Bolshevik Occupation of Capital of Khanate of Bokhara in Central Asia is Reported to British War Office

REDS CLAIM SUCCESSES IN DON COSSACK REGION

Capture of City After Battle of Severe Character with Denekine's Troops is Asserted by Moscow Dispatches

LONDON, (AP)—Bokhara, capital of the important Khanate of Bokhara in central Asia and less than 200 miles from the Afghanistan frontier, has been entered by Bolshevik forces according to Moscow reports. Further west, Soviet troops have occupied Kramovskaya on the eastern shore of the Caspian sea. It is claimed in reports from Moscow.

The city of Novocherkassk has been captured by the Bolsheviks, it is asserted in a wireless message from Moscow today. The city was taken Wednesday after a battle of the most severe character with General Denekine's troops.

Novocherkassk is twenty miles northwest of Rostov, the principal seaport of the Don Cossack region.

The capture of Novocherkassk by the Bolsheviks would mean the rolling back of General Denekine's right wing, following the reported disastrous battle made in the center of the army on the eve of Rostov. This part of the Denekine forces is composed of Don Cossacks and the army of the Caucasus. Novocherkassk is an important city in the midst of a coal region.

POLES UNDERTAKE TO OCCUPY REGION QUIT BY DENKINE

PARIS, (AP)—The whole of the Kamenev-Podolsk-Proskurya-Barokostanin railway line in the south of Poland, according to advices from Warsaw. The advices declare that the Polish high command intends to proceed with the occupation of the region evacuated by General Denekine and not yet invaded by the Bolsheviks.

This region is said to be infested by bands of plunderers, who have been looting and burning towns and villages and holding the inhabitants for ransom. It is expected to be put to this situation by the Polish occupation.

ALL-RUSSIAN APPEAL TO JAPANESE FOR ASSISTANCE

LONDON, (AP)—News has reached London from British sources in Irkutsk that 9,000 anti-Kolchak insurgents are holding Irkutsk. They are armed with machine guns, have a large force and are constantly being reinforced.

General Semenov's forces are slightly east of Tselin. It is understood that he has appealed for Japanese assistance.

SEEK SOLUTION IN TURK'S CASE

Allied Powers Abandon Hope that United States Will Accept Mandate

WASHINGTON, (AP)—Having abandoned hope that the United States will accept a mandate over Turkey, the allied powers are attempting to find some solution of the problem of expelling the Turks from Europe without causing such an uprising among the Mohammedan people as would endanger the control of the European nations over them.

Information reaching Washington is that these efforts are in progress outside of Paris where the supreme council is sitting, though it is expected that the ratifications of that body will be necessary for any plans adopted.

Lenine Asks Italian Socialists to Delay Revolutionary Moves

Says Revolution Now Would Have Grave Effect on Soviet Negotiations

ROME, (AP)—The Epoca says that Nicolai Lenine has written another letter to the directors of the socialist party imploring them not to precipitate any revolutionary movement which in the present conditions would have no possibility of success.

Lenine adds that a revolution in Italy now would have a grave repercussion in the Russian soviet republic which is about to negotiate with the bourgeois powers for the acknowledgment of the present state of affairs in Russia and also for essential economic agreements. All this would be rejected, says Lenine, if another revolution occurred in Italy, because with the eventual success of Bolshevism throughout Europe in a spirit of preservation the states still immune from Bolshevism would hermetically close themselves against infection and the soviet republic destined to become a type for the future, would not have time to strengthen itself sufficiently to become vital.

Revolutionary Move in Bulgaria Spreads

GENEVA, (AP)—The revolutionary movement in Bulgaria is spreading among peasants and workmen, according to Bulgarian advices received here. King Boris and the royal family are said to be secluded in the palace, which is under heavy guard.

The French foreign office which is in constant touch with the Balkan situation, has received no confirmation of alarming reports relative to the spread of a revolutionary movement in that country.

Propaganda Campaign Planned by Mexicans

LAREDO, TEX., (AP)—Mexico plans a nation-wide propaganda campaign in the United States according to Mariano Vidamonte, assistant secretary of the Mexican treasury who passed through here late yesterday en route to New York where he will attend the Pan-American financial conference.

