold during the week at \$7.25, which was not enough of an advance to pay shipping expenses. Stockers and feeders sold firm, but buyers have not been active, and trade has been dull since the middle of the week. Feeders are a quarter lower, and stock steers also some lower for the week. Dealers believe stock cattle will be scarce and high in the spring, when grass gets nearer; but buyers are holding back because of the scarcity of roughers with which to carry the cattle along till grass. One buyer here this week offered \$10.00 for a yearling, and he would not buy any stock cattle for a month, not fearing any advance in that time, and willing to let the other buyers get the start in the mounting. Buyers have not been able to get enough good to choice steers here this week to fill orders.

Hogs received here this week, 74,200; last week, 60,400; same week last year, 67,300. The revival of hog shipping this week gave buyers the advantage. Local hogs sold at \$2.00, lowered 10c to 12c for the week, including a market called steady to 5c lower today. Top today is \$2.35, bulk of sales \$2.00 to \$2.25, and at \$2.50. Hog raisers complain that present prices do not pay them, corn being 10c high. The theory of long periods of pork produced from one hunk of corn, even if it worked in the winter time, would mean a loss at present prices of corn and hogs.

Sheep received here this week, 41,400; last week 45,000; same week last year, 36,800. The market has been mean and drags all week, and local complaints are heard from feeders. A sign of strength has appeared yesterday and today, and some hope is entertained. Local sheep will be better next week. Top lambs sold today at \$3.30, yearlings worth up to \$3.50, wethers \$4.65, ewes \$3.90, feeding lambs \$4.25.

MISSOURI SOLID FOR CLARK

Delegation to National Convention Instructed Equally for Champ Clark for President.

Joplin, Mo., Feb. 20.—After an all afternoon fight on the floor of the Missouri senate, by the effort of David A. Ball of Bowling Green...

The platform says in part: The history of the Republican party is a tale of broken promises and betrayal of trust.

Overthrow of Cannonism. The Democratic party, under the splendid leadership of Champ Clark, overthrew Cannonism and restored the representative government of the popular branch of congress.

the aid of insurgent votes. "In response to the demands of monopolies and great protected industries, President Taft vetoed all these measures."

REASONABLE WORKING. Mollere did while performing a part in one of his own plays. "The Archbishop of Paris would not allow his body to be inhumed in consecrated ground."

ORIGINAL MUCK-RAKE. These would have been no civilization with him, but he was obstinate and kicked at eating his steak raw and found a way of making it from a flint spark.

EARTH'S CORE, IRON OR STEEL. At a meeting of the Selsmological association at The Hague, Professor Wolpert asserted that the interior of the earth consists of a central core of iron or steel.

WOMAN'S FOOT GROWING BIGGER. The manufacturers claim that the American woman's foot is growing larger. The number two shoe is almost obsolete, they say, and sizes four and five are much commoner than three.

CRACKER LUNCHES. New York city alone has nearly 700,000 children attending the public schools. What a splendid opportunity to provide this vast army of healthy youngsters with a wholesome and appetizing cracker lunch.

HONOR WOMAN'S MEMORY. One woman of Poland has just celebrated the semi-centennial of Pauline Ksiazulka, who started the woman's rights movement in that country.

CHILDREN AND THE STAGE. Dianche Hates, the actress says that if one must choose between sending a child to the factory or the stage, choose the stage by all means.

PAPER DOLLAR WON'T DO. "How in this world New York babies can eat oatmeal doesn't seem to me a silver dollar to cut them on is more than I can understand."

BOUND TO HAVE A RIDE. With a party of Chicago friends, George Ade was motoring from his country home, Hazelton, to Kenilworth, Indiana, and while passing through a dense woods the party of travelers was held up by a lone woman.

REMEDY FOR CRAMP. A sufferer from cramp during a horse race writes that he found a remedy which he never became cramped again.

TAKE TOO MUCH ROOM. The promise that the new suit was as big as the old one, in connection with some physiological considerations, induced the writer to put into practice the following plan.

WEDDING CAKE PAGODA. At Mingon, on the right bank of the Irrawaddy river, about five miles from Mandalay, in Burma, there stands a peculiar pagoda known as the Wedding Cake Pagoda.

RELIGIOUS-NUT CRACKING. The Sunday before Michaelmas day saw, until recent times, a curious custom at Kingston-on-Thames.
