VOL. XII, NO. 47

TWIN FALLS, IDAHO

AFTER ALL S. B. DOES NOT HAMPER OUR CITY

FINAL OPINION OF CITY ATTORNEY IS THAT LAW EXTENDS CITY'S POWER.

ELECTION CALLED ON QUESTION OF BONDS ON APRIL 24

Senator S. P. Atherton Takes Up Matter With Pocatello and Gets Statement Contrasting Opinion That The City May Vote The Bonds.

And so the play ended happily after all, and the "Special Interest" villain was foiled in his efforts to throw a monkeywrench into the machinery of municipal ownership waterworks, and the "Joker" was a joke, so that the people, or so many of them as can qualify, for that purpose, will vote on April 24 on the question of whether bonds in the total aggregate sum of \$550,000 shall be issued for the purpose of installing a waterworks system for this city in accordance with the terms of the report of Special Engineer L. C. Kelsey.

Having temporarily reversed his first opinion last Thursday, somewhat on account of new, though still not wholly correct, evidence as to the contents of B. D. No. 111, City Attorney George Herritt, in his opinion, issued on April 24 on the question of whether bonds in the total aggregate sum of \$550,000 shall be issued for the purpose of installing a waterworks system for this city in accordance with the terms of the report of Special Engineer L. C. Kelsey.

Mayor Sweeney, who upbraided the Legislature for alleged dereliction of duty and did not express any opinion at once but later acquiesced in the opinion of the city attorney.

City Attorney Herritt's opinion follows:

To the Mayor and Council: I have been requested by one of the members of the city council to give a written opinion as to the constitutionality of the city's proposed waterworks under the new act of the legislature, as set forth in Senate bill No. 111, about which accusations of fraud have been made recently.

This bill No. 111 was passed to amend the laws of 1915, in regard to the issuance of bonds to construct waterworks systems, or other public works, by purchase or otherwise. My information is that Pocatello has purchased a waterworks system, and in order to extend and repair it, has voted bonds for the latter purpose, and bond buyers refused to take the bonds because the statute of 1915 was insufficient to grant the power to repair waterworks.

Section "B" of the 1915 statute provides that cities have the power to extend and repair public works, and amount to acquire by purchase or otherwise a waterworks plant, but such statute did not provide that bonds could be voted for such contract, or that they should be.

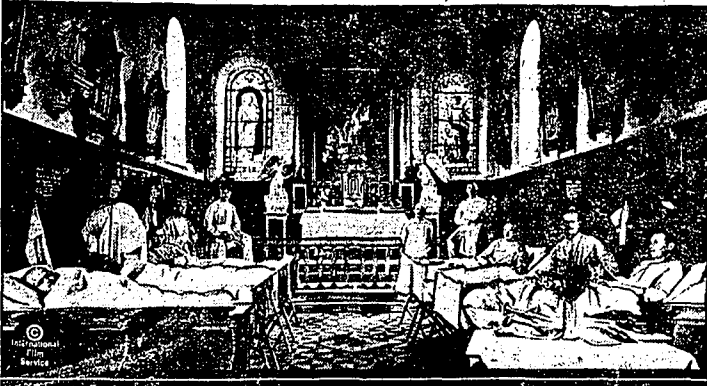

After the above provision is subdivision "C" of the bill which authorizes the city to vote municipal bonds to extend and repair public works, by purchase or otherwise, a right and power plant, and then following such provision is a provision that the amount for which bonds may be issued for acquiring and power plants shall be determined by the city council.

The elimination from the bill, an originally drawn of the words "to extend and repair" was proper, because if these words had not been eliminated it would have been a repetition of the grant of power to extend and repair, and would have been voted on by the city council for waterworks plant which followed the power to vote sufficient amount for that purpose.

There is no doubt whatever but what the bill gives cities the powers which they had in the 1915 statute, together with certain additional powers, and the statute as amended is broadened and more favorable to cities.

Brotherhoods and Magnates Study Terms of Decision Sustaining Adamson Law

Roads Will Seek Increase of Rates--Union Chiefs Think That Court Erred in Holding That the Law Makes Strikes on Railroads Impossible in the Future--Agreement Entered Into Before Decision Was Handed Down.

(United Press) WASHINGTON, March 20--The Brotherhoods and the railroad managers are studying conditions which result from the averting of the strike through agreement entered into Sunday morning, and the decision of the supreme court handing down later sustaining the Adamson law. It was definitely stated here today that the roads would ask for a raise in rates sufficient to cover the extra cost of wages due to the application of the law. The union leaders say that they differ from the court in its ruling that the Adamson law will prevent strikes because they believe that the measure had no such intention.

The Adamson eight-hour law is valid. The ruling of the United States supreme court Monday. Chief Justice White read the decision which declared constitutional the law passed under spectacular circumstances and in the closing eight hours of last summer's congress session. Justice McKenna read a separate opinion giving slightly divergent views. Justice McReynolds, while he concurred, was not flatly in favor of the law, but in a short statement conceded congress the wage fixing power. Justice Brandeis and many solid dissenting opinions. Vandewater concurred with Pitney and in part with Day.

STRIKE SETTLEMENT BOON TO STOCKMEN

Hay Supply About Exhausted and Shipments From Other Places Would Have Been Delayed by Strike.

"Now that the strike is off, we shall have hay from Osgood and Denver in a short time," said the principal proprietor of the Anchor Hay, Grain and Feed company yesterday, but in the meantime conditions are rapidly becoming desperate and had the strike not been averted a heavy rain, and loss of stock would have been incurred owing to feed shortage.

"Many farmers are short and demanding hay and the supply is practically used up, as everybody has been feeding from hand to mouth. The Utah Construction company, anticipating a shortage, went around and tied up what hay they could get, and many solid thinking that they could get hay enough at lower prices later to tide them over. The long winter caused the sheep in his herd west of Buhl. I have heard that a good many cattle have died around Holystad and Rogerson but I got that second hand and cannot vouch for its accuracy. I believe conditions will soon improve."

MISS COX DANGEROUSLY ILL. Miss Carman Cox who went to Long Beach with her mother, an account of her being three months ago is still alive but unconscious according to a telegram received here this afternoon, by her brother, Aubrey K. Cox.

COUNCIL DOES MUCH WORK LAST NIGHT

Many Matters of Public Interest Discussed--No Move to Resubmit Shoshone Street Paving.

The city council last night, besides calling the bond election for water works, gave N. J. Lucas leave to put in a gasoline tank at the corner of Fourth and Fourth street north, adopted and heard a report from Plumbing Inspector Murray, favoring the waterworks three feet under the surface and several other recommendations; read a report from the city attorney to the effect that under the present laws of the state it is impossible to draft a constitutional ordinance; also an opinion to the effect that a formal revocation of a license to the Crozier transfer company to cross sidewalks; heard a report from Street Commissioner Porter favoring the handling of garbage through the street department, which was filed for the present because of lack of funds to carry it out; adopted a recommendation of the street commissioner that signs be placed on corners showing the direction of streets, these signs will be 393 in number and cost about \$165; endorsed a plan to make a park of Block 78, at the Bickel school, the cost to be defrayed by individuals in the community who are interested; fixed the bond for D. E. Cannon at \$300; passed an ordinance on the sale of bonds voted for sidewalk intersections; a number of Togo street residents petitioned to get in the sidewalk district and succeeded; the meeting winding up by listening to a request from Mayor Sweeney to city officers to present estimates of cost of repairing their several departments at the second meeting in April.

No effort was made to provide for the resubmission of the proposition to vote bonds for Shoshone intersection paving, which it is understood will not be taken up until the waterworks situation is disposed of.

MANY INTERESTED IN COMING MEETING

Many Speeches to be Delivered at the Meeting--Everybody Urged to Attend.

Much interest is being manifested among the people concerning the meeting announced for Thursday evening at the rooms of the Twin Falls Commercial club for the purpose of getting together for a bigger and better land more united Twin Falls. A number of prominent men of the community will make talks on the needs of the city and vicinity which will be discussed.

A representative of the Twin Falls County Farm Bureau will be on hand to discuss the situation from the viewpoint of the farmers and to ask that a better understanding be arrived at between city and county.

A general invitation to all has been issued and it is hoped by those promoting the gathering and who desire the successful union of the community builders that everybody having the interest of the city and county at heart will be present.

CROSS OCEAN IN 40 HOURS IS THE CLAIM (United Press) ST. PAUL, Minn., March 20--Paul Stok, aged twenty-three, today claimed that he can fly across the ocean in forty hours by using in his engine a certain oil formula he claims to have perfected. He has a test formula to the United States government as a gift. Whether it has been tested is not known.

