FAMOUS FOOD CONSERVATORS THURSDAY NIGHT

MEETING OF MEN OF NATIONAL REPUTATION AT THE HIGH SCHOOL

Work for Conservation and Bonds

Judge Lawrence Hansen in City Yesterday to Arrange the Meeting—Large Crowd is Expected to be Present.

Mr. Lawrence Hansen, Idaho, has arranged for a meeting for the food conservation program at the high school on Thursday night, Oct. 11, at 8 p. m. Judge Lawrence Hansen in City Yesterday to Arrange the Meeting—Large Crowd is Expected to be Present.

PEACE BLOC WINS IN REICHSTAG SAYS DISPATCH FROM AMSTERDAM

Germany and Austria Expected Now to Offer Peace Without Indemnities or Annexations, According to German Newspaper—Negotiations on That Basis Not Acceptable to United States Unless Assurance is Given, Through Government Responsible to the People That Move is in Good Faith.

AMSTERDAM, Oct. 9.—A new peace offer from Austria and Germany will soon be made containing terms of no annexations and no indemnities, according to a dispatch from Berlin today. The telegram quoted the Deutsches Tages Zeitung as its authority. This information if true, shows that the "Peace Bloc" in the German Reichstag has won a victory for a peace on the basis of status quo ante and that the Pan-Germans have been vanquished.

RAIN CAUSED GAME POSTPONEMENT A DAY

BOLO GROUND, New York. Oct. 8.—Rain which started falling at eleven o'clock this a. m. kept the White Sox and Giants apart in the third game of the world's series this afternoon. The postponed game will be played tomorrow and the fourth game on Thursday, unless inclement weather interferes further. More than twenty thousand fans who had hurried to the park to secure the unreserved seats filed out of the grounds with rain checks which are now as valuable as the reserve seat tickets.

CANAL CO. STOCKHOLDERS MEET IN IMPORTANT SPECIAL SESSION

The Special Meeting of Stockholders Called to Change Articles of Incorporation and By-Laws Under and in Accordance With H. B. No. 84, Passed Last Winter, is in Session Today.

A scant hundred were in the Lavington at 10 o'clock this morning when order was called by Mr. E. M. Swelley, who had been previously agreed upon as temporary chairman. Upon motions in due form, the temporary chairman was made permanent, and Mr. George C. Leth was elected secretary. Upon sustained motion of Mr. Fisher, the chair appointed Messrs. A. G. Fisher, S. P. Atherton and W. F. Alworth a committee on rules and order of business. There was some sparring over the election of tellers, but the following were finally named and declared elected: Messrs. McPherson, Smith, Saunders, Stuart Taylor, Dr. Ems and E. L. Cowan. This was followed by the nomination from the floor and the election, after the declinations of Messrs. Ring, Brown and Goodspeed to serve, of a committee on resolutions consisting of Messrs. J. H. Seaver, DeKloot, Judge Gates, C. J. Wartz and J. W. Fram.

KUHL GUILTY OF MURDER FIRST DEGREE

FIRST JARBIQE ASSASSINATION CASE ENDS IN A CONVICTION

Finger Print Evidence Is Decisive

Sensational Killing of Fred M. Searcy Last December Recalled by Trial in Nevada—Second of Accused Men on Trial.

Elko, Nev., Oct. 8. (Times, Twin Falls, Ida.) "Guilty murder, first degree," verdict of jury in Kuhl case, the second man in the morning. Penally death either shooting or hanging. Beck second murderer suspect on trial today.

FRENCH JOIN BRITONS IN GRAND MOVE

HEAVY FIGHTING RESUMED IN TRENCHES WEST OF YPRES TODAY

Followed Usual Bombardment

Russian Army Prepares for Winter Quarters—Movement in Former Carland Stopped by the Rain.

(L. N. S. Lensed Wire) LONDON, Oct. 9.—The French have joined the British in the offensive by which the allies are trying to burst the Germans back from the Belgian coast.

The war office announced today that the British, in conjunction with their allies on the left, attacked the German positions over a wide front north-east and east of Ypres.

The object was to clear the Germans from that part of the Paschenlaere road which they still held.

The attacks followed a violent bombardment of the German trenches by the British and the Russian army.

PETROGRAD, Oct. 9.—Incassant rain on the northern end of the western front is interfering with military activity, said a dispatch from there today.

The Russian army is actively engaged in preparing a winter quarters. The army has been ordered to build up a line of trenches and to dig in.

The correspondent of the Petrograd Herald writes that the Russian army has been organized along democratic lines of discipline and that the Russian army at this part of the front are in splendid fighting trim.

WASHINGTON, Oct. 9.—Official cables from Rome, today, tell of another important military success by a squadron of Caproni airplanes on the Austrian naval base at the mouth of the Cattaro.

Noted by Gabrielle d'Annunzio, noted Italian pilot, the squadron crossed the Adriatic, a distance of 180 miles. They arrived at midnight flying at an altitude of 12,000 feet.

Several thousand feet the aviators started bombing destroyers and submarines anchored in the harbor. The Aviators then opened a furious fire against the Italian planes, which, however, remained over Cattaro until 3 o'clock this morning. Several Aviators were observed and several ships were hit.

The question of conserving the food of the nation has been discussed at a meeting for food and state speakers for months and there is a feeling of general interest in the message that new orators of national repute will appear at the meeting.

WASHINGTON, Oct. 8.—Millions of bushels of cereals in excess of the expectations at the beginning of the year will be the contribution of American fields and meadows towards the winning of the war, according to official estimates of the department of agriculture this afternoon.

A wheat crop of 659,797,000 bushels will be harvested although last winter a production of but 629,556,000 bushels was forecasted.

The following reports from the bureau of crop statistics publishes the crop estimates and agents:

Spring wheat, October 4, indications 242,400 bushels. Change since September 1, 7,809,000 bushels. Yield per acre indicates 14.1 bushels.

Winter wheat, October 1, indications 659,797,000 bushels. Change since September 1, 7,809,000 bushels. Price October 1, 200¢ cents. Yield per acre indicates 12.7 bushels. Per cent of 1916.

Corn, October 1, indications 3,210,735,000 bushels. Change since September 1, 38,717,000 bushels. Price October 1, 31¢. Yield per acre indicates 26.5 bushels. Per cent of 1916 114.2. Condition October 1, 75.9. Ten year average 76.2.

The Authorities Confer Together

The County Commissioners and the Commissioners of Buhl Independent Highway District Spent Friday Together and Met Again Next Wednesday.

On Friday last week the county commissioners and the commissioners of the Buhl Independent Highway district made a tour of inspection and were in the morning of "Lilly grade" on the Jarbidge road. As all Times readers are aware, the improvement of this troublesome piece of road was undertaken by the boards of commissioners under a sort of partnership arrangement—the cost of certain portion of the work to be borne by the county and the remainder by the district. The work was let some time ago under a seventeen thousand dollar contract, and is now nearing completion. The inspection,

(By John Edwin Navin, International News Service Staff Correspondent)

WASHINGTON, Oct. 9.—The United States will reject any German proposition of peace that carry with them only a demand for the restoration of the status quo ante bellum.

High administration officials made this plain today in discussing the report printed in the Deutsches Tages Zeitung, of Berlin, that a new peace offer with that suggestion as the basis, is about to be made by the central powers.

President Wilson, they pointed out, had such an offer in his mind yesterday afternoon when addressing the newly organized league for world peace. He said that the war must continue until the enemy is beaten.

