

RAILWAY MUST BE COMPLETED OCTOBER, 1924

Nevada Bonus Bill Places Time Limit for the Line Construction

Copy of the act now before the Nevada legislature, authorizing the board of county commissioners of Elko county, Nevada, to raise by taxation the sum of \$50,000 as a bonus to aid in the construction and equipment of a railroad from Rogerson, Idaho, to Wells, Nevada, has just received in Twin Falls Chamber of Commerce.

The preamble to the bill explanation is made that the Idaho Central Railroad company, an Idaho corporation, proposes to construct a standard gauge railroad from Rogerson, Twin Falls county, to Wells, Elko county, Nevada, and that construction and operation of such a rail line will be of general public benefit to the people of the state of Nevada, and especially those of Elko county.

It is finally passed the Elko county officials will be vested with authority to bond the county in the amount of \$50,000 for the purpose of aiding the Rogerson-Wells railroad fund. Further explanation is made that whenever, on or before October 1, 1924, the said Idaho Central Railroad company or any other railroad corporation shall have completed conformably to the accepted practice in railroad engineering, the construction of the line named, standard gauge, having steel rails of not less than a weight of 77 pounds to the running foot, and shall have equipped the railroad ready for operation with at least two steam freight engines, two steam passenger engines, six passenger coaches, two baggage cars and 25 freight cars, all standard make and in good condition, then the board of county commissioners shall cause the sum of \$50,000 to be paid to the railroad company.

EVANS' QUINTET DEFEATS BOISE AT BASKETBALL

On Foreign Floor Twin Falls Out-Games Capitals in Governor's Tilt

The first of the Lower Snake series played Friday night on the Boise floor, ended in a 20 to 19 victory for Evans. White was taken out the regular quintet playing the entire game. Coach Evans in a telephone message last night said that his team was proud that they won the game for the local team. Basket shooting was evenly distributed.

PRISONER RICHARDSON

William Eugene Richardson, who was held in custody at Boise on suspicion of being implicated in a robbery committed at the Buhl Department store Sunday night, was Monday afternoon released from custody.

CANNOT SERVE ON JURY AND GIVES THE REASON

Hansen Resident Embarrassed Victim of County Tax Roll Registration

Use of initials instead of a full name for recording purposes sometimes leads to considerable confusion, and oftentimes to embarrassment. This fact gets ample support in an instance recently coming to the notice of the Twin Falls district court officials.

The situation to which allusion is made in the foregoing paragraph arose when the county commissioners submitted a list of names of persons eligible for jury service. This list, an alphabetical one, was compiled from the tax books of the county, and it contained the name of a person who, for the purpose of this exemplification, shall be known as G. W. Johnson. That is not the name but it will do in this case.

DUPLICATION OF NAMES RESULTS IN BANK SUIT

Robert T. Lewis, Contractor, Said to Have Profited at Hotel Man's Expense

Not similarity but actual duplication of names forms the basis of a suit filed in the district court by Robert T. Lewis, contractor, against the Twin Falls Bank and Trust company. The defendant is Robert T. Lewis, manager of the Hotel Pomeroy, who is a partner in the bank, which has a complaint against the bank, which is a charge of \$700 in the account of the hotelier, at the financial institution. The bank, in turn, has a complaint against Robert T. Lewis, a contractor, who is said to be over and above in his personal account of the bank the amount of the hotel man's share. Hence the court action.

NO VERDICT REACHED; JURY IS DISCHARGED

In Elite Damage Suit Against City Jurors are Unable to Agree

After deliberating since Tuesday evening the jury huddled in the grand jury room in the city hall, but were unable to reach a verdict in the case of the city against the City of Twin Falls, at 11 o'clock Monday afternoon the court that no verdict was reached, and the jury was discharged. The case will probably be tried again at this term of court.

Church is Filled for Sunday Night Garners' Recital

Audience Crowds Presbyterian Auditorium to Hear Colored Singers

The Garner Jubilee Singers Sunday night entertained at the Presbyterian church in the regular service. The company, which is appearing in concert, gave five ensemble numbers and two solos. A member of the company accompanied the piano organ. The concert drew a capacity throng to the church, extra chairs being needed to accommodate the crowd.

WINSKEY PLANT AT ROCK CREEK

Authorities Find 'Gold' Distillery Near Village—Operators are Missing

A large copper urn and a box of corks on exhibition at the office of the sheriff, but mute testimony to illicit whisky making operations conducted recently in the neighborhood of Rock Creek village. Attachments of the sheriff's office with members of the police force made capture of the material Thursday.

