

TWIN FALLS TIMES

WEATHER REPORT

FAIR TONIGHT AND FRIDAY

THURSDAY, MARCH 1, 1917

"WEATHER OR NO" If some men had a potted coil in their brains for violent thoughts, and they were there, they'd get along better.

VOL. XVII, No. 42

TWIN FALLS, IDAHO.

German Plot Against United States Is Frustrated by Timely Exposure

INTERCEPTED ZIMMERMAN LETTER NEVER REACHED MEXICAN GOVT.

Secretary Lansing Expresses Confidence That Japan and Mexico Would Not Be Party to Plot and Japanese Government Gives Official Assurance Through Its Embassy--Swiss Minister Said to be in German Propaganda--President Stands Firm in Demand for Power to Protect American Rights.

(United Press) WASHINGTON, March 1.—The attempt of Germany to embroil Mexico and Japan with the United States has been frustrated. The state department today intimated that the letter of Foreign Secretary Zimmerman never reached Japan, and consequently never reached Mexico, as its terms showed that it was to go to Japan by way of Mexico.

Further information in possession of the government relative to German activities in Mexico, if compatible with public interest, will be given as the resolution will pass the senate.

President Wilson informed congress that he is fully behind the senate in granting him full powers to protect American rights and vetting him the necessary credit to handle the situation and that he will sign the bill only when it confirms his full desires.

Speaking in the Reichstag, last night, Foreign Secretary Zimmerman is quoted in a wireless received today, as saying: "Germany is convinced that submitting should not be restricted and is resolved at all costs to maintain the blockade. She desires an understanding with America but cannot withdraw. The reply of Secretary Lansing that the United States is prepared to negotiate if unrestricted submarine is discontinued, is not acceptable."

The following is a copy of the Zimmerman-Eckhardt letter: "Berlin, January 19, 1917. On the first of February we intend to begin submarine warfare unrestricted. In spite of this, it is our intention to endeavor to keep neutral the United States of America.

This attempt is not successful, we propose an alliance on the following basis with Mexico: That we shall make war together and together make peace. We shall give general financial support and we shall fight on Mexico to reconquer the lost territory in New Mexico, Texas and Arizona. The details are left to you for settlement.

An accumulation of annoying activities on the part of Swiss Minister Ritter has tended to place him near the center of the German propaganda war in a manner that may force a showdown with the state department. The admission that Ritter has taken up the German propaganda war in a manner that may force a showdown with the state department, has been given to the press before the department had any knowledge of it.

You are instructed to inform the president of Mexico of the above in the greatest confidence as soon as it is certain that there will be no break of war with the United States and suggest that the president of Mexico should give his initiative, should communicate with Japan, and attend here at once to this plan; at the same time, offer to mediate between Germany and Japan.

The loss to the county cannot be estimated as the condition of the remaining bridges cannot yet be ascertained.

CONSCIENTIOUS OBJECTORS MUST GO TO BRITISH JAIL (United Press) LONDON, March 1.—Cells in Dartmoor prison today await conscientious objectors who refuse to fight for King and country from now on. The government heretofore has dealt leniently with the objectors, but they may now either fight or be locked up.

All three slides covered a tent in which a man and his wife lived and temporarily buried them in it, but they escaped unhurt.

ONE LEGGED FLYER GETS SEVEN GERMAN BIRD MEN. (United Press) PARIS, March 1.—Paul Albert P. Tarascon, the only aviator in the world who has been cited to the order of the day before the entire army for having brought down his seventh German aeroplane, will receive 7,000 francs for his services in the war.

JARBIDGE HOMES SWEEP AWAY BY BIG SNOW SLIDES

WILLIAM PERKINS CAUGHT IN NEW RESIDENCE IS SEVERELY INJURED

MAN AND WOMAN BURIED BUT SUCCEED IN ESCAPING

CRIPPLED GRADE ABANDONED FOR OLD JACK HOLE ROAD—SUPPLIES RUN SHORT AT CAMP—HIGH MINES ARE TEMPORARILY LEFT UNWORKED.

That Jarbridge is suffering from a shortage of supplies, resulting in the worst storm in the season, that the Cripple grade has been abandoned in favor of the old Jack Hole road; that snow has been piled up and snowdrifts which in one case inflicted severe injuries on a resident, William Perkins, and that many workings have been temporarily abandoned, is the report contained in a letter received today by A. H. Moore of this city from William Van Alder in Jarbridge.

HANSEN BRIDGE BILL IS REFERRED TO FINANCE COMMITTEE

The Hansen bridge bill, contributing \$20,000 of state funds towards the cost of constructing the Hansen rim-to-rim suspension bridge across Snake river canyon, was referred to the finance committee of the senate Monday morning.

FLOOD WATERS ARE THOROUGHLY SUBSIDED

DAMAGE CONSIDERABLE BUT EXTENT NOT FULLY KNOWN—CANYON AT MITCHELL FARM WERE IN SAD PLIGHT.

Flood conditions no longer exist in Jarbridge, and the waters are subsiding. The big break in the high line near Cedar Draw, will as anticipated, necessitate the digging of a new ditch at that point. The other breaks will be easily fixed. The fact that the long spell of freezing had frozen the banks freely, prevented a hitch in the water run over them at several places—or there would have been a number of bad breaks had they not stopped.

A third slide covered a tent in which a man and his wife lived and temporarily buried them in it, but they escaped unhurt.

TWENTIETH CENTURY CLUB HOLDS INTERESTING MEET.

At the regular meeting of the Twentieth Century club on Tuesday, a nominating committee was elected for the coming election. The judges were also appointed. They are, Mrs. J. Cookley, Mrs. S. Hart and Mrs. V. H. Ormsby.

SENATE COMMITTEE RECOMMENDS H. R. 114 TO PASS

BOISE—H. R. 114, by Sims, appropriating \$10,000 for the construction of a highway, contracts, and making it the duty of the state to assume the litigation necessary to straighten out the Carey act projects, was referred back to the senate by the state affairs committee Monday morning.

SENIATE COMMITTEE RECOMMENDS H. R. 114 TO PASS

BOISE—H. R. 114, by Sims, appropriating \$10,000 for the construction of a highway, contracts, and making it the duty of the state to assume the litigation necessary to straighten out the Carey act projects, was referred back to the senate by the state affairs committee Monday morning.

NEW YORK, March 1.—Father J. B. C. Gregory, rector of St. James' Catholic church in downtown New York, today assumed his duties as irremovable pastor of the church of the Holy Name conferred on him by Cardinal Farley.

Notwithstanding this assurance, the senate foreign relations committee today agreed to report the Lodge resolution asking President Wilson to inform the senate whether the Zimmerman letter was authentic and if it was authentic, whether it was a German plot, admitting, however, that the report that Germany had made such a report through Mexico was probably true.

WATER TRANSFER UNDER CAREY ACT PASSES HOUSE

MEASURE IS SUBMITTED FOR HOUSE BILL NO. 71 WHICH WAS POSTPONED

ALLOWS LEASING FOR PERIOD OF ONE YEAR

Also Permits Permanent Transfer Under Restrictions Provided in the Terms of the Measure, Which Protects All Rights.

BOISE—The transfer of water rights on Carey act projects as provided for in house bill 71, a member of the Twin Falls delegation which passed the house Monday morning.

This bill is a substitution for several bills which were introduced and passed on motion of the author, and restricts the application of the act to water rights that have been acquired under the Carey act.

The act follows in full: Section 1. The owner of any land in which a water right has been made appurtenant pursuant to the provisions or operations of the act of Congress of the United States...

ONE MILLION FOR STATE HIGHWAYS

Bill Providing for Bond Issue in This Amount Reported Favorably. How It Will Be Used—Important Information.

