OPPOSES MARCH AND BAKER ON NEW DRAFT LAW

Chairman Dent and Members of House Military Committee Stand Pat Against the Wishes of Administration

LEADERS SAY DENT'S POINT UNIMPORTANT

Claim Draft Would Get 18 and 19 Year Old Men Anywhere Inside of Year—Proposition Has Serious Objections

WASHINGTON, August 23.—Congress today showed aside all other tasks and took up the great man power bill. Leaders in both houses tend to speed passage of the bill providing men for America's program of smashing the German war machine. Standing out against the views of Chief of Staff March, Secretary of War Baker and other department experts, Chairman Dent and other members of the house military committee are prepared to fight for the amendment providing that men of 18 and 19 be left out of the service until the last. The general view of administration leaders is that Dent and his backers have raised a relatively unimportant point.

Has Objectionable Features

Even if the 18 and 19 year olds were held until the last it is contended they will be in service within a year. One objection to letting Dent and his friends have their own way as others in congress see it is that it would prevent sending the older and younger men and will make the earlier drafts under the new law, men from 21 up, while in later calls all the boys would be together.

A much more desirable condition would be to mix the older, steadier men, with the ardent, impetuous boys, war department officials say.

Complicates Draft Process Another objection is that it will involve much more work for draft authorities in view of provision for classifying the younger men in two classes.

However, the new draft plan is adopted the worst that will happen will be interference with the program and not the destruction of it.

Amendment Causes Trouble The other controversial point in the bill is the anti-strike amendment called, which the senate committee inserted. Much doubt exists concerning just what Secretary Baker thinks of this amendment. Baker's latest statement is that it simply carries out a policy always followed by the department, that of denying industrial assistance to a man the minute he quits working in an indispensable capacity in an indispensable industry. Even though those senators who are strong friends of labor declare they will vote for the amendment, on the ground that it will prevent any one class of men hampering or holding up the nation's war program while all other groups and classes are working at top speed to aid it.

Hurling Shells at Huns Satisfying Job for Gunners

Lieut. Arvin D. Rounds of Twin Falls Tells of Experiences in Zone of Action

Other satisfactions fade beside the joy of hurling big gun shells forward and reeling back a perfect hit, signaled back according to Lieutenant Arvin D. Rounds of Twin Falls, who has been at the battle front in France as an artillery unit since July 14, according to letters received Tuesday by his parents, City Treasurer and Mrs. H. E. Rounds.

The first letter, under date of July 10, stated that he expected to move up to the zone of action soon. The second letter, dated July 19, brought the word that his unit had been in action for five days with brief intermissions for rest.

It is presumed that Lieutenant Rounds' unit was engaged in the action in the region of Chateau-Thierry.

Indian Name Survived The survival of the original name of Cuba is a remarkable instance of persistence, as the island has been baptized and rebaptized many a time since its European discovery. Columbus first called it Juana, in honor of Prince John, the son of Ferdinand and Isabella. After Ferdinand's death it was called, in his memory, Ferdinand. Subsequently this name was changed to Santiago, after St. James, the patron saint of Spain. Still later it was named Ave Maria, in honor of the Virgin Mary. But none of these names held, and the Indian name is still preserved.

Have Smile Coming For The Help Rule the Air

It is very likely women will never receive full credit for the big part they have and will play in the winning of the world war—because the women's war duties usually are so far removed from the cannon, front and the hero's zone. Here is another example. At the rule the air is vital artery of the world's story. England is in

MANY KILLED AND INJURED BY TORNADO

Tyler, Minnesota, Practically Wiped Out by Death-Dealing Storm—Rescue Parties Hurried to Scene of Disaster

FLORENCE, Minn., August 23.—Deaths variously reported from 20 to 50 and the destruction of the entire business district of Tyler, Minnesota, were reported here today following a tornado there last night about 9:30. All wire communication with the city was severed. Railroad officials, endeavoring to send relief parties, had reports that 25 were killed and nearly 100 injured. A heavy casualty list was expected because the storm occurred at a time when the business streets were crowded. Most of the wrecked buildings were of brick.