That some of the operators of the private still were taken with the equipment is probably due to the fact that a still was erected in the neighborhood of Rock Creek village when the officers investigated another plant of a similar nature some days ago. Both plants had been abandoned when the officers made their call.

Thursday's foray was made, it is said, about a week later, for when it was made the plant was cold and most of the vital parts of the distilling machinery had been suggested away. Two boxes of corks and two or three empty barrels, formerly used to contain mash for distilling purposes, were all that had been left on the premises.

CHARGES NON-PARTISAN MISUSE FUNDS OF BANK

Former Secretary to Townley Reveals Activities of League Leaders

BISMARCK, N. D., Feb. 9.—J. W. Brinton, former private secretary of A. J. Townley, president of the Nonpartisan league, testifying Tuesday at the North Dakota house committee's investigation of the league leaders, declared that Townley, William Lemke and E. B. Wood, comprising in 1917 the executive committee of the league, were not in the bank of North Dakota at Fargo, N. D., when Brinton said that after a conference held in St. Paul in 1917 he learned the league leaders' names and controlled by the Scandinavian-American bank.

Brinton charged that funds of the Bank of North Dakota were transferred to the Scandinavian-American bank at Fargo to be used for "political purposes." Attorney Sullivan, for the house committee, questioned Brinton as to whether there was misappropriation of funds and embezzlement in the Bank of North Dakota. Sullivan asked Lemke if he was in the bank of North Dakota. Brinton replied, "The funds were taken from the Bank of North Dakota and taken to the private bank where the misappropriation took place there."

Open House is Held in New Club Rooms with Dinner Served by Ladies

Local Moose lodge Thursday night held open house for members and their friends with the Moose ladies serving dinner. The affair proved throughout one of the most pleasing social enterprises of the lodge year and was well attended.

The Moose recently took over lodge and club quarters on the third floor of the McCormick building, the place being redecorated and fitted in a most pleasing, artistic and utility manner. The lodgroom in the rear of the suite has been fitted in an exceptionally comfortable and attractive manner with a most illuminating system of electric lighting into the entire new scheme of things. Five rooms in the front part of the floor have been well arranged and furnished for all social purposes.

AGRICULTURAL EXPERTS KWANIS CLUB'S GUESTS

Seekers after Improvement in Farming Methods Explain Mission Here

Members of the Kwanis club, at their regular weekly meeting and lunch at the Rogerson Monday, heard S. B. Wick of Fort Collins, Colo., in charge of a party of agricultural experts for the department of agriculture, explain briefly the purpose of their mission here to conduct an inquiry looking toward determination of most advantageous and profitable methods of farming. Mr. Nickols and his associate, H. V. Brothers, were guests of the club.

Attention of the members was called by Secretary N. S. Wight to an article written by J. R. Sprague, a brother of George E. Sprague of this city, and published in the program of the Saturday Evening Post, in which economic conditions in Twin Falls were progressive views of Twin Falls were outlined as set forth in terms of high praise.

TWIN FALLS LEGION QUINSET SCORES WINNING BASKET ON FOUL AFTER WHISTLE

Despite Unhappy Adverse Referencing in the First Half the Twin Falls Legion Scored a Winning Basket on a Foul After Whistle

The Twin Falls Legion scored a winning basket on a foul after the whistle in the first half of the Twin Falls Legion basketball game Friday night at the Idaho-Liberty leaders of the South Idaho Legion basketball league, thereby going into it with the defeated team for top honors. The score was 22 to 23. The most dramatic of finishes to what proved during the last half the most thrillingly exciting basketball contest staged on the local floor in years, took place with half time being 32-31, just as the timkeeper blew the whistle for the finish. At that moment, however, an Oakley shot, full of the force of the domestic grand slam, struck the basket with a bang from the floor. From "Bib" Kleffner's hands the ball went straight and true above the hoop while the throng, fans and players alike, stood with breath awaiting the result. Over the iron rim above the net the ball hung, as though momentarily suspended as it descended for a short time, then plunged downward through the aperture of the glazed floor, there to remain while the throng surged on the open, cheering itself into ravenous howls.

CHARGE OF MURDER IS DENIED BY ED SLAGLE

Shepherd Accused of Killing G. H. McCollum Ordered Held for Trial

In probate court Monday morning Edward L. Single, accused of the murder of G. H. McCollum, waived preliminary examination, and was bound over to the district court for trial on a charge of murder. Single, on arraignment last week in the probate court, entered denial of guilt to a charge of first degree murder. At Monday's appearance in the lower court about 100 spectators were present. Many of these were friends of the accused, and a slight acquaintance with the accused.

