

DUBOIS IS NOW ON HIS WAY TO IDAHO

(Special to The News.)

Boise, Jan. 1.—Can Fred T. Dubois come back?

At the opening of the new year this is one of the political questions that are being asked in Idaho.

No shrewd politician with a memory running back over the past twenty years of Idaho history is fooling himself as to the ability to jump from side to side in politics and land on his feet under circumstances that would mean disaster to him.

It is remembered that Dubois has been elected to the senate by Democrats as a Democrat and by Republicans as a Republican. He has been the beneficiary of many combinations formed between the two regular armies—such as Populist-Silver Republicans and the like.

Information reached the capital in the past week that would seem to justify the prediction. It is known that Senator Perky and Dubois quarreled in Washington, came the senator returned positively to join Mr. Boies in a crusade against the Mormons.

It is known also that when R. S. Sheridan, the manager of the Capital News, and J. H. Gipson, the chairman of the Boise state committee, were in Washington, that the conclusion reached was satisfactory to all.

Purpose of Conference.

This Washington conference between Senator Perky and Gipson is understood here to mean the first move in a coalition between the Dubois Democrats and the Progressives.

In connection with the report that Senator Perky and Dubois had quarreled in Washington, came the report that Dubois was on his way from Washington to Boise, and this part of the report caused consternation among the Democrats and the senatorial aspirants here. It was taken on to mean that Dubois intended to go into the senatorial fight—that is, to run for the senate. It is expected to bring about a fusion between the Democrats and Bull Moose in the legislature and bring about his own election to the senate.

And if he failed in this, and of course the general impression is that he would fail, he would still lay the foundation for a new political organization for two years hence.

While it is not admitted anywhere that Dubois will be elected by the present legislature on any kind of a combination, it is agreed that he and the radical Progressives, if they pull together, will be able to defeat the conservative and sound the death knell of some of the senatorial aspirants now in the field.

Anti-Mormon Fight.

Very many of the Progressive leaders are preparing now to take up the anti-Mormon fight. This is especially true of Mr. Idaho, where the anti-Mormon sentiment has always been strong. It is expected that the anti-Mormon fight will be a very important one in the Washington campaign. While this crusade against the Mormons would be good politics at this time in a large measure, the fight against the wrong of it is the only phase of the problem that the crusaders are willing to discuss at this time, and that the Progressives are willing to be defeated and ill-treated in the last campaign by the Mormons in the southeastern part of the state. They assert that if the Mormons had played

THE HONOR ROLL
(REVISED TO JANUARY 1)

Being a list of the names of those who have during the past three weeks, assisted in the movement, to establish a branch of the Y. M. C. A. in Twin Falls, by subscribing to The Twin Falls News or paying in advance for existing subscriptions in the Y. M. C. A. cause, together with one half of all moneys received from old subscribers in advance on their subscriptions.

ELECTRIC ROAD FROM BULL WEST

FOR THE GOOD OF THE TOWN

Important Meeting Held in Twin Falls and the Distance From Bull to Castleford to be Taken at Full on January 8.

The proposition of L. D. Perrine to build an electric line from Bull to Castleford, under certain conditions, was presented at a meeting of property owners and other hold-ers today last at the offices of the Twin Falls Electric Power and Light Co.

A good sized number of Bull men were present, as well as several from Twin Falls. Attorney Herriot represented the Perrine Power and Light Co. and the proposition to the property owners along the route of the proposed line. According to Mr. Herriot, Mr. Perrine was willing to pay a total of \$150,000 guaranteeing the construction of the line within a period of 18 months after the depositing of the bonds to the required amount of \$100,000 in cash by the owners along the route, which latter sum was to be devoted to the construction of the grade.

The distance from Bull to Castleford is 11 miles, and it is understood to be the ultimate object to carry the line on to the west end of the Salmon project.

Proposition is Favorable.

A further meeting will be held in Bull on January 6, when a definite reply will be made to the Perrine proposition.

The general feeling was excellent on the part of those present, although there were one or two who thought the route as at present surveyed ought to be changed for various reasons. In one case or two the line is said to run along or close to certain farms badly off by coulees, and the owners of these farms are desiring a change. The difficulties in the way are said to be "what is the water, and it is generally believed that a favorable outcome will be reached at the coming meeting.

PARCELS POST IS NOW IN OPERATION

SYSTEM BECAME EFFECTIVE ON NEW YEAR'S DAY.

Postmaster Greenough calls Special Attention to Certain Requirements of Post-Using—Competes with Express Companies.

The parcels post is now in operation, and all necessary stamps are on sale. The new system, which went into effect January 1, will be a competitor of the express companies, particularly on small package business. By it, shippers may send from their own doors, parcels to any one of the 600,000 post offices in the United States.

Postmaster Greenough has called special attention to one important feature of the system, namely, all parcels sent out under the parcels post must be properly packed. Packages, bearing the regular postage stamps in the necessary amounts, which will not be carried, but will in all probability get their way to the dead letter office at Washington. The following points should be kept in mind by those who use the post:

Things to Remember.

That no parcel shall be larger than 72 inches in length and girth combined. In other words, a parcel not more than three feet six inches in length may be packed in a box two feet six inches around its thickest part. A shorter parcel may be—thicker; that is, it may measure no more than three feet in length by two feet six inches around its thickest part. Measurements will be made by means of six-foot tape line furnished to postmasters by the department. So much of the tape as is used in measuring the length is the measure of the maximum girth permitted.

That no parcel shall weigh more than sixteen pounds.

That parcels will be mailed more or less as follows: first class, registered and local named stations, and such numbered stations as shall be designated in the regulations.

That no parcel shall be in form or kind likely to injure the person of any postal employe or damage the mail equipment there.

That no parcel shall be of character perishable within a period reasonable required for transportation and delivery.

That the parcels post does not in any way affect the postage rates on seeds, cuttings, bulbs, roots, scions, ferns, and other plants.

That all matter now classified as third class matter will not be permitted in the parcels post mails.

BELIEVES SHOW IS THE BEST BOOST YET

D. M. DENTON SAYS THOUSANDS INTERESTED IN TWIN FALLS.

Considers Money Well Spent in View of Advertising of This Section Among Prospective Homesteaders.

This the Chicago Land Show has been of real benefit to Southern Idaho and that thousands of irrigated acres who might otherwise never have heard of Twin Falls, is the opinion of D. M. Denton, of the Twin Falls Real Estate and Trust Company, who had charge of the Twin Falls exhibit during the show.

In discussing the show and its effect in Chicago, Mr. Denton said: "For these last few years in years past, there was noticed a marked difference in the crowds attending the last one, 1912; for, whereas in previous years the attendance amounted to largely one up of eight, now, this year there were in attendance a large number of farmers in attendance, who were looking for a piece of good, sound, conservative investment, or for a country where a home could be established, which would make them comfortable and independent as well as all of the cans, filling up the middle portion of our country, as well as the farms, were well represented at the show, and by farmers and stock men.

Look for Good Investments.

"It seems that there never has been time in the history of our nation when our farming class of people felt the need of investing their savings in land that would produce the maximum, make a sure crop every year, and pay a reasonable price for the capital invested.—This line of thought was brought out at many times, and in many ways by those who were looking for investment land, we have convinced many hundreds of the fact that southern Idaho is offering the best investment and homeliving that is to be found in the United States.

All Done in Hurry.

"While we secured the funds and produce necessary to make our exhibit in the very shortest time possible, and it was necessary to do so as completely as it should have been represented, still, our display was considered the finest in the Coliseum, and there is no question but that our commercial fruit display was the best in the show. Our grains, exhibited in open sacks, attracted quite as much attention as did the fruit, and many farmers took the privilege of filling their very pockets, and it was the highest compliment that could be paid to our grain that they had ever seen."

Distribute Much Literature.

"We gave out something like 20,000

OFFICIALS PREPARE FOR COMING CHANGE

FEW NEW FACES TO BE SEEN AT COURT HOUSE.

Arrangements Being Made for Election of New Terms—Additional Clerical Staff Will Be Asked in Several Departments.

County officials are beginning to arrange their affairs of office to be turned over to their successors. Those who will succeed themselves are also clearing up the business of their clerical administration in order to begin anew in their coming terms. Official changes take place Monday, January 12, at the state legislature.

