ARCHANGEL IS IN POSSESSION OF BOLSHIEVSKI

"Whites" Abandon Town and Troops Join Soviet Forces, According to Moscow Dispatch Received in London

REPORTED EVENTS TURN MEANS LINE WEAKENING

Captured City for Long Period During War, was Main Port of Entry for Russian Supplies from Allies

LONDON, (AP)—Bolshevik forces have captured Archangel, on the White sea, according to a telegram received today from Moscow today. The "whites" abandoned the town and the troops joined the Bolsheviks, the message declared. The last advice to the British war office on the north Russian situation were that on February 18 the red forces were seventy miles south of Archangel. Bolshevik possession of the city would mean a material weakening of the White line.

Archangel for a long period during the war was the main port of entry for Russian war supplies from the allies. A railroad joining the principal Russian rail lines to the south gave ingress for the war material made outside of Russia and supplied to the armies of the old regime and after the revolution to the forces of the Kerensky government.

With the advent of the Bolshevik rule in Russia Archangel was mentioned by the allies as a base for contact with interior Russia and later as the supply base for the forces of the north Russian government established in opposition to the Bolsheviks and for the allied troops, including a considerable number of Americans, sent to help protect the north Russian area from Bolshevik incursions.

Abandonment of the Archangel expedition by the allied and associated powers was determined last year and the British, American and other allied forces there were withdrawn during this summer and fall.

London advice bearing Thursday's date reported the beginning of an offensive by Bolshevik forces on the front south of Archangel, the capture of several villages on the "line" being announced.

STRUGGLE RAGES ON AMOR RIVER

Moscow Reports Fighting Between Insurgents and Japanese in Siberia

LONDON, (AP)—Fighting has been reported in the Amur river in Siberia between insurgent forces and Japanese, a Moscow wireless message states. "Whites" troops reinforced the Japanese and a fierce struggle is raging with the dispatch declared.

In regard to the situation in south Russia a Bolshevik communique today says: "Enemy ships have bombarded Gendzhik on the sea of Azov. Submarine fighting is occurring 25 versts north-east of Stavropol (on the left bank of the insurgents) supported by Chinese, the Volga."

LOWDEN WOULD ABOLISH INVESTIGATING BODIES

Illinois Governor Says Best Results Come From Individual Work

ABERDEEN, S. D. (AP)—Abolishment of the plan of appointing commissions to investigate charges of irregularities was strongly urged by Governor Frank B. Lowden, at the primary election last March, in an address here this afternoon.

"We have gotten into the habit of 'yes' years," Mr. Lowden declared, "whenever anything went wrong, of appointing a commission, and then conducting ourselves that we had disposed of that question."

Mr. Lowden said that under his administration as governor of Illinois, a new judicial system had made possible the substitution of nine individuals as department heads for 125 agencies and commissions.

German Peace with Bolsheviki Looms

LONDON, (AP)—A diplomatic dispatch from Berlin today states that "undoubtedly" the forthcoming negotiations regarding peace between Germany and Soviet Russia will develop into peace negotiations.

POLAND SEEKS APPROVAL OF PEACE TERMS

Program to Be Submitted to Bolsheviki is to Be Scanned First by Premiers of France and England

WARSAW, (AP)—Poland's peace program to be submitted to the Russian government is nearing completion and will be communicated to France and England for approval before being dispatched to Moscow. Premier Millerand of France and Lloyd George of Great Britain have already been consulted on several of the chief points under discussion.

It is expected an answer will be sent to the Bolsheviks by March 1.

Ukrainians Arrested
Members of the former Ukrainian government have been arrested by Polish military authorities, who accuse former Premier Marchenko and others with political cooperation with the Bolsheviks, according to a Lemberg dispatch. At the same time Ukrainian government banks at Kremenets and Podolek were taken over by the Poles, who entered the banks financed propaganda against Poland.

Charge Favoritism
A motion was adopted in the Polish diet yesterday requesting the Polish government to take measures to petition the allies to recall from Tschekoslovakia the bankers and financiers who have been accused of partially favoring Czechs in that region.

QUALITIES GREAT BRITAIN'S AGREEMENT WITH POLAND

LONDON, (AP)—Great Britain is not committed in any way to come to the support of Poland against Russia, it was declared by the British government today. It was stated that the British government is not bound by the agreement with Poland, which was signed in London last year, to support Poland in the event of a conflict with Russia.

VIENNA, (AP)—The government has created a new state monopoly of all artificial mineral waters.

World News Events

PARIS, (AP)—The steamer Danube struck a mine in the Black Sea thirteen miles off Cape Ramili, on the European shore at the entrance to the Bosphorus yesterday, thirteen persons on board being killed by the explosion. Two water tight compartments of the ship were flooded but she succeeded in reaching Constantinople. The vessel is owned by the Messageries Maritimes of this city.

VIENNA, (AP)—Austria will hold to the treaty of St. Germain and not enter into negotiations with Hungary with regard to a plebiscite in West Hungary to determine its nationality. Dr. Karl Renner, the chancellor, told the national assembly yesterday. The allies, the chancellor said, agreed with this view of the Austrian government.

LONDON, (AP)—The German government is rushing preparations to try Germans accused of violations of the laws of war and examination of witnesses and arguments will begin next week, according to a Berlin dispatch to the Central News. Readings will open before the Leipzig court within the next month, it is said.

BERNE, (AP)—Adherence by Switzerland to the league of nations was recommended by the Swiss government in a message to parliament today. What has been known as the "American clause" by which Switzerland's entry to the league would depend upon similar action by the United States, has been abandoned and if parliament approves the recommendation Switzerland will become a member at once.

ODGEN GIRL IS CHARGED WITH COUSIN'S DEATH

Threat Accompanying Proposal of Marriage Basis for Plea of Self Defense

ODGEN, Utah, (AP)—Jennie Seadrino, 16 years of age, is under arrest here charged with the murder of her cousin, Mike Torman. The girl declares Torman threatened to kill her unless she consented to marry him and that she shot in self defense. The coroner declares a loaded pistol was clutched in Torman's left hand.

TRAINING FOR WAR SERVICE IS APPROVED

Action of House Committee Means Army Reorganization Bill Will Contain General Instruction Provision

ENDORSEMENT IS VOTED ON BI-PARTISAN LINES

Details of Plan Yet to Be Worked Out But Decision Is Reached to Inaugurate New System in July, 1922

WASHINGTON, (AP)—The principle of universal military training as part of the nation's future military policy was approved today by the house military committee by a vote of 14 to 6. This means that the committee's army reorganization bill will contain a general training provision. Details have not yet been worked out, but it was decided that the training program would become effective on July 1, 1922.

Party Lines Forgotten
The vote in the committee was along bipartisan lines, three democrats joining with eight republicans in putting the training plan through. Four republicans and five democrats opposed it. Final action by the committee followed a three hour executive session in which debate at times became very sharp. So varied were opinions that the committee adjourned for a period of three or four months. Some supporters suggested six months and varied opinions were given as to exemptions, vocational training and other questions.

Details to Sub-Committee
Finally, the committee decided that the details would be left to a sub-committee. By its action the committee revived the universal training question, apparently dead since the recent democratic caucus voted on a record, as opposed to the republican caucus, which was in favor of the training plan.

AMERICAN CAPTIVE OF BANDITS IS RELEASED

NEW YORK, (AP)—Wilson Welsh Adams, an American mine superintendent, has been released by the bandits who kidnapped him for ransom from the Providencia mine in Mexico, and has arrived safely at Saltillo, according to a telegram received today by the American Metal company, Limited, his employer. The bandits demanded \$25,000 ransom, but the telegram did not say whether the money had been paid or whether Adams' release was forced by Mexican government troops who were known to be in pursuit. Adams' wife lives in Los Angeles.

NEW YORK REPUBLICANS FOR RATIFICATION WITH RESERVATIONS TO PACT

State Convention Adopts Platform Setting Forth Views of Organization; Demands Retention of Right to Withdraw from League on Proper Notice, Declares Against Article Ten in the Present Form and Calls for Protection of Monroe Doctrine

URGES ACCEPTANCE OF AMENDMENT TO PROVIDE FOR WOMAN SUFFRAGE

NEW YORK, (AP)—Immediate ratification of the treaty of peace with the senate reservations retaining for the United States its right to withdraw from the league of nations on proper notice, a declaration against article ten in its present form and demanding protection for the Monroe doctrine "in letter and spirit," were advocated in the platform adopted here today by the New York state republican convention.

The platform says in part: "The republican party of the state of New York reaffirms its unwavering devotion to the constitution of the United States and to the guarantees of civil, political and religious liberty therein contained. It will resist all attempts to overthrow the foundations of the government or to weaken the force of its controlling principles and ideals, whether these attempts be made in the form of international policy or of domestic agitation."

For Immediate Ratification
"We favor the immediate ratification of the pending treaty of peace with such distinct reservations and declarations as shall make it clear to all the world that the United States retains the right to withdraw from the league of nations on proper notice; that the United States assumes no obligations, claims or duties in connection with the league of nations, and that the league of nations is not to be a part of the American government, and that the league of nations is not to be a part of the American government, and that the league of nations is not to be a part of the American government."

