

MOOT MATTERS PLAQUE COUNCIL

City Administration is Haunted by Ghosts of Old Affairs, with Some New

The municipal coterie of matter minds Monday night played hob with time. But there was a reason. About every perplexity to be thought of bobbed up during the bi-monthly session to haunt the council. The meeting started on schedule, time, and ended as usual after a wretched hour had struck.

To the laity and the press representatives the conference was wearisome and, perhaps, nugatory, but things that presented themselves for consideration would have to be considered and disposed of some time or another, and the members of the governing body preferred to do the battles of the council to an ultimate conclusion as the issues were forced upon the council. The council session was the prelude of council sessions of the year. The press box emptied before the adjournment. The council was closed by the adjournment.

Close Application

Not such an awful lot of business was transacted, but such as was accomplished was of a nature that required close consideration and close contemplation. For instance there were matters relating to methods to be employed in making up assessment rolls for the coming year. The council was asked to consider the proposition of a survey of the city for the purpose of ascertaining the value of the property for the purpose of making up the assessment rolls for the coming year.

Wanting Street Closed

Albert J. Bonell asked for the closing of the southwest end of Main street in the vicinity of Eighth avenue. Since the property in question has never been required for thoroughfare purposes and is, according to city authorities, nothing better than a waste of space, the council was asked to close the street. The council was asked to close the street for the purpose of making up the assessment rolls for the coming year.

Starting Plan Discussed

Some more or less cursory consideration was given to the proposed revised traffic ordinance, but after mature deliberation it was decided by the council to continue receiving suggestions from drivers and public safety experts. The council was asked to consider the proposition of a survey of the city for the purpose of ascertaining the value of the property for the purpose of making up the assessment rolls for the coming year.

Receipts Are Up

The gross receipts for the year are about \$11,000. Admissions totaled nearly \$6,000; grandstands, \$1,300; concessions, \$1,600; and other receipts, \$2,100. The council was asked to consider the proposition of a survey of the city for the purpose of ascertaining the value of the property for the purpose of making up the assessment rolls for the coming year.

A Clean Show

There are some other things about the fair that are significant. It cost \$120 less to police the grounds this year than last. There were no dope dealers in the fair grounds. The council was asked to consider the proposition of a survey of the city for the purpose of ascertaining the value of the property for the purpose of making up the assessment rolls for the coming year.

Idaho's Farms and Ranges Each Year Produce \$140,000,000

BOISE, IDAHO, (AP) — Idaho's farms and ranges are producing an annual wealth of \$140,000,000, according to a report issued by the U. S. Department of Agriculture. The report was based on a survey of the state's agricultural resources.

CITY MAY TAKE OVER BASEBALL HOLDINGS

Recreational Site Is Offered Municipality by Association Officers.

Twin Falls, as a municipality, may become the owner of the Twin Falls Athletic association's baseball park before long. The property has been offered to the city for \$500. If a clear title is presented the administration may decide to take the enclosure over for park and recreational purposes.

The offer of sale was made Monday at the regular meeting of the city council when a coterie of officers and directors of the association appeared with the proffer. J. N. Chas. made the offer. Those appearing with Mr. Chas. were: Charles Macanely, secretary-treasurer; W. J. Jones, vice president; C. J. Hahn, P. Guthrie, D. W. Smith, and C. E. Wright.

Spokesman Chas. explained that the affairs of the association are not in satisfactory condition to warrant carrying on a baseball park. In the conclusion had been reached to let the city have the property at first cost. The matter will be definitely decided at a future meeting when all members of the council are present.

COUNTY'S 1920 FAIR A COLLEGE

Secretary Markel Tells of Educational Advantages of Recreation Exposition

BY J. M. MARKEL

"Let's learn from the greatest universities in America," the state and county fairs said. The fair is a college of the people. It is a place where the people can learn about the world around them. The fair is a place where the people can learn about the world around them.

Paying Up Premiums

The receipts are about all in and the bills and premiums are about all out. A complete statement of all the fair's financial affairs cannot be given for a few days as there are a few small items yet to be taken care of. The fair is a place where the people can learn about the world around them.

LEGION'S MEMORIAL IN FUND GETS BIG BOOST THROUGH FETE

Harvest Home Festival Source by Which Money Pours into Coffers of Soldier Organization—Grand Illuminated Pageant is Feature of Interest at Night Session of Fall Festival

Popularity of the American Legion benefit cause was amply demonstrated in the manifestations by the biggest things ever gathered for any event on the streets of Twin Falls Thursday night. The welkin rang with gleeful noise from early eve to late night, practically all homes being left to guard themselves while the folks participated in the revelry of the carnival hours.

Attended by Success.