Rescue Says 25 Dead

Relief parties by train and automobile were rushed from Pipestone and Florence, Minn. Hundreds of farmers hurried to the scene. Three bank buildings, five general stores, the fire barn and many residences were reported destroyed. E. Anderson, returning early today from a relief expedition, said 25 bodies had been recovered from the debris in the business section of Tyler.

The storm first struck two miles east of Elton, S. D., proceeding in a southeasterly direction.

Anderson, after working all night in the ruins of the wrecked village, estimated that the death-loss would be more than 50.

Hospital Patients Killed

Eleven patients of the Tyler hospital were killed when the storm completely destroyed the hospital, Anderson said. He personally helped to take some of the bodies from the wreck of the hospital, which was on the second floor of a bank building.

The heaviest loss of life in one single place was at the Farmers State Bank building, where the storm caught several prominent business men in a conference in the bank, regarding the Lincoln county fair. Five persons, including E. E. Christiansen and E. D. Nelson, were killed there.

Die on Church Steps

Three bodies were picked up from the steps of the Catholic church today. It was apparent that these persons had been lifted from the ground in the business district and carried two blocks, being thrown against the steps of the church to die.

Mrs. Peter Sanden and her daughter were killed in their home. Rescue workers dug into the ruins of their home and brought out their bodies. The mother died standing over her daughter, apparently trying to shield the girl.

Jim Snel, who works at Tyler, was lifted from the main street of the village and thrown into the wreckage of the bank building, Anderson said.

Miss Erickson, a clerk in the business district, was killed while on route home from the store in which she was employed.

AMERICA'S SPEED IS SURPRISE TO ENGLAND

British Ambassador to United States Commends Quick War Work

WASHINGTON, August 23.—"America's entry into the war making all doubts and fears of making victory for the allies certain, but we never imagined America could take such a splendid part so quickly," Lord Reading, British ambassador to the United States, declared in an address at the luncheon club.

Being officially denied the prevalent rumors of an Anglo-American offensive and defensive alliance.

PRIVATE COMPANY LOSES ONE MAN

Private Mark Nocco, Sergeant, Is First of National Guard Unit Killed in France

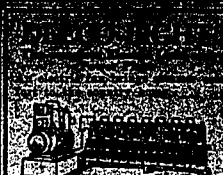

(Special to the News)

BUHL—Word has been received here of the death in action in France on July 15 of Mark Nocco, a member of the Buhl unit of the Second Idaho regiment, which was converted into a machine gun company for overseas service, and with which unit he served on the Mexican border in 1918. Private Nocco was a native of Serbia and had no relatives in this country. He was 28 years of age. He had lived for eight or nine years in Buhl, where he has many friends who are saddened by the news of his death.

ATTEMPT RETURN FLIGHT ACROSS LAKE MICHIGAN

Military Aviators Lost Several Hours, But Will Try Again

CHICAGO, August 23.—John T. McCutcheon and Lieutenant T. B. Hammond, military aviators, were to attempt a return flight today across Lake Michigan, despite their accident of yesterday when they were lost in mid-lake. Engines trouble forced their biplane to descend to the water, where they were buffeted for two hours, when they started for Michigan. Finally resuming flight, they found their compass refused to work. They at length reached shore at Grand Traverse bay, far to the north.

U-BOAT SEIZES TRAWLER

British Steamship Trawl Seizure Operating in American Waters Have Mother Ship

AN ATLANTIC PORT, August 23.—The steamer trawler Tripping, of the North Atlantic Fisheries company, was seized by a German submarine yesterday, according to the crew which reached shore in safety.

The submarine put an armed guard on the trawler. The belief that raiders are supplied from a mother ship are strengthened by a report of the seizure of the Tripping because it is necessary to renew the trawler's supply of coal every ten days.