DUBLIN, (AP)—With a tank and two armored cars the military today carried out a raid near Grattost street where they are reported to have made several arrests. The raid followed early morning fighting between civilians and police, in which a constable was killed and another constable and a civilian were wounded and several persons were arrested.

It is believed the early morning disturbances were part of an organized police in different parts of the city. The plan for a simultaneous attack upon the police was frustrated for the most part by arrests of suspicious persons, many of whom were found to be heavily armed.

POLICE RESIST ATTACK ON BARBERS AT TRALEE
TRALEE, Kerry County, Ireland, (AP)—After a three hour siege, in which hand grenades, rifles and revolvers were freely used, an attack on police barracks by armed raiders was repulsed here yesterday. One police officer was wounded and it is believed three raiders were struck by bullets.

The raiders blocked all roads converging on Tralee with fallen trees and barbed wire, and the police were cut off from the town. The raid followed a raid of fifteen miles about Tralee, in which a police barracks was demolished by the explosion of a bomb.

LABOR'S FRIEND CLAIM URGED FOR SOCIALISTS

Witness at Albany Trial Denies Intent to Dictate to the Unions

ALBANY, N. Y. (AP)—The socialist party in New York today urged that labor unions when strikes are to be called, but labor unions "striking" for betterment of working conditions may always rely on the assistance of the party, Otto Branstetter, national secretary, testified today at the trial of the five suspended members of the I. W. O. Branstetter has charged the party approves the general strike as a weapon for propelling its class struggle.

ILLNESS HALTS THE TRIAL

Court Postpones Session in Murder Case at Montezuma; Juror Stricken

MONTESUMA, Wash. (AP)—Trial of ten alleged slayers for the murder of Warren O. Grimm, Centralia attorney, today was postponed because of the illness of Edward Furr, one of the jurors. Judge Wilson postponed the entire day a session.

WILSON IS EXPECTED TO SIGN ON OGDEN BILL

WASHINGTON, (AP)—President Wilson is expected to sign the Ogdon bill before it would automatically become a law at midnight February 20 without his signature.

WILSON'S REPLY CLOSES DOOR TO ALL ARGUMENT

Position of American Government on Adriatic Settlement Said to Have Been Made Plain in President's Message

FURTHER EXCHANGE OF NOTES IS ANTICIPATED

Details in International Conference to Be Withheld from Public Pending the Allied Acquiescence to Publicity

WASHINGTON, (AP)—The position of the American government on the Adriatic settlement has been made plain in President Wilson's reply to the allied note that administration officials believe the way is now clear for the great powers on the vexing question expected.

Reply Is Anticipated
It was said, however, that by the time the allied note reached the door to further exchanges had been shut. On the contrary a reply to the president's latest communication is anticipated and a final agreement between the great powers on the vexing question expected.

The president is understood to have made it perfectly clear that the United States cannot accept the settlement reached by the allied powers and concurred in by Italy and which was made the subject matter of the ultimatum to Jugo-Slavia last month. He also is said to have made it equally clear that enforcement of the Adriatic terms of the 1915 treaty of London, negotiated before this country entered the war, would be wholly unacceptable to the United States.

The president's note probably will be put on the cables tomorrow. It was stated officially that the question of giving publicity to the exchanges would wait on the delivery of the president's note and the acquiescence of the other governments.

FARMERS PLAN POLITICAL MOVE

Decide to Put Presidential Candidates on Record as to Attitude

WASHINGTON, (AP)—Entrance of the 7,000,000 American farmers as a unit into the political arena was foreseen by the national bureau of farm organizations decided that all the presidential candidates should be put on record as to their attitude toward the farm situation. The bureau said that each candidate will be asked to answer an questionnaire so that his position will be unmistakable.

Points Out Dangers
C. O. Drayton, president of the Farmers' Educational and Cooperative Union of America, said in a letter to the bureau that the conference to be "careful of the kind of co-operation we adopt." The greatest menace today to the free institution of the farmer, he said, was the "organized labor union trust" but an even greater menace would be "an organized farmer trust."

Other conferences have been held of the remarkable growth of the cooperative buying and selling idea among farmers in Kansas, Nebraska, Michigan, Wisconsin and Oregon.

While the conference was in session, John W. Bachelor, president of the South Dakota state farmers' association, urged before the house agriculture committee congressional action directing President Wilson to call a conference here of delegates representing agricultural labor and capital.

CALLS UPON HOOVER FOR POLITICAL DECLARATION

ATLANTA, Ga. (AP)—The name of Herbert Hoover cannot go on Georgia democratic presidential preference primary ballot in April unless he is an avowed democrat, under a ruling made by a sub-committee of the state executive committee. The committee was instructed to write Mr. Hoover and ask if he could qualify under the ruling. Only the names of avowed democrats can appear on the primary ballot.

LABOR TO JOIN NON-PARTISANS IN CONVENTION

Montana Equity Arranges Co-operator's Congress at Great Falls with Townley, Frazier and Plumb as Speakers

GREAT FALLS, Mont., (AP)—Great interest throughout this state attaches to the fifth annual Co-operators' Congress, under the auspices of the Montana Union, American Society of Equity, with farm organizations and organized labor participating. Among the well known speakers at the gathering, which will meet here next Monday, February 23, and continue until February 25, will be Governor Lynn J. Frazier of North Dakota, A. C. Townley, president of the National Non-partisan league, Glenn Plumb, author of the Plumb plan for railroad control; B. K. Wheeler, former United States district attorney for Montana; W. P. Dunn of Butte, a member of the Montana legislature; Dr. L. B. Craighead, formerly president of the University of Montana, and now publisher of a weekly newspaper at Missoula; S. C. Poff, attorney general of Montana; R. H. Martin, speaker of the House for the Non-partisan league, and others.

Economic and Political
It is announced that plans have been made for three overflow meetings, as interest in the congress is both economical and political.

The morning and afternoon sessions of the first two days will be devoted to the annual convention of the Montana Union, American Society of Equity. On Monday evening, with J. M. Burlingame of Great Falls as chairman, there will be an address by Townley, Frazier, and Plumb, who will speak on "Farm Problems We Are Solving." Glenn Plumb will discuss "The Plumb Plan for Railroad Control and Operation."

Steve Eli, president of the Montana Federation of Labor, will preside at the Tuesday evening session, at which W. S. McCormack of Kalispell will speak. Attorney General Ford will talk on "Taxation" and Governor Frazier of North Dakota will tell "What We Have Done and Our Future Aims."

With R. C. Arnold of Ophelia presiding, the Wednesday morning meeting will begin with an address by W. H. Hinnah of Big Timber on "Farm Loans at Three Per Cent." "Scientific Farming" will be discussed by B. A. Haste, and C. C. Taylor of Placerville will speak on "The Bank."

On Wednesday afternoon W. L. Beers of the extension division of Montana State college will speak on "New Methods of Cooperative Marketing," and President Alfred Atkinson of the state college will discuss "Financing Higher Education in Montana." Miss Margaret Quaw of the state college will talk of "The Farm Bureau at Work and at Play," and Professor W. J. Abbey will speak on "New Demands." First President Craighead of the state university will preside.

Brings Jefferson in
State Senator E. J. White of Buffalo will preside over the Wednesday evening session, while Dr. Craighead discusses "Thomas Jefferson and Where He Would Stand Today." Dr. H. O. Taylor of the federal department of agriculture will discuss "The Cost of Production and Farm Profits," and there will be an address by J. M. Anderson, president of the Equity Cooperative exchange.

Sam Hampton, Nezeman, Senator White and Ole Svanlie, county assessor of Hill county, will speak on Thursday morning, with H. O. Folger, president of the Rev. Leo Totten of Great Falls will speak Thursday afternoon on "Co-operation, the Climax of Civilization." J. E. McGovern, manager of the Mill and Elevator association of North Dakota, will talk of "State Owned Flour Mills and Terminal Elevators and What They Mean to the Farmer," and President A. C. Townley of the Non-partisan league will speak at the closing meeting Thursday evening. President Townley will speak on "The Organized Farmer and Laborer."

TWIN'S DREAM COMES TRUE AS THEY RE-UNITE

These 14-year-old twins, Amanda and Amelia Esterbrook, reunited last week at the Oak Park Infirmary, Chicago, hope never to be parted again. They were born in Chataqua county, N. Y. As little girls, Amanda wore a pink ribbon and Amelia a blue one, so mother could tell 'em apart. Both were married and raised families, but both are now widows. Neither has ever been to a theater.

WILSON IS SCOTCHED IN COMMENT OF EUROPEANS

Situation Created by President in Dismissal of Secretary of State Serengethens Union of Old World Allies, Declares Italian Observer

ROME, (AP)—Commenting on the situation which has arisen since President Wilson sent his note to the supreme allied council relative to the Adriatic question, the Epoca says:

"Old Europe, with all its defects, never until five years ago needed American advice in the conduct of its affairs, while now after victory has been achieved every European action must be submitted to President Wilson. It is possible that even American public opinion can countenance such an absurdity!"

The situation created by Mr. Wilson's dismissal of Mr. Lansing, the president's action, "strengthens the union of the European allies." The Epoca's editorial expresses its "thanks to Mr. Wilson" saying "for the third time he has saved Italy from accepting a solution of the Adriatic question which was a renunciation of rights to which she was entitled."