Officials refused to be quoted today on the new Berlin suggestion. Privately the following was set off as the position of the administration which can be expected if any new peace offer comes from Berlin via the Vatican or any other way:

"The United States entered the war to safeguard the democracy of the world. It earnestly desires peace but only a peace that will be lasting and not a truce to allow autonomy to reform and renew the conflict.

"Discussion of peace by officials at this time would be interpreted as such discussion in the past, by the German leaders as an admission that this nation was not solidly supporting the president in his determination to prosecute the conflict to a successful end.

"Peace offers that carry with them simply restorations of the status quo ante will be rejected for the reasons clearly set forth by the president in his Flag Day speech and the reply to the pope.

"Further peace propaganda in this country at present is extremely dangerous. Therefore officials will not discuss it but will continue every possible effort to increase the efficiency of the army and the navy."

we are advised, found the work done, on the whole, quite satisfactory. This week, Wednesday, the two boards are to have a joint meeting at Buhl, which would seem to have great potentialities. They are then to go over the public highways within the Buhl district for which improvement under a bond issue is desired, and arrange what part of such work shall be done by the county commissioners, and to remove the last possibility of a cause that anyone within the Buhl district who is really in favor of good roads, should take a vote against the county. Under this plan the county will command the road-building situation. They can realize on the state's proposed contribution to the state highway. They can let the county build what roads it will at the expense of bonds supported by the whole county, including the City of Twin Falls; and they can use their own bond issue to add to all this just as much, or as little, as they shall see fit.

NO MARKET TODAY

Owing to the "commandeering" of leased wires to report the ball games, all market reports came today local. The general tendency was slow, but prices about the same as last week, with slight advances in clover.

SUICIDE THEORY IN DUNN CASE FEASIBLE

That J. L. Dunn, veteran printer and frontman and at one time a member of the Twin Falls Typographical Union, who was found dead in a ranch house four miles from Amsterdam Sunday, came to his death as a result of a suicide is the opinion of Sheriff F. M. Kendall, but the inquest called for tomorrow afternoon, will be held, owing to the widespread feeling that it would be better to have an official examination before a jury, and because certain phases of the case are not yet clear.

Sunday morning, mistaking the day of the week, Thomas Wilkerson, who was staying at the Dunn claim house with the owner, loaded a wagon full of wheat and went to Amsterdam to sell it. He left about 7:15 and got back about 12:30. On entering the one room house he saw Dunn where he had fallen backward over a chair. A bullet hole under his chin was surrounded by powder burns. There was blood on a looking glass and in a box under the glass in front of him. A .30-06 rifle lay on the floor under his chair. Wilkerson at once hurried to town and telephoned to Coroner Crowder. The latter on arrival at the house made an examination. What appeared to be a deep cut on the face caused him to think that there might have been foul play. Sheriff Kendall was a first inquirer to take the same view. An examination yesterday, by physicians, however, is said to have led to the conclusion that Dunn killed himself and that what was suggested

For a time searching parties scoured the country and Ben Kuhl, the man found guilty Sunday, was a leader in the search. Finally his overcoat, which they drove up this abandoned bridge and a shirt bearing his laundry mark was found in the river. A search of his tent resulted in the discovery of a .44 calibre pistol in the grip, with one chamber and one round left for a short distance and rifled the wagon, getting some \$200 in cash, which was being brought to the county by a check. They took the mail bags from the wagon and brought them to a point behind the postoffice, where they went over their contents.

Further investigation at the preliminary indicated that the gun found in the Kuhl tent was the property of Edwy McGraw, otherwise known as "Poker George," and that the latter was in the habit of leaving the weapon on at the Success saloon. The evidence further indicated that on the night in question, Edward Beck, whose trial began yesterday came into the saloon and asked McGraw to let him have his gun, as Kuhl wanted to take it home.

Dunn was a miner as well as printer. He was a member of the Buhl Independent Highway District. He was a prominent member of the Wallace Lodge of Masons, and will be buried with Masonic honors, probably on Thursday. He was about fifty-seven years old.

to be cut by a sharp instrument, were abrasions resulted from the action of a heavy gun.

NEXT DRAFT PLAN READY BY TONIGHT

WILL BE PRESENTED BY WAR BOARD TO SECRETARY BAKER

Methods Will be Radically Changed

Experience of Previous Examinations Used to Eliminate the Errors Characterizing the First Draft.

(L. N. S. Lensed Wire) WASHINGTON, Oct. 9.—Plans for calling up the next draft of draftees for the national army will be completed tonight. They are ready for the approval of Secretary of War Baker and will be submitted to him at a conference by Major General Crowder, provost marshal general. The exact number of men set out to be called up is about the only question still undecided. That, however, is a detail inasmuch as General Crowder had determined that a majority of all of the eligibles will be summoned without delay for physical examination and to file exemptions if the latter are claimed so that eligibles will know exactly how they stand on the list.

Revolutionary changes are to be made in the methods, General Crowder insists. Complete advantage is to be taken of every mistake that was made in the first call. Much of the dissatisfaction so real and so very insistent during the calling up of the first men was due to ignorance because a complete new plan had to be evolved, as the old one was so defective that it will not be necessary in the future.

The most radical change will be in the method of medical examination. The number of men who were drafted after the first call was so small that they failed to measure up to the strict physical standard was far too large. General Crowder and his staff admitted that this was due to the fact that the local boards were not directed

McLean Asks Price Center Near Tract

Sends Petition to Food Controller Hoover Requesting New Basic Plan

The petition, a copy of which is published hereunder, has been drawn by County Agent Howard McLean for the purpose of obtaining signatures, to be forwarded to Herbert N. Hoover, food administrator, at Washington. The TIMES has endorsed the petition, and the administrator will gladly assist in getting as many signatures as possible. All who desire to have their names on the petition are invited to call at the office of the TIMES and affix their names. If they find it impossible to come personally, an account of the petition may be secured by a letter or postcard requesting that their names be affixed, the request will be complied with and the letter held for verification.

The following is a copy of the petition, which will take the form of a telegram to Mr. Hoover:

Mr. Herbert N. Hoover,
Food Administrator,
Washington, D. C.

Practically all the wheat through this region is milled either locally or in Salt Lake, Ogden or Denver. The basic price established for Portland, Tacoma and Seattle has not helped the farmers in this region of the country at all. The further west and east the goes, the less is the freight charge and the more amount received for the wheat so that the farmer of this section gets less for his wheat than anywhere else in the country.

We cannot afford to curtail the establishing of a basic price at Portland or Salt Lake. The farmers here feel very strongly that they are being discriminated against and the situation seems to require attention. We feel sure that you want to do the best thing for all concerned, and we feel free to urge the establishing of a basic price at all these points.

Your Old Clothes "Roof" the Soldiers

Low Maintenance Cost and Durability Made Felt Roofing Desirable For Cantonments

Did you ever imagine that the old suit you discarded may go into a roof over your husband's, or brother's, or son's head in Uncle Sam's cantonments where the new soldiers are in training?

The high grade asphalt roofing which our government experts have chosen is what manufacturers call a "by-product" roof. Its base is a thick, soft felt made of old rags, and these rags come from tons and tons of our last winter's clothing that have been collected and made into roofing felt. This information will surprise many people who may still have in mind the old-time "paper roofing" or "tar paper," or the later so-called "rubber" roofing, but these are largely bygone. The modern new roofing is made of so pliable felt which is saturated with several times its own weight of blended asphalt. Thus asphalt has become the established economy product for ever used as an order wheels, in preference to wood, or metal.

