

MID-EUROPEAN FEDERATION IS LIKELY RESULT

Formation of Chain of Small States Extending from the Baltic to the Black Sea Is Under Discussion

REPRESENTATIVES HERE TO DISCUSS PROBLEMS

United States Stands Semi-Officially as Sponsor for the Federation of Oppressed Nations

WASHINGTON, Oct. 3.—Formation of a mid-European federation to consist of a chain of small states extending from the Baltic to the Black Sea, is under discussion here, it was learned today.

The United States, semi-officially, will sponsor the movement. Headquarters of the committee for Allied European federation are to be opened here this week. Representatives of the peoples will confer tomorrow over "unimpossible" problems presented by the scheme. The federation is to fight on a reconstituted eastern front, is being organized as a step in fulfillment of President Wilson's program of liberation for all oppressed peoples. It is said to spell defeat for Germany's ambitions in the east during the war and will be incorporated into the world league of nations at the peace conference, according to the present program.

Jugo-Slavs, Czech-Slovaks, Italian irredentists, Poles, Ukrainians and Rumanians in America, are battling to move. They hope to induce their countrymen in Europe to join them.

More Are Expected Later, Poles, Lithuanians, Estonians, Greeks and even the Bulgars people may join in the movement, its leaders say.

Sixty million people in Europe are affected. Ten million of their countrymen in the United States are being urged to start formation of the federation. Military revolution in the war against Germany, is regarded as essential to the success of the scheme. Every nation joining the federation must recruit its power to fight the central powers, according to plans now in contemplation. Colonel House, Justice Brandegee, and others have been studying the plan as outline by its leaders.

Austria would be reduced to its German-speaking population which could unite with Germany after the southern Slav and Czech provinces were parcelled away, backers of the plan pointed out. Magyars in Hungary, traditionally anti-German, could be admitted to the mid-European federation provided they became democratized.

Democratic Government

Democratic form of government would prevail throughout the federation—though a generalization of education would be necessary, leaders admit, before democracy in its fullest degree could be instituted.

Security of these oppressed nations would fight on the eastern front as near their native soil as possible, with the object of liberating it and inducing their countrymen to forsake their German oppressor.

Leaders in the movement include Professor Masaryk, of the Czech-Slovak national council; Paderewski, the pianist, representing the Poles; Dr. Hinkovitch of the Jugo-Slavonians. President Hammill, Oberlin college, is president of the mid-European council.

Will Leave Hospital—Mrs. Clarence L. Bowen will return this afternoon to her home from the Twin Falls county general hospital, where she has been a patient since Wednesday last.

DESCRIBES LIFE AT THE FRONT

Sergeant T. E. Bowen Tells of Surroundings of Twin Falls Men

Mrs. Arthur M. Bowen has received from her son, Sergeant Theodore E. Bowen of headquarters company, One Hundred Forty-sixth field artillery regiment, a letter under date of August 11, which gives a happy picture of the life and surroundings of the members of the Twin Falls unit in foreign service. He says:

It is too bad that I didn't think of your birthday sooner, or I might have sent you a real live boche for a present. I will have to let it go until next year now, and bring myself home then. What do you people think of the war? The general idea here both among the Americans and French is that next year will see the end of it.

In Quilt Sector

I am forced to admit that there has been some little time since my last letter. Since writing it we have been back for a short rest and are again back on the firing line. The war is different here than it was where we were before—more like the front in the papers than the other one. Here there are dug-outs many meters deep as a shelter against German shells and bombs. Little dinky narrow-gauge railroads run right up to the front line trenches. There is not much fighting either as compared to other places, and it seems clean and orderly after the confusion and dirt elsewhere.

My slump in letter writing can be explained partially by the fact that we have been on the move so much and it is so difficult to get the necessary utensils. Just because I may not write as often as I would like is no reason for you and all the kids to lay off. It has been a month today since we have had any mail at all, so you can see how badly we want it.

Eats Hold Up

While we were in one of our camps behind the lines I met Ted (Holler) quite a bit, but lately I haven't seen anything of him. He used to stop me doughnuts or something when he was on K. P. We don't fare so badly as we might in the way of grub. Tonight we are to have blackberry pie made from blackberries picked by the boys in the woods. We had hot cakes for breakfast yesterday morning and there was quite a contest to see who would get away with the most. I nearly won, but had to quit to go to regimental headquarters. There is only a row over 30 men in this detachment, so it isn't so hard for a cook to cook up something.

