GARDEN CONTEST PRIZES AWARDED

J. A. WATERS JUDGES WORK OF GRADE PUPILS.

Keen Rivalry Between Schools During Contest—Much Interest Shown—Professors Award District Work.

Prizes were awarded Tuesday in the city school garden contest. The contest was open to the grade pupils and the gardens are located near the Nickel and Lincoln buildings. The prizes were awarded by J. A. Waters, who served as contest judge. Much interest has been taken in the garden work during the contest, and the rivalry between the schools has been keen. The gardens were judged by members of the district. The gardens were worked under the direction of Professor C. H. Hoard, of the department of agriculture in the high and grade schools.

List of Prizes Awarded.

Best garden (open to both schools), No. 10, Paul Carson, \$5 cash, donated by Darrow Bros. Seed Company.
Best garden in seventh grade (open to both schools), No. 10, Paul Carson, \$5 cash, donated by Darrow Bros. Seed Company.
Special School Prize.

Best garden, No. 9, Carl McHenry, \$5 cash, donated by Consolidated Warehouse and Mercantile Company.
Second Best Garden, No. 118, Edith Smith, \$2.50 cash, Bridge Clothing Company.

Third Best Garden, No. 116, Thelma Senior, One year's subscription to Twin Falls News, or \$2 cash.

Special Lincoln School Prize.
Best garden, No. 21, Howard Gullett, \$5 cash, C. O. Meigs Implement Company.

Second Best Garden, No. 10, Clara Frost, \$2.50 cash, Peterson Hardware Company.

Third Best Garden, No. 34, Charles Hoard, One year's subscription to Twin Falls Times, or \$2 cash.

BUY HOLLISTER STORE

Twin Falls Men Enter Mercantile Business—Rising Successively by J. E. McMillan.

In a deal closed last week, E. W. Rising, until recently district manager of the Mountain States Telephone Company, and Walter H. Boyd, became the proprietors of the Hollister Mercantile company, at Hollister, this time. The deal was made by the Hollister Mercantile company, owned by R. M. Callins and M. N. Knudson. Messrs. Rising and Boyd have taken up the active management of their new business engagement. The Hollister Mercantile company will carry a full line of goods, groceries, and everything appropriate and sundries. The present stock will be greatly increased. The new company has been incorporated and will be up-to-date in all its departments. Mr. Rising has been succeeded as district manager by J. E. McMillan, of Park City, Utah.

GLAD TO GET BACK

J. D. Landis Making Old Friends After Several Months Absence From Idaho.

J. D. Landis, who is making his temporary home in Salt Lake City, is spending several days of the week here and visiting old friends. With his family, Mr. Landis left here last fall for Spokane and other western points, returning to Salt Lake for the winter. Mr. Landis was and is a member of the company that is opening up the Shoshone Basin country.

"Everything is looking very fine here," said Mr. Landis yesterday. "While I have been away, the crops here and of southern Idaho now the majority of the time, I am all ways glad to get back here where there are two things grow. Green trees and fields look mighty good after being in barren country for any length of time."

DON'T NEED BIG TAGS

Motorcyclists May Paint Licenses Numbers on Machine Rear Mud Guards.

C. W. Brennan has been advised by Secretary of State W. L. Gifford that the law allows the painting of motorcycle license numbers on the rear mud guards of the machines, providing the figures are at least two inches high.

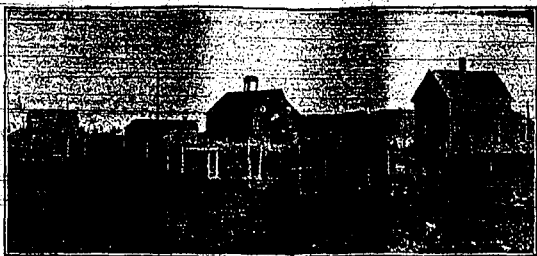

Mr. Brennan wrote Secretary Gifford a short time ago, asking that if the numbers could be painted on the large and conspicuous license tags which are liable to catch on objects while passing, resulting in damage and perhaps injury. This will be glad news to motorcyclists.

RAIN COMES IN HANDY.

Pasture Lands Get Needed Moisture.

Chas. Draper, who is connected with the Walter Brothers sheep ranch south from Rogersville, while in the city a few days ago stated that there has been considerable rain in that section of the county and that the warm weather is bringing the pasture lands along nicely. Only a few days ago there have been several snow storms in that vicinity but were of short duration and only helped supply moisture for growing crops.

A Typical Ranch Scene in the Twin Falls Country

CONCERT IS PLEASING TO LARGE AUDIENCE

CONSERVATORY CHORUS AND DR. CHERTRA DO GOOD WORK.

Musical and Vocal Numbers are Splendidly Rendered and the Program is Thoroughly Enjoyed Throughout.

The concert given by the faculty, chorus and orchestra of the Twin Falls Conservatory of Music at the high school auditorium last Thursday evening in commemoration of the one hundredth anniversary of the birth of Richard Wagner, was one of the best efforts by local musical talent this season. A heavy program of two parts was ably rendered. The first part consisted of an orchestra selection, "Prelude to the Ring," by Wagner, and the cantata, "King Lear's Daughter," by the ladies' chorus. Part two consisted of vocal and instrumental solos and duets.

The concert, under the direction of Mrs. A. Quibb, was exceptionally good and showed careful and thoughtful training. The parts were well balanced. The concert was distinct and great talent among the individual members of the chorus was displayed.

Solo by Mrs. Duxie, Mrs. Kenneth, Mrs. Crowther, Miss Tolan, and Miss Sanderson, with chorus, duet of the accompaniment, were excellent. The solo by Mrs. Duxie and Mrs. Kenneth were highly appreciated for feeling and expression being truly produced. Mrs. Crowther possesses a rare soprano voice, having pure tone and being heard distinctly at all times in the chorus work. Miss Tolan's singing was true and distinct and her soprano is of good quality. Miss Sanderson has a rich contralto and her voice makes a good lead in the chorus numbers.

Good Musical Numbers. In the opening number of part two, Mrs. Gilbert captivated the audience with the piano selection "Fantasia on the Chaconne," in both this selection and in the most difficult execution was ably rendered. Miss Pauline Alton also displayed remarkable execution in her violin concerto, being accompanied by the orchestra. A piano duet by Miss Ball and Miss Martin, with orchestra accompaniment, was one of the difficult selections of the evening and was ably rendered. The work of Miss Ball throughout the program was especially commendable, playing the piano accompaniment for all the chorus, orchestra and solo selections. As the closing number of the evening the orchestra gave a fine interpretation of Tannhauser's march "Heaven's Bright Abode."

The program was greatly appreciated throughout. One of the best audiences of the season attended.

FOR PRESERVING FRUIT

Commercial Club Receives Recipe From Federal Government—Jars are Ordered.

The Commercial club has received from the bureau of chemistry of the department of agriculture at Washington the best recipe for the preservation of all kinds of fruit. By the time the fruit is ready for preserving the special jars for canning for preservative purposes will have been received.