Senor Vidamonte will go to Washington from New York where plans will be made for the division of the United States in four sections, with headquarters in New York, Chicago, St. Louis and a Pacific coast city for the purpose of publishing news favorable to Mexico throughout the country.

AGREEMENT IN GUARANTEE TO ROADS REACHED

Senate and House Conference on Railroad Legislation Approve Provision of Esch Bill on Income

WASHINGTON, (AP)—Continuation of the standard bill on railroad for a period of six months after the termination of federal control was agreed upon today by senate and house conference on railroad legislation. In fixing this date the conference accepted the Esch bill provision. The Cummins bill would have limited the time to four months.

The memorial adopted by the national shippers conference, opposing provisions of pending railroad bills, was presented to Chairman Cummins and each of the senate and house interstate commerce committees today by Clifford T. Smith, president of the National Association of the legislative committee of the conference, said shippers opposed creation of a transportation board, any form of a permanent guaranty in the way of a definite percentage of return as prescribed in the Cummins bill; appropriation by the government of surplus earnings; compulsory expropriation of roads into a limited number of systems, or the pooling of earnings of the carriers.

Shippers, he said, favored retention of unimpairment authority of the states over rates and service applicable to state traffic and legislation that would prevent a nationwide tie up of the transportation system.

STEEL STRIKE LEADERS RESCIND WALKOUT CALL

PITTSBURGH, Pa., (AP)—Organizers, field workers and international union heads interested in the nation-wide strike of steel workers which went into effect September 22 were in receipt of an official order today from the national committee calling off the strike.

This action was taken by the committee here last night.

The order declared the committee's decision was forced by "ruthless misrepresentation by the steel corporation, the press, the courts, federal troops, state police and many public officials in that they denied steel workers their right of free speech and free assembly and the right to organize."

The order added that the union will launch an immediate campaign to furnish "organize the workers" and will not cease until industrial justice in the steel industry has been achieved.

STATE ATTORNEY BARES MARTENS' CONNECTIONS WITH COMMUNIST PARTY GOVERNMENT ANNOUNCES DECISION TO AID THE FAMILIES OF DEPORTEES

Commissioner General of Immigration Says Alien Radicals Depo-ported on Transport Buford Will Not Be Landed at Danish Port, But Withholds Definite Information; Confers with Army Officials on Plans for Later Repatriation of Reds

OHIOAGO, (AP)—Ludwig C. A. K. Martens, self-styled "soviet ambassador," and representative of Lenine and Trotsky in the United States, helped finance the communist and communist labor parties in Chicago, according to a statement given out today by Assistant State's Attorney Henry A. Berger.

Berger made the announcement after examining the archives of the communist labor party, seized yesterday at Moline, Illinois, when Edgar Owens, secretary of the party was arrested on a warrant charging him with violation of the state an-sonition law.

Among the papers in the possession of the state's attorney, he said, is a cancelled check for \$120 bearing Martens' signature. The money was used to purchase a lease on a hall used as a communist lecture room.

State's Attorney MacLay Hoyne also has telegrams from Martens to local radicals, giving detailed instructions for the red campaign here.

STOCKHOLM, (AP)—The 240 undesirable deportees from the United States on the transport Buford, "the soviet ark," probably will be landed at Hango, Finland, and will proceed to Russia by rail under a strong guard, it was said here today.

The Finnish legation lacks official information but bolder was pressed there that no communication would be allowed with those landing from the Buford who will be furnished with sufficient food for the journey by rail. The harbor of Hango is frozen and the port of Hango is believed impossible as a landing place for the deportees.

The Swedish authorities declare that those deported from the United States will not be allowed transit through Sweden.

COPENHAGEN MAKES CLAIM AS RADICALS' LANDING PLACE

COPENHAGEN, (AP)—Undesirables deported from the United States will be landed here and transhipped to Danzig, according to reports. The operation will be carried out under supervision of the Danish police, it is said.

Each ship bringing deportees will have six armed persons on board, and the United States government has arranged with the United Shipping company of this city to take them from here to Danzig.

CAMINETTI DENIES PLAN FOR DENMARK DEBARKATION

WASHINGTON, (AP)—Alien radicals who landed here yesterday on the Buford, which now is nearing the Kiel canal, will not be landed at Copenhagen as it is planned to send other deportees from this city to the Danish port, Anthony Caminetti, commissioner general of immigration, said today. He still refused, however, to say where the Buford would land.

