

HUERTA DENIES HE WILL RESIGN

Dictator Declares Mexican Delegates Have No Instructions

ANNOUNCEMENT CAUSES BUT LITTLE INTEREST IN WASHINGTON.

Preliminary Organization at Niagara Falls, Opposes Attention of Congress.

Mexico City—Provisional President Huerta in an interview Wednesday said: "The Mexican people delegate have no instructions to offer my resignation at the conference at Niagara Falls."

The president spoke with energy and emphasized his words with remarkable gesture. Prior to this, Estevan Ruiz, the acting foreign minister, had declared that the Mexican representatives had no particular significance. Officials of the Washington government had the object of solving the international difficulty.

Washington—News from Mexico City of General Huerta's announcement that the Mexican delegates to the international conference had no instructions to offer his resignation was received in Washington with interest, although it was regarded as having no particular significance. Officials of the Washington government had not expected General Huerta publicly to proclaim readiness to eliminate his presidential gesture.

Authentic cables through diplomatic sources, however, gave Washington authentic information several days before the Mexican delegates were clothed with full power to act, and had been authorized to agree to the elimination of Huerta, if necessary, to bring about a settlement of their country's troubles.

This last step, it was assumed, would be taken only after it was apparent that there was no hope of a settlement. Reports from the late conference at Niagara Falls had not reached the White House until the night when the president retired. Interest in official circles in the proceedings at Niagara Falls is intense, and will continue closely by the president and the members of his cabinet by a special wire that has been set up at the White House for the purpose.

Officials here believed it unlikely that the unfolding action of the Constitutionalists has continued to put a damper upon the hopes for a speedy settlement of the whole Mexican problem, but the belief is strong among high officials that when the Saltillo campaign has been completed, General Carranza and his followers may be heard to enter the mediation negotiations.

SWOPE-KILDOW

Twin Falls Young Lady Marries Washington Man

On Wednesday morning of this week at six o'clock occurred the marriage of Miss Mable Swope to Mr. Oscar Kildow, of Columbia, Washington. The ceremony was performed at the home of the bride's sister, Mrs. Grace Gronow, in the presence of the relatives and a few friends. The bride, Miss Mable Swope, is the daughter of Walter P. Hiranen, president of the First Christian church, and the groom, Mr. Oscar Kildow, is a resident of the city of Washington. The bride was decorated in pink roses. The bride was escorted in a suit of Copenhagen blue and was accompanied by her father, Mr. Kildow, to the early morning train for her home in Columbia, Wash., where the groom is engaged in the government service.

POWER COMPANY APPEALS

Would Reverse Order of Utilities Commission in Public Case

Once again the public utilities commission is to be haled into court to justify its existence if it can, and this time to uphold its recent order against the Idaho Power & Light company of abutting that company out of the city of Buhl in Twin Falls county.

In the supreme court on Wednesday a writ of certiorari and review was filed—the writ—was issued and made returnable May 25. A petition for a temporary stay of the order of the commission was also filed to keep the good until the supreme court has had an opportunity to pass on the matter.

This action is entirely independent of the one against the commission case some time ago by the same power company. In this last action, on Wednesday, it is set forth that the franchise given by the city of Shoshone & Twin Falls Water & Light company brought action before the public utilities commission against the Idaho Power & Light company, for the installation of a light and power system in Buhl, Twin Falls county, under a franchise granted by the franchise given by the city of Shoshone & Twin Falls Water & Light company.

In this case the public utilities commission has the power to issue an order to the supreme court this company now insists that this order of the commission is not a writ of certiorari, authority or jurisdiction.

In this case the Idaho Power & Light company proposes to test the validity of the order of the commission; to secure a proper interpretation of certain sections of the act; to establish its rights under the act; to determine the jurisdiction of the public utilities commission, and to make it clear that it has no other legal remedy.

It seems to be well understood on all sides that the real issue at issue is as to whether the public utilities commission has the power to issue an order to the supreme court this company now insists that this order of the commission is not a writ of certiorari, authority or jurisdiction.

SALT LAKE BOOSTERS

Will Be in Twin Falls: Evolving of June 4.

Salt Lake City, May 20.—Salt Lake business men are not setting forth on the Salt Lake excursion extension except for the purpose of visiting the city of Salt Lake, rather they expect to entertain their hosts. Held's famous grass band and the Imperial Male Quartet. The band will leave here May 31st, until it returns from its 1,500 mile swing through northern Utah and Idaho, June 6th.

Held's band is famous throughout the international circuit. It is acknowledged to be one of the premier musical organizations of the west and will be conducted on the tour excursion by the founder and director, John Held.

There will be a concert by the band and the quartet in every one of the 52 cities where the special excursion train is scheduled to stop. Because of the long and tiring tour, the number of cities on the itinerary will be necessarily the shortest.

The excursion to Salt Lake business men in the excursion is best. Heads of the most important business institutions of the city are planning to meet the band and quartet at the city and business interests of the community.

