

DELCO-LIGHT

It Pays Its Own Way

You will find Delco-Light—a complete electric plant—a profitable investment. Durably constructed easy to run, economical to operate—it will give you plenty of current for light and power. We want an opportunity to show you how much daily economy it will save. Besides lighting home and barn, it will run all your light machinery—the washing machine, churn, separator, etc. We can quickly prove to you that it pays for itself in time and labor saved.

LEGITIMATE STRIKE IS VERY IMPORTANT

NO WALL ENCOUNTERED AND FREE GOLD FOUND IN EVERY PAN TESTED

TWENTY MILLION DOLLARS IN TWENTY THOUSAND FEET

Conditions in Deplorable Condition—Now Freight is Moving Into Jarbridge Rectifying Bad Condition of Affairs in The Camp.

The most important developments of the winter in the Camp is the recent striking of the vein in the new tunnel of the Legitimate mine. The vein has been crossed for a distance of seven feet and no wall encountered as yet. Flanking all the way across showing some free gold in every pan. This is highly encouraging and tends to prove that the values in this mine extend to depth as has been proven in the case of several of the other mines of the district.

In the early days of the camp it was the usual cry "On the surface showings are fine but no show about the depth, they may not go down." "If there was anything to prove that the values went to depth we would be glad to buy in money." And many like remarks. Now the results of the past year have conclusively shown to those doubting Thomases that the values do go down and those who have betted on the surface are about to realize upon their faith. With one mine showing twenty millions of dollars worth of good milling ore with twenty thousand feet of development work and a half dozen mines with large ore bodies already opened on several levels there is little chance for any further question as to the real and ultimate value of the mines of the Jarbridge district.

Several important developments have been made on the working mines, but they were already proven mines and these new developments only add to the amount of known ore in these mines. All of the mines have had a hard time to keep going this winter owing to the shortage of supplies. The roads have been very much worse this winter than heretofore, not only near Jarbridge but more particularly around House creek, Cedar creek and Deva creek. With the new road to Buhl built before another winter it is confidently expected that much of this road trouble will be eliminated and that transportation into Jarbridge will be much more regular and secure.

Our mail service has been much worse this winter than it was when we had it coming over the impassable summits to the south, although all the time some small freight teams and passenger stages were coming through right along. Several times when the mail was failed to arrive or any part of it, there have been teams come in and particular the Market team with about two tons of beef on it, and always the stage team of Egan Egan arrives with five, six or seven passengers and a lot of baggage and express. Mr. Egan has been our most regular arrival and it has become a common saying "well if the mail does not come in, Egan is sure anyway," and he has, always come through.

This has been quite a severe winter but there has always been roads over which a driver with ambition could get through. Now the indications and the situation seems to show that the worst is over and that the snow will soon be leaving so that the roads can be worked on and improved that freight may again begin to move toward the camp.

A volunteer fire department was organized the other night and a chemical engine is to be purchased for the protection of the buildings which have gone up and which will be erected in the near future, or as soon as the lumber can be brought into camp.

Winthrop W. Flak has just received the sad news that his son W. S. Flak had died in the hospital in Tonopah. Young Flak was well known and liked in this area and a great many people are sorry to hear of his death. Three caskets and Buhl. No particulars have been received at this time.

Do not come to Jarbridge looking for work until the roads are open so that supplies can be brought in. And do not come anyway at this time unless with some grub as everything is full and food of all kinds is very short.

Rogerson Items

(Times' Special Correspondence)

Miss Luella Rudolph of Twin Falls is visiting her sister, Mrs. Galt.

The Ladies' Aid met at Mrs. Blair Langford's last week.

Mr. Fred Roberts returned from a short visit to Lake Saturday.

Carl Hickenlooper is home from a trip to Ogden.

Robert Lutz and wife spent Sunday at the Frank Craven home in Hollister.

Mr. and Mrs. J. W. Ramsey were here a few days on business, but left for Nevada this week.

The basket social at the church was a success. Besides having a good time, the committee cleared \$33.

Mr. and Mrs. Frank Craven took dinner at the hotel with Mr. and Mrs. Lutz.

