

AIRPLANES AND BALLOONS DOZEN

Forty-three German
planes brought down
in two days—
tens of bombs
dropped on enemy
positions

LONDON, July 3.—Forty-three German planes and three observation balloons were accounted for Monday, Monday night and Tuesday, according to the official aviation communiqué. Eight British planes are missing. More than thirty-five tons of bombs were dropped on enemy positions during the night. On July 1 our planes were very active," the statement said. "Twenty-five German machines and three German balloons were destroyed during the day and fifteen other hostile airplanes were driven down out of control. In addition, two large hostile night flying machines landed behind our lines. Eight of our machines are missing."

AMERICANS HOLD POSITIONS WON

PARIS, July 3.—Another German counter-attack on the new western line position at Vaux, west of Chateau-Thierry, failed yesterday, the French war office announced today. The German offensive was repulsed after a heavy fight. The French advanced nearly half a mile on a two-mile front, taking 220 prisoners.

SAYS KAISER IS ALL RIGHT

SO PRIVATE FUHRMANN WILL
FOY IN FIVE YEARS AT
HAND LABOR
CAMP DODGE, Iowa, July 3.—"I think the Kaiser is all right," said Private Max Fuhrmann, of Berlin, N. D., a member of the German army. "The general court-martial convicted him of uttering disloyal and seditious statements and sentenced him to five years at hard labor at Fort Leavenworth. He also is to forfeit all his rights and must forfeit all his allowances due him or to become due."

AMERICAN BALL PLAYERS IN LONDON ARE PREPARING FOR OLD TIME FOURTH OF JULY

LONDON, July 3.—American baseball players who will take part in the Army Navy baseball game here tomorrow have a regular old-fashioned Fourth of July. They will have lunch at the Sports Ground and will be entertained by the British.

CHICAGO PROFESSOR OF ECONOMICS SAYS GERMANY IS BANKRUPT NATION TODAY

CHICAGO, July 3.—Chicago financiers today had the figures of J. Laurence Laughlin, professor of economics at Chicago university, to back approval of America's position of waiting war money by export.

ANNOUNCEMENT

Because of the fact that July Fourth is one of the days of the year when men are asked to lay aside the customary tasks and assist in due and proper celebration of the events which the date commemorates, there will be no issue of the Daily News on July Fourth. Bulletin service at The News office will be maintained as usual.

PRESCRIBE SAME DOSE FOR ALL INTRACTABLES

FARM BUREAU WOULD DISCIPLINE BOTH EMPLOYEE AND EMPLOYER DISTURBING CROPS

A resolution asking the state council of defense through its county organizations to bring proceedings similarly against the farmer who demoralizes the general plan of crop production and conservation by refusal to abide by the adopted scale of farm labor wages as against the laborer who holds out for higher wages, was recently adopted by representatives of the farm bureau organizations of the Idaho counties west of Pocatello as assembled at a meeting Saturday at Gooding by W. F. Alworth, of Twin Falls, president of the state council of defense, and a member of the state council of defense.

Scale Stackers' Pay

The meeting also adopted, with certain modifications, the scale of farm labor wages and scale of prices to be charged for grain threshing, originated in and adopted by the Twin Falls county farm bureau. The modification in the farm wage scale provided for a daily wage of \$3.50 instead of \$3 for hay stackers, other hay hands to receive \$3, and in respect to the threshing scale, it was left to each of the several counties represented to amend or alter the piece to fit the local conditions.

Shows Tax Injustice

Toward the close of the meeting, former Governor Frank E. Gooding introduced a resolution addressed to members of the Idaho legislature, in Congress calling for a more equitable basis of taxation as regards Idaho farmers than is provided for in the tax on freight way-bills. Under this measure, Mr. Gooding said, the Idaho farmer is taxed 4 1/2 per cent on his grain crop, whether it is actually loaded or not, while the middle western farmer pays only 4 1/2.

The action of the Gooding meeting is applicable only to the counties represented. Similar action in respect to the counties of eastern and southeastern Idaho is expected as an outcome of a meeting in session today at Idaho Falls.

From Economist's Viewpoint

The Twin Falls county farm bureau was represented at the Gooding meeting by Mr. C. Mitchell, secretary and principal of the Twin Falls high school, who during the summer vacation is assisting in the labor department at the local farm bureau office. Mr. Mitchell was especially interested from the standpoint of an economist in the discussion at the meeting relative to the farm labor wage schedule. "It was apparent to me," he stated on his return, "that the farmers were not particularly concerned in the amount to be paid to farm laborers. The fundamental purpose of the scale, to stabilize labor conditions, was that the employer might be assured of adequate labor supply and the employer be assured.

