GOOD CHANCE FOR NEW STATE ROAD

**M. J. SWEETLY BELIEVES SOUTH
ERN IDAHO HAS CALL**

Says Oregon Trail is Logical Route in
Face of All Requirements—
Local Delegation, Made
Good Showing.

"I believe the Twin Falls country and Southern Idaho as a good, if not better, chance than any other section of the state in securing the new state road," said President M. J. Sweetly of the Commercial Club on his return from Boise, where he attended the session of the Inter-mountain Good Roads convention last week. We were well represented at the convention and I believe that our claims will be recognized.

The delegation from this country with that from Hagerman and Wendell, constituted the largest in the convention, and the logical reasons for building the new state road along the Oregon Trail were forcefully presented. We have the level, soil and longest open season route of any through the state. An automobile route is only secondary to a route that will be used by the largest number of farmers, and city and town residents with both autos and wagons.

Other Possible Roads.
While the commission has proposed to make some location soon as to the state road route, we of southern Idaho should not delay in impressing on the good roads people of Salt Lake and the country between the advantages of building a good road from that city into the Twin Falls country. Also a road from here to Weile, Nevada. With these two roads, tourists to California could be induced to take the route through the southern Idaho and back to their California route in Nevada, thus avoiding a "desert" trip through Nevada and at the same time having a wait in this rapidly growing empire. With good road building, and railway building, things will be doing in southern Idaho and that will be the far distant future."

AUTO MAKES GOOD CLIMB

Mrs. Nelson Successfully Drives Up
Clear Lakes Bridge Grade With
the Cartercar.

An extraordinary automobile hill climbing test was made recently by Mrs. F. A. Nelson with her Cartercar on the Clear Lakes bridge grade, north of Buhl. The drive was made from the bridge to the top of the sand grade, a distance equal to about the length of a city block.

Mrs. Nelson states that the drive was made successfully through heavy sand, and that at no time did the car show any hesitancy in making the climb. The car is driven by traction transmission and is a 1915 model.

It is stated by Mrs. Nelson that as far as can be learned, this is the second time that this climb has been made by an auto, the only other instance being that of a Thomas Flyer driven up the grade about one year ago. With Mrs. Nelson on the climb from the bridge over Dr. Coleman and Dr. MacChesney, of Buhl, and Sherman Cox, of this city.

CONSERVATORY CONCERT

Pupils of Miss Martin and Miss Bell
to Give Program
Tonight.

The pupils of Miss Martin and Miss Bell of the Twin Falls Conservatory of Music will give a recital at the Conservatory in the Gilbert building this evening at 8:30 o'clock. An excellent program has been prepared and a musical treat is promised.

This evening's program will consist of varied selections taken from the greatest composers and will be such that can be thoroughly enjoyed. The friends of the pupils and the general public are invited to the recital. No admission will be charged.

A GOOD INVESTMENT.

There is no better investment than a fifty cent bottle of Merlot White Liniment. Muscular and rheumatic pains, swellings, lameness and sprains of the muscles are promptly relieved. Merlot White Liniment is especially recommended as a general pain killer of unusual merit. Majestic Pharmacy.

After a brief visit with his parents, Mr. and Mrs. H. J. Young, Homer, Wyoming, a student in the state university, has taken up his work in a survey of the grazing lands in the Caribou National Forest, with headquarters at Montpellier. He will remain there until next fall when he will resume his studies at the university.

SURVEYING NEW ROAD

Proposed Line From Boise to Winnemucca Receives Attention at
San Francisco.

Engineers engaged on the survey of the Boise-Winnemucca railroad, which is to link San Francisco with the rich Snake river country of southern Idaho, have advanced their line 125 miles north of Winnemucca, according to advices received by the traffic department of the San Francisco Chamber of Commerce, says the San Francisco Call.

Word has been sent to the traffic bureau with a map showing the proposed route through Nevada and southeastern Oregon to Homestead, Idaho, where the road will cross the Snake river. In Jordan valley large tracts of land are now being placed under irrigation by Carey Act settlement. In the vicinity of McDermott 100,000 acres of land are subject to irrigation, and near Jordan valley two large tracts of 55,000 acres and 30,000 acres, respectively, are now being provided with water under the Carey Act. The proposed trip of members of the San Francisco Chamber of Commerce from Winnemucca to Boise over the route of the new railroad will not be held during the summer, owing to the vacation period beginning, but is under discussion as a possibility for this fall.

POWER COMPANIES CLASH

Beaver River and Great Shoshone
Each Want 18 Acres on
Malad River.

Arguments of counsel, and perhaps further evidence is awaited in the suit involving the contentions of the Beaver River Power company and Great Shoshone Power company over 18 acres of land in the Malad River canyon. Partial verdict was submitted to Judge Walters last Friday and to date the proceedings have remained open.

