## GOODING'S HAT IS IN THE RING

FORMER GOVERNOR SAID BY HIS FRIENDS TO BE WORKING HARD TO AGAIN OCCUPY CHIEF CHAIR AT THE CAPITAL.

## LIVELY POLITICS ASSURED AS RESULT OF LATEST MOVE

Actions of Morrison During Term of Office Declared to Be Largely Responsible for Latest Developments, and Fight Promises to Grow Hot with Personalities Not to Be Lost Sight of—Other Candidates View Situation With Mingled Feelings.

(Special to The News.) Boise, April 24.—By far the most interesting political development of the past week is the positive assertion of close confidential friends of Frank H. Gooding that he is actively in the field as a candidate for another term as chief executive of the state. While this semi-official announcement comes as a surprise to many, it was discounted by many others who were familiar with the inside workings of the Republican organization in the state. Naturally it carries students of politics back a few years to discover the real motive. Naturally, too, it points the way to lively politics between this time and the holding of the primary election.

## BOISE STOCK TO BE PURCHASED IN EAST AND SOLD TO FARMERS AT COST OR LONG-TIME PAYMENT PLAN—CO-OPERATION OF BANKERS IN BOISE AND ELSEWHERE IS SECURED AND PLANS MADE WITH HEARTY APPROVAL OF BACKERS.

The success of a plan to bring \$50,000 worth of dairy cattle into the state was announced by A. H. Allen, managing editor of The Inter-Mountain Farmer, of Boise, while in this city Saturday last.

## THE SUCCESS OF A PLAN TO BRING \$50,000 WORTH OF DAIRY CATTLE INTO THE STATE WAS ANNOUNCED BY A. H. ALLEN, MANAGING EDITOR OF THE INTER-MOUNTAIN FARMER, OF BOISE, WHILE IN THIS CITY SATURDAY LAST.

The plan as originated by The Farmer is the forming of a stock company by the leading business men and bankers of the state, which is to be financed by one of the leading financial institutions of Boise. The money so raised will be used for the purchase of dairy cattle in the east, which will be brought to Idaho and disposed of at cost, plus a practical charge for transportation and the expense of buying to the responsible farmers of the state and may be held either for cash or on credit, at the option of the buyer. An interest charge will be made, however, in case the purchaser wishes to buy on time.

## BOISE PUBLICATION IS "FATHER OF" ENTERPRISE OF IMMENSE BENEFIT TO AGRICULTURAL AND LIVE STOCK INTERESTS.

Mr. Allen states that as the result of his trip through southern Idaho he is able to announce that the success of the plan is assured. Everywhere it has met with unanimous approval. In fact only the details remain to be worked out and many excellent suggestions have been offered by local bankers and business men visited in each locality. Opportunity for All. He explained in a general way that as soon as the company has been organized a canvass will be made of the farmers in each section and those desiring to take advantage of the offer will have an opportunity to subscribe for the number of head desired. This list will be submitted to a local banker, who will pass upon the financial responsibility of each farmer, and the entire matter will be properly arranged for the stock to be brought to Idaho. When the lists are all complete an expert will be commissioned to select the stock required, and each animal will be inspected and a list made of the price paid. Upon arrival at destination those who have signified their intention to take cattle will have their portion of the stock drawn by lot, the matter of choice. The stock is to be sold absolutely at cost, and when bought on credit the price paid will be deducted. When the scheme was first originated for profit, but to advance the dairy interests of the state. No profit is to be made from the sale of the cattle, but the price for their compensation they will look to the increased prosperity of the state through the development of the dairy industry.

## IDAHO GREAT STOCK STATE.

A. D. Clark, the president of the Inter-Mountain Farmer Publishing Company, has been engaged in stock raising in this state for the past 30 years. He is convinced that the greatest stock country in the world, and anything which will promote the growth of the industry he believes will result in added prosperity for the farmer. He has given much of his time and assistance in aiding the enterprise.

## HE IS CONVINCED THAT THERE IS NO BETTER WAY OF DISPOSING OF THIS CROP THAN BY THE DAIRY COW, AND THE DAIRY INDUSTRY WILL BE SUPPLEMENTED BY HOG RAISING, AND WHEN THOROUGHLY PROVED THE STATE OF IDAHO FARMER IS ASSURED.