(Editorial Correspondence)
BOISE.—No voters of any kind were attached to the good roads bill in the committee of the whole Thursday afternoon, and the committee recommended the bill which provides for a million dollar bond issue, back to the house in its original form. Republican Floor Leader Johnston favored an amendment to the bill which would set aside one hundred thousand dollars for state aid to counties in the erection of bridges, the state to contribute not less than one-third of the cost of such bridges as might be approved by a board consisting of the governor, state engineer and state highway commission. Such bridges cost at least twenty-thousand dollars.

WOMEN PREPARING FOR WAR

Five hundred women, members of the Women's League for Self Defense, met regularly in one of the armories of New York city and are drilled for military service by army officers. One of them is here seen learning the use of the rifle.

E. and W. Idaho	\$160,000
N. and S. road	
Utah-Montana	\$ 85,000 \$ 30,000
From Mackay thru Custer and Lemhi Co. to Montana	\$120,000 \$215,000
N. and S. Webster	\$375,000 \$150,000
to Lewiston	
E. and W. in North Idaho, Kootenai and Shoshone Co.	\$ 75,000 \$ 50,000
State highway, Bonner and Boundary County	\$ 65,000 \$ 25,000
Divisions not designated	\$ 30,000
Reimbursement of Counties	\$ 90,000
		\$1,000,000 \$470,000

The last item is to reimburse counties that advanced the state's one-third of constructing portions of the state highway, due to the state's inability to meet its share of the cost during the last biennium. Where such counties wanted to proceed with the work and advance the state's one-third of the cost, the highway commission agreed to reimburse the counties for funds thus expended in behalf of the state if the legislature would make the appropriation.

Dequoting this ninety thousand dollars from the combined total of state and federal funds available for road work in Idaho during the next two years it leaves a grand total of \$1,380,000.

In addition to these projects to be financed by the bond issue there is a bill in the house which has received the unanimous endorsement of the appropriations committee and to which it is said the governor is favorable, which appropriates by direct tax levy the sum of forty thousand dollars to meet similar sums to be provided by Idaho county and the government for the construction of the Idaho portion of the so-called Evergreen road, which runs east and west along the Clearwater river, from Missoula, Montana, to Lewiston, Idaho.

A tax of one-tenth of one mill is to be levied each year to defray the interest and principal payments of the proposed bond issue.

SUFFRAGE CONVENTION AT CAPITAL MARCH 1

Warlike Program to be Formed—Leaders Say President Wilson Is Greatest Obstacle to Them.

(United Press)
WASHINGTON, Feb. 27.—Prior to the White House demonstration of the National Woman's Party will hold conventions at the national headquarters of the Union here, beginning day after day.

Two important subjects are to be considered by the delegates—the advisability of framing a war time political party and the proposed program that has been made to combine the voting and non-voting women of the country into one big political organization by a merger of the Union and the Woman's Party.

President Wilson, leading suffragists declared today, is the only obstacle now to the passage of the Federal Suffrage Amendment.

That is why they are picketing the White House. That is why they will encircle it with a monster "Suffrage Rainbow" March 4th. This is why ten thousand voting women began arriving here from all over the country today for the big March 4th demonstration.

The suffragists are concentrating on Wilson; and they think they can feel him slipping.

"President Wilson," said Miss Alice Paul, chairman of the executive committee of the Congressional Union, today, "is now the one great obstacle in our way. We are going to center our greatest efforts in gaining his support. We believe he is more and more inclining to the Federal Suffrage Amendment."

"We are going up to the White House and register our unwillingness to wait longer for the ballot. It is going to be demonstration of protest—and an expression of confidence."

The colorful suffrage army assembled early in the afternoon in the "little white house" diagonally across from the Executive Mansion and directly opposite Lafayette park. The doctors will be lined up in one row and the lawyers in another, and so on. Each squad will be preceded by a standard bearer and a band.

Promptly at three o'clock a bugle will blow and the procession will start for the White House. It will be headed by Miss Vida Milholland, whose sister, Iocaz, led the suffragists in the suffrage parade at the inauguration ceremonies four years ago, and who died while campaigning for the Woman's Party last fall in California.

Miss Milholland will be followed by Mrs. O. H. P. Belmont, of New York City, Mrs. Florence Bayard Harris, of Delaware, Mrs. A. A. Markins, of New Jersey, and Miss Anne Martin, of Nevada. These women have been selected to present to the president the report of the unfranchised sisters in all parts of the country.

HAY FOR SALE
As I have sold my farm and must else November March 1, will sell all my alfalfa hay, 125 tons, at \$11 in the stack, by wagon load or stack \$12 delivered. You must hurry for it is going.

L. J. MILLER,
2 1/2 miles west from west end of Main street on state highway.

Contracts Wool at 40c—Frank Mau made a contract with Jess Goodfellow last week for his 1917 wool clip at 40 cents a pound, the highest price ever known to have been paid in this territory. Mr. Goodfellow, who represents a Boston wool house called Mr. Mau on the phone from Salt Lake, stating that he had made a contract with Stoner Bros. for their 1917 wool at forty cents, the company offering him the same price for his crop. The deal was closed at once—Montpelier Examiner.

Donates \$125 to Y. M. C. A.—Mayor George Williams has received from the Strange-Maguire Paving company a check for \$125, to be turned over to the building fund of the Y. M. C. A., in which concern the company feels a good interest and having been identified with paving and other construction concerns of Pocatello for a number of years, the company expressed pleasure in extending its donation to the good cause.—Pocatello Tribune.

Dog Race Interests—The interest in the Ashton-Yellowstone dog race which will be held March 4, is growing continually and the number of participants is being swelled by new entrants daily. It promises to be one of the most interesting events ever held in the upper valley. Among the most interesting is a lady driver, Miss Ethel Gardner, of Lake, Idaho, a lady born and bred in the mountains and driving her own team of huskies. This is a new feature in dog racing.—Pocatello Tribune.

BARGAINS IN REAL ESTATE

6-room house with bath, 8th avenue north, \$1700.00, on terms.

WOMAN FEDERATION HOLD WINTER PICNIC

Splendid Program Given at Parish Hall While Hungry Men Assist in Eliminating Food.

The Federation of Rural Clubs held a winter picnic at the Parish hall on Friday and despite the bad weather and worse roads had 100 in attendance. Basket lunches were brought by the women, and hot coffee was prepared and served. The people drove their chairs up and put on their most approved picnic attire while eating. The first stunt that was pulled off was

"The Pipe Dream," the County Woman's club, in which a middle aged man smoked a pipe and as the smoke arose the damask on which he had bestowed his affections a moment later, when the svelte members of the gentler sex brought up to date with the effect of the "staving tooth of time," visible, came trooping by. Dr. John E. White spoke on the farm bureau and the farm loan. Dot Logan furnished some excellent Victrola music. Mrs. Foss and E. E. Heston put on a stunt for the Morningstar club, which was much appreciated. This was followed by a recitation by Mrs. Parsons and a reading, entitled, "In the White House" by Mrs. Schurrer, both of which elicited applause. Mrs. White then spoke on community interest. She advocated the establishment of a public market. The Mothers' Club then challenged the County Woman's club to a track meet and all sorts of records and things were broken. Everybody had a fine time.

The success of the federation during the past year has been marked. In the rest room alone there were 2300 registrations and 5000 visitors, between the number of visitors and registrations being accounted for by the fact that only one registration is needed in the year. An exchange department was maintained at which \$600 worth of produce was sold.

School Notes

New members were elected last week to fill some recently vacated offices in the Junior class. Michael Thometz resigned his position as class president in order to accept his new position as assistant editor of the "Coyote." Melvin Strong was elected to fill the position vacated by Thometz. Paul McKinley was transferred from his position as assistant editor to assistant business manager, in order to replace Darwin Harvey, who has dropped school. Ruth Jester was made vice president to replace Clarence White, who has also dropped school work. Genevieve Riley was elected Junior class reporter, to take the place of Ishmael Zenger.

Irene Strawn was elected president of the freshman class, to replace Lowell Patton, who has risen a notch in school life.

In the sophomore class Elmer Wynland was made treasurer and Joe Swift class reporter.

