COMPLETES TASK SELECTING LANDS TO BE CUT OUT

DESIGNATES AREA SUGGESTED TO BE RETAINED IN SALMON TRACT

REPORTS TO STATE LAND BOARD AFTER THREE MONTHS' INVESTIGATIONS—CONSERVATION OF LOSS STILL UNSETTLED

Recommendations of W. C. Whiffen, appraiser, approved by W. C. Wells, Carey act engineer of the department of the interior, as to the lands to be retained within the Salmon river tract when it shall be reduced in area from 46,000 to 35,000 acres, were laid before the state land board Friday.

Solves Water Distribution
Whiffen has been working on the tract for three months past. He has made selections which he suggested on Friday should be eliminated for the purpose of giving the settlers who remain sufficient water for irrigation purposes. The decision to reduce the area of the project was reached by the land board following hearings conducted at Hollister last fall by Clay E. Hall, chief commissioner of the United States general land office.

Not more than 20 settlers now living on the tract will be forced to surrender their homesteads, Whiffen stated, but others who took up lands and bought water rights will lose their investments. He selected 30,025 acres of Carey act lands embraced in 810 tracts, and 5974 of other irrigable lands now privately owned, and asked that they be held intact within the project.

No means have yet been determined upon for reimbursing the settlers who will lose their lands in the two projects, it is announced. The land board has discussed the problem for some time but no action has been taken.

Appraiser's Report
Following is Whiffen's report which accompanied detailed descriptions and a map showing the lands retained, copies of which have been received by Judge Jas. B. Bothwell, attorney for the Salmon River Settlers' association: Idaho State Land Board, Boise, Idaho.

Your Honorable Body:
In compliance with an order made by you on the 26th day of October, 1917, that I should proceed to investigate the Twin Falls-Salmon tract and select such Carey lands, which together with lands already patented and state lands to be sold, would make a total acreage of not to exceed 35,000 acres, or as

(Continued on Page 2)

CALL FOR TWO PLANS FOR HANSEN BRIDGE

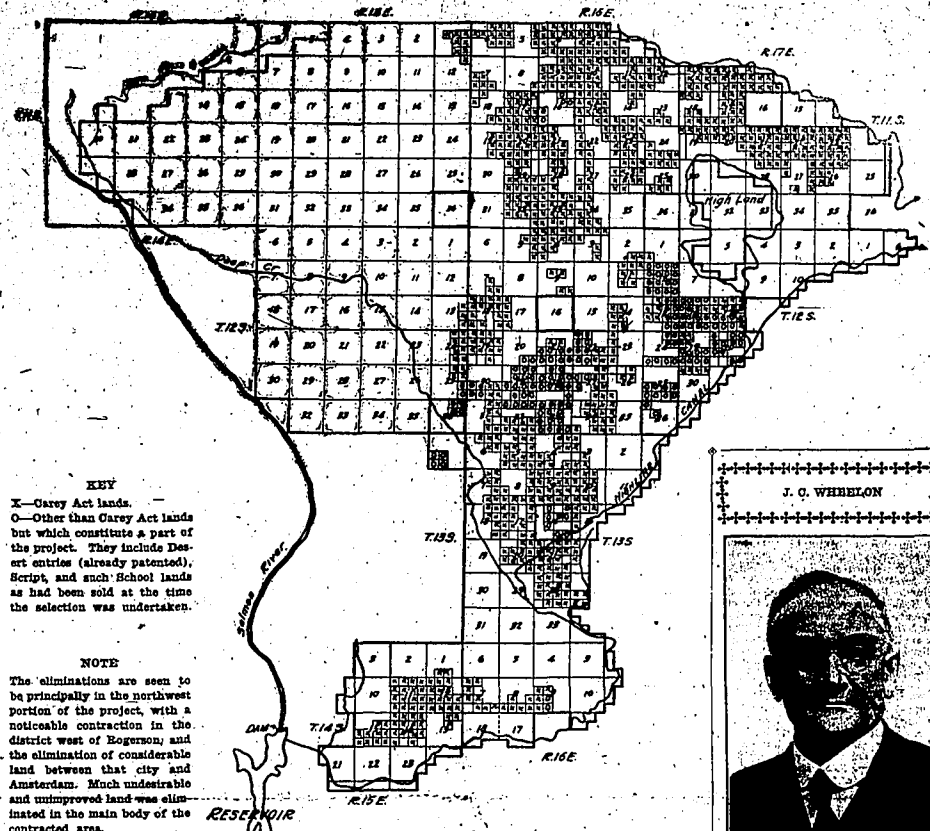

Commissioners Arrange to Call for Alternative Bids on the Construction

Deciding that two plans are better than one, the commissioners of the Hillsdale highway district and of Twin Falls county, met at a joint meeting here last week, instructed the representative of the Missouri Valley Bridge & Iron company, who met with them, to submit plans with plans for the company for the suspension bridge across Snake river near Hansen. Previously the board had accepted the plans of the Midland Bridge company, Kansas City, for this span. Alternative bids on both plans, to be made within 10 days, will be made. Completion of the second set of plans will require about two weeks' time, it is estimated, and as soon as they are finished and approved the call for bids will be made. The plans of the Missouri Valley company are to provide for a bridge of heavier construction than those of the Midland company, the latter providing for 10 pounds load per square foot, while the former is to provide for 15 pounds per square foot. The Midland company representative stated that his plans had been drawn for a bridge which could be built for the \$30,000 available from bond issues and legislative appropriation for the purpose.

FIFTEEN GERMAN ALIENS REGISTERED IN THIS CITY

Records at the postoffice and at the city clerk's office showed that 15 German residents of Twin Falls and vicinity had registered in compliance with the enemy alien registration act of the ten days' registration period Wednesday night. Although the terms of the act were contained here before the war, the act had been drawn for a bridge which could be built for the \$30,000 available from bond issues and legislative appropriation for the purpose.

MAP SHOWING LANDS PROPOSED TO BE RETAINED IN SALMON RIVER PROJECT

LANDS INDICATED WERE SELECTED BY C. W. WHIFFEN, SPECIAL AGENT OF THE STATE LAND BOARD, AND APPROVED BY C. M. WELLS OF THE UNITED STATES GENERAL LAND OFFICE, AS THE AREA RECOMMENDED FOR PATENT UNDER THE RECENT DECISION OF UNITED STATES LAND COMMISSIONER TALLMAN TO PATENT 35,000 IRRIGABLE ACRES OF THE SALMON PROJECT WHICH AT PRESENT EMBRACES APPROXIMATELY 60,000 ACRES—MR. WHIFFEN'S REPORT TO THE LAND BOARD APPEARS ELSEWHERE IN THIS ISSUE.

I. W. W. WANTED BY GOVERNMENT TAKEN AT BUHL

MacGREGOR ("SCOTTY") COLE UNDER FEDERAL INDICTMENT IN EAST

ARREST MADE ON INSTRUCTIONS FROM SPECIAL AGENT OF DEPARTMENT OF JUSTICE AT SALT LAKE—ADMITS ACTIVITY

Under federal indictment in Chicago because of his alleged activities as an I. W. W. organizer, MacGregor ("Scotty") Cole, employed for some weeks past on a ditch crew by the Twin Falls Canal company, was arrested Saturday at Buhl and lodged in jail at Twin Falls in accordance with telegraphic instructions from Special Agent Leon Bone of the department of justice, received Friday evening by Sheriff Kendall.

The arrest was made by Marshal Baymiller at Buhl, with whom Sheriff Kendall communicated immediately upon receiving the instructions from the special agent at Salt Lake. In a statement to Sheriff Kendall, Cole said that he presumed the charge against him was one based on his activities as a member and organizer of the I. W. W., and stated that he had been active in the region of Bingham, Utah, during the past summer and fall.

PETERS LEAVING

John L. Peters, a farmer in the Amsterdam vicinity, is planning on leaving for the east, and will sail, February 20, at his ranch 1 1/2 miles south of Amsterdam, his stock and farm implements. Dunn and VanAusdela are his antineers.

TWIN FALLS UNIT NOW SOMEWHERE IN FRANCE

Headquarters company of the One Hundred Forty-sixth field artillery regiment, Forty-first division, composed of members of the units that were headquarters company and Dr. company of the Idaho regiment and commanded by Captain P. W. McRoberts of Twin Falls, has crossed the channel from Winchester, England, and is now stationed "somewhere in France," according to a letter of Captain McRoberts under date of January 10, received here by Mrs. McRoberts.

LOCAL MEN GET JUDGEMENT

A jury in district court here Tuesday in the case of E. L. Ashton and J. C. Buehcamp against the Utah-Idaho Electric company, returned a verdict awarding judgment in the sum of \$400.00 to the plaintiffs, who allege breach of agreement whereby they were to erect, in the spring of 1917, a building in Twin Falls for the occupancy of the defendant.

EXONERATES VIOLINIST OF SLOAKER CHARGE

Neil Schettler Is Released from Custody on Advice from Department of Justice Agent

Held in jail here for 60 hours on suspicion of city police officers that he had fraudulently evaded registration for the draft, Neil Schettler, well known violinist and resident of Twin Falls for about two years past, was released from custody Tuesday upon receipt by Sheriff F. M. Kendall of word from Leon Bone, special agent of the department of justice at Salt Lake, that he would not be 21 years of age until August next. Schettler's assertions relative to his liability under the draft are said to have been conflicting and to have aroused the suspicions of the officers, with the result that he was placed under arrest Saturday night.

FILER, PETITIONS FOR CREATION OF ROAD DISTRICT

OVER 200 PERSONS OWNING 20,000 ACRES ASK COMMISSIONERS TO ACT

BUSINESS MEN AND FARMERS TAKE STEP WITH VIEW TO SECURING IMMEDIATE IMPROVEMENT OF HIGHWAYS

A new factor is introduced into the good roads movement in Twin Falls county in the action taken at a meeting Saturday of about 50 business men and farmers of Filer and vicinity looking toward the formation of the Filer highway district to include approximately 50,000 acres of land east from the east boundary of the Buhl highway district to the half-section line running one-half mile east of Curry and south from Snake river to the half-section line one-half mile north of Berger.

Landowners Subscribe

A petition addressed to the county commissioners asking them to call an election within the boundaries of the proposed district for the purpose of submitting the question of the creation of the district to the voters affected by its boundaries, prepared by the owners of 20,000 acres of land embraced in the proposed district, and accompanied by a map showing its boundaries, prepared by County Engineer James A. Bybee at the request of those active in the promotion of the district, was submitted to the county commissioners Wednesday. No action on the petition has yet been taken.

ROTARIANS FORM AN ORGANIZATION IN TWIN FALLS

DELEGATION HEADED BY DISTRICT GOVERNOR INSTALLS LOCAL CLUB

JUDGE WALTERS ELECTED PRESIDENT OF ORGANIZATION OF MEN HAILED AS CONTRIBUTION TO DEVELOPMENT

Hailed as a permanent contribution to the economic and social development of this district, the Twin Falls Rotary club, affiliated with the international organization, was installed on Tuesday with 25 charter members from among the business men of the city, by a delegation of 16 members of the Salt Lake club, headed by George O. Belt, manager of the Hotel Utah, and district governor of the Rotarians organization.

Officers Installed

The officers of the Twin Falls club, were installed as follows: President, Judge E. A. Walters; vice-president, J. Eldridge; secretary, Stuart H. Taylor. The installation took place in connection with a dinner for members of the local organization and the visiting delegation served at the Rogerson cafe. The session began at 1:30 o'clock and continued until evening. Speakers on this occasion, besides the district governor, included Joel Priest, industrial agent of the Oregon Short Line and a member of the Boise club; F. D. Richmond, president of the Salt Lake Commercial club; Ned Harding, secretary of the Salt Lake Rotary club; G. O. Wright and Charles Tysing, from among the visiting delegates.

Other members of the delegation

were H. V. Platt, vice-president and general manager of the Oregon Short Line; John B. Edgill, C. E. Corcoran, John Gardner, D. G. Bolton, Max Wall, Max Oppenheimer, C. B. Hawley, C. A. Felt, J. C. Jones and William G. Lambert.

Fourth Idaho Club

"The visiting Rotarians" arrived here in a private car, coming from Pocatello and Idaho Falls, where they installed clubs. The Twin Falls club is the fourth in the state, one having been installed in Boise about a year ago.

TWIN FALLS BOYS NOT ABOARD THE TUSCANIA

Word of Safe Arrival at Foreign Port of Men Left at Halifax Received Here

A sense of genuine relief to relatives and friends here is brought by word received Wednesday of the safe arrival at a foreign port of some of the Twin Falls boys, who were left at Halifax for treatment by German submarine attack that carried the Twin Falls unit abroad. Fear had existed, that they were aboard the Tuscania, which was sunk last week by German submarine off the coast of Ireland.

Cards were received here Wednesday from some of the boys of County High School, James A. Bybee; Vernon Ayers, son of George Ayers, and Robert Jewett, son of J. F. Jewett, who were among the boys on the Tuscania. The captain sent by Jewett bears the postmark of a French office.

TWIN FALLS BOYS UNDER QUARANTINE

Restrictions Placed on Detachments at Newport News—No Local Men Sick

Newport News, Virginia, barracks are under quarantine for measles, scarlet fever, mumps and mumps, but Twin Falls boys stationed there in the contingent detailed to care for the live stock of the Forty-first division, of which they are members, are not affected by disease, according to word received here from Lieutenant Arvin D. Hound, who is in charge of the detachment. The Forty-fourth artillery regiment on duty there.

PREDICTS REGULATION OF IMPLEMENT PRICES

Governmental price regulation, so far as it affects farmers, is not to be all one-sided, according to Dr. J. A. Brock, of Washington, D. C., who is secretary of the national food administration, who announced here Friday that the Hoover committee is investigating the farm implements business with a view to fixing prices that will permit of a reasonable profit. Enforcement of the regulation that is expected as a result is to be secured by allowing no producer to be exempted from the law. The margin of profit to be allowed will be determined by President Wilson, Dr. Brock stated.

YOUTHFUL OFFENDER PAROLED

George Stevenson of Burley, aged 19, who pleaded guilty in district court here last week to charge of forgery, was paroled Thursday by District Judge W. A. Babcock in consideration of the youth of the offender and statement of the boy's father to the effect that he had not previously been in trouble. Stevenson confessed forging the name of L. P. Larsen, prominent stockman at Burley, on a check on the First National bank in the sum of \$8.35 for the purpose of defrauding H. M. Holler, proprietor of a local hotel.

