

MAY BUY BONDS OF ELECTRIC LINE

EASTERN CAPITALISTS EXAMINE PROPERTY OF SHOSHONE FALLS ROUTE

Well Pleased With Prospects of Development of City and Tract—Given Aids to Buhl—May Build High Bridge.

With a view of taking the bonds of the Twin Falls Electric Railway, and completing the line to the Shoshone falls at George Bogart, representing C. May and company, a large bondholder firm of Chicago, made an inspection of the line and equipment this week and has returned to Chicago to report on the proposed investment. Mr. Bogart is president of the Shoshone National bank of Shoshone, Iowa, and represents immense capital now investing in western securities and bonds.

Mr. Bogart was accompanied from Chicago to this city by H. L. Hollister, who with I. B. Porriro has built a portion of the line to the falls. After he had taken over large sections of the tract, shown its agricultural resources and possibilities of future growth, Mr. Bogart expressed himself as well pleased with his trip to this country. He was amazed with the development and progress that has been made, and was convinced that only a beginning has been made on the development of southern Idaho. Although having traveled extensively, he stated that he had never before seen any valley so promising as this, and predicted that within a few years this part of the state would be traversed with many electric and steam roads. He also expressed the need of more railway facilities for this city and tract.

Take Care to Buy

As a part of Mr. Bogart's entertainment here, a luncheon was made with the storeroom cars to Buhl over the Short Line tracks under the direction of I. B. Porriro. A number of the friends of the Electric Railway, who were invited and the run was another demonstration of the success of the storage battery cars. Mr. Bogart was especially impressed with the feature of his trip to this city.

Officials of the Twin Falls Electric railway have reason to believe that the bonds will be taken in the future. With this done, the line will be pushed to early completion. A sufficient force will be secured to lay the remaining miles of track and put the road in first-class running order. The completion of the road to the falls is likely after that would be attempted in the summer.

The High Bridge

With the probable early finishing of the road, interest is again being taken in the proposed building of a high bridge across the Snake river canyon at the Shoshone falls. A connecting link between the North and South Side tracks will be in demand as soon as the line is completed. When the season crop is over, the highest in the world by more than one hundred feet.

POTATO GROWERS TO MEET

Meeting Will Be Held in Odd Fellows Hall Next Saturday Afternoon.

An important meeting of the potato growers of the county will be held in the Odd Fellows hall next Saturday afternoon, July 20, at 2 o'clock. At this time the advisability of affiliating the organization with that of the fruit growers will be thoroughly discussed.

All persons interested in potato growing are urged to be present at this meeting, as the problem of marketing the season crop is one of the greatest importance to all growers.

Snake River Pete Says... FUNNY thing, but a good many automobiles smell less like gasoline than they do like a mortgage.

At Shoshone Falls

Proposed High Bridge Across Snake River Canyon Connecting North and South Side Tracts.

MRS. S. T. HAMILTON CALLED BY DEATH

TWIN FALLS PIONEER SUCCEMB WEDNESDAY MORNING. Though Warned of Its Approach, End Came as Shock to Community—Husband and Daughter Survive—Funeral This Evening.

With the death of Mrs. S. T. Hamilton at her home on Seventh avenue north yesterday morning, Twin Falls mourns the loss of a pioneer and a friend. Sympathy is extended to the bereaved husband and daughter in their hour of sorrow.

Mrs. Hamilton passed peacefully away yesterday morning at 7:15 o'clock, following an illness of two days due to auto-infection. She was taken suddenly ill early on the morning of July 14th, and with the exception of a few days a few days later, remained in a state of coma during her entire illness. All hope was abandoned last Sunday morning, and a rapid decline followed until death. Members of her immediate family surviving are her husband, George Hamilton, and her daughter, Miss Beth Hamilton.

A Pioneer.

As a pioneer, Mrs. Hamilton came to this city in 1905 and joined her husband, who a year before, had helped to lay the foundation of the city of Twin Falls. From the beginning of her residence here, Mrs. Hamilton was active in the work of the various literary and social circles. Being a woman of educational attainments, she was a frequent reader and speaker before clubs. From her organization she was an earnest member and worker in the Presbyterian church, being active in the work of the various societies and the Sabbath school. As teacher she had become greatly attached to her class of young ladies.

Her love of home was one of Mrs. Hamilton's first virtues. Family life was her strong thought. Her greatest enjoyment was her family at heart. Being a lover of the beautiful, she adorned her home with flowers and wicker, and within with paintings and the products of her own handwork. Her friends are numbered by the score, because she bore a noble character. A woman of noble and charitable towards those from whom she differed in opinion, she was kind, generous and comfortable of others, and tireless in dispensing kindness.

Graduate of Monmouth.