The Lewis Harrell family returned from Lake Crater where they have been spending the winter. Glad to have the boys back in school.

The Saturday train was snow bound just out of Amsterdam. The

passengers walked back to Amsterdam, part coming on foot to Rogerson. It was two o'clock before the train arrived.

The Bell family returned from Filer, Edith and Olive are again in school. Mrs. J. S. Buswell entertained Mrs. A. Leighton and Ellen Larson Wednesday evening.

Rollo Crater stopped on his way to the Grassy Hill country to finish a term of school and also hold down his claim.

St. Patrick's "avenue" was duly celebrated at the McMillan hotel by Mrs. Edna Deaner and her daughter, Miss Florence—it being the latter's birthday also. Invitations were extended to about thirty couples. The evening was spent in dancing, card playing and social games. No pains were spared to show everyone a good time.

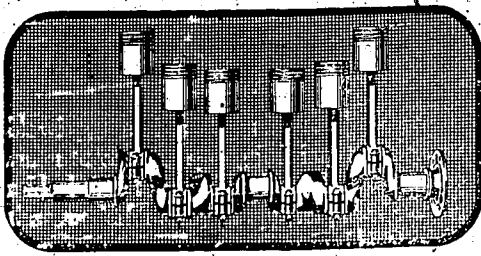

J. S. Buswell and partner, won the prizes in the waltz contest. Bob Lutz was best-guesses in the rogues gallery.

At 2 o'clock the guests departed, all wishing Mrs. McMillan many happy returns of her daughter's birthday.

Messrs. J. S. Buswell, H. P. Gibbs, Bob Lutz, H. P. Craig were Twin Falls callers last week.

The commercial club gave a banquet Friday evening, March 23. Music by Peterson, Dean and Hartwell. It was the largest crowd of the season and an enjoyable time reported.

Mr. and Mrs. M. S. Batty are spending a few days with friends on their return from an extended visit in Utah. Shortage of hay is causing heavy losses among our stockmen. Walter Brose of Rock Creek was an over Sunday visitor.

Every Part a Quality Part In the Chalmers

Chalmers puts quality materials and quality workmanship into every piece of every Chalmers car. Therein lies the difference between the Chalmers and most other cars.

Here are three parts out of thousands in the chassis. They are hidden moving parts of the motor—the crankshaft, connecting rods and pistons. Chalmers makes them of extraordinary materials with extraordinary care and thoroughness.

One-Piece Crankshaft

The crankshaft is drop-forged from heat treated carbon steel in a single piece. Balancing weights are integral with the shaft. The shaft is 2 1/4 inches in diameter. Sturdy, but not heavy. Rigid. Strong. It is balanced while rotating at a fast rate of speed, on a unique machine. This helps you to understand why the Chalmers motor is so smooth.

Connecting-Rods—Strong, Light

Connecting rods are designed to secure rigidity and lightness. They are made of special carbon steel. Are unusually strong and dependable. Each rod weighs only 41 ounces. Yet they will withstand greater stress and strain than some connecting rods weighing almost twice as much.

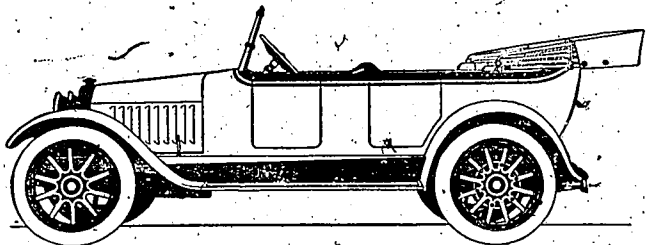

Light Weight Pistons

Chalmers pistons are of Lynite. A light and tough metal, about 1/3 the weight of cast iron. Chalmers pistons reduce the strain of the bearings. They insure the marvellous Chalmers smoothness. They make possible the remarkable Chalmers power.

All of the above means quality. The kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers

SPAIN INDIGNANT OVER ESPIONAGE OF THE GERMANS

TEUTONS MAINTAIN COMPLETE SURVEILLANCE OVER SPANISH PORTS AND SHIPPING

OVER 60,000 SPIES AND AGENTS ON THE PENINSULA

German Agents Can Spy in Advance to Spanish Owners, "Your Ship Will be Sunk at Such a Time", and "Carry Out Threat to the Minute."