The excursion will be under the direction of the excursion committee of the Commercial club, members of which committee, President W. F. Joseph, Secretary C. M. Buell, and members of the board of directors will officially represent the club on the trip, while there will be countless representatives, as of the Manufacturers' association, the Chamber of Commerce, and other organizations.

The 100 or more excursionists with their friends and relatives in automobiles will arrive in Twin Falls on their special train, June 4, 1914, for a stay from 4:10 p. m. to 11:50 p. m. of each.

I'm a sinner. Walk a block or two and save a whisker too. Shave at Fair cut 'em. Satisfactory or fair without pain. Satisfaction guaranteed or whiskers refunded.

ATTORNEY CHANGES LOCATION. Attorney C. M. Buell has moved his office from the First National bank building to rooms 10 and 11 in the Twin Falls Bank & Trust Co. building.

The attention of the commission is called to the condition of the roads leading west from Twin Falls, which will become a part of the state highway.

When the new steel bridge is ready for use a great amount of travel now going over the road on the township line will be changed to strike the shorter route.

At present the road in its bad condition as any stretch of road within the county, and is getting worse every day due to flooding from irrigation ditches.

The work of getting this particular piece of road in condition will take a long time, owing to the fact that it has never been properly maintained.

It is for this reason the work should start at once. The matter of flooding the roads should be given attention this spring so that the work accomplished shall not be destroyed.

It takes as a rule a few acres every year to improve the care of ditches upon many of the careless irrigators.

In a recent issue of the Statesman, appeared an editorial regarding the court of Idaho courts.

The article is worthy of consideration and an attempt to remedy by effective legislation. The present law, which makes commissioners the county or any of the political units responsible for court costs outside of attorneys fees, is one which has been superceded by a different system in most of the other states.

Criminal prosecution must necessarily be assessed against the county or state, because it is a crime against society which is being tried, but that is not true of civil cases which are of a private nature in the greater number of the district court cases.

Nearly all such cases require a jury trial and for every case a jury trial in the county it means at least thirty dollars court expense.

Some of the cases in Idaho have cost more than fifty to one hundred dollars the amount involved and take at least one and perhaps two days of the court's time.

The blame for the courts' financial condition was laid on the shoulders of the county, but the real opportunity to solve the problem is not in the hands of the county, but under the increased litigation resulting from the law, the poor man's lawsuit as hard through the increased taxes.

What Idaho needs is legislation to make court costs assessable to the litigant rather than to the county.

It is not the intention of the Idaho legislature to make the poor man's lawsuit a thing of the past.

TALKS ON THRIFT

No. 39.—How to Start a Fortune.

If I had never saved, I would never have been successful.

Thomas F. Ryan.

The word of every great fortune in America today was the saving habit.

The present owners of these fortunes may not be saving, but those who founded them had to be.

Think of the millions of Vanderbilts, Rockefellers, Carnegies, Astors, Hewns and scores of other owners of enormous fortunes in this country.

There is not one of them that did not start with old-fashioned thrift on the part of some one. It may have been a century ago, or not any longer than the youth of the present possessors.

No matter how much speculation and "big business" may have had to do with the later development of these fortunes, the start at least was made by saving.

But inasmuch as there is not one person in a million who can reasonably hope to acquire a mammoth fortune such as those mentioned, it is perhaps more convincing to consider the origin of the more moderate-sized fortunes, examples of which are found in every community.

Look around you and make a few inquiries concerning the reputed rich men of your vicinity.

The chances are ten to one that you will find that these comparatively new rich men are in the systems of saving that provided funds for wise investment.

For the great mass of ambitious persons, the only course now open is that outlined by three words of Henry C. Huntington, the Los Angeles financier:

"Save a little every week, and when you get an increase of wages or salary continue to live within the former limits and save the difference. If you find it difficult to save, then you are not fit to be rich."

In the way of investment, the prudent investor will not count on too high a rate of return, the average man will have better opportunities to win success in smaller positions than in industrial enterprises. The big enterprises pay the salaries of the top, and close application will win promotion toward these higher positions. It is not necessary for a man to get the salary before he begins to put money aside.

that the most important reason for

this Mexican leader's peculiar attitude

toward the United States is his desire

to get more ammunition over the bor-

der, having at present only enough

on hand for one big battle." And in-

identally we are reminded by the

April number of Mr. Bryan's Com-

monator that it was President Wilson's

original decision to raise the em-

barrio on arms that "made it possible

for Villa to make his triumphant

march southward." It will be recalled that when Villa

flushed north to Mexico after our

forces seized Vera Cruz his first pub-

lic utterance was a declaration that he

would not be dragged into a war with

the United States by anybody. Throwing

his arms across the shoulders of

George C. Carothers, a special agent

of our state department, he regarded

with a smile:

"Why, all Europe would laugh at me

if I went to war with you. They

would say that little drunkard, Hu-

erta, has dragged them into a battle at

last."