The students of the senior history class gave a concert in assembly last Wednesday morning. School was dismissed for Washington's birthday.

Burley and Kimberly have acknowledged the success of the basketball tournament to be held here March 16 and 17. Hansen is unable to enter, owing to requirements for eligibility.

The opening of the home declamatory contest, was held last Friday in the high school auditorium. The winners in the oratorical division were Joseph Smith, Reel Harris and Clarence Benn. The winners of the humorous division were Lunetta Smith, Kate Montgomery, and Lella Duffy. The winners of the dramatic class in which there was most competition were Michael Thometz, Gertrude Smith, and Patricia Wynn. Those most successful in this contest will compete in the home declamatory contest to be held in the latter days of March. The winner of this will compete for honors in the State Declamatory contest at Caldwell April 12.

JOT IT DOWN

That we do the very best line of Commercial Printing and at reasonable prices. Give us your next order and let us prove our assertion.

Bear in mind, we want your business, and we propose making ourselves deserving. Are you with us?

THANK YOU

WORDS OF WISE MEN

The more powerful an obstacle the more glory we have in overcoming it.

Those who are quite satisfied sit still and do nothing; those who are not quite satisfied are the sole benefactors of the world.

In all things preserve integrity; and the consciousness of thine own uprightiness will alleviate the toll of business and soften the hardness of ill-success and disappointments.

A man who lives right, and is right, has more power in his silence than another by his works.

Happiness and misfortune stand in a continual balance. Every misfortune is, as it were, the obstruction of a stream, which, after overcoming this obstacle, bursts through with greater force.

Life is made up not of great sacrifices or duties, but of little things, in which smiles and kindness and small obligations, given habitually, are what win and preserve the heart and secure comfort.

The interest of mankind is peculiarly attracted by examples of signal goodness in high places; for that testimony to the worth of goodness is the most striking which is borne by those to whom all the means and pleasure and self-indulgence lie open.

The courage to try to do a thing before you know how, the patience to keep on trying after you have found out that you did not know how, and the perseverance to renew the trial as many times as necessary until you do know how, are the three conditions of the acquisition of physical skill, mental power, moral virtue or personal excellence.

ACTIVITIES OF WOMEN

Mrs. Russell Sage is an expert cook.

Hockenack, N. J., has a lady barber.

Mrs. Ivy T. Buchl of Atlanta, Ga., has been appointed a deputy collector of internal revenue.

Mrs. I. Hershberg Hornsby of Chicago has no intention to become the first American war aviator.

The sex-disability of women in Netherlands has been removed by the unanimous vote of parliament.

Female instructors are rapidly replacing the men at Rugby, England's famous school of learning.

England is urging the women of that country to take agricultural work so as to relieve more men for the army.

The prefect of police in Paris has authorized the employing of women as motor drivers on the street cars.

Miss Mabel Blackburn has invented an overshoe for horses' feet which prevents the animal from slipping on wet streets.

AROUND THE WORLD

Erie, Pa., has driven out vice resorts.

Japan now has factory inspection laws.

Cleveland is trying to annex seven suburban towns.

St. Paul's chapel, New York city, is 150 years old.

Mrs. Balone Mariske of Milwaukee, at sixty-two has a baby son.

United States leads all nations in number of electric steel furnaces.

Georgia convict camps are being consolidated because of a shortage of convicts. Sixty wardens have been discharged.

Ancient and Honorable Mechanical company recently held its one hundred and fifty-third annual banquet in Baltimore, Md.

OBSERVATIONS

Some women are as slighty as some men are cranky.

All the world's a stage, but some prefer automobiles.

"By their works ye shall know them," said the watchmaker.

And some people actually believe that their troubles interest you.

There is probably nothing more unlike a battle than a picture of one.

It's better for a man to do a little kicking than to become a human football.

WISDOM OF A WIDOW

Unselfishness is a thing unknown to men.

If a man doesn't feel well he says he's been working too hard.

It is easier for a man to make a woman a happy before marriage than it is for him to make good after facing the person with her.

HOUSE COMMITTEE INSPECTS JEFFERSON HOME

Monticello, the home of Thomas Jefferson, now owned by Jefferson Levy, former congressman from New York, was inspected by the house committee on public buildings and grounds with a view of recommending its purchase by the government.

Murtaugh News

(Times' Special Correspondence)

The sale held Wednesday at Hanson ranch was well attended and stock, household goods, etc., went at a good price. Mr. Luc of Twin Falls was the auctioneer and C. A. Robinson, clerk.

Mrs. J. A. Johnson returned home from Twin Falls Tuesday where she had spent a week with her son, Leo Johnson and family.

Mr. and Mrs. D. A. Engstrom were in Twin Falls Wednesday.

The W. W. club met at the home of Mrs. Chas. Miller Friday afternoon. Election of officers for the next six months was held. They were as follows: President, Miss Dr. Kolts; vice president, Mrs. E. S. True; secretary, Mrs. Chas. Dillon; treasurer, Mrs. E. E. Kendall; program committee, Mrs. E. C. Chance, Mrs. E. C. Davis and Mrs. Chas. Miller. The ladies will entertain their families March 17. The following committees for the event were appointed as follows: reception, Misses Hovreka, Bancroft and Mrs. Hensley; decoration, Madames Chance, Engstrom and Miller; program, Mrs. Hunt and Dr. Kettis; lunch, Madames True, Kendall, Boyd, Dillon and Davis. After the business meeting time was spent in doing fancy work and visiting, followed by an elaborate lunch served by the hostess, Mrs. Chas. Miller. Next meeting will be held with Mrs. True.

Mr. and Mrs. Fay Cox and little daughter of Kimberly spent the week with their parents, Mr. and Mrs. Sam Cox.

Mr. and Mrs. Leg Doty and little daughter, Dorothy are visiting their parents at American Falls. Elmer Chance has charge of the lumber yard and office during Mr. Doty's absence.

The losing sides in the spelling contest at Prof. Davis' and Miss Bancroft's rooms entertained the winners to a party at the school house, Friday evening. The evening was spent in games and refreshments consisting of sandwiches, pickles, ice cream and cake were served. They held these parties once a month.

Ed and Audie Hansen left Saturday evening for Sun Lake and the northern part of the state to look at land with a view of locating.

Madames Kendall, Chance, Engstrom and Cox were passengers to Twin Falls Saturday.

James Boyd and Roy Hunt transferred business in Twin Falls Saturday.

Passenger traffic was delayed on Sunday by two bad washouts from the snow. The snow melted so rapidly that the washouts were closed. Mrs. Cox and daughter, Fern are going to move to Boise during the week. Fuel coal will farm his mother's land.

Miss Alice Belle Tolman of Twin Falls came up Wednesday evening to spend a few days with Miss True.

Rev. Smuul spent Sunday at the Johnson home.

Miss Minnie Hansen of Twin Falls spent Sunday with Miss Ora Silvers.

Buhl News

(From Buhl Herald)

Fred Nihart, who is one of the pioneers of the Buhl country and the Twin Falls tract was elected secretary of the Buhl Commercial club at a meeting of the executive committee Monday evening after a series of meetings and after the committee had gone over the qualifications of all the applicants, carefully. Those mentioned for the job were, Chester A. Dreibahn, M. Bradley, J. M. Shank, C. H. Brewer and Fred Nihart. Not all these men had applications on file with the committee and M. Bradley withdrew his application. He accepted a position with the Oregon Short Line railroad company, as publicity agent.

The International Concrete company, of Ogden, will start work the latter part of this week on a site in Buhl. A representative of the company was in Buhl Saturday picking out a site for the new building, according to the plans which he shipped this week from the company's head office in Ogden and expects to have the products on the market by March 15.

The Buhl Township company has complied with the city's request to plat the property on Thirteenth street in accordance with the city's plan of streets and alleys, according to W. R. Green, city attorney. Mr. Green said today the company's compliance to the city's demands will

make legal action unnecessary.

