FINAL GAMES DECIDE THE CHAMPIONSHIPS

BOYS' AND GIRLS' TEAMS BATTLE FOR FIRST PLACES

Freshman Boys' and Girls' Finish Season as Leaders—Indoor Baseball Match Is Starter for Run of the Great American Game.

The basketball season of 1911-12 in Twin Falls high school was brought to a close last Friday with the occurrence of two of the hardest fought games ever played in the school. The boys' game was for the championship of the region and was played by the Freshmen and Junior classes. The Freshmen came off victorious, winning by the score of 5 to 3.

The game was the fiercest ever pulled off in the local gym and was well worth double the admission charged. The Juniors had decisively defeated the Sophomores and the Freshmen had effectively cleaned the Seniors. Those who had seen these preliminary games realized that the final one would be close, to any the least.

The Juniors, who had won the football championship last fall, had hoped to make a clean sweep, and came soon doing it that the Freshmen are still hoping they won't wake up and find it has been a dream.

The teams were as evenly matched as possible, and from the start of the game it was evident that the progressions would not be of the parlor variety. Fouls were numerous on both sides, and it was owing to the success of the Freshmen in getting free throws that the game resulted in a victory for them. The Juniors excelled their opponents, notwithstanding the result. All the Junior scores were made on clean field goals, while the Freshmen made five out of nine points on free throws, five points being scored in this way, scoring all the points made.

The score: Juniors (6)—Hoag and Simons, forwards; Bailey, center; Martin and Hatch, guards.

Freshmen (9)—Howberry and Whitson, forwards; Rogers, center; Starr, McMaster and Potter, guards. Field goals—Bailey 4, Whitson 2. Free throws—Howberry 2, Whitson 3.

Time of halves—20 minutes. Referee—Faulkner.

Girls' Game

The girls' game was by no means a fast one, but it was just as satisfactory as the other from a Freshman's standpoint. The score was 11 to 6 in favor of the Freshmen. Lucile Cameron showed that she could slide as far forward as well as center, as she made 8 out of 11 points. As in the boys' game, the Freshmen really won on the runs of their center. Lucile Cameron, though, five points being scored in this way. Jessie Allberry, playing forward for the Sophomores, made all the scores for her team.

The score: Sophomores (6)—Thomas and Allberry, forwards; Costello, center; Spray and Tarr, guards. Freshmen (11)—Beauchamp and Cameron, forwards; Wall, center; Williams, Arant and Berry, guards. Field goals: Allberry 3, Beauchamp 1, Cameron 2. Free throws—Beauchamp 1, Cameron 4. Time of halves—20 minutes. Referee—Faulkner.

Indoor Baseball

The class games in indoor baseball were started Monday evening when the Juniors met the Freshmen and defeated them by a score of 5 to 2. The game wasn't much from a players standpoint, but it was great fun while it lasted. Neither team knew anything about the game until after school and in fact there were no teams. No one knew what baseball is or how to play until he was called to bat. Most of the Freshmen team had come to a basketball game and they presented a sad front when they took the field. The game, however, was close until the fifth and last inning, when the Juniors rallied and won easily.

The score: Freshmen..... 2 0 0 0 0 0 2 Juniors..... 1 0 2 0 3 6 Batteries—Rogers and Stettler; Whitson and Bowler. Umpire—Jones.

Seniors and Sophomores Battle

The Seniors and Sophomores battled the second of the class games for the championship in indoor baseball Wednesday evening in the high school gymnasium, the Sophs winning, 10 to 3. The teams were poorly organized and played together poorly, but the game was tight after the second inning. In the first inning the Sophomores scored four times before the Seniors realized that the game was started. In the second round the score was tied and after this neither team was able to gain a lead and hold it. The play consisted mostly of passed balls and error, hits being scarce articles. The preliminary games are supposed to go five innings, but this game went overtime two rounds. The Seniors deserved to win and came close to going out many times, only to fall at the critical moment.

The score: Seniors..... 4 0 4 0 1 1 10 Sophomores..... 0 2 1 1 1 0 5 Batteries—Blades, Whitson and Leaton; Mickelwall, MacCallister and Yaverave. Umpire—Faulkner.

In the inter-class contests the Junior class leads by a slight margin. The Freshmen are second, Sophomores third and Seniors fourth. One point is given for putting representatives in the field, five for winning a preliminary and four for winning a final.

Following is the record made by the different classes and the points made: Football—Juniors 10, Sophomores 6, Seniors 3, Freshmen 1.

Boys' basketball—Freshmen 10, Juniors 6, Seniors 1, Sophomores 1. Girls' basketball—Freshmen 10, Sophomores 5, Seniors 1, Juniors 1. Boys' indoor baseball—Juniors 6,

WANT FARMERS TO RAISE CANTALOUPE

CHICAGO FIRM DESIRES 100 ACRES EXPERIMENT CROP.

Fruit House Defers Erecting Loading Sheds Until Melon Cultivation is Assured as a Market Mover—Railroad Refuses to Build Sheds.

Word was received by Secretary Spangler of the Commercial club last Saturday from the J. Friedman Fruit company of Chicago stating that that company desired the closing of contracts with farmers to grow cantaloupe for the cultivation of one hundred acres of cantaloupe. It is possible that steps will be taken in the near future for the closing of the contracts. The word received last Saturday is a part of an exchange of correspondence between Secretary Spangler and the Chicago house in which it had been explained to Mr. Spangler that the house was desirous of extensive cantaloupe cultivation on this tract for the profitable nature of the cantaloupe it is necessary to provide for their protection at the loading time.

With cantaloupe culture on this tract is assured as to good quality and able to produce good results on eastern markets, the Friedman company desires in the erecting of loading sheds at the company's expense. For this reason an experimental cultivation is desired by the company, which company will furnish a man at shipping time to superintend the packing and shipping of the cantaloupe.

At the time the contracts were closed for the 600 acres of peas a large number of Twin Falls farmers were disappointed in not securing a contract, and expressed themselves as willing to enter a similar contract for cantaloupe culture. With the appointing of an agent for the Chicago house for that purpose no difficulty should be experienced in securing a sufficient amount of acreage for experimental purposes.

LOCAL MARKET GOOD.

F. E. Drake of Piler brought a load of Duroc-Jersey hogs to Twin Falls the early part of the week and stated that he found a ready market here at prices equal to those of the Portland market, less the freight rates.

"My little son had a very severe cold, I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Hicks, 29 Dowling Street, Sydney, Australia. This remedy is sold by all druggists.

Sophomores 6, Seniors 1, Freshmen 1. Totals—Juniors 23, Freshmen 22, Sophomores 19, Seniors 4.

BIG CLOSING OUT

DAIRY SALE

THURSDAY, MAR. 28

BEGINNING AT TEN O'CLOCK SHARP

Having decided to quit the dairy business, I will, on the above date, 2 miles west of the southwest end of Shoshone street, Twin Falls, Idaho, sell to the highest and best bidder, my entire DAIRY HERD and FIXTURES.