MEMBERS OF PRESIDENT'S CABINET SAY THAT WAR IS ALREADY EXISTENT

BELIEVES BEETS WILL GO TO EIGHT DOLLARS

President White of the Beet Growers Association Cites Interview of L. R. Eccles on Prospects.

"I believe that if the beet growers stand pat, they will win out," said Dr. John E. White, president of the Beet Growers Association yesterday, "and be prepared for the coming year or better than that ever for the company. In proof of this I will call your attention to the fact that a Beets in the Salt Lake Tribune of Sunday, I have again written to the company, I refer to the situation and when you consider the condition which Mr. Eccles says, will prove it evident that it would not only be right for the company to pay the price asked, but that it would be good business for it to do so."

The following are some of the important features of the interview referred to by Dr. White: The beet country will face a sugar famine unless the government in 1917 crops can be placed on the market in the opinion expressed by L. R. Eccles, general manager of the Annual-gated Sugar company, who returned today after a London trip, through Cuba and the Panama canal zone. Mr. Eccles bases his opinion on the fact that the season's output of Cuba's cane sugar has been overestimated and that England has made deep inroads on the supply that usually reaches the market in this country.

"To my mind it will not be a question of how high sugar will go, but a question of getting it at all prices. While I was in New York a few days ago the information was received that some of the retail stores in the east at the present time cannot get an adequate supply. Of course, such a condition is not unusual here for we protect our territory by keeping a sufficient stock of sugar on hand to supply all normal needs. We are not stockpiling on the stocks in possession of our country, but we are so much more sugar we can allow to go into foreign territory."

Mr. Eccles said the question of the American beet growers' share of the sugar for 1917 depends entirely on the amount of acreage the farmers will contract. The company, he said, would contract only with the farmers of the territory which grows it.

SAM DURFEE FAILED TO FURNISH SUPPORT

Gave Thirty Days From Probate Court--Current Rumors Seemed to Have Slendered Sam.

On complaint sworn to by Probation Officer V. H. Ormsby a thirty day sentence was given to Sam Durfee on the charge of failure to support his wife and family. According to the complaint, Sam Durfee's obligation tended to minimize Sam's been an undesirable citizen affirmatively as well as negatively. It was reported that his wife was in a dangerous condition as a result of his attempting to enforce implied powers supposed to be vested in a husband in consequence of the "obey" premise in the wedding ceremony and that he had used what he considered reasonable force in the way of chastisement to secure obedience. This report seems to have been unfounded, and Sam's trouble seems to have been the outgrowth of sine of omission in the way of failure to apply any system of physical exertion, accumulation and distribution rather than the result of any "overt act."

PRESBYTERIAN CHURCH CONTRACT IS LET

North Pacific Construction Company Will Erect the Building--Rebuilding Soon as Weather Permits.

The contract for the construction of the new \$25,000 Presbyterian church in this city has been let to the North Pacific Construction company, which is represented here by George Mittry, one of its members. The company will put on a large force of men and will complete it as soon as possible. Work will begin as soon as the weather permits.

NEW TORPEDO PROVEN GOOD BY GOVERNMENT

(United Press) WASHINGTON, D. C., March 20--Chief J. Field, director of Cyrus K. Field, the man who laid the first transatlantic cable and turned it over to the American government, has been assigned to match and will be of a modern and beautiful design. Mr. Mittry said that his company has the contract for the Idaho Falls school building which is to be erected at a cost of \$75,000 and the new three story hotel at Rexburg, which is now under construction.

PLANS PERFECTED FOR PROTECTING SEA LANES TO EUROPE

Calling of Congress Together For Issuance of Formal Declaration Not Expected Until Armed Merchant Ships Are On the Sea.

(United Press) WASHINGTON, March 20--A formal declaration of war on the part of the United States will depend upon the fate of the armed merchant ships of this country in the opinion of those best informed here. It appears today that President Wilson will not call congress together for the purpose of declaring war formally on account of the sinking of the freighters Saturday, but the underlying aggressive steps. However, the cabinet in session this afternoon and new developments may follow. Several members of the cabinet expressed the opinion before going to the meeting that a state of war actually existed.

In view of the confirmation received through consular reports of statement that the status of relations existing under warning, leaving survivors drift fourteen hours, conditions are rapidly assuming definite shape. It is expected that President Wilson will publicly announce the status of relations existing between this country and Germany within the next twenty-four hours, as the next step toward protecting the people, for possible war rather than probable hostilities. While it is taken for granted that a state of war exists, few believe that the president will state this in terms, at least the status of relations existing under a declaration of war on his part; an exercise of power reserved to congress.

It is known that the government plans joint action of the United States with Great Britain and France in patrolling ships in lanes between this country and Europe. The plan calls for the use of the United States of the proposed big fleet of destroyers which, it is said, are being assembled. The patrol boats will protect shipping along the coast of the United States and France; will take care of the barred zone near their own coasts. The navy and army departments are rushing preparations.

That war will come speedily is generally believed. The fact that the Socialist party has called a national convention to meet at St. Louis to determine the attitude of the organization in case of war is taken to mean that even the extreme pacifists believe a conflict practically inevitable. President Wilson today replied to the report of the Socialist party, not rejecting the proposal that an embargo be placed on arms by this country and asking co-operation among neutrals against the sale of arms to Germany.

Reports from the French front indicate that the Germans are still showing reticence. This with the announcement from London that Arthur Balfour, the Conservative leader, would take up the question of settling the Irish question in the imperial conference over which he is presiding, indicates that the interest of the Allies, which will result in strengthening the empire and the allies, coupled with the consequences which are expected to flow from the Russian revolution, make many think that the German star is on the decline. The United States, it is thought, has been a preparer to recognize the revolutionary government in Russia. Advice from Russia say that it was Grand Duke Nicholas who induced the emperor to recognize the German action, and that the war will at once be rushed under the direction of the grand duke.

ORDINANCE NO 208  
AN ORDINANCE PROVIDING FOR THE SUBMISSION TO THE QUALIFIED VOTERS AND ELECTORS OF THE CITY OF TWIN FALLS, AT A SPECIAL ELECTION TO BE HELD IN SAID CITY ON THE 24th DAY OF APRIL, A. D. 1917, THE QUESTION OF AUTHORIZING THE CITY COUNCIL OF THE SAID CITY TO ISSUE \$420,000.00 IN BONDS OF SAID CITY, OPTIONAL AFTER 10 YEARS, DUE 20 YEARS FROM DATE, TO BEAR A RATE OF INTEREST NOT TO EXCEED 6 PER CENT, FOR THE PURPOSE OF BUILDING AND CONSTRUCTING A WATER WORKS SUPPLY AND DISTRIBUTION SYSTEM FOR THE SAID CITY, CONSISTING OF A RESERVOIR, FILTRATION PLANT, SUPPLY AND DISTRIBUTION MAINS, AND MATTERS IN CONNECTION THEREWITH; AND OF SUBMITTING TO THE QUALIFIED VOTERS AND ELECTORS OF THE SAID CITY AT SAID ELECTION THE FURTHER QUESTION OF AUTHORIZING THE CITY COUNCIL OF SAID CITY TO ISSUE \$176,000.00 IN BONDS OF SAID CITY, OPTIONAL AFTER 10 YEARS, AND DUE 20 YEARS FROM DATE, TO BEAR A RATE OF INTEREST NOT TO EXCEED 6 PER CENT, FOR THE PURPOSE OF CONSTRUCTING A PIPE LINE FROM ROCK CREEK AND THE HIGH LINE CANAL TO CONDUCT WATER FROM SAID SOURCES TO THE RESERVOIR.

