BETTER GUNNERY AIDS GERMANS IN JUTLAND BATTLE

Admiral Plunkett Makes Sensational Declaration in Testimony as to Need for Maintaining Navy Personnel

DEPARTMENT IS CHARGED WITH SUPPRESSING FACTS
Captain Tausig Says Secretary Daniels Disregarded Estimates of General Board in Making Report in 1914

WASHINGTON, (AP)—The Germans, by their superior gunnery, "turned the British on their heads," at the battle of Jutland, Rear Admiral Plunkett declared today before the senate committee investigating the navy's conduct of the war.

Admiral Plunkett was testifying as to the need for keeping the navy personnel at full strength so men might be adequately trained. He did not go into details as to the Jutland battle and was asked no questions regarding it.

FLETCHER TELLS OF DIFFICULTIES

Evidences of Friction at Brest Headquarters Come Out in Inquiry

WASHINGTON, (AP)—First evidences of friction at the headquarters of Rear Admiral R. M. Fletcher, who came with the arrival here of Captain Thomas P. Magruder, commanding the third fleet of American craft sent to the European theater, were testified to today before the navy board of inquiry investigating his removal from the Brest command by Rear Admiral Sims after the sinking of the transport Anitiles in October, 1917.

On his arrival Captain Magruder showed great confidence in the service, Fletcher said. Subsequently, a letter from Sims said Magruder was to be retained at sea, but Fletcher said no command suitable for an officer of his rank was available.

"Did Captain Magruder support you loyally and carry out your orders?" Admiral Fletcher was asked. "I cannot testify as to his having carried out my orders," Admiral Fletcher said. "I do not think he supported me loyally."

I. W. W. CHARGED WITH TAMPERING WITH VENIRE

Prosecuting Attorney at Seattle Investigates Activities of 'Radicals'

SEATTLE, Wash., (AP)—Charges that industrial workers of the world are tampering with jury venires are being investigated by Prosecuting Attorney Fred C. Brown, it was announced today.

Brown said that several members of the March panel of the superior court have complained that I. W. W. investigators have been working in residence districts gathering information about prospective jurors.

Some of the investigators, it was charged, were stars and represented themselves as being sent by the prosecuting attorney to "find out what sort of a jury he would have to deal with." Several criminal syndicates are to be heard in the superior court within the next few weeks.

EXCHANGE RATE ADVANCES

NEW YORK, (AP)—A brisk rally in sterling exchange at the opening of the market here today sent demand bills up to 33 1/2 and 3 1/4 cents above the high mark of yesterday and a new high in the present movement. The low record is 3.19, made February 4.

In the afternoon demand sterling advanced to 3.24 1/4. This, the highest quotation since last December, represented an advance of 16 cents in one week and 22 cents in six months.

Missionary Dies in Defense of Women

PERKINS, (AP)—The death of J. R. Perkins, a Presbyterian missionary of Toronto, Ont., who was killed by robbers at Haidingga (Hunan province), occurred while he was defending the women's quarters in the mission from an attack by a large band. Men were answering calls for help, grappled with one of the robbers who was attempting to force an entrance, whereupon the missionary died while killing the missionary and the robber.

HOOVER GIVES HIS VIEWS ON BIG BUSINESS

Declares Proportions of Commodity Handled by Corporation Rather than Its Size Should Determine Regulation

WASHINGTON, (AP)—Proportions of a commodity handled by a corporation rather than the concern's size or capital should determine government regulation, Herbert Hoover said in a letter to Representative Anderson of Minnesota, read today before the house agriculture committee in connection with hearings on legislation for the control of the meat packing industry.

Makes For Free Play

"When businesses grow to an extent that they can control the handling of more than a certain percentage of a given commodity," said Mr. Hoover's letter, "they then become dangerous to the public interest and if upon the growth beyond that point they were placed under strict regulation as to profit and other features of their business, the natural tendency of such businesses would be to fold themselves below the official limit. Such a plan of licensing would leave free play of all competitors of moderate size."

"The experience of the food administration," the letter added, "showed the very great difficulty of licensing all members of a free trade, big and little, because the degree of regulation imposed of any character upon the big member of a trade would work great hardship upon the little ones, and under some conditions, may stimulate the growth of monopoly. For instance, we found in the packing trade that if we regulated the big packers down to a point of profits that would seem entirely reasonable, we would probably crush out many of the small packers, and get just the reverse social result that we had hoped to obtain."

Calls It Thorny Subject

"On the plan above suggested, the secondary consideration is that it would have entirely free action, and could themselves probably compete better by this very freedom. It is a thorny subject and I wish you well with it."

World News Events

NAPLES, (AP)—The chamber of labor yesterday decided to call a twenty-four hour general strike as a protest against the measures adopted by the police and military to put down the strike in the iron works. During the disorders incident to the strike a dozen workmen were wounded and one hundred were arrested.

MEXICO CITY, (AP)—Circulars urging measures to prevent emigration of Mexican workers to the United States were sent to all administrations yesterday by the interior department. It is pointed out that many Mexicans are in a miserable plight in southern states, where they can find no work. It is also said that unrestricted emigration endangers Mexican agriculture and industry.

