

TWIN FALLS COUNTY IS NONE TOO SMALL

M. J. SWEELY PREPARES INTERESTING STATEMENT

Makes Strong Argument Against Any Change in the Present Boundaries and Gives Reasons.

In a letter to the senate committee on county lines and boundaries, M. J. Sweely has presented the disadvantages together with the matter of unpreventable taxes that would result from the division of Twin Falls county.

It has been shown by Mr. Sweely that with two counties in the place of one, each would contain only about five taxable acres. This amount of taxable property in one of these counties, he maintains to be insufficient to maintain county expenses and improve drainage.

Make Round About Trip. Mr. Sweely states that measurements taken by the topographical survey of the eastern portion of the proposed county are such that residents in that section would be compelled to travel a way of 40 miles to Twin Falls.

To Nominate City Ticket. Mass Meeting Will Be Held Tomorrow Evening—Present Officials—Reconider Candidacy.

When the bill was called up in the committee Tuesday morning, A. J. Peavey, John Graham, Wilbur S. Hill, and Morgan Hepp, of this city, and F. C. Graves, of Florio, were on hand to speak before the committee and urge that an unfavorable report be sent to the senate on the bill introduced to divide the county.

BUHL BUSINESS MEN EXPRESS THEIR VIEWS

LENGTHY COMMUNICATION FROM COUNTY DIVISIONISTS

Editor's Note.—The following communication was received in Wednesday's mail, with the request that it be printed in the interests of justice and fair play.

We, the undersigned members of the Buhl committee, make a trip to the State Capital last week in the interest of pending legislation in connection with the possible division of Twin Falls county and the establishment of Schriener School in Twin Falls county.

Assuming that the Twin Falls papers are fair and willing to give both sides to all controversies affecting the welfare of the county, we herewith submit a statement pertaining to county division as seen by the citizens of the west side of the county and trust the same approach will give the views already published.

Arguments for Division. Some of the arguments advanced for division are: The interests of local home owners. The most ardent opponents of division will not deny such advantages.

ROGERSON BANK ELECTS

H. J. Felling, Local Banker, Chosen President of New Firm—To Erect Brick Building.

Rogerson, March 4.—At a meeting of the stockholders of Rogerson Bank Thursday, an organization was perfected and a board of directors elected. The board of directors elected are H. J. Felling, John MacIain, W. R. McMillan, and Lewis Carroll. The officers of the bank are H. J. Felling, president; W. R. McMillan, vice-president; and J. B. Russell, cashier. A new brick building will be erected as soon as the contract can be drawn and awarded. This will fill a long felt want at this place and the completion of well known officials should merit the confidence and support of the community and the surrounding country. We look for a prosperous year for the new banking corporation.

Clifford Dryden visited friends and relatives at Rogerson one day last week. John MacIain went to Twin Falls Saturday. H. H. and Harold Goldsworthy went to Twin Falls Monday on business. F. M. Oakes built a barn on his land north of the townsite, and Chet Brown will move his shack over near the barn and live there this summer. Mr. Brown will engage with F. A. Purdy and will work for Mr. Oakes also.

While moving some hay from a cart Saturday afternoon, the team moved unexpectedly and the load of hay overturned, and Amos Brown was injured. Roy D. J. Treiber delivered a very interesting lecture Sunday afternoon at Twin Falls. He spoke of a large and attentive audience. His subject was "Missions Work in the United States." A missionary collection was taken at the close of the lecture.

J. F. Clark, P. B. Davis, John Conaway, J. F. Lewis, A. Clark and J. H. Johnson were passengers for Twin Falls Saturday, as witnesses on the Leonard horse stealing case. J. F. Emory was in town Saturday returning to Twin Falls Sunday. Mike Dean has rented his farm near Twin Falls and will move to his ranch west of Rogerson, after his work with the hotel Tuesday. We shall all be pleased to extend Mr. Dean and family the "old hand."

Mr. and Mrs. W. R. McMillan went to Twin Falls Tuesday. McLeod and McMillan have lately purchased a couple of fine vehicles which further equip their up-to-date livery, with good substantial, as well as comfortable conveniences. On next Sunday it is planned to see an hour after the close of Sunday school in a song service, and your presence is desired to help in the singing. You will enjoy it, we are sure, and all will please come.

The Social Helpers met with Mrs. R. P. Goldsworthy Wednesday afternoon. G. H. Holaday has given up his position with the Oakes-McLain company and will work at his trade, that of blacksmith, at the Village Smithy. The "Book Club" met Wednesday evening, February 26, with Mr. and Mrs. O. D. Vandenberg. This being the wedding anniversary of Mr. and Mrs. Vandenberg, made the occasion an enjoyable one and after an evening of entertainment at games and guessing contests, refreshments were served, after which followed a business meeting of the club. All enjoyed the evening and departed wishing the host and hostess many more happy wedding anniversaries.

Dr. Alexander, of Twin Falls, was called Sunday night by Mr. A. J. Dun on account of the illness of his son Jimmy, who was taken suddenly till Saturday and grew much worse Sunday evening. He went back to Twin Falls Monday for medical aid, and we hope will soon be recovered. Wallace Snyder went to Twin Falls Friday. Mr. and Mrs. Lewis Davidson and Mr. and Mrs. J. V. Langford spent Sunday evening at the home of Mr. and Mrs. R. P. Goldsworthy.

IDAHO "GROWINGEST" STATE IN UNION

"GEM OF THE MOUNTAINS" PROGRESSIVE COMMONWEALTH

Ex-Immigration Commissioner S. J. Rich Compiles Valuable Compendium of State Information—Illustrations a Feature.

The "commissioner" of Immigration, labor, and statistics during the administration of James H. Hawley, S. J. Rich published a report of the state for the years 1911 and 1912. Although compiled primarily for statistical purposes, the report is the largest and most complete in the world. It is instructive reading. The work is illustrated with high class half-tones and color views. Mining, farming, lumbering and industrial scenes of the state are ably presented, with picture and pen. The report is entitled "Idaho, the Gem of the Mountains" state in the Union, according to tables in former Commissioner Rich's report. In 1912 the population of the state was given as 149,952, and 325,550 in 1910, with an approximate inhabitation of 382,000 in 1912. The per cent of increase in population in the four census reports from 1880 to 1910 is given as 117, 171, 82, and 101, the latter being the increase of over 1200. Railway mileage has increased from 290 to 2,160 in the four census reports while the number of farms increased from 115 to 20,200 in the same period of time; or an increase in cultivated acreage from 71,140 to 5,283,000 acres. Idaho is fast climbing into the front ranks as a live stock state. The best imported grades are being brought into all sections of the state. The growing of excellent milk cows for farm products, where the latter cannot be shipped in bulk, owing to a lack of extensive railway facilities, sheep, hogs, and beef cattle, shipped from Idaho, are bringing the highest prices on the large stock markets of the country.

The growing of grains and grasses and the raising of poultry and bees, the cutting of forests, the mining in mountainous regions, and the raising of fish and game is given full account in Mr. Rich's report. The work covers the present and is a complete compilation of the state's general resources. This report is prepared for the rich people of the world, who come to the people of Idaho about their own state. Incidentally, it will be welcome and helpful to many who live outside this state and who contemplate investments or a home, or who, in this splendid young, growing commonwealth.

ENGAGES WITH NEWSPAPER

Miss Nellie Rauch goes to Newport, Washington—Miss Tipton Takes School.

Miss Nellie Rauch left yesterday for Bend, Oregon, where she will visit her parents, Mrs. T. T. Rauch, who were former residents of this city and among the pioneers of the tract. After her visit there she will go to Newport, Washington, to become a member of the "Pond d'Orellio City News," one of the leading newspapers of the northern part of that state.

During the winter Miss Rauch has been teaching in the "Thousand Springs and Lucerne schools," resigning from the latter school, west of Buhl, the first of this month. Miss Rauch was formerly in the employ of The Twin Falls News. Before leaving for Oregon she visited with her sister, Mrs. T. T. Kenney.

TO-PRESENT "GRAUSTARK"

Famous Novel Will Be Staged in This City on the Evening of March 17.

Grace Hayward's dramatization of "Graustark" which has been approved by George Barr McCutcheon, the famous author of the novel, will be presented in this city at the high school auditorium, Monday evening, March 17.