Whereas, in the opinion of the City Council it is necessary in order to furnish to the citizens of said City of Twin Falls, Idaho, necessary protection from fire, and for the furnishing of water in sufficient quantity and of satisfactory quality for domestic and commercial purposes, that the said City should build and construct a complete water works system for the supply of water to the City and the citizens thereof, to supplement and take the place of the system now owned by the City, said present system being inadequate in size, in a bad state of repair, and increasingly difficult to maintain because of the materials of which it is composed and methods employed in pipe laying, the size of the pipe and the length of time it has been in service, and that said new system should be owned, operated and maintained by the City, and that the question of the building and construction of said new system, and the issuance of bonds therefor, should be submitted to the qualified electors of the City of Twin Falls, and:

Whereas, the said City did heretofore employ one Louis C. Kelsey, an engineer of experience and ability, to plan and design a water works system for the City of Twin Falls, and to prepare specifications therefor, which plan and design and specifications have been completed and received by the City Council and are now on file with the City Clerk of said City, and:

Whereas, in the opinion of the City Council a water works system in accordance with said described plans and the specifications therewith, should be built and constructed to supply the present needs of said City, and to provide for a reasonable increase in the population of said City, and:

Whereas, said plan provides for a supply and distribution system, which includes a reservoir, filtration plant, and distribution mains, and matters in connection therewith, which said supply and distribution system may be used in connection with the present source of supply, or such other as may be deemed advisable, and:

Whereas, said plan also provides for a pipe line, and matters in connection therewith, from the High Line Canal of the Twin Falls Canal Company and also from Rock Creek, to connect said source of water with the reservoir, and:

Whereas, the Council does deem it advisable at this time, and as approximately to this time as may be possible, to have the qualified voters and electors of the City of Twin Falls, determine by election whether the plan and design therewith, and the matters in connection therewith, should be by the City built and constructed, by authorizing the issuance of \$176,000.00 in bonds to defray the expense of building and constructing said pipe line and matters in connection therewith, substantially according to said plans and specifications. NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND THE CITY COUNCIL OF THE CITY OF TWIN FALLS, IN TWIN FALLS COUNTY, STATE OF IDAHO:

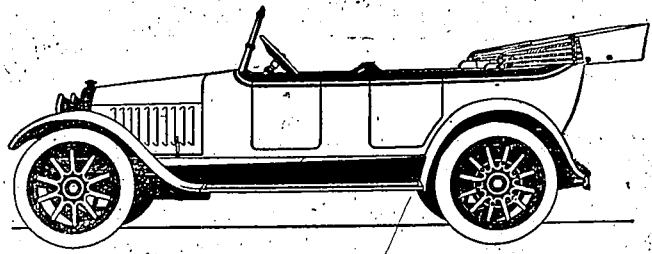

Section 1. That at an election of the voters of the City of Twin Falls, Idaho, for the purpose above set forth, is hereby called for Tuesday the 24th day of April, A. D. 1917.

Section 2. That at said election the voters, qualified to vote, on the said propositions shall be: those duly qualified electors of said city who are taxpayers under the law, and who have paid a property tax or were liable to pay a tax upon real or personal property within the corporate limits of the City of Twin Falls in said city in year next preceding said election; said election shall be held on the 24th day of April, A. D. 1917, at which election there shall be submitted to said qualified electors the question of building and constructing the supply and distribution system, including the reservoir, filtration plant, supply and distribution mains, and all matters in connection therewith, as shown by the plans and specifications prepared by Louis C. Kelsey and now on file with the City Clerk, for the purpose of supplying said city and its inhabitants with water of satisfactory quality and in sufficient amount for present and probable future needs for domestic, fire and commercial purposes, and to provide for the payment therefor by the issuance and sale, of bonds of the bonds of said City in the aggregate of FOUR HUNDRED TWENTY THOUSAND (\$420,000.00) DOLLARS, to be hereafter issued pursuant to ordinance to be hereafter passed by the City Council of said City, in the manner, form and terms as required by law, said bonds to mature TWENTY (20) years, and to become optional TEN (10) years from issuance, to bear interest at a rate not to exceed six per cent, per annum. The City Council shall provide by ordinance for the levy of a tax to redeem said bonds and to pay the interest thereon as provided by law, provided that no action or proceeding by the City of Twin Falls shall prevent the application of any or all of the net

## Make Your Dollars Count

# Come See the Chalmers

Chalmers 7-Passenger, \$1350

What is it that sets Chalmers cars apart from all others? Why is the Chalmers a better value than many other cars —some of much higher price?

Here are a few reasons. Only a few. Read them. Then come to us and let us prove to you that meaning of the word *Quality* in a motor car.

### Materials

The Chalmers, inch for inch, pound for pound, stands high above the other cars near it, in size or price.

Chalmers selects only the finest raw materials. For the frame—carbon steel. For the axle shafts and propeller shaft—chrome nickel. For the front axle—drop forged carbon steel. For the motor casting—close-grained gray iron. For the rear gears—nickel steel, heat treated to secure hardness and toughness. For the transmission housing—aluminum alloy.

So, it goes throughout the car from end to end. Examine the Chalmers carefully. The deeper you go the deeper you are impressed with the quality of Chalmers materials.

### Manufacture

Chalmers builds "from the ground up" in Chalmers own shops. Motors are Chalmers built, from rough castings to the final test. Built with skill, perfect facilities and untold care.

### Motor

The motor is a light weight, high power six. Walls are tested for uniform thickness, to prevent the possibility of distortion and loss of compression.

A specially designed intake manifold improves carburetion. Handles fuel economically. Insures easy starting in cold weather.

The crankshaft is designed to transmit maximum power of the motor without distortion or vibration. A one-piece crankshaft of drop forged carbon steel, heat treated. Noted for sturdiness. Strength, rigidity. Balanced while rotating at high speed on a special machine. The balancing weights are a unit with the shaft.

### Transmission and Axles

There is quality in the transmission. In the housing. In the gears. With Hyatt quiet bearings. Gears and shafts are made of nickel-steel, case hardened. The transmission housing is cast from aluminum alloy.

The axles are amply strong to withstand all the stresses of hard service. The front axle is an I-beam drop forging of carbon-steel. Spindles are extra large. With Timken roller bearings. A disc protector keeps out dust or grit.

Rear axle: light, strong, simple. The identical type used on some of the most costly American and European cars.

### Frame and Body

An exceptional frame. Light and stiff. Study and strong. Made of a pressed channel section, 5 inches deep, 2 1/2 inch flanges, 3/8 inch thickness. Braced by 3 cross members and reinforcing plates.

A sheet steel body. With frame of select ash. Genuine leather upholstery. Luxurious cushions. Soft and deep. High seat backs. Wide seats. Four bow top. Covered with Pantasote. Curtains equipped with quick and easy fasteners.

### Equipment

Equipment is costly and complete. Westinghouse electric starting and lighting. Willard 80 A. H. Battery. Stewart-Warner Speedometer and Vacuum feed fuel system. Gun metal finish instrument board. Nickel-plated foot rest. These features indicate the high quality of equipment used on the Chalmers cars.

### Appearance

Body lines are distinctive. Unique. The radiator is high and narrow. The hood is straight with an unbroken sweep. The windshield is the popular slanted type. Molded oval fenders harmonize with the body.

All of the above means Quality. The kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers

**ARGENTINE MAD AT SPANISH AMBASSADOR**

Opposition to Emigration From Spain to South America By Diplomat Cause of Indignation.

(United Press)  
BUENOS AIRES, March 16.—Ambassador Solery Guardiola of Spain has been under violent attack by a section of the Argentine press today because of his message to the Madrid government advising that emigration to the republic be discouraged for the present. The ambassador says he thinks he was doing right by his own countrymen to warn them of existing conditions here. La Nación defends him, agreeing that Argentine is not in a position to take care of immigrants just now.

**A WORD TO THE WISE**  
(Written for the Times)  
If you want the latest news,  
Let it drive away your blues—  
Grafty you, and amuse—  
Livest paper you could choose—  
Read the Times.

Why delay or hesitate?

**Berger Items**

(Times' Special Correspondence)  
Carl Rutter and family moved onto C. E. Carder farm on the Twin Falls tract, which he has leased for the ensuing year.  
Mrs. F. W. Berger visited with friends and relatives a few days last week in Twin Falls.  
The Galatz family moved to the L. O. Evans ranch which they have leased for the coming two years.  
Big preparations are being made for another good program for the literary Friday evening, March 23. Remember the date.  
Our streets are in very bad condition. When the snow thaws or when it rains, and when going from one business place to another, one has to wade through mud knee deep. It seems that our present mayor and council cannot be appraised from their long sleep, sweet slumber. Seemingly the officers of our commercial club are also from the back woods; as to the civic league, whose members are generally wide-awake, and on the alert, we all do not mention their backwardness at the present time. If the council wishes to economize because it is on the Salmon River tract, thereby

of the judges was made in favor of the negative. C. E. Carder treated the audience to "classical" music on his organ, which was accompanied on the harp by Miss Hess. There was a fine exhibition of Mrs. Janley's wax works. The respective figures represented, evidently testified as to the refinement and taste of the artist, as to her line of work. A better and more complete lot of figures could not have been produced. The Berger Booster was cordially edited by J. M. Pierce.

## Fair Treatment Knows No Size In GOODRICH BLACK SAFETY TREAD TIRES

GOODRICH'S FAIR TREATMENT backs up Goodrich Tires, big and small, with the same fairness to all.

Either the tire, whatever its size, makes good the Goodrich pledge, or Goodrich wants it back to square its shortcomings.

Goodrich workmanship turns forth tires, little and big, with the same watchful pride and honor. All are the best fabric tires that can be made.

They are equally obligated to fulfill the high standard of service Goodrich sets for its tires.

You take no chance with SIZE or ANYTHING ELSE in a Goodrich Tire.