Willis Hance of the Lincoln Woodstock Farming Company was also consulted. "I have no precedent to go by," said Mr. Hance, "and cannot say exactly what the result would be, but I think it is a very good standpoint. It might not bring a greatly increased revenue to the state at first, as our farmers are not all of the maximum type at this time. However, it would result in benefit in time. I am conversant with all the men who hold a dollar so close to his eye that he could not see ten dollars just beyond. As a boosting proposition, however, I can give it my unqualified endorsement."

P. B. Vancell of Portland is in the city this week. He is representing the Western Educational Film company of Boise, which is planning to issue a series of films on Idaho scenery and agricultural development for the use of eastern film companies. The series will include scenery for many towns and valuable advertising in the West and may result in much good to the state.

Others assert that it will play directly into the hands of State Auditor Stephen D. Taylor. It is also noted that the south has three strong and aggressive candidates they will kill by other means and make necessary the nomination of a new candidate, and Taylor seem to be the only north Idaho man who is seriously in the race. Even he has not yet announced his candidacy.

Still others assert that Morrison will get the nomination because of the widespread feeling throughout the state that he was entitled to a second term as governor, and that he was deposed of that because Frank R. Gooding had the power of his office as the vice state chairman to block the convention against him.

Idaho still others take the opposite view, and side with Mr. Gooding for the reason, as they assert, that Governor Morrison treated him with indignation. Those backers of Mr. Gooding also assert that he will be a powerful candidate before the primaries because of what he has done for the sheep industry of the state, and more particularly because of the wrong ground he has taken in favor of a railroad commission and in favor of the cause of temperance.

## END SEASON ENJOYED AT BREAKFAST

SHAKEPEARE'S BIRTHDAY FITTINGLY COMMEMORATED, AND ADDRESSES ON THE WORK OF PAST AND FUTURE ARE THOROUGHLY ENJOYED.

A large number were present, and the various speeches drew forth hearty applause. The breakfast itself was thoroughly enjoyed and the occasion throughout is regarded as one of the most successful affairs of the kind in the club's history. The management of the affair was in the hands of Mrs. J. H. Sawyer and Mrs. J. Ostrander, and great credit is due them for the success of the occasion. Following the typical Mrs. W. P. Pike—in a brief explanatory speech pointed out the objects of the gathering and introduced the addresses. Referring to the selection of the date of the affair, Mrs. Pike made humorous reference to the alleged comment of Mrs. Robbins, upon the discovery that Tuesday, April 23, was Shakepeare's birthday. Mrs. Pike's version ran something like this: "How do you think a breakfast fit to be the only thing to eat in the Bacon theory." And so, continued, Mrs. Pike, "a breakfast it is, and the bacon having been roasted, we will now turn to the toasting."

That the noon-day luncheon at the Commercial club yesterday was one of the most pleasant and beneficial of the series as voted by all the members present—drawing speakers features various in nature, added spiced to the occasion that was marked with good feeling and acquaintance.

Following the serving of the "good old country dinner" Club President Willard Hance announced that in addition to the speaker of the day, C. A. Robinson, cashier of the Farmers and Merchants' bank, three prominent visitors had unexpectedly arrived and would favor the members with brief addresses. The welcome accorded the visitors was cordial and highly appreciative. The visitors were Treasurer of State O. V. Allen, Judge J. D. Flenner of Boise, and O. W. Campbell of Detroit, western representative of the Jerome Rice Seed company, of Detroit and New York.

Continuing her remarks, Mrs. Pike said: "How symbolic of the ocean, with its ship and flow, is this very Twin Falls tract in which we live. Every day brings a tide of restless humanity to us, and every setting sun sees another outward wave recede to become lost in the vast ocean of souls beyond. This year's cruise has been a strenuous one, the anchor has scarcely been used, and 'Pat on full steam' has been the constant order."

## PROGRAM GREATLY ENJOYED.

It was the unanimous decision of those present that the selection of Mrs. Pike as toastmistress was a happy one. Her remarks, however, comprised a notable feature of the program, and her graceful hand-

### STATE TREASURER ON HAND-SHAKING TOUR

#### O. V. ALLEN OF BOISE IMPRESSED WITH FUTURE OF TRACT.

Declares General Development is Only in Initial Stages and Predicts New Era of Railroad Building Over Southern Idaho.