LONDON, (AP)—The lord mayor of Dublin has applied to the authorities to furnish police to protect the mansion house, according to a dispatch to the Central News from Dublin. Mayor O'Neill's request, it is reported, was due to the fact that the mayors of Limerick and some other towns had received threatening letters such as the one said to have been sent to the lord mayor of Cork, Thomas Mac Curtain, before he was shot.

NEGOTIATING BUILDERS' WAGE SCALE AT SPOKANE

Unions and Employers Association Near Agreement Except in Cases of Carpenters

SPOKANE, Wash., (AP)—Wage negotiations between building trades unions of the city and the Master Builders' association, the contractors' organization, practically reached an amicable conclusion at a conference last night, according to announcement of representatives of both sides. In the case of these two crafts, 50 cents a day was said to separate the two sides, the men having asked for two cents, the men having asked for

SUSPENSION OF ILLINOIS COAL MINES FORECAST

Mine Workers State Executive Declares Cessation of Work at Least Temporarily, Is Unavoidable

PEORIA, Ill., (AP)—There will undoubtedly be a suspension of work in the coal mines of Illinois April 1, Frank Farrington, president of the United Mine Workers of Illinois, said today.

Understand, it will not be a strike, he said, "but an unavoidable suspension of work for a short time or a long time. Our agreement expires at midnight, March 31. I believe it will be impossible to keep the men at work after that time."

It is possible, of course, that some sort of an agreement will be reached at the meeting in New York Monday to keep the mines running, but at a brief suspension of work will occur."

OPERATORS UNLIKELY TO OFFER REPORT PROVISIONS

ST. LOUIS, (AP)—No opposition to the majority report of the coal commission, which grants miners a wage increase of 13 per cent, in addition to the last advance of 14 per cent, is expected to be voiced by the operators, Thomas T. Brewster, chairman of the coal operators' scale committee in the central competitive field, asserted last night.

The operators' committee will meet in New York Monday to discuss the report and following the meeting will confer with the miners' scale committee in an effort to end the coal controversy as requested by President Wilson.

PROBES PACIFIC COAST SUGAR PRICE ADVANCES

Federal Attorney Collects Evidence on Deals of Refiners and Jobbers

SAN FRANCISCO, (AP)—An announcement that he hoped to present evidence to the federal grand jury next week, possibly on Tuesday, in relation to the alleged advance in the price of sugar by refiners which serve the whole Pacific coast from this city, with a view to determining if the Lever food act has been violated, was made here today by Ben Geiss, acting United States district attorney.

Recent sugar transactions of both the refiners and the jobbers are to be investigated thoroughly, Geiss said. Two advances were announced here by the Great Western Sugar Refining company in a period of four days. The California-Hawaiian Sugar Refining company announced on March 24 it would not change its tariffs for at least three weeks.

CAMPAIN OF DESTRUCTION IS SPARTACAN ALTERNATIVE

Failure to Capture Wesel to Be Workers' Signal for Despoiling of Western Germany

GOVERNMENT TROOPS IN POSSESSION OF STRONGHOLD AFTER DAY'S BATTLE

LONDON, (AP)—Workers forces entrenched along the Lippe river, threaten, if they fail to capture Wesel, to destroy all factories and mines in western Germany, says a dispatch to the Exchange Telegraph company filed in Berlin this morning. "The roads have established great headquarters similar to that of the old German army."

ENTENTE DELAYS DECISION UPON RUHR SITUATION

Request for German Troops to Enter Zone of Occupation or Neutral Area is Neither Given Nor Refused

PARIS, (AP)—The allies have not as yet given or refused permission for German regular troops to enter the neutral zone of occupation of the Ruhr, which has been established by the treaty of Versailles, according to a dispatch from London today.

According to the same source, there is no further question of interallied intervention in the Ruhr district.

FOUR PERSONS DIE IN SNOWSLIDE AT BINGHAM

Family is Wiped Out Under Avalanche in Utah Copper Mining Settlement

SALT LAKE CITY, (AP)—Four people, Mr. and Mrs. E. M. Farr and their two sons, Harold, aged 14 and Earl, aged 3, were killed early this morning when their home at Bingham, Utah, was buried under a landslide, according to a report received here. All the bodies have been recovered. The Farr home was situated on the side of a hill and was entirely demolished. Recovery of the bodies was made by men employed in the copper mines there.

In Salt Lake snow has been falling continuously since early last night and transportation today was considerably hampered. At 10 o'clock the local weather bureau forecasters declared the fall general throughout the state and said it was likely to continue throughout the day. In Salt Lake city proper the fall at 10 o'clock today was estimated at one foot.

ALLEN CRITICISES WAR EXPENSE OF GOVERNMENT

LANSING, Mich., (AP)—Governmental expenditures during and after the war were described by Governor Henry J. Allen of Kansas in an address here last night as a "carnival of extravagance which was accompanied by an effort to obtain for the government an honest return."

The governor touched upon the expenditure of \$150,000,000 on port terminals at Charleston, S. C., Norfolk, Va., and other places, "from which not a ship sailed during the war," and mentioned a number of other government projects.

He asserted the history of the expenditures "when fully recorded" will be "the most shocking revelation of mismanagement and waste that has ever been recorded."

Taking up President Wilson's "bold decision to take personal charge of the negotiations for peace," Governor Allen denounced the "exhibition" and declared the American party went to Europe with all the glory of an Olympic entrant. "If asserted another steamer was sent abroad with special automobiles so that the 'grand retinue' could leave the harbor in regal state."