The Messaggero asks for the publication of the text of Mr. Wilson's correspondence about the Adriatic question, expressing surprise that the American president "doesn't abolish secret diplomacy." The same newspaper publishes a statement from Charles Hitchcock Sherrill, former United States

minister to Argentina, saying: "For the same reason the Panama canal belongs to America, the Adriatic should belong to Italy."

BERLIN NEWSPAPERS GIVE PROMINENCE TO SITUATION

BERLIN, (AP)—Newspapers here are giving unusual prominence to dispatches from the United States bearing on the Wilson-Lansing episode and also the attitude of President Wilson on the Adriatic question. What little editorial comment there is attempts to disprove the fact that there is an "insurance" against Mr. Wilson at home and abroad. This is based wholly upon the cable information throughout Holland and Switzerland to the effect that American newspapers are taking the part of Secretary Lansing.

The Tagblatt declares that Mr. Lansing's case has been "converted into Mr. Wilson's case," and that while it is a purely internal affair of the United States, outsiders are "forced" to make the somewhat depressing observation that the isolated of one great nation who was hailed as the herald of world democracy and liberty is closing his career in open contradiction to the will of his people."

POLICE PROTECT THE PRESS

Political Campaign in Brazil Marked by Violent Manifestations

BUENOS AIRES, (AP)—Police guards have been stationed to protect the offices of newspapers here against violent manifestations of political partisans during the present political campaign for the election of members of the house of deputies. The office of one newspaper recently was stoned by partisans from a political meeting and in smaller cities there have been several attacks upon newspapers. In two of these cases the offices were wrecked.

DUTCH ATTACH DEMANDS TO PACT RATIFICATION

Second Chamber of Parliament Approves Entrance into the League of Nations

THE HAGUE, (AP)—Decreased armament, speedy institution of a permanent high court of justice and immediate admission of all civilized nations desired to enter, were demands attached to the resolution passed yesterday by the second chamber of the Dutch parliament approving Holland's entrance into the league of nations.

During the debate it was explained that these demands did not constitute reservations, as reservations were not permitted, but were suggestions that the Dutch government would enter with the idea of having these principles adopted. Further procedure is considered mere routine, as the first chamber will certainly approve the motion.

In connection with the delay of America to ratify the league it is learned that several European neutral states which up to some few weeks ago were inclined to wait for the final decision of America have since decided it was desirable to hasten their entrance regardless of any action by the United States.

AMERICAN CAPITAL PLANS TO AID TO MEXICAN INDUSTRY

MEXICO CITY, (AP)—American capitalists are reported to be planning for the development of cotton growing in the Laguna district of the state of Coahuila. This district has grown large crops of cotton for many years. It is understood also that the Americans will plant thousands of acres in Tamaulipas to what. The government is said to look with favor on these projects.

CIGAR OVERTAKEN AND PASSED BY CIGARETTE

Department of Agriculture Reports Boarding Price for Tobacco Other Than Cigar Types

WASHINGTON, (AP)—The extraordinary demand for tobacco other than the cigar types and the immensely increased use of tobacco for cigarettes during 1910 raised the average farm price of the composite chewing, smoking, snuff and export types to 41.3 cents on December 1, or greatly above the price of 21.9 cents for cigar tobacco, experts of the department of agriculture state.

The price of cigar types of tobacco before last year always has been above that of the other types, as a whole. Cigar tobacco last year was lower in price than it was in either 1918 or 1917, not because of increase of production, but because of weaker demand. In commenting on the price, the department of agriculture says the cigar has been overtaken and passed by the cigarette.

DEMAND HIGHER PAY FOR WORKER IN PORTO RICO

American Federation of Labor
Representatives Complain
Wages in Island as Low as
60 Cents for 11 Hours Work

SAN JUAN, P. R., (AP)—Complaint that wages "as low as 60 cents for 11 hours work" are paid in Porto Rico was made by Peter J. Brady and Henry McAndrew, representatives of the American Federation of Labor in a letter they sent recently to Acting Governor Jose E. Benedito demanding "a living wage" for the island.

Brady and McAndrew were sent to the island to investigate labor conditions. In their letter to the acting governor they denounced the situation here as being of such a character as to make Porto Rico a "living grave yard."

Children Employed

The investigators asserted that "in some rare instances wages as high as \$1.50 had been paid for 11 hours work but only where the best and strongest men could be secured. The rate of pay for women for the same number of hours was 30 to 50 cents and children get from 10 cents up," they informed children are far below the legal age for signor Benedito. "Many of these employment," McAndrew said, "is so high, it is impossible for these unfortunate people to live as human beings should."

In asking the acting governor to call a conference of the labor interests, the labor investigators requested that the minimum wage of all male workers be set arbitrarily at \$2.50 per day of eight hours and at \$1.25 for women and boys but that when the work of the latter was equal to that of the men the rate of \$2.50 be paid. They added:

Call Profits Enormous

"The sugar profits are enormous, so there should be no excuse for these small individuals and corporations and Porto Rican statesmen. This starving condition of the people of Porto Rico should not continue a moment longer. The very men who sit in the Porto Rican legislature are the worst profiteers and the most heartless."

It was after the receipt of the foregoing letter that many of the sugar operators agreed to advance wages 30 to 50 per cent with \$1.00 to \$1.50 a day as a minimum wage.

RUSSIAN SHIP CAPTAIN IS QUANDARY OVER OWNERSHIP

HONOLULU, T. H., (AP) by mail, Captain T. H. of the Russian volunteer fleet freight steamer Omak, here for work on route from New York to Vladivostok, said he is in a quandary as to who owns his craft now that the Kalchak government is no more.

"The Omak is owned by the Russian government," the Kalchak government," explained the captain, "but her home port is Archangel, North Russia."

The vessel is carrying about 6000 tons of cargo to Vladivostok, including Red Cross stores, machinery, food stuffs—but no munitions.

POLICE COMMISSIONER QUILTS OFFICE TO BE BRICKMASON

PASADENA, Cal., (AP)—Clayton stuff has resigned from the Pasadena police at a salary of \$120 a month to go to work as a brickmason in Texas for \$11 a day. Commissioner M. J. Salidary remarked that as a Pasadena brickmason receives more than a Pasadena police commissioner he was tempted to give up his position to become a helper to the former patrolman.

The White Deer of Cozaco Forest

In the Cozaco forest in Glen Canale, Inverness, Scotland, a white fawn has recently made an appearance in a herd of red deer. The animal has been observed closely through a telescope, and is said to be pure white with the exception of a slight bluish mark on the neck.

"OVERTHROW WORLD ORDER!" CRY COMMUNISTS

Manifesto of Communist International, Seized in U. S. Department of Justice Raids, Tells "Reds" Own Story of Their Plans for World Wide Plunder.

Extracts from "Manifesto of the Communist International—Adopted by the Congress of the Communist International at Moscow, March 2-4, 1919, and signed by Camerone G. Rakovsky, N. Lenin, M. Zinovjev, L. Trotsky and Fritz Platten."

Alongside the delirious dynasties of the Romanoffs, Hohenzollerns and Hapsburgs, and the capitalist oligarchy of these latter, the forces of France, England, Italy and the United States stand revealed in the light of unfolding events and diplomatic disclosures in their immeasurable villainies.

Spurning the half-heartedness, hypocrisy and corruption of the decadent official socialist parties, the Communists assembled in the Third International, feel ourselves to be the direct successors of the heroic efforts and martyrdom of a long series of revolutionary generations from Babeuf to Karl Liebknecht and Rosa Luxemburg. As the First International foresaw the future development and pointed the way; as the Second International gathered together and organized millions of the proletariat, so the Third International is the international of open mass-action of the revolutionary vanguard, the international of deeds. Socialist criticism has sufficiently stigmatized the bourgeois world order. The task of the International Communist Party is now to overthrow this order and to erect in its place the structure of the socialist world order. We urge the working men and women of all countries to unite under the Communist banner, the emblem under which the first great victories have already been won.

Proletarians of all lands! In the war against imperialistic barbarity, against monopoly, against the privileged classes, against the bourgeois state and bourgeois property, against all forms and varieties of social and national oppression—UNITE!

Under the standard of the Workers' Councils, under the banner of the Third International, in the revolutionary struggle for power and the Dictatorship of the Proletariat, proletarians of all countries UNITE!

The revolutionaries are complete the proletariat to make use of the means of battle which will concentrate its entire energies, namely, mass action, with its logical result, direct conflict with the governmental machinery in open combat. All other methods, such as revolutionary use of bourgeois parliamentarianism, will be of only secondary significance.

The indispensable condition for successful struggle is separation not only from the direct servants of Capitalism and enemies of the communist revolution, in which role the Social Democrats of the Right appear, but also from the Party of the Center (Kautskians), who desert the proletariat at the critical moment in order to come to terms with its open antagonists.

The growth of the revolutionary movement in all lands, the dangers of suppression of this revolution through the coalition of capitalist States, the attempts of the Socialist betrayers to unite with one another (the formation of the Yellow "International" at Bern), and to give their services to the Wilsonian League; finally, the absolute necessity for co-ordination of proletarian actions—all these demand the formation of a real revolutionary and real proletarian Communist International. This International, which subordinates the so-called national interests to the interests of the international revolution, will necessarily the making help of the proletariat of the different countries, for without economic and other mutual helplessness the proletariat will not be able to organize the new society.

