Roads From Buhl and Rogerson to Jarbidge Pledged By Boards

Formal Resolutions Favor Fixing Lilly Grade According to Terms Agreed on With Buhl--Big Bond Issue Favored by Meeting--Committee Composed of One Man From Each Community Will Plan Road System for the County.

Pursuant to a resolution adopted at a mass meeting yesterday morning, the Twin Falls county commissioners, and the Buhl Highway commission...

NEW IRRIGATION DISTRICT FORMED

Hansen Butte Watering is Object of Organization Formed This Week at Murtaugh.

Another project for the watering of Hansen Butte is reported this week, being in the nature of the formation of a district at Murtaugh for the irrigation of lands...

Whether connected with the new move or not, it is reported that H. T. Stevens, who signed a contract with the company...

In the meantime the work of preparation by the other companies named in the preliminary report...

"Mr. Bowley, who is among the organizers of the district, mentioned to me some time ago that he would go in with us if we would buy out his Dry creek water right...

ALL READY FOR MEETING TONIGHT

A great deal in the street in the meeting tonight, it is manifested on the streets and among the people generally...

BLUE LAKES WATER FOR TWIN FALLS IS NOW PROPOSED

ENGINEER STURTEVANT GIVES OUTLINES OF PLAN AT MEETING LAST NIGHT.

POWER WOULD GO WITH THE PROPOSED SYSTEM

Power Would Be Generated at Clear Lake--Total Cost Would Be About \$300,000--Would Agree to Contract With City or Sell Water.

A proposition to put Blue Lakes water into the city with Clear Lakes power, at the same time to furnish 3000-horse power for electrical light and power to the municipality...

The Clear Lakes power is owned by W. C. Hazard of Buhl, and the water would be furnished by I. B. Perrine without extra cost...

The meeting was called to order by J. S. Bussell, chairman of the Jarbidge, Jarbidge Commercial club to represent that organization at the meeting...

In discussing the matter Mr. Hudson said that while the building of the Buhl road was endorsed, he wanted to point out the objection...

For a city of 11,000 the gross income should be \$67,575 for water alone. This should furnish a profit of something like from \$30,000.00 to \$40,000.00.

Berger Items

(Times' Special Correspondence)

T. A. Parrott was transacting business Friday evening. Our genial towpath promoter and representative of the Berger Mill & Elevator company, was over from the Magic City on business one day this week.

Vorne Morgan, a director of the Salmon River Settlers' association was a business visitor at the county metropolis Saturday.

Do not forget that the Emerson Literary club will meet in the Berger school house Friday evening, March 23. A very interesting program has been prepared by the committee and a large attendance and a good time is anticipated.

The Teague brothers have moved and taken possession of the E. Reed farm in Paradise valley, known as the Young place, which they have leased for the ensuing year.

Contractor E. L. Mollin was "doing" the Magic City Saturday.

On account of the irregularity of the trains on the Twin Falls-Rogerson branch last week E. J. Hornbrook secured a heavy rig and drove to Twin Falls Saturday evening to spend Sunday with his family.

Sam Criss and family, recent arrivals to the Salmon River tract from Twin Falls were pleasantly entertained at dinner at the home of Mr. and Mrs. Geo. McGregor Sunday.

D. W. Walton looked after business in Twin Falls Saturday.

Services will be held in the Berger school house Sunday at 11 a. m. and Sunday school will convene at 10. W. T. Pickett will officiate.

Guest Schott was a Twin Falls visitor Saturday.

Carl Stansbury, who owns a nice farm adjoining the city limits of Berger, also owners of the Stansbury addition of West Berger, has, with his family, returned to Berger, after spending the winter in Twin Falls. Mr. Stansbury and son, Worrill, will under the name of Stansbury and Son, engage in the agricultural pursuits on the Salmon this year.

Mr. Forbes is making preparations to erect a house on his place, having the material on the ground and other additions and improvements are in contemplation.

L. E. Edmundson, one of the prominent farmers of the Paradise valley, was a business visitor in Hollister Saturday.

Miss Ethel Lyman, teacher of the Haggard school, spent the week-end with relatives and friends in Twin Falls.

W. J. Douglas, a prominent and progressive farmer of the Haggard valley was a Twin Falls visitor one day last week.

Leonard Huddelma, who recently returned from Oregon is assisting E. J. Hornbrook, who is engaged in the production of woolen goods of the golden hoof.

Miss Lily Parrott and her brother, Roy, are recent arrivals to this community, coming from Whittier, Kansas. These young people are welcome to our community and will be the younger set of this community.

Chas. Luttmann and family visited with relatives in Twin Falls Saturday.

A. G. Ayers, one of the energetic and industrious farmers of Paradise valley has completed his 6000 barrel cistern.

Fred Haggardt, farmer, orchardist, spud specialist, and dealer in grain, and general farm produce, of Haggardt, was transacting business in Twin Falls one day recently. Mr. Haggardt is one of the bonanza farmers of the Salmon River tract, farming four hundred acres or more of the most fertile soil the sun ever shone upon. Mr. Haggardt has some substantial improvements on his place, forest trees are planted around his premises and also eighty acre orchard. Mr. Haggardt is an ardent and ardent believer in the production of potatoes, and plants from sixty to a hundred acres every year.

Mr. and Mrs. J. F. Logue were visitors at the home of Mr. and Mrs. E. C. Carter Saturday. Mrs. Logue was formerly a principal of Berger schools but is now teaching in Oakley.

Mrs. C. A. Shaw, who had enjoyed a week's visit with her parents, Mr. and Mrs. Davis, returned to her home in Twin Falls Monday.

On account of rush of work the writer will have to discontinue to act in the capacity of reporter for the Times from this section of the Salmon and will step aside for some one with an abler pen than ours.

Artesian City

(Times' Special Correspondence)
Mr. Hill has sold his dry farm to Mr. Orson Strong, and has sold his five acre tract in town to Chris Arstine. He is moving this week to the new place he expects to make his home for the present.

