WASHINGTON, (AP)—The agreed decree under which the "big five" packers are forever enjoined from engaging in any line of business other than that of handling meat and produce was filed today in the district of Columbia supreme court.

It was submitted by Attorney General Palmer, who said "it removes the menace of control of unrelated industries by the big five and confines their activities in the future to the business of distributing meat and its by-products."

After hearing statements by counsel for the government and the packers, Chief Justice McGray signed the injunction making effective the agreement.

PREMIER BURGESS STRIKE PARLEY

Millard Opposes Governmental Intervention in Walkout of Balmain

PARIS, (AP)—Governmental intervention in disciplinary measures taken by the Paris Lyons and Mediterranean Railway company toward its employees is opposed by Premier Lloyd George, who arrived here yesterday and at once plunged into consideration of the strike situation confronting the country.

Delegates of railway workers' unions conferred with the premier yesterday afternoon in a preliminary action which would bring about a reconsideration of the dismissal of a workman named Campanaud, which caused the walkout of the men of the Paris Lyons and Mediterranean line. Millard advised the men to submit their case to arbitration. The delegates were impressed by the premier's vigorous language, says the Echo de Paris, and will probably see him again. Meanwhile, the railroad company has dismissed 250 strikers, in addition to Campanaud.

It has been alleged Campanaud was discharged for having absented himself from duty to attend a union meeting.

General Barnett recommended an authorized strength of 37,400 men for the marine corps and an increase of pay on the scale proposed for the army and navy. He also urged a peace time enlistment period of two years.

SENATE FIGHT DEVELOPS OVER DOMESTIC QUESTION RESERVATION TO TREATY

Democrats Oppose Lodge Proposal to Reserve to United States Right of Decision and Give Support to Hitchcock Substitute Defeated Last November, Limiting Scope of League's Request in Similar Premises

REPUBLICANS ARGUE OPPONENTS FAVOR AMENDMENT TO COVENANT

WASHINGTON, (AP)—The domestic questions reservation to the peace treaty was up for consideration today in the senate, following the adoption yesterday, by vote of 68 to 4, of the reservation regarding mandatories. Senator Lodge's draft of the domestic questions reservation would reserve to the United States the right to decide what issues, such as immigration, are purely internal and therefore not subject to the jurisdiction of the league of nations. Opposing this, the democrats will attempt to have adopted the Hitchcock substitute, voted down last November, providing that "no member nation" shall be requested to submit to the league any question it considers domestic.

The republicans have argued that the Hitchcock draft is an amendment to the treaty instead of a reservation inasmuch as it affects all nations and therefore would have to be submitted for approval to the other signatories to the pact.

PUBLICITY FOR PREMIERS' NOTE WAITS CONSENT

Reply of France and England to Wilson's Communication on Adriatic Settlement is Received

BRITISH WILL PUBLISH OTHER COMMUNICATIONS

Exchanges with Italian and Jugoslav Governments Not Disclosed in America to Be Given to European Public

WASHINGTON, (AP)—The reply of the British and French premiers on the Adriatic question was received today at the state department. It was sent to the White House immediately after being drafted.

Without Note Contents
State department officials would give no intimation as to the nature of the communication, which was drafted 24 hours after the premiers had received President Wilson's note. In that note the president adhered to his former position that unless the Adriatic settlement of December 9 was restored in principle he would have to consider withdrawing the peace treaty and the whole American alliance from the senate.

It was announced that the texts of the premiers' note would not be made public until the American government without the consent of the government. This is being sought. Officials believe the premiers will consent to simultaneous publication of the latest reply on both sides of the Atlantic.

Further Publicity Indicated
The state department has learned that the British government is to publish communications they had received from the Italian and Jugoslav governments, which have not been received or communicated to the American government.

These include a memorandum by the Italians on January 6, another note of the British on January 10 and a note from the Jugoslavians on January 12. The British also will publish a note from the Serbian government of January 20.

WILSON WAS TO BE CONSULTED

Premiers Deny Intention to Make Adriatic Settlement Without America

LONDON, (AP)—The reply made by Premier Lloyd George and Millard to President Wilson's latest communication, which was drafted yesterday, repudiates the assurance that they "never had the intention of making a definite settlement without obtaining the views of the United States government."

The reply, which is dated February 20, states that the absence of an American representative had proved in practice an almost insurmountable obstacle to the success of the negotiations.

The premiers observe as a fact of the greatest importance that President Wilson cannot expect to accept any settlement "mutually agreeing to Italy and Jugoslavians regarding their common frontier in the Fiume region, providing such agreement is not made on the basis of compensation elsewhere at the expense of nationals of a third power."

This, the premiers argue, would be an ideal way of settling the question and they express willingness to do their utmost to reach a settlement by this road. In order to facilitate this process they are ready to withdraw their proposals to December 9 and January 20, because they believe if the parties principally concerned believe the allied and associated powers committed to supporting them in any particular solution it will be more difficult to secure a voluntary agreement.

The premiers, therefore, cordially invite the president to join them in a formal proposal to the Italian and Jugoslav governments to negotiate an agreement on the basis of withdrawal of all previous proposals.

PROVISIONS OF HOME RULE BILL GIVEN TO PUBLIC

Two Parliaments Proposed with Council for Ireland as Nucleus for Eventual Union of Erin

LONDON, (AP)—The government tonight made public the text of its first home rule bill introduced in the house of commons on Wednesday and passed through its first reading by a large majority. The measure follows closely the outline given the house by Premier Lloyd George in December last. By its provisions the government would set up, one for the north and the other for the south of Ireland, the northern to consist of 32 members and the southern of 120 members. The representation of the imperial parliament would be 13 for North Ireland and 60 for South Ireland, necessitating the reappointment of Ireland, which is provided for in the bill.