RETURNS INDICATE DEFEAT OF VARDAMAN

JACKSON, Miss., August 23.—Complete returns early today indicate the defeat of United States Senator Vardaman's primaries. The vote in 38 out of 39 counties show Congressman Harrison leading Vardaman by more than 10,000 votes for the senatorial nomination. Scattering returns from the remaining 20 counties indicate that Congressman Harrison will continue to gain, and it is predicted that the final count will show a majority of from 25,000 to 35,000 votes for the congressman.

Opportunity Calls Successful Farmers to Capay Rancho

What Successful Farmers Have to Say About Capay Rancho

"I never saw such good grain anywhere, even in the Dakotas."—J. M. Ashley, from Idaho and South Dakota.

"I was in barley fields that average waist high."—G. A. Pratt, from Wendell, Idaho.

"I would not turn this place down for any place I have seen in this state."—W. S. Norris, from Imperial Valley, Cal.

"We are writing our Imperial Valley friends to come up here where living is worth while."—J. P. Elsenhio, from Imperial Valley, Cal.

"We saw non-irrigated barley that should yield 20 to 25 sacks per acre."—Geo. D. and T. B. Courtney, from Dayton, Wash.

"We found everything here better than represented."—J. H. Stout, from Yakima, Wash.

"The water proposition is fine and the climate great."—J. K. Sheppard, from San Diego county, Cal.

The greater production of foodstuffs is one of the first and most important essentials to winning the war. The world is clamoring for every pound of grain, and fruit, and pork and beef and other foodstuffs the American farmer can produce.

The market is unlimited, and prices are high. The farmer is king.

It behooves the wise farmer now, above all other times, to apply his efforts where he has reason to expect greatest results.

A little more than a year ago Capay-Rancho was one great undeveloped grant. Today you will see here some of the finest and most thrifty farms in all California. Soil, water, climate, every condition combines to make Capay Rancho famous for its wonderful crops of grain, fruit and other food stuffs.

Electrically Operated Pumping Plant on Every 80 Acres

The water proposition is unique. The price of the pumping plant, completely installed, is included in the price of the land—\$175.00 an acre. The water is pure and healthful. The supply is in excess of all needs. It is always immediately available. You merely throw the switch and the water comes.

There is a wonderful opportunity here now for the farmer who is ambitious. Crops are almost inconceivable, and the price of the land is away below what similar land is sold for in other sections of California.

IDAHO'S REVENUE BILL PRESENTED

Measure Emanating at Twin Falls Is Introduced in Both Houses of Congress

Word has just been received from C. A. Marland, Twin Falls, Idaho, author of the war purchase stamp act, that his stamp act was presented on August 19 in the House of Representatives by Representative Addison T. Smith of Twin Falls and in the Senate by Senator W. B. Borah. The official revenue bill was changed in Washington to meet the requirements for federal conditions.

Mr. Marland advises that the way the bill has been changed by the powers that be in Washington is even more than he dared to expect. Last week in a conference with Chairman Kitchin of the ways and means committee, others that were present at the conference expressed surprise at the deep interest shown in this war revenue measure by Chairman Kitchin. Senator Borah openly expressed the opinion that it is an excellent bill and will very likely meet the government financial requirements in 1918. Senator Nugent was very deeply impressed with the bill, but owing to the fact that he is a member of the senate finance committee cannot at this time give a public expression for or against the bill. However, Mr. Marland avers that the entire Idaho delegation has given more favorable assistance than he had dared to expect. He states that he cannot add enough in praise for the efforts of everyone of the Idaho state delegation in his behalf.

NO RESTRICTIONS ON SALE OF SKIMMED MILK

Idaho Session Laws Provide for Marketing of Product Now in Demand, if Properly Labeled

There has been some difficulty in getting skim milk because of the fear of violating the law in regard to the sale of milk not containing the prescribed amount of butter fat, says County Agent Donald McClelland.