Orson Strong and son Laverne were here for a few days this week attending to their stock, farms, etc. Messrs. Rutledge and Porter were transacting business in Hansen Saturday.

George Honroth is working on the railroad work train and is still very sick with pneumonia.

The dance given in the hall last Friday evening was well attended, everyone having a good time. Miss Adamson of Burroughs is staying with Mrs. J. E. Dewart at present.

R. B. Randall and Joe Laurent were Twin Falls visitors Saturday.

Mrs. Essie Workman and Mr. and Mrs. Callen, were transacting business in Hansen Saturday.

J. A. Fuller was an Albion visitor this week.

Mrs. Wm. Moyes who has been visiting relatives in St. Charles, Idaho,

for the past three months, returned from there Sunday.

Walter Day of Twin Falls, spent the week end here with his parents. Clarence Dawson and Miss Gladys Stricker of Rock Creek attended the dance here Friday night.

Mr. Hayes of Churchill is visiting Herbert Haines this week.

Miss Georgia Stewart visited her parents for a few days this week. George Goodman left Monday for Los Angeles, where he expects to make his home.

Knuill Items

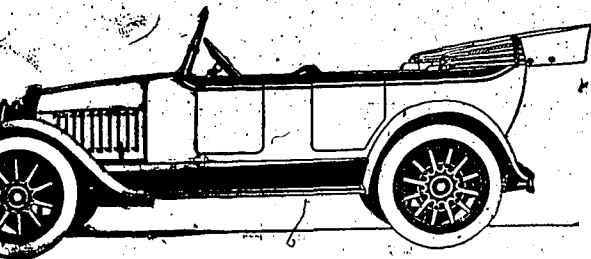

(Times' Special Correspondence)
Howard Conover went over to Rock Creek last Saturday on business. Everett Trueblood, one of our young men, has gone to Chippewa Falls, Wis., to go into business with his brother.

Mr. and Mrs. Fish came out last Tuesday for a visit with Mr. Kevan and children, but returned Thursday afternoon because Mrs. Fish was sick.

How long has it been since March snows blockaded the Rogerson branch of the O. S. L.? We can remember that in 1917 it did, for there was no train for two days last week. A snow plow went out on Saturday and opened up the road.

Oral Knuill finished his year's work in the agricultural course he is taking at Moscow, and returned home last Tuesday. Glad to see him home again.

The annual congregational meeting

Chalmers 7-Passenger Touring Car
Price \$1350 Detroit

Choose a Chalmers as You Do a Watch

Compare two watches. They may look exactly alike. They may be equal in diameter and thickness. They may weigh the same. Perhaps your eye can't distinguish any difference between the gold in the two. One may seem to keep as good time as the other.

Big Differences There

Yet there may be a vast difference. One may be a Tiffany Swiss and the other a non-descript. If you trust only to an off hand examination you may make a bad mistake in your choice.

True of Automobiles

The same is true of automobiles. Some other car may closely resemble a Chalmers. It may weigh about the same. Have about the same wheel base. The point may look more or less alike—at first glance.

Yet there may be a vast difference. Differences you can discover only by the closest scrutiny and comparison.

Go Deep

If you are to get the correct idea of the Chalmers, you must go beneath the surface. There the big important differences lie. Differences in materials. Differences in methods of building. Differences in quality of workmanship.

To look only at the exterior of the Chalmers you wouldn't discover that the gears and shafts of the transmission axis of crucible-nickel-steel, case hardened and carefully heat treated.

Solid One-Piece Shaft

You wouldn't discover that the crankshaft is a single sturdy shaft of drop-forged heat-treated carbon steel.

Nor would you discover that the Chalmers pistons are die cast from Lyntite, a special aluminum alloy, and weigh only 12½ ounces each.

Deep-Lying Differences

To glance at the body you wouldn't realize that the body frame is built with such great care from select steel. That this is covered by one-piece, welded sheet steel. Nor that the springs in the upholstery are of an extraordinary spring steel. Nor that the frame of the chassis is of carbon steel, 5 inches deep and ½ of an inch thick. With flanges 2½ inches wide. And with three strong cross members and reinforcing plates.

Be Deliberate

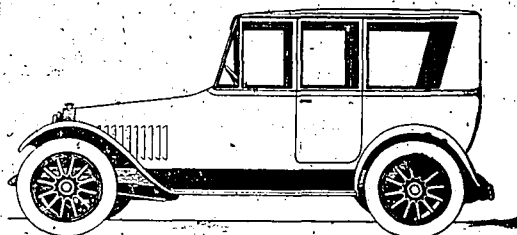

So when you examine the Chalmers don't look hastily. That's unfair to the car and unfair to yourself. Some things you don't realize when you glance at the 7-passenger Chalmers:

- 12½-ounce Lyntite pistons.
- Crankshaft balanced while in motion.
- Cylinders and crank case cast in a unit.
- Tinplate auto—built to Chalmers design.
- Economical intake manifold.
- Chrome nickel driving shaft.
- Nickel steel differential gears heat-treated to secure hardness and toughness.
- And many other important points of superiority.

All of the above means quality—the kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers.

Hollister News

(Times' Special Correspondence)

G. M. Metcalf has rented Mr. Cheney's farm on the Twin Falls tract. Dr. Sullivan was over from Twin Falls a couple of days ago.

The Dunn Cattle company has taken a large number of their cattle to Castletford to feed.

Dell Kennison has moved his family to Hollister and Mr. Deltrich has taken possession of the five acre tract he bought from Mr. Hiencke some time ago.

The Modern Woodmen will give a dance and supper in the Hollister school house Saturday evening, and a big time is planned.

A. E. Larsen went to Twin Falls last Monday for a few days. Our basket ball team is improving as they did a little better with Twin Falls last week.

We must admit that we are getting enough water on the Salmon at the present writing.

Kennison brothers bought some hay on the Twin Falls tract and have taken to hauling it this week.

Kimberly News

(Times' Special Correspondence)

Plans for a new theatre are being made. The building will be erected in the near future.