Governor Allen told his audience it was the duty of the republican party to direct the government of the people back into the channels of typical American endeavor."

Inter-Party Deliberations Looking to Reorganization of German Government Prove to Be Without Avail

WIDE BREACH DEVELOPS OVER QUESTION OF NOSKE

Berlin Party Leaders Declare Men from Stuttgart Have Too Roseate Idea of Labor Situation in Capital

BERLIN, (AP)—Dr. Hermann Mueller, foreign minister in the Bauer cabinet, has been requested to form a new cabinet. It was not officially reported today.

PARIS, (AP)—The German cabinet, headed by President Gustav Bauer, has resigned, according to a message received here from Berlin today.

BERLIN, (AP)—Inter-party deliberations looking to the reorganization of the German government had been fruitless until 7 o'clock Thursday evening. Unexpected attacks on Vice Premier Schuler and increased dissension in the wing of the socialist party led by Philipp Scheidemann, former chancellor, featured the day.

A wide gap developed between the Berlin contingent of the right socialist and the party's representatives who had supported Gustav Bauer, former minister of defense, at Stuttgart. The former faction is made up of followers of Dr. Scheidemann. The left wing of the right socialist is openly rebelling against the attitude of the party's representatives in the government who are accused of attempting to make concessions to the tarsus under which the strike was ended.

Berlin party leaders declare the men from Stuttgart have a too roseate idea of the labor situation in this city and appeal for the acceptance of the terms laid down by Herr Legation, which have been accepted by the independent socialist.

CAPTURE ALLEGED STORE BANDIT IN MOTOR RACE

San Francisco Police Automobile Runs Down Another Car Carrying Fugitives

SAN FRANCISCO, (AP)—Following a motor race, a police car, through thickly populated sections of the city in the early morning hours, during which dozens of shots were fired from a car, the police automobile ran down another car alleged to have been occupied by three store bandits, and placed one of the men, giving the name of a law and order man, in the back of the police car.

Shortly after midnight a woman telephoned that she had seen three men break into a tailoring shop and load a car with goods on an automobile. The chase followed, with cars going over long stretches of street at breakneck speed and, revolvers continually popping.

Ashley said he lived in Sacramento.

POINTS OUT ACTIVITIES OF TOMBSTONE, ARIZ.

TOMBSTONE, Ariz., (AP)—The miners' strike in the Warren mining district began June 26, 1917, and in force when the Biase deportations are alleged to have occurred, was called by the Metal Mine Workers' union, an I. W. W. organization, Fred W. Brown, prosecution witness in the trial of Harry Campbell, was called to the stand in connection with the deportations, testified here today.

ALLEGES BOLSHEVIK BACKING OF SPARTACAN MOVEMENT IN GERMANY

ROTTERDAM, (AP)—The Spartacan movement in the Rhine provinces has long been organized with the co-operation of Russian aid and the offensive against Poland, with the joint object that Trotsky, Russian bolshevik minister of war, would be at the gates of Berlin as the Russian revolutionaries according to a Munster dispatch to the Courant. Russian red army officers, who are in the Rhine, are already directing the German Spartacans whose army is being rapidly organized. An armed on the exact model of Trotsky's army, was originally planned for May first, but the leaders believed that the Kapp government gave them an opportunity to hasten their plans, which included the capture of Munster and West.

KIDNAPED BOY RETURNS HOME

Twelve Year Old Son of Kentucky Capitalist Makes His Whereabouts Known

LEXINGTON, Ky., (AP)—Paul Little, 12-year-old son of B. R. Little, Lexington capitalist, who has been held for ransom by kidnapers, was found this morning locked in a room at a local hotel.

Mr. and Mrs. Little first learned the whereabouts of their son when he telephoned his home from the hotel room. He said he had been kept a prisoner there since Wednesday night.

Investigation disclosed that the room had been reserved in advance by a man registered as J. C. Cox of Cincinnati.

The boy disappeared Wednesday afternoon when playmates said he had been in conversation with a man. They said they had been given a dollar to deliver a box of candy. Soon afterward the father received a note stating that his son, Paul, was being held for ransom. Little intimated that the amount asked for was \$25,000. He declared he would abide by the kidnapers' demands but he did not mind paying the money and only wanted the safe return of his son.

At 7:30 o'clock last night, Little deposited a package containing the ransom money in a Main street garbage can. When he returned a half hour later, the package remained intact. Believing the kidnapers failed to show up for their "double-cross," Little pocketed the money. At 7 o'clock this morning the key for the room he had been held in was found was turned in at the hotel desk. At 7:15 Mrs. Little was called to the telephone and heard her son's voice. Nothing had been seen of the "Mr. Cox" since he left the hotel at 7 o'clock.

Extend Search for Servants to Europe

SPOKANE, Wash., (AP)—To relieve the shortage of domestic servants in this city, which it is declared is acute, local business men are planning the organization of an association to bring 250 young women from Europe, according to an announcement by C. S. Cudde, president of a large industrial concern here.

"It is our plan to send a responsible woman as our representative to select these girls, act as our agent in booking their passage and chaperone them on their trip," he said. "We will pay their passage and all expenses."

