

STRAWBERRIES BY THE CARLOAD WANTED

GOOD MARKET IS IN VIEW

Profitable Industry to Be Promoted—Opportunity Opened for Picking Many Thousands of Quarts Each Year—Big Chicago Firm Searching for Large Shipments Writes to Twin Falls.

The strawberry industry is to be given great encouragement the coming year, with a market to eight for many thousands of quarts from the Twin Falls county. The following letter was received recently by Charles F. Schiele of the Twin Falls Co-operative association, from the Liquid Carbonic company of Chicago, having offices in a dozen large eastern and southern cities:

"We have been referred to you by Mr. R. B. Byron, who advises us that there are a great many strawberries raised every year in the Twin Falls district.

If it is not too much trouble will you put us in touch with the man who has association in Twin Falls markets the berries. We use 100 to 400,000 quarts per year object in getting in touch with association people is to find out arrangements we could make with them towards purchasing our requirements of them for next year, or for that matter, for the year three years."

The above letter was placed in the hands of Secretary McMillan of the local Commercial club, who at once took up the matter with the Liquid Carbonic company.

The season for planting strawberries is only three weeks away and the matter is being pushed by Secretary McMillan who wrote the company that it would add very materially to the strawberry average on the tract if we knew the average price the company pays per 56-bushel crate, and asking them to state a price they would pay for a large quantity of berries. He also informed them that our strawberries are ready after the season is all over in the east and south and just before the raspberries are ready, also that there are no finer strawberries grown than those in the Twin Falls county. A reply to the letter is being awaited. The matter will be taken up actively as soon as definite agreements can be reached with the company.

Many Cars Required.

Just how many quarts of fruit would be contracted for by this company is not known, but it doubtless would be many times more than were sold the past season, hence it is thought many people will plant strawberries next month with a good market in view. This year there were more berries raised than were needed for local consumption, but not sufficient amount for good shipments.

Roughly estimated the yield here is some 350 to 400 crates per acre. The Twin Falls county contains about 400,000 acres of land. This would be some 15,000 crates, or about 30 carloads. With ideal conditions for the raising of the berries in this section a large percentage of this amount should eventually come from the Twin Falls county. The annual crop report recently issued by the Twin Falls Canal company shows that there were 55 acres in strawberries the past year on the Twin Falls tract.

A SHATTERED ROMANCE

George P. Baxter has begun suit in the district court for the purpose of severing all traces of the tie that binds him to Mrs. Lulu V. Baxter in the relationship of husband and wife. They were married down at Chesham, Wash., in the year 1909. Two years they lived together. In 1911 Mrs. Baxter deserted her family home and has kept right on deserting ever since. No children resulted from the union.

GOOD REASON FOR HIS ENTHUSIASM

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is in a desperate case, and well by the way, of two cases of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as it is called, it is but natural that he should be anxious to get the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in such a case. It never fails. Sold by all druggists.

ROLL FOR TWIN FALLS COUNTY SHOWS INCREASE

From Land, At Night, Be. Expected. Consented More Than Half of Total Valuation - Amended Taxpayers Nodded on Reduction - Salmon Tract North of Hollister Given Out of 25 Per Cent.

The 1913 assessment abstract of Twin Falls county shows an increase of in round numbers, \$150,000 over the year 1912.

The railroad assessment has not been considered as yet, and will not be decided until after the meeting of the state board of equalization, which begins next Monday at Boise.

The showing is a very creditable one, inasmuch as the county board made several slashing cuts. The Salmon river tract was cut 25 per cent, amounting to \$70,000.

The unusual feature of the year's assessment was the fight made by Amsterdam farmers against having their assessments lowered 25 per cent, granted to the remainder of the Salmon tract. The cut would interfere seriously with their schools and having the welfare of their children at heart, the Amsterdams settlers took the matter up and their assessment stands intact.