The new drug store in Kimberly will be built on the corner where O. C. Zueck's real estate office is now located.

Mr. Stetter is going to build a new meat market in place of his old one. The new bank building will be erected soon.

Many people from Kimberly attended the basketball tournament, both Friday and Saturday. All are proud of the boys from Kimberly. They did very well. The Kimberly boys have only been defeated once this season.

The members of the L. D. S. church of Kimberly held a ward reunion on March 15.

The dramatic club play will be given very soon and will attend.

A glee club has been organized in Kimberly-high school. Miss Carmen B. Irwin is instructor. There are now nineteen members.

The seniors have their characters picked for the play they will give at the closing days of school. They will

begin practicing as soon as the books come. Miss Wall is to have charge.

Last Friday the Epworth League gave a St. Patrick's social. It was well attended and a most delightful evening was spent.

The ladies of the Kimberly school will give a minstrel show for Patron's Day. It will be good and all must attend.

The death of Elizabeth Fay occurred last Friday. The little one took ill at noonday Friday and died at nine o'clock. Prominent poisoning was the cause of it. The funeral service was held in the Christian church at one-thirty o'clock Sunday. Rev. James of the M. E. church of Kimberly conducted the services.

Miss Bertha Jones entertained a large number of her girl friends at a birthday party Saturday afternoon. The girls all reported a lovely time. At five o'clock a dainty lunch was served.

The boys of the Kimberly baseball team have begun practicing ball now. A splendid team will be arranged.

The operetta will be given again soon.

GOOD RESULTS SHOWN IN COWTESTERS REPORT

Great Increase Over Last Year In Number of Cows and in the Results Attained.

Both in number of cows tested and results shown the report of the Bull Pioneer cowtester's association for the month of February is unusually good, especially considering the bad weather experienced. The following is the report and a part of the accompanying table:

The association average for the twenty-nine day period was 29.33 pounds butterfat per cow, there being a total of 393 cows on test, for the same month last the average production was 24.07 pound per cow, with a total of 373 cows on test.

Fifteen herds averaged more than thirty pounds butterfat per cow, as against nine herds in this class one year ago.

Twenty-nine cows met the requirements for admittance to the honor roll for the period, having produced more than forty-five pounds butterfat.

The above record of production for the period of twenty-nine days, and taking into consideration the severe weather conditions and shortage of water, which in some cases was causing alarm, is exceptionally good. Several dairymen, however, will profit by the experience, as plans are now being worked out for installing efficient dependable water systems that will keep a constant supply of clean, pure water, warmed when necessary, before their stock.

Seventeen separators were tested during the month showing an average of 95 per cent butterfat in the skim milk.

Three Junior two-year old heifers, in the herd of H. H. Styer were placed on A. R. O. test during the month, their records were 11.06, 12.84 and 9.97 pounds butterfat, the requirements of the Holstein-Friesian Association in this class are 7.2 pounds.

Geo. A. Childs has purchased two pure-bred Jersey cows. T. G. Wilson has disposed of his herd of grade cows, six head going to H. G. Schaefer and two to H. Schick, all the cows remaining in the association.

During the month an order for a carload of tested Jerseys or Guernsey cows was received, also two requests from parties wishing young calves, of either Jersey or Holstein breeding, none of the dairymen however have any stock for sale.

During the past eighteen months tested cows have been shipped from this tract to Mountain Home, Salmon, Coeur d'Alene, Fremont, Wendell and other points. The Twin Falls tract has a record for good dairy cows not surpassed by any part of the country.

The association improvement in production for the first four months was 4.49 per cent.

The average production for February, for the Boise valley association was 27.00 pounds butterfat per cow, the high producer in this same

IRRIGATED LAND FOR SALE

Near Aberdeen, Idaho

40 acres with paid up water rights, choice rich land, good well water, good schools. 3 miles from Aberdeen. All in cultivation, 25 acres in alfalfa, well, stable, potato cellar. \$50 per acre. Easy terms.

W. D. Giffin, Agent

Aberdeen, Idaho

association for ten months to date has 469.7 pounds to her credit, which shows a profit of \$118.66.

Next month we expect to have valuable data on the value of good housing and succulent feed.

Following will be found a list of the honor roll cows and herds producing over thirty pounds butterfat per cow.

Five cows produced more than sixty pounds of butterfat for the month were Gustav Kuus's Holstein, "No. Six," 69.9 pounds; C. E. Long's Jersey "Castilian Lady" 56.628, 66.1 pounds; A. A. Stauffer's Holstein "Nig," 65.1 pounds; David Roos's Holstein "Holstein," 63.3 pounds; H. D. Sherman's Guernsey "Waters," 63.3.

The following list of herds averaging over thirty pounds butterfat for the month of February:

My house-warming Chocolate Cake

(Report No. 6) By the one who made it

This happened on my first day back at housekeeping.

On the table I had a can of Cottolene, looking just like an advertisement which read: "Use Cottolene." And that's what I was preparing to do. We were going to have a "house-warming" chocolate cake!

I used to be prejudiced. I didn't want anything but butter for cake-making. Once I didn't even know what Cottolene was—didn't want it in the house. But now I find myself using it for everything—even for this company cake. I find it dependable. I measure exactly.

Two-third cup Cottolene
2 cups sugar
3 eggs
3 cups flour
1 cup milk
5 level teaspoons baking powder
Quarter-teaspoon salt
Sifted with flour
Flavoring

See how the Cottolene whips up with the sugar, like cream. I add the beaten yolks with light high strokes,

The icing finishes the cake. But it's Cottolene that does the work all through—wholesome creamy Cottolene. Here's to it and my successful "house-warming" cake.

I wish you would try the same recipe. From L. G. S.

FREE! Cook Book containing 239 recipes by famous cooks sent free. Write to The N. K. Fairbank Company, 111 West Washington Street, Chicago, Ill.