The organization is the same which has met and is still meeting with such unprecedented success in all the larger cities throughout the country. Presenting a play of more than ordinary interest, to thousands, clean and wholesome, with an interesting love story, brilliant comedy lines, and with a plot of intensity, augmented by a cast of all the country's best, and with a scenic furniture of massive and magnificent reproductions of the locale, "Graustark" should prove an interesting drawing attraction of the theatre to the auditorium when the organization appears here.

PLEASANT VALLEY.

class was organized. Rev. Wallace, leader. Beginning our lessons with first eleven chapters of Genesis. We are sorry to lose Mr. and Mrs. Charles Vance from Pleasant Valley, they having moved to Twin Falls last week. It is reported the farm has been sold to Mr. and Mrs. Douglas Armour and Rev. Wallace was business visitors to Kimberly on last Tuesday.

Miss Frances Burke has returned home from Twin Falls, where she has been attending school, and has entered Pleasant Valley school.

The Macfarly brothers are feeding sheep on the Johnson ranch. They are having bad luck with their lambs, having about 1000 lambs.

Mr. and Mrs. Whiteley, who formerly

resided on the Walters farm, have moved to Burley to reside.

Considerable sickness is reported in the neighborhood. Dean and Max Stark and Mrs. Kate Larson are among the number.

On last Thursday afternoon J. J. Deede was burning along his fence row, when the fire got away from him. It took the combined efforts of several of the neighbors to save the barn and the house on the Deede place.

Mr. Liker, of Nebraska, moved on the Tanner ranch last week. Mr. Liker brought his household goods, farming implements, and some stock with him from Nebraska. We are glad to welcome new comers to Pleasant Valley.

The "True Blues" (organized young people's class) of Pleasant Valley School will give an entertainment at the school house Friday evening, March 7, to raise money to purchase a piano. A good program, after which refreshments will be served. Admission 25 cents. Let everybody attend and help the young people in their effort.

Dr. Albee came near losing his boot house by fire last week. He mourns the loss of his best hat, bowlers, and a few other articles.

Mr. and Mrs. A. Kalland spent several days in Twin Falls last week visiting at the home of F. C. Vanaman. We are sorry to report Mr. Frank Reeves among the sick in the neighborhood.

Water Stark was in Twin Falls on Saturday, doing a thriving business. He sold one horse and bought a team belonging to the same owners.

Miss Florence Homan has been spending a few days with Mr. E. Eaton.

CATTLEFORD.

Chastrom, March 4.—Mrs. Schreiber was shopping in Buhl last night. Jesse Smith, of Blue Gulch, was in Cattleford Saturday.

Ed Causa and wife made a trip to Buhl on Wednesday last.

It is Smithwick has stopped school to assist his father in his merchandising business.

Chas. Schobler has gone to Portland, Oregon, with a car of cattle.

Mr. and Mrs. Anderson, who have taken charge of the Southworth ranch, are delighted with Idaho. He brought a very nice stock here and will show the people that stock raising is the leading industry.

Joe Bartlett delivered an excellent sermon here Sunday last. You folks that stay at home or go bumming on Sundays don't know what you are missing in the way of religious training.

Quite a bit of land has been cleared in these parts this winter. The good crops last year were encouraging, and a bigger acreage than ever before will be put in this season.

On account of the indisposition of Mr. Quigley is near completion. It is a handsome residence and is an honor to our community.

Mr. and Mrs. Frank Palmer, of Tilton, Washington, are the happy parents of an eight pound boy since 18th, but they will bring him to Idaho to become naturalized.

Chas. Robinson, of Ada, Okla., is here on business. He has a fine stock of cattle, which have been wintering in this community.

ARTESIAN CITY

Artesian City, March 4.—J. E. Bower has been on the sick list for several days. Dr. Albee, of Rock Creek, was called last Friday and diagnosed the case as "the grippe."

Born—To Mr. and Mrs. J. J. Tolman, a daughter, March 1.

A. S. Lee's children, who have been on the sick list for the past two weeks, are much improved.

Mrs. Fred Bacon and her babe returned from the Twin Falls hospital last week, and are getting along nicely.

Mr. J. Harbo was a business visitor to the Hub City Friday.

Miss Ahern is assisting Mrs. Bow during Mr. Bow's illness.

B. E. Rose was hauling sheep west from the vicinity of Hansen Saturday. A good time is reported from the Friday evening dance.

Fred Bacon was among the county seat visitors Monday.

Because of the criminal cases coming up this week in court, the decision on the hot well case will be postponed.

H. E. Eden transacted business in the Hub City Monday.

WHY

The Best Fence Is the Cheapest

The difference in cost between a loosely woven fence made of brittle, poorly galvanized wire and the best fence you can possibly buy is only a few cents, at the most. In fact, it is so slight that you can't afford to consider it for a minute. When you stop to think that it takes just as many posts and just as much labor to put up a short-lived fence as it does one that will last you two or three times as long, and when you stop to figure the cost of repairing broken-down fences—the loss to your crops from cattle-breaking through, horses jolting over and pigs crawling under—you will agree that to buy any wire fence just because it is cheap is poor economy.

Square Deal Fence

will outlast any other farm fence you can buy and costs no more than any other fence of equal weight and quality of material. Every rod is guaranteed by The Keystone Steel and Wire Company—the mill that makes both the fence and the wire that goes into it.

Come In and See It

before you buy fencing. See how trim and neat it looks, how easy it handles, see the non-breakable, non-slipping Square Deal Lock. THE GOSPEL OF TRUTH.

A substantial home cannot be reared upon a defective foundation, neither can a city be built upon a plan of advertising which is weak, unstable and only half-truthful.

It is a matter of regret that in every scheme of community advertising ever entered into in the West, this important part has been more or less lost-sight-of and Twin Falls is no exception to the rule.

Flamboyant statements of the wonders of irrigation with exaggerated figures of crop production. Climatic conditions are declared to be the grandest in the world, and so on ad infinitum. The purpose of it all is to attract more people to the land, induce more capital to invest here, and contribute generally to the upbuilding of the country.

The motives are the best and the aim a laudable one in every way. Moreover, there is no better country in the world for the prospective homeseeker. We who live in Twin Falls believe in Twin Falls, but should this blind us to the fact that, like every other community of earth, the Twin Falls country has its drawbacks?

If we induce a man to come to Twin Falls and invest his savings in land or business, are we helping to build up the country if we fail to tell him of our occasional early frosts, of the orchard pests, which sometimes come, and of the other small annoyances to which every community in the world is subject? Are we living up to our duty towards the country when we allow such a man to come here without an adequate knowledge of all the facts, find out for himself the things we have concealed, and then go away poorer in cash but richer in experience to tell all with whom he comes in contact of how he was "stung" in Twin Falls?

There are a number of real estate men in Twin Falls, of whom to their credit be it said, they are not afraid to tell the truth. There are other men not in the real estate business, but who are vitally interested in the growth of Twin Falls county, who are equally willing to talk of the good and the bad in their efforts on behalf of the tract. All honor to the men!

But the irresponsible "booster," the man whose ignorance of actual conditions is measured only by the amount of noise he can make and whose glittering generalities are as misleading as they are ridiculous, is still a factor to be reckoned with.

If The News were called upon for a slogan for the future development of the Twin Falls country, it would be this: THE TRUTH IS GOOD ENOUGH. If all boosters (modern spellings, h-o-a-s-t-e-r-s) would confine themselves strictly to the truth, tell prospective clients the facts in the case irrespective of results, they might cut into their own profits to a slight extent, but in a year or two this community would have built up a reputation for truth and veracity which would do more towards the upbuilding of the country than all the present day boasting put together can ever hope to accomplish.

One dissatisfied man can do a community more harm than can be overcome by all the boasting of that community put together. Dissatisfied men, nine times out of ten, are dis-

men who were not told the whole truth. Nor does this mean that the whole truth would necessarily have kept them out in the first place from it.

Tell the truth about everything. Twin Falls needs nothing but the truth to advertise her to the world.

Tell the world "the truth is good enough" and nine times out of ten the world will reply "the truth is good enough for me, too."

COUNTY DIVISION.

Through its reference to the Senate committee on County Lines and Boundaries, the Twin Falls county division bill is as dead as any bill of the kind ever becomes. In all likelihood the measure will never again see the light of day.

At the same time the efforts put forth in the securing of a counter petition in he very stronghold of the enemy cannot be regarded as wasted. The information brought out is of real value and abiding interest.