TO SAVE STOCK IN DROUTH STATES

With a view to aiding the people of the middle west in saving their livestock and finding a market for the hay crop of this section of the state, Secretary McMillan of the Twin Falls Commercial club has written the commercial bodies of the various districts of the middle west states suggesting that they ship their livestock to the greater Twin Falls market where there is an abundance of feed. Secretary McMillan quoted to them the price on hay out here, cost of shipping, etc., and advised that the stock be shipped here, fattened and sent on to the Pacific coast markets, the cost of which would be nominal.

Reports from the middle west and southern states show that in order to save their stock farmers will be compelled to ship them out of the drouth stricken territories to other states favored with pastures and good hay crops. Idaho furnishes all these essentials and in all points is the logical place for the raising of this stock. The matter will be strongly pushed by the local Commercial club to the end that a large proportion of the livestock in those states suffering from the drouth may be shipped to this state. The season is so far advanced now that no amount of rain can revive pastures nor grow crops for feed sufficient for the stock. To ship it out is the only course open to the farmers there to save their livestock from utter loss.

WORLD'S LARGEST FILL

BROKANE, Wash., Aug. 8.—The largest railroad "fill" in the world today is nearing completion. To replace the bridge 300 feet long and 70 feet high, earth was hauled from Snake river, a distance of 85 miles, to Wauke, Wash. When finished the fill will have cost \$150,000.

PORTLAND WEDDING DEFIES TRADITION

PORTLAND, Aug. 12.—Defying superstition, Miss Ethel Verna Green, eldest daughter of Dr. and Mrs. Perry Joseph Green, has chosen August 12, 1913, for her wedding day. She has fixed 3:15 as the hour for the ceremony which will be a unique one in the history of Portland and the first public marriage to be celebrated in this city under the auspices of New Thought faith.

Miss Green's father, who will perform the ceremony, was at one time an orthodox minister, but is now one of the foremost leaders of New Thought on the Pacific coast. The ceremony will contain no pledging of eternal faith, "until death do us part," no promises to "obey, no mention of cherishing his spouse and in health (there is no disease in the kingdom of God), but instead, a mutual declaration of love and common consent to live with each other "according to the law of love."

The groom, Edward William Dawson of Lewis, Idaho, is also a follower of advanced thought, the dominant feature of which is emphasis upon individual freedom of thought and action. Dr. Green says he will not marry the couple, but that they will marry themselves.

"I shall conform to the legal requirements," said he, "by asking that the questions required by law and by making the statement that they are husband and wife, and that these will not be of traditional character, but will conform to the New Thought ideas."

LOOK UP, COWBOYS, HERE'S YOUR CHANCE.

Hundred and Sixty Pounds of Wife in One Case and 130 Pounds in Another if You Speak Up Quick.

Postmaster Greenbow of Twin Falls received the following letter early Monday morning with the request that it be given to the widest publicity to the Daily News and Weekly News. "Like the friend and agent of Cupid that he is, Greenbow is doing everything in his power to introduce the writers of the letter to the young men of these parts, and though he is aware that the supply of cowboys is running a little low at this time, still he thinks there may be a chance for others on the eligible list. The letter is appended:

"CHICAGO HEIGHTS, Aug. 8.

"We are two sisters and wish to make the acquaintance of two respected young cowboys; no trifiers need apply. As there are plenty of them up north here we are to earnest about this matter and hope you will do us this favor. We will send our photograph if they care to have them. As we are considered good looking our descriptions are as follows: Mary Woods, 5 feet 8 inches high; brunette; weight, 162 pounds; age 20 years. Margaret Woods, 5 feet 5 inches high; brunette; weight, 150 pounds; age 19 years. Thanking you in advance for an early reply. Am sending a self-addressed envelope, so please let us know if you have inserted this ad. Yours truly, MAY M. WOODS, Chicago Heights, Ill. Gen. Del.