Did you see in the papers where the first army corps was cited by General Pershing for excellent services in the recent French-American drive? Did you know that we were in that first army corps? We are in no division, but when you read of the first army corps or the first field army, you will know that means us.

STATE OF IOWA QUOTA COMPLETE

Fourth Liberty Bonds Selling Rapidly Over Whole Country

WASHINGTON, Oct. 3.—Following the announcement that Iowa had subscribed its quota to the fourth Liberty Loan, treasury officials today issued the following statement:

"A new spirit has permeated the nation. Liberty Loans no longer are novelties; the people accept them as a part of the regular routine, which, combined with genuine American enthusiasm, makes for success." Optimism prevails among war loan officials. Some sections were lagging but for a majority of the nation, it can be said there is no shirking. Acceptance of the fourth and greatest Liberty Loan, as a part of "the regular routine in war time," means much, officials believe. They expect a steady, consistent canvassing of investors with no loss of time.

Administration officials were somewhat worried today lest the American public suffer from over confidence, because of allied successes and fall to buy their limit in bonds, expecting the war to end soon.

They warned that the fullest subscription was necessary as part of the knock-out punch.

HIGH SCHOOL IS SCENE OF BLAZE

Fire in Laboratory Is Put Out By School Officials and Firemen

Fire of unexplained origin in the chemical laboratory on the third floor of the high school building at about 8:30 o'clock Wednesday evening damaged a cabinet in which was discovered, and the room to an estimated extent of \$250. The blaze was noticed by a passerby, who directed the attention of Clerk George E. Bryant and Treasurer W. E. Nixon, of the school board, who were at work in the superintendent's office, to it. The fire department was called by Mr. Bryant. The officials applied the chemical fire extinguishers in the building, keeping the blaze under control until the arrival of the fire department.

The cabinet in which the fire originated was one used by students when working with chemicals of strong odor. It contained no electric wiring, and was entirely empty when examined Wednesday afternoon. All of the doors leading into the laboratory were locked, and there was no one in the building at the time the fire was discovered except the two school board officials.

The floor of the laboratory is of concrete, and the damage from the fire resulted only to the cabinet and through discoloration of the walls.

STUDENTS' ACTIVITIES PLANNED AT HOLLISTER

Literary and Debate Societies and Glee Club are Among School Organizations

HOLLISTER.—The Hollister school is moving along very nicely. The professor promises us a literary, debate and a glee club in the near future.

The Red Cross met Thursday at the Masonic hall with a large attendance. It was decided to give a dinner in the near future for the benefit of the Red Cross.

Ben Klusmeyer left Thursday for Salt Lake to attend the University of Utah.

Mr. and Mrs. Nelson, who have been visiting at the J. W. Christianson home, returned Friday to their home at Mendocino, Brook, Washington.

Mrs. Cavanaugh was up from Berger this week visiting at the home of B. B. Cavanaugh.

Rev. Mr. Kilgus came from Borgeson Friday to hold services here Sunday.

B. Morse is moving his blacksmith shop from town to his farm, south of Hollister.

The Amsterdam elevator shipped two cars of hard wheat to Twin Falls this week.

Geo. C. White is drilling a well this week for A. E. Caldwell, on his farm south of town. Mr. Caldwell expects to put down another well soon.

Mrs. J. W. Bouton, Mrs. A. E. Larson and Mrs. W. H. Carver were stationed at the Hollister bank Saturday to sell Liberty Bonds.

J. M. Morehouse is assisting this week on the J. Hodges farm, while Mrs. Morehouse is attending to the post-office and drug store.

What Becomes of Your Money?

Ever wonder where your last month's salary went?

There is a way to tell where every penny goes—a way that will show you where you are spending too much and will also prevent the payment of the same bill twice through error.

It's an Easy Way, Too—

On the first day of each month every check you have drawn on your account with this bank is returned to you, also a statement showing how much money you have deposited here and just how much you have spent—the checks show to whom you have paid the money—and by looking over the returned checks you can easily note the ones that were unnecessary; then, knowing just where the leaks are you can easily stop the waste.