Secretary McMillan of the club will be glad to receive from growers their best samples of fruit, giving names and description of fruits preserved. This is in preliminary of a fruit exhibit at the coming large exposition and fair.

YEOMAN SOCIAL.

The Brotherhood of American Yeomen gave a social in the Moose hall last Friday evening. Cards and refreshments were served.

LEAVES FOR CHICAGO.

E. A. Wilcox, commercial agent for the Great Shoshone Company, left last night to attend meeting of the National Electric Light Association in Chicago, June 2 to 6.

"Mother—well, dear, did you meet any one you knew?" "The Three Children had just returned from the morning walk." "Yes, Ruby and Derek." "Mother—where did you see them?" "Barbara (the youngest) was at the same place as we was," "Punch."

"I had a message for this world," said the glow-worm, "and I'm on my way." "Before you go any further," spoke up a man in the rear of the hall, "please tell us whether or not you mean to stop." "Stop," said the glow-worm, "I'm on my way."

INCIDENT OF THE CIVIL WAR.

Swiftly sped the bannered steamer, With the flower-laden crowd, But apart from all his fellows, One in thought and sorrow bowed; Watching silently the waters flow, Chiefly form and gently roll, And singing softly to his heart's ease, "There's love of my soul!"

As he loved, a stranger met him Bought with courtesy his side, "Fare you, sir, but for that anthem By my hand a man had died. And today it seems to lead me Once again 'neath Southern sky, Were you in the army, stranger? 'Twas 'And for the Union' 'Aye."

"Then the incident may please you, For I was a soldier, too, And your coming, friend, put nothing For the cause I thought was true. So, one night at Chattanooga, I crept near the Union camp— Near enough to see the picket— Aged to hear his measured tramp."

"I could see his boyish features Lifted to a starry sky, But the hate of war burned in me, And I longed to see him die, With a soldier's noble aim— My rifle gleamed to place, My eye glanced along the barrel, Straight for his fair Northern face."

"Pledge—Death's messenger went along, But the lad was singing, too, For my marksmanship so boasted, For this time had proved untrue, And his boardless lips were saying, 'Ah, he turned and passed me by, Jesus, lover of my soul, 'Tis me to thy bosom fly!'"

Then I said, "Come, come, old rifle, Join us now, and charge the line— Stop the Northern Yankee's warble In his ugly Yankee throat. Now he comes, go on and bring him, But he sang from danger too, Other refuge have I none, Hangs my helpless soul on thee."

"Then a chill of fear came o'er me— Came upon me in that place, And I faltered with reckless fury, A stranger for his fair—horrid face: And the moment seemed eternal, Till I heard him sweetly sing, 'Cover my footsteps dead— With the shadow of thy wing.'"

"Then I knew a host unnumbered Was enwrapped upon the way, And that boy was under orders, By the Captain of the Day. And the unseen angels gathered, As I knelt upon the sod. And there in my suit of gray, Vowed allegiance to his God."

"Years have passed but in my memory Is engrained that soldier's face; Nor can lines of careworn manhood Quite efface his youthful grace. But turn and look at me, my brother, Take the faith my words bring, You were he, the boy in rage, 'Neath the shadow of His wings."

BETTER OFFER.

"They were enjoying a motor ride and had just entered a country road. 'May I kiss your hand?' he asked, a little confusedly. She removed her veil. 'No,' she replied. 'I have my gloves on.'—Lippincott's Magazine.

Symmetrical Votes (in the old-fashioned way) are now being given. How are you getting on, old man? Sanguine Designer—"First rate. Just made three perfect puts on the last green."—Punch.

WHY The Best Fence Is the Cheapest

The difference in cost between a loosely woven fence made of brittle, poorly galvanized wire and the best fence you can possibly buy is only a few cents, at the most. In fact, it is so slight that you can't afford to consider it for a minute. When you stop to think that it takes just as many posts and just as much labor to put up a short-lived fence as it does one that will last two or three times as long, and when you stop to figure the cost of repairing broken-down fences—the loss to you from cattle breaking through, horses going over and pigs crawling under—you will agree that to buy any wire fence just because it is cheap is poor economy.

Square Deal Fence

will outlast any other farm fence you can buy and costs no more than any other fence of equal weight and quality of material. Every rod is guaranteed by The Keystone Steel and Wire Company—the mill that makes both the fence and the wire that goes into it.

Come In and See It

before you buy fence. See how trim and neat it looks; how easy it handles; see the non-breakable, non-slipping Square Deal Lock. See the way stand wires that keep Square Deal Fence tight and trim the year around. See the one-piece stay wire that makes this fence self-supporting, non-sagging and non-buckling.

Get our latest prices guaranteed "Square Deal" Fence. No right to pay. No waiting.

A QUESTION OF EXPENSE.

It is difficult to arrive at anything like a reasonable estimate of the total expense of all the bootlegging prosecutions since January first in Twin Falls county.

On the witness stand Detective McConville stated that his expenses ran from eight to twelve dollars per day, and that his pay was at the rate of four dollars per day. Both statements are at variance with the records of the office of the county auditor.

In order to present definitely the facts in the case as shown by the county records, the following figures are given. The information is not offered in the light of a criticism of the amount spent but merely that the public may know that it is being spent, and how.

McConville began work as a special officer of Twin Falls county in the prosecution of bootlegging cases early in January. As expenses he has drawn the following amounts to date, according to the records:

January	\$25.85
February	48.00
March	64.90
April	38.60

Total \$195.35

The expense voucher for this amount, which was duly allowed, is dated April 12. A similar voucher for wages for one hundred days at three dollars and seventy-five cents per day, amounting to three hundred and seventy-five dollars, is dated April 10 and was also duly allowed.

These figures make it clear that the detective in the case alone received five hundred and seventy dollars and thirty-five cents for his share in the prosecutions, not including the money which he admits receiving from Hutto.

The expense account of the detective, which is attached to the voucher for one hundred and ninety-five dollars and thirty-five cents, is a unique document. Here is a single page taken at random from the memoranda:

Feb. 9, Card games	\$1.50
Feb. 9, Card games	2.00
Feb. 7, paid for booze	1.00
Feb. 8, Booze	3.00
Feb. 9, Card games	1.50
Feb. 10, Booze	1.00
Feb. 11, Card games	2.00
Feb. 11, Booze	2.00
Feb. 12, Booze and Card games	3.00
Feb. 15, Booze	2.00
Feb. 15, Card games	1.00
Feb. 17, Booze and Card games	3.00
Feb. 18, Booze	2.00
Feb. 18, Card games	1.00
Feb. 19, Booze and games 3 bits	4.00
Feb. 20, Card games Lobby	1.50
Feb. 21, Card games Lobby	1.00

This runs through several pages, but prehaps the above will answer as a sample. Admittedly a high price for the eight convictions which have so far been secured.