85 Head of First Class Dairy Cows

Consisting of Shorthorn, Holstein, Jersey and Guernsey strains. This has undoubtedly been one of the best paying dairy herds in the Pacific Northwest. Having been personally selected by me from time to time I have never kept an unsatisfactory cow in my herd. The cows have been tested as a herd a great many times and have always tested 4 per cent and better, and no cow in the herd is over 8 years old and down to two years. All of the 85 head are giving milk—some fresh, the balance fresh soon. I have two first class Holstein bulls with my cows all of the time. Also

25 Head of Heifers

From One Year to Twenty-two Months Old

That I have selected to keep up my dairy—bulls have been running with these heifers and some will be fresh by day of sale. I am certain that these heifers cannot fail to please a judge of dairy stock. The dairy will be open for inspection any day before the sale. Come and see the cows milked, but don't ask to buy them before March 28, at 10 a. m. sharp.

Two Milk Wagons

DeLaval Separator, 900 lbs. capacity. 1500 Milk Bottles. 50 Milk Cans, from 1 to 10 gallons. Bottle Filler, Arator, 25 Bottle Trays.

Free Lunch All Day

TERMS—Sums of \$10.00 and under, cash; over \$10.00, bankable note due October 1, 1912, with 8 per cent interest if paid when due; if not so paid to draw 12 per cent interest from date. Five per cent discount for cash on sums over \$10.00. Terms of sale must be complied with before property is removed.

WOULD PUT STATE OFFICIALS TO WORK ON COUNTY ROAD

M. J. Sweeley Submits Original Idea to Help Good Cause Along

Twin Falls, Idaho, March 8, 1912.
Hon. W. L. Gifford,
Secretary of State,
Boise, Idaho.

An organization of the enterprising and energetic citizens of this county has been perfected with the object of building, in a single day, 26 miles of good road, extending from Hansen to Full. An executive committee has been selected of which I am secretary, and under the direction of these men a day will be dedicated to the construction of a road under such natural conditions as satisfactory for the doing of the job. It is expected that the farmers living along or near the proposed route, and other persons interested in good roads, will lend their cheerful assistance so that there will be an abundance of teams and machinery. There will, however, be considerable work to be done by the individual with the aid of a tractor. We feel that if all the candidates and state officers were to attend and put in the day the work would be an undoubted success.

The secretary of the committee expects to do actual manual labor in the promotion of the enterprise, and it has been suggested that this of itself will be enough of an attraction to induce people to come a long distance.

On behalf of the committee you are cordially invited to spend the day with us on the road. Your presence and assistance will be most appreciated for your own and there is no assurance that you will be well cared for while you are here. We are sure that you will accept this invitation now so that you may arrange your time accordingly, and send your reply in readiness to come on short notice, which notice will be sent you of the exact time as soon as the day is fixed.

Yours very truly,
M. J. SWEELY, Secretary.

Boise, Idaho, March 13, 1912.
Hon. W. L. Gifford,
Secretary of State,
Twin Falls, Idaho,
My Dear Mr. Sweeley:

I am in receipt of yours of March 8th, stating that an organization of the energetic citizens of your community had been perfected with the object of building in one day twenty-six miles of good road extending from Hansen to Full, and inviting candidates for state office to attend and put in a day's work on the road.

If my official duties will permit, I will endeavor to do so. I will be present on that day and perform such labor as may be assigned me by that committee.

There is only one condition that I would suggest in the matter of candidates, that is, that they not be permitted to hire substitutes and perform the day's work on the road.

I think this a splendid idea and one that could be successfully worked in any community in the state. We certainly need good roads and this method has been successfully used in other communities and I do not see why it could not be made a success here.

I have been wondering whether this segregation of state officers would be placed in one gang or group. If so, I would suggest that a certain distance or length of road be allotted them to complete and they be made to stay on the job until their allotment is finished. As to the other matter, I can only perform. I can say that I can and have performed all of the various kinds of work necessary to build a good road and will accept any assignment given me by those in charge.

Would appreciate it if you could give me several days' notice in advance, that I might arrange my affairs to be present.

Very truly yours,
W. L. GIFFORD,
Secretary of State.

LAWS FOR BEE KEEPERS

State Inspector Given Much Authority in Enforcing Proper Culture.

For the benefit of the farmers, and all others on the tract who are engaged in bee keeping, the following sections from the state laws relating to that industry, and to the duties and powers of the state bee inspector, are stated:

State Bee Inspector: Duties.

Sec. 1329. The state horticultural inspector shall be the official state bee inspector, whose duties it shall be either by himself or duly qualified and competent deputies, to examine bees at the state and to treat, comb and analyze the same, and to destroy by burning at least two feet under ground all bees or honey fixtures found to be infected with foul brood, or other infectious or contagious disease.

Treatment of Diseased Colonies.

Sec. 1331. It shall be the duty of the state bee inspector or his deputy, upon receiving information from any source of the existence in any apiary of any kind of infectious disease, such as foul brood, or any other infectious or contagious disease of bees, to forthwith inspect each colony of bees and with his own equipment and apparatus, honey and supplies on hand, or used in connection with such apiary, or otherwise distinctly designate—each colony and apiary which he believes infected, and notify the owner, or person in charge of said bees, thereof, in writing or otherwise; and the owner of each colony of bees or the person in charge thereof, shall, within five days thereafter, practically and in good faith, apply and thereupon fully and completely destroy such diseased colonies, such treatment may have been prescribed by the inspector of bees for such cases; also immediately designate and destroy all honey and apparatus that have been used in connection with any such diseased colonies; and if that owner or the said owner of person in charge of such bees may, within the same time, practically and completely destroy such bees, his own honey, comb, honey and apparatus by fire or bury the same in the ground, with a covering of not less than two feet of earth.

Inspector to Be Notified of Foul Brood.

Sec. 1332. Every bee keeper or other person who shall be aware of the existence of foul brood, either in his own apiary or elsewhere, shall immediately notify the inspector of bees of the existence of such disease, and in default of so doing he shall be guilty of a misdemeanor and punishable by a fine not more than five dollars and costs.

Inspector May Enter Premises to Inspect.

Sec. 1333. The inspector of bees shall have the right to enter the premises of any bee keeper where bees are kept and inspect such bees and any person residing or refusing to allow such inspection by said bee inspector shall be guilty of a misdemeanor and may be taken and thereupon arrested by the said bee inspector or person deputized by him, and brought before a justice of the peace, and upon conviction shall be fined not less than ten dollars nor more than twenty-five dollars.

Penalty for Failure to Destroy Infected Hives.

Sec. 1334. If any owner or keeper of bees who shall be notified by the state bee inspector that foul brood or other infectious or contagious disease exists in any of his hives, and he fails to comply with the charge of said inspector, and shall fail to comply, within ten days from the date of receiving instructions from the bee inspector, to cure or destroy the bees or hives or their appliances, such per-

SPRING IS REALLY HERE

The Sun Has Crossed the Equator and the Weather Is Helping the Farmers.