"DEVIL DOG" AND "BLUE DEVIL" TOGETHER

The American on the left is United States marine. Fifts, after his first clash with him, dubbed him a "devil hand," which is perfectly good German for "devil dog." The soldier on the right is a member of the Chasseurs Alpins, whom the Germans have called "blue devils." Both marine and chasseur have willingly accepted the appellations.

YOUTH ACCUSED OF FORGERY RETURNED

HANS T. JENSEN UNWITTINGLY APPEARED OFFICERS OF HIS WHEREABOUTS IS ARRESTED

Hans T. Jensen, a young man who claims to be a former United States soldier, was brought back at noon today in custody of Probation Officer John E. Ang, from Redmond, Utah, to answer to a charge of forgery. Jensen was previously convicted in district court here of passing a fictitious check for \$200 and was paroled by District Judge W. A. Edwards on June 18 to the probation office. On the afternoon of the same day, according to the new complaint against him, Jensen forged the name of H. B. Walters to a check on the First National bank in the sum of \$70, which he passed at the Idaho Department store, making his getaway from Twin Falls a few hours later.

The whereabouts of the alleged offender was known to the officers who had made persistent search for him until Friday last when he addressed a note from Redmond, Utah, to the local draft board asking for his clear, since papers in order that he might be enlisted in the navy. When asked before the court on the prior charge, Jensen gave his age as 19 years. The fact, however, that he has registered under the draft regulations, proves him to be over the age of 21 years and he will not be paroled if convicted of the offense with which he is now charged.

After passing the check at Buhl, Jensen attempted to escape to Utah, and was overtaken and brought back from Contact, Nevada, by Deputy Sheriff J. F. Baymliff.

Good to Whistle or Sing

Of course the fellow who whistles at his work is likely to annoy someone near him who is nervous and irritable, but the whistling is a good omen. Singing awakens the emotions, and whether a man can carry a tune or not, something breaks loose inside him—something gives way and permits him to enter more heartily into any service or celebration, provided he, too, can lift his voice with the others.

BRITISH COUNTER WINS WITH THE BRITISH ARMIES IN FRANCE, July 2.—A British counter attack, delivered shortly after midnight, is believed to have driven the Germans from the point where they obtained a foothold northwest of Albert yesterday.

Don't you want it? Advertise it in the Classified Column and get rid of it.

story from one who is cutting prices. Farmers know they are paying the going price and can expect first-class work.

A cut is unfair to both. The prices are based on facts and are fair to farmer and threshermen alike.

It makes for efficiency all the way through. The most efficient nation, Germany, sets efficiency among her farmers by putting them under military control. American democracy can equal Germany's military efficiency only by teamwork.

Forty Days' Work on Wheat According to the farm bureau there are 90 threshing machines in Twin Falls county and it will take them 40 days with an average run of 1200 bushels per day to thresh the wheat crop this year, not including other grains.

NEW RULES FOR SUGAR SAVING

FOOD ADMINISTRATION REQUIRES CLOSE CHECK ON ALL PURCHASES

Regulations of the national food administration made necessary by the sugar situation which has become serious as a result of the sinking by German submarines both of cargoes in transit from Cuba and of ships intended for use in bringing sugar from abroad, are outlined in telegraphic orders received by County Food administrator C. H. Jensen from State Food Administrator R. F. Blackwell as follows:

Remove Sugar Bowls

Issue orders immediately requiring the removal of all sugar bowls from tables in hotels and public eating places.

Order all dealers in selling sugar to customers to keep complete records of all sales in a separate book kept for this purpose showing the names, dates and amounts. These records are to include not only sales for home canning, but all sales under the two and five pound limitation.

Notify dealers to make inquiries of all purchasers of sugar of canneries, purchase elsewhere to guard against duplicating purchases.

Notify householders that their sugar purchases will be checked up.

Shutters Under Six

Again repeat that the manufacture and sale of sashers and water less must be discontinued.

Sugar for canning purposes will be available in excess of 25 pounds by special permission from the county food administrator, by showing the amount of fruit actually on hand available for canning purposes only over the signature of the grower who has the available fruit for canning and preserving. The intention of the department is to cut down on non-essentials in order to save our fruit which must be cared for when in condition to can.

Bakers Get Flour

Bakers will be allowed to purchase flour for all purposes, 10 per cent of the amount of flour used by them during the quarter of May to June, 1917, for their requirements for this quarter ending July 31.

Bakers must be using at least 25 per cent substitutes in baking bread, and preferably more and 35 to 40 per cent and preferably more in pastry.

SALE OF PROPERTY AT ARTESIAN REPORTED

A. L. Houghtaling Buys D. B. Moorman Farm and Water Developing Water From Deep Well

ARTESIAN CITY.—It is reported here that D. B. Moorman sold the Old Workman, built recently to A. L. Houghtaling, also included in the sale was Mr. Moorman's interest in the tract of ground on which the well was drilled causing the law suit between the owners of the tract and J. E. Bamer, owner of the Artesian well. It is probable that the new owner will develop the water started by Moorman and Parks.

