AD of Any Printed Matter, It Represents Good Workmanship, Good Wages, and Good Conditions.

It is with pleasure that the newspapers of Southern Idaho can record the fact that in which the settlers and the construction company have come to an understanding that promises success for both in the future.

The settlement has been made unreasonable demands, but the demands put to local representatives of the financiers, when filtered through to the main offices, have been so misconstrued and falsely colored that an antagonism was unconsciously created toward the settlers.

It is a mistaken notion for any group of capitalists to figure that any success is possible without the successful co-operation of the real business builders.

THE 'CONSPIRACY' AGAINST TRUST LEGISLATION. A sensation rivaling that caused a year ago by his discovery of a "trust lobby" at work to wreck tariff reform, Washington correspondent "Chas." has created a "trust lobby" by President Wilson's intention of a plan to prevent the Senate from passing the Administration's antitrust bills.

adjourn without further antitrust legislation, the President showed the correspondents certain circular letters which, he implied, are being widely distributed with the suggestion that they be used as models for similar letters of protest to the Washington legislators.

"We enclose herewith draft of a letter which embraces the views of a majority of the thinking business people of our section of the country. . . . Might we suggest, if you agree with us, that you take the trouble of writing letters of a similar character to the President, the members of the United States Senate, and the House of Representatives, from your state? . . ."

The suggestion in effect created no less by the fact that another of these widely circulated documents urging a halt for the present in all legislation for the control of business was fathered by the St. Louis hardware company, whose head, E. C. Shumway, was offered, and declined to accept, a place on the Federal Reserve Board.

After making public these documents, the correspondents call on President Wilson sent for the Democratic caucusing committee of the Senate, reiterating the belief that actual business conditions are normal and improving, and asserted with emphasis that all the influence he possessed would be exerted against the adjournment of Congress without the completion of its antitrust program.

"The President is clearly right," declares Colonel Washington's Louisville Courier-Journal (Dem.), "which believes that if Congress adjourned with these assurances in abeyance it would be 'the height of cowardice and folly—like leaving an operation half performed because it hurts.'"

"We do not think that there is any thing criminal in the action of the Editorial Review in asking its readers to send letters and telegrams to the President and leading Congressmen and Senators demanding that antitrust legislation be abandoned for the present, but it was one of those things that are agreed to crimes, being blunders."

"For a generation now, this country has been in a condition of excitement over the question of the regulation of corporations. The various and conflicting bills have been introduced and have been settled, and settled right. The failure of one Congress to act, inasmuch as there will be a bitter demand for the next Congress to act. While this situation obtains here comes to the White House a man who knows what needs to be done and which is latent upon doing it, in a way that will not harm legitimate business. . . ."

is trying to help, comes in to perplex and hinder him. "If he were less unbalanced than he is, this sort of thing might deflect him from his purpose. That won't happen. But what shall be thought of the business men who play thus into the hands of their enemies?"—Literary Digest.

ASK SPORTSMEN TO HELP

Many Forest Fires Caused By Carelessness of Hunters

Because of the fact that many forest fires are set through the carelessness of hunters, campers and others who go into the woods for recreation, the forest service has taken up with manufacturers of firearms and ammunition the question of co-operative arrangements through which cartridges and users of guns and cartridges might be controlled at the time of purchase.

It has also been pointed out that in the east particularly many forest fires are started by the carelessness of hunters, who drop burning matches, clear of flammable stumps or piles of brush in the woods, or perhaps light a fire which is left burning when the hunter goes on.

The eastern woods are exposed to the danger from fires principally in the spring and fall. . . . The spring fires are due to forest fires, which may destroy the crops of corn, wheat and other crops. . . . The fall fires are due to forest fires, which may destroy the crops of corn, wheat and other crops.

HOTEL FOR BURLEY

Work to Start on New Structure at Once.

Burley is to have a new first class modern hotel. The work is to begin as quickly as arrangements can be made with contractors. . . . The hotel will be a two-story building, with a total of 100 rooms.

Various plans have been worked out and tried for the past year to place the hotel which burned a year ago last February, but also proved futile. Realizing the importance of a hotel to a growing thriving town like Burley, a number of business men concluded to organize and incorporate a company to build the new hotel.

