

MOOSE TICKET DECIDED ON FOR COUNTY

LEADERS WILL FILE NOMINATION PETITION IN A FEW DAYS.

Cloven Hoof of Democracy Seen in Latest Move to Embarrass Regular Republican Ticket—Hon. G. H. Martin to Speak Tomorrow.

THE NEW TICKET.

- For county commissioner—W. A. Ring, first district, D. Boyd, Buhl, second district, H. F. Harder, Twin Falls, H. B. Hanson, third district, E. B. Hanson, Hanson. For sheriff—Henry Olson, Twin Falls. For assessor—Stewart G. Arns, Hanson. For probate judge—P. S. Bohl, Twin Falls. For county school superintendent—Dora Stelander, Murtaugh. For assessor—E. A. Pearce, Buhl. For surveyor—E. V. Borg, Twin Falls. For county prosecuting attorney—Eomer C. Miller, Twin Falls. For coroner, W. H. Whyte, Kimberly.

A full county ticket has been decided upon by the Progressive party of the county. The ticket will be filed in a few days, and the ticket is being submitted to the voters at the general election November 5. The ticket has been organized in the Gilbert building and arrangements are being made for a red hot campaign.

On this legislative ticket has been filed upon, the county leaders showing to wait and confer with the Hon. G. H. Martin, of Bannock county, who has been elected on behalf of the party in this county over the following ticket which will be in circulation here.

Movement Not Sincere. Local third party men claim to know very little as to the inside working of the scheme to place a third ticket in Twin Falls county, and the belief is general that the state is the result of a secret agreement with the Democrats to split the Republican vote and thereby allow the following ticket to capture the county.

A very plausible explanation of the move comes from a known sympathizer of the national third party ticket yesterday said: "The third party move in the county is not a bona fide third party move, but is a move to do the thing that the strongest men in the movement are just as much opposed to as they ever were, but the agitators are determined to do it, and do it as they can to perpetuate the movement, and of late they have begun to believe that unless they can get the ticket actually landed in the county the old-line Republicans will abort the third party strength in the natural course of events political conditions in the county are determined whether or not the filing of a third party ticket in state and county will be a law, and personal law here it is not. The supreme court decision in the matter of the legality of the third party ticket will be handed down in a day or so, and until this is given out I do not believe the ticket will be filed. Should it be against the null Moore agitators may decide to quit-ool."

The above seems to form the consensus of opinion among the better informed citizens of the county. A Democratic move to ensure a Democratic victory at the coming election seems to be the general verdict.

TRACK LAYING PROGRESSING

RAILS HAVE BEEN PLACED THROUGH APHALL PAVING—All Crossings Open—Grade is Now Complete.

RAILS FOR THE NEW electric road have now been placed as far as Second street on Second street, completing the track through the asphalt paving on that street. The track laying will be pushed more rapidly from now on, as the paving is now being completed. All street crossings are being kept open while the track is being placed through the city. There will be no room for through traffic on streets where track crossings are to be placed and there will be no necessity of traveling out of town owing to the construction. The grade to the Falls and back over the loop has been completed and is now ready for track laying.

ONE MAN KILLED IN SHORT LINE WRECK

RUNAWAY CARS COLLIDE WITH FREIGHT NEAR THIS CITY.

Fred Tschannan, of Heyburn, Asleep in Caboose, Instantly Killed When Engine Telescopes Cars—Big Loss of Property and Merchandise.

Fred Tschannan, of Heyburn, was killed, and several thousand dollars damage and loss resulted from a freight wreck on the Oregon Short Line here and east of this city Saturday night about 11:30 o'clock. The wreck was caused by the runaway of eight cars and a caboose, from Haines, down grade, crashing into an east-bound freight as the latter was getting under headway after leaving Twin Falls. Several persons were demolished, the engine derailed and completely wrecked, and detailed and merchandise scattered broadcast in the vicinity of the collision.

While no direct blame for the wreck has as yet been fixed, it is generally believed that the brakes had not been set on the cut-off car landing on the main track at Haines. At the coroner's inquest held Monday a verdict was returned that Tschannan met his death as a railroad wreck and inferred that the crew of the train at Haines had violated the rules in leaving a portion of the train remain on the main track without the brakes set. The railway officials are investigating the wreck and a report is expected soon.

Cars Make Fast Time.

The train which broke loose at Haines left Twin Falls Saturday morning and the crew was engaged in switching cars at Haines. Eight cars and a caboose had been left on the main track. The brakes were not set, the cut-off cars started down the grade toward Twin Falls, passing through Kimberly at a speed estimated from the time they were seen to freight leaving Twin Falls, in care of Conductor William Baggs, had reached a point three miles east when the train threw some distance from the track, and the cars were coming toward their own end of the grade. They brought their train to a stop as possible as with the forest, but the crash, the caboose and several cars were telescoped and portions of the wrecked cars took fire from the engine.

When the wreck occurred Mr. Tschannan was asleep in the caboose. He threw some distance from the wreckage and it is believed was instantly killed. He was alone in the caboose at the time. He had with him a bunch of sheep from the B. Perrine ranch and was taking them home. The sheep were in the forward part of the train and were scattered about. Mr. Tschannan was a German, formerly of Illinois, coming to Idaho from Wisconsin. His wife and several children were with him at the time. His body was prepared at the Croby undertaking parlors and was sent to his former home, where his relatives reside.

Traffic Blocked.

All traffic was blocked until Sunday afternoon. The passenger train was not leaving this city until about 3 o'clock that afternoon. The moment the wreck was reported, the city was closed to work and removed as much of the wreckage as possible until the arrival of the wrecking train. The cars and train came together with terrific force, as evidenced by the complete destruction of the cars. The wreckage was piled up property, aside from corpses, is estimated at many thousand dollars. The greater portion of the potatoes, which were loaded Monday without any great loss and shipped out.

CARS BEING DELIVERED

Fair Number of Refrigerators Are Being Delivered, Loaded and Shipped Out Each Day.

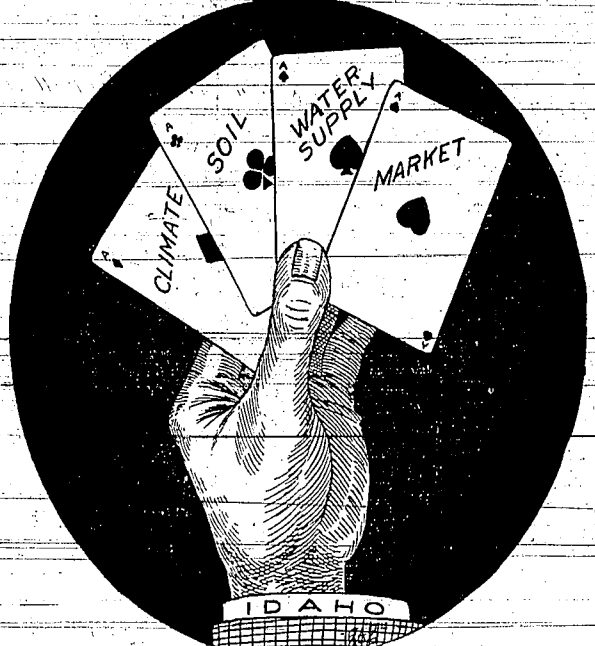

Conditions are improving in the car shortage, which has been causing great inconvenience among shippers of produce in this city for the past few weeks. While the shortage has not by any means been removed, large shipments are being made daily of potatoes and other crops, which are increasing the amount held in storage.