PRISONERS ADMIT THEY STOLE WALL'S PROPERTY

Slipes and Wright Plead Guilty to Yakima County Charge—Others Believed Involved

"Guilty," said Edger Slipes and Clyde Wright when arraigned in probate court Monday morning to answer a charge of petty larceny. The men were arrested Friday evening by Deputy Sheriff H. H. Ormsby on complaint lodged by William Wall. The latter accused the pair of stealing a tire and rim from him. The goods were recovered.

COMMERCIAL BODY ENDORSES GRAHAM

At a general meeting of the board of directors of the Twin Falls Chamber of Commerce the name of John W. Graham was urged as a member of the interstate commerce commission. The name was carried by a vote of 10 to 1 before the administration as a result date, receiving the endorsement of the local chamber of commerce, if it is republican in its place on the board in case of a democratic being required the chamber endorses A. L. Freacher, now member of the state public utilities commission.

COUNTY ASSESSORS AND IN-GETTING CROP DATA

Twenty-One States Have Law Requiring Local Officers to Gather Statistics

The annual collection of basic agricultural statistics, principally the acreage planted to each crop, by county assessing officers under state laws, is now carried on in 21 states and has been of great benefit to the nation. The adoption of this plan resulted from the experience during the war emergency, when states like Kansas, with such laws in operation, were able to obtain definite data regarding county food and feed production in the country. Other states suffered great anxiety, inconvenience, and damage from the lack of such knowledge.

The crop reporting service of the bureau of crop estimates, United States department of agriculture, has given full assistance and encouragement to this movement, because data secured in this manner are of great value in the annual forecasts of the bureau, and permit an annual revision of any biased or erroneous estimates, instead of allowing inaccuracies to accumulate in the annual forecasts during the 12 years intervening between federal censuses. It will also permit the issuance by the bureau of crop estimates, monthly, of county crop estimates of other important products, which would be unsatisfactory without such an annual check.

HONESTY IN JURY SERVICE

Prohibition is sufficiently unpopular in St. Louis to make it difficult to obtain the conviction of a violator of the Volstead law by a jury. After three defendants had been acquitted there in the face of convincing evidence of their guilt the presiding judge a few days ago discharged the entire panel of 100 jurors.

The situation directs attention to the mistaken conception that some men hold in regard to jury service. Though sworn to find a verdict in accordance with the law and the evidence, they feel that they are entitled to consult their personal wishes as to whether the defendant should go free. This feeling becomes predominant when the law which the defendant is accused of violating is unpopular. Ignoring the evidence and acquitting the guilty in such cases is demeriting; it paves the way for similar action in cases involving other laws. The oath taken by the jurors is held lightly, the courts are brought into contempt, and public morals suffer.

SOCIETY

One of the most pleasant and entertaining programs of the current season of the Twentieth Century club was given Tuesday afternoon at the home of Mrs. J. H. Marchesse.

The morning club met at the home of Mrs. L. S. Jones for an all-day session on Thursday. Each lady brought something for the dinner which was served at 12:30. In addition to those who were present, one addition was made to club membership, which is now 24.

Mrs. F. J. Spigel entertained the Ninth Avenue club Wednesday afternoon at the home of Mrs. G. Weaver on Ninth avenue east. The program was in charge of Mrs. Elizabeth Hill.

The Catholic Women's league met in regular session on Thursday afternoon at the home of Mrs. Susan Menulley, president.

Mrs. H. F. Allen entertained the Union of Faith Thursday afternoon at her home on Seventh avenue east. Nineteen members were present and much business was transacted.

SCHOOL BOARD-AWAITS LAW-MAKERS' ACTION ON MATTER OF RELIEF IN FINANCIAL CRISIS

No Definite Move Will Be Taken Locally Toward Meeting Present Unfavorable Situation in Independent District until it is Known what Legislature Can Accomplish in Relief Enactment—Citizens Attend Session at Which Figures on Expense and Resources are Obtained

Until definite action is taken by the representatives of Independent school district, No. 1, now before the legislative session in Boise, the members of the board will mark time on the question of school control the rest of the year. "There is nothing the board can do until action is taken by the legislature either for or against the relief bill now asked for the present financial situation. We expect the legislature will see that it is to the advantage of the state in general to provide a means of financial relief," said W. P. Parish, president of the school board, this morning.

At a regular monthly meeting of the school board, held last night, many schemes were considered, both by the board and laity who attended, seeking a way out of the unfortunate dilemma now confronting the school district. Nothing of a definite tangible nature was evolved, however, and the board is more than ever determined to press its proposal of relief through legislative action. "If the legislature will pass a bill permitting this, and all similar school boards, to issue negotiable notes against 1923 taxes to meet current expenses."