G. E. Carlson succeeds Mr. A. Stronk on the board of county commissioners. Mr. Carlson, with O. G. Zuck and C. E. Taylor, members of the present board, will constitute the new board. J. M. Shank will succeed Judge J. W. Sheldis in the probate court. J. W. Beaman, present deputy will assume the office of assessor in place of J. G. Hayford, who was recently elected as one of the state legislators. Miss Berta Noyd, a teacher in the Bull schools, will succeed T. W. Patten's county superintendent of schools. The county auditor, J. C. Young will again officiate as sheriff and treasurer, respectively. O. J. Crosby will continue as coroner. The office of county clerk and auditor and recorder carries a four year term. Only two years of the present term have expired, and E. J. Finch will continue in that capacity until 1917.

No changes in the clerical force of the various offices have been announced. With the exception of Probate Judge Carlson, the auditor and recorder will conduct the office without assistants. Other officials have announced their intention of applying for additional office help, necessitated by the increasing amount of business in their respective departments.

FACTIONAL STRENGTH TO BE TESTED SOON

PROGRESSIVE INCLINED LAW MAKERS ARE NUMEROUS

Opinion of Speaker of House Will Show Line-up of Republican Party Divisions—Matters for Economy and Efficiency.

(Special to The News.)

Boise, December 24.—No time is to be lost in testing the relative strength of the radicals and conservatives in the great Republican majority in the incoming legislature. This first test will come in the election of a speaker of the lower house.

As is well known, there were no members elected as Bull Moose or Progressives, and it is just as well known that there are many members elected as Republicans who are at heart Bull Moose. It is equally well known that the Bull Moose are making a dead set to secure control of the Republican organization, especially in the legislature.

"What the outcome of this test" means to the leadership it is to be won or lost in position; to know the reason that no man knows how many conservatives, and how many radicals were elected to the legislature as Republicans. Neither does any man know what effect the election of the short-term senator and the div-

(Continued on Page 4.)

LETH-HANSEN WEDDING

Prominent Young Couple Will Make Their Home Near Bull—Married December 24.

A very pretty Christmas wedding took place at high noon, Tuesday, December 22, when Anna K., the daughter of Mr. and Mrs. N. Hansen, was united in marriage to George C. Leth, of Bull, at the residence of the bride's parents on Third avenue east. Dr. Anderson of the Presbyterian church officiated at the ceremony. The bride and groom were accompanied by the bridesmaids, Mrs. Leth, a sister-in-law, and the groomsmen, Mr. Leth, a student at Moscow University, a brother of the bride, and several relatives from Boise, Noyahuk.

BEGIN WORK ON BRIDGE

Crew Starts on Oregon Short Line Steel Structure Across Rock Creek.

A construction crew is now engaged in measuring the last structure for the new Oregon Short Line bridge across Rock Creek. Shipments of steel have been received and it is expected that work will soon start on the concrete foundations.

"In steel bridge construction it is necessary to practice the art of economy in construction. A temporary wood structure must be erected upon which to build the permanent steel structure. This temporary work is removed. This is necessary where the new bridge is to be swung in the exact place of the present bridge without any suspension of traffic. Work will soon start on the concrete foundations.

CLAIMED BY DEATH

Mrs. Minerva Froehner and Mrs. J. S. Skidmore Were Both Well Known.

At Kimberly, on Friday, December 21, occurred the death of Mrs. Minerva Froehner, wife of Herbert Froehner, at her home on Third street. She was the daughter of Mr. and Mrs. T. T. Willis, of Twin Falls. The funeral services were held on Sunday, December 23, at 10 o'clock, at the First Christian church. The deceased is survived by her husband and three children, two sons and one daughter, the youngest an infant, four weeks old.

On Saturday, December 21, at Murfreesboro, occurred the death of Mrs. J. S. Skidmore, an advanced age. The cause of death was dropsy. The funeral was held at Artesian City on Sunday afternoon, December 22, at 10 o'clock, and was officiated by her death is mourned by a large number of relatives and friends.

CHURCH DEDICATED

Christian Scientists Celebrate Freedom of Organization from Indebtedness in Twin Falls.

Dedication services were conducted by the Christian Science Society at the church of Third avenue east last night. The services consisted of a reading of the history of the local church from the time of its organization here until the present time. Christian Science is a religion of peace and love, and the members are glad to announce that it is free from indebtedness.

The first services were held in Twin Falls in June, 1907. An energetic literary workers met at a private home until the following year, when the K. P. Hall was secured for the Sunday services. Just two years from the time of the first meeting, the Society was officially incorporated. At this time the growth of the Society necessitated a permanent place of worship. The present church was then completed by present church, the one being vacated by purchase by the Society, though the finances were then low, all payments have since been met.

The Sunday school has established in the summer of 1914, 2000, after the school term of the year, which started that of the reading room, where the Bible and all authorized Christian Science literature, was then completed its present church, the one being vacated by purchase by the Society, though the finances were then low, all payments have since been met.

The reading room is maintained in the building, where visitors are welcomed.

The Society was incorporated at the First Church of Christ, Scientist, Twin Falls, Idaho, on December 13, 1912. A large crowd was present at last Sabbath's services, the pastor, who had been given here by members of the Board of Lecturers of the First Church of Christ, Scientist, of Boston, and one will be held each year.

SEES MANY CHANGES

Miss G. Alice Flak, a Well Known Writer, Visits Tract After Five Years Absence.

After an absence of five years, Miss G. Alice Flak, well known publicist, writer, and lecturer, returned to Twin Falls on her way from California and Utah points to Seattle. Although on a business errand, Miss Flak took time to note some of the great changes that have taken place in and about the city during the past five years. Of these changes she spoke enthusiastically, and she is a still greater devotee of Twin Falls than when she first came here. She is a property owner in this city.

Miss Flak is a part national counsellor and a member of the Y. W. C. A. She has held a number of prominent offices in this and affiliated organizations, and was largely instrumental in carrying the credit program carried out at Los Angeles last fall. To her fell the arranging, in most part, of the Memorial Day coronation at Seattle last May, a line of work to which she devotes a considerable portion of her time.

Well known as a magazine writer, Miss Flak is an entertaining and instructive manner, and accounted the wonders of many sections of the country in a large number of the best publications. Her work has been given her the advantage of extensive travel and the securing of a large amount of valuable data for her writings. While no time has been lost, Miss Flak expects to again visit the tract and tell of her impressions of the public through some publication of wide circulation.

PECK-ROUGH WEDDING

Oregon Man Claims Twin Falls Bride—Ring Ceremony Performed in Methodist Church.

Miss Alice Dillos, a daughter of Mr. and Mrs. Elias B. Peck, and Willard E. Rough, a prominent resident of Oregon, were married at the Methodist church Tuesday afternoon, at 6 o'clock, with the Rev. Mr. Woodhull officiating. The bride and groom were accompanied by the bridesmaids, Mrs. Peck, and several relatives from Boise, Noyahuk.

The couple was attended by Miss Peck as flower girl, and Mrs. E. B. Peck as bridesmaid. The ceremony was performed in the Methodist church.

SURPRISED BY FRIENDS.

Officers of Eastern Star and Musicians Spend Evening at Kaylor's.

Mr. and Mrs. Samuel Kaylor, residing in the one-half mile northward from the city, were the guests of friends at their home Monday evening to the officers of the Eastern Star lodge, and a musical party of thirty persons was present, and a delightful evening was enjoyed. The party was taken out to the Kaylor home by a. A. Waters and returned by the same route. It is expected to be affiliated with the local chapter in the near future.

MUCH SMOKE, LITTLE FIRE

Making Paper in Basement of Ladies Bureau Park for Ladies.

Burning paper in the basement of the Ladies Bureau Park for Ladies, filled the building with smoke and gave the appearance of something being on fire in the way of a fire. The fire department was called, but before they arrived the flames had been extinguished with a few buckets of water.

BOTTLERS SENTENCED

Six Months Each and Fines Given to Elva Men in the District Court.

All sentenced to six-month terms and fines ranging from \$50 to \$500 were imposed by Judge Stockinger in the district court last week. These convictions and the penalties attached were:

J. E. Henley, jail \$50 and costs; L. A. Delaney, jail \$50 and costs; J. O. Hagan, jail \$20 and costs; B. O. Aronson, jail \$20 and costs; and Joe Peck, jail \$50 and costs.

District court convened today after the holiday recess.

ENTERTAINED FOR STRAID

Miss Myrabel Cole entertained at a beautifully arranged dinner party this week. The guest of honor was Miss Peck. The party was a grand one, and was held at the home of Mrs. Peck, on Tuesday, January 2, to Mr. George Wallace, of Philadelphia. The dining room was decorated in heart and pink. The invited guests were Mr. and Mrs. Peck, Mr. Wallace's aunt, Mrs. Zinke, and son, Mr. Howard Zinke, of Philadelphia.

PLEASANT VALLEY

Pleasant Valley, December 31.—Miss Wanda Hoag, who attends high school in Twin Falls, is spending her Christmas vacation at home.