On last Friday 112 refrigerators were received and were immediately loaded and sent out. D. E. Butler, Oregon Short Line agent, states that an average of 30 to 40 refrigerators a day are being received each day, but that the number is being increased to that number can be on hand each day for loading. If anything is to be done, the number of cars being shipped state that the congestion would be lifted and the remainder of the season's shipments could easily be handled.

NEW PAPER AT POCATELLO.

A new newspaper has been launched at Pocatello, and is printed under the name of the Pocatello Chronicle. Truxton Talbot, a well-known newspaper man in this city, is the publisher. The paper is now published in the Commercial hotel building. This paper is a weekly, issued every Saturday, and contains eight pages.

These Are Being Trumped by the Two-Spots of Politics

POLITICAL UNDERTOW THREATENING FACTOR

TRAFT AND BORAH CLUBS OPENLY OPPOSING EACH OTHER.

What's the Ticket—Nightingham Expected—Dubois and Hargest Throw Democracy Into Disturbance from Which There is No Recovery.

Beta, October 1.—Somebody is to be carried under this year in the deadly undertow of politics, but just who that somebody is remains a problem at this time. There are wheels within wheels and there are tinner circles in the wheels.

The political confusion that existed in this community before the election has greatly increased in the past few days by the organization of a Traft league on the one hand, and a Borah club on the other. The object of the one seems to be to force all Republicans to support the straight Republican ticket of the league. It is announced that the object of the other seems to be to bring about the election of Senator Borah at any cost.

Clubs Block Each Other.

Naturally these two organizations are playing at cross-purposes. The members of the league, it is said, will give their support to no Republican candidate who is not supporting every other movement. They would seem to exclude Senator Borah from the support of the league as the senator is not supporting President Taft. On the other hand the Borah club proposes to get support for the senator from every available source, holding that his reelection is the most important duty now before the voters of Idaho. It is boldly asserted that Democrats are openly working for the reelection of the senator, and some of the other counties are for Roosevelt for president and Hargest, the Democratic nominee, for governor.

Has Wide Choice.

Harry P. Keisler, a popular young lawyer of this city, furnishes a good illustration of the political mis-union in the community. In a communication a few days ago to the local press Mr. Keisler announced himself for William Democrat, for president; for the Progressive state ticket; and for the Republican county ticket. And Mr. Keisler is satisfied that his position is logical.

When one man can thus get on three different sides of the fence that is a sign of the times. It is possible to figure out how many members of one or two parties will line up in this curious campaign.

OPENING SESSION IS SPLENDID SUCCESS

Program and President's Address Are Features of Well-Attended Gathering at Masonic Hall.

The musical department of the Twentieth Century club gave the initial program of the club year at the Masonic hall Tuesday afternoon. It is expected that much interest will be manifested in the club this season, as the meeting of this week was attended by a large number of non-members of the club as well as by a majority of the members.

The program opened with an address by Mrs. Sweetley, who presided over the club, in which she strongly encouraged the club members to make this year mark the beginning of individual ideas and work, and the combined interests of all.

Bring-Out-Individuality.

"We are part of a great federation—the national, the state and the district—are trying to bring out this individuality in all women; to get away from the idea that only a few women are capable. They are urging upon all presidents of all branches of the federation the idea of making individual ideas and work, and to give all women a chance to develop and show how capable they are."

Capable Presidents.

"It has been my pleasure and your privilege to address Mrs. Higgins at her club. I have associated with me in all parts of the work. They are as earnest with my plans as I am and can carry on their work as well. Any change in our methods is not only a change in the club in the way we believe to be best. "We wish above all things to please our members. We ask you to help us in our plans and help us work them out to success, for only by your help can any plan succeed."

Many Republicans were highly elated in the past week over the announcement that the club in behalf of the mu-

BEST FAIR EVER, TO BE HELD NEXT WEEK

EXHIBIT WILL BE MADE IN THE DREAMLAND HALL.

One Thousand Dollars in Prizes—Free Fruit and Potatoes—Good Musical Entertainments Provided—"North Side Day" October 11.

The fruit and potato fair to be held in this city next week is planned to be the best of the kind ever held in the state. The exhibition will be held in Dreamland hall on Third avenue west, beginning with Tuesday and continuing through Friday. The best entertainment will be provided each evening of the fair.

\$1,000 in Prizes.

It is announced by the committee in charge of the fair that all exhibits should be delivered by an early hour next Monday morning. All fruit, potatoes and farmers are urged to bring exhibits, the securing of Dreamland hall affording ample space for large exhibit. There will be no admission charges whatever, and it is expected that all residents of the opportunity not only to compete for the prizes but to come and see the quality of fruit and tubers that are annually being produced on the tract. All sections of the tract will be represented in the exhibit and the premium display will be in all probability be seen to the New York Land show, to be held in New York City the latter part of November.

UP-TOWN EXPRESS OFFICE

Rooms Are Opened for Business in First National Bank Building on a Shoshone Street.

The up-town office of the American Express company has been opened in the First National bank building on Shoshone street. All the facilities for the handling of express have been provided and from now on all business with the company will be transacted at this office. The up-town office will be of great convenience to patrons who heretofore have found it necessary to call at the office at the Short line depot on Second street.

GOES TO LOS-ANGELES. George Pooler, Editor of the California Chronicle, is expected to leave for Los Angeles, California, to attend the annual convention of the Grand Army of the Republic. They also spent a few weeks visiting in other California cities.

JACK COLLIER KILLS SELF WITH POISON

ENDS LIFE AT LA GLEDE ROOMS BY TAKING POTASSIUM CYANIDE.

Is Found Dead; Clipping Wife's Photo Was Believed by Friends to Be Mentally Unbalanced—Had Made Threats of Self-Destruction.

D. N. Collier, familiarly known as "Jack," committed suicide in his room at the La Gledé Rooms last Sunday morning about 2 o'clock. He was found dead at 10 o'clock by W. A. Ring, proprietor of the rooms. Collier and his wife were taking potassium cyanide. He is believed to have been mentally unbalanced, due to injuries received in a fall about a month ago, and to worry over domestic life.

On rolling Saturday night Collier left a call for 6:30 o'clock. Being awakened at that time, he gave orders for 7:30 o'clock. Collier left the room and found him dead with an empty pillbox on the floor near the bed. Collier's body was summoned and announced death due to suicide caused by potassium cyanide, the contents of which were distinct in the pill.

Clipped Wife's Photo.

When found, Collier had a photograph of his wife, Mrs. L. Collier, a daughter of Mr. and Mrs. F. J. Ferrill, of Murtagh. He had secured the picture last Saturday when he was on his way from whom he had been separated for the last two months. Three letters were also found on a table in the room. One of the letters, to his wife, stated that he held no claims against her for her position in returning to remain with him. Mrs. Collier was distressed to find the letter, and Mrs. Ferrill, who was employed at Salt Lake, where he was married, last November. Until this was known, she was believed to be the Salmon causal company, at which time he received injuries about his head in a fall at one of the local hotels in Twin Falls since that time. He had been separated from his wife for about two months at the time of his death.