A writer in the Saturday Evening Post, Mary Roberts Rinehart, recently commented the extreme discomfort experienced by soldiers of the Exercise Reserve Corps men under metal roofs in the older cantonments during the summer. The cooler, non-conducting asphalt has brought about much more comfortable conditions in the hot southern camps and it also keeps the interiors warmer in the extreme cold up north, where other camps are located.

"By-products" are playing a big part in this war. The Germans have carried the idea farther than any other nation. For fighting purposes they have followed the plan of using everything but the squeal. Uncle Sam is not far behind them in conservation now, and is learning more right along. In the case of the asphalt roofing, for instance, few people realize

how far the economy hunt has gone. In addition to the fact that Uncle Sam's buyers and builders found this roof quick and easy to lay, low in maintenance cost, long-lived, weather-proof and wash-proof, fire-resistant, and other things a good roof should be, it was pointed out that as asphalt roofing came in compact rolls and would save space in freight cars, and also that it would conserve lumber which is hard to get for shingles especially.

For many households look into their purchases as carefully as Uncle Sam does? With him, losses great or small cannot be tolerated, because in the aggregate the leakage of supplies and money would be simply staggering. When you consider the number and size of cantonments—a small city of each of them, and the millions of square feet of roof needed, the money saved in selecting a durable asphalt roofing is important.

Next time you go to visit "our soldier" at his cantonment, look at the roof and remember that your old clothes may be doing their mite to "protect" him.

No Glad Hand Upon Departure

A Group of Twin Falls County's Soldier Boys Felt Badly Because Permitted to Leave Us Without Notice.

The six young men who left this city last Wednesday evening, as the third installment of Twin Falls county's quota for the new army of the United States, felt aggrieved that not a hand was offered nor a voice raised upon their departure, and have expressed such feeling in the temperate letter to THE TIMES that is published here-with.

The boys have our sympathy, and we believe that Twin Falls people will not allow this oversight to repeat itself. Still, upon the other hand, the young men should remember that Twin Falls people have time and again abundantly proved their patriotic fervor and loving regard for their soldier boys. They should remember that not only has an entire company once and twice called for a demonstration upon its departure, but that detachments for the marine corps, the medical service, the navy and the regular army have been continually faring forth in groups of all sizes, so that naturally, and without any abatement of interest and kindly feeling, the going of one small group might pass without doing notice and the heart of our people still go warm toward the gallant youths who go. The letter follows:

Minidoka, Ida., Oct. 3, 1917.
Editor Twin Falls TIMES.

Dear Sir:—A few lines in commemoration of the patriotic send-off given the SIX national army men who left Twin Falls on the evening of October 7th.

Compared with the send-off given by other small towns it sure takes the "pop" out of us men. Not a soul was there to greet us.

Other towns come out in throngs to greet their men, with flags waving and bands playing.

I think Twin Falls ought to wake up just a little before the last contingent of army men leave and show its appreciation for the loved ones who leave their homes to protect the others.

Although the medium of your paper, I think good results will obtain. Hoping you will wake the people up to this matter and keep Twin Falls on the map as patriotic city, we are yours in the name of Liberty.

STUMP-BURNING PLANS

Several Have Been Carried Out With Fair Success.

Simple Method Evolved by Professor Ferris of Missalpi—Two-Inch Hole is Bored Through Stump, and Fire Started.

Several plans for the slow burning of stumps have been devised and carried out with a fair measure of success. Professor Sparkle of Seattle, Wash., advocates a system of charring by which air is admitted to the fire through a long pipe. Combustion is carried on in the heart of the stump instead of on the outside. A description of the system appeared in these columns about a year ago. It requires some skill to obtain results by this method, as several of our readers wrote saying that they had tried it without satisfactory results. It is better suited for the destruction of the woods of the Pacific coast than for those of the East.

A simpler plan has been evolved by Professor Ferris of Mississippi and as shown in the accompanying diagram, consists of a 2-inch hole bored diagonally through the stump. The upper

Stump-Burning Plan.

end of this hole is at the surface of the ground, the lower end on the opposite side and about 18 inches below the surface. The earth is dug away and a fire started at the lower end. The auger hole serves as a fine and the stump is soon burned out. This plan has been found successful with pine stumps on lighter soils. It will not do so well with stumps of other species of trees.

HONEY IS VALUABLE ASSET

No Farm Complete Without Few Colonies of Bees—Movable Frame Hive is Sufficient.

No farm is complete in its conveniences and business methods without a few colonies of Italian bees comfortably housed in a most convenient hive. Honey is one of the farmer's most valuable assets, and in many places a dozen hives during a single season, worth in many places 75 cents a gallon. All the best hives is a movable frame hive, in which the honey is stored in a convenient manner for the farmer to get at any time he may wish to have honey and butter.

WASTED LAND ALONG FENCES

Department of Agriculture Reports That Ordinary Rail Barrier Occupies Twelve Feet.

Few farmers stop to think how much land is taken up by the fences. The fence itself takes little room, but it is impossible to grow anything for several feet on both sides of the fence. The department of agriculture reports that the ordinary rail fence occupies a strip over 12 feet wide. About 8,000 feet of such a fence takes up an acre of land. Hedges take up a little more than the rail fence, the width varying according to the width of the hedge row.

BUTTERWRAPS

Printed at The Times Office

GOATS ARE THRIFTY FEEDERS

Animals Are Easily Raised and Meat Highly Desirable for Food—Little Capital Needed.

Goats are very thrifty feeders. They are easily raised and the meat highly desirable for food. Kids soon reach the age when they may be sold for the market or slaughtered for fresh meat. A few acres of rough land could hardly be used any better than for goats. A small area for pasture crops could be utilized for producing kids for the local market. It would not require much capital to start on a small scale and much labor to take care of the animals.

EXCELLENT FEED FOR DAIRY

Peavine Silage is Very Palatable, Containing More Protein Than That From Corn.

Peavine silage is an excellent feed for dairy cows, being very palatable and containing more protein than corn silage and approximately equaling it in the total nutrients. Because of its strong odor, peavine silage should be fed after rather than before milking to prevent tainting the milk. It may be fed in as large quantities as will be consumed but is more satisfactory when supplied at the rate of about 25 pounds per cow per day.

PERTINENT POINTS

Chinese soldiers in recent revolution fired 1,000,000 shots and only killed fifty people. That sounds much like the city sportsmen out for the duck season.

Some of the paper makers who complain about the price fixed by the government will probably also complain if they don't get the orders at that price.

The neutrals are pitifully begging for food supplies with which to bribe Germany to let them alone.

The question is asked what has become of the boy who used to raid his neighbors' fruit orchards? Well, some of them about now are hiding in their own little gardens with a supply of the neighbors' boys who are suspected of thieving.

The ones who are worrying about having to fight are not the drafted men, but those who are afraid they will get called next time.

The United States is not to fix the price of meats, but the public can feel sure that the dealers who have the enterprise to advertise will also have the enterprise to secure good bargains for customers.

The Frankford explosion is called "accidental," but no doubt the Kaiser will pay the usual price for the job.

Simple lines and color is said to characterize women's dress this fall, but there is nothing particularly simple about paying the bill.