**Universal Service. Certain-teed stands for universal service.**  
In every part of the world you will find Certain-teed products "doing their duty", in all kinds of weather and under all conditions—rendering Universal Service of the best kind.

**Certain-teed Roofing**

gives Universal Service to all who use it. For factories, office buildings, farm buildings, garages, etc., CERTAIN-TEED is the efficient roof. It costs less to buy, less to lay and less per year of life. It is light-weight, clean, sanitary, weather-proof and fire retardant. For residences CERTAIN-TEED Slate Surfaced Shingles have all the advantages of CERTAIN-TEED Roll Roofing, plus artistic beauty. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply), but lasts longer than the period of guarantee.

If you are building or need a new roof, it will pay you to investigate CERTAIN-TEED before deciding upon any type of roof. Sold by leading dealers all over the world at reasonable prices.

**Certain-teed Paints and Varnishes**

give Universal Service because they are good, dependable products, honestly made from high grade materials, by expert paint men, and guaranteed to give satisfaction. Mixed by modern machinery which eliminates the uncertainties of hand mixing and insures absolute conformity to the expert's formula on the label. The extensive organization for selling and distributing all CERTAIN-TEED products reduces costs to a minimum and makes it possible to sell CERTAIN-TEED Paints and Varnishes at very reasonable prices.

Whether you do your own painting or employ a painter it will pay you to insist on getting CERTAIN-TEED. Any good dealer can supply you. If he doesn't carry CERTAIN-TEED he can get it for you.

## THE WATERWORKS QUESTION

The ordinance passed by the city council, and published in full elsewhere herewith, brings "The Waterworks Question," in its entirety, squarely up to the voters of this city. All will undoubtedly commend the arrangement by which this is brought about at the regular city election, to be held on April 24th next, and the trouble and expense of a separate poll avoided.

In brief and simply stated, the voters of Twin Falls are called upon to decide at that time two questions, viz:

- 1.—Shall six per cent. ten to twenty years bonds in the sum of \$420,000 be authorized for the purpose of construction of water supply and distribution system in accordance with the Kelsey plans.
- 2.—Shall six per cent. ten and twenty bonds in the sum of \$176,000.00 be authorized for the purpose of constructing the pipe line, etc., that will permit the use of Rock Creek and High Line water.

As is no doubt evident, a majority vote in favor of question number one will give us our present source of water only, with adequate reservoir, filtration plant, supply mains and distributing system. The second question (really negligible unless the first be answered affirmatively) simply adds the water from Rock Creek and the high line canal to the present source of supply—absolutely vital only in case the line be shut off in winter, as it will be at some time in the future.

The course of the city council in submitting the two questions separately will doubtless commend itself to the voters, who are thereby given greater opportunity for discrimination than otherwise. Finally, however, the judgment of each voter in conservation of the best interests of our city—and, therefore, of himself—should and will determine how his vote be cast upon either proposition.

This brings us to the great question: What, in this matter and at this time, is best for Twin Falls? And, as has been previously set forth, this is a great and vitally important query. It is generally known and admitted that our present water supply and distribution is unsatisfactory and inadequate.

But before paying a half million dollars for a new one, we should know that we have prospect of getting what we pay for. Without listening to rumors, we should at least know that the new system is planned and its construction will be supervised by an engineer whose record and standing, both personally and professionally, are all that that should be. Such knowledge should not be difficult of attainment. Our city council is evidently satisfied, so far as its membership is concerned. If any one doubts or dissents, now is the time to speak, or act, or both!

## THE KAISER'S WAH

In everything but the paper dictum, a state of war has been existing between Germany and the United States ever since his passports were handed to Count Von Bernstorff—ever since the act of piracy that caused them to be handed him; and it might be said, so far as Germany, judged by her acts instead of her promises, is concerned, ever since the horrible crime of the Lusitania.

Whether the president declares the existence of a state of war, as he is said to be expected to do, within the next forty-eight hours or the next forty-eight days, he certainly recognized it when he armed merchant vessels, with instructions to fire at German craft on sight. And it is further recognized in the very latest news regarding the arrangement by which the United States will join with England and France in patrolling and protecting the commerce lanes.

clison and uncertainty, has been passed and is done.

It should be ever remembered however, that it is not against the German people, en masse, that the United States has bitter cause for complaint and reprisal, but against her autocratic and militaristic government—against the Kaiser, and his advisers. This is a distinction well to keep in mind, as the future prosa dealings, with the former and without the latter.

The last few days on the Intenso battle line through northern France have been marked by the greatest recession of the taut front yet recorded. For forty-five miles along the British part of the line, and for thirty-seven miles in front of the French, the Germans have given up a devastated zone ten to twelve miles in width. This does not spell defeat, as the new position will be found fully prepared for resistance; but it does mean that the former German front, with its wonderful defenses, had been literally battered to pieces and rendered vulnerable, and that what happened there may be expected again so soon as the invading works and forces are fully prepared.

## HOG CHOLERA FIGHT CARRIED ON AT RIGBY

Dr. Sullivan and Henderson Address Big Meeting—Disease Eliminated in Twin Falls.

The fight on hog cholera has begun seriously in the Rigby neighborhood in the Idaho Falls district, according to Dr. W. A. Sullivan, who returned Tuesday afternoon from that point after holding a veterinary service at which he and Dr. L. C. Henderson gave addresses. There are thirty farms under quarantine around Rigby and twenty around the town, and several farms were out and joined the organization.

The activities of the United States bureau of animal industry assisted by the state veterinary service has eliminated hog cholera from the Twin Falls and Minidoka projects where there have been only a few isolated cases during the past year.

## CASTLEFORD BOOSTERS ARE WORKING ENTHUSIASTICALLY

Castleford has a real live booster organization, which has been named the Public Utilities club of Castleford, says the Buhl Pioneer. The first steps were taken to organize the club last Friday and now there is a membership of 27 with prospects for many more. Business men of the town and farmers alike belong to the organization, which has for its object the betterment of the town and the surrounding country. Meetings are held every Tuesday evening and on the first Saturday of every month at two o'clock a business meeting is held.

The officers of the club are as follows: President, R. E. Betzler; vice president, E. W. Kinyon; secretary-treasurer, Lou Miller. The executive committee is composed of the above named officers and J. H. Seaver and John A. Noble.

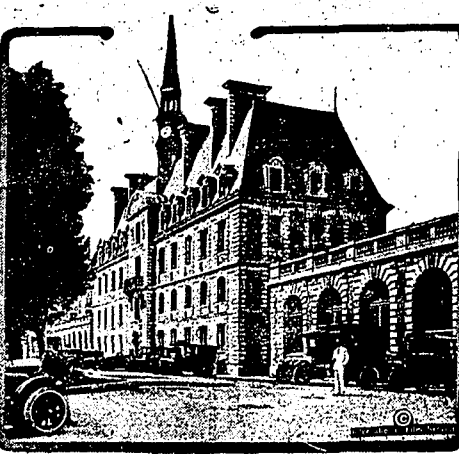

## Canada Has Widest Street

In Edmonton, Alta., Portage avenue, is claimed to be the widest street in the world. The street is 1,001 feet wide.

## Buhl News

(From Buhl Herald)  
According to a petition circulated by Mayor H. W. Herman among the owners of abutting property in a proposed paving district of eight blocks in the center of the city, it would seem that the paving of the streets is not only a desirable thing for the people but very much desired. The paving would be some sort of asphalt and would cost in the neighborhood of \$2 per foot or \$25-foot frontage. The cost would be assessed against the abutting property. The only expense to the city would be the five intersections.

## AMERICAN HOSPITAL AT NEULLY

America has already, in France and on the western front, given the allies wonderful assistance in the Great War. The American Hospital at Neully, near Paris, is entirely supported by Americans, and offers from this huge hospital are scattered throughout the western front and the towns of France.

pany, was down from Twin Falls on Monday looking for a residence. Mr. Tate works with the automobile department of the company, and states that they are considering opening a sales room in Twin Falls. Mr. Tate was unable to find a residence, but says that he will leave his family in Twin Falls for a few weeks, believing that he can get a house here when school starts.

A meeting has been called of the Farmers Union stockholders on Saturday, for the purpose of discussing plans of enlarging the warehouse, and of adopting a new set of by-laws. A free dinner will be served at noon by the ladies and all are invited to come. Voluntary services are being arranged for Easter Sunday. The new organ for the church has not arrived, but Mr. Bizenhammer, who has had charge of the construction of the new church, says that he expects them at some time during the next week. The dedication services will be held at 11 o'clock Easter morning.