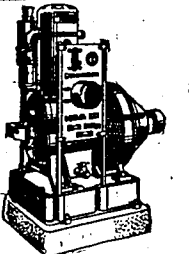

"The girls will sign no contracts to work until they arrive in Spokane and look over the situation for themselves."

To give the plan official standing in the eyes of the families of the girls employed, the approval of the mayor and city council will be asked, Mr. Cudde stated.

PAGANT POSTPONED.
Telegrams received this morning by the Rev. A. G. Bennett announce the postponement of the missionary pageant which was to have been presented this evening at the First Methodist church. The missionaries who have been staging the pageant, Messrs. E. G. Osborne and E. E. Herman, have both been taken ill in Gooding and have cancelled all engagements.

High School News

Honoring the members of Twin Falls' winning basketball team, a dance is to be given this evening at Coitella hall. High school students and members of the faculty will be present.

Some 40 members of the H-Y club entertained themselves at a stag social last night at the high school. A feature of the program was a boxing match between Victor Strock and Theodore Schwarz. Refreshments and a general social time followed the program.

Ogoretta Murray and Ida Hogg, Twin Falls declaimers, accompanied by Miss Ida Brown of the public speaking department, left this morning for Burley where the two speakers will participate in the district declamatory contest tonight.

The average grade of 83 has been set by the student council as one of the requirements for admission of students on the council.

Choice of a play for class presentation toward the end of school this spring will soon be made by the seniors. Several comedy-dramas are now under consideration.

Chameleons' Food.

The proper diet of chameleons and lizards consists of flies and other insects; also meal worms, and the common idea that sugar and water will serve in winter is incorrect. A good many of these animals refuse food in the winter months and all of them need warmth and sunshine, as well as water. They are difficult to keep in health, and if not given their natural food will starve to death in time, though their ability to fast for long periods is well known.

Perhaps This Is Worth Trying.
Should a child grow up bad in China the parents are said to have forgotten to bind its wrists—aluding thereby to a superstition that if a red cord is tied around an infant's wrists it cannot fall to grow up quiet and obedient.

REBEL YELL CALM IN BLAZE

Rebel Yell Sounds Alarm of Fire that Destroys Confederate Home

LOUISVILLE, Ky. (AP)—A rebel battle yell sounded throughout the Confederate home at Pewee valley, Kentucky, 18 miles from Louisville, at 6 o'clock last night, as the first alarm of a fire that three hours later had destroyed the institution.

Commanded by Sergeant Gus Head, who during the civil war was the keeper of John Morgan's mount, the one hundred veterans of the home able to walk filed from the building with precision similar to that which made the army of the confederacy famous. Calmly the hundred grays marched to the hospital building, made litter of the coats and carried fifty invalid comrades to the little stone church nearby.

After Sergeant Head, in terse manner had called the roll, the men sat cross-legged upon the grass and with typical southern stolidity, waited until the smoldering ruins resembled but a bivouac of days gone by, then trudged slowly to the little church, spread their blankets and slept.

PASS DIVIDEND BECAUSE OF LABOR DISTURBANCES

Tonopah Mining Company Declares Inability to Disburse Stockholders Checks

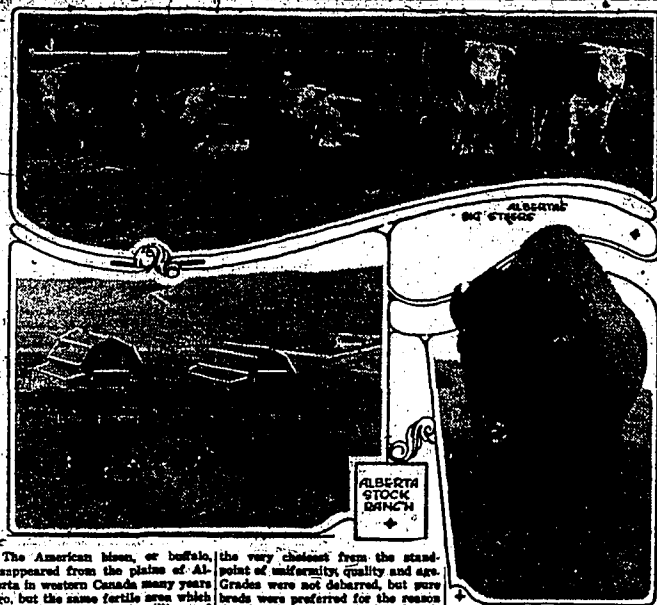

PHILADELPHIA, (AP)—The Tonopah Mining company of Nevada, a Philadelphia corporation, announced today that the directors had decided to pass the dividend usually paid at this time.

Six months ago the company paid a dividend of 15 per cent or 16 cents a share.

The president announced recently that due to labor troubles the earnings in the last five months were only \$10,840. In the nineteen years of its existence the company has paid fourteen millions in dividends on a capitalization of \$1,000,000.

Mrs. Cooley says she cannot speak too highly in praise of this remedy.—adv.

The American bison, or buffalo, disappeared from the plains of Alberta in western Canada many years ago, but the same fertile area which once fed and fattened millions of these shaggy beasts now feeds and fattens for the world's market vast herds of pure bred and grade steers. Alberta breeders are justly proud of their cattle and overlook no opportunity to show the live stock world what they are producing.