Yes! Cottolene is also superior for frying, and, for all shortening

As grocers in stores of convenient sizes

Delvey, Pueblo, Colorado Springs, Cripple Creek and Florence. It was Mr. Martin who successfully secured Teller county for the Cripple Creek district. He was at one time president of The Original Cowboy Band, and was Warden of the Colorado State Penitentiary and was one of the best officials that institution ever had. Mr. Martin was a staunch life long Democrat and held many prominent offices under that party. He was also a life member of the Elk lodge for over twenty years. Mr. Martin leaves to mourn his loss his wife, residing in Seattle, Wash.; four daughters, Mrs. H. W. McLaren of this city, Mrs. E. H. Meadows, who has gone from here to her father's funeral; Mrs. B. L. Paulson of Enumclaw, Wash., and Miss Mildred Martin of Seattle, Wash; two sisters, Mrs. J. B. Orman of Pueblo, Colo., wife of former Governor Orman; and Mrs. Stephen Morgan of San Diego, Cal., besides friends all over the entire west.

A big new discovery in cigarette blending

The big thing about Chesterfields is their unique blend. The Chesterfield blend is an entirely new combination of tobaccos. This blend is the most important new development in cigarette making in 20 years.

As a result, Chesterfields produce a totally new kind of cigarette enjoyment—they satisfy! Just like a "bite" before bedtime satisfies when you're hungry.

But with all that, Chesterfields are MILD, too!

This new enjoyment (satisfy, yet mild) comes ONLY in Chesterfields because no cigarette maker can copy the Chesterfield blend.

Notwithstanding this, it is not assumed that continuous service is desired; still, subscribers are expected to notify us with reasonable promptness to stop if the paper is no longer desired.

(Entered at the Twin Falls postoffice as second class matter in a twice-a-week publication, October 18, 1913.)

A COUNTER IRRITANT!

The burning question in Twin Falls just now is an adequate supply of the best attainable water most efficiently and economically procured and delivered. For this reason the TIMES strives to give fullest publicity to all schemes, or proposals, looking in that direction.

Last week were set forth the particulars of a project for getting water at Clear Lakes, raising it some fifty hundred feet by power to be locally developed, giving full a square in passing and then piping it some seventeen miles to Twin Falls where it would presumably be on sale at so much per acre.

Special attention attaches to another project, set forth in detail before a small company of citizens at the Commercial club last night, and fully reported in another column herewith. This for the reason that this later and quite different plan appears to come from substantially the same source as the former one—at least, it involves many, if not all, of the same interests.

The TIMES is not now offering, nor intending to offer, anything in support of or in derogation of any of these projects. If they can be fully set forth and understood—look, stock and barrel—by the vitally interested people of Twin Falls, they can unquestionably be trusted to look out for their own interests. Waterworks are an acknowledged need; and we believe the city is ready to vote bonds for the purpose; provided, they can have confidence in both the proposed plan and its administration.

No eventuality of the world-war, nor indeed of all history, is as basic as the late revolution in Russia. Two hundred millions of people who for a thousand years have been ruled by a Czar—the symbol of despotism, have put aside all hereditary leaders and established a practical democracy; and have achieved this radical and revolutionary result with almost no bloodshed and without halt or disturbance in their participation in the greatest war in history. One of the arguments to revolution, it should be noted, was the natural sympathy between the absolutism of Russia and the absolutism of Germany; and, as the new government says in its first manifesto, now "the lofty spirit of patriotism shown in the struggle against the old regime will animate our soldiers on the battlefield." The United States will promptly recognize the new order—the presage being that the end of the war may not leave an absolute monarchy in Europe.

It is significant that the President's cabinet is unanimous in the opinion that a state of war between Germany and the United States actually exists, "armed neutrality" to the contrary notwithstanding. Confirmatory to this, at a meeting in New York on Tuesday, Charles E. Hughes said, "I regard these attacks (Germanic) and the method of their conduct, as an onslaught on liberty and on civilization itself." Elitha Hoag said, "Technically there may not be a war, . . . but Germany is making war upon us and we are all waiting to see whether we are to take it lying down." Theodore Roosevelt, at same time and place: "Armed neutrality under these circumstances is war. It is feeble war, but it is war. All one can do is to decide whether we will hit soft or hard. If we hit soft we will not acquire Germany's good will."

"Answering the foolish claim that military training in youth makes a man bloodthirsty, one editor says: "Any man who received military training in his boyhood will bear us out in saying that it did not lead him to desire war, any more than belonging to a fire department inclines a man to be an incendiary."

The signing by the governor of the good roads bonds bill promises to give the state three million dollars for improvement of her highways during 1917 and 1918. This is one of the very great advantages in the development of the state.

A notable change in the tone and spirit of German-Americans was produced by the publication of the Zimmerman note. Nothing, the Springfield Republican truly says, "could solidify the American people like the threat of a hostile enterprise aimed at the dismemberment of the country."

The compulsory arbitration feature of the Adamson law should prevent future railroad strikes. Unfortunately for the standing of the trainmen with the general public, that seems to be the one thing to which they seriously object.

German reports up to March 1 show aggregate casualties in killed, died of wounds and disease or prisoners, of 4,148,163. Much of this by far at least five and some idea of the war's human holocaust may be had.

The war department's order suspending the muster-out of the national guard remaining in service, raises the question as to the recall into service of the regiments already discharged.

Any acts of the last legislature neither signed nor vetoed by the governor at twelve last night became laws automatically.

ROADS FROM BUHL AND

(Continued From Page 1)

replied that he had talked with Manager Austin of the Elko company and that while he felt sure that the company would eventually be authorized to pledge anything. The citizens and commercial club of Jarbidge would aid. He would do into his team and men for five days and other assistance would be given in the same way besides money contributions. No definite pledge had been taken regarding the amount given. Reference being made to the mouth of the canyon he understood a surveyor to say that it would cost about \$25000. He was unable to state exactly what Jarbidge would do about raising that sum, but was virtually certain that it would do a good deal. Commissioner Carlson said that the government money for work in Idaho would not be available until next fall, while that in Nevada was now available.