GOODING PACKING PLANT CLOSED—MANAGERS ARRESTED

GOODING, Idaho, Aug. 7.—A deplorable condition of affairs was unobservable at the local packing plant by State Inspector William D. Smith, his deputy, and Dr. White, state veterinarian. Swine plague has afflicted 12 head of hogs which the inspectors found the proprietors of the establishment burning, and a nearby pen containing 20 head that were coming down with the disease. The slaughter house was closed and thoroughly disinfected. The slaughter house permit was revoked and the manager placed under arrest. Meat from the diseased hogs shipped out over the country would spread the disease so that the industry would become a dead letter in south Idaho.

EXPLANATION IS ASKED BY WOMEN

WASHINGTON, Aug. 12.—Congressman William Hoffman of Alabama, who recently made the statement that women should not vote because on an average they possessed less intelligence than the male of the species, and that participation in politics would make them more masculine in character and that the great American woman would deteriorate as a result of woman voting, has brought down on his head a storm that threatens his peace and happiness.

The national suffrage council is in conference here and the remarks of the congressman have been considered. He has been officially invited to appear before the meeting and explain himself and prove his assertions. Prominent women's rights speakers to the number of 35 have asked Hoffman to appear, present his remarks or to effect some plan or collectively in debate any place, preferably in the halls of congress.

Plans for the campaign for women's votes in 1914 were laid at the conference today. The meeting will continue in session for three days. It is being attended only by women from Canada during the first quarter of the year. The state of Washington is now on the statute books. Mrs. Emma Smith DeVoe of Tacoma, Wash., presided today.

PRESENT FRUIT OUTLOOK THROUGHOUT COUNTRY

From a summary in part of newspaper and trade reports, but more largely from our own confidential reports wired into this office today, we submit to you, writes the Pacific Northwest Distributors' association manager, an estimate of the fruit situation throughout the country. Idaho, Oregon, Idaho, Washington and Montana will come to you later. We have not yet received sufficient information from our sub-centrals on which to make a satisfactory report. We have enough data, however, to know that peaches will be normal, plums, prunes and plums about 40 per cent, and apples not to exceed from 55 to 75 per cent.

"Georgia—With about a 25 per cent crop, has almost wound up her shipping. Maryland—Virginia—Our reports from Maryland indicate that western Maryland and Virginia are practically failures and that all other sections of Maryland will have not more than 25 per cent crop.

Texas—Is about through shipping. Express shipments of Elbertas will be done in about 10 days.

California—Is shipping Elbertas freely and has a fairly heavy supply. Her shipments will be over, however, three weeks earlier than usual.

Oklahoma—With 35 per cent to 25 per cent crop starts shipping about August 1.

Arkansas—Reports about half a crop. Missouri—Elbertas are plentiful. Iowa—Starting to ship and will continue for about 30 days.

Idaho—Is said to have about a 55 per cent crop.

Michigan—Reports indicate about a 10 per cent crop.

New York—Connecticut—With a per cent crop starts shipping about the middle of August.

Ohio—Northern Ohio, along the lakes, with a 45 per cent crop will start shipping about September 1.

British Columbia—Reports show about 40 per cent of last year's crop, according to report.

Colorado—With about 50 per cent crop starts shipping the latter part of August.

Utah—With 50 to 60 per cent crop starts shipping about September 1.

Pears.

Maryland—Is reported to have a 25 per cent crop.

Delaware and Maryland Kieifers are very light. This will make a favorable market for late Bartlett.

California—Reports the bulk of the pear shipments from the Sacramento river now rolling.

Michigan—Is estimated to have a 40 per cent crop.

Iowa—Reports indicate only a 50 per cent crop.

New York—Has a heavy crop of pears. Bartlett's the heaviest ever known. Duchess is a full crop; the other very light.

Idaho—Will not average 30 per cent crop, according to estimate.

British Columbia—Is reported as

SOUTH IDAHO AN OASIS IN BURNING DESERT

Mrs. James McMillan returned Sunday from a two months' visit with relatives and friends in central Illinois and made some interesting statements to make regarding the weather and crop conditions in the middle west.