A petition was presented to the Buhl school board Monday evening, urging that dancing be eliminated from the high school as a part of the social entertainment. The petition was signed by a large number of parents and other citizens of the district. Upon motion the petition was received, but filed for future consideration. All of the members of the board were present Monday evening, and there was not a dissenting vote on the motion. Each member of the board expressed himself as not favorable to dancing, but Mr. Kanoo summarized the opinion of the board when he said, "I am opposed to dancing, but if it must be carried on outside of school, and it seems it must, we will better have it here where we can supervise it."

## PROTEST AGAINST MILITARISM IN THE PUBLIC SCHOOLS

A Symposium of Anti-Preparedness Propaganda Based on the False Assumption That Our Government Will Engage in a Campaign of European Belligerency.

(Published by request)  
Peace, Peace! All say they want peace, but all have not the same idea of attaining peace. Their ideas vary as the shades from lightest day to darkest night. The history of the world's civilization offers a valuable lesson, by which we may gain knowledge for the direction of our affairs in securing peace.

Prior to the present war the European countries were preparing, they thought for peace by cultivating the military spirit and drilling their young men in the use of arms. In the face of their present plight as an object lesson showing the foolishness of their peace theory, it seems strange that this class of people are accepting their idea and pleading with the United States to adopt the same "peace" program. A program which is largely responsible for the deluge of blood in Europe.

The extreme advocates of "militant peace" are represented by the various defense leagues of the country, through which they are making a desperate effort to introduce militarism into the public schools. Word has recently come that the American Defense Society is urging Mayor E. M. Sweezy, Hal G. Blue, superintendent of schools, and C. H. Dowman, principal of the high school, to use their influence toward the adoption of militant training for the junior and senior classes in the high school of Twin Falls. Believing that such training opposes the growth and development of the highest type of citizenship—the spirit of brotherhood, of international comity, of service, of love—ideals to which the world aspires! We, the members of the Twin Falls Social Level, protest against the adoption of militarism in our public schools. To strengthen our protest we quote the following from some of our recognized leaders in education, Child Study, Social Welfare, and Moral and Religious Training:

discipline from within, the self-control and the self-direction, which it is the aim of military discipline to destroy." David Star Jordan, Chancellor Lehigh University, University of Pennsylvania, N. E. A., 1915.

In contrast to the methods that led to this catastrophe in Europe, America should seek to make her children constructive citizens, sound in body, pacific in purpose and responsive to the demands of human brotherhood. We do not wish to encourage any one to ignore the heart of the child, but rather to strengthen his will for the common good and to train his intellect to appreciate truth and spiritual values.

"The introduction of the military idea in the schools through compulsory military training will defeat the realization and true object of efficiency, and will incite and encourage inflated and pernicious notions of national superiority, false conceptions of patriotism, and a distorted view of the relation of soldiering to social welfare.

"We need to get away from the idea that service of country is confined to chiefly concerned with the military life." Ira W. Howard, professor of education, university of California.

"The study of war, the military drill during the most impressionable periods of adolescent life, leaves in the subconscious depths of the soul the materials for war and the worst that human nature is capable of. If we avoid plunging the land of the stars and stripes into another hell, let us keep military drill out of the public schools." Nathan C. Schaffner, state superintendent of public instruction, Pennsylvania.

"Train a boy to arms, and he will want to use arms. Make a man a master of an art, and he thinks about his art; is proud of his art, wants to exercise his art. The capable surgeon does well to practice surgery, the successful writer to write; the preacher who can preach ought to preach. Teach the boy the use of weapons, and he will wait for the day to come when he can use weapons, as he thinks, legitimately. Military training for school boys means military desires for men and militaristic politics for nations and war for the world." Chas. F. Aked, former pastor of Fifth Avenue Baptist church, New York, and First Congregational church, San Francisco.

"The introduction of the military idea in the schools through compulsory military training will defeat the realization and true object of efficiency, and will incite and encourage inflated and pernicious notions of national superiority, false conceptions of patriotism, and a distorted view of the relation of soldiering to social welfare.

## Spartan Plaids For Young Men

Fashion decrees "Military Effects" and we have them; of course—See the new Better Suits; note the soft, loose and artistic effect—roomy, dressy and comfortable. The Spartan plaids are the great favorite with the young fellows who want real snap to their clothes.

## Society Brand Clothes

—Just a word about these famous clothes. It is not just a case of "clever advertising" with the manufacturer, but they possess the merits which they claim for them, and we are equally as enthusiastic because in a position to accurately determine what is superior to all others.

**NETTLETON**  
A NEW SHOE FOR DRESSY MEN  
A real classy "kick"—distinctively new—Comes in Mahogany shade, low heel, neat pointed toe, English last, and possesses quality too. Priced at \$7.

PERSONALS

Phone No. 28
Professor Robinson of the Gooding schools was in the city Friday and Saturday.
Miss Margaret Putnam left Thursday evening for Roxburg where she will remain on an extended visit with her brother.
Mrs. Charles H. Nelson departed for her home at Omaha, Neb., Tuesday, after an extended visit with her parents, Mr. and Mrs. Richard Valentine; also her sister Mrs. Gertrude Valentine and sons and other friends.

LOCAL BREVITIES

Phone 28
Hospital Bill Signed—The bill providing for the admission of patients to a county hospital was signed Friday by Governor Alexander.
Coal Shortage Averted—A coal shortage threatened the city again last week and had the strike been called would have left the city only a three days' supply of fuel. However, the calling off of the strike has averted this calamity.
Socialist Program Sunday—There will be a literary and musical program at the Moose hall Sunday night March 25, at 7:30 after which hot coffee and cake will be served free to all by the Twin Falls Socialist Local. Everyone is welcome.

ART WORK AT THE FRONT

The gray point on the helmet of the French soldier needs frequent renewal, and one of the duties he has seen having his headpiece touched up by a comrade.

JUDGE NORRIS NOT RELATED TO SENATOR

Son-in-Law of Twin Falls Man Does Not Want to Be Mistaken For Nebraska Abolitionist.

"Hearing that some Nebraskans here had confused him with the abolitionist senator, George W. Norris, my son-in-law, Judge W. F. Norris, formerly of Nebraska, but now of Washington, D. C., has written to me to ask that I correct the false impression," said Rinto Philcox Saturday. "Judge Norris is in no way related to Senator Norris, although a Republican, he is making speeches now in support of the policy of President Wilson in the present crisis. He was district judge two terms in Nebraska and later went to the Philippines with Judge W. H. Taft. When Taft became president, he appointed him to a position in the department of justice, in which position he was retained by President Wilson. He writes that he is contemplating the possibility of coming here to make his home before long and that he does not wish to be handicapped by an unpopular and undeserved reputation which he would have to overcome on his arrival."

HART SIGNS CONTRACT WITH SEATTLE CLUB

Through Efforts of Manager Christian, 'Barney' Gets Chance For Tryout With Dugdale.

T. B. Hart, better known as "Barney", who, for the past two seasons, has topped the mound for the Twin Falls baseball club, has signed a contract with the Seattle club in the Northwest league. He is expected to report to Manager Dugdale sometime before April 2. The signed contract is the result of efforts by Tyler Christian, manager of the Twin Falls organization, to gain a berth for Hart in the Northwest league. Mr. Christian wrote Manager Dugdale a few weeks ago regarding local pitcher "Barney" and received a contract last week, which he has signed and returned. The letter to Hart accompanying the contract stipulated that transportation funds would arrive in time for Hart to report at Seattle by April 2. Before coming to Twin Falls, Hart played one season with the Pueblo, Texas team, and the year previous pitched an A. O. Polytechnic college team at Fort Worth. Hart's work with the Twin Falls team has always been consistent and his departure will leave a big hole in the local staff.

AFTER ALL S. B. 111 DOES NOT

(Continued from page 1)

dispatch from J. S. Budge, special counsel for City of Pocatello: Under Senate Bill 111, the bond has been placed on the bonding power of citizens. A city may bond itself for a sufficient amount according to the exact words of the 1915 law, which authorizes a court to call one or more elections to vote for or against such amount as the council shall deem necessary. Pocatello has bonded for waterworks for \$700,000, far in excess of six per cent. The bond issue of \$300,000 has just been approved by a bond attorney and Senate Bill 111 was part of transcript submitted to him. Replying to an inquiry from Senator Alexander the author of the measure, Senator Cummings, said: "One Hundred Eleven leaves amount of bonds for waterworks entirely to council. Our bond would stand this bill although indebtedness for waterworks is over ten per cent. A careful reading of the bill should convince your attorney beyond a doubt." Senator Atherton appeared before the council last night and showed the telegram from Special Counsel J. S. Budge of Pocatello. Up to that point the opinion of the city attorney had not been made public, but when the telegram held by Senator Atherton was presented, the mayor remarked in substance that the local city attorney had covered the point.