The first, staged on street, avenue and public park, succeeded in its every action of program beyond the wildest flight of hopeful optimism. Money fairly poured into the coffers of the legion from the many sources of endeavor, the amount subscribed to the Memorial fund during the day, being the largest ever received.

BUSINESS CONDITION IN EAST SATISFACTORY

Attorney Taylor Cummins Tells of Fair Trade and Little Political Interest

After an absence of a month spent in Cleveland, New York, Sidney, O., and Chicago, Mr. and Mrs. Taylor Cummins returned to Twin Falls Tuesday.

General conditions, Mr. Cummins says, appear to be satisfactory to a majority of people. There is very little interest in matters political and very little political discussion. Prices seem to be on the downward trend and the public attitude as a whole appears to regard this as a step in the direction of a retrogression to pre-war conditions and a return to a perfectly natural and normal movement.

HARRISON LOSES HIS BOOZE TRADE

Trades Auto for "Moonshine" and Tells Court in Jones Case He Was Bliked

In probate court Tuesday morning Porter Harrison, a Twin Falls young man who has been more or less under scrutiny of the police and sheriff's departments for some period, gave evidence proving himself interested in the handling of contraband liquor. The testimony is said to have been volunteered in an effort to implicate Oliver Jones in alleged bootlegging.

PLEDGE AID TO CHINA TO GET ON FEET AGAIN

Heads of Banking Groups Comprising Consortium Make Public Accomplishments, Problems and Expectations

NEW YORK.—Heads of banking groups of the United States, Great Britain, France and Japan, which comprise the consortium for China, made public the accomplishments, problems and expectations of the consortium Wednesday in their first public utterances since opening a series of conferences here. They spoke at a luncheon declaring no specific loan to China had yet been considered, owing to the international financial situation, but saying a far reaching program to enable China to "get on its feet" was being outlined.

Sir Charles Addis, chairman of the British group, deploring the small railway mileage in China, said the consortium hopes soon to be able to complete one or two of the lines in that country, and later to provide for extension of the transportation facilities.

Thomas W. Lamont, of J. P. Morgan & Co., chairman of the consortium, spoke of it as a force to weld the five nations together in a warm friendship that will bolster China economically and bring her scattered peoples together in a great nation.

Hope that the consortium will function greatly toward establishing permanent peace and harmony in the far east was expressed by Rellora Ichimura, of the Japanese delegation.

The carrying out of its program he characterized as a "supreme test as to whether we can cooperate wholeheartedly—to play the game with our cards on the table—to put into practice the doctrine that the well being of part of humanity is to the good of all."

GERMAN GIVEN PARDON PREFERS IMPRISONMENT

Deportation Warrant Makes Leavenworth Look Good to Von Schack

Associated Press. WASHINGTON.—Eckhardt Von Schack, former German vice consul at San Francisco, has been granted a parole from Leavenworth penitentiary, but is adverse to leaving the prison because a deportation warrant awaits him. Attorney General Palmer said Wednesday in explaining why Von Schack had not left the prison, Franz Dopp, former German consul general at San Francisco, indicted and convicted with Von Schack, left Leavenworth on parole several weeks ago.

The parole for the two Germans were waived, Mr. Palmer said, after the Swiss minister to the United States had agreed to stand as "first friend" to them and be responsible for their acts.

Dopp, the attorney general added, had expressed a desire to return to Germany, but Von Schack wished to stay in America and for that reason apparently prefers to remain in prison to escape the deportation proceedings.

SWEDES ADOPT ECONOMY King and Queen Take Lead in Move to Improve Value of Currency

Associated Press. CHRISTIANIA.—In order to improve the international value of the Swedish currency an economy movement has been inaugurated here. A league was formed whose members, including the king and queen, have agreed for one year to live on reported goods and cancel unnecessary traveling.

GYPSIES HOLD PALM IN PICTURESQUE ROMANIA

Colorful Caravans Rove Country Coaxing Pennies from Affluence

Associated Press.

BUCHAREST.—Of the dozens of different peoples in Rumania, none is more picturesque than the Gypsies. Like their prototype in America, they rove the country in great caravans, earning stray pennies by begging, dancing, playing and telling fortunes. In the cities they sometimes earn their "bread and onions" by shining shoes, peddling lemonade or acting as porters.

The high cost of living which has drawn tight the strings of every purse has brought double hardships to these wanderers. No matter how well they play their violins, no matter what good fortune they see in the stars for those about them, they find it hard to coax pennies from the empty pockets of the war-oppressed Rumanian people. Many of them have starved to death.

Among the Gypsy women and girls are to be found some striking types of beauty. Dark of complexion and hair, with shining, long-lashed black eyes, they are a delight to look upon. They have not yet acquired the art of using cosmetics as their sisters in the United States do.