Today is the first day of spring. It has been a long while coming for the farmers of the north, and some will have to wait a while longer for the real spring weather. Yesterday, known as the Vernal Equinox, the sun crossed the line that separates the north and from now until June 20 will travel north. According to the calendar it is now spring, no matter how much snow may be on the ground.

Prior to the recent rain, much of the tillable land in this section of the country was in working order and was broken for the coming season. Within the last few days the farmers on the tract have been able to enter their fields with the plow and they report that the land is in better shape. Song birds are arriving, and the grass has taken on a fresh green tint.

The road workers have been put to use on some of the streets and nearby country roads, and these thoroughfares have taken on a settled and passable appearance. Much work will be done in the future in the use of the weather, providing the weather continues "springing."

LEWIS HOOKER DISAPPEARS

Friends Seek Man of 59 Who Left the Johnston Ranch March 8 for Parts Unknown.

Friends of Lewis Hooker, 59 years of age, are inquiring his whereabouts. Mr. Hooker, who has been living at the P. B. Johnston ranch, one-half mile west of Twin Falls, left there on Saturday, March 8, without giving notice of his departure. From descriptions received it is believed that Mr. Hooker had gone to Flyer and that he had been treated for the Hagerman country.

A suitable reward will be given any person who, by his efforts, may lead to the locating of Mr. Hooker upon notifying A. J. Johnston, of the Johnston Rooms on Shoshone street, if it is the desire of Mr. Hooker's friends to provide him a home in the future, as has been the custom in the past.

Brooders and hovers made according to your own ideas, at the New Tin Shop, Weaver Bldg., 3d and Main E., rear of Snake River Implement Co.

Penalty for Sale of Infected Appliances.

Sec. 1335. Should any person whose bees have been destroyed or treated for foul brood sell or offer for sale any bee hives or appliances, or treatment or before being inspected by the inspector to do so, or should he expose, in any place, any such infected comb, honey, or other infected thing, or conceal the fact that disease exists among his bees, he shall be guilty of a misdemeanor and punishable by a fine of not less than ten dollars nor more than fifty dollars.

Penalty for Failure to Destroy Infected Hives.

Sec. 1334. If any owner or keeper of bees who shall be notified by the state bee inspector that foul brood or other infectious or contagious disease exists in any of his hives, and he fails to comply with the charge of said inspector, and shall fail to comply, within ten days from the date of receiving instructions from the bee inspector, to cure or destroy the bees or hives or their appliances, such per-

NO CAUSE FOR DAMAGES

Decides in Favor of Physician in \$10,000 Suit for Alleged Malpractice.

No cause for action was the verdict of the jury in the case of H. C. Parker vs. H. W. Clouchek in which \$10,000 damages were asked for alleged malpractice in the setting of fractured limbs. The case, the taking of evidence and arguments in which occupied six days, went to the jury late last Monday night and a report was made Tuesday morning in favor of the physician.

The case grew out of medical services following injuries received by the plaintiff when run over by a wagon May 31, 1909. The right thigh and bones of the left limb of the plaintiff were shattered in the accident. As claimed by the plaintiff that errors were made in the setting of the fractures which have resulted in permanent physical disability, it was alleged. The plaintiff was represented by Attorneys Hornbrook and Hornbrook, while Attorneys Bowen and Guthrie appeared for the defendant.

The Way Golden Vesta Comes to You Is Scientific and Sanitary

Golden Vesta is made of the best cream from the finest dairy herds on the Twin Falls tract, already becoming famous as a creamery country.

Golden Vesta gives you extra value for which you do not pay a cent, for it costs no more than any other standard high grade butter. Since you pay for quality, why not be sure you get it? Why not insist on Golden Vesta?

Because of this superlative goodness there is a constantly increasing sale for it. Your grocer has it.

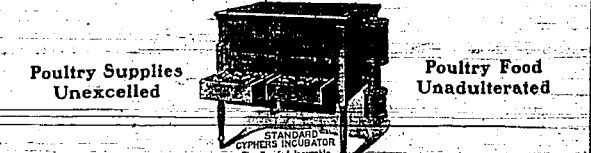

Insist on your grocer including a pound of Golden Vesta in your next order and if it does not contain more butter goodness than any other butter you have ever used, your grocer is hereby authorized to refund full purchase money.

ROCK CREEK

Rock Creek, March 29.—M. G. Robison, A. J. Fuller and Mr. Brooks came from Dry Creek on land business last Sunday.

Mr. and Mrs. A. P. Murray made a business trip to Twin Falls Monday.

A family came from Odeon last Sunday to run the Garry race, this summer.

Miss Vaughn Hromo came from Twin Falls last Friday to spend a few days with her parents.

Miss Zina Donahoe went to Twin Falls last Friday to spend Saturday and Sunday with her sister. She returned Sunday evening.

John Jones came from Goat Springs for a few days last week.

Tom Gray has been visiting friends and relatives in Hollister.

Several of the farmers are doing their plowing.

Ort and Billy Gray came from Hollister last Friday in an auto.

Ad Patterson is fixing a new fence on the Shoe Solo ranch and making a new road.

Mr. and Mrs. A. P. Murray came from Twin Falls Monday.

Mr. and Mrs. H. C. Scranton were in Twin Falls Saturday and Sunday.

Alex Gray was working at the Shoe Solo last week.

Bob Cottle and Jack Ambler came over from Rogerson Wednesday and returned Thursday.

Miss Grace Carman and father have moved into the vacant house of Lawrence Hanson.

Miss Emily Larson spent a few days at the Shoe Solo last week.

Tom and Billy Hays have rented the Norton ranch this summer.

J. E. Burke is now very ill, but is slowly improving.

Miss Cora, the school teacher, gave out his report books for this month. The children are doing nicely in the school work.

Francis Burke came from Pleasant Valley on business Saturday.

H. P. Larsen was a Kimberly visitor last Friday.

Miss Anna Larsen went to Twin Falls to spend a few days with Miss Olga Thore.

The St. Patrick entertainment at Pleasant Valley was a success. A delicious luncheon was served and some fine music was rendered, both vocal and instrumental.

Miss Fayetta Johnson returned from Washington last Saturday, where she was for some time.

Miss Dorothy Larsen is among the sick this week.

Miss Vera Daniel was over to Arden City Saturday drilling her children for an entertainment to be held the 30th of March.

Miss Jennie Patterson has been sick for some time.

Mr. George Crockett came over from Cottonwood Sunday.

There have been several loads of hay hauled from Hanson to Hollister this week.

A large party from Rock Creek attended the entertainment at Pleasant Valley Saturday night.

Miss Florence Larsen invited a few of her friends to her home St. Patrick's day.

Dr. Albee is still improving in health.

Mrs. C. Peterson and Mrs. M. Larson were the guests of Mr. and Mrs. N. Larson last Sunday.

Mr. J. J. Larson called on Mrs. C. Peterson last Sunday.

Morton Larsen and Lloyd Brown are going to give a big dance Friday night.