The building was planned to cost \$20,000, but of brick and terra cotta with full basement. . . . The building is to be a two-story building, with a total of 100 rooms.

Married Men! Be Comforted!

A Missouri doctor says that a bachelor is "a parasitical dodder, a solitary satellite around his own ego, and a sluggish human of exuberant egotism." How about it men?

We do not pretend to know whether this learned man be right or wrong in his condemnation of celibacy, but it is evident that there is hope for all single men, as he states no age limit.

Let All Males Be Comforted

Jenkins has a message for all males—Boys, Young Men, Men and Old Men—it is up to them to profit by his advice; which is that they come and buy their clothing, shoes, furnishings, dry goods, etc. while our Semi-Annual-Clearance Sale is on.

This opportunity occurs only twice a year—it is well known to "old timers" as an extra profitable time to trade at the "Cash Store." All our high-grade clothing, which includes "Society" and "Kuppenheimer" makes, are being sold at twenty-five per cent. off, all other merchandise has a special reduction.

BEMILLER

has moved to 403 - Third Avenue - East BEMILLER'S PAINT STORE

FILER NEWS.

(From the Filer Journal.)

P. E. Saeer has moved to a farm he recently purchased south of Buhl. A Filer safety fire escape is being installed on the east side of the school house. C. W. Thornton and E. C. McNeal are at Lava springs for a couple of weeks taking the hot baths. We hear that C. M. Booth, of the county seat, will try for state senator on the Republican ticket at the fall primaries.

A rural route inspector was here Monday looking over the field. It is expected that he will shortly recommend two more routes out of Filer. H. C. Hagg, of Twin Falls, was in town Tuesday. Mr. Hagg will make the race for county attorney on the Republican ticket. He will be remembered for his successful race two years since.

Taylor Cummings, an attorney of Twin Falls, was a pleasant Journal caller Tuesday. Mr. Cummings informed us that he might file for county attorney on the Democratic ticket, but is not fully decided.

The family of S. C. Furling, of The Call, moved from Filer to Kimberly, Saturday evening and are now comfortably installed in the building formerly occupied by the Imperial house (south of Gill's blacksmith shop), which has been remodeled for their tenancy.—Idaho Call.

Monte, Babcock, Davies and Porter, prominent Twin Falls Democrats were in town last Friday. W. A. Babcock was the candidate for county judge, Judge Davies a candidate for friends of J. W. Porter is headed to be a candidate for state senator.

George Smith, of Twin Falls, was visiting Filer friends last Saturday. Mr. Smith may file for county treasurer on the Democratic ticket. No best for men for this position resides on the Twin Falls tract, and if he concludes to get in the race he will be heavily supported in this section. Mr. Smith was one of the best farmers near Filer and has always been a Filer booster, although living in Twin Falls. The Journal hopes Mr. Smith will get in the race.

Six months from today is Christmas. Do your Christmas shopping early. Another rain last night—blow the dust and brightened things up generally.

Mr. and Mrs. Lewis Shearer, of Culm, Ill., parents of Guy Shearer, are visiting here. Mr. Orinwald, of Caldwell, father of Mrs. H. L. Pratt, spent a day or two in Filer last week. Mr. and Mrs. James H. Wise, of Twin Falls, were guests of Filer friends Wednesday evening.

W. G. Munyan leaves today for Boise in his car accompanied by H. E. Lewis, A. Reynolds and Arch-Woodward. Prof. Dugger and family returned yesterday from a fishing trip to Hailey. They also visited at Bliss, Kink Hill, Mountain Home and Holter.

The married men are already for the single fellows whenever they get ready for the race. We hear the single fellows have "cold feet," but may find their nerves and come around. Ed Vance, deputy state fire inspector from near Twin Falls, was in town yesterday and reports that the fire industry has not been so busy as it has last year. Mr. Vance requests a 100-foot section of the new law of Idaho, which reads as follows: "The state fire marshal shall file with the official State Fire Inspector, whose duties it shall be, either by himself or jointly with another, and with the aid of the fire department of the state and to treat or condemn or destroy by fire all trees, bushes and fixtures found to be a sufficient hazard for the safety of the public, and to remove or cause to be removed any such obstructions, and to have all removal or destruction of such obstructions made under guard."