"The sections of Iowa through which we passed looked pretty good, but in Nebraska the sights that met our eye on every hand were pitiful. Everything was burned as though a great fire had swept over the country. Corn was burned clear to the tassels and utterly ruined. In nearly all of the small towns there was not a green lawn to be seen, everything was parched and brown. Coming through Nebraska the temperature in the cars was 120 degrees all the way. Our daughter from California says that everything there is dry. On every side of us it seems that there is suffering from heat and there is nothing but a veritable oasis in the desert, in comfort and surrounded with beautiful green fields and lawns."

CANADA STILL LOSES SETTLERS FROM U. S.

OTTAWA, Ontario, Aug. 12.—The Canadian immigration figures for the first three months of the fiscal year just issued show an increase of British and European immigrants over the same period last year and a heavy decrease in immigration from United States-Americans settling in Canada during the first quarter of this year number 44,919, as against 44,849 in the same period last year.

Total arrivals were 110,304, as against 115,846 in the same period last year. Of these 84,895 came from Great Britain, an increase of 15,000. The government estimates that the American settlers brought with them in cash and effects upwards of \$51,000,000.

EXTENUATING CIRCUMSTANCES.

CHICAGO, Aug. 12.—The first man arrested by one of the newly appointed "sopettes" as the women police are called, was released with a reprimand after conviction owing to the extenuating circumstances.

John Taylor, the defendant, was in a hurry to get out of the lake front where the cool breezes blow. His automobile pedaled freely and he crawled under it to do the work. After an hour's work he succeeded and after crawling out under the horrible discovery that a machine of the same vintage stood side by side with his own car and he repaired the wrong one. His throw the wrench to the ground and made several impromptu remarks. His arrest followed.

TWO GOVERNORS MAY RULE IN NEW YORK

ALBANY, N. Y., Aug. 12.—Governor Bulwer's friends say that he will ignore the right of the special session of the legislature to impeach him and that he will continue to issue orders if the resolution is adopted declaring Lieutenant Governor Gilmer acting governor. The state of New York therefore faces the prospect of having two governors.

The Tammany leaders announce that in event their resolution for impeachment fails to pass they will not attempt to hold a special session of the legislature. Bulwer will be tried for malfeasance in office.

Iowa to Visit—Miss Lorine Puttler left Thursday morning with Miss Katherine and Martha Bell, whom she will visit at their home in Walnut, Iowa.

Utah and Colorado—Reports show a 50 per cent crop.

Prunes and Plums.

Texas—Reports show poor prospects. Maryland—Reports, practically no prunes or plums.

Michigan will have a 40 per cent crop of prunes and 40 per cent crop of plums.

Iowa—Reports 35 to 45 per cent crop. New York—Has an average crop of plums and a full crop of prunes.

Columbia—Ohio—Reports a light crop; and Cleveland a trifle lighter than last year.

Lake Erie points will be better than last year.

British Columbia has a fair crop, about the same as last year.

Utah and Colorado—Will have about 50 per cent crop, according to the report.

OVERLOOKED FARMER WILL HAVE INNING

WILSON ASKS CONGRESS FOR RURAL CREDIT LAW.

Feeling that American Soil Was So Fertile that Farmer Would Prosper Regardless of Handicap Has Resulted in Poor Business Conditions—President Pledges His Influence to Have Beneficial Laws Enacted.

(United Press Dispatch.)

WASHINGTON, Aug. 12.—Official statement is issued by President Woodrow Wilson to the effect that he favors a complete and adequate system of rural credit. The statement explains that such legislation was not attached to the currency bill because there was not sufficient time in which to prepare the plan. It is the hope of the president to secure early enactment of a complete rural credit scheme.

"There has been too little federal legislation framed for the farmer," it has been the feeling that so prosperous were they that they could get along without any special attention. The rural credit law as proposed ought to be enacted and will be enacted, if we have anything to say about it," is the statement of President Wilson.