The boy who won't study Latin because it won't help him get the money to buy a six cylinder car, is quite likely to be the one later who walks because he hasn't enough money to ride on the trolley.

In the league championships, the Philadelphia Athletics and the Pittsburgh Pirates appear to be "sunk without leaving any traces."

The people who postponed buying Liberty bonds last spring because another issue was coming out in the fall, won't probably buy the new lot now, as there will be some more next spring.

As some restaurants now charge for use of table cloths, the next logical thing is to let out spoons, knives and forks, at so much per meal.

Merchants who run a standing ad telling about lawn mowers in winter and heaters in summer, are sometimes the same ones who complain that advertising doesn't pay.

The boys who quit school at an early age so as to earn some pocket money, will later be heard from applying for jobs to the boys who knew enough to stay in school until they were prepared to go to work.

"You can cut down that item and have a better roof"

There is no use in putting on an expensive roof when you can get a better roof and save real money by using

Certain-teed Roofing

CERTAIN-TEED is the best roof, not only because it costs less to manufacture, but also because it is weather-tight, light weight, clean, sanitary, fire-retardant, and costs practically nothing to maintain.

It is now used as the preferable type of roof for office buildings, factories, hotels, stores, warehouses, garages, farm buildings, etc., where durability is demanded. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles are supplying wood and slate shingles for residences. They cost less, are fire-retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes are the best quality paint materials, ground and mixed with mechanical accuracy. Made for all uses and in all colors. With paint, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.

OMITTED FACTS IN BORAH TALK

(From Sunday Times, Republished by Request)

The TIMES has less objection to what Senator Borah says than to what he does not say when he talks of taxing the swollen revenues growing out of the war.

The senator's basic propositions: that as much of the tremendous war coat as is possible should be raised by taxation at the present rather than by bonding the future; and that it is the bounden duty of congress to tax equitably and fairly, are both in perfect accord with President Wilson's message, as quoted by him, and are beyond cavil or criticism on the part of any patriotic citizen.

The casual listener to his address on Wednesday evening at the Lavering theatre might have gained the impression that under the revenue bill just enacted, the munitions manufacturer escaped, when as a matter of fact taxes, which in case of extremely high profits reached sixty per cent, have been provided for. Not only that, but the surtax feature of the income tax section provides for income taxes as high as sixty per cent for incomes exceeding \$1,000,000. So that when the money gets into the hands of the big stock holder, it is again subjected to taxation.

We quote the summary of the law which provides that the graduated tax of 20 to 90 per cent of excess profits of corporations, partnerships and individuals shall be levied on a basis of invested capital compared with previous years of 1911, 1912 and 1913. This is a substitute for the senate taxes of 12 to 60 per cent, based on a similar comparison of pre-war and present profits:

"The income tax section (of the senate bill) virtually was unchanged except for the rearrangement of surtaxes on incomes between \$15,000 and \$40,000. The graduated surtax of from one to 60 per cent of incomes from \$5,000 to \$1,000,000 and over was approved.

"The senate increase of from two to four per cent of the income tax on corporations and joint stock companies and insurance companies was approved, together with the new normal, individual tax, of two per cent on incomes of unmarried persons in excess of \$1,000 and married persons of more than \$2,000.

"The new rates of inheritance, with those of Americans in military service exempted, range from one-half of one per cent on \$50,000 estates to ten per cent on estates of \$10,000,000 or more."

In other words your corporation engaged in munitions making first pays a regular income tax. Then it pays a war-profits tax ranging, according to the rate of net earnings, all the way from twenty to sixty per cent of its excess profits. Lastly, after the money is divided every individual who draws more than \$2000, and if unmarried more than \$1000, is subject to income tax. Finally, should death come another tax is levied, on all estates of \$50,000 and over.

Now Senator Borah did not say that these taxes were not levied, but we are certain that the impression received by many in his audience was that these profits practically escaped taxation.

The fact that Senator Borah did at one time during his address incidentally mention that he believed twenty-one per cent too small an average proposition to take from war profits and that at another he observed that he thought three billion dollars, instead of a billion dollars should have been taken, did not prevent some from laboring under the misapprehension suggested, as a discussion with men on the street demonstrated. The fact that a graduated war profits tax, had actually been written into the law, which, whether adequate or not, increased in proportion to the size of the profits, was not clearly stated.

Another thing: many of these corporations have invested vast fortunes in new buildings and special machinery for the manufacture of war supplies which at present are necessary for the government, and when war closes every one of the great factories and the buildings connected with them will be dead loss. This fact that practically the entire additional investment in some cases will be lost, should be taken into consideration in figuring the rate of profits that these men should receive, for they not only must

figure on making enough to replace what they put into their business, but a reasonable rate of profit besides.

The TIMES does not mean to say, and in previous discussion distinctly repudiated the idea that it meant to imply that the sixty per cent, plus normal corporation income tax, plus normal income tax had inheritance tax, was sufficient for the first levy. It contended then and the facts should be taken into consideration. The question of how much this business will bear for one for experts to determine. But the omission, we are sure quite unintentional, to call attention to all the facts, must necessarily lead some, and might lead many into very erroneous conclusions.

During his great speech here last fall Senator Norris, of Nebraska, showed the extraordinary expenses attached to powder making, by citing the instance of a great powder company that constructed a vast factory in a swampy country, where people did not ordinarily live, and constructed a large town around it for the accommodation of its working people. That this factory, its machinery and the residences built around it will be dead loss when the war ends goes without saying.

The TIMES heartily approves of the idea that war profits in munitions making should be abolished. There is only one way to secure this result and that is for each nation to manufacture its own supply. This state of affairs cannot be brought about in a satisfactory manner in the midst of a war, where the activities of the government have been necessarily extended in so many directions. This doctrine, however commendable, has no practical bearing on the issue at hand, except that should it prove cheaper and at the same time furnish the material needed, more profitably, the government would be justified in taking over the works and paying for them the price adjudged by the courts to be fair. That President Wilson will not hesitate to apply this remedy is indicated by Senator Borah's own statement that as a result of a threat by the president to take over their works the United States Steel corporation cut its price fifty per cent. That the per cent of profits of which Senator Borah complained was in this case, quite materially reduced is evident.

KUHL GUILTY OF MURDER

(Continued from page 1)

harrow L. McGraw is said to have turned over the gun. About 8 o'clock the two men were taken to the station and are said to have appeared anxious to have people notice that they were there. About 9 o'clock the judge ordered that a search be instituted, resulting in the discovery of the body of Searcy sitting upright in his wagon on the old trail.

On this statement of facts, the men were taken to court and the trial was to be tried separately, and the first trial resulted as above indicated. The following is the story of the testimony regarding the finger prints found in the mail bags. The case was written by E. M. Stanninger, editor of the Elko Free Press to whom the TIMES wishes to acknowledge thanks. The judge made a complete trial in district court that has been going on for more than two weeks past, has been one of the most interesting cases ever held in this country, due not only to the facts of the case, but to the evidence being practically alike for each case, the court requested the Free Press to refrain from publishing the happenings and evidence in the first two cases, on the grounds that it would make it almost impossible to get a jury for the two cases after the first was held. This is the reason why almost nothing has been printed in these columns.