The above statement given by the Civic committee of Filer was not as well attended as the affair described. The danger was given to the purpose of raising money for the installation of a drinking fountain on Main street opposite the band stand on the north side of the street between the trees in the yard. The Civic committee has also purchased a horse lawn mower and they will need some funds for this purpose. But it is said, however, that most of the benches were patronized the dance by buying tickets. So many men do not dance that they figure they could not get their money's worth if they contributed a dollar. The dance was to raise the money. The music was donated with the exception of the violinist, from Twin Falls, and the work of the ladies was done by the committee. The people who may have been prone to criticize the wisdom of raising money by this way are quite well represented in this statement. To contribute a dollar to this sort of work is a commendable thing by the young men. It is a commendable thing for the fire department to be a few self-sacrificing people. It has always been thus since the world began. It is not the fire department of men, but the fire department of the world.

APPAREL FOR THE FOURTH OF JULY

FIRST ANNUAL REPORT

Fruit Growers Show the Business For Last Year

The first annual report of the Board of Trustees of the Nevada Fruit Distributors, the affiliated fruit growers of Oregon, Washington, Idaho and Montana, has just been printed and issued under the title of "One Year of the North Pacific Fruit Distributors." It is the distribution to over 5,000 growers for the season, covering fully informing them of the details of the first year's business transacted by their own cooperative organization.

Three tons of sugar and one ton of salt arrived. They have to carry all sugar past matter and many of the same. The owners are forced to give up carrying passengers, the most remunerative part of the stage business. It is all their stage route. Nevada State Herald.

COMMISSION. WINS.

(Continued from Page 1.)

together and then be permitted to stand. Further, the power commission sought to evade the commission by stating that they come within the terms of the act which declare that "this section shall not be construed to apply to any vested right in any franchise or permit heretofore granted."

people must be transacted by a regulated monopoly." Again it quotes the decision in a similar case where it says: "The congress may not delegate its purely legislative power to a commission, but having laid down the general rule of action, under which a commission shall proceed, it may require that it maintain the application of such rules to particular situations and the investigations of facts with a view to making orders in a given case."

On the third point raised, that the power of establishing uniform rates in contravention of the state constitution, the court says that, while the power of establishing uniform rates is legislative, the exercise of this power, a standard having been prescribed, is administrative purely. Its language on this matter is: "So one would conclude that the legislature had the power to say that passenger rates on a certain railroad should be three cents a mile and on another five cents a mile, but the legislature would have the power to say that all railroad fares should be reasonable and not to have an act to declare what is reasonable in one case and what is another in another case."

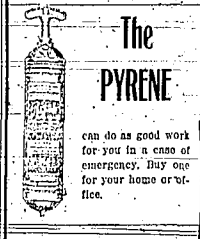

take this subject up with your colleagues, Congressman Barton, French, and with Senators Hoehn and Brady, and map out some plan of procedure that will reach the federal land department, with a view to securing more speedy action in the issuance of patents. This may seem like a small matter at first glance, but it is an important one, and one that directly affects a great number of worthy citizens of Idaho. To them, as it frequently affects their life, it is one of the big questions of the day, and sometimes it is of more importance to them than the tariff, the currency or the tariff question. State Herald.

NO HALF-HOLIDAYS
Postal Employees Must Put In Full Time.

The hopes of the post office employees that the recent executive order would apply to them granting half-holidays each week from June 15 to Sept. 10 to government employees, have gone glimmering. The postmaster general, A. S. Hurlston, has put out a bulletin.

land such action would seriously embarrass the public in its social and business correspondence. Capital News.

SUGAR AND SALT BY TON LOTS

Heavy Shipments by Parcel Post From Nevada Term.

Three tons of sugar and one of salt, said to be around sugar, were received at the local post office last night from local wholesalers and considered by parcel post to various points in Nevada. This is the largest single shipment ever made through the local post office, says the Sacramento News.

power of the commission to regulate rates. (1) That the legislature had no power to grant to the public utility commission power to regulate rates. (2) That legislative authority is delegated to said commission in an unconstitutional manner. (3) That said commission is a judicial body, established in contravention of the state constitution.

On the first point the court says: "We have not only a long line of decisions by the supreme court of the United States... but also the state decisions and the law is well settled that all property is held subject to the power of the state to regulate or control its use in order to secure the welfare of the people and that when a corporation is clothed with the rights, powers and franchises to serve the public it becomes in law subject to reasonable regulation and supervision."