The friends of H. R. Smith regret to learn of the death of Mr. Smith's father, at his home in Rockford, Illinois.

Mr. and Mrs. T. M. Atkin entertained a number of relatives and friends Christmas.

Mr. Bert Corlie came in from Nevada to spend Christmas holidays with friends.

Mother's Club met at the home of Mrs. Burke, Thursday, December 27. Mrs. Hoag was leader of the meeting; the topic was "The Christmas Lesson, or Christmas in the Home." Refreshments were served and a very interesting afternoon spent.

The following were guests at the Johnson home for Christmas: Mr. and Mrs. J. A. Johnson, Miss Edith Johnson, and Master Joe, of Twin Falls; F. P. Johnson, of Buhl; Miss Ida Johnson, of Alderson, West Virginia; Mr. and Mrs. Charles Vance, and Mr. Bert Corlie.

Miss Fuyetta Johnson and Mr. Bert Corlie were guests of Mr. and Mrs. George D. Crookitt at dinner, on Friday.

Miss Fuyetta Johnson left Tuesday for Portland, Oregon, where she will visit her mother.

Mrs. Louie Bohland and Miss Meagoo Atkin, entertained on Friday night. Music, games, dancing, and all things which go for "good times" were indulged in, to say nothing of those good things we had to eat. All voted it a splendid evening. Besides the hostesses, the following were present: Mr. and Mrs. T. M. Atkin, Mr. and Mrs. Maudie Atkin, Mr. and Mrs. Nephus

Larson, Mr. and Mrs. Charles Vance and Mrs. George Crookitt, Mr. and Mrs. Felo Larson, Misses Fleenor, Anna Larson, Wander, Hilda, Florence Homan, Fayatta Johnson, Messrs. John Homan, Douglas Amos, Marc Corlie, Walter Brown, Jim Hoffman, John Patrikigo, Arthur Berry, Bernis Homan, Howard Larson, Bill Dirkin, Clyde Atkin, and Leon Redhead.

Pleasant Valley, December 30.—Mr. and Mrs. Hoag were visiting with their son and daughter, in Twin Falls, this week.

Wm. Curry was reported quite sick on Sunday.

We hoped for some good stinging, but Charles Vance received his new hat this week, and by the time he had it tried out, there wasn't any snow left in the road.

Mrs. W. D. Starb had her small son Dean in Twin Falls, Saturday, for treatment of his eye. The lad was stung by a bee, last summer, in the eye and has suffered a great deal since.

Rev. Wallace went to Caldwell to spend the holidays with his daughters.

California Woman Seriously Alarmed

"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were sore and inflamed. I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, and I tried it and I received my cough the first night and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Grier, Fairfield, Cal. For sale by all druggists.—(Advertisement)

History of the Twin Falls Fire Department

Story of the Men Who Care for the Safety of the Homes of the City—Early Experiences in the Game of Fire Fighting—Present Equipment—Modern in Every Respect

By John C. Clarke.

One of the most interesting and important departments of any city is its fire department. Twin Falls is fortunate in possessing a well equipped and efficient organization for protection against fire, an organization that is conceded to be as good and in a good many respects far in advance of the fire departments of other cities much larger than this.

A brief history of the department from its first organization will be interesting to many and will be assuredly of all that Twin Falls has ample protection against fire.

Early History of Department.—The first step towards any organization for protection against fire was taken on March 27, 1807, when the Twin Falls Volunteer Fire Department was organized, with the following officers:

Chief, Frank Lindsay; Secretary, James Gallagher, and Treasurer, J. C. Clark. The company was a very long one, owing to the fact that not enough members could be induced to join to keep the organization going. They at that time established headquarters in the old school building at the corner of Second Avenue and Second Street.

During the next fall the matter was taken up with more enthusiasm and on December 11, 1807, an organization was effected and the following officers were chosen:

Chief, James Taggart; President, James Lowe; Vice-President, M. W. Crain; Treasurer, George W. Crain; Secretary, Arthur Peavey; Captain of hose cart No. 1, Alex. Clark; Captain of hose cart No. 2, Louis Peterson.

Solid-Footing Secured.—It was at this time that the department got on a solid footing and a description list was started among the business houses for the purchase of an alarm bell but most of the money necessary was raised by the proceeds from dances given by the members of the department. The dances were very popular and were a great success financially.

The water that was purchased at that time is still in use at the present fire department building. The building that was used as the fire house at that time was moved in January, 1809, to Second Avenue and Second Street East, this location being considered more central. This was the location for the department until the present building was erected on Second Avenue South. The apparatus at that time consisted of a hand drawn hose cart, 15 men to each cart.

Paid List a Small One.—The first paid department consisted of three members as follows: James Taggart, James Lowe, Willie; and pianist, Grant Beck. The volunteers were depended upon for any help needed.

A relative water company disbanded on June 10, 1910, upon the organization of the present department to its full strength.

In June 1910, Les Matthews was appointed chief and at this time the engine was ordered, arriving in the department on October 17 following. The department at this time was increased to seven men, the same strength it has today.

On June 1, 1911, Chief Matthew resigned and F. A. Clarke was appointed to succeed him, and is the chief at the present time.

Modern in Every Respect.—The fire station is at present located on Second Avenue South, and was built in 1910 at a cost of \$11,305. Limited as follows: Job, \$800; building, \$9,150; and heating system, \$350. The apparatus is as follows, with the cost of same: engine, \$5,836; chemical wagon, \$1,800; engine horses, \$950; and chemical wagon, \$500. There are 1,840 feet of hose, 1,500 feet of which is on the wagon and remaining 1,000 feet on the reels. The large chemical wagon has a capacity of 65 gallons and the two small Babcock tanks of three gallons capacity.

The engine is a number 2 American hand drawn fire engine, and is equipped with all the latest improvements. It has a Fox section steam pressure of 80 pounds per square inch and is raised in three minutes from the time the fire is ignited. This is done by means of a chemical light.

The engine has a capacity of 400 gallons per minute, and a water pressure of 800 pounds can be had from the engine if necessary. The fire bell is equipped with a motor driven apparatus for ringing, which has a mechanical device for cutting off the power after the bell has been ringing for one minute. When an alarm is sent in, one of men throws in a switch, and the mechanism is started.

Four Supply Lines.—The engine has a capacity of 400 gallons per minute, and a water pressure of 800 pounds can be had from the engine if necessary. The fire bell is equipped with a motor driven apparatus for ringing, which has a mechanical device for cutting off the power after the bell has been ringing for one minute.

When an alarm is sent in, one of men throws in a switch, and the mechanism is started. In answering alarms, the hose wagon always precedes the engine, in the rear of the fire, and because the line of hose (hydrant) to the fire is laid as soon as possible and the engine is on hand for a steam or live the engine is ready to be in position.

As is known, in rainy or wet weather the streets always become very heavy, and owing to the fact that the chemical is very heavy, weighing 6500 pounds, and the arrangement is made whereby the engine team can be hitched in front of the chemical team in from 20 to 25 seconds. The gear of the apparatus is running with the apparatus on any kind of roads.

Time Measured by Seconds.—The time in hitching the chemical team in practice, when all men are in line, that is, from the time the doors are thrown open until the apparatus is ready to leave, is about 10 seconds, and when all men are in the sleeping apartments, the time is from 14 to 17 seconds. In night alarms when all men are asleep, the time is from 21 to 25 seconds, and for the engine team is practically the same.

The chief alarm comes in at night by means of a bell which is near his bed, one of which rings the alarm and the other rings the alarm. The horses are under their harness at the time the men reach the lower floor. The chief then calls out the location of the fire by calling the name of the plug nearest the place of the fire. Every plug or hydrant has a separate name. The one at the corner of Second Avenue and Second Street is called the "Perrin" plug.

The corner of Shoshone and Second Avenue South is called the People's plug, being located in the People's Cafe corner. There are 63 different plugs in the city.

Delays All Guarded Against.—The hose is connected with the plug nearest the fire, and by the time the engine has made connections, the hose is rolled out to the place of the fire and the water is ready to be thrown on the building.

From the time of setting up at a plug until overlying is ready to throw a stream of water, it is about one minute and thirteen seconds, as compared.

The department has drills nearly every day in their several duties and in some things daily. Drills on the location of plugs is held every night at 8 o'clock, so that the firemen may become familiar with the location of the same. Practices in holding drills at night every week is the matter of night alarms, and they have a record of four seconds in setting out of bed, into their clothes and boots, and getting on the floor, and about eight seconds in getting out of the building.