Recently thirteen of these donated thirteen calves, mostly pure breeds, to the Department of Animal Husbandry of the University of Alberta for show purposes at exhibitions, and ultimately for exhibition at the International Live Stock Show, Chicago. Experts representing Prof. A. A. Dowell, the department's chief, spent three months in visiting twenty-four herds and from them culled

the very choicest from the standpoint of uniformity, quality and age. Grades were not debarred, but pure breeds were preferred for the reason that in selecting young calves breeding must be given much emphasis. Each of these thirteen calves was assigned a nurse cow, and all are now putting on 100 pounds of expensive beefsteak per month.

The University of Alberta has them on exhibition at its stables constantly, and over each stall is a placard giving the name of the breeder and the pedigree of the animal. Next fall two or three animals of each breed will put as their very best company manners and appearance and take a little outing to Chicago to show the sharps at the International Live Stock Show what the choicest Alberta steers look like when they get to the pen-

house andillet mignon state of perfection. While devoting her main energies to the breeding of fine cattle, Canada has not forgotten her old first citizens of the live stock world, the plains bison. A splendid herd is viewed by thousands of tourists each year at Banff, in the Canadian Pacific Rockies. In the same province of Alberta is a herd of cattle, a cross of buffalo with domestic cattle. The cattle has great beef and robe producing possibilities because the buffalo has one more rib on each side than ordinary cattle and a much thicker back.

less Edward the Confessor made a verbal will. On January 3, 1066, he recovered his power of speech and talked with those around him, among whom were the queen, the archbishop of York, archbishop of Canterbury and Harold and Toig, his nephew. He prophesied the Norman invasion and then, stretching out his hand, bequeathed the crown to Harold. This act was ratified by the ancient British parliament and Harold was crowned the next day.—Exchanges.

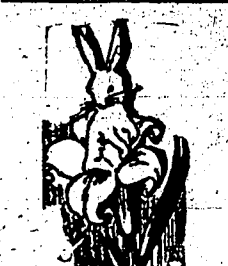

Lincoln's Little Joke. Once in his law days while Lincoln was in Chicago trying a suit, his wife had the roof taken off their house to make the house higher. On Lincoln's return, he manifested great surprise, and asked a passerby, "Stranger, can you tell me where Lincoln lives?" Receiving the desired information, he then gravely entered the domicile.

Don't Do Not Sting Skunks. That skunks will eat bees is the testimony of E. L. Denalow of Conestoga township. He came upon one in the act of moving his hive enough to bring out the bees, and when they came out the skunk ate them. Denalow fired at the animal but missed. Later the skunk came back and repeated the performance, again getting away.

Alfred's first response to best brains of war dogs. Alfred detects the red he means to fire; he eagerly sniffs a fore arm and stiffens his body—bliss sufficient for the human sentinel, who immediately puts his dumb friend's advice to good account.

Department of Labor Conciliator to Lead At Toward Tie-Up Adjustment

BUTTE, Mont., (AP)—Thomas Barker of Los Angeles, Cal., commissioner of conciliation, United States Department of labor, arrived in Butte this afternoon as a direct representative of the United States government to lead the Union in the local building industry which has continued for 8 weeks. He has made no arrangements for any conference.

This is Mr. Barker's fifth visit to Butte. He was here twice in 1916 and was also here during the metal trades strike.

 "Like every American," Mr. Barker said today in a statement, "I hope for industrial peace. We are only standing in the period of reconstruction. Our country needs industrial peace and I feel satisfied that if common sense and good citizenship prevail there is no problem that cannot be solved."

POINDEXTER ARGUES FOR HOME PROBLEMS SOLUTION

Washington Senator Opens Campaign in Michigan with Attack on Administration Policies

KALAMAZOO, Mich., (AP)—Senator Miles PoinDEXTER of Washington opened his campaign here yesterday for the support of the Michigan delegation for the presidential nomination at the republican convention with an attack upon the administration in dealing with domestic problems.

 "While these vital problems await solution," he said, "the administration continues to center its attention on the issues uppermost in Jugo-Slavia, and other nations in which we are not directly concerned. What we must do is to bring the attention of the government home and center it on our own affairs."

 The senator opposed assumption by the United States of a mandate over any European or Asiatic territory.

 The opal is more difficult to imitate than is the diamond. But from artificial corundum, stained with chrome alum, red rubies can be made, and very cheaply. If the coloring agent is titanium oxide, the product becomes a genuine artificial sapphire.

Social Notes

Mrs. A. L. Stone entertained the Entertainer's club of Sunday. Bridge was played, Mrs. B. A. Heister winning the prize, a sterling silver spoon. A dainty two-course luncheon was served to the nine members present.

Mrs. G. H. Stinson entertained the Woman's Foreign Missionary society of the Methodist, yesterday afternoon at her home on Second avenue north. Mrs. J. M. Wall had charge of the lesson topic, which was on the work of the missionaries in Africa.