Fannie McQuown was born in Bigsby, Illinois, July 5, 1872, and died at the age of 41 years. She was a graduate of Monmouth college in Illinois and was married to S. T. Hamilton in 1888. Besides her husband and daughter she was survived by her brother-in-law, another in Kansas, and a sister in Colorado Springs, Colorado, the former Hamilton home. The funeral services will be held from the residence this evening at 8 o'clock, with the Rev. Dr. Shepherd, pastor of the Presbyterian church officiating. The church choir will render favorite hymns of Mrs. Hamilton. Mr. Hamilton and daughter, Miss Beth, will accompany the body to Morrow morning to Colorado Springs for interment. The burial will be in the cemetery where two daughters lie, their mother will be laid to rest in the same grave.

HAS OWN IDEAS FOR FINANCING NEW LINE

Twin Falls Man Presents Plan Whereby Farmers Could Subscribe Stock and Pay for Same from Benefits.

His own ideas on the railroad question, and a feasible plan for financing a line to west or southwest, were given to The News yesterday by a Twin Falls man who is interested in the development of the tract and securing of a route to the coast. Being interested in farming himself, he has compiled figures that would be of interest to all land owners. Speaking of the railroad question, he said:

Money is Needed.

"My idea is that it takes money to build railroads, and persons here who are so eager to have an independent line connecting us with San Francisco or Los Angeles. If this new line should give us a better market and make a difference of only 10 cents a hundred to our present rate (and it would do much better), it would make a difference of \$200 per ton on alfalfa, and at five to seven tons per acre would make a difference of from \$10 to \$14 an acre each year, which is a net gain on our alfalfa. This means a hundred on what would be six cents a bushel, and at 50 to 75 bushels per acre would make a difference of \$300 to \$1,200 per acre. If the South Side should subscribe \$5.00 per acre on 200,000 acres, the Salmon tract say \$100,000, the North Side \$150,000, and extend to them, or an amount of \$1,000,000, some railroad would sit up and take notice. Other sections might also do well to make the matter an easy one for some road."

Where Benefit Is.

"If our present road saw such a move there is little doubt but a cut of at least 10 cents per hundred would be made. Four years' payments of \$1.25 per acre, it would be very easy. If we realized \$2 to \$14 by investing \$1.25, which we do not invest until the road is completed, what a profit we would have."

"Just notice that again—'We agreed to pay \$1.25 per year for four years, and at the end of the fourth year we receive our benefit of rate reduction of from \$3.00 to \$14.00. It surely looks plain, and should say something to every one owning land or doing business in Southern Idaho. More than that, we would save on every article shipped in, and our land would be worth from \$25.00 to \$50.00 more per acre as soon as the road was assured. If we have 200,000 acres of South Side land, that would mean a total of \$500.00 per acre. It would mean an increase in value of \$1,000,000, besides other savings in rates. The benefit of the better market which connection with San Francisco or Los Angeles would make, both going and coming freight rates not included, neither could the property, locally."

Should Be Good Stock.

"There is no apparent reason why such stock should not be a very good investment and pay as good as any railroad stock. Think this over seriously, and see if you can figure any other way. Why not get together and each do his part? We know how to do things in Idaho when we start."

PRIZES ARE GIVEN IN ROSE CONTEST

W. R. PRIEBE REWARDS EFFORTS OF SCHOOL GROWERS. Leon Githou, Jr., Awarded First Honors—Contest Successful in All Particulars and Mr. Priebe Pleased With the Results.

The school rose growing contest, which has been conducted by W. R. Priebe this season, closed last Saturday with the third and final exhibit at the Priebe jewelry store. The exhibits were judged by J. A. Waters and Mrs. W. R. Priebe, who awarded the prizes given by Mr. Priebe, were made.

The winners in the contest were Leon Githou, Jr., first, from Henry second, and Frank Neudham, third. The first and second prizes were gold watches, and the third prize was a watch. Two dollar prizes were given to the ten following persons: Edna Parrott, Nina Crater, Mrs. Githou, Fred T. Irving, Peter Hansen, Charlotte Stewart, Miss Melburn Evans, John Fletcher, and Howard Evans.

Mr. Priebe Pleased.

"In every way the contest was most satisfactory and Mr. Priebe following the close of the contest. 'My purpose in conducting this contest was to encourage rose growing in this city, and I believe from the interest taken in the contest that another year will see Twin Falls a city of roses. Some very fine roses were placed on exhibit, and I am very much pleased with the results.' The roses entered in the contest were grown by school children, and presented by their parents. The prizes were given as to the best manner of care and time of cutting for exhibit, and the growers were encouraged in making a specialty of rose culture. It is probable that some similar contest will be held next year. Mr. Priebe is one of the leading rose growers in this city, and among others is anxious that their culture be encouraged."

PAY CITY OFFICIAL VISIT

Fruit and Water Experts Have Good Reports for Conditions on Tract.

State Horticultural Inspector John U. McPherson and Don H. Burk, special irrigation engineer for Idaho, were visitors in the city last Saturday morning, and on Tuesday they made on the conditions as they found them in their respective departments.