E. A. Phelps, who lives six miles northwest of Buhl, is able to be out on crutches for the first time in the past three months and a half. A kind of hay tips-over with him last November, and Mr. Phelps was thrown in such a way that he landed upon his feet, though he sprained both ankles so that he has been unable to be out of the house since.

The Buhl high school basketball team is practicing this week for the same with Burley to be played on the Burley court Friday night.

The girls' basketball team of the Buhl high school will go tomorrow to Burley where they will play the Burley girls. This will be the first inter-school game for the Buhl team.

Buhl has received an invitation to enter a basketball tournament which is being arranged to be in Twin Falls the latter part of March. Twelve teams will be invited to the tourney. It is probable the Buhl high school will be represented.

Dedicate Moscow Temple—Thursday, Washington's birthday, was a red letter day for the Masons of Moscow and the surrounding country. Their beautiful new temple on South Main was dedicated with impressive ceremonies in the afternoon, early in the evening a reception was tendered by the officers and members of Paradise Lodge; this was followed with a fine entertainment under the auspices of Rudy Lodge, Order of the Eastern Star; and the eventual day closed with dancing and cards.

TIMES PRINTING & PUBLISHING COMPANY, Ltd.
 HAROLD M. SIMS, Editor.
 \$2.00 PER YEAR IN ADVANCE

Notice—Discontinuance. Many subscribers prefer not to receive the paper if it is not published. In such cases the paper will be discontinued unless the subscriber notifies the publisher in advance. If the paper is not published for two consecutive issues, it will be discontinued unless the subscriber notifies the publisher in advance.

(Entered at the Twin Falls postoffice as second class matter on a twice-a-week publication, October 15, 1910.)

A break with Austria, similar to that with Germany, now seems inevitable.

The line land of Germany in forming Mexican "republics," long suspected, is now fully uncovered and in plain view.

And then comes Bryan to add his voice to the noise of the unpatriotic congressional cavaliers over the president's desired warrant for action. Well, what could you expect? Windy Willie means well—perhaps, but he can pretty nearly always manage to lay himself across the barrel!

The legislature is considering the adoption of a law adopting for Idaho what is known as the Torrey system of handling ownership evidences and records of real estate. The information necessary for intelligent comment upon this proposition is not at hand; but one thing is certain, so radical a change upon so important a matter should not be carelessly made.

The bill providing for transfer of Carey act water rights, by sale or lease, is published elsewhere herewith. Its purpose approves itself to common sense; but when the applicant for transfer must first go to the managing company or corporation, then if denied, to the irrigation engineer (an official created by the act), and then, if there are still objections, to the District Court, the opportunities for litigation loom large.

It seems incredible, that at a time like the present, members of the congress of the United States should be splitting hairs over the verbiage of a resolution authorizing the president to use any and all of the resources of the government in protection of our country's honor and of the lives and property of our people. To do this in right hope or purpose of partisan political advantage would be had enough; but when done for the purpose of placating hyphenate voters in home states or districts, it is infinitely worse.

LOOKING FOR A NEED SHOW
 It is amusing to note how perfectly willing are the more ambitious of Southern Idaho's cities to annex a little state money whenever and wherever the opportunity offers.
 A bill was before the house of representatives a few days ago appropriating \$45,000.00 for the purpose of conducting a live-stock exhibition, a state fair and a seed show. Lewiston was designated the location for the livestock show; Boise for the state fair; and a city in Southern Idaho to be determined upon by the fair board as the place for the seed show. Our good friends from Pocatello could not bear to see a homeless seed show, so proceeded to attempt to amend the bill in such a way as to

locate the institution permanently at Pocatello, as everyone knows, is a very creditable railroad center, but no one ever heard of its being a seed producing center before. Its attempt to grab a seed show fell miserably by the way side.
 Not discouraged by this failure, the Idaho Falls delegation started out at the seed show, with very much the same result.
 The Twin Falls delegation told the members of the legislature, very simply, that the Magic City was one of the greatest seed producing centers of the universe, and that the seed show would just naturally have to alight there despite the efforts of its well-intending but not-deserving sister cities. For that reason it was suggested that the permanent location just be left blank for the time being.
 We wonder how a seed show—if the appropriation survives the trip to the executive office—would fit into the general scheme of our county fair?

A WAR OF INDUSTRIES

The fact that President Wilson will seek to enforce, without recourse to war, the rights of American citizens and American commerce to free passage on the high seas, hardly allays our apprehensions.
 It reminds us of the small boy at the circus who after deliberately sizing up the zebra, announced there was no such animal.
 The president has asked congress for authority "to employ the land and naval forces of the United States to enforce compliance with or to prevent the violation of, the obligations of the United States under the law of nations and all other obligations imposed upon the United States by treaties or conventions to which the United States is a party."
 What we choose to term the employment of our armed forces to protect American lives and commerce, Germany will call war; and we doubt not that the first episode of our new program is going to start something. What effect will such an eventuality have upon the daily life of the average American man or woman?
 Probably very little.
 There will be more jobs. Wages may advance a little. The cost of living will probably soar still higher. There may be a few volunteer regiments, recruited from this country.

But our entry into this conflict is not going to materially increase the man-power of the allied forces on the battle fronts of Europe. It is not going to augment the naval effectiveness of the allied powers; for their advantage is already of preponderous proportions. Nor is it going to add to the man-power of the industries behind the men in the trenches, for the allies have had access to the markets of this country since the beginning of the war and have freely availed themselves of that opportunity.

But there will be a speeding-up of all of the industries of this country, just as there has been in Japan, which technically has been at war with Germany since this struggle commenced.

There will be an effort to produce more—to manufacture more. The industrial and productive forces of the country will be strained to their utmost to supply the ever increasing demands of the allies.

America's part in such a war would be the feeding and clothing of the people of the allied nations, and the equipping of their armies.

The importance of these factors is best attested by the decision of Germany to risk a break with the United States rather than refrain longer from attempting to destroy the commerce between neutral nations and the allies.

DAWES HOTEL GIVES MEALS AT COST PRICE

New Institution Opened at Chicago Today in Interest of Working Women of Chi.
 (United Press)
 CHICAGO, Feb. 28.—The Mary Dawes Hotel for women, the gift of Charles G. Dawes to his mother, has been opened for business.
 The hotel, modeled after the Dawes hotel for men in Boston and Chicago is a \$150,000 stone and brick building, with rooms for 250 guests. It is run on the same principle that the other Dawes philanthropic institutions are—that clean wholesome hotel accommodations can be furnished at much less than the prevailing cost, if operated without profit, under scientific management.
 Rooms rent for ten to thirty cents a day, and guests may be either permanent or transient. Each room has a bathroom, rug, jewelry, and is equipped with an abundance of clean linen, and access to toilet and bath facilities. A cafeteria in the basement provides wholesome meals at cost. Breakfast may be secured for five to six cents; and dinner for ten or twelve cents. Serving rooms, a beautiful table lobby and complete laundry for the use of guests are provided.
 Miss Frances Cowley is in charge of the newest Dawes hotel.

The Guild holds its regular weekly meetings to the rector's study every Thursday afternoon, 2:30.
 A paper's classified columns are the business barometer. Our barometer registers high and results are sure to follow from advertising placed with the paper having the largest classified representation.

Gooding to Have Elevator—Henceforth Gooding is to have a grain elevator in fact as well as in name, and one of the best in southern Idaho. The decision of the Gooding Milling & Elevator company to commence the operation of its elevator equipment this year and hereafter handle all grain in bulk is a development of importance, especially to the farmers. When this company erected its big structure eight years ago, it was the purpose to operate a flour mill and elevator, but it developed that these plans were premature and up to this time grain has been handled in sacks. Now, however, the increase in the local grain production and the great extension of territory covered, under the energetic and aggressive management of Mahager Frishbaug, justify the operation of the elevator—Gooding Leader.