(United Press)
PABIS, March 27.—"A vast army of German agents engaged in surveillance of Spanish ports and shipping" is condemned by the Spanish press and demands made on the government to take steps to keep the spies out of the country in papers arriving here today. Germany bomb plots and intrigue in America are pointed to as examples of what the Spanish government is confronted with.
Since Spain's refusal to openly break with Germany as a protest against the submarine blockade, the Spanish press, except the Germanophile organs, is open in its criticism.
The objecting papers carry lengthy and detailed revelations of the methods of German agents working in co-operation with the submarines. El Libertador, the great newspaper of Madrid, leads in openly declaring that no ship leaves a Spanish port before its description, cargo, agents, speed, armament against submarines, make-up of its crew and its destination is known to the submarines lying in wait off the Spanish coast.
"This information is transmitted to the submarines by signals or by wireless and it is so accurate that a German agent can say to a ship captain 'your vessel will be sunk at such and such a time.' And these predictions are nearly always confirmed by facts. Other vessels, which pass the tests of the agents are spared, the paper says, and continues:
"The German organization is very vast and admirably disposed to take advantage of all the elements at its disposition. Of the 60,000 to 80,000 Germans now in Spain, the most part are officers of the Germany army, marines, inventors, industrial workers, commercial agents and technicians of all sorts who have sought employment on all parts of the Spanish coast. In some instances they work for the lowest wages.
"This German army is directed by the consuls and heads of big German enterprises, commercial and industrial, organized before the war.
"They have created friendships all over, especially among the provincial authorities, the military chiefs, the commandants of marines, the officers of the civil guard, the barbers, the chiefs of public services among which are the posts and telegraph and the civil police.
"This has given birth to a system of espionage, sagely and methodically organized, which neutralizes the Germans with most mathematical and precise information for their submarine campaign."

ARBOR DAY SET FOR FRIDAY, APRIL 27

Proclamation Issued by Governor Alexander Leaving Dates to be Selected by County Superintendents.
County Superintendent Belmont Wolfe has announced Friday, April 27, as Arbor Day and on this day so far as possible the various schools and communities of the county will observe the occasion by the planting of trees and the giving of appropriate programs. Governor Alexander in a proclamation has announced the day leaving the date to be selected by the several county superintendents of the state.

Mitchell

The Mitchell line may not be the most beautiful line in America, because that would be taking in a large scope of territory, but it has durability as well as beautiful lines.

We have no comment or criticism to make on the other fellow's car, our sales policy will not sanction any of our salesmen making uncomplimentary remarks about competitive makes of cars.

We are too busy telling of the good points of the Mitchell Car to spend any time knocking other makes of automobiles.

The Mitchell stands on its own merits.

We encourage our customers to make comparisons and thoroughly investigate before buying a car.

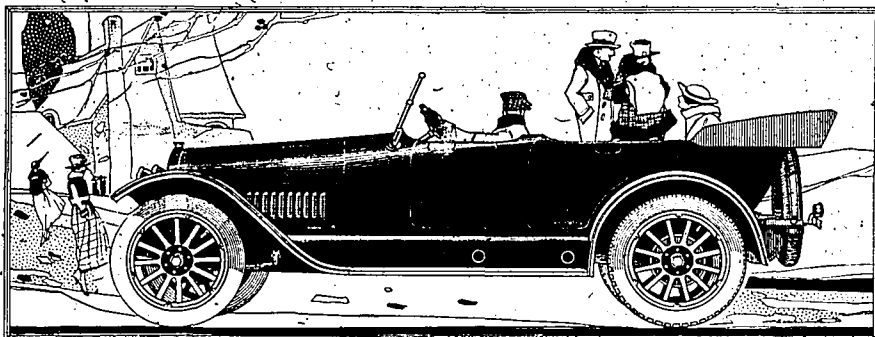

Compare the Jr. Mitchell 6 with cars selling up to \$1400.00.

Compare the Mitchell Big 6 with cars selling from \$1800.00 to \$2000.00.