ARTESIAN CITY

Artesian City, March 19.—J. E. Bower was in Twin Falls visitor on Thursday.

Those from this locality who attended the public sale at Hansen last Tuesday were B. P. Hunt, W. D. and J. C. Odeon, Mr. McManis and Mr. Boyer.

Emuel Bybee has the line for the Interurban railroad run from Twin Falls through Klugeby and pushing this way.

A. L. Hammond and son arrived last week from Elgin, Ill. with a car. Mr. Hammond had in the car a fine lunch of delicacies, which were much appreciated in this locality.

H. R. Franklin sold his desert ranch last week to Mr. Simmons of Hatch, who will take possession soon. The new arrival is brother of Mrs. Odeon Stripp and comes well recommended to our community.

Mrs. Odeon Stripp's mother, Mrs. Avery, has been visiting the Strong home for several days. A surprise party in the form of a handkerchief party was given Mrs. Avery before her departure for home.

Chas. Moxley has sold his forty-acre ranch to Wm. Randall.

Mr. and Mrs. J. J. Peterson were visitors to Twin Falls Thursday.

Mr. and Mrs. D. E. Rose were shopping in Hansen Monday.

Lee has leased a large tract from J. E. Bower for this season. A son of usual proportions was born to Mr. and Mrs. A. J. Fuller on the 17th inst. Dr. D. B. Albee of Rock Creek was in attendance. All parties doing well at last reports.

SMALLPOX AT JEROME

Considerable uneasiness has been experienced and speculations raised by the residents of Jerome for the past week owing to a smallpox scare that has reached the town of ten cases. An order was issued more than a week ago by the health authorities closing the schools and churches for a period of three weeks as a precaution against the spread of the disease.

A difference of opinion was expressed by physicians as to the real nature of the epidemic, some being of the belief that it is only a mild form of smallpox, while others expressed the opinion that it is another form of disease of a less serious nature.

The first opinion seemed to prevail, however, and four patients were committed to the pest house, one of whom has already been dismissed.

It is not known definitely how the disease started. It is believed by some that a ranch hand, who was exposed to the mauls on a farm south of the city, and who went to town in the vicinity of Jerome a short time ago, carried the disease to the city. The taking of a large quantity of clothing to a church hall from a home in which the smallpox became evident the following day caused a little alarm.

With the great extent of the situation, however, it is believed that the disease is contained and that no quarantine will be necessary.

A Land Bargain.

75 acres fine land adjoining the famous Chatfield 2000-acre orchard near Price, is on offer on 5 to 20 years' time with \$1 per acre. Valued at \$1000. See J. J. Wallace, Twin Falls, B. R. No. 100.

HANSEN

Hansen, March 20.—Sturgeon McCoy sold the balance of his hay crop, amounting to 200 tons, to Wm. Martindale of Colorado.

R. W. Gager and wife and A. H. Shoonaker were passengers to Twin Falls Tuesday of last week.

Sampson Brothers shipped a car of choice alfalfa to their old home in Iowa. Some of the piles were labeled showing that the hay was grown on the great Twin Falls tract.

Mr. Prince of the Utah Sugar company was here last Wednesday looking over the best proposition.

W. H. Turner, the day foreman who looks after the Jap labor for the beet growing. The foreman has established headquarters here and moved his family to the new home.

George Harris' sale last Tuesday was well attended and prices ruled good. W. H. Turner was the clerk and Mr. Lee made the big sale. Mr. Harris will return to Chicago as soon as he is disposed of his hay.

Mrs. S. Stevens was a passenger to Twin Falls Thursday.

George Deavenport of Goldendale, Washington, has purchased the Boyd tract north of here and will ship in an engine car this week. He will also put up a new dwelling house on his new farm.

E. H. Abrecht of the Great Shoshone Twin Falls Winter Tour Co. was here last Friday in the interest of his company. He states that the company has prepared to put the Jap labor in here on short notice and that the patronage here looked very favorable to the company. The elevator company has the necessary appliances installed for using electric power and many of the buildings here are being ready for connection with the Snake river power plant. It is proposed to put in four arc lights on the subscription plan for street lighting. This is a step in the right direction and will be a valuable addition to our burg.

C. M. Olesen was delayed in getting off with his sheep last week until Friday because of an early start at home and J. A. Swanson of Twin Falls, who was here to purchase stock on the farm and leased the machinery. Mrs. Olesen started Monday for Iowa, where she will visit for a short time until Mr. Olesen makes his sheep.

The shipments from this point during the month of February amounted to 1000 tons of alfalfa, 1000 tons and 95 cars of produce. This speaks well for a small burg.

C. E. Brooks of the O. S. L. accompanied the stock special from here last Friday. Isaac Gunnert was in charge of the train.

A. K. Carlson visited here Friday from Turley.

Saturday visitors to the Hub City were as follows: Mr. and Mrs. R. M. Schaefer, Dr. J. C. Peterson, Mrs. Ramsey, Lee, Duncanson, C. E. Wolf and Frank Meyer.

During the wet weather the stock yards became very muddy from the rain. The Short Line would not permit a nuisance to remain within their jurisdiction. This week the pens were cleaned by putting in several cars of sand, which will put the pens in good condition.

N. D. Brookhiser, construction foreman of the O. S. L., is also busy with his carpenter crew adding another yard for the accommodation of the stockmen.

Since the roads have dried the hay rolls in from every quarter.

Iver Williams, representing the Frye-Bruce Stock company of Seattle, was here the first of the week purchasing beef cattle for his firm.

The bumper shipment from this place comes off today. H. T. West, former county clerk of Twin Falls county, is loading out his entire band of sheep for Chicago market. He has 21 cars of the stock aboard and they are in fine condition on the east-bound train.

Juror E. P. Hinton spent Sunday at home. He states that court is liable to continue until the end of the month.

Adam Hoch of Twin Falls was here on business the first of the week.

A. B. H. is now driving a touring car, the O. S. L. made the local agent a short call Monday. He had his private car on the east-bound train.

Mr. Recco returned Sunday from Los Angeles, where he had been marketing his sheep. His repairs good and he will load out his sheep this week for the same place.

Mrs. J. W. Frann's mother and niece, Mrs. E. E. McCubbin, Miss Lena Lambson of Hays, Wis., came Sunday for a visit with the Frann family. The sisters are on their return to their homes, where they have been spending the winter.

At the last week's meeting of the Ladies' Aid it was decided to hold a bazaar in the near future. The date will be given later.

Mrs. W. B. Robison and niece, Miss Geller, and Miss McDonald of Twin Falls, visited the Galtay family here Sunday.

Leon Redhead visited here Sunday from Hollister.

E. M. Newby and children visited Sunday at the W. C. Newby home near Kimberly.

Hill and Dimmitt of Twin Falls were here this week buying hay.

Twin Falls visitors Monday are as follows: J. M. Goodman, Mr. and Mrs. A. L. Towne, Mrs. Cal Hill and Mr. Coningham.