Chief Justice Albright, in his dissenting opinion, holds the belief that the two companies in question have adhered to the law and should be protected by the law. He finds from the evidence submitted that the general and construction work and the present work in good faith, according to the provisions of the statute, and that the holding of the author of the majority opinion that as there has been no work within the city of Twin Falls, the company has not broken any law, but that the company already has power enough to support the work.

He says: "The chief thing the legislature had in mind was to confer the power to regulate public utility corporations and fix rates to be charged consumers. They had no idea of discrimination between public and private utilities. In the field with their money invested and plants in operation; neither did they intend to make a net monopoly out of an industry which already had hundreds of thousands of cash invested in the state."

IDAHO PATENTS HELD BACK

Governor Hurlston Writes Congress and Smith to Stop It

Governor Hurlston has just addressed a letter to Congressman Addison T. Smith, calling upon him to make every possible effort to expedite the pending legislative proposals to bring the federal land department under the control of the state. He refers in his letter to the fact that an addresser upon a subject of great practical importance to the people of Idaho and to many of our most deserving citizens. It is in reference to the issuance of patents to homesteaders and to those entitled to them under the laws of the United States. The delays in the issuance of patents are not only vexatious, but seriously retard the progress of the settler and consequently retard the development of the state. If the interior department could be induced to adopt a different system, the delay in the issuance of patents would be promptly terminated, there would be brought about an arrangement of great value to the people of Idaho.

SOCIETY NOTES

Society items for this column will be gladly received by The Times. Mrs. Parsons entertained the Standard Athletic Bridge club, Dulany prominent bridge worker, after an interesting game. The Ladies' Association of the Presbyterian church held an old fashioned social on Monday evening at the Fish house. A large number of young people were present. A number of young girls gave a musical shower on Friday afternoon in honor of the fourteenth birthday of Miss Helen Heartfield. The afternoon was spent in singing. Light refreshments were served. A number of the ladies of the Presbyterian church gave a strawberry party on Thursday afternoon at the home of Mrs. Plo. A large number accepted the hospitality and enjoyed a pleasant afternoon. Mr. and Mrs. J. M. Spackman delightfully entertained the Pennsylvania club at their cozy home one week from the city on Friday evening at 22 sunset supper. The guests, about thirty-five in number, went out in the moon light party in the moonlight and prepared by the hostess. The supper table home was a bouquet of flowers and the Spackmans' standard their reputation as royal entertainers. Harry Bennett was present at the dinner party on Thursday evening at the home of Mrs. Plo. The table was very nicely with the centerpiece a cut glass vase of pink roses on the snowy table. A most delicious dinner of seven courses was served to which the young men did full justice. The honored guests were: Messrs. Hattie, Plo, Stinson, Pigeo, Bennett, C. Mearns, Cashman, Giringer, Taylor, Hurst, Hoag, and Bennett.

M. ALEXANDER SPEAKS Democratic Candidate for Nominations For Governor Addressed Voters

Thursday evening of last week M. Alexander, Democratic candidate for the nomination for governor, addressed the citizens of Twin Falls at the Odd Fellows hall. Mr. Alexander is a 2000 pounder and he took up the subject of taxes and handled the matter very conclusively from a Democratic standpoint. The meeting was well attended, the hall being well filled. Mr. Alexander has spoken in all of the towns on the tract. A repetition of your want ad again work.

THE BIG 100,000 STOCK CO.

Greatest Opportunity

For Twin Falls

We have awakened now and we want everybody to get busy, talk it, dream it, work for it. It is not a one man proposition, it is yours, mine, everybody's, Twin Falls greatest opportunity. Our reputation as live ones depends on the dispatch with which we handle this matter. No drones, knockers, or wet blankets can keep us down any longer. We are just rounding into our true form and showing what can be done by united energy and individual effort in doing things worth while. Your time, your patriotism and your money for boosting Greater Twin Falls, the garden spot of the wide world, is what we want.

Big Credit to

Twin Falls

This proposition is big in every sense of the word. Enthuse over it. It is to benefit you, me, everybody, the town generally, the rural districts, everything because this plant has been thoroughly investigated, has been established four years, big brains and big profits will necessarily be a big credit for Twin Falls.