Incalculable are the sacrifices of the working class. Their best—Liebknecht, Rosa Luxemburg—they have lost. Against this the proletariat must defend itself, defend at any price. The Communist International calls the entire world proletariat to this final struggle.

CHAUFFEURS STRIKE IN PROTEST AT REGULATION

Traffic Rules in Rio de Janeiro Broke
Manifestation of Disaffection

RIO DE JANEIRO, (AP)—The chauffeurs' union, members of which operate more than 3200 taxicabs, recently went on strike for two weeks in protest against traffic regulations and low taxicab tariffs. Many drivers of privately owned cars joined them and with the strike was in force the streets seemed strangely deserted.

The strikers returned to work after the street car employees failed to join them. The city and federal authorities refused to investigate the strikers' claims while they remained on strike.

—And Love.

Like a great poet, Nature produces the greatest results with the simplest means. These are simply a sun, flowers, water and love. Of course, if the spectator be without the last, the whole will present but a pitiful appearance; and, in that case, the sun is merely so many miles in diameter, the trees are good for fuel, the flowers are classified by stems, and the water is simply wet—Heine.

Hooped Pots and Jack Cade.

In the Middle Ages in England many drinking pots were made with hoops so that when two or more persons drank from the same pot tankard, no one of them should take more than his share, a hoop marking a half, a third or a fourth of the contents of the pot, according to its make.

Small Things Really Count.

Life is made up, not of great secrets, but of duties, but of little things, to which smiles and kindnesses, and small obligations, given habitually, are what win and preserve the heart and secure comfort.—Sir Humphrey Davy.

EXPEDITION NEED NOT FEAR 'WHITE CANNIBAL'

Los Angeles People Say Inhabitants of Tiburou Island are Merely Sullen

LOS ANGELES, Cal., (AP)—Members of the mining expedition Captain Harry de Windt, an English explorer, said he plans to lead to Tiburou Island in the Gulf of California, need not fear the "white cannibals," reported there, according to Los Angeles residents who have visited the island.

Persons returning from Tiburou, however, have given it an unpleasant reputation. They have reported that it is overrun with reptiles and that the few Indians living there, while not actively hostile, are sullen and distrustful. Stories of a strange white tribe, using poisoned darts and an ancient blunderbuss to bag occasional visitors to provide native feasts, are scorned here. Some Los Angeles residents have reported seeing natives carrying modern firearms.

City Lighting Modern.

Lighting up a whole city at night is quite a modern invention, although illumination was used in some of the ancient cities. Paris and London dispute the priority in the matter of modern street lighting. London claims to have lighted its streets with lanterns as early as 1414, but this contention is disputed. During the sixteenth century lanterns for street lighting were provided at the public cost in Paris.

SKAGGS' SUMMARY

In reviewing our business records of the past several months, the one outstanding feature is the splendid co-operation given us in our efforts to combat high prices.

Provisions and Groceries (we are told) are from an economic necessity very high, yet with our MODERN, SMALL MARGIN, CASH AND CARRY SYSTEM we have been able to maintain lower retail costs than those prevailing in other sections. We feel, and are told daily by our patrons that we have saved consumers of this community hundreds of dollars from what they would have been required to pay the old-fashioned, extravagant, non-competitive credit stores—whose standards of merchandising DEMAND larger profits.

We are conscious of the very liberal patronage we have enjoyed—our appreciation is extended to you in form of still cheaper prices. Prices based on our experience with an intelligent buying public—in anticipation of a still greater volume.

If the mill grinds at continued full capacity, the operating cost is cheaper. THE SAME IS TRUE OF A RETAIL STORE.

TURKS CARRIED AWAY MANY CHRISTIAN GIRLS

Blotting is Recital of Lustful Orgy During Last Five Years —Relief Needed—

More than 100,000 Christian girls driven and dragged away during the Mohammedans' orgy of rapine, butchery and lustful excesses that have made the last five years a sickening nightmare in Western Asia, must go on living their enforced lives of shame in Moslem harems until the Near East Relief organization can come to their rescue.

This is the information sent by the national headquarters of the Near East Relief in New York to H. G. McKee, 316 Yates building, Boise, who is directing south Idaho's part of the great nation-wide campaign for Near East Relief funds, now at its height.

"Rescue of Armenian and Syrian girls held as slave wives in the harems of the persecutors and murderers of their loved ones was the thrilling mission of many brave American girls in the service of the Near East Relief," states Mr. McKee, "and Eastern Relief death toll became so appalling that all effort and available funds had to be concentrated on the relief of the starving."

How he had seen scores of these rescued slaves brought into Near East Relief stations, while he was abroad, with their once beautiful features hidden by their scarred, inlaid by their own efforts to tear out with white-hot irons the deepened tattoo marks with which all these captives were branded to prevent their escape, is told by Major G. K. Weston, traveling auditor of the Near East Relief. Major Weston recently passed through Idaho, inspecting the records of the relief commission.

With the city of hunger now echoing up and down the whole Near East all this week has not been a day of rest for people must have food at once or perish. Even now the death by starvation of more than 500,000 of these sufferers cannot be prevented.

South Idaho is asked to feed about 700 of the unsheltered little orphans among these refugees at a cost of \$60 apiece per year. These are on the very brink of death, Mr. McKee reports, when these have been cared for, the noble work of wrestling these Christian women and girls from their torments of shame and disgrace will be resumed.

Today's Markets

New York Exchange

NEW YORK, (AP)—Bulls were once more the masters of the market. The stock market today, but industrials, as represented by motors, oils and steels also registered substantial advances. The former leaders, including the 2,600,000 their subsidiaries, also upped and upped, led the list to higher prices but profit taking, reduced many gains at the close. The close was strong. Sales approximated 1,100,000 shares.

Liberty Bonds

NEW YORK, (AP)—Prices of Liberty bonds at 2:55 p.m. today were: 3 1/2's, \$90.02; first 4's, \$90.30; second 4's, \$90.30; first 4 1/2's, \$91.30; second 4 1/2's, \$91.30; Victory 3 1/2's, \$97.74; Victory 4 3/4's, \$97.70.

Grain and Provisions

CHICAGO, (AP)—Fresh advances in the price of corn took place today as a result of a brisk uptake in foreign exchange and owing to various orders likely to bring about a sharp cut in the distribution of railroad cars. On the advance however, sales to realize profit, its broadened out, and the market receded. Announcements of a sharp cut in the price of flour tended further to handicap the bulls. Opening corn quotations, which varied from the same as yesterday's, finished 1/2 cent higher, with May \$1.34 3/8 to \$1.34 1/2 and July \$1.30 7/8 to \$1.31 1/8, were followed by moderate general gains as then by a decided setback.

In the last hour, pronounced weakness developed owing in some degree to reports that country offerings were in increasing and abundant quantities. The close was heavy, 1 1/8 to 1 3/4 net lower, with May \$1.32 1/4 to \$1.32 3/8 and July \$1.28 3/4 to \$1.29.

Corn paralleled the action of corn. After opening 1/8 off to 1-8 advance, including May at 80 1/4 to 80 7/8, the market hardened all around but later relaxed.

Provisions were firmer with exchange and cereals. Buying, though, lacked volume.

Subsequently the market declined with corn.

BLACKSMITH'S SON MAY BE PRESIDENT

Governor Lowden of Illinois, Leading Republican Candidate, Had Humble Start

WON OVER MANY OBSTACLES

A Schoolmaster at Fifteen—Worked Way Through College and Law School—From Law to Politics —Farming His Big Interest—

Gov. Frank O. Lowden of Illinois, one of the prominent candidates for the Republican presidential nomination, was successful in life by grit and hard work. Son of a village blacksmith, confronted by the privations of an undeveloped country, enjoying only such advantages as he could earn by unrelenting work and sacrifice—it was not the kind of beginning to promise a brilliant future. But by determination, ambition and ability Lowden worked the obstacles that rose about him and made success look his way.

Governor Lowden was born near Sunrise, Minn., on January 23, 1861. His father was Lorenzo Lowden, who ran the village blacksmith shop. The Lowdens left Sunrise when Frank was seven years old, barely out of the pioneer class at the school which Lorenzo helped to build, and moved to Hardin county, Iowa. There the elder Lowden took up farming. The boy learned to work, but did more. He made a reputation for himself and defied an education. So well did he succeed that at fifteen he was master of the country school, saving his few dollars for college. At twenty he entered the University of Iowa. By outside work he made enough money to complete his course at the head of his class.

Then he went to Chicago. He wanted to be a lawyer. By the same program of hard work and sacrifice that had won him a sharp cut in the price of flour tended further to handicap the bulls. Opening corn quotations, which varied from the same as yesterday's, finished 1/2 cent higher, with May \$1.34 3/8 to \$1.34 1/2 and July \$1.30 7/8 to \$1.31 1/8, were followed by moderate general gains as then by a decided setback.

1911—Retired from congress.
1916—Elected governor of Illinois.

Two years later he was elected to congress from the Thirteenth Illinois district. He retired voluntarily after two and a half terms. On quitting congress he went to his farm near Oregon, Ill., and devoted himself to making that one of the finest properties of his kind in the state.

Meanwhile in 1904 he had been made a member of the Republican national committee for Illinois, on which he served until 1912. In 1910 he entered the gubernatorial primary and was nominated for that office. He was elected and took his seat the following January to begin what was proved one of the most constructive and successful administrations recorded in the history of the state.