Mr. McPherson states that the fruit prospects are of the best all over the state, and that the orchards on the tract are in an exceptionally fine condition. What blight and other disease does exist, he says, are being successfully combated by the growers and dealers, and he is encouraged with the interest the fruit growers are taking in keeping their orchards free from all pests. Mr. Burk went from this city to the Salmon tract, where he is conducting a thorough experiment on the dirt of water on that tract. He is finding that sufficient water is available for all crops on the tract, and that in many instances water is being used too much for irrigation. It is his aim to determine the amount of water needed for the various crops on the tract Tuesday morning, and he is armed with this information. Too much water, he says, is as harmful to the crops as not sufficient water."

FIRE AT PIERCE HOME

A defective flue was the cause of fire in the roof of the P. A. Pierce home, Fourth avenue north, about 10 o'clock Tuesday morning. The alarm was answered by the department and the blaze was quickly extinguished. Only slight damage resulted.

UMPIRE GOLDEN IS DOING GOOD WORK

BALL GAMES MOVE WITH EASE AND PRECISION.

Ladies Day Expected to Prove Drawing Card Among Gentler Sex—Good Sport is Thoroughly Assured.

The advent of Umpire Golden into the baseball world of Twin Falls promises to supply a long-felt want, and already fans and players are delighted with the improvement in the handling of the games. The Twin Falls team has played good and consistent ball from the very start, and for the most part a generous share of support has been given them. But for some time past it has been felt that something has been lacking, and it is now that the missing element is abundantly provided for in the work of Mr. Golden.

Umpire Golden comes to Twin Falls with a record of success and his work is far in excess of the highest praise. Games are called promptly and run off in a brisk, business-like fashion which is a marked improvement on the sport. G. H. Chapin, as team manager, expresses himself as highly as pleased with the progress made under the new order of things, and will cooperate closely with Mr. Golden in everything that pertains to better baseball.

Will Hold Ladies Day.

The team management desire to call attention to the fact that on Saturday a week has been set aside as "Ladies Day," when no admission will be charged except the ordinary one to the men. It is hoped that the lovers of the national sport among the gentler sex of the city will take advantage of this offer, as it is the aim of the club to offer a quality of ball which will appeal to all lovers of the game, of both sexes.

The Twin Falls team is doing its best to earn the loyal support of the townspeople, and the patronage so liberally bestowed upon them, which they have succeeded admirably.

ARRANGE EVENING GAMES

Busy Baseball Fans Will Have Opportunity of Seeing Sport on Week Days.

Announcement has been made by the management of the Twin Falls Baseball club, beginning with next Monday, evening games will be played on Sunday. Football is scheduled for the opening games will be Monday, Tuesday, Friday, and Saturday. The Sunday games will be played at 2 o'clock.

These evening games will be called at 6:15 o'clock, and have been fixed at this hour in order that those owners of fruit and truck growers, from attending the regular afternoon games may be enabled to attend the games through the week on all the busy days. Football is scheduled to play here next Sunday, and Rupert is billed for the evening games on Monday and Tuesday. The game with Pocatello may be postponed and Rupert substituted in order to have a three game series. Rupert is scheduled to play at 2 o'clock on Friday and Saturday of next week.

The Magicians took the scalp of the Blackbills in the three game series played here on Monday, Tuesday and Wednesday. The team is rounding into excellent form and a trip through the eastern part of the state is being planned.

FRUIT GROWER FINED

George Tuft, Kimberly Orchardist, Pays \$25 for Failing to Eradicate Blight.

On complaint of C. W. Brannan, deputy state horticultural inspector, George Tuft, a walk-in fruit grower of Kimberly, was taken before Judge Brannan in court on Monday, where he pleaded guilty to the charge of failing to comply with a notice to eradicate blight from his orchard. He was fined \$25 and costs.

Mr. Brannan and his assistants are serving many notices at this time and are endeavoring to bring about eradication two days within which to cut away the affected parts of the trees, and if so ordered, every block of land, where he pleaded guilty to the charge of failing to comply with a notice to eradicate blight from his orchard. He was fined \$25 and costs.

Twin Falls attended the state treasurer, O. V. Allen, of Boise, a few days last week. Mr. Allen was here on a business and pleasure trip.

CITY IS GIVEN A CLEAN BILL OF HEALTH

STATE OFFICIAL FINDS LOCAL SANITARY CONDITIONS IN GOOD SHAPE

Dr. M. W. Smith, Health Inspector, Makes Thorough Examination—Scales Unclean Cream Cans—Their Return to City.

That Twin Falls is a clean city is the statement of Dr. M. W. Smith, deputy state sanitary inspector, who has been making a thorough inspection of the city during the past few days. On all previous official visits he has found the city in a sanitary condition. It has been necessary for him to take hold of unsanitary conditions in a severe manner.

Dr. Smith has complained the city officials upon the sanitary conditions in the city at this time. He finds that proper provision is being made for the removal of filth, and that the sanitary conditions are in a very good state. He is difficult to find. He has a few orders for cleaning up premises, but in no instance are the conditions as on previous visits.