State Treasurer O. V. Allen dropped into Twin Falls from Boise Wednesday and was the guest of the Commercial club at the regular weekly luncheon yesterday. Mr. Allen is a candidate for reelection to the post of state treasurer on the Republican ticket, although he has not yet made formal announcement of his candidacy.

In discussing the general outlook on the tract Mr. Allen talked interestingly to a group of business men at the club yesterday, declaring it to be his belief that the greatest era of railroad development in the history of the west is soon to commence and that Twin Falls will eventually become the center of a network of lines which will go far toward making it one of the biggest cities of the west.

He is well impressed with the future of the town of Downey, which he visited in connection with the recent celebration of the completion of the Portland Marsh Valley Irrigation project. He has watched the development of Twin Falls since the days before the town, however, and declares that to date the development has exceeded his fondest expectations.

"However," said Mr. Allen, "what you have done in the past is not a marker to what may be accomplished in the future. Failure of an city in the west with better prospects of future growth than you have right here, and I don't believe that anything you might do could stop it."

Mr. Allen left last night for the capital.

### IDAHO'S TREASURER

HON. O. V. ALLEN.

During the year 1911, under the administration of O. V. Allen, the department earned \$50,249.20 on interest on public funds and \$16,215.72 for the first quarter of 1912, showing a continual increase and making a total of \$66,464.99 to April 1.

This is the best record ever made in the state treasurer's office by \$147,610.97 for a like period in the history of the state.

At the late Friday and Saturday is a Ciderella-like picture of modern life containing some very pretty scenes.

### BEST DAIRY STOCK BROUGHT TO TRACT

#### H. J. YOUNGS PLEASUED OVER THE QUALITY OF EASTERN CATTLE

Many Farmers Now in Possession of Pure Blood Milk Cows—Constantly Increasing Dairy Products Require Additional Creamery Machinery.

Good results and an increased dairy business, as a direct result of the bringing of 300 head of Wisconsin dairy cows onto the north and south tracts less than two weeks ago, have been shown. All cows are now in the hands of their new owners, and much satisfaction has been expressed that it is not improbable that at some future time another shipment of high-grade dairy stock will be made into this country.

The dairy cattle were purchased at Ft. Atkinson, Wisconsin, and shipped to Idaho under the supervision of H. J. Youngs, president of the Sterling creamery, and E. V. Ellington, head of the dairy bureau of the state agricultural college of Idaho. This first-class source of purchase requires a special train of ten cars for shipment, six carloads of which were under the supervision of the late Mr. Youngs and the remaining four of Hansen and Duhl. The number placed among the farmers on the tract was 146. The purchase and sale of these high-grade dairy cattle was negotiated by certain men among the stockholders of the Sterling creamery.

#### Best Stock Purchased.

In speaking of the shipment of dairy stock here, Mr. Youngs has this to say: "The cows purchased are among the best blooded stock. The total number was about equally divided between the Guernsey and Holstein numbers. The cattle were picked up in lots of four and five to six, and we feel that we made a good pick."

The "wisdom" of Mr. Atkinson, in which the cattle were purchased, is recognized as the leading dairy country, and the dairymen there have attained the highest degree of advancement in that business. Ex-Governor Hoard, of Wisconsin, is the father of the dairy industry in his state, and it is through his efforts that the great advancement has been made. From this one station alone over 300,000 worth of dairy cattle were shipped one year. It is the pride of the country the dairymen are receiving no more for their products than here in the Twin Falls country, and feeding cost them more. In fact they are feeding large quantities of alfalfa hay grown on this tract and shipped to them at a large item of expense, including the price of hay. It is found that dairymen there depend for their large returns, not on the sale of their dairy products, but rather on the raising and sale of fine blooded dairy cattle. Calves are raised on skimmed milk, a by-product, reserving the remainder for profit. Holstein calves of course well-bred, between 6 and 8 months of age, bring a regular price of \$35. I do not know why we cannot do the same here on the Twin Falls tract, within the next few years.

#### Necessitates New Machinery.

"In view of the increase from the stock purchased, and the great supply from other sources the Sterling creamery has found it necessary to install about \$1,000 worth of new machinery, among which is a churn which will turn out 3,500 pounds of butter at one churning."