Considered Mentally Unbalanced.

It is believed that Collier had been mentally unbalanced for some time past. It is reported that he threatened self-destruction to his friends on several occasions. He had cut off his hair and had cut off his hair as well as himself. He had been good-bye last Saturday when he made another threat of suicide. He had cut off great schemes and plans for the future in a manner that indicated to his friends his mental unbalance. The poison was believed to be potassium cyanide, which he had secured at the Rexall drug store about a week before his death. He stated to the druggist that he desired to kill a woman.

Collier was 28 years of age. In his immediate family he is survived by his wife and two children.

UP-TOWN EXPRESS OFFICE

Special from the Correspondents of The Twin Falls News

KIMBERLY NOTES

Kimberly, Oct. 1.—J. F. Henning returned Saturday evening from a visit to the former place in South Dakota. He reports conditions very good there, but Idaho looks better to him now than ever.

Mr. L. Hucy, deputy bank commissioner of Boise, was here Tuesday examining the Bank of Kimberly, which was found in a very satisfactory condition, as usual.

John W. Hardin and son are expected home from their visit to Illinois in a few days.

Mrs. W. F. McArthur and daughter expect to leave for Missouri and Iowa about the 10th of this month, where they will visit relatives and friends.

Henry Jones, president of the Bank of Kimberly, is loading about 300 head of cattle at Hanson today. They are to be shipped east. E. W. McIntire will go with the shipment and visit in Iowa, where he has not been for 30 years. Mr. McIntire has some doubts whether his old friends will be as kind as when he was there years in the west.

W. T. Combs has dug his potato crop, which averaged about 240 sacks per acre. This is the first crop that Mr. Combs has made in Idaho, and thinks he can do still better when he gets onto this irrigation business.

Philman is digging his apples. They are better from 250 to 300 sacks per acre. Selling at 60 cents per hundred they are netting perhaps 100 cents, which is getting into the same class as apple and pear crops for this season.

The next crop to be heard from is the sugar beets. It is thought that there are beets here that will make twenty tons per acre or more.

Wilson took his four cars of potatoes to the wreck Saturday night. Most of the sacks were shipped out again with slight loss.

W. E. McArthur has leased the O. F. W. hall building and will conduct dances in the future. An opening dance will be given Thursday evening, October 3.

A. O. Cloward has sold his improvements and lease on south east side of Kimberly to Zuck and Hays. H. Brandt of Nampa is here looking after his farm interests.

The receipts of the Kimberly post office have been steadily increasing the last year and it is thought that they will justify placing this office in the third class, which will be welcomed by Postmaster Ellis.

The sack short in the car shortage is still delaying the shipping of grain and potatoes.

H. F. Larsen of Rock Creek was here from Rock Creek and was recently shipping cattle which were recently gathered from the range.

ROCK CREEK NOTES

Rock Creek, Oct. 1.—Mr. and Mrs. A. P. Murray visited business clients in the Natick City the last of this week.

George Scott was injured last week while hauling a load of wheat to the mill. Dr. Albow was summoned, but reports the accident not serious.

H. H. Jones of Washington is looking for a location here or on the Twin Falls tract.

The auction sale at the Rock ranch was well represented from both sides.

The cowboys came down from the roundup Sunday and report a good gathering and all well in a fine condition for shipping.

Mrs. A. D. Norton spent last week in the county seat.

E. M. Crockett was a Twin Falls about Wednesday.

Mrs. E. J. Larson left Sunday morning for a two weeks' visit with friends and relatives in and about Osted.

Miss Emily Larsen is spending this week at the Norton ranch.

Mr. and Mrs. George Crockett came down from the mountains Sunday.

Mrs. Ad Patterson and children arrived home Saturday from Hooper, Utah, where they have spent the past few weeks.

Chris Peterson had the misfortune to lose one of his best horses last week.

Ad Patterson was a Hansen call Thursday.

Tom Hayes left last week for his home in Hooper, Utah.

Henry Jones and sons, Tim and Toole, are in town with a shipment of beef.

George Neuman of Three Creek spent several days last week on the Creek.

Mr. Henry Jones and family informed over from Hollister Sunday.

Miss Emily Larsen is spending a few days at home.

MURTAUGH NOTES

Murtaugh, Oct. 1.—To show of what one man can do on a piece of ground used for the same purpose for five years, we give the following: W. L. Tolman raised a crop of oats that averaged 89 1/4 bushels to the acre when threshed, and the wheat averaged 71 bushels to the acre. The same ground has raised the same crop for five years.

The O. S. L. graders were here on Tuesday to level the side track between the depot.

Wm. Goodman of Wyoming unloaded a car of furniture and implements here Tuesday.

Dr. G. Hall made a business trip to the Hub City Tuesday.

Mrs. Beale Harris is a guest of Mrs. George Decker this week.

Miss Beale Harriman of Artesian City was in town Friday on her way to Twin Falls, where she will spend a few days with friends and relatives.

Mr. and Mrs. F. Leo Johnson were Twin Falls visitors Friday.

Mrs. H. A. Snyder and son went to the Hub City Friday.

Mrs. G. H. Johnson spent a few days last week at the Hub City.

Miss Gertrude Hall left Friday for Twin Falls, where she will spend a few days with relatives.

N. W. Hall and daughter Irene went to Kimberly Saturday.

Mr. and Mrs. F. Leo Johnson left for Salt Lake, where they expect to attend the National Irrigation Congress and also visit relatives.

Chester Stevenson returned Sunday from his recent visit here.

C. W. Fredericksen and family spent Sunday at Artesian City.

A very pretty birthday surprise party was given to Mrs. Nora Bacon at her mother-in-law's home in Artesian City. About thirteen were present, very nice supper was served in the evening.

Born to Mr. and Mrs. Arthur Boyd of Murtaugh, Sunday, September 29, a girl.

SEEKS WONDERS IN TWIN FALLS

Originals Tell of Trip Through Idaho—Have Praise for Tract and Its Scenery.

Dr. E. H. Todd and Dr. Gaylord Patterson of Salem, Oregon, who are connected with the Willamette University, recently made a trip of educational inspection through Idaho, an account of their trip appearing in the Salem Statesman. That portion of the story telling of their visit to Twin Falls is as follows:

"Other Idaho wonders."

"While in Idaho we visited the Shoshone falls at the city of Twin Falls. The falls have not the flood of Niagara, but they are full of beauty. There is one fall of fifty feet and another of 212, making a total fall of 260 feet. Looking on the scene below one is able to see the Blue Lakes, which are of extreme beauty. The gorge into which one goes from this point is 800 feet deep and more than a mile across. So level is the country about this place that, standing at a distance from the gorge, one would not know that it is in existence.

"The citizens of Twin Falls are highly progressive. Though the town is only seven years old, and the surrounding country was desert five years ago, the town has a court house, a fire department, a school, a bank, a street car, and a city hall. The streets are well paved and parks are provided for in the center of town. The schools are modern and \$20,000 and \$50,000 churches are being built.