No attempt is made to show where or from whom the "booze" was purchased. The date, purchase and amount constitute the entire record. Would any among the county commissioners conduct his own business on as loose a basis?

In return for an expenditure of nearly six hundred dollars to T. F. McConville, eight convictions were secured on the evidence of McConville.

All points considered the calling of a grand jury would seem to offer the quickest and surest solution of the bootlegging situation in Twin Falls county as it now exists.

WELCOME.

Today (Thursday) marks the initial appearance of the Twin Falls Daily Press, J. F. Melvin, publisher.

The first issue is a highly creditable production and the new newspaper carries with it the best wishes of The News and of the citizens generally.

THE VANISHING ARMY.

Carefully compiled estimates indicate that in a very few years the Grand Army of the Republic will have ceased to exist. The last of its members will have joined the silent majority and the annual procession of the veterans will have become a thing of the past.

On Friday of this week, all over the United States, the survivors of the greatest internecine struggle in the history of the world will meet to do honor to the comrades who have preceded them to the place where only peace shall reign. Old and broken men will live over in memory the events of that bitter struggle. Children will listen in round-eyed wonder to the tales of the bivouac, the battle, and the carnage, and eyes will be wet in many a humble cot and many a brownstone mansion.

The leaders in the great armies engaged in the Civil War have come in for their meed of praise. Stone monuments rear proud heads in many of the principal cities of the country and the names of Grant and Sherman, Sheridan and Lee are household words and perhaps will always remain so.

But what of the men to whom it was not given to lead but only to fight and follow? There are few monuments to these and their names form no part of accepted history. Yet their bravery has never been questioned, their loyalty doubted or their deeds doubted one particle less heroic than those of even the Great Emancipator himself.

These, then, are the men who today make up the Grand Army of the Republic, individuals unheralded and unsung, unknown by name outside the immediate circle of their acquaintance, but heroes every one, and each with a life story containing a chapter or two of war time history viewed even more vividly and at closer range than in the case of many of the leaders.

Picture to yourself a battle field of the Civil War. The rattle of musketry, the shriek of shell, the hoarse commands of leaders and the lower pitched moans of crawling, broken men, the rattle and dash of steel against steel, the waving colors and the blood wet ground—the carnage of violent death—the horror of it all.

Such were the scenes of the Civil War—this was the work of the army that the Union of states might prevail. Only a few are left of the men who did the work, and soon there will be none.

All honor to those men!

A SUBSTANTIAL TRIBUTE.

The visit to the Twin Falls county of the group of eastern capitalists now engaged in looking over this section under the guidance of D. C. MacWatters can hardly fail to be productive of good results.

What Twin Falls stands most in need of is a medium of community advertising which will bring out the facts. Newspaper comment, the writing of letters, magazine articles and various other plans are all good, but none of these is as good as the impression which will be carried away by this week's visitors.

The Twin Falls country owes much to the Kaim interests, but probably no single service so far rendered will prove of greater value than will the bringing to Twin Falls of men of means who may later decide to make permanent investments in the great Irrigated Empire of Southern Idaho.

AN IMPORTANT CONSIDERATION.

Only a fool will pretend to believe that he is always in the right on every question he approaches. A wise man is ready to admit the possibility of error in every human equation.

But the question of right or wrong occupies a secondary place as compared to the question of honesty of purpose, which is supposed to actuate every man in his attitude on every question. In other words, no man is always right, but if he honestly believes that he is right, does not this fact stand to his credit?

The News may not be right in the position which it has taken regarding the bootlegger situation in Twin Falls. But the publishers believe it to be right, and until the facts prove otherwise, there will be no change and no compromise.

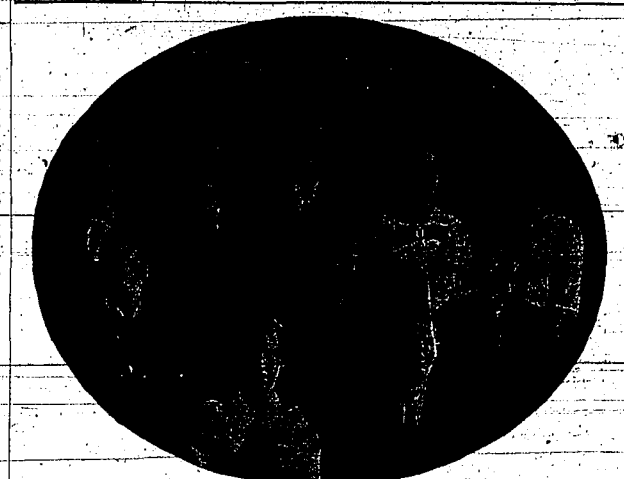

AS TO THE VICTIMS.

In all that has appeared in these columns relative to the bootlegging situation, let none attempt to read into the comment of The News one iota of sympathy for the bootlegger.

The News has repeatedly expressed itself as opposed to the liquor traffic legitimate or otherwise. If an expenditure of a thousand dollars a month by the county commissioners would insure the cleaning out of the entire foul brood, The News would be the first to recommend it—but it might go a step farther and suggest the employment of ordinary business methods and that the testimony of former gamblers and saloon men be neither so heeded nor accepted.

Where the Responsibility Belongs

Highlights on the publication of the High School Annual of this year by the class of '14. The History of the "Coyote" and something about the clever young people who got out what is regarded as the best example of a class publication in the annals of the High Schools of Idaho.

THE ANNUAL BOARD.

However, individual history has always been more interesting than collective history. Not that we less prestige considered as a body, but when recorded thus, it is sometimes difficult to determine where the record of one leaves off and that of another begins. So we will endeavor to make a marked distinction between the attainments of "ones" and of "another."

First comes Pickett, Editor in Chief. Two most cannot be said in praise of him, and his efforts to make this last high school Annual a success, have been recognized and appreciated by every body. He has a "lean and hungry look," but unlike Cassius no one considers him dangerous.

Harry Musgrave, business manager and here the pen of the historian almost fails to work. To do justice to his enthusiasm, his untiring activity and his good nature in trying circumstances would tax the ingenuity of genius. Mine yours for Harry, the president of an illustrious class.

Florence Costello has so cleverly managed the "calendar" for this school year that the events therein stand out as plainly now as when they first happened. This department was one of the most difficult to write up, and make interesting. Not only are events of the High School life set down precisely as they occurred, but the editor has brought in flashes of humor that provide most a smile from the most sober and serious minded of our readers.

We are all mighty proud of Leah Woods, the "Miss Manager," the "Girls' Athletics" with such ease and grace. Her department is filled with interest by her own "Leah's" of humor that provides most a smile from the most sober and serious minded of our readers.

We are all mighty proud of Leah Woods, the "Miss Manager," the "Girls' Athletics" with such ease and grace. Her department is filled with interest by her own "Leah's" of humor that provides most a smile from the most sober and serious minded of our readers.