Superstition plays a large part in the life of the Gypsy. One of the many ancient customs which still survive among the women is to beat themselves frightfully if one of their children dies. They believe that the death has been caused by an evil spirit having entered the body of child as well as of mother and that if they exorcise themselves the spirit will depart.

One Rumanian gypsy woman whom an American relief worker visited was apparently about to die from pneumonia. The doctor found numerous bruises all over her chest, and these had seriously aggravated her condition. On questioning her he learned that her bruises were due to a beating she had given herself because one of her eight children had died.

Costly Rainy Day. It has been calculated that the cost of a rainy day in New York city is something like \$100,000.

INDEPENDENT CANDIDATE FOR STATE REPRESENTATIVE MAKES STATEMENT

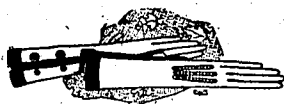

In soliciting your support I want to give you a brief account of myself. I have been a resident of Buhl for the last ten years, coming here from North Yakima where I grew up. About six years ago I went into the electric business for myself, meeting with very good success up to the time that I sold my business and went into the army, during which time my wife and two children remained at Buhl. After my return I re-established my business, and joined the Clark 6, for part of the American Legion, of which organization I was later made post commander. I believe sincerely in our program of justice for all and special privilege to none, and if elected, will do my utmost to see them carried out.

COX IS ALARMED OVER NEW 'PLOT'

Charges Conspiracy to Disregard 'League Referendum' Decision

VANWERT, O. (AP)—A new line of attack upon former President Taft's position on the league of nations was made here today by Governor Cox in opening a three days campaign in his home state.

Referring to Judge Taft's statement even an event of Governor Cox's election there would remain enough republican senators to defeat the treaty, the democratic presidential candidate here today declared this indicated a plan to disregard a decision in the "league referendum."

Charges Conspiracy.
"This can mean one thing," said Governor Cox, "that when I am elected on a straightforward platform favoring the league it is the purpose of the brazen conspirators in the senate to test the mandate of the people with contempt and turn their backs on the expressed will of the electorate. This, in the first place, is unthinkable, and in the second place, will not be permitted, for after all this is a democracy and the will of the people is triumphant."

"On the other hand," the governor continued, "if the candidate of the senatorial oligarchy were to be elected because he favors staying out of the league and then after his assumption of office, were to turn about face and propose entering the league, what about the popular mandate and the referendum itself? What would Borah and Johnson say, and what would the voters of the country think about such repudiation of their will? The time is now for us to remind ourselves and think seriously of the fact that the government of the United States is a government by the people. Senator Harding may be willing to trap the league, but the American people are not ready to have their government scuttled by a deceitful hand of political free booters."

Relates Position.
Governor Cox reiterated that he favored "going into the league of nations with the Hitchcock reservations or any other that is offered in good faith to further clarify or reassure and that do not have the purpose of destruction."

FIFTEEN YEARS AGO IN TWIN FALLS

Taken at random from The News this date in year 1905

The seats for the new temporary school buildings arrived today and are now being installed. They will all be in place and ready for the opening of the schools on Monday, October 16. Up to date 406 pupils have been enrolled and it is expected that not less than 600 pupils will be in attendance before the end of the present month.

George P. Sprague of Twin Falls and Miss Anna R. Robertson of Amar, Va., were married in the latter city on Oct. 11. They will reside at the Hotel Perrine until their own home is completed.

John E. Hayes, the well known civil engineer, has announced his intention of returning to Twin Falls shortly to remain. Mr. Hayes has been in Durley since early spring.

Ira E. Barber, the well known Boise attorney, visited in Twin Falls on Wednesday with his brother O. H. Barber, editor of the Times. It was Mr. Barber's first visit to this city and he was antiphonal with his progress.

Mrs. Truman O. Boyd returned on Monday from the east where she had visited for several weeks. She was delighted to get home, after all Mrs. Boyd, there is no place like Twin Falls.

At a meeting of the Twin Falls Chamber of Commerce which was held in the old school house on Saturday afternoon, Oct. 7, the following officers were elected: President, H. F. West; vice president, A. D. McKinlay; treasurer, Frank D. Kinnell; board of directors, H. T. West, A. D. McKinlay, F. D. Kinnell, J. H. Apple, J. H. Day, Robert Brown, James McMullen, P. H. Smith, J. W. Voorhees. Aside from the election of officers no business was transacted. In an informal way the members discussed the work of the association. An initiation fee of \$1 is required of each member and the annual dues are the same amount payable in advance.

