

PROMISE CABLE FOR BUILDING OF HANSEN BRIDGE

MIDLAND BRIDGE FIRM ASSURES MATERIAL IS TO BE SECURED NOW

UNDERSTANDS TO FURNISH NEW PLANS TO BEING COST WITHIN AMOUNT OF FUND AVAILABLE WITHOUT SACRIFICE

Assured by representatives of the Midland Bridge company of Kansas City that it is now possible to secure steel cable for bridge building, the commissioners of the Hilsdale highway district and of Twin Falls county, at a joint meeting here last week entered into a contract with that concern for a new set of plans and specifications for the proposed bridge across Snake river canyon near Hansen.

Information Due Soon
The purpose is to provide a bridge at this time that will conform in carrying and load capacity to that provided for in the government plans, but one that can be built within the limit of the amount of the appropriation available. The Midland company expressed its ability to provide such plans, and the commissioners expect to advertise for bids on the work as soon as the plans are submitted and approved. It is believed that something definite will be known in the matter within a month. There is available for the building of the bridge the sum of \$50,000, Twin Falls county and the Hilsdale highway district each having voted bond issues in the sum of \$30,000 for the purpose last fall and disposed of the bonds. The state legislature appropriated \$50,000 for the purpose.

Obstacles Encountered
In October the commissioners of the county and district advertised for bids on the work to be done in accordance with plans provided by the federal good roads department. Two obstacles developed. It was found impossible in the first place to build the bridge according to specifications with the amount of money available, and in the second place the inability to secure cable required, or even to obtain quotations on this material, was presented.

PLENTY OF BEET SEED FOR CROP ASSURED

AMALGAMATED SUGAR COMPANY AGRICULTURISTS AND LABOR AGENTS MEET

Discusses Plans for Increasing Sugar Production This Year—Favorable Reports on Progress Made With the Growers' Contract Given

Assurance of plenty of beet seed for the next season was given at a meeting here Friday afternoon. Amalgamated sugar company field agricultural agents of the Twin Falls and Burley districts and labor agents with George Quinney of Ogden, chief agricultural agent for the state, were present. Plans were made at this meeting for increasing the beet acreage and sugar output of southern Idaho this year. The agents of the sugar company made in securing contracts with growers were said to be satisfactory.

Field agriculturists present at the meeting were William H. Budge, William Black, Samuel Christensen and Albert Boley of Burley, F. D. Johnson of Kimberly, J. W. Kirkman of Twin Falls, together with J. W. Rogers, Mexican labor agent, A. K. Kasuya, Japanese labor agent, and Phil Harris, Cassia, county engineer.

ELKS' SERVICE FLAG

Bears Twenty-Seven Stars for Members of Lodge in Display

A large service flag displayed in the window of the Elks lodge here bears 27 stars in evidence of the number of members of the Twin Falls lodge known to be in the military or naval service. The names of those for whom stars have been placed on the flag follow: C. M. Booth, P. W. McRobert, Arthur D. Hughes, H. M. Stowell, Darrell L. Dwight, J. F. H. DeWitt, Theodore H. Bantow, Charles L. DesRuisseaux, John G. Thorp, W. P. Mulligan, W. A. Soller, C. G. W. Water, C. G. Walters, E. J. McRae, Ralph E. H. DeWitt, Claude P. Oliver, Cleve Costello, W. J. Allen, George L. Bullis, D. D. Davies, L. E. Hurst, John W. Kendall, Glen H. Lewis, Frank McAulley, Phillip B. Pope, C. J. Reed.

KANSANS TO MEET AT BUHL

Organization Makes Plans for Annual Dinner of Jayhawkers

The new Stone amusement hall at Buhl has been secured for the Jayhawkers (Kansas club) annual meeting and dinner on January 29. Attendance of at least 300 from Twin Falls and other places in the Twin Falls country is expected. A special train will be served at 7 o'clock in the evening, to be followed by talks by leading former residents of the Bonanza state now in Idaho, and by a musical program. Ber. M. M. VanPatten of Buhl is president of the club.

The Late Senator Brady

WHOSE DEATH OCCURRED AT WASHINGTON, D. C., ON SUNDAY EVENING, JANUARY 13.

SHOWS PRESENT NEED FOR WATER IMPROVEMENT

ENGINEER TELLS CITIZEN MEETING WAITING POLICY IS INDEFENSIBLE

OUTLINES PLANS FOR SOLUTION OF LOCAL PROBLEM ACCEPTED BY COUNCIL AND ON WHICH CITIZENS WILL VOTE

Branding an indefensible policy of waiting for an epidemic of disease or a disastrous fire before installing an adequate system for the distribution of pure water, which would prevent either calamity, R. E. McDowell of the engineering firm of Burns & McDowell, of Kansas City, at a public meeting in the Lavering theatre Monday evening, concluded a detailed presentation of the results of his investigation of Twin Falls' water problem and of the measures proposed by his firm and accepted by the city council for the solution of this problem.

Purpose of Meeting
The meeting was called by the council for the purpose of acquainting voters with the details of the waterworks plan, for the execution of which a bond issue in the amount of \$275,000 will be submitted at a special election on January 30. Because of unfavorable winter conditions, the attendance was not so large as had been hoped, although there were well in excess of 400 citizens present. Mayor F. P. Bracken and members of the council occupied seats on the platform. The engineer was introduced by the mayor.

Improvement Necessary
"Pure water is a subject that has claimed the deep interest of Twin Falls citizens for a number of years," he said. "In behalf of the members of the council and of myself, I will say that we have no interest in the present water system except as citizens. We realize that because of war conditions there is considerable opposition to bond issues in general, and that the government has requested that none be issued except in cases of absolute necessity. We consider this a necessity for two reasons. The first is that the present water system was built for a city requiring considerably less water than is now demanded and it is therefore inadequate. The second reason is that the water now delivered is not pure."

Solves Water Problem
"It is our belief that the proposed plan for the improvement and repair of the water system contemplate work that is necessary; that when carried out they will effectively solve the problem of adequate and pure water supply for this city and that the work will be of permanent character requiring little if any alteration for further extension or improvement. Every plan that has been proposed for the betterment of the water supply is at present."

TWIN FALLS HAY IS DEMANDED BY TEXAS STOCKMEN

PROFITABLE MARKET IS OPENED UP BY STATE DIRECTORS

OUTLET FOR SURPLUS CROP IN TWIN FALLS DISTRICT IS DEVELOPED IN LOCAL ACCEPTANCE OF PROPOSITION

Farm markets directors of the states of Idaho and Texas, through the farm bureau and Society of Equity organizations, have opened up a profitable market for the surplus hay crop of the Twin Falls district, at the same time ministering to the need of Texas stockmen who are facing a disastrous shortage of feed.

Representatives of the Twin Falls county farm bureau here Friday accepted a proposition made by Harvey Allred, state farm markets director, whereby that organization undertakes to act as the marketing agency for growers of this district. The price to be paid is \$21 a ton on board cars at Twin Falls. Shipments are to be inspected by inspectors of the Society of Equity at Potomac, and advance payment of a ton will be made by the society at that point. The society for its services on the purchasing end of the deal will collect a fee of \$1 a ton, while the farm bureau, for its part in marketing, will charge a commission of one per cent.

Cars were ordered by the farm bureau for shipment of three car loads of hay from Buhl Friday evening. Practically all of the hay crop in the Boise valley and in Canyon county has been disposed of, and the largest amount of hay remaining in the state is in the Twin Falls district. Mr. Allred stated.

REPORTS ON SNOW AT JACKSON LAKE

Rapid Run-off in the Spring Will Afford Average Water Supply Is Assurance Given

Word from Joseph Markham, gate tender at the Jackson lake dam, received by the Twin Falls Canal company, is that the amount of snow accumulated January 11 on the watershed tributary to the Jackson lake reservoir is slightly less than the average for this season of the year. There is a depth of 22 inches of snow at the dam, four feet at the Snake river station, four feet at Cascade and nine feet on the Thumb divide in the park. The snow is compact and on account of rain throughout the watershed during the past month, it contains a considerable amount of moisture. Provided there is a quick run-off in the spring, it is anticipated, the amount of snow accumulated this year as compared with last year will make up for the light winter indications point to at present.

IDAHO LOSES IN DEATH OF SENATOR BRADY

STRIKEN WITH HEART ATTACK AND SUCCUMBS IN WASHINGTON

SENATE AND HOUSE ADJOURN AS MARK OF RESPECT—CAPITAL FLAHS ARE HALF-MASTED—REMAINS TO BE CREMATED

Adjournment of the senate and house of representatives and half-mustering of the capital flags were the honors paid to Senator James H. Brady of Idaho, who died of heart disease at his Washington residence at 6:30 o'clock Sunday evening. His death was not unexpected as he had been in a critical condition since Thursday morning, and two attending physicians had announced there was no hope.

In accordance with his wishes, Senator Brady's remains will be cremated and his ashes will be brought to Idaho for burial. Funeral services were held at his Washington home on Wednesday. Senator Brady was conscious through most of his illness and Sunday evening most frequently recognized those about him. Toward evening, however, realizing that the end was approaching, he said goodbye to his wife. Representative Smith and others were at his bedside. A few hours before his death he passed into a peaceful slumber from which he never awakened.

Announcement of Senator Brady's death was made in the senate Monday by Senator Borah, and in the house by Representative Smith. Senator Brady was 55 years of age last June. He was born in Indiana county, Pennsylvania, in 1862, but spent his boyhood and his first years as a young man in Kansas. He was graduated from the Olathe, Kansas, high school, and studied at the state normal school at Leavenworth.

In the year 1905 Mr. Brady made his first trip to the west and impressed with the opportunities of Idaho located here, entering into the construction of the Great Western Best Sugar company. He then purchased the old Sweeney power plant on the Portneuf river at Potomac and engaged the engineering services of the Sweeney company, with the growth of the plant and the inability to furnish power from the Portneuf to furnish light and power for the city, he constructed the great power plant at American Falls which has since furnished power and light for Potomac, American Falls, Blackfoot, and the surrounding country. His holdings in this company he sold in the year 1912 to the Kuhns of Pittsburgh. About this time he purchased the surrounding land and organized the Mountainhome Co-operative Irrigation company, which has since been known as the Mountainhome Co-operative Irrigation company and which is known as one of the best irrigation projects in the state.

He first appeared prominently in the political life of the state when he was elected chairman of the Republican state committee in 1904, a position which he held until 1908. He was elected governor of Idaho November 3, 1909, and served in that office in the years of 1909 and 1910.

On January 24, 1913, the state legislature elected him to the United States senate for a term which expires March 3, 1921. He is survived by his widow, who was Miss Irene Moore of Boise, and by two sons, one of a former marriage. Both the sons live in Kansas.

Senator Brady was a member of many important senate committees, including the committee on agriculture and mining, agriculture and forestry, conservation of national resources, national banks, expenditure in department of commerce, public lands, public buildings and grounds.

On the military affairs committee he was ranking Republican member, and had Charles E. Hughes been elected president he would have been chairman of that important committee at the time of his death.