NEW YORK SENATE YET TO VOTE ON BULWER CASE

ALBANY, Aug. 12.—After a red-hot night session of the assembly a vote was forced at a quarter past five this morning favoring the impeachment of Governor Bulwer. If the resolution is adopted by the senate, the constitution provides that Bulwer must relinquish office until vindicated.

Lieutenant Governor Gilmer, who automatically becomes governor, is expected to call out the militia if necessary to assume office.

According to Governor Bulwer's wife, the governor knew nothing about any purchase of stocks. It was her transaction and her husband was not consulted in the matter and knew nothing of it.

The principal ally against Governor Bulwer is that while candidate for governor he diverted a portion of the campaign funds towards the purchase of stocks in Wall street.

The Tammany managers of the house have prepared a statement of impeachment 500 words in length. In it Mrs. Bulwer's confession that she bought the stock and not the governor, is ignored.

GOV. MCCONNELL WANTS FURTHER INVESTIGATION

Gov. F. J. McConnell of Moscow, Idaho, was in Twin Falls, the latter part of the week in the interest of forwarding a petition to congress demanding that there be investigation of the lobby that continually defrauds adequate appropriations for emigration inspection.

The same bunch, it appears, that Col. Mulhall has been testifying so freely about have secured the defeat of emigration restriction measures year after year and in addition to that have so restricted inspection appropriations that one inspector has to pass upon the merits of emigrants just about the time the stockman examines his sheep as they jump over the fence rail in the gate.

The governor is backed in his fight by all the laboring organizations and is out to get results.

TO CLASSIFY RANCH LANDS.

W. E. Palmer has been employed by the county to make a survey of the farm land and classify the valuation thereof into five classes. The work done now will hold good for four or five years and will enable the county assessor to place a valuation for an accurate purpose, with some degree of accuracy.

Heretofore instances have been cited where two deputy assessors' districts joined and their valuations adjoining property exactly the same in character would vary \$20 an acre.

By doing the work at this season of the year there will be ample time to do the work right, and the time saved in assessing in the years to come will more than pay for the expense of doing the work now.

SOLD BY DRUGGISTS EVERYWHERE

Local Brevities

Born—Thursday, August 12, a son to Rev. and Mrs. W. E. Harmon.

Strength to His Arm—James W. Beauchamp in Boise attending the annual meeting of the Idaho state tax commission. His mission is to keep the board from raising taxes for Twin Falls county.

Boosting Traders' Day—Secretary McMillan reports much interest being taken in Traders' day, which will be held on Wednesday, August 24. Farmers over the tract are showing great interest in the move and it is believed the affair will be a big success from every standpoint. Arrangements will be made to hold one such bargain day each month with the exception of September, the month of the big Oshad carnival.

Home From Portland—Mr. and Mrs. Fred J. Keller are home from Portland where Mr. Keller went to study tail styles in millinery and purchase stock for the coming season. They also went to Seattle and made a short stay there on the coast. Mr. Keller was much pleased with the fall and winter styles shown in millinery and states that the stock will contain numerous and various shapes that will satisfy all tastes.

From Stanley Basin—George Smith, who used to trap coyotes for Robert Rogers, is down from the Stanley Basin country. While trapping, Smith found some one that looked promising and began working on the prospect. He has been working all alone on his prospect for 15 years and took out enough from a place that runs up to the mine to pay his expenses. A mining expert recently passed on his property and reports that \$100,000 in ore has been blocked out.

McMillan Family Ill—Mrs. James McMillan, wife of the Twin Falls club's secretary, returned from a long visit in Illinois Sunday to find on her arrival here that all the members of her family had been taken suddenly ill from ptomaine poisoning. Their illness had been caused by eating canned oysters. Another member of the family, a daughter, who had just returned from California, was among the worst of the afflicted ones. They had all recovered in a day or two under the ministrations of a physician and Mrs. McMillan.