But as the evidence of the first case is now all in and the palm print evidence will be used only in the Kuhl case against that defendant, we have secured from the testimony of the two experts, and in interviews with them the following interesting article:

While searching through the sacks the murderer's bloody hand print was left on an envelope, which was discovered by the postal authorities when they were holding the envelope when this was placed in charge of Sheriff Harris who promptly got into communication with C. H. Stone, superintendent of the bureau of identification at the state capital at Carson city, Nevada, Cal., and who was formerly connected with the Nevada state police, where he had charge of the bureau of identification. Carson City, Nev. Stone is recognized on the Pacific coast as one of the foremost fingerprint experts, and on the receipt of the envelope containing the bloody prints, wrote that he had a suspicion that if he would send the prints of the three men suspected of the crime he would be able to identify them.

This was done in the month of January, and after a thorough examination Mr. Stone replied that the bloody palm print on the envelope was that of the prisoner, Kuhl, and not of Beck and McGraw. When the district attorney's office decided to introduce this testimony in the Kuhl case Mr. Stone was asked to have pictures made of the palm print, and this part of the work was assigned to O. W. Bottorff, superintendent

of the county bureau of identification at Carson City, Nev. Mr. Stone made a specialty of enlarging the lantern slides of prints, besides being a leading expert on finger prints.

The enlargements and negatives were made of the bloody print on the envelope and the one taken of Kuhl's palm by Sheriff Harris, both being placed on the same slide so that the comparisons could be made and seen by the jury. Mr. Stone says that last spring at the regular annual meeting of the Pacific coast fingerprint experts, the pictures of the two prints were shown and every man present unhesitatingly pronounced the two prints as having been made by the same palm. It was also passed on by other national fingerprint print experts who concurred with Mr. Stone in his decision.

But owing to the fact that this sort of evidence—palm prints—was something new in the courts of law, the experts had to go to extreme lengths to convince the court that the evidence was admissible. Ordinarily in the comparison of finger prints eight or ten distinctive features, or peculiarities are all that is necessary to establish the fact that the prints are identical and made by the same person. But in this case the experts had selected 15 points of similarities for comparison, more than twice the regularly required number.

This was made possible by the fact that the bloody print on the envelope, which was the portion of the left hand, contained a particularly plain imprint of a "whorl," or "helix," which was duplicated in the print of Kuhl's palm. The experts in testifying before the jury went into details, in explaining every peculiarity, pointing out on the enlarged print where and how they selected a peculiarity and how the two compared. Mr. Stone at the conclusion of his testimony was asked by the state if he could make a positive statement as to the hand that made the imprint on the envelope. The print of Kuhl's palm, answered: "I am as positive as it is humanly possible to be positive of anything, as positive as I am that I am in this court room, that those two prints were made by the same hand."

Expert Bottorff illustrated his testimony by the means of a projection. The court room was darkened and the pictures of the two palms were thrown on a screen, and every line was magnified many thousand times. He pointed out the lines and peculiarities and told the jury the history of each print, and how they were used in the courts of every civilized nation of the earth, from early times. At the conclusion of his testimony he stated positively that the print on the envelope and the one made from Kuhl's palm was made by the same hand.

The legal battle between the attorneys on the prosecution and the prints occupied the attention of the court for two days and was bitterly fought by the defense. With the jury excluded from the court room the two experts were placed on the stand and every detail was given to the court, the enlarged pictures of the prints the methods that were to be used by the state in presenting the evidence to the jury and the testimony of the two experts, even more fully than given to the jury, were brought out before Judge Taber would rule on the objections of the defense. It was a most interesting part of the case and the court room was daily filled with men and women attracted by the unusual features of this testimony.

It was conceded to be the keystone of the state's case which had been built up with painstaking work by the district attorney's office and which was needed to complete the case. It was circumstantial evidence to fasten the crime on the defendant, Kuhl. The next case will be that of Beck, one of the three charged with the crime. It is not expected that either of the two remaining cases will compare as well as the Kuhl case. Many features of the case, which will again come up, have been fought out and decided by the court, thus saving considerable time and material by shortening the other cases.

DOUGLAS FAIRBANKS COMING IN HIS LATEST AND BIGGEST COMEDY

"DOWN TO EARTH" FINEST PICTURE THIS STAR EVER PRODUCED—TYPICAL OF "DOUG" HIMSELF AND HIS SCHEME OF LIFE—IS HIMSELF THE AUTHOR—SHOWS THURSDAY, FRIDAY AND SATURDAY

DOUGLAS FAIRBANKS, author and star of "Down to Earth," another rip-roaring comedy backed by a "real idea" for a plot, is booked for Thursday, Friday and Saturday, afternoon and evening, at the Idaho theater. A little quieter than some of the others, perhaps, in that there is none of the melodrama and the athletics have a rest, it is still conceded by critics everywhere to be the BEST picture yet produced by the BIGGEST star in the world.

Don't Miss This One
Right here, at the beginning of this little story, we are going to tell you that the picture will start each evening at 7:15, and that it runs two evenings before the usual Saturday evening jam. And the front seats at the Idaho are thirty feet from the screen, the screen being against the rear wall—unlike conditions in most theaters where front-row patrons are only a few feet from the picture. At the Idaho there is a full view of the screen from the front seats.

"Doug" the Author and the Star.
Douglas Fairbanks wrote this story himself; Anita Loos, who is responsible for all of Doug's recent successes, wrote the titles and gave the whole crowd a bunch of names that are a whole evening's fun in themselves; and John Emerson is the director of all the big Fairbanks pictures. If this combination needs anything more, it is there—all in this one picture; hundreds of little fine touches that produce laughs, quiet humor and witty sarcasm; excellent photography; appropriately selected scenes, and—Miss Eileen Percy, his co-star in "Wild and Woolly."

LOCAL BREVITIES

Phone 29
The school board decided not to close the high school.

Card of Thanks—We wish to express our thanks to our many friends and relatives who were so kind to us during the time of sickness and death of our little son, Ira Edmond—Mr. and Mrs. I. E. Atkinson.

Ladies Aid Meeting—The Presbyterian Ladies Aid society will meet on Thursday afternoon, October 19, with Mrs. H. J. Wall, who will be assisted in entertainment by Mesdames Stafford, J. E. Hill and A. H. Scott.

Japanese Social—A Japanese social under the auspices of the Altar society of the Catholic church will be held at the Episcopal parish hall on Tuesday evening, October 16. A general invitation has been extended to all to attend.

Auto Went Into Cellar—An auto belonging to an unknown person and driven by a thirteen-year-old girl, it is said, in violation of laws governing such cases, took a plunge into the cellar in the rear of the Regerson hotel yesterday morning. Neither the machine nor occupants were injured much and got out shortly afterward.

Liked Twin Falls—About a month ago the Tribune received a long letter from Honning Erickson, formerly of this city and county, but who has lived in the Twin Falls district in Idaho for some time. We have been expecting to print the letter in full, but lack of space has prevented the same. Mr. Erickson is very pleased with that section of the country and says that all that is needed to make it blossom like the rose is water and that irrigation has done wonderful things for the people of Idaho. Twin Falls has grown to be a wonderful city of 10,000 inhabitants who are of the most energetic nature. In fact, he says, "every person is a bootlegger here, if you please." Mr. Erickson makes his home at Berzer, a short distance from Twin Falls—Volga (South Dakota) Tribune.

Weather or No—The following is the forecast for the week beginning October 7, 1917: Heavy Mountain and Plateau regions: There will be a return to normal temperature the first part of the week; no rainfall of importance.

