WASHINGTON — But for Democratic extravagance and the folly of the Democratic revision of the tariff there would be no occasion for the imposing a so-called "war tax" upon the people of the United States...

The one thing in the world that is being done in Europe had to do with this tax, declared Senator Borah, "is in the christening of it."

Senator Borah in His Speech Said of the War Tax

"No better or fitter illustration of the manner through which to destroy or the bungling use of the power could be found than is now before me. At a time when the world is at peace with itself...

Taxes ran into everything. The minister who could invent a new tax...

Indefensible and Intolerable

I took upon this whole scheme of this special tax in its entirety as an intolerable and as the culmination of a series of months of unwarranted and indefensible extravagance in public expenditure...

SAVAL ENGAGEMENT LAST NIGHT OFF VIRGINIA COAST

Of 5000 Germans who Attempted to Cross the Hiter Yaez, Scarcely One Returned.

Special to The Times, Oct. 27. A naval engagement that night off the coast of Virginia, indicates that British warships have engaged German cruisers Dresden and Karlsruhe, developments expected.

Empress Williams is reported to have unobscurely demanded that Calais be taken. Furious fighting now in progress on road to Calais.

Efforts of allied countries to attempt to cross the river Yaez, scarcely one returned. The slaughter by shot, shell bayonets and drowning was terrific.

VISITORS PURCHASE LAND ON TRAMPING PROJECT

Local Men Successful in Selling Large Acreage Last Week to Possible Settlers

As the result of the efforts of the Hoover-Walsh company, St. Louis, Mo., Oct. 26—Smith and his party, who have been in the territory a large number of Nebraska farmers have visited the Twin Falls North Side and South Side tracts in the past week and have purchased land with the intention of coming here and making their homes.

The men were taken to the Hill and Pumping project, south of Picher, and shown the tract and which is being placed under irrigation. As a result of their inspection a number of the most "practical" land buyers are enthusiastic over the possibilities of the project.

STATE WILL NOT LOSE

Surety Company Assures Idaho of Its Willingness to Pay Shortage

The National Surety company, in which ex-State Treasurer, Allen was bonded for \$200,000, and one of the strongest security concerns in the United States, has issued a statement to the effect that the company's liability will be paid in full as soon as the amount is ascertained from examination of the books.

The statement of the company supports that of Governor Hines that the state would not lose a cent by the Allen shortage or by the alleged perjury of Coleman.

The work on the treasurer's books continues. The present indications are that the shortage will amount to \$92,356, which is less than half the amount of the bond.

W. E. English, general agent of the National Surety company, Thursday made the following statement regarding the bond:

The National Surety company, a surety on the bond of O. V. Allen as state treasurer in the sum of \$200,000, and of Fred M. Coleman, as deputy treasurer in the sum of \$25,000, has authorized me to announce to the public through the press that payment of the bond will be made as soon as the treasurer's office will be properly organized.

While in definite statement is authorized to the effect that the state treasurer's office will be properly organized, the treasurer's office will be properly organized, the treasurer's office will be properly organized.

REPUBLICAN TICKET

For United States Senator—James H. Brady.
For Representative, in Congress—Abraham T. Smith.
Robert M. McCracken.

COUNTY

State Senator—William P. Gutierrez.
State Representatives—J. A. Waters, E. P. Danlap, W. P. McSwain.
County Auditor—C. C. Siggins.
County Treasurer—J. Howard Heine.
County Assessor—J. W. Beauchamp.
County Sheriff—T. D. Herriman.
Probate Judge—O. P. Davall.
County Prosecutor—H. C. Hazel.
County Superintendent of Public Instruction—W. H. Peterson.
County Veterinarian—P. A. Grossman.
County Surveyor—County Commissioners—County Constable—E. Moore.
2nd District—Chas. H. Burton.
3rd District—W. F. Dickson.