Today's Markets

New York Stock Market.
NEW YORK, (AP)—Traders shifted to the long account in the stock market today, basing their more hopeful views on the absence of threatened money disturbances. Sales approximated 500,000 shares.
Steel, equipments, oils, coppers and tobacco were the prominent features at the dull and irregular opening of today's stock market, this representing the weaker shares. Republic Steel, Baldwin Locomotive, Mexican Petroleum, American Smelting, Goodrich and Tobacco Products made gains extending to 1 1/2 points. Nickel Plate one of yesterday's strongest features, lost one point and St. Paul reacted a large fraction. Exchange, London and Continental Europe, eased slightly.
Best prices of the season were made

by many stocks in the more active department of the final hour. Vails, equipments, motors and junior rails were the prominent issues. The closing was strong.

Liberty Bonds.
NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$92.30; first 4's \$89.30; second 4's \$89.10; first 4 1/4's \$89.50; second 4 1/4's \$89.14; third 4 1/4's \$89.52; fourth 4 1/4's \$89.18; Victory 3 3/4's \$90; Victory 4 3/4's \$90.02.

Grain and Provisions.
CHICAGO, (AP)—General buying, mostly on railroad accounts, traced the wheat market upward today after some depression at the opening. Initial declines were ascribed to bearish news taken of the government report on farm reserves. On the other hand, signs indicated that a fair amount of export business was in progress. Opening quotations, which varied from unchanged figures to 1 3/4c lower, with December \$2.08 1/2 to \$2.09 1/2 and March \$2.04 1/2 to \$2.05, were followed by a moderate setback all around, and then by an ascent to well above yesterday's finish.

Later the market weakened decidedly as a result of heavy selling attributed to a prominent cash trader, who was said to have been long. The close was nervous, 1 1/2 to 1 3/4c net lower, with December \$2.07 3/4 to \$2.08 1/2 and March \$2.03 1/2 to \$2.04 1/2.

It was even there was persistent buying by strong commission houses. After opening unchanged to 1/2c lower, with December \$2.12 to \$2.13 1/2, the market moved slightly gain.

Aggressive selling appeared to be for a big New York trader subsequently to a decline. The close was unchanged to 1/2c lower, with December \$2.12 to \$2.13 1/2, the market moved slightly gain.

Provisions were strengthened by forecasts that the warehouse statement December 1 would show a big decrease in stocks of lard and meats.

Cash Quotations.

BANQUET WILL MARK COMING STOCK SALES

Shorthorn Cattle Men Will Be Dined by Breeders Con- ducting Auctions

The Shorthorn cattle sales season for the district opens next Tuesday with a big auction of fall-blooded stock at the county fair grounds in Filer. The sale will cover a two-day period with offerings of stock by J. E. Haydon, of Coeur d'Alene; N. H. Leland, of Wendell; and Rega Brothers, of Kimberly. On October 22 McMaster & Son will conduct an auction to Shorthorns at the McMaster sales pavilion on Second street west Twin Falls.

Consistent with the scheme evolved last year a banquet and acquaintance meeting for Shorthorn cattle breeders and those interested in this line of livestock, will be held in the Rega Brothers dining room. Hosts on this occasion will be those who are holding sales.

The program following the banquet will be in charge of W. W. Lambdin, as toastmaster. Among the chief speakers will be Frank D. Tomson, of Lincoln, Neb., representing a national livestock association; A. E. Lawson, of Spokane; E. F. Bingham, animal industry of the state university; Harry C. Cranke of Nez Perce; A. J. Miller, Caldwell; J. M. Markel, secretary and manager of the county fair; A. J. O'Reilly, club leader connected with the County Farm bureau, and Earl O. Walters, auctioneer of Filer.

GRAND CIRCUIT RACES

LEXINGTON, Ky. (AP)—The Ashland stake for 2-year trotters, feature of yesterday's Grand Circuit program was won by Bonnie Dell, driven by its owner, Thomas G. Hinds, after four stiff heats in which three different trotters had made records of 2:05 or better. The first heat went to Bonnie Dell in 2:04 1/4, the second to Bonnie Dell in 2:04 1/4 and Arden McKimney beat King White in a tight finish in 2:05. In the fourth heat Bonnie Dell managed to out-finish Arden McKimney in 2:08 1/4.

The 2:13 pace was hardly more than a procession with Crystal Knight easily best. Best time, 2:07 1/4. The 2:08 pace was a better race. Jay Brook took the opening heat in 2:03 1/4 from Captain Mack but the former California pacer was best in the next two.

In place of the two year old trot which had but two to go, a 2:07 trot was given with four starters. This race went to Harvest Tide, but not until after three heats, Urban Brooke winning the second heat. Best time, 2:07 1/2.