Herman Schaefer of Bellingham, Washington, recently shipped in an emigrant car and will locate in this city for the season.

H. J. Redhead, now of Hollister, was here for hay from his ranch Monday.

Wells Lovelace, who has been employed by H. M. Newby's restaurant, has gone to the People's Cafe at Twin Falls to work.

R. H. Taylor of Kimberly was here on business Monday.

Mrs. Rose and Mrs. J. Pearson were Twin Falls visitors last Thursday.

Dr. J. J. Taylor of Twin Falls was here looking for stock cattle Tuesday.

For sanitary reasons kitchen tables and counters should be treated with disinfectant at the New Tea Shop, Weaver Bldg., 3d and Main E., near of Snake River Implement Co.

ORANGES

SOCIETY HOSIERY

THE SILK STOCKINGS, WITH THE STYLE, WEAR AND FIT

Coles Phillips, the famous New York artist, has said woman must have most of her attention on the shoes and stockings that give her life in right.

No woman of today can afford to wear ill-fitting shoes and shoddy stockings, and no shoe, however expensive, look well over a flimsy, cheap-looking hose.

SOCIETY STOCKINGS

Are woven of heavy pure silk, are exceptionally long, with reinforced heel, sole and toe, and double knit garter top. They have all the durability of the old time hose combined with the beauty of the silk. In their wearing the comfort of care has been taken with the result that there is no unseemly bagging at the ankle or instep.

SOCIETY STOCKINGS look their part—they are fine, sleek and thoroughbred.

SOCIETY HOSIERY is not on sale at the shops, but must be purchased from us direct by mail. In this way we eliminate the dealer's profit, greatly reducing the cost to you, and also prevent the substitution of an inferior grade of hose.

These stockings positively will not run; they come in all colors and will be sent by mail to any address, all charges prepaid. If or inspection you are not satisfied you to be the sole judge your money in full with your return.

Special prices to introduce our Society Silk Hosiery good for ten days only.

KIMBERLY
 Kimberly, March 19.—Nas, L. Barnes of Hansen was in the city today on his way to his engine and put in a big day this time.
 The Pills-informs the public that a postal savings bank will soon be installed in the postoffice at this place, as many of the fourth-class offices are to be made postal banks in the coming summer.
 The largest local meeting that the Ladies' Home club have held this season for the purpose of raising money for the annual picnic was held last Thursday. Several visitors were present in addition to the regular members, there being over twenty-five attending. A well-organized program was followed, as well as furnishing information concerning household duties. The best points of interest were Fred Wilson, who was present who applied for membership and will be admitted at next meeting. After the members and guests departed for home, all saying they were glad they were members of the Pioneer club.
 W. W. Swearingen leaves this week for his old home in Nebraska, where he will spend a few weeks before going to business matters and visiting old friends and relatives.
 T. A. Antery of Hansen was here on Saturday. His car sale last Thursday was well attended and fair prices obtained for the stock and implements.
 A couple of parties were held last week, one at the creamery, and these are prospect of selling it and having it equipped for business again.
 The Silver Implement Co. has shipped in a car of vehicles and farm machinery, and will carry a full line at this place this summer. B. Williams of Alex. will have charge of the business.
 J. H. Pettijohn has sold a tract in the Albert addition to D. B. Pettijohn for \$2000.
 Mrs. Fred Keller and family expect to move to Twin Falls about the first of next month. Mr. Keller will remain in the city for a few days before starting. Their many friends are sorry to lose this family from Kimberly.
 H. W. T. Hardin and others were prospecting on the North Side Sunday.
 H. T. West expects to ship about a car of sheep to the east as early as this week. These are some that Mr. West has been feeding the past winter and will almost make a train for alone. Mr. West is one of the biggest feeders on the tract and this is a good way to market the lot. A car of alfalfa meal is being hauled at the mill here which will be taken along to feed on Spokane.
 J. H. Hallock of Spokane is here looking after his range and sheep. He reports business conditions quiet in the country.
 Henry Jones has bought a large ranch near Three Creek and also a lot of head of cattle were included in the deal. The consideration was \$36,000. Mr. Jones is one of the largest and best known cattle men in this country, having been here over thirty years. He is president of the Bank of Kimberly and also has other interests here.
 A box supper and dance will be given at the hall on the night of March 23. A short concert will also be given. Everybody invited to come and have a good time.
 The roads are looking better where the road drag has been used. Keep it.
 Hay buyers are thick and the price is gradually advancing—\$7.75 is being offered now for first-class hay in this section.
 W. C. Newberry has returned from marketing his car of hogs at Portland. All of his car topped the market except five head, and they were too heavy.

PROCLAIMS ARBOR DAY

Governor Hawley Designates April 23 as Planting Holiday for Trees in Idaho.

No more beautiful thought has been crystallized into action than the observance of a day by the people of this nation, as dedicated to the trees and birds of North America during his lifetime was the originator of Arbor Day, and through it millions of trees have been planted in this formerly treeless state, adding much to the beauty, resources and healthfulness of the commonwealth. Every year since 1872 has spread into practically every state in the Union and the beneficial assembly of the state of Idaho has authorized the various educational institutions to designate a day in the month of April as Arbor day.

At the suggestion of the state superintendent of public instruction I would recommend the adoption of April 23, 1912, as Arbor day, subject of course to the consent of the county superintendent and healthfulness of the commonwealth. Every year since 1872 has spread into practically every state in the Union and the beneficial assembly of the state of Idaho has authorized the various educational institutions to designate a day in the month of April as Arbor day.

Attest: W. L. GIFFORD, Secretary of State.

DES TO ST. ANTHONY ALONE WAS ONLY MAD INSANE

of 13, Dellington, Committed to State School, Makes Journey on His Honor.

Word was received by Judge Shields a few days ago that Oliver Van Hiper, 12 years of age, had arrived at the boys' school at St. Anthony, undisciplined, the first to be received by that institution without an official or other go on his promise to go direct to the school.
 Oliver had for some time been one of Judge Shields' juvenile charges. Charges of minor offenses, "hooking" from school and uncontrollable behavior, had been placed against him, but he has been willing to accept the assistance of the court, to effect reform on probation. His commitment to the state school is a means of last resort with Judge Shields in all similar cases of juvenile delinquency.
 Judge Shields reports favorably in the juvenile work. Scarcely a day goes by but one or more cases involving youthful offenders comes before him for adjudication. His methods of dealing with these offenders have proven so satisfactory that in only a small number of them has he found necessary to send the offenders to St. Anthony.
 Mormon Conference Rates. Via Oregon Short Line for Spring Conference tickets on sale from points north of Ogden April 23 to 6th, inclusive, limited to April 15th. See O. S. L. agents for rates and further particulars.

Of Interest to Every New-York Life Policy-Holder and all Prospects for Insurance

Chief Examiner Nelson B. Hadley, New York State Insurance Department, closes the report of a long and searching examination of the New-York Life Insurance Company in the following language:
"CONCLUSION.
 "The final results of this examination show that the work of the Company is done efficiently and economically; its claims paid promptly; its policy-holders are treated fairly; its dividends are apportioned and paid without discrimination; and that the Company complies with the requirements of the law and the rulings of the supervising authorities in both the spirit and the letter."