"Tells a yarn.

"Now I am going to tell you a yarn. You may publish it if you think it is new. I saw a wheat field three miles from Twin Falls that was yielding seventy-two bushels to the acre, and it raised a crop every year. The big yield is a result of irrigation and the sowing of alfalfa along with the wheat. And yet five years ago the country was a desert. Another field raised fifty-eight bushels to the acre one year, fifty-four the next and fifty-one the third year."

During the summer months mothers of young children should watch for any unusual position of the bowels. When great prompt attention at this time serious trouble may result. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers. (Advertisement)

THIS IS THE RIGHT PLACE
OSTRANDER LUMBER CO.
Shoshone St. & O. S. L. R. R. Track
Twin Falls Idaho

Nisbet's Sub-Division Buhl Idaho
Opening October 5, 1912

This adjoins Buhl on the west at the south corner, just six blocks from the new high school and ten blocks from the hotel and eleven blocks from the depot. The Electric Railway Company is asking for franchises on streets in town, which, if given, means an electric line along the east line of the property and on Main street, which is two blocks east of it. It means that this is practically in town, as it is but a few minutes' walk to the business center.

The lots are large enough to raise 500 or 600 chickens on them, which can be cared for by the housewife and the husband work in town. The profits on the chickens will pay for the lot within one year.

SIZE OF LOTS.
Two corner lots, 70.25 ft. x 240 ft. Lots will be sold for as little as \$5 down and \$5 per month.
Tracts will be sold for \$10.
Tracts contain about two acres. down and \$10 per month.

In every established commonwealth you will meet elderly gentlemen who will say: "Had I over dreamed that this town would grow as it has, I would have bought all the land and town property means permitted and even gone as far as to have borrowed money to get possession and then sold to those who came after, and become independent. But, like many others, I did not look far enough ahead. The men who are the future from the start are the wealthy ones in our midst today. They own the business lots and residence property. The cheap acreage is now all built up with residences. All this because we did not heed the call of opportunity. The younger generation should profit by our experience."

ROGERSON NOTES

Rogerson, Sept. 30.—Mrs. C. Romeo and children from Marion, Iowa, arrived here Saturday and as soon as their household goods arrive, located on a homestead two miles east of Rogerson.

Ed Busell came out Saturday evening and returned to Twin Falls on Monday. He reports the charter for the bank a sure thing and the building will soon be under way.

H. P. Gibbs spent Sunday at Twin Falls.

H. McMillan went to Twin Falls Friday evening.

J. E. Schiller and Mr. Harris were over the O. S. L. taking an inventory of track material on hand last Saturday.

C. C. Stevens of Elletts is visiting this town, Ames Stevens.

Dr. Thompson of the Denver has been here Saturday.

Arthur Pence and family went to Twin Falls Friday for a few days' visit.

Frank Frost has sold his team, wagon and harness to J. E. Scheller of Twin Falls.

Mrs. C. West is visiting at Elletts.

John McLean went to Jarbidge with a load of provisions last week and will remain in camp a few days.

Mrs. O. Vandenberg went to Twin Falls Friday.

Mrs. W. O. Pond returned home from Elletts on Tuesday of last week.

C. E. Barker's motor car was taken to the engine last Saturday to be taken to San Jacinto, Nevada, to run a large diesel plow for the Vineyard Land and Stock company, who expect to plow several thousand acres of land for spring seeding.

J. Bratton, Mrs. P. Gillfill and two daughters arrived Friday evening from the school house in Sandberg. They were conveyed by team to Three Creek Saturday.

Rev. Mr. Wallace held services at the school house in Sandberg on Wednesday.

E. Ware came out Friday from Twin Falls with a car of Lincoln buxks for Arthur Pence.

Wm. Fausett of Cedar Creek was in town Saturday.

Miss M. Mickelwell has been employed as teacher at Rogerson and began teaching last Tuesday.

AMSTERDAM NOTES

Amsterdam, Sept. 30.—Born to Mr. and Mrs. Arthur Peters, September 29, a girl.

Mr. and Mrs. William Stuart visited at the Deener home in Rogerson on Wednesday. The following Friday evening they went to Twin Falls and from there, with their daughter, will leave for California in a few weeks.

Mr. Durfin made a business trip to Amsterdam the first of the week in the interest of the Consolidated Wagon and Machine Shop of Twin Falls.

Arthur Link has changed his second-school year, which started to make its rounds last Tuesday morning.

Al Hegeler and son will spend Sunday in Twin Falls.

Several of the electric light men drove to Twin Falls Saturday.

Mr. Pettit a representative of the Salmon River Lumber company, from Salt Lake, was here on business last Friday.

Mr. Berg of Twin Falls was in town Sunday evening.

Clarence Coffman and Dale Kunkel drove to Twin Falls last Friday.

The threshing men are busy in the vicinity of Amsterdam these days. The wheat is yielding from 20 to 35 bushels per acre. Mr. Voss had some barley which yielded 53 bushels per acre.

Clifford Dryden drove over from Rogerson Sunday. He was accompanied home by Mrs. Dryden and the second-school year, which started to make its rounds last Tuesday morning.

Miss Kunkel and Miss Tipton drove

Warning!

Railway Officials Predict a Great Car Shortage

There are some strains in the coal trade, and these strains seem to be indicating the approach of one of the most serious car shortages that this country has had in a number of years. In this respect we are not making any prophecy on our own account. On the contrary, we are repeating the words, not of men with coal to sell, but of various railroad officials, who have made confessions of railroad incapacity and want to warn business men to prepare for a squall.

A railroad president, who has been at the head of transportation lines for over twenty-five years, made the definite and positive prophecy that the shortage of cars this year will be more distressing than it has been in twenty years. To substantiate his statement, he recalls the rather acute shortage of short duration which came in 1902, which was caused by railroad terminal congestions and which was bothersome for a matter of several weeks. He recalls the definite car shortage which came the first of January, 1910, and lasted for something over three weeks. He recalls other definite periods of car distress of short duration, and points out definitely not only the cause but the effect of those shortages.

Then he makes the startling announcement that the shortage of cars which is coming, as he says, on or shortly after the first of September, will be not only more intense than those earlier periods, but it will last in all probability through the remainder of this year, and will likely last until the weather moderates again next spring.

THE THIRD COUNTY TICKET

It seems almost impossible that any group of men of whatever political faith could lend themselves to a movement which has but one certain effect, and that aimed at the very accomplishment which means the most to the people of Idaho.

It is difficult to see just what object it is hoped to accomplish by such a step in this county. Is not the Republican ticket composed of progressive men of business experience and acknowledged ability?

The fact that those men who have all along been regarded as the leaders of the progressive

element in the county claim to be altogether in the dark regarding this latest move would seem to lend strength to the only explanation which at this time seems to explain, namely, that the move is engineered solely in the interests of the Democratic party and is, in fact, merely a piece of Democratic politics and not a bona fide third party movement at all.