The voters of this county are urged to support the entire Republican ticket in the county because it represents men of ability and honesty in all departments. There is not a single man on the county ticket that does not measure up to the highest standard of every respect. This is normally a Republican county and there is no reason why every Republican cannot vote the entire ticket. While it is true that the measure of the candidate should be carefully taken by the voter in making his choice at the polls, there should be enough party loyalty in every Republican to vote for the party when the men offering for county offices are both worthy and competent. The Democratic voter will naturally do the same thing with his candidate.

and there is no reason why the Republican should not split their votes in the coming election. The legislative ticket is composed of four good strong men, who will be able to command respect in the state assembly. They are all unimpaired up to county divisions and have some general work that platform. The men aspirant to the commission's offices of the county are all good clean, conscientious business men who will protect the taxpayers' money in every way. There is not a single reason why a single Republican voter should not outside the ticket in picking the men for this important office.

CLEAN UP THE CITY

The good people of Twin Falls have never failed to respond to any call on any proposition for the good of the city. They have shown in times past that they have more civic pride in the square inch than any other community. For the above reason it should be easy to accomplish a good thorough cleaning up of the private premises and the public thoroughfares of the city before winter sets in. The city inspector is urging all the people to put their back yards in shape before the first of next month by raking up all the leaves and rubbish which has accumulated during the past months. It will make your yards look better; will stop the decay of the rubbish after the fall rains with its attendant danger to the safety of your family. It will make Twin Falls look like a good clean, sanitary city, which it claims to be. Furthermore by employing some of the school boys who need work, badly, in cleaning your yards, you will assist them in remaining in school. The county cannot benefit themselves as taxpayers to any greater degree than by casting a good strong vote for J. Howard Heine for county treasurer next Tuesday. Mr. Heine is not a stranger to the voters of the

J. HOWARD HEINE FOR TREASURER

The Times believes that the voters should be urged to cast their votes for J. Howard Heine for county treasurer next Tuesday. Mr. Heine is not a stranger to the voters of the

county nor a transient in any sense of the word, having in the past four years devoted his whole time to building up his property holdings and to the service of the taxpayers in the past two years as deputy treasurer. In the latter capacity, he has had entire charge of the work of the office and by a great many ways saved a large amount of money to the taxpayers. He is a hard worker and has at all times shown a disposition to shoulder all the hard work of the office, and thus save extra duties. As an expert accountant he probably is not surpassed by any man in the county and has made good to the satisfaction of the taxpayers so far in the conduct of the office and in his family courtrooms and oblige Mr. Heine at one of the heavy taxpayers has spent thousands of dollars building up his farm holdings and is loyal in his support of all the activities of the city in which he lives.

DANGEROUS PRACTICES

Considerable complaint has been made during the summer by motor drivers of the almost daily flying against auto vehicles by young boys, trucks and rickshaws have been thrown directly into the faces of the occupants of various cars which has caused considerable damage and inconvenience and in all cases has proved a source of danger to ladies and children in the motors. In some cases the offenders have used slungshots. In none of the cases have the auto drivers been able to catch the offenders. Another popular sport of a number of younger boys is the racing along the main thoroughfares of the city. In the latter case, the road in front of approaching cars in order to show their reckless disregard of the law. In date no accident has happened due to the caution of the auto drivers. But should some fresh youngster be run over the whole community would rise up in arms and want to hang the driver of the car, when in all probability the accident would be due to the fault of the victim. Parents who let their children play in the streets should at least impress upon the children the danger which confront them and in every way attempt to break up a practice that means a great deal of money to the owner of the mangled body of their child. The street is no place for children and there is no need in a city of the size of Twin Falls for any child to play on the roads. The whole practice is due to the criminal negligence of the parents. The need for a law to make the business of the Automobile Association with the law of 1913 pro-

tecting the drivers and the children. The boys throwing the missiles could be very easily discouraged after just one successful prosecution, while the other danger must be eliminated by education of the parents to the dangers to the child.

above questions will come, I am perfectly willing to submit to your judgment. I have lived in southern Idaho for twenty-five years, have been in business in Twin Falls County for seven years, no excuses or apologies to make. I was actively engaged in almost every phase of school work in this state for fifteen years, and am familiar with the wants and needs of the public schools.