Unclean Cream Cans

Yesterday morning Dr. Smith confiscated a large number of empty cream cans that were being returned to the city. He found that the cans had been returned to the city after having been used for cream, and that they had failed to thoroughly clean the cans before returning them to the city. He states that planning to clean in frequently contracted from cream which has been used for other purposes, and that the cans were not thoroughly sterilized after use.

Two local growers were found selling short-weight butter this week. The butter weighed but 15 ounces and had been purchased from parties near the city. While the butter was bought in good faith the weight was found short, and the growers were held directly responsible for this violation of the law.

The visit this week has been the most satisfactory one which Dr. Smith has ever made to this city, and he believes the authorities have the situation so well in hand that there will be no backward steps taken in the matter of city sanitation.

ON LONG HIKE

Denver to San Francisco Walkers Stop Over Night in Twin Falls.

An overnight stop was made in the city last Friday by the Misses Frances Leach and Mary Coyne, and Miss Adams, who are on their way from Denver to San Francisco. The women appeared at the Lyric theatre Friday evening in a boxing outfit and were accompanied by their manager, left Saturday morning for Contact and Wells, Nevada, from where they will proceed to San Francisco.

The walkers are defraying the expenses of their long jaunt by selling postcard pictures of themselves in various places. They have been brought in by the Lyric theatre, and are endeavoring to raise money for the benefit of the party. They are expected to arrive in Denver on their trip.

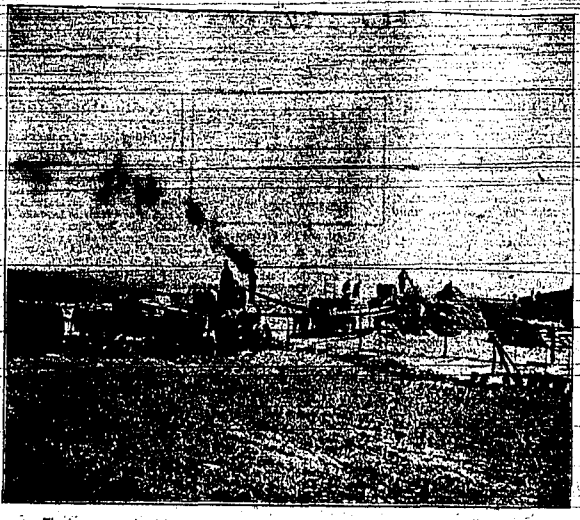

PLAN FOR KIMBERLY FAIR

Bigger and Better Than Last Year's Fair Will Be the One Held September 13.

Arrangements are already being made for the second annual festival fair and boosters day at Kimberly, Saturday, September 13. Prize exhibits will be on hand, and the best of Twin Falls the following week and carried in the Twin Falls fair and Central, which will be held September 13-14.

According to present plans, the day will include a monster celebration of the harvest season, the best of the fruits and crops will be exhibited, and entertainment of the best variety will be provided. Races, contests, and sports of all kinds will be in place on the day's program. Emphasis will be placed on the fruit and agricultural exhibit, and a grand parade will be held. In view of the excellent fair held at Kimberly last year, this year's festival day will be made a special one. All arrangements of the fair will be larger and better than last year, and a record-breaking crowd is expected to attend on the county.

Threshing on the Twin Falls Tract

The immense grain yield this season will require many additional machines for the harvesting.

lar to that of the Bluster. The panoramas are quite encouraging.

Resume Columbian Work.

A. J. Tucker returned Tuesday from his home in Buhl, Idaho, and has resumed work on the Columbian work at Jack Hole. His associates, prominent bankers and business men, for Buhl, got stalled on the muddy roads while trying to make the trip here by auto during the recent rains, but will start again this week, with mules as the motor power. The party consists of J. W. Parls, chairman, Quora, Gordon Bennett, A. Spivey, J. H. Shields, and R. O. Cassidy.

BARGAIN SALES OF REAL ESTATE

We want to close out some of our holdings in this county, and offer for sale:

A 600 acre tract, out from Buhl; under the Twin Falls South Side canal system; good land, rolling; for fruit there is nothing better in the county; just the thing for a grain, grass, or stock ranch on a large scale; part cleared and plowed, ready for crop.

An 80 acre improved farm in the Buhl county; some orchard and grass; on telephone and R. F. D. route.

Three separate pieces between Twin Falls and the Snake river; two of them only a mile and a half from the city and near the electric car line, now about completed; under cultivation; just right distance for small fruit tracts; will sell; if desired, in ten or twenty-acre parcels. The other has ten acres of orchard beginning to bear; the finest forty anywhere; the car line runs past this; one mile south of Shoshone falls.

Some good residence property and vacant lots in Twin Falls, including one six-room modern house, with barn, only three blocks from postoffice.

These are Our Own Properties and Prices are Bed-Rock.

Fair Terms Will Be Made For Deferred Payments.

SWEELY & SWEELY

Week in Society

Chaffing Dish Party.

Miss Margaret Wilson indignantly criticized a few of her friends at a chaffing dish party last Friday evening.

Miss Dehn Entertains.