WARN AGAINST CHOLERA SPREAD

FEDERAL INSPECTORS DISCOVER FIRST CASE OF HOG MALADY HERE IN 14 MONTHS

The first outbreak of hog cholera in 14 months in the Twin Falls district was reported Saturday to Dr. W. A. Sullivan, inspector in charge of the bureau of animal industry hog cholera control investigations in Idaho, from the farm of H. B. Laird, one-half mile west of Twin Falls. At the time the report was made, seven animals out of a herd of 29 had died from the malady. The serum treatment was administered to the remaining members of the herd and there have been no subsequent deaths. The treatment was administered by Dr. W. S. Docker, deputy state veterinarian, and inspectors of the local bureau of animal industry station.

Premises Quarantined
It is believed that infection was carried to the Laird farm by an animal recently purchased from a public stockyard. The premises have been quarantined and neighbors have been warned of the presence of the malady in their vicinity.

Dr. Sullivan, who has directed the campaign instituted here in the summer of 1915, which has resulted in practically wiping out the hog cholera plague from the state, again calls attention of farmers at this time to the necessity for extreme care in guarding against any possible source of infection.

Keep Strangers Out
"It is unwise," he says, "at this time to permit strangers to visit the swine pens. The spread of hog cholera may be accomplished easily by one deliberately set on that purpose, and the loss of thousands of dollars to farmers and of the diminution of a source of food supply needed by the nation would result."

The federal inspectors last week were called to investigate 15 cases of disease among herds of swine in which hog cholera was suspected. Presence of the malady was discovered only in the herd on the Laird farm.

ROCK CREEK OVER THE TOP
ROCK CREEK—in the W. & S. drive which closed Saturday, Rock Creek District with a quota of \$5,000, went over the top \$1,000.

Mrs. Anna Calmrose motored to Jerome Thursday business.

L. C. Washburn was in Jerome transacting business Thursday.

C. G. Jackson of Twin Falls was in Buhl transacting business Saturday.

The members of the family circle enjoyed their annual picnic at the Kams Grove Friday.

Fifty women and children were present. A short business meeting called

THE FIRST INFANTRY GUNS WEIGHED 75 POUNDS

FOOT soldiers began to carry firearms about 1350, huge, clumsy guns weighing from 25 to 75 pounds. Mere hand cannon, iron or copper tubes, they were leveled by a forked support, and fired at a touch hole.

With the invention of the wheel-lock arquebus, in 1517, the first self-firing gun, the musket, was a quick step.

Like the first guns, automobile tires, when Goodrich began to develop them, were crude, clumsy affairs, and it's a long, long road of improvement to the symmetrical—

GOODRICH SERVICE VALUE TIRES

The history of the last twenty-two years of The B. F. Goodrich Rubber Company is pretty much the history of pneumatic automobile tire.

But whether Goodrich was bringing forth America's first clincher tire, or America's first cord tire—

Goodrich built tires to but one end—SERVICE VALUE to the user—the worth of the tire to the motorist on his car and on the road in comfort, economy, dependability and durability, and mileage.

That is why the tire user to-day gets the utmost SERVICE VALUE in GOODRICH SILVERTOWN CORDS, and BLACK SAFETY TREADS.

Demand SERVICE VALUE TIRES.

DIPLOMACY

No matter what the eventual outcome may be, the fact is that Senator Borah is in a position to open the eyes of the nation to the old-time method of diplomacy. He has opened up a new field for thought. As to whether or not a broad peace treaty, making could be successfully carried on under a broadened and absolutely reliable protection by between nations and one thing could be said, that of this method of diplomacy it is that some very different results would be obtained by this method than have resulted in the past from the method of secret diplomacy employed by the various diplomatic corps of the governments of the world. There is a room for question as to whether the present war would ever have been fought had the matter of the diplomatic corps been left to the people to settle rather than to the diplomatic corps. The question of the diplomatic corps and the present war is a question that has not been asked, but it is a question that has been asked in the past. The question of the diplomatic corps and the present war is a question that has not been asked, but it is a question that has been asked in the past. The question of the diplomatic corps and the present war is a question that has not been asked, but it is a question that has been asked in the past.

Let Us Put A Diamond Tube In Your Hands

WE invite you to come to our store for a test!

We want to put a Diamond Tube in your hands, have you feel the quality, try to stretch it, or give it any other test.