TAKES SHORT CUT TOWARD EXPIATION

Ben Ray Tells Prosecuting Attorney of His Misbehavior and Pays Heavy Fine

Anticipating trouble ahead on account of his misbehavior Ben Ray of Buhl came to Twin Falls Monday and rendered an account of his conduct to prosecuting attorney Frank L. Stephan, who, according to filed a complaint charging Ray with being drunk and disorderly on a public highway, giving December 21, 1917, as the date of the offense. Justice of the Peace W. J. Smith assessed a fine of \$100, which was paid. Evidence was lacking on which to prosecute Ray for illegal transportation of liquor, it is stated.

FIFTY CALLED TO UNDERGO EXAMINATION

ALL REGISTRANTS IN THE FIRST CLASS WILL BE SUMMONED

OTHER CLASSES WILL NOT BE EXAMINED UNTIL FIRST CLASS MEN ARE EXHAUSTED—WILL TAKE FIFTY EACH DAY

Fifty class one registrants are being notified today to report to the local board next Tuesday afternoon at one o'clock for physical examination. Dr. C. H. Weyer, county physician, and a member of the local exemption board, will examine the men. It is believed that fifty can be handled in a day, and the present plan is to go through the entire list of men who have been put in the first class, examining fifty each day until the list is exhausted.

Call Expected Soon
No call has yet been made by the government for men, but it is presumed that within a few days the Provost Marshal General Crowder will call for the second half million men authorized by congress. The quota that this country will have to supply in support of the war is supposed to be around 250, although no definite information has been received. Neither has it been ascertained as yet, just what will be required by reason of the number of men who have voluntarily enlisted since the last draft. Some predict that it will nearly, if not completely, offset the quota the country would otherwise have to furnish.

Officials in touch with the subject predict, however, that additional armies will be raised eventually.

From the class one registrants who pass the physical tests, men will be forwarded to training camps in numbers according to the schedule, according to order number given in the following list.

- Names of men notified to report for examination Tuesday follow:
- 103. Chas. Neo Chapp.
 - 102. Burton C. Bailey.
 - 101. Raymond A. Dahlquist.
 - 90. Roy Casper Sparks.
 - 89. William Edward Hayes.
 - 88. Walter Edgar Hansen.
 - 87. Philip Porter.
 - 86. Lewis Earl Ingerson.
 - 74. Walter Wade Williamson.
 - 73. Fred Hansen.
 - 71. Reed Henry Harris.
 - 70. Benj. Harrison Rayburn.
 - 64. Geo. Mohr.
 - 63. Walter Edgar Sittles.
 - 48. Albert Henry Sitta.
 - 45. Gilbert Tracy Ward.
 - 42. Ralph William Teague.
 - 41. Chas. E. Brown.
 - 118. Chas. Attenion Kleck.
 - 114. Roger Ward Anderson.
 - 105. Mathew McEwen Pierce.
 - 104. Edward E. Bordin.
 - 127. Harry B. Arnold.
 - 131. Thos. Samuel Hunter.
 - 132. Floyd Andrew Campbell.
 - 133. Fred E. Brown.
 - 142. Phares Thos. Bowberry.
 - 148. Clarence Albert Owsley.
 - 156. Archie Byron Capron.
 - 157. Walter Olin Schiffman.
 - 162. Simeon H. Walton.
 - 165. Newell Raymond Haslam.
 - 166. Sam'l J. Johnson.
 - 171. Chas. E. Brown.
 - 173. Jas. Wallace Whitney.
 - 180. Jas. Francis O'Conner.
 - 181. Chas. Elmer Dobbin.
 - 182. Chas. E. Brown.
 - 244. Chas. Peterson.
 - 242. Hiram Scott Hart.
 - 240. William Edmund Hurt.
 - 239. Chas. E. Brown.
 - 230. Earl Eugene Maxwell.
 - 220. Robert Wm. Hampton.
 - 218. Chas. Thos. Langston.
 - 215. Chas. E. Brown.
 - 197. Jas. Dan Brown.
 - 195. David DeLo Donaldson.
 - 245. Valney Otis Thompson.
 - 246. Lee Lin Jung.

RESOLUTION

Issued by the County Council of Defense of Twin Falls County

Whereas, it comes to the knowledge of the Twin Falls County Council of Defense that one A. L. Houghton, of this city, upon being respectfully requested during the last Red Cross drive by one of our best ladies who was acting upon the soliciting committee, first ignored, and then insulted her; and whereas, the said Houghton, before this Council, virtually admitted the offense, but justified his conduct claiming that "she brought it on."

Now, Therefore, Be It Resolved that, in the unanimous sense of this Council, Houghton's words and conduct directed towards any woman unselfishly working in such a cause, and especially to a lady evidence of years permitting her to be, as this lady was, the mother of American soldiers, were disgraceful, ungentlemanly and brutal, and that ample apology, therefore, is due both to the lady and to the community, and that nothing less will satisfy this Council or the public generally that such an offender deserves recognition among gentlemen and patriotic citizens. Resolved, That the Secretary of the Council be directed to send to each paper in this county, for publication, an authenticated copy of this action. Passed at Twin Falls, Idaho, January 15, 1918.

L. L. BRICKENRIDGE, Chairman.
E. L. MACVIGAR, Secretary.

WIFE DECLARES HER HUSBAND IS A SLACKER

FURNISHES EVIDENCE FOR PROSECUTION OF JAMES HENRY NELSON

DENIES CLAIM OF HER DEFENSE, SAYS SET UP AS A CLAIM FOR EXEMPTION—CASE AWAITING ACTION OF AUTHORITIES

Accused of making false representations in the return of his questionnaire, James Henry Nelson of Rock Creek is a prisoner in the county jail here awaiting the action of federal authorities in his case. Nelson is alleged to have set up claims for exemption from military service on the grounds of the dependency of his wife and two children. Evidence has been adduced to show that he has lived apart from his wife for more than one year past and that he has contributed nothing to their support in that time.

The evidence against Nelson is furnished by his wife. She turned over to the local board a letter which she is said to have received from her husband stating that he had given her dependency as a grounds for exemption and asking her to corroborate his statements. Mrs. Nelson is said to have made a statement to the effect that Nelson had not contributed \$100 during the past year to her support, as he claimed, nor any other amount, and that she would endeavor to secure an affidavit in support of his claim. Nelson sent his questionnaire to his wife for her supporting affidavit as to the claim of dependency. Refusing to support this claim, Mrs. Nelson returned the letter with her own explanation to the local board. She stated that Nelson had been kept watch for the return of Nelson's questionnaire. On Saturday he brought it in to Clerk S. J. Fleck. Mr. Fleck directed her to send it to the sheriff Kendall and his arrest followed.

PROMINENT CITIZEN CLAIMED BY DEATH

George C. Taber Succumbs to Pneumonia After Illness of Eight Days—Duration

Under the direction of the local Knights of Pythias lodge, Rev. O. T. Anderson assisting, funeral services were held Sunday afternoon at the Presbyterian chapel for George C. Taber, prominent citizen of Twin Falls, who died Saturday morning at his home, 603 Second street, after an illness of eight days. He was 55 years of age. He was recovered until a few hours before his death. On Friday he believed that the crisis had been passed, but his power of resistance had been so depleted by the disease that he could not throw off its effects and died without regaining consciousness.

Mr. Taber was born November 11, 1850, in the state of Ohio, where he resided until reaching the age of 20, when he moved to the state of Kansas, remaining there for about five years, he went to Lamoine, Illinois, where he resided until he came to Twin Falls in 1908. He was married to Mrs. Mary A. B. 1887, to Miss Kate Cleaver, who with three sons and three daughters, are left to mourn his loss. All of the children are now grown up. When he came to Twin Falls, he was a member of the local lodge of the Knights of Pythias, and was a member of the local lodge of the Knights of Pythias, and was a member of the local lodge of the Knights of Pythias.

KENNETH MACLEOD FAILS TO SURVIVE OPERATION

After nearly three weeks' illness, following an operation for acute appendicitis, Kenneth MacLeod, one of the ablest residents, in point of time, of the Twin Falls country, died at a local hospital at four o'clock this morning. He was 40 years of age. He was born in Scotland, and came to this section thirteen years ago with Robert Rogers, and has been connected with various cattle and sheep raising enterprises since that time. For the past eight years he has been associated with Mr. Rogers in the sheep business, their business interests being in the Three Creek country. Mr. MacLeod made his home at Rogers. A man of wide acquaintance, Mr. MacLeod made friends wherever he went, possessing an unusual degree of that quality of genial good humor which is characteristic of the Scotch. Funeral arrangements have not yet been completed.

Deceased is survived by his mother, two sisters and another brother, who reside in Scotland, another brother is in the service in France, and a sister, Mrs. MacLeod, who resides in Twin Falls.

BAR MEMBERS PAY TRIBUTE TO LATE ASSOCIATE

MEMORIAL SERVICE FOR A. M. BOWEN HELD IN DISTRICT COURT

RESOLUTIONS OF RESPECT AND CONDOLENCE ARE SPREAD ON MINUTES—JURISTS DELIVER EULOGIES ON LIFE

Professional associates of the late Arthur M. Bowen of Twin Falls took part in memorial services in his honor held in the court room Monday afternoon on the opening day of the January term of district court here, Judge W. A. Babcock presiding. J. C. Hazel, president of the Twin Falls County Bar association, read resolutions of respect drafted by a committee for that organization which were subsequently spread on the minutes of the court and a certified copy transmitted to the state supreme court with a request that it take similar action.

Brief eulogies on the life and character of Mr. Bowen were given by W. G. Bassell of Gooding, Adam Barclay of Jerome, E. M. Wolfe, M. J. Sweeley, E. A. Walters, J. R. Bothwell, W. L. Guthrie, John E. Davies and Judge Babcock. A letter from Judge H. P. Ensign of Halley was read, explaining his inability to be present because of a necessary trip to California.

At the conclusion of the exercises the court adjourned as a mark of respect to the deceased barrister until the following morning.

Following are the resolutions prepared for the Twin Falls County Bar association:

Whereas, the mortal career of our brother Arthur M. Bowen is at an end; Therefore, be it resolved by the members of the bar of Twin Falls County, Idaho,

That while we deeply feel that his family, his friends and our community all had need for him, yet we bow in humble submission to the stern decree which has taken him from us;

That as members of the bar we paying tribute to his ability, learning and industry which brought him the success in his profession he enjoyed and which was justly his;

That as intimate friends and associates we join in praise of his personal virtues and in expressing the most sincere regret that he was stricken at a time when there seemed to be assured to him the enjoyment of many years of happiness and prosperity;

That as citizens we give voice to the earnest belief that his death was most untimely and in all ways to be deplored for he was most helpful to the cause of good government and the public has lost much through the ceasing of his activities;

That we extend to his family our genuine and unstinted sympathy in their sorrow.

Be it further resolved that these resolutions be presented to the district court at the opening of the next regular term at Twin Falls with the request that they be spread upon the records of the court, and that a copy thereof be presented to the family of our departed brother.

(Signed) E. A. WALTERS,
JOHN E. DAVIES,
M. J. SWELEY.

LEGAL COUNSEL FOR THE CANAL COMPANY

Bothwell is named as canal attorney

Position goes to barrister who took up the work of the late A. M. Bowen

At a meeting of the directors last week, Judge James R. Bothwell was elected attorney for the Twin Falls Canal company to succeed the late Arthur M. Bowen. Since he retired from the district bench to enter into a partnership in the practice of law here with W. P. Guthrie and Mr. Bowen last July, and during the illness of his predecessor, Judge Bothwell has devoted much time and attention to the legal affairs of the Canal company, and is quite conversant with the duties of the position in which he has been elected.