Mrs. William O. Taylor entertained at a musical tea yesterday afternoon honoring her daughter, Miss Suzanne, a bride of the coming month. During the afternoon Hamilton Park, of Salt Lake City, a delightful baritone, gave a number of vocal selections. Mrs. Taylor and Miss Suzanne also gave a number of songs. Miss Julia Taylor accompanied. The tea table was charming with decorations of white and pink, bowls of violets and jonquils, and violet tapers in silver candlesticks. Mrs. T. O. Boyd presided at the tea table. The guest list included Mesdames Frank Magel, J. D. McLean, Homer Craven, John Graham, G. F. Sprague, Mr. J. Swecley, J. L. Moe, L. O. Bur-ton, E. Moore, H. W. Wilson, T. O. Boyd, R. H. Stevenson, E. L. Macvicar, D. D. Alford, W. H. Greenhow, H. H. Schild-man of Flor, A. J. Peavy, R. S. Passer and O. B. Chappel.

The ladies of the Twentieth Century club will serve refreshments in the Parish hall tomorrow afternoon during the card party and will be glad to have all ladies who do not care for cards and would like to assist in the club house fund come in.

Mrs. T. E. Schwartz entertained the Episcopal Guild yesterday. A short business session was held, followed by a program on the work of Christian Americanization from the standpoint of the Episcopal church, and was in charge of Mrs. Chester S. Clift. Dainty refreshments were served.

Today's Markets

Grain and Provisions

CHICAGO, (AP)—Strength developed in corn today owing to lack of any confirmation of rumors that the 200,000 bushel limit on trading was about to be put into force again. Opening prices, which ranged from 1-4c decline to a like advance, with May \$133 1/2 to \$154 1-8 and July \$148 1-4 to \$148 3-4, were followed by substantial gains all around.

Subsequently, export demand for the wheat and rye helped to rally the corn market after setbacks due to liquidation by small holders. The close was nervous, 1-3-4 to 2-7-8 net higher with May \$150 1-4 to 1-50 3-8 and July \$150 1-4 to 1-50 5-8.

After opening a shade off to 3-8c up, including July at 78 1-2 to 78 3-4c, the market scored a moderate general advance.

 Lard and ribs reflected a rise in sterling and the strength of grain.

Why Colds Are Dangerous

It is the serious diseases that colds lead to that make them dangerous. They prepare the system for the reception and development of the germs of influenza, pneumonia, tuberculosis, diphtheria, scarlet fever, whooping cough and measles. You are much more likely to contract these diseases when you have a cold. For that reason you should get rid of every cold as quickly as possible. Chamberlain's Cough Remedy will help you. It is widely known as a cure for bad colds.—adv.

SATURDAY'S AUCTION EVENT OF INTEREST

Considerable speculation has developed over the auction sale of the Corbett lot facing the postoffice. This unique way of disposing of a city lot is now to this section, but is quite general in the middle west for a year or so.

This valuable lot should appeal to the investor, having an unique position of being directly across from the postoffice, giving a business a powerful advantage in advertising a business.

The question has been asked by many what price the lot would bring. Considering the fact that a near-by lot recently sold for \$15,000, no doubt this piece of property will share in proportion. The sale will be conducted by Auctioneer Lue at 4 o'clock Saturday at the property.—adv.

LIGHT ON FRANCH MAKING

John Maynard Keynes' statistics on "The Economic Consequences of the Peace," may leave one, alone at least, though unconvicted, or may provide a slender but accurate picture of the treaty, but his pen pictures of Lloyd George, Wilson and Clemenceau are unforgettable.

Keynes speaks from knowledge gained at first hand at the peace conference. His book undoubtedly has caused more comment than any other treatise on the war yet published, and it is, worth while, even where the tone of the argument breeds furious resentment, to read it for the descriptions of the men in action.

For instance, here is a part of the description of Clemenceau:

"His walk, his hand, his voice were not lacking in vigor, but they bore nevertheless, especially after the attempt upon his life, the aspect of a very old man conserving his strength for important occasions. He spoke seldom, leaving the initial statement of the French case to his ministers; but when he spoke, often and sat back in his chair with an impressive face of parchment, his gray gloved hands clasped in front of him, his last and most vivid impression in such scenes, as President and Prime Minister he was the center of a surging mob, and a babel of sound, all sound and fury signifying nothing, on a huge and almost universal question anyhow, the great issues of the morning's meeting forgotten and neglected; and Clemenceau silent and aloof on the skirts—for nothing which touched the security of France was forward—throned in his gray gloves, on the broad chair, his face empty of hope, very old and tired, but surveying the scene with a cynical and almost laconic air."

Then his portrayal of President Wilson is interesting if not complimentary. For example:

"The first glance at President Wilson suggested that whatever else he might be, his temperament was not primarily that of the student or scholar, but that he had not much of the earnestness of the world which marks Mr. Clemenceau and Mr. Balfour. But more serious than this, he was not insensitive to his surroundings, and the external scene, he was not sensitive to his environment at all. What chance could such a man have against Mr. Lloyd George's towering, almost modern like sensibility to everyone immediately around him? The President was like a Nonconformist minister. His temperament and thought were essentially theological, not intellectual, with all the strength and the thoughtfulness of the manner of thought, feeling and expression of the latter. The President had thought out nothing; when it came to practice his ideas were ad hoc and incomplete. He had no plan, no scheme, no constructive ideas whatever for clothing with the flesh of life the commandments which he thundered from the White House. He could have preached a sermon on any of them or addressed a statutory prayer to the Almighty for their fulfillment, but he could not frame the concrete application to the actual state of Europe."