The New-York Life Insurance Company is a PURELY MUTUAL ORGANIZATION managed by trustees selected by the policy-holders.
 There is not a dollar of capital stock; there are therefore no stockholders to share the profits of the business.
Total Insurance in Force \$2,102,105,746
 Insuring the holders of over one million policies, who ARE the Company, who OWN the Company, and who alone receive the profits of the Company.

GIVES RELICS TO SCHOOL

Judge W. J. Smith Presents High School With Fine Nucleus for a Museum.

A gift that is highly appreciated by the Twin Falls public is the collection of fossils, containing prehistoric bones, fossils and petrifications, which have been presented to the high school by Judge W. J. Smith. These curiosities, excavated and found throughout the state and west, represent a collection of several years and an approximate value of \$2000. Each article in the collection is to be labeled with a brief history.
 The collection of Judge Smith affords an excellent nucleus for a high school museum, which it is planned to develop. Judge Smith is one of the best-known collectors of fossils and curiosities in the west, and has been the source of many valuable additions to museums throughout the country.

politics where it denotes an end. Given two or three lists of a hundred names from which the voters are supposed to make a choice for office, it follows that the choice must be but a hurried and imperfect affair. So well is this principle understood among the politicians that a weak man is frequently given a place on the ballot for election who would not have the slightest chance for office if he were to be voted for alone. The strength of the balance of the ticket carries him to victory, and in this way the voter is fooled into believing that the man elected represents the choice of the people.

Cities whose population have taken over the commission form of government are usually designated as "short ballot" cities, but the original principle was never for operation in the affairs of states and counties as well. By the use of a short ballot it is intended that the voter, having but a few names from which to make a selection, is enabled to choose those for whom he wishes to vote, and as a result those elected will go into office backed up by the individual support of all the people. Under the system the smaller offices, such as that of coroner, would be appointive instead of elective. The strength of the system lies in the belief that its operation makes for a better administration on sounder business principles.

But few men are elected, but these are responsible to the people for the conduct of all offices. If an appointee proves incapable or unworthy he may be removed from office as simply as he was appointed in the first place. The professional politician and his works are to a large extent eliminated. These are the main points.

These features constitute to a large extent the general platform of progressive Republicans.

THE QUEST FOR THE SOUTH POLE.

With two men mentioned prominently as having been the first to reach the South Pole, it looks somewhat as though the famous, or infamous, Peary-Cook controversy were to be re-enacted for the benefit of an admiring public. It is to be hoped that neither of the prospective claimants will prove eventual applicants for admission to that well-known club of which Cook at any rate is generally regarded as a bright and shining light.

The Cook-Peary controversy may be said to be ended, and there can be but little doubt in the minds of men but what Cook failed to reach the North Pole. But it should not be lost sight of that Peary's success was but half a victory and the history of the world on that score is far from clear. It will probably carry an unfavorable verdict as far as the ex-commodore is concerned.

Peary declined to submit his profits to any but a select coterie of his friends, the members of one little-known scientific club of America. He refused to have these examined by the Uni-

versity of Denmark, which made a short work of Cook's claims, and refused to stand on a single incense burner. Viewed in the calm, cool light of reason, Peary operated in the pay of the American government for years in the north, during which he built a reputation as a fur trader among the Eskimos and profited greatly there by. He did not pose as an explorer, and if he ever reached the Pole at all it was probably months or years before Cook's announcement forced his own hand.

It is to be hoped that the later claimants for Polar honors will profit by the example.

THE PASSING OF THE POISON SQUAD.

With the resignation of Dr. Harry W. Wiley, chief of the bureau of chemistry of the Department of Agriculture, the government loses a good servant and the people a fearless and loyal champion.

For many years up to a week ago the researches of Dr. Wiley have helped materially in the pure food movement. By a system of intricate experiments he demonstrated that certain drug adulterations were detrimental to food quality, and he strove to bring about the enforcement of the laws covering the cases. In some instances he was successful, in many he was not. The big manufacturers protested vigorously and Dr. Wiley was not exactly a diplomat in the manner of his reprisals. Dr. Wiley believed he was right, and he said so in a manner too plain to be misunderstood. Trouble followed, and the head of the bureau stepped down and out.

Dr. Wiley first came into national prominence through his organization of what was facetiously termed the "poison squad." The "poison squad" consisted of a dozen or so men, many of whom, for the sake of their board and a small salary, were willing to submit to being fed food containing small quantities of bicarbonate of soda and other preservative drugs that the doctor might demonstrate at first hand the truth or fallacy of his convictions.

The days of the "poison squad" have long since passed, but the results of the experiments are to this day by unscrupulous food manufacturers throughout the country.

DUST UNTO DUST.

There is something eminently fitting in the last sad obsequies of the ill-fated Maine and the final disposition of the remains of the soldier and sailor dead. When the black waters of the ocean closed over the bulk of the one-time United States warship the final chapter was written in one of the greatest international tragedies of the age.

Many will remember the day, but a little over a decade ago, when the news reached the country of the blowing up of the Maine in Havana harbor, and the wave of horror which swept the country from end to end and which

catalanated in the war with Spain. During the years which have passed the wreck has touched while congress squabbled over a final disposition of the problem. Finally a bill was passed appropriating enough money for an investigation of the tragedy and a commission to make the examination.

The conclusions of this commission are interesting only in retrospect. There is no disposition to fight the war over again and there need be none.

With the disappearance of the wreck from the face of the earth and the scattering of the flowers which decked her at the time of the final plunge, let the world Finis be written to the incident in the minds and hearts of men.

A SAD COMMENTARY.

From the state of Virginia comes word of an occurrence which constitutes a sad comment on the state of our civilization. The clerk and sheriff of a district court were shot down in cold blood while engaged in the work of administering justice under the laws of the land.

It matters not what the provocation may have been or what real or fancied wrongs actuated the murderers in their diabolical work. Respect for the law was set at naught, justice trampled under foot and the life blood of public servants spilled.

Occurrences of this sort were in part responsible for the French revolution. From such acts is the seed of discontent engendered which, given a start, spreads its tangled growth through the fairest garden until war horrors men's hearts takes the place of peace, progress and the kindly light of neighborly love.

And this in the most enlightened age the world has ever known.

JUST TO SETTLE THE ARGUMENT.

In the matter of legal assistance for the county attorney in the case of the State of Idaho vs. Jurg and Green.

In the matter of the Board, consisting of the county attorney, Jurg and Green, who were appointed by the Board, and employed C. O. Longley to assist the county attorney in the prosecution of the case, State of Idaho vs. Jurg and Green.

County of Idaho vs. Jurg and Green. Claim of C. O. Longley as retainer fee in the sum of \$75.00 allowed. Commission Journal, May 8, 1911.