At the last drill fire which occurred in January last, water was thrown on the building 21 seconds after the alarm was turned in, and at the Castle fire, six blocks from the fire house, the time was 1 minute and 14 seconds.

Some Sound Advice.—It would be well to mention that in some fire alarm one should always remember to give the avenue and nearest street to where the fire is located, and if you do not know the street, give the location as near as possible, telling whether it is in the east, west, north, or south part of town.

One of the members of the department is to keep the phone-numberer any calls and his duty is to ascertain the location of the fire and call the location of the nearest plug to the drivers. The department is ready at all times to answer alarms, and be on the way in about 30 seconds. Delays in sending in alarms is the chief cause of large fires in every city.

The fire department is familiar with the condition of the streets and alleys, and the principal buildings, which helps them to a large extent in getting quick action on any fire. The chief and the men in the fire business section are inspected at least once every week.

The two largest fires that the department has had to extinguish were out of 30 calls to which they have responded since June 1, 1910, were the residence of Mrs. McCall, that burned on August 17, 1911, and the Water company's old barn, on June 1, 1912.

Chief in Supreme Authority.—All rules and regulations of the department are prescribed by the chief. All charges made are referred to the chairman of the fire committee of the city council. The action of the mayor and the members of the city council are final in all cases. They may also at any time order an investigation of the record of any member of the department or of the general discipline of the efficiency of the whole department.

The members of the department have one afternoon and one night relief from duty each week. No calls are provided for, although it is the custom of most departments to allow a vacation of one week to ten days once a year with full pay. The men have no relief fund started as yet. In most cities this is provided for, and is helped to a large extent by contributions from business houses to whom interested a well governed and efficient department is an asset.

Present Membership List.—The members of the Twin Falls fire department at the present time are: F. A. Clarke, chief; G. C. Stiffler, engineer; E. H. Meigs, treasurer; George Leung, secretary; C. P. Wiedeman, chemical driver; B. A. Shoemaker, plugger; and E. H. Kiley, pipeman. There are two other members of the department that should receive mention. While they are not on the payroll, they are on duty and carry a part in every thing that goes on. They are Queen, the four months old bull pup, and Tommy, a dignified black cat. They get along peaceably together, in fact are quite chummy.

The horses on the engine are called Bill, Dick and Dock. Dick, the center horse, is remarkably intelligent and likes to be admired. If more attention is paid to any of the other horses by visitors than to him, he takes offense and shows his displeasure by nipping coat sleeves, or taking a handkerchief from the visitor's pocket. If he can do so. He is, however, the most admired of all the horses, but this fact does not prove that he is a better horse than the others. The horses on the chemical wagon are Mike and Dan. The engine horses are all gray, and the two on the chemical wagon are bay. Their average weight is about 1600 pounds.

Visitors Always Welcome.—Visitors are always welcome to visit and inspect the engine house, and to be present at the night work which takes place every evening at 8 o'clock.

A cut of the engine and chemical truck, standing in front of the engine house, appeared in the Fireman's Herald, of New York, in the issue of November 23, last, and made a highly creditable showing. All in all, it is safe to say that Twin Falls has a fire department of which any city might be proud, and which is superior in many respects to that to be found in many cities of twice the population. The standard of general efficiency is probably higher here in the case of nine out of every ten cities in the entire country.

"THE PURE FOOD GROCERY"

Your Best Resolution

Will be to buy your foods this year on a basis of quality—not price alone.

That will lead you to our door, because there is no store which sells quality goods so reasonably. And remember, during this year, that "cheap foods" do not always prove economical in the end. Put your buying on this basis. It is the thing that pays in the end which pays at all, even though it costs more in the beginning.

We wish you one and all a Happy and Prosperous New Year.

GRIFFO LOSES MATCH

Well Known Twin Falls Wrestler Defeated, But Puts Up Great Exhibition at Welser.

L. S. Mortenson, known in wrestling circles as Young Griffo, who has held the championship of the Northwest at the welter for the past two years, returned Thursday from Welser, where he wrestled Young Burke, of that city, on Wednesday. Griffo, who accomplished a clean win over Burke, secured the best matches ever seen in the northwest. Griffo hit his marks, but put up the greatest exhibition ever in wrestling. The match lasted two hours and 28 minutes before his shoulders went to the mat. Griffo was a wonderful athlete, and has been in training for the best for several months of some of the best wrestlers in the country. Mortenson's friends are not discouraged, however, and it is understood that a return match either at Twin Falls or Burley will be arranged for in the near future.

DAIRYING ON INCREASE

H. J. Kurze, Well Known Buhl Cheese Manufacturer, Says Prospects Good for 1915.

H. J. Kurze, of Buhl, who has gained fame as a successful dairyman and cheese manufacturer, states that the dairy industry and Buhl looks very promising for the coming year, and that the supply of milk is increasing very fast. Mr. Kurze is making plans to enlarge his plant and to make other extensive improvements in the spring, and has already ordered a large vat to meet the growing demand in his branch of the business. Buhl is rapidly gaining fame for her dairy products, and Mr. Kurze is one of her citizens who is largely responsible for the success attained.

Fit His Class Recently. When Albert was about 12 years ago he had the opportunity of changing his name in the papers that fit his class exactly. writes Miss Margaret Campbell of P. O. Box 100, Buhl, Idaho. He has been and he has not been with him. My sister had stomach trouble and was also helped by them. For sale by all dealers. Advertisement.

DOLAN HELD FOR TRIAL

Alleged Cattle Thief Given Hearing—Other Cases Settled in the Probate Court.

After a preliminary hearing before Probate Judge Shalder last Thursday Frank Dolan was held for the District Court on a charge of stealing cattle and selling the same to the Robertson-Latta Packing company. While the dates have not been fixed, the trial of Dolan and others, arrested on similar charges, will be held during February.

NEW YEAR'S RESOLUTIONS.

Now is the time when the average man sits him down to lay out his course for the next twelve months, to review the good and the bad of the departed year, and to plan for profit of body and soul in the days to come. New Year's retrospection is good. If the events of the past year can be viewed in the calm, cold light of reason, without prejudice and in an effort only to see wherein the mistakes were made, the course for the New Year is very apt to skirt in safety the shoals and quicksands of the journey ahead. Without a sincere effort to profit by the events of the past, New Year's resolutions can be but short lived. Thoughts without deliberate reasoning back of them can have but little

strength. They fail to convince the thinker, let alone anyone to whom he endeavors to impart them: They raise their victims just a little above the muck of things as they are, only to let him tumble back into his allotted spot at the first turn in the road. They cumber the path and obstruct the vision for the rest of the marchers and they add another cobblestone or two to that well known path which is paved with good intentions. But there can be no character stronger than that wrought by remorse, just as the habit of introspective thinking can only strengthen, never weaken. And in the same way the New Year's resolution becomes fine and ennobling when based on a sincere desire for the betterment of self and humanity.

We of Twin Falls have the best of incentive for New Year's resolutions. The history of the development of this section for the past year is such as to convince anyone of the wisdom of a firm resolve to help make the coming year a still greater one on the tract. Many have prospered, few have lost ground, suffering has come but the silver lining of the clouds of despair that may have seemed to darken the horizon for a few has flashed their message of hope through the gloom of the hour until a sense of understanding has replaced the gloom. Along every line, spiritual and material, it has been a great year; yet with resolve firm in the hearts of humanity, the year to come can be still a greater.

WHERE MILLIONS ARE GIVEN.

A recent issue of an Ontario, Canada, newspaper contains reference to an interesting fact in connection with the cost of education. Namely, the price of school books. The books which cost the school children in Twin Falls county from ten to thirty-five cents, are sold to the students in the Ontario towns a from one and a half to six cents. The binding may be less elaborate, the subject matter may not be, word for word, similar to that in use

here, but the books for the various grades correspond to those in use here, and the cost is but a fraction of local prices. The books are turned out by publishing houses, by contract, under government supervision, at a price which includes no middleman's profit and gives but a reasonable margin to the manufacturers.

The difference lies in the fact that in the entire process from manufacturer to market there is no waste. Possibly there is none in the American system, but it is interesting to speculate on what becomes of the difference.

THE FUTURE OF IDAHO.

No one can even glance at the recent Annual Review number of the Idaho Statesman without becoming convinced that the future of the State of Idaho is second to none in the entire Union. Figures by the ream are not as a rule the most interesting of subjects, but the various comparisons of values between the business in various lines at the close of 1912 and former years, spell a story which the duller cannot fail to grasp.