Mr. Caminetti conferred today with army officials presumably on plans for deporting additional radicals to soviet Russia.

PROMISES AID TO FAMILIES OF DEPORTED RADICALS

WASHINGTON, (AP)—The government has decided to make a cash aid to the dependents of alien radicals whom it deports, Assistant Attorney General Garvan announced today. Action in this regard will be taken partly as a humanitarian measure and partly because of any obligations to the families of the aliens, he added.

It has not yet been determined through what channel provision will be made for the care of the persons left alone through the deportation of the bread winner. It was indicated, however, that eventually, if the persons concerned so chose, they would be sent to join the deportees overseas. Legislation may be necessary to accomplish this.

Officials said that much of the ground of possible reprisals would be removed if the families were finally sent to join the leaders.

TENDER OF RAIL FOR WEINSTEIN IS REJECTED

NEW YORK, (AP)—Gregory Weinstein, "chief of staff" of Ludwig C. A. K. Martens, soviet "ambassador," has been refused bail. He is being held on Ellis island, although \$10,000 in Liberty bonds was offered last night, Charles Reetz, his counsel, announced today. The reason given for holding Weinstein was that he refused to answer questions, Reetz said.

BRYAN DIFFERS WITH WILSON ON PEACE PROGRAM

Contends Democratic Party Cannot Go Before Country on Treaty Issue but Should Accept Possible Compromises

PRESIDENT DECLARES FOR SUBMISSION TO ELECTORS

Diversity of Opinion Comes as Twin Surprise of Conclave of Bourbon Chiefsman "Outlining at Dinner

WASHINGTON, (AP)—President Wilson's decision that the league of nations issue should be placed before the voters in a "solemn referendum," and William J. Bryan's contention that the democratic party cannot go before the country on the question of such compromises "as may be possible" are the twin surprises of the conclave of party chiefsman which four veteran leaders in the annual Jackson day dinner.

Avoids Third Party Question

The president's message to the party, written from the sickroom in the White House, made no mention of a third term for himself, and no announcement of an impending retirement to private life, as many had predicted it would.

Mr. Bryan's speech, taking definite issue with the president's declaration on the great question was accompanied by a statement that he was not speaking as a candidate for the presidential nomination. Many of the democratic chiefsman freely said that portion was a distinct surprise to them.

Rank and File Studying

Today the rank and file of the Democratic party will study the president's message to the party, and the announcement of the president's decision on the great question was accompanied by a statement that he was not speaking as a candidate for the presidential nomination. Many of the democratic chiefsman freely said that portion was a distinct surprise to them.

Evade Flight Prediction

Whether the position of the two men, now definitely announced, means a fight in the national convention reminiscent of the spectacular battle in Baltimore between Mr. Bryan and the president's nomination, none of the party leaders is willing to predict for publication.

It seems that Mr. Bryan's argument that the treaty should be ratified with such compromises as may be possible will give a tremendous impetus to his movement which steadily has been going on in the undercurrents of the senate for a compromise of all factions in putting through the covenant.

Effect on Senate Action

It seems that Mr. Bryan's argument that the treaty should be ratified with such compromises as may be possible will give a tremendous impetus to his movement which steadily has been going on in the undercurrents of the senate for a compromise of all factions in putting through the covenant.

Lodge Accepts Challenge

Senator Lodge, the republican leader, and foremost in the fight against ratification of the treaty without reservations, takes a wholly opposite view and has issued Mr. Bryan's position, while the president's message makes it impossible for the senate might compose in differences and ratify the treaty.

Optimistic Opinions

There were a dozen or more other speakers at the dinner and the views on whether the league should be made a campaign issue were either divided in favor of the president's or Mr. Bryan's position.

Senators Disagree Over Effect Of President's Jackson Day Message

WASHINGTON, (AP)—Senators disagreed widely today as to the probable effect on the senate treaty situation of President Wilson's Jackson day ratification message.