BUHL DISTRICT PLANS ROAD IMPROVEMENT

COMMISSIONERS MEET WITH THE STATE ENGINEER AND GO OVER HIGHWAY

Determine Where Rock Is Available and Where Cuts and Fills Are to be Made—Hard Surfacing to Begin as Soon as Sale of Bonds Is Complete

The commissioners of the Buhl highway district met in the highway district office Tuesday, says the Buhl Herald, to go over the tentative plans and details in connection with the building of hard surfaced roads as soon as the money becomes available from the sale of the \$175,000 bond of road bonds. The sale of the bonds to the Hanchett Bond company is still pending, awaiting the securing of money in connection with the organization of the district and the voting of the bonds.

State highway engineer H. C. Allen met with the commissioners last Friday and Saturday to go over the part of the state highway which is in the Buhl highway district, to learn where the rocks are available and to determine where the cuts and fills are to be made, as well as the location of permanent bridges which must be built.

The state highway board will pay one-third of the cost of a hard surfaced road on the state highway, according to assurances given Commissioner McDonnell by Attorney Ostrom during a recent visit to Boise. Engineer Allen will report his findings to the state board upon his return to Boise, when the board will adopt a resolution authorizing the road through the highway district. The surface must meet with the state requirements, however.

Money for the construction have ordered three road trucks, subject to the deal with the bond company, so that machinery will be available as soon as the money is on hand. One truck is a Kelly-Springfield 5 ton, another a White good road automobile dump truck. It has 6 ton capacity. A third truck was ordered at a much lower price, known as the Oxford road making truck.

ACADEMY QUINTET COMING FOR GAME

Twin Falls High School Team to Meet Formidable Opponents on the Basketball Floor

On the floor of the high school gymnasium here Friday evening, the Twin Falls high school basketball team will meet the Oakley academy quintet in what promises to be one of the first games of the season now opening. The game will be called at 8 o'clock. The Oakley team was the champion of south-central Idaho last year and is composed almost entirely of the same members this year. The Oakley boys are said to play the game the year round, and invariably turn out a team of exceptional ability with remarkable facility in hitting the basket.

The Twin Falls school has its team of last year in the game and in addition several new men of variety, namely, Newman, M. Strong, Hodges and Carter are showing up well as forwards, Glasgow at center, Lavender, H. Strong and Brown at guards are working hard. The Twin Falls team played good ball in the tournament last year, being shut out in the semifinals by the Rupert team with the score of 20-38. The Twin Falls boys believe they will set the pace for the team in this section this season and have championship aspirations. They have started the season out right by winning from Shoshone two weeks ago with a score of 41-14, and intend to repeat with Oakley.

SHOWS PRESENT NEED OF WATER

(Continued from Page 1.)

ment of Twin Falls' water system has gone to the present site for the reservoir, and if it should become necessary later to secure a source of water supply elsewhere, the work that is proposed to be done now may become a component part of such a system.

Engineer Outlines Plans

Outlining the proposed plans, Mr. McDonnell said that the proposed filtration plant of 6,000,000 gallons daily capacity will provide pure water for a city of from two to two and one-half times the present population of Twin Falls; that it will remove 90 per cent of the sediment, 97.76 per cent of the bacteria and 92.8 per cent of the hardness of water taken from the canal source. The proposed system of distribution lines, including the installation of about 16 miles of new pipe, serving much of the territory not now reached, will afford a uniform pressure of from 65 to 70 pounds, assuring adequate fire protection and satisfactory water service, and eliminating items of heavy expense incident to the maintenance of the present outworn and inadequate system.

Installation of a large number of gate valves will make it possible to shut the water off from only a limited district when it is necessary to make repairs. The plans providing for installation of 83 additional fire hydrants will bring one within 400 feet of any building in the city.

Self-Supporting from Start

The new system will be self-supporting from the start, the engineer said. The income from it will be sufficient to pay the interest on the bonds and the operating expenses, leaving a net income of about \$15,000 a year to apply on the retirement of the bonds. This amount will be saved in the expense of maintaining the new system as compared with the expense of maintaining the present system.

The improvements planned were determined upon after several months of investigation of several possible sources of water supply, the engineer said. The purpose has been to secure the best possible supply at the minimum cost. It was found that the canal source was selected. This source affords an ample supply that can be made absolutely pure by filtration as is proposed to be done, he said.

Discusses Source from Wells

The probability of securing source from wells was thoroughly considered, he said, with the result that a supplemental source from wells is now contemplated. In the event water is turned out of the canal during the winter season, he said, it is certain that an adequate supply can be secured from wells. In a report of the peculiar geological formation here wells are an uncertain factor, water being encountered at widely varying depths. Sixteen wells inspected in this vicinity, he said, range in depth from 150 to 600 feet.

Plans for the entire proposed new plant contemplate the use of the best material of its kind to be obtained, the engineer said. This policy is in accordance with true economy, he said, since the maintenance costs will be reduced to a minimum and the necessity for repairment will be deferred indefinitely.

Price of Materials

It is unreasonable to expect that material costs entering into the waterworks plant can be secured at a lower price than obtainable now for a good many years to come, he said. Demand is great for this material for war purposes. Jerusalem was captured because a pipe line 150 miles long carrying water for the invading forces was built, he said, and the rebuilding of destroyed European cities after the war will require much of this material. Since the war began, foreign countries have turned to the United States for waterworks material and it is unlikely that the mar-

kets thus developed will be closed there after.

Folly to Delay

Appreciating these facts, Mr. McDonnell said, the mayor of New York recently authorized a large purchase of waterworks material, sufficient to meet both present and future requirements. It would be unwise, the engineer stated, for this city to withhold action on the proposed improvement in the hope that a lower price for the material might be secured later.

Other cities, in the installation of water systems, have gone to much greater expense than is proposed for Twin Falls at this time. Canyon City, Colorado, for instance, he said, when its population was 4000, installed a water system at a cost of \$600,000.

Pure Water and Vital Statistics

In the light of the facts that 60 per cent of typhoid cases are due to impure water and that typhoid constitutes about one-fifth of the fatalities from the water-borne disease, citizens are deserving more attention to their water supplies, Mr. McDonnell said. It is not often that an absolutely pure natural source can be obtained, but filtration has been found to be entirely successful as a means of water purification and has reduced the death rate in remarkable degree. Prior to installation of its filtration plant the city of Cincinnati had 8000 deaths annually, he said. Afterward it was found that 800 lives had been saved in a three year period. This case is typical of the results to be obtained by the One-fifth of the population of the United States now drinks filtered water.

Explains Details of Plan

Explaining in detail the proposed new system for Twin Falls, Mr. McDonnell said that provision is to be made for taking water both from the low line canal and from the present reservoir into the filtration plant. The latter source will be used especially during such times as there may be large amount of sediment in the water taken directly from the canal.

Before entering the filtration plant, water will pass through a mixing basin where a chemical will be added to precipitate the sediment. Passing through the filter beds, composed of layers of sand and gravel, the water will be discharged into clear water wells and thence into the mains carrying it into the city distribution system. These filter beds are easily cleaned by reversing the direction of the water through them, and an automatic device indicates when necessity for cleaning exists. Chemical will be fed into the water in the filter plant by means of an automatic device supplying the chemical in direct proportion to the amount of water drawn out, thereby preventing either underdosing or overdosing of the water.

Best in the West

The filtration plant and improvements of the distribution system contemplated will afford to Twin Falls one of the most modern and efficient water systems west of Denver, the engineer stated. It will be a credit not only to the city but to the entire north-west. Besides safeguarding the health of the consumers, the new system will result in greater security from fire loss and consequently a lower insurance rate. It will also give encouragement to the location here of more industrial enterprises and the building of more homes, he promised. The city of Billings, Montana, he said, installed one year after purifying its water supply and enlarging its distribution system, had secured 11 new industrial enterprises.

In connection with his presentation of the subject, Mr. McDonnell exhibited several stereoscopic views showing the progress of waterworks improvement from antiquity to the present time, including views of the filtration plant proposed to be installed here.

FOR EXCHANGE—Job printing for money. Our work is like your money—the best. Twin Falls News.

SEEKS HILLY REGION FOR FARMING

That a mountainous region, as desired, for the propagation of red fox, skunks or other fur bearing animals is to be found in the Twin Falls country is the assurance given by Secretary Stuart H. Taylor of the Commercial club in response to inquiry of recent date.

FIREMEN GET NEW HORSE

Replacing the fire horse lost when he broke his leg in making a run on Main street last fall, Fire Chief Carlson has purchased for the city a horse from Quincy Foster which is an exact mate for the animal that was killed. It's a dark dappled gray animal, five years old, and had been owned by Mr. Foster for one year. The price paid was \$300.

Fat Is Fatal

A BURDEN OF UNHEALTHY FATNESS SHORTENS LIFE—REDUCE WEIGHT COMFORTABLY

Would you like to reduce your weight ten to sixty pounds in a simple, safe, comfortable way? Do you want to become healthier, to look younger, to be sprightly, to possess a good figure without wrinkles or flabbiness?

Then stop harmful drugging; do not follow any starvation plan or tedious exercising, but adopt the delightful home method.

Stand by your window or in the open air each morning and evening, taking long, deep breaths. Inhale through the nose with the mouth closed; exhale through the mouth open. Take all of korein four times daily and follow the other simple directions that come with it.

You will positively reduce your weight, or you will receive a forfeiture in cash. Go to the drug store and get some oil of korein today, or write Kargin Company, 340 K. St., Station P. New York, N. Y., for free test packet and book. The guarantee is absolute—A.K.

"It is indeed a pleasure to read with your glasses." That is what they say after we have fitted them with glasses.

Eyes tested and glasses properly fitted.

PRESBYTERIANS PLAN DEDICATION OF NEW CHURCH

**SERVICE TO COME AT THE
CLOSE OF EVENTFUL
PERIOD FOR CHURCH**

DR. ASHER H. BRAND, NEW MINISTER,
TO BE INSTALLED FOLLOWING
MEETING OF PRESBYTERY.
PUBLIC TO HEAR NEW ORGAN.

Culminating on Sunday, December 27, with the dedication of the new church building, a series of events including a meeting of the Presbytery, installation of the new pastor, Dr. Asher H. Brand, formerly of Vincennes, Indiana, and an organ recital which promises to be one of the most notable of events in local musical circles, will be held next week in the Presbyterian church.

The Presbytery will meet in the church at 1 o'clock Thursday afternoon to elect Dr. Brand to membership in that organization. Public installation services will be held beginning at 2:30 o'clock on the afternoon of the same day, the moderator of the Presbytery to be Rev. M. VanFleet of Buhl and Rev. Arthur E. Evans of Maroa are to deliver the charges to the minister and congregation, and the sermon is to be preached by Rev. W. B. Soudy of Burley.

On Thursday evening a banquet and reception for the new minister, his wife and the members of the Presbytery will be held in the basement of the church.