The northern area would be composed of the counties of Antrim, Ormagh, Down, Londonderry, Fermanagh and Tyrone and the boroughs of Belfast and Londonderry.

Hope to Council
A "council for Ireland," composed of 40 members, half of whom would be selected by each of the parliaments, is also provided for in the bill. The legislative powers of the new council would be only those granted it by the two legislatures, but the framers of the bill hope it will form a nucleus around which would be built one parliament for the whole of Ireland. Almost unlimited executive, legislative and judicial powers would be conferred on the united parliament, but the powers to be conferred on the separated parliaments would be considerably curtailed.

What was further organized in the bill is the power to create a new parliament and the power to create it is left entirely with the two legislatures. The bill provides that the united parliament, if formed, would control the customs and excise.

At the outset, according to the bill, the parliament would have full control of education, local government and the land policy, agriculture, roads and bridges, transportation, old age pensions, insurance, municipal affairs, housing, hospitals and licenses, all the judicial offices would be controlled by the Irish parliaments, each body controlling the officers in its own district, but there would be a court of appeal for the whole of Ireland, presided over by the lord chancellor.

What was further organized in the bill is the power to create a new parliament and the power to create it is left entirely with the two legislatures. The bill provides that the united parliament, if formed, would control the customs and excise.

AMERICA HOLDS SEVENTH PLACE FOR RISE IN LIVING COST SINCE YEAR 1914

WASHINGTON, (AP)—Living costs have advanced more in the United States since 1914 than in the United Kingdom, according to a comparison of retail food prices in nine countries, including America, made public today by the bureau of labor statistics. In Australia and New Zealand, however, the advance was less than in this country.

Taking July 1914, as the base point, the bureau shows that the retail prices of the principal food articles in the United States had increased by 88 per cent in September 1919, compared with

advance of 116 per cent in Great Britain, 83 per cent in Canada during the same period. In August 1919 the increase in the United States was 86 per cent compared with 109 in France, 104 in Germany, 101 in Italy, 91 in Sweden, while in Australia and New Zealand prices climbed but 48 per cent. April 1919, the latest report from Japan, shows an advance of 161 per cent there, against 78 per cent in this country. In September food prices had climbed 189 per cent in Paris and 214 per cent in Rome.

HUNS EVIDENCE LASTING HATE

Feeling Against England Manifested at Kiel Toward the British Officers

KIEL, (AP)—The intense feeling still existing in Germany against England was manifested toward some British officers who accompanied the international commission of control on a recent visit here. The town was crowded with German sailors who were clean and smartly dressed. They passed by with averted faces, but civilians on the contrary showed the keenest interest and stared at the visitors. One man, who was a British officer, was particularly remarking "Gott strafe England." The British visitors took no notice and walked on, followed by a train of small boys, many of whom repeated in a childish treble "Gott strafe England" at intervals. The shipkeepers, however, were quite friendly and trade became very brisk. Further evidence of the present attitude of the Germans was forthcoming at the Kiel canal, where the children gathered on the bank to see the British ship. One man cried "We will have you yet," while the others shouted "Gott strafe England." The return journey was that of the optimist who proclaimed: "We shall have another war in five years' time."

FURNACE COMET WINTER FEATURE AT PITTSBURGH

Intense Blast Activity with Low Temperature Causes Phenomenon

PITTSBURGH, (AP)—Intense blast furnace activity, combined with low temperatures, has in recent weeks given to the Pittsburgh district some of its most beautiful "furnace comets." It has ever been said that they are gradually losing their brilliancy, and with the approach of spring, the blazes are said to vanish until favorable conditions reappear next winter.

"Furnace comets" are great broad shafts of yellow light which pierce the black background of a murky sky in most spectacular manner. They flash without a moment's notice, and fade out as quickly as they appear. The blazes are not brighter than before. Usually there are two of them, at times flying perpendicular, but often cutting the skyline like the beam from a searchlight.

Scientists at the Allegheny observatory explained the lights by saying that the light from the blast furnaces penetrates the atmosphere above the city to a great height, and there being caught by frost crystals send back the reflection in the form of broad bands. For years they have passed almost unnoticed until this year, when, because of the continual operation of large numbers of furnaces, they became much more conspicuous.

THREE BRITISH AIRPLANES ARE REPORTED MISSING

LONDON, (AP)—Three British airplanes which left Chester for Dublin on Saturday, where they should have arrived within three hours, are missing, according to a report issued at the air ministry. A machine which is presumed to be one of the three was seen to fall in the sea off the Sicily Islands, but efforts to rescue the crew were unsuccessful because of a rough sea.

For Musical Beginners

Builders of modern flats might well take a hint from a unique feature in Backus's hotel in Brook street, now undergoing transformation to accommodate the new Guards club. This was a suite of "sound-proof" rooms called the "Handel suite," after the composer, who lived and died in Brook street, for the use of musically inclined visitors. This admirable arrangement enabled amateurs of such distressing instruments in the hands of the novice as the piccolo or the bagpipes to practice without disturbing their fellow-guests.—London Times.

HONZOLLERN'S ESTATE APPRAISERS STRIKE SNAG

Encounter Difficulty in Determining Between Crown and Private Property

BERLIN, (AP)—The value of the estates which belonged to the former German emperor and his family may reach 1,000,000,000 marks. In attempting to fix the compensation to Count Hohenzollern for that part of his private property taken over by the state, the authorities have experienced difficulty in deciding what part belonged to the crown and how much was strictly private.

The difficulty arose in part from the fact that the appraisers have had to inventory properties which have been accumulating for five centuries. The settlement will be delayed, it is stated, by a desire to offer to the Hohenzollerns a generous adjustment. Their acquiescence is said to have been obtained to the bill in the Prussian diet to pay the former emperor 100,000,000 marks for property taken and permit him to retain a number of castles, real estate and personal property.