BENNY LEONARD MAKES FORTUNE IN 1919 SEASON

Lightweight Fight Champion
Pulled in \$200,000 as His
Share of Purse

CHICAGO, (Special).—Two hundred thousand dollars.
It's a lot of money even in kopeks. With dollars as cheap as they are it is hard to conceive of a man catching that many in the course of twelve months, especially when the man wears boxing gloves. Yet that is the approximate amount that Benny Leonard, the lightweight champion, raked in during 1919.

Leonard was a most active boxer. He piled his rounds with a diligence and vigor never before displayed by a champion in any class. He realized that the reign of a champion is not long and that a little holder has to "get it while the getting is good."

Has 25 Battles
Leonard engaged in twenty-five bouts during the year, an average of a bout almost every two weeks. This is exclusive of the several benefit bouts he boxed. According to his manager, Billy Gibson, the total gate receipts for these bouts amounted to approximately \$500,000. If Leonard drew down \$200,000 as his share then he averaged about 40 per cent of the gate in each bout which he took part. To attract a total of a half million dollars, the gate receipts for each bout averaged \$20,000 and Leonard received an average of \$8,000 for every time he entered the ring to do battle.

In eight of Leonard's principal bouts the gates totaled \$501,500, an average of \$52,187.50 per bout. The remaining sixteen bouts drew \$293,500, an average of \$17,550. His eight biggest bouts, his opponents, where they were held and the gate receipts follow:
With Willie Ritchie at Newark, \$53,000.
With Patsy Oline at Philadelphia, \$37,000.
With Johnny Dundee, Newark, \$26,000.
With Soldier Bartfield, Jersey City, \$24,000.
With Jimmy Duffy, at Tulsa, Ok., \$20,000.
With Soldier Bartfield, at Newark, \$16,000.
With Charley Motrie, at Detroit, \$12,000.
With Mol. Coogan, at Jersey City, \$9,500.

Draws Big Money at Newark
The bout between Benny Leonard and Willie Ritchie drew the second largest gate of the year. The world's heavyweight clash between Jack Dempsey and Jess Willard at Toledo alone outdrew this clash between the one time lightweight champion and the present incumbent. Newark was besieged by frenzied thousands of enthusiasts last April when Ritchie, who had previously outpointed Leonard in a four round bout on the coast, climbed into the ring to do battle against the local favorite. The club was packed to capacity; the walls fairly bulged outward with the mass of humanity that jammed the building. In the streets thousands of disappointed fans attempted to carry the place by storm until the police reserves were called out and the crowd dispersed. Leonard won by a knockout.
The fact that Leonard was able to average one bout almost every two weeks is all the more remarkable when it is remembered that the champion did little boxing during the summer months. All through July and most of August he was idle. Then he resumed the whirlwind campaign that had featured his schedule during the spring and early summer months. As fast as matches could be made for him he boxed. He was ever ready to enter the ring against any opponent the promoters might select for him. He recently concluded his year's work in the ring with a short but productive tour through the south.

Tools Fine After Hard Year
Discussing the busy year he had put behind him upon his return from the south recently, Leonard said: "I feel fine." It has been a strenuous year for him, but I have kept myself in condition by engaging in real bouts. After all there isn't any more work attached to an actual bout than there is in training for a bout; in fact, there is not as much and it is far more interesting. Of course, a man must train to get anywhere in boxing and I manage to keep

WILDE FINDS RING FOE HE CAN CONQUER

"Babe" Asher, Champion Bantam Boxer of A. E. F. No
Match for Briton

ST. LOUIS, Mo., (P)—Jimmy Wilde, English flyweight champion, easily defeated Johnny "Babe" Asher, bantam champion of the A. E. F. in an eight round decision bout last night.

Without apparently extending himself Wilde carried the honors in every round. In the fourth, fifth and sixth the Britisher paralleled Asher with the mat. Asher danced around shadowlike, while his opponent fought coolly and deliberately, following him around the ring. Asher, however, now and then speedily stepped in and out, scoring points but the blows had no evident effect on his foe. Several times during the encounter Asher's manager admonished him to "keep away from him."

A few seconds after the first gong sounded, Wilde had Asher's nose bleeding and in the second round a few lefts brought blood from his mouth. Asher started out good but appeared to lose heart when the blood began flowing from his nostrils. He fought cleverly the early part of the first round.