### NO DAMAGE FROM STORM

#### J. A. Waters Believes Fruit Practically Unhindered by Last Week's Sweeping Blizzard.

According to J. A. Waters, the surveyor and local observer for the U. S. weather bureau, the unusual blizzard which swept across the Snake river valley last Thursday night and Friday did practically no damage, owing to the fact that the lowest point reached by the mercury was 38 degrees above zero. Mr. Waters states that although some trees were slightly affected, the benefit of the snowfall to hay and fruit trees will greatly surpass any possible damage to orchards.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was all better," writes Mrs. M. S. Hill, 214 Douglas Street, Sydney, Australia. This remedy is sold by all druggists.

### MEASURING METEOR'S SPEED.

An interesting use has been found in astronomy for the bicycle wheel. By fitting such a wheel with a series of opaque screens placed at regular intervals and then rotating it with the aid of a small motor at the rate of from 30 to 50 turns a minute before the camera used to photograph meteors, one investigator has succeeded in measuring the velocity of the meteor's flight. The principle depends upon the interruptions produced by the screens in the field of light made upon the photographic plates by the flying meteor. The velocity of the wheel is known at every instant by means of a chronograph record and the length of the interruptions indicates the speed of the meteor.

The evening session will be held at 10 a. m., which will be a praise service, consisting of devotional exercises conducted by Mrs. E. G. Houston of the Church of Christ, a paper on "The Work in Japanese Fields," by Mrs. George Sprague of the Episcopal church; a talk by Mrs. H. F. Bloomer of the Church of Christ, on "The Work in India"; Mrs. Laura Cole of the Baptist church on "The Work in China"; Mrs. T. F. Warner of the Methodist church on "The Work of the Christian Worker." The program to conclude with a paper by Mrs. S. T. Upton of the Presbyterian church, on "The Work of the Christian Worker at Home." After adjournment all will be entertained by the ladies of the Presbyterian church at luncheon in the church building.

The afternoon session will convene at 2 o'clock, to be opened by devotional services, followed by a song service. Talks on various subjects pertaining to different features of the missionary work will be given by Mrs. Parker of the Church of Christ, Mrs. Parker of the Methodist Episcopal church, Mrs. E. J. Weaver of the Baptist church and Mrs. J. A. Graham of the Presbyterian church.

There will be open discussion of the various topics presented in which it is hoped all present will take some part. The meeting to conclude with the effecting of a permanent organization of all the various missionary societies in Twin Falls city.

A POLITE ACKNOWLEDGMENT.

After a "command" performance in Queen Victoria's time it was the custom for her majesty's secretary to write a letter of thanks to the responsible authorities. In the case of the "Royal" performance, the secretary of the royal children at a Windsor garden party, received the following communication from Sir Henry: "Sir—Instructed by the queen to thank you for your visit of yesterday, and to express her hope that the ladies and gentlemen of your company arrived safely in London and in good health."

O. R. WHITE VISITS TRACT.

O. R. White of Ottawa, Illinois, who has been looking after his ranch west of Tull for the past few weeks, left for home Tuesday morning. Mr. White is a constant booster for the Twin Falls county and hopes to induce many Illinoisans to invest here in orchard tracts and ranch lands. He has been furnishing concrete evidence of the products of the tract during the winter by selling alfalfa hay to the Illinois farmers. Mr. White was unfortunate enough to lose his mare on Monday morning, containing \$35 in bills and his ticket to Ottawa, while on a trip of inspection to an orchard tract northwest of Twin Falls. The trader would confer a favor on him by leaving it at the News office.

Excelsent Edition Issued

Idaho Club Woman for April, Just Published, One of Magazine's Attractive Numbers.

The Idaho Club Woman for April is one of the most attractive and interesting numbers of this magazine that has been issued. From the beautiful cover design to the last page it is filled with lessons from the text, "See Idaho," written by the author of the Idaho Club Woman for April, 1911.

The description of Shoshone Falls written by C. C. Goodwin in 1890 is one of the grandest descriptions of these magnificent falls ever penned. "A Natural Park for the Gem State," taken up in a nicely illustrated description of a region in the Sawtooth mountains which is very desirable for a natural park.