Miner Donnell, the Athlete of the Junior Class, has shown by his work in this department that running a mile faster than

THE NEWS
Washington Letter

Political Comment, News and Gossip of the Capital

Washington, D. C., May 27.—Yesterday Senator Brady in company with Congressman Smith called upon the Interstate Commerce commission to request that under the provisions of the Interstate Commerce act permitting railroads to carry free or at reduced rates government property for exhibition purposes—that the good road models belonging to the Agricultural department be sent by the government to the Good Roads Convention to be held in Boise, Idaho, on June 10, 11, and 12. The commission has no objection to these reduced rates being made, and it is now up to the railroad companies and the express companies to help the people of the west in the stand work they are doing for good roads.

Many Idaho Visitors.

During the last week or ten days a cluster of Idaho would have a glimpse at home in the nation's capital, for he would have stood an excellent chance of meeting one of his neighbors on most any day.

Among the Idaho people who have visited Washington during the last few days are: Senator Brady, Hon. J. J. Gubben, assistant attorney

general, of Boise; Her. Chalfont, Boise; A. V. Colburn and Miss McQueen, of Moscow; Hon. Harry L. Day, of Wallace; Hon. James R. Babbs, Lewiston; Hon. Geo. W. Tammah, Lewiston; W. F. Kettelbach, Lewiston; Prof. C. H. Shattuck, Moscow; Hon. C. Caranahugh, Boise; C. H. Schenk, Butte; Albert Pinger, Butte; E. L. Riggs, Rupert; J. L. Rush, Rupert; R. H. Johnson, Boise; H. F. Beck, city attorney, Boise; W. H. Slick, Boise.

Senator Brady, Honored.

Senator Brady was highly honored last week by being appointed a member of the committee from the committee on military affairs of the United States senate to visit and inspect the military academy at West Point, New York. The committee, made of the military academy, of the senate to have first-hand information that is very valuable in considering matters pertaining to the betterment of the military academy. Senator Brady expressed himself as being very favorably impressed with conditions at West Point and said that the work that is being done there

Hotel is Badly Needed.

Senator Brady called on the secretary of the Interior and discussed with him the need of the construction of a first-class hotel at the en-

body class in Twin Falls. High school is not the only thing he can do. His chronicle of events is complete and satisfactory.

For work along artistic lines, it would be no easy task to find an equal to Irene Vines, Editor. Not many of her clever drawings appear in the Annual, but in those we have there, it is easily seen that Irene has talent and ability that is rarely found among high school students.

"Coyotes are our thanks to the State Editor, HARRY MUSGRAVE. We realize that it has been difficult to get such appropriate jokes, but their number and variety in this year's 'Coyotes' testify to the editor's keen wit already too well known to need further description.

Indeed it takes a clever and original person to do justice to the Society events of the High School this year, but Cella Martin was found to be the one who could take charge of this department most successfully. Her sketches of the social side of the busy High School life are among the best writings in the 'Coyotes'.

We must give Charles Ordinger credit for being a very busy man. Therefore he did not have much time to spend taking down events which happened in High School. However, we all appreciate the fact that he occasionally seemed very willing to help.

Mostly for his saying too much of Edith Ramsay, but we could never have gotten along without her. No one can give her too much credit for her clever ideas and her careful selection of the most effective material for her department. No other part of the Annual received more time or care than the Magazine section, and we feel safe in predicting a successful future for Edith.

FLORENCE STOCKLEY, Class Advisor.

CELIA MARTIN, Society Editor.

Over-Southern Idaho

Interesting Incidents in the Land of Irrigation

Burley After Creamery.—The estimated of a creamery and a monthly "trade day" is being promoted by the Commercial club at Burley. Outside capital can be secured for the creamery and assistance will be given the farmers in the selection and purchase of good dairy cattle.

Trade Day.—As carried out in many localities, it being studied by a committee of Burley business men and the day will no doubt be established there during the coming summer season.

Held First Commencement.—The recent commencement was the first in the history of the Jerome high school. There were nine graduates, all of whom stood sufficiently high in their class work to be excused from final examinations. This is the largest class in Lincoln county. The Rev. W. S. Woodhall, pastor of the Methodist church of this city, delivered the commencement address, his subject being "Unworned Kings." Four members of the graduating class attended the first school held in Jerome or on the tract.

Electric Power Available.—The erection of poles for power wires has been completed in Burley, and the city wiring is now being done, and it is expected that juice for lighting and power will be available by the last of this week. It is the plan of the power company to extend its lines to Hot Springs and the country north of Burley during this summer.

Rate Building Money.—Good progress is being made toward raising the money for the preliminary work that is to be done on the proposed water legs in Gooding. It is believed that by the time fixed for the next annual conference, next August, that the sum of \$10,000 will have been raised, when contracts will be let for the buildings. The Rev. Dr. Parker, of the Methodist church of this city, Gooding, are actively engaged in soliciting this required sum for first building purposes.

Mother and Child Buried.—Mrs. N. P. Anderson and little son were buried under a dirt slide while fishing near American Falls last week. A number of companions saw the accident and dug Mrs. Anderson and her son out in time to save their lives. The child was apparently unharmed, but his mother was seriously injured and remains in a precarious condition.

News of the World

Happenings of General Interest Gleaned from the Press of the Country

Dies at 97: Never Saw a Train.—Volstead, Pa.—Louis P. Schmitt, age 97, who died at Monongahela township, Greene county, Pa., on Wednesday, spent his life according to relatives, on his farm. He was never on a train, street car, or steamboat, although he lived only a mile and a half from the Monongahela river and the same distance from the Monongahela railroad. A log house was his home.

Finds Diamond in Pickers.—New York.—While cleaning a green pond picker that he caught in Greenwood lake, Raymond Ebbetts, of Bayonne, N. J., found a one carat diamond ring. It turned out the ring belonged to John Callahan, a member of the fishing party, who dropped it overboard the previous day while battling his hook.

Iron Rabbit, Snake's Diet.—Rockwood, Pa.—A his-home-said-Greenwood, Md., urban stationer, a farmer, has a castron rabbit painted the natural colors of a bunny, which is used to hold the front door open. Last evening, Unstitt heard a peculiar thumping noise on the porch, and was astounded to find a monster black snake in the act of swallowing

the rabbit. The snake completed the process of swallowing, but could not escape with it. Unstitt, taking the help of his man, finally forced him to disgorge the rabbit.

Has 17 Rabbits in 12 Years.—Aurora, Ill.—Mrs. Rollo Lincoln started Judge Blaser in the Circuit court today. The judge asked her how long she had been married. She said 12 years. "How many children?" asked the judge. "Seventeen," she replied. The judge mopped his brow. Mrs. Lincoln explained there were five sets of twins. That's why her husband deserted her. Mrs. Lincoln, who looks to be not over 20, sued Rollo Lincoln for divorce and got her decree.

Brave Idaho Boy.—San Diego.—After suffering for two days from burns received in the explosion on the torpedo boat destroyer Stewart, Alma Miller died in a hospital here today. He has a mother in Idaho Falls, Idaho, and the body will be sent to that city. In an attempt to save the lives of two comrades, who were killed, Mr. Miller was badly scalded.