TIMES PRINTING & PUBLISHING
COMPANY, Ltd.

(Entered at the Twin Falls postoffice as second class matter as a twice-a-week publication, October 18, 1912)

THAT "INVESTIGATION COMMITTEE"

As great as is the need of Twin Falls for a larger, better and more permanent water supply, and as generally as is such need known and acknowledged, it is patent to every thoughtful observer that no bonds will be voted for that purpose unless our people can be assured that the proposed plan is feasible and economical and has been devised and will be carried into effect by professional ability and experience, joined to tried and established personal integrity.

To say this is not to offer the slightest reflection upon the personal or professional character of Mr. Louis C. Kolaty, the engineer whose plans and estimates will, perforce, be adopted if the bond issue is now voted; and who, in that case, holds a contract with the city to superintend the construction for five per centum of the total cost thereof.

The TIMES knows no reason why such reflection should be made. It detects fatherless rumors of all kinds and, therefore, ignores those now abroad in this community to that effect. But the fact that such rumors are abroad, and are undermining the public confidence absolutely necessary to a successful waterworks campaign, can not be ignored.

It was for this reason, without doubt, and in the interest of a needed public improvement, that the large gathering of representative Twin Falls business men, on last Thursday night appointed five of their number to make a full investigation and impartial report as to the questions thus raised—a proceeding, it may not be amiss to say, to which Mayor Sweezy had already given hearty assent.

The personnel of this committee is certainly all that could have been desired. These gentlemen are charged with a duty which may not be altogether pleasant; but which, when faithfully performed, as it undoubtedly will be, is calculated to be of very great influence and importance to the present and future welfare of our splendid, young city.

CALLED TO COLORS AGAIN

The calling out of the state militia, for the second time in the past ten months, will serve to bring home to those who have felt that we were only very indirectly interested in the European trouble, the fact that the United States has at last been drawn very close to the edge of the pool which has, in three short years, engulfed practically all of the powers of the world; and that the possibility of our immediate participation is hourly becoming more evident.

Germany has been shown every possible courtesy by our government; her numerous, murderous violations of not only the laws of the nation, but of all the principles of human decency, has been treated with a tolerance by our government that has often riled the more impatient minds of loyal and patriotic Americans.

Finally she has pursued, with great deliberation a policy that has been coolly calculated to make it impossible for the United States to preserve the slightest degree of self respect and not strike as a protest at the flagrant abuse of American rights.

The German government is undoubtedly relying upon the many Germans in this country to become a source of anxiety and grief to us in the event of hostilities, or threatened hostilities between the two countries; and while this may or may not be it is hoped it will not—prove to be a well founded conjecture, the president is apparently preparing for eventualities. From press reports it appears that the militia is to be used, for the present at least, to protect government property throughout the United States; to prevent the molestation of telegraph, telephone and power properties; to keep the established lines of traffic open; and in general to prevent deprivations by unloyal Americans.

In the event of actual war or even more acute developments, the militia will probably be relieved of this police duty—after the domestic situation is well in hand—and be transferred to more active duty on the respective coasts; the other patrol work being taken in hand by such forces as are organized in the meanwhile.

It comes rather hard on some of the men who have already devoted several months to patriotic service with only a trifling remuneration, to be again called to make further sacrifices. Not that we think for a moment that any monetary consideration will effect the zeal with which the men will offer themselves and serve in this time of need; nevertheless, the fact remains that the vast majority of these men cannot personally afford and should not be required, to assume the brunt of this work, with all of its attendant risks, at no considerable a sacrifice. The burden should be shared more equitably, and a fairer distribution of it would be one of the first things we would like to see congress undertake.

ing service; it is unfortunate they should again, so soon, be called upon to make further sacrifices; but they can be depended upon, as before, to respond, man for man, cheerfully, willingly and patriotically, for the further service the government asks of them.

LOCAL BREVITIES

Phases 22
Sprinkling Begins—The first day brought out the city sprinkler on Main street.

Sure-Overheard at the cafe table: "Has he got money? "Has he—why he raised onions last year!"