TWIN FALLS BOYS SLEEP BY GUNS ON WAY ACROSS

SERGEANT A. E. WENZEL GIVES SIDELIGHTS ON TROOP SHIP VOYAGE

MAINED AUXILIARY CREW FOR DEFENSE AGAINST SUBMARINES —LIFTS BOAT DRILL CONDUCTED DAILY—GRUBBLING IS FASH

Interesting sidelights on the passage of headquarters company of the One Hundred Forty-Sixth field artillery regiment, the unit composed of Twin Falls men, are given in a letter received by Mr. and Mrs. John Wenzel from their son, Sergeant Arthur E. Wenzel.

Under date of January 8, and with indication as to the place from which the letter was written, although it is known to be somewhere in England, Sergeant Wenzel says:

"We arrived here yesterday, feeling fine after a pleasant voyage. I was detailed to head the auxiliary gun crew on the six inch gun on the boat and had to choose able privates from headquarters company. They were: Anderson, Piteau, Clarence Elliott, Barney Hart, Hafer, Dwight, Vernon Dobbs, and myself. These men were drilled during the last four nights on the way over beside the gun ready for action.

Picks Life Boat Crew

"I also had to pick the crew for our lifeboat and rowed starboard bow. Harry Hart was at port bow, Ralph and Clarence Elliott had both 2's, and Shibuske port stroke. We had boat drill twice a day with 54 men to a boat.

"Outside the nine men mentioned above, only a dozen men in the company were not in the boat. We had a life rough sea for a few days, but for December it was very good.

"The chief gunner under whom we were, told me the One Hundred Sixty-fourth was the greatest bunch of fellows he had ever seen. The bunch has all quit grubbling and is taking everything as it comes. The stuff we eat here is plain, but it tastes good, and we feel fine.

"The rats on board the ship were our chief plague. I had one that came up every time I worked the buzzer, and I called it 'Tony.' We had a lot of fun out of him.

Tobacco Goes High

"Tobacco is high here. Bull Durham costs 35 cents a sack, and cigarettes are one and one-half cents each for the cheapest. We expect to cut them out as soon as possible unless we can get American cigarettes.

"The place at which we are stationed is one of the oldest in England, and we have received no mail since December 24."

WAIVES PRELIMINARY

A. L. Riser, charged by his wife, Margaret Riser, with a statutory offense when arrested Monday before Judge Duval in probate court, waived preliminary examination and was admitted to bond in the sum of \$500 to secure his appearance for trial in district court. Bond has not been furnished.

COMPLETES TASK SELECTING LANDS

(Continued from Page 1.)

Commissioner Tallman has suggested, 15,000 acres of high land, the understanding that this contract should be worked out so as to eliminate the west lateral, I went on to this tract and the following is my report on the same:

I made a general survey of the entire tract in order to familiarize myself as to the general scheme of the system, as to main canal, water sheds and laterals and plan of distribution, and during a greater part of the month of November and December I made a careful examination of the lands of this tract. This segregation has a length north and south of twenty-one miles and a maximum width at the north or lower side of about the same distance and contains lands of eleven different townships with altitude ranging from 4000 to 5000 feet.

First Lands to Go.
The "A" canal waters and upper or southern part of the tract, land around Rogersden, while the main canal takes a northeasterly course from the reservoir and near Hollister divides, the east branch being No. 1 canal and the west branch being No. 2 canal, and it is the latter to which Commissioner Tallman refers as the "west lateral." A very little investigation will quickly convince one that born on the west side under the No. 2 canal would be the first lands to be cut out. The character of the land, lack of settlement, long distance, seepage and evaporation makes the operation of this canal uneconomical to the system.

Before commencing field work, no invitation was extended to G. M. Hall, representative of the bondholders, that his people participate in making this selection, but he in their behalf declined to take part although he assured me that his office and its records would be at all times at my service, and for nearly three months while on this tract, Mr. Hall and others of his office, Harry Dietrich, Fred Bates, Geo. Grover and J. C. Porterfield extended to me every courtesy and all favors asked of them were quickly and cheerfully given. Also at the same time a representative meeting of the water users was held in the office of Hollister and an invitation was extended to them to designate one of their number to assist me in this selection, but he in their behalf declined to do so, but on the contrary it was the well-nigh unanimous opinion that I should proceed alone. I am glad to report that during the last 10 days in the field the best treatment was given me by the settlers. R. A. Carter, president, and Ray Beauchamp, secretary, and the other members of the water users association accorded me such fair treatment and a universal good will of the people generally has convinced me that they are only anxious for a solution and certainly that much is their due.

Federal Agent Approves

Guided by recommendations of the state engineer and those of your board, I selected a temporary list of lands and made a preliminary selection of lands on December 22. On January 15, 1918, C. M. Wells, Carey land agent of the interior department, joined me and we went again over the entire tract. Mr. Wells having had long and varied experience in land matters and the fact that I had preceded him for several weeks on this tract, made the last examination quite thorough indeed, and I therefore do not hesitate to recommend to this report as Carey land to which patent should issue.

In the economy of things, I found at times that it was necessary to exclude good land with fair improvements while perhaps poorer lands with less improvements were included; but in making such selection, I had in mind the elimination of laterals, the proximity of main canals, railroad, towns, schools, etc., also the solidarity of land to be retained, soil condition, rock, and both water and air drainage. You will note on the accompanying map that the segregation yet lacks compactness. The very nature of the land condition here accounts for this. In this upper Snake river land for countless years, the upriver winds have carried across the soil from west slopes, sand dunes and south-west slopes to the less side slopes, leaving this soil and exposed rocks on the former and deep soil on the latter. This is the reason, and the fact that considerable land of the segregation lies above gravity water, is another why the tract appears so spotted.

Advantages of Out

Since the actual irrigable acres are to be counted as part of the 35,000, the method herein adopted brings a much larger acreage to patent and at the same time the best land only is watered. Mr. Wells was in full accord and in

DOROTHY DALTON--INCE STAR--IN "LOVE LETTERS"

FEATURE ON THE IDAHO PROGRAM FOR THURSDAY, FRIDAY, SATURDAY

As Ellen Harland, young wife of a District Attorney, Dorothy Dalton in her next picture, "Love Letters," to be shown at the Idaho Thursday, Friday and Saturday, makes a determined struggle for her husband's confidence. In her girlhood she had written indiscreet letters to Raymond Moreland, who poses as a teacher of erotic Eastern creeds, but is in reality a cad and a villain of the deepest dye.

How she sacrifices herself to obtain these letters, only to fail and be accused of Moreland's murder, and how her husband's assistant, also an old lover of hers, clears her, make a gripping photoplay.

THOS. H. INCE PRODUCTION

Thomas H. Ince, the noted producer of "The Wrath of the Gods," "The Coward," "Civilization," and others, supervised the direction of "Love Letters," written by Shannon Fife. Mr. Ince, while a comparatively young man, has had one of the most remarkable careers of filmdom and has brought many a star to favor, including Dorothy Dalton, Enid Bennett and Charles Ray, all of whom are at present associated with him in Paramount photoplays.

CUTS AND FLASHES

In "The Eternal Temptress," beautiful Anna Cavalieri makes her screen debut under the management of Paramount Pictures Corporation. The famous diva is tremendously enthusiastic about the motion picture work and declares she greatly prefers it to singing. With her quaint French accent she protested the other day that pictures are her "what coe it you any--fad."

For the first time since she entered the White House, Mrs. Woodrow Wilson, wife of the president, attended a motion picture theatre in Washington a few days ago, when she saw Douglas Fairbanks in his latest Arcturaf picture, "A Modern Musketeer." The production at Lewis's Columbia theatre necessitated the employment of a big squad of special police to handle the crowd which stormed the theatre and proclaimed it the best picture Fairbanks has ever appeared in. Mrs. Wilson expressed herself as delighted with the picture.

Ann Pennington has begun work

on her new Paramount picture, "Calvary Alley." This picture is an adaptation of Alice Keegan Rice's book of the same name, one of Mr. Rice's best sellers, along with "Lovey Mary," "Mrs. Wiggs of the Cabbage Patch," "Mr. Opp," "Gibby" and a number of others. Chas. Gibby is directing Miss Pennington. Concerning "Calvary Alley" Hugh Ford, Paramount general director, in New York, said: "We have got a piece here that is better suited to Miss Pennington than any in which she has appeared. It required considerable search to get something with just the proper angle for Miss Pennington's elusive and magnetic personality, and we feel that 'Calvary Alley' is just the story that suits. I predict a remarkably entertaining picture from it." Miss Pennington is busy these days. Her work in the musical comedy in which she is now appearing is hailed by all as a genuine delight. It is believed she will bring the same spirit into her new portrayal in "Calvary Alley."

On the completion of "Amarilly of Clothes Line Alley," the next Arcturaf picture starring Mary Pickford, Marshall Neilan, her director,

will make one more film in which she will star and then go East to direct a Paramount or Arcturaf star in New York. William D. Taylor, upon Mr. Neilan's departure, will undertake the direction of the new Mary Pickford production for Arcturaf. Marshall Neilan is one of the best known directors in the country. He has directed many Paramount and Arcturaf pictures, including "Those Without Sin," "The Bottle Imp," starring Senoue Hayakawa; "The Girl at Home," with Vivian Martin; "Preckles," starring Jack Pickford

and Louise Huff; "The Jaguar's Claw," with Hayakawa--all released by Paramount; and "Roberta of Sunnybrook Farm" and "The Little Princess," starring Mary Pickford and released by Arcturaf.

William D. Taylor is also prominent in directorial circles and numbers among his pictures "Big Timber," with Wallace Reid and Kathryn Williams; "The Yarns," with Pickford and Huff; "Jack and Jill" with the same stars; "Tom Sawyer" and "Huck and Finn," the two Jack Pickford features, all Paramount releases.

WALLACE REID in Rimpock Jones
A Paramount Picture

FAIRBANKS, HART, REID--WHICH? READ THIS!

"Why Wallace Reid was given the honor of starring in this picture does not appear on the surface. Not that he is not fully equipped to get away in good shape with all the requirements of the role, but simply because the story would have made a corking one for Bill Hart handled as straight drama, as it now is, or on the other hand, it might have been a vehicle for Doug Fairbanks had it been tackled from the comedy drama standpoint. But Wally does manage to put the title role of Rimpock Jones' over effectively and it certainly places him at the top of the heap of the good-looking matinee idol type of leading men now in pictures. Good, how the gals will rave over him in this one and sit on the edge of their seats until he manages to put the final wallop over on the villain and clasp the heroine in his arms. Wally does all of that and so they will go away satisfied."

—Wid Photoplay Review.

will make one more film in which she will star and then go East to direct a Paramount or Arcturaf star in New York.

William D. Taylor, upon Mr. Neilan's departure, will undertake the direction of the new Mary Pickford production for Arcturaf. Marshall Neilan is one of the best known directors in the country. **TAKES AMERICAN HONORS
IN INTERNATIONAL SHOOT**

In a competitive shoot between English, French, Canadian and American forces recently held in France, the honors for America went to Lieutenant Homer Youngs of Twin Falls. He made 47 out of a possible 48 points, his nearest competitor, scoring 44 points. Lieutenant Youngs has been placed in charge of an intelligence squad whose duty is to patrol "no man's land" at the battle front.

**SELLS INTEREST IN
UNDETAKEING FIRM**

Dr. O. A. Emes to Resume Practice of Medicine—J. E. Dewitt Is His Successor

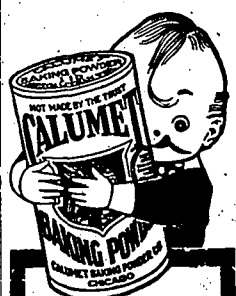

Sale to J. E. Dewitt of Dr. O. A. Emes' one-half interest in the Grossman & Emes undertaking establishment is announced. Possession will be given on March 15, and the firm will be known thereafter by the name of Grossman & Dewitt. Dr. Emes retired from the undertaking business, in which he has been associated here with E. J. Grossman for the past two and one-half years, to resume the practice of medicine, in which he was engaged for more than 15 years. It is his purpose to take post-graduate work at the Polyclinic institute in Chicago and at the Mayo Brothers hospital in Rochester, Minnesota. He expects thereafter to take examinations at Kansas City for admission into the medical reserve corps of the army.

Mr. Dewitt, who came to Idaho about a year ago from Iowa, and who has been a resident of Twin Falls since last July, is an experienced undertaker and embalmer, having engaged in that business for many years in Iowa, and holding licenses in that state and in Idaho. Recently Dr. Dewitt entered into a partnership of Mr. Dewitt with W. B. Amshary for the purpose of opening a new undertaking establishment here was announced. Dr. Dewitt's acceptance of the interest of Dr. Emes automatically dissolves that partnership, and Mr. Amshary has become associated with the Irigoin-Lantz company.

Does the idea of war breed brain alarm you?

A CHARMING affair of the week was the dinner given on Tuesday evening at the home of Mrs. Ernest White by the seven members of the Thursday Bridge club having low scores in the series. The guests were seated at five tables and after the dinner the evening was spent at 500. The prizes for high score, thrift stamps, were won by Mrs. Putnam and Mrs. Tensdale, the latter a guest of the club. The following were present: Messrs. and Mesdames Bowberry, Cox, Kars, Conover, White, Puttier, Moore, Crow, Putnam, Miss Cashion, Mrs. Mickelwait and Miss Tensdale.

On Tuesday afternoon at the invitation of Superintendent Bliss the Twentieth Century club met in the high school auditorium. The high school orchestra and glee clubs rendered several selections during the afternoon and the domestic science department served refreshments. Tickets for the play, "The Queen of Hearts," which will be given in the high school auditorium February 14, are now on sale. The proceeds will be used for the war emergency fund.

On Friday evening Miss Marjorie Crow was hostess at a charming affair.

pointed seven o'clock dinner in honor of her seventeenth birthday. Following the dinner the party attended the basketball game at the high school and later the dance given by the Junior Improvement club at Parish hall. Covers were laid for the Misses Hazel Hallman, Margaret Bennett, Ruth Beuchamp, and the Messrs. Edmund Zanger, Arthur Bockwitz and Ralph Ledcom.

Mrs. Louis Rasmussen and Mrs. Frank Murray entertained at a charming valentine party on Tuesday afternoon at the Rasmussen bungalow. The home was charmingly decorated with cupids and hearts and red and white castrations. The color scheme was carried out in the menu also. Bridge occupied the afternoon and Mrs. David Glander and Mrs. Ormsby was first and second prizes. The following guests enjoyed the delightful affair: Mesdames Herman Poles, Duval, A. B. Colwell, Ernest White, Laverling, Morse, Hance, Flower, Sheehan, Girdler, Dwight, Leopold, Huston, Ormsby, Logan and Frank Magel.