Week in Society

Showers for June Bride.

One of the delightful events of last week was the shower given by Mrs. H. H. Miller last Friday evening for Miss Mary Hailston, whose marriage to Mr. B. Wright Davis will take place in June. The attractive bride was brilliantly illuminated, and guests and chairs were probably scattered about, making a most festive spot for the guests. The numerous gifts for the bride were placed in an inverted umbrella. Refreshments were served at the close of the very enjoyable evening.

For Benefit of Church.

Mrs. Greenhow and Mrs. C. P. Baker were hostesses at a very attractive card party given at the home of the latter last Friday afternoon for the benefit of the Ladies' Guild of the Episcopal church. The latter home was very effectively decorated with lilacs and white lilies arranged in bowls and baskets in the various rooms. "Go" furnished the entertainment for the afternoon. Mrs. C. P. Baker winning the first prize, Mrs. B. L. Williams the second, and Mrs. J. H. Dodds the third. Mrs. J. H. Dodds assisted the hostesses in serving light refreshments. About forty ladies were present and contributed to the funds to be turned over to the Guild.

Informal Luncheon.

Eight guests enjoyed the delightful informal luncheon, followed by auction bridge, given by Mrs. Chas. Robbins on Tuesday. A pretty arrangement of cards of bridge was served and the luncheon table. Favors were won by Mrs. Wotton and Mrs. Hailston.

Tee for Teachers.

Complimenting Miss Hamdall, Miss

Moore, and Miss Driscoll, three of the popular teachers of the city, was the very attractive tea given by Mrs. H. H. Miller last Thursday from four until seven. Miss Driscoll, who will be one of the June brides, was showered with dainty towels by the twenty guests present. Miss Hamdall, who leaves in a week for Europe, was seated with "Steamer Letters" to be read while on her journey; and Miss Moore, whose birthday fell on Thursday, was presented with a birthday book containing pretty little verses written by the guests. The tea table was very prettily decorated with white lilies and lilacs, the same fragrant spring flowers being most effectively used throughout the room. The hostess was assisted by Miss Jeno-Hobbs.

Tee for Mrs. Danks and Mrs. P. H. Smith.

Mrs. Maclear entertained six guests very informally Wednesday afternoon for Mrs. Smith and Mrs. Danks, who leave next week to spend the summer in the East.

Club Gives Annual Party.

The Emerson club, one of the study clubs of the city, organized about three years ago, held their annual party to celebrate Emerson's birthday, at the home of Mrs. D. E. Morse, on Monday afternoon. Miss Hamdall, Mrs. Chamberlain, Mrs. Graham, and Mrs. Elliott read very interesting papers, which reviewed the year's work, and dainty refreshments were served at the close of the afternoon. Purple and white lilies and pansies were effectively used as decorations. The members and guests present were: Medallions H. H. Miller, Chamberlain, Graham, Elliott, J. P. White, Josie Danks, Maxwell, Lewis, Mrs. Danks, Brady, Morse, and Miss Hamdall.

PRIZES AWARDED STUDENTS

Lincoln Produce Company, Conducts Contest in Schools for Advertising Art Work.

In the window of the City Pharmacy is a display of the drawings and paintings by the high and grade school pupils in the advertising sign contest conducted by the Lincoln Produce and Refrigerating company. All efforts in the contest were good and some far exceeded expectations. Prizes totaling \$10 were offered and given by the Lincoln for the best advertising schemes with pen or brush, the awards to be divided equally between the high school and graded school pupils.

The contest closed last Tuesday and the prizes were awarded by the judges: Mrs. W. H. Wilson, Mrs. Danks, and Burton E. Morse. In the graded school the first prize was awarded C. P. Denton, and Miss Corrie Twer was given second prize. In the graded schools the first prize was given M. Jennings Baylor of the Dilck school, and Miss Marie Steinhour of the Lincoln school, was awarded second prize.

DRY CREEK STILL TRICKY

Oakley Man and Horses Come Near Drowning in Attempting to Cross Stream.

Mr. Cunningham, of Oakley, driver for the Oakley-Studebaker company, of Oakley, narrowly escaped death Tuesday afternoon when attempting to drive across Dry Creek near Murch. The three buggies which he was hauling across the stream were demolished on the rocky bottom of the creek, but himself and horses managed to swim to shore unharmed. Being a stranger in that section of the country, Mr. Cunningham drove over the old crossing and found the water much deeper than it appeared when descending from the road, but it was too late then to turn back. The water was about man deep. The motor car was left in the water and is the same place in the stream where the son of Hyrum Pickett was drowned, and his body carried for some distance under current while crossing the creek with his father last summer.

You can't lose by buying Conkey's Laying Tonic. If you have not had it, you get your money back. - 15c, 50c, and \$1 packages. For sale by Darrow Bros. Seed & Supply Co.-Advertiser.

A Point of Scenic Interest

The Parrine Coulee, which is to be seen at its Best at This Time.

SCHOOL GIRL IN VERSE

Sarah Cleveland, Bickel Pupil, Is the Author of An Original Poem.

Sarah Cleveland, a daughter of F. E. Cleveland, 618 Main street south, a pupil in the fifth grade of the Bickel school, is the author of an original poem entitled, "The Pot of Gold." The verses are as follows:

THE POT OF GOLD.

A very greedy man one day
Found a pot of gold, 'tis so, they say.
He gathered the gold up into a sack
And started for the forest with the gold on his back.

There was something so small that he did not see—
"Twas a hole no larger than a good sized pea;
As out fell the gold piece by piece,
The old man's footsteps made a swift increase.

In the meanwhile there was a fairy lass,
Who suddenly spied the gold in the grass,
And said, "I will change it to something worth while."
And she changed it to turquoise with their bright yellow smile.

The man reached the forest, when lo and behold
What had become of his sack full of gold?
The old man went back to the same little path,
And when he got there he was in a great wrath.

He felt, I suppose, like dying in the wood,
But the butchers did him a great deal of good.
The old man wot, the old man cried,
But no one knew the story, till the old man died.

—Sarah P. Cleveland.

RARE FLOWER GROWS HERE

"Columbine," Colorado Native Plant, Thrives in Diamond Garden, Fourth Avenue East.

In their home garden on Fourth avenue east, Mr. and Mrs. J. M. Diamond are growing several Columbine, known as the stella flower of Colorado. Mr. and Mrs. Diamond are pleased with the success they have had in growing these flowers, for as a general rule they will not survive transplanting, even in Colorado where they had their origin. However, they have been transplanted to Idaho and are thriving.

The Columbine, while modest in size and lacking in brilliant colors, has a happy blending of soft colors. There are white and violet petals with yellow center growth. These are set off by a background of green leaves.

FLY SCREENS OR SWATTERS, WHICHEVER.