Judge A. W. Ostrom speaking for Buhl said that the delegation from his city believed that the main part of the road leading from the building of the road would come to Twin Falls. They were not asking that the Rogerson route be abandoned or that there should be a great camp and people there would have to get their supplies somewhere, and should get them from this city. Buhl had helped secure the license for the east end and this would cost about \$6000 from the west end district which would result in no special benefit. The license for the east end had been previously voted would fall on the taxpayers of his district. This would amount to \$10,000 which his district had helped vote on itself, from which it would receive a benefit. Should the county vote this amount for the improvement of the road over the Lilly grade, the Buhl district would supply the money. Commissioner Carlson said that the commissioners would frequently like to do things which they found impossible. The total levy for bridge and road work in the county is \$100,000. This one mill was for bridges and was not enough. Twenty per cent of monies raised went to the Buhl Independent district, and the rest were given a share so that the total left for roads was small. The commissioner had no power to "raise money" for this purpose by special levy, while such power was possessed by the Buhl highway district. The result was that Buhl would have as much funds available for roads as the rest of the county, although there were five times as much mileage in the rest of the county. He said the rest of the county had helped secure a bridge at Jarbidge.

Speaking for Rogerson, J. S. Bugsell said that his town wanted the road which they had built to Bear creek improved and extended. They were not in any way asking that he believed that roads should be built from both places. He said that in his opinion the freight would mostly be hauled from Buhl or Rogerson and not from Twin Falls or Piler.

A. J. Luker spoke in favor of the road to Buhl over the Lilly grade. He had traveled there and as now said, had ridden over it on horseback in one. He said that the building of the Lilly grade would shorten this much, in his opinion the length of the road had been overestimated by Mr. Hudson. He thought the road from Twin Falls to Jarbidge over the Lilly grade could be seventy-eight miles, and that the road to Buhl and eight miles nearer to Piler than this city from Jarbidge. It appears according to this estimate that Twin Falls would be seventy-eight miles, Piler seventy miles and Buhl sixty-six miles from Jarbidge. According to the Hudson estimate the distance to each end was the same, but was greater. By way of Rogerson it is seventy miles to Jarbidge from Twin Falls; thirty miles from Twin Falls to Rogerson and forty miles from Rogerson to Jarbidge.

A. L. Swim was called upon and suggested that it would be a good idea to throw the Buhl district into the county and have the whole county vote a big bond issue. A. J. Peavey advocated the same plan. Replying to the proposition to dissolve the Buhl highway district, Mr. T. Fisher, who was at one time a county commissioner, said that funds had been once successfully divided by agreement between the county and the dis-

THE BALMY DAYS OF SPRING SUGGEST THAT YOU VIEW THE NEW APPAREL

With the gentle breezes blowing, the birds beginning to sing and nature undergoing the delightful change from sombre winter to cheerful spring it is impossible to keep one's thought from new clothes. Right now is an ideal time to spend an hour looking over our Season's Offerings. Stocks are complete and the wonderful array of apparel presented for inspection is well worthy of the time spent in an examination. We mention in brief some of the new garments.

GOODS THAT MAKE LASTING IMPRESSIONS

BEAUTIFUL BEYOND-DESCRIPTION ARE THE BLOUSES. There are so many little "touches" to this season's models that the variety of styles offered makes them unusually interesting, especially the prices. The novel collars, the cluster tucks and the many effects introduced are exceptionally attractive.

Mr. Carlson moved that the sense of the meeting was in favor of a large bond issue for good roads. This carried by a vote of forty-three to six. A. J. Peavey moved that it be recorded as the sense of the meeting that "the county commissioners and the Buhl highway commissioners do all possible to fix both roads. This went through unanimously. W. H. Harvey moved that the two bodies of commissioners be requested to get together after the noon hour and attempt to devise means to carry out the plan. This carried by a vote of twenty-one to nine. J. S. Russell moved that the meeting when held take into consideration the improvement of the Rogerson road. Mr. Harvey said that he intended his motion to imply that also Mr. Russell said that he would accept that announcement, but the chairman put the motion and it was carried unanimously. Several of the men who voted against the big bond issue explained their votes. H. Koppelman

was opposed to as large a bond issue as Mr. Carlson had suggested, which might run up to a million dollars; Mr. Harvey and George Childs thought that it was not of a nature to meet the immediate issue and was not large enough to fully meet the needs, while Mayor H. W. Herman of Buhl concurred with Mr. Harvey and Mr. Childs also said that owing to the shifting of taxation liable to take place soon, the Buhl district would pay more than its share and get less than its share.

Mr. Peavey said he doubted whether the trade could be drawn to Elko, as he had seen that bugaboo raised before. Mr. Hudson denied that it was a bugaboo this time as he had been on delegations from Jarbidge to Elko and knew how things were going.

Commissioner Carlson warned the people against being too sanguine about the commissioners being able to find a solution the same day, especially in view of the fact that the state money was not yet available.

Relative to the proposed Castleford crossing Commissioner Carlson said that Engineer Fox had surveyed it and mailed a statement of conditions

which should arrive on the afternoon train. If they built a bridge the grade on the other side would be small; if they did not there would be an unsatisfactory grade from 600 feet. He had no figures as to the cost of the bridge or grade improvement but would have later.

The meeting adjourned shortly after noon.

Those attending the meeting from Buhl were George Wade, George Childs and E. Molander, road commissioners; Judge A. W. Ostrom, their attorney; and H. W. Harvey, C. H. Taylor, James G. Sloan, J. C. Gates, C. S. Peck, J. F. Constant, William Hinger, H. Koppelman, E. A. Miller, Henry W. Herman, A. J. Luker, William Cunningham, J. E. Schmidt, of Buhl and J. M. Bertleson, George Boswell and H. A. Kinyon of Castleford.

The Rogerson delegation consisted of J. S. Bussell, J. B. Lane, H. P. Gibbs, R. W. Lutz, L. W. Reynolds, Louis Harrell, J. McCrea, J. Higgins, George Washington, Andrew Rogerson, R. T. MacNamara and Charles C. Davis.