The annual dinner given by the Country Woman's club was served at the spacious Miller home on Thursday. Entertaining talks were given by the Messrs. Chamberlain and Jester. Forty-five persons were in attendance.

Mrs. Charles Butler was hostess at a delightfully appointed one o'clock dinner on Thursday in honor of Rev. Samuel C. Benson. A patriotic color scheme was artistically carried out. The table was centered with a crystal candelabra of red and blue candles. Suspended over this was a group of tiny flags. Place cards were miniature drums and flags. Covers were laid for Rev. Benson, Mr. and Mrs. A. R. Ormsdell, Mr. and Mrs. L. L. Beckenridge, Mr. and Mrs. Butler and Miss Jessie Warring-ton.

Mrs. W. J. Young entertained informally on Wednesday afternoon, honoring Mrs. F. C. Love, Mr. Young's sister, of Denver, who has spent the past six weeks in Twin Falls and will leave next week for her home.

The Messrs. Erma and Mary Johnson have issued invitations for Wednesday night.

**D. A. R. CHAPTER MOURNS
DEATH OF MISS POWERS**

Resolutions on the death of our beloved member, Elizabeth B. Powers, who entered into Rest January 11, 1918, adopted by Twin Falls Chapter, Daughters of the American Revolution, are as follows:

Whereas, It has pleased our Heavenly Father to call unto Himself our beloved member and patriotic comrade, and Whereas, while we mourn the passing of a true and loyal soul, whose highest aim in life was duty and service; we mourn not as those without hope, knowing "There is no death; what seems so is transition";

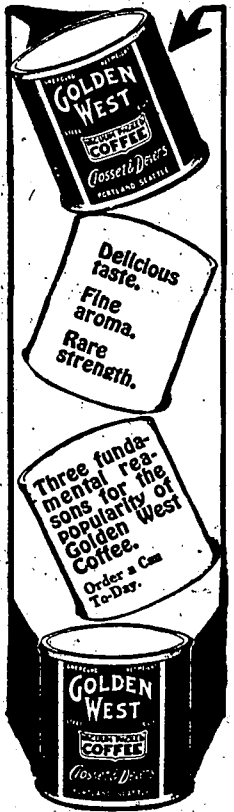

Therefore, be it resolved, that in the passing of Elizabeth Powers, the Twin Falls chapter of the Daughters of the American Revolution feel keenly the first break in our little circle, and mourn with the bereaved father and sister, to whom we extend our sincere sympathy.

Resolved, that these expressions of grief and sympathy be tendered to the family, and a copy inscribed on the pages of the Secretary's book and a memorial page entered in our new year book.

ELIZABETH B. AULT,
Chairman Resolutions Com.
LENA B. YOUNG,
AUGUSTA L. PACKARD.

REPUBLICANS DISCUSS NON-PARTISAN LEAGUE

M. J. SWANLEY AND OTHERS DE-
FINED MEMBERSHIP IN TALKS
BEFORE STATE COMMITTEE

B. D. Taylor of Boise is chosen chair-
man as successor to Evan Evans--
S. L. Hodgins presides at the opening
session of committee

The progress made by the Non-Par-
tisan league in the state was a topic ac-
cording much attention at the meeting of
the Republican state central committee
in Boise Monday, at which B. D. Taylor
of Boise was unanimously elected chair-
man to succeed Evan Evans of Grange-
ville, resigned.

At the evening meeting a number of
persons took occasion to speak briefly
on the subject of the league, notably
M. J. Swanley of Twin Falls, B. F.
Shawhan and H. C. Baldrige. These
confined their remarks to the personnel
of the membership rather than to the
league and all were of the opinion that
the body constituted a feature in state
politics to be reckoned with.

Shad L. Hodgins of Twin Falls, vice-
chairman of the committee, presided in
the absence of Evan Evans, and held
the chair until he relinquished it at
the night session to Chairman Taylor.

The new chairman served two terms
as state auditor, being first elected in
1908 and re-elected in 1910. For sev-
eral years he was engaged in the news-
paper business at Bonner's Ferry, where
he published the Herald. He was a
member of the legislature in 1907.

CLUB MEETS IN OPEN SESSION IN HIGH SCHOOL

An open meeting of the Twentieth
Century club, held Tuesday afternoon
in the high school auditorium, was ad-
dressed by Rev. O. T. Anderson on a
patriotic subject. Music for the oc-
casion was furnished by the high school
girls' glee club directed by Miss Simp-
son, and by the high school band of 30
pieces under direction of R. J. Linder.
The domestic science department, under
supervision of Miss Young, served light
refreshments. The grade schools were
dismissed at 2:45 o'clock and the high
school at 3 o'clock to permit of the
teachers attending and meeting with
the club members.

BREEDING EWES FOR SALE

SAYS NON-PARTISAN LEAGUE WILL RULE

Prediction of Farmers' Political Ascen-
dancy Made by Leader
at Buhl

(From the Buhl Herald)
BUHL--There will be a meeting of
the Non-Partisan League of the west
end of the county in the Stone amuse-
ment hall on Saturday, February 16,
at 2 p. m., when Ray McCall, secretary
of the National Non-Partisan League,
will give a lecture on the principles of
the growing movement.
The country around Buhl is already
organized with ninety-five per cent of
the farmers, and all of the farmers are
after this remaining five per cent,"
said F. J. Mahe, organizer of the Non-
Partisan League for Twin Falls and
Eller, on Monday when he and Elmer
Ames, a farmer living at Eller, called
at the Herald office to make the an-
nouncement of the meeting of February
16.

"I tell you the Non-Partisan League
will sweep this whole state," continued
Mr. Mahe, "and it will carry in Twin
Falls county by an overwhelming ma-
jority. The movement is growing by
leaps and bounds, and the farmers will
control the politics of the state at the
coming election."

Fred Wicawer purchased the Sam
Carson place to north of Buhl last week
and moved there from the Clover tract.
He purchased from Oscar Christian, who
in turn bought the Wicawer farm on
the Clover tract.

Several cars of hay and potatoes are
being loaded at the yards this week.
From the looks of the yard there is no
doubt a hay famine in Buhl, there is
one stack of alfalfa hay nearly 100
feet long and nearly 15 feet high.

MAXWELL AGAIN BREAKS RECORD

Maxwell regained its coveted Mount
Wilson laurels recently, winning it
from a high powered twelve cylinder
car when Walter Lord sent his peppery
four-cylinder car coasting up the win-
ding, twisting mountain road in the re-
cord-smashing time of 26 minutes 50.4
seconds, clipping three seconds off a
former mark established three weeks ago.

SAYS EXECUTION ON JUDGMENT ERRONEOUS

W. H. Long, against whom judgment
in favor of G. Sommers & Company was
entered in district court here is not
William H. Long, Jr., the owner of cer-
tain lands in this county against which
a lien was executed and which are to be
sold to satisfy such judgment, accord-
ing to allegations set up in an action
filed in district court this week by the
latter against G. Sommers & Company
and Frank M. Kendall, as sheriff. The
plaintiff claims erroneous levy against
his property and asks the court to issue
a decree quieting his title to the lands
in question and an order enjoining pro-
ceeding with the sale.
Money to loan on improved farms.

LINCOLN'S BIRTHDAY CELEBRATED HERE

METHODIST CHURCH AUDITORIUM
IS CROWDED TO ITS CAPACITY
ON THAT OCCASION

Local Speakers Discuss Four Phases of
Emancipator's Life and Character--
Musical Program Under Direction of
Charles Butler

The anniversary of Lincoln's birth-
day was celebrated Tuesday evening
with a program in the Methodist church
in a more elaborate manner than ever
before in Twin Falls. The auditorium,
seating 1200, was filled to capacity.
The music, a special feature, was un-
der the direction of Charles Butler.
The Methodist choir of 25 voices with
a large orchestra, directed by Dr. R. A.
Parrott, and also 50 girls of the high
school glee club, under the leadership
of Miss Simpson, furnished patriotic
music.

Following the reading of Lincoln's
Gettysburg address by Mrs. Carl Mar-
shall, short addresses on each of four
phases of Lincoln's character were de-
livered as follows: "Lincoln, the Law-
yer," Judge James R. Bothwell; "Lin-
coln, the Patriot," C. L. Longley; "Lin-
coln, the Statesman," Judge E. A. Wal-
ters; "Lincoln, the Christian," Dr. A.
H. Brand.

Mayor F. F. Bracken presided. The
G. A. R. Ladies of the G. A. R. and
county council of defense attended as
organizations.

The auditorium was appropriately
decorated for the occasion by a com-
mittee composed of the following mem-
bers of the local Red Cross chapter:
Mrs. J. R. Crocker, Mrs. W. H. Drigh-
ton, Mrs. W. Wilson, Mrs. Harry Alex-
ander, Mrs. E. L. MacVicar, Mrs. C. J.
Schroeder, Mrs. R. A. Baker, Mrs. A.
Gulbert.

TEACHERS COME TO AID OF DRAFT BOARD

Volunteer Services in the Preparation
of Vocational Records of
Registrants

In their work of preparing occupa-
tional records showing the diverse in-
dustrial capabilities of men registered
in this county for the military draft,
members of the local board, have been
assisted evenings during the week begin-
ning Friday last by volunteers from
among the teachers of the city schools.
Out of 70 teachers, 60 volunteered for
this service and 27 were put to work
Friday morning. The information com-
plied is to be transmitted to the war
department to serve as a guide in call-
ing specially trained men into the mil-
itary service outside the general draft
calls.

"WATCH YOUR STEP" COMING TO LAVERING

Among the list of notable attractions
booked in this city for the coming sea-
son, there is perhaps none that attracts
more interest than "Watch Your Step,"
entitled "Watch Your Step," which is
booked for Thursday, February 21, at
the Lavington theater.
"Watch Your Step" is a musical
comedy overflowing with ragtime songs
and dances which last season scored
what was unquestionably the biggest
success of all the new musical produc-
tions. Last year it was played in only
a few cities outside of New York, there-
fore the fact that it is to be seen in this
city is probably one of the most impor-
tant theatrical announcements that will
be made by the local management this
year.

Lunte, Steve Postelwitz, John H. Rich-
ardson, Charles L. Salter, William J.
Sternes, Frederick E. Tachan, Floyd E.
Osborne, Maynard W. Johnson, Frank-
lin J. Johnson, John Arvid Johnson,
William Lutz, Edgar H. Olmstead, Rol-
and Young.

DEMAND FOR CARS GROWING BRISKER

The Gooding Motor company reports
the demand for cars has been growing
brisker since the first of February.
The company now anticipates that sales
of cars this spring, of all grades, will
be greater than ever before.
As an indication of the increasing
demand the company calls attention to
the following sales, made during the
past ten days:
L. C. Harvey, Twin Falls, 5-passen-
ger Paige; Dr. H. H. Carwell, Twin
Falls, enclosed passenger Paige; Little
C. McPherson, Filer, and A. H. Corbett,
Twin Falls, 490 Chevrolet; Grand Un-
ited Tea company, Twin Falls, a Vim
truck.

Other car sales reported: To Dan
Nelson, Kimberly; Herman McDaniel,
Filer; O. Hansen and Nels Marten-
sen, Twin Falls.

NOTICE

All persons driving or operating au-
tomobiles on the public highways in
Twin Falls county must make applica-
tion for license before March 1st.
Sheriffs, deputies, constables, police-
men, game wardens and deputies are
authorized to enforce the automobile
law and make arrests for any violations
thereof.
You can avoid any trouble and extra
expense by acting promptly.

DRAFT REGISTRANTS ALLOWED TO ENLIST

PREFERRED BRANCH OF SERVICE
OPENED BY WAR DEPARTMENT
RULING

Need for Increased Spruce Production
for Military Purposes Calls for Men's
Work--Credit on Next Draft Quota
Is to be Given

Enlistment of men registered for the
draft in the spruce production division
of the aviation section, signal corps,
through the office of the local board,
is authorized by the war department.
Men volunteering for service under
the provisions of this ruling will be
transferred to Vancouver barracks,
Washington, and from there assigned
to duty in the production of spruce
timber required for the construction of
airplanes, shipbuilding and other mil-
itary purposes. Credit for these enlist-
ments to reduce the county's quota in
the next draft call is allowed. Present
enlistments in the hands of the board
is that this is the only branch of the
military service open to voluntary en-
listment of registrants, and the only
branch in which enlistment will be
counted as credit to the county in the
next draft. It is said to be a preferred
branch of the service.

The first registrant from this county
to take advantage of this opportunity
for voluntary enlistment was Frank
Turner of Rogerson, who was trans-
ferred to Vancouver on Thursday of
last week. Turner stated that he had
been employed on the Diamond A ranch
and that he was the last of the em-
ployees of military age left on that
property, all of the others having pre-
viously enlisted.

Others accepted by the local board
for enlistment in the spruce production
division and transferred to Vancouver
barracks include James W. Bennett,
Henry Reed, Samuel J. Johnson, Earl
Eugene Maxwell, and Frank Koch, all
of Twin Falls.

Always in the market for baled al-
falfa hay. Highest cash price paid at
all times. John Fluke, phone 23.-Adv.

CHILDREN CONTRIBUTE TO WAR-WORK FUNDS

County Superintendent Compiles Esti-
mate Showing Donations of
Over \$24,000

Over \$24,000 has been contributed by
pupils of the city and country schools
of the county to war funds, according
to estimate made by Miss Brittonart
Wells, county superintendent. Follow-
ing are the itemized figures, giving ap-
proximate totals in each instance:
City and County Schools \$2,400
Orphan's Home 310
Liberty Bonds 15,350
Baby Bonds 250
Baby Bonds 700 3,240
W. S. S. 1,450
Thrift Stamp Holders, 950 ap-
proximately 276
Red Cross 905
Red Cross Bonds, 1000 100
Junior Red Cross, 1933 members,
donated 1,116.13
Total \$24,434.03

ADVISES DRIVE PATRONS TO PRESENT RECEIPTS

Postmaster M. A. Strunk Cites Regu-
lation for Increasing Value of the
War Savings Certificates

Advising that in compliance with reg-
ulations, an additional charge of one
cent for issuance of War Savings Cer-
tificates where the receipts are pre-
sented later than February 28, Postmas-
ter M. A. Strunk urges that all patrons
of the war savings drive shall present
their receipts promptly at the post-
office for their certificates. If the re-
ceipt is presented during the month of
March, a charge of \$4.13 per certifi-
cate will be made, the price advancing
one cent on each certificate. The price of
thrift stamps is fixed and will not in-
crease, although they draw no interest.