And later, when interviewed by a

representative of the New York World

on the subject of mediation by the

"A. H. C." Powers, he said:

"While I am hoping that these me-

diations will go through to success,

yet I do not wish to see the control

of affairs go out of the hands of the United

States, which is big enough, broad

enough, and powerful enough to im-

pose and tolerate of us in our trans-

actions."

"I would like to see those three

powerful South American countries

gain too strong a hold on my country,

for that would not be for our good,"

I know them, and they are like many

people in my country who do not al-

ways do as they say.

"My first wish would be that Pres-

ident Wilson handle this whole affair

alone, for I believe he is honest and

intelligent enough to know what is

right and to do it."

It will also be remembered that on

several such occasions, after express-

ing his views with clearness and deci-

sion, Villa made a point of reminding

the interviewer that he spoke only as

a soldier and not a diplomat, and that

the final decision in all matters rest-

ed with "my chief, General Carranza."

Yet simultaneously with these assur-

ances of his loyalty to Carranza, cer-

tain rumors of jealousy and fric-

tion between the two Constitutional

leaders have been circulating.

A few days ago Representative Kent

of California, a Progressive, introduced

Villa before congress as "a great lead-

er of men, who has been growing in

power, and in the knowledge of what

the civilized world demands of him.

And a later later Senator Dillitt

(Rep.) of Rhode Island, introduced a

resolution calling upon President Wil-

son for information concerning what

published reports that it was the admin-

istration's purpose to aid Carranza's

to become the new ruler of Mexico.

This resolution was defeated, but der-

ived the discussion it called forth. Villa

Every Week More and More Sick People are Taking My Chiropractic Adjustments and are Being Restored to Perfect Health by Nature

They have faith in the science of Chiropractic, because it has been explained to them, because they have learned how logical its conclusions are, because they have taken a few adjustments and have seen immediately how this wonderful science DOES REMOVE THE CAUSE of disease. It has now been proven that disease is not sent by Providence as a result of fate or chance but that it is a definite EFFECT following a definite CAUSE and that disease can be prevented.

A host of questions have no doubt arisen in your mind, which require an answer from me. I shall be pleased to have you call at my office and will deem it a privilege to furnish a further explanation to prove that Chiropractic is based on logic and is applicable to your case.

Remember, I do not ask you your troubles. I analyze your spine and tell you what your trouble is.

DRY CLIMATE

A cigar is never better than the tobacco it is made of. To make 1914 Dry Climate Havana Cigars the best you can buy, we use the best clear Havana filler, a blend of three choice kinds of leaf, selected for their unusual bouquet and aroma. It's the blend and the "dry climate" process that makes them taste so fine. They are made mild for high altitude smokers and never "jar" the nerves.

**THE EXPRESS IS IN THIS TOWN
AND IN TO STAY**

FOR seventy-five years—three-quarters of a
century—the express has been the right-hand
of the shippers of commercial America. The
Express came to Twin Falls in 1904 and it came
to stay. For 10 years it has been the right-hand
of commercial Twin Falls.

It is here to stay. The other day when reports
went out that the express companies might retire
from business, a protest went up. From whom

this protest—the express companies? No! The
merchants of the country—shippers everywhere—
petitioned Congress that no action be taken that
might have the effect of forcing the express com-
panies to retire. Commercial organizations all
over the land have joined in this appeal to Wash-
ington.
For seventy-five years in the past and for a
good many more years in the future Express Ser-
vice will mean

**Competition
Do You Want It?**

STOP AND THINK!

Under the law electric service rates in the future must be so based as to earn a reasonable return on the investment involved.

Two companies mean duplicated investment and expense as well as divided income.

Therefore, if you encourage competition, you are inviting ultimate higher rates.

Figure it out for yourself.

SOCIETY NOTES

Society items for this column will be gladly received by The Times.

Miss Mary Seckman entertained the Amnna class of the Baptist church and a few other friends at her country home Monday evening.

The first part of the evening was given to the Amnna class social time. Later the guests were ushered into a room decorated with the Amnna class colors, green and white. The center piece was a large pink rose containing small pink roses having green ribbon attached, which ran to each place card. Hidden in the center of each rose was a small card bearing the amnners.

ment of the approaching marriage of Mr. John Thomas and Miss Mary Seckman which will occur June 10th. The color scheme was carried out in the refreshments also. The announcement came as quite a surprise to most of those present.

Mr. and Mrs. Harry A. Ball entertained the Ideal Bible class of the Christian church on Tuesday evening. After a luncheon meeting a delightful social evening was spent. The house was decorated with pink roses and sunshades and the pink and white colors were also carried out in the dainty refreshments. "Bible" members of the class were present.

The ladies of the Science church surprised Mrs. H. A. Anderson and

Mrs. Doran Carter, who leave shortly for the east. The affair was given at the home of Mrs. Barber and a musical program and dainty refreshments were enjoyed.