In the second and third rounds Wilde rained lefts and rights on Asher's head and body. In the latter round the boys fought toe to toe for a few seconds during which Asher scored a clean up-punch with his right.

In the fourth round Wilde, floor'd Asher with several lightning blows to the face. The former soldier remained down for the count of eight. In the next Asher was knocked down with a right to the head, but regained his feet before the referee tolled off the third count. At the end of this round Wilde was slamming merciless punches to Asher's head.

Several fast blows to Asher's body and face downed him again in the sixth but he was up and out covering up before the sixth count. In the seventh and eighth rounds Wilde had Asher against the ropes much of the time.

Wilde stopped the fight in the sixth round and requested that Asher's chest be dried.

It was announced that Wilde, clad in a sweater, failed to move the beam placed at 110 pounds. Asher's weight was announced as 113 1/4 pounds.

LEGION BRANDS JACK DEMPSEY A WAR SLACKER

Leyden Post, Denver, Denounces
Champion while Applauding
Carpenter

DENVER, Col., (P)—Leo Leyden post of the American legion at a meeting here last night adopted a resolution branding Jack Dempsey, the pugilist, as a "slacker," and declaring opposition to holding the proposed Dempsey-Carpenter fight in Colorado. Copies of the resolution will be sent to all American legion posts in the United States with a request that similar action be taken by each.

The resolution branded Dempsey as "a slacker" and provided that American legion posts in every state in the union take steps to prevent the champion from boxing anywhere in the United States.

In a speech in support of the resolution, Viet commander Bowman declared that Dempsey's record was not 100 per cent American while Carpenter's career showed the highest sort of patriotism.

Resignation of Baseball Tri-

CINCINNATI, O., (P)—Refusal of the fellow members of the national baseball commission to accept the resignation of August Herrmann as chairman, means that those opposing him have another month in which to decide upon a suitable man for the position. The commission as at present constituted will get together for the last time in Chicago on February 11, after which date Mr. Herrmann gave notice yesterday that he would refuse to serve.

The opposition to Mr. Herrmann as chairman is said to consist principally of five national league club owners.

INTERESTING, ANYWAY

ODGEN, Utah, (P)—Ad Santel, lightweight champion wrestler, defeated Jack Harbertson, claimant of the title, last night, two falls 2-3 of three securing the first and third falls with a double arm scissors hold in one hour and one minute and eleven minutes respectively. Harbertson secured the second fall in fifteen minutes with a double arm lock.

LEONARD'S MENTOR SURPRISED

NEW YORK, (P)—Revelation of the license for the Leonard-Dundee bout in New Haven was a surprise to Billy Gibson, manager of Benny Leonard, who declared last night that "the authorities know all along that it was to be a twenty round bout to a decision." He said that the match will be held later in some other state.

Loss of Lives During Last
Moments of War

WASHINGTON, (P)—Responsibility for the loss of American lives through attacks ordered on armistice day, should be charged to American general headquarters, a house war investigating committee was told Thursday by Brig. General John H. Sherburne, a national guard officer of Boston.

So horrified were my men and those of other American commands near us at the needless attacks of the morning of November 11 and consequent loss of life that they did not enter into the general celebration of the signing of the armistice," General Sherburne said. "It was freely said at the time that some one had blundered."

General Sherburne said that while some officers refused to send their men to the attack, the majority "no pitiously" fought the all-powerful triumvirate at Chaumont and the entire general staff "gang" there that they dared not risk court-martialing by evading in any particular the attack orders.

The witness said he did not refer to Generals Pershing, Liggett, or Bullard when he spoke of the "general staff triumvirate" at Chaumont. The only officer he named was Brigadier General Fox Connor, chief of operations.

No French or British troops, except a few Canadians, attacked on armistice day, General Sherburne declared.

NINE COMMUNIST SUSPECTS IN CUSTODY IN PORTLAND

A CLASSIFIED AD should tell the exact truth. If you are seeking a job don't exaggerate either your experience or ability. Frankness alone wins.

Finding a position is sometimes a most disheartening task. Just to rely upon friends, or upon going about and making personal applications, often tends to utter discouragement. The quick road to a position is through the classified. Sometimes this road requires more than one day to travel—but it leads inevitably to the desired goal if followed.