"No, sir! I can tell you it doesn't
take me long to get an idea into my
head."
"Very likely not. But what does it
do after it gets there?"--Life.

WAR SAVINGS CAMPAIGN GOES ON IN COUNTY

MONTHLY PURCHASE OF \$35,000 WORTH NEEDED TO FILL ALLOTMENT

PLANS FOR CONVENTION OF THE WORKERS OUTLINED—NATION-AL SPEAKERS TO ADDRESS SES-SION DESIGNED TO INSPIRE

In the purchase of \$50,000 worth of Thrift Stamps and War Savings Certificates, as a result of the drive in January, Twin Falls county has set a record as yet unapproached by any other Idaho county, but in order to subscribe its allotment of \$400,000 this year, it will be necessary to make further purchases to the extent of \$35,000 monthly.

Convention Plans
To the end that the allotment may be fully subscribed, the county committee is making plans for a convention of the various district committeemen and their co-workers to be held here in the near future. The program has been outlined provide for an address by a speaker of national fame, together with other features designed to produce patriotic inspiration.

In the sessions of the several committeemen, it is expected that plans will be worked out not only for the successful continuance of the war savings stamp campaign, but for the conduct of other war fund drives to which the people will be called upon to respond during the year and it is believed that the organization formed for the January drive will be converted into a most efficient body in this work.

Speakers Invited
At subsequent meetings of the county committee, several persons capable of presenting the subject in addresses before audiences will be invited to attend in order that they may fully familiarize themselves with the details of the war savings stamp campaign and play an effective part in the attainment of the goal for the county.

RETAIN HAL G. BLUE FOR THREE YEARS MORE

Directors Re-elect Superintendent of Twin Falls City Schools at Increased Salary

Hal G. Blue, since 1914 superintendent of Twin Falls schools, was re-elected to that position for a term of three years at an increased salary by the board of school trustees at its meeting Monday night. Three years ago this month, Mr. Blue was elected superintendent for a term of three years following his first year's service in the local school system.

During his incumbency of office here the enrollment of pupils has increased 600, the corps of teachers has been increased by addition of 10, eight additional school wagons have been put into use, and one new school building, the Washington, has been completed. While the financial obligations of the district have been discharged in large measure, a high class standard of efficiency has been maintained in the system and it has been kept responsive to the increasing demands of the community in this district.

Mr. Blue's re-election is regarded as a tribute to his capability as a school director under extraordinary conditions.

HONOR DEPARTING MEDICAL OFFICER

Informal Dinner for Dr. D. L. Alexander Is Given by Friends and Associates

Honoring Dr. Duncan L. Alexander, first lieutenant in the officers' reserve corps, who leaves Friday evening for Fort Riley, Kansas, in response to orders, an informal dinner was given in the Perrine hotel by a number of his friends and associates. Participating in the affair were Judge W. B. Bannister, W. F. Guthrie, James R. Bothwell, F. L. Stephens, C. A. North, Dr. J. F. Coughlin, Dr. J. R. Morgan, Dr. T. Wigglesworth, James D. McRobertson, Dr. G. P. Baker, Dr. F. F. McAttee, A. N. Sprague, B. M. Spargur, T. F. Murray, Jack Boyle, J. H. Wise, E. V. Larcher, W. C. Hazard, Dr. E. H. Patten, Carl J. Hahn, Wm. Patrick, A. B. Moore, James Reese, O. P. Duval, Willard Hance, A. R. Hicks, A. J. Myers, G. L. Kinney, H. M. Brown, Ed. E. Johnson, John E. Davies, Dr. W. A. Sullivan, M. M. Murtaugh, George Herriott.

PERMITS NO LONGER NEEDED FOR COAL

Necessity for securing permits from the city clerk's office before purchasing coal from Twin Falls dealers no longer exists. County Fuel Chairman, O. D. Thomas asserts in a ruling dispensing with that formality for the present. The permit system was evolved and put in operation here during the period of coal shortage in December in order that an equitable distribution of the available supply might be secured. Local dealers are now provided with an adequate supply of coal, it is announced, and recommendation of the county chairman that coal for future use should be purchased as now was issued recently.

FAILS TO CONVINCe COURT OF INNOCENCE

William Miller, Alleged Funeral Thief, Is Held to Answer in the District Court

William Miller, accused of the theft of \$180 from a mufi left in the cloak room of the Presbyterian church during funeral service on January 28, failed in the opinion of the court at a preliminary examination before Probate Judge O. P. Duval on Monday, to produce sufficient evidence to establish his innocence of the charge of grand larceny filed against him, and he was bound over to the action of the district court, bonds being fixed in the sum of \$2000. Miller denied the theft and stated that the money he had displayed to rooming house proprietors at Filer and Twin Falls, whose testimony was introduced in his behalf, he had earned by labor in Nevada. He said that he had lost \$70 at gambling here. Miller left Salt Lake City on January 24, expecting to go to work for D. F. Deweller, a sheep owner at Filer. Being unfamiliar with the sheep industry he failed to secure the place and came thereafter to Twin Falls. He was arrested and taken from the train at Rupert on the larceny charge.

Local Briefs

Cooked Food Sale—The Baptist ladies will hold a cooked food sale at the Club house here Saturday, February 10.

Building New House—P. R. Thompson has taken out municipal permit to build a frame residence 42x28 feet, at the corner of Sixth avenue and Fourth street east, at an estimated cost of \$2,500.

Returns from Salt Lake—C. E. Lind of the Lind Automobile company returned Wednesday from Salt Lake City, where he underwent an operation. He expects to be in shape for business in a few days.

School Census Figures—The school population of Twin Falls county, which includes everyone between the ages of 6 and 21 years, has increased from 603 in 1917 to 744 in 1918, according to census report filed with the county commissioners.

Learn of Sister's Death—Mrs. R. W. Steele and Mrs. C. D. Anderson have received telegraphic word of the death of their sister, Mrs. C. T. Davidson, a former resident of Twin Falls, who died in North Yakima, Washington.

Takes Auto Course—Louie Taddiken of Twin Falls was graduated from the Rahe Automobile & Traction school at Kansas City, and will return to pursue the work for which he has qualified himself here.

Addresses Banquet Audience—Mr. and Mrs. M. J. Swewley returned Wednesday from Boise, where Mrs. Swewley delivered a brief address at the Lincoln day banquet held in the Owyhee. Mrs. Swewley was the only woman speaker on the program.

Comfort of Home—J. C. Moore has received from his son, now in France, a booklet containing the names of C. A. Utah, showing the provisions that are being made for the entertainment and comfort of the boys who go to the front.

After Care—D. T. Marks, a traffic expert, has been brought to Twin Falls by the Adams Roadway company to assist the company in securing cars to move the potato crop. Mr. Adams, the manager, recently returned from the east, where he arranged with eastern firms to assist in disposing of the surplus crop of this section.

Royal Neighbors Sew—Mrs. H. C. VanAusden this afternoon is hostess to the Royal Neighbors club, which is engaged in sewing and knitting for the Red Cross. Thirty members attended the meeting last week at the home of Mrs. I. A. Appell.

Washington Program—The school children of the Washington building will give a patriotic program at the school assembly on Thursday afternoon, to which the public is invited. The program is made up of patriotic songs, recitations, readings and drills.

Visit Son in Navy—Dr. and Mrs. J. T. Evans are in San Francisco, California, where their son, Dr. T. C. Evans, is in the naval hospital. Dr. Evans will spend several weeks in California before their return, visiting Los Angeles, Long Beach, and other points in southern California.

Assignment Recommended—Dr. J. P. Coughlin, who on January 3 took examination for the position of assistant local reserve corps, received word from Washington Monday that his assignment as a physical therapist was recommended by the surgeon general of the army. He had been advised previously that his commission had been recommended.

Demande Trial—Arthur Eggman of Filer, accused in a complaint in prob-

ate court of permitting gambling in his residence, entered a plea of not guilty when arraigned Saturday, and Thursday, February 14, was set as the time for preliminary examination.

Johns Marines—Robert H. Kendal of Murtaugh was accepted last week by the local recruiting station for enlistment in the marine corps and was ordered Tuesday to Salt Lake for completion of his enlistment and assignment to a training station.

Entertain University Hosts—Dr. E. H. Lindley, president of the University of Idaho, was the guest of honor at a smoker given by Mr. and Mrs. T. V. Araratier at their home. Other invited guests were Dr. E. Stephen, W. F. Edwards, Hal G. Blue, Z. North, E. V. Larson, G. E. Deaman.

Four Join the Army—Through the local United States army recruiting station during the week past applications for enlistment as follows have been received: Len P. Snider, Halley, aviation section; John Austin and Herbert L. Pangburn, both of Jarbidge, 27th engineers; Roger A. Fath, Halley, infantry.

Odd Fellows Initiate—The first degree Odd Fellowship will be conferred on a class of eight candidates by the Twin Falls lodge at its regular meeting tonight. At its meeting on Thursday night of last week the initiatory degree was conferred upon a class of the same size.

Re-elected at Fruitland—Charles S. Miller, for three years, in charge of the Maroon school, who left last September to become superintendent of schools at Fruitland, has been re-elected to the latter position for a term of two years at a salary of \$1700 per year, according to word received here. The Fruitland schools have 450 pupils and 16 teachers.

Philco to Build—On Eighth avenue north between Shoshone and Second streets, R. Philco will build a residence 32x34 feet at an estimated cost of \$3000 according to information given in a municipal building permit covering the work, taken out this week. Contract for the building has been let to E. A. Moon.

On Official Visits—George B. Schweiger, grand master of Idaho Odd Fellows, accompanied by the grand secretary and grand chief patriarch of the order, visited officially with the lodge at Idaho Falls at its meeting on Saturday last, and is today in Dubuque, where he will assist in the installation of a new lodge.

Tax Collector Leaving—R. H. Argubright, deputy federal tax collector, here since January 24 with office at the court house, explaining the provisions of the new income tax law to taxpayers of this vicinity, will leave on Monday next for Buhl, where he will remain until March 1, at which time he will complete his work in this county.

Named Administrator—J. W. Craven has been appointed administrator of the estate of his wife, the late Mrs. Elva M. Craven. She was the executrix of the will of her father, the late Robert M. McCollum. Hearing in probate court on proof of the McCollum will will take place on February 25, and is regarded as likely that Mr. Craven will be appointed executor.

Is Called to Serve—Miss Esther Anderson, for several months past stenographer in the office of the county agricultural agent, received a telegram Tuesday from Washington stating that she had been appointed to position in the navy department. She is instructed to report for duty in Washington on March 1, and expects to leave here about February 24.

Jeweler Takes Partner—C. D. Hunt, jeweler and watchmaker of 20 years experience in Kansas and for five years past a resident of Twin Falls, has been associated since February 1 as a partner in the jewelry business of V. H. Decker in the Bang building on Shoshone street north. The new firm name is Decker & Hunt.

Army Needs Veterinarians—Men especially desired as recruits in the veterinary corps of the national army are those experienced in handling horses, veterinary students, agriculturists, students and farmers. The local United States army recruiting station has been authorized to accept enlistments in this branch. During the next few weeks it is proposed to enlist 2000 men. Applicants accepted for this service will be transferred from this district to the medical officers' training camp at Fort Riley, Kansas.

Confesses Boose Charge—Frank Marshall, in probate court Tuesday, entered a plea of guilty to a charge of illegal possession of liquor and was admitted to bond in the sum of \$500 to secure his appearance to answer to the charge in district court. Marshall was arrested here Saturday night by city police officers on suspicion of having a bottle of whiskey found in his possession at that time, according to the complaint.

Prosecution Dismissed—Prosecution of the charge of grand larceny against Donald Lambert, accused of complicity in the theft of the contents of a box of a horse and buggy from Milner last spring, was dismissed Tuesday in consideration of an arrangement whereby he will pay a fine and additional sum to cover damage done to the vehicle. Lambert returned to his home in Salt Lake City. The other boys involved in the case had been previously pleaded guilty and were paroled.

MARRIAGE LICENSES

Marriage licenses have been issued in Twin Falls to the following:

Lloyd Hays and Elizabeth King, both of Kimberly.

Raymond W. Todd, Twin Falls, and Opal W. Todd, Twin Falls.

Oliver Harstad and Amy Kautz, both of Twin Falls.

Charles P. Stoddard, Bruneau, Idaho, and Lillian E. Stoddard, Twin Falls.

News of the County

PIONEER FILER MAN IS CALLED

J. W. Tanner, Editor of Pioneer Journal and an Early Resident, Is Dead—Forming Highway District

FILER—The Filer community was shocked Monday to learn of the death of J. W. Tanner, who passed away at Monday morning at his home here. Although it was known for several days before that death was only a matter of a short time, we are never prepared for these things and yet it comes to all. The sympathy of all is extended to the bereaved family. Arrangements have not been completed for services, awaiting the arrival of relatives.

Bob Johnson of Blackfoot has been in and around this locality for several days buying cattle.

Mrs. Wm. Tost of Deer Lodge, Montana, is very ill at the home of her daughter, Mrs. H. J. Luper.

A surprise party was given George Eason at Curry Friday evening in honor of his birthday. Quite a number from here attended and report a very enjoyable time.

Mrs. H. O. Munyon and son returned Monday from California, where they have spent the winter. Mr. Munyon will follow in the car.

His son was born Sunday, February 10, to Mr. and Mrs. Percy Tice.

The people of Filer and neighborhood are trying to form an independent highway district.

Chas. W. Barlow was a Pocatello visitor Sunday.

James C. Glover's father arrived on Sunday from Gooding for a visit with his son and family.

Chas. Robert has started a dairy.

"Professor Diggs, the famous archaeologist, is said to have discovered half a dozen new cities in California."

"Mrs. Diggs ought to be proud of him."

Well, yes. But she would probably have more respect for his ability as an explorer if he didn't have to find his hat for him nearly every time he leaves the house."—R. F. D. News.

PERSONALS

Mrs. Alice Abt returned Friday from Caldwell, where she had been for five weeks on her way home, who is recovering from a critical illness.

Tim Robertson, seven year old son of T. M. Robertson, is carrying his right arm in a sling as a result of fracture of his right elbow, received in a fall from a bicycle.

R. P. Smith of Twin Falls was a Buhl visitor Wednesday. He has been farming a 640 acre dry farm south of Twin Falls, but has sold it and is thinking of locating at Buhl.