Miss Matilda Dehn was hostess to twelve of her girl friends last Thursday evening in courtesy to Miss Helen Washington, who leaves the first of the week for Do Moines. The evening was delightfully spent with music and a general good time. Delicately refreshments were served.

Eastern Star Picnic.

The Eastern Star ladies, their families and friends enjoyed a delightful picnic Friday afternoon in A. A. Walters grove. At six o'clock a light picnic supper was served. Everyone present reports a most enjoyable time.

A Kenalton.

Miss Beatrice Osterlander entertained at a Kenalton, Thursday afternoon, in courtesy to Miss Pauline Davis, of Pueblo, Colorado. At the close of a delightful afternoon dainty refreshments were served by the hostess, assisted by her mother and Mrs. C. H. Robbins. The guests present were: Misses Mary Millie Margaret Conroy, Bertha Norton, Lester Williams, Vesta Thomas, Bird Wall, Ceila Harrin, Olga Brose, Margaret Wilson, Leah Woods, Carmel Cox, Leah Chapman, Pauline Evans, Fern and Florence Costello, Harriet and Bess Warner, Evelyn Colbapp, Marie Dorey, Alice Tompkins, Helen and Ruth Sheppard, Miss Florence Cruise, of Boise, Miss Pauline Davis, of Pueblo, Colorado, and Miss Audrey Young, of Hooding.

At Hotel Perrine.

Miss Lesley Williams entertained at a most enjoyable party Friday afternoon in the parlors of the Hotel Perrine. The rooms were beautifully decorated with roses and cut flowers. At the close of the party, Miss Marie Dorey won the prize, while Miss Pauline Davis, of Pueblo, Colorado, was crowned.

JARBIDGE TO HAVE BULLION MILL SOON

PLANT WILL ASSURE DIVIDENDS IN CAMP.

Alpha Company Making the Installation—Good Reports from Pick and Bluster, It and Other Properties.

Jarbridge, Nev., July 11.—That a mill will soon be built on the Jarbridge tract, is now practically assured. Since his return here a few days ago John A. Joss, the Alpha Honor Palmer's representative in this section, has been the busiest man in camp. Both by word and deed he has given evidence that the revival of work on the Alpha mine is to be on a much larger scale than was generally supposed.

In an interview Mr. Joss stated that a mill has been ordered for the Alpha, from the Atlas-Chambers company—and that the machinery and materials—now on the ground within thirty days. Construction will then begin and it is fully expected that early in the fall the mill will be completed and producing the ore. Under any circumstances there will be a stiff grade, and on the final decision as to this road will depend whether the machinery will come by

float rock, from which some of the finest and richest specimens, showing much visible gold and going into the thousands in per ton values, have been taken. On the north end of the claim Martin and Rowland, leases, sunk a shaft 40 feet, which, however, is in solid formation for only 10 feet. At this point a crosscut opened up a vein 11 feet wide which averages 10 per ton clear across. A streak, 8 to 12 inches wide, averages about \$30 per ton. Much of the work in the past has been done—under local-wooded-conditions—and was unsatisfactory, but when Mr. Nelson got going right it will be a different story.

Good Bluster Showing.

The south drift from the lower tunnel on the Bluster is now out 70 feet. At this point there is six feet of good-looking ore, though panning indicates only fair to low grade value, as yet. If the average grade at Bluster ore is opened up in this section it means a great increase in the value of the property.

Frank Winters has moved an outfit onto the claim and has started work. The 11 days north of the Success, and near rich field, has been found on the claim.

Jim Duncan and Johnny MacLean have started work on the Hidden Treasure, which joins the Little Devils on the west. The latter two are two parallel veins and the characteristics of the formation are sim-

way of Death on the south or Twin Falls on the north.

It has also been decided that the company will build and run the boarding house for the men. The lumber for same has been ordered and will be delivered on the site within a couple of days. Three shifts are to be employed steadily at the mine, and as some are to be engaged in drifting and prospecting, in addition to the force making the main shaft, they will soon be working for nearly all the idle miners in camp. A corporation, known as the Tiko Mining company, has been organized and will own and operate the Alpha mine and mill.

A property that has always been looked upon with kindly eyes by miners in this section, the Pick and Bluster, now under the control of Chas. J. Nelson, one of the shrewdest operators of the mine, is in 12 acres of the Bluster, and is almost the Bluster and Success on the west. On the Shovel claim is a massive cropping which shoots into the air to a height of 20 feet and is almost the same width. Nearly all this mass pays well and much of the quartz shows the blue, black and purple-gray streaks that are always associated with the best ore in this district. On this claim, and below it, are also found enormous boulders of

Mr. and Mrs. Greenbow entertained at an informal dinner Sunday for their daughter, Mrs. Earl J. Caroy, of Los Angeles. Covers were laid for Mr. and Mrs. W. A. Flower, Mrs. Eva Amos, Mrs. Harold Dodd, Mrs. Caroy, and host and hostess.

Playlet.