The picture of Lloyd George is of a man with but a meagre foundation of information, which change is also made against the President, but with an extremely agile mind. He writes:

"To see the British Prime Minister watching the company with six or seven scores and a score to ordinary men, judging character, motive and unobscured impulse, perceiving what each was thinking and each was going to say next, and compounded with tolerable instinct the argument or appeal best suited to the vanity, weakness or self-interest of the immediate auditor, was to realize that the poor President would be playing blind man's bluff in that party."

GRONNA BURNS AMUSE

Also J. Gronna, United States senator from North Dakota, has had another run-in with the Associated Press and again it is Gronna that has come out of the encounter second best.

Declaring yesterday on the floor of the senate that "perhaps it would be well to have a few funerals" to end the misrepresentations he alleged referred to his war record, Gronna charged that the Associated Press during the war had sent out a dispatch "charging me with voting against the appropriation of \$400,000,000," provided in one of the war bills.

The bill referred to is the first aviation appropriation bill. The Associated Press dispatches of July 21, 1917, the day the bill was passed in the senate, stated that the bill was passed "without amendment or a record vote."

The same dispatches, however, chronicled the fact that Senator Hardwick of Georgia, prohibiting the drafting of men for the aviation service. The amendment was defeated 36 to 13.

The facts as stated in the Associated

press, given the congressional record for that day. The record also shows that during the debate on that day Senator Gronna made another attack on the Associated Press charging misrepresentation of his attitude.

In view of undisputable records bearing on Gronna's war records in particular, it would seem that the subject is one which good sense on his part would prompt him to leave severely alone.

His latter outburst serves just two purposes. It calls public attention back to the part he played during the war; and it vindicates the enviable reputation for accuracy of the Associated Press.

GEORGES SHOWS BOXING WARES TO N. Y. CROWD

French Champion, in Shirtsleeve Bout, Goes On with Drexel Biddle

NEW YORK, (AP)—Georges Carpentier, French heavyweight boxer, gave his first exhibition in America at the dinner of the International Sporting club Wednesday when he boxed two exhibition rounds of two minutes each with Major A. P. Drexel Biddle of Philadelphia.

Carpentier aroused the one thousand guests to a high pitch of enthusiasm by his speed, clever ducking and feinting. No heavy blows were struck. The men boxed in their shirt sleeves. Tex Rickard was the referee. Previous to the exhibition the French fighter was given a rousing ovation lasting more than a minute. His bride, who was seated in one of the balconies, was presented with a huge bouquet of flowers.

Carpentier made a brief speech, expressing appreciation of his reception. He said he hoped to meet Jack Dempsey and that "the best man would win."

NO CHANCE

NEW YORK, (AP)—There is no chance for a world's championship bout in 1920 between Jack Dempsey and Georges Carpentier, according to Tex Rickard, one of the foremost promoters for the contest. The French champion probably will not extend his present visit to the United States, Rickard said today, and he must return to Paris for a bout scheduled in August.

JOHNSON LOSES

JERSEY CITY, N. J., (AP)—Pete Herman of New Orleans, bantamweight boxing champion of the world, outpointed Patsy Johnson of Trenton, N. J., in a fast eight-round bout here last night. Each weighed 120 pounds.

Precher Horns in with Protest Against Contest

SEATTLE, Wash., (AP)—Fred Fulton, Minniscott heavyweight, and Young Hector, Bremerton, Wash., meet in a four-round bout here tonight. Fulton expects to weigh 212 pounds and Hector 192.

A protest against permitting the bout has been sent by the Rev. M. A. Mathews, pastor of the First Baptist church here, to Promoting Attorney Fred O. Brown. Dr. Mathews said the affair would be a prize fight, "infamous and disgraceful," in violation of the city ordinances.

Replying, Brown invited Dr. Mathews to attend the show. He defended the bout and said it would resemble a prize fight almost as nearly as playing pong resembles a naval engagement.

EMPLOYERS' ASSOCIATION

THE SITUATION IN TWIN FALLS

The industrial conditions in Twin Falls at the present time are practically normal as compared to conditions in the city in recent years. There is an acute demand for skilled mechanics in the Building Trades at present. Has there not been the same unsatisfied demand for the past three years? As long as the labor unions refuse to allow apprentices to learn the trade except under union restrictions that shortage will continue to exist.

HOW LONG has it been since we were FREE FROM LABOR TROUBLE in Twin Falls? All of LAST YEAR under the domination of the CLOSED SHOP strikes and walkouts were of almost weekly occurrence, and the year before conditions were practically as bad; and the year before that. If Twin Falls HAD NO LABOR TROUBLE the situation would be abnormal and unusual.

Who Is to Blame?

Last year there was no Employers' Association in Twin Falls and yet industrial conditions were such that both the INDUSTRIOUS WORKERS and the BUSY EMPLOYERS were DISGUSTED with lost time occasioned over strikes and walkouts. There was no Employers' Association the previous year and the conditions were just as unstable.

What About This Year

There is a strike on in Twin Falls now, certainly. But here is the difference. LAST YEAR where there was a strike, everything stopped until the matter was adjusted to the satisfaction of the unions. THIS YEAR there is a strike on, but NOTHING IS STOPPED. The lumber yards are selling lumber, the merchants are selling hardware, ALL business is going along AS USUAL.

Do You Get the Point?