Boyd Hospital LABORATORY

Twin Falls, Idaho

Established 1905

A new department of the hospital, fully equipped to lend valuable aid toward making a diagnosis.

Without a proper diagnosis, no disease can be properly treated.

Diseases, such as typhoid, syphilis, malaria, tuberculosis, anemia, influenza, obscure diseases of the blood and nervous system, Bright's disease, and cancer, can be diagnosed by laboratory tests alone.

In nearly every disease known, valuable diagnostic, as well as prognostic aid can be given by careful examination of the blood, urine, sputum, gastric contents, specimens of tissue, such as cancerous and tuberculous glands, bacterial examinations of pus, spinal fluid contents, and inflammatory exudates, such as pus in the lung, etc.

No disease is of such minor importance that the patient is not justified in demanding every means toward an accurate diagnosis.

NO VINDICATION FOR PLUMB

Proponents of the Plumb plan for "tri-party control" of the railways—which, by the way, is reported to have been amplified by its author to include all industries—may or may not claim credit for recommendations of Director General Hines looking toward a more satisfactory re-ordination of the several interests that enter into the administration of the railways.

As a matter of fact, the Hines recommendations, insofar as they may be practicable, have nothing in common with the proposals of the Chicago lawyer.

The differences are elemental. Plumb proposes a reorganization for the attainment of which essential processes in railway administration would have to be done away with. Hines also declares for a reorganization, with the public and labor, as well as capital, represented in the management, but he points out significantly that "we have already all three interests participating in the management in all sorts of ways and yet there is no common ground on which these three elements can meet and exchange views and endeavor to reach conclusions."

The public, through various governmental agencies, has asserted itself in the administration of the railways, as has labor through its organization typified by the "brotherhoods."

Inconsiderate of one another's interests as each of the three interests have been too prone to be in the past, the fact remains that each has been represented in the management of the industry.

It requires no revolutionary process to bring about a higher degree of mutual consideration on the part of each of the several interests and for the establishment of the "common ground" for consultation about which the director general speaks.

A fair interpretation of the Hines' suggestion leaves nothing lacking after that meeting ground has been established.

The Plumb plan, on the other hand, purports at the outset to confiscate \$9,000,000,000 worth of railway property by forcing the owners to accept about 66 cents on the dollar for their properties, and it purports further the fixing of all wages and setting aside of a certain specified sum annually for new equipment or expansion with the provision that profits are to be divided between the federal treasury and the workers—any losses to be met by the general public through taxation.

There is nothing in the director general's statement upon which an apology for those revolutionary proposals could find a foothold.

The Hines' recommendation serves to shed light on a troubled situation; the Plumb proposal only adds to the confusion.

GETTING IT RIGHT

Credit for what seems to be the most rational view of the senate controversy over the Versailles peace treaty yet expressed by one intimately connected with it, must be given Senator King of Utah, a democrat.

Declaring that the treaty could not be ratified without reservations, Senator King, speaking in the senate yesterday stated that he could not subscribe to the view that the senate's failure to act rested wholly upon the Republicans.

Such an admission must necessarily imply defect on the part of the president, but the senator's defense of the Wilsonian attitude is one commending

What This Country Needs

Fight Lies of Agitators with the Absolute Truth. Propaganda with Counter-Propaganda and Revolution with Common Sense—Some Trite Suggestions

Fortile fields of endeavor are open for an organized campaign for combating Bolshevism and the pernicious teachings of the I. W. W. and other real radical organizations by means of counter-propaganda. In England citizens organizations have taken up a campaign of counter-propaganda, which is having its effect and is decidedly retarding the growth of the movement. Why not here?

So far no organized effort has been made by the interests most directly concerned to counteract the preachings of radical agitators and revolutionists by means of a simple program of telling the actual facts about Bolshevism and the I. W. W. In isolated instances manufacturers and producers have found this plan successful. Successful speakers personally acquainted with the men employed in the plants have taken up the challenge thrown down by the preachers of revolution and, by plain, straight-forward statements of facts and figures have disproved every assertion made by the agitators.