Monday evening Mrs. J. H. Beaver's Sunday school class, the King's Catechists, of the First Baptist church, gave a dramatic version of Hiawatha, on the lawn of the Beaver home.

Cradle Roll Party.

Mrs. Pierce, superintendent of the Cradle Roll of the First Baptist church, gave a delightful party Friday afternoon at her home on Fourth avenue north to the members of the Cradle Roll and their mothers. Various games and contests were entered by those present, after which dainty refreshments were served.

BEAVER BOARD

MADE FROM PURE WOOD FIBRE

is the modern material for walls and ceilings in buildings of every type.

In new construction it is nailed right to the studs; in remodeling it is nailed over the old work.

Beaver Board comes in panels 32 inches and 48 inches wide, and in any length wanted from 6 feet to 16 feet.

There are forty-one advantages to be derived from the use of Beaver Board. Call and get samples and full information.

A party consisting of Mr. and Mrs. L. E. Salliday and their daughter, Mrs. Salliday, mother of Mr. Salliday, and his three sisters, Misses Anna, Letha and Ruth, has left for a sight-seeing trip through Yellowstone National Park. They expect to spend some time in the park and are assured a pleasant trip.

FIFTY YEARS AFTER.

(New York World.)

It is possible that a higher statesmanship as Bryce said might have averted the civil war. But it is too possible that any statesmanship could have reduced the nation into finally emerged from that conflict. It is a nation forged on the anvil of war that took no thought of material gains or of material losses. Out of the woe came a national life vastly different from anything that existed before. It is easy to picture a country that could have disposed of the slavery issue on a basis of dollars and cents. But it is not easy to picture a country that could have grown into the United States that took without the suffering and sacrifice of the civil war.

This is a generation that was born after the smoke of battle had cleared away. It is a generation prone to forget how much blood and iron have gone into the winning and holding of human liberty. Let it view the Gettysburg celebration with the reverence that that celebration deserves. Let it remember that the broken remnants of the Blue and Gray there assembled had come from a nation that values a man for infinitely more than money in the making of a nation.

HOW THEY GOT THEIR NAMES

Camellias Were Named in Honor of Missionary (Kama), Who Brought Beautiful Flower to Country.

Puchsias were so-called because they were discovered by Leonard Puchs.

Dahlias were named for Andre Dahl, who brought them from Peru.

The Camellia was named from a missionary named Kama, who brought some beautiful specimens of the flower to France from Japan, who called it the rose of Japan, but his friends changed it to his honor.

Magnolia were so called because Prof. Magnol of Montpellier first brought this beautiful tree to France from America and Asia.

Anonymous men trembling with the wind hence their name.

Lavender received its name because the Romans put the delicate flowers into the water where they washed, to perfume their hands, water being the Latin word to wash.

Cash paid at the office for clean cotton rag in good sized pieces—not scraps.

Big Ben Says

THE MAN who fails to investigate the opportunities of life such as this great sale has no one to blame but himself if he doesn't prosper.

Here now, every man in Twin Falls is offered a chance to buy goods he will surely need sooner or later, at prices way below what he has had to pay formerly or will have to pay later. The shrewd men—those who are getting ahead—are quick to grasp such an opportunity as this. They realize that to take advantage of it is just like finding money.

FINDS TWIN FALLS SCHOOLS RANK HIGH

BOSTON MAN HAS PRAISE FOR LOCAL EDUCATIONAL SYSTEM

Writer in Eastern Journal Tells of Methods Here in Operating Central School System—Finds Methods the Best.

In a recent issue of the Journal of Education, published in Boston, appeared an article by the editor, E. Winship, on the subject of the school in Idaho. In his reference to the Twin Falls schools Mr. Winship writes here, and has the following to say of the schools of this city: "I have seen the man who was the only resident in Twin Falls eight years ago living in the only shack anywhere about here. Today it is a very fine brick city of about 8,000 population, the sixth city in the state, the 'hotspot' of the region, with 'an excellent school building, with several grade buildings, with the best court house in the state, with a thoroughly up-to-date hotel and a rich variety of amusements. It was an inspiration to know Louis A. Snyder, who two years ago received a cash prize of \$500 as first in the most and best potatoes raised on acre in the five states dominated by the Oregon Short Line. It is to be noted at that the Commercial club of Twin Falls had a facsimile of this certificate made and scattered throughout the land and the potatoes raised there less than six years before raising 65 bushels of the best potatoes to the acre." The work from the school and planning to harvesting was all done by machinery.

But the glory of Twin Falls is not in its potatoes, alfalfa, or fruit but in its schools. Here is the greatest demonstration of transportation of our children in the world. Nineteen school busses, or wagons, or hacks, or "kit teams" come into town every school day, come from all directions, from three to six miles. About six hundred children are thus brought to school. This conglomeration of transportation business is now so extensive that the Studebaker make a wagon for this special service. The school district owns two wagons and a specific one mile per wagon for men and horses for transporting the children. They run on a regular time.