For one thing the canvass served to show that the percentage of farmers favorable to the division in the district visited is woefully small. A large number willingly signed the petition against the division, while many others expressed themselves against it but declined to sign on the very excellent ground that they had already, in a moment of weakness, signed the division appeal.

The canvass makes clear a number of points not before thoroughly understood. It shows conclusively that the movement is not general among the farmers surrounding Buhl, and in fact the indications are that the entire movement had its origin and developed its strength among a very small group of Buhl men whose energy is all that keeps the proposition alive today.

As before set forth in these columns, it would be manifestly unfair to charge up to all the residents of the West End the damage resulting from the activity of the few. The News has a better opinion of the people of Buhl as a whole than the facts in the case would seem to indicate.

As to the few, well, Twin Falls county would in all probability have had a Scientific School which might have been located at either Twin Falls, Filer, or Buhl. The exact location is now of little interest, as there is no school. Had the people of the west end as a whole understood this phase of the situation had there been time to show them that a demand for county division coming at the time it did could have but one effect on the Scientific School bill, namely, to defeat it—the movement would probably have stopped right there.

It would seem that explanations are in order from the few, not to the Twin Falls people, but to the people of Buhl and the surrounding country. A Scientific School for the furtherance of the science of agriculture among the people of the Twin Falls tract might have appealed to the more sensible as of rather greater importance than a county division movement, begotten of selfishness and doomed to defeat from the first.

SUFFRAGE AT THE CAPITAL.

In the State of Idaho there is never a word against woman's suffrage. It is accepted as a part of the eternal fitness of things and the women, to their credit be it said, regard it in much the same spirit.

The situation in Washington at the present time stands out by force of contrast. At the time "General" Rosalie Jones and her "army" was marching down Pennsylvania Avenue on their way to the Capitol, the members of the National Association in opposition to woman's suffrage, two thousand strong, were engaged in holding a mass meeting in the same city, during which the movement was denounced as vicious and unwomanly and utterly out of keeping with the true sphere of woman's usefulness.

The press dispatches as to the suffrage feature of the inaugural parade would seem to be in the hands of a press agent who knows his business and a certain vein of unintentional humor lends keen zest from a masculine standpoint. Thus we are told that the second division of the spectacle was led by Mrs. Carrie Chapman Catt and one can imagine the multitude of lesser cats and kittens romping merrily along behind, gay in the knowledge that the eyes of the world are turned towards them,

many without a single serious thought as to what it all means.

But there is a serious thought back of it all and there are not wanting those of the old school brought up in a spirit of love and reverence towards womanhood as typified in the Mother who guided their young footsteps and trained, their first erring instincts, to whom there is something horribly out of gear about the whole performance.

No man will say that woman is not entitled to a voice in public affairs and in such states where female suffrage has been tried there is nothing to be said against its workings. But—

Do Mrs. Carrie Chapman Catt of Washington and Mrs. Emiline Pankhurst of London represent the womanhood of the English speaking races? Is the example of such as these the gage by which our own wives and mothers shall be judged?

Napoleon is credited with having said that "The hand that rocks the cradle rules the world." It is hard to imagine a cradle in the homes of the Catts and the Pankhursts, and, when all is said and done, perhaps it's just as well.

TO ENCOURAGE HOME PRODUCTS.

Early in April the manufacturers and merchants of the state are asked to co-operate in a movement which aims to have for its object the exploitation of Idaho made goods as opposed to those goods in the same line manufactured outside the state.

In more ways than one the movement is a worthy one.

In casting about for an answer to the question as to why more Idaho made goods are not sold within the state, an interesting state of affairs is disclosed. The manufacturers give as a reason that the retail merchant will not give the local product a fair chance with the imported lines. They say he reserves the best space in his show cases for the out-of-state goods and in other ways fails to press the sale of the local product.

The merchant, in turn, takes the position that he is in business to give the people what the people want; that the people will take out-of-state goods in preference to the home product every time, conditions being equal. The profits, they claim, cut very little figure, in some cases the out-of-state goods have the widest margin, in others the home products.

This brings the situation down to the consumer, where the News has long suspected the real cause of the trouble lay.

When the people of Idaho become educated to the advantages of patronizing home industries as opposed to out-of-state shops and factories; this state will come into her own as a manufacturing field, but not until then.

THE BUHL VIEW.

In this issue of The News will be found a communication signed by a committee of citizens of Buhl, giving their side of the county division controversy.

The article is printed in The News in the same sense that any communication is received and printed, whether the subject matter agrees with the views of The News or not.

After a careful perusal of the communication, The News is still of the opinion that county division is not warranted by the facts. Moreover, the recent census in the West End serves only to strengthen the original impression that the great bulk of the West Enders outside of the Buhl group itself agree heartily with The News in its opposition to any such step.

The confidence of the Buhl people in the sense of justice of this, the leading newspaper of the county, is indeed gratifying, but the publication of the article in no manner curtails its rights to such comment as may seem just. The News will continue at all times to give such space as may be reasonable for a discussion of this or any other matter irrespective of the views expressed.

THE BUILDING BOOM.

A healthy building boom would seem to be well under way in Twin Falls. Within a few weeks construction will commence on a new theatre and other substantial structures have been decided upon.

From all the indications the people of Twin Falls may look forward to better conditions in a business way this year than in a long time past.

A SIDE LIGHT ON DIVISION.

MARQUARDSON'S DEPARTMENT STORE. Buhl, Idaho, March 3, 1913. Gentlemen: Please stop the ad I run in your paper and send me the bill for same. Yours Truly,

P. G.—Don't forget to give Buhl some more free ad. F. C. MARQUARDSON, Vertaling. We like it.

No reputable newspaper has a right to turn a deaf ear to an appeal of this kind. The advertisement referred to is herewith reprinted as it appeared in the "For Sale" columns of The News:

FOR SALE—My entire stock of merchandise for either cash or land on the Twin Falls tract. Write or call on F. C. Marquardson, Buhl, Idaho.

Won't some brother divisionist help out? Under the circumstances, comment on the part of The News would seem to be superfluous.

THE POWER OF THE SUPREME COURT.

The Legislature has indicated its entire willingness that the Idaho Supreme Court should continue to have the right to arrogate to itself powers above the authority of the body which created it. According to the Legislature it is entirely proper for the Supreme Court to sentence a contempt offender to ten days imprisonment when the statute of Idaho says that five days shall be the limit of such imprisonment.

The News disagrees with the Legislative view.

If the Supreme Court is not amenable to the laws of the State, why a lawmaking body at all? If the Supreme Court is a law unto itself in the matter of the penalties which it may inflict, why not have it so understood? But—

Do the people of Idaho really want that kind of a Supreme Court?

PRESIDENT WOODROW WILSON.

The nation's best wishes should go out to President Woodrow Wilson on this, the eve of what is sincerely hoped may prove a wise and beneficial administration.

A day of dedication, not of triumph, declares the new Executive with reference to his inauguration, and there is a ring of honesty about the utterance which makes for higher confidence and better feeling.

No man or set of men has any thought of consequence against Woodrow Wilson, the man, and even the most hide-bound among his political opponents can afford to give him a fair chance as President.

IMMIGRATION COMMISSIONERSHIP.

It is sincerely to be hoped that the Senate will succeed in having the item for the upkeep of the office of State Immigration Commissioner reinstated in the appropriation bill. This item was stricken out by the House in a sudden fit of economy. Now economy is part and parcel of the Republican program, but it would seem that, under all the circumstances, this particular office might have been let alone.

For the first time in a good many years the office is in the hands of a man who may reasonably be expected to make something out of it. Common justice would seem to be in favor of giving him a chance.

A FITTING TESTIMONIAL.

Vice-President Marshall has been suggested for a seat in the Cabinet, that he may be the more readily be able to confer with President Wilson on matters of national moment.

The fact that Vice-President Marshall saw fit to decline a legislative appropriation of four thousand eight hundred dollars because he believed that he was not entitled to it and that the legislature had no right to appropriate it, constitutes one of the finest pieces of statesmanship in the history of the Republic.

Vice-President Marshall by this one act alone has shown himself a man to be honored and trusted.

THE MACHOLD CASE.

Friends of Judge Stevens will rejoice at the vindication given him through the finding of the medical commission appointed to investigate the sanity of Carl Machold of Bear Lake county.