The Theatres

 Play at the Idaho theatre, Friday and Saturday.
EVE IN AN ADAMLESS EDEN
 If there are any grouches who still insist that Eve only inhabited the Garden of suffrance in the first place, they will do well to see Adorable Annette Kojerman as "Anitla," in William Fox's million dollar picture beautiful: "A Daughter of the Gods."
 After seeing the most perfect woman in the world in the most ideal natural settings imaginable, his conviction will be that Eve belonged there by divine right and that Adam crawled through the hedge afterward, along with the serpent, and spoiled the landscape.
 The author of this exquisite love and fairy story did not mar his garden with any Adam; it was only after Anitla was dragged to the Sultan's capitol and sold at the slave market that she met her Adam, and immediately all her trouble began.
 If you wish to see the hazards and dangers "Anitla" encounters all for love, you must see the picture beautiful at the Idaho theatre next month.

VESSEL WHICH TAKES UP BERNSTORFF HOME

The SS Scandinavia liner Frederick VIII on which Count von Bernstorff and his embassy staff and many German consular officers sailed for home via Halifax.

Little Damage in Town—The flood did little damage in this city, according to the estimates of W. F. Porter. The canal ran over its banks at the Golden Rule addition and caused some inconvenience and damage, but nothing serious.
More Headquarters—Due to the leasing by another party of their temporary quarters with the Idaho Hardware and Implement company, the Utah-Idaho Motor company has moved headquarters to the Spencer Livery on Shoshone street west.

Ladies of G. A. H. Meet—The ladies of the G. A. H. will meet at the I. O. O. F. hall Saturday afternoon, March 3.
Garbett Hound Over—William Garbett was pounced over Tuesday afternoon by J. W. A. Smith on the charge of bootlegging.
Talmadge Funeral Today—The funeral of the three months old baby of Mr. and Mrs. Lawrence Talmadge will be held at their home in Kimberly today.

SOCIETY NOTES

Phone 38—Mrs. Ernest White entertained the Monday Penelope club this week. After a pleasant afternoon at cards a two-course luncheon was served by the hostess.
On Tuesday afternoon Mrs. I. H. Spafford entertained at a bridge party at her home on Seventh avenue east. The tables were arranged for cards. High favor was presented Mrs. W. T. Wood and consolation prizes were awarded Mrs. Baker. The close of the afternoon a luncheon was served in two courses.
On Wednesday, February 23, the Blue Lakes Boulevard club was pleasantly entertained at the home of Mrs. George Smith. This being poultry day the raising of and caring for poultry were discussed. Mrs. Stevens entertained the club with two piano selections. Four guests were present. The club will meet with Mrs. Waters Friday, March 3.
The luncheon club was entertained last Thursday afternoon by Mrs. E. J. Gutzmer. The table was particularly attractive with flags and various other decorations, suitable for Washington's birthday. A dainty five-course luncheon was served, covers being laid for twelve. The remaining part of the afternoon was spent at bridge. Mrs. Clog received high scores. Great prize was presented to Mrs. Hamilton.

First Ticket From Chicago—The first ticket for the party coming tonight was received from Chicago as soon as it was formally announced that such affairs would be held in this city. The tickets are coming from points nearer home.

Card of Thanks—We appreciate the many kindnesses of friends shown to our mother during her illness and death and desire to extend our thanks to them. Smith Brothers.
Flood at Rock Creek—Rock Creek residents are coming to this city this week on a water building condition in their town Sunday, when the flood from the creek backed up into the postoffice and flooded some collars.

Company Re-Establish Office—After a year's absence from Twin Falls, the Denney and company, with main office in Chicago, and a branch at Payette, has re-established offices with the Nye Bros., on Shoshone street south. This company deals in fruits, potatoes, hay and general spraying supplies and will remain on the tract permanently. The offices here will be in charge of S. G. Smith, and Clerk Williams. Mr. Scholer is representing the company at Milton, Washington.
Baber Hasn't Resigned—A report circulated several days ago that the report that Councilman R. E. Baber, had sent in his resignation, was denied yesterday by Mayor E. M. Sweeley and City Clerk Williams. Mr. Baber has a contract on the northside, which keeps him busy for the present and as Councilman F. P. Bracken has not yet returned from his trip to Chicago, no council meetings can be held. Councilman Bracken is expected home Monday.

Throw Water Into Canyon—The flood in the Rock Creek canyon Sunday last, proved quite a bore in regard to the wisdom of arranging with land owners in the canyon to throw the surplus waters on the canal into it in cases of sudden flood.
Small Boy Dies—Arnold Mahinken, son of Mr. and Mrs. Fred Mahinken, died at the home of his parents of pneumonia Saturday, at the age of nine months and seventeen days. The funeral was conducted by the L. D. S. church on Sunday. Interment in the Twin Falls cemetery.

Mrs. Dave Gindner very pleasantly entertained last evening in honor of Miss Irene Watson of Iowa, who is visiting friends and relatives in Twin Falls. The guests, at four tables, enjoyed a feast, at which Mrs. Edman and Mr. Bentley captured high favors. Following the cards, the hostess served a dainty luncheon. Those present were the Misses Watson, Fall, Perry, Ashmorer, Clannet, Roberts, the Messames Seuhr, Green and Gindner and the Messrs. Epler, Batley, Micklewait, Cox, Seaberg, Green, K. Green, Hart, Avant and Gindner.

Farmers Look For Help—According to City Clerk R. M. Williams, who is the Twin Falls municipal employment agent, farmers have begun already to seek work for the coming season, which will begin as soon as the weather and conditions of the ground will permit. Several have written to the city and their families. Conditions among laborers this winter have been better than in recent years, fewer seeking employment unsuccessfully for a long time.
Clock Breaks Main Street—The big clock that stands in front of the Decker Jewelry store on Main street, has quit that thoroughfare and gone to make its home on Shoshone street, a few blocks from the main street people, who resent its desertion. The clock was moved yesterday morning and as the noon hour drew near many a passer-by then gave a blank stare, followed on some occasions by a remark of a similar character. The clock will reside in front of the Decker store.

Methodist Meeting Lapse—The meetings of the Methodist church have lapsed since the weather has been so bad. These meetings have been conducted by Rev. C. L. Bent, the pastor, and Rev. C. U. Butler, the evangelist. The last of the meetings will be held next Wednesday night.
Summers Plead Guilty—W. H. Summers of Kimberly entered a plea of guilty yesterday to the charge of allowing dead sheep to lie out unburied near a stream. Summers said that he had the sheep were frozen and that he wanted to save the hides which were worth three dollars each. Probable Judge O. P. Duran fined him \$40. The maximum is \$100.
Mrs. Kevan Funeral Saturday—The funeral of Mrs. Edith Kevan, wife of Charles W. Kevan, who died at her home seven miles southwest of this city at 11 o'clock last night, will be held from the Methodist church in this city Saturday afternoon at 2:30 o'clock, and will be conducted by Rev. C. L. Bent, the pastor. Mrs. Kevan leaves a husband and two small children, two and four years old, respectively.

Another New Building for business purposes has just been contracted for by Frederick C. Snook. It will be a handsome brick, twenty-five feet front, by seventy feet deep, located in the north side of Shoshone, near the building of the Fourth avenue. The building is designed solely for his own occupancy; and when finished and fitted up according to the plans, it will be the most complete and elaborate suite of offices for operative and constructive dentistry in the state of Idaho.

New Weather Man—Owing to the dissatisfaction voiced in many quarters the kind of weather that we have been getting recently, and because of the fact that he will shortly move on a homestead in Cuscuta county, the weather man from the position of weather reporter, snow distributor and rain dispenser, the Twin Falls Commercial club has recommended to the Board of Fourth avenue the services of the principal salary of which consists of a sense of duty performed. It is understood that the Board agreed to accept the offer of the spring and reasonable weather if selected.
Again the Endless Chain—Again the endless chain of letters by the endless chain started some months ago by several enterprising grafters in Minneapolis, whereby for the purpose of one dollar the writing of five letters calling attention to the offer, the sender was to receive a shirt. The perpetrators cleaned up a large sum of money before the government discovered the graft and issued a fraud order. Before the thing could be checked the small had grown to enormous proportions and the postoffice department was out a neat sum in returning the letters. For a time the thing died down, but the scheme that some who had seen the exposure published have recently taken up, everywhere, old letters, so that another flood has begun and another fraud order has been issued.