Suppose you open your account TODAY—begin to cut off the useless expense NOW.

REVOKES BAN ON APPOINTMENT

Adjutant General Gives Rules for Civilian Applicant for Commission

According to a ruling made by the adjutant general of the army, addressed to the provost marshal general, a copy of which has been received by the local draft board, the memorandum of the adjutant general of August 14 prohibiting the consideration of applicants for appointment to commissions from civil life of men between the ages of 18 and 45, has been revoked so far as it concerns the military corps. This is made subject to the conditions and restrictions stated hereafter:

Qualified men between the ages of 18 and 45 years, who have been placed in class one for general military service or who will be placed in class one except for industry, occupation or employment, including agriculture, must first be inducted into the service before consideration will be given their applications as officers.

Qualified men, between the ages of 18 and 45 years, who have been placed in class one as meeting the physical requirements for special or limited military service only, or who will be so classified, except for industry, occupation or employment, including agriculture, may be commissioned direct from civil life by the order prescribed. A qualified registrant who falls within the foregoing rules because he is not finally classified or examined physically, may have his classification or physical examination advanced upon presentation to his local board of a certificate from a chief of a corps or department of the army setting forth that he is a candidate for a commission.

APPLICANTS FOR ARMY TRAINING GO TO SCHOOLS

Adjutant General Instructs
Local Boards to Advise
Prospective Members
Students Corps to Report

In pursuance of telegraphic instructions received Thursday from the adjutant general's office, the local board is advising registrants who are applicants for admission into the students army training corps at the University of Idaho at Moscow, the Technical Institute at Pocatello, to proceed at once to either institution, secure admission and take the physical examinations.

Seventy-six Apply
Seventy-six registrants of this county have filed with the local board their applications for admission into the students army training corps. The training corps comprises two sections, the collegiate and vocational. Inasmuch as applicants for admission into the collegiate section have been advised previously to report at the university on October 1, the instructions Thursday from the adjutant general's office apply only to applicants for admission into the vocational training section.

Adjutant General's Instructions
Following is the text of the message received from the adjutant general's office:
Advise all applicants for admission to the students army training corps to proceed at once to an accredited school, secure admission and take the physical examinations. Competent orders in respect to them, and the local board of transfer will procure the necessary instruction papers from the local board of origin. They should not concern themselves concerning transfers and you will strictly observe the procedure outlined in the letter of September 5.

Enters Naval Training
Station

M. F. Knowsman, a veteran of the Civil war and for 40 years a resident of Cassia county, who has been for some time past a guest at the home of his daughter, Mrs. D. E. Sullivan, was made proud and happy Monday by the visit of his grandson, Fritz Knowsman of Malibu, who is to leave Wednesday for San Francisco, where he will enter a naval training course.

Mr. Knowsman, senior, is 83 years old and is a native of Germany. He became a citizen of the United States during the Civil war in which he served under General Sherman from 1861 until 1864. He declares that he earned his citizenship which he treasures highly. On Saturday last he gave further proof of his loyalty to the nation of his adoption by investment of \$200 in Liberty Bonds.

SEARCH IS CONTINUED FOR BODY OF WOMAN

Raising of Automobile at Owlery's Ferry Falls to Recover Remains of Mrs. C. C. Leth

Sheriff Frank M. Kendall assisted Tuesday evening in raising from the bottom of Snake river at Owlery's ferry, north of Buhl, the automobile in which Mrs. C. C. Leth of Twin Falls was drowned Monday evening, when it plunged through the gates of the ferry boat into twenty feet of water below. The body of Mrs. Leth was not recovered at that time, nor has any word up to noon today been received by the sheriff's office to the effect that it has been found, although diligent search is being made.

The car was only slightly damaged. The headlights and windshield were broken, and the water in the mechanism prevented driving it in to Twin Falls on its own power. It was towed in there Tuesday night by Sheriff Kendall and D. R. Moffitt.

It had turned over after leaving the ferry boat, before touching the bottom of the river. A hay derrick was used to raise it.

Appreciation—Pomona College, Claremont, California, through M. E. Churchill, secretary of its faculty, in a letter to Superintendent Hal G. Rice, expresses appreciation of the excellent work done by the Twin Falls high school as shown in the high honors and departmental honors won by Robert Vaughn Edwards, a graduate in May 1917, of the local high school, who is in attendance now at Pomona College.