That Machold is insane was clear to the physicians, but that his malady is of so violent a nature as to necessitate his being confined in an asylum is more or less open to question.

PURCHASE COAL BUSINESS.

Strobridge Company Purchase Deal with T. J. Douglas March 7. In a deal closed March 7, the T. J. Douglas coal company was purchased by the Strobridge Coal company. Offices will be maintained in the Douglas and offices and T. J. Strobridge and Morgan Heep will conduct the affairs of the consolidated firm. Various of coal handled by both firms in the past will continue to be sold. Mr. Douglas, at least for the present, will give his attention to his farms on this and the Salmon tract.

Alaska's mineral production since 1888 is valued at \$207,000,000.

RETURNS FROM SOUTH.

L. L. Breckenridge, manager of the Twin Falls Milling and Elevator company, has returned from a two months' business trip through the Southern States. Before starting homeward he visited the Panama Canal and other points of interest in Central America.

VIBITING ON TRACT.

George A. Burgoy, of Cleveland, Ohio, is in the city on a business trip, having two or three ranches on the tract. He has been connected with the Pennsylvania railway for more than 20 years, with offices in Cleveland.

FROM CALIFORNIA.

Rudolph Martens, a recent arrival from California, has purchased a 40-acre ranch on the quarter miles south of Kimberly, where he will be joined by his family. He is well pleased with the tract, and contemplates an enjoyable residence here.

PASTURE FOR RENT.

Horses and cattle; best grass and fresh water in the state. Guaranteed stock if lost. Will accept stock from Buhl to Twin Falls at reasonable rates. Arrange early and sign up. For full information call at O. K. Barn, Twin Falls.

ON WINNING TEAM.

Lyle Overy, of this city, is a member of the Pocatello Academy debating team which defeated the College of Idaho, at Caldwell, team at Pocatello last Thursday evening. His father, Thomas Overy, went to Pocatello to hear the debate.

SOME FINE POINTS.

Some Vacant Space Available. Postmaster General Hitchcock is buying securing quarters for the transportation of the newly developed parcel post business. Maybe he could rent some space in the quarters of the ex-

press companion?—Lousville Courier-Journal.

Fate of Private Secretaries. Governor Wilson says Secretary Tamm is his alter ego. Which means that Mr. Tamm will have plenty of work to do, for which the president will receive credit.—Toledo Blade.

They'd Lotsa Rater Scrap.

The trouble with London's militant suffragettes is that they never pause for an effort to bring a discussion of arbitration into the situation.—Washington Star.

If So, He Has Many Enemies. Was the man who invented the in-

visible airplane the same poet who coined upon a carnival civilization the undercorable keyhole?—Boston Globe.

Flareback Note. The ground hog, as an immemorial standpatter, is probably getting a blizzard ready for the 4th of March.—New York Mail.

At Work Again.

Get your back cases (stained) the National Hoop Convention has adjourned.—Baltimore Sun.

ENGINEERS MEET Members of Idaho Society Enjoy an Elaborate Program of Entertainment.

The big annual convention of the Idaho Society of Engineers held at Astoria was brought to a close Sunday evening, February 23, when the special train returned from the great Ox Bow power plant of the Idaho-Oregon Light and Power company, sixty miles north of Huntington. The meeting was one of the most successful in the four years' history of the organization. From the opening reception on Thursday, until the close of the trip on Sunday, the session was well attended and one of great interest and much benefit to the members.

Interesting Program. The convention was opened, Thursday evening with a smoker and reception. The Friday morning session was begun by an able address of welcome by the mayor of the city. The principal address was made by the society's president, D. G. Martin, of Idaho Falls, after which the business meeting was held. At the afternoon session, presented by J. P. Condon, of Boise, presented a complete and comprehensive course of paper which was followed by Dr. C. N. Little, of C. Scharf, J. B. Marcellus, and E. G. Erickson. In the evening, A. F. Blaker gave an instructive lecture on Wood Preservation. The Saturday morning session was opened by a well-prepared and comprehensive paper by V. Borg, consulting engineer of Twin Falls, on irrigation—Pumping. The able discussions of the paper which followed were participated in by S. M. French, of Weiser, Otto B. Goldman, of Weiser, Earl Dobbie, of Rupert, and A. B. Wilcox, of Twin Falls. The afternoon session was given up to further discussion and a visit to a motion picture theater where films especially provided were displayed illustrating a number of the mammoth engineering enterprises in course of construction. Including the Los Angeles aqueduct, the Panama Canal, and the great Mississippi River power plant at Keokuk, Iowa.

START NEW GARAGE. Magel Brothers' Build an Up-to-Date Auto Establishment. Material is now being placed on the ground for new auto garage that is to be located on Second avenue north near Shoshone street. The firm conducting the garage will be known as the Twin Falls Auto company, and will be owned by Magel and Sons. The new garage will be a brick structure 125 feet deep with a 60 foot frontage. It will be fire proof, steam heated, and equipped with the latest machinery to meet all requirements. The company will handle the Standard cars, the first of which is expected to arrive in a short time. A complete line of auto accessories will be carried.

ANNOUNCEMENTS. Episcopal church services Sunday, 10 o'clock. St. Andrew's church, 10 o'clock. Evening prayer at 7:30 p. m. Rev. Howard St. Cash paid at this office for clean cotton rags in good sized pieces—1000 lbs.

Week in Society

Dinner Club Entertained. Mr. and Mrs. M. J. Swoolley entertained the members of the dinner club at their home on Eighth avenue on Saturday evening. At a beautifully appointed dinner, followed by auction prizes. The guests were seated at two tables. The tables were artistically decorated with spring blossoms, one having as its centerpiece a pot of jonquils, and the other a tall vase of snap dragons. Tall cases of the snap dragons were also placed about the room. Mrs. McCollum and Mr. Falling won the prizes for high score at auction. Places were arranged for Mr. and Mrs. Walton, Mr. and Mrs. Falline, Mr. and Mrs. McCollum, Mr. and Mrs. Lewis, Mr. and Mrs. Long, Mr. and Mrs. Hill, Mrs. Allen and Mrs. Craven.

Thursday, which was a handsome hand painted plate. Dr. Baker received a plate from the members of the dinner club. Mrs. Sprague and Mrs. Allen assisted the hostesses in serving delicious refreshments. The guests for the evening were Messrs. and Mrs. McCallum, Booth, McCollum, Baker, Thomas, Hill, Burton, Peavey, Elliott, Moore, Wright, Harrison, Wilcox, Shook, McKee, McKee, McKee, Lewis, McGreer, Melvick, S. T. Hamilton, Sprague, Mrs. McDermott, Misses Bullis and Ashmore, and Messrs. H. H. Wood, Cash, McCaskey, and C. Reid.

Wood presented on Wednesday evening were Messrs. and Mrs. Nixson, Pike, Rinkley, Grant, Leonard, Mitchell, Chappel, Spafford, Robinson, Williams, Ostrander, Senoel, Costello, Felling, Reed, Craven, Senoel, Mrs. Boyd, Mrs. Wall, Willie, Hony, Madames Parfite, Warren, and Mrs. Misses McDermott, Cook, Kinradd, and Messrs. Strobridge and Beatty. "Happy Hour Club." Mrs. J. H. Wye entertained the "Happy Hour 500" club last Monday at the home of Mrs. W. R. Frick. Mrs. Frick entertained the club on Monday of this week.

Unique Evening Party. One of the loveliest parties of the season was that given by Mr. and Mrs. P. H. Smith and Mr. and Mrs. J. H. Seaver at the home of the latter on last Thursday evening. The guests were invited to attend the "Auction of the Smith-Seaver Art Collection," giving cause for much speculation as to the nature of the entertainment. On their arrival at the seaver home, the first thing to be noticed was a large auction ring, and on entering each guest was furnished with a catalogue, cut in the shape of an auction ring, listing the pictures to be sold and a large bag of beans to be used for the purchase price. Bidding was high, and the distribution of the purchases was the cause of much amusement. The one who had the most stirring subject, found himself with a spoon, while the bidder for "The Horse Pair" received a small bag of beans. "Measures for Money" proved to be a small silver top measure, while a "Souvenir of Greece" was an empty cold cream jar.