This fact is freely stated on the streets of Twin Falls and there is much to back up such a view. That a third party ticket will be placed on record within the next few days is generally looked upon as assured and that the same will be accepted by the voters at its true face value is altogether likely.

THE REPUBLICAN TICKET

Voters—Republicans and Democrats alike—have nothing to feel ashamed of in the personnel of the Republican ticket of Twin Falls county. The Republican candidates are representative men in this county, and by reason of their ability and character are entitled to consideration by men of all parties.

The News will, within the next few weeks, present in concrete form the reasons for the election of the county ticket, from state senator to precinct constable.

NEW POSTAL REGULATIONS

The new postal regulations making it necessary for publishers to submit sworn statements of circulation to the national post office department should be welcomed by publishers as well as by the public—particularly the advertising public.

The News is glad of the opportunity to prove beyond question the extent to which its

circulation has grown since the first of the year. The News has over five hundred more subscribers on the Twin Falls tract than it had on the first of January last, thus making its total circulation much the largest of any newspaper east of Boise in the entire state.

The News is very grateful to the people of Twin Falls county for its support, and to merit a continuance of the confidence reposed in it will be the constant aim of the owners.

THE PUBLIC HEALTH

That the half dozen sporadic cases of typhoid reported in Twin Falls during the past month are due to flies is the opinion of a prominent local physician.

Notwithstanding all that has been said on the subject, including the splendid efforts of State Pure Food Commissioner Wallis, many people persist in ignoring this prolific source of disease.

Get rid of the flies and the public health will take care of itself.

FILER FIELD DAY

It would be difficult to find better fruit any place in the world than that shown at Filer on the occasion of the recent annual Field Day. Filer land is second to none on the tract when it comes to fruit production, and this fact is well understood here.

THE CAR SHORTAGE

One hundred and twelve refrigerator cars come on the tract one day last week. This is a step in the right direction and one which is not unappreciated. However, the demand for cars is still heavy.

A DISTINGUISHED GUEST

Twin Falls has the honor of entertaining this week a distinguished divine. Dr. A. C. Gabelen, who is here conducting the Bible Conference, is a preacher of marked ability and a prominent author. A profound student of Scripture, it is a rare privilege to listen to

his masterly expositions and an opportunity which Twin Falls people can ill afford to lose.

UP-TO-DATE CAMPAIGN MATERIAL. The claims of General Campa, the Mexican revolutionist, that he is the only patriot and that his fellow revolutionists are grafters sounds like an extract from a campaign speech.

If Campa wants a job he should apply to Chairman Hilles or Dixon. Either would appreciate his abilities.

Courts were established as a necessary part of social organization in the days when tribal government represented the height of man's advancement.

Those who are the chief yowlers today against the courts should start at the beginning of things and inform the people of their real grievance against judicial tribunals. Those whose great-great-grandfathers were hanged for crimes under the orders of the court are carrying their prejudices pretty far.

Roosevelt refers to the Taft men as "yellow" and "dishonest" and says that any man that wears a Taft badge has a yellow streak and is a dishonest man.

Great campaign argument, Colonel!

Some of the planks in the Democratic platform may be all right, but it is evident that the Democratic house preferred that they continue to be planks in a platform rather than laws on the statute books.

The reign of the present board of county commissioners is about over. A thirty per cent increase of taxes is a poor argument for re-election.

Wm. J. Bryan's comparison of Taft to a boulder in a stream was no doubt an unfortunate slip of the tongue. A substantial boulder is much to be preferred to "shifting sands."

A. M. Thrift of Decatur, Illinois, left for his home this morning after spending a few weeks on the tract. Mr. Thrift owns property here and comes each year to look after his interests. He expressed his opinion that the Twin Falls tract is ahead of any other county in the west or middle west, and that it looks better to him each time he returns.

EPIDEMIC AMONG HORSES

Editor News: Nothing has attracted my attention so much as the article in your issue of the 26th in regard to the horse epidemic in the middle west, which claimed because it was not contagious. It was not in the forest here, but in the Twin Falls tract.

According to reports from that section the disease has spread to the east, to Iowa, Missouri, Oklahoma, eastern Colorado and eastern Wyoming, as well as Kansas and Nebraska.

It matters little whether the sick swine die or whether his animal dies from a contagious or an infectious disease. Authorities tell us that this disease is infectious through contamination of the food and water supply, and very probably by the bite of flies, and especially that of the large horse fly.

Yellow fever is not contagious, but infectious, the virus being transmitted from one victim to another by the bite of the mosquito. Texas fever is infectious, but not contagious, being transmitted by the bite of the tick, yet we quarantine against both of these diseases. At present South Dakota and Missouri have both established a quarantine against this disease.

What we the people of Idaho should have and demand as one man, is a strict quarantine against all points east of the Rocky mountains. Not only against the horses, but also the hay and grain which might come from the infected regions. If animals infected were turned on our pastures, there is no telling where the disease would spread.

AMUSEMENTS

Opera House

There will be scenes at the Orpheum the last three evenings of this week one of the strongest films of national interest, and one that should demand the attention of all those looking out for the good of the rising generation.

This photo-play will be "The Cry of the Children," taken from the poem of Elizabeth Barrett Browning. In this the child labor question is pictured in its reality. A drama and a comedy will complete the program for Thursday, Friday and Saturday evenings.

On Friday and Saturday evenings of this week the Isis will show an excellent program of photo plays, the main reel of the evening being "The Foster Child." The story of this drama deals with a subject that demands real acting. The adoption of a child, the child's career in an orphanage, the child's career in the world, forms the story for the play. "Madame de Mode" is an odd comedy, but intensely interesting. It touches upon a humorous subject, the publishing of a love-love column in a newspaper. Another drama is "The Black Sheep," which shows life on a ranch in southwestern California. An Indian tale, "The Unwilling Bride," forms the subject of another film. A series of cartoons, which are accomplished make this play very interesting.

"The Nation's Peril" is a two-reel film which will be run Monday and Tuesday evenings. This deals with international complications, and the scenes are laid in a coast artillery fort. The explosion of a battleship forms one of the features of the film. A comedy and a drama will complete the program for these evenings.

ACCIDENTAL SHOOTING

S. M. Smith, Cashier of Wendell Bank, in Saratoga, California—Dr. Wilson and Boyd Are Summoned.

S. M. Smith, cashier of the Wendell state bank, was seriously injured from the accidental discharge of a revolver, which he was handling Wednesday morning about 9 o'clock. The gun was one which belonged in the bank and Mr. Smith had incidentally picked it up when in some way it was discharged, the bullet passing into his abdomen through the stomach, and lodged in the back. Dr. Boyd and Dr. Wilson were summoned from this city and express hope for his recovery, although the outcome will not be definitely known for a few days. Mr. Smith is a young man and had been married just a month.

ESTABLISH POST OFFICE

Amsterdam Men Report Step in the Right Direction for Thriving Salmon River Town.

Guy J. Peters and Henry Korthuis of Amsterdam spent a day in Twin Falls this week. Mr. Peters is proprietor of the Amsterdam hotel, which recently opened for business.

Both men speak in glowing terms of crop conditions around Amsterdam and both are highly impressed with the future of the bustling little town. A post office is to be opened at Amsterdam in the near future, or which Garrett Peters will be postmaster. The rapid growth of the town has rendered this step necessary much earlier than was at first anticipated.