McMillan News

(Times' Special Correspondence)
Frank Griffith, wife and two daughters, arrived last Sunday from Wyoming, having sold their ranch in that state. They are expecting to locate on the Twin Falls tract. Mr. Griffith is the son of R. Griffith of this place.
Herbert Cavender returned Tuesday from a trip to California with view of locating. He decided Twin Falls was the best bet and will re-locate in our neighborhood.
Miss Isabelle Clark is recovering from an attack of measles.
Miss Mabel DeWitt has a few friends last week to help celebrate her tenth birthday at the home of her aunt, Mrs. C. A. Baker. Those present were: Margaret and Bernice Strain, Henrietta Smith, Newa Jones and Edward Watshaw. All report a fine time.
Herbert Lambing and family were down from Klondike last week and spent Tuesday with his sister, Mrs. A. Strain and family.
Master Robert, little son of Jas. Herron, has been quite sick, but is better at this writing.
Carl Maxwell has returned from a two weeks business trip to Dulh.
Mrs. Jennie Nelson left Tuesday for home down the river to spend some time at the homes of Mrs. Gertrude Valentine and R. Griffith.
Clarence DeWitt spent Sunday with his parents in this neighborhood.
L. A. Snyder is a new employee in the land he retained from his farm. L. S. Jones has just completed

New Spring Models Are HERE--

We are showing the newest and cleverest styles ever shown on this tract

WARNER and the REDFERN CORSETS

\$18.00

The Greater IDAHO DEPT. STORE Twin Falls, Idaho

Dainty Silk Lingerie

The "I. D." store offers you the largest and best line of silk lingerie. A description of these exquisite garments is not adequate—Better come and see the silk night gowns, envelope chemise, bloomers, camisoles, etc. Many of them beautifully embroidered and others trimmed with dainty lace.

New Muslin Underwear

When you are thinking of muslin underwear, be sure to see the splendid stock at the I. D. Store for without a doubt it is the finest and the prices are very, very reasonable. We are offering some extra big bargains in sample lines.

State News

Report His New Hotel—The Calendon

Rupert's new hotel, was opened to the public last Thursday evening with a banquet and dance. Nearly three hundred people were present for the affair, when the manager was expecting possibly 150.

Burley Bonds Carry—The

and endorsing of the commissioners of the Burley Highway district to incur indebtedness to the amount of \$12,000 in excess of the regular funds placed at their disposal was carried by the large majority of 138 to 49, with all points heard from excepting the remote districts of Rat river, which cannot possibly affect the result.—Burley Advocate.

Soon to Complete State School—

Following the passage by the state legislature of the appropriation of \$55,000 for the institute for feeble-minded, located just north of Nampa, members of the board of trustees were in the city yesterday to inspect the buildings and to make plans for their completion. While the appropriation has not been approved by the governor, the chief executive has publicly stated that he favors the immediate completion of the building and there seems little doubt but that the funds asked by the legislature for this purpose will be allowed.—Nampa Leader-Herald.

Naturalists at 95—Mrs. Ragnhild

Olsen of Nampa, 95 years old, has applied for naturalization papers at the district court in Caldwell. She desires to become a citizen of the United States in order to secure final papers on a homestead. The federal examiner for the western department says that Mrs. Olsen is the oldest applicant for naturalization papers on the records in his district and he thinks perhaps she has the distinction of being the oldest person in the United States ever apply for the rights of citizenship.—Nampa Leader-Herald.

Closing Out Sale—Elmer Jones who lives two and a half miles east of Hansen has rented his farm and is selling out his live stock and farm and household goods as a result. He has a number of horses, cattle and hogs and a large amount of machinery and household goods. The sale will be held Tuesday, March 27, beginning after a lunch at 11:30 a. m. and will be conducted by Col. H. B. Lue.

Big Strike at Caribou—W. T. Wood yesterday received a telephone message from Jimmie Johns, a well known mining man at Caribou, stating that a big strike had been made on the lower level of the Legitimate and another on the Starlight. The first named mine belongs to Tacoma capitalists and the last to the Elkhorn mines company.

Will Purchase Machinery—W. H. Wild left Saturday morning for Pittsburg on a two weeks' trip for the purpose of purchasing machinery to install in the wood-working shop he plans building upon his return. The shop will be located near the mill and Mr. Wild expects to have a completely equipped factory for all sorts of high-class woodwork. Mr. Wild has had many years' experience in this line of work and for the past two and one-half years has been in the employ of E. A. Moon. Previous to that time he worked for J. A. Woods.

## M. L. Walker's Land Bargains

CALDWELL, IDAHO

No. 1—50 acres in high state of cultivation, near city limits of Caldwell, on electric car line, fine bench land, well drained, 60 acres in alfalfa, 10 acres in red clover, 10 acres winter wheat, small house, deep well with wind mill and tank, new garage, large granary, good out building, fine irrigation, blue grass lawn with shade. Perfect water right; all implements, wagon, harness and one span of horses goes with the ranch. Price \$100.00 per acre with very easy terms.

No. 2—50 acres, 3 1/2 miles from small town and railroad, excellent soil, high bench land; neat little cottage, other out buildings, fine water right, 7 acres in prunes, 40 acres in alfalfa and clover, balance cleared. Price \$62.50 per acre, easy terms.

No. 3—40 acres near the town of Wilder; smooth bench land, all in alfalfa producing 7 tons per acre in three cuttings; 6 room new house, barn for 8 head, a bargain for \$112.50 per acre, with terms.

No. 4—40 acres southwest of Greenleaf, 2 1/2 miles from car line, small house, barn for 6 head, 25 acres in alfalfa and clover; all in cultivation; a snap at \$90.00 per acre; government water right.

No. 5—120 acres near Wilder, all bench land, well drained, nearly all in cultivation, large part of ranch in alfalfa and red clover, fair buildings; government water right; price \$500.00 with terms.

No. 6—50 acres, 3 miles from Wilder, 1 1/2 miles from electric line, 12 miles from Boise, all fine bench land, fine water right, maintenance practically nothing, all in cultivation, in alfalfa and grain; 7 room brick house, deep well of pure soft water, acres bearing orchard and 2 barns, 1000 ft. highway, school house on one corner of ranch, a fine slightly location. This fine ranch belongs to a man who must be sold at once. Price, \$95.00 per acre, for quick sale; water right alone worth \$5000.00. This place carries a long time loan of \$5000.00 at 7 per cent with a conservative loan company which shows its value.

### ORDINANCE No 206

(Continued From Page 2)

lots shall be printed according to the following form, to-wit:

#### OFFICIAL BALLOT

CITY OF TWIN FALLS, IDAHO

ELECTION TO THE QUESTION AS FOLLOWS, TO-WIT:

QUESTION ONE: Shall the City Council of the City of Twin Falls be authorized to issue bonds of said City in the amount of \$420,000.00 to become due 20 years from date and optional for redemption 10 years from date, and to bear a rate of interest not to exceed 6 per cent per annum, for the purpose of raising funds for the building and construction of the water supply and distribution system, substantially according to the plans and specifications prepared by Louis C. Kelsey and now on file with the City Clerk of said City, to supply said system with water for domestic, fire and commercial purposes. Said system to be owned, operated and maintained by said City.

ANSWER: In favor of issuing bonds to the amount of \$420,000.00 for the purpose stated in question One..... ( )

Against issuing bonds to the amount of \$420,000.00 for the purposes stated in question One..... ( )

QUESTION TWO: Shall the City Council of the City of Twin Falls be authorized to issue bonds of said City in the amount of \$175,000.00, to become due 20 years from date and optional for redemption 10 years from date, and to bear a rate of interest not to exceed 6 per cent per annum, for the purposes of building and constructing the pipe line and the matters in connection therewith, from the High Line Canal of the Twin Falls Canal Company and Rock Creek, to the City reservoir, to bring from said sources water to the City reservoir. Said pipe line to be owned, operated and maintained by said City.

ANSWER: In favor of issuing bonds to the amount of \$175,000.00 for the purposes stated in question Two..... ( )

Against issuing bonds to the amount of \$175,000.00 for the purposes stated in question Two..... ( )

#### IMPORTANT INSTRUCTIONS

The voter shall place an (X) in the space opposite and to the right of the answer to the question above submitted, which (X) indicates his choice.

Said ballot shall be cast by each voter marking-said ballot by placing an (X) in the square opposite his choice upon each of the questions submitted in the same manner as provided for voting by the municipal and general election laws of the state.

Section 6. No ballot for or against either question submitted shall be received from any person who is not a qualified elector of the City of Twin Falls, under the law and as defined by statute. Said vote shall be canvassed as in the manner provided for municipal and general elections, in so far as applicable.

Section 7. The persons having names of persons, qualified electors of the said City of Twin Falls, are hereby appointed Judges and Clerks of said election:

Ward No. 1: Judges: G. C. Taber, F. W. Wilkerson, W. M. Lumbering. Clerks: R. C. Letsch, J. A. Schilling.