"The Wild-Pietreque Beauty of Idaho" is artistically pictured by George E. Schroeder, the well-known Idaho artist. George Schroeder, more than any other Idahan, perhaps, is best fitted to paint with pen or brush the natural beauties of Idaho.

As a special tribute to the women of Idaho is paid by Major Fred R. Reed in "Woman's Relation to New Country," his great work of building up new countries, which is a beautiful opportunity to study the people who help him in the building and character.

There are many other excellent articles within the covers of this April number, all interesting, instructive and nicely illustrated. The editor is to be congratulated on its general excellence.

WANTED A WITNESS.

Hetcher (whose bell is rung late) "What do you want?"—Clumson: "Borry to trouble you, Frau Schmidt, but I must go back to the club, as my wife won't let me in; and I wanted to be able to call on you as a witness that I was here at ten o'clock."—Eligedon's Blatter.

### WILL ATTEND GOOD ROADS CONVENTION

DELEGATES WILL TRAVEL TO LOGAN, UTAH, BY AUTO. Resolutions Adopted Requesting Congressional Aid in Building of Good Roads—Delegates Are Appointed to Attend Development Congress.

The Twin Falls Commercial club is devoting particular attention at this time to the Good Roads movement, and the following committee has been appointed to attend the meeting of the Interstate Good Roads Association at Logan, Utah, on June 12 to 14. E. J. Cottrill, L. T. Wright, L. A. Damon, A. J. Peavoy, C. H. Schuler. It is probable that these delegates will motor to Logan with the proposed law to be held under the auspices of the Idaho State Automobile association, starting from Pocatello June 10.

The board of directors of the Commercial club passed the following resolution: Whereas, vast areas of the most fertile land of the great western states of our Union lie undeveloped, largely because of the lack of transportation facilities which good roads would afford, and Whereas, it has been the policy of the national government to encourage the settlement of these public lands, this encouragement having in the past few years taken concrete form in the construction of great irrigation systems by our national government with most gratifying results, and Whereas, all of these states contain millions of acres of land at present serving no useful end, and which if brought under private ownership and cultivated and controlled to the wealth of the western states and the whole nation; therefore be it resolved, by the Twin Falls Commercial club, that the congress be advised to set aside one million acres of public lands lying in each of the western states, these lands to be sold by the national government to the highest bidder, the proceeds to be used in the same manner as to be similar to that laid down by congress for each of such lands in each of the states, and be it further

Resolved, That in the sense of this clause, such assistance granted by the national government would in no wise inflict any hardship on the citizenry of the nation at large, but would rather have a tendency to add to the enjoyment of our citizenry by providing the means necessary to enable them to see and enjoy the incomparable scenery of our western states, and be it further Resolved, That the secretary of the Twin Falls Commercial club be authorized to secure written resolutions to the members of congress from the state of Idaho, with the request that they be introduced in the senate and in the house of representatives, which will accomplish the ends indicated.

The following delegates and alternates have been appointed to represent the Northwestern Development Congress at the State June 5 to 8: Delegates—D. D. Alken, M. E. Belmont, Ben Witt Young, M. M. Murtagh, alternates—P. W. McRobert, W. E. Palmer, W. Z. Smith and George F. Sprague.

Exchange System and Connecting Lines Now Assured in Near-Future on Balmon Tract. Favorable reports have been announced by the officials of the Mountain States Telephone and Telegraph company concerning the exchange to be installed at Hollister, and lines that are to be extended over the Balmon tract will begin in the near future, and will be so sufficiently equipped to supply the needs of an anticipated growing business.

District Manager Hising and K. H. Dixon recently covered the territory to be traversed by the new lines on the Balmon tract, and secured sufficient contracts to warrant the construction of the line from Hollister to both Adams and Deep Creek. It is expected that sufficient contracts will soon be secured to build to Deep Creek. Adams' first telephone exchanges will make the line surveys and poles will be placed on the ground for placement with the straining of the wires soon to follow.

### PERPETUAL MOTION IDEAS.

Efforts of Inventors Who Strain After the Unattainable. Perpetual motion, like the philosopher's stone, is one of those things regularly sought after. Years ago it was proved that the idea was absurd, yet another week or so ago another inventor came forward with a new perpetual motion machine.