For the benefit of those wishing to buy or sell skimmed milk for making cottage cheese and for other similar uses, this matter has been taken up with the pure food administration in Boise. In the session laws in regard to milk, chapter 109, section 21 of the year 1911, it is expressly provided that milk not containing butter fat may be sold, if sold as skimmed milk.

FIT TO FIGHT

Somewhere, travelling about the country of the mission of education, there is a film, the title of which is "Fit to Fight." Its exhibition is authorized and endorsed by the United States Government and its mission is to teach people that a clean and healthy body is a wholesome and a Christian thing. It has been shown in Portland and a few nights ago was exhibited in Salt Lake City. The subject matter deals with certain facts and features of life and hygiene. Its object is to bring out into the clear light of day a knowledge of the care of the body and a more accurate understanding of the penalty for failure to exercise this care.

There is all too great a tendency to regard, as disgraceful, and therefore unmentionable, certain diseases which as a result of an ignorance amounting almost to superstition, have gained frightful headway in America during the past decade or two. Young men sent into the world without the slightest idea of the nature and pitfalls of life as it is, have fallen victims by hundreds and thousands. The public attitude towards the entire subject has operated to close the paths of a return to normal health and the hereditary transmission of the disease through generations following has created a condition which is horrible and indeed disgraceful.

Possibly the public viewpoint has been strengthened by the fact that young men and women have been taught for years by well intentioned but shortsighted teachers in every walk of life to be ashamed of their bodies. This may not have been the primary purpose of the lessons but it was the result arrived at. Modesty in speech and action has been carried to a point of artificiality which has caused other evils. Every instance of natural expression has been frowned and discouraged. Ignorance has been made to take the place of natural modesty, and a free, forceful and confidential exposition of the great inner facts of life for the benefit of the young man or woman entering upon life's estate, is almost unknown.

"Fit to Fight" would teach wholesome things which should be taught individually in the privacy of the home, yet this method constitutes the only way. In the years to come it may not always be necessary for the Government to step in to perform for the people the things which they should do for themselves, but years of false reasoning have brought about a condition which cannot be undone in a day.

There must be more light and a better understanding of man's life and man's mission on earth. A truer knowledge of sex hygiene and a perfect willingness to understand and impart that knowledge to others. And there should be no such thing as a disgraceful disease. The disgraceful feature of the curse of disease lies in the unwillingness of the people to drag the facts of its existence and propagation into the light of day and exterminate both cause and effect at one and the same time.

HUB HOSPITALITY

There seems to be at least one similarity between Kultur and advanced civilization in America.

Our standards, in polite society, require that with the hearing of our host, we speak in highly complimentary terms. The Huns are applying this well recognized principle to those of our boys who happen to be obliged to partake of their hospitality. When the boys write letters to the folks at home it is quite necessary in order to avoid delay in transmission, that they refer to the excellence of the treatment accorded them, and assure the home folks that they are having a delightful time.

That the German prison authorities should insist upon the observation of these nice points of etiquette is quite reassuring to those who feared that our boys were in just the right atmosphere.

IN A HURRY

It is reported that the American Red Cross is planning to send a large contingent of nurses to the front.

ten have not the good sense of their English sisters in the matter of securing women's suffrage, on a nation wide scale in this country. According to current press dispatches the ladies are at it again, only this time their activities are on a rather broader scale than ever.

The idea that alienating status, holding frank pardons and generally behaving like a lot of juvenile inmates escaped from a state industrial school in any manner impresses the world with their desirability as members of the voting body is not one which suggests itself to the average man or woman. As matters now stand all America is willing the women be given the ballot, and in due time women will be, but at a time such as this, demonstrations of the character now being indulged in do the women's cause far more harm than good and excite a sort of mild contempt for the leadership which condones this sort of campaign.

To be sure women should have the ballot, and in no state of the Union is there a greater unanimity of willingness that they should have it than in Idaho, but Idaho women are not apt to endorse a line of conduct on the part of the workers which makes the women's party a laughing stock and interferes no matter to how slight an extent with the war program of the administration and the line of work mapped out for Congress.