Ward No. 2: Judges: W. A. Malmick, I. H. Braubears, George B. Schwoiger. Clerks: C. S. McMaster, L. C. Paulsen.

Section 8. It shall be the duty of the City Clerk to arrange for and supervise the details of said elections, not otherwise provided for herein, and to provide for the canvassing of electors and the certification of tax-paying voters for use at said elections, in the manner now provided by law for the canvassing of municipal or state elections, and the City Clerk and the election officials herein designated are hereby authorized to procure from the county clerk of Twin Falls County, State of Idaho, any books, lists, forms, data, information, etc., as may be needed in order to properly conduct the elections herein called.

Section 9. The vote cast at said election shall be canvassed and returned in the same manner or as nearly the same as may be possible, as provided by law for the canvassing and return of votes cast at elections of municipal officers, and the state laws governing state and county elections.

Section 10. The City Clerk is hereby directed to cause to be published at least weekly a notice of said election, after the conclusive passage and approval of this ordinance, beginning said publication at least 30 days before said election is to be held. Said publication to be made in the "Twin Falls News," a newspaper of general circulation within said City of Twin Falls, in Twin Falls County, State of Idaho, and also to cause to be posted a copy of said notice at the place of holding of said election, and also at three public places within said city, at least 30 days before said election is to be held; and it is hereby made the duty of the Clerk of said City to issue and cause said notices to be published and posted as required by law. Said notices shall be substantially in the following form, to-wit:

PUBLIC NOTICE  
CITY OF TWIN FALLS  
WATERWORKS BOND ELECTION  
APRIL 24, A. D. 1917.  
Notice is hereby given that pursuant to a certain ordinance duly passed and approved pursuant to law by

Transfer & Garbage Hauled at Reasonable Prices

the City Council of the City of Twin Falls, State of Idaho, on the 19th day of March, A. D. 1917, and numbered 206, public notice is hereby given that a special election is hereby called in the City of Twin Falls, State of Idaho, to be held at sample room number two (2) in the Perrine Hotel building on the corner of Main avenue west and Shoshone Street, ward No. 1 of said City, and at Johnson's Auto Sales Company's sales room on Lot 17 and 18, Block 72, for ward No. 2 of said City, on the 24th day of April, A. D. 1917, at which election there will be submitted to the qualified electors of said City, are tax-payers under the law defining same, the following questions:

QUESTION ONE: Shall the City Council of the City of Twin Falls be authorized to issue bonds of said City in the amount of \$420,000.00 to become due 20 years from date and optional for redemption 10 years from date, and to bear a rate of interest not to exceed 6 per cent, per annum, for the purpose of raising funds for the building and construction of the water supply and distribution system, substantially according to the plans and specifications prepared by Louis C. Kelsey and now on file with the City Clerk of said City, to supply said City with water for domestic, fire and commercial purposes. Said system to be owned, operated and maintained by said City.

QUESTION TWO: Shall the City Council of the City of Twin Falls be authorized to issue bonds of the said City in the amount of \$175,000.00, to become due 20 years from date and optional for redemption 10 years from date, and to bear a rate of interest not to exceed 6 per cent per annum, for the purpose of building and constructing the pipe line and the matters in connection therewith, from the High Line Canal of the Twin Falls Canal Company and Rock Creek, to the City reservoir, to bring from said sources water to the city reservoir. Said pipe line to be owned, operated and maintained by said City.

The polls will be open from 8:00 o'clock a. m. until 7 o'clock p. m. on the day of election, to-wit, on the 24th day of April, A. D. 1917, at the place above described.  
The ballots which shall be used at said election will be supplied by the City Clerk to the Judges of said election and by them furnished to the voters.  
At said election no elector of the City of Twin Falls will be allowed to

vote unless he or she shall be a taxpayer under the laws of the State of Idaho. The term "taxpayer" under the laws means and includes those persons only who are qualified electors under the registration and election laws of the State of Idaho and who in the calendar year last preceding said election paid a tax or were liable to pay a tax upon real or personal property within the corporate limits of the City of Twin Falls, which has been assessed to them and belongs to them in said City.  
In witness whereof, the City Council of said City of Twin Falls have caused this notice to be published and posted as required by law this 20th day of March, A. D. 1917.

REESE M. WILLIAMS,  
City Clerk.  
Section 11. This ordinance, after its passage shall be recorded in the book of ordinances kept for that purpose, of said City of Twin Falls, and shall be authenticated by the signature of the Mayor and of the City Clerk, and shall be published in the Twin Falls Times, a newspaper of gen-

eral circulation within said City of Twin Falls and shall be in full force and effect after said passage, adoption, approval and publication.

Passed by the City Council this 19th day of March, A. D. 1917.  
Approved by the Mayor this 19th day of March, A. D. 1917.  
E. M. SWEELLEY,  
Mayor, City of Twin Falls, Idaho.  
Attest: REESE M. WILLIAMS,  
(SEAL) City Clerk.

Company to spend \$10,000—Construction work involving an outlay of approximately \$10,000 began Tuesday in American Falls for the Mountain States Telephone and Telegraph company. The work involves the removal of all telephones and telegraph poles to alleys, the placing of all lines in a cable to eliminate cross arms on the poles, and the betterment of the local telephone service.—American Falls Press.

**NOTICE FOR PUBLICATION (Maintenance)**  
To Stockholders of the Salmon River Canal Company, Limited:  
The Board of Directors of the Salmon River Canal Company, Limited, at a meeting held at the office of the company on February 10, 1917, levied a maintenance assessment for the year 1917, of fifty (50) cents per share on all outstanding capital stock, of fifty (50) cents per acre on all land for which stock has been issued, cover-

ing lands situated in the following townships and ranges, to-wit:  
Township 11 South, of range 14, 15, 16 and 17 East, Boise Meridian;  
Township 12 South, of ranges 15, 16 and 17 East Boise Meridian;  
Township 13 South, of ranges 15 and 16 East, Boise Meridian.  
Township 14 South, of ranges 15 and 16 East, Boise Meridian.  
Said maintenance assessment is payable at the office of the company in Hailoy, Idaho, on or before April 1, 1917, and if not paid by said date is subject to an interest penalty at the rate of eight per cent (8 per cent) per annum, and no water will be delivered until all charges are paid.  
When remitting please state number of shares and sub-division of the land for which the shares are located.  
SALMON RIVER CANAL CO., LTD.  
By G. M. Hall, President.  
(SEAL.)

*—but pleasing your taste, isn't all*

Not by a long shot! Because lots of cigarettes may please your taste—you've never expected a cigarette to do more than that. But Chesterfields do something else besides please the taste—

Chesterfields just "touch the spot," they do what cigar smokers say a cigarette can't do—they "SATISFY"!

And yet, they're mild!

It's the blend—that's the idea! That, together with the extra high-quality of the Imported and Domestic tobaccos. And the blend can't be copied.

If you want good taste in a cigarette, and then more than that: a cigarette that "satisfies"—try Chesterfields, today.

## WESTERN CONSUMER'S WEEK APRIL 14-21

Mrs. R. W. Spangler Visits City and Finds Merchants Will All Take Part—Talks of Bread Riots.

Mrs. R. W. Spangler, associate editor of the New West magazine and in this city Sunday and Monday gathering data for an article on dryfying for her publication and arousing interest among the merchants in the observance of "Western Consumer's week" which will be held April 14 to 21, this year, in the states of Idaho, Utah, Montana, Nevada, Oregon and Washington.

This movement started six years ago in this city and later spread over the state. It then extended to other states and is now observed annually throughout the entire northwest on a week specially set aside by proclamation of the governors of the states. Mrs. Spangler was a resident of Twin Falls at the time that the plan was first adopted here and was largely responsible for its inauguration and success.

During her visit this week she talked with the merchants of this city and found that they were all enthusiastically in favor of observance of the week.

Mrs. Spangler says that on a recent visit to New York she was surprised to find how many were familiar with the name of Twin Falls. At the hotel at which she stayed Idaho potatoes were on the menu. She was in New York at the time of the bread riots three weeks ago. While the affair was still in the air she says that she understands that a motion picture man approached the crowd with a camera and cried out to the women to raise their hands and wave them, which they did, thus giving an impression that they were even more frantic than they were. However, Mrs. Spangler says that she believes that the rioters were really in need and were insufficiently fed and that they rioted because they knew of no other way to vent their feelings. On the other hand the contract furnished by the lavish expenditures on luxuries indulged in by patrons at the various fashionable cafes furnished food for thought on our problems and conditions.

Mrs. Spangler left Monday night for Boise to consult Governor Alox and other relative to the issuance of his proclamation.