"Don't domesticate the fly this summer. Keep him out of the house, where he belongs. We can at least keep him away from our food. Of course, it would be ideal to abolish flies altogether, to stamp out this whole race of flies and then never have to bother about them any more, but we can't hope for that for at least a long time yet. When it comes to annihilating any particular pest, bug or insect by ordinary human power, it becomes a big job. About the best we can do is to introduce some other pest, bug, insect or natural enemy and let him do the work for us, and even introducing a natural enemy does not always succeed.

For the time being, therefore, we may about as well content ourselves with screening our houses to keep most of the flies out. At that, flies are more or less of an unnecessary evil. If we would keep flies out of our houses, groceries, markets and milk rooms, about ninety per cent of the damage they do would be prevented.

NOT ONLY IN TWIN FALLS

Similar Cases Occur Daily in This Vicinity.

Not only here in Twin Falls, but in our neighboring towns, the same road story is heard. An encouraging instance from Buhl is given here, and will be read by us with great interest. D. Domash, Buhl, Idaho, says: "For the past seven years I have endured a great deal of suffering from pains through my loins and kidneys. At times there would be a sharp ache across the small of my back which would last for days. I would be very dizzy and had a feeling of weakness. After a few hours' work my back would be stiff and lame that I was hardly able to straighten. The kidneys were highly colored, contained a sediment like brickdust, and the passages were much too frequent and accompanied by severe pains. At night my head ached severely and I would not be able to get any relief whatever. I used a number of remedies before I heard of Doan's Kidney Pills and prepared a box. I used it according to directions and the dull ache in my back soon left, my kidneys were restored to a normal condition and my general health improved.

For sale by all dealers. Price 50 cents. Foster-McIlwain Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.—Advertisement.

HIGH GRADE ORE NOW BEING OPENED

WORK AT JARBIDGE MINES GOES
STEADILY AHEAD

Force Put on by the Largest
Miners—Assays Show Better
Values as Length of Tun-
nel Increases.

Jarbridge, Nevada, May 23, 1915.
The Hunter Consolidated company
has put on a force of five men at the
Jarbridge mines and plans to
begin doing necessary preliminary
work for developing their water-
supply. The company has one of the
best and best rights in the Jarbridge
district and will have ample water
for power and mill purposes.
The Jarbridge mine will also put on a
force at the mine to continue develop-
ment. The Hunter now has \$150,000
worth of ore blocked out and in
the Jarbridge district. The Jarbridge
district is acknowledged to be one of
the most valuable in the Jarbridge
district and will have ample water
for power and mill purposes.
The Jarbridge mine will also put on a
force at the mine to continue develop-
ment. The Hunter now has \$150,000
worth of ore blocked out and in
the Jarbridge district. The Jarbridge
district is acknowledged to be one of
the most valuable in the Jarbridge
district and will have ample water
for power and mill purposes.

Constant Assays.
In the Jarbridge, development was
last week owing to most of the
being caused in handling the ore.
The Jarbridge mine is steadily
opening up the mine in a
careful and systematic manner. The
Jarbridge mine is steadily
opening up the mine in a
careful and systematic manner. The
Jarbridge mine is steadily
opening up the mine in a
careful and systematic manner.

Good Shot Found.
One of the best in this section is
owned by the Jarbridge mine. The
mine is operated under head
James McCoy. A high grade shoot
has been found on the surface which
has been stripped for a distance of
100 feet and is from 18 to 20 inches
in high values are found all along
the entire shoot will go as high as
100 per ton—picked specimens as
high as \$250 per ton. A crosscut
is being run in this work is now in
progress. Two values have been op-
erated up and down drilled on about
100 feet in both directions. The re-
sults are only fair and it is figured
that 40 feet more will have to be
driven to get under the rich shoot
which will be tapped at a vertical
depth of 400 feet. Here the values
should be high again.

The True Flare, owned by J. T.
McCormick and associates, has a 50-
foot tunnel which attains a depth of
30 feet. Assays across the vein for
18 inches show average values of
\$125.00 per ton in gold. The 50-foot
tunnel which contact was let
will cut the vein 100 feet lower than
present workings.

Finishing Good Ore.
The Coeur d'Alene-Jarbridge com-
pany, of which A. H. Fox is presi-
dent, have a group of six claims ap-
plied to the Jarbridge section. On the
Jarbridge tunnel 18 in 115 feet and 60
feet. It is in ore that will average
about \$125.00 per ton for an average
width of 3 feet. Another tunnel on
the West vein is in 70 feet. The
tunnel is 8 feet in width, with a streak
of high grade 4 to 5 inches wide,
that in places goes \$1000 per ton.
A. B. Batey leaves the first of the
month to resume work on his Oregon
and Elita B. group, also in the Jar-
bridge section. There are two veins on
the Oregon and surface prospecting
shows values ranging from \$6 to \$30
per ton. On the Elita B. group three
veins are opened up, all of which pay
true gold. From an 18-inch vein as-
says of from \$125.00 to \$175 have been
secured. Mr. Batey has found very
rich flat which is entirely different
from the Jarbridge ore in known
veins and covered with visible gold.
He hopes to uncover the vein from
which this came in a tunnel which he
will run this summer.

Promising Claims.
W. H. Hudson and J. A. Bennett
have a group of nine claims ap-
plied to the Jarbridge section. The
Jarbridge mine, with splendid showings
for the development. A bunch of as-
says across 3 feet near the surface
showed values of from \$125.00 to \$175.
specimens went \$75, \$74.50 and \$102.
A tunnel on the hanging wall of this
mine is 125 feet. The vein is cross-
cut at the 25-foot point for 15 feet
without coming to the footwall, and the
ore averages \$14 clear across.
According to the Jarbridge mine
prospect the vein at a depth of 375
feet.
Wm. C. Meekling, of Jarbridge, and
Chas. W. Bohlen have a most prom-
ising prospect in Tennessee which is
on a contact between slate and
granite and covered with visible gold
in width. A shaft is down 70 feet
and a drift run from the 40-foot point.
A small trial shipment of the first
class ore taken out in this work was
made and gave returns of \$127 per
ton. The whole 14 inches will aver-
age \$15, with the values divided equal-
ly between gold and silver.

When and Where to Wait.
Fly across keep most of the flies
and mosquitoes out of the house.
Swatters were only intended to put
on the finishing touches. The best
time to wait for the flies is before
meal times. If the kitchen and
dining room doors and windows are
well screened, it takes only a few
minutes to wait the few flies that get
in, and then you can prepare and eat
a meal in peace and safety. Try it
once.

IMPROVE HOSPITAL GROUNDS.
Attractiveness has been added to
the city hospital and grounds by Mr.
Boyd, in having the lawn sodded and
sown. The driveways will be man-
icured and flowers and shrubbery
will be planted to further decorate
and improve the appearance of the
institution.