Miss Alice, daughter of Mrs. A. M. Bowen, is recovering at the Physicians & Surgeons hospital after an operation for appendicitis which she underwent on Thursday of last week.

H. F. Allen returned last week from a two weeks combined business and pleasure trip to Los Angeles and other southern California cities. Mrs. Allen, who accompanied him, will remain there for a few weeks.

Mr. C. D. Weaver left Friday for California where he will visit several weeks with his parents and with her son, Russell Weaver, a student in his second year at Pomona college. During her absence, the Weaver home on Ninth avenue east has been let to John Kinney.

Mr. S. M. Boone, accompanied by her sister, Miss Addie Ingram, has returned after several weeks' visit with relatives in Kentucky and with her son, Chester Boone, aged 15, at 2:30 o'clock.

Hundred Forty-sixth field artillery regiment, prior to his departure with that organization for foreign service.

ANNOUNCEMENTS

The Pythian Sisters will meet every Tuesday afternoon to sow for the Red Cross. They will meet Tuesday, February 19, at the home of Mrs. Smith, 325 Eighth avenue east.

The Royal Neighbors of America will hold their next regular meeting at the I. O. O. F. hall on Friday evening, February 15, at 8 o'clock. All visiting members are welcome.

The Women's Christian Temperance Union will meet with Mrs. James M. Wall, 262 Fifth avenue north, Friday afternoon, February 15, at 2:30 o'clock. All are most cordially welcomed at these meetings. Red Cross work will be done, and there will be an interesting program.

Printing stamped "News Print" is right.

CALLED INTO SERVICE

First Lieutenant Duncan L. Alexander of Twin Falls, Who is Ordered to Report at Fort Riley, Kansas, Medical Officers' Training Camp.

D. R. Duncan L. Alexander, prominent Twin Falls physician, who has been an officer of the medical corps since August last, when he was commissioned as a first lieutenant, received orders Thursday of last week to report at the Fort Riley, Kansas, medical officers' training camp on February 20.

Dr. Alexander leaves an extensive practice, built up during his residence of about seven and one-half years in Twin Falls, to place his services at the disposal of his country. He is a graduate of the University of Michigan and for several years before coming to Idaho he practiced his profession in that state, being for a time house surgeon in a Michigan hospital.

MAKE WORK EASIER

Twin Falls People Are Pleased to Learn How It Has Been Done.

It's pretty hard to attend to duties with a constantly aching back, with standing and sitting disorders, Doan's Kidney Pills have made work easier.

So thousands have gratefully testified.

They're for bad backs. They're for weak kidneys. Twin Falls people gratefully recommend Doan's.

Roy Michaut, carpenter, 288 Monroe Ave., Twin Falls, says: "I have had attacks of kidney trouble when my back ached and sharp pains have darted through it until I could hardly do my work. At such times the kidney secretions would pass much too often and were highly colored. Every time I have been that way I have used Doan's Kidney Pills and to my surprise they have strengthened my kidneys and cured me of the trouble."

Price 60c at all dealers. Foster-McMillan Co., Buffalo, N. Y.

ORDERS BOARD TO RESUME ITS EXAMINATIONS

PHYSICAL QUALIFICATION OF 200 IN COUNTY YET TO BE DETERMINED

NEW REGULATIONS ISSUED TO PROVIDE FOR CLASSIFYING SOME REGISTRANTS FOR SPECIAL OR LIMITED SERVICE

The Twin Falls county board has received orders to resume physical examinations of registrants assigned to class one under the selective draft regulations, discontinued February 5 by order of the provost marshal general pending the issuance of new regulations relative to physical qualifications for military service, and the first contingent of 50 men has been called for examination on Saturday next.

District Board Rules

The order to suspend examinations was received on the eleventh day of examinations in this county, and at that time there remained only about 150 men in class one to be examined. Subsequent decisions of the district board of appeals in the cases of applicants for deferred classification resulted in the increase of this number to about 200 men. Proceeding with examinations at the rate of 50 per day, as heretofore done, the board expects to complete this work by Thursday of next week.

New regulations for physical examinations, copies of which have been received here, were issued, according to statement of the provost marshal general, in view of the decision to continue investigations looking toward classification for special or limited military service, registrants not physically qualified for general military service, and in view also of the decision to accept for military service some registrants with remedial defects who were otherwise physically and mentally qualified.

Instructions to Boards

Local boards are instructed to accept registrants for general military service only when they come within the standard of unconditional acceptance with or without remedial defects, and to reject registrants for general military service only when they come within the standard for unconditional rejection.

All other registrants must be referred to the medical advisory board for further examination and classification. Physical examinations under the old regulations need not be repeated upon receipt of the new regulations, according to statement of the provost marshal general, transmitted through the state adjutant general's office to the local board Monday.

A HINT TO THE AGED

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days, they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.—Adv.

THE NEW SANITARIUM

At 304 Fifth avenue east, Twin Falls. We have fitted up, at great expense, the only drugless sanitarium in Twin Falls county. We have nice clean, sanitary beds, where we can accommodate the public at a reasonable price.

Along with our chiropractic adjustments (which our bed patients get from two to four times daily as needed), we have mineral vapor baths, electric light baths, Sitz baths, high frequency electricity, and many other drugless methods. The results we are getting in cases of female trouble, rheumatism, paralysis, appendicitis, etc., are little short of marvelous.

Don't have your loved ones operated on until you have tested the drugless way. No harm can possibly come from our treatments.

CHIROPOASTIC SANITARIUM
304 Fifth Ave. East.
Twin Falls, Idaho.

GIVES HIS VIEWS ON HIGHWAY POLICIES

Secretary of Agriculture Says Roads Should be Maintained and the Needed Ones Built

Secretary Houston, of the department of agriculture, has set forth the policy which he thinks should be followed in highway construction during the war:

"So far as it is practicable to do so, this department will urge the maintenance of the highways already constructed; the construction and completion of those highways which are vitally important because of their bearing upon the war situation or for the movement of commodities; the postponement of all highway construction relatively less essential or not based upon important military or economic needs. The department is preparing to suggest to the state highway departments the preparation of a schedule of work for the federal aid projects for 1918 in line with this policy."

Road construction and maintenance in the United States involve an annual expenditure of about \$500,000,000.

CHURCH DEDICATES ITS SERVICE FLAG

Seventeen Young Men From the Christian Congregation in Service Are Honored

A large service flag containing seventeen stars representing the seventeen young men from the First Christian church of this city who have joined the colors thus far and of whom the pastor has been informed, was formally dedicated to the cause of "liberty and justice" after the pastor, Rev. Walter E. Harman, had preached a stirring patriotic sermon upon the theme, "Our Flag—Its Past and Its Future." The auditorium was filled to its capacity, many of the men having been placed to accommodate the crowd.

The minister chose for his text the fifth verse of the twentieth Psalm, which he used as the basis for his discourse. The main thoughts of the sermon were grouped around three central ideas, "Invasion," "Revolution," and "Expansion," which the speaker showed were the key words in American history. Many warm words of earnest appreciation were expressed by those permitted to hear the address. Mrs. John B. White sang very effectively "The Star Spangled Banner."

The names of those who have joined the colors of the army were given as the following: Carlos Liville, Joe Harvey, Geo. Harvey, James Nagle, Lowry Patton, Ernest E. Harter, Everett Logsdon, Perry Dingman, Orin Cryder, Carl Ritchey, Chas. Austin, Chas. E. Rukes, Alfred Leighton, Guy Miller, Marion Hafor, Roy Davis, Arthur M. Peters.

This week the pastor is sending a letter to all the boys and he stated that it was his belief that there were still others who have joined the service but whose names he had so far failed to receive.

BENEFIT BAND DANCE ENJOYABLE OCCASION

Proceeds amounting to \$187.75 Go for Purchase of Comforts for Twin Falls Soldiers in France

Proceeds amounting to \$187.75, to be used for the purchase of tobacco, candy and other comforts for Twin Falls soldiers in foreign service, were realized from the benefit dance given by the Twin Falls Band on Monday evening in Cotton Hall. More than 140 couples were in attendance and the generous response of the public to its appeal in behalf of the local fighting men is deeply appreciated by members of the band. Music was furnished by the entire band of 30 members, whose services were donated, and were given after several weeks of rehearsals for this occasion. In view of the success of the affair from every standpoint, requests have been made for subsequent band dances to be held at least once each month.

Purchase of the articles to be sent to the soldiers is to be made locally and the consignment will be sent to Captain McRoberts, commanding the unit made up almost entirely of Twin Falls men, with the request that he distribute it among all the boys within reach who claim Twin Falls as their home.

REMOVES CHARGE HE IS A SLACKER BY ENLISTMENT

JAMES HENRY NIELSON DISPROVES CHARGE OF ATTEMPT TO EVADE

PROCEEDINGS BEGUN AT THE STANDE OF WIFE, WHO CLAIMS AFFIDAVIT FALSE, DISMISSED BY FEDERAL ATTORNEY

Quick to avail himself of the opportunity of clearing his name of the stigma of a slacker charge proffered at the instance of his wife, James Henry Nielson of Marynough, who informed that proceedings in federal courts on this charge had been withdrawn, and that he was at liberty to enlist, presented himself immediately at the local recruiting station of the marine corps, passed the physical examination and was transferred Tuesday to Salt Lake, where he will complete his enlistment and be assigned to a training station.

Misunderstanding Is Defense

The charge that Nielson had made false affidavit in his questionnaire relative to claim for exemption from military service on account of the alleged dependency of his wife and child, was withdrawn by the United States district attorney at Boise, upon presentation of evidence in the case by Attorney E. M. Wolfe of this city. Statement was made to the federal official that Nielson had not sought exemption, but that he misunderstood the advice of the person who assisted him in filling out his questionnaire and had unintentionally laid himself liable to prosecution.

Statement in Nielson's questionnaire in effect that he had contributed a certain sum to the support of his wife and child during the year past was denied by his wife, who declared that they are living apart and that he had contributed nothing to her maintenance in that time. Sheriff E. M. Konradi swore to the complaint filed in the office of the federal attorney.

Intent Main Factor

In authorizing the dismissal of the charge against Nielson, the federal attorney said that it was not the purpose in cases of this kind, arising clearly through error or misunderstanding, to prosecute if inclination to make amends were indicated, but that cases in which intent to evade service should be proven would be dealt with drastically.

EVERY CHILD IN RED CROSS IS GOAL OF DRIVE

MEMBERSHIP CAMPAIGN IN COUNTY SCHOOLS TO CONTINUE TEN DAYS

LOCAL CHAPTER COMMITTEE IS
INCREASED TO INCLUDE COUNTY
SUPERINTENDENT AND ALL
HEADS OF SYSTEMS

At the conclusion of the ten days' Junior Red Cross membership drive, which commenced throughout the United States on February 12, Lincoln's birthday, and is to continue until February 22, Washington's birthday, it is expected that every one of the approximately 5000 pupils enrolled in the public schools of Twin Falls county will be definitely identified with the work of the Red Cross as a member of the junior auxiliary, and that the formation of school auxiliary organizations in every school in the county will result.

New Committeemen

The drive in this county is being conducted under direct supervision of the superintendent of Twin Falls schools and chairman of the schools committee of the Twin Falls Red Cross chapter. In the interests of this drive, Mr. Blue has named as members of this committee, County Superintendent Britton, and the superintendents in the several independent school districts as follows: C. G. Manning, Buhl; John Bracken, Piler; J. M. Markel, Marsa; M. Broadbent, Hollister; J. E. Shippe, Hansen; J. E. Gonsa, Murtaugh; Jay Downing, Kimberly.

The county superintendent is in charge of the drive in the common school districts, including 64 schools, while the superintendents are in charge in the independent districts.

Pupils are enrolled as members of the Junior Red Cross upon payment of 25 cents dues, while the formation of school auxiliaries in each school is made contingent upon the enrollment of every pupil attending each school. As members of the school auxiliaries, pupils are assigned definite Red Cross work to do and proceed, under the direction of auxiliary leaders, to knit and sew for soldiers and war sufferers in exact emulation of their elders in the Red Cross work.

Two Schools Organized

Junior auxiliaries were formed last October in the Twin Falls and Kimberly schools, and an immense amount of Red Cross work has turned out by the pupils since that time.

In the Twin Falls schools, hundreds of boys and girls are knitting and sewing for the Red Cross. Superintendent Blue says, and the quantity and quality of their work indicate their attitude

and desire to assist in relief measures is remarkable.

In the elementary grade schools of the city, two of the five weekly periods assigned to instruction in art are devoted to Red Cross work.

To Show Work Done

The county superintendent is preparing a statement showing the amount of Red Cross work that has been done by pupils of the common school districts.

DEATH CLAIMS FILER NEWSPAPER OWNER

JAMES W. TANNER, PROMINENT
IN POLITICS AND JOURNALISM,
SUCCUMBS TO DISEASE

His Lodge in Charge of Funeral is
Home—Tributes Paid to Leader Who
Fought to the Front Through His
Native Ability

James W. Tanner, founder of the Filer Journal and prominent in Democratic state politics since his arrival in Idaho from Nebraska in 1910, died at 11 o'clock Monday morning at his home in Filer. Nephritis and arterio sclerosis, from which he had suffered for several years, occasioned death. He was 58 years of age. He is survived by his wife and four adopted children, two of whom, Clara and Theodore, reside at Filer; also by a brother who is a state senator in Nebraska, and two sisters.

Under the auspices of the Elks lodge, funeral services will be held at 2:30 o'clock Thursday afternoon at Filer, and interment will be here.

A lifelong Democrat and an ardent admirer of Bryan and Wilson, Mr. Tanner had a long and conspicuous political career. He had served as a member of the Nebraska legislature, making a record for himself as an advocate of sound progressive legislation. He was sergeant at arms at the Democratic national convention held in Denver in 1908.

For going to the front because of his capability for political leadership, after coming to Idaho, Mr. Tanner was twice the nominee of his party for the office of lieutenant governor, being defeated for that position only by narrow margins in the campaigns of 1914 and 1916.

In recognition of his patriotism and ability, Mr. Tanner was appointed as a member of the county council of defense, from which position, as well as from active participation in war work in his newspaper, he was compelled to retire a short time before his death on account of his falling health.

Mr. Tanner was born December 25, 1860, at Nevada, Iowa. In his youth he entered the newspaper and printing business, continuing in that vocation throughout his life. At the age of 29 he moved to St. Joseph, Missouri, where he spent several years, later going to Omaha, Nebraska, and around which city he resided until he came to Filer and established the Journal eight years ago.