## CAR TRAVELS 50,000 MILES IN THIRTEEN MONTHS

Ninety-four thousand miles in thirteen months may or may not be the world's record for an automobile in actual service of its owner, but it is admitted that the figure which is held by J. A. Van Horn of Los Angeles with his Chandler Six, is pretty close to a world's record.

For thirteen months Van Horn has been operating his Chandler Six in the transportation of newspapers and passengers between Los Angeles and Santa Barbara, during which time the remarkable mileage has been plied up.

The average run has been 237 miles a day, seven sets of tires were used, the car averaged 16 miles to the gallon, and more than 6000 gallons of gasoline were used at a cost not exceeding \$1200.

## IS GOVERNMENT SO PATERNALISTIC AND INQUISITORIAL THAT FREEDOM IS A MOCKERY?

By W. F. WILEY, Editor Cincinnati Enquirer

(By United Press Association.)

Columbus, O.—(Special) — At the annual meeting of the Associated Ohio Editors, W. F. Wiley, editor of the Cincinnati Enquirer, delivered an address, that has become a classic in editorial circles.

Mr. Wiley startled his audience of editors when he proved to them that the vaunted freedom of the press is no more. Here also excerpts from Mr. Wiley's address, which is considered one of the most fearless public utterances of the day:

More swiftly and as surely as the glacier erodes its resistance way down mountain slopes, sweeping before it all life and growth and development, so there is sweeping down on the press of America the relentless, cold, merciless non-American avalanche of governmental censorship.

It is inconceivable to my mind that Russiaization of the American press will be permitted to go on unchecked and unchecked. And yet the end of the effort to throttle us is not in sight. To the local efforts of Alabama, West Virginia and other states to prevent the circulation of newspapers containing advertisements of a certain character is added now the proposal of the congress of the United States to prevent the carrying by mail anywhere of newspapers containing such advertising matter. That the Federal Government has already been endorsed by the senate, and it reports may be believed, it will receive also the approval of the house of representatives.

There is pending, too, in the senate resolution, declaring that United States district courts shall have no power to declare an act of congress unconstitutional.

I am not here to make a defense of the liquor traffic, nor to plead for these newspapers and other periodicals that carry the advertising of this business. Personally, I have no interest in the business direct or indirect, nor have I ever defended it.

Speaking to you tonight as man to man, I may add, over that I am personally opposed to some change of law for many reasons, but I am more strongly opposed to the insidious effort, of which this proposed legislation is the opening wedge, to repeal or to emasculate Article I of the amendments to the Constitution of the United States, which provides that there shall be no abridgement of the freedom of the press.

It is an age old fight, my friends, this insistent effort to prevent the exercise of honest criticism of men and measures. It has its beginning in the dim, dark days when tyranny was rule, when kings could do no wrong and when he who temerarily raised his voice in complaint or criticism of the occupying the seats of the mighty paid for such indiscretion with his life.

Gentlemen of the Associated Ohio Editors, the battle is on. There is even now not alone a governmental censorship, but a governmental device of sly tentacles of an inquisition have been thrust menacingly and with sinister purpose toward complete official domination and control of editorial utterance.

Let us read a letter received by the editor of an Ohio newspaper with which most of you are familiar:

Sir:—There has been submitted to this office a copy of an editorial entitled "Why Not Regulate Everything?" purporting to have been published in Jan. 4, 1917, issue of your publication, with the suggestion that it was published for a valuable consideration, and should, therefore, have been marked as an advertisement in accordance with the provisions of the act of Aug. 21, 1912, a copy of which is inclosed.—This office will be pleased to have statement from you in regard to the matter.

Respectfully,  
A. M. DOCKERTY,  
Third Asst. Postmaster General.

The editorial referred to follows:

Why Not Regulate Everything?  
Opposition of the board of governors of the Cincinnati Advertisers Club to the Randall advertising bill pending in congress is timely and sensible. This measure, if enacted into law, is to withhold from the mails any publication—printed matter advertising intoxicating liquors for sale.

Enactment of this bill into law will establish a precedent which quickly and easily may lead to governmental censorship of all printed matter. If it becomes unlawful to publish advertising relating to the sale of intoxicating liquors, it will be but a step to prohibit the advertising of tobacco or underwear, of stockings, or of any other commodity in which a large portion of the public is interested. It would almost appear that a law so drastic in its operation would be in contravention of the constitutional guarantee to the press. Not because the bill in question relates to advertising of alcohol, but for the broader reason that it implies upon personal rights members of congress should study the measure seriously before committing themselves to its support.

You have before you indisputable evidence that an inquisitorial government is watching with lynx eyes every utterance in opposition to enactments of laws to throttle the press. Congress led by the forces, or under the domination of paid agents, is going to enact these laws, and it will go further. Having tasted the blood from one broken vein, it will cry for more from the gushing arteries of newspaper life.

Who made that suggestion to the post office department? Does the government of the United States employ paid inspectors to scan editorial utter-

ances of American newspapers, or has it secret alliance with the millions of sects and organizations, powerfully financed and skillfully offered, whose mission in life is to legislate people into morality and goodness? It matters not, my friends, whence emanates this insidious movement. It is enough to know that it really exists, that it is not a chimera or a myth. Such a letter is an insult to the intelligence and the integrity of every publisher in America, and there is no redress for the stultified affront.

Quoting from one who has made a long study of this insidious advance upon the freedom of the press, let these statements have place in your minds: The fight for censorship of the columns of the newspapers will not stop with attacks on liquor advertisements, or, indeed, with attempts to control advertisements.

Several states now prohibit the manufacture or sale of cigarettes, and it is inevitable that legislation against newspapers carrying such advertisements in these states will be urged. After the advertising department of every newspaper and magazine has been subjected to censorship, how can the columns remain free? What of those columns that carry the most important Sunday baseball information—indeed, why not suppression of Sunday papers and of Monday papers printed in whole or in part on the Sabbath?

But what of editorial liberty? If it be deemed that the editor's attacks and criticisms are hurtful alike to the individual and to society, is it not an act of hostility to the state and to the church for an editor to praise an old wine, or to refer indignantly to the "making" of a glass of wine or to oppose in any way the cause of prohibition?

How long will it be, I wonder, before American people are jarred into realization that soon they must look for legislation as to what they may eat or drink, as to what lines of business they may engage in, and as to how a newspaper may be edited, and what forms of advertising it may carry into the different states?

And gentlemen of the Associated Ohio Editors, we are to blame. We have created the Frankenstein that are now turning to rend us limb from limb. Drunk with power, riding a wave of fanaticism in a sea of paternalism, the creatures of our own making seek our destruction. The untold power of the press is no more. The locks of Sampson have been shorn by the Dollins, miscalled statesmen, and the press grovels before officialdom grateful for a look, a kind word or a less important blink than usual.

Intolerance of Officialdom!

Two years ago, before this body, I painted a picture of the growth of governmental officialdom which was more prophetic than I knew. Your attention was directed at that time to the increasing intolerance and intolerance of officialdom and the prediction was made that, unless checked and repressed with a stern hand, it would rise up to strike down its creators. It is in no spirit of arrogance or boastfulness that these facts are recalled, but it is in the spirit of honest humiliation. Our line of onslaught and commission are engulfing us. Instead of rising like valiant fighting men, true to conscience, to honor, to the spirit of freedom and progress of civilization, to strike down our abjects, we all like hoary dotards wrapped in the sackcloth and ashes of lament and repine, how long, O Lord! How long shall this endure?

Where are the forward looking men of today? Certainly not in the halls of legislation. Six legislatures from the Atlantic to the Pacific are feeble counterforces merely of a doddering congress. Here in Ohio why can we not have constructive legislation on the subject of taxation? The answer is painfully simple: because we lack constructive statesmen in the general assembly. Too great a percentage of the membership can not lift its ears from the ground to take a good, sensible, and sane view of the necessities of sections and taxing divisions remote from the ballistics to which they look for continued lease on official life.

A Dartmouth professor is sponsor for a story that aptly portrays the situation in which we find ourselves.

A householder was dismayed one night by the sudden extinguishing of the electric lights in his house. In a little while it became apparent that the darkness would probably continue through the night unless some action be taken to have corrected. Unable at that hour to secure the services of an expert electrician the householder hit upon the happy idea of detaching the batteries from his doorbells and connecting them with the electric feed wires. But no light resulted. The next day the experts came to remedy the trouble and happily explicated of the owner, remarked:

"Don't you know that it takes 500 times more power to produce light than it takes to produce noise?"

There is the whole situation in a nutshell. We are troubled with legislative statesmen, the thin dry cells of whose brains are just powerful enough to make unceasing racket, while great dynamic minds that might flood the world with legislative light and wisdom are disconnected from the machinery of government.