An instance of this, rather near at hand, occurred not long ago when firebrand speakers of the Russian Workers' Union appeared at mine meetings held by the West Virginia coal company and endeavored to arouse the miners to a revolutionary pitch. The general manager of the company, himself a miner, went to the mine as soon as he learned of the efforts of the anarchist orators, and laid all the cards on the table. He showed the way rolls, production and maintenance costs, contracts for the output of the mines—in short, the company's entire records, that the company was making a profit of less than 14 cents a ton on the coal it sold. He talked plain miners' talk, using

its to universal respect and consideration.

The president, he says, would follow to either course than to insist upon ratification without reservations in order to be true to the allies from whom we want our creditors in the framing of the document.

The logical conclusion is that the president, as a peace-maker, did not truly represent American sentiment, that whatever concessions he wrung from the allies he secured at too great a cost, and that sooner or later he must back down.

It is too much to expect that the president will endanger his prestige with the allies or with his adherents at home by recommending modifications of the treaty before the senate has acted.

CONSPIRACY

Senator Lewis in denouncing the claims of Chicago for the Democratic national convention before the national committee of that party yesterday, took occasion to remark that his political opponents by "malicious falsehoods," were seeking to "array the foreign born citizens against Americans."

Assuming that the senator finds basis for his charges in the action of the senate foreign relations committee in calling before it representatives of several nationalities during its consideration of the peace treaty one wonders what might be the result once the requirement were laid upon America, through operation of the unqualified treaty, to participate actively in European squabbles of much more serious import than mere discussion of proposed American policy.

Fate of "First of the Tribunes"

On the eighth of October in 1354 Bionet, the Italian patriot who headed a revolution at Rome which overthrew the pope and his aristocracy, was killed. He had been placed at the head of the Roman government under the title of tribune of the people. His successors went to his head and he was finally killed in a riot which his ill-considered conduct had provoked.

language suited to the understanding of his hearers.

The result was that more than 1,000 miners, most of them potential revolutionists as a result of the agitators' false statements, came to a realization of the fact that they had been misled, and a committee chosen by the workers themselves escorted the group of agitators out of the territory, warning them not to return. Since then anarchists have given that action a wide berth.

It would seem, therefore, the function of strong national organizations to meet their employees and to combat with unimpeachable records and facts the false statements of the revolutionaries who by means of lies are sowing strife throughout the land. In almost every case all that would be needed would be a plain showing of fact and an analysis of the assertions of the anarchist speakers.

Naturally the industrial, mercantile and manufacturing interests of the nation are busy on problems involving increased production, rationalization of production, stabilization of labor questions and the like. It is certain, however, that none of these questions can or will be settled until the nation's business life rid itself of the perniciously active revolutionaries whose sole mission is to stir up strife and discord between workers and employers and thus prevent the very thing the employers are trying to bring about. The most effective way for the employer to restore stability and accomplish the ends toward which they are working is to FIGHT LIES WITH THE ABSOLUTE TRUTH. PROPAGANDA WITH COUNTER-PROPAGANDA. REVOLUTION WITH COMMON SENSE.

BAKER ASKS FOR ARMY OF 275,000 STRENGTH

Bases Request on Legislation on Military Requirements in Germany and Siberia

WASHINGTON, (AP)—To enable the war department to maintain temporarily American troops in Germany and Siberia, Secretary Baker recommended Thursday to congress legislation authorizing an army of approximately 275,000 officers and men for the remainder of this fiscal year. This number is 100,000 in excess of the peace time army permitted by the national defense act.

A bill carrying out the secretary's recommendation was introduced by Chairman Wadsworth of the military committee and referred to that committee.

The committee, by a vote of 9 to 5 struck out the provision of the reorganization bill conferring upon Hunter Liggett and Robert Bullard the rank of lieutenant general in the regular army.

After Taking Tanalee Feels Better Than in Fifteen Years

"I can certainly recommend Tanalee for it was six months ago that it entirely overcame all my fifteen years of trouble and today I am still in perfect health," said Mrs. T. T. Smith, who lives at the corner of Stanton and Alameda Streets, Los Angeles, Cal.