Another unique feature of the entertainment was the choosing of partners for supper. The women were given "word" and had to give five answers to the questions and from these must find partners. The delicious refreshments were served catered by Mrs. Craven. Mrs. Craven's "hand-out," furnished at the auction. The guests for the evening were Messrs. and Messrs. McCollum, West, Turner, Crocker, A. B. Sawyer, Pike, Scott, Malone, McDugan, Nixon, Mrs. Tucker, Messrs. Bradley, Murphy, Bowles, and Edie of Pocatello.

Two Delightful Evening Parties. Mr. and Mrs. W. H. Greenough and Mr. and Mrs. Harold Dodd gave two very enjoyable parties on Tuesday and Wednesday evenings, at the home of the former on Eighth avenue. The rooms were beautifully decorated with red carnations, roses and ferns. Large vases of these flowers being placed on the piano, and pedestals. Several games of 500" furnished the entertainment during the evening. Mrs. L. Wright winning the ladies' prize on

clubs. The Parliamentary and Civics department has charge of the program at the Twentieth Century club on Tuesday afternoon. A large number of the club members were present, and the program was one of the best given this year, being a representation of a meeting of the House of Representatives this session. INTEREST SHOWN IN CIVIC IMPROVEMENT

TIMELY TOPICS DISCUSSED AT OPEN EVENING PROGRAM

Members of Civic Bureau of Twin Falls and Future Plans for the Betterment of Twin Falls—Varied Program.

Interest in the way of civic betterment and improvement was evidenced at a meeting held in the Commercial club rooms last Thursday evening under the direction of the civic bureau. The address was given by Mr. J. H. Burton, president of the bureau, and was on the subject of better city lighting, telling of the lights that are in this city and of the system of lighting that is being used in a number of progressive cities throughout the country.

Codify City Ordinances.
The plan of collecting the city ordinances for ready reference was discussed by Mr. A. Ashton. Mr. Ashton stated that the ordinances of this city are all on one record, but in such an arrangement that it is impossible to find the laws of the city. He stated that the bureau will have these ordinances arranged in booklets for ready reference in the near future.

The Rev. Mr. Woodhull spoke of the church in civic work. He explained the value of the church in the betterment of the city, saying that the more the church does toward making better the individual, the better will be the community.

Arthur J. Peavey spoke of fire preventive methods, telling of gross loss that has been suffered owing to the lack of proper maintenance of preventive means. The introduction of inflammable but dependable extinguishers in the homes and houses would in many cases save much damage from fire. It is not from fire, in the calling of the fire department, the destruction of school children in the danger of handling matches and combustible materials was urged by Mr. Peavey as one of the best preventive measures.

The Rev. Mr. Anderson spoke of the grouping of future buildings in a civic center. He stated that the present city park is to be an ideal place for a public library and city hall, to conform with the court house and high school on a peninsula and the stone street. The placing of a city park further to the north and the proposed extension of Shoshone street as a boulevard to the Shoshone Falls was discussed as a future possibility.

Mr. J. Sweoley strongly urged the construction of playgrounds and parks. A playground near the schools is large enough to allow for the playing of baseball, football, basket ball, and tennis, as well as other out of door games. Mr. Sweoley stated in his one of the best expenditures that can be made for the school children of the city.

As a representative of the Century club, Miss Hamlin spoke of the work along civic lines that are being done in this club and others throughout the country. The club is favoring legislation along all lines that will result in better civic conditions and closer relationship of the schools and homes in the instruction of children.

Mrs. J. L. Daube rendered two vocal solos. Miss Carter gave a recitation entitled, "The Hunk-Walter," and musical selections were furnished by Miss Atwood's orchestra.

PRESENT DAYS BUSY ONES

Public Utilities Bill and Employers Liability Act Keep Bolone Hard at Work.

(Special to The News.)
Bolone, March 4.—Some of the hardest work of the entire session is being done on the public utilities bill. The Ryan bill that passed the house after a long and arduous struggle between the friends of the corporations and the friends of the people has been the bone of contention in many sharp encounters in the past week.

In the first place it was determined to consider it in a Republican caucus, but this plan was abandoned. Then it was proposed to substitute the Ryan bill which was identical with the Parks bill discarded in the house. Finally it was decided to throw the Ryan bill into the house and "pull its teeth." In other words it was proposed to so amend it as to make a conservative measure out of it. Practically the whole of Monday was devoted to a consideration of the bill. Numerous amendments were proposed, all tending to deprive the commission of power and bring it under the jurisdiction of the district court. It is safe now to say that any hope of success will be wholly unattainable. There is well grounded suspicion that this is the plan now adopted to defeat the real purpose of a public utilities commission. Close attention is being given to the struggle for a workmen's compensation act. In the consideration of this measure the line of cleavage between the two elements in the Republican caucus is clearly defined than on any other subject that has come up.

Liability Act.
Senator Edgington introduced a bill to establish an employers' liability act. It is copied from the New Jersey law and has the endorsement of President Wilson and Governor of Michigan.

and dared the conservative majority to throw it into the faces of the workmen of the state. He read protests against it from the labor unions of Boise, Twin Falls, Wallace, and so on. On the other hand, Senator's Deffenbach, Fairchild, and Johnson of Lewis united in introducing a bill for a workmen's compensation act. This is drawn to give the injured instant relief, without the necessity of public into court to enforce the claim. It establishes a fund by assessment on the industries in the ratio of their hazard and compensation for injuries. Neither the public utilities bill nor the workmen's compensation act will pass until the legislature is about ready to adjourn sine die.

BILLS RUSHED THROUGH

Haines Vetoes Judicial Division Bill—Plan Enlarging Fifth Judicial District.

(Special to The News.)
Boise, March 4.—Two bills were rushed through in the closing hours of the session that have given rise to comment. One of these provides for annexing Cassia county to the fifth judicial district and provides for the appointment by the governor for an additional judge for that district. The other provides for an additional judge for the second judicial district (Judge Steele's district). Governor Haines vetoed the bill to divide Judge Steele's district, creating one new district. He did this on the plea of economy. Now there are many who will look on with keen interest to see what he will do in regard to the provisions for the two additional judges.

It was argued in favor of an additional judge in the fifth district that Judge Hudko is badly overworked in it, and that to add Cassia county to the district would make "twenty" of work for two judges.

Against the claim that Judge Hudko is overworked Representative Healy, of the Democratic majority in the house, made the charge that \$300 of the deficiency in the appropriation made two years ago for the district was not accounted for. He said that the expenses incurred by Judge Hudko last summer in his campaign for the supreme bench, during which time he made a canvass of the entire state.

When this fifth district bill was before the senate, Senator Robinson of Twin Falls pledged to have it sent to the committee of the whole for consideration and possible amendment, but the majority jammed it through under suspension of the rules. The prediction is made that it will pass the house in similar style.

One other phase of this subject is causing comment here in the capital. This is the prediction that D. C. McDougall is to be appointed judge in the fifth district as he is now in the position of being created for the former attorney-general.

GOT TAYLOR OUT OF BED

Lewis, of Canyon, is Credited With Rousing Lieutenant, Governor to Make Deal in House.

(Special to The News.)
Boise, March 4.—One of the exciting incidents of the legislature last week was the open charge on the floor of the senate by Senator Baidge during the consideration of the Payette county bill that Representative Lewis, of Canyon county, had gone to the room of Lieutenant Governor Taylor in the hotel, roused him from his bed at midnight, and offered to give him the power to name the majority of the sitting committee to the house on condition that he would use his influence to push the Payette bill through the senate. The naming of this committee would mean the practical control of the legislation from the

NEW LODGE ORGANIZATION

Odd Fellows on Tract Unle In District Body—First Meeting Here.

A district organization of all Odd Fellow lodges on the tract has been formed and will be known as the Odd Fellows District Organization. The lodges comprising the membership are Twin Falls, Kimberly, Filer and Buhl.

It is the plan of the new organization to have meetings several times during the year at the various towns in the district organization. The first meeting of the organization will be held in this city on the evening of Monday, March 17. E. D. Taylor, grand master of the grand lodge of the state of Idaho, will be present and deliver an address at this meeting. Teams from the various lodges will be present at these district meetings. The object of the organization is to build up Odd Fellowship in southern Idaho.

SELECTION OF SEED IMPORTANT MATTER

SUFFICIENT CARE NOT TAKEN IN CHOOSING VARIETIES

Professor Heard Tells of Kinds of Seed as Factor in Successful Farming—Gives List of Garden Vegetables.