Big Mass Meeting

Wed. Evening

The President, Board of Directors, and Stockholders, now have \$50,000 worth of stock to sell in the company. A big mass meeting will be held at the Commercial Club Rooms, Wednesday evening, July 1st, at eight o'clock and every loyal man in town will be expected to be present and learn the methods of this great campaign.

The Big Mammoth Candy Factory and How to Secure It

The way to secure the mammoth Smith Candy Factory and the securing of this plant, is the opening wedge for Twin Falls commercial prosperity. Every man, woman and child will have something to do with the establishment of this mammoth enterprise—every individual boosting, boosting, boosting this proposition. What are you going to do to help land it? This is the biggest thing ever submitted to promote and establish Twin Falls, as an industrial center, or the wholesale city of Idaho.

At a Meeting of the Board of Directors of the Commercial Club, on June 25th, the Following Resolutions Were Unanimously Adopted:

In the opinion of the Directors of the Commercial Club, of Twin Falls, the Smith Candy Company, as one of our city's few manufacturing concerns, is entitled to every support possible from the citizens of the community. The welfare of our town depends largely on the pay-rolls maintained and the growth of each individual concern which employs labor to any considerable extent, helps directly and indirectly, each citizen of the community. The use and consumption of those products manufactured in Twin Falls is urged upon our citizens in preference to those manufactured elsewhere.

We believe this to be a legitimate and meritorious enterprise. The plan of re-organization and increase of capital of the Company has our approval.

Directors: A. L. SWIM, President.
A. J. PEAVEY, Vice-Pres.
D. D. ALVORD
A. B. OBSTRANDER
C. B. CHANNEL
J. L. BUTTOLPH
R. M. McCOLLUM.

The Factory With The Goods

The Smith Candy Company, has the goods, sweet goods. From the days of trading in fig leaves to the days of trading in steel trusts, the fellow that had the goods saw his pay-roll grow larger and his possessions grow bigger, and which old Gabriel gives that has long foot on his horn, and yells "All Aboard," it will be Pullman cars for the fellow that took stock in the Smith Candy Company, and freight cars for those who tried to put over something and thought they were smart. The Smith Candy Company has the goods. History's every page tells the same old story and will right along, in the country or in the city, in the palace or in the shanty, anywhere, anytime, always and forever, believe us. The man who takes stock in the Smith Candy Company will win out. "They have the goods." Think over the names of men and women who are big enough to get their print for something well done; and in every case you will find they had the goods. The Smith Candy Company has the goods. Take stock in the Smith Candy Company. It did not matter what you do or are, whether you sing, preach, paint, play, fight, fish, figure profits and losses, or make candy, if you have not the goods you are not in it and the judge is through backing you to win. But, give them what they expect and should have, and the president of your bank will invite you into his private office for a smoke and ask you to borrow more money. The Smith Candy Company is the real thing, it has the REAL GOODS.

Paying Proposition

for Your Investment

The Smith Candy Company has decided to put their name on the front door of a big mammoth Candy Factory, and will finally put it all over the country. People are talking about them, and are anxious to know them better. We take pride in telling other folks about them, because they do not propose to hand out any lemons, but everything that has or will be done will be endorsed by the best business people in town. Buy stock in the Smith Candy Company. The greatest happiness that an investor can know is to know that he has invested his money in something that will not only make him more money, but also be a blessing to every citizen in Twin Falls.

Get Into The Ranks

Twin Falls, is to have this plant. Twin Falls people are showing that they can make good. Twin Falls citizens will be the winners any way you can take it. It is up to us. Now there is to be no delay, no lukewarmness, no backwardness, nothing but enthusiastic victory for the best town on the map. Get into the ranks, close up the rear, and lead. It means bigger business, a better town, a greater population, that is, when we build the big Candy Factory in Twin Falls.

The Trader Who

Succeeded

It is several years since folks began to buy and sell, but at that, the trader who really succeeded set the standard that the world has accepted ever since as right.

"He Had The Goods."

Be sure to attend the Big Mass Meeting at the Commercial Club Rooms on Wednesday Evening, July 1st, at Eight o'Clock Sharp, where every arrangement will be made to go into the battle the next morning at sunrise, when every soldier will be found on the firing line—*The Captain.*