CHAS. J. CROSBY
Democratic Candidate for County Coroner

Mr. Crosby is asking the support of the voters of the county upon the record he has made while in the office of the city for six years. As a business man of Twin Falls, he has made good and established a reputation for squareness and integrity and has also been actively identified with the public affairs of the city. Serving a year to fill the vacancy caused by the death of C. J. Walker, he has altogether served three years as coroner and has not a single thing against his record as public officer. As a graduate of the Hohenschuh school of embalming, of Des Moines, and by twelve years actual experience, he has demonstrated that he is fully competent to care for the duties of the office. He has at all times kept abreast of the times in his profession, having this summer taken special work at the Washburn school of Embalming at Chicago. His health is good, he is a young man of good clean morals, well fitted in every way to ask the support of the voters of this county.—Adv.

T. D. CONNOR A CANDIDATE
Former Mayor of Wallace, Candidate for County Commissioner

My many friends in Wallace, will be pleased to know that T. D. Connor, formerly of this city, but now a resident of Piler, is now a candidate for commissioner from his home district in Twin Falls county and that his success is likely. Mr. Connor was formerly mayor of Wallace and the people of this city heartily endorse to this day his cleaning out of Pine street.

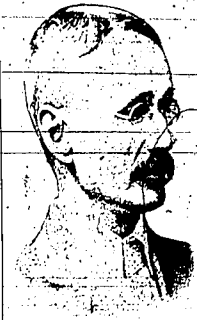

FRANK H. KENDALL
Democratic Candidate for Sheriff, Answers P. O. Herriman

In reply to the article of Mr. Herriman, criticizing Mr. Gallher and myself for making figures showing the cost and present expenditures in the conduct of the business of the sheriff's office, I desire to comment briefly on three of our points.

ABILITY THE QUALIFICATION
Applicant for County Treasurer Would Submit Record.

George H. Smith, Democratic candidate for county treasurer, is asking that the voters of the county in an unbiased manner verify the qualifications for the office before making their final decision.

that the voters of the county in an unbiased manner verify the qualifications for the office before making their final decision. The office requires not only a high educational preparation but also a technical bookkeeping beyond the ability of the usual business man. An employer for many years in the accounting department of the department of one of the great gateway systems of the middle west, Mr. Smith received a training particularly in the management of the tax records and knows the inner workings of the tax system of the county. Mr. Smith will not require to get his experience at the expense of the county. He has already acquired that experience and can make good.—Adv.

MISS BRITTOMAIT WOLFE
Republican Candidate for County Superintendent

JAMES FITZGERALD
Democratic Candidate for State Representative

C. C. HIGGINS
Republican Candidate for Auditor and Recorder

As a candidate for member of the State legislature from Twin Falls county, I desire to make clear my position. I am not a candidate for anything but a single issue, that of county division.

It will be observed that Mr. Herriman says that if he is elected to the office of sheriff, he will act as jailor himself. He hereby declares with one officer. If it is not proposed to reduce expense in the conduct of the office, why should the estimate of expense for 1915 be fixed at \$13,500, an increase of \$2,500 over the year 1914.

TO THE VOTERS OF TWIN FALLS COUNTY.

As a candidate for member of the State legislature from Twin Falls county, I desire to make clear my position. I am not a candidate for anything but a single issue, that of county division.

It is a further fact that the salary of C. C. Higgins has been charged to the county, but disallowed by the board of county commissioners. If this was allowed, the office will be chargeable with an additional expense of \$52.77 per month, or \$632.99 for the year.

A. B. HICKS
Democratic Candidate for State Representative

To the Electors of the Fourth Judicial District

Having been nominated at the primary election held September 1st for the office of district judge, I desire to make the following announcement to the people of the district.

I believe in economy and business methods in conducting the affairs of the state. Taxation should be based upon actual cash values as nearly as possible, and all property should be assessed upon the same basis and bear its proportionate part of the burden of maintaining government. The present revenue law is ineffectual in that it discriminates and allows class legislation.

It is a further fact that the records show that in at least 12 criminal cases records were destroyed by the county attorney's office. In the office of the sheriff's office, in a vast majority of these cases the charge has been of a serious nature.

was at the time the party went into power, the standard which it set up for itself, and the record which it has made since. I shall take it as my standard, its own record, and the standard furnished by its own administration. I will record and the facts furnished by its own people in order to present the view of it which I propose to present.

When they announced their platform at Baltimore our friends said that we denounce the profligate waste of the money wrung from the people by oppressive taxation through the lavish appropriations of recent Republican congresses, which have kept taxes high and reduced the purchasing power of the people's toil.