It is an interesting experience to see these wagons coming into town, at the same time, from all directions, and the various school busses. The unloading of the wagons in the morning and the loading of them at night quite an event.

Keep Trail for Students.

Each principal gives much time and attention to the problems of discipline in transportation. Each driver reports to the principal immediately upon arrival. He files a daily and a monthly report. He reports any child who cannot be taken care of in his school satisfactorily, and the principal calls him to account if there is any suspicion that his management is in the least faulty.

Superintendent Elliott gives much attention also to the supervision of the transportation. He has the best drivers are high school boys, who are thus able to get their high school education and feel keenly the responsibility for the behavior of the children.

Schools Among Best.

The schools of Twin Falls are among the best in the United States. They are up to date in equipment, in modern methods, and in spirit. Practically no children are retarded, so carefully are they watched and so deftly and promptly are they helped. Once a week all seventh and eighth grade children go to the high school work camp, they are well equipped.

Departmental work is installed in school fashion. Latin is so enthusiastically studied that the class has petitioned for the introduction of Greek. And yet the manual arts, domestic science, and agriculture are nowhere more ardently taught and studied.

City's Great Growth.

Here, in mind, that there was only one lone shack anywhere about eight years ago, and that the sole occupant of that shack was Robert M. McCoombe, whose description of the increasing of the 8,000 inhabitable bringing fine homes, thrifty stores, elegant hotel, paved streets, a wonderful line of amusements, a high school house, other school houses, nineteen school wagons, an enrollment of 1,000 pupils; and then pictures to portray a stupendous banquet to thirty men and women, a feast long to be remembered, and all skillfully served by the domestic science class of the very young high school. The whole affair seems like a veritable fairy tale.

MANY ATTEND BIG SALE

Big Ben Daily Announces Hours of Reduced Prices at Hickler's Cash Store.

Large crowds are this week taking advantage of the Big Ben bargain sale that is being held at the Hickler's Cash Store. On the morning of the first day of the sale the doorway was crowded awaiting the ringing of Big Ben announcing the reduction in prices on the goods in stock. Each day a different line of goods is sold at ridiculously low prices, and the buyers are taking advantage of the sale each day.

This sale continues for 15 days, beginning last Saturday, and will close on Monday, July 27. Big Ben begins at 10 o'clock and 10:30 p'clock each day, and during that half hour goods are almost given away. A big hole has already been made in the \$5,000 worth of goods that must be sold during these fifteen days, and the buyers will have no time in getting in on the remaining days of the sale while the reduced prices are in effect.—Advertisement.

MAKES ANNUAL REPORT

Supintendent of Schools Elliott Tells of Work During the Past Year.

In his annual report to the board of education, which he has just completed, Superintendent of Schools O. St. Elliott presents many interesting figures regarding the growth of the Twin Falls city and independent district schools. There was a total enrollment of 1,000 students in the city schools during the past year, an increase in enrollment of 200 over the previous year. The average attendance this year was 100 more than the year 1911-1912.

The report shows that there are more boys enrolled in the Twin Falls schools than girls, the respective figures for the past year being 850 and 870. In the high school there was a total enrollment of 347 students this year, 160 boys and 191 girls.

All departments of the school work were thoroughly reviewed in the report, showing the work that has been done in the various classes and vocational departments, as well as athletic and literary work. An estimated expense of \$89,010 is given for the coming year. This amount covers all salaries, help, upkeep of and additional equipment. No sinking fund is required for the coming year.

PROUD OF RURAL SCHOOLS

Professor Potter, on Visit to City, Tells of New Vocational Training.

Professor T. W. Potter, formerly a resident of this city while superintendent of the county schools, was a visitor in the city yesterday while en route via Salt Lake, where he attended the N. E. A. in Boise, where he is now head of the school clubs work in the state educational department.

Professor Potter states that the organization of vocational training clubs in the rural schools is rapidly becoming a part of the educational program. The educational program of the state is now a department in this line is the instruction in canning of fruits and produce in a manner that can be used by the students at home. The government is furnishing assistance in work in forwarding labels to be used on cans and are prepared for the students for use in their homes, and it is believed this will be one of the most beneficial departments of the club work that will be inaugurated throughout the state. Professor Potter is proud of the work that is being done in the clubs of the rural schools in Twin Falls county.

TEACHERS TO MEET HERE

Institute Will Be Held in This City During the Week of September 8.

Announcement is made by County Superintendent of Schools Miss Nool that the district teachers' institute will be held in this city the week of September 8. The counties to be represented will be Cassia, Blaine, Blaine, Blaine, and portions of Lincoln. Until and including the past year the institute has been held at Pocatello and comprised delegations of teachers from all eastern, southeastern, and southern counties of the state. At the meeting last fall, directors of the institute were made into several sub-districts of the Southeastern Idaho Teachers' Institute. The institute will be in session for three days, and the ablest speakers will be on the program. This gathering will bring to this city a large number of educators, and will be a time when the best of the Twin Falls tract will appear to their best advantage. All of which means that no better choice could have been made than Twin Falls for the institute.