Died After Long Illness—Mary F. Smith aged fifty-nine years, died in this city February 28, after an illness of several months. The funeral was held yesterday at the Grossman & Emex chapel and conducted by Rev. O. T. Anderson, of the Baptist church. Interment took place in the Twin Falls cemetery. Mrs. Smith was the widow of James F. Smith, who died about three years ago. She left five children, two of whom are in school, Jesse and John, who live on a ranch at Rogerson, Jay who lives in Arizona, James who lives in Honolulu, and one daughter, Miss Beale Smith, who resides in Seattle. Miss Beale Smith visited her mother for some time during her illness, leaving last week when she expressed that the patient was recovering.

Mother Dear:
The children and I have just been to THE BISBEE STUDIO and I can't wait until evening to tell you of all the fun we had. You know what a mischievous boy Ted is; I felt sure he would never be quiet even for a second. However, Mr. Bisbee won his heart by giving him a ride on a movable window-seat as it was wheeled into position for one of the group pictures. And after that—Ted called it his merry-go-round—my lively little boy was ever so interested and helpful.
I saw no time when it seemed possible to get a picture—unless it was a moving picture—but, oh, the patience Mr. and Mrs. Bisbee have with children. They declare it is never exhausted and I believe it; for my three busy little folks certainly gave it a sufficient test this morning.
Mrs. Bisbee had years of thorough training and a long experience in kindergarten work and she says she still feels perfectly at home sitting on a child's chair with a circle of little folks around her, their eager eyes sparkling at the words "Once upon a time."
And Mr. Bisbee says he is probably as proud of being known as "the children's photographer" as of any other one thing connected with his business. In fact he has a little slogan card engraved with those words: "Portraits of Babies—A Success in this Studio."
Your grandchildren, at least, are willing to say this slogan is correct, for Emily and Ted are talking now about how joyous a thing it was to stand upon a chair near the pendulum and hear the tall colonial clock strike just to oblige them. I'll probably write you as soon as I see the proofs; I'm expecting something exceedingly fine.
Goodbye for now,
Ruth.

Corn Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner"

When you've got to walk on the sides of your shoes to get away from the awful corns, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water! Soothe, Heal, Shrink, Loosen and Peel Off!

Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and itching will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off. There's no other corn-remover in the world that acts like "Gets-It". No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of knives that irritate, bandages that make a bundle of your toe; plasters that hurt and do no work; and acidizers that draw blood. Use "Gets-It" no more days. "Gets-It" is sold everywhere. Do a bottle or send us receipt of price by P. O. Lawrence, Chicago, Ill.

Sold in Twin Falls and recommended as the world's best corn remedy by Skeels-Wiley Drug Company; City Pharmacy; Bedford-Fisher Drug Company.

Snaps in Land

140 acres, 3/4 ml. south Homedale, 115 acres alfalfa, 5000 bushels small, large, good granary, good well, land all fenced, small orchard of young trees, price \$10,000.00, subject to bond issue of \$3000 an acre for water.

120 acres, 2 miles from Homedale, 60 acres in cultivation, 25 acres more cleared, 2-room house, barn, chicken house, granary and deep well; price \$7,500.00, subject to \$3000 bond issue for water, running 17 years at 6 per cent interest.

We have a fine ranch on the Snake River near Homedale, containing 231 acres, 80 acres in alfalfa, fine 7 room house, good barn and other outbuildings, two-acre family orchard, \$25 per acre, subject to \$30 bond issue for water.

THIS IS A SNAP

We have other small tracts in this locality.

HILL & TAYLOR

GATHERED QUIPS

Ants preach frugality by deeds and not by word.

New friends and old enemies are not above suspicion.

Candidates who "also ran" acquire a lot of experience.

It's better to have a poor opinion than to have none at all.

Where there's a will there's a lot of disappointed relations.

The charitable man never has to wait long for a chance to get busy.

A guilty conscience needs no accuser, but it nearly always has one.

When a man talks to himself he's apt to be more eloquent than interesting.

But you can't always tell by a man's actions whether he's a fool or a genius.

With the man who always knows what others should do, there is but little doing.

The world is slow to recognize a genius because it has been gold bricked so often in that line.

Money makes the mare go, a bargain advertisement makes the woman go, and a green pickled muskmelon makes the mango.

HIT AND MISS

Good judgment is often a lucky guess.

The love of money is also the root of much matrimony.

A woman learns a lot from her servants, but will not admit it.

A sure sign that you don't know much is to think you know it.

Wise is the married man who keeps his private opinion to himself.

If a man is unable to stand prosperity, he should sit down and enjoy it.

Poverty is no disgrace, but it's a good excuse for heading off borrowers.

JUST THOUGHTS

Charity for revenue only pays very light dividends.

If you want to see a man act silly, hunt up one who is really jealous.

It is an ill wind that blows contrary to the predictions of a weather prophet.

Some men treat their wives with kindness because they are afraid to do otherwise.

There is no cure for the indigestion caused by having to eat your own words.

The man who has an exalted opinion of himself nearly always has a poor opinion of human nature.

It's an ill wind that doesn't blow dust in the eyes of a man who deliberately beats his faithful but tired horse.

Some people do not believe in the efficacy of prayer because they get what they desire instead of what they ask for.

DO YOU KNOW THAT—

A little cough often ends in a large coffin?

Bodily vigor protects against colds?

Careless sneezing, coughing, spitting, spread colds?

Open-air exercise cures colds?

Colds sometimes get well in spite of the excessive use of alcoholic beverages?

Overheated, air-tight rooms beget colds?

Neglected colds often fore-run pneumonia?

Persistent, often-repeated colds indicate bodily weakness?

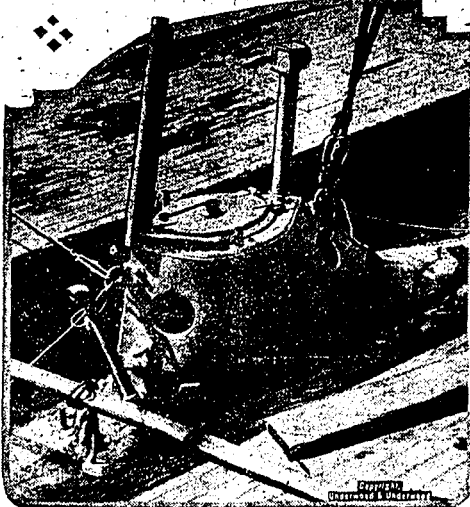

POPULAR SCIENCE

Statistics collected in Germany show that of all the trees that are struck by lightning in that country almost one-third are oaks.

Russian engineers soon will begin experiments that will cover three years to ascertain if spar beams can be raised probably in Siberia.

Switzerland protects rare plants by law so strictly that to be found in the possession of specimens illegitimately collected is a penal offense.

ONE-MAN SUBMARINE J-1

One-man submarine J-1, lying in the water at Naples, Cal. There is room for only one man inside the operating compartment. The craft weighs only two tons, is 23 feet long, 7 feet 10 inches deep and 25 inches in width at the widest point. Both ends are made of metal. Its motor is capable of driving it through the water at a speed of 35 miles. Two torpedoes may be carried. The inventor is negotiating with the United States government for the sale of his patent, but no terms have been reached.

OUR PUBLIC FORUM

VIII.—C. E. Schaff

On Railway Investments

President Wilson, recently referring to our railroad problems, said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. . . . There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice."