In brief, the chief events of Governor Lowden's life, are as follows:
1861—Born, Sunrise, Minn.
1868—Moved to Hardin county, Ia.
1882—Graduated from University of Iowa.
1897—Graduated from law school.

co-operation shall be given. The strike is a weapon of industrial war and should be made increasingly unnecessary and infrequent by a better organization of industry and by the establishment of a commission or commissions on industrial relations.

"Increased production, stimulation of enterprise, checking of private extravagance and waste, and the reduction of public expenditures are a national necessity. Our system of taxation and of business regulation should be immediately revised, with the definite purpose to promote rather than to prevent enterprise and production.

Urges National Budget.
"We urge the prompt passage of legislation to authorize a national budget. The principle of protection must be retained as a national policy not only for use in maintaining American standards of labor and industry when present conditions change, but in order to ensure the nation's economic independence."

Opposes Plumb Plan
"We are absolutely opposed to government ownership of the railroads and to the so-called Plumb plan for their management. The transportation of the country should be privately owned and privately managed under strict government regulation."

"We think that both the national defense and proper care for our foreign commerce requires a merchant marine of the best type of modern ship flying the American flag, manned by American seamen, owned by private capital and operated by private energy."

"We charge that the federal trade commission, as at present constituted, has deliberately prostituted its proper function. It has persecuted trade instead of promoting trade."

"We are opposed to a large army of professional soldiers. We favor the democratic policy of a small standing army, with a trained citizen reserve."

Forced into Opposition
The platform calls attention to the election of a republican congress in 1918 over the president's appeal for the election of men of his own party.

"Still the president persisted in his 'pursue' the platform says. 'Both in his conduct of the peace negotiations abroad and in his advocacy here at home of ratification by the senate of his own individual work, he has assumed a purely personal and partisan attitude. He has forced the republican party to take an attitude of sharp opposition to his recommendations in order to protect the independence and to promote the highest interests of the people of the United States, as well as to open the way to the adoption of a real, instead of an illusory plan for securing the peace of the world.'

"We shall appeal to the people to support a policy of liberal and constructive progress both at home and abroad, one which will secure international co-operation for the production of war and the reduction of armaments without sacrificing love of country and American ideals to a false and harmful form of internationalism."

Reaping Machines.
Over two hundred different reaping machines have been patented. The first one was invented in the eighteenth century, but failed owing to its intricacies. The New-Patrick Reap-ers have originated the first practical machine of this class in 1820, and it was first used in 1827, the principle being that on which the best machines are now constructed.

Political Notes

SALT LAKE CITY, (UP)—April 4 has been set as the date for the meeting of the Utah democratic state central committee here for the purpose of choosing the date and selecting the city for the holding of the democratic state convention at which delegates to the national convention at San Francisco June 28 will be named.

Utah's congressional representation allows this state eight full votes at the national convention. W. R. Wallace, state chairman, believes that the meeting of the state body will be held about May 10.

The republican state central committee will meet Feb. 23 to fix the convention date for the selection of delegates to the republican national convention.

Madagascar Turtles.
Some of the turtles of Madagascar are oval in form and very fat and plump; others are much thinner and flat. In order to catch them, the natives go out to sea in the early morning when the ocean is very smooth, and the turtles come to the surface to enjoy their morning nap.

Again, Swat the Fly.
The number of bacteria capable of being carried by one house fly varies from 550 to 8,000,000. Hence a crusade against this pest, which is most numerous during the season of the year when epidemics are likely to occur, will play a great part in prevention and spread of any malady.

Trees.
Individual taste has much to do with the ornamental character of trees. What one person might call an ornamental tree might not be considered such by others. One's tree may be ornamental in one place and unattractive in another.

DEATH CLAIMS ADMIRAL PEARY

Discoverer of North Pole Succumbs at Home from Long Illness

WASHINGTON, (AP)—Rear Admiral Robert Edwin Peary, retired, Arctic explorer and discoverer of the north pole, died at his home here today from pneumonia, from which he had suffered for several years. Arrangements for the funeral have not been completed, but he will be buried with full naval honors.

Admiral Peary submitted to a blood transfusion at a hospital here ten days ago. He later was removed to his home and his condition then was reported as somewhat improved. He gradually grew weaker, however, and the end came early this morning. Dr. H. F. Strine, the admiral's physician, disclosed that the transfusion this month was the thirty-fifth to which Admiral Peary had submitted within two years.

Lured by Arctic—Admiral Peary was 64 years old and entered the navy as a civil engineer on October 26, 1881. He was assistant on glacier, Niagarua ship canal, under government orders 1894-95. Returning to the United States he became interested in Arctic explorations and, 34 years ago he made his first trip to the north, making a reconnaissance of the Greenland inland ice cape east of Disco bay.

Two years thereafter he was designated in charge of the Niagarua canal surveys and invented rolling lock gates for the canal, but the lure of the Arctic was on him and he again turned northward. In June, 1891, he led his first big polar expedition, being head of the Arctic expedition of the American museum of natural sciences, Philadelphia.

Admiral Peary made seven other expeditions into the Arctic before his fifty-fifth birthday, and in 1909 he returned, returning in 1909 to find that Dr. Froelick A. Cook was being praised as the discoverer.

Thanked by Congress—In 1913 he was promoted to the rank of rear admiral in the navy and given the thanks of congress by a special act. Turning his attention to aviation, Admiral Peary became a strong advocate of aircraft development by the government and time and again urged adequate coast patrols in this country, especially during the war period.

Slays when Charged a Quarter for Socks

CHICAGO, (AP)—Richard Puts, aged 16, walked into a haberdashery store and asked for a pair of socks. J. F. Burchan, the clerk, showed him a pair. Puts offered a dime in payment. The clerk asked a quarter. Puts drew a gun and shot the clerk twice. Burchan died this morning and the boy was booked for first degree murder.

"Dead Fruit."
Leaving baseball, football and boxing aside, there is no longer a great disparity between woman's and man's athletic prowess. But whether the women should be permitted to compete with the men in the golf, tennis, shooting, and other championships is debatable ground. If the men oppose it, one can hardly blame them, for it must be years before victory over a woman will be regarded as anything but "dead fruit" and defeat as anything but a disgrace.

Subjugs.
When an army was conquered in Roman times, it was obliged to "pass under the yoke" as an evidence of defeat at the hands of the enemy. This "yoke" was sometimes made by setting up two spears and putting a third across the top. Our English word subjugs (derived from Latin "sub," or under, and "jugum," or yoke) thus contains in its composition a spectacular custom from the military life of the Romans.

YOUNG CHICAGO GUNMAN HANGED IN COUNTY JAIL

"Smiling Jack" O'Brien, Slayer of Patrolman, Goes to His Death

CHICAGO, (AP)—John ("Smiling Jack") O'Brien, 21-year-old gunman, was hanged in the Cook county jail this morning for the murder of Patrolman Richard Burks.

The execution was delayed nearly an hour when a last minute request was received from the grand jury, asking to see O'Brien. The jurors remained in the death chamber and watched the hanging.

O'Brien was convicted of shooting the policeman in a gun battle in a saloon. He declared in court that he was guilty, but three days ago claimed that he had pleaded guilty when the late "Money" Enright, leader of a gunman's clan, who was killed recently by a member of his own band, offered to get him off with a two year sentence if he would accept the blame to shield a relative of Enright. The pardon board and Lieutenant Governor Oglesby refused to grant a reprieve to investigate the story.

DES MOINES, Iowa, (AP)—The Detroit-to-Denver Highway association perfected its organization at a meeting here yesterday afternoon. Michigan, Indiana, Illinois, Iowa, Nebraska and Colorado were represented. Plans were discussed for starting work immediately on establishing a reliable and permanent highway from Detroit to Colorado Springs.

Derivation of "Hoodlum."
Hoodlum now means a young, rough, rowdy. The term is derived from a gang of toughs in San Francisco, under the leadership of one Muldoon. They were called for the name of their leader, the syllables of whose name, out of contempt, were reversed and slightly modified. Instead of Muldoon they were called Hoodlums.

R. M. White Takes Out Construction Permit for Union Hall on Third Avenue

A temple to cost \$90,000 for construction is the plan of labor in Twin Falls.

This morning R. M. White, acting as agent, took out a building permit in the name of the Twin Falls Labor Temple association. The structure is to be erected at the corner of Third avenue east and Second street. It will stand on foundation walls 100 by 125 feet and is to be two stories of brick construction.

Deaths

Mrs. T. D. Conner, former Shoshone county treasurer, died at her home in Piler last night. Funeral services will be held at 2 o'clock tomorrow afternoon at Piler. The body will be forwarded to Colfax, Washington, for burial. Decedent had been an invalid for a number of years.

Funeral services for Mrs. Ella Connally were conducted this afternoon at the DuWitt chapel. The Rev. A. G. Bennett officiated.

The infant daughter of Mr. and Mrs. J. A. Cox died at a local hospital yesterday afternoon. The child was only four days old. Funeral services will be held this afternoon at DuWitt's. Burial will be in the Twin Falls cemetery.

After Hampton, wife of J. M. Hampton of Berger, died at 11 o'clock yesterday morning at the home in Berger. Death was the result of pneumonia following influenza. The lady is to be interred to Bosworth, Missouri, for burial. The husband and three children survive. Decedent was 30 years of age.