STATE BOARD EXAMINES

Dr. Keneley Helps Conduct State Examination for Veterinary Medicine Applicants.

Dr. F. T. Keneley returned from Boise last Saturday, where, with the other members of the state board of veterinary medical examiners, he examined a large number of applicants for licenses to practice in this state. This was the first examination given by the new board, and Dr. Keneley reports that thus far in the grading the applicants have been largely successful.

Additional requirements have been placed on the practice of veterinary medicine in the state by legislation enacted the past winter, and it will be necessary for the board of examiners to examine many who, while not graduate veterinarians, are practicing in the state. Several examinations will be given during the fall and winter at points to be announced by the state board.

SPECIAL MEETING CALLED

Plans for W. C. T. U. State Convention Here to Be Discussed on Tuesday Evening.

A special meeting of the W. C. T. U. has been called for Tuesday, July 22, at the Chaffin church, at 7:30 o'clock. Matters relative to the coming convention, to be held here in September, will be discussed.

It is desired that members and all persons interested in making the Twin Falls state convention the success of the coming year. On this occasion that it should be, are urged to attend this meeting and give their help and influence to the cause.

GIVE DENTAL EXAMS

Dr. McAtee Tells of Rigid Test Given Applicants Seeking Idaho Practice.

Dr. F. E. McAtee has returned home from Boise, where he spent several days as a member of the state board of dental surgery examiners in examining a number of applicants for licenses to practice in this state. Fourteen applicants were examined, twelve of whom were accepted.

Four days were taken for the examination, three of these for the practical and one for the practical work. Dr. McAtee states that the examination given was a most rigid one.

It is noted to none in the rigid requirements and examination for admission to practice, and Dr. McAtee was told by a number of the applicants, who have been practicing in other states that the examination given by the present board was more thorough than any they had ever taken in other states. In view of this, some of the large percentage of successful applicants, the board is pleased with the ability of those who are seeking admittance to practice in this state.

CIVIL SERVICE EXAM

Government in Need of Eligible List of Stenographers and Typewriters.

A stenographer and typewriter examination will be held under the United States Civil Service Commission in this city August 16, to secure eligibles for the positions of stenographers to be made to fill vacancies as they occur in the field service. Both men and women will be admitted to this examination, and the age limits are 18 years or over.

R. E. Leighton, local secretary of the civil service district, announces that all persons interested in this branch of federal employment should apply at once to the Secretary, Civil Service Commission, Washington, for application blank, Form 1373, and information, Form 1421.

ARRANGE C. E. CONVENTION

Societies from All Over State to Meet Here Last Week in August.

The joint committee of the Christian Endeavor societies of the Presbyterian and Christian churches met Friday night to make preliminary arrangements for the State Endeavor convention, which is to be held here the last four days of August. Committees were appointed to look after the entertainment of the guests, the decoration of the rooms, and the arranging of the program.

The convention will include most of the Christian Endeavor societies of the state, and all of the young people's societies of the local churches, and is being arranged by committee including members of the Endeavor societies and the pastors of the Christian and Presbyterian churches.

WEEKLY BAND CONCERT

"Rag" Program Will Be Rendered Tomorrow Evening in the City Park.

Though none the less appreciative of the high class music that has been rendered by the Twin Falls band at the weekly concert, J. T. Bettsbridge, director of the band, announces that many musicians have requested that popular, or "rag," selections be rendered, and that such a program will be given at the concert tomorrow evening. The program will be as follows:

- The Program.
- 1. Jack Ruby, an Arkansas Rag (Allen).
- 2. Superba, overture. (Danby).
- 3. American Beauties, Intermezzo (F. J. St. Clair).
- 4. Selection from The Bohemian Girl, (Ballo).
- 5. Jack Rabbit, rag (Garcia).
- 6. We Won't Go Home Till Morning, as it might have been (Till).
- 7. First, theme, second, as a Spanish waltz; third, as a gigue; fourth, as a polka; fifth, as a tango; sixth, as a waltz; seventh, as a divert; eighth, as it often is at 4 m.
- 8. King of Rags, a slip horn rag (Sullivan).

POLICE COURT GRINDS

Judge Smith Hands Out Fines on a Variety of Offenses—Yes—Wedding Knot.

The justice court last Monday morning Fritz Anderson drew a 12 day jail sentence for being intoxicated on the street, and the peace at the Co. (Tilton) hall by boisterous and obscene language. Complaint was filed by J. C. Webb.

Hugh Sloan and Richard Higgins each pleaded guilty to distributing patent medicines through the nearest districts of the city without taking precaution to see that the medicine was sent into the hands of adults only. Chief of Police Thompson received numerous complaints that the samples were being left on porches, and in many cases had fallen into the hands of children. They were each fined \$2.50 and costs.

Albert Gladney was given the usual time for driving his motorcycle in excess of the speed limit to be held here in September, will be discussed.

John G. Mead and Mrs. Nola R. Green were married by Judge Smith Tuesday.