Taken on New Car—The Laubenhof Motor company has taken on the Jeffrey line of cars, delivery wagons and trucks.

Sullivan in Carey—Dr. W. A. Sullivan is in Carey organizing farmers in the campaign against hog cholera at that place.

Social Club Meets—The next meeting of the Salmon Social club will be held April 12 at the home of Mrs. Will Mikoeel.

Inspected Stock—Dr. W. A. Sullivan last week inspected stock for David D. Hart of Hollister and N. D. Wells of Borgor, who are about to leave for Coaldale, Alberta, Canada.

Apron Sale—The Women's Guild of the "Episcopal" church, will hold an apron sale at the parish hall during the afternoon and evening of April 12, closing with a musicale, beginning at 8:00 p. m.

Will Return to Tract—J. E. Lowery of Bagley, Iowa, has just left for his home after visiting the Twin Falls tract and purchasing a farm near Hansen. Mr. Lowery will return to this section in the near future, with his family and make his home.

Underwent Operations—Main street underwent an operation for a tumor Friday, when the City highway physicians made an incision on the tumor that had been growing for some time on that thoroughfare in front of the former home of the TIMES. It was discovered that the pipe underneath had failed to function properly and that a small dissection of the artery, caused a leak, producing a pathological condition. The operation was entirely successful.

Charged With Having Boze—W. S. Sims was arrested Sunday night on the charge of having intoxicating liquor in his possession. It is charged that he is in possession of whiskey in his locker. His trial will be held this afternoon.

Farm Bureau Meeting—A meeting of the farm bureau directors will be held Saturday in this city for the purpose of transacting important business among other things being the selection of a successor to R. H. Mueser as secretary.

Takes New Position—Miss Barbara Mehan who has been employed by the Consolidated Wagon & Machine company for some time has accepted a position in the Twin Falls Title & Abstract company office. Miss Mackey will take her place at the C. W. & W.M. Co.

Visit Local Dealers—P. F. Pickett of Seattle, special representative for the Modern Appliances company, the northwest distributors for Delco-Light products, arrived in Twin Falls Sunday for a several days' visit with the D. C. Watson company, local dealers for the Delco-Light.

Head Trimmer Arrives—Mrs. L. B. Moore of Denver, arrived Thursday to take her place as head trimmer for the Vogue Millinery company. Mrs. Moore has been actively engaged in the millinery business for the past seven years and comes to Twin Falls with many new ideas in headwear.

Home-seeker Dies—James Carr, of Nangan, Mo., died in this city Thursday afternoon from pneumonia which he contracted while on his way latter with his wife three weeks ago to make his home. The body was shipped to Nangan Friday for interment. He was about twenty-six years old.

Elk Looking Fine—Assistant State Game Warden Joe Fitzsimmons returned Saturday from the Rock Creek section where he went to look after elk placed there last year. He saw thirty-one of them, all looking fine. While out he also saw about forty deer which were apparently faring well.

Free Lecture Tonight—Rev. Barnhart will give a free illustrated missionary lecture on South America at the Methodist church tomorrow evening. It is announced that the address will be exceedingly interesting and instructive to those interested in missionary work. A general invitation is extended to all.

Fear Hog Cholera—That hog cholera may again break out on the tract if it were here again, is the opinion of Dr. George G. Bishop of the United States bureau of animal industry. Dr. Bishop says that he finds many who keep their lots in poor condition, but others fall completely in this respect.

Dranks Fined Heavily—Because they raised a disturbance Sunday night at the Rogerson hotel which resulted in their prompt ejection by the proprietor and started to create a disturbance in a room at the Perrine later on, C. L. Davis and a man who gave his name as John Doe were fined \$75 apiece and costs by Police Judge W. J. Smith, yesterday.

Weather Still Bellow—The following is the weather forecast for the week beginning Sunday, March 25, for the Rocky mountain and plateau regions: Local rains or snows Tuesday and Wednesday in northern regions, otherwise generally fair; temperature will average above the seasonal normal first half of the week, the latter half will be much colder over northern portions.