RETURNING TO HARTH

Discussing evidence of dawdling appreciation in Europe of the underlying significance of reconstruction problems. A New York financial institution, in a lately issued statement declares:

"The plain fact seems to be that consideration of the economic welfare of Europe as a whole has been subordinated to national aspirations. For more than a year the character of Europe have been given over to political bickering while business interests have been either neglected altogether or so edged about by restrictions incidental to the maintenance of the war basis that all large efforts to solve their problems have been of little avail. Now that the consequences appear in a depreciation of exchanges to the danger point, there is every reason to believe that the next few months Europe will evolve some broad-gauged plan for the rehabilitation for her economic affairs."

So, then, according to this interpretation, depreciation of exchanges serves as a sort of alarm clock to rouse Europe from her nightmares of national aspirations.

The situation as depicted here may be, and probably is true as regards affairs in Europe. The obvious purpose of the financial institution in limiting this presentation obviously and frankly is to indicate opportunities to the American producer and trader "to compete in a world market before his competitors have entirely freed themselves from their difficulties."

But one is inclined to wonder, perhaps, if somewhat the same predicament in which Europe finds itself, according to this interpretation, is not the situation in America — only, whereas Europe has been stirred to action on being forcibly brought to a realization of her precarious position, America may still be lulled by false security. Somehow there are elements in this diagnosis of the situation in Europe that have a familiar ring and might be found on further examination, to fit the case of America rather pertinently.

Depreciation of exchange rates is a contingency that cannot well be anticipated for America at this juncture; but it is a matter at least, admissible of debate, whether or not America might not be better served in the long run if there were not some such direct and effective means of directing popular appreciation to the situation which exists as inevitable consequence of the war and from which it is impossible that America should escape cost free while all the rest of the world suffers from it.

It is wholly to be regretted that the situation in America as accurately presented by the controller of the currency in his last report cannot be made to partake of the dynamic effect that the decline of exchange has wrought in Europe. There is little basis for self-complacency in this report, but a generous amount of food for profitable thought. He says:

"The volume of the country's business during the past year and its industrial activity cannot be properly gauged by the totals of bank clearings. While the volume of transactions, as expressed in dollars and cents, has exceeded all the previous records, the unpleasant fact remains that it takes but twelve months, when the obvious duty which confronts our people was to build over effort toward not only continuing at full speed at the high point of production previously reached, but where possible to increase our output to supply the needs of other countries, we have in some directions allowed production to be radically reduced. The output of the mines and factories. . . . By producing less and charging our own people two or three prices for the lessened output, we may appear to be growing richer, but are not somewhat in the position of the man who tried to lift himself by his own bootstraps."

It must be apparent that before the American producer and trader can be in position to take advantage of trade currents no matter how favorable, they must be equipped with the necessary advantages; and it would be as plainly evident that even conditions in Europe, if they are as favorable for American trade as the New York institution avers, can be of no advantage to America so long as Americans permit the situation described by the controller of the currency to exist. There is in all this no basis for panic or anything of the sort.

If only solution, as Europe already is finding out, is to increase production and reduce consumption of non-essentials until such time as the stores of the world, so sadly depleted by the war, are built up again. There is no other way out, and the sooner this is borne home in America the better it will be for all Americans. The better prosperity serves only to complicate the situation and delay its final solution.

NEW RING CODE OF A-N. BOARD TO HELP SPORT

By Ray Pearson

If the rules which the army, navy, and civilian boxing board has proposed are accepted, there should be considerable improvement in the glove sport not only in this country but throughout the world.

The Marquis of Queensberry rules have been followed year after year in boxing contests in this country, but strict adherence to that code has not been maintained. It is because of this that the A. N. and C. board has gone into the matter and framed a code which should make boxing perfectly satisfactory to every fan.

Champions Must Battle

Perhaps as interesting as any new rule adopted by the army, navy and civilian board is that which concerns the champion who stiffs for indefinite periods and refuses to defend his title. Here is the new rule:

"Any boxer losing a championship period and refusing to defend his title, a bona fide bout to a decision against the best available contender within a period of six months, and thereafter every six months if a qualified challenger appears with a proper deposit to guarantee a fight, shall be considered as having forfeited his title. Should he fail to do this, or refuse to be unable to make the required weight, his title shall be forfeited."

Curb on Ubiquitous Seconds

One of the things which have been a source of annoyance to every sportsman in a boxing contest is that in which the second is "played as the big card." In many bouts the second has been a nuisance, more than one man officiating in that capacity. The A. N. and C. makes the following rules in this connection:

"The referee shall, before starting a contest, ascertain from each contestant the name of his chief second, and shall hold said chief second responsible for the conduct of his two assist seconds during the progress of the contest."

The referee shall, before each bout, call contestants to the ring for final instructions, at which time each contestant shall be accompanied by his chief second only. The principles of refereeing instructions shall sink hands and return to their corners. They shall not again shake hands until the beginning of the last round."

Duties of Referee

There are many duties which must be performed by one of the principals that he was beaten by a referee prying him apart from his antagonist and thereby handicapping by grabbing his arm in breaking the contest. A provision to prevent this argument is made as follows:

"The referee shall not touch the contestants' gloves, except on the failure of one or both contestants to obey the break command."

Here's another point that few referees know or care enough about to enforce, although it's one of the old Queensberry rules as well:

"When a contestant is down his opponent shall retire to the farthest corner and remain there until count is completed. Should he fail to do so the referee may cease counting if he has so retired."

Rule Is Often Violated

How often do referees allow an anxious boxer to stand directly over his opponent on the floor, not to deliver a blow before the other fellow has hardly a chance to get on his feet or get his bearings?

Kept Ignominiously in Memory

On the 6th of November, in 1500, Christopher Columbus, in spite of the unenviable services he had rendered to Spain, was taken into Cadiz in fetters. King Ferdinand and Queen Isabella were moved at the sight and commanded that he be released. Columbus, however, was unable to give the insult, and until the time of his death the ignominious fetters were hung in full sight on his walls as a reminder of the ingratitude of his sovereigns.

Free Hot Water

Free hot water for hot drinks at picnics or for any other use is served to the public at a recreation park in Toronto from a gas water heater placed on the grounds by the city authorities. A wooden shed houses the heater and a sign on the building calls attention to the fact that hot water is free.

Famous Woman

Catherine of Siena was a woman who concentrated her duty to God and man and was able to bring all into the melting pot of divine love. This saint organized peace between France and the papacy in the fourteenth century. She brought the pope back to Rome. Canonized, she is "Saint Catherine."

First Motion Pictures

The motion picture was experimented with and test exhibitions were privately given in both this country and Europe in the early nineties, though it was not until 1895 that the invention had so far advanced as to make a public exhibition practicable. The latter part of that year they were exhibited in Europe and America.

Lion Had Long Life

Authorities differ as to the age limit of a lion. Some biologists say the normal life of a lion's life is about twenty-two years. A lion which died in the Tower of London in 1700 had lived in captivity over 70 years.

LOST IMPOSSIBLE TO SUPPLY ENORMOUS DEMAND FOR TANLAC

Although Huge Laboratories Turn Out 36,000 Bottles Daily Thousands of Dealers Cannot Be Supplied

40 CARLOADS SOLD IN JANUARY ALONE

After Shipping 838,400 Bottles of Celebrated Medicine in One Month Factory is Still 380,000 Behind with Orders

Although the big Tanlac laboratories at Dayton, Ohio, and Walkerville, Canada, have been running at top speed for months, it has been a physical impossibility to supply the phenomenal and ever increasing demand for this celebrated medicine.

During the first ten weeks of last year One Million Three Hundred and twenty-seven thousand bottles of Tanlac were sold, breaking all World's records for the sale of proprietary medicines up to that time. This record now pales into insignificance. However, no orders received during January alone of this year reached the astonishing total of One Million Two Hundred and Twenty Thousand bottles, showing an increase of approximately one hundred per cent. over the corresponding period of 1919.

To say that Tanlac now has the largest sale of any medicine of its kind in the world expressed it mildly. It does not begin to tell the story—for no other preparation has ever even approached the marvelous record that is now being made by Tanlac and it is now conservatively estimated that the sales for the present year alone will amount to ten million bottles.

Of the orders received during January it was possible to ship only eight hundred and thirty-eight thousand bottles, and the thousands of dealers scattered throughout the United States and Canada have been unable to obtain the medicine for weeks.

"Phenomenal and 'Bewildering' is the way one of the big drug jobbers of the country describes the marvelous demand for Tanlac. "We know that the day of miracles has passed, and we all know that there are no unfathomable mysteries in the drug business, but this Tanlac proposition smacks of both," writes another leading wholesale druggist, whose firm has sold over 34 carloads, or an average of nearly one carload per month since they began handling Tanlac a few years ago. Thousands of similar letters and telegrams have been received, but for lack of space they can only be referred to briefly.

Most proprietary medicines are sold by the dozen or by the gross; a few are bought by the trade in small quantities from ten to twenty gross; a very few are sold by the carload, and then only to the largest jobbers, covering extensive territories. The fact therefore that scores of jobbers in this country and Canada have a demand sufficient to justify them in ordering not one carload, but from two to three carloads of Tanlac at a time, makes Tanlac's preeminence in the field of medicine all the more noteworthy. It is the biggest thing of its kind in the world and nothing like it has ever happened in the drug trade before.