In the discussion of the proposed

dissolution of the Buhl highway district and the voting of a big bond issue for the whole county, the Buhl delegation declared that they were doubtful whether they could get two thirds majority in their end of the county, while the Twin Falls men asserted that the deficiency in votes for bonds would be made up in the east end. At this meeting Commissioner Carlson first suggested the idea of having the county build one side of the grade and Buhl the other; on the Lilly trail, a plan later adopted by common consent.

County Attorney Stephan has been requested by the county commissioners to examine the law in an effort to find whether a bond issue of half a million dollars for the whole county could be voted in such way that the Buhl highway district could get its share without dissolution.

The Twin Falls Steam Laundry will be open for business Monday, March 25. All work guaranteed satisfactory or no money. Phone 738.

M. L. Walker's Land Bargains
CALDWELL, IDAHO

No. 1—80 acres in high state of cultivation, near city limits of Caldwell, on electric car line, fine bench land, well drained, 60 acres in alfalfa, 10 acres in red clover, 10 acres winter wheat, small house, deep well with wind mill and tank, new garage, large granary, other outbuildings; fine slightly sloping, blue grass lawn with shade. Perfect water right; all implements, wagon, harness and one span of large mares goes with the ranch. Price \$100.00 per acre with very easy terms.

No. 2—80 acres, 3 1/2 miles from electric car line, 2 1/2 miles from small town and railroad, excellent alfalfa bench land; neat little cottage, other out buildings, fine water right, 7 acres in prunes, 40 acres in alfalfa and clover, balance cleared. Price \$82.50 per acre, easy terms.

No. 3—40 acres near the town of Wilder; smooth bench land, all in alfalfa producing 7 tons per acre in three cuttings; 5 room new house, barn for 8 head, a bargain for \$112.50 per acre, with terms.

No. 4—40 acres southwest of Greenleaf, 2 1/2 miles from car line, small house, barn for 6 head, 25 acres in alfalfa and clover; all in cultivation; a snap at \$90.00 per acre; government water right.

No. 5—120 acres near Wilder, all bench land, well drained, nearly all in cultivation, large part of ranch in alfalfa and red clover, fair buildings; government water right; price \$8000.00 with terms.

No. 6—80 acres, 3 miles from Starr, Idaho, 1 1/2 miles from electric line, 12 miles from Boise, all fine bench land, free water right, maintenance practically nothing, all in cultivation, in alfalfa and grain; 7 room brick house, deep well of pure soft water, 2 acres bearing orchard and berries, on main public highway, school house on one corner of ranch, a fine slightly sloping. This fine ranch belongs to an estate and must be sold at once. Price \$95.00 per acre, for quick sale; water right alone worth \$6000. The place carries a long time farm loan of \$5000.00 at 7 per cent with a conservative loan company which shows its value.

TRACTION MEN GET ADVANCE
Increase of Wages Granted by Indiana Company Without Strife or Ill Feeling.

MONTANA LAW IS ENFORCED
Shorter Hours for Woman Workers Made Effective—Satisfactory General Increase of Wages Marked End of Year—News of Interest to Labor.

It is announced at the general offices of the Union Traction company of Indiana that interurban conductors and motormen on its entire system will receive an increase in wages of 2 cents on the hour, effective April 1. The advance affects 300 trainmen and came into effect on the 1st of the month. The present wage scale of from 22 to 32 cents an hour will be increased from 24 to 34 cents.

The number of general wage increases in November and December, 1916, was 516, of which 217 report more than 1,000,000 employees involved. Nearly half of the increases noted were women and the other half were divided about equally between increases forced by strikes and those reached through agreements between employers and employees.

There seems to be no limit to the class of work women can do. At first it seemed strange in England to see girl conductors on the buses, girl day-cleaners, van drivers, and messengers. But as the war progressed the field broadened, and now even in building, mining and quarrying scores of women are employed.

To help toward meeting the ever-increasing demand for multitudes of war munitions groups of young students belonging to more than two hundred Italian state universities have signified their willingness to quit the lecture halls for the workshops.

The officers of the Bakery and Confectionery Workers' union, in their report of the last year show that they have a total membership of 22,255. For sickness and disabled members they have paid out \$4,413. They have 208 local unions.

Woman porters are to take the place of men eligible for military service on the Great Western railway. They are to be put in uniform. The goods porters are to get the highest wages, as their work is the roughest—228 (\$5.75) a week.

It is estimated that between six and eight million persons now employed by the British government, representing half the wage-earning population of the United Kingdom, will have to be discharged at the end of the war.

According to Canadian census statistics, there are 2,183,000 women between the ages of fifteen and eighty in the Dominion. Of these 1,251,182 were married and 934,821 were occupying paid positions in stores.

An effort will also be made to obtain the assistance of a law collecting all employment agencies in California operated for profit, thus diverting the business to the free employment office operated by the state.

Missouri unionists are making a third attempt to secure a compensation law and there have been three commissions appointed by the governor and the state legislature to investigate the question.

England has now about three and one-quarter million woman workers, and of these nearly three-fourths of a million are said to be filling places vacated by men, who have gone to the front.

Owing to the shortage of help, a number of Belfast (Ireland) shops and warehouses have closed between the hours of one and two o'clock each day since the first of the year.

Wyoming labor unions will introduce an amended version of a law which would grant a half-hour day for woman workers and a labor commission bill in the present legislature.

The Ohio Bar association has recommended that the legislature of that state allow women to become notaries public.

Slender girls are given the preference when applying for positions of conductors on the Vienna street railways.

The International Machinists made an average gain in wages during the last year of 50 cents per day per cent.

The White Hats Actors' union will hold in abeyance its demand for union shop conditions in vaudeville theaters. A general organizer for the Sheet Metal Workers' union will tour eastern Canada in the interests of his trade.

Plans are complete for a special new course for women in the Royal College of Dental Surgeons in Toronto.

Nearly 140,000 British women have registered with the board of agriculture for working on the land.

In 1917 Electrical Workers' International had only 1,700 members. It now has in excess of 20,000.