Social Friday Evening

In the organ recital on Friday evening, Austin D. Thomas, organist-director, will be assisted by a chorus of 30 well known singers giving the Hallelujah chorus from Handel's "Messiah," and by Miss Helene Allmendinger and Mrs. C. J. McCormick, soloists. This occasion will give the public its first opportunity to hear the pipe organ just installed in the church.

Dedication services will be held beginning at 11 o'clock Sunday morning. Dr. R. M. Donaldson of Boise has been invited to deliver the dedicatory sermon. He conducted the dedicatory services at the completion of the building recently vacated by the Presbyterians for their new building. He and Dr. Brand, the new minister, are personal friends, both being graduates of the Wooster, Ohio, college.

MUCH IMPROVEMENT ON STATE HIGHWAY

SEVERAL COUNTIES AND DISTRICTS FINANCE WORK ON THE SOUTH IDAHO ROAD

Census Commission the Governor of 58 Miles—\$1,000,000, 2. Record of All States

The state highway through the Minidoka project is now practically all graded, and it is a road to be proud of, says the Burley Bulletin. The commissioners of the Burley highway district and Superintendent Fields are to be congratulated upon the high standard of the work. It is the first good road of any extent built in Cassia county. Already many neighborhoods are planning to build good roads to connect with the state highway, and we expect to see the good-roads movement spread rapidly throughout the county. Because the Burley highway district was ready to push the work on her roads, we have benefited largely, having received a big proportion of the state funds for road work.

Forty \$2,000,000 was spent on good roads in Idaho during the past year, half of which went into the construction of state highways in systems inaugurated by the state highway commission; while counties and highway districts voted to issue \$1,500,000 in bonds to assist in the work.

To reduce the maintenance costs the commission adopted a policy that all future road contracts let will call for the gravel surfaced on highways within the state system.

On the Idaho-Pacific highway, running east and west across the southern part of the state, grading was started by the state of Idaho through the legislature, \$4,000,000; Bonner county, \$200,000; Coeur d'Alene highway district, \$200,000; Lewiston valley highway district, \$150,000; Whitehall highway district, \$50,000; Adams county, \$100,000; Washington county, \$100,000; Mountain Home highway district, \$100,000; Buhl highway district, \$100,000; Burley highway district, \$100,000; Custer county, \$100,000; Lemhi county, \$150,000.

**ROCK SPRINGS MINES
WORKING TO CAPACITY**

Agreement of Operators With Railroad Results in Output of Endless Stream of Coal

Coal from the Rock Springs mines is now being shipped in an endless stream. The Union Pacific railroad is moving three full trainloads of coal for commercial use out of this district every 24 hours. A total average of 50 full loaded cars were moved for each of the 25 working days of the month of November. During the month of December an equal record has been maintained and in some cases improved; for instance, on December 7 113 cars were moved.

As a result of a program supported by W. M. Jeffers, vice-president and general manager, and F. H. Hannum, general superintendent, the coal mines in this district are working to capacity, and are being supplied with all the cars needed and as rapidly as needed.

The basis of this program is an agreement on the part of the mine operators to load all cars to maximum. The result has been greater total tonnage carried in fewer cars. During the month of November the Union Pacific hauled from the Rock Springs mines 93,713 tons of commercial coal using 2185 cars with an average loading of 422 tons per car as against a total average hauled in November 1916 of 88,800 tons for which 2510 cars were used, an average loading of 352 tons per car.

The program worked out by the Union Pacific has thus saved directly 328 cars, and considering the heavier tonnage hauled 421 cars, or nearly 18 per cent. Practically all of this coal is used by the people living in Wyoming, Idaho, Utah and Nevada, where most of the Rock Springs coal is shipped.

BUYER OF FIRST LOT IN TWIN FALLS DIES

George C. Walter, Engineer, and Mill Man, Succumb Here After Week's Illness

Funeral services for George C. Walter, aged 41, of Buhl, who died Saturday morning at a local hospital after a week's illness which necessitated an operation, were held Tuesday afternoon at the Greenwald & Sons chapel, being conducted by Rev. C. L. Bent, assisted by the Twin Falls lodge of Odd Fellows. Mr. Walter had been a resident of southern Idaho for nearly 20 years and was the purchaser of the first lot offered for sale when the Twin Falls project was opened August 1, 1904. He was the owner of interests in a bank and flour mill at Oakley and during the past eight months had managed the flour mill at Buhl, in which he was also financially interested.

He is survived by his wife and daughter, Margaret, aged 7, also by a brother living in Indiana, who was here for the funeral, and by his parents living in Chicago.

NEW RULE AFFECTS PROSPECTIVE CITIZENS

Declarations of Intention Filed Over Seven Years Ago Are Invalid, the Court Declares

Declarations of intention to become citizens of the United States filed under the law repealed by a new law in September, 1916, are declared invalid by supreme court decision of January 7, according to information received by E. J. Finch, clerk of the district court, from John Speed Smith of Seattle, chief naturalization examiner for this district.

Under the old law final hearing upon a declaration of intention might be had at any time subsequently, and several certificates of citizenship have been granted in this district to petitioners who had allowed several years' time to elapse after filing their declarations. The new law requires that the final hearing shall be had within seven years after the filing of the declaration.

The decision of George Richardson, filed in this county in October, 1902, is dismissed without prejudice under the new law.

John Frederick Cordes, a German, in whose case final hearing had been continued until the end of the war, has an old law declaration also.

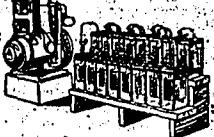

RAILROAD RESPONDS TO WOMEN'S REQUEST

Oregon Short Line Installs Warning Devices at Crossings in the Vicinity of Curry

Warning devices have been installed at the railroad crossings in the vicinity of Curry as a result of the action taken by the Country Women's club in appointment of two of its members, Mrs. W. B. Wolfe and Mrs. Joseph Walkington as a committee to urge the matter before the state public utilities commission. The Short Line responding to the request of the women, made through the commission, installed devices that will warn those approaching the crossing when a train is coming.

INCOME TAX COLLECTOR ARRIVES
R. H. Argubright, deputy collector of internal revenue for the Montana district, has arrived in Twin Falls county to assist prospective tax payers in compiling their returns. It is estimated by the district collector that 1500 persons living in Twin Falls county should make a return on their 1917 income.

The deputy collector will be located at the Pilgrimage State Bank this week, at the county court house in Twin Falls January 21 to February 15, and at Buhl from February 16 to February 25.

DELCO-LIGHT SAVES TIME AND LABOR Increases Farm Efficiency

The average farmer and his family spend many hours each week turning the washing machine, churn, cream separator, etc., and doing other non-productive chores.

This is a serious condition, especially in view of the present labor shortage, and the heavy demands which are being made upon farmers for increased production.

Electricity is the best solution to this problem. Delco-Light provides plenty of good, clean, safe, electric light, and also electric power for operating the machines now being turned by hand.

DELCO-LIGHT ENABLES THE FARMER TO DO HIS WORK QUICKER AND BETTER AND HAVE MORE OF VALUABLE TIME EVERY DAY WHICH CAN BE DEVOTED TO PRODUCTIVE WORK

ABOUT WATER

IN CONNECTION with the proposed waterworks improvements there is one point that seems absolutely clear, namely, that the voting of bonds and the establishment of the said improvements will not add one penny to the taxes of a single man, woman or child in Twin Falls.

The facts prove the point. The waterworks income at the present time amounts to around forty thousand dollars a year, of which from ten to fifteen thousand dollars is lost through rebates on account of poor service, repairs and various incidental expense due to the condition of the system. With the new system in operation this annual expenditure of ten to fifteen thousand dollars would repose in the coffers of the City instead of going back into the expense rathe. On top of this comes the fact that the new system would in itself create a large amount of new income as a result of the inadequacy of the present system to serve any more homes than it is now serving.

Filtered water is soft, clean tasting, pure water, free of germs, dead or alive. Those who have actually gone into the financial end of the situation are authority for the statement that after paying all expenses, including interest on the bonds, there will be around fifteen thousand dollars net income a year to devote to the paying off of the principal.

But supposing the figures only break even and that the net income does nothing further than pay for upkeep and interest charges, there would still be no added taxes for waterworks purposes and there would be plenty of pure, wholesome water.

As to the health theory, there is not a single City in America installing a water filtering system but what can point to a lower death rate since the installation than obtained prior thereto.

DOING THEIR BIT

CONSPICUOUS patriotic service has been rendered lately by the lawyers giving freely and voluntarily of their time and talent for the purpose of advising registrants of the true meaning and intent of the Selective Service Law and Regulations and of assisting them to make full and truthful answers to the questionnaire. In the details of this work in this County they have been assisted by some persons not of the profession, notably by boys of the Junior and Senior classes of the high school.

And now that this work is nearing completion, the physicians in the next stage of the proceedings will be called upon to render valuable assistance by giving their services in the examinations to determine the physical qualifications of registrants.

These professional men would be the last to claim extraordinary credit for the service they have rendered and are giving. Their reward is the satisfaction of knowing that they have fulfilled their part in an undertaking that is to be regarded as a systematized effort of the citizenry of the whole nation organized and compacted to meet the present emergency.

Others there are to whom credit is due—to the business men, farmers, and others, who have given freely of their time and effort in organized drives for war funds of the Red Cross, Y. M. C. A., Liberty Loan bonds and who have contributed to the success of these drives and campaigns by liberal donation or investment; to the devoted women who are dedicating countless hours to relief work; to those who bravely endure separation from the sons and loved ones in the service, not less than to the men who are offering their lives, if need be, on the altar of their country.

The county auditor, sheriff and physician, who compose the Local Exemption Board, have in the same spirit refused to accept the compensation allowed by the War Department for their services.

THE LATE SENATOR BRADY

THOSE who knew the late Senator James H. Brady knew him to be a man of sterling worth, of exceptional ability and invariably true to his friends. His record in the United States Senate is in keeping with the best and highest traditions of that body. He was not given to equivocation, and the weight of his influence was steadily and strongly for or against the various problems with which his position brought him into contact. His position on the war alone proved his worth. Although a lifelong Republican he stood squarely behind the Administration on every question of a public character with a bearing upon the public welfare. He never temporized, never balanced issues, and friends and enemies alike knew at all times just exactly where he stood.

The vacancy created through his death is a notable one, as is the example provided through his career along business and political lines.

He was a loyal, sound and constructive citizen of the State of Idaho.

MIXING THE MEDICINE

FOR the second time since Statehood, Idaho will be represented in the United States Senate by a Democrat, and for the second time, by appointment to fill a vacancy caused by the death of a Senator from the opposite party.

To whom the plan will fall is the problem

now perplexing the Democrats of the State and it may well be that it is also perplexing Governor Alexander, who, doubtless, is anxious to avoid further rifts in party ranks, and who, it is also intimated, entertains some aspirations himself.

Apparently those who believe that Ex-Governor Hawley is about to have a cherished ambition realized are in the majority, although there are many who predict that John T. Nugent will be favored with the appointment.

The situation is generally bemuddled by the rows in the Democratic ranks over the compensation board, the United States marshalling and the appointment by Robert Elder, Democratic State Committeeman, of his brother to a remunerative Federal plum in North Idaho. The latter's action is said to have been regarded as sufficiently unethical to cause a split in the faction formerly known as the Nugent-Elder crowd.