BOOST IN PRICE DOESN'T BOTHER B. B. FAN TODAY

Patron of National Game is Willing to Put Up Price for a Good Seat

By I. E. Sanborn
CHICAGO (Special)—Concerning the question of raising the price of professional baseball to the public, there are two sides to it.

The cost of a major league team has increased proportionately to the cost of everything else in this country since the war. The people have more money, and, judging by last season's willingness to spend more on the national pastime, but they demand more for their money.

Two out of a lot of the fans who used to be glad to sit in the open faced stands for two bits a game, who are perfectly able and willing to cough up four or six bits to see a ball game now, but they do not want to sit out in the sun or rain and watch the flames at long range as they used to. They object to paying 75 cents for the former quarter seats or 75 cents for the former half dollar location.

Want the Good Seats
Last year in nearly every park of both major league circuits the patronage in the grandstands and higher priced seats was larger than normal and the bleachers and pavilions below previous years. At some games there would be a heavy overflow from the 75 cent section, while big empty benches showed in the quarter stands. And if the management attempted to divert the folks from the higher priced ticket windows with the information they could get standing room only because there was plenty of room in the bleachers such efforts were unsuccessful as a rule.

In order to satisfy the patrons, on the basis of last year's demands, a club owner would need to remodel his plant so that he could increase the supply of box and grandstand seats and reduce the space allotted to the cheaper grades. But in doing this he would have to change his equipment so that 75 cents would entitle a fan to an individual seat instead of a flexible section of a community bench such as has been provided for four bidders in the past. In other words, the patron who has more dough than ever before wants to be more comfortable at a ball game. He won't kick on sitting in the same identical spot for 75 cents where he used to squat, for 50 provided he has a grandstand "opera chair" to sit on.

H. O. L. Hite Magnates
Baseball promoters are not so fortunate as those who deal in other commodities. The guy who used to pay \$3 for a pair of shoes will pay \$10 for something the salesman tells him is of the same grade and will scorn to take a pair priced at \$5 unless he is next door to broke. The \$10 shoe may, or may not be, as good as the guy used to get for a five spot, but he won't know it. You can't fool the baseball fan, however. He knows a two-bit squat when he sees it.

Then there is the fellow who didn't

think performs at \$10 an ounce good enough for his "steady" and wanted something more expensive. The salesperson could have taken a bottle of the same stuff off another shelf and sold it for \$15 per ounce if the swain had that much to spend for it. And the proprietor of a store always can get more high priced goods by ordering them, while the baseball promoter's stock of wares is pretty firmly fixed by concrete and steel limits.

Not Easy to Get It
Increased salaries, higher railway fares, war taxes and skyrocket hotel bills make it necessary for the baseball promoter to get more money through the tourist trade by ordering the method of getting it is not as simple as in other lines of business.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts

Rheumatism is easier to avoid than to cure, states a well known authority. We are advised to dress warmly, keep our feet dry, avoid exposure, eat less meat, and drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid, which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, refreshing lithia water. Drink it and helps overcome uric acid and is beneficial to your kidneys as well.—adv.

LANE EXPLAINS OIL LAND LAW

Claims Must Be Adjusted Before Filings Can Be Received, Says Secretary

WASHINGTON, (AP) — Leases of great value on proven oil lands are not to be had by the mere filing of an application, Secretary Lane said yesterday in a statement explaining the oil land leasing bill signed Wednesday by the president.

Proven oil lands of the government are largely covered by claims which must be adjusted before such lands can be leased, Mr. Lane said, adding that when the government grants a lease for either oil or coal lands, except under the relief section or by permit, it will be by competitive bidding, ample notice of which will be given.

"The only part of the act which is self-operative, and with respect to which a person can take any steps, leading to the requirement of any right before the regulations of the department are in effect, is the preliminary steps to offer the lands for lease," continued Mr. Lane, "and that portion which provides for securing a preference right for an oil prospecting permit, by posting a notice on the ground; this applies only to lands not in the geological structure of a producing oil field. These regulations are in the hands of the printer and will be issued immediately they are off the press."

"There can be no doubt as to the very great importance of the legislation; it marks a wide departure in public policy. It opens up to the public and uses large resources that have been virtually locked up as a result of withdrawal or inadequate laws, and will offer a means of settling litigation that has been pending for years, with fairness to the litigants and the public interest."

NEWSWITERS IN HUNGARY RUN GUNSHIP GAUNTLET

BUDAPEST, (AP) — Newspaper correspondents here have discovered that dispatches have to run the gauntlet of four different censors. One is a local official, another is dominated by extremists and the third by Bolsheviks supposed to be located in Vienna. The fourth is maintained at an unknown point, supposedly by enemy neighbors of Hungary.

HUNGARIANS STARVE, APPEAL TO AMERICA

Rupert Resident Hears from a Brother in Budapest Telling of Bad Conditions

RUPERT (Special)—Startling are the revelations concerning conditions in Hungary, contained in a letter recently received by Mrs. H. A. Boyer, of this place, from her brother, Charles Mongold, a merchant of Budapest. Mr. Mongold says the people of Hungary are starving and that the standard money of the country is worth only seven-eighths of a cent on the dollar. "We must have food, but the only way we can get it is through the American food administration," Mr. Mongold says. He adds that it is useless to send packages of food direct to individuals, as such packages never reach their destination. "We are starving," Mr. Mongold says. "Please try and get a draft to me through the American Food Administration relief department in New York so that we can get some food."

Mr. Mongold announces that civil conditions are as bad as much worse, and that murders are daily occurrences. The country is seething with revolution, he declares.