National Holders' union paid out \$28,125 for death benefits the last year.

Police will proceed against intrusions of half-holiday act at Vancouver, B. C.

San Francisco coopers have secured the eight-hour day.

Michigan legislature has five union members.

SOUNDS CALL FOR LABORERS
War Department Wants Men and Women for Work in Plants Through-out the Country.

The war department is in the market for a larger number of skilled laborers, toolmakers and machinists to do extra work in the various government arsenals. Approximately 300 are needed in arsenals at Philadelphia and Dover, Del. Women as well as men are wanted, but all must be American citizens.

Carlos Loveria represented Tucson, Mexico, workers at the recent American-Mexican trade union conference, held in Washington for the purpose of South America and urged greater solidarity between the workers of North America and the Latin-American countries. He carried credentials from President Gompers.

Toronto (Canada) Building Trades leaders have issued a new warning card. Attached to the league are the bricklayers, laborers, carpenters, painters, plumbers and steamfitters, sheet-metal workers, electrical workers, structural iron workers, the setters, granite cutters, stone masons and lifters.

Under the Canadian disputes act, summarizing its operations, 1907 to 1916, disputes were dealt with involving in all only 140,000 employees, and 32,000 of them, or nearly 22 per cent, struck in spite of the award, and in many instances in spite of the law itself, striking before making an application.

Labor in California will endeavor to procure amendments to the workmen's compensation act so as to guarantee payment of compensation after some business days in the case of the injured worker a voice in the selection of his doctor, and to reduce the waiting period to one week instead of two.

A law regulating and limiting the issuance of injunctions in labor disputes will be asked of the California legislature at its coming session in Sacramento by the California State Federation of Labor, representing the organized labor movement of the state.

Billings (Mont.) Barbers' union has raised wages from \$18 to \$23 a week and reduced the working day from ten to nine hours. After 30 days wages will be increased to \$26.00, and after another 30 days this rate will be raised to \$28.

A dispatch from Butte, Mont., says that despite numerous complaints that the Montana nine-hour law for women has been repeatedly violated the first conviction was just secured in that city. The law was passed four years ago.

California's state labor commissioner is preparing to ask the legislature for an appropriation sufficient to establish branches of the state employment bureau in every city and some of the larger towns of the state.

Civic firemen at Vancouver, B. C., have applied for a federal charter, and are agitating for a two-shift system which will mean a reduction of their hours from 21 per day to 19 and 16 for day and night shifts, respectively.

Tests in Italy of plowing with electric motors have demonstrated that it costs about half as much as if horses had been used, and about two-thirds as much as steam plowing.

Owing to the high price of flour, the bakers of Dundee, Scotland, have raised the price of bread to 20 cents a loaf, and say that it may yet go as high as 25 cents.

The new labor temple to be erected at Springfield, Ill., next summer by the Illinois State Federation of Labor is receiving hearty support from many of the local unions.

The Elevator and Constructors' union has affiliated with its international 30 local unions, with a membership of 2,801. The largest membership is in Philadelphia.

The number of woman applicants for positions in Germany has increased about 20,000 over the number who applied last year.

The board of trade at Mission City, Cal., has opposed the influx of Chinese labor as proposed by the Fruit Growers' association.

Pattern-makers on the Canadian government grounds have been granted a minimum wage of 46 1/2 cents an hour.

Canadian trade unions have unanimously endorsed the national service registration plan of the Dominion government.

Navy yard wage scales for 1917 show a general increase for all classes of labor, ranging from 8 to 48 cents a day.

A campaign or organization is to be conducted among the wage-earners of Santa Rosa and Petaluma, Cal.

Wonderful.
Behold that exquisite sunset! Note the delicate flesh tints, the cream shades, the long dashes of vermillion and the almost living fire that leaps up from the sinking sun as from a mountain. Isn't it wonderful?
She—Indeed, it is. It looks like a great big lobster salad.
Bright Youngster.
Mother was putting an extra blanket on the foot of the bed one cold night, when her son said: "What's that for, mother?" Before she could reply he answered his own question. "O! Yes! That is for preparedness."
Attention.
"I'm attracting some attention in the world, anyhow," said the spinner.
"Yes," he asked a friend.
"Yes. I've got to the point where a lot of folks are trying to guess my age."

OBITUARY
Marion Elizabeth Fay, daughter of Arthur H. and Mable Clary Fay, was born at Appleton City, Mo., April 21, 1892 and died at Kimberly, Idaho, on March 16, 1917, of gastro intestinal toxemia.

Elizabeth was sick less than twenty hours and suffered no conscious pain, but this being the third attack at intervals of about a year each she was unable to rally from the dread disease. The funeral service was held from the Christian Church, a short sermon full of consolation to the sorrowing parents and friends, being preached by Rev. James of the Methodist church.

Sympathizing friends and neighbors of brother and sister Fay and personal friends of this sweet little tot filled the house to overflowing.

Interment was in the Twin Falls cemetery.

Few little ones at the age of Elizabeth have found a warm spot in the hearts of so many, ranging in age from her own to the grandfathers and grandmothers of the community and she had especially endeared the company of her grandmother Mrs. Clark for a few weeks before her passing over to the other land.

The church of which she was a regular attendant has lost one bright smiling countenance from its midst. The infant class has a vacant chair and the home is saddened but the bud born on earth will blossom in Heaven.

OAKLEY WINS THE CHAMPIONSHIP

(Continued from page 1)

Jerome, Shoshone, Buhl, and Heyburn dropped into the second class to compete for the consolation cup. The first game in the second series, Friday evening, between Twin Falls and Kimberly, ended in favor of Twin Falls, by the score of 35 to 15. The Kimberly boys played to have a game, but inexperience, and inaccuracy in basket shooting, lost the game to the better organized team. Twin Falls team work showed up better in this game than in any former contest. Irwin Strong at left guard made a valuable addition to the local quintet.