Some of these perpetual motion machines are certainly extremely ingenious. One is a kind of a steam engine which is supposed to run on the weight of the air and the water. Pipes led from this water to the back of the bus, curved round and connected to the backboard of the bus.

Nothing New. Science Only Helps Develop Seemingly Unknown Things. A transatlantic cable where three men charged with murder were found carried their talk to the ears of officers and listened their guilt position to the ears of the three.

Memorial Day. Comes on Friday, April 29, as proclaimed by the governor of Idaho. Are you not going to plant a tree, set a bush or creep a vine of your school and home, thus making them more beautiful and attractive?

### SENATOR VANCE'S WIT.

The Trick He Turned on a Rival in a Campaign. The late Senator Vance used to say that his liveliest campaign for the governorship of North Carolina was that in which Judge Settle ran against him. They stumped the state in joint debate. All the while Democrats turned out to hear Vance and all the colored Republicans to hear Settle. On one occasion Vance was informed that some young ladies desired to testify before the election to the Democratic party by kissing the Democratic candidate for governor. Nothing loath, Vance descended from the platform and kissed a dozen or so of the young beauties and then paused long enough to turn around toward his competitor and shout, "Settle, I'm kissing you."

When he married the second time he said to his wife on their wedding day, "My dear, I shall follow you and you may anticipate trouble. Now, in the beginning, while I am a single man, I want to give you a piece of advice. If you follow I will not get richly well. It is this: Make me a single married man."

A newspaper man who was about starting for a run on the outside portion of Vance's own state was asking him one day what kind of accommodation he was likely to find. "That'll be your own trouble," replied the senator, looking up. "That's better than nothing," said the newspaper man. "Don't you see," said the senator answered in a dubious tone. "I've tried both."—Argonaut.

### CREDIT, YET! MONEY, NO.

James J. Hill does not like to give money to people who know little of business. The widow of a former friend came to him one day. She wanted a small loan with which to open a boarding house. "Sorry, Mrs. Blank," said busy Mr. Hill. "But I can't let you have any money, do and start your boarding house."

"But I can't without money, Mr. Hill," she pined, and busy Mr. Hill, in many things. "Nothing of the kind, Mrs. Blank," said Mr. Hill. "Go and get a good house; get a bill for six months' rent; furnish the house. Send bills to me till you pay. Sorry I can't let you have any money. Good day, and good luck to you."—The Sunday Magazine.

### COMING CELEBRATION.

A little girl in Seattle, Kan., is to be baptized next Sunday, and she is proudly telling her friends that she is to be "advertised."

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only cures colds, but cures you. Try it on a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For sale by all druggists.

### FINDING THE COMSTOCK LODGE

Far Reaching Results of the Rich Strike of Silver Made in June, 1893. "You're struck it, boys." Thus, said Henry Paige Comstock in Peter O'Reilly and Patrick McLaughlin, who were his fellow prospectors in a search for gold in 814 miles from a search point, Virginia City, the capital of Nevada.

The date was June 10, 1859. In that remote spot in the American wilderness, by these three obscure men, was made that day a discovery destined to affect the current of American politics for a score of years, and to have for long a disturbing influence on the world's finances. The discovery of the rich Comstock lode, in silver, was made on that day a discovery destined to affect the current of American politics for a score of years, and to have for long a disturbing influence on the world's finances. ### MARY STUART'S BLACK PEARL.

Story of Accidental Recovery of the Scottish Queen's Necklaces in a Little Shop. A remarkable story appears in a Paris contemporary of the discovery of the black pearl necklaces of Mary Queen of Scots, which disappeared on February 8, 1587. We give the story as we find it.

A lady called had a mishap with the cord of her phonograph while touring in an obscure town in Scotland. The lady pulled up at the general shop and tried to replace the cord. The shopkeeper, not having a suitable cord, told the lady he would take the wire from an old necklace which he showed her.

She, being struck with it, said she would buy it at the price asked—12s. 6d.—and do an best she could for it. She was reaching her fingers into the neck of the necklace when she was struck with its beauty.

The lady's next procedure was to submit the necklace to an expert jeweler, who pronounced the pearls to be of very great value, and the necklace a contemporary from which we have taken the story says they are worth at least £15,000, adding that on the day of the execution the unfortunate queen of Scotland divided among her courtiers of North Carolina, diamonds and jewels, including the necklace of black pearls. How it passed into the hands of the ancestors of the shopkeeper is a mystery.