With the coming of spring the question of planting of seed will be an important one for solution among the farmers and gardeners. In the following article Professor C. H. Heard of the agricultural department of the local high school, tells of the selection of proper seeds and gives a list of the standard varieties of garden vegetables which are adapted to this country.

There is probably no factor in gardening that is so universally neglected as the selection of seed. As a rule we are satisfied to know what we have planted lettuce or celery, and we pay no attention whatever to the character of the seed. We buy the first variety of seed handed us, without regard to the different kinds of the same variety, or to the climate and soil under which it was grown. Many of our failures are due to our negligence of these things.

A few examples of the effect of climate are here given: The American plum (prunus americana) is not successful but is successful when taken to Texas. The Red Cedar (Juniperus virginiana) grows in the north of Idaho to Tennessee, but trees grown in the south will not do well in North Dakota. The same is true of the apricot.

It is not the quantity of seed but the quality that counts. In the selection of varieties of strawberries we should give preference to one locality or another. In the selection of seed for a reliable seed firm in the near vicinity, or at least from some locality where the climate and conditions are as nearly as possible like that of our own district.

Of even more importance than this is the selection of varieties. In every seed catalogue we find dozens of varieties of each plant we desire to grow. Each, according to the description given, has its own characteristics. In selecting our seed from a catalogue, we often pay too much attention to the gaudy pictures and flower descriptions. Our better and well known varieties are often described in a very few lines. It is not the pictures, but the descriptions, that determine the merits of a given variety from the descriptions given.

An enclosing list of the better varieties of common garden vegetables with the hope that it may be of some assistance to the amateur gardener. Asparagus—Conover's Colossal, Columbian Mammoth White. Beans—Blumarck, Prolific Black Wax, Early Red, Early Warwick, Stringless Green Pod, Dwarf Horticultural, Cabbage-Copenhagen Market, Early Jersey Wakefield, Early Flat Dutch, All Head, Super Head, Danish Bald.

JARBIDGE FOLK IN YE OLD TIME DANCE

WASHINGTON'S BIRTHDAY CELEBRATED IN GOLD CAMP

Games and Soures Appear in Colonial Courtship—Sparkling Diamonds and Nuggets of Gold Add to Evening's Attractions.

(Special Correspondence) Jarbridge, Nevada, February 24.—To day and ye night of ye great gold camp of Jarbridge assembled at ye club house for ye celebration of Washington's 72nd day of ye second month of ye present year. Ye colonial costumes were largely in evidence and a most pleasant time was enjoyed by all until midnight.

It was a lovely evening and the hall was well filled. The costumes were fine and showed that great amount of care and time had been utilized in preparing for the occasion. Mrs. J. T. McCormick made an admirable Martha Washington, with her matronly figure, smiling countenance, powdered hair, pink cap, and crimson skirt. Where the eyes came from for the latter in this out-of-the-way place is a mystery, although we have a suspicion that she made them up for the occasion out of "straw" and what is a pretty plentiful around camp and is extremely useful in many instances. She wore a few pieces of antique jewelry.

Young Warren Hudson made an admirable George Washington, from his white necktie to his white stockings, aided and abetted by a blue coat and a pronounced beauty spot on his right cheek. Wm. Martin, from Pavlik's, had on an elaborate gown of lavender mesaline, with an Irish point lace cap partly containing a mass of powdered hair. She wore a diamond necklace and an unique peacock pendant of Jarbridge gold.

Varied Costumes. Mrs. Frank L. Middleton was so elegant in pink mesaline with diamonds and pearls and a glistening pin in the form of a man-poled star with a large diamond center and pearl radiating out of it. Mrs. C. T. Strong wore a white mesaline colonial costume prepared with great care, even to the cap, fichu and shawl, with simple old ornaments of topaz and pearls.

Mrs. A. J. Lund, in white idia linen with fichu, cap and powdered hair. She wore a military brooch, and a gold nugget bracelet. Mrs. John Sveigedot was a charming "Dancer Ye Olden Time" with white hair, cap, fichu, and panther ornaments being a few diamonds.

Mrs. E. B. Fletcher had a very dainty lavender gown trimmed with lace. Mrs. M. B. Wolfe wore an evening gown of spool silk, with beaded trimming and some fine specimens of antique jewelry. Miss Nan Lynch, the popular belle, was in white, very handsomely embroidered. Miss Fay McCormick represented a Puritan maid, with long golden curls, while in contrast Miss Sara Wren was a modern matron with a white idia linen costume of the very latest mode.

Mrs. Wm. Frank, white muslin. Miss Dorothy Middleton made a very fashionable white frock, with gold spangles all over her skirt. Miss Edwina Wolfe wore a white silk gown and cap, that had been worn at many functions by her great grandmother.

Mrs. R. Dexter had on a valuable inheritance of the 49th, in a brooch of California rose quartz full of color. Mrs. Wm. C. Blomberg wore diamonds and turquoise. Mrs. George Chiswick had on an exquisite gown of flowered organza, with white cap and fichu and powdered hair.

Gentlemen Present. Among the gentlemen present were: Geo. Winkler, J. T. McCormick, P. H. Leavitt, Wm. Martin, Warren Hudson, W. J. Blakely, E. B. Fletcher, C. J. Nilson, Wm. Martin, Bart Dunnington, Geo. Stroble, H. L. Stevens, Wm. C. Blomberg, G. T. Strong, J. P. Duncan, W. S. Fisk, Tom Middleton, J. Scott Fleming, W. W. Fisk, R. D. Folsom, E. P. Graham, W. B. Tripp, W. B. Wolfe, Harry Dilks.

The wind-up of the affair was an exhibition by the savage followers of Old Jarbridge to the big chief and medicine man of the tribe. Geo. Stroble made a preliminary talk in introduction of his great chief.

SABBATH SCHOOL LESSON

MARCH 9, 1913

THE DESTRUCTION OF SODOM.

(Temperance Lesson.)
Gen. 18: 23, 24, 32.

12. And the men said unto Lot: Hast thou here any kinsmen? son-in-law, and thy sons. And thy daughters, and whatsoever thou hast in the city, bring them out of this place.

13. For we will destroy this place, because the cry of them is waxed great before the Lord, and we have heard that the Lord hath sent us to destroy it.

14. And Lot went out, and spake unto his daughters, and said: Ye are now single women, and have not husbands as yet: for the Lord will destroy this city; for he hath sent us to destroy it: and ye are now single women.

15. And when the morning arose, then the angels hastened Lot, saying: Arise, take thy wife, and thy two daughters, which are here; lest thou be consumed in the iniquity of the city.

16. And while he lingered, the men laid hold upon his hand, and upon the hand of his wife, and upon the hand of his two daughters; the Lord being merciful unto him: and they brought him out of the city, and set him without the city.

17. And it came to pass, when they had brought them forth abroad, that he said: Escape for thy life; look not behind thee, neither stay thou in all the plain; escape to the mountains, lest thou be consumed.

18. The sun was risen upon the earth when Lot entered into Zoar.

19. Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

20. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

21. So his wife looked back from behind him, and she became a pillar of salt.

22. And Abraham got up early in the morning, and went toward Zoar.

23. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

19. And the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

20. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

21. So his wife looked back from behind him, and she became a pillar of salt.

22. And Abraham got up early in the morning, and went toward Zoar.

23. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

24. Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

25. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

26. So his wife looked back from behind him, and she became a pillar of salt.

27. And Abraham got up early in the morning, and went toward Zoar.

28. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

29. Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

30. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

31. So his wife looked back from behind him, and she became a pillar of salt.

32. And Abraham got up early in the morning, and went toward Zoar.

33. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

34. Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

35. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

36. So his wife looked back from behind him, and she became a pillar of salt.

37. And Abraham got up early in the morning, and went toward Zoar.

38. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

Baking Powder Biscuits

Light as a Feather
By Mrs. J. M. McKeen, Editor of the Eastern Cooking School Magazine

Baking Powder Biscuits made by this recipe are so far ahead of ordinary baking powder biscuits that, if once tried, you will never use any other recipe. For the next time you run short of bread, save this recipe.

McKeen's Baking Powder Biscuits

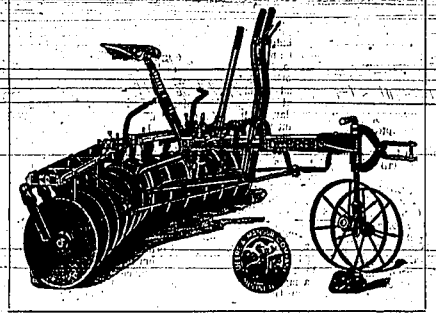

Three cup flour; 1/2 cup shortening; 3 level teaspoons K. C. Baking Powder; about 1/2 cup milk or water; 1 teaspoon salt.