Shows Transaction Between
K. Packard and Beebe's
Grandfather

In the year 1864, Kennedy Packard, a pioneer of Twin Falls, then an assistant in the office of his father, who was county treasurer of Montgomery county, Iowa, purchased tax titles to 240 acres which he sold four years later for \$400 to Clark S. Morrison, grandfather of Dr. F. C. Beebe of Twin Falls.

This fact came to light this week as a result of Dr. Beebe's going through an old file containing papers that had been in the possession of his family for years, when he ran across the instruments of conveyance in the sale of the land to his grandfather. He had not known previously that the sale had been made by the Kennedy Packard, but had known for years here, but verified his surmise that such was the case when he presented the papers Tuesday to Mr. Packard.

Two Young Women and Escorts Are
Held to Answer in District
Court

Drinking whiskey in a prohibition district, an indictable offense, is the charge filed by Prosecuting Attorney F. L. Stephan against Porter Harrison and Jack Moss of this city, and against two young women for whom they are alleged to have procured the booze and in whose company in a local restaurant, they are alleged to have consumed it on Thursday night of last week.

The young women, one a resident of Burley and the other of Filer, who were arrested Saturday evening at Filer by Deputy Sheriff George F. Huffman, were arraigned Monday morning before Justice of the Peace W. J. Smith. They entered pleas of guilty and were admitted to bond in the sum of \$300 each to secure their appearance in district court.

The men pleaded not guilty, after they had been given to understand that they could later change their plea, when they were arraigned Monday afternoon before Probate Judge O. P. Duval. They were held to answer in the district court, bond in the sum of \$500 each being required.

MATERIAL FOR HANSEN BRIDGE IS IN TRANSIT

Supervising Engineer R. M. Murray Advises Building of Span Will Begin This Month and Rushed Through

The first shipment of structural steel for the building of the suspension bridge to span Snake river canyon north of Hansen, has been shipped from Leavenworth, Kansas, where the bridge is being fabricated and the Midland Bridge company, to which the contract for construction has been awarded, will begin active work in the field here about the middle of October, according to word from Supervising Engineer R. M. Murray of Billings, Montana, received by E. J. Finch, secretary of the Hansen bridge commission, which is composed of the boards of commissioners of the county and of the Ellendale highway district. The bridge is to be erected at an approximate cost of \$60,000.

The bill of lading covering the shipment of bridge material received by the bridge commission, shows the total weight of the shipment as 31,728 pounds.

Mr. Murray says in his letter to the commission under date of September 28:

Finds Workmen Busy

I returned yesterday from Leavenworth, Kansas, where I inspected all of the material for the bridge except the cables and eye-bolts for same. I happened in there enroute and found the men busily engaged in the fabrication of that structure. Made a careful inspection and checking and found everything O. K.

The bridge company evidently has done everything possible to hurry the fabrication of the structure. I find that it is becoming a difficult matter to obtain steel at this time for anything but government work. They now have all the materials in the shop excepting the eye-bolt shapes for cable fastenings, and most of it is fabricated and being painted for shipment. More shipments will be ready shortly and will be sent out as fast as they can get the cables. Another carload or two may be on the way by this time.

Will Rush Construction

In reference to the material for eye-bolts mentioned above, they advised me that this material had to be ordered several weeks previously, each time being used for something else on priority orders. They now think the material is forthcoming, and will be rushed through the shop in time for use. I found that in some instances numbers had been changed in the sections than the plans required, in order that available materials, could be used and not delay the work.

The bridge company plans to start work in the field about the middle of October, or earlier.

I expect to come down to Twin Falls very soon and make ready to rush this work all possible that it may be completed in short order.

It is expected that the class will be increased by November 1 to 25 members.

QUITS DISTRICT BENCH TO TAKE ARMY COURSE

Judge Carl A. Davis of Boise, Appointed Major in Army Legal Department Will Leave Training

(Special to The News)
MOSCOW, Idaho, Oct. 1.—Judge Carl A. Davis of Boise, one of the best known jurists of southern Idaho, will enter the students' army training course at the University of Idaho. This is the substance of a letter received by President E. H. Lindley.