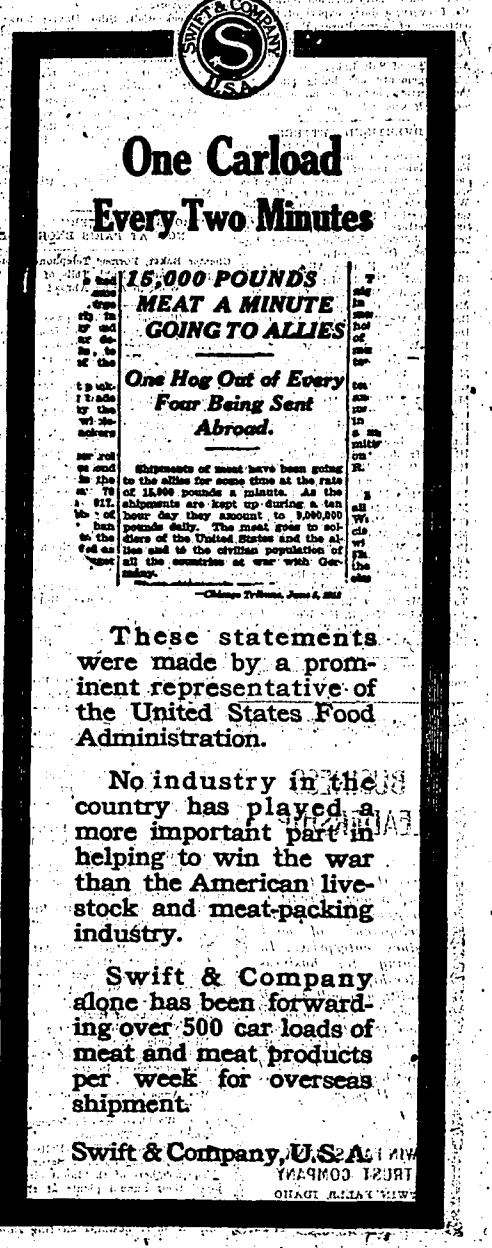

Then you'll understand why Diamond Tubes outwear cars, not tires. You can put a Diamond Tube under the seat or in your casing and it will hold its life for years.

Even if you get a puncture, it can be patched time and time again.

Diamond GRAY TUBE

Put a Diamond Tube in a Diamond casing and you have the ideal tire equipment.

actual transactions. Daily reports will be made on distribution and quantities of livestock, meats and other products from principal packing plants.

Food Conservation Committee much enthusiasm was manifested at a state meeting of the five District Home Demonstration Agents and the two County Home Demonstration Agents held at Boise, Idaho, last week. The demonstration agents listened to the reports of the Idaho workers, and gave them valuable suggestions, what other states are doing, along conservation of food, labor, time, money, health and clothing. Her message carried the necessity for broadening our vision of war work, of mutual helpfulness, of responsibility. She commended the spirit of the Red Cross, but emphasized the fact that more people were starving for lack of food than are suffering from wounds. Here lies the problem of the women of Twin Falls County to conserve, enough for the people of this county to eat, and the amount of vegetables and fruits do not waste. Are we doing all we can? How many women of this county are canning, drying, salting, and storing home vegetables for their own use for the winter? Can we decrease the 750,000,000 cans of vegetables that were shipped in this country last year? This problem of conservation of food is being continually worked on by the many loyal housewives. We now need a report of their service in order that they may receive the same credit and that their neighbors may receive the inspiration from their efforts, and that the Food Conservation Committee may have some idea how the volunteer service of conserving food is being adopted by the Twin Falls county women. Reports for food conservation are now being worked out and we hope to have a definite summary to make very soon. Miss Doneck believes that the women in her county are doing splendid work, has found several women using wheats, yeast breads, and such showing excellent cooperation in their work.

The showing at the week of demonstration was excellent, and is a good start for some future constructive work. At the Murtough demonstration Mrs. Fickert was left in charge of food conservation work with a committee of three to work with her. At Kimberly Mrs. Harry Wilson, did very efficient work with her. At Kimberly Mrs. Harry Wilson, did very efficient work in canning and encouraging every one to be present at the demonstration, and at that time she was elected by the county community to continue to act in that capacity.

Mrs. Hilliges is acting in that capacity at Hansen, as elected by the community.

This cooperation is manifest through out the county and is gradually being perfected.

The third week in June two of the State Demonstrators were in the county and gave demonstrations of "wheelbarrow" breads and cakes and cottage cheese at Murtough, Kimberly, Hansen, and Caldwell. "The conditions weren't all very favorable and the bread wasn't as good as in the days when we could get all wheat, but then we will have to change our ideas of good bread and we can if it means our boys can fight better. But it seems we can get the most out of these demonstrations by giving recipes to each other and getting together. These demonstrations don't pretend to know much more than we do and they expect us to help them as much as they help us. Let's have some more 'get together'."