Think of one retail firm selling one-third of a million bottles of any one medicine right over the counter direct to consumers in only two years' time! It seems incredible, but such is the fact, made by the Owl Drug company, through their retail stores on the Pacific Coast.

Think of one retail firm in a single city of 200,000 population, selling approximately eighty-eight thousand bottles as an average of over two bottles for every family in only four years' time! Such is the record of the Jacobs' Pharmacy company, of Atlanta.

Think of one retail firm giving a single order for an entire carload of twenty thousand and forty bottles, and agreeing to pay cash for the goods promptly on arrival. Such an order has been received from the Lewis R. Liggett Company, of Winnipeg, Canada.

Another big Canadian retail firm, G. Tanley, of Toronto, has recently placed their order for one hundred gross, amounting to \$10,800.00.

Orders from retailers for from fifty to seventy-five gross are first ones received, and practically all of the leading retail firms buy Tanlac in from ten to twenty-five gross lots to supply their normal demand.

When the magnificent new laboratories at Dayton, Ohio, and Walkerville, Canada, with a combined floor space of seventy thousand square feet and a combined capacity of thirty-five thousand bottles were completed, it was thought that the production would be sufficient to supply the demand for years to come. It is now apparent, however, that additional facilities must be provided if the supply is to keep pace with the demand. And this is true in spite of the fact that there are now on the market from fifty to one hundred preparations claiming similar therapeutic value.

Tanlac has now been on the market for five years. It has stood the acid test of time. It is known and honored in every city, town, village, and hamlet on the American Continent from New York, Florida, to the Northern wilds of Canada, where every Indian and Fur Trader has learned of its wonderful powers as a medicine. It is the one great outstanding proof of its wonderful merit. No medi-

cine, no matter how extensively advertised, could sell and continue to sell and establish new world's records year after year if it did not produce actual and positive results.

Tanlac is composed of the most beneficial roots and herbs known to the scientific world. The formula conforms with all National and State Pure Food and Health Laws of both the United States and Canada, and although Tanlac's claims for superiority are abundantly supported by leading authorities, it is the people themselves who have made Tanlac what it is. Millions upon millions have used it and have told other millions what it has done for them.

That is why Tanlac has become the real sensation of the drug trade all over America. Tanlac is sold in Twin Falls by City Pharmacy, in Rogersburg by Thompson Drug Co., in Murfreesboro by Martineau Drug Co., in Elyria by A. B. Wood, in Buhl by C. D. Boring Brothers, and in Kimberly by A. L. Stover, adv.

WESTERN LEAGUE SEASON TO LAST MAY 5-SEPT. 19

Clarence Rowland Mentioned as Manager of St. Joe Club, But Not Regularly Named

KANSAS CITY, (AP)—The Western league 1920 season will open May 5 and close September 19, it was decided at a meeting of the club owners here yesterday. No decision was made as to the selection of a manager for the St. Joseph club to succeed Cozy Dolan, who recently signed with the Chicago Nationals. The name of Clarence Rowland, former manager of the Chicago White Sox, was being mentioned in connection with the place.

The opening games will be as follows: St. Joseph at Oklahoma City; Omaha at Tulsa; Sioux City at Joplin; Des Moines at Wichita.

The following holiday games also were announced: Decoration day, Oklahoma City at Tulsa; Wichita at Joplin; St. Joseph at Omaha; and Sioux City at Joplin. Tidiness of the Ant

No creature is more tidy than an ant. A well-known authority says their toilet articles consist of coarse and fine toothed combs, hair brushes, sponges and even washes and soaps. Their combs, however, are the genuine article, and differ from ours mainly in that they are fastened to their legs.

RECIPES TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking An Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood, and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well.—Adv.

HILLQUIT MAKES DEFENSE OF AIM OF SOCIALISTS

**Attorney for Suspended New
York Assemblymen Denies
Marxian Apostles in America
are Bolshevists**

ALBANY, N. Y. (AP)—Socialists in the United States are not Bolshevists, but "social democrats of the Mazzinian school," declared Morris Hillquit, socialist leader, testifying today at the trial before the assembly judiciary committee of the five suspended socialist assemblymen charged with disloyalty.

Calls Soviet Inappropriate
In connection with the charge that American socialists sought by revolution to impose the soviet system on the United States, Mr. Hillquit asserted that the soviet system would be appropriate in this country, so much more highly developed than Russia, would be "infantile."

Mr. Hillquit declared American socialists and expressed sympathy with soviet Russia because "a great social experiment, neither perfect nor complete," was being tried out there.

Denies Ideo Obstruction
In connection with the war program of the socialist party, which he testified to draw up Mr. Hillquit testified he had sought to voluntarily support the war effort, but that he had been denied, however, that he had ever advised others not to purchase bonds, that he had, who operated in the line of war and seeking speedy termination, American socialists had not tried illegally to obstruct it.

JOSEPHINE MARTINO DELIGHTS AUDIENCE

**Lyric Singer, and Company,
Provides One of Best Entertainments Heard in Years**

If there have been lacks in the quality of entertainment provided by some of the appearing companies at the Lyric theatre course this season some at least, of these delinquencies were made up in the performance of last night at the Lyric theatre, when the Lyric company, headed by Josephine Martino, a vocalist and pianist. Each gave a rare exhibition of artistry along a particular line.

To Miss Martino must be accorded credit as the bright particular feature of last night's performance. Her singing was more pronounced than that of any other vocalist who has appeared in public roles in Twin Falls in recent years. She possesses a voice of the rare quality, full and strong, with a range and wonderful control. Her intonation is well high perfect and in personality she lacks nothing. There is nothing that could be construed as obstructive to the other artists, but she appears, if anything, rather too unassuming. Her classic numbers were excellently sung and clearly interpreted, but it was in her solo numbers, and numbers that she shared with the greatest particular lustre. All members of the quartet were well received both in ensemble as well as solo numbers.

For this occasion a Julius Bauer piano, donated by a local music house, was used.

The next lyric number will be the Do Mills Male Quartet on February 23.

**EXCHANGE OF OFFICERS FOR
FRENCH ARMY**
COBLENZ, (AP)—An arrangement has just been completed between the commands of the American and French armies for the exchange of officers in the military methods of the other nations. Three American officers will join the French army in the Rhineland tomorrow for three weeks, while three French officers of the same rank will join the American for the same period. A similar agreement between British and American armies also has been concluded and the exchange will begin soon.

CASE DISMISSED
Dismissal was ordered by Judge O. P. Duval of the probate court this morning in the action brought by the district attorney against the estate of Joyner. The latter was accused of a misdemeanor, proof of which, the court granted, was not submitted. Joyner, according to the testimony of his wife, Mary E. Joyner, on Friday, February 13, with bodily harm, John R. Ault, juvenile officer, was the complainant witness. Joyner was charged by Mrs. Joyner, in pending, Homer Mills defended Joyner in this morning's trial.

Great Sahara Desert
The vast Sahara desert covers the major part of northern Africa, consisting of 3,000,000 square miles—an area as large as the whole of Europe. From 100 to 200 feet above sea level it rises in one place to 8,000 feet above, and some of its elevations are covered with snow for three months of the year. Most of it, however, is a dry, sandy waste, dotted here and there with oases where "drink" may be secured. The winds are all very hot and dry, while rain is almost unknown.

SALVATION ARMY IN NEED OF BUILDING

The Salvation Army needs a location for its headquarters. Ensign and John Naton have been in Twin Falls for some time, but no suitable place has been offered for occupancy. This is the statement of H. R. Grant, chief of the Salvation Army in Twin Falls. The board met with Ensign Naton last night for a general discussion of the situation pertaining to the Army corps in Twin Falls. Nothing of a satisfactory nature connected with the Army project was developed at this meeting, according to Mr. Grant. Office of one location was considered, but this location lacked the requisites necessary for the purposes of the corps and was rejected.

"What Ensign Naton now wants more than anything else is an executive office where he can transact the private and general business of the Army," Mr. Grant stated this morning. He explained that the head of the corps has already initiated shift work, and has found ample opportunity for "counseling" in a certain class of this community. A special committee, composed of Mr. Robert H. Grant and C. N. Beatty, has been chosen to confer with Ensign Naton and work out a solution of the headquarters and office problem.

Ensign Naton expects to start start services immediately.

CALL TO PRAYER

The Federation of Women's Bonnets of Foreign and Home Missions unite in a call to prayer, asking that the women of the church observe the first Friday of the Lenten season, February 20, as a day of prayer. All women members of the church are asked to meet at the Presbyterian church Friday from 2:30 to 4:00. Mrs. Conrad L. Owen, the president of the Woman's Union, will preside at this meeting.

STRIKERS REPLACED

A number of workers employed in the construction of a cement conduit for the Eighth avenue lateral, quit work yesterday when informed that the city administration would not accept the wage offered by the supervisor in charge. Today the places were filled by men willing to accept the city's scale of \$4.50 per day. The men who quit had been receiving \$5.20.

HOMES FOR BOYS

John R. Ault, juvenile officer, is seeking homes in which to locate two 15-year-old lads. Places on farms are preferred for the children, because the lads are in need of a home and a job. The boys each have had experience on farms and are said to be clean and willing youths. They are at present living in a rooming house.