Judge Davis, who is among the most prominent of the younger members of the Idaho bar, was elected to the bench of the third judicial district and is now serving his second term. He declined to run for re-election and has been nominated by Governor Alexander, at Provost Marshal General Crowder's request, for appointment as a major in the field service of the justice department's legal department. It is with the thought of fitting himself for the military part of his duties that Judge Davis plans to return to the Moscow institution, of which he was a student in the early days of his career.

MOSCOW BIDS FAREWELL TO CAPTAIN EDGINGTON

Commandant of Students' Training Corps Off for Montana

MOSCOW, Idaho, Sept. 30.—With the departure Friday of Captain Edgington for Montana, Captain Folker, commandant of the University of Idaho cadet battalion last year, becomes commanding officer of the Idaho unit, students' army training corps. Captain Edgington, who has made an enviable record as an organizer of new contingents, was assigned to the train by the entire contingent of 100 men of the vocational section now merged into the students' army training corps. Captain Edgington goes to Montana to do the same work he has done so well at Moscow.

Captain Folker will have the following staff: Surgeon Kotalik, Dental Surgeon Kimball, Quartermaster Lieutenant Hall. The military instructors will be Lieutenants Hanna, Cook and three other lieutenants just assigned to this unit.

First Product of Jerome Mill Brings \$300 at Auction at Benefit Dance

(Special to The News)

JEROME—The first ten sacks of flour that were made in the Jerome flour were donated to the Red Cross and they were auctioned at the dance Friday, bringing over three hundred dollars. Wm. Newman bought the first sack of flour at sixty dollars. The others were sold accordingly.

CANNING SUGAR RULE CONTINUES IN EFFECT

County Food Administrator C. E. Munson has received instructions that the regulations regarding the canning of sugar in effect during the month of September will continue during the current month. Under these regulations, each individual is limited to the purchase of two pounds of sugar per family for table use and supplies for canning, up to an amount necessary to take care of fruit on hand to be preserved, or to be secured upon application, for permit to the food administrator.

TWIN FALLS MEN PUT BIG PROJECT IN LIMELIGHT

Bruneau and Du Boise Reclamation Plans Are Considered as Furnishing Homes for Soldiers and Sailors

The Bruneau reclamation project of 500,000 acres in Owyhee county, and the DuBoise reclamation project of 200,000 acres extending through Fremont and Jefferson down into Bonnerville county, were the two largest projects brought up for consideration to be reclaimed for the use of returning soldiers and sailors, at a meeting in Pocatello Monday of the governor, who was accompanied by the committee of defense of the southeastern Idaho counties.

Reports Go to Washington

This meeting and two others to be held at various points in Idaho, are called by Governor Alexander, at the suggestion of Secretary of the Interior Franklin K. Lane. Detailed reports and data on each of the projects presented for consideration at these meetings are to be prepared in each county and forwarded to the governor, who will submit them to the secretary of the interior.

The Bruneau project was presented for the consideration of the Pocatello meeting by former Senator M. J. Hweley of Twin Falls, with W. W. Humphrey, Twin Falls; James McMillan, Twin Falls; C. H. McGowan, Burley, and County Assessor George W. Wilcox, made up the Twin Falls county delegation. Mr. Hweley told of the segregation of the Bruneau project and the preliminary work that had been done toward its reclamation, which had been halted by the outbreak of the war. He was introduced at the meeting by Mr. Wilcox, who, as assessor, was called upon to present for consideration any areas of land in this county susceptible of reclamation.

Bracken to Collect Data

F. F. Bracken of Twin Falls, chairman of the county council of defense, was named as the person in this county to collect and submit data on the projects recommended for consideration by the Twin Falls delegation. He is authorized to appoint a sub-committee to assist him in this work.

Half of River Wasted

Statement was made at the Pocatello meeting by State Engineer Wilkie that the annual run-off of Snake river is 6,000,000 acre feet; that beneficial uses made of only one-half of that amount and that the other half, which is sufficient to irrigate 1,000,000 acres of lands is wasted.

Favors Big Reservoir

It was the sense of the meeting that a proposed reservoir should be built at American Falls for the reclamation of the Bruneau project, and that subsidiary reservoirs should be built in the headwaters of the Snake river to take care of other projects.

D. W. Davis, of American Falls, presented for the consideration of the meeting a project of 70,000 acres in Hannock county, and Harry Dibble of Rupert, representing the United States reclamation service, called the attention of the meeting to another area of 70,000 acres lying north of the Minidoka project, which he declared susceptible of reclamation.