Mix three times, the flour, salt and baking powder. Work into the flour the shortening, using lard or butter for shortening. Then mix to a very soft dough with the milk. The water the bicarbonate enters the oven, the lighter it comes out. Never knead baking powder biscuits; press the dough into shape and roll lightly. Cut in small shapes and bake on a sheet or very shallow pan in a hot oven. In placing biscuits in the pans place well apart, not allowing edges to touch. Small biscuits are better than large ones. Large biscuits do not have the proper amount of time to raise and bake.

Golden Text—"Come out from among them, ye servants of the Lord, and touch not the unclean thing."—1 Cor. 6: 17.

Introduction.

We now pass over some sixteen years—during which Abraham held firmly to the conviction that God had made a promise which he was bound to keep. In the meantime, he had stood before the Lord; he had seen the high ground in the vicinity of Jerusalem and was feeding his cattle in the plain of Mamre, near Hebron, when twenty million men turned to the southward. It was a beautiful country, the largest stretch of fairly level land in all the Palestine. It had a rich soil and yielded abundant harvests to the husbandman—but it may be believed that only a small amount of the land was cultivated. The people had hardly energy enough to work. They preferred to live on little and in a rude way, as all people must if they do not work, and to a great extent in Mamre, about a mile and a half west of Hebron, and there Abraham was to be found. He had a son, Isaac, and with him and his messengers of God came to him and renewed the promise that Sarah should have a son. Abraham went with them to the top of the hills to the eastward from which he could look down upon the cities of the plain, and there he said to the Lord: "I will see that I do not do anything to offend thee, and I will see that I do not do anything to offend thee."

Expository.

12. These were the men who had come with Abraham under the oak tree. There were three of them, and one of them is called Jethorah, or Lot. He remained with Abraham for a time, but he did not go down to Sodom. They told Lot that he was to come upon his land, and gave him opportunity to gather all his family, and to separate himself from the wicked around the city, and one day he will make the separation complete.

13. Early the next morning, when it was scarcely light, the men urged Lot and his family to hasten out of the city. He held that the people had risen to go out into the country. All were there when the first began to fall.

14. The men were exceedingly kind. They did not make the people get away, but they helped him all the way. There was no time to lose. The work of destruction must be done promptly.

15. As soon as they had got Lot and his family outside of the city, the destruction began. Lot was told to get away as fast as he could, and to be overwhelmed. Lot hesitated, and asked that he might be allowed to go to a little city not far away. We do not know his exact location, though some had thought that they had found it.

16. The destruction had been done by fire from heaven. Lot was secure, the fire came. It was not simply their own sinning which sank the cities; but it was a direct judgment

17. And the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

18. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

19. So his wife looked back from behind him, and she became a pillar of salt.

20. And Abraham got up early in the morning, and went toward Zoar.

21. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

22. Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

23. And he rained brimstone and fire upon all the plain, and all the inhabitants of the cities; and all that grew upon the ground.

24. So his wife looked back from behind him, and she became a pillar of salt.

25. And Abraham got up early in the morning, and went toward Zoar.

26. And he looked toward Sodom and Gomorrah, and toward all the plain of the Jordan, and saw the smoke of the furnace, and he said: I know that God destroyed the cities of the plain; and he saw Lot as he went out of the overthrow, and he laughed, and he said: I will see what the Lord will do.

27. Then the Lord rained upon Sodom and upon Gomorrah brimstone and fire from the Lord out of heaven.

STATE HONORS FOR TWIN FALLS GIRLS

DEFEAT BOISE TEAM AND SECURE IDAHO CHAMPIONSHIP.

Fast Game in Capital City Ends in One Sided Score of 14 to 4. Local Girls Win All Scheduled Games.

By defeating the girls' basketball team of Idaho high school last Friday evening in the capital city, the Twin Falls girls' basketball team secured the championship of the state. The score, 14 to 4, tells the tale of a fast and furious game. Boise played on defense, but was of no more avail to show ability in making a score. The Twin Falls girls played in close formation, the style of play that has secured for them all games played this season.

The Twin Falls girls played winning basketball throughout the season. After winning the championship of southern and eastern Idaho, the Boise team, winners of western and northern honors, was the only obstacle in the way of state honors. The Boise team has also been successful through the season, winning from their opponents with average scores of 3 to 1, but were not able to meet the team from this city.

Superintendent O. M. Elliott accompanied the team to Boise, and on Saturday visited the members to places of interest in the capital city. After reaching the legislature, the natatorium, state penitentiary, and barracks were visited. The team returned home Saturday night.

STUDENTS TOO MUCH FOR FACULTY TEAMS

INSTRUCTORS CHALLENGE PUPILS AND LOSE BOTH GAMES.

Indoor Baseball and Basketball Matches are Best Athletic Events of Season—To Present Sweaters to State's Champion Team.

By far the best athletic contests of the season were pulled off at the high school gymnasium last Friday when the faculty went against the students in indoor baseball and basketball. The games were played in an athletic spirit, the faculty being used to purchase sweaters for the girls who won the basketball championship at Boise last Friday.

The faculty were the challengers. The men challenged the champion sophomore basketball team and the women sent out to meet all the girls for an indoor baseball game. The gym was crowded with students when the games were called. The girls played first, but were finally scheduled for one inning, but when the fifth was over, the faculty was all in and the scorekeeper began to keep his record on the way, which was had plenty of time. At this time the students were ahead, 11 to 2.

Heavy Batting Done. Ruth-High was the prize batter and she can hit the ball with a vengeance. The feature of the game was a triple play by the students. It took about ten minutes to make it and the girls didn't know it had been done. Even Principal Jones, who tried to hold Jones in the outfield, had to have the play explained to him.

The teams lined up as follows: Students (11) Faculty (2) Cameron, e. e. (Morso) O. Brose (capt.), p. Braecwell (capt.) W. Brose, 2b. Blackley (capt.) Mink and Paulsen, forwards; Wood, Krengel, 2b. Moore Walker, 1b. Hopkins Higgins, 3b. Porter.

The Men's Game. The Sophs beat the faculty 20 to 8. The game was played in a spirit of sportsmanship and kept the crowd yelling. Captain Malah was the whole faculty team, although Jones, after taking careful management of the basketball from the center of the floor.

Superintendent Elliott clearly demonstrated that he is far from the "has been" class. He played center for the first half, and although his style of architecture is not universally followed by centers, he got over the floor in a amazing manner.

"Prof." Faulkner kept busy during the game. He couldn't keep up with the ball so he just moved around over the court looking on as an opponent, and when he found one, calmly proceeded to throw him off the floor. His work was greatly appreciated.

Sophomores (23)—Rogers and Potter, forwards; Rowberry, center; Starr and McGowan, guards. Faculty (8)—Assessor and Paulsen, forwards; Elliott and Cruise, centers; Jones, Spooner and Heard, guards.

While a preference to meet Jessa Day or the Hatling Dano is given to the feller, Midkiff will meet any one to his weight. The feller will be the place of holding the bout was suggested.

MAKE TWIN FALLS A CITY OF ROSES

LOCAL-MERCHANT PLANS UNIQUE ANNIVERSARY CELEBRATION.

W. R. Priebe Will Distribute Bushes and Offer Prizes for the Best Results Obtained.

TWIN FALLS A ROSE CITY.

"We want to make Twin Falls a rose city. Many of the west coast cities, especially along the coast, are growing roses in great quantities. It is the appearance of their cities. There is no better way of making Twin Falls a city beautiful than by the extensive growing of roses. It has been demonstrated that our climate is especially adapted for the finest roses. We should make good use of these favorable conditions.

"Now is the time to place our department stores and start preparing the ground. Then, as soon as the frost is all gone from the ground, roses may be planted. I will announce in the near future the date on which the bushes will be given away, which will be covered by the season."—W. R. Priebe.

As a means of encouraging the growing of roses in this city, W. R. Priebe will this summer award prizes to the school children who plant the most roses in their yards. The occasion being the fifth anniversary of the opening of his business in this city. The prizes will be awarded June 20, and will amount to \$20.