FRENCH WITHDRAW FROM STRUGGLE WITH TURKS

Extricate Contingents in Syria After Engagement with Hard Fighting

LONDON, (AP)—Official dispatches on the situation at Marash, in the Vilayet of Aleppo, Syria, which the French troops have been having a severe struggle with Turkish forces, announce that the French succeeded in extricating their contingents after hard fighting. The French evidently withdrew hastily, as they were compelled to leave their wounded, which will be cared for by the American Red Cross.

A message from the same source confirms the reports of massacres of Armenians in the Marash district, but does not substantiate the statement from Armenian quarters that the number slaughtered was several thousand.

TWENTY-FOUR JURYMEN SELECTED AT TOMBSTONE

Beginning of Preemptory Challenges Next Stage in Deportations Trial

TOMBSTONE, Ariz. (AP)—Harry Richards, a health scout, today came the 24th juror accepted for the trial of Harry E. Wootton, first of 210 defendants to go on trial charged with kidnapping, participating in the deportation of 1,180 striking copper miners and their sympathizers from Blaine, Ariz., to Columbus, N. M., in 1917.

Richards selection made the full quota of jurors necessary before preemptory challenges begin, but with his selection the state recalled J. A. Finney, a retired business man of Tombstone, for examination in an attempt to disqualify him. The defense also indicated it would attempt to unseat one or more jurors without resorting to preemptory challenges and it was considered probable at least two more jurors would be necessary before the trial could actually begin.

Political Notes

LINCOLN, Neb. (AP)—Decision to enter the republican primary April 20 with a list of Nebraskans seeking nomination as candidates for various state offices, including the governorship, was reached by the state convention of the Non-partisan league of Nebraska here last night.

MINNEAPOLIS, (AP)—The Herbert Hoover club of Minnesota today sent a request to republican county chairmen throughout the state to provide ballots for the republican primary election March 15 when presidential endorsement will be the issue. The State Chairman Gustaf Lindquist, St. Paul, ruled recently that Hoover's name would not be printed on the official ballot because he had not declared his party affiliation.

United States Senator Hiram Johnson, a candidate for the republican nomination, was recently referred to the Minnesota primary as "a farce." Supporters of the other candidates have charged that the primary was arranged by state leaders who supporting the candidacy of Major General Leonard Wood.

TUCSON, Ariz. (AP)—Endorsement by resolution of the candidacy of General Leonard Wood for president by the election of six agricultural delegates was agreed upon here today at a conference of the chairman of county delegations here for the republican state convention, which opens Saturday.

BIRMINGHAM, N. D. (AP)—Secretary of State Thomas Hall today refused to accept for filing petitions nominating a ticket of presidential electors and delegates to the republican national convention, as endorsed last week by the convention of the progressive republicans at Hillsboro.

This convention included leaders of the Non-partisan league. Hall had been prominent as an opponent of the league. Hall, in his announcement held that the petitions were not properly prepared.

Patriarchal View.

An enormous age is attained by some trees—notably yews. At Fountain's abbey, Yorkshire, the yew trees were old in 1182. California has a very ancient tree in Marinopolis grove. Some trees of Africa have been computed to be more than 5,000 years old, and a deciduous cypress at Caputec is still older.

CHICAGO, (AP)—Persistent selling which commodities houses fostered on fresh advances in the price of corn today led gradually to a moderate decline. Much of the selling was based on opinions that the recent upturn in values would induce farmers and interior elevator men to let go of holdings more freely. It was also pointed out that Chicago was receiving a larger percentage of the crop movement than has been the rule of late. Opening quotations, which ranged from 1.35 to 1.45, were followed by a setback all around to below yesterday's finish.

The absence of aggressive buying brought about further declines in the last part of the day. Prices closed weak, 1 3/4 to 2 1/4, with May \$1.35 5/8 to 1 3/4 and July \$1.29 3/4. **Cash Quotations**

ADVISES BRYAN TO JOIN WITH REPUBLICAN PARTY

Governor Edwards of New Jersey Proposes Alternative for Political Regularity

NEW YORK, (AP)—Unless William Bryan cooperates so that the democratic party may "squarely present" the prohibition issue "to all the people of the country," Governor Edwards of New Jersey in an address here last night at a dinner of the Society of Arts and Sciences, declared that "it is only fair to suggest to Mr. Bryan that he 'leave the party and take up his proper place in the prohibition party.'"

"If my efforts in this matter result in the adoption by either or both parties of a definite policy," he added, "I will be contented, and I will feel certain that in such event the majority of the people of this nation will compel the restoration of the full portion of personal liberty and self-determination that all men desire, deserve and demand."

Mark Murtough Says Twin Falls is Outstripping Other Towns in Up-Building

That general business conditions in Twin Falls are first-class in every respect is the opinion of Mark M. Murtough, who arrived here yesterday after an absence of several months spent in Colorado and Utah.

"The city," says his knowledge, "has done more building in the past four months than any other town I have visited in Utah and Southern Idaho. It looks to me as though Twin Falls will never cease to grow. No city looks as good to me as the sagebrush section of the early days with each one of us picking up and purchasing in March, 1904. Health conditions, by the way, are steadily improving in Southern Colorado and Southern Utah. The flu is on the wane appreciably in all the towns."

Mr. Murtough will leave in a few days for Washington, D. C.

Deaths

The body of Thomas Harrison, who died in San Antonio, Texas, early this week, is expected to arrive in Twin Falls about Monday next. Arrangements have been made for the funeral to be held Tuesday at 3 o'clock in the Assembly hall, where the body will be in charge. Burial will be in Twin Falls cemetery.

At the family home on a farm southwest of Borgor last night Mrs. Holbrook died. The body is at DeWitt's awaiting completion of arrangements for funeral services.

William J. Brown, aged 62, who has been a patient at the county hospital some time, died yesterday evening. The body is at Grossman's.