Governor Calls to Order

The meeting was called to order by Governor Alexander. Robert Graham, assessor of Hannock county, was elected chairman. The assessor of each county represented was then called upon in turn to present possible projects within his own county. Every southeastern Idaho county, with the exception of Madison county, was represented at this meeting.

FROM THE SCHOOL LAWS OF IDAHO
Enacted by the Eleventh Session of the Idaho Legislature, 1911—Section 150, Article XVII of This Act

"In all districts of this state, all parents, guardians and other persons having care of children shall instruct them, or cause them to be instructed, in reading, writing, spelling, English grammar, geography and arithmetic. In such district, every parent, guardian, or other person having charge of any child between the age of eight (8) and sixteen (16) years, shall send such child to a public, private or parochial school for the entire school year during which the public schools are in session in such district; provided, however, that this chapter shall not apply to children over fifteen (15) years of age, where such child shall have completed the eighth, (8th) grade, or may be eligible to enter any high school in such district, or where its help is necessary for its own use or its parents' support, or where for good cause shown it would be for the best interest of such child to be relieved from the provisions of this chapter; provided, further, that if a reputable physician within the district shall certify in writing that the child's bodily or mental condition does not permit its attendance at school, such child shall be exempt during such period of disability from the requirements of this chapter. It shall be the duty of the superintendent of the school district, if there be such superintendent, and if not, then the county superintendent of schools, to hear and determine all applications of children desiring, for any of the causes mentioned here, to be exempted from the provisions of this chapter, and if upon such application such superintendent hearing the same shall be of the opinion that such child for any reason is entitled to be exempted as aforesaid, then such superintendent shall issue a written permit to such child, stating therein his reason for such exemption. An appeal may be taken from the decision of such superintendent so passing upon such application to the probate court of the county in which such district lies, upon such child making such application and filing the same with the clerk or judge of said court, within ten days after its refusal by such superintendent, for which no fee to exceed the sum of one dollar (\$1.00) shall be charged, and the decision of the probate court shall be final. An application for release from the provisions of this chapter and shall not be renewed oftener than once in three months."

DOMINATION OF RUSSIA IN EUROPE

Meeting of Representatives of
Oppressed Nationalities Will
Plan in Interests of Perma-
nent World Peace

STRONG RESOLUTIONS WILL BE PRESENTED

Professor H. A. Miller Desig-
nated by American Govern-
ment to Outline Purpose of
Proposed Federation

By RAYMOND CLAPPES

WASHINGTON, Oct. 3.—Representatives of oppressed nationalities met here today to form an Allied-European Federation to include subject peoples now living under the shadow of Russian domination.

Those represented included: Czechs, Slovaks, Poles, Ukrainians, Jugoslavs, Lithuanians, Finns, Rumanians and Italian Irredentists—45,000,000 people now largely without self government and political freedom.

Resolutions demanding the dissolution of the Austro-Hungarian empire and formation of a mid-European federation were to be adopted. The representatives intend to offer the entire empire and resources of their country to Russia to be the core of the "Allied Europe."

Creation of a barrier across the heart of Europe to serve as a wall against German aggression is the immediate aim of the mid-European federation. It will seek to organize a political and economic wall along the eastern frontier of Germany.

Forces in America and in Europe are to be co-ordinated to this end, it is declared.

The purpose of the federation was outlined at the opening of the conference by Professor H. A. Miller, designated by the American government.

Miller, who is known to the representatives of the eight nationalities here represented, has gathered together in the unanimous purpose of forming an organization to protect the rights of the oppressed peoples of the territory extending from the Arctic ocean to the Black and Adriatic seas.

Professor Miller said:

"It is the birth of the federation of states without which there can be no permanent peace. For many centuries the problem for the solution of which this organization was established have been dealt with by methods in which justice played no part and in recent years it has been the deliberate purpose of Austria and Germany, by every possible method, to stimulate dissension."

"Today the Union has been begun and the strength generated by these centuries of oppression is turning with its full force in its own defense. It is necessary to the democratic principle which President Wilson set on foot proclaimed."