Mr. Citizen of Twin Falls, DO YOU SEE THE DIFFERENCE? The city is NOT PARALYZED. We are DOING BUSINESS at the old stand. The radicals and agitators are emigrating and the conservative union men and the conservative citizen bid them God-speed. Twin Falls IS PROSPERING NOW and we are not going to have conditions as they were LAST YEAR.

WAR VETERANS GIVEN WARNING

Congressman Smith Advises Against Paying Fee for Making Collections

That former service men should not be lured into paying claim agents in Washington a fee for the collection of soldiers' \$50 bonus, travel pay, clothing allowance, and similar due items from the government, is a warning sent out to applicants by Addison T. Smith, member of congress from Twin Falls.

Representative Smith says his attention has been directed to alleged unscrupulous methods employed by certain persons in Washington to extort from former soldiers a high rate of fee for making these collections. Mr. Smith says it is altogether unnecessary to employ agents to collect these bills and urges that delinquencies be reported to him. Following is a letter addressed to The News on this score:

"Information has come to me from a number of the returned soldiers that unscrupulous claim agents in this city have attempted to charge a fee of 10 per cent to aid in the collection of the \$50 bonus, travel pay, clothing allowance, etc.

"It is unnecessary for the soldiers to employ an attorney here for services of this character. If any of the soldiers who are readers of your paper have not received the bonus, travel pay or clothing bill will write me to this effect, sending me their discharge. I will bring the matter to the attention of the proper officials and see that any amount due is promptly forwarded, with the return of their discharge. Service men who were in France after July 19, 1918, are entitled to additional pay for foreign service, under a recent ruling of the department.

"It is unfortunate that the soldiers have been imposed upon by attorneys in adjusting their affairs with the government, when their representatives in congress is willing and anxious to be of service in this or any other matter concerning their welfare."

MANAGER WHEELON GIVES TIMELY HINTS TO DISTRICT IRRIGATORS

Water is to Be Turned into Laterals for Land Service on March 28 and with This Announcement Comes Some Suggestions Founded on Experience of Last Year's Supply Shortage

That water for general irrigation purposes will be turned into supply ditches and canals on March 28, is information contained in a letter to The News from J. O. Wheelon, general manager of the Twin Falls Canal company. Mr. Wheelon directs attention to experience of farmers in this district last year from water shortage, and the benefits derived by those working land in this section in 1919 through a study of conditions arising from this shortage.

"The splendid yields obtained last season, in spite of the shortage of water, reminds that the Twin Falls farmer needs no advice in the practice of irrigation."

Mr. Wheelon, however, addresses himself to the newcomer in this section on the question of irrigation, giving some timely advice on this important subject. The letter, which is addressed to water users, reads: "The Twin Falls Canal company plans to begin to increase the stream for use in irrigation on the twenty-ninth of March."

"The splendid yields obtained last season in spite of the shortage of water reminds us that the Twin Falls farmer needs no advice in the practice of irrigation."

"There are, however, many newcomers in the valley, there are many others who are renting land and are changing farms, there are others who have sold and repurchased, no doubt all of these find a heavy demand on their time in doing much work that should have been done last fall."

"To these farmers we venture to advise that the irrigation should have the first consideration."

"No matter how important the work may be it should not be allowed to be the cause of permitting the irrigation stream to run idly by, as otherwise the work in all cases and seasons will be behind."

"The benefit of winter snows and spring rains on the Twin Falls tract are more apparent than real as in so clearly shown in the attempts at dryfarming on the rim of the tract."

"Soil organisms do not thrive in very dry soil, and most soils that were not irrigated last fall should have from three to six inches of moisture as soon after the 15th of April as it can be feasibly applied."

"The reason for these remarks and

our plans to start off the irrigation season early, is based upon the report of Mr. Marchant, superintendent at the Jackson lake reservoir, just received."

Mr. Wheelon adds that from Sept. 1, 1919 to March 13, 1920 precipitation in the Jackson lake watershed had been 3.00 inches greater than for the same period in 1918-1919. He also points out that the total water stored now is 192,570 acre feet below the total for the same period prior.

BUEL MAN PAYS HIGH PRICE FOR SHORTHORN

J. G. Hayden Sets Top Mark at Livestock Auction with \$675 for One Animal

Paying \$675 for a single animal J. G. Hayden, of Buhl, set the high mark at yesterday afternoon's session of the Twin Falls livestock sale. Thirty-five animals were disposed of at public auction. The sale is on again this afternoon, and should conclude tonight. Much of the best Shorthorn stock consigned is to be offered today.

The average price yesterday was \$205, but it is expected that mark will be materially raised this afternoon. The sale is being conducted in the McMaster & Son sales pavilion and has attracted Shorthorn fanciers from far and near. It is being carried on under the direction of the Twin Falls North and South Side Shorthorn Breeders' association.

"WOOD FOR PRESIDENT" CLUB TO BE ORGANIZED

Republicans will Meet Tonight in the Commerce Rooms to Establish Movement

At 8 o'clock tonight republican enthusiasts for Leonard Wood will meet in the rooms of the Twin Falls Chamber of Commerce to formally organize a "Wood club."

The meeting will be directed by W. S. Parkhurst of Boise. Plans for this meeting were arranged late yesterday after a conference between Mr. Parkhurst and Sidney H. Graves. The latter is called the original Wood man in Twin Falls and for some time has been active in molding senti-

ment favorable to the Wood For President movement.