A Hostling People—Mrs. Crozier, mother of W. E. L. Crozier of this city, and Mrs. McIntyre, a guest, left Tuesday morning for their respective homes in Minneapolis, Minn. They had a delightful visit. "There seems to be so much energy here that people are all in such a hurry all day. They must have hurried to do so much business in eight years. I noticed that they even cut the church service short. If

we were farmers, we would surely want to live in the Twin Falls country," said Mrs. McIntyre to a representative of the Daily News.

Moved to Blackfoot—F. N. Eberke and family, who have lived at Elfer for the past two years, passed through here Wednesday on their way to Blackfoot, where they have located.

May Locals—W. A. Webster, accompanied by his son and daughter, spent Tuesday here visiting H. J. Fallings and Mr. Mager, old friends of theirs. Mr. Webster is looking up a business location and may return. His home is in Sidney, Iowa.

Being the Country—An Omaha party, consisting of Dr. C. A. Berg, F. A. Payne and their respective wives left Twin Falls Tuesday for Oakley. They are looking up a location and intend settling somewhere in the Twin Falls country.

Berkeley—Four young men from Twin Falls will attend the university at Berkeley, Cal., the coming year. They are Ray Lyman, Ward Johnson, Harry Eldon and John Bolton. The first three named left for Berkeley and Bolton goes a little later.

Born—Wednesday, August 12, to Mr. and Mrs. T. C. Benlitter, a daughter. Quarterly Conference—Rev. H. W. Parker presided at the conference held at the Methodist church Tuesday evening. The business of the year was closed. Rev. W. S. Woodhull, the pastor, presided over the session in person. The Epworth League members were refreshed to 30 who were in attendance at the meeting.

Dry Wheat Good—F. H. Hilliard and wife passed through here Tuesday on the way home from Hagerman, where they visited with friends. Mr. Hilliard is the general manager of the Gem State Lumber company in Idaho and sees all this section of the state. He reports grain, particularly wheat, is a good crop all over south Idaho and that the best field that he has seen is up near Albion, under dry farming methods. The yield will probably not be so large as under irrigation, but considering the price of the land and less expense in raising this field, he believes, is the best in south Idaho.

In Position to Know—Walter Seebrook passed through here enroute to Denver. He was from Los Angeles, California, and is making the trip in his automobile. "Idaho cannot get busy too quickly on her building of roads," is Mr. Seebrook's statement. "Utah and Nevada are doing a lot of work on a through-state highway for the use of cross-country tourists for the big fair on the coast. The roads through the Twin Falls country are better than in other parts of the state. There needs much to be com-

pleted a year before the fair so that they may be thoroughly advertised by 1916.

Got the Job—C. A. Allford landed the contract for building the school house at Marsa. The contract price is \$1800.

Bought at Elfer—H. M. Miller, of Yakima, has located two and one-half miles north of Elfer, where he bought a ranch.

Ship May—Two or three local parties have shipped hay to Wyoming points. The price is \$4.50 a ton and the quality, owing to the rains, is second grade.

Off to Yellowstone Park—Mr. and Mrs. J. P. McIntyre of Pittsburgh, and Mrs. W. D. Glenn of this city left Sunday for a trip through Yellowstone National park. They expect to be gone about 10 days.

Back From Yellowstone—Mr. and Mrs. Robert McCollum and their daughter, Mrs. Craven, arrived at their Twin Falls home Sunday from a tour of the Yellowstone. The outing was enjoyed to the fullest.

Want More Men—The Short Line is still handicapped in its double-tracking work by a scarcity of labor. Every day witnesses a car or so of laborers unloaded. Good wages are paid and more men are needed for both Idaho and Wyoming work.

Water Deceit Granted—A decree to one and three-fourths feet of water for irrigation purposes has been granted by the Vineyard Land & Stock Company from Hoes Creek. Other decrees from the same stream are under consideration by the court.

Married—Monday, August 11, by Rev. J. E. Shepherd, Miss Lavina Martin and Herbert A. Bell. They go to San Francisco and thence to Kansas City, where they will make their future home. Both bride and groom were formerly connected with the Justamere Inn.