Horse Sale At Bull—There will be a horse sale of thirty head of young horses, held Saturday, October 13 at the residence of Col. R. E. Clayton and E. O. Walters. The horses are described as being of good quality. The sale will take place at the stock yards. E. M. Spitzer is the owner.

Important to Salmon Tract—It is desired that the greatest possible publicity be given to the fact that the state land board, which of course includes the governor and Commissioner Tallman, will be at Hollister on Monday and Tuesday, the 15th and 16th of this month, for the purpose of conferring with the settlers on this tract. A public meeting will undoubtedly be held on Tuesday evening, at which further notice will be given by posters and otherwise.

Brickey Hus Sale—At his residence eight miles due east of Twin Falls, on Addison avenue and two miles from the city of Hamden, at 10 o'clock sharp, D. K. Brickey will offer for sale three horses, nine head of cattle, sixty-one hogs, forty chickens, four geese, farm machinery and household goods. Mr. Brickey expects to leave the farm permanently. The sale will be held Thursday, October 19, at 10 o'clock sharp.

Helping Hoover—The demand for help from the farms, and especially from the orchards, has become so pressing that over fifty boys were out working last week and an hundred and fifty started out yesterday morning. They are not started down in their grading by reason of these absences but at the same time they feel that they lose ground because of them. For this reason, and in recognition of the great economic need of saving the produce, the suspension of high school work for a week or two is being seriously considered. It has been decided at a meeting of the school board last night of the result of which notice will be given elsewhere.

The Times Smoke Fund, by means of which forty-five cents worth of smoking material for every twenty-five cents contributed, will reach some American soldier in France, has already been given a nice send-off. By its initial report, from Twin Falls should not constitute one of two dozen packages. We wish and expect to report at least a gross of them; and any one who can find it in his heart to help, or more is urged to respond at once.

Authority on Beer—Dr. E. F. Phillips, apiculturist of the United States Department of Agriculture, will be in Twin Falls on Thursday of this week and will bring the important branch in industry upon which he is a specialist, high standing in the estimation of all interested at the commercial club rooms, at two o'clock p. m. of the day mentioned. The secretary of the Commercial club is endeavoring to fit a club luncheon to the occasion; but as yet is not sufficiently well informed as to time of his arrival.

Tainful Gains—Speaking about unbelievable profits from farm products on the Twin Falls tract, just let your mind wander over the following: Mr. B. Corcoran owns one hundred and sixty acres of land in the vicinity of Eden, on the northside. One hundred and fifty-five acres of this farm was in wheat this year and the crop has been harvested, shelled, marketed and paid for—Mr. Corcoran receiving a check for \$13,855.55. This amounted, of course, to \$90.33, per acre. The crop was so good that it might be called "going some," even for this favored part of the agricultural world!

Is Surprised By Shower—Miss Agnes Anderson was very pleasantly surprised Tuesday evening by a mischievous shower given for her by the Misses Adelaide and Gertrude Melcher, at their home at 510 Third avenue west. The rooms were prettily decorated with kewpies and hearts. She received many beautiful gifts, and the guests reported a splendid time. The ladies present were: The Messdames Schellinger, Anderson, King, Helfrecht and Ward; the Misses Melcher, Ethel Anderson, Marjorie and Margaret Pickett; Eleanor Taylor, Nellie Case, Jennie Larson, May Halbrecht, and the Misses Adelaide and Gertrude Melcher.

Vote on Church Site—All members of St. Edward's Catholic parish who are over twenty-one years of age will vote next Sunday by ballot on the question whether the present site will be retained, the Canonized Louis V. church which it is planned to erect, or whether the site at the corner of Fifth avenue and Second street north, which is owned by the parish, will be obtained. The new site has been offered as a donation, contingent on the raising of \$15,000 for the construction of the church. The site is reported to be some who favor taking the lots and meeting the conditions, while others are said to favor the present site. Freshmen of the college for further expansion. The voting will take place at both morning services.

Whopping Closing Sale—C. A. McMaster, noted for large and successful farm sales in the past, has leased his farm and is now advertising an auction which will include other stock and poultry, machinery and harness. The one registered Percheron and the one imported registered Percheron are the animals and are offered for sale; also ten head of cattle, all high bred, and a pair of registered A. H. 180 head of hogs. The sale will last two days. The first day, Friday, October 19, the auction will be held at 10 o'clock in the forenoon, and will be slightly east of Hollister. After the stock named is disposed of good horses will be sold at the barn in the afternoon. The ranching begins at 10 o'clock a. m., with franchises at noon. Col. R. E. Clayton and E. O. Walters are auctioneers.

PERSONALS

A. W. Brouse and J. J. Barrett of dairy employes of the Berley Cattle Co. were in the city Sunday to receive the telegraphic reports of the base balls game. George Peck and Joe Swenson of Gooding were in the city Sunday. Mr. Peck was on the tract in the interest of dairy cattle. He has a large dairy at Gooding and was looking for good milkers. Mrs. Howell Leyson is here this week from Gooding, visiting her parents, Mr. and Mrs. H. E. Cutting. Dean Sauray of Shoshone was in the city Sunday visiting friends. Mrs. Ralph Mann of Oakland, Cal., and Mrs. George Copley, of Emly, Nevada, who have been visiting their parents, Mr. and Mrs. Frank L. Diefenderfer and sister, Miss Ethel, left last night for their homes.

Japan Friendly to United States

Former Times Employee, Now In Navy, Says Land of Mikado Does Not Want To Fight Us.
"I believe Japan to be the last nation in the world that would enter a war with the United States," said Sid McDonald, a former Times employe who is here from the San Francisco navy yard, visiting his sister, Mrs. Wilbur Hill, and who has spent four years on duty as a member of the United States navy, a great part of which was passed in the Orient.
"Japan trades more with the United States than with any other country," he continued, "and her prosperity depends on the continuance of that trade. I have been told on good authority that ninety per cent of her exports are to this country. We were in Japan at the time of the coronation in 1916 and we were treated with the greatest enthusiasm and courtesy by all the people, and I believe that they were sincere about it. The certainly showed us a splendid time and every possible consideration.
"Japan is a beautiful country, one

Vivian Martin Delighting Admirers in Pretty Love Story—"Little Miss Optimist"

"LITTLE MISS OPTIMIST" MAKES DECIDED HIT WITH CLEVER VIVIAN MARTIN STARRING (First Night Review)

"Go, I like pictures like them." With a sigh the young lady in the seat behind expressed her opinion of "Little Miss Optimist" as "The End" flashed upon the screen. And the young lady had it sized up about as near as we can give it to you.

Young, old, men, women and children, regardless of tastes and preferences, all agree on such a picture as pretty little Vivian Martin was seen in Monday evening, and will be seen in Tuesday and Wednesday at the Idaho.

A pretty little love story of the girl newsie and the organist, mystery and comedy, with the final exposure of a murderer as he drops a well-told battered diamond in the collection plate, is a combination that cannot fail to interest, and with Vivian Martin it is a delightful entertainment. "Little Miss Optimist" makes you laugh with the tears.

The Vaudeville
Santry and Norton have a dancing act that is interesting throughout, and ends with some whirlwind dancing that lives up to the name. The other number, the Lamarrsal company, is a musical novelty which was also well received.