This is a letter which Miss Doneck was glad to receive and have published.

THIEVES BREAK INTO AMSTEREAM STORE

TRIO OF ACCOMPLISHED THIEVES
ARRESTED ON ROBBERY—
HOOD AND SAFE OPENED

Burglars Saturday night entered the Amsterdams Cooperative Mercantile store at Amsterdam, 22 miles south west of Twin Falls, and took \$63 from a safe together with some merchandise. There was no alarm through the alarm which was unlocked by the burglars. The combination lock of the safe, also gave way before the drill of the intruders. Three men who came to the Amsterdams at noon Saturday and were still Sunday morning are suspected of the theft. Sheriff John M. Kendall and Deputy Sheriff John M. Beck spent Saturday and Monday in search of the thief. One party of three men was arrested but they proved their innocence.

Source Division Open—The space production division of the military semiotics corps is open for volunteer assignments, according to news received by the local United States army in a circular station. Men in this branch of the service are sent into the field to get out spruce and pine for the manufacture of airplanes.

More John "Harry" Ward has been received here that Fred Keller and Jule Ogden, both of Twin Falls, who have been in Salt Lake for some time, and are now in the army.

ASKS COUNTY TO TAKE BOTH SIDES

OPONENTS TO FILER HIGHWAY DISTRICT BILL COUNTY

Having previously appropriated \$200 as one-half of the attorneys' fees for carrying to the supreme court for the promoters of the proposed Filer highway district, an appeal from an order of the district court here restraining the calling of an election for the creation of the district, the county commissioners Monday were presented with a request for an appropriation in a similar amount to defray one-half of the attorneys' fees and costs taken by those whose complaint was the basis for the issuance of the restraining order, and who are named as the appellees in the appeal to the supreme court.

Brings in Bill

The request was tendered in the form of a bill against the county by Michael A. Thompson, one of the attorneys of the complainants for the restraining order. It was presented by J. F. Martin, associate of E. M. Wolfe, legal advisors to the appellees.

County Attorney Frank L. Stephan advised the commissioners against allowing the bill. "It is contrary to all rules for one party to be the financial backer of both the plaintiff and defendant in a suit," he said.

"It is relatively a matter of indifference to us whether our claim is allowed by the commissioners or not," Mr. Martin said. "We are going to see to it that the claim of the promoters of the highway district upon the county for attorney's fees is not paid by the county anyway."

The question of the validity of proceedings preliminary to the calling of the proposed Filer highway district election is at issue in the case before the supreme court.

Want to be Let Out

Opponents to the calling of the election object to the claim that they ought not to be included within the boundaries of the proposed district (as the reason that their holdings are contributing tributary to Twin Falls).

The attorneys, retained by the promoters of the highway district are J. F. Martin and E. M. Wolfe, both of Twin Falls.

COUNTY CHARGES ARE IN NEW HOSPITAL

COMMISSIONERS PERSONALLY MOVED AGED AND INDIGENT INTO COMFORTABLE QUARTERS AFFORDED

County Commissioners T. E. Moore of Filer and W. F. Brewer of Hansen, Monday personally moved eight inmates of the county institution for the deaf and blind, from quarters previously provided in the building known as the Cottage Inn at the corner of Second avenue and Second street south, to the new county general hospital, where comfortable quarters have been provided for them. One of the inmates who had been in an ambulance, his condition rendering it impossible for him to be moved otherwise.

Eight inmates, aged and indigent, have been housed in the new hospital. J. H. Swan to Mexicans who will conduct a hotel in it.

GRADE IMPROVEMENT TO BE FINISHED SOON

Within the next ten days the work of surfacing the grade on the south side of the canyon at Shoshone falls, which is progressing under direction of Superintendent Calvin Owens with 20 men and eight teams employed, will be completed up to the top of the rimrock, and the restrictions against travel over the grade will be removed according to the statement of County Commissioner W. F. Brewer of Hansen, in whose district the work is being done. The work was begun on the west side of the canyon at the bottom of the grade, and has been progressing upward. Gravel, lava, rocks, prepared by a big crusher in operation on the ground, is being distributed over the roadbed to an average depth of nine inches.

Engineer to the City—Lambert Day, son of County Surveyor and Mrs. Edwin M. Day, writing from Salt Lake states that he has been accepted for enlistment in the United States navy and that he expects to qualify as a naval radio operator. He will return this week to resume his school and into the service.

and other noted dairymen will be here

TRUSTY MAKES DEADLY ATTACK

BASIL KEY ASSAULTS NIGHT WATCHMAN ROBS VICTIM AND ESCAPES WITH OTHERS

Basil Key, 16, who was committed March 6, 1917, from Twin Falls county to the state industrial school at St. Anthony, Saturday night, "hampered John W. Dickson, night watchman at the institution, into a state of insensibility, robbed him of his money and keys and then opened up one of the dormitories and released Bert Skidmore and James Fraser, both inmates of the school from Twin Falls. The three are believed to have stolen a new automobile and made their escape. Late Sunday night they were still at large. Dickson is in a critical condition at the hospital.