Mrs. Hance Ill—Willett Hance was called to California on Sunday by the reported illness of his mother there. The lady only a few days before had left Twin Falls. The sudden and alarming attack came after her arrival at Berkeley. Mrs. Hance is advanced in years.

Fine New Bakery—The new bakery recently installed at the Rogers hotel is one of the best in this part of the state and in charge of the first class French baker who came here recently from Salt Lake City, is turning out some of the best bakery goods to be found anywhere.

A Daily Occurrence—E. D. Williams reports the theft of a \$10 blanket used for a laprobe. It was carried away from his wagon standing near the transmission house. Hardly a day goes by when some farmer does not lose articles of value from his wagon or buggy hitched to the racks around town. Recently one man returned and found the bridle had been stolen from his horse.

Union Service Enjoyed—The second of a series of union services was held at the city park Sunday with a large crowd in attendance. The Rev. W. E. Harmon, pastor of the Christian church, delivered a strong sermon on the subject, "Theocracy in Religion," and splendid music was rendered by the large chorus choir. The Rev. W. S. Woodhull, pastor of the Methodist church, will preach the sermon on next Sunday evening.

NOTICE

I take this method of informing my friends who have inquired as to when my dental office would be opened, that the same is now open and you will find me in and ready for appointments. I am very truly yours,

NEGRO IS LYNCHED.

LAURENS, B. C. Aug. 10.—On the charge that he attacked a white woman, an Richard Puckett, a negro, was lynched and his body ridged. He protested his innocence to the last breath.

RED MEN TO CHANGE LAWS.

DENVER, Colo., Aug. 11.—A new system of voting on propositions to change the laws of the order was the principal question up for discussion today when the 10th annual convention of the Independent Order of Red Men opened the annual convention. It was proposed to have each tribe vote on legislative proposals, instead of leaving the entire matter to the judgment of the great council as at present. Eighty delegates and part of the grand officers of the order from nearly every state in the Union participated in today's deliberations. The convention will close tomorrow night.

Another New Settler—William Hays returned to Grinnell, Iowa, Thursday. He was out here to get his sister, Miss Pearl Hays, comfortably located on her ranch down Bull way.

Found it Not—L. H. Morris, whose home is near Portland, left yesterday for Ontario after looking over the section for a garage location. He tried to buy in at Duhi, but failed to make the deal.

Repeating—Mrs. Ella King, well known as the proprietor of a hotel at Rupert, has sold her establishment and is out for a rest. She has been at Duhi for the past week seeing old friends.

Get Rich Quick—Harry Storer, according to the Elfer Journal, signed the name of his employer, A. A. Davis, to a check for \$10 and beat it. A warrant was out for his arrest on the charge of forgery.

Like All Iowans—B. I. Dryden and wife, who have been here visiting their son, Charles and Cliff. Dryden, returned Friday morning to Cedar Falls, Iowa. They are much pleased with the country and are not surprised to find so many Iowa people living here.

Oklahomans—H. A. Stroud and H. Schindler of Boise were here, Friday with a party of Oklahoma cattlemen. Stroud is recognized as being a good friend to Twin Falls and should be bringing about what he hopes to in Twin Falls and Hagerman valley will be surprised and pleased.

No Fault—"We have no fault to find," is the way C. Snyder and E. A. Shank of Hastings, Neb., say it. They are farming men and have been out looking over the country. They have been delighted with the crops, and while here took in the beauty spots down along the river.

Suits the Highest—Mr. and Mrs. F. Hagebe, whose home is Richards, Mo., returned yesterday. They have been at the home of J. T. Hagebe, their son. Hagebe Jr. arrived here two years ago and at once attained an 80 acre piece of land with a house. He has it all in crop and is pleased with the country, as are all the Hagebes.

Nothing Wrong—Carl Jungel has been disappointed in having his horses examined by a veterinarian, but has concluded that nothing is wrong with them. As a rule they run away at least three times a week. They skipped for an entire week and it was feared that some strange disease had attacked them. Friday morning, however, they set out down the street at a good clip and redeemed themselves. No damage.

