

PEACE REPORTS FROM MEXICO

Delayed Dispatches Verify Carranza's Resignation.

NEW HUEHUEN AGREES TO PROPOSED TERMS.

Believed That Carranza and Villa Will be Able to Remain in Country for Patriotic Services.

Washington, Nov. 17.—Delayed dispatches received today from American consular agents at Aguas Calientes and Mexico City confirmed earlier reports that General Carranza had agreed to terms provided General Villa similarly retired.

General Guiteras, provisional president by authority of the convention at Aguas Calientes and close friend of Villa, have approved Carranza's conditions and tonight it seemed that unless Villa himself insists on the amended, peace in Mexico was assured.

Carranza's conditions. General Carranza's proposal which was first rejected by the convention, the first chief would deliver the executive power on the following conditions:

General Carranza would relinquish his command in the constitutional army to General Pablo Gonzalez, commander of the division of the east.

Second—General Villa would retire as commander of the division of the north, retaining his rank under the orders of General Guiteras.

Third—Both General Villa and Carranza should leave the country, but Carranza should be allowed to remain in the country if he so desired.

General Carranza's conditions it is presumed by the American consular agents that General Guiteras spoke on behalf of, and that Carranza would accept the conditions if he so desired.

There is some doubt in Washington as to whether Villa, Carranza or Carranza will actually leave Mexico. It is thought that the convention is reasonably certain that Carranza will remain in the country for some time in the revolution against Huerta.

While the numerous changes of state laws are now being adopted by the press of the state, a little attention should be paid to the present method of holding school district elections with the idea of taking the school systems of the state on an equal and away from the schools to opportunity to elect school districts by individuals or groups of individuals.

Under the present law, the election and the non-issuing of bonds are held at the same time. A few individuals go to the school polling places and these place their state in reputation and finally try to put it up in the face of the taxpayer in a matter that concerns everyone. The law has been the means in many districts of building up school machines that put in a thousand dollars in the pockets of a few of the school officials.

Through already published, the election is not made the common property of the voter and taxpayer, but of a clique. The result has not been good for the school system, and has created a feeling of contempt in the minds of many of the school patrons. It is a condition that requires a complete change in the law.

Ask us How We'd Buy Lumber and see

If we don't put a new spot on this high cost lumber, some lumber is high priced, but by building a house you don't have to pay only "cost" throughought. There's more than one grade of lumber and there's many kinds of wood. All you need to insure you get value for your money is a suggestion here and there from some one who knows Lumber. We believe we can qualify in that respect. We've been handling lumber for a good many years and have watched it wearing qualities under different conditions. Most all lumber is overvalued when properly used and dried, but right there is where you need discriminating judgment. If you're figuring close to get the biggest value for your money, we'd like to talk over the question of lumber with you. Come to our office in reputation and finally try to put it up in the face of the taxpayer in a matter that concerns everyone.

who are carrying on the school affairs. It will not be hard for the people of any county in this state to find a time to do so without being too busy. It is all wrong, but the school of the state should not include the political party of any one or crowd, nor should they be made the targets of those who must

protest against the methods adopted. The Times believes that a better form of election law should be passed which will call for a school caucus at least ten days prior to the receipt of election returns, at least two days shall be set for the meeting, and the names of the nominees given full publicity with the idea of getting the taxpayers acquainted with the men who aspire to the average of school affairs. Then at the election on regular ballots, containing all the nominees, let the voters make their choice. It may put the same men into office as under the present system of election short cuts, but at least it will make the people know that they have a voice in the school affairs, and do away with the present feeling that a few men dictate school decisions as autocrats. Another needed revision is to make all school employees stay out of such elections by fixing a penalty of dismissal. The people frequently accuse of the school board of not being open under the present system of campaigning for any group or else basing around the polling place would disappear. Any employee of the school district is drawing money from all patrons and is supposed to vote in favor of the district rather than to the little group which happens to do the bidding.

The regular meeting of the Twentieth Century club was held on Tuesday, December Seventeenth, at the home of the President, Mrs. H. H. Handlin. The program was the continuation of Dramatic day, in charge of Miss Mary E. Handlin, with the assistance of Mrs. H. H. Handlin gave a charming review of Anna Douglas Scholwick's book "Tante," also Oscar Wilde's story "The Prince and the Swallow." Miss Handlin closed by giving the history and the meaning of the Dramatic League of America, of which she is a member. The women of the club were urged to interest themselves in the efforts of this league, whose object is an endeavor to raise the standard of the stage. "The theatre of today is one of the greatest elements of the age and whether this medium shall be beneficial or degrading is in the hands of the people to see; for through the stage the public is fed the food it asks for." Miss Handlin gave a very interesting account of the "Little Theatre" movement now under way in Chicago. The object of this movement is the dissemination of small theatres all through the city, producing only that which is classic; an appeal to the intellect rather than the senses, which appears to be the sole object of the stage today. Next Tuesday will be a Thanksgiving program, in charge of Mrs. L. Cus. On December first, Miss Herr, of Boston, will give an interpretation of the first plays and 1250 melodies with a very accompaniment by Mrs. D. V. Ryan. This meeting will be thrown open to the public and those who are not members of the club will be charged the nominal sum of twenty-five cents. Come and bring your friends.