Got Pay, He Said
The attack upon Dickson was made with a blunt instrument as he was making the rounds of the institution. Key, who had been acting as night engineer for several months at a small salary, was considered one of the most trustworthy inmates and would shortly have been paroled. "I am getting \$1000 for this job," he is alleged to have said as he struck Dickson.

Fraser and Skidmore also were considered among the trustworthy inmates of the institution, and Superintendent Williams is at a loss to understand the motive actuating such desperate measures.

Key was charged with being incorrigible and delinquent, when committed by the probate court to the St. Anthony institution. Skidmore was under sentence upon conviction of a statutory offense, being sentenced in the district court here in February, 1918.

Doing Good
Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delmore, Ga., says of it: "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."—Adv.

MUST WAIT LONGER TO BECOME CITIZENS

Two Germans, Residents of United States for Years, File Petition

Petitions for naturalization as citizens of the United States have been filed in the office of E. J. Finch, clerk of the district court, by two sunny aliens who must wait until the close of the war for their second papers. One of the applicants is August Fred Krueger, a prominent farmer of Kimberly, who came to the United States on April 1, 1909, and the other is Miss Katherine Geng of Twin Falls, a nurse, who left Germany coming to the United States October 1, 1916, with her parents at the age of six months. Mr. Krueger was born in Leppa Detmold, Germany. He is 38 years old and is the father of several sons, all of whom were born in this country and all of whom are citizens of the United States. Essen, Germany, is the birthplace of Miss Geng.

ONE LOCAL YARD IS WELL SUPPLIED

COUNTY FUEL ADMINISTRATION THOMAS POINTS OUT SINGLE ISOLATED INSTANCE

One local firm of coal dealers had coal for sale when reports of others were made for the recent statement of County Fuel Administrator C. D. Thomas that there was no coal to be purchased in Twin Falls. Williams & Shankel reported, when the statement was issued, that they have in their yards here between 500 and 600 tons of coal for sale, and that they have not yet had to turn down an order.

Mr. Thomas stated this morning that the instance is an isolated one, and gave it as his opinion that the reserve supply would be wiped out quickly when people were advised of the impending shortage likely to result from diversion of the cars for crop movement beginning about August 1.

Cause of Despondency
Despondency is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and move the bowels.—Adv.

WAS JUST ABOUT READY TO GIVE UP

Tanlac Overcomes His Trouble—Says He's Never Been So Mental

Statement after statement is now being made about Tanlac, the medicine that is being so widely discussed and distributed throughout the country and which is accomplishing such surprising and gratifying results.

Earnest Edmunds, who resides at Cedar St., Seattle, Wash., recently told of the wonderful results of Tanlac in his case, and said:

"I don't believe anybody ever suffered worse from stomach trouble than I did, before I began taking Tanlac. I have had it so bad at times during the past three or four years that I thought I would go distracted. I simply couldn't digest anything and what little I did manage to eat, would lay in my stomach like lead. My food would invariably sour and the gas formed by it, would rise up into my chest and almost choke me, and the pain would almost draw me double. Sometimes when these spells struck me I felt like I would never pull through. I couldn't half way do my work, and was barely able to pull through the day. Fortunately for me my job is one where I can work three or four days and then lay off several days, otherwise I doubt if I could have held on so long as I did. I slept so poorly that I got no rest at all and just as I was just about ready to give up entirely.

"The day my wife brought me my first bottle of Tanlac I was lying on the bed and almost dozing up with pain. The first few doses made me feel better. I have taken two bottles now, and have never found anything like it, although I have tried about everything I ever heard of. I have not had a pain or a sign of indigestion since. I finished my first bottle, my appetite is great and I eat and digest just anything I want. I sleep like a rock every night and can do my work as well as I ever could. I don't know how much I have gained in weight, but I do know there's a wonderful change in my feelings and I am telling all my friends what Tanlac has done for me. So I'm speaking from experience when I say I believe it will help. Tanlac is the best medicine out, and I can recommend it because I believe anybody who gives it a fair trial, will say the same thing about it.

Tanlac is sold in Twin Falls by City Pharmacy, in Rogers by The Oregon Drug Co., in Moscow by the Montana Drug Co., in Filer by A. B. Wood, in Buhl by C. D. Boring Brothers Co., and rest and felt so bad that I was just in Kimberly by A. L. Stowe.—Adv.