"Mr. Priebe is arranging to distribute free among the school children of the city 500 roses of old rose bushes of the finest varieties. The distribution will be made that each family in the city, in which there are children in the schools, will receive one rose bush. The children will be instructed and asked to care for the roses and enter a display at the contest at the Priebe store in June. The bushes will be given away April 4, or at such time as the season seems best for transplanting.

BUHL MEN EXPRESS VIEWS.

(Continued from Page 1.)

country. We offer the City of Twin Falls an Exhibit One. 2. The expenses of conducting a small county are relatively less than those of a large county. Opponents to division tell us expenses will be doubled. They simply make the assertion. They give no reasons and furnish no figures. It is interesting to synopses of expenses taken from the report of the present County Clerk: Current Expenses Fund For Fiscal Year: A. B. 1914, ending April 6, 1912. Sheriff's Office \$12,141.50 Assessor and Tax Collector 6,116.65 County Coroner 977.74 Probate Judge 3,834.40 School Superintendent 2,053.73 County Commissioners 3,016.36 County Engineer 152.50 County Surveyor 225.65 District Court 9,000.50 Justice Court 3,532.50 Court-House 2,400.00 County Attorney 2,402.70 Poor and Indigent Sick 5,012.20 Insane (examined) 67.88 Insane (maintained) 150.00 County Printing 2,800.40 County Treasurer 152.50 Tax Robates 344.00 Miscellaneous expense 9,052.41 Interest paid on expense warrants 1911-1912 104.58 Witness certificates in criminal cases 1,153.00 Judges' orders, defense of criminals 175.00 Order State Board of Health 38.25

Total \$95,215.48 Road and Bridge Fund 35,162.62 Total \$130,378.10 The total for 1914 is \$129,400.00. The proposed county of Buhl is 45-46,000 acres, including upon this basis the new county would have \$45,492.71 for annual expenses.

Proposed Expense List. We believe the new county government should be run on the following basis: Clerk \$2,000.00 Sheriff 2,000.00 Assessor and Tax Collector 1,800.00 County Coroner 1,000.00 Probate Judge 1,000.00 County Superintendent 1,200.00 County Engineer 1,500.00 County Surveyor 100.00 District Court 1,500.00 Justice Court (etc.) 2,500.00 County Attorney 2,400.00 Poor and Indigent Sick 500.00 County Printing 500.00 Transferring records 3,500.00

Total \$19,700.00. The basis of argument, double this estimate, is \$39,400.00, and we would still have \$93.71 left. The law says no county should be square miles less territory than 400 square miles. The proposed county of Buhl has more than one thousand square miles. The people of Buhl, 200,000. The people of Idaho, 200,000. Why should mud aligning and por-

itory, own the property, and pay the taxes, desire the creation of a county, as evidenced by petitions. The old county of Twin Falls will in no way be injured. All but about six miles of railroad would remain in the county. In view of these facts, you should have one in the old county object to division. If the west end of the county is paying its just proportion of expenses raised, and receiving the same, wherein can anyone be injured by the division?

Party differences between the citizens of Twin Falls and Buhl have but little if anything to do with the question. This is a condition that exists between all neighboring and competing towns.

As to the expenditure of money, much has been said and interpretations made concerning Buhl's independent Road District. It is true that such a district exists, but it is true that the district was created after the county levy of 2 mills for road and bridge purposes was made. The total valuation is \$4,533,000.00, and the district has a valuation of \$1,236,717.00. On this basis Buhl independent Road District should receive \$230,000.00, whereas it has received less than \$200,000.00. It is true that another remittance will be made after the first of July, but it is fair to say that more than one-half of the money has been paid.

Much has been said about the Twin Falls papers about the Boise conference. Between Twin Falls and Buhl delegates were given to understand that there was but one course to pursue and that was to forget county division, go home and be good.

The arguments advanced against division were of the nature of securing the Agricultural College would be damaged. This question was one into in the county and has not been just as much in favor of the college as the Twin Falls delegates. Senator Robinson and Representative Hays were of the opinion that the division would injure the cause of the college and Representatives Nihari and Ingham were just as sure that it would not, result two of one mind and two of the opposite. Senator Robinson made the positive statement that he had promise from enough members of both houses to pass the Agricultural College bill. Upon this statement it would appear that county division would have an effect on the bill. The Buhl delegates were also given to understand that no bill could pass the present legislature upon its merits; that only by trades and manipulating could a bill be passed. The Buhl delegates were further given to understand that no courtesy nor recognition would be given the division bill in either house nor committee.

It was evident that "no conclusion" could be reached and it was agreed to adjourn and after further consideration to meet again in a week. The Buhl representatives discussed and considered the several questions fully and reached the conclusion that a further conference was necessary and so notified the Twin Falls representatives, also telling them that they intended to push the county division bill.

Tribulations of Sponsors. The bill was prepared and Senator Robinson was asked to extend the courtesy of introducing the bill in the senate, as it required a two-thirds vote at that time to get the bill introduced in the house, which he refused to do. It is interesting to note that the bill was later introduced by Senator Robinson and a member of the committee on county lines, of which Senator Robinson is referred. The Senator and Representative from Buhl have every possible technical way to lay their hands on the bill to prevent a fair consideration of the bill on its merits.

Representatives Nihari and Ingham are being wrongfully accused of not being true to their constituents for having division when it was not made as far as is the campaign that this is merely a narrow view to say the least. Emergencies are continually arising that require legislation. If nothing but legislative proposals and political features are to be considered in our halls of legislation, and these brought about by barter and trade, it is a sad and degrading a halt.

For Agricultural Colleges. The Buhl Representatives defy anyone to name and sustain a specific instance in which a single trade was inserted into, a promise made, or a word said against the local interests of the Agricultural College in Twin Falls county. We believed, always have, and do yet, that the Agricultural College should be segregated from the University and that it should be located in the irrigated district south of Idaho. The recent effort failed, in our opinion, from ignorance on the part of those in charge of the bill as to what constitutes an Agricultural College; lack of ample provision in the bill to house and take care of the present equipment; unreasonable scope of the bill; and, lastly, in the desire to have the transfer made. The county division question did not enter into the question and we defy anyone to show us a single case where a result of county division agitation was a result of county division agitation.

The people of the west side of the county most emphatically resent many of the assertions that have appeared recently in the Twin Falls papers. They are absurd, ridiculous, and not true, and the parties making them are in the possession of facts which they were misrepresenting. We are referred to such expressions as "The fact is the only holder of it is found among the tool of cattle speculators and would-be office seekers of Buhl." "I consider any legislator a traitor who comes with a proposition to divide the Twin Falls territory," and "represents the sentiment of the majority." "Rule of rule is apparently the attitude of the Buhl contingency, and it is true that the Buhl can redeem itself by gracefully backing down," acknowledging its error, if it can suppress its awfully heads long enough to do so.

Why should mud aligning and personal feelings enter into this question? We boast of our free country and our independence. Every citizen has a right to his opinion, and so long as no one is injured, no one should be respected. We submit the names of the citizens of Buhl and vicinity who have been most active in the line of division to the sober-minded, progressive citizens of Twin Falls and ask them if such epithets as these cited above are true. Who among them are "office seekers," "broken down business men out of a job," "not taxpayers," "awful heads," "traitors," "real estate boomers," etc. We have no desire to enter into a drawn out newspaper controversy but in the spirit of fairness ask that this article be published.

Twin Falls Beautiful...

I am planning to have a Store Beautiful day on my fifth anniversary; June 20th, and having decided to use the rose for decoration on this occasion, I am going to give to the school children of Twin Falls Independent District

No. 1 six hundred two-year old rose bushes, asking them to make exhibits of the flowers, for which liberal prizes will be offered.

Value of prizes: First, \$15; second, \$10; third, \$5; and 10 at \$2 each.

Every family that has a child in school should interest themselves in this Twin Falls Beautiful club. Have the children you wish to enter this club fill out blank spaces below and bring to Priebe's Jewelry Store at once, as first come is first served.

Name _____ a student at the Twin Falls City Schools (Independent District No. 1), living at _____ wish to enter the Twin Falls Beautiful Club. I am to receive a Rose Bush of W. R. Priebe, agreeing to plant and care for same, and if it blossoms display some of its flowers at Priebe's Jewelry Store on his Rose Beautiful day, June 20th, for which liberal prizes will be offered. The date I am to receive the rose for planting is: about April 4th, depending on the season.