FRIENDS ARE SHOCKED OVER SCHWAB'S DEATH

Former Twin Falls Man Murdered and Body Thrown into Dry Well

Twin Falls residents who were acquainted with the family were severely shocked when news reached this place recently of the violent death of Martin Schwab, a former resident of this place. Mr. Schwab was murdered at Flagstaff last spring, a boy making discovery of the body in a dry well near that place a few days since.

Martin Schwab was a member of the L. D. S. faith, and was a citizen of Twin Falls about eight years ago. While here he carried on a business in thoroughbred stock horses and was well known. He was closely identified with the affairs of the L. D. S. church while here, being one of the council of the church during the presidency of J. G. Kirkman. Mr. Schwab owned a tract of land comprising about ten acres on Blue Lake boulevard but the property was traded for stock in a Missouri mine. The latter property was sold and the proceeds were used to recover his former holdings here he lost in court. Soon after that he left Twin Falls.

The murder victim, after leaving here, was engaged as a traveling salesman by a cash register company, and was thus employed when he met death. The body, recovered from the well, showed bullet holes, suggesting that Schwab came to his death by shooting. Discovery of the body down the well followed immediately after the finding of a typewriter partly buried in the earth near the well, a boy herding cattle being the discoverer. Schwab disappeared mysteriously on April 16, this year, shortly after being assigned to the Arizona territory by his company.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is too rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog, and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jall Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is

made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jall Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and relieves in every home, because nobody can make a mistake by having a good kidney flushing any time—adv.

"THE DEVIL'S PASS KEY"

Do you know what the devil's passkey is? Can it be bought? Who uses it? You'll know when you see this amazing photodrama of an American husband and wife in Paris—one day of the very crest of the social wave, the next day the storm center of the biggest scandal Paris ever knew. A picture so real, so human, so crowded with suspense that you'll remember it all your days. Now playing. Don't miss it.

DON'T "THROW THE GAME"

The nation was shocked a few days ago by revelations of wholesale corruption in what had been one of its most highly respected baseball teams. That some of the most famous players on the diamond have accepted money to "throw the game" was a startling revelation not alone of man's inherent weakness, but of the tremendous temptations that he is called upon to withstand.

They are all about us, these temptations—petty and powerful, subtle and open, sly and arrogant. Not only baseball players are called upon to face them. Every day, everywhere, they are whispering into men's minds the poisoned lure to "throw the game."

Discontent, Misunderstanding, Disappointment, Jealousy, Selfishness, Greed—these are the temptations that pierce their cancer growth into the souls of men in high places and low. These are the temptations that urge a man, in a moment of anger, of chagrin, or despair, or covetousness, to "throw the game."

A sales clerk who plied by a repentant, rebuffs a customer and turns a friend of the store into an enemy, "throws the game."

The mild hand who, repentful of a grievance, real or fancied, stands by while the output of hours of toil is destroyed, "throws the game."

The men everywhere, anytime, who knock the efforts of his colleagues, the purpose of his employer, the integrity of their establishment, like Eddie O'Leary, "throws the game."

The mad who speaks of his family with criticism and disparagement, instead of with respect and pride, "throws the game."

The man who falls always to do his best, to keep faith with all that is true and noble, to play his part with heart and soul, that man "throws the game."

The man who throws the game cheats not only his employer. He cheats his associates, he cheats the public, and above all, he cheats himself. He sells his immortal soul for a mundane, fleeting price.

WORDS OF PRINCIPLE

President Wilson seems to have abandoned his abard position of offering, in effect, to bet a thousand voters, more or less, in Missouri that Senator Spencer would not be elected.

It seems to have given confidence, in this instance at least, to the advice of Senator Reed, and when driven into an uncomfortable corner, has made public what is purported to be an "official version" of his address at the eighth plenary session at the peace conference in which, Senator Spencer and others charged, he had promised Rumania and Serbia that "if any nation ever invaded their territory he would send the American army across the seas to defend their boundary lines."

There is no good reason why the President should have elected to say having uttered a statement to this effect, since, something like thirteen months ago he admitted to Senator Knox that in case of the invasion of territory of a member of the league, the United States would be under the MOST COMPELLING MORAL OBLIGATION to send troops to its defense if such course were deemed desirable by the administration of the league. If this were not the case, then it is plain to be seen that the covenant of the league is not worth the paper it is written on so far as the guarantee as to territorial integrity and political independence is concerned.

However, the President elected to brand as false the statement to this effect attributed to him, and in support of his denial he caused to be contrasted with the quotation which he denies another quotation which he says is to no side to the effect that so far as Rumania and Serbia were concerned there existed only expectation on their part that American military assistance would be lent to defend their territories against invasion.