At this time, on motion of A. H. Hicks, county attorney, the sum of \$75.00 was ordered to be paid to C. O. Longley as retainer fee in the sum of \$75.00. District Court Journal No. 1, Monday, June 11, 1911. State of Idaho vs. Jurg and Green. Criminal Case No. 5.

Let there be no more nonsense as to whether or not the county commissioners have hired or are hiring extra counsel to assist the county prosecutor in his criminal proceedings. The News has barely scratched over the surface yet.

Entered as second-class matter, December 15, 1884, at the office of Twin Falls, Idaho, under Act of Congress of March 3, 1879.

Re-entered as second-class matter April 27, 1911, at the post office at Twin Falls, Idaho, under the Act of March 3, 1879.

POST OFFICE PERMIT NO. 241

PROGRESSIVE REPUBLICANISM.

There are five of the principal progressive reforms of the progressive element of the Republican party. They are worth reading:

Direct primaries.

Popular election of delegates to the National convention.

Election of United States senators by the people.

The initiative, referendum and recall.

An effective corrupt practices act.

To these is added the short ballot in a list recently published in an eastern journal.

The principal of direct primaries is well understood and in those places where it has been given a fair trial it has been found to work out about as well as does any other new measure during the first year or two of its existence. It was devised originally as a means of standing between the professional politician and the interests which he serves. It has done this to a remarkable extent.

The popular election of delegates to the national convention is another step contemplated for the benefit of the people. The initiative, referendum and recall is primarily a popular measure, while the election of United States senators by the people as a whole instead of by state legislatures is but common justice to the greatest number.

There are, of course, other numbers in the program of reform all of which have for their object the improvement of the present government system. Of these none is of greater importance than the short ballot.

Designed in the first place as the very means of perfection in the free will choice of the voter for candidates for office, the Australian ballot, with its mass of names, has finally reached a

PRESIDENTIAL CANDIDATES ON THE RECORD.

President Taft—Highly recall! The words themselves are so insignificant that I hate to utter them. Are we going to make our constitution a mere legal fiction, so that a majority of the people at any moment, in any line of position, overrule the check the fathers gave us as the greatest gift in our national heritage?

Mr. Roosevelt—I do not believe in endorsing the recall save as a last resort. But either the recall will have to be adopted or else it will have to be made much easier than it now is to get rid, not merely of a bad judge, but of a judge who, however virtuous, is not so sound in his head as to be able to render good service on the bench.

Senator La Follette—I am in favor of extending the recall to the judiciary. When a court forgets that its function is to administer the law and goes to the aid of a party, it is not a sufficient justification for the recall, and I mean now the supreme court of the United States. When they write into the Sherman anti-trust law the words "the congress has refused to write into it" they went outside of their function.

Governor Hiram—I am not opposed to the recall, although being rather a conservative old fellow. I'm satisfied to see Oregon experiment with it first.

Representative Underwood—The recall can be held merely to affect the tenure of an office. If short terms are provided for elective offices, every election would offer opportunity for the exercise of the referendum, and it rarely accomplish much more than the actual adoption of the recall principle itself.

Wilson—In some states, where representative government has come to exist only in name. Not only legislators, but the entire organization of the government has become subject to the control of political machines, which are themselves, in turn, known to be subsidized and used by special business interests. In those states the people have been misled, or will insist upon bringing their governments back under their own control by means of direct legislation, the referendum, and, if necessary, the recall.

A TWILIGHT ZONE.

Senator La Follette and Colonel Bryan, one a Republican and the other a Democrat, then either is to be any other leader of the front rank in the party.

The senator is closer to Mr. Bryan than he is to President Taft and that Mr. Bryan is closer to Mr. Taft than he is to Governor Hiram. A beautiful twilight zone, that makes—just the glowing region where

Roosevelt, Not Taft, Has Changed

(Portland Oregonian.)

Mr. Roosevelt is the candidate of the progressive movement. President Taft is the candidate of the conservative movement. It is not for several months before Taft's election. At that time no words were more common on the lips of the people than those which would be used to commend the man who had received such overwhelming endorsement in 1908. Every word that Roosevelt then wrote and spoke regarding Taft was of the same tenor.

On March 15, 1908, more than two years before Taft was nominated, Roosevelt wrote to Taft:

My belief in that of all men who have appeared so far, you are the man who is most likely to receive the nomination and who, in my opinion, is the best man to receive it.

Immediately after Taft's nomination Roosevelt wrote of him on June 15, 1908:

I do not believe there can be found in the whole country a man so well fitted to be president. He is not only absolutely fearless, absolutely disinterested and upright, but he has the widest acquaintance with the nation's needs, with our public affairs, and the broadest sympathies with all our citizens.

He would be an emphatically a president of the people for vice president, yet Lincoln himself would be freer from the least taint of demagoguery, the least tendency to arouse the passions to class hatred of any kind.

He wrote to Conrad Kohler on September 9, 1908:

In Mr. Taft we have a clean man who combines all these qualities to a degree which no other man in our public life has surpassed. To permit the direction of our public

He affirms to all alternately into the hands of revolutionaries and reactionaries, of extreme radicals of unrest and of bloated conservatives who recognize no wrong to remedy, would merely mean that the nation had given up on a feverish course of violent oscillation which would be fraught with acute temporary trouble and would produce no adequate good in the end.

The true friend of reform, the true foe of abuses, is the man who steadily advances in righteousness and whose character and training are such that he never promises what he cannot perform, makes good what he does promise, and that while steadily advancing he never permits himself to be led into foolish excesses, which would damage the very cause he champions.

In Mr. Taft we have the man who combines all these qualities to a degree which no other man in our public life has surpassed.

The man who to trust in the man so well fitted to be president. He is not only absolutely fearless, absolutely disinterested and upright, but he has the widest acquaintance with the nation's needs, with our public affairs, and the broadest sympathies with all our citizens.

He would be an emphatically a president of the people for vice president, yet Lincoln himself would be freer from the least taint of demagoguery, the least tendency to arouse the passions to class hatred of any kind.

He wrote to Conrad Kohler on September 9, 1908:

In Mr. Taft we have a clean man who combines all these qualities to a degree which no other man in our public life has surpassed. To permit the direction of our public

SABBATH SCHOOL LESSON

March 24, 1916

Subject, Feasting and Fasting.
Lesson Text, Mark 2: 13-22.
Supplementary, Matt 9: 9-17; Luke 14: 1-6.

The Golden Text—"I came not to call the righteous, but sinners to repentance."—Mark 2: 17.

The times:—Morning, A. D. 28.

The place: Capernaum.

Our Lord had entered upon the second year of His ministry and was growing in favor. The first year had been spent almost entirely in "and about Jerusalem, but he was not seen at first to the head of the people. The teaching events of his first year's work, as recorded in the first chapter of John's Gospel, were: His Baptism; the Temptation; the calling of four of his disciples; the first miracle, and the first record of controversy—Nicodemus and the woman of Samaria.