Local Brevities

Robert Brown spent Sunday on his ranch at Rock Creek.

P. A. Purdy of Rogerson was a business caller here Friday.

A. C. Fouts came down from Burley on a business trip Saturday.

Born to Mr. and Mrs. Nick Smith Saturday, September 28, a boy.

Miss Wilson of Burley spent Sunday in this city with friends.

W. R. McArthur was a business caller in this city Friday from Rogerson.

H. D. Clinion spent a few days of last week at Boise on a business mission.

Mrs. Laura H. Locklin returned Friday from a visit with friends in Heyburn.

Dr. W. F. Duckett of Hollister was in Twin Falls the latter part of the week.

William L. Barker of Elko, Nevada, is the guest of Earnest Egan for a few days.

Principal E. R. Dooley of the Filer school made a brief visit in this city Friday.

W. H. Craven, the Hollister banker, spent Monday with local business friends.

Mr. and Mrs. C. J. Miller of Buhl are spending a few days at the Rogerson home.

Mr. and Mrs. J. H. Barton came in from Boise Monday on a short pleasure trip.

Mr. and Mrs. Leon Phillips of Jerome were Monday shoppers at the retail stores.

T. H. Lamb was over from Jerome Tuesday on a combined business and pleasure trip.

H. P. Gibbs was among the business visitors in this city from Rogerson this week.

Guy J. Peters and H. Korthals of Amsterdam are business visitors in the city today.

Theodore Bok of Seward, Nebraska, was among the land seekers on this trip last week.

H. P. Patten of Salt Lake City was looking after his interests on the tract this week.

T. T. Rutledge came down from his ranch at Arlesian City Saturday for a short business trip.

Dr. J. H. Coulter of Detroit, Michigan, is in this vicinity purchasing produce for eastern markets.

Mr. and Mrs. F. Lee Johnson of Murtaugh were business callers here the last of the week.

Mr. and Mrs. Frank Blount of the North side here at Jerome were visitors here last week.

J. H. Maloney of Albion was looking after business interests in Twin Falls the last of the week.

John Janney of Salt Lake City spent several days here investigating his interests on the tract.

Attorney J. H. Wise has returned to the city after a few days spent in Albion on legal business.

Paul E. A. Biecki came over from Wendell Friday and spent a few days visiting with old friends.

A. N. Sprague spent the latter part of the week on business connected with his interests at Burley.

H. P. Larson, a prominent rancher of Rock Creek, spent Tuesday on a business trip to this city.

Mrs. L. R. Adams came down from Rupert Tuesday and spent the day visiting friends and shopping.

J. R. Curries arrived Friday from Merrill, Nebraska, and is making an investigation of the resources of the tract.

Mrs. Frank R. Gooding of Gooding, Idaho, is the week-end guest at the home of Mr. and Mrs. R. M. McCollum.

M. M. Goodenough of Seattle arrived in the city Monday for a week's visit and to look after his realty interests.

Mrs. S. D. Perrine and children left yesterday for Rheobates, and to spend the remainder of the week visiting with relatives.

Sherrif H. C. Vanaudefin returned Saturday from the Capital City where he had been for several days on official business.

O. F. Bacon, one of southern Idaho's largest sheep owners, spent the last of the week looking for hay for winter feeding.

Mrs. C. O. Longley is again at her home here, after the summer spent visiting at her old home at Crookston, Minnesota.

D. N. Nett, post office inspector of Boise, paid the local office a visit Tuesday and found everything in excellent condition.

H. N. Ward, who spent the summer with his daughter, Mrs. A. W. Huston, has gone to Los Angeles to spend the winter with a son.

ASKS BETTER ATTENDANCE

President Hanco Urges Commercial Club Members to Take More Interest in Club Meetings.

R. E. Persinger, of Decatur, Illinois, C. L. DeLong, Twin Falls, representative of the Boyle Commission company of Wichita, Kansas, Dr. J. R. Morgan of this city, and President Hanco of the Commercial club were the speakers at the luncheon yesterday noon. Dr. G. G. Scott and Dr. T. O. Boyd were announced as speakers for the hour, but both were called from the city and could not be present.

Mr. Persinger is one of the pioneers of the tract, although he does not make this his home. He came to Twin Falls when two buildings were all that the now Magic City could then boast. He is associated with John Hardin of Kimberlin in fruit growing and visits the city and tract at least once a year. Each visit proves to him the wisdom of his investments here.

Mr. DeLong spoke of the conditions on the tract far beyond the present and that no better place can be selected by large groups of houses than Twin Falls as a source of supplies. He announces that his company is taking large quantities of potatoes from the tract each week and that sub-offices are being established throughout southern Idaho, the Twin Falls office being the headquarters. He is more than pleased with the present condition and the prospects.

Dr. Morgan spoke of the necessity of cremation of garbage and refuse as a preventive of disease. The food of the house fly as a carrier of disease from refuse pads, and both as an element of civic cleanliness and health measure urged that all refuse be destroyed.

President Hanco took occasion to urge upon the club members a better attendance at the noon luncheon where matters of interest to the city and tract can be discussed. The membership of the club has increased and it is his desire that each member become a committee of one to secure a better attendance. In his opinion the time is ripe for the installation of a canning factory for the surplus products of the tract as a means of marketing.

One reason that all the members of the board of directors could not be present at yesterday's meeting, no definite action was taken with regard to the resignation of Secretary Spangler. The resignation was presented and a decision will be postponed until a meeting of the entire board can be secured.

Miss Southworth came in from her home at Castleford Monday and after spending the day shopping returned Tuesday to her home.

Mrs. W. A. Coleman and Mrs. P. E. Hughes, both of Eugene, Oregon, were the guests of Mrs. St. John Edinger the first of the week.

Mr. and Mrs. D. C. Keyes came down from Burley Saturday and remained over Sunday, spending the day visiting local scenes.

Matt Hoover and Garret Fort, who are employed on the great surveying the electric line out from Buhl, spent Sunday with friends here.

M. M. Goodenough, a prominent Seattle druggist, stopped over in this city while on his way to the Salmon tract to look after his interests.

Mr. and Mrs. W. D. Trager have been visiting friends here this week. They will spend the early winter proving up on their ranch near Berger.

STUDY HALLS ARRANGED

Each Department Equipped With Special Library—Good Manual Enrolled in Manual Training.

The arrangement of the study halls in the high school are of the most up-to-date method, and are proving satisfactory to all students and teachers. Each hall contains a library pertaining to the subjects which are to be studied there. Every pupil must report at a study hall during his or her vacant periods, and to that particular hall which contains the library for which study he or she is to prepare. The heads of the departments have charge of their respective rooms and conduct each study period. French has been added to the curriculum of the school and a number of pupils have enrolled in the classes.

Manual Training.
The manual training benches have been installed, and there are 12 individual benches, and the same number of sets of tools, besides six general sets. In connection with the main floor there is a locker room, where all finished or unfinished work is kept. A timber room is adjacent, and here all raw materials are stored. At present there are 26 enrolled in this department.