A few years ago the Beaver River company secured a deed from the state land board for 18 acres of land on the Malad river and began erecting a power plant. About this time the supreme court gave a decision in a parallel case ruling that public notice had not been given and that the granting of the deed was illegal. Proceedings were then instituted by the Great Shoshone company to have the acreage thrown open by the state on the ground that the deed to the Beaver River company was of no value. It was then contended by the Beaver River company that any error in granting of their deed was due to the state land board. The outcome of the case is awaited with much interest.

COUNCIL TO ORDER CLUSTER LIGHTING

INTENTION ORDINANCE PASSED
LAST MONDAY EVENING

Providing Objections Do Not Warrant
Delay, Improved District Will
Be Declared at Council Meet-
ing on July 7.

Definite action has been taken by the city council toward the securing of the cluster lights for the central part of the city. At a meeting held Monday evening an ordinance of intention was passed toward the establishment of the improved district. Objections to the plan for the improved district will be heard on the evening of Monday, July 7.

Two steps are necessary in the establishing of the district. First, an intention ordinance must be passed, which was done last Monday evening, subject to objections. If the objections are not such that would warrant a delay the council will then declare the improved district for the cluster lights. The improved district will extend from the city park to the Short Line depot, and along Main street two blocks each way from Shoshone street.

When the lights are installed Twin Falls will present an electric appearance unequalled in the west. Only a short time will be required to install the standards and lamps after the district has been declared.

During the present contract with the city the Great Shoshone Power company will furnish power for the clusters free.

FLAG DAY CELEBRATED

City Decorated With National Colors
—Formal Observation Planned
For Next Year.

Flag Day was appropriately celebrated in Twin Falls last Saturday. Homes and business buildings all throughout the city were decorated with American flags, and the national colors were hung in streamers about many homes.

Flag Day is an institution created by the Daughters of the American Revolution, and in many sections of the country is being given almost as much recognition as Memorial Day and the Fourth of July. In many of the larger cities last Saturday a holiday was observed with parades and exercises. Local patriotic organizations are already planning to have the day observed in a formal way next year.

Chairman of State Highway Commission Pleased With Road Conditions Here.

Theodore Turner, of Pocatello, the chairman of the state highway commission, passed through Twin Falls last Tuesday on an official inspection of the Oregon Trail as a possible route for the new state road. He and the other members of the commission will travel over the various routes that have been proposed for the state highway and an early report on a choice is expected.

The large delegation from this part of the state at the good roads convention at Boise last week, and the chairman for the Oregon Trail that was so strongly presented at that time, persuaded Mr. Turner to begin his investigations with the proposed route through the southern part of the state. While in this city he expressed himself as much pleased with the route, the condition in which he found the roads and the scenic and agricultural attractions.

Jerome will celebrate

Two Big Days, July 4 and 5, Are Planned For by the North Side Town.

Jerome has announced a big two days celebration, July 4 and 5, and arrangements are being made to have this one of the big events in the history of the North Side. All the attractions imaginable will be provided for the celebration and the many contests have been made attractive by the prize that will be awarded.

On July fourth there will be an elaborate program of races, baseball, basketball and speaking, with a grand display of fireworks at night. The Twin Falls Band, among others, will furnish music for the day. A number of good ball games have been arranged for the two days.

On July fifth, boxing contests, foot races, horse races, relay races, and other races and baby contests will be the features. The committee is arranging to accommodate a big crowd and special rates will be sold over the main line and cut off for the two days.

GAS TANK EXPLODES

Fire Threatens Much Damage at Garage of Twin Falls Auto Company.

The explosion of a gasoline tank at the Twin Falls Auto company garage, on Second avenue north, Tuesday afternoon, resulted in fire that caused slight damage to the building. No explanation for the explosion can be given.

The force of the explosion sent the flames through the floor of the garage and ignited boxes of supplies in the basement. The early arrival of the fire department prevented the flames getting beyond and the fire was soon extinguished.

The rapidity with which the local fire department can respond to a call and get into action after arriving at the scene of a fire was demonstrated at the garage fire. Long before the fire alarm had ceased sounding the department was at the scene of the fire and had their equipment ready for and in use.

STRUCK BY LIGHTNING

Mrs. W. G. Reed Rendered Unconscious While Telephoning During Thunder Storm.

Mrs. William G. Reed, of McKinley avenue, was rendered unconscious by a stroke of lightning during the thunder and hail storm last Friday afternoon. She was telephoning at the time the storm was at its height, and a ball of lightning struck the phone wire leading into the Reed home, communicating with Mrs. Reed instantly.

Following the storm neighbors went to the Reed home and found Mrs. Reed lying unconscious on the floor. She was easily revived and has apparently fully recovered from the shock. Mrs. Reed does not know how long she may have remained in an unconscious condition.