"Before I began taking Tanalee I had suffered so long that I didn't think I would ever get anything that would help me but now I am feeling better than I have in fifteen years and have actually gained thirty pounds in weight, which is a great deal for me to do. I was in an awful condition with no appetite to speak of and indigestion gave me so much trouble that I was really afraid to eat anything for I knew if I did I would be troubled with gas and pains in my stomach for hours at a time. Sometimes the pains were so bad I could not get up for a week. I was so tired that I could not sleep. I lost so much sleep that I began to fall off in weight and I got so weak that all the time I went around feeling tired and worn out. You can imagine that after all the long years of troubles when every medicine and treatment I had tried failed to do me any good I could get nothing but discouraged."

"But at last I started taking Tanalee as I had read so much about it, and to my surprise I began to improve almost at once and that encouraged me so that I kept on taking it until all my troubles had left me. I eat anything I want without even being troubled in any way with indigestion and I am so much heavier that I have had to make nearly all my clothes over. My sleep is sound and restful and when I get up every morning I feel refreshed and I can do my housework with ease for my troubles have left me. I eat anything I want without even being troubled in any way with indigestion and I am so much heavier that I have had to make nearly all my clothes over. PORTERFIELD HURT WHEN GEAR BREAKS

Car Goes into Ditch Near Point Ranch, Shaking Up Party, Injuring Two

J. C. Porterfield, chief engineer of the Twin Falls Canal company, is confined to his home the victim of injuries received in an automobile accident yesterday. The injuries, while more than commonly painful, are not of a particularly serious nature, however. The accident happened, according to Mr. Porterfield's statement, near the Point ranch, while a party of five persons, including himself, were returning to Twin Falls from a point across the Nevada line south of Rogerson. Mr. Porterfield, who has been measuring the inflow of the Salmon reservoir, short distance beyond Twin Springs, was driving the car. In attempting to negotiate a curve and to pass a small truck, Mrs. Young, a school teacher, who with her husband, was coming to Twin Falls, sustained any marked injury. Mrs. Young has a sprained ankle. Mr. Porterfield has injuries about the upper portion of the body.

CRUSHER PLANT MOTOR UNLOADED AT QUARRY

Power Machine for Rock Breaker Will Be Set Up Tomorrow for Operations

The big motor, upon the arrival of which crushing operations at the Twin Falls Highway quarry have been waiting, is here and ready to be installed. The big engine reached Twin Falls last night, and was unloaded at the plant today. It will be installed tomorrow. According to highway district officials several days will be required to get the motor machine accurately set up and tuned for action, but it is expected the crusher will be in full operation by Friday or Saturday at the latest. All other machinery is in place and a complete force has been arranged for to carry on capacity operations. The motor would have been in Twin Falls a number of weeks ago but for strikes in the east which tied up factories and transportation facilities, according to official statements.

ROOFED SILO IS PREFERRED

Helps Prevent Freezing of Silage, Keeps Out Snow and Protects Walls of Silos

By R. L. PATTY, South Dakota Experiment Station.

The old notion that it is unnecessary to roof the silo was wrong. Experience shows that a silo roof helps in preventing the freezing of the silage, keeps out snow, protects the silo walls when empty, and thereby adds to its life service.

The roof is necessary on a stave silo to give it rigidity in addition to protection of the roof is put on after the silo is filled, no inside scaffolding is necessary. Common types of silo roofs are shingled, concrete, light hollow brick, prepared roofing on tight sheathing and metal. The roof should match the silo. It should be a fire and windproof silo, it should be all means put on a fire and windproof roof. The roof should be made to last as long as the silo. A short-lived roof should not be put on a long-lived silo.

Verifying "Ed" Slams His Lyre Then Hits Trail

CHEER UP, folks,—
The Spring will return when the Winter is fled.

And will bring us the rose and the grass.
(The grass will probably come first, but it can't be put first here 'cause it would not rhyme with what we are about to say hereafter.)

However:
The old signs of Spring will return, as I said.

Excepting the "flock" sign, alas.

Some boys will return, but others will not.

Since the druggies have spread over the land:

The Spring brings the roses, but you bet it will not.

Bying back that faded Dutch band.

With that off'n our chest, air-est will be easy, and for the next three or four days we will be far away where the bootjack may find us next.

Yesterday's temperatures took a mud run up, the high being 26 as against 23 the day before, and three below zero during the night, which was a hectic bout of a couple of degrees against the preceding nocturnal period.

"Tonight and Saturday fair-continued cold," is the official guess.