Members of Fraternity—G. D. Runyon left Friday morning for his home in New Jersey. He has been out here to visit two sons who are in Boise and one, Arthur Runyon, in Duhi. Mr. Runyon is a newspaper man back home and was naturally pleased to find Twin Falls supporting a daily. He was out here more than two years ago and was, of course, very much taken with the advancement of the country since his former visit.

Land Poor—B. I. Gilg and wife of Lewiston, Idaho, are passing a few days looking over the country. They are satisfied with everything. Mrs. Gilg declares that they would move here and get hold of an orchard, only that they are "land poor," owing four farms back at Lewiston, and owing to the dry seasons there "they are it is next to impossible to sell anything." "This country is lovely. It's better than California," is her verdict.

SHOULD PROVE ALIBI EASILY.

SEATTLE, Aug. 11.—Standing on a crowded street, "John" Nielson, a rancher, shot himself five times in the body with a .22 caliber revolver, following a quarrel with his wife. He was gathered in by the police and when taken into the city jail the bullets dropped from his clothing. He had succeeded only in causing two slight abrasions, one over a rib and one on the knee. He was charged with attempting suicide.

R. A. Johnson left yesterday morning for Twin Falls with his little girl who will undergo an operation for appendicitis—Rupert—Neib.

John Aldrich of Hooper, Neb., is the guest of Mr. and Mrs. E. O. Spillberg today. Mr. Aldrich has heard a great many stories of the wonderful Twin Falls country, but after looking it over says they are not exaggerated and that it is undoubtedly the greatest country he has ever seen.

Beware of Ointments for Catarrh That Contain Mercury as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good they can possibly derive from them. "Halls Catarrh Cure," manufactured by J. C. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Halls Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by J. C. Cheney & Co., Toledo, O. Price 75c per bottle. In the Long, Well-Filled Head-Lies the Heavy Yield.

In the Twin Falls country is raised oat biscuit three times a day in many harvested the greatest grain crop of the southern states. Since the turning on of water in the then trackless desert.

Soft wheat nowhere grows to such perfection as it does in the irrigated sections of the west. And the people of the south have discovered that soft wheat flour makes ideal biscuits. They posit.

WHY NOT?

KC is pure. KC is healthful. It really does make lighter, nicer biscuits, cakes and pastry than the old fashioned single acting baking powders.

And you pay only a fair price for it. No baking powder should sell for more.

To advertise or to go out of business—that is the question.

SPREADING ABROAD TWIN FALLS' FAME

"Wheat, oats, barley and alfalfa are the chief crops raised in that section of the Snake river valley where I am located," J. W. Havens of Twin Falls, Idaho, said as he described the development of that new country. Mr. Havens formerly lived near Belleville, Kan., where he farmed.

"Irrigation is spreading fast, and wherever it is in operation land values are high, as the soil is very productive. Small grain under irrigation makes a heavy yield and pays well. In a country filling up so fast there is a strong demand at home for all farm products so that we need not depend upon the eastern markets to dispose of what we raise. If any grain or alfalfa is shipped out it goes to the Pacific coast points, where it commands a high price. Then it is not very far to mining camps where a good market is to be found for most farm products. Alfalfa is one of the staple crops and a big money maker. Like the grain and other farm products, alfalfa sells at a high price all the time. Butter and eggs are our grain feed crops as no corn is raised there.

"Two creameries at Twin Falls run full capacity and are short on supplies of dairy products all the time. Butter is shipped into that territory from outside. Milk cows are considered worth \$100 a year. Dairy herds are becoming numerous and the industry is a big item at home. All our cattle are marketed either at home or on the Pacific coast. Beef cattle are scarce and the dairy cattle are sold only when they become unfit for service in producing milk. The steer calves are sold as veals, and most of the heifers are kept for dairy purposes."—Kansas City Star.

CAMPMENT IS PLANNED