When the first citizen of the land asserts the importance of understanding and dealing justly with the railroads, certainly the American citizen can wear upon a careful study of the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroads investments, said in part:

"It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact, nothing could be farther from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of those men who have figured prominently in the ownership of the railroads. There are in the hands of over two million investors, large and small, who in many instances have put the modest savings of a lifetime into these securities in order that they might lay away a competency for old age. When, therefore, the value of those securities is depressed or perchance destroyed, the hardship is a hundred-fold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles.

Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called into question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policyholders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing deposits and investments have been charged off the books of concerns like those enumerated above. American railroads have become a vital part of the very woof and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land.

In blindly striking at the railroads our blows fall not merely upon thousands who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth, become more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whoever of this world's goods the toll and sweat of years has bequeathed to them."

The Ladies Aid will hold their regular meeting at the church Thursday afternoon. Mrs. McCollum will be hostess.

A very enjoyable social was held at the Excelsior school Friday evening. A program was given, commemorative of the national week of song. A large crowd was present, and seemed well pleased with the program, refreshments and games.

The Epworth League held its regular social Wednesday night. The stormy night kept many away from the present report a very pleasant time.

Mrs. Butler and daughters, Miss Adelle Harris and Miss Mayjoy Smith spent the week end in Haason.

The warm winds have melted the snows so rapidly that the canals and ditches, everywhere, are rushing with water. The main due Sunday night did not arrive until nine o'clock on account of a washout near Murtaugh.

During the hard and Monday the snow on the Caline black was blown down. All stock had been removed as it was not a very substantial structure and its fall was not unexpected.

Frost Humps Evement.—The frost is still raising havoc with paving on the viaduct and two bad bumps have made their appearance during the week. Workmen in a short time ago finished repairing several bad spots in the surface. The bumps are caused by the frost getting in between the bricks and forcing them out of place, making in several instances bad holes of a dangerous nature to traffic.—Pocatello Tribune.

THIS DEALER HAD REAL TACT

Stout and Thin Customers Use Special Mirrors in Wearing Apparel Establishment.

A dealer in wearing apparel, noticing that his stout customers and his very thin customers often were sensitive as to their figures, installed two full length mirrors of special design, says Popular Mechanics magazine. One was slightly concave and the other slightly convex. When a stout customer tried on a suit she was led to the concave mirror for self-inspection, and was able to see her figure as it would appear with its measurements reduced. When a thin person came in to try on clothes she was taken to the convex mirror, where the opposite effect was produced.

Only Molatened His Lips.

Omer Scudder, a Columbus real estate and insurance agent, told some of the other business men who have offices in the business building the he they had a notion that Scudder would eat about a quart after which they would divide the remaining quart among themselves. Scudder surrounded the entire half gallon of ice cream, snuck his lips and asked them whether they were not going to get him enough ice cream for a real taste. The business men looked at each other, smiled sickly and returned to their places of business. — Indianapolis News.

The Three Philosophers.

For the first time in five lives three genuine, simon-pure philosophers went out riding in a motor car. After they had ridden about twenty miles out in the country the car broke down. Said the first philosopher: "I have long wanted to study certain aspects of nature, and this affords me the particular prospect I most admire." Said the second philosopher: "I observe there is a farmhouse over there where food can doubtless be obtained in sufficient quantities."—Said the third philosopher: "I have long wanted to be in a situation where, without moving, sustenance would be brought to me by one friend, while the other discoursed on the beauties of nature."—Life.

City Directory Divorce Check.

The name of the wife in parentheses opposite the name of the husband in the city directory may be a feature of the next Toledo directory, as a means of reducing the matrimonial litigation in this country. In small cities names are run in that manner.

Having the wife's name in the directory with her husband's makes it hard for the married man that tells a chance acquaintance he is single.

"I think the idea of putting the wife's name with the husband's in the directory is good," said Probate Judge O'Donnell, who sees the sad plight of many matches. "It should be in favor of such a plan."—Toledo News-Bee.

WATER TRANSFERS UNDER CAREY

(Continued From Page 1)

ing out the provisions of this act, the board of county commissioners of a county in which is located any part of an irrigation system constructed pursuant to the Carey act, shall appoint as and for an irrigation engineer a competent person who is versed in matters pertaining to the use of water for irrigation and in the operation of canals and ditches for such use, who shall hold his office for a term of two years, whose duties shall be as herein prescribed and shall give bond in the amount of five thousand dollars for the faithful performance of such duties.

Sec. 4. Before the transfer of a water right shall take effect under this act, a person interested therein must apply to the board of directors of the corporation operating such Carey act irrigation system, for consent to the making of such transfer, and if a consent is given a resolution showing the same and the extent or portion of the right to be transferred shall be adopted and filed, and a copy thereof, with proper reference to the date of its passage, shall be incorporated in the instrument evidencing such transfer, and upon the recording of such instrument as provided in Section 3 of this act, such transfer shall be complete.

Section 5. If the board of directors of the corporation operating such Carey act system, shall refuse its consent to the transfer of such water right, a consent is given for permission to make the same, showing the description of the land from which, and of the land to which it is proposed to transfer such water right and the amount of the water right to be so transferred and the reasons for such transfer, shall be presented to the county engineer who shall promptly make investigation of the matter and determine whether and to what extent the canal system and the other works thereunder shall be affected or prejudiced if such transfer is allowed. If said irrigation engineer finds that such transfer of water right, in any manner and to the extent applied for, will not be prejudicial to said corporation or to the other water users under said irrigation system, he shall issue his certificate approving the transfer, the same to be in duplicate, one part of which shall be filed with the county engineer, and the other shall be delivered to the persons applying for such transfer and recorded in accordance with the instrument of conveyance or lease, and if he finds that such transfer should be made only upon certain terms and conditions, then he may prescribe and specify the terms and conditions on which the transfer shall be allowed, and if they are complied with to his satisfaction, he shall issue his certificate to that effect, the same being in duplicate as herein provided. If said irrigation engineer decides against such transfer then he shall make his report, giving the reason for such decision.

Sec. 6. If any person or the board of directors of such Carey act corporation shall appeal from the decision of said irrigation engineer, an appeal may be taken by such person or board to the district court of the county within which the land is situated from which it is proposed to transfer the water right, by filing with the clerk of said court a written application as made to said irrigation engineer and his report thereon with a written statement of the appellant giving the reasons why such decision affects him, and said court shall make determination of the matter for which purpose a jury trial may be had at the direction of the court. The clerk of said court shall require the payment of a fee of five dollars for the docketing of such appeal.

Sec. 7. For his services in passing upon an application for the transfer of a water right under this act and making his certificate or report based thereon, said irrigation engineer shall be entitled to receive from the applicant the sum of ten dollars for each day, or portion thereof, necessarily required by him to do his duty, besides his actual and necessary expenses incurred in connection therewith, but shall receive no other compensation.

Sec. 8. When a transfer of a water right, or of a portion thereof, is made effectual under this act, otherwise than by lease, the county engineer certifies evidencing the ownership thereof, shall be surrendered to the corporation and the officers of the corporation shall issue a certificate to the person or persons entitled to them, specifying the land or lands to which the water right is appurtenant, after such transfer and the amount of such water right which is appurtenant to any of said lands.

Sec. 9. A lease of a water right or of a portion thereof shall not change the appurtenance of such right, but the same shall remain an appurtenant of the land of the lessor, subject only to the rights of the lessee to make use of the same.

Sec. 10. No water right or any portion thereof shall be transferred from one person to another, except in accordance with the provisions of this act where there is a valid existing mortgage or other lien or encumbrance on the land to which such water right is appurtenant, without the consent of the holder of such mortgage or other lien or encumbrance, which consent shall be evidenced by a statement duly executed and acknowledged as other instruments relating to the conveyance of real estate.