### PRIMITIVE LAW.

The Old Timer looked up from his knee, says the San Francisco Chronicle, and asked: "You think that story on Bill Smith's is a good one, eh?" "Good or bad, it's true," replied the other, said the Old Timer, "and I have heard down in Texas by the Rio Grande. I used to live down that way awhile, and in the village where I lived, my presence a certain old doctor who was then president of the place. 'What he didn't know about law was sufficient. He knew nothing, he should have been an ideal justice of the peace. His first case, however, was that of a man arrested for stealing a horse. 'Himby' or 'Himby' asked the justice. 'Not guilty,' answered the prisoner. 'Then what do you are you doing here?' demanded the justice of the peace. 'Get out!'

### FAITH IN THEIR CAUSE.

If they are three artists who have their quarrel fast that ladies' tailors must be the most righteous persons who ever invited a lawsuit, for they have confidence enough in their own cause to employ women lawyers. At a meeting of law school graduates who were headed up a lucrative profession, four women declared that their first clients were tailors.

"A ladies' tailor who does good work prefers a woman lawyer." "She has a knowledge of clothes that no man can ever hope to acquire, and if the gown fought over is a half-way decent piece of workmanship she will be able to outstep a judge and jury of the most eminent. And there is something to be gained in the advertising line, always provided, of course, that the tailor is worthy of patronage. For the lawyer will give him an order for law suits and recommend him to friends."

### CLUSTER LAMPS WILL SOON BE BURNING

#### CITY PARK STANDARDS PLACED AND WIRING IS COMPLETED.

Telephone and Power Companies Have Removed Poles and Wires from Shoshone Street Facing Park, Court House and High School.

Due to unfavorable weather conditions a delay has been caused in the completion of the installation of the city park light standards. With the weather allowing it is hoped the lamps will be placed and that a portion of the clusters at least will be lighted this evening, or at least by Saturday evening. All wiring connections have been made and the placement of the cluster lamps remains before that portion of the city will have brilliant illumination.

The poles and wires of both the telephone and power companies have been removed from Shoshone street in front of the city park, court house and high school. The poles have been taken along the side streets. This is a great improvement feature on those city squares, leaving the trees and cluster lamp standards at the street decorations.

An unusually stable cluster will be of five lamps each one 20 and 40 watt lamps to each cluster. Six clusters have been placed on either side of Shoshone street facing the city park, court house and high school. Clusters have also been placed entirely around the park, and on Fourth and Sixth avenues facing the court house and high school.

The clusters will burn during the entire night and will provide great brilliancy to the city during those hours. That portion of the city will have the distinction of being the most brightly illuminated of any in the west.

### CHOOSING HER TROUSSEAU

is one of the joys of the bride-to-be. Today in selecting and purchasing her lingerie, she doubts less that "very own" feeling which was in the heart of the Puritan maiden of yore when she drew the last stitch, folded the piece, and placed it in her great carved chest.

Puritan! The very word brings thoughts of white, clean purity, of the dear source of lavender, of soft, close stitches; of distinctive lace and cunning embroidery.

Puritan Undergarments so beautifully exemplify this thought that the bride who includes them in her trousseau has that satisfaction which is felt only by that woman who knows her apparel is perfect.

There are so many styles, and so many sizes in each style, that every woman finds it possible in Puritan Undergarments to meet her desire and to fit her figure.

See that the Puritan Label is on each garment you buy, then you will have a lasting guaranty of the material, the style, the fit, and the wear.

### COURT CONVENES MONDAY

#### Short Term Will Be Opened By Judge Stockinger—Drunks Arranged and Fined.

The Twin Falls county district court will open next Monday morning for a short term. Judge Stockinger presiding. It is likely that the session will not last longer than a month as the docket is light and is composed chiefly of minor civil cases. The most important case will be the divorce suit of the Twin Falls case, the case of Foster. Only a few of the cases docketed are criminal and are of minor importance. The cases held over from the city court Judge Stockinger returned from Avion yesterday, where he held court for the past three weeks.