When William E. Borah announced, some time ago, that he would not again become a candidate for the Senate, Ex-Governor Hawley let it be known that his hat was in the ring, although it has been common knowledge for a long time that the former Governor would like a term in the Senate as a climax to his political career. With the intimation that Governor Alexander would also enter the senatorial contest, it looked like a many-ringed circus, for Nugent, too, has been crowding the ropes. About the time the contest looked interesting, Borah broke up the party by another announcement—that he had concluded to stay in the game himself.

None of the Democrats are particularly anxious to go into the fight against Borah. They are afraid that subsequent events would forever blight their senatorial aspirations, for there are too many Democratic aspirants to allow any one to make the try more than once.

It has been suggested that had the last Legislature fixed the law so that the man to be appointed to fill the existing vacancy could serve out the entire term of the late Senator, Governor Alexander, to cinch matters—and to avoid any controversy in the ranks of the faithful—might turn his job over to the Lieutenant Governor and accept from his hands a Senate term himself.

As it is, it looks as though Governor Alexander would have to stick to the post and face the music. There seems to be no danger of a "dark horse" going to the Senate—that would not satisfy anybody except, possibly, the "dark horse." Or the Governor may decide to advance the interest of party harmony by tossing a coin and settling the impending argument in that manner.

Outside of the party, sentiment seems to be with Ex-Governor Hawley, and many Republicans admit that it would please them to see him serve his State in the United States Senate.

CHEER UP

A SOLDIER in the trenches has a much better chance of surviving his first year of warfare than has a new born babe in the cradle its first year of life.

According to statistics provided by English insurance companies whose business it is to know and to know that they know, out of a total of two million soldiers insured, the losses during the entire course of the war have amounted to only thirty in each thousand per year. Now, without any war at all the losses of life from natural and accidental causes in the ordinary walks of peace amount to ten in each thousand per year, therefore, the death rate in war risks is but twenty to the thousand for each year of warfare, or two per cent.

Those with visions of trainloads of killed and wounded being rushed to base hospitals and lonely graves every time a single regiment comes within striking distance of a German patrol will do well to ponder these figures. They are endorsed and reiterated by Secretary of War Baker and their authenticity and reliability cannot be questioned.

PRINTING THE NEWS

THOSE who are familiar with the war record of William Randolph Hearst and his chain of newspapers know exactly where Hearst and his newspapers stand on the war. Hearst belongs in the same class as Victor L. Berger, LaFollette and the rest of the little group of men who have announced their un-Americanism to the world and have not yet had the grace to be ashamed of it. The fine Italian hand of Hearst has been disclosed so often in the garbled, misleading and wholly unfounded so-called news dispatches from the various war fronts that outside of his own newspapers he receives no defense.

The object of the report of last week, namely the story of the German revolution, was patent at the time to most newspapers which received it. Some printed it outright, others with reservations and in obscure corners, still others ignored it entirely. It was intended to take away as much as possible from the President's speech of the same date. To minimize the importance of a Presidential state paper, to weaken, so far as possible, the effect upon the Country of that speech.

The whole effort was nicely calculated to bring about exactly the result aimed at.

The incident had no local significance, neither had the reference to the matter carried in The News.

The Oldest Safe Investment

in the world is a first mortgage on real estate. Mortgages were invented by the ancient Babylonians about 2200 years B. C. more than 40 centuries ago.

The modern Twentieth Century form of the real estate mortgage is the First Mortgage Bond.

This is the type of investment offered by the Pocatello Security Trust Co. It combines the safety of high grade mortgages with the convenience of the investment bond.

It is the one ideal form of investment and we strongly recommend it to you.

First Mortgage Bonds

ISSUED BY THIS COMPANY PAY THE INVESTOR

6% and Safety

Issued in amounts of \$100 to \$10,000, these safe Bonds may be acquired outright for cash or on the partial payment plan.

At your option, you may invest your money as long as you wish—2, 5 or 10 years. On the monthly payment plan, \$300 a month buys a \$100 Bond in 30 months.

These Bonds are especially adapted to the needs of large investors—successful farmers, ranchers, and stockmen—who desire to invest from five to fifty thousand dollars.

For further information, write direct to the Company or ask any of our representatives in your community.

Inquiring Lady—How much milk does your cow give a day?
Truthful Boy—'Bout eight quarts, lady.

Inquiring Lady—And how much of that do you sell?
Truthful Boy—'Bout twelve quarts, lady.—London Saturday Journal.

He—Of course there's a big difference between a botanist and a florist.
She—Is there really?

He—Yes; a botanist is one who knows all about flowers, and a florist is one who knows all about the price people will pay for them.—Boston Transcript.

A person of little tact once remarked to the octogenarian Auber: "What a sad thing it is, this old age business!"

"Yes," agreed the old musician, "it does. But," he added with a witty philosophy, "up to the present time no other way has been discovered to live a long time."—Boston Transcript.

SOCIETY

Mrs. J. Paul Johnston was hostess to the members of the Hoover Luncheon club Wednesday. Bridge followed a charmingly appointed luncheon. Seven members and Mrs. Owsby as a guest were present. The next meeting will be with Mrs. Schroeder.

The "hard time" party given by the choir and orchestra of the Methodist church on Tuesday evening was a decided success. All of the costumes worn were remarkably unique and the prizes for the best, a fat mince pie, were won by Miss Frances Magel and Rev. Chas. Butler. Light refreshments were served to the merry crowd at midnight. Mrs. C. A. Baker, chairman of the entertainment committee, deserves much credit for her able management of several delightful entertainments given by the choir. Another concert under the direction of Mr. Butler is promised in the near future, and once again the songs of years ago which live yet will gladden the hearts of Twin Falls music lovers.

Honoring Mrs. J. C. Fox of Halley, Mrs. Ernest White entertained at an informal dinner on Thursday evening. Guests were Miss Fox, Mr. and Mrs. LaMoyné, Mr. and Mrs. J. H. Boyle, Mr. and Mrs. White and Miss Treasdale.

On Friday evening the members of the newly organized club, C. C. C. met at the country home of Miss Lunetta Smith for a social evening. Following

a merry evening the following young ladies took a merrimentous ride: Misses Ruth Harvey, Beulah Trueblood, Ruth Beem, Phoebe Bowen and Lunetta Smith.

Miss Pauline Ripley was hostess at a theatre party and luncheon on Thursday honoring the Hypocobach club before her return to college.

Mrs. L. F. Morse was hostess to the Wednesday Bridge club last week. Mrs. Dodd and Mrs. Carey, who are visiting their mother, Mrs. W. H. Greenhow, were guests of the club. Light refreshments were served.

The Country Women's club met with Mrs. Joseph Walkington on Thursday. Mrs. Dinkaway's paper on "Palestine As It Was in Bible Times and Today" was read by Mrs. C. E. McClain. It was resolved to omit refreshments until the close of the war in the interest of food conservation. Six members were present. The next meeting will be with Mrs. McClain on January 24.

The Junior Social Improvement club will entertain at a dance on Friday night at the parish hall in honor of the visiting basketball team from Oakley. All members and associate members requested to attend.

The Entre Nous club was entertained at the home of Mrs. Jack Boyce. A delightful luncheon was served, followed by bridge. Mrs. Harry LaMoyné and Mrs. Fox of Halley were guests.

With the Red Cross Work At Home and Abroad

Mrs. John E. White, county campaign manager of the Christmas membership drive, received a letter from Mr. Gypson, state campaign manager, stating that no county in the state had made a better showing than Twin Falls, and congratulated the women who were active in the drive.

Continue to display your Red Cross service flags. They indicate your willingness to co-operate in this great work. The auxiliaries have been asked to supply a number of hospital emergency coats for use at Camp Lewis hospital. This division has been asked for one hundred of these coats, fully equipped, at a cost of about fifty dollars each. Flier has already produced three coats.

The Junior Red Cross has pledged itself to supply 100 comfort pillows. These pillows are in great demand and may be made at home out of any piece of white material, 14x18 inches, filled with snippings of outing flannel or any soft material. Let the children help you with the snipping. As soon as the pillows are finished they should be left at the sewing room.

Superintendent Hal G. Bliss has been appointed county chairman of the Junior Red Cross auxiliary work. He is to organize auxiliaries in the schools throughout the county. Five hundred yards of gauze, making not less than 2000 dressings, have been used this week by the surgical dressing classes. The women now at work are doing splendidly but more are needed. Let every woman in Twin Falls devote some time to this work.

A map of Twin Falls county, donated by Mr. Bybee, is at headquarters, showing the seventeen auxiliaries of the Twin Falls chapter and the territory belonging to each. This division of territory has been made under the supervision of Mrs. J. E. White, county campaign manager of the Christmas drive, and Dr. H. W. Wilson, chairman of the county chapter, at the request of the divisional headquarters.

The relief committee is sending out circular letters relative to war insurance for the dependents of enlisted men. An urgent call has been received from Seattle for the women of this division to rush all knitted goods. There is a great need by our boys "over there" for sweaters, socks, wristlets and helmets.

The Flier schools will organize a Junior school auxiliary this week. A limited number of Red Cross pins

have been received at headquarters and may be had for twenty-five cents each. The celluloid pins which were to have been here for the Christmas drive have not yet been received.

An electric cutting machine has been ordered for use in the sewing room. This will greatly facilitate the work and will allow the sewing committee to supply more work for the local and rural auxiliaries. At present twenty-four women, four each day, are giving their time exclusively to this work.

Mrs. J. E. White is visiting the different auxiliaries each week to explain points not understood and to stimulate interest in the Red Cross work. She is meeting with splendid success.

Last week there was a meeting with Mrs. Caldwell at Knoll, which covers the Pleasant View and Park Lane districts. Mrs. Coburn was elected vice-chairman to succeed Mrs. Nicholson, and Mrs. McMillan will take charge of the publicity work. Mrs. Hertz was elected chairman of the sewing department.

The children of the Curry school gave an entertainment last week, earning enough money to adopt a French orphan. Babies' shirts that are in good condition or old underwear from which these shirts could be cut are needed at the Refugee rooms. Any warm material suitable for baby garments will be appreciated.

The following knitted goods were shipped during the month of December: 10 scarfs, 34 sweaters, 140 pairs of socks, 50 pairs of wristlets and seven helmets. Myrtle Schwartz, an eight year old girl in the third grade of the Washington school, has made and mounted a full sized camcorder and donated it to the Junior Red Cross. The children of the eighth grade at the Washington school will make thirty-five ambulance pads during this week. Russell Herron, a ten year old boy, has finished knitting a sweater.

KIMBERLY RED CROSS NOTES
The Kimberly auxiliary of the Red Cross will hold a regular monthly business meeting on the last Friday of each month, beginning with February.

The members responded nobly to the call for jam, jelly and preserves last month. Two barrels were filled, containing 57 quarts, and were sent to

BACK ACHE

Linger Up With Penetrating Hamilton's Wizard Oil

A harmless and effective preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamilton's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You have no idea how useful it will be found in cases of every day ailment or mishap, when there is need of an immediate healing, antiseptic application, as in cases of sprains, bruises, cuts, burns, bites and stings.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back. Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

Camp Lewis, American Lake, Washington.

During the recent campaign for membership, two hundred and fifteen were added to the Kimberly auxiliary, making a total of about 400. This speaks well for Kimberly.