DOUGLAS FAIRBANKS
"DOWN TO EARTH"
ARTCRAFT-PICTURES

OF THE SCREEN
Jack Pickford and Gertrude Hoff's friends will be interested in knowing that they are working on a screen adaptation of "Tom Sawyer," taking the scenes where "Tom" himself lived 70 years ago.
Charles Ray, now Paramount star, has a strenuous time in his first picture, "The Son of His Father." Too many scraps!
Billie Burke's next Paramount will be "Arms and the Girl."

FAIRBANKS COMING AGAIN THURSDAY

As an especially big feature at the Idaho theater Thursday, Manager Magel announces Douglas Fairbanks in his new Artcraft picture, "Down to Earth," written by himself and adapted to the screen by clever little Anita Loos; John Emerson, producer of previous Fairbanks-Artcraft triumphs, again plots the activities of the energetic star in this production with notable results.

In fact, it is freely predicted that "Down to Earth" is undoubtedly the greatest Fairbanks screen vehicle ever given the popular star, the reason for this, no doubt, being the fact that he wrote it himself, incidentally adding to his accomplishments as an author.

Douglas Fairbanks has gone to Wyoming to work on a new picture. Another Mary Pickford Artcraft is booked for the Idaho at an early date. It is none other than "Rebecca of Sunnybrook Farm."

Idaho Theatre

Mexican Official Arrested Yesterday

Claims Immunity and Mexican Consul Generally Upholds His Contentious On Point.

(I. N. S. Leased Wire)
NEW YORK, Oct. 8.—Jesus Martinez, Mexican vice consul at New York city, was arrested here today on the charge of refusing to comply with the requirements of the selective draft law.

Martinez claims exemption by being a member of the Mexican diplomatic corps. His contention is upheld by Juan P. Burns, Mexican consul general in this city. Burns hastened to make the \$5,000 bail under which United States Commissioner Hitchcock held Martinez when arraigned today. The hearing is set for next Thursday.

Under present interpretation of the law Martinez stands in the light of a deserter, and may be turned over to military authorities for court-martial. District United States Attorney Content is uncertain regarding the subject of jurisdiction in the case.

of the prettiest in the world. The country is covered with hills which would not be farmed in this country, but which support a large population of sheep and cattle. The hills are terraced, and have garden spots, planted on them, so that they look like carefully laid out parks. Personally, I do not believe that there is anything to the talk about the Japanese wanting to fight with us, and the same opinion has been expressed by others. My own opinion I have contended. They have a splendid navy, although it is not as large as ours. All the men are trained and, of course, they are very efficient soldiers and sailors.

Mr. McDonald worked in the TIMES before joining the navy. He has been in the service four years and is now on furlough and here to visit his sister before beginning his second term of enlistment. He expects to visit another sister in Montana before beginning his second term. On returning to the service, he will join the submarine corps at the station at San Diego. He says that the submarine work is not on the average more dangerous or more trying than other naval work, though where it is necessary to remain submerged for a long time conditions are sometimes unsatisfac-

tory. The war service on the Pacific has not been very onerous, as only an occasional commerce raider has gotten loose on its broad waters. Asked in regard to the war and its ending, Mr. McDonald laughed and said that the boys in the service know no more than anybody else.

NEXT DRAFT PLAN READY

(Continued From Page 1)

to carry their physical examination out to the limit which strict compliance with the regulations made mandatory at the concentration camps. All this will be changed in the next draft. The examination will be complete in every way and the men who pass the doctors will be certain that they will be retained when they are called for active service.
Whether all of the men still on the eligible list will be examined was a question on which General Crowder was dumb today. He called attention, however, to the fact that he has some four million dollars available for use in continuing the work of his bureau and this money will go a long way in conducting examinations.

Miss Katie Halloway who has been

at Haggard working, returned to her home in Berger Saturday.

James Patterson, Mrs. Berger's son, is visiting here. He is from Salt Lake City.

Eden News

Born—To Mr. and Mrs. Jay Williams on Friday of last week, a fine baby girl.

Mr. Williams is the son of F. C. Williams of Russell Lane and was in Eden buying a ring for the new baby as at was the first born. Mr. Williams makes a practice of buying rings for the first grandchild born to each of his children.

Mr. Corcoran was an Eden caller recently.

Mrs. Anderson was called to Onex, B. C. by the serious illness of her oldest son, Max Krakenburg. She left here on Sunday of last week and will be joined by her younger son Oakley on the way.

Mr. and Mrs. Cornell of Portland, who have been visiting Mrs. Cornell's brother, Mr. Sizemore at the Diamond J ranch, returned home Friday.

Mr. Leo from Twin Falls was an Eden caller last Friday.

Leon Jackson and Clinton Black are in Deseret, Utah, on a short visit before going to Salt Lake for the winter term of school.

Mr. E. C. Beeman who has a fine ranch near Buhl, and is salesman for the Martin Bros., La Crosse, Wisconsin, was a caller at Eden last week. Mr. Levin's sister and family from Murtaugh visited him last week.

Mrs. Mabel Pielstick went to Filer last week to see her two grandsons some dental work done and visit relatives.

Mrs. Esther Ellison won three blue ribbons at the county fair for her White Leghorn chickens; also three at the Filer fair and sweepstakes of all crops.

Mr. and Mrs. B. L. Eakin on Thursday of last week, a fine baby girl. Mother and child are doing well and B. L. is the proudest man in town.

There were seventy-two carloads of freight received at Eden during the month of September. Some record for a small town, but watch us grow.

Mr. Silers who has been visiting the Wallace Lawton family returned to his home at Grand Junction, Colorado, last Wednesday, accompanied by his two children.

Mr. Silers' brother, Gus Peterson made a business trip to Rupert last Tuesday and returned Wednesday.

Judge Scheldt went to Rupert last Wednesday to meet two granddaughters from Twin Falls, who came here for a visit with their grandparents and aunt.

Mr. T. Young from Pocatello is in Eden visiting her sister, Mrs. B. L. Eakin, last week.

Earl Kennedy spent the week end in Eden, visiting his mother and returned to Wendell last Monday, where he is doing a rushing insurance business.

Scott Eason spent several days in Wendell last week visiting her brother-in-law and family.

John McGee sold his ranch to A. C. Filer last week and Mr. McGee and family will spend the winter in Arkansas this winter.

B. L. Horsey and family were in Twin Falls and at Blue Lakes last week.

The B. and B. gang of the Oregon Short Line are working on the track between Rupert and Bliss, as so many of the big fronts have passed this way that they have weakened the bridge and the work train may be seen busily engaged fixing same. The management of the cars is being run on the road on a tour-of-inspection last week.

Bert Medley made a trip to Blue Lakes after fruit the last of the week.

Mr. Ridenbaugh from Wendell was in Eden looking after his property here last week.

Clarence Murphy made a trip to the fair at Rupert Wednesday and expected to leave for training camp the same day.

Fred Ring visited his parents in Buhl last Sunday.

Mr. Gay, advertising agent for a Portland firm was in Eden last week.

Mr. Snow from Boise was in Eden and Russell Lane looking after his real estate last week on his return trip from the Yellowstone park.

Mr. Russell sold his meat market and other property to the Newbury Bros of Hazelton last week.

Earl Eason sold his Chevrolet to Mr. Osborn and purchased himself a new one.

F. C. Williams has purchased a new Maxwell touring car from the Eden Hardware and Implement company.

A large crowd from Eden and Hazelton attended the dance at Russell Lane last Saturday night the occasion being a mask dance. G. J. Kelly and Miss Waters won the prizes. Miss Waters represented the Goddess of Liberty and Mr. Kelly masked as a fairy.