High School News

At the last meeting of the high school student council, that body granted charters to the Latin, French, Spanish and English societies of the school. Members of the council at present are: Walter Krenzel, Helen Lind, Harold Porterfield, Carl Edwards, Dorothy Kenworthy, Jacob Lewis, Neil Cole, Duane Hertz, Helen Hannon, Violet Haldeman, Edward Hodge, and Eula Duke. In addition to M. C. Mitchell and Miss Allen, members of the faculty. A picture of all members of the senate since the beginning of school last September was taken yesterday.

Miss Winifred Young, instructor of domestic science in the high school for several years, left recently for Kansas City. Her place has been taken by Miss Mary Fisher of Twin Falls.

The prize of a gold watch, offered by W. R. Priebe for the best essay written on the subject, "Benefits of an Enrollment in the United States Army," by Twin Falls students, has been won by Lawrence Sizer, the local recruiting office announced yesterday. The winner is a member of the junior class.

The high school basketball team left yesterday for a two-game trip to Hayburn and Oakley. Players taken were Newman, Carter, King, Hertz, Taylor, Krenzel, Toeham and Patzler. The two games were expected to be "easy picking" for the locals, who are preparing for several hard games at the Southern Idaho basketball tournament to be held here Friday and Saturday of next week. Twin Falls' second team goes to Kimberly tonight to accept a challenge from the Kimberly school quintet. Matches will go are Phillip King, Bailey, Decker, Shelby, Stearns, Fix and Thometz.

Denies Consideration to Soviet's Proposal

WASHINGTON, (AP) — Soviet Russia's proposal to the United States for peace will receive no consideration from the American government, it was said today at the state department.

Officials said the proposal did not differ from previous proposals made by the Bolsheviks to the great powers and that it would not be made public as it was regarded largely as an effort to further Soviet propaganda throughout the world.

PUBLIC ATTENTION

It has been the general opinion that the Corbett furniture store is going to sell to the Rochdale Store association. I wish to correct this wrong impression and make it clear to the public.

The Rochdale Store association, of which Dr. White is the leading spirit, was asked for an opinion on my building and not business. The building in question has become entirely too small for my expanding business and within a very short time I will announce to the public my future plans, which will be of interest and in keeping with the wonderful growth of the best city in the west.

Respectfully,
A. H. CORBETT, Proprietor.

FACING BACKWARD

In their zeal to bring about the defeat of the compromise railroad bill, it must be generally apparent that the railroad brotherhoods and these interests allied with them in the undertaking, come perilously close to overreaching themselves when they make use of the argument that establishment of the proposed tribunal is an attempt to deprive the railroad employes of their former "inherent right" to determine their wages by negotiation between employe and employer.

No light can this argument be viewed except it must appear to be inherently reactionary—the direct opposite to progress.

Similar complaint might well have been voiced on the almost prohibitory occasion when the matter of personal vengeance was translated into the field of jurisprudence.

Surrender by the individual of his former "inherent right" to settle personal grievances seems to have been simply justified. Surely, a similar transfer of the field of encounter in industrial strife ought to be welcome, and especially so, since it has been pretty generally appreciated by employe as well as employer that something similar to the proposed tribunal has long been lacking in American industrial relations, and that because of this lack strikes and lockouts have too long maintained their status as the only available weapons in industrial warfare.

Strikes and lockouts, as a general thing, are rarely beneficial and too often the employe, who can least afford to engage in struggle in which they are the only weapons, has been the chief sufferer.

It would seem that the employe instead of being the first to condemn, would be first to approve the prospect for a change which is in line with progress in this situation.

It must be generally evident that the brotherhoods and their allied interests, in this matter would have made a better case for themselves if they could have brought themselves to omit this argument from their memorandum presented yesterday to the president.

Their failure to do so, in view of all the circumstances, must lead some sort of color to the assertion of one member of congress who declared lately that opposition from this source was to be expected no matter what sort of legislation, short of the Plumb plan, which might be adopted.

SOLENN CEREMONIAL IS PLAN OF ORDER OF BATH

Installation of Knights Grand Cross Promises Scenes of Splendor

LONDON, (AP)—A solemn installation of Knights Grand Cross of the Order of the Bath will take place with all the historic ceremonial in Henry VII chapel of Westminster Abbey during May, says the Express.

The chapel holds 36 stalls and the scene when the king revived the ceremony seven years ago was one of magnificent splendor.

Almost Too Good an Excuse. Sarah was invited with her older sister to take tea with a friend of her mother. The little girl was anxious to do her sister credit, but after sampling a piece of cake which she had taken upon her plate was unable to eat it because she did not like it. Her hostess, noticing this, said: "Why, Sarah, you haven't eaten your cake!" Drawing a long breath, and not wishing to hurt her friend's feelings, Sarah replied: "No, it is so good I can't."

Of Indian Origin. The powerful political organization "Tammany" was founded by the Indian chief "Tammany" of the Delaware tribe, who was famous for his virtues and wisdom. The Tammany society was founded in New York city May 12, 1822, and became identified with the Republican, now the Democratic party.

An outdoor procession from the Palace Chamber in the House of Lords, where the Knights and Companions put on their crimson robes and white plumes, to the abbey, will be followed by a complete processional and a rendering of the Te Deum. BRITISH ARISTOCRATS TO ENTER WORLD OF FILMS

LONDON, (AP)—Two young aristocrats are going to California to seek fame in the film world. They are Captain Vasey A. Davoren, "Tub O'Day", an Irishman who claims to be a descendant on his mother's side from the great Duke of Wellington, and on his father's side from Irish kings; and Elliot Gordon, nephew of an earl and heir to a large fortune in England. Both have already played in films here.