Four Years on Ten Acres

Remarkable Record from Sagebrush is Accounted on the S. H. Bolton Orchard Tract Adjacent to This City.

The accompanying illustrations speak volumes for what had been accomplished on a ten-acre tract in four years. The home and orchard tract of S. H. Bolton, located less than one mile east of this city on the Kimberly road. There are fortunes in the small tracts, and the following description will, in part, tell what can be done by intensive cultivation on a small tract.

The land of which our farm is now a part," said Mr. Bolton recently, "had been planted to white beans in 1907, being planted in white beans. We purchased the farm in the spring of 1907 for the record price, at that time, of \$250 per acre. We were told that we would never get our money back. We began making improvements, and two-and-a-half years ago we were offered \$10,000 cash, and we refused the offer, knowing that in five years' time we can get \$25,000 for the

its first crop from the sagebrush in 1907, being planted to white beans. We purchased the farm in the spring of 1907 for the record price, at that time, of \$250 per acre. We were told that we would never get our money back. We began making improvements, and two-and-a-half years ago we were offered \$10,000 cash, and we refused the offer, knowing that in five years' time we can get \$25,000 for the

All Space Utilized. "Every foot of our soil is cultivated. The illustration shows what we will do, we believe, another year of making money while money grows. Here we have an acre lot of alfalfa, fenced in, with three rows set-trap pigs. With the trees are growing 23 pigs, 50 chickens, four turkeys, seven geese and three ducks are all grown, while the beans are starting up.

As it is Today.

Photo by Blebe.

place, and at that price it will pay a good income on the investment. Trees Make Good Record. "While building our home and making other improvements," Mr. Bolton further says, "we planted our orchard. We planted trees selected for us by L. B. Perrine from the J. A. Waters nursery. The larger part of the orchard is planted to Home Beauty apples for our winter's supply. We always keep two Jersey cows, so that we have plenty of milk and butter. The surplus of which sells readily, also the 'hen fruit.' This combination insures a living 'fit for a king.' From now on an income is assured, with an increasing tide as the years come. Asked if ten acres in orchard were sufficient, Mr. Bolton replied that it was, and that a man will not find

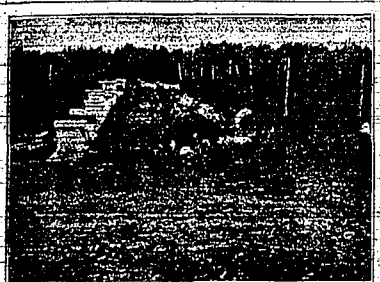

money for our winter's supply. We always keep two Jersey cows, so that we have plenty of milk and butter. The surplus of which sells readily, also the 'hen fruit.' This combination insures a living 'fit for a king.' From now on an income is assured, with an increasing tide as the years come. Asked if ten acres in orchard were sufficient, Mr. Bolton replied that it was, and that a man will not find

Photo by Blebe.

ly attractive. Large apple trees and gardens of roses, shrubs and assorted flowers around, and the home is equipped with all modern conveniences, including electric heat and light and hot and cold water, supplied from a well. "We lived in Chicago for 35 years, but sunny southern Idaho is our abiding place. We have come to stay. We hardly believe ourselves that so much has been done since 1908. It is a marvel."

Easy to Learn. Mr. Bolton further said that though he had had no experience as an orchardist, he is in irrigation before coming to Idaho, that after all it is easy to learn. If one will only show an aptness or willingness to work. In his opinion, to properly produce an orchard on the Twin Falls tract is largely a matter of using good judgment and reading such papers as "Better Fruit" published by E. H. Shannon of Hood River, Oregon, and following the suggestions of C. W. Brannan, fruit inspector, of this city. He assures of the fact that the success in entering the fruit industry that fruit culture is easy to learn in all its branches and that it is a work interesting, pleasant and profitable.

CANAL TO OPEN OCTOBER, 1913. In thirteen months a vessel will go from the Atlantic to the Pacific coast through the Panama canal according to revised estimates made public on September 19 at the Panama Canal Commission. October 15, 1912, is the tentative date set for the passage of the first vessel through the canal. A naval vessel will be selected for the initial trip. The formal opening of the canal will occur on January 1, 1916. It is announced. Commercial vessels will have the shortest route in December, 1914. That the canal will be completed far below the estimated cost of \$400,000,000 is reported by Colonel Dyer. About another \$100,000,000 will be saved in bond interest charges. The total amount of excavation work at estimate was about \$242,340,000 yards. A recent increase of more than 16,000,000 yards in the estimates was caused by the slides in the Ohio division. The amount of excavation up to September 15 was 218,000,000 cubic yards, leaving approximately 24,000,000 yards still to be dug. The average rate of excavation per month is now about 2,600,000 cubic yards, and all the digging should be finished before September 15, 1913. The big dam, locks and spillways are in various stages of completion, from 75 to 90 per cent. It is estimated that the main locks will require about 2,000,000 cubic yards of concrete work. The concrete work of the Pedro Miguel locks is nearly 95 per cent completed, and that of the Miraflores locks over 92 per cent. The Gatun spillway will probably be finished within another month. Other engineering features show an equally advanced stage.

THE AUTOMOBILE INDUSTRY. Bearing on the wonderful development of the industry, the "Automobile" has recently printed some remarkable figures and facts. For instance, that over 97 per cent of the Nebraska owns an automobile; that there is one car in this country for every 110 people; that the number of motor cars in Maine increased 67 per cent in six months. Between January first and July first, 1912, 895,858 cars were registered, the percentage of increase over the year 1911 being 18.8 per cent. No less than 801 new automobile companies have been incorporated in 1912 with a total capitalization of \$138,958,740, while automobile exports in the first five months of 1912 have been \$11,139,235. Between July first, 1911 and July first, 1912, no less than 252,659 cars were produced in this country. New York state leads with 93,427 automobiles, and California is second with 78,603. Commercial vehicles have increased more slowly, there being but 2,174 on July first last, but this is the branch of automobilism in which there is the greatest possibility for future expansion and development.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing, drying, and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. Write for a list of dealers. NEW FIRM INCORPORATES

Twin Falls Real Estate and Trust Company Opening for Business With \$100,000 Capitalization.

The new realty firm, to be known as the Twin Falls Real Estate and Trust company, has been incorporated under that name with a capital of \$100,000. The officers of the company are: D. M. Denton, president; S. H. Bolton, vice president; and W. C. Williams, secretary and treasurer. They are now located in their new office, 123 Main avenue east, just west of the Regerson hotel. The officers of the new company have all had years of experience in the real estate business, buying and selling city property and farm lands, handling farm produce in car lots through extensive consigning, advertising in the eastern press and bringing prospective buyers to the Twin Falls country, showing no preference between the North Side, South Side or Salmon tract, but working for the upbuilding of the entire Twin Falls country. They have interested eastern capital in loaning money at a fair rate of interest on first-class security, and will work for the best interest of both buyer and seller, giving every one a square deal. A cordial invitation is extended the public to visit them in their new office.