The President's case might have been decided in his favor before the bar of public opinion and without recourse to his proposal for a referendum in Missouri, if the "official version" had been confined to this one except. But it was not, and a little farther along we find this statement:

"And back of that line this fundamental important fact that the decisions are made, and the allied and associated powers guarantee to maintain them."

therefore, we must not close our eyes to the fact that in the last analysis the military and naval strength of the great powers will be the final guarantee of the peace of the world.

That is the statement which President Wilson endorses as his own words uttered at the peace conference. And this is the statement attributed to him on that occasion, as quoted by Senator Spencer, which the President declares is false.

"You must not forget that it is force that is the final guarantee of the peace of the world! If the world is again troubled the United States will stand to this side of the ocean their army and their navy." If the President did not actually say what is attributed to him, his own admissions make it plain that he implied it, and anyone who has perused even casually the text of the covenant of the league of nations will understand that the course outlined in the statement attributed to the President is the only course that could, make of the league what it is represented by its proponents to be.

WEST IS FOR HARDING

Senator Arthur Capper of Kansas, former governor and a newspaper publisher of wide experience and large influence, expresses the opinion that a sweeping Republican victory will be won in the entire west, including what are commonly called the progressive states.

Senator Capper, in a recent address in Columbus, O., declared "Kansas will return a plurality of at least 100,000, with the probability that it will reach 150,000, thus doubling the normal Republican plurality of the state."

Mr. Capper also includes Missouri among the states that will cast their electoral votes for Senator Harding. Cox's tour of the west has had votes for Harding by the thousands.

There are no indications that Governor Cox will be able to influence any considerable number of the voters who have been supporters of the policies of the late President Roosevelt. The "progressive" ideas of the two men are too different for friends of the late president to rally to the support of the Democratic candidate.

Test votes taken in various sections of the country show that the voters have no confidence that Governor Cox will be able to make good his promises for progressive administration—at least such form of progressiveness as would be acceptable to Roosevelt Republicans.

Senator Capper knows the sentiment of the voters in the great middle west probably as does no other man, and his judgment is such that Republicans everywhere may have confidence that he is not making an idle boast. The great middle west will vote for Harding and his victory; in that section will make his election certain.

SPENCER DELVES DEEPER INTO WILSON'S PLEDGE

Declares President's Reported Statement in Accord with Article Ten

BROOKFIELD, Mo., (AP)—That he believes President Wilson promised military assistance from this country for Rumania and Serbia, the new charge was asserted by Senator Selden P. Spencer, of Missouri, in an address here Thursday. The alleged statement which he brought about the controversy between the president and Senator Spencer, however, is not the most important, the senator declared in his address.

"The far more important question is what does the president really mean by the obligation which he demands the allied and the people of the United States shall assume for this country in undertaking to preserve against external aggression the territorial integrity of all the members of the league. Rumania is a member of the league, its boundary line or its territorial integrity, which is the same thing, is invaded by external aggression, then is the United States bound by Article 10 of the league, under any obligation to preserve that boundary line?"

"If there is such an obligation," the senator added, "how can we fulfill it except with our army and navy?" "If there is no obligation of the United States, what does Article 10 of the league mean?"

"I believe the president spoke as he is reported to have spoken," Senator Spencer declared, "every country of the transaction of the peace accords supports the stenographic report as it is alleged to have been written."

FARMERS' CONFERENCE CHARGES RUIN THREAT TO FEDERAL RESERVE

General Bankruptcy is Inevitable Unless Some Immediate Remedy is Found to Relieve Present Price Situation as it Affects Agricultural Industry, Says Report Adopted without Dissenting Vote at Meeting at National Capital

WASHINGTON, D. C., (AP)—"General bankruptcy and ruin are inevitable unless some immediate remedy is found to relieve the present price situation as it affects the farmer," says a report submitted to the agricultural conference here Wednesday by general committee appointed to study the situation. The report was adopted by the conference without a dissenting vote.

The committee blames the federal reserve system for present prices, charging that it "has arbitrarily withheld from assisting the banking industry of this country to maintain a level of prices that at least meet the cost of production."

Declaring that the condition of the mind of the farm population is "unfavorable," the committee says "this state of mind can only be changed by a frank and fair attitude on the part of those in authority, the test of which can be only their acts."

Charges Policy Wrong.

The committee says "It is wrong as a matter of policy artificially to press down prices of commodities and it is particularly wrong to begin with the rate of discount, which is a price of mind can only be changed by a frank and fair attitude on the part of those in authority, the test of which can be only their acts."

Restriction of credits.

Holding the rate of discount on farm products.

Discontinuance of the war finance corporation.