A community builder in practice as well as in precept, Mr. Tanner contributed to the development of Filer by construction of several substantial business buildings, including the opera house.

He was an active member of the Elks, Knights of Pythias and Elks lodges, and an honorary member of the International Typographical Union.

TALKS ON MODERN MAN WITHOUT A COUNTRY

Rev. Samuel Cranston Benson Gives
Return Lecture Before a
Packed House

Drawing a striking parallel between the man without a country, celebrated in the Edward Everett Hale story bearing that title, and the man today who refuses to align himself definitely and positively with the purposes of the nation at war, Rev. Samuel Cranston Benson, in a return lecture delivered on Thursday evening of last week before a packed house in the Methodist church, detailed his experience as a Red Cross man at the European battle front, which converted him from a pacifist into an ardent disciple of the righteousness of the cause of democracy in this war.

Preliminary to the lecture, a musical program of almost an hour's duration was given by the choir and orchestra of the church under direction of Charles Butler, and at the close of the address by special request of the speaker, Mr. Butler sang "The Prayer," responding to encore with "Roaming in the Gloaming," rendered in perfect imitation of Harry Lauder's best style.

During his stay in this city Mr. Benson was entertained at the home of Mr. and Mrs. A. R. Ostrander, acquaintances of his for many years.

MOST REGISTRANTS ARE ACCOUNTED FOR

Only 84 Delinquents Out of List of 2514
in Twin Falls County, Ac-
cording to Board

Out of 2514 men registered in Twin Falls county under the selective military draft regulations, only 84 remained unaccounted for on Saturday of last week, according to statement of Clerk E. J. Finch of the local board. The delinquents for the most part are foreigners not subject to induction into the military service of the great number of transfers necessitated by change of residence of the registrants subsequent to the closing of registration, the record regarded as an exceptionally favorable one.

Colored men registered in this county numbered 19.

ARRANGEMENTS MADE FOR LATER LECTURES

Elder F. D. Wagner to Continue His
Explanation of Book of Revela-
tions Here

Elder F. D. Wagner will continue his series of lectures on the book of Revelation, in which increasing interest is being evidenced, during the next several weeks in the local church building on Third street east. Arrangements have been made for meetings to be held on Sunday and Friday evenings at 7:30 o'clock. The subject of his lecture will be the best described in chapter 13 and will include an application of the prophecy to the United States. A large audience has been prepared as a means of clarifying the symbolism of the prophecy. The lectures are free and the public is invited to attend.

EXPLOSION ENVELOPS DENTIST IN FLAMES

Gas Fire in Office Results in Painful
Burns to Dr. Robert A.
Stutliff

Dr. Robert A. Stutliff is recovering from painful burns on the face and arms sustained in a gasoline explosion in his dental office Friday morning while he was preparing for an operation for a patient. Timely attention was given his injuries by a physician in an adjacent office, summoned by the patient as Dr. Stutliff, enveloped in flames, rushed out of the office.

CLUB WOMEN TO ELECT NEW PRESIDENT

Election of a president of the Twentieth Century club to succeed Mrs. Alice Cookley, resigned, will be held at a meeting of the club on February 28 in the Moose hall. The program for this meeting, of which Mrs. Alken is in charge, will be given over to discussion and demonstration of war foods, and recipes will be offered for sale.

The Classifieds will return that last article to you.

FAILS TO RECOVER IN PERSONAL INJURY CASE

Jury in District Court Holds Against
Building Contractor and for
the Farmer

Plea of self-defense offered by the defendant in the case of A. Estling against D. R. Churchill, wherein \$2500 damages for personal injuries was being sought, was so effective upon a jury in district court that a verdict in his favor was returned Tuesday morning following a trial that occupied all of the preceding day.

Estling is a building contractor of this city, and Churchill a farmer residing four miles east of Twin Falls. The trouble between the parties arose in June, 1917, when Estling was building a house for Churchill. An argument relative to the method of proceeding with the building led to blows as a result of which Estling laid his claim for damages. In a criminal action previously brought against Churchill as an outgrowth of this altercation, he was assessed and paid a fine of \$50 and costs.

Advertise it in the Classified columns of The News. A sure way to sell your property.

HELD TO ANSWER ON CHARGE OF BURGLARY

William Herbst Is Bound Over to the
District Court Following
Examination

William Herbst, a Twin Falls youth, must answer in district court to a charge of burglary filed against him by the prosecuting attorney. No defense was offered by his attorneys at a preliminary examination begun Saturday and continued until Monday afternoon before Judge O. P. Duval, and he was bound over to the district court, bond being fixed in the sum of \$2500.

Herbst is accused of breaking into the Skeels-Wiley drug store and other establishments here, removing a quantity of cigars, which he is alleged to have before Judge O. P. Duval. Evidence introduced by the prosecution at the preliminary examination showed that he had in his possession a large number of keys, one of which would open the door of the Skeels-Wiley store, and that a cache of 16 boxes of cigars, alleged to have been taken by Herbst, had been uncovered by the officers. He was placed under arrest January 23, and has since been in confinement.

Twin Falls News

THE TWIN FALLS NEWS PUBLISHING CO.
Twin Falls, Idaho

PRICE \$2.00 PER YEAR

THURSDAY, FEBRUARY 14, 1918.
ESTABLISHED 1904

SECOND SECTION

Entered as Second Class Matter December 2, 1904, at the Twin Falls Post Office, under the Act of March 3, 1879.

THE ENEMY'S EXTREMITY

THERE ought to be none in this Country so tender-hearted as to waste sympathy upon the people of the enemy's country who find themselves departing from their accustomed rotundity of person and countenance and growing lean upon their enforced diet of substitutes for food. On the other hand, in the light of this evidence of the German tenacity of purpose, there should result here a renewed determination to sacrifice if need be, in the interests of democracy and justice, to the extent that the enemy is depriving himself in adherence to a perfidious cause.

There is little real anything to be bought in Germany today. It is the land of the ersatz—the substitute—says Victor Morgan, editor of the Cleveland Press, who has just returned from Europe. These substitutes are not injurious to health, and they appease hunger by filling the stomach, but they do not build up the body. So the fat German is no longer the typical German.

For coffee there are many substitutes. The leading one is ground acorns. This costs fifty cents a pound. The substitute for sugar is saccharin, a coal tar product. The sugar production of the country is used for the extraction of glycerin, needed in munitions. A heavy oil made from roots, seeds and stalks of plants is offered at four dollars and fifty cents a pound as a substitute for lard. And so on through the list.

If food will win the war—and there is no reason to question this familiar admonition of the Food Administration—then the downfall of Germany in the light of these and many similar reports on conditions in that country is certain, but there should be no letting up in the fields of food production and conservation here, in order that that result may be brought about the sooner.

FILER SETS THE PACE

WHILE the rest of the County, since the defeat of the million dollar road bond issue in December, seems to have seen fit to lie back and leave it to the county commissioners to figure out means of securing needed highway improvement, the situation is otherwise with Filer. Farmers and business men of that district have inaugurated an action looking toward the creation of a second independent highway district in the County, and are proceeding with their plans in this direction with an evident unity and determination of purpose that leaves no room for question as to their ideas on the subject of road improvement.

Filer polled a splendid majority for the County bond issue, and when it failed Filer people did not propose to be balked in their purpose to secure good roads. It is a business proposition with them. The fact that the trade of a neighboring community is being drawn away from Filer and going some distance farther to another city in order that it may avail itself of travel over one mile of hard surfaced road is an ever-present example attesting with increasing forcefulness to Filer business men of the necessity for better roads leading to that community.

Farmers of the Filer district are enlisted in the highway district plan because they believe that it will assure early building of roads over which they may haul their products to market during the winter season when regular farm work is slack. They have learned thoroughly the lesson of the expensiveness of present road conditions and their purpose is to liberate themselves from the galling situation in which they now find themselves in this respect.

The moving factor behind the Filer highway district plan is the inability of men with vision to perceive the necessity for better roads to wait for their neighbors to arrive at their view point. Whatever may be the outcome of the highway district plan, the fact remains that Filer has decisively manifested its convictions on the subject of road improvement, and a general revival of interest in the subject on the part of other sections of the County is bound to result.

LEGISLATION AND WAR

THE SOLDIER undisturbed by worries at home is the most efficient fighting man. He is a most potent factor contributing to the quality known as morale—that wins battles. In the light of these considerations there can be no gainsaying of the importance and extreme desirability of the law passed by the Idaho legislature in nineteen hundred eleven providing that civil process cannot issue against men in the military or naval serv-

Cartoons of the Week

Fitzpatrick in the St. Louis Post-Dispatch

Greene in the New York Evening Telegram

Darling in the Chicago Evening Post

"Why didn't you make peace with Russia?"
"Those Russians insulted us—they insisted on good faith."

A Love That Passeth All Understanding

Can He Make Him Swallow It?

ice, and that they cannot have their property taken from them while in the service.

This law, known as Chapter seventy-two, is as follows: "No civil process shall issue, or be in force against any person mustered into the service of this State or of the United States, during so much of the term as he shall be engaged in actual service under orders, nor until thirty days after he shall be relieved therefrom. Provided, that the operation of all statutes of limitation and presumption arising from lapse of time shall be suspended upon all claims against such persons during such term."

The Attorney General holds that this law will prevent the holder of a mortgage signed by an enlisted man now in the service from foreclosing for the reason that he could not get service of the proceedings upon a mortgagor who is in the army.

No enlisted man wants more than the protection of his rights while he is in the service, and the opportunity at least to begin where he left off in respect to his obligations when he is relieved from further service. Assurance that statutory protection of his rights is guaranteed is certain to make for more willing induction into the military service from this State and to contribute to the production of a fighting man of a type distinctly unwelcome to the Kaiser.

MOBILIZING CHILD POWER

IMPORTANCE of a drive begun on the anniversary of the birth of Lincoln and continuing until Washington's birthday throughout the Nation to enlist thousands of school children in the junior auxiliary to the Red Cross is apt to be overlooked in these trying times when many new-born war factors loom so large.

An immediate result for which there is urgent need so long as any soldier or war sufferer remains unprovided for is the additional production of clothing and relief supplies that will follow when the boys and girls have been set to work sewing and knitting.

The actual work that the children will do is an item of no inconsiderable importance, for the reason that need exists for the things they will make, and for the further reason that the work in itself will serve as an unsurpassable medium through which the patriotic activities of the children can make themselves felt.

It is a noteworthy fact that in some schools of the County, heretofore without the stimulus that affiliation with an organization pledged to this purpose gives, many children have anticipated the call and have already turned out an amazing amount of war relief supplies. Small boys, given the proper incentive and feeling that they are doing something to help in the winning of the war, have cast aside their aversion for what they had previously considered only girls' work and are manipulating scissors and knitting needles with a precision and diligence that might well serve as an example to their elders.

It is perhaps in the furtherance of the latter result, and as a phase of the mobilization of all of the Nation's people, children as well as men and women, for war work that the most important feature of the drive is to be discovered. It is to enlist the hearts as well as the hands of the future citizens in the service of the Nation. A larger and more vital conception of patriotism is an inevitable result, and viewed from this standpoint, as from any other, the movement is deserving of the unstinted and active support of every American.

THE WAY A NATION THINKS

YOU cannot talk and sing about an invincible Watch on the Rhine as long as the Dutch and the Swiss do not sing the same tune.

This may have been a profound utterance away back in eighteen hundred ninety-seven when the editor of a worthy German newspaper was pointing out for posterity the shoals that endangered the good old German ship.

But certainly, in the light of events that have occurred less than twenty years later, the editor can not be accused of far-sightedness.

Today it is not little Switzerland and it is not little Holland who are being taught a new national anthem. Germany's aspirations have grown, and she is after bigger "meat." The Watch on the Rhine will have to be translated into the tongues of many different lands for popular rendition when this war is over—if Germany is to have her way about it.

Another German editor, Karl Tolle, puts it not so prettily, but more bluntly:

"Land, more land," is the old battle cry which has reverberated without ceasing throughout the ages of German history from prehistoric times to the present. A nation which tries to acquire land exclusively by peaceful means cannot hope for success or for permanent possession in the general struggle for a place in the sun, but is usually rewarded by ingratitude and doomed to perish. The desperate situation of the Germans in the Slav and Magyar countries and, we should like to add, the disappearance, which is going on slowly but surely, of the German strain in the Anglo-Saxon States, in North America, in South Africa, and Australia, impress the fact upon our minds that it is not sufficient to further 'kultur' exclusively by peaceful means. Such efforts are misjudged and resisted if those who are trying to introduce or to further 'kultur' are simple and indifferent enough to let the proper time go by for achieving racial union and for asserting themselves in the political world, if need be, by the use of armed force. . . . Therefore it is also a national duty to fight against our worst enemies; that is to say, against the racial indifference and the political immaturity of the Germans in the minds of old and young alike, by spreading information by tongue and pen in schools and associations."

The prospect thus revealed for the other nations that happen to be so unfortunate as to occupy humble space on this globe is really not so discouraging as may appear on first sight. Authors of the "Germany and Middle Europe in the Year Nineteen Hundred Fifty" have discovered a "place in the sun" for the rest of us. They outline the status of affairs that are to exist so lucidly that they are quoted below verbatim:

"Germans alone will govern . . . they alone will exercise political rights; they alone will serve in the army and in the navy; they alone will have the right to become landowners; thus they will acquire the conviction that, as in the Middle Ages, the Germans are a people of rulers. However, they will condescend so far as to delegate inferior tasks to foreign subjects who live among them."

It is hardly necessary to point out that nowhere in American literature—nowhere in the utterances of her statesmen—nowhere in the thought of her people—nowhere in the doc-

trines that are being taught her young—are to be found sentiments reflecting the colossal national selfishness that has brought on the present conflict.

America is not exalted as an attainment of an ideal—by any means. But God be thanked—and the noble minds that have preceded us—that her hopes and aspirations are clean!

CONSIDER THE BEE

LET THE BEES fill your sugar bowl, in the present crisis when the fate of democracy may hinge upon the conservation of the food supply, is an admonition that is deserving of serious consideration and one that comes with especial significance to this region where there are so great possibilities for the apian.

Our honey crop can be increased immensely, and while it is true that this district is dependent upon production of sugar in amount far in excess of its own needs, there is no incongruity in the local application of the appeal for increased production and use here of a sovereign sugar substitute.