READ ME

A farm of 339 acres in Allen county, Kansas, adjoining town. Parties will consider trade on Twin Falls land. A bargain. No. 2-100 acres in Quay county, New Mexico; good soil, some improvements. A bargain at \$1,500, or will trade for Salmon tract. For the next ten days we have the best 160 on tract, improved and with crop. Let us show you. HUNTER, HEBBARD, Amstaradam, Idaho. (Advertisement)

THE FARMER'S OPPORTUNITY

I am offering my thoroughbred sheep for sale to the farmers of Southern Idaho and will give them a chance to pay for them out of the increase. I shall not ask for any cash payment, but will expect proper security to be given. Full information will be furnished to any farmer who will write to me at Gooding, Idaho. I am not willing to sell my thoroughbred sheep to any farmer who has only alfalfa pasture. Write for information. I am satisfied this is your opportunity. If you want to run a small flock of sheep on your farm, I am offering thoroughbred investigation in different parts of the state, where sheep have been run on alfalfa pasture. I wish to withdraw the exception, and that of the Miraflores locks over 92 per cent. The Gatun spillway will probably be finished within another month. Other engineering features show an equally advanced stage. (Advertisement)

For aches of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers. (Advertisement)

E. W. COLE ASSUMES DUTIES AS MANAGER

MAN OF EXPERIENCE IS NOW DIRECTING POTATO SHIPMENTS

Has Filled Similar Positions in Texas—Is More Than Pleased With the Tract—Heavy Orders Continue to Come to Association.

E. W. Cole has assumed his duties as manager of the Twin Falls County Potato Growers' association. He comes from Wharton, Texas, and before coming here was for eight years manager of a farmers' produce association. He arrived in this city last Saturday.

As manager, Mr. Cole will have direct charge of the selection, shipping and sales of potatoes through the association. He has had several years' experience along this line and will be

able to place the Twin Falls tubers on the best markets throughout the country. Secretary Gorrell will continue in charge of the office. The office of the association are permanently located in the Bank and Trust building.

Pleased With Tract. Mr. Cole has never before been in Twin Falls. Although having been born in Texas, he has seen the tract in one of the finest sections of country he has ever visited. He says that he is more than satisfied with the tract as it stands of the tract as an agricultural community. He finds more here, with still greater prospects, than he has expected from information received of and concerning the tract. Secretary Gorrell announces that heavy orders continue to come to the association by mail. Both refrigerator and box cars are being loaded and shipped out as fast as they can be received. Single orders of from 10 to 15 car lots are being received and it is expected that a big shipping record will be made by the association this year.

HORSES ARE BEING STOLEN

West End Ranchers Are Losing—Searching Party Catches Thieves—Across Nevada Line.

West end ranchers are reporting the wholesale theft of horses, and searching parties have succeeded in rounding up many of the horses and in catching some of the thieves. Vernon Calhoun, of near Buhl, has lost 30 head of horses during the last two weeks, some of which he has recovered. After losing four fine saddle horses William Walters, of Three Creek, and a party of men followed the trail, across Nevada, and caught two of the thieves, one of them being Otis Robinson of Broken, and the other a man known as a horse thief. At one place a stolen horse had been encircled by stacking, held half about it, thus throwing searchers on the track, as the hay presented the usual appearance of a stack of hay ready for shipment.

WELL-KNOWN NURSE DIES

Mrs. Woods Succumbs to Illness of Several Months—Home in Iowa.

Mrs. Mary C. Woods, aged 54 years, died at the home of C. B. Lind on Seventh Avenue east Saturday evening after a prolonged illness of several months. She was born in Iowa, her home was in Griswold, Iowa, was a professional nurse and a member of the Presbyterian church in Twin Falls. Funeral services were held in the Crosby and company parlors on Monday evening at 8:30 o'clock, the Rev. Dr. Anderson officiating. The body was shipped to Griswold, Iowa for interment, where the deceased leaves a daughter and other relatives.

CARD OF THANKS

We take this means of expressing our appreciation of the many acts of kindness and consideration rendered by our friends during our recent bereavement. To one and all we tender our heartfelt gratitude. MRS. G. B. KENNELLEY and Family.

Drs. H. W. and Dina C. Sawyer, osteopathic physicians, wish to announce the removal of their offices from the McDonald building, 113 Main avenue east, to the Smith building, Main avenue north, opposite the post office, after October 3d.—Advertisement.

ENLARGING STORE

Receipts of legitimate merchandise are exemplified in the fact that the clothing firm of Straus & Glauber are doubling their capacity and are building a large extension to their store, which, when completed, will make it the largest exclusive clothing store in Twin Falls county.

PRESBYTERIAN GATHERINGS

Twin Falls Presbytery and Synod, of Idaho Will Be Held Here Next Week.

The Presbytery of Twin Falls will meet in the Presbyterian church next Monday evening, October 7, instead of hearing the moderator's sermon, as is the custom, the Presbytery will hear an address by the Rev. E. Morgan Ferguson of Philadelphia, on Sabbath school work. Dr. Ferguson is an expert on Sabbath school problems, and should be heard by all Sabbath school workers.

The Synod of Idaho will meet on Tuesday evening, October 8, and will be opened by the Rev. E. Morgan Ferguson, moderator, Dr. J. H. Barton, of Boise, and will continue its sessions until Thursday evening. The business sessions will be during the day and the evenings will be given over to popular meetings. A number of prominent speakers will be present. Dr. J. McMillan of New York will speak on Tuesday evening. On Wednesday afternoon Mr. Bigelow, owner of a Chinese girl in San Francisco, will speak on "The Wednesday evening, Dr. W. J. Doon, president of the College of Idaho, and Dr. R. M. Donaldson of Denver will be heard.

The place held by Mrs. Beckwith and Miss Glendon was exceptionally well blended. Mrs. Laney sang an exquisite solo in her usual delightful manner. Mrs. Kenney gave a beautiful reading in a very expressive manner. Mrs. T. J. Woods and Miss Combs sang a duet which was one of the most artistically rendered numbers on the program. The afternoon closed with two pleasing selections by the mandolin club, under the direction of Mrs. Hagan, who also accompanied the several vocal selections and the reading by Mrs. Kenney.

OPENING SESSION A SUCCESS.

(Continued from Page 1.)

also department and presided gracefully during the remainder of the meeting. Every number given was an illustration of the amount of talent which the department boasts this year.

The place held by Mrs. Beckwith and Miss Glendon was exceptionally well blended. Mrs. Laney sang an exquisite solo in her usual delightful manner. Mrs. Kenney gave a beautiful reading in a very expressive manner. Mrs. T. J. Woods and Miss Combs sang a duet which was one of the most artistically rendered numbers on the program. The afternoon closed with two pleasing selections by the mandolin club, under the direction of Mrs. Hagan, who also accompanied the several vocal selections and the reading by Mrs. Kenney.

The musical department of the twentieth century club is one of the best in the state of Idaho, and the people of Twin Falls may well be proud of the work they accomplish.

Card of Thanks.

To our kind neighbors and friends who so willingly tendered and gave their assistance to us in the hours of our bereavement, and to the organist and choir who furnished music at the funeral services, we wish to express our heartfelt appreciation and thank. MRS. SUSAN MAOAULEY and Family.