With this exhibition of his power and wisdom, he drew the people to the Jews as their long-looked-for Messiah, yet he was rejected. His pretensions displeased them. They cast the Devil into the prison, and would have treated Jesus worse if he had continued in their neighborhood. At this stage of his ministry he turned to Galilee. Hence, though rejected, he came from Judea to a broader and more hopeful field in Galilee. He passed through Samaria, and came to the home in Nazareth. He went into the synagogue and announced to his old neighbors that he was the Messiah. They murmured that they might expect to kill him.

Leaving Nazareth he went to Capernaum, his old home, and there he began his Galilean work.

A business man's conversion.

In addition to his other work, our Lord now began to train a body of men who would be able to carry on His work when he had left it aside. He first called four men: Andrew, Peter, John and James, who had been with him in Judea, from the fishing net to continue with him. And he next called Levi, the son of Alphaeus sitting at the level of custom, and said unto him, Follow me, and he arose and followed him.

This new disciple, known to us as Matthew the publican, though a Jew, was not a tax collector, but a tax farmer, because of his occupation. He was a tax collector and his business was odious in the judgment of the Jews. This was associated with extortion and injustice. The Jews were under tribute to Rome, and it was the custom to tax the land and the trade. Hence certain men went down to Rome at certain times and offered a certain price, say, for Gallilee. They were called tax farmers, and it was their duty to collect the taxes for him, and always at a rate that would always be sure to give him more, or else, away from the wrath of a tax-burdened people. This tax business has always been a trouble to our country, and it is here in Idaho we recently heard much concerning it. Yet in this dispensation,

IN SCHOOL AT U. OF I.

Complete Courses Will Be Offered in Normal and Collegiate Departments—Excellent Facilities.

University of Idaho, Moscow, March 16.—The first joint summer session of the University of Idaho and the Lewis and Clark Normal will be held at the University, beginning June 1 and closing July 27. The purpose of the school is to afford teachers, principals and superintendents an opportunity to be interested in special lines of educational effort an opportunity to better qualify themselves to meet the needs of the state. The school is placed at the disposal of the public throughout the entire year.

No entrance examination is required for admission to any of the courses. The school is open to all who have a serious purpose of advancing themselves in education. The courses will be of the regular standard of these institutions, and upon recommendation of their respective faculties, professors will be offered to all who satisfactorily complete the work.

All the material advantages offered to the regular semester students will be at the disposal of the students of the summer school. The new administration building is without doubt among the finest in the Northwest. Over the first in the Northwest. The building is a part of the summer school, with its varied equipment, is placed at the disposal of the summer school. Of special interest to teachers is the large collection of standard books on educational methods, psychology, principles of education, school administration, history of education and magazines dealing with current school problems.

A winter session will be held at the U. S. Department of Education, including in the library. Model apparatus, showing with rural and small urban communities in domestic science, manual training, child psychology, physics and chemistry. A part of the summer session equipment. Physical education under the direction of an expert and with the use of the best gymnastic apparatus. Showers bath will be offered to all students.

The registration fee for the session will be \$5. Tuition is free of all courses. Board may be obtained in Moscow at \$1.50 per week and \$1 per week. To ladies desiring a complete course, a room with a bath and a chair of \$35 will be made, which will include the registration fee and board and room for the entire six weeks. The faculty for the summer session will be composed of the best of instructors in the university and the Lewis and Clark Normal so that work offered may be more readily related to the needs of these institutions. Special lectures, some with lantern slides, will be given at stated intervals by prominent lecturers on special educational problems.

The summer school will maintain a file of charges, a bureau for the purpose of assisting school trustees and teachers to their mutual advantage. For detailed announcements and other information concerning the joint summer session of the university and the Lewis and Clark Normal, address the secretary, Philip Soulen, Moscow, Idaho.

COMFORTING WORDS

Many a Twin Falls Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer arrested. To tell how this great chance can be brought about will prove comforting words to hundreds of Twin Falls sufferers.

D. Donahoe of Idaho, Idaho says: "For seven years I suffered from pains through my loins and kidneys and was unable to get on my feet. The small of my back that had for years I often felt dizzy, weak and languid, and after a few hours' work my head became so stiff that I could hardly get on my feet. I was hardly able to straighten. The kidney secretions were highly colored, contained sediment and were too frequent and painful. I had tried a number of remedies but without success until I procured Doan's Kidney Pills. After I used this preparation I felt so much better that I had appeared, my kidneys were restored to a normal condition, and my health improved."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

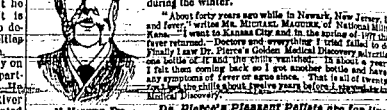

Trees from Kimberly Nursery, Jonathan, Rome Beauty and Winesap in abundance. Either one or two pairs of seed trees will pay all taxes. Write me for other retail or wholesale prices. I will surprise you. For instance, one year old apples, by the bush, \$1. E. DUTLER, Twin Falls, Idaho.

FREE USE of Balmor Hill land near Hollister for clearing of sugar maple. Best seed will pay all taxes. Would also pay reliable parties for clearing and putting in a crop of wheat and oats, doing all essential work. Write me for prices and terms. Address N. W. 911 Eighth street, Fallburg, Nebraska.

Apple Gratts. Raiso your own apple trees. Chico Gratts at Barrow Brothers Seed Store. Get your monthly collections quickly by sending one of Kelly's checks.

Are the Fly and Mosquito Dangerous?

The fly, with spiny feet, collects the invisible germs of disease, spreads them over food and pollens as with typhoid and cholera. The mosquito with its bite lobes into our veins malaria and yellow fever. The bacteria of contamination, or grip, are everywhere present for us to breathe into our lungs. The germs which flows through our veins and arteries in the protection. It should consume healthy and eat white blood corpuscles—capable of warding off disease germs. Dr. Pierce's Golden Medical Discovery is a blood medicine and should be taken entirely without alcohol, a pure glyceric extract of bloodroot, golden seal, Oregon grape root, quina, iron, and other ingredients, which has enjoyed a good reputation for over forty years. The refreshing fluency of this extract is like Nature's influence. It is bathed in the tonic which gives life to the blood—the vital force of the body born brighter and fiercer increased vitality consume the flaccid rabbit which has accumulated during the winter.

Dr. Pierce's Pleasant Pellets are for liver ills.

Dr. Pierce's Pleasant Pellets are for liver ills.

DRUG STORE SIGNS

Every one has noticed the beautiful colors in the large glass jars that stand in the drug store windows, but every one does not know why drug stores use that sign. In the old days apothecaries and alchemists were the only druggists, and they made up their own nostrums—the composition of which was supposed to be a great secret. They used to leave their retorts and jars and stills and bottles in the window in impress upon the passers-by the mystery and importance of their business. The modern drug store has no use for retorts and stills, all the processes being handled by the big chemical factories, but the large jars full of bright colored liquids are still left in the window, just as they were hundreds of years ago—now they sell.

For information you will find nothing better than Chamberlain's Lintment. Buy and see how quickly it gives relief. For sale by all dealers.