LEAGUE STATE CONVENTION CONVENES IN NEBRASKA

LINCOLN, Neb., (AP)—A state convention of the Non-partisan league convened here today to endorse a ticket of candidates for state officers in the April 20 election. A western pair selected a committee to have charge of the league's affairs in Nebraska for the next two years. A. C. Townsend, president of the national organization, will be the principal speaker at the league mass meeting tomorrow.

MONTANA PLANS GREAT HIGHWAYS

Road from Rocky Mountain Parks of Canada to Salt Lake is Proposed

HELENA, Mont., (AP)—Two new highways, one to extend north and west to the Canadian border, and the other to the United States and the other to connect Great Falls and Helena through the canyon of the Missouri river, have been proposed by the grand old state of Great Falls and this city. While discussions thus far have been merely tentative, it is hoped to proceed with the preliminary during 1926 in order to be prepared for construction work during 1927.

The proposed north and south highway is an ambitious project. It is proposed to build an automobile road from Banff, Lake Louise and the Rocky Mountain parks of Canada to Salt Lake City and probably thence to Zion National park, the north edge of the Grand Canyon.

As proposed, the highway would have on its itinerary Grand Canyon, Zion National park, Great Salt Lake, Yellowstone Park, the Lewis and Clark national monument, the Gate of the Mountains, Missouri River Canyon, the Great Falls of the Missouri, Glacier House, Banff, Lake Louise and other nationally known wonders. It would tap the National Old Trails road of Southern California, Great Salt Lake, the Pike's Peak Ocean to Ocean Highway, the Rainbow Route, the Midland Trail across the continent, the Yellowstone Trail, the Lewis Trail, the Yellowstone-Glacier Bon Line, the Wonderland Trail, Custer Battlefield Highway, Roosevelt Memorial Highway, Yellowstone Park Highway, Central Montana Highway and other tourist routes.

Their Appearance. "It is remarkable," the newspaperman said Old Dodge, "that the man who does not know much of anything and knows that little all askew, usually assumes the tone and attitude of one who knows everything and is aware that when he departs this life wisdom will die with him. This appearance is most often found in horse doctors, grocery store sales and trifling some-in-law, such as mine."—Country Gentleman.

Remembered by Wise Saying. "One of the most ancient of the famous shoemakers was Rabbi Ochanan the shoemaker, who lived in the second century and held that 'an association established for a praiseworthy object must ultimately succeed, but an association established without such an object cannot succeed.'"

Marmot Skins in Demand. A large business is done in Manchurian marmot skins. The marmot is very much like a woodchuck, but it possesses a finer coat than does our woodchuck. Thousands of these skins are shipped from ports in northern Manchuria by parcel post through the Japanese post office, but skins of the cheaper grade are forwarded by freight in the usual way.

ENTERS RACE FOR SENATE

MEXICO CITY, (AP)—Pelle Palavacina, a newspaper owner here, has accepted the offer of the democratic league which is supporting General Palavacina for the presidency, to become the party's candidate for the national senate from the federal district in the elections to be held next July. In a ruling the federal senate stated that this action would not obligate him to support any presidential candidate.

The latter three are first basemen.

Bad for the Debtor. People of Siam are cautious about getting into debt. When a debtor is three months in arrears he can be seized by the creditor and compelled to work out his indebtedness. Should the debtor run away, his father, his wife or his children may be held in slavery until the debt is canceled.

Peruvian Rain Tree. It is estimated that one of the Peruvian rain trees will on the average yield nine gallons of water each day in a field of an area of one kilometer square, that is, 6,250 feet each way, can be grown 10,000 trees separated from each other by twenty-five meters. This plantation produces daily 825,000 liters of water.

WAS IN BED FOR SIX LONG MONTHS

Was Able to Be Up in Three Weeks After Taking Tanlac—Gains 20 Pounds

"I was in bed for six months with stomach trouble and rheumatism and Tanlac alone deserves the credit for my recovery and present fine health. I have gained twenty pounds, enjoy working hard every day and I feel like I had never been sick in my life."

This remarkable statement was made by George Greig, a popular longshoreman who resides at 2718 Third Ave., Northwest, Seattle, recently. Mr. Greig has lived in Seattle for twenty years and is well known to hundreds of people.

Continuing he said: "My trouble started a year or more ago and I got gradually worse all the time. My appetite left me and what I forced myself to eat would not digest, always causing a severe pain in my stomach and shortness of breath. Fat, greasy things and meat were like poison to my system. I got weak as a kitten and then the rheumatism laid hold of me so bad, especially in my knees, that I could hardly drag myself about. My kidneys seemed to give way, too, and I had pains in my back so bad I could not sleep over. My head ached so it seemed like it would simply split in two and I would get so dizzy I would have to hold on to something to keep from falling. I was so uncomfortable and restless at night that I would toss about nearly all night without getting more than a third of the sleep I needed and I lost so much weight and got so bad off I finally got completely down and out."

As I said before I had been in bed for six months and no kind of medicine or treatment seemed to do me any good. Whatever.

"It was in this condition when I decided to give Tanlac a trial and it got me out of bed in three weeks and has made a different man of me. Tanlac alone did it, as I said before. I have now taken six bottles and every one of my former troubles are gone entirely. I eat three big meals a day, and never have the least trouble with my stomach. My kidneys are in fine shape and the rheumatism is a thing of the past. I do my work so easily now I surprise the men who used to be sick and I will never cease to be grateful to Tanlac for the wonderful way it has put me on my feet."

"I can't ever remember enough good for this great medicine."

Poisoned Hay Medium of Destroying Hordes of Pests in Pleasant Valley

From Pleasant Valley comes the sinister, though the farm burns that poisoned hay, placed in rabbit-infested districts, has proven most efficacious in exterminating many thousands of the destructive pests. Forty sacks of the poisoned hay were scattered throughout the valley, practically all being consumed. No estimate has been made of the number of "bunnies" destroyed, but the report says the whole countryside is littered with dead rabbits.