The best way for the womanhood of the country to assist at this time in the furtherance of the design of national suffrage for women would be to denounce the leaders of the movement at Washington with telegrams, telling them to remember that they are American Women and behave themselves.

A DEVILISH THING

Of all the diabolical crimes in the calendar at this particular time that of destroying foodstuffs ranks among the worst. It seems incredible that there could be persons with in the state of Idaho of so vile a nature as to resort to practices of this kind, yet there is evidence that something of the sort is going on. Reports from Grangeville, in central northern Idaho indicate that certain destructive fires were of incendiary origin. Thousands of dollars worth of grain, hay and straw have been destroyed and the citizens are of the opinion that a certain element among the German sympathizing population is responsible for the crime.

The thing is simply damnable and the temper of the average man is strained to the breaking point in contemplation. In the event of a capture it would probably take a good deal of work on the part of the county peace officers to protect the very life of such a miscreant. Heroin lies the main danger. This is no time for mob violence or for the slightest deviation from the straight and narrow path of strict legal procedure, yet there are men in plenty who would forget every obligation to law and society and apply their own punishment without a thought of the larger consequences or a single twinge of conscience.

If such practices are really being indulged in, and the facts appear to indicate that they are, it is devoutly to be hoped that the proposition is nipped in the bud and that a long term in the penitentiary constitute the full extent of the penalty.

"It ain't the individuals
Nor the army as a whole,
But the everlasting team work
Of every bloomin' soul."

Kipling in the above was talking about men, while the subject of our song is both men and machinery.

Just at the present time THE FRANKLIN, America's greatest automobile, is under discussion.

Its superiority over all other cars is a matter of team work—in the planners, builders, sales force and managers of the company; and also and perhaps chiefly the co-ordination that has been brought about between the different parts of the same somewhat complex and difficult to understand mechanism.

The Franklin is made up of independent and interdependent parts or factors. Each perfect in itself—standardized to a rare degree—each is also an integral portion of a perfect whole. That should supply an excellent definition of an automobile, exactly as it does of any army.

Team work is the word. The Franklin is made for certain purposes. It must travel the good and bad roads alike—quickly, safely, comfortably, economically in operation. It must resist wear and tear. It must maintain continuing value.

To secure these virtues, not desire for success but conscience must be woven into the fabric of its being. Just as in an army that may look well in camp, on the march and on parade, but fails in effectiveness when subjected to the acid test of conflict.

The Franklin meets this acid test, or any other that may be prescribed. The reader would do well to call at the showrooms at any time, the Gooding Motor Company has a Franklin—they are hard to get just now—and look it over. Ride in one awhile. The salesman won't have to describe its virtues. The machine will do that.

THREE DAYS' THRESHING

FILLS KIMBERLY MILL

Wheat Moving to Market in Steady Stream—Best Yields 55 to 60 Bushels

KIMBERLY.—What is coming to market at a good rate now. It took only three days to fill the local elevators, but as cars were waiting on the siding they were filled and the grain taken care of. Unless a large number of cars can be secured continuously the farmer will be handicapped in disposing of his crop from the machine. The yield is not up to expectations as a whole. Some few places averaged from 55 to 60 bushels per acre, but most of it going around 40 or less.

Mr. and Mrs. E. D. Merritt are staying in Hazelton now, where he has charge of the Farmers' Grain & Milling Co.'s elevator.

SAYS SUGAR MAY BE

TAKEN FROM TABLES

The sugar situation in Twin Falls county promises to become a serious one if the prediction of C. H. Munson, county food administrator, is fulfilled. Mr. Munson stated Tuesday, in discussing the shortage: "There are about 4,500 pounds of sugar left in the county, averaging less than two pounds per capita. This supply must last until September 1, and the border towns of other states continue to send to Idaho for their supply the almost will be exhausted long before that."

"Twenty-eight million pounds of sugar have been sunk by German U-boats in the last sixty days, and in order to make up for this loss the amount per capita has been cut from one-half to one-third ounce per person per meal and before the end of the month may be eliminated from the oil of fish entirely."