BEGINS HANSEN SPAN SURVEY

SUPERVISING ENGINEER R. M. MURRAY STARTS PRELIMINARY WORK FOR BRIDGE

R. M. Murray of Billings, Montana, the engineer retained by the Hanson Bridge commission to supervise the building of the rafter to zinc-coated steel suspension span across Snake river near Elsie, arrived here Saturday to begin at once the preparation of detailed surveys for the work. It is stated that material for the bridge is in transit from the factories, and, according to statement of a representative of the Midland Bridge company to which the contract for construction has been let, the work will be completed within six or seven months after it is started.

VOLUNTEERS LEAVE TO BEGIN TRAINING

Night Twin Falls County Men Take Advantage of War Department Instruction Course

Eight volunteers from among the registrants of Twin Falls county and one man from Challis, Idaho, left here this morning going to Pocatello, where they will enter a technical training course under supervision of the war department at the Idaho Technical Institute to fit them for most efficient military service. Following are the Twin Falls registrants: Evan Lees, Don Linville, O. Arthur Henderson, Edward A. Henderson, Archie Byrd Siglin, Leo Roy Walden, Geo. Busch, all of Twin Falls, and William Lawson Lockhart of Kimberly. Benjamin F. Bates, who accompanied them, registered at Challis, but his parents, Mr. and Mrs. J. C. Bates, are residents of Twin Falls.

Evan Lees has been foreman, and Don Linville an employee of the Johnson Auto Sales company here.

Chamberlain's Colic and Diarrhoea Remedy
Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of your family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost, when needed.—Adv.

Always in the market for bald alfalfa hay. Highest cash price paid at all times. John Fiske, phone 22.—Adv.

RUPERT SOLDIER IS WOUNDED IN ACTION

(Special to The News)

RUPERT—Donald Johnson of this city, a member of the One Hundred Sixteenth regiment of engineers with the American expeditionary forces in France, has been wounded in action, according to a cablegram received from him Wednesday by his mother, Mrs. Ella Nettleship. He stated in his cablegram which was sent from Vicksburg, France, that his wounds are not serious. He was evidently in the fight in which George Marshall of this city, another member of this regiment was killed, but was not wounded until later.

Money to loan on improved farms. Lowest interest and best repayment privileges. Irrigated Lands Company. Classified Ads are cheap—effective.

ROBINSON'S

WRITING ADVERTISEMENTS is not an easy task for me and I am reminded of the man who met a friend, and on asking him where he was going he replied, "I am going to town to get drunk and My! How I dread it."

WRITING ADVERTISEMENTS is a serious thing with me as I feel that they must be worth reading and truthful even to being exactly correct, and tell you of something that is here that will make it worth your while to come to the store.

The business of this store has increased to such an extent during the past few months that I have felt that the prices and quality of the goods had become such an established fact that much advertising was unnecessary.

SPECIAL SALES are again "Budding Forth" and in the advertisements one will read it is made to appear that the "dear public" is to be greatly benefited. I know and you know that merchants are in business for selfish reasons and when prices are changed it is because they believe the goods will not sell at the prices marked.

There is something wrong with store purchases or store management or store merchandise that brings about the making of special prices at this time. Desirable Merchandise is too hard to get and is worth more each month and is carried to warrant sacrificing.

REMEMBER last winter when there were several "philanthropic" sales being put over and I stepped in and made some prices that were worth while, we will have "another little party" and sell a few things that will furnish music for the entertainment.

Women's and Children's Underwear

Good quality Children's Muslin Drawers, well made, worth a quarter on today's market, but you can get them here 2 pairs for 35 cents.

Women's Nainsook Gowns

Soft finish Cambric Corset Covers and Drawers, daintily made and trimmed with lace or embroidery, wonderful value at \$1.00.

Boys' Black Seamless Hose

Good Strong ones, Good Black, not a thing the matter with them except the price, sizes 6 to 8-2. 3 Pairs for 50 cents. Limit, three pairs to a customer.

Children's Gingham and Crepe Rompers

In checks, stripes and plain colors. The kind that wash well, look well, and wear well. Good style and good looking. Every one worth 75 cents, but you can buy two here for 75 cents.

Girls' Fine Rib Black Stockings

The good dye kind. Splendid quality. Regular clean stock. No Job Lot, worth 25 cents and cheap at that. But to make a "little music for the entertainment" you may have them in sizes 5 to 7-2 at 2 pairs for 25 cents. (Limit, 4 pairs to a customer.)

Men's, Women's and Boys' Shoes

Perhaps you need a pair to carry you through till fall. Well, here's your chance to buy a good sensible pair of Shoes, not a lot of narrow widths in odd sizes, but a good lot of good Shoes at the ridiculous price of \$2 a pair.