On registration day there were 270 women who gladly gave their names and occupations that Uncle Sam might know just where to look for workers.

A surgical dressing class will be organized in Kimberly on Wednesday, January 16, under the supervision of Mrs. G. L. Jamison, who asks that any one desiring to enter this class will report at the Red Cross room. The instructor, Mrs. Edwards of Twin Falls, will hold this class in the evening, giving many a chance to attend who could not do so in the afternoon.

It is desired that all who wish to knit shall leave word at the Red Cross room or with Mrs. Strong, as to the kind of knitting they wish to do, such

as sweaters, socks, helmets or wristlets. By so doing, the supply department will know what to have on hand, causing as little delay as possible.

All who wish to learn to knit may have that opportunity afforded them by calling at the Red Cross room on Thursday or Friday of each week. A capable knitter will be there to assist you.

Mrs. R. H. Denton reports 12 pajamas and 6 night shirts completed for this week.

Thirty dollars has been sent to Camp Lewis for extra bed furnishings.

The northwestern division, which includes Idaho, Oregon, Washington and Alaska, supplied Camp Lewis with 60,000 Christmas packages. Ten thousand packages were sent to various forts on Puget Sound. The Camp Lewis shipment completely filled four box cars.

The northwestern division has been asked to furnish 3500 comfort pillows for our boys. It might be possible for the school children to make these with the aid of their mothers. The pillows are to be 14x18 inches and filled with cutting out in small pieces, or better still, with feathers. More will follow concerning these pillows next week.

If any one was not accosted by Red Cross campaigners during Christmas week, it was an oversight on the part of the campaigner.

All who wish to join the Red Cross are asked to leave their \$1 at the bank of Kimberly and the committee will see that they receive the window service flag.

A very grateful letter has just been received from Camp Lewis acknowledging the receipt of the shipment of jam, jelly and preserves.

ARE YOUR SEWERS CLOGGED?
The bowels are the sewerage system of the body. You can well imagine the result when they are stopped up as is the case in constipation. As a purgative you will find Chamberlain's Tablets excellent. They are mild and gentle in their action. They also improve the digestion.—Adv.

MORE FARMERS NEEDED

It has been said that "he who causes two blades of wheat to sprout where only one grew before is a great benefactor of mankind," and so he is, and this being so, when we think in multiples of tens, hundreds and thousands, what a wonderful benefactor is the bringing of greater agricultural areas under cultivation, for the increased production of all kinds of food products!

IN ANY SECTION, INCREASE IN PRODUCTION IS BEST ACCOMPLISHED WHEN TWO FARMERS ARE ENCOURAGED TO ESTABLISH WHERE ONLY ONE WAS BEFORE; in other words, if we can get two farmers to each work forty acres of any given eighty acre tract, or four farmers to work any given 160 acre tract, and work these forties intensively, much more can be accomplished and everyone more greatly benefited than where one farmer works the 80 acre tract alone, or one or two farmers work the 160 acres.

The Union Pacific System, with the thought always paramount of building up the territory or states through which it operates, has put forth far reaching efforts in colonization for many years, and at this time maintains at Union Pacific System headquarters, Omaha, Nebraska, a perfectly organized Colonization and Industrial Bureau, the purpose of which is to MULTIPLY AGRICULTURAL AND INDUSTRIAL UNITS as rapidly and as effectively as possible. To best accomplish this purpose, it needs the whole-hearted, continuous and general support of the public; of farmers already happily established in Union Pacific System territory, of dwellers in towns and cities, of travelers and any one who has the well-being of the country and its citizens genuinely at heart, and who, with a modicum of common foresight could fail to have such interest.

Co-operation for the increased population of agricultural sections can be accomplished in many ways:

If you are an established agriculturist in Oregon Short Line territory, and you personally know of good acreage in your vicinity available for purchase or settlement, write us and tell us all about it. If you have friends in the east who are agriculturists but who desire to change their locations, and you cannot exactly convince them of the advantages of making the change, let us have their names and addresses; maybe we can help them to a favorable location. The same co-operation may be accomplished by city or town residents or any one.

ONE OF THE DIFFICULTIES OF THE AVERAGE FARMER IN SEEKING A LOCATION IS TO KNOW WHERE HE CAN SECURE EXACTLY THE KIND OF A FARM HE WANTS, EITHER FOR PURCHASE OR SETTLEMENT. PEOPLE ON THE GROUND KNOW BEST ABOUT LOCAL OPPORTUNITIES.

Keep in mind the well-being of the Union Pacific System is the well-being of your territory, and the well-being of your territory is the well-being of yourself. You are supremely interested in the welfare of the railroad, just as you are interested in the roads over which you drive, or in the good fences, good homes or well-kept farms by which you pass.

D. B. SPENCER, GENERAL PASSENGER AGENT.

UNION PACIFIC SYSTEM
SALT LAKE CITY, UTAH

Increase Your Property Values

You know, folks judge you and your place by the class of improvements put up.

Then make that class a good one—not by putting up a lot of expensive buildings—but what you do build—build substantially—and keep them in shape.

OUR LUMBER FOR BARNs, SHEDs, HOG ROUSES, IS GOOD—IT LOOKS GOOD, TOO, AND "CUSTOMERS AID" HELPS YOU USE IT RIGHT.

ATTRACTION NOW SHOWING AT THE IDAHO THEATRE

"Yes," remarked a conceited young bachelor, "I have the greatest admiration for the fair sex, but I never expect to marry—oh, dear, no!"

"Indeed!" remarked a lady. "Then I am to understand that you not only admire women, but you have a sincere regard for them as well?"—Pittsburgh Chronicle-Telegraph.

Hotel Proprietor—And may I ask what the little contrivance is you are carrying?

Visitor—That—oh, this is my private fire escape.

Hotel Proprietor—Um, well, we have a rule here with reference to guests with fire escapes. It is "Cash in advance."—Saturday Journal.

NEW PIPE ORGAN IS READY FOR RECITAL

GEORGE KILGUS OF ST. LOUIS
MANUFACTURER, COMPLETE
INSTALLATION

Public is Given Opportunity to Hear In-
strument in Notable Musical Event
Directed by Austin D. Thomas, With
Capable Assistants

Opportunity for the public to hear
the big new pipe organ, just installed
in the First Presbyterian church will
be given Friday evening, January 28,
at a recital in which Austin D. Thomas,
organist-director, will play several num-
bers. Miss Helene Allmendinger and
Mrs. G. J. McCormick will sing vocal
pieces, and the Handbell chorus from
Handel's "Messiah" will sing by
a chorus of 30 voices.

Installation of the organ was com-
pleted this week under supervision of
George Kilgus of St. Louis, member of
the firm which manufactured it. It
was received here shortly before Christ-
mas, and an employee of the company,
coming with it, was in charge of the
preliminary work of installation.

The organ contains almost 1100 pipes
and is so devised that the effect of
every kind of musical instrument can
be reproduced, including flute, strings and reed in-
struments. The organist has also at his
command a complete set of chimes.
The console, or playing table, con-
sisting of two manuals and pedals, is
located on the floor of the church in
front of the rostrum, the only connec-
tion with the organ being through a ca-
ble about one and one-half inches in
diameter containing over 400 wires. The
switch board with its many of wires
connects is larger than the telephone
switch board for a city of 50,000 in-
habitants, Mr. Kilgus says. The organ
contains more than 2000 musical notes.

One and one-half horsepower required
for the operation of the organ is fur-
nished through a motor situated in the
basement.

The organ is installed at a cost of
practically \$2500. It was donated to
the church by L. Brockenkridge, chair-
man of the building committee.

MANY MOURN DEATH OF WELL KNOWN TEACHER

Funeral Services for Miss Elizabeth
B. Powers Largely Attended
and Impressive

One of the largest attended and most
impressive funeral services ever held
in Twin Falls was that for Miss Eliza-
beth B. Powers, which took place Sat-
urday afternoon in the Presbyterian
church, and which was conducted by
Dr. Asher H. Brand. The attendance
of all of Twin Falls' public school
teachers, daughters of the American
revolution, members of the Business
Women's association and of many oth-
ers with whom Miss Powers had been
associated during her life time, togeth-
er with the presence of many floral
offerings, combined in eloquent
manifestation of the universal esteem
in which she was held in this commu-
nity.

The devotional and choir services
were supplemented by a biographical
sketch and eulogy delivered by Dr.
Brand, concluding with the singing of
verses composed by Miss Powers on
the death of the late Dr. John Gourlay,
and a solo by Miss Helene Allmen-
dinger.

The honorary pall bearers were the
following, chosen from among the teach-
ers of the Twin Falls schools: Misses
Shelwell, Bryant, Henson, Goodrich,
Fisher and Stewart. The active pall
bearers were J. A. Johnson, J. C. Beau-
champ, D. E. Bryant, R. P. Logan,
George Bristol and C. B. Fuller.

Miss Elizabeth B. Powers, daughter
of H. E. Powers, and oldest daughter
in point of service in the Twin Falls
school system, died Thursday morning,
January 10, having fought bravely for
two years against diabetes, which caused
her death, and faithfully attending to
her school work throughout.

She was born November 19, 1853, in
Blair, Nebraska. Her mother died when
she was a child, and she had since been
the constant companion and chief com-
fort of her father.

She graduated from the
Northern Illinois Normal and came
here in 1898, and taught in the public
schools ever since.

To save what for Uncle Sam sent

SCHOOL POPULATION OF COUNTY THIRD LARGEST

Twin Falls county's school popu-
lation of 7518, as determined by
the last census, is the third largest
in the state. Out of a fund of
\$254,876.61 apportioned among the
several counties of the state from
the public school funds for the use
and benefit of the schools, Twin
Falls county's share was \$1,032.25.
Larger sums were apportioned to
only two other Idaho counties—
Ada and Blaine. The apportion-
ment was made by Miss Ethel E.
Redfield, state superintendent of
public instruction, on a basis of
\$1.55 per capita. It runs in ex-
cess of \$70,000 over the amount ap-
portioned a year ago in January.

INVITES CLUB WOMEN TO ASSIST SCHOLARS

Mrs. M. J. Sweeney, State President,
Presents Loan Fund Proposi-
tion at Luncheon

Mrs. M. J. Sweeney, president of the
Idaho Federation of Women's Clubs, at
a luncheon at her home Saturday,
entertained the presidents of the several
colored women's clubs of this com-
munity, placing before them the mat-
ter of their contributing toward a schol-
arship loan fund at the University of
Idaho. Particularly, the fund is for
the purpose of enabling students to
pursue studies fitting them to be of
expert assistance in war work. Each
scholarship loan represents a contribu-
tion of \$100, and the purpose of sev-
eral of the women's clubs to provide
for one or more scholarship loans is
indicated.

Mrs. Sweeney and Mrs. W. H. Clou-
chek, president of the first district fed-
eration, addressed meetings of club wo-
men in the Masonic temple at Burley
last week and of students in the high
school auditorium, with the result that
the Burley Woman's club expects to
make a scholarship memorial, and the
Burley high school will give one this
year.