AMALGAMATED SUGAR COMPANY TO MODERNIZE FACTORIES

Improvement Plan Includes Extensive Alterations of Twin Falls Plant with Work on Large Office Building to Be Started Immediately—Scheme Contemplates Outlay of \$500,000

That the Twin Falls plant of the Amalgamated Sugar Company is to be included in extensive plans for modernizing the company's sugar-making institutions is now reaching this city from general headquarters in Ogden.

Included in this general modernizing program is a large office building in connection with the Twin Falls sugar plant, work on which is expected to be started without delay. The sugar institution here is to undergo extensive alterations, all looking to the establishing of the institution as the last word in factories of this nature.

While nothing is given out at local administrative offices of the Amalgamated Sugar Company in Twin Falls, the plans of the company in detail as revealed in the following contained in a recent issue of the Ogden Examiner: "An improvement in the Ogden plant of the Amalgamated Sugar Company, which will entail the expenditure of slightly over a half million dollars, is now being planned, which is being made to increase the capacity and bring about the most economical production of sugar by modern methods, was announced recently by Vice President S. M. Edgell, who returned to Ogden a short time ago, after a trip to New York and industrial centers of the east. The program included installation of heavy machinery and many changes and extensions of the buildings.

"The Ogden district offices will be moved to West Ogden and a two-story brick building erected to serve as offices for District Manager C. S. Hobbs, District Superintendent H. J. Hogg, agricultural and cashier departments, so that growers may transact business on the grounds.

"Several old buildings near the entrance will be razed and the grounds occupied will be laid out with lawns and shrubbery. It is planned to make the parent factory capacity of from 1000 to 1200 tons daily and to make it a model of the efficient refining of sugar.

Other changes include the removal of two diffusion batteries and replacement with a modern battery, discharging the present juice presses for modern ones, rebuilding of two line kilns, a 40-foot extension onto the main building, installation of an electric generating outfit, erection of a garage for heavy cars and a new building for a garage as a beet laboratory. In furthering a policy of promoting the convenience of the grower and his returns, new beets will be created in the Ogden district include those at McFarland, Marietta, Angus, Hansen, Uhlath, Skoda and Roswellville.

"Besides the Ogden plant, two others known as the Steffen factories, those at Lewiston and Twin Falls, will also undergo extensive alterations.

"The Twin Falls, Barley and Paul factories in Idaho will be included in a recently formed district with the appointment of H. J. Hogg as district manager and James Scully as general superintendent. Mr. Scully comes from the Holly Sugar company at Huntington, Mont. He has been managing a ten-thousand acre ranch in Canada. Both men have had long experience with the Great Western Sugar company. Mr. Scully formerly directed the Great Western factory at Billings, Mont. Work on a new office building at Twin Falls will be started soon.

"The offices maintained in the city of Logan will be moved to the Logan factory and a new building erected for the purpose."

BOY DESPERADO ROBS EMPLOYERS

Herman Carter, Aged 13, Uses Revolver, Waylays Shoe Shine Stand Operators

Herman Carter, 13 years of age, is in the custody of the county sheriff and is being held in the city jail. He was arrested for robbing shoe shine stand operators. The boy, masked and using a pistol, held up about 11 o'clock on the main street of Twin Falls, Idaho, and robbed the shoe shine stand operators of \$50.00. The robbery was staged on the main street of Twin Falls, Idaho, on the night of Feb. 12, 1920. The boy was arrested at his home at 11 o'clock this morning by Policemen Ham and Austin.

Carter has been employed at the shoe shine stand at various times and was well aware of the habits of the proprietors of the place after they closed for the night. He lay in wait for them and particularly dark night. He was seen as they passed into a shadow and he stepped in front of them and ordered hands up. The boy then held a pistol over their faces and a slouch hat pulled well down over his eyes. Arrest was effected at the home of the proprietors of the shoe shine stand on the main street of Twin Falls, Idaho. The boy said he did not know what prompted the deed except that he felt the need of some money. Today he expressed remorse and admitted that he had ever before committed or had been implicated in similar misdemeanors. The case will be cared for by the juvenile department.

At an organization meeting of the board of directors of the Twin Falls Dehydrating company, held this week, a program of promotional activity was definitely determined upon to further the interests of the company and establish the plant on a permanently operative basis.

The following officers were chosen by the members of the board: W. E. Frieb, president; W. W. Parish, vice president; J. D. White, temporary secretary; E. H. Guther, retained as plant operating manager.

Featured on the program for the up-building of the company's business is a public demonstration of the finished product of the Twin Falls Dehydrating institution, to be given at the office of the Idaho Power company Friday and Saturday of next week.

The demonstration will be in charge of experts in this line of activity. As a supporting plan to the demonstration five merchants of Twin Falls will establish window displays showing the product of the factory.

These displays, which are Idaho Department store, Mitchell Grocery, Shugart's United Fruit and Marketing company and the Blue Lakes grocery.

W. E. Frieb already has a window display of company goods.

These displays, aided by a sales campaign by experienced salesmen, are expected to greatly stimulate interest in the Twin Falls institution and its output.

Homeholders of the community are to be urged to give preference to these home products in purchasing dehydrated goods.

POHLMAN RESIDENCE DESTROYED BY FIRE

Blaze, Discovered at Lunch Time, Practically Consumes Boulevard Home

The John E. Pohlman residence, 220 Blue Lakes boulevard, was practically destroyed by fire this afternoon.

Loss is estimated at \$4000. Most of the furniture was retained in a building on the corner.

The blaze, discovered by Mrs. Pohlman, broke out in the upper part of the house, and is attributed to either an over-heated fire or defective wiring. Some insurance was carried.