Public Forum

AS TO BIBLICAL DANCING.
 Mr. Editor: "I Concoast," makes me say that dancing means nothing of women dancing which is far from the truth. I nowhere said that women did not dance alone, but that affirms that women dance in groups, in answer to the statement that for them to do so, "would be reprobat." The citations by "Concoast" are "entirely" "promiscuous." In all these quota-

ions by "I Concoast," who seems to understand "Bibleology," my statements are confirmed. As to his other insinuations and opinions, which seem due to a fervid imagination, as also this one, it will be time to reply when he has the courage to sign his real name. Men of conviction, based upon large observation, with a love for the weak, which would seek to advise the strong to forbear putting stumbling blocks in the way of the weak, are, according to the other fellow's opinion, "bigoted and intolerant."
 F. SHEPHERD.

MORE IRRIGATION COMPANIES TO FORM INTO THE FUTURE.
 M. B. Bolloy and Tom Rutledge, both of Murtaugh have decided that it is so easy to irrigate a butte from a pumping system they are now planning an irrigation district for water on their own lands, as well as any others that might sign up with them. The reason for their action in this matter seems that they have lost confidence in the ability of the Milner Canal company to build a system. In fact they claim the reason this is done is because the Milner Canal company refuses to show them that they had some \$100,000 to \$200,000 cash available at this time to begin the work. It would be very interesting to watch the development, because if there is so many opportunities for different companies to get in on one project no doubt there will

BUILT BY JOHN W. BATE
 IN THE
 MODEL EFFICIENCY PLANT

\$1460 For 7-passenger Six—48 h. p. 127-inch Wheelbase.
 \$1150 For Mitchell Junior—40 h. p. 120-inch Wheelbase Six.

Both Prices f. o. b. Racine.

John W. Bate's New Extras

100% Over-Strength 8 New-Style Bodies
 24% Extra Luxury 31 Extra Features

The Mitchell claims to offer 20 per cent extra value, all paid for by factory savings.

This is due to a model efficiency plant, now covering 45 acres. It was built and equipped by John W. Bate, the famous efficiency engineer. It is operated daily under his direction.

No other plant in the world building high-grade cars can match the Mitchell values.

THIS YEAR'S EXTRAS

This year we enter our new body-making plant. It will save hundreds of thousands of dollars on our bodies, under what our rivals pay.

Out of this saving we add 24 per cent to the cost of our finish, upholstery and trimming. This makes the new Mitchell the beauty-car of its class.

Our finish coats are now fixed by heat in enormous ovens holding many complete bodies. So we get a deep, enduring lustre—a finish that will keep its newness.

We add 50 per cent to the cost of our leather, and 50 per cent to the cost of our cushion springs to give you better upholstery.

NOW DOUBLE STRENGTH

Mitchell standards for every part used to be 50 per cent over-strength. That was considered extreme. It gave the Mitchell wonderful endurance. Seven Mitchell cars built under that standard have averaged 175,000 miles each—over 30 years of ordinary service.

But for three years Mr. Bate has worked to double this standard. To give every part 100 per cent over-strength. And now, for the first time, we announce this doubled standard.

NOW A LIFETIME CAR

The Mitchell now is built for a lifetime car. Repairs and upkeep are reduced to a minimum. Important parts are all oversized. Over 440 parts are built of toughened steel. All parts which get a major strain are built of Chrome-Vanadium steel.

One example is the Bate cantilever springs. Not one leaf of one spring has ever been broken. Yet for 18 months we have used these springs on many thousand cars.

That same standard is now applied to every Mitchell part. Each is built twice as strong as need be for any expected requirement. Never before has such a standard been announced for any American car. Mr. Bate got that standard in Europe.

NOW 31 EXTRA FEATURES

This year's Mitchell includes 31 extra features. That is, features which other cars omit. No car, we believe, includes more than four of them.

One is a power-lift pump, one a new-type control; one a ball-bearing steering gear. There is a light in the tonneau, a locked compartment, an extra-cost carburetor, an engine primer at the driver's hand.

See these 31 extras, all paid for by factory savings. You are bound to want the car which includes them.

GET FULL VALUE

The Mitchell is built for those wise men who demand full value in a car. Our every effort for years, under John W. Bate, has been made to give it to you.

It gives you 100 per cent over-strength. It gives you extravagant luxury. It includes 31 extra features that you want.

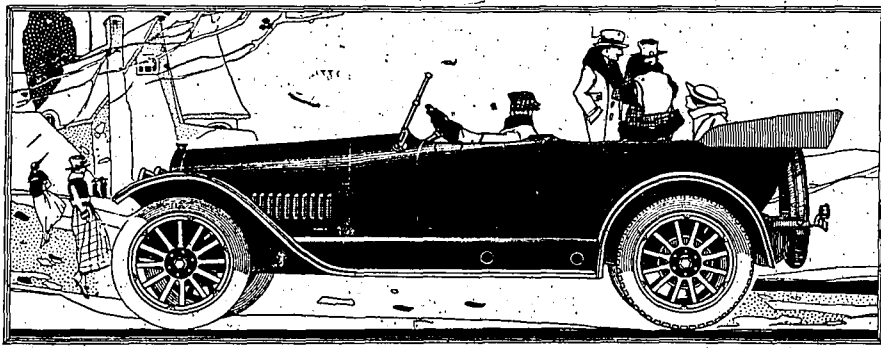

It gives you vast reserve power. It gives you comfort beyond any rival car. Rough country roads ride almost like pavement. No shock absorbers are ever necessary. That is largely due to the 32-inch Bate cantilever springs.

When you buy a high-grade car for long-time service, this is the car you are bound to choose.

Let the nearest Mitchell dealer take you for a ride. If you don't know him ask us for his name.

UTAH-IDAHO MOTOR CO.

Temporary Quarters at Spenters Livery, 318 Shoshone West

Evangelistic Lectures AT THE ISSIS THEATRE
 Lecturer Gives Views on Great War
 According to His Interpretation of the Bible.

The Isis theatre was crowded to the doors last night and many people went away on account of a lack of seats. The subject discussed was "The Cause and Meaning of the World War—Is It Armageddon?" "We are living in the most uncertain times this world has ever known. We cannot tell a day ahead what startling news we shall see in the daily papers," were the opening words used by Evangelist Taylor G. Bunch. He said further, it is not necessary for us to tell you that this is the greatest war in the history of this world. When

we consider that there are about 40,000,000 men now either under arms, in reserve or who have already fallen in battle, the thought is appalling. This was alone is not the only problem that is attracting the attention of statesmen and others. We have in our own country the great labor problem to deal with and are already having bread riots and demonstrations that are caused by the skyward flight of prices on the necessities of life.

The question therefore comes to the mind of every thinking man, "What do these things mean?" We hear this question asked more than any other one question of general interest to all. The answer is to be found in what is in the minds of the great men of our time for we hear many statements such as the one made by former President Taft: "The future looks very dark, indeed." But the student of God's word can answer with assurance. "These things mean the fulfillment of prophecy." History tells us what is in the past, the newspapers tell us what is happening today but we must go to the word of God to know what is still in the future and there we find a sure guide. This present war is not the battle of Armageddon, declared the speaker. It is however a forerunner and may run on into that greatest of all battles when every nation under heaven will have a part to act. It is possible that there will be a little time of peace

between this present war and the battle of Armageddon, and yet I cannot assure you that such peace will come. When we look at the present situation and see that it is becoming more and more complicated all the time and more nations are continually being drawn into the fray we can plainly see that this present war can and may go right on to a great culmination in the battle of Armageddon.

Now I am not a pessimist for when we look at this great catastrophe in the light of God's word we see there are brighter things ahead of those who will stand and obey the teachings thereof. In Revelation, the fourteenth chapter and the last two verses, we find that the prophet saw the spirits of devils at work in the world to bring about wars, disaster and famine, etc. It is plain to the student of present day events that we have a spirit in the world at the present time which from the results being brought about we may conclude is none other than the spirit of the evil one.

For Sale—House, 3 large rooms, Seventh avenue east. Close in, only \$1950. Wm. H. Carr Times.