SAYS CARRIER'S NEGLIGENCE CAUSED LOSS OF LAMBS

A. L. Houghton Sues Short Line for
\$1350.40 Damages—Gives
Items of Injury

Claiming damages in the sum of
\$1350.40, resulting from alleged negli-
gence in shipment of a lot of lambs pur-
chased at Dillon, Montana, and brought
to Twin Falls in October, A. L. Houghton
has brought suit in district court against
the Oregon Short Line Railway com-
pany.

In his complaint, filed by his attor-
neys, Walters & Hodgins, Houghton
sets out that failure of the defendant's
Dillon, Montana, and brought when
he promised them caused the lambs, to
lose much weight, there being no pas-
ture and little hay available for feeding
them during the three days they were
detained. Upon arrival of the lambs in
Pocatello, Houghton states that he
asked that they be unloaded and placed
in the railroad stockyards there for feed
and rest. This request, he states, was
not complied with until about eight
hours time had elapsed, and when they
were taken out of the cars they were
turned into pens with other lambs so
that confusion resulted and five of
Houghton's lambs were lost. Five
others died and 1715 suffered loss in
weight, he avers.

Local Briefs

Son in Clerk's Home—A son was born
Saturday to City Clerk and Mrs. W. A.
Minick.

Son in Santa Home—A son was born
Saturday, January 10, to Mr. and
P. A. Santa. Mr. Santa is teacher of
agriculture in the Twin Falls high
school.

Mr. and Mrs. Robert W. Hampton
returned Saturday from Salt Lake City,
where they were married the week be-
fore. Mrs. Hampton was formerly Miss
Lecile Cameron.

McMaster's Sale—C. A. McMaster
will sell eighty head of mules, drafters
and young animals at his sale January
24, at the sales barn. Clayton & Wal-
ter are auctioneers, T. F. Warner, clerk.

Encampment to Institute—Coffee En-
campment No. 20, Twin Falls, on Sat-
urday evening next will receive a class
of 30 applicants for membership, George
Harrington, grand representative, be-
ing present for the occasion.

Clark to Build—Municipal building
commission has been issued to Joseph C.
Clark for construction of a residence
35x48 feet, at an estimated cost of
\$2500, on Sixth avenue east in the Sen-
ior addition.

Joins Field Artillery—Charles W.
Willson of Kimberly, applicant for en-
listment through the local United States
army recruiting station in the field ar-
tillery, left Monday for Fort Douglas,
Utah.

Elevator Man Builts—George P.
Vance, formerly of Rockland, Idaho,
and recently foreman for the Kimberly
elevator, has applied for enlistment in
the marine corps, and was transferred
Tuesday to the Mare Island navy yard
station.

Goes to California—Frank D. Johnson
of Kimberly, field agriculturist in the
east Twin Falls district for the Amal-
gamated Sugar company, with Mrs.
Johnson, left Saturday for a two weeks
trip to California. At Ogden they were
joined by his brother, Dr. C. B. Johnson
and wife, and their mother.

Visits Subordinate Lodges—George B.
Schweiger of Twin Falls, grand master
of the Idaho grand lodge, Independent
Order of Odd Fellows, attended meet-
ings of subordinate lodges at Burley
on Tuesday and at Jerome on Thursday
of the week last, and he will take part
in the fifth anniversary
celebration of Adulodge No. 3, at Boise.

Return from California—Mr. and Mrs.
Asher B. Wilson and daughter, Miss
Patricia, returned Monday from Los
Angeles and other southern California
points, where they have been for three
weeks. They attended the annual pic-
nic of Twin Falls people at Long Beach,
meeting with many friends and neigh-
bors on that occasion.

Would Retain Minister—The congre-
gation of the First Christian church
here have last week rejected the resig-
nation of Walter E. Harman, minis-
ter for six years past, tendered at that
time. It was Mr. Harman's intention
to engage in another employment here.
He has not announced his decision,
whether or not he will insist upon the
acceptance of his resignation.

Meets Veterinarians—Dr. W. A. Sul-
livan of Twin Falls, inspector in charge
of the bureau of animal industry here,
held a meeting of veterinarians in the
conference in Salt Lake the first of
the week with Dr. W. H. Hogan, Utah
state veterinarian, and Dr. R. N. Meade,
federal inspector in charge of the veteri-
nary control in that state. The topic
under discussion was measures to prevent
the spread of the malady especially in
districts near the Utah-Idaho line.

First Annual Sale—Shorthorn breed-
ers of the county will hold their first
annual sale at Twin Falls, January 28,
at the C. A. McMaster sale barn, auc-
tioning forty head of registered short-
horn bulls and cows. The consignors
are H. H. Scott, H. C. Scott, H. C. Scott,
Gifford, J. F. Blakeley, C. A. McMas-
ter, C. B. Requa, and Leland Brothers.
Dr. R. N. Meade, E. Walter and R. H.
Clayton will conduct the sale, Tom War-
ner being clerk.

Army Enlistments—Three out of sev-
en men to have enlisted since Janu-
ary 1 through the local United States
army recruiting station have entered
the aviation section of the signal corps.
Federal enlistment in charge of them
were: Lawrence H. VanRiper, Buhi,
engineer; Reuben E. Beale, Buhi, 23rd
engineers; Burt E. Eberhart, Twin
Falls, infantry; Wellington E. Prohl,
Twin Falls, infantry.

Savings Solicitors Meet—Announce-
ment of a meeting in the Commercial
club room Wednesday evening of those
who are expected to take part in the
campaign in Twin Falls to further the
sale of war savings stamps was sent to
almost 200 men who had previously re-
sponded to the call for the campaign.
It is proposed to complete the campaign
in three days' time and the taking
part in it are asked to give all of their

o'clock. Week-day mass at 8 o'clock
a. m.

WAR SAVINGS
NEED TO DRIVE TO
STRENGTHEN U. S.

FORMER GOVERNOR OF
STATE TELLS OF PUR-
POSE OF CAMPAIGN

STAMP AND SAVING TO FORM
PLANS FOR SAVING STAMPS OF
WAR SAVINGS DRIVE
WILL BE HELD FOR COUNTERPART

It is not absolutely necessary, to win the war, that anyone should buy war savings stamps, the government can conscript dollars, as well as it can conscript men, said former Governor James H. Hawley of Boise, addressing a meeting of about 40 persons in the district court room here Thursday evening, at which preliminary plans for a war savings drive to begin in this county about February 1 were announced.

Hawley is state chairman of the war savings committee. He was introduced by L. L. Breckenridge, county chairman. E. C. Beach, of Lewiston, chairman for Nez Perce county, told of what had been done in that county to further the sale of the stamps. E. L. MacVicar, city drive leader, outlined the plans for the campaign in Twin Falls. W. R. Friebe, county leader, conferred with representatives in attendance from other towns of the county.

Agents in Service
 Practically all of those in attendance had participated in either the Red Cross or Y. M. C. A. war fund drives in this country and the organizations that put through those drives are to be called into the service to conduct the war savings campaign. The assistance of County Agent Donald McLean and of Miss Britton-Wolfe, county superintendent, has been solicited to carry the campaign into the rural districts and in the schools of the county.

Strength of Nations
 "The government in offering war savings stamps is looking ahead to the present and into the future," he said. "One of its principal purposes is to inculcate habits of thrift and economy in its citizenship. No nation is so strong as the nation whose people are committed to habits of thrift and economy," he added, citing as an example the case of the French people in 1870 when they were able to buy off their German conquerors through popular contributions to a tribute of five billions of francs which was demanded.

"Wherein the United States fails to measure up to these requirements," he said, "it is deficient, and it is this deficiency that the government is seeking to make good in limiting the sale of war savings stamps to an amount not to exceed \$1000 for each individual purchaser, thereby providing for a wide distribution of the securities."

"Further than that a more vital con-

The Pirate-
 "Sh! What would happen to me if I were your kid? Well, if you're not acquainted with Calumet Baking you don't know what a good excuse I have. I Can't Help Helping Myself—they're so good! Good for me too, because Calumet Baking are wholesome and purely digestible. Millions of mothers use."

CALUMET
BAKING POWDER
 because it is pure—because it always gives best results and is economical in cost and use. Calumet contains only such ingredients as have been approved by the U. S. Food Authorities.

The government is offering war savings stamps to the people of the United States. The aggregate sum of \$2,000,000,000 during the year 1918. Idaho will do its share. The state has not yet failed to produce its share. The government has demanded made upon it and it will not fail in this matter. Being assured of the plan for the drive in Twin Falls, the government has decided to duplicate in this drive the results which it has attained in other parts of the country. The government has decided to duplicate in this drive the results which it has attained in other parts of the country. The government has decided to duplicate in this drive the results which it has attained in other parts of the country.

Results in Nez Perce
 War savings stamps sales in Nez Perce county totaled \$5000 as a result of the campaign carried on through newspapers, pulpits and schools, with emphasis placed on the desirability of the stamps as Christmas gifts, Mr. Beach said. The stamps were good, but they are not good enough, he said. The \$1000 limit placed on the sale of stamps to any one individual, he suggested, would be the duplicate to conduct a determined campaign to urge persons financially capable to buy to the limit.

Purpose of Drive
 The purpose of the drive will be to urge people to begin the purchase of stamps, and to encourage them to continue their purchases as they are able. Those taking part in the drive will not carry stamps for sale, but they will accept money in payment for stamps issued a receipt therefor. The money collected, together with the duplicate receipt, will be turned over to the several postoffices, and each purchaser will be notified through that source as to when he may secure his stamps. Twin Falls county people are expected to purchase \$40,000 worth of the stamps during the year. As a result of the drive it is expected to enlist 15,000 persons in the war savings force. The war savings campaign is the biggest undertaking put up to Twin Falls county for years. E. L. MacVicar, it is the intention to complete the drive in Twin Falls in three days' time, he said. The men who volunteered for service in the fuel survey and municipal census here will be put to work on this. Each will work in the territory assigned to him for the other purposes, so that every home will be visited.

ENEMY TO GET NONE
OF SHERIFF'S WHISKY
Government Decides Alcohol from Boot-
leg Boose Will be Too Impure
to Use in Making Powder

Idaho's bootleg whisky will not be used with powder and shells to shoot at the Germans, says the Capital News. The ordinance department at Washington has decided otherwise. In fact it must meet the same fate of thousands of gallons of perfectly good firewater which sheriffs have poured into the gutter since Idaho passed under the portals of statewide prohibition. The government had intended to collect the storage supply in the hands of sheriffs, redistill it and use the alcohol for making powder.

Government Changes Mind
 The following letter was received by Governor Alexander from Major Douglas McVay of the ordinance department at Washington, D. C., saying in part: "Consideration has been given to the subject of rectification of seized liquors for the purpose of converting them into alcohol of suitable proof for use in powder manufacture. Some of the problems involved are transportation, impurities, rectification and re-cooperation, together with percentage of yield, probably in the neighborhood of 37 per cent. Consideration of these factors does not lead to the conclusion that recovery of suitable spirits free from harmful impurities and of desirable proof quality for powder manufacture is practicable under the circumstances."

