BUILDING RESERVATIONS CANCELED

NO PERMITS REQUIRED

The following is contained in a telegram from the WAR INDUSTRIES BOARD TO THE STATE COUNCIL OF DEFENSE: The state of the council of the

labor, fuel, transportation; and building materials to warrant the withdrawal of ALL RESTRICTIONS on building projects. We seel it the duty of the board to AID THE PUBLIC AND THE INDUSTRIES TO RETURN TO NORMAL CONDITIONS AS QUICK-LY AS POSSIBLE."

The above statement, although brief, is authoritative. It clearly indicates that the Government wants to ENCOURAGE ALL BUILDING OPERATION and reinstate BUSINESS ON A PEACE BASIS.

We are now released from our former pledges, limiting the amount of materials to be sold, and you are again in a position to BUY BUILDING MATERIALS IN UNLIMITED QUANTITIES for any purposes whatever.

What Determines Meat and Live Stock Prices?

Some stock men, still think that Swift is.
Company, and other hig pecters—can pay as fittle for livestock as fittly wish.

Some consumers are still set to believe that the pecters pay charge as much for dressed ment as they wish.

This is 100 time. These prices are fixed by a law of human nature as old as human mature itself—the law of supply and demant.

When more people what mear the what the thinks a ment to be had the accumble along the libe to get it for them sends prices the When there is more meat than there are people with want it, the scramble all along the line to get it for them sends prices the When it is said from the sends prices the When there is more meat than there are people with want it, the scramble all along the line to get it of it within a few days, while it is all from sends prices of meas get up. Swift as the consistiv not only our pays the priduces many but has to pay him more, or some other packers will.

When prices of meas get up Swift as a sum other packers will.

Similarly, when prices could all lower the many but has to pay him more, or some other passes in the price in this instead.

All the patter can do it not less the application of possible for his invasion.

This is the consumer can get as more approached for their more, or some definition of best the consumer as the state of the store of an extension.

The price of the sends prices of the consumer and the possible for his invasion.

They didn't know; America found more ways to save than anyone had ever dreamed of before.

One of them was in clothes; buying good ones because they lasted longer and cost less for each day of service. Such clothes as Hart Schaffner & Marx make.

Let's not forget these things in peaces in surer times; what was good for your country in war is good for you now.