The statements given out by the secretary of treasury, the governor of federal reserve board and the federal reserve banks have been construed to mean that the committee is particularly the price of farm products, were too high and that a pre-war basis, or an approximation of a pre-war basis of prices must be reached within a short time. The consequent effect of these utterances upon the member banks of the federal reserve system and the banking industry of the country generally was to cause them to withhold accommodations because of the fear that the country taking would necessarily decline.

Attacks Bond Credits.

"The action of the federal reserve board in counting the bonds held by member banks as part of the commercial credit of the banks holding these bonds, thereby decreasing the power of such banks to extend the needed credits to the agricultural interests in their respective communities."

"Your committee feels that the officials of the treasury department and the federal reserve system have exceeded their authority in so far as they have announced opinion as to prices of farm products which have resulted in disastrous price declines."

The committee further reports that it is of the opinion "that the functions of these institutions as expressed in the law are to discharge the duties imposed on them by the law and to hold the law, regardless of what effect it may or may not have upon the markets of the country and price of commodities. It is believed that the rate of discount should be determined first by the character of the paper offered for discount and, secondly, by the aggregate earnings of the federal reserve system and that the rate should not be used as a weapon to deflate prices or discourage proper loans and commercial transactions."

For Suppression of Opinion.

"We therefore insist that the federal reserve officers and officers of the treasury department shall discontinue and desist from issuing statements of their opinion as to prices and their attitude toward the trend of commercial events."

The committee recommends that the rate of discount for the marketing of the agricultural products be made as low as justified by a sound business and that the rate on a fixed or certain basis of paper shall be uniform and that the rate be not changed during the period of crop marketing. If the reserve officers will take such action at once, the report says, "with

particular reference to a more liberal policy in extending credits for the encouragement of exports, we believe that the distress and unrest among farmers of the country will be greatly relieved."

"Prices of commodities that farmers receive will be determined by the law of supply and demand, if artificial and unfair subsidies and statements are withheld," the report continues. "The question for the officials (treasury and federal reserve board) to determine is what is the nature and degree of discount is justifiable under the law and to leave the question of the marketing and prices to the natural laws of commerce."

CORN GOES UP WHEAT DOWN IN CROP FORECAST

Department of Agriculture Predicts Record Breaking Harvest of Corn with Decline in Wheat Prospects

WASHINGTON, (AP)—A corn crop of 3,216,000,000 bushels, or seventy-nine million bushels greater than the record crop of 1912 was forecast Friday by the department of agriculture from a condition of 80.1 on October 1. There was a further falling off, however, in the total wheat crop forecast, production being placed at 750,649,000 bushels as compared with a forecast of 770,000,000 bushels a week ago. The wheat crop was forecast at 237,000,000 bushels as compared with 218,000,000 last month. The condition of the spring wheat and all wheat crops was not given in the department's announcement.

The tobacco crop also showed a falling off, total production being estimated at 1,472,268,000 pounds as against a forecast of 1,553,000,000 pounds a month ago. The crop still remains the largest in history despite this reduction of 75,000,000 pounds in the forecast.

Production of oats was placed at 1,414,000,000 bushels, an increase of 2,250,000 bushels over the month. The white potato production was forecast at 141,986,000 bushels, an increase of 2,553,000 bushels since September 1.

WORLD HARVEST SHOWS INCREASE

Farm Crops Outside of United States Show Higher Yields in All Divisions

WASHINGTON, D. C., (AP)—Production figures for agricultural crops of the world outside of the United States, assembled by the International Institute of Agriculture at Rome and given out Friday by the United States department of agriculture, show greatly increased yields for 1920 in almost every country of the northern hemisphere, including Bulgaria, Spain, British India, Finland, Sweden, Switzerland, Canada, Australia, Algeria, Egypt and Tunis. The institute's reports is 1,045,670,000 bushels or 10.1 per cent of average production for the same countries, or 110.4 per cent of 1919 production.

Area now planted for the 1920-21 wheat crop in the northern hemisphere in Argentina, Australia and South Africa is 28,344,000 acres; which is 12.4 per cent of the crop area for last year and 102.1 per cent of a five-year average.

COOLED FREIGHT SERVICE STARTS

Ball Line from District Needed to Get Benefit of Refrigerator Ships

The Holland-America Steamship line has established refrigerator freight service between the coast ports and Rotterdam. In the past week the first ship of this company, the Remdijk, sailed from Seattle with a carload of American apples for Europe.

This information is supplied by the Earl Fruit Company of the Northwest, which company leased the entire refrigerator space of the great freighter for apples.

This ship, with all others in the freight service of the Holland-America line, will pass through the Panama canal on the trip eastward, and will discharge none of its cargo until Rotterdam is reached. The vessel has the distinction of being the first refrigerator vessel to carry a cargo of apples from Seattle to Europe, the company is said to have a large number of passenger ships in course of construction at Holland and British shipyards. They will range in tonnage from 12,000 to 16,000.