#### Police Court.

Three drunks were arraigned early in the week and drew their fines and sentences. Ben Williams was arraigned on a one-day suspended sentence, and ordered to leave the city within an hour's time. He had only been released from the county jail a few days before, where he served time for drunkenness, when picked up by Chief Thompson for the same offense. J. C. Smith was arraigned for drunkenness. Charles Smith was arraigned five days for drunkenness.

### THE SENATE'S STAB TO UNIVERSAL PEACE.

#### (Los Angeles Examiner)

To the United States senate, in its quibbling, its wide-eyed policy, and its hesitation, are indicated the cause of the destruction of the most hopeful movement for universal peace that the century has known.

These great treaties with England and France would have been followed swiftly by treaties with other great nations, and the world would have been banished from the world.

The senate has killed these treaties. The president will scarcely insult England and France with the presentation of these chopped-to-pieces documents, which carry neither force nor meaning in their terms.

Lawyers as a rule and only as an imperial as any that the senate holds have declared that no possible recognition of the senate was endangered by those international agreements.

And who would weigh a "senatorial prerogative" against the world's peace? This country, already growing weary of the abuses of "senatorial prerogative" and "senatorial courtesy," will receive in the United States a fresh inspiration to the demand for their reform.

There is nothing in the last clause of Article 3 which warranted an apprehension of our country's disadvantage in arbitration. There were reasons provided for the joint commission which was to decide what questions were justiciable, and therefore subject to arbitration, and two of them are now dead.

Four out of five must agree to a verdict. So that two of our own countrymen must have voted against us to make decisions adverse to our interests final. If we were right, two of our countrymen would vote against us. And if two of our own countrymen decided against us, it would be proof positive that we were wrong and ought to yield.

The peace movement of the world is dead for a season by the senate's hand.

The common sense and the humanity of the republic rebels against the senate's quibbling vote. Public opinion, as expressed by an impartial commission, should be invoked to speak in yet louder and more compelling tones to the senate, and to the world, that struck down universal peace.

If there were any low partisan politics in this vote that feared in this world a more advanced man to a Republican president and a Republican secretary of state, then was neither independence nor dignity for Democracy nor decent public spirit in the motive.

As democracy it was cheap. As statecraft, it was contemptible.

### THORNTLESS BLACKBERRIES

A thornless blackberry is the latest discovery of a horticulturist in the town of Burbank, who is said to have worked ten years to produce it. Next he will be heralded as the originator of the thornless strawberry, the thornless rose, and a bloomless strawberry. Thornless blackberries are not new by any means. The old Washington thornless has been known and grown for over 20 years, says a writer in Farm and Home.

### UNUSUAL TEMPERATURE

#### Automatic Thermometer Records Degree Not Usual for This Season of the Year.

The Draper automatic recording thermometer, which Dr. R. A. Parrott some time ago installed in front of his office, records a great deal of activity and is observed many times a day by people passing along the street.

On each day a week's record of temperature is registered. On Monday, Monday, April 15, at 9 a. m., and ending Monday, April 15, at 9 a. m., the dial shows the temperature for any hour of the day or night.

The record for the highest temperature reached shortly after 1 o'clock a. m. on Monday, when it reached 83 degrees. The lowest point reached for the week was at 12 noon on Tuesday, at 63 degrees.

The record for the past week, which has been very unusual for this time of the year, will be given next week.

### PRIMARY ENTERTAINMENT.

#### To Be Given at High School Auditorium Friday Evening.

A primary entertainment will be given by the pupils in the first grade of the city school Friday evening of this week.

A splendid program has been prepared and a large attendance is anticipated. The first will be under the direction of the first primary teachers, Miss Gertrude Kinney, Miss Katherine Woods and Miss Hazel Hunt, of the school, and Miss Helen M. Bell, Miss M. J. Bell, and Miss Belva Peterson of the Lincoln.

confidential relations between depositors and themselves are both absolute necessities for the public welfare. "In both the historical and actual treatment of his subject, Mr. Haines said in part:

"The position of the banker and the bank in public life has not at all times been a enviable one. In early days, the respect of the nation and the system of banking is accounted in the Scriptures, which tell of Christ driving the money-changers from the temple. These men were profane in their people, exacting exorbitant usury, in direct violation of the laws, both of God and man."