There is no state in the Union with greater potential possibilities, no state where a small amount of capital will go farther, no state which offers as great a return upon the investment. This is primarily because of the magnificent heritage in the shape of natural resources which has accrued to her, but it is also due to the fact that there is no other section in America which is growing so rapidly in point of population as Southern Idaho. The Annual Review is worth more than a passing glance. The efforts of the editors constitute a liberal education on the history, resources, and possibilities of the Gem State.

CREDIT WHERE CREDIT BELONGS.

In considering the various factors which have contributed to the upbuilding of Southern Idaho during the past twelve months, the

names of two men stand out prominently. The record of their achievements is a splendid one, but the record of Southern Idaho as a result of their activities is perhaps the thing with which Southern Idaho is chiefly concerned. The News refers to J. S. and W. S. Kuhn, of Pittsburgh.

It is impossible to form an estimate of just what the efforts of these men have meant to this section of the state in dollars and cents, since they first began the work of making habitable and capable of sustaining life those vast areas of sage brush and desert which centuries had been a wilderness. Certain it is that millions have been spent and thousands of homes established as a result of their enterprise.

There is no reason to suppose that had these men not taken up this work, no one else would have done so, but the fact remains the Kuhns did it, and in seeking to place due credit where credit belongs for the splendid prosperity of the Gem State, a more than passing mention should be accorded these Pittsburgh capitalists who had the courage to step ahead of the moving throng and stake their reputation, as well as their money, on their faith in the possibilities of Idaho irrigated lands.

INTER-COUNTY BRIDGES.

There is a well defined sentiment in favor of the construction of a bridge over the Snake River in this section to connect up Twin Falls and Lincoln counties. As to the location of the proposed structure, opinions differ. Those favoring a bridge at Murtough are opposed by the Hanson people on the ground that the Murtough site is too far east for the best interests of North and South sides alike. The bridge sought is not an expensive affair, and the only division of opinion appears to be as to the location.

From the standpoint of this city, it would appear that the closer the bridge is built to Twin Falls the better it will be for Twin Falls.

SCHUBERTS ARE COMING

Apollo Club Secures Well Known Musical Troupe for Evening at January 23.

It has been announced by the management of the Apollo Club that arrangements are completed for a return engagement by the Schubert Symphony Club and Ladies Quartet of Chicago. The performance will be given in the high school auditorium on the evening of January 23. This musical troupe will be remembered as having given a pleasing program here a year ago, on the occasion of the opening performance in the new auditorium. It was classed as one of the best entertainments of that season. This is the 24th year that the Schuberts have been touring the country in concert work, and they never fail to delight their audiences with their varied and popular programs.

MOVE OFFICES TO BOISE

Idaho Club Woman to be Published in Capital City Instead of Twin Falls.

The following announcement will appear in the January number of the Idaho Club Woman, Sex, Idaho, Star, Magazines: With this issue the Idaho Club Woman goes to Boise from its home in Twin Falls. The headquarters being removed to the capital city in December. The scope of the magazine has been broadened, and the work of the "Idaho First" association and the Idaho State Automobile association, will be featured in its future issues.

ORCHESTRA PLEASES

Hallowell Concert Company Renders Excellent Program at Elks' New Year's Eve Celebration.

One of the best musical treats of the season was given at the Elks' concert on orchestra, solo, and duet. Following the concert the orchestra furnished the music for the dancing of the old year out and the new year in. Each member of the orchestra is an artist and all were called for encores. The harpist responded to four numbers in the concert and the entire company remained for the dancing.

GAR LINE STEEL HERE

Practically All Trackage on Hand for Completing Road to Shoshone Falls.

All but one car of steel for the electric railway has arrived. Pies are being distributed along the route and rails are ready for placement for the Sunday school of Kimberly, entitled "Santa Claus' Defenders," proved a real treat to every one present. The children showed exceptional training and took their parts with great enthusiasm.

STRENGTH TO BE TESTED SOON.

(Continued from Page 1.)

Speakerhip important.

It is a fact that more than ordinary significance attaches to the election of the speaker this time, because election is expected to indicate the trend of legislation throughout the entire session. In the past week there was a caucus of the ad county delegation in the legislature that is to have a mandate in regard to the election of the speaker. This county had two candidates for the speaker—Charles D. Storey and Charles F. Koelsch. The former is looked upon as a stand-patter and the latter as a progressive. Neither could secure the united support of his own county, and when the election was clearly demonstrated to them in the caucus, both withdrew from the race, and C. S. French, of Canyon county, was given the endorsement of the Ada county delegation. This endorsement was not unanimous, however, but given by a vote of three to two, which indicates that Koelsch and Storey were defeated. With the combined vote of Ada and Canyon counties, also in all Mr. French enters the race a strong candidate.

HIGH GRADE CATTLE SOLD

Walter Brothers Dispose of Registered Holsteins at Top Notch Prices at Auction.

One of the largest and most important sales of registered Holsteins held in this section, was that at the Walter Brothers ranch, near Ellet, on December 27, when 37 head of registered high grade Holsteins were disposed of at auction at excellent prices. The sale was largely attended, the prices for registered animals ranging from \$275 to \$230, the grades bringing about \$100. The stock was all imported, brought here from Ohio, and the value to the cattle raisers of the county can hardly be overestimated. The sale was conducted by Earl Wall, and was in every way a splendid success.

PREFERS IDAHO LAND.

Farm land, which raises from 30 to 40 bushels of wheat to the acre, and sells at as high a price as the twin Falls land, where from 60 to 85 bushels are obtained, does not appeal to Judge E. Chamberlain, who returns to Iowa on business. Judge Chamberlain looked over the country in the vicinity of Red Oak thoroughly, and registered his preferences merely tends to strengthen his confidence in the future of this section. He states that there is no cheap land at that section, and that farms seven miles out command as much as do the choicest ranches of Southern Idaho, located within a few miles of the various towns.

CANTATA A REAL TREAT.

Kimberly, December 30.—The Christ mas Cantata given by the Methodist Sunday school of Kimberly, entitled "Santa Claus' Defenders," proved a real treat to every one present. The children showed exceptional training and took their parts with great enthusiasm.

SHOW IS BEST BOOST YET.

(Continued from Page 1.)

copies of the paper "Twin Falls County". This paper carried many beautiful cuts of Shoshone Falls, farms, and our city. It also carried the names of 75 farmers of our tract, giving their crop yields, etc. We believe the paper was exceptionally strong for the reason that inquirers may write personal letters to the 75 farmers for corroboration of the reports given.

Had Good Location.

We had an exceptionally fine location in the collection being exposed in the Hitchcogan display, and having Yakima and South Carolina for neighbors on our ends. The crowds were so much attracted to the 75 farms of the Soo Line Railway Company, which was advertising for tourist trade, started to yell: "Take a trip over the Soo Line, by way of 'Twin Falls, Idaho.' " As everyone knows, the Soo line at its closest point, is about 600 miles from our tract. We credit our good location to Messrs. History & Plescher of Chicago, who gave us \$250,000 towards the expenses of the exhibit and engaged a booth for us early in the season. They are in the timber business, as everyone knows, having 400 acres in orchard southeast of our city. They have always boosted for us, and we believe, have created quite an interest in this tract.

Secured Many Names.

"During the time of our exhibit, we took something like 500 names of farmers and stock men, who intimated that they were enough interested in this tract to come and see it, and this was the only stand we took by the Twin Falls Real Estate and Trust company. We were absolutely honest and fair, in taking charges on this show, and had in mind the ultimate good of the tract at large. We offered no land for sale, while there, nor were there any land sale made during the time of the show. We feel that our competitors will benefit as much as ourselves from this exhibit, and had no other idea in mind, but that they should do so.

Great Benefit to Idaho.

In conclusion, we have to advise that it is our opinion that the part we took in the Land Show has done 'twice the charge' for us as a community of good, and we are absolutely sure that thousands have been interested in southern Idaho, her people, and her products through the instrumentality of our exhibit in Chicago."

DOUBIS NOW ON WAY TO IDAHO.

(Continued from Page 1.)

ed fairly with them they would have made a clean sweep of the state for their ticket from Roosevelt down. Feeling this way, about it, it is but only fair for them to have a strong opinion against the leaders of the Mormon church who, they claim, manipulated the Mormon vote. Since the election Dubois has been more bitter against the Mormons than ever before. Those who have come in contact with him in Washington in recent weeks say that hatred of the Mormons has taken complete possession of him; that he has no patience with men who will not see the situation as he does. Under these circumstances it is perfectly natural that Dubois and Perry should quarrel, because Perry is too good a politician to be carried away by the personal prejudices of any one man.