Dumplings

For Soups, Stews and Fricasseeed Chicken

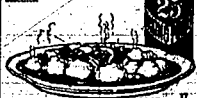

Last order of most lamb, veal or beef
the deeper cuts of fresh meat, and bowls
on old for resting meat, delicious and
tempting stew. K. C. Dumplings make
them doubly attractive and the whole dish
is most economical as object to most
families while meals are so high and must
be made to go as far as possible.

K.C. Dumplings

By Mrs. Nevada Hinger, the well known
baking expert.

3 cups flour; 1/2 cup lard; 1/2 cup K.C.
Baking Powder; 1 teaspoonful salt; 1
cup shortening; milk or cream.

Sift together three times, the
flour, baking powder and salt. Add
into this work the shortening and
use cream or milk to
make a dough less stiff than for
biscuits.

Allow the stew to boil down so that the
liquid does not cover the meat or chicken.
Add half a cup of cold water to stop its boil-
ing and drop the dough in large spoonfuls on
top of the meat or chicken. Cover and let
boil again for 15 minutes.

Made with K. C. Baking Powder and
steamed in this way, dumplings are as light
as biscuits and are delicious with thickened
sauce.

This recipe is adapted from one for Chicken
Pot Pie in "The Cook's Book" by Janet
McKinnon Hill, editor of the Boston Cook-
ery School Magazine. The book contains
50 excellent recipes for things that are good
to eat and that help reduce the cost of living.
"The Cook's Book" sent free for the
colored certificate packed in every 25-cent
can of K. C. Baking Powder. Send to J. C.
McCormick & Co., Chicago.

TO HONOR OLD GLORY

Governor Haines Issues Proclamation
That Flag Day Be Observed
On June 14th.

According to the annual custom,
June 14 will be observed as Flag Day
in Idaho and throughout the nation.
The following Flag Day proclamation
has been issued by Governor John
M. Haines:

In the year 1891 there was formed
in this country an organization known
as the American Flag Association,
whose avowed purpose was to
promote reverence for the flag of our
country, and, to arouse a living senti-
ment which would serve to prevent
its desecration whenever and where-
ver possible.

The flag of a country is the visible
symbol of its power and sovereignty,
and respect for a country's flag is
come, through centuries of history
and tradition, to symbolize respect
and reverence for that country itself.
Accordingly, those of us who are
our country, who have faith in its
institutions, who appreciate the great
power for good it has exercised in
the past and who hope for its
grand and glorious future, should all
unite in cultivating in ourselves and
in our children a reverence for the
American Flag Association was
organized to promote.

I have the honor, therefore, to pro-
claim Saturday, June 14, 1915, as Flag
Day, and to recommend that every
public officer, every teacher in our
schools, all editors of newspapers, and
citizens generally throughout the
State, do everything possible to as-
sist in arousing widespread enthusi-
asm in providing for a holding of
appropriate public exercises and the
general celebration of this day.

In witness whereof, I have hereunto
set my hand and caused my seal to be
the great seal of the State of Idaho.
Done at the capitol in Boise, Idaho,
this twenty-second day of May, A.
D. 1915.

JOHN M. HAINES, Governor.

ARRANGING FOR EXHIBIT

Major Fred R. Reed is now at the
Exposition Grounds in San
Francisco.

Major Fred R. Reed, state immigration
commissioner and commissioner
for Idaho at the Panama-Pacific ex-
position in 1915, is now on the ex-
position grounds making preliminary
arrangements for Idaho's exhibit at the
Big Show. Major Reed is quoted as
follows, in the San Francisco Chroni-
cle, of the date of May 24, as fol-
lows:

"Idaho believes the exposition is go-
ing to be a great success, and we are
very anxious to have our exhibit at-
tended by the world. Our state has ap-
propriated \$100,000 for an exhibit, and
we intend to be represented in a man-
ner which will be a credit to both our-
selves and the exposition. Tomorrow
I will go out to look over our site,
which is selected and dedicated by
former Governor Hawley some months
ago, and then I intend to confer with
the exposition officials and pick up
the useful information that I need."
"Idaho is a young, promising and
very rich state, and we feel that we
have much in common with Califor-
nia. Also we feel that the exposition
is really a Pacific Coast affair and
we are almost as anxious as California
is to go to it a big success."

CLEANLINESS MEANS MONEY.
It pays to have clean, attractive
surroundings. It pays in dollars and
cents for the reason that a tidy and
well kept property will sell for more
money than will the property that is
untidy, dirty and neglected. It pays
in comfort and satisfaction, in pride,
joy, and self-respect.

TO PREVENT SCARLET FEVER.
"Every case of scarlet fever comes
directly or indirectly from some pre-
vious case of scarlet fever. The dis-
ease is spread through carelessness.
If every case could be thoroughly
isolated—guaranteed that the disease
would disappear from the face of the
earth."

WHEN YOU TRAVEL EAST

Don't buy your ticket via a
broken route--part one system,
part another. Tell the Ticket
Agent you want to go "through
via the Overland Route as far
as it goes."

There are Good Reasons for
this suggestion--they are

Through train service via the
direct route, short route, equip-
ment the best money can buy,
substantial road bed, new and
dependable, and every mile is
protected by Automatic Safety
Electric Block Signals.

In merchandising you buy the
best you can get for your mo-
ney. Why not buy the best
when you travel?

Ask any
Oregon Short Line

agent about re-
duced fares at
various times
during the year.

D. E. BURLEY,
General Passenger Ag't
Salt Lake City

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made
with each of three different kinds of baking powder--
cream of tartar, phosphate, and alum--and submitted
separately to the action of the digestive fluid, each
for the same length of time.

The relative percentage of the food digested is
shown as follows:

Bread made with
Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with
phosphate powder:

68 1/4 Per Cent. Digested

Bread made with
alum powder:

67 3/4 Per Cent. Digested

These tests, which are absolutely reliable and
unprejudiced, make plain a fact of great importance
to everyone: Food raised with Royal, a cream of
tartar Baking Powder, is shown to be entirely diges-
tible, while the alum and phosphate powders are found
to largely retard the digestion of the food made from
them.

Undigested food is not only wasted food, but it
is the source of very many bodily ailments.

Registered and Blooded Stock Imported in Quantities in the Past Year or So

GOOD YEAR CLOSES
IN COUNTY SCHOOLS

DISTRICT NO. 51 HAS PERFECT ATTENDANCE RECORD

County Leads State in Club Organization—Additional Teachers Being Employed—New Departments of Work Are Added—

A majority of the schools of the county have dismissed for the summer vacation. The year just closed has been a successful one, and advancement has been made along all lines of school work. A number of the schools are holding summer term in the number of boys and girls clubs organized. Twin Falls county is the banner county in the state. So far, sixty potato, corn, sewing and bread clubs have been registered from this county in the state club roll, and not all the clubs organized are as yet registered. There are 21 more clubs in this county than in any county in the state. Much credit is due J. A. Hughes, state club supervisor, and the teachers of the county for their successful efforts in organizing and interesting the pupils in this work. It is hoped that the interest in these clubs will be continued during the summer and that Twin Falls county will still be the banner county in the fall when the state prizes are awarded.