Every season when the orchards, clover and alfalfa fields bloom, tons of nectar become available waiting for the bees to gather it and transform it into a delicious and highly nutritious food. Assurance of entomologists familiar with local conditions as well as the success of practical apiarists engaged for years here in the industry furnish convincing proof of the existence of most favorable conditions for profitable beekeeping in this district.

The possibilities in this direction have been neglected to a great extent here in the past. Now when patriotism directs attention that way, a widespread interest in the subject is to be expected.

TWENTY YEARS AGO TODAY

Ladies wore bustles.
Operations were slow.
Nobody awaited the fly.
Nobody had seen a silo.
Nobody had appendicitis.
Nobody wore white shoes.
Nobody sprayed orchards.
Cream was five cents a pint.
Most young men had "livery bills."
Cantaloupes were muskmelons.
You never heard of a "tin Lizzie."
Doctors wanted to see your tongue.
Milk shake was a favorite drink.
Advertisers did not tell the truth.
Nobody cared for the price of gasoline.
Farmers came to town for their mail.
The hired girl drew one-fifty a week.
The butcher "throw in" a chunk of liver.
Folks said pneumatic tires were a joke.
Nobody "listened in" on a telephone.
There were no sane Fourth of July electric motors.
Strawstacks were burned instead of baled.
Publishing a country newspaper was not a business.
People thought English sparrows were "birds."
Jules Verne was the only convert to the submarine.
(Exchange.)

WHY NOT A FARMER?

(Idaho Falls Register)

Idaho has had quite a few men in her career as a territory and as a state occupying the executive chair, and in that time has had some good men. She has also had some not so good; and some, maybe, no good. Idaho has had an opportunity to try most all brands except that, probably which is represented by the real farmer of the state. Idaho has had near-farmers in the executive chair, and has had men who have lived for a time on the farm, but soon graduated from the class of productive labor.

Agriculture and live stock, with agriculture in the lead, is the principal industry and source of wealth in the state, and the industry that is entitled to and deserves the greatest amount of encouragement. Why not give it encouragement from its source, the fountain head, by electing a farmer as governor? There are men in this state, many of them engaged in that occupation and business, who have made a decided success of that business and their own lives, and who have made a close study of conditions in the state which require attention at this time. Surely more appeal is being made to the farmer now than any other class so why not give the farmers of the state the real opportunity to guide legislation which will foster, protect and encourage the greatest industry of the state by placing a farmer at the head of affairs?

WHO'S A SIBBY NOW?

(From Detroit Saturday Night)

We wonder what people who have called tennis a "sissy" game—one of them being Mr. William Sunday—think of the fact that eight out of the "Nine Ten" tennis players in the United States have enlisted in Uncle Sam's fighting forces, while the other two might have done so except that one of them is a Jew and the other is working on a government chemical job! Especially, what do they think of this fact in connection with the other fact that professional pugilists and "wrestlers," who are usually held up in the red as blabby sportsmen as the real manly men, have enlisted in about the same proportion as the Bob LaFollettes and the Albert Kayschmidts!

Consign Your Potatoes THROUGH Adams Produce Co.

Established Ten Years

A large amount of potatoes is still in the valley for movement. Some stock is better than others, but all are eatable. It is food that should be conserved and the only reliable way to handle it is through your oldest responsible house, which will see that they

SERVE YOUR COUNTRY

WITH YOUR BRAINS
After all, brains will win the war. Brains find the better ways of doing things. Brains marshal to the utmost the resources of individual and nation. But, brains to win, must be trained. Trained brains consist of 80 per cent common sense and 20 per cent science. But, without the science we lose. For we cannot run an engine which has both. Trained brains, then, will win the war. Trained brains in food production, in the art of saving, in the building of ships, in the manufacture of munitions, in the creation of an army, in the fighting at the front, in the actual discovery of the means to make all mankind humane and free.

The "rule of thumb" spells defeat. The old ways are not good enough. Only straight, disciplined thinking and hard work and obedience to the thought will count for victory. We must attempt more with our brains than in the easy days of peace.

You have the brain power; turn it on to the limit today. Serve your country with your brains.

DR. E. H. LINDLEY,
President University of Idaho.

NOTICE

Meeting of the Twin Falls Ram Sale Association Saturday, February 16, at 2:30, at Farm Bureau offices, Twin Falls, to discuss the annual sale and make plans for the new year.

quarts, of plums; 1000 quarts of apricots; 500 quarts of peaches; 100 quarts of cherries and 100 quarts of pumpkins. They are now canning 6000 quarts of fresh beef, mutton, pork and chicken. This sum total of 47,000 quarts of food will be increased to over 200,000 for next year. The plant will be enlarged and people will plant larger gardens, knowing there is no danger of overproduction.

In practically every industry today the necessary labor is the big question. The Gooding county plant employs seven women and five men, all supplied from the immediate neighborhood. The women are housewives, living in comfortable homes and need not be working. However, there seems to be a fascination in the canning which is so inviting they cannot resist, and consequently they have the most efficient help possible.

That we may in a greater sense appreciate the economy of such a plant, let us consider the 5000 quarts of corn, a product so little canned west of Nebraska. This amount represents 8750 pounds of corn prepared for the table; approximately 20,000 average size ears in the roasting stage. If we figure the value of this corn at 15 cents per dozen ears, which would be a fair profit to the corn producer of Idaho and possibly elsewhere, it would cost 74 cents for the corn and 9 cents for the tin and labor or a total of 16½ cents for a No. 2½ can of corn. The regular No. 2

considerable shipment of feeder hogs would be in demand at the present time. Prices extend from \$13.75 for the pig and thin variety up to \$15.25 for choice heavy feeders.

The sheep department is even more acute in this line than the cattle department. Breeding ewes are in demand at what would seem to be exceptionally high prices, yet the passing of the winter and the approach of harvest time converts an investment almost into a short time loss and one needs apparently but to carry any given amount for six months to be assured a 75 per cent return. The traffic department of the stock yards is busy keeping buyers and sellers in touch with this particular line of stock, the exchange of which seems to see no end.

The following prices obtained in the various departments:

Cattle—Warm feeders, \$8 to \$9.50; two and three year old good beef type feeders, \$7 to \$8; long 1's and 2's, rough type, \$6.50 to \$7.75; mixed breed, \$6 to \$7.

Hogs—\$13.50 to \$14.50.
Sheep—Lambs, \$9 to \$13; wethers, \$12 to \$13; breeding ewes, \$14 to \$22.50.

The following letter received from D. D. McKay, president of the Utah state farm bureau, is indicative of the spirit of co-operation existing between the farm bureau organizations in various parts of the country:

Ogden, Utah, Feb. 6, 1918.
F. W. Alworth,
President Idaho State Farm Bureau,
Twin Falls, Idaho.

Dear Sir:

Permit me to congratulate you upon the organization of the Idaho State Farm Bureau and your elevation to the office of president of that organization.

In this time of national stress, when efficiency in agriculture, as well as in other lines, is highly desirable, it is encouraging to see farmers organize for the part which they are to play in shaping the destiny of this great nation.

Now that you are organized in a state-wide capacity, we feel encouraged and believe that through the co-operation of the Idaho State Farm Bureau and the Utah State Farm Bureau, that the agricultural problems that are coming to both these states, can be solved in a better way than have been hoped for under other circumstances.

Permit me to convey, through you, to your membership, best wishes of the members of the Utah State Farm Bureau for the success of your organization.

Sincerely yours,
(Signed) D. D. McKay,
Pres. State Farm Bureau.

RECIPE FOR PICKLING EGGS

5 pounds good stone lime, 2½ quarts of salt, 1 ounce of saltpetre, 15 gallons of water.

Put the lime in the tank in which the eggs are to be pickled, then pour on the water and stir the water and lime until thoroughly mixed, then add the salt.

Put the saltpetre in a dish and pour on enough hot water to dissolve the same, then pour it into the tank and stir thoroughly.

Stir the pickle twice a day for three days; it is then ready for the eggs. The above formula can be increased according to the amount of pickle needed to fill the tank.

Select good fresh eggs and carefully examine them to see that none are cracked or broken.

Put the eggs in the pickle and if there are any bad eggs in the lot they will come to the top and should be removed. If the fresh eggs should come to the top then the pickle is too strong and should be diluted by adding water until the eggs settle to the bottom.

If the pickle is made correctly there should be a thin ice form over the top of the pickle and if this ice does not form it shows the pickle to be too weak and it should be strengthened by adding proportionately of the foregoing ingredients until the ice will form on the top.

The tank should be placed in the cellar, or some place where the wind cannot blow across the top of the pickle to break the ice.

If all the above precautions are taken

there will be no trouble about the eggs not keeping.

TWO METHODS OF CURING PORK

Hog-killing time is close at hand. It is especially important this year that each family cure an abundant supply of meat. P. F. Trowbridge of the University of Missouri college of agriculture offers two methods of curing pork:

Dry Cure—Do not cut up the pork till the carcass is well chilled. Make a mixture of clean fine salt 40 pounds,

Here's Speedy Relief from Kidney Troubles

"Foley Kidney Pills have done me a heap of good." A. T. Martlett, Brockton, Mass.

Sometimes it seems as if you can no longer bear the pain and misery you suffer from kidney and bladder trouble. The ache across your back grows worse with every move you make, and with every step you take. It not only robs you of all your strength and energy, but it affects the other important organs of the body as well. Nervousness, headache, disordered stomach, liver trouble, bad eyesight, are only some of the conditions that follow kidney trouble.

Foley Kidney Pills help the sick weak kidneys to regain their normal healthy state and activity. When they are again able to do their work effectively, your system is no longer choked and blocked with poisonous waste matter. Your symptoms clear up, your weakness, pain, misery and weakness go away. Foley Kidney Pills can do you also a heap of good.

AUTHORIZES USE OF POTATOES TO CONSERVE WHEAT

TWO OUNCES OF BREAD LIMIT IN EATING HOUSES

SPUDS GET PLACE ON OFFICIAL LIST OF FLOUR SUBSTITUTES IN IDAHO

STATE FOOD ADMINISTRATOR ISSUES NEW REGULATIONS UNDER ACT—CORN PRODUCTS SHORTAGE COMPLICATES SITUATION

Recent ruling of the state food administration in compliance with the president's proclamation of January 27, gives potatoes a place temporarily on the list of authorized wheat flour substitutes, purchase or possession of which on the basis of one pound of substitutes to two pounds of wheat flour purchased is required by a previous ruling for Idaho.

Proportions Authorized.
When regarded as a wheat flour substitute four pounds of potatoes is considered as the equivalent of one pound of the other substitutes, and an order for substitutes to include potatoes in any amount up to 85 per cent of the whole is authorized.

Feasibility at this time to secure in this state an adequate supply of the originally authorized wheat flour substitutes, which include products of corn, oats, barley, etc., is pronounced to be the reason for the modifying order permitting the use of potatoes as a substitute.
Local dealers are unable to supply recently it has been practically impossible to secure delivery of some of the more important articles named in the original lists.

Unfavorable Growing Season.
Nation-wide shortage of corn meal and corn flour, notwithstanding a record production of corn in the United States last year, is one of the principal factors contributing to this condition, it is said. Growing conditions in the corn belts were unfavorable. It is reported, early frosts preventing the complete maturing of the grain with the result that a large proportion of it is unfit for milling.

Traffic congestion preventing the marketing of the corn crop so that a large part of it still remains in the growers' bins, the national food administrator recently stated, is another factor responsible for shortage of corn products.
It is his opinion that governmental operation of the railroads will bring about a condition remedial to the latter phase of the situation, and that reduced prices for corn products will result.

Limits to 30 Days' Supply.
Further orders of the state food administration, transmitted by an order of last week to the county chairmen, provide that in no case must the sale of sugar or flour to any one customer exceed 30 days' supply.

The new orders in full are as follows:
No retailer shall sell flour to exceed one-quarter barrel or one day's supply to any one customer, and no order to exceed one-quarter to one-half barrel to a country customer.

NEW RULES TO RESTRICT CONSUMPTION OF SUGAR AND FLOUR

MEASURES PROMULGATED AS RESULT OF STATE ADMINISTRATOR'S APPROVAL OF REGULATIONS ADOPTED BY HOTELS

Directing the removal of sugar bowls from the tables and limiting the consumption of sugar and bread of each guest at hotels and cafes to two ounces of bread and the equivalent of three cubes of sugar at each meal, food control rules adopted at a recent joint meeting of the Washington and Oregon hotel association committees and approved by the food administrations of Idaho, Washington, Oregon, California and Alaska, copies of which have been received by Governor Hansen and C. E. Munson, county chairman, prescribe the most drastic measures yet promulgated for the conservation of food in this section.

The new rules are as follows:
First—Tuesday and Saturday shall be portless days. Portless meals are to be served between the hours of 11 a. m. and 5 p. m. Conserve ham, bacon, lard and lard substitutes at all times.

Second—Serve two ounces of bread Monday and Wednesday, in each week, and have one wheatless meal, which is the evening meal, every day.
Third—Remove sugar bowls off the table except when requested by the guest and limit sugar service to three cubes or two medium sized lumps or an equal amount of soft sugar.

Fourth—It is urged that all bakers and caterers, in so far as possible, follow the government recommendation as to increasing substitutes and serving them at all times, serving only pies, pastry cakes and sweet doughs containing 10-15 per cent substitute.
Fifth—Serve two ounces only of Victory bread to each guest and if an additional amount is required serve war bread. Assuming that all cracker bakers will in the future use the required substitute, crackers may be used the same as bread.

Sixth—Remove sugar bowls off the table except when requested by the guest and limit sugar service to three cubes or two medium sized lumps or an equal amount of soft sugar.
Seventh—Encourage consumption of potatoes by charging the smallest possible price and making them free if possible and serving extra large quantities, but guard against waste. Use as large a proportion of potatoes in bread making as possible.

When the freight car shortage became serious several months ago, the Broadway Sales company not only found it difficult to obtain shipments from the factory, but had an endless amount of trouble in getting the cars unloaded when they finally arrived in Providence. This was due to insufficient space in the cars to hold the congestion of the railroad yards.

Sales were too heavy to tolerate delays, so the manager of the company decided there had to be a remedy. He brought out one of the oldest Dodge Brothers motor cars he had and went down to the yards to get the car loaded. The car had been used for 20,000 miles of service, it appeared to be practically new. It weighed 5,000 pounds each, "kicking" them up to the platform where they could be unloaded.