Deep Snow in Basin—Miss Oiler who taught school in the Sliohone Basin returned Sunday to find a completed storm. She says that snow out there is twelve feet deep in many places and packed thoroughly. The folks in the Basin ravel out and they believe that if the weather eventually gets warmer and the snow thaws, the amount of water in the Salmon dam will be the greatest on record.

That New Sign—Being neither wicked nor rebellious, a new sign has been given to the TIMES, of which it has been recently placed upon the door and window of our new quarters, in the "White Front," at 255 Main avenue east, by Cosgriff; and as a sample of color work on signs, unquestionably has anything and everything in the city laid in the shade, both in design and execution.

Likes Twin Falls—J. W. Wheeling, of Chicago, who for the past two months, has had charge of the installation of the kodak department of the City Pharmacy, which is in charge of the work and will continue to do high class printing and developing of all kinds. Mrs. Wheeling and two children at present are visiting at Brainerd. Miss W. will come to Twin Falls in the near future to make their home.

Farm Wares Higher—Tiffiny-men have secured jobs so far this month through the municipal employment agency. There are more men than jobs at present but the workmen seem to be pretty prosperous and are demanding higher wages in many instances. Wages range from \$45 to \$50 a month, which averages \$5 a month more than formerly. It is thought they all will be employed in a short time.

Summers Fined, Appeals—Charged with maintaining a nuisance, alleged to consist in letting the dead body of a sheep remain in a stream and with violating the law which forbids the allowing of dead animals to remain more than twenty-four hours unburied, W. R. Summers of Kimberly was fined \$150 on the first charge and \$75 on the second. Summers entered a plea of not guilty to both charges, and announces that he will appeal. He was fined \$25 on the charge of leaving animals unburied.

Free Bucking Show—A free bucking show took place on Main avenue this morning which was enjoyed by spectators on the street. Harry Thomas was a great white spotted horse and being another belonging to the J. Cassidy ranch when the latter pulled his halter rope under the tail of the animal that Thomas was riding. The bucking started forthwith. Thomas kept his seat with ease though the slippery streets made the incident dangerous and exciting. Having got his stick out of Thomas' hands and being on the street, when the animal that he was leading slipped and fell, but was not injured, and the procession went on without further mishap.

Kids Stole Wheels—Arly Scantlin and Darwin McCoy were arrested on Sunday by Probation Officer W. H. Ormsby for stealing bicycles from the postoffice employees one night last week. The boys rode out of town and hid the wheels in the bushes. The probation officer works a couple of days on the case and finally got the boys and the bikes. They will be tried on Thursday. They had also stolen batteries from thresholds belonging to the Consolidated Wagon & Machine company. This seems to be an open season for wheels, as the probation officer had part of a Hanger bicycle for which he can find no owner. He caused the bicycle to be hidden but was unable to discover who stole it.

Evening Opening of The Rogerson Cafe

General Public Invited From Nine to Twelve Thursday Evening, March 29—Menu and Dinner Dancing.

The hotel proprietor, Mr. Robt. Rogerson, and Mrs. Arnold, the cafe manager, are on Thursday evening of this week opening that institution, which has become one of Twin Falls' constants for such refreshment and entertainment as is expected to become a regular feature there in the future. The sandwiches, salads, desserts and other viands will be served from the cafe pantry and, on this occasion and until the opening of the McIntosh drug store, the soft drinks from Murphy's. There will be an excellent musical programme and dinner dancing; the intention being to inaugurate a place for high class evening lunch and entertainment so carefully supervised, and conducted as to make it available and enjoyable to all, including the most fastidious. Call Phone 717 and reserve your tables. Adv.

TWIN FALLS BANK & TRUST COMPANY

the minimum county levy at an amount equal to \$15 per child of school age.

House Bill No. 394—This changes the minimum census from twenty-five to fifteen. The result will be a somewhat fairer distribution than the present law provides.

(b) Raising the maximum apportionment for teachers in consolidated and rural high schools from \$200 to \$200 a year.

Both of these provisions are really based on the new \$15 minimum county levy.

House Bill No. 320—Makes the following modification in the bond law for common school districts:

(a) Sec. 76—Raising the limit from 4 to 6 and requiring that all bonds shall be issued on the amortization plan.