TWO RECLAMATION
PLANS SUBMITTED
Settlers of the Hansen Butte to Choose
Between Proposals at Meet-
ing Saturday

At a meeting in Murtaugh on Saturday evening next, cattlemen and landholders affected will be called upon to throw their entire support either to the plan of the Murtaugh Irrigation district or that of the Milner Canal company for the reclamation of a tract of approximately 12,000 acres of land lying above the Twin Falls canal system and between Hansen and Murtaugh. This is the statement of George E. Schwilger of Twin Falls, secretary of the organization formed to promote the irrigation district plan. Meetings have been held recently in Murtaugh by both the Milner Canal company and the irrigation district promoters. Both organizations have been in the field for about two years, and each, at this time, claims that it is in position to proceed with its plans to put water on the tract this year.

MAXWELL
 Most Miles per Gallon—Most Miles on Tires

Economize Wisely
—A Maxwell Car Will Help

Waste is often committed when the intention is to economize. A Maxwell car, famous for its economy, will cost you only a few dollars a month to operate and maintain.

Which is the real economy:

- (1) To use the car and save time, strength, and mental vigor?
- (2) To do without the car, lose time in your business, lose the health gained from motoring, and worry yourself into illness?

Use of a Maxwell car will give you self confidence. Your neighbors and associates will get mental inspiration from you.

As wave circles widen when a pebble hits the water, so will your good example benefit your entire community. Save—yes! but do it sensibly, and let the Maxwell help.

FOR THIS YEAR HAS EXTRA WORK TO PERFORM

COMPILATION OF FARM STATISTICS REQUIRES EXTRA DEPUTIES

GOVERNMENT WANTS COMPARATIVE STATEMENTS OF CROP AND STOCK—FIELD MEN AUTHORIZED TO COLLECT LICENSES

An accurate statement of crop production and inventory of the agricultural industry in Twin Falls county this year will result when County Assessor George W. Wilcox has completed the work required by law of the general Idaho county assessors. Collection of the data will require the employment of three or four extra deputies in the field and one in the office and will entail an expense to the county of not less than \$1000, it is estimated.

Following are the deputies that have been appointed: Robert Sles, Buhl; A. J. Mills, Buhl; J. B. Page, Twin Falls; T. T. Rutledge, Murtaugh; J. W. Brockton, Kimberly; and John Penny, of Flon. Deputy S. Claud Stewart will make the assessments in Twin Falls and Flon, while Assessor Wilcox and one assistant will work in the territory adjacent to this city. Sles is to make Buhl's assessment; Mills will cover the west end, Rutledge and Brockton the east end and Page the Salmon River tract.

Assessment in this county was begun Monday. In general the valuation is the same as last year, an increase of from \$0 to \$8 for common sheep, \$10 to \$15 for better sheep, and of \$10 to \$20 for hogs, but the collection of Deputy assessors in the field are authorized to collect automobile licenses.

Information Sought.
The information given has no bearing whatever on assessment of property or taxes to be paid. Every farmer, whether owner or renter, will be required to give correct reports on forms provided for the purpose.

Here are the questions that will be asked:
How many acres were planted in 1917 and 1918, and what is the yield obtained in 1917 and expected in 1918 of wheat, oats, barley, corn, beans, peas, potatoes, sugar beets?

What is the record for 1917 and the estimate for 1918 of the following: Acres of permanent pasture, number of apple trees in bearing and not bearing, number of prune trees bearing and not bearing, tons of hay cut during the year, pounds of grain, seed sales during the year, sales during the year of oats, barley, corn, beans, peas, potatoes, sugar beets, butter, butter fat, milk, chickens, eggs, number of animals culled, head of or common cattle, dairy cows of producing age, other dairy cattle, hogs, sheep, draft horses and saddle horses.

POSTED AS DESERTER. RANEY HAD ENLISTED

Draft Board Learns Registrant Certified as Delinquent in the Service

Information received by the local board is to the effect that Harvey Edward Raney of Flon, certified as a deserter under the draft regulations, had enlisted soon after registration and is now with the Idaho troops in foreign service. This information was received after report had been made to the adjutant general of the list of those delinquent in the matter of returning their questionnaires. Record of Raney's enlistment in the adjutant general's office undoubtedly will dispose of the question in his case. He is said to have enlisted as a member of K company, the Buhl unit of the organization that was the Second Idaho regiment, and subsequently converted into a machine gun battalion.

SEEKS APPLICANTS FOR POSTAL CLERKS

The United States civil service commission announced a chance that an examination will be held at Twin Falls, on February 23, to secure an eligible registrant from which selection may be made to fill vacancies as they occur in the position of clerk and carrier at the Twin Falls postoffice. Both men and women will be admitted to this examination. Age limits are 18 to 45 years on the date of the examination. Application blanks and information may be obtained from the local secretary, board of civil service examiners, at the postoffice, or the secretary, Eleventh Civil Service District, 303 Postoffice Building, Seattle, Washington.

Keeping Our Soldiers Strong

Early in the world war experience proved the extraordinary value of cod liver oil for strengthening soldiers against colds, pneumonia and lung troubles.

Thousands of Our Soldiers are Taking

SCOTT'S EMULSION

Because it Guarantees the Purest Norwegian Cod Liver Oil high in food value and rich in blood-making properties. Scott's will strengthen you against winter sickness. Beware of Alcoholic Substitutes.

The famous Norwegian cod liver oil used in Scott's Emulsion is purest and most healthful because it contains all the food elements.

Scott & Borden, New York, N. Y.

TWICE PROVEN

If you suffer backache, sleeping nights, tired, dull eyes and other ailments, consult a doctor. He will tell you that you need a kidney remedy. Read this twice-told testimony. It's Twin Falls' evidence—doubly proven.

Wm. Record, carpenter, 225-Mall Ave. N. Y. says: "I had pains and sores in my back and suffered terribly. I was also bothered with my kidneys acting irregularly. Doan's Kidney Pills were recommended and I found them fine. Since then when I have caught cold and been bothered with kidney disorders, I have used Doan's Kidney Pills and they have always given me prompt relief." (Statement given June 1, 1918.)

LASTING RESULTS

On September 24, 1917, Mr. Record said: "The cure Doan's Kidney Pills gave me and which I told about in a former recommendation still proves permanent."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Record had. Foster-Milburn Co. Mfgs., Buffalo, N. Y.

CONSIGNS CARLOAD OF BEANS TO CHICAGO

FARM BUREAU COMMERCIAL COMMITTEE INVADERS MARKET FOR TWIN FALLS CROP

First Shipment Represents the Product of a Forty Acre Field Grown by John R. Johnson and Sons—Is Valued at About \$12,000.00

Under direction of the farm bureau commercial committee and with the prospect of obtaining a price of from 12 to 14 cents a pound for the product, John R. Johnson and sons of Twin Falls loaded and consigned to a Chicago commission dealer last Friday a carload of 102,000 pounds of beans, representing their crop from a field of 40 acres last season. Upon receipt of the consignment the commission dealer agrees to advance 6 cents a pound on the beans.

It is probable, farm bureau representatives say, that the consignment will be sold before its arrival at its destination. It will be about one month in transit, and at any point en route it may be opened by government inspectors who may make an offer for its purchase. An offer of 12 cents a pound plus expense incurred in shipment up to the point of sale will be accepted, it is stated.

The farm bureau committee assumes a commission of one-half of one per cent for its part in the transaction.

There are approximately 30 car loads of beans remaining unsold in the county, it was announced at the farm bureau committee office Saturday. Warehouses are full and a large amount of the crop remains on the farms. At the beginning of the harvest season it was estimated that there had been approximately 50 car loads of beans grown in the county. Difficulty was experienced in the matter of securing cars for marketing.

The price offered by local dealers has been around 10 cents a pound.

STIFF PENALTIES IN LIQUOR CASES

Pettit Case Set for Monday Morning—Many Plead Guilty and Receive Sentence

Dan Howe, charged with violation of liquor laws, was fined \$300 and sentenced to three months in jail by Judge W. A. Babcock in district court now in session. A. J. Henry, charged with violating an officer in connection with one of the liquor cases, was fined \$700. Both men pleaded guilty.

Chris Samuelson pleaded guilty to a charge of grand larceny, and was sentenced to not less than one nor more than fourteen years in the state penitentiary. Ray McIntire, who pleaded guilty to a charge of forgery, received the same sentence.

W. H. Robinson, who entered a plea of not guilty at the preceding session of court, was given permission to change his plea to guilty, and will be sentenced this afternoon. The first case to go to the jury which has been summoned to report Monday, January 21, will be that of the state against McElvin, who is charged with a statutory offense. Petition for a writ of habeas corpus in this case, and motion to quash the information, were denied by the presiding judge on Thursday morning. Pettit entered a plea of not guilty.

NEW UNDERTAKING ESTABLISHMENT BUILDS

W. B. Amshary and J. E. DeWitt have formed a partnership and have begun excavation for a building on Third avenue east between Rhoads and Second streets, which they will occupy on its completion with a funeral parlor and undertaking establishment.

The building is to be of brick and 25x113 feet in size, affording a cheap funeral services of 25x10 feet in dimensions. The claim is made that it will be one of the most modern and conveniently appointed institutions of its kind in the state. Weather and delivery of materials permitting, it will be completed within the next 90 days.

Mr. DeWitt, who came to Idaho about a year ago from Iowa and who has been a resident of Twin Falls since last July, is an experienced undertaker and embalmer, having engaged in this business for many years in Iowa, and holding licenses in that state and in Idaho.

Mr. Amshary has been a resident of Twin Falls for several years, coming here from Des Moines and being for a long time identified with the commercial orchard business here.

Come! Young people, come! And have a good time at the Epworth League social in the Methodist church, Friday evening, January 18. Our lengthy social will be up-to-date, with ideas that are new. We want you to come for an evening of fun. Bring a friend or two. Mutt and Jeff will measure you. So bring five cents for every foot of your length.

"I suppose the young men do not regard Miss Barrowcliff as so handsome, now that her father has lost his money?"

"Well, they don't think she has such a fine figure as she once had,"—Pearson's Weekly.

"Why, sir," said the genius, "the invention of mine will be epoch-making."

"Perhaps," replied the man he had appealed to, "but will it be money-making?"—Boston Transcript.

FOR SALE—36 acres 2 miles south of the south-west corner of Twin Falls, four roomed house, old barn, deep well water piped into the house and yard; electric lights; this property must be sold at once; there is a debt of \$200 against the land, payable \$700 per year, next payment due December 15, 1918; look this property over and make us an offer; terms cash except \$200; will consider trade with part cash. Write or see O. D. Thomas & Co., exclusive agents.

L. R. HAZEL TO THE RESCUE OF HICKLER'S CASH STORE

The whole stock, if necessary, to be turned into cash in the next 14 days

We bought too much, and now are paying the penalty of our mistake—Creditors are demanding their money—A Crisis confronts us—Necessity is lawless. \$10,000 stock must be closed out immediately. Losses shall not stand in the way, and all the stock is doomed to go at the most sensational prices that ever staggered the people of Twin Falls. Money! Money! Money! is our cry. WE MUST HAVE MONEY!

We Are Forced!

The orders are imperative. We realize that only bargains of the most sensational kind can accomplish our object, and for 14 days L. R. Hazel will cut and slash prices to a point that must stir the whole city and country to a fever heat of buying excitement. Orders have come to me to "Pass Up the Profits." Forget the cost—just sell the goods. Come to The Hickler's Cash Store Friday morning, Jan. 18th, or as soon as you can, and see how I keep my word.—L. R. Hazel, Merchant Adjuster.