If our friends had no more than approved the amount of expenditures which had preceded their inauguration, they would not have been so much surprised at the position with reference to this subject of extravagance? It would seem that they would still be "generally within the hallmarks" within the antebellum which they had assessed upon their predecessor. But which is the standard? It is not that it has been equalled, and thereby is subject to their own charge of extravagance, but it has far exceeded during the last year that of the previous congresses or the previous months of the previous administration.

That which they denounce as "extravagance" was approached economy in the light of the record of these past 18 months.

The Democratic platform makes no mention of the appropriations of the present congress. The Republican platform is silent on the subject and naturally so, to have professed economy where they have a mockery and to have defended the appropriations made by the last congress would have been impossible.

As the appropriations of the present congress are more than \$100,000,000 more than those of the last congress, and the Republican platform is silent on the subject, it is not surprising that the Democratic party in the expenditure of the public money?

Why is it that the Democratic party is so much more extravagant than the Democratic party in the expenditure of the public money? There are two reasons. First, because the Democratic party is more interested in the interests of the tax payers than the Republicans.

I want to tell you, who have come here to hear me tonight, that you may not be mistaken, that after I am elected governor next November, and after I take office on the second of January, then the first thing I will do after that, I will go down into the bosom of the State House and I will take the first man I come to and I will shake him out, and then I will put the last man in the state house out of office. There will not be a man left of the old party. From Moss Alexander's Campaign Speech.
Little Moss is going to be a busy little rascal if he is to be governor. To have that million dollars he will have to do most of the work around the place—get up early and start the furnace fire, run the washers, keep the printers, agents, pay off the bonded indebtedness, change the federal laws, approve the constitution, and down the capricious court decisions, bring in the wood, inspect the bees, show the voters how to hold their noses, and the whole lot of it.

tain, Blackfoot and Payette it ought to be easy.

The suggestion of the Elmore Times that Moss have out, three balls on his head, where he is to speak as a sort of inspiration is being denied by Prof. Fitch's paper.

The Hon. Joseph Peterson seems to have some thoughts on the subject proper, which occasioned the notice of the shallow thinkers.

Moss has been shown in the South-east. Looking for bullfrogs in Bear lake?

Brother Buxton will have to wait until the election is over anyway to get any break into the state house. And, money on me, perhaps not then.

The Valhalla Tribune thinks Van Dusen the Bull Moose ticket wouldn't make a good state officer because he was arrested one time. The difference between the Bull Moose leaders and the Republicans is that the Bull Moose sometimes get it right, while the Bull Moose contend the Republicans should be in jail.

There is some difference in a disconcerting office.

Fred Flood gives ten reasons for electing Hawley. Senator Brady has one reason better than the whole lot: "He has made none."

Democrats are urging Hawley's election "so we can be in line with the administration." Six years to come—where would be "in line with the administration?"

Hawley would be in line two years for to be in line with the administration. In two years hence Hawley would have to be a Republican, and a Democratic senator.

Moss pulls the slack out of the back when he shows you the front of the out, and the slack out of the front when he shows you the back of the out. In Moss speech he says, in effect, that there has never been such prosperity in the country as under the Wilson administration and then when he comes to state issues he says the taxpayer will find this the hardest year to pay his taxes for twenty years.

Field Horticulturist Taylor Discusses Present Problem.

E. P. Taylor, field horticulturist with the agricultural extension bureau of the state university, has returned from Salt Lake where he has been making a study of the fruit situation.

"Our neighbor state has some fine fruit this year," said Mr. Taylor. "Some of the displays of professional exhibitors were of a high order of perfection. There were seven county displays that included some fine specimens of all the principal fruits."

"I do not take care that state make a better showing at the coming Idaho exposition than our own. All the winning fruit of the Utah state fair will be sent to San Francisco for exhibition there and Idaho does not see this means of gathering fair exhibits. The only state fair in this state this year has been necessary to take the exhibit which they could not send to San Francisco."

"Make Work Difficult."

This means that the work has been slow and difficult and that the growers must give all possible to the state in order to get their fruit to San Francisco in order to hasten the work.

Mr. Taylor leaves today for Payson to make a study of the fruit situation in that state which will be the next state in the line of the fruit situation.