A GIFT FROM EDISON

I. B. Perrine Receives the Latest Photograph Product of the Famous Inventor.

As a Christmas present, I. B. Perrine received from "The Edison" his latest photograph product. It is a 112-gram instrument, a new departure for the famous inventor, "cased in mahogany". The reproducer carries a diamond point, calculated to eliminate all metallic effects common in many record musical instruments. The inventor and Mr. Perrine have become close friends through business associations, and the gift is highly appreciated. The photograph has been the means of delightful entertaining the many friends who have gathered at the Perrine home during the holidays.

TO HONOR JEFFERSON.

Jefferson Day will be celebrated by the Twin Falls County Jefferson club Wednesday evening, January 8, at the Rogers Hotel, at 8 o'clock. Prominent state speakers will be present to eulogize the founder of Democracy and his political adherents during the past hundred years. The number of tickets to the banquet has been limited.

LEGAL BLANKS.

A full supply always on hand at The Twin Falls News office.

Muffins

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

When muffins are on the breakfast table, nobody cares for meat or eggs if they would be served more often if this meal were not prepared so hurriedly that there is no time to make them. If K.C. the double-raise baking powder is used, the batter may be stirred up the night before, and the muffins ready for baking and ready to go in the morning hot and baked.

One-Egg Muffins

8 cup flour; 2 slightly rounded teaspoonfuls K.C. Baking Powder; 1 teaspoonful salt; 1 cup sugar; 1 cup melted butter or lard; 1 egg; 1 cup water or milk. Add dry ingredients together three times. Mix in this the molasses egg, melted butter and water or milk. Mix the best all together until perfectly smooth. Oil muffin or gem pans and have oven well heated. Increase the heat to bake muffins and brown the muffins. This recipe makes 12 large muffins. "Raisins or currants" may be added if desired.

Graham Muffins

1 cup Graham flour; 1 cup pastry flour; 1 level teaspoonful K.C. Baking Powder; 1 1/2 cups flour; 1 cup sugar; 1 egg; 1/2 cup shortening; 1/2 cup milk; 1/2 cup water; 1/2 cup raisins; 1/2 cup currants. Graham muffin should always be quite stiff. Do not give the muffins a second rise, as they are often packed as good as these, send us the certificates in every 25-cent can of K.C. Baking Powder, and we will send you "The Cook's Book" by Mrs. Janet McKenzie Hill, Handsomely illustrated. J. K. Hill, Chicago.

OFF FOR BOISE

Legislators Leave Tonight to Take Their Places in General Assembly Convening on Monday.

Senator C. A. Robinson, and Representatives L. G. Hayford and C. E. Booth, of this city, and Fred Nihart, of Buhl, leave this evening for Boise, where they will take their seats in the state legislature, which convenes next Monday. Tomorrow and Saturday will be devoted to the assigning of seats and arranging for headquarters by the various members of the assembly.

Senator Robinson stated yesterday that the members are looking for the early election of Senator Borah to succeed himself in the United States senate, but that it is believed by many that some time will be required in the selection of a successor to the late Senator Borah.

WALLACE-WYNN WEDDING

Well Known Couple Will Make Their Home Near Jerome.

A unity church wedding was solemnized at St. Edward's Catholic church this morning, when Miss Madeline Wynn of this city, became the wife of Mr. George Wallace, of Philadelphia. The ceremony was performed by Rev. Father Hahn, the ring service being used.

Mr. and Mrs. Wallace will leave this evening for Boise, where they will spend some time before going to Jerome, where they will make their home.

The bride is well known in this city and is one of those young ladies whose friends are unlimited.

Mr. Wallace, who spent the past year near Jerome, where he owns a large ranch, is well known in Twin Falls.

NEW MINISTER AT CHRISTIAN CHURCH

Rev. W. E. Harmon, of Ohio, who will assume charge of Twin Falls congregation next Sunday. Preaching is being held at the club, some time during the week.

CLUB HOLDS BANQUET.

A pleasant evening was spent by the members of the Apollo club, and ladies at the Justus Inn last Monday evening. The evening's program consisted of a number of readings by Miss Nellie Ranch, and piano selections by Miss Vera Thomas. Followed a number of short talks by the officers and members of the club, a banquet was served.

Although the date has not been definitely fixed, the club expects to give a concert in this city some time during February.

POST-OFFICE IS NOW IN ITS NEW HOME

MORE SPACE AVAILABLE IN TEMPORARY FEDERAL BUILDING.

Office Moved Last Saturday. Night Carrier Service in City Additional. Expected Soon—Business Constantly Increasing.

The Twin Falls postoffice is now in the new home in the temporary federal building, Main avenue, west of Second street. The move was made last Saturday night. The building provides extra working room for the postal force and allows for more room for boxes and patrons than in the building recently vacated.

The inauguration of the parcels post necessitated larger offices, which have been installed between the private office of Postmaster Greenbow and the stamp and general delivery windows. Additional boxes have been installed. The business of the local office is constantly on the increase, and Postmaster Greenbow believes, especially with the opening of the parcels post, that from now on the local office will be an exceedingly busy one. He states that during the past quarter, more business has been transacted than during any similar quarter in the history of the Twin Falls office.

Following a recent visit by Inspectors Perkins and Noll, who made a thorough investigation of the needs of the local postal service, a recommendation was sent by them to the Washington authorities that an extra carrier for the city be established, making five in all. In all probability the extra service will be established in the near future.

Extra Carrier Service.

The establishing of extra carrier service will provide free delivery in the town, Murtagh Senior, Golden Ridge, and a part of the Twin Falls. Patrons of these additional, large portions of which are now practically within the city, have been desirous of this service for some time, and are glad to know that prospects along that line are bright.

AID THE KIDNEYS

Do Not Endanger Life When a Twin Falls Citizen Shows You the Way to Avoid It.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a tested remedy is offered them? Doan's Kidney Pills have been used in kidney trouble over 50 years, have been tested in thousands of cases. If you have any, even one, of the symptoms of kidney diseases act now, promptly or Bright's Disease may set in, and you will regret it. Read this Twin Falls testimony:

Mr. Anno Parry, North View Addition, Twin Falls, Idaho, says: "Several times when I have suffered from a dull ache in my back and kidneys, short use of Doan's Kidney Pills has rid me of the trouble. I think that Doan's Kidney Pills are just fine and I feel that everyone suffering from kidney complaint will do well to give them a fair trial."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

JOHN KEEL, Proprietor Twin Falls Harness Shop

New Year's Message

THE Twin Falls Real Estate and Trust Co. wish all who read this a very Happy New Year, and, further, add that it is our purpose to make the year 1913 the greatest year for Southern Idaho insofar as our ability can accomplish, by being conservative enthusiasts, restrained optimists, and conscientious boosters of this "Greater Twin Falls" sentiment.

IF you have property to sell, we will gladly advise you regarding its present selling value and its future, probable, worth.

IN our judgment this is the time to buy, as many bargains are being offered by holders who must sell to use their equities to protect their holdings, and for accommodating other financial needs. Therefore, the buyer gains the advantage, and has made a profit at the time of purchase. We pride ourselves on being conservative purchasers for our clients, and for looking after the interests of both buyer and seller.

REMEMBER, we have the following high grade insurance companies: Equitable, Insurance Alliance of Hartford, Conn.; London & Lancashire Ins. Co., of Liverpool, Eng. Our insurance department is under the direct management of our Mr. D. M. Denton, who is ably assisted by our Mr. R. H. Hippensteel. All of our companies are high grade Bond companies and will prove worthy of your confidence in every way.

OUR business will, hereafter, be conducted, as in the past, on strict and honorable business principles. Our Mr. D. M. Denton is one of the best of real estate men in Twin Falls; a man with a judicial mind; he is a conservative enthusiast and is trustworthy in every way; well posted on city property, and knows about farming property for miles about, and will give this part of the business his special attention. Our Mr. S. H. Bolton has satisfied very many buyers of farm lands, and knows the country in all directions, and is a real believer in Southern Idaho. His ten acre tract, adjoining the city, is highly developed, and his work in its development, for the past five years, proves him to be a farmer and horticulturist, with practical knowledge of how to make money and a home on ten acres of ground. No other real estate man in Twin Falls has ever had, or can show, an acre of land with such development as can be seen joining Twin Falls on the Kimberly road.

WOODS' LIST

- Choice 80 acres 5 miles from Twin Falls, Idaho. Good house, big barn, fine 10 acre orchard, bearing some fruit. Fenced and cross fenced, and close to school. Land nearly all in alfalfa and clover. My price is \$150 per acre. My competitors can't beat this for a fine home.
- For three days I offer a perfect 80 acres in Bunker Flat, at \$100. Want to show you this property.
- My next best is a fine 80 acre near Fliler at \$85 per acre. Everything joining at \$110 to \$125 per acre.
- Good 30 acre between Twin Falls and Kimberly at \$130 per acre.
- This 80 acre is a fine smooth acre and has a good house, fine barn and other improvements. The place is nearly all in grass and in a high state of cultivation. I will show it to you and can give clear title for \$5 per acre.
- You want 120 acres near Fliler. Have a nice one at \$75 per acre.