COUNTY AGENT TALKS ON WHEAT MARKETING

Answered List of Questions
Proposed by Farmers

Meeting at Murtagh Friday evening with 42 farmers of that district in response to their request, County Agent Donald McLean conducted a grain grading demonstration and answered a list of 13 questions propounded relative to the marketing of grain under government regulations this year. In reply to these questions, Mr. McLean quoted the federal bureau of markets, to the effect that payment in settlement of accounts for grain shipped by farmers was not to be expected short of from two to four months time, and also that the shipper was required to accept the weight and dockage determined at the

terminal. He estimated that the expense involved in waiting for payment for grain shipped by the farmer would amount to 1.5 cents per bushel per month.

Unless the dockage were as high as four per cent, the county agent advised, there was nothing to be gained by the grower in securing the return of the dockage. He argued that the dockage contained only a relatively small quantity of wheat, but was made up for the most part of weed seed, and was undesirable even for feeding poultry.

Chronic Constipation
It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.—adv.

AWAIT ORDER TO END RECRUITING

**Soldiers on Duty in Twin Falls
Welcome Possibility of a
Return to Action**

Guided by advice received Tuesday that the army recruiting service is likely to be closed on or before September 10, officers of the Twin Falls station have applied for transfer into various branches of the army for active service.

Welcomes Active Service
Sergeant Claude C. McGee, a veteran of the Philippine wars as a member of the medical department, has applied for transfer to the pilot hospital at Fort Douglas, Utah. Corporal Leonard Brimley, who enlisted nearly two years ago and was detailed at once to duty in the recruiting service, has renewed his application for transfer to the aviation section of the signal corps, which was denied some time ago on the grounds that he was needed in his present position. First Class Private O. B. Pyth, formerly a member of the Twentieth infantry regiment, serving with that organization in the Mexican punitive expedition, has not yet received the branch of the service into which he will ask to be transferred, but expresses pleasure over the possibility of overseas service.

Official Memorandum
The memorandum transmitted through headquarters at Salt Lake for the recruiting service in this district, in respect to the possible closing of the recruiting service, is as follows:
From information received at this office it appears certain that the recruiting service will be closed and the men on duty transferred by September 10, if not before that time. This information is being forwarded to give all men an opportunity to make application for transfer to some branch of the service of their preference. If transfer to some special unit is desired it is requested that immediate application be made through the regular channels and the endorsement recommending approval will be given applications.
This action will also serve to enable those at stations to get their affairs in such shape that there will be no delay on account of personal matters when orders for their transfer are received.

**SUSPENDED IMMIGRATION
RULES FOR REFUGEES**
WASHINGTON, August 22.—President Wilson today asked congress to pass a resolution admitting to this country refugees from war-torn lands which would suspend immigration rules in their case.

LOCAL BRIEFS

Will Tour Yellowstone—Mr. and Mrs. Glen Jenkins and Mrs. F. E. Snook left Tuesday for a two weeks' tour of Yellowstone park.

Undergoes Operation—Zenas W. Smith, one of the proprietors of the Royal bakery, was operated upon for appendicitis at the Twin Falls general hospital Wednesday.

On Camping Trip—Dr. and Mrs. H. W. Sawyer and Mr. and Mrs. Ernest White left today for a several days' camping trip in the Lost River country.

Back from Hunting Trip—Dr. C. D. Weaver and Charles Flowerdew returned Tuesday evening after a several days' hunting trip in the China creek country west of Salmon river.

To Accept Registrations—Guy Swape, registrar of Precinct No. 1, will be at the offices of the Sanger Realty company every day between now and the primary election with the exception of Saturdays, to make registrations.

Change in Postal Force—Victor White, who has been employed for some time at the post office, has resigned his position and will return to the City Pharmacy, where he was previously employed. Jule Gagle will fill his position at the postoffice.