The next game, between Rupert and Gooding, proved to be the most exciting of any up to this time. The score at the end of the first half stood in favor of Gooding, by a margin of three points. However, Rupert came back from a thorough rub-down with a determination to win, which they did by twelve points, a total of 40 to 28. The championship now lay among the three towns, Rupert, Oakley, and Twin Falls.

In the third game, Jerome lost her chances for the consolation cup by losing to Shoshone. The score was 35 to 10, Gwinn of Shoshone making 19 points of the 35. Shoshone had several trick plays which worked with great success.

The fourth and last game of the second series, between Buhl and Holliester, resulted in a total of points for Buhl and 10 for Holliester. The towns remaining to compete for the consolation cup, were Buhl, Shoshone, and Heyburn.

On Saturday morning, Rupert and Twin Falls played the first game of the third series, Rupert winning by one point, 28 to 27. This was undoubtedly the fastest and hardest fought contest that Twin Falls fans have witnessed this year. At no time in the entire season has the Twin Falls team exhibited such excellent teamwork, or such accuracy in basket shooting. The score favored Twin Falls by one point at the end of the first half. Throughout the entire game there was very little difference in the score. In the last thirty seconds, however, Rupert made a free throw, which broke the tie and won them the game. A record in applause and cheering greeted the Twin Falls team that morning. This put Twin Falls out of the race and left the championship to be decided between Rupert and Oakley. Shoshone and Buhl had a hard-fought battle the same morning, Buhl losing to Shoshone by one point. The score was 15 to 16. Buhl played well in this game, making several difficult shots. Shoshone used her fakes to good advantage, and showed improvement in teamwork. The final game for the consolation cup now lay between Heyburn and Shoshone.

The finals were held Saturday night, Shoshone and Heyburn playing first for the second cup. Heyburn won by two points, the score at the first half being 14 to 12 in favor of Heyburn, and 22 to 24 in the last half. Bohon of Heyburn made 14 of the 24 points, while Gwinn of Shoshone made 20 of the 22 points. For fast basketball these two teams were almost a perfect match. Very few such even games have ever been played in the local gymnasium. Shoshone took their defeat like the gentlemen they are, and were during the entire tournament. Shoshone's conduct was heartily appreciated by every witness of their defeat.

The last game of the last series, to decide the championship of the tournament between Rupert and Oakley, resulted in Oakley's favor, by the score of 38 to 34. From the standpoint of team work Rupert excels all those who entered the tournament, but from that of accuracy in shooting both field goals and free throws Oakley certainly beats everything that ever came to Twin Falls. In fact the basket of Hale of Oakley, Harry and of Openshaw, was nothing short of phenomenal. Hale made free throw after free throw, without a miss, and all three of them shot goals from the center of the floor, that appeared to be practically impossible. The majority of the goals made by long distance shooting are banked from the back board, but the Oakley boys succeeded to give them enough "English," to let them slip through without touching the ring. Hale made 18 of the thirty-eight points, while Nelson of Rupert made 20 of the 34 points. The silver cup furnished by the Commercial club, was presented to the Oakley captain, by referee Bracken, in the midst of the most vociferous applause ever heard in the Twin Falls gymnasium.

High men in the tournament were Gwinn of Shoshone, making 59 points in four games; Nelson of Rupert, making 57 points in four games, and Neuman of Twin Falls, who made 51 points in three games. High men in single

games were as follows: Neuman, of Twin Falls, 27 points; Gwinn, Shoshone, 20 points; Nelson, Rupert 22 points; Openshaw of Oakley, 19 points; Hale of Oakley, 18 points.

Rupert was high town in the tournament, making 129 points in four games, and Twin Falls was second, making 182 points in three games.

According to popular opinion Openshaw and Hale of Oakley, Neuman of Twin Falls, Gwinn of Shoshone, Nelson of Rupert, Hall of Buhl, Silts of Heyburn, Emmerson of Kimberly, Stanwood of Gooding, Loney of Holliester, and Robertson of Jerome were the stars in each team.

Prof. Blussor, Leo Bracken, and Harlin of Buhl were referees.

With the exception of the class games, basketball is over for this

year. At the rate the local team is now picking up, a splendid team could be formed. However, time from now on is to be devoted to baseball and track.

The prospects for holding another such tournament seems to be very good, according to the opinions expressed by several of the coaches. All were pleased with the way in which Mr. Natziger superintended the affair, and will heartily support the repetition of such a successful event.

The Twin Falls Steam Laundry will be open for business Monday, March 26. All work guaranteed satisfactory or no money. Phone 733.—Advertisement.

FOR SALE—Choice residence lot at a bargain. 546 Second avenue north.

Experiment Delights Hundreds—The several hundred musical devotees who packed the Lavington theatre on Tuesday evening were well repaid for their attendance and the crowd left the theatre with expressions of delight at the novel experiment under the direction of the Majestic pharmacy, in which Elizabeth Spencer, one of the most popular singers in Thomas Edison's musical family, sang side by side with her record. So cleverly was the experiment conducted, that it was with difficulty that the listener could detect the place where the record ceased and Miss Spencer's delightful voice began, and then only by watching the movement of her lips. The concert at Twin Falls was one of a chain of concerts conducted by special request of Mr. Edison, in

order to show the public the wonderful reproductive power of the instrument bearing his name.

I. B. Ferrino is back from the east. E. R. Dooley is home from Omaha where he shipped hogs.

T. R. Hendricks who recently moved to American Falls is back and will open a machine shop here.

Stands for Style-Superiority First and Foremost.

There's a snap and style, a cleverness of design in REDFERN Suits and Coats that cannot be duplicated.

No matter how elaborate a garment is, it is not modish unless the silhouette is approved by Fashion. Every REDFERN Garment conforms to the silhouette created by the best Parisian and American designers, and in every detail the garment is correct.

REDFERN Garments are superbly fashioned from all wool and silk-fabrics. The tailoring is as fine as skill can produce. The fitting qualities are perfect. And then they are guaranteed, both by us and the maker, for quality and service.

We are now showing a most complete line of these beautiful garments in the new and different Spring Styles. Won't you come in and let us show them to you?