T. J. WOODS have been writing for insurance and selling all estate in Twin Falls seven and a half years.

SABBATH SCHOOL LESSON

JANUARY 5, 1913.

Lesson 1—January 5, 1913.

THE CREATION.

Genesis 1: 1-24; 2: 1-3.

1. In the beginning God created the heaven and the earth.

2. And the earth was without form and void; and darkness was upon the face of the deep. And the spirit of God moved upon the face of the waters.

3. And God said: Let there be light; and there was light.

4. And God saw the light, that it was good; and God divided the light from the darkness.

5. And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day.

6. And God said, Let there be a firmament in the midst of the waters, and let it divide the waters from the waters.

7. And God made the firmament, and divided the waters which were under the firmament from the waters which were above the firmament; and was called Heaven.

8. And God called the firmament Heaven. And the evening and the morning were the second day.

9. And God said, Let the waters under the heaven be gathered together unto one place, and let the dry land appear; and it was so.

10. And God called the dry land earth; and the gathering together of the waters he called Seas: and God saw that it was good.

11. And God said, Let the earth bring forth grass, the herb yielding seed, and the fruit tree yielding fruit after his kind, whose seed is in itself, upon the earth: and it was so.

12. And the earth brought forth grass, and herb yielding seed after his kind, and the tree yielding fruit, whose seed was in itself, after his kind; and God saw that it was good.

13. And the evening and the morning were the third day.

14. And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years:

15. And let them be for lights in the firmament of the heaven to give light upon the earth: and it was so.

16. And God made two great lights; the greater light to rule the day, and the lesser light to rule the night; he made the stars also.

17. And God set them in the firmament of the heaven to give light upon the earth.

18. And to rule over the day and over the night, and to divide the light from the darkness; and God saw that it was good.

And the evening and the morning were the fourth day.

19. And God said, Let the waters bring forth living creatures that have life, and fowl that may fly above the earth in the open firmament of heaven.

20. And God created great whales, and every living creature that moveth, which the waters brought forth abundantly, after their kind, and every fowl after his kind; and God saw that it was good.

21. And God blessed them, saying, Be fruitful and multiply, and fill the waters in the sea, and let fowl multiply in the earth.

22. And the evening and the morning were the fifth day.

23. Thus the heavens and the earth were finished, and all of the host of them.

24. And on the seventh day God ended his work which he had made, and he rested on the seventh day from all his work which he had made.

3. And God blessed the seventh day, and said, Because that in it he had rested from all his work which God created and made.

Introductory.

It is nearly twelve years since our lessons were in this chapter of the Old Testament. Those who studied the "lessons" as "children"; then, are young men and young women now.

It is hardly possible for us to take the verses of this chapter in their order and comment on each separately. We must content ourselves with taking up the various creative days and dealing with each.

Expository.

15. "In the beginning, God" God was before anything else in the universe. But when he began to create, and when he will cease creating, we can not tell. We do not know that he is not making worlds every day. New stars are discovered, and we do not know but that they are newly made. Thinking more regard this first sentence in the Bible, one of the most overwhelming of all that has ever been written: "In the beginning, God created heaven and the earth." He created them, did not make them out of something already existing. He spoke them into being. He made the stars and the moon and set them in the firmament of the sky. He said, and God did just what is here said, and we can not amend the record. God saw that "it was good." "It" was evening, and it was morning, one day—a great period of time.

6-8. During the second day, or great period of what had now come to be called the second day, God and the firmament. The waters of the earth ceased to be simply vapor, or mist, and settled down in such a way as to allow clouds to rise and form a firmament above the earth. Just how high clouds of vapor may rise we do not exactly know. It is estimated that our atmosphere extends to a distance of about forty-five miles. With the division between the waters God completed his second day's work.

9-12. On the third day God gathered the water into oceans and lakes, ponds, rivers, creeks and pools. The mountains and hills became barriers to the waters, so that some portions of the earth were dry though about three thirds of it still remained under water. Then God caused the dry land to bring forth vegetation. To every

one else it might have seemed to be spontaneous growth, but it was all of God's ordering and willing. The earth became fruitful, being prepared for the coming of the brute creation.

14-19. On the fourth day God set the sun in its place, and set the earth in its proper relation to the sun and the stars—gave it its place among the heavenly bodies, a place which it has occupied ever since. He gave the earth a moon, and gave it its position among the planets. The "greater light" is the sun, and the "lesser light" is the moon.

20-23. On the fifth day God created living things on the earth, to fly in the air, or to swim in the water, and great multitudes of them of various kinds. His power to carry the forms and the habits of these creatures seems inexhaustible.

24. And now, having prepared the earth for the use of man and brute, God proceeded to make these last animals, or creatures, who can neither fly nor swim, without part; creatures which must derive their support from the productions of the soil. Some of them may forgo labor, but all must go back to the earth for their sustenance. He created them with power to reproduce their kind, and told them to be fruitful and multiply, and fill the earth. After creating, or making all the other-land animals, he made man one single human being, and told him that all the others were subject to him, that he had a right to treat them as seemed good to him. All that is here today was here, in its ability, before the end of the day. Then God rested, and the next day he called Sabbath—rest.

God made man in his own image. The human form is God's ideal, but the moral or spiritual man was after the moral and spiritual faculties of God—after his image and likeness, that which makes man higher than the brute, than anything else earthly which God has made: is his moral, or spiritual nature—that which is after the likeness of God. God Sabbath-rested, on the seventh day, the rest day.

Chap. 2: 1. This verse sums up what was said before in detail.

2. God did not work on the seventh day—the rest day. God has worked from that day till now. Jesus said: "My Father worketh hitherto and worketh." What is meant is that God did no more creative work on this planet. He made the seventh, or rest day, to be significant of the finality of his work.

3. God pronounced a special blessing upon the rest, and rest day, setting it apart from a common to a sacred use. Not that everything must stand, or lie still on that day, but that it should be regarded as sacred to the Maker of all.

CHURCHES

FIRST PRESBYTERIAN CHURCH, Fourth street and Second street—Sabbath services: Bible-school, 9:45 a. m.; W. J. Young, superintendent. Preaching, 11 a. m. and 7:30 p. m. Rev. J. M. Anderson, D. D., minister.

Write Ideas for Moving Picture Plays!

YOU CAN WRITE PHOTO PLAYS & EARN \$25 OR MORE WEEKLY We Will Show You How!

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience of literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever-increasing demand. They are offering \$100 and more for single scenarios or written ideas.

Nearly all of the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturer, such as VITAPHONE, EDISON, ESSANAY, LUBIN, SOLAX, MAP, BEX, RELIANCE, GRAMFON, COMBAT, MELIEX, etc., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication"

Perhaps we can do the same for you. If you think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure,

You will earn \$100 Monthly for Spare Time Work

FREE—Send your name and address at once for free copy of our illustrated book "Moving Picture Playwriting"

Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean for you and your future.

Week in Society

Delightful Dancing Party.

Coulton Hall was the scene of a very pretty dancing party last Friday evening. The guests were Mr. W. W. Welton, Mr. and Mrs. E. J. Ostrander, Mr. and Mrs. H. J. Palling, Mr. and Mrs. R. A. Reed, and Mr. and Mrs. C. A. Robinson. About twenty-five hundred guests with dancing and cards. The hall was gay with a profusion of holly, mistletoe, and other Christmas decorations. The orchestra, and palmers decorated the orchestra, and the red shaded lights lent a pretty effect to the entire scene. A buffet lunch was served at eleven o'clock, and fringed during the entire evening.

Ten card tables were arranged for players in the ballroom, which was also decorated in red and green. Here several games of "500" were enjoyed. Mrs. Elliott and Mr. Alkon received the prizes for high score. Dancing continued in the ballroom, and the hosts and hostesses were Mr. and Mrs. Morris of Shelton, Nebraska, and Miss Virginia. Margaret, Mrs. Robinson, and Mrs. Robinson. The Misses Beatrice Ostrander, Vera Thomas, Stella Perrino, Leola Miller, and Burt Wall introduced the guests and presided at the punch bowl during the evening. Little Adeline Ross, Mrs. Miller, and Mrs. Robinson acted as usher.

The grand march was led by Mr. Welton and Mr. Morris.

Delightful Watch Party.