PERMIT TO BUILD

To J. B. King, caterer, a permit was accorded for the erection of a one-story shooting building 12 by 30 feet in dimensions. The building is to be located on the corner of 14th and 2nd streets. The cost is estimated at \$600.

CASE IS APPEALED

Porter and Witham, attorneys, have filed an appeal in the district court from the verdict of the municipal magistrate in the case of Dr. E. L. Van Cott. Dr. Van Cott was recently found guilty of violating the city traffic laws. He was fined \$25.

Ancients Had Much Wisdom

A great civilization flourished in the valley of the Nile some three thousand years B. C. These Egyptians worshipped the dung beetle, the scarab, possibly recognizing its scavenger qualities. The well of Joseph, near the great pyramid, is excavated through nearly three hundred feet of solid rock. The ancient Hebrews were the founders of real public health. The laws of Moses, who was born about 1800 B. C., the first hygiene code known, apply as well today as when first promulgated.

Would Spare Grandma's Feelings

The other day my aunt was writing to her mother, and she said to her little boy, who had recently earned a few of his letters at school: "Glad, don't you want to write your letters to grandma and show her how much you have learned?" She thought a few minutes and then replied: "No, grandma is so old and it's been a long time since she went to school, she probably wouldn't know what they are."

Who Leads the Crickets?

An individual cricket chirps with no great regularity when it is by itself, and its chirping is intermittent, especially in the daytime. At night, however, when great numbers of crickets are chirping, the regularity is astonishing. One can hear the crickets in a field chirping synchronously, keeping time as if led by the wand of a conductor.

NOTICE OF MUNICIPAL OUPON BOND ISSUE AND SALE BY THE CITY OF TWIN FALLS, IDAHO

PUBLIC NOTICE IS HEREBY GIVEN, that the City of Twin Falls, in the County of Twin Falls and State of Idaho, intends to issue and negotiate the municipal coupon bonds of said city in the aggregate amount of Twenty-Five Thousand (\$25,000.00) Dollars, for the purpose of providing for the purchase, improvement and maintenance of lands for the use of public parks, without the corporate limits of the City of Twin Falls, Idaho, to be designated "Municipal Coupon Park Bonds."

Said bonds will be issued in conformity with the provisions of Ordinance No. 280, of said city, and approved on the 6th day of February, A. D. 1920, and subject to the approval of the qualified electors of said city voting upon the question at an election to be held in conformity with said ordinance on March 23, 1920.

If the issue of said bonds is approved by the electors, as aforesaid, the bonds will bear date the 1st day of July, A. D. 1920; will be redeemable at the option of the city any time after the expiration of ten (10) years from the date thereof, and shall be absolutely due and payable on the 1st day of July, A. D. 1930, at the rate of ten (10) per cent per annum, plus interest on the principal of One Thousand (\$1,000.00) Dollars each, and the interest thereon, to be paid by the City of Twin Falls, Idaho, at the National City Bank, in the City and State of New York, at the option of the holder. Said bonds shall bear interest at the rate not exceeding six per cent (6 per cent) per annum, payable semi-annually on the 1st day of January and the 1st day of July of each year.

The Mayor and Council of the said City of Twin Falls, Idaho, do hereby certify that the bonds of said city, at the hour of 8 o'clock p. m., at the office of the City Clerk, receive sealed bids, and the seal of said city and County of Twin Falls, State of Idaho.

Witness my hand and the seal of the said District Court this 27th day of January, A. D. 1920.

NATURE'S WAY

Alcohol and dangerous sedatives are fast falling into disuse. When the body is debilitated the effectual means of restoring strength is

SCOTT'S EMULSION

which does what your regular food should do but all too often fails to do—nourishes and strengthens the whole body. It is the results that follow the use of Scott's Emulsion that have made its multitude of friends.

The Norwegian cod-liver oil used in Scott's Emulsion is superior to all other cod-liver oils in purity and quality and is unexcelled.

For Biliousness

BISHOP TOURIST IS STRICKEN, CANNOT COME HERE NOW

Head of Episcopal Diocese Stricken and Confined to His Room in Boise — Services Will Be Conducted Sunday by Archdeacon Stoy and Dean Chamberlain—Receptions and Baptisms Tomorrow Afternoon

Although all regular and extraordinary services planned by the vestry and members of the Episcopal church will be carried according to schedule tomorrow and Sunday, Bishop Frank H. Tourist will not be present to officiate. Information reaching Twin Falls today tells of the illness of Bishop Tourist at Boise. The head of the Episcopal diocese of Idaho is said to be suffering from an attack of grip and is unable to leave his room.

This information was delivered by Archdeacon Howard Stoy when an effort was made by telephone to reach Bishop Tourist with a request that he preside at Sunday morning services at the American Legion in the high school auditorium.

Illness of the bishop will not, however, interfere with reception plans made for tomorrow, and all church services, except the form of confirmation, will be conducted according to plans. Archdeacon Stoy and Dean Chamberlain will take charge of all the Sunday work of the church, and it is probable that these dignitaries of the Episcopal church will participate in the Legion memorial services Sunday afternoon.

Tomorrow's schedule, devised for the entertainment of the church party, includes formal receptions at the Hotel Perrine and baptismal services at the church during the afternoon. At 6:30 o'clock supper will be served in Parish hall by the Women's guild, with reception of Archdeacon Stoy and Dean Chamberlain afterward. A business session will follow when the proposed plans of Bishop Tourist will be submitted to the people of this parish. It is expected Archdeacon Stoy will deliver a personal message from the bishop relating to the early filling of American church pulpits.

NO INTEREST SHOWN IN BASEBALL PLANS

Fandom of Twin Falls Fails to Have Representation at Officers' Meeting

In an attempt to stimulate interest in league baseball in Twin Falls C. L. Moss and J. M. Gibbs, who have been active in this city calling on fans, business men and executives of the chamber of commerce, Mr. Moss is secretary of the South Idaho Baseball league. With other officers of the league he met with members of the chamber of commerce last night and outlined a proposed league circuit plan, including a playing schedule for the season. There was no representation of the local fan element at the meeting.

The question of furthering interest in baseball here for the coming season has been left with the executives of the chamber of commerce, who will make a more intensive campaign in the future in order to get a true index of the feeling here. Rules and regulations formulated for the operation of the league include an intention to play the game according to business principles.

IN LIFE'S WINTER

A decree of divorce was this morning ordered issued by Judge W. A. McHugh in the district court in favor of Charles L. Simmons against Amelia K. Simmons on default. Desertion was charged. The parties to the suit are about 60 years of age.

LOCAL DENTIST ARRESTED

Dr. G. P. Baker was arrested today this morning by police officers who charge assault. Dr. Baker is being held in the county jail pending an inquiry into the charges. Archdeacon Stoy was under the influence of intoxicants when arrested.

Snow Comes But Soon Passes in Face of Old Sol

As if how fell the snow, mantling a grey earth with a sheen of white;

And, as some more. How came the bright sun with her blinding that crystal cover until it ran in liquid stream all about, meeting up the walks and crossings in a smoky orb of mud that crawls up, higher and higher the farther one treads.

At a third time, forthwith, the mantle of the weather mill sails more of the same for tonight and tomorrow, which cannot be believed in the face of the glowing gleam of the sun's orb.

Get these home away behind us, for we believe the prognosis not a whit.

Today the thermometer was 49 yesterday and 29 was low last night. There fell one and a quarter inches of snow, bringing to 100 inches of moisture.

COMMITTEE FOR PROHIBITION OF SALE OF SHIPS

Orders Favorable Report of the Jones Bill while House Members Take Hand in Controversy and Call Payne.

WASHINGTON, (AP)—The senate committee yesterday ordered favorably reported Chairman Jones bill prohibiting the sale of the 30 former German passenger liners except as may be provided by congress.

MILITARY HONORS PAID VETERAN OF CIVIL WAR

Comrades of G. A. R. Conduct Funeral Services for Late Ensign of Hazelton

Military honors were paid by Dan McCook, Grand Army of the Republic, to the late Ensign Ingle of Hazelton, who died here Tuesday morning after several years of failing health.

Mr. Ingle was born in 1841 in Miami County, Kansas. At the age of 21 he volunteered as a private in Company D, 12th regiment of Kansas infantry volunteers, enlisting in the army September 15, 1862 for a term of three years, or the period of the war, and was honorably discharged at Little Rock, Kansas, June 13, 1865. He served in the army under General Sherman, fighting in many of the hardest battles of the war and participating in Sherman's march to the sea.

Mr. Ingle was first united in marriage to Evaline Salling and to this union one child was born. Both the mother and child died. In 1869, at Willow Creek, Kansas, he married Martha Freeman, who, with seven children, three sons and four daughters, survive him.

Mr. Ingle with his family resided in Trinidad, Colorado, until 1912, when they moved to Hazelton.

Surviving children are Mrs. Lulu Berry of Hazelton, Colorado; Jeff Ingle, Lateral Falls, Oregon; Mrs. Elva Stearns, Santa Ana, California; Mrs. Dora Tripp, Orange, California; Mrs. David Robinson, Hazelton; Ralph Ingle, Twin Falls; Elmer Ingle, Jerome.