RUSSIAN SINK MUTINIOUS UNDERSEA BOATS

Many Stories From Neutral
Sources Tell of Revolt on
Land and on Sea Against
German War Lords

COPENHAGEN, Oct. 3.—Four German torpedo boats were sunk and destroyed and attempted to take them out of harbor during August, were pursued by cruisers and sunk, according to information received here today. The occurrence is said to have been confirmed by the "reaching" shore of the Baltic.

Thirty German sailors were executed at Kiel, recently as the result of a mutiny against submarine duty, it is reported.

Several mutinies occurred among German and Austrian soldiers in the Ukraine during September. At Kharkov, 6,000 Austrians are reported to have refused to go to the western front.

ROTTERDAM, Oct. 3.—Two German officers were killed by 100 mutinous soldiers on the Dutch-German frontier a few days ago. The troops refused to go to the front. Officers then fired upon them. Immediately the mutineers shot two officers dead.

ONE BILLION DOLLARS REMAINS TO BE RAISED

Country That Much Short of Total in Fourth Liberty Loan Campaign

WASHINGTON, Oct. 3.—Falling behind in its response to Liberty loans, the nation today had only passed the \$500,000,000 mark. This achievement has required four days. Thus to subscribe \$4,000,000,000, the minimum quota, in the allotted time, daily sales hereafter must exceed \$500,000,000.

Treasury officials, while admitting that the country is materially behind its requirements, pointed out that today's figures are not exactly fair. Reports indicate that millions of dollars in bonds have been sold but which have not been reported to the federal reserve banks. The discrepancy, therefore, may not actually be as great as it appears.

Despite unfavorable totals, encouraging reports are coming from various sections. Michigan reported that its quota was 60 per cent raised and Wisconsin claimed 27 out of 45 counties over the top at noon today.

Indications were also making that Indiana will be one of the early states to attain its minimum. Iowa, which already has reached its quota of \$147,000,000, reported an over-subscription of \$700,000 with the campaign still going.

INFLUENZA CAUSES LEMONS TO GO UP

LOS ANGELES, Calif., Oct. 3.—Spanish influenza is not without its compensations—to the lemon growers. FILER SOLDIER HAS "MOTHER" IN FRANCE

Madame Fajus Sends Greeting From Paris to Mrs. Rita Lechner

Mrs. Etta Lechner of Filer has received from her son, Corporal Homer A. Lechner of D Company, One Hundred Forty-seventh machine gun battalion, a letter which is enclosed a message from his French "mother."

Corporal Lechner is stationed at Paris as a machine gun instructor. Without the friendship of his French "mother," he says, he would be homeless, as his work is so monotonous. Following is a translation of the French woman's letter:

"It is a mother who wishes to speak to you concerning your son, and who addresses to you her best congratulations concerning him. During the last month, while I have been waiting for him, he comes every day to talk French with me. His progress is a pleasure. His mother is very pleasant to me for I am at present always awaiting news from my own dear boy who has been a prisoner for three months."

"Your son, dear madam, reminds me of him. Your son also is a brave boy who does not forget you for he often speaks of you. It is with pleasure that I shall follow him during his sojourn in France. His health is good and his conduct perfect."

"We mothers of France console ourselves thinking of the mothers of Americans who are separated from their boys which is very painful. Nevertheless we are happy to see them under the folds of the flag."

"I greet you, madam, by sending to you love from your son."

"With love and from a friend,"

"MADAME FAJUS."

"YOU CAN'T HAVE EVERYTHING," BUT THIS FILM STAR WINS MILLIONAIRE

"Kedsie" Wanted to Be a Motion Picture Star—
Mrs. Cheever Wanted a Divorce—Jim Dyckman
Wanted Mrs. Cheever, but Married
"Kedsie"—So There You Are.

HOW Anita Adair, a film star, whose real name is Kedsie Thropp, and who hails from Nimrod, Mo., won James Dyckman, son of an old Manhattan family, is one of the most interesting developments of Cecil B. De Mille's special Artcraft picture production, "We Can't Have Everything," which is being displayed at the Idaho Theatre three days, commencing today.

According to the story, the couple is married to Jimmy City and were wealthy. Jimmy had owned the house of the young man, and the young man, in turn, had owned the house of the young woman.

The young man, in turn, had owned the house of the young woman, and the young woman, in turn, had owned the house of the young man.