(b) Sec. 77—Checking extravagance by allowing protest when more than one-half of the property is owned by residents.

(c) Sec. 78—Requiring bonds to be offered first to the State Board of Land Commissioners.

(d) Sec. 80—Placing responsibility for payment of bonds on the county commissioners and treasurer.

House Bill No. 324—This bill empowers school districts employing thirty or more teachers to establish a teachers' retirement fund. The principal conditions are that the teachers to be pensioned shall be not less than fifty-two years of age in case of women, and not less than sixty years of age in case of men; shall have taught not less than thirty-five years, fifteen of which, including the last ten, shall have been in such school district. In case of men, and case of women shall have taught for thirty years, fifteen of which, including the last ten, shall have been in said school district.

House Bill No. 375—This bill contains three provisions as follows: (a) Section 129 m—The first provision refers to the special tax which may be levied for maintaining a gymnasium. At present this tax is limited only by the provision that the grand total district tax may not exceed twenty mills. This means that it would be legally impossible for some districts to levy ten mills for the support of gymnasium. This bill limits the gymnasium tax absolutely to a maximum of one mill.

The amendment also cuts out certain complicated provisions which are of no real value and have already given rise to legal conflicts.

(b) Sec. 129 n—The second provision allows independent districts to levy over the maximum of ten mills up to fifteen mills with the approval of the State Board of Education.

(c) Section 129 o—This provision was passed in 1913, but owing to conflict with other bills has been passed in by the courts of non-effect. It attempted to change the number of teachers required to constitute an independent district. Class "A" from thirty-five to twenty.

The educational system has been running on this basis for three years and this amendment is included simply to validate the intention of the legislature in 1913 and the actual conditions now existing.

Senate Bill No. 167 amends the present laws which contain a mass of ambiguous and conflicting provisions concerning the qualifications of voters at school elections. After the most thorough study this question, with the aid of county superintendents, schools, trustees, and legal advice, this Act is submitted, which as a whole matter and reduces it to absolute simplicity; the new provisions are as follows:

(1) All persons over the age of twenty-one who have resided in the district where they offer to vote at least thirty days immediately preceding the election and who are:

(a) freholders, including both husband and wife, when the freehold is community property; or,

(b) parents having children under twenty-one years of age.

Senate Bill No. 110—This is probably the most far-reaching measure in the educational field. It has an exceedingly interesting history for this bill as passed is really different from the original, although aimed to solve the same problem.

In its first form the bill provides two contrasting courses of study, one for the rural population, seven months a year for ten years, the other for the city population nine months a year for eight years. It also provides in all districts, both common and independent, that the board of trustees fix the term of term, and supplanting the present minimum of nine months for large districts.

The new bill makes no change in the law as to school term, but calls for (1) a course of fundamentals for minimum term schools, and (2) a commission to study the whole problem of the curriculum and work of schools.

MANY CHANGES IN IDAHO SCHOOL LAWS

Nine Measures of Sweeping Character Passed by the Legislature at Its Recent Session.

House Bill No. 115—This bill changes the upper limit of the compulsory period from eighteen to sixteen years of age.

House Bill No. 118—This bill contains two small amendments perfecting the act passed in 1913 to guarantee free high school tuition to all children of high school grade in the state:

(1) Authorizes the County Superintendents to draw order for county warrants to transfer tuition to another county.

(2) Provides that for the purpose of the Article only such high school work will be credited as is approved by the State Board of Education or the County Superintendent.

House Bill No. 257—This bill fixes

WILL REPRESENT TWIN FALLS IN STATE CONTEST

Gertrude Smith Chosen Because of Splendid Work Done in Declamatory Meet.

The home declamatory contest, held in the high school auditorium a few days ago, resulted in the selection of Gertrude Smith as the local high school representative for the state declamatory contest, to be held at Caldwell in April. The contest was the best ever held in this school, both from a standpoint of program and attendance.

Reed Harris, Clarence Dean and Joseph Smith were the contestants in the declamatory division. Reed Harris taking first place. "Our National Flag" was the title of his selection.

Lola Duffy, Kate Montgomery and Lunetta Smith, rendered humorous selections of which "The Day of Furious Penalties," given by Kate Montgomery was considered the best.