A pall of smoke permeating the lower rooms of the residence attracted the attention of Mrs. Pohlman soon after lunch, investigation locating the fire in the second floor, a part not finished in the basement.

The blaze, which was extraordinary headway and while Mrs. Pohlman was at a neighbor's house telephoning for the fire department, flames broke through the roof.

The furniture was nearly all saved by neighbors and passers-by.

Mr. Pohlman is employed in the city engineering department.

FEZZED THROUS OF MERRY NOBLES WILL BE TURNED LOOSE ON BURLEY

Twin Falls Will Send Jolly and Large Delegation to Spring Ceremonial of Mystic Shrine Tomorrow—El Korah and El Kalah Patrols to Be Present—Special Entertainment for Visiting Ladies

Shriners of Idaho, reinforced by those of neighboring states, will invade Burley in force Saturday. The occasion is the spring ceremonial of El Korah temple, a branch of the Mystic Shrine. The event, according to the program, is scheduled to start Burley ablaze with hilarity from sunrise to sunset.

Although fezzed members of the order will attend from every section of the state it is the southern section's opinion, particularly, and the growth has made ample arrangements to make the gathering notable from many angles.

Twin Falls will be represented, probably as it has never before been represented at a similar display. This city will send something like 75 Shriners to the meeting, sponsored by the railroad company, for accommodations to convey the bulk of the crowd to the convention city during the morning of Saturday. At least one Pullman will be placed at the disposal of the Twin Falls contingent. There is some talk of two cars, and there have been considerable efforts to charter a special train to convey the host from this end of the line to Burley.

While the "special accommodations" will be the major portion of the crowd away from here on Saturday morning other members of the order will leave on the afternoon train, while yet others will go by automobile, and the roads are passable. The rail car, or cars, will be suitably bedecked with the order's insignia, so that there will be no mistaking to what gang the cars belong. All nobles will wear the fez, the special badge of the order. At Burley the rail cars will be set out and the nobles will be met by the Twin Falls Shriners at all times. Berths will be made up so that they can be occupied for the homeward trip, which will start at 1 o'clock Sunday morning.

Twin Falls will take along no band this year, but the delegation's program is replete with "stunts" that will be interesting to the general public, or at least drum accompaniment. This city will also carry along a fairly representative class of novitiates, whose feet have been in the water, been undergoing special preparation for the tour of the hot desert sands of El Korah's Sahara.

Buhl, too, is to have proper representation. A few local affairs will be held and special cars have been placed at the disposal of the Buhl delegation to the ceremonial and that a band will be provided for the Twin Falls contingent, and keep Burley apprised of the fact throughout the day and night.

Report comes from Pocatello that by the special delegation to coaches have been painted in gold for this occasion, and that even the engine set apart to pull the Pocatello Shrine special will be decorated with gold.

Bolton is expected to send the pre-dominant delegation and will include the El Korah patrol, with a band for this occasion. Representing El Korah temple, of Utah, some 100 Shriners are expected, headed by the El Kalah patrol, noted as one of the best drilled lodge corps in the west.

Extraordinary arrangements have been made for caring for ladies accompanying Shriners to the place of the ceremonial, the Burley Shrine club having taken particular care in hand. Lunch will be served at the Arcadia hotel at 11:30 for the women visitors, and other features of the day's activities have been planned to make the visit memorable. During the afternoon there will be dancing and cards and in the evening a banquet will be served in the parlors of the Methodist church for the ladies. There will also be theatre entertainment provided.

Extraneous from the entertainment provided for the ladies the following schedule of the day's activities has been devised:

7:00 a. m.—Arrival of El Korah Shrine patrol.

11:30 a. m.—Luncheon at the Arcadia.

(Bring Ladies with you for the luncheon.)

RETAIN PRIEBE HEAD OF BAND

Local Jeweler is Again Selected Business Manager of City Musical Organization

Retaining W. E. Prieb as business manager and naming Lieut. J. G. Thorpe musical director, the executive board of the Twin Falls City band has held its annual meeting. O. A. Fuller has been named secretary-treasurer, with E. E. Cutting and H. E. Leutenbergh trustees.

Lieutenant Thorpe was selected director of the band organization when J. T. Bainbridge, former director, presented his resignation. Mr. Bainbridge, who has been in charge of the band some years, has been in ill health some time and explained that this condition compelled him to withdraw from some of his activities.

It is the purpose of the organization executives to strive to build up the band to a membership of at least 10, and to this end negotiations are being conducted for the services of additional musicians. Already two men are on the way from Butte, and should be connected with the band as regular members in the course of a week. These musicians have been connected with the Butte Miners' band, formerly the Anacostia Copper company organization, directed by W. E. Treloar. They come highly recommended.

"It will be necessary to call upon business men to find work for at least six musicians, and I shall make canvass of the possibilities along this line in a short time," said Business Manager Prieb this morning. Mr. Prieb also stated that it would be necessary for the merchants of Twin Falls to pledge \$3000 to meet the year's budget of expenses. The band finished last year on an even basis financially.

Boise Man Says He Will Jazz Our Weather For Us

THE Idaho weather man continues to demonstrate "climatic tendencies." At least he is "climatic" in his attitude toward the south section of the state.

Looking through our easement we see no evidence of immediate bad weather "in the offing" do you? No, of course not!

Yet the supreme speech who maps out the climatological condition for this zone says "Probably snow in the south section tonight."

Anyway the column of this column will tomorrow don his little red fox and his himself Burleyward, overland, too, without regard for the pernicious prognostication of the weather dispenser.

The mercury took a change for the better yesterday, reaching 43 for top, with 19 for low at night. The former figure is two markers higher than on the preceding day, while the latter is five points over and above the best of the former night.