More Teachers Employed.

A number of the schools have employed additional teachers, realizing that the best work cannot be done where the teacher has too many grades to teach. It is believed that the standard of the teachers in this county is one of the highest in the state.

School district No. 51 ranks first in record attendance. During the entire term no pupil was absent or tardy. Miss Fannie Coates taught the school. Of the different schools visited by County Superintendent Miss Noel Kimberley, Pleasant View and Buhl had the best kept buildings and grounds. Some of the larger schools have installed playground apparatus. One hundred and thirty eight grade pupils have taken the state examinations this spring and a large number of them have been awarded diplomas. Filer pupils made a splendid record in these examinations. A splendid record has been made by the Buhl schools. A five-room high school building is complete in all its appointments, having an auditorium, gymnasium, class room and laboratories that are ample for their purposes. Five teachers will give their entire time next year to the high school work. A domestic science department has been provided for.

The work of all schools in the county during the past year has been highly satisfactory, and prospects are bright for a good year beginning next fall.

NEVADA FOR GOOD ROADS

Zenas Smith Finds Elko County Residents Flinging Up the Highway.

That the Elko county, Nevada, residents are in the movement for good roads is reported by W. Zenas Smith, who returned last Saturday from Coats and other points, after a good business trip made by automobile. Mr. Smith states that a new wagon road is being routed past the big Shoshone ranch instead of around it. "This new route will have the advantage of only one bridge instead of 17 on the old route, and will make a saving of about six miles. The best of roads are possible through the greater portions of that country."

Mr. Smith states that there has been abundant rain in Elko county and that business prospects are good. Good fishing is reported from the streams in that vicinity.

First Drive—Let me see. I think I'll order some lamb.
Second Drive—Don't! I never order lamb in this place—it's written before you get it.—Boston Transcript.

Cob Reporter—I guess I'll have all my work copyrighted.
City Editor—Never mind that. Just have the copy right—Judge.

Keeping the saw in the log won't help any unless you keep it moving.—Atlanta Constitution.

IN FOR GOOD ROADS

Buhl and Hagerman Residents Are Getting Ready for the Cross-Country Tourists.

Residents of Buhl, Hagerman and the country between are alive to the needs of good roads. They have set to the work of improving the roads and bridges between those points and are doing their share to convert the Oregon Trail into the new state highway. It is planned to form the Oregon Trail association out of the good roads and automobile clubs of Hagerman, Buhl, Filer, and Twin Falls.

In view of the large number of automobiles that will travel over the Twin Falls tract from the eastern part of the state to the Inter-Mountain Good Roads convention at Boise, June 10, Buhl citizens have arranged for a ferry across the Salmon at Oweley's ferry for the convenience of the motorists. The convention, near this point a temporary bridge has been constructed, as the present depth of the water will not allow fording. Delegates to the convention will be given a welcome as they pass over the route that is now being improved.

Meeting at Buhl.

An informal meeting of some of the business men of Buhl was called at the Buhl Hotel Monday, May 20. Mayor Byron was in the chair and on calling the meeting together stated the purpose to be the discussion of the present state road question.

Those present were Messrs. Quick, Elmer, Fowler, Snyder, Elmer, Meredith, Harvey, White, Elson, Hopkins, McClusky, and Farris, and those waiting from Hagerman were Messrs. Strand, Coltharp, Jensen and Dilatash.

After some informal discussion a resolution was unanimously adopted that it was the will of the citizenship of Buhl and vicinity to heartily co-operate with Hagerman and Twin Falls in an effort to secure for this proposed state highway a route that would be free from heavy grades, annoying sand, and yet bring before those who would travel this road a number of Idaho scenic wonders as possible, including the Thousand Springs, Upper and Lower Salmon Falls, and the beauties of one of the most settled localities of the state, the Hagerman valley.

Division of Work.

Being assured by the visitors that they would take care of the road from Oweley's ferry to Bliss point in the first class condition by the 8th of June, it was unanimously carried that Buhl would immediately adopt measures for putting the road from some miles east of Buhl, through Buhl to Oweley's ferry, in good condition, by same date. This resolution to include a temporary automobile bridge across Salmon River at a point near the Norton ranch.

In accordance with this resolution the following committees were appointed: Committee: Messrs. Farris, Elson, Meredith, Tilton and White. On Bridge Building Committee: McQuinn, Cassidy and Coombs.

A motion was carried that the committee be appointed to draft and circulate a petition to the Inter-Mountain Road Commission, setting forth the advantages of this proposed route and securing as many signatures as possible. It was argued that a large petition backed by large personal delegation would bear some weight. Messrs. Fowler, Snyder, and H. H. Evans were appointed on this committee.

To Meet Tourists.

Messrs. McQuinn, Meredith, Elson and White were appointed as a committee to meet the eastern state delegates at Twin Falls and to escort them to Buhl. Mr. Elson being named as official pilot. Twin Falls to Oweley's ferry, at which point we were assured the Hagerman people would furnish a pilot to Bliss.

Various encouraging communications were read from Mr. H. J. Swyer, president Twin Falls Commercial club, and from Arthur L. Swin, president Twin Falls Automobile Association. Also Theodore Turner, Chairman State-Highway Commission.

Meeting adjourned subject to a call of the chairman.

R. W. BYRNE, Chairman.
A. F. MCCLUSKY, Secy.

It takes a man with the caliber of at least a section foreman to do things. Roads are too dry to drag, soon the weeds will be so high we can't drag them. Next year this trash will be in the gutters and the dirt worst work than. Surely the county could do what they can with the tools they have. D. C. SIERRELL.
Filer, May 19.

AN ENGLISH JOKE.

Miss Hogebust (of Chicago)—And what profession is your son in, Lord Highbust?
Lord Highbust—Oh, when Alger leaves college I expect he will take orders.
Miss Hogebust (surprised)—You don't say! Well, papa has got some real nice gentlemen traveling for him.
—London Opinion.

"This is a song about a girl named Molly. We can't publish that."
"Why not?" asked the composer quickly.
"We only publish Nettle songs. Take it to Calamander & Yalp. They specialize in Molly songs, I believe."
—Washington Herald.

"Mother—it shocks me awfully to think you took the penny. Remember, it is as much a sin to steal a penny as a dollar. Now, how do you feel, Willie."
Willie—Like a chump. There was a dollar right alongside the penny.
—Puck.

TALK ABOUT SHOES
LADIES, READ THIS

We are building up a shoe business in ladies' lines wherein we give the best values on earth. That may sound strong, but it's absolutely right. The best stores in the world carry this same line and guarantee every pair. A shoe that has all the qualifications of wear, fit, and with it the style and fair price. If we didn't know this positively we'd get another line. If you want a shoe that's the best made in all these elements for \$3.50 to \$5.00 you must come here. Look this surpassingly good line over now for spring. We are determined in this large ladies' specialty store to sell the best trade at fair prices.

Old ladies' shoe special, \$1.50.