HERE'S A SNAP

750 Acres Near Parma, on the Railroad, on the Boise River, with Paid, Decreed Water Right.

This fine, large ranch is one of the best on the Boise river, 2 1-2 miles from Parma, Idaho, and only about 45 miles from Boise. Good roads everywhere, and on the main line of the Oregon Short Line. Located ideally for a cattle and sheep ranch. There is a flowing artesian well at the barn and two springs and the Boise river furnish all the water that could be desired for stock. The ranch is practically all under cultivation except the timber land. There is some timber land, also a little land that has some alkali, but not much. There are 750 inches of decreed water (the second oldest water right on the Boise river) to go with the place, which only costs \$0.05 an acre for maintenance charges. A good 8-room house, barn 24x36 feet, granary 20x40 feet, blacksmith shop, sheep sheds, stone cellar, cement milk house, wood house, and, in fact, everything that is needed for a big ranch. Ten miles of fencing (woven and barbed) on the place. The place is well stocked and the stock may be bought with the place if desired. Here is your chance to buy a stock ranch in the Boise Valley, where the climate, water and feed conditions are ideal for stock raising. Price, \$75.00 per acre. Terms.

Land adjacent to this farm has sold for \$200.00 per acre

It's different from others because more care is taken in the making and the materials used are of higher grade.

FARM MARKETS BULLETIN NO. 21
HAY
Boise, Idaho, Feb. 5, 1918.
Idaho hay is finding ready sale in Kansas City, Omaha, Texas, Oklahoma and Pacific coast markets as fast as cars can be had for shipping. The prices remain good and the demand will continue in Texas until grass comes there to relieve the situation. The Omaha and Kansas City markets will, in all probability, take our hay until the 1918 crop is offered for sale. However, the earlier shipments are quite sure to demand the best prices.

During the month of January there was shipped over the Oregon Short Line system from Idaho, Utah, Wyoming and Montana points 1390 cars of hay. Of this number nearly 1200 were shipped from Idaho, making an increase of about 800 cars over that which was shipped in the same month of 1917. This excellent shipment will not let the growers of Idaho a sum of close to \$270,000 for the month of January alone.

Some of the hay shipped within the past ten days has brought the best prices of the year; yet we are receiving some complaints from various market centers, because of the way in which the hay is baled and loaded. A part of this is no doubt due to lack of understanding by the grower or shipper of proper methods of handling his hay for export trade. It is mainly for the purpose of correcting this evil that this bulletin is written, calling the attention of the growers and shippers to some essentials that they must bear in mind and observe in order to obtain the best results in selling their hay on the open market.

Before selling the hay, the stack should be carefully raked to remove all bleached and damp hay from the sides; all the top, sides and bottom that is spoiled, bleached or damp should be retained for feeding at home. It is ruinous to our hay and market for us to attempt to ship damaged hay, while its full value can be realized, if fed loose at home. Make your bales as smooth and uniform as possible; they should weigh less than a hundred pounds each, to obtain a uniform quality of hay. If you have a standard or second grade hay to market, it should never be loaded with a first-class or "choice" product; even though the percentage of inferior quality be very small, it will invariably necessitate the selling of the entire load at the price of the inferior product; even though the percentage of inferior quality be very small, it will invariably necessitate the selling of the entire load at the price of the inferior product; even though the percentage of inferior quality be very small, it will invariably necessitate the selling of the entire load at the price of the inferior product.

NATIONAL HAY DEALERS ASSOCIATION RULES FOR GRADING HAY
Fancy Alfalfa—Shall be pure alfalfa, fine stemmed, bright green color, with clinging foliage and well baled.
Choice Alfalfa—Shall be reasonably fine leafy alfalfa of bright green color, properly cured, sound, sweet and well baled.
No. 1 Alfalfa—Shall be, if coarse, of light green color or may contain one per cent foreign matter. If of finer stem, being of a medium texture, green in color, but not necessarily as bright as the previously described choice alfalfa, it may contain three per cent foreign matter. Or it may be of fine stem, heavily clinging foliage of a dull green color and may contain five per cent foreign matter; sound, sweet and well baled.
No. 2 Alfalfa—Shall be of any sound, sweet and well baled alfalfa not good enough for Standard and may contain ten per cent foreign matter.
No. 3 Alfalfa—May contain twenty-five per cent stalk spotted hay, but must be dry and not to contain more than eight per cent of foreign matter. Or it may be of a green color and may contain fifty per cent of foreign matter. Or it may be set alfalfa and it may contain five per cent foreign matter. All to be reasonably well baled.
No-Grade Alfalfa—Shall include all alfalfa not good enough for No. 2.

MONEY

We have a quantity of both company and private money to take care of loans of any size for both farm and city property.

Farm Lands, City Property Insurance and Rentals

A FEW REAL BARGAINS IN FARMS

Standard Alfalfa—May be of green color, of coarse or medium texture, and may contain five per cent foreign matter. Or it may be of green color, of coarse or medium texture, twenty-five per cent stalk spotted hay, but must be dry and not to contain more than eight per cent of foreign matter. Or it may be of a green color and may contain fifty per cent of foreign matter. Or it may be set alfalfa and it may contain five per cent foreign matter. All to be reasonably well baled.
No-Grade Alfalfa—Shall include all alfalfa not good enough for No. 2.

RHEUMATIC PAINS

Quickly Eased By Penetrating Hamlin's Wizard Oil
A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Willard's Wizard Oil. It penetrates the joints, drives out soreness, and limbers up stiff aching joints and muscles.

With the Red Cross Work At Home and Abroad.

A LITTLE RED CROSS WORKER
I'm awful busy working for
The Soldier-men in France;
I mean to make them a lot of things
If once I get the chance.

I've made already one face-cloth,
And knitted it myself;
But daddy said it's a mistake—
'Twas lying of the shelt.

And I started on a sweater—
I would have got it done,
But Ethel May showed me her scarf
And then I started one.

It's brown and very warm and nice,
I'm proud as I can be;
My needle came to me as
And finished it for me.

I've started wristlets and a cap,
Some wooden stockings, too;
I think it's very interesting
To start off things—don't you?

—From St. Nicholas.

Beginning February 12, Lincoln's birthday, and continuing until February 25, Washington's birthday, enrollment work will be carried on to bring all of the children of the country into the Junior Red Cross membership. It is a movement to combine in this membership the patriotic activities of all school children. Superintendent Elmer G. Hines has charge of this drive. Assisting him on the membership committee are Miss Britton, Miss Superintendent J. M. Marckel of Moscow, Superintendent H. M. Broadbent of Hollister, Superintendent J. E. Stubbins of Hansen, Superintendent R. A. Goans of Murtaugh and Superintendent J. Downing of Kimberly. Miss Wolfe will have charge of the common school districts and the independent school districts will be organized under the direction of the superintendents of those districts. Superintendent Bliss feels confident that he will find a place for each of the 6000 buttons furnished him for this drive.

There was a meeting Wednesday afternoon at the high school of the local Junior Red Cross. This committee is composed of Miss Maxwell, chairman, Professor Downman, Miss Hewitt, Miss Murray and Miss Ridenour, principals of the four schools. Miss Perkins, supervisor of art, and Miss Margaret Crossland, the sewing instructor, have been added to this committee. This meeting was held for the purpose of outlining the more important features of the Junior work.

Soldiers at Camp Lewis are now supplied with garments of all kinds. From now on all knitted goods from here will be sent direct from Seattle to our boys in France.

Mrs. Edwards, who has been taking a course in surgical dressings under an able instructor in Seattle, will return to Twin Falls early next week.

Mrs. McRoberts and Mrs. MacVicar visited the Murtagh auxiliary last Saturday. An enthusiastic meeting was

held and lunch was served to about 25 ladies. Murtagh not only supplies its quota but asks that more work be given them.

Word has been received from Boise that the surgical dressings made in Idaho are already being used in France.

One hundred layettes are nearly completed. About seventy-five have been furnished from the Red Cross funds, the rest donated.

Mrs. Donmore, chairman of the Rock Creek auxiliary, is a patient at the Boyd hospital.

The following articles have been shipped this week from the sewing department: 165 suits of pajamas, 205 bed shirts, 50 tape bed shirts, 375 hand-kerchiefs, 110 suits of underwear, 45 pairs bed socks, 30 convalescent robes, 40 bed coats, 27 sweaters, 42 pairs socks, 8 helmets and 14 pairs wristlets were started and completed in a week's time.

Five hundred garments have been cut and the electric cutting machine is a little over a week. This machine can cut as many as fifty thicknesses at one time.

Current events department of the Twentieth Century club has made and donated 8 complete layettes numbering 273 articles.

There are on exhibition and for sale at the sewing rooms three comforters. These have been donated to the Red Cross and the price asked for them is very reasonable. There are also a few rag rugs left, made from scraps left from the cuttings. The small ones sell for \$1.50.

FIFTY-ONE GRADUATE FROM EIGHTH GRADE

A list of the 51 graduates of the eighth grade in the city schools who qualified for admission into the high school at the beginning of the second semester in January includes the names of 27 girls and 24 boys, as follows: Frances Barga, Wayne Beckley, Lyall Bolton, Vera Brown, Emily Bryant, Opal Butler, Raymond Chandler, Dollie Chandler, Vera Cook, Irene Costello, Donald Cook, Vernon Day, Harold Decker, Albert Distill, Margaret Dorey, Ross Ellingford, Forrest Finney, Benjamin Finkbe, Rollo Gehring, Melvina Glenn, Ray Harbert, Alfred Herrold, Eula Hutto, Fay Humphrey, Jennie Huddleston, Russell Husted, Hester Jewett, Joseph Jewett, Chester Kerr, Gertrude Kunkle, Texas Lamb, Laura Lewis, Chris Miller, Frank Needham, Clyde Noble, Clarence Norris, Thelma Paffley, Golda Pears, Virginia Price, Henry Quast, Ernest Rasmussen, Shelby, Hazel Smith, Harold Strandy, Ralph Vernon, Martha White, Evaline Wick, Gladys Wisbeck, Rosy Windle, Anthony Young.

FOR EXCHANGE—Job printing for cash. Work is like your money—the best. Twin Falls News.

Improved Dairy Methods Early Result of Cow Testing Association's Work

JANUARY RECORD

Number of cows tested 483
Total amount of milk produced 12,548
Total amount of fat produced 12,473
Average test 3.2%
Average cost of feed per head \$8.13

A great many of the new members of the Pioneer Cow Testing association are showing greater interest in the dairy end of their business since beginning testing, according to report of the official tester for the month of January. The result is that there is a marked difference in the management of their herds. A great many cows are found to be unsatisfactory with only two or three test and many of them are being sold to the butcher or some less progressive dairyman, and higher priced cows of productive quality are being sought, but the supply is limited, there being few tested cows of merit for sale.

LOCAL BASKETBALL TEAM BEATS HEYBURN

GAME HERE ENDS WITH A FINAL SCORE OF 22 TO 23 AGAINST THE VISITORS

Twin Falls Team, on Own Floor, Displays Capability Accumulated During Month of Training—Big Crowd Attends the Contest.

The basketball tusslers of the Twin Falls high school completely outclassed the Heyburn five on the local floor on Friday night. The game was attended by a big crowd and the high school band considerable pep was injected into the affair. The score at the end of the first half was 22-10 in Twin Falls' favor, and the game ended with the score of 22-23 chalked up against the visitors.

On a good floor the Twin Falls five had an opportunity to liberate some of the basketball that has been gradually accumulating in their systems the past month of training, and they came out in good shape. The first half was marked by particularly fast floor play, accurate passing and caging of the ball. In Newman Twin Falls has a player who is conceded by coaches of southern Idaho to be the stellar forward in the game. Captain Glasgow has improved his game greatly, getting the lip-off for his man and shooting baskets consistently. Lavender at running guard has speed and puts fight and punch into his game. Shooting plays the floor well and is improving in his basket shooting. I Strong is a bear at standing guard on defense and breaks up the opposition's offense repeatedly. Hodges and Carter, subs, have played good ball whenever opportunity came for them to enter the game. Norman Barker of Filer officiated as referee, Denman of Twin Falls as umpire.

Report Game Next
The team will meet the Rupert five Friday night in the local gymnasium. Rupert claims the basketball leadership of south-central Idaho because of the support accorded their team on their floor, and by virtue of games won on their home floor. In fact, Rupert has already asserted her claim for the basketball championship of south-central Idaho, and since Twin Falls has aspirations for this honor, the game here Friday night will undoubtedly be hotly contested to the final whistle.

SALE AT KIMBERLY

C. L. Pittman, who recently sold his Kimberly property, is disposing of his stock and various farm equipment and household goods at public sale Thursday, February 27, at the Kimberly ranch. H. B. Lue is the auctioneer and L. H. Walden, clerk.

Makes Clubbing Arrangement With

The Idaho Farmer

Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Idaho farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE IDAHO FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE IDAHO FARMER, will be entitled to receive THE IDAHO FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Idaho agriculture, do not miss this unusual opportunity, but send your order in now.

THE IDAHO FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Idaho. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

Think of this with reference to the Hudson Super-Six

Fifty thousand cars sold in the past two years
Only 15,000 available this year

Thousands are bound to be disappointed this year for they won't be able to get a Super-Six. During the active buying seasons there has never been enough Hudsons to meet the demand. Imagine then what must follow this spring, now upon us, when people will want cars. Automobile production has already been curtailed at least forty per cent under last year's output.

Passenger train schedules have been cut one-fifth. More and more now we will have to rely upon the automobile as a means of transportation. There simply will not be enough cars to meet the demand. And just see how the Hudson especially will be affected with its reduced production.

Never before has it been so important that the motor buyer be so particular about the proved qualities of the car he chooses. Thousands upon thousands of the best motor mechanics have left their regular employment to go garage and service stations throughout the country to give their skill to the repair of aeroplanes and motor truck engines. The man who has a car requiring frequent mechanical attention will be greatly inconvenienced. There will not be the skilled

men to make the repairs. That is another reason why the Super-Six must be the choice car. Its reliability is so well established that buyers who appreciate the importance of having a car that does not call for constant mechanical attention will soon take up all we can build.

Review in your own mind the history of the Hudson Super-Six as you know it.

Think of what it has done as proof of its endurance. You must know intimately the performance of from one to a dozen Super-Sixes. They are always on the road. Their owners almost never postpone planned trips because of some unexpected necessity for the car to go into the repair shops. They are just like proved and reliable timepieces which go on day after day and month after month doing the things they were built to do and doing it without obvious effort.

Bear in mind that any automobile is going to be hard to get before the season is past because of the reduced production. Then think how difficult in particular it will be to get a car of such demonstrated reliability as the Hudson Super-Six.