Three Charged With Drunkenness—City Police Officer D. F. Redman on Wednesday evening here arrested three men who have been entered on the police court records under the names of Mike Ryan, Tom Moran and "Baldy" to answer to charges of being intoxicated.

Tire Explosion Breaks Hand—While changing a tire on his car Wednesday afternoon, Les Stiles, residing on South Main, had his hand seriously injured, one finger being broken and the others badly torn when the tire blew up, shattering the rim which had become rusted.

Return from Outing—City Street and Water Commissioner J. J. Pilgrimage and William Graham, with their families, returned Wednesday evening after a two weeks' camping and fishing trip on Wood river about 15 miles above Ketchikan. Snow fall is the title of that district on Tuesday and Wednesday mornings is reported by them.

Spends Furlough Here—First Class Private Roy Eklund, a member of the army medical department stationed at Jacksonville, Florida, is spending a few days' leave of absence here. He was detailed to duty taking him temporarily to California and is returning home to his station in Florida. Prior to his enlistment eight months ago Private Eklund was engaged for several years in farming here.

Is Held to Answer—Bert Kelson, convicted after a preliminary examination in probate court here Wednesday afternoon, was held to answer in the district court to a charge of illegal sale of liquor, which was filed against him after his arrest here Tuesday night by Police Officer Frank Egan. Kelson was admitted to bond in the sum of \$600 which he furnished. He is accused of selling a quart bottle of whiskey to John Dillon, who is a witness against him.

Go to Camp—George W. Cohan, of the Twin Falls, left here Wednesday evening to enter the military service at Camp Fremont, California. On the way back the contingent of

Owyhee county, where he is a registrant, enroute for Camp Fremont. Mr. Cohan was reclassified, being moved ahead from second to first class. He was allowed a few days' time in which to dispose of his ranch interests before reporting for duty.

PERSONALS

Joe Putnam returned Wednesday from Idaho Falls where he went last week to drive down a car.

Mr. and Mrs. E. A. Talbot and Mr. and Mrs. Rex Thomas have returned after spending two weeks on Wood river.

Mrs. C. A. Craig and daughter Rozelle of Burley spent Wednesday here.

Mitchell Johns of Hansen was a business visitor Wednesday.

Mrs. Edna Deane of Rogerson visited friends in Twin Falls Tuesday and Wednesday.

B. E. Martelle of Gooding transacted business here Wednesday.

Leo Peterson of Rogerson stopped in Twin Falls Wednesday.

M. W. Campbell of Burley stopped in Twin Falls Wednesday.

Mr. and Mrs. B. B. Smith of Murtagh spent Wednesday here.

C. H. Holmer, the cement contractor, is spending several days here.

Miss Florence Melser, bookkeeper at the Idaho Department store, has returned to duty after a week's vacation.

POILUS INVITE LOCAL GIRLS FOR GODMOTHERS

Companions in Arms of Twin Falls Soldiers Address Their Friends Here

Several popular Twin Falls girls are in receipt of letters written by French "Poilus" requesting them to become their Godmothers, assuring them of their good intentions and pledging loyalty to the United States. The letters are written in the French language and by boys who have become comrades of the Twin Falls boys in the service in France.

A POWERFUL AID

When you feel sluggish and nervous, tired and indifferent, you have the first symptoms of declining strength and your system positively needs the special nutritive food-tonic in

to replenish your blood power, enliven its circulation and bring back the snap and elasticity of good health. Scott's Emulsion supplies Nature with the correct building-food which is better than any drug, pills or alcoholic stimulants.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

GRAIN STORAGE BINS

LET US BUILD YOUR GRAIN STORAGE BINS
FIRE PROOF—RAT PROOF—WATER PROOF
OF EVERLASTING CONCRETE
Our Idaho Factory is located at Buhl, and we are in position to start prompt erection

These bins were built by us three years ago for the Corinne Milling & Elevator Co., Corinne, Utah, and have given complete satisfaction. Each bin has a capacity of about 5,000 bushels of grain.

Write us for prices, stating capacity of bins desired.