Infants' White Bonnets

Good quality dotted Swiss, with strings and ruffles, assorted sizes at 15 cents each.

Buttons for Wash Dresses

Just the thing for lawns, ginghams and other washable fabrics, come in different colorings. Regular 10 cent kind but yours for 1 cent a dozen.

Sewing Silks and Button Hole Twist

Like many other small items are higher, but you can buy the best quality here for 8 cents and 4 cents a spool.

Stand Covers and Dresser Scarfs

Extra good quality, embroidered corners. Covers 30x30, scarfs 18x50 both with (pique), hemstitched edges. Wonderfully good at 65 cents each.

Feather Stitch Braid

White in assorted designs. Just the thing to trim aprons and dresses. Comes in 4-yard pieces, 2 for 5 cents.

Edward Robinson

INTERNATIONAL MOTOR TRUCKS

The transportation problem, it has developed during the past year, is the most difficult with which the country is confronted.

In the moving of troops, munitions, foods, fuel, building supplies, the railroads of the country have been severely over-taxed.

This over-taxing, it is evident, is to continue. Throughout the eastern states, where manufacturing plants are located close to points of general assembly, the motor truck has been and is taking the place of the railroad.

It is in this way that the Goodyear Tire & Rubber Company of Akron, Ohio, has been delivering its goods to the Government as far away as Boston, Mass., a distance of more than 750 miles.

The necessity for motor trucks—and then for more trucks—explains the activity of the International Harvester Company in their manufacture.

The International Truck is the best truck—light in weight, low in price, simple in construction, economical in operation, and reliable in performance.

FINDS BOOZE IN CAR ABANDONED BY DRIVER

Sherrif Kendall Took Charge of Cargo of 114 State of Whisky—Wanted for Arrest Deceased

Incidental to his search for the burglar who entered the Amsterdam Co-operative Mercantile store at Amsterdam Saturday night, Sheriff Frank M. Kendall Tuesday morning discovered off the road in the highbrush about five miles north of Twin Springs, Nevada, an abandoned car containing four cases of 34 pint bottles of whisky, besides four quart bottles of booze. Warrant had been issued for the arrest of Gus Benson, who was observed by the officers driving the car toward Twin Springs. The magneto of the car failed to operate, preventing Benson's return to the city. The booze was brought to Twin Falls and placed under lock with the balance of the confiscated liquor in the sheriff's warehouse.

Permanent Hair Dressings.
If you desire to shape your hair or fixings together permanently, thoroughly clean the parts to be treated and cover the threads with a strong solution of salt and water. The salt will give the threads enough adhesion to the parts.—Popular Science Monthly.

Idaho Theatre

Fascinating Screen Facts

Glynnis Bremer, the beautiful Australian girl, who gives such a sympathetic interpretation of Nell, in J. Stuart Blackton's famous Paramount picture, "Missing," which will be shown at the Idaho theatre next week, had a difficult time when she decided to become an actress. As soon as her parents in Sydney, Australia, learned of her ambition they packed her off to the back country of Australia, where she stayed at her father's sheep ranch, and had as playmates the aborigines, crocodiles, and lizards of the neighborhood. But Miss Bremer grew tired of these attractions, so she ran away and was given a small part in an Australian stock company. After that her rise was rapid.

The new Mary Pickford production, "The Little American," has been aptly termed, "the state-of-the-art picture of the photography art." Easily conceded to be America's favorite daughter, "Our Mary" offers a most fitting characterization of the girl from the U. S. A. in a subject that has particular bearing on the present situation.

One of the most recent arrivals to the leading circles of feminine film favorites is Katherine MacDonald, who supports Charles Ray in "His Own Home Town." She is one of the most beautiful women on the screen.

Charles Ray is now working on "A Nine O'Clock Town," by Victor Sjöström, who is also directing the picture. Jane Novak, who has recently been supporting Bill Hart to such good advantage, plays the leading feminine role.

FORMER TWIN FALLS GIRL TO WED OFFICER

Engagement of Miss Helen Shepherd to Lieutenant G. Ragsdale to be Announced at Trinidad, Colorado

Announcement of the engagement of Miss Helen Shepherd, daughter of Dr. and Mrs. John P. Shepherd, formerly of Twin Falls, to Lieutenant J. G. Ragsdale, adjutant of the Seventh battalion, depot brigade, at Camp Lewis, Washington, is made in the issue of

June 24 of the Chronicle-News, published at Trinidad, Colorado, where Dr. Shepherd is the pastor of the First Presbyterian church. The wedding is expected to take place at the home of Miss Shepherd's sister at Portland, Oregon, the latter part of July.

Postpone Meeting—The Country Woman's club meeting has been postponed from Thursday afternoon, July 4, to July 11. The members will meet with Mrs. Joe. Wallington.