The winner of first place in the dramatic division was exceedingly hard to choose. Michael Thompson gave "The Bishop's Candlesticks," taken from Les Miserables. Patricia Wynn

WATERWORKS, 8-DOLLAR BEETS

(Continued from page 1)

A. L. Swin offered a motion, to the effect that the business men of Twin Falls there present, believe that a minimum price of eight dollars per ton for sugar beets is justified, and will

pledge their aid and influence in securing it, which was unanimously adopted, without debate, while the doctor rubbed his hands together and said, "fine!"

At this stage of the proceedings, Mr. John Harvey, of the "News," was asked to come forward and act as secretary, which he did.

Then came the question of "tin money," the offensiveness of which to the country people was emphasized by Judge Chamberlain; and which, after some discussion and explanation, was apparently exorcised by a declaration on the part of the manager, Mr. Hart, that the Idaho Department store, would, after April 1, join all the others in paying cash, upon a cash basis, for all produce purchased.

The question of alien and undesirable land ownership called forth considerable talk, but was finally dismissed with the passage of a resolution that public sentiment should oppose and control it, and calling upon the real estate dealers and the Farm Bureau to join forces to that end. Mr. D. M. Denton took the floor to

bring up the proposed bond issue for new waterworks as a matter vital to the people of Twin Falls. After calling attention to the confusion of proposed plans and projects, as well as to rumors unfavorable to the plan upon adoption if which the vote be called—and especially derogatory to the engineer who devised it and who, should it be adopted, will superintend its construction, the speaker said that he knew nothing concerning their truth or falsity; but he did know that no bond issue could be carried unless the fears and suspicions awakened by such rumors were dissipated and confidence established. He therefore moved the appointment of a committee of five representative business men to carefully investigate and fully report upon the feasibility and economy of the plan proposed and, especially, upon the personal and professional character and standing of the engineer, Mr. Louis C. Kelsey. This motion was seconded and carried, and the committee, as erected by nomination, was constituted as follows: E. J. Ostrander, C. L. Hart, A. L. Swin, C. B. Channell, W.

H. Eldridge—a body of men whose report will certainly be accepted as conclusive.

Attention was next turned to the Commercial club itself; and a strong appeal was made by Mr. E. J. Ostrander for its reinvigoration and support—to be first evidenced by general attendance at annual election of officers, which will be held on Tuesday, April 3—polls open all day. In this connection Mr. B. E. Morse called attention to the present age of specializing,

and urged that, as Mr. McMillan had declined to be a candidate for re-election, the club secure for its next secretary some man specially trained and experienced in the duties of that position.

In a most admirable three-minute talk, Mr. Hal G. Blue alluded to the nation-wide problems over the conflict between economic needs and sociological adjustments, as exemplified by the necessity for labor on the beet crop not desired in citizenship. He

also urged revival of interest in the Commercial club, which he said should actively align itself with all interests in the community and get away from individualism, which breeds selfishness.

A word was spoken for the city manager plan of municipal government, after which adjournment of a gathering generally conceded to have been helpful and hopeful—a presage of united and earnest effort for the common good.

The Last Number in the Lyceum Course

Schildkret's Hungarian Orchestra

One of the Best Known Organizations of Its Kind in America.
Samuel Schildkret, Director.

Mr. Schildkret has appeared with his orchestra on both the Chautauque and Lyceum courses for more than nine years past, and everywhere has been greeted with a degree of enthusiasm seldom tendered a musical organization.

Mr. Schildkret and his orchestra first became known during the World's Fair, Chicago, and since that time they have entertained at some of the foremost social events of the country.

—they do more than please your taste

A cigarette that simply pleases your taste does only a part of what a cigarette should do—

Besides pleasing the taste, Chesterfields do another thing, a new thing—

Chesterfields just "touch the spot." They let you know you are smoking—they "SATISFY!"

And yet, they're mild!

The blend does it—it's the unusual skill in proportioning the costly imported and Domestic tobaccos. And the blend can't be copied.

Chesterfields will prove to you that there can be more to a cigarette than good taste.

Try them and see. Today.