Guy Raine made a trip to Twin Falls and took his daughter, Miss Bessie, back to school after a vacation home.

Harry Shibe has a field of corn which is stuck for peach pickers at his ranch west of Eden.

Mr. Jeffries is the proud owner of a new Maxwell touring car purchased from Barnes & Levin.

Harry Shibe sold his last hay crop to Robert Clayborn, recently.

Mr. Osborn has a new addition to his house at the east end of Eden, composed of two rooms and two porches.

Lee Flora will leave Eden Wednesday for the American Lake training camp.

It May Happen to Yours

—whirled on skidding tires into a disastrous crash

Stop endangering your life as well as the lives of others. When streets are wet, always "chain your car to safety." Take no chances. Equip all four tires with

Weed Anti-Skid Chains

The ONLY Positive Safeguard Against Skidding

Safety demands that all tires be equipped with Weed Chains. It doesn't require the gift of second sight to see why this is true. Rubber slips—never grips. It slides on wet pavements and roads like a cake of soap on the moistened hands.

Rubber lacks the bite-and-hang-on ability to prevent skidding, while Weed Chains hold on like a bull dog, prevent side-skid and drive slip. Equip both front and rear tires with Weed Chains. Do it today—before it's too late.

THE GOOD JUDE VISITS ARMY HEADQUARTERS.

COLONEL, HOW IS YOUR REGIMENT TO-DAY?

FINE, GENERAL, BUT YOU KNOW THE BOSS IN THE KHAKI HAS WANTED HIS CUT-THAT REAL TOBACCO CHEW.

GOOD TOBACCO IS THE SOLDIER'S COMPORTE.

WHEN you trim your outfit down to military bedrock, W-B Cut Chewing scores a bull's-eye. A soldier gets more from his pouch of W-B than from a bulky ordinary plug—rich leaf plump full of sap, all tobacco satisfaction, every shred of it. And the water-proof pouch keeps it clean and fresh in the pocket of his khaki.

Made by WEYMAN-BRUTON COMPANY, 1157 Broadway, New York City

day for the American Lake training camp.

Mr. Wilcox has purchased a new Maxwell touring car.

Mr. Applebaum and family visited at Jake Lovin's one day last week.

Mr. and Mrs. C. Kelly went to Twin Falls and saw the Old Henstead played at the Lavinger theatre. The Ladies' Aid will give a pumpkin pie, doughnut and coffee social in the basement of the church on Friday evening. Everybody cordially invited.

Guy Lewis who has been visiting his parents and sister in Eden for some time returned to his home in Butte, Montana.

GIVES WOUND-HEALING DISCOVERY TO COLLEGE

(International News Service)

BERKELEY, Cal., Oct. 6.—Having discovered a chemical substance which has proved remarkably successful in curing wounds and in causing wounds to heal at once which for months, or even years, had refused to yield to treatment, Dr. T. B. Ralston, professor of biochemistry in the University of California, has just completed a discovery that constitutes an endowment, the income to be applied to medical research.

Tests of this new substance, made in army hospitals in Europe and in civil hospitals in America, have proved the great value of the discovery. The appalling number of men wounded in the present war makes the discovery of special timeliness and value. Several new substances and new methods have been found by the medical investigators of the world since the war began which are extremely useful in combating infections in wounds. This new substance, however, "Tethin" has a field of usefulness all of its own after other methods have rendered the tissues aseptic, and wounds still sometimes refuse to heal—especially where frost bite, burns or varicose veins have injured the vitality of the tissues. In such cases thousands of such cases in Europe and America occupy the hospitals for an exceptionally long time, consuming drugs, time, space and food and frequently such cases have to be discharged unhealed. It is precisely these cases—the most expensive and most disabling types of wounds—which "Tethin" will cure, since it stimulates and speeds the cure and enables nature to work its own repair.

WORK ON LOCOMOTIVES FOR FLANCK IS RUSHED

WASHINGTON, Oct. 6.—American locomotives for war service in France are being manufactured at the rate of thirty a day. The first locomotive was turned out of the shops twenty days after the patterns were accepted. Orders have been given for 450 of these locomotives and for more than 9000 standard gauge freight cars. Narrow gauge equipment for use along the battle front has also been ordered. Orders for the first locomotive were placed with the Baldwin Locomotive Works, of Philadelphia, on July 15. The first locomotive was completed on August 9.

Especially designed boilers, known as "superheaters," are being placed in this war-locomotive would haul but are being made in other ways; they are similar to the locomotives built for the English government by the Baldwin company.

The locomotive is not of the type used in this country. On roads where the heaviest type of engines in this country would haul 80 loaded freight cars this war-locomotive would haul but 60 loaded cars. It is painted battleship gray and marked with the letters "U. S. A." The locomotive alone weighs about 165,000 pounds, with a tender, weighing 275,000 pounds.

Box cars for use by the American armies in France have three times the capacity of the standard gauge cars used by the French railway, until recently. They have coupling devices which will be interchangeable with the French equipment.

Whereupon record was taken until 2 P. M. September 24, 1917. Attest: J. J. FINCH, Clerk.

Twin Falls, Idaho, 2 P. M. September 24, 1917.

The Board of County Commissioners met at this time pursuant to recess. Present: O. E. Carlson, Chairman; T. E. Moore, W. P. Brewer, and J. J. Finch, Clerks.

Whereupon the following proceedings were had to-wit:

In the matter of the proposed bond

need for it to pay for the construction of the proposed bond.

In order to secure the bond issuing of the proceeds of the bond issue an advisory committee has been named to cooperate with the board in fixing out the roads to be improved and in the expenditures of the money.

This committee has been selected with the following members: O. E. Carlson, Chairman; T. E. Moore, W. P. Brewer, and J. J. Finch, Clerks.

It is proposed to pave the state highway from Buhl to Hansen at an estimated cost of \$16,000.00 per mile. The balance of the east and west state highway in this county will be finished by gravel road and gravel.

The State highway commission has by resolution spread on their minutes, approved of this plan of construction, and have agreed that the state will fund one half of the cost. The millage other than the state highway, which it is intended to improve from the bond issue will be of crushed rock and gravel construction at an estimated cost of \$5,000.00 per mile.

By unanimous action the following statement was adopted for submission to the voters:

Yielding to what appeared to this board as a general demand for road improvement by means of a bond issue, we as county commissioners of Twin Falls county have decided to call an election for the purpose of submitting to the voters of the entire county a bond issue of the sum of \$1,000,000.00.

The proceedings for this election are being prepared by the attorneys for the Lumberman's Trust company of Portland, Oregon. Every attention to the proceedings is being carefully given over by the attorneys in order that there may be no hitch in the legality of the election. It is generally conceded that better bidding can be obtained for bond issues where the proceedings have been prepared by bond attorneys of recognized standing with the leading bond houses.

It is proposed to call this election for the latter part of October, and should the election carry, the bonds will be offered for sale immediately thereafter, in selling the bonds, we do not intend to have any of the money available at once, thereby necessitating the carrying of large sums of money in the treasury until such time as needed. The sale will be conducted on the money being furnished as work progresses and there is

no objection to the following statement being adopted for submission to the voters:

Yielding to what appeared to this board as a general demand for road improvement by means of a bond issue, we as county commissioners of Twin Falls county have decided to call an election for the purpose of submitting to the voters of the entire county a bond issue of the sum of \$1,000,000.00.