"The establishing of this refrigerator ship service from the Pacific coast to Europe means something of importance to Twin Falls, especially if the south rail line is constructed to Wells," said L. M. Campbell, local manager of the Earl Fruit company, speaking in connection with the sailing of the Remdijk from Seattle. Mr. Campbell says the new service overseas will attract shipments of apples from this place at a lower rate of tariff and with a consequent saving to the producer in this district. He stated that the railroad must ultimately be constructed to Wells if the service to which this section of the Idaho mountain region is entitled is to be provided. Mr. Campbell called special attention to the H.-A. Steamship line's innovation in service as an incentive to the people of the district to exert more effort toward getting the rail line constructed from Rogerson to Wells. He said, as others have heretofore before in this connection, that a large measure of the prosperity of the district and a large proportion of its future development depends upon the construction of a rail outlet to the south to provide transcontinental connections for this section.

SEEPAGE WATER CAUSE OF ACTION IN COURT

C. B. Schwinn Claims Land Was Sold by Hennessey by Misrepresentation

Torval Hennessey and Martha Hennessey, and others, are made defendants in a suit instituted today in the district court by John W. Graham, attorney for C. B. Schwinn. The latter claims misrepresentation in the sale of land to him and asks judgment for damages and relief of a note for \$1000. Plaintiff alleges that the land was purchased with the understanding that it was not subject to seepage of water logging. These conditions he alleges exist.

PUBLIC HEALTH NURSE WIDENS WORK GREATLY

With Opening of School Year Miss McGrail Assumes Increased Duties

With the beginning of the school year the work of Miss Rosetta McGrail, public health nurse for the Twin Falls chapter American Red Cross, has been materially increased. The following report will show.

Total number of cases under her care for Sept. 24. Many of these were infants or very young children. Three days were given over to a "Child's Welfare Booth" at the County Fair. This booth was one of the best on the grounds, as the crowds who visited it daily attested. The help given there to young or inexperienced mothers, and many mothers who had practically raised their families, was invaluable.

Two interesting talks were given before Women's clubs, subject, "The Infective Child."

The work among the school children started with the current year and visits made at Filer, Hansen, Union, Blackfoot, and Arctian. Miss McGrail wishes the general public to know who will be glad to confer with any parent who seeks help or advice with children, and she will see them at the school with mother helpfully, which time will be announced by the teacher or through plead that all may know, or by appointment otherwise.

Her work this week will take her to the following schools: Kimberly, Curry, Filer, Berger, Haggard, Holter, American and Rogerson, finishing the week as usual by attending to city calls and office work in Twin Falls.

MURTAUGH IRRIGATION HEARING IS RESUMED

Barry Dibble of Federal Service, Comes to Aid Commissioners

With Barry Dibble, federal reclamation service engineer at Burley attending hearing of arguments, the petition of the Murtaugh Irrigation district were resumed this afternoon before the board of county commissioners. The hearing was postponed last Wednesday afternoon pending the arrival of the federal official.

In addition to bringing Mr. Dibble to submit expert opinion concerning the application of the Murtaugh district people for water, the commissioners attempted to get W. G. Swendsen, state irrigation commissioner, to come from Boise to attend the hearing. Mr. Swendsen wired yesterday that he was indisposed and unable to undertake the trip. His status, however, that he would gladly come later if his presence and any information he possesses is required.

The petition for the formation of an irrigation district for the purpose of watering a tract of 40,000 acres of sagebrush land contiguous to Murtaugh, water to be taken from American Falls dam.

VOCATIONAL TRAINING LEADERS IN CONFERENCE

WASHINGTON, (AP)—The teaching of new occupations to civilians incited for carrying on their former lines of work as well as the vocational rehabilitation of disabled soldiers, sailors and marines was to be discussed at a three-day conference, which opened here today between members of the federal board for vocational education and representatives of state boards in charge of vocational training.

A similar conference, according to the federal board, will be held early in November in either Denver or Salt Lake City for the convenience of the western states.

Swamped with Orders

Our Announcement Last Week That We Would Take Orders for Future Delivery Simply Swamped Us. We will be unable to take any more orders under this plan, and urge you to buy your winter's coal now. It will only be a short time when cold weather is here, and deliveries of coal from the mines will be very uncertain. There is nothing to be gained by putting it off. In all the time that we have been in business we have never seen prices drop at the mines when the busy season is here. We can see no chance for a reduction before spring. The best plan is to play safe and buy now. We sell the famous Aberdeen Coal. It is the best that money can buy. Our large business is the best testimony we can offer.