Mr. and Mrs. Harry T. West entertained about forty of their Twin Falls friends in a most enjoyable manner at their beautiful country home near Kimberly on Tuesday evening. Part of the guests left here on the evening train and were met by Mr. and Mrs. West at Kimberly and driven to their home in a hay rack; the others went in automobiles.

The West home was most attractive, decorated with Christmas greens and red balls, a large Christmas tree adorning the living room. Progressively the guests enjoyed the entertainment during the early part of the evening, and later the guests enjoyed a "Cheerful Toast" in front of the huge fireplace. Mrs. Miller, Mildred Fuller, and Mrs. Robinson acted as usher.

The party was one of the happiest events of the season.

Jolly Progressive Dinner.

The families of Messrs. H. J. Palling, C. W. Welton, C. A. Robinson, and R. A. Reed, with Mr. and Mrs. Morris and Miss Reed as guests, enjoyed a jolly progressive dinner on Christmas day, one of two courses being served at each home. The decorations were appropriate to the season. "Santa" with his well filled sleigh, a tall vase of red carnations, a snow covered electric tree representing a home win "Santa" disappearing down the chimney, and a scarlet sash gracing the center of the tables at the respective homes.

The last two courses were served at the home of Mr. and Mrs. Welton, whose amusing gifts were distributed from the large Christmas tree. The latter part of the evening was spent with Auntie Bridges, Mr. and Mrs. Ostrander joining the party at the Welton home. Mrs. Palling and Mr. Ostrander captured the prizes.

Christmas Dinners.

Most of the dinners on Christmas and New Year's were family affairs, with places arranged for two or three guests. The home of Mr. and Mrs. Robert McCollum was the scene of a jolly house party during the holidays, with a family dinner on Christmas day. The table was prettily decorated with holly and Christmas bells.

Mr. and Mrs. A. J. Swallow had a family reunion during the holiday week. On Christmas day, besides the usual members of the family, covers were laid for Mr. W. E. Nixon and his mother, Madame Nixon. Mr. Fred

Volght, Mr. Ralph Smith, and Mr. Ed.

Mr. and Mrs. C. W. Welton entertained at dinner on New Year's day. A large array of red carnations and red shaded candles on the table were very attractive. Covers were laid for eleven.

The home of Mr. Tom McMaster was the scene of a very pretty New Year's dinner yesterday, when places were arranged for thirteen relatives of the family, including Mr. and Mrs. Tom McMaster and daughter Ethel of Bedford, Iowa, who are here to spend two weeks with Mr. McMaster's sister, Mrs. J. C. Beauchamp, and family.

Pretty Wedding.

Miss Helen McMaster, one of the most popular girls of the Twin Falls younger set, was married to Mr. Ben Johnson on Sunday morning. December 22, at the home of her uncle, Mr. J. C. Beauchamp. The ceremony was performed at six o'clock in the morning, so that the young couple might leave on the early train.

Only the immediate relatives of the bride were present, and although the wedding was a very quiet one, it was one of the prettiest ever seen in Twin Falls. The rooms were artistically decorated in pink and white carnations. The bride wore a picture of girlish loveliness in a dainty white gown. Her traveling suit was of brown with hat to match. Mr. and Mrs. Johnson will spend several weeks visiting different points in Iowa, after which they will make their home in Twin Falls.

Jolly Dancing Party.

Miss Olga Gross entertained a number of her school friends in a most delightful manner at the family home on Rock Creek last Saturday. The young people left Twin Falls Saturday morning in a large bob sled, and on their arrival enjoyed a splendid dinner. In the evening the floors were cleared for dancing. The party returning to the city at midnight.

The guests were Misses Carmen Cox, Beatrice Ostrander, Vera Thomas, Burt Wall, Leola Miller, Vera and Florence Costello, Stella Perrino, Mary Miller, Wanda Hoag, Colla Martin and Ramsdell, Messrs. Paul Martin, Dana Elliott, Carl Hest, Glenn Whitely, Glenn Kirkpatrick, Brick Blades, John Blenka, John Kennell, Fay Rodgers, William McCawley, Charles Birdner, Roy Hazlett, and L. Carothers.

Farewell to Mr. Hayford.

A farewell party was tendered Mr. L. G. Hayford last evening, prior to his leaving for Boise, where he will take his post in the legislature as representative from Twin Falls county. The evening was in the form of a reception at the hotel here and was given as a surprise to Mr. Hayford by his friends in Twin Falls. Mrs. M. Green was special hostess for the evening. Mr. Hayford was presented with a handsome gold beaded umbrella.

Miss Green Entertains.

Miss Bessie Green was hostess at a delightful informal party at the Rogerson Hotel last Thursday evening. The party was attractive with holiday decorations and palms. The evening was spent in games and music. Miss Marie Dehn and Mrs. Zella receiving the prizes in the contests. Miss Green was assisted during the evening, and in serving refreshments, by Mrs. Osett.

Pretty Luncheon.

Miss Marie Shields gave a delightful luncheon, of twelve covers, at the Shields home last Monday evening for Jay Cammanck and Robert Leith, students at the state university at Moscow. The table was attractively decorated with red and white carnations.

Children's Party.

Little Harold Shindler celebrated his

MERCHANTS HARVEST IN CHRISTMAS SALES

THOUSANDS OF DOLLARS CHANGE HANDS THROUGH STORES

Season Best in History of the City—Many Stores Were Brilliantly Decorated—Shopping Active Until Last Day.

Thousands of dollars passed over the counters of Twin Falls merchants during the Christmas shopping days. It is stated by business men that more money was in circulation during these times in any other season in the history of the city. The business of Christmas has become so large an affair, and is so absorbing that all business plays a poor second fiddle. Very few business men care to undertake any shopping at this season. It is not at all an exaggeration to say that the most favorable answer to all proposals is "Wait till after Christmas."

"Much labor was spent and good taste shown" in the high merchant chat yesterday, "in the preparations for the Christmas trade by the local business men. As usual, many buyers put off their shopping until the last day before Christmas, thus putting merchants, clerks, mail men, transporters, and everybody that sells or carries to the high pressure. But since it is all over, everyone is happy and satisfied. The buyers spent their money freely, they have it to do for during the holidays. It is bigger and richer than ever before, and because there is a more liberal spirit than has ever been known. Not a grumble was heard from merchant or buyer."

Christmas times at the picture shows were among the leading attractions of the season.

DARROUGH-BIXLER WEDDING.

Rev. Mr. Crater Performs Ceremony for Heyburn Couple.

Frank Darrough and Miss Vivian Bixler were united in marriage at the Crater home in this city on Monday of this week. The Rev. G. W. Crater performed the ceremony. Mr. and Mrs. Darrough are highly respected residents of Heyburn, Idaho. Mrs. Darrough has also been of friends at Hanson in this county, where she taught school a few years ago.

Birthday last Friday afternoon, when she entertained about twenty of his boy and girl friends. A happy afternoon was spent with games and Christmas cards, ending with delicious refreshments, chief of which was the candle lighted birthday cake.

P. E. O. Luncheon.

Mrs. Carl Hahn entertained the members of the P. E. O. society at her home last Saturday afternoon. A delicious luncheon was served, after which a splendid program was rendered.

This Store Will Deliver Goods by Parcels Post After January 1

Beginning January 1st, our friends who are at a distance can get goods by the new Parcels Post system.

We will deliver by mail anywhere in the United States any package weighing not more than eleven pounds.

You can arrange with this store so that by simply dropping a line or calling us on the telephone, your mail carrier will deliver your wants at your door the next time he passes.

We're getting very luxurious in these days; in the country as well as in the city.

This Tells You What to Do

Fill out the coupon printed in this advertisement and forward it to us. From time to time you will be kept advised as to what we have in our stock in all lines of goods. When you need anything and it isn't convenient to come to this store, all you need do is write or telephone and we will send it on approval.

We don't mean by this that buying by mail will ever wholly take the place of coming to our store to make your selections. We would rather have you come here. The Parcels Post, however, comes to your rescue when you know exactly what you want and know that we've got it. In all such cases, you can buy with just as much satisfaction by mail or telephone.

All goods that we sell are at the lowest possible prices. There is no concern in the country, department store or mail order house, that can sell you goods lower than we can.

FILL OUT THIS COUPON AND MAIL TO US:

ROYAL BAKING POWDER

Absolutely Pure
[From a series of elaborate chemical tests.]
Comparative digestibility of food made with different baking powders.
An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.
The percentage of the food digested is shown as follows:
Bread made with Royal Cream of Tartar Powder, 89 Per Cent. Digested
Bread made with alum powder, 67 Per Cent. Digested
Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.