That the situation existing in the local school district is not an isolated one, or partially so, the school district brought out at last night's gathering of the school board and citizens at the high school. Statements were made involving Burley, Payette, Blaine, and other places in similar fix. It was stated that schools in a district near Boise have been closed on account of shortage of funds. It was also stated that the legislature can be made to see the necessity of rushing through an emergency bill to provide relief for the suffering districts.

In his opening general discussion of matters pertaining to the district situation the fact was brought out that the district will require approximately \$225,000 in available funds to carry its budget for the year, when the school year ends. The board, it was further shown, has been at an expense of \$300,000 thus far this season. At the beginning of the school year the outstanding deficiency warrants against the district amounted to \$50,000. Added to this extraordinary weight of expense to be carried by the board has also been compelled to spend approximately \$50,000 in finishing the new intermediate grade or junior high school at the cost of \$250,000 advanced in school bonds. The board decided that the school levies must be boosted to all but the next year in order to fulfill all obligations.

CANAL BOARD APPEALS THROUGH RESOLUTIONS

Reclamation Department to Have Explanation of Payment Deferral Request

At a meeting of the board of directors of the Twin Falls Canal company yesterday afternoon, the following resolutions were adopted in support of recent action taken by the company looking to the deferral of this year's subscription to the American Falls reservoir. A copy of the resolutions will be sent to the federal reclamation department.

Whereas a contract was made and entered into on April 14, 1920, between the United States of America as one party, and the Twin Falls Canal company as another party, under the provisions of the laws of the state of Idaho, as the other party, wherein and whereby the said Twin Falls Canal company contracted to acquire a storage right in the proposed American Falls storage reservoir of the Minidoka project, Idaho; and

Whereas, under the terms of said contract the said Twin Falls Canal company paid the sum of ten thousand (\$10,000) dollars cash and agreed to pay the additional sum of two hundred thousand (\$200,000) dollars in twenty (20) years after the approval of said contract by the director of reclamation of the United States of America; and

Whereas, under the terms of said contract the sum of two hundred thousand (\$200,000) dollars will be received due and owing from the said Twin Falls Canal company on February 14, 1921; and

Whereas, the financial obligations of the said Twin Falls Canal company do not permit of the expenditure of the said sum of two hundred thousand (\$200,000) dollars in accordance with the terms of said contract on February 14, 1921, nor prior to at least one year from said date; and

Whereas, it further appears that the reclamation service has found it advisable for the development of the said American Falls storage reservoir sufficient for immediate work; and

Whereas, the necessity for acquiring storage in the American Falls reservoir by the said Twin Falls Canal company has been established by adequate proof; now

Resolved, That it is the sense of the board of directors of the Twin Falls Canal company that the United States of America defer the payment of two hundred thousand (\$200,000) dollars for a period of one (1) year from February 14, 1921, and that other payments to become due under the terms of the said contract of the said Twin Falls Canal company be extended for an additional period of one (1) year and that the United States government was not to be held liable for the extension, namely: one (1) year, and that the funds of the United States of America applied to the construction of the American Falls storage reservoir, be expended in lieu of the sum that will become due under the terms of said contract on February 14, 1921.

"ROBIN HOOD" PROVES AN OPERATIC DELIGHT

Best of Musical Shows is Presented Before a Capacity Crowd at Laving

No brighter, better or cleaner show of any sort has ever been presented in Twin Falls than the Ralph Dunbar offering of De Koven's "Robin Hood" operatic delight which was given at the Laving theater last night. The comic opera in all its parts was fully equal to the standard established by the old Boston Opera company. The house was filled to its utmost limit.

NEARLY HALF MILLION DOLLARS SPENT FOR DISTRICT HIGHWAYS

Construction of Bitulithic and Gravel Roads, Together with Bridges, Culverts and Earth Grading, Made at Expenditure of \$427,000—Much Material on Hand for 1921-22 Building Program

In its road building program last year the Twin Falls highway district expended approximately \$427,000. This amount takes care of 15 miles of gravel surfaced highways and 15 miles of bitulithic surfaced roads, as well as the construction of concrete culverts, two steel bridges and earth-grading roads.

Those figures will be shown in a report compiled by the district highway engineer, W. L. Johnson, at a meeting of the board held at the home of Mrs. Lizette J. Kunkle, Second avenue east. After a short business session, the afternoon was spent with music, fancy work and conversation. Daily refreshments were served. The home was beautifully decorated in white and lavender. There were 30 present, most of whom were members of the club.

The district has laid plans for building 12 miles of gravel surfaced roads and 10 miles of highway this year. Of this total 10 miles will be on the Idaho Pacific road and 20 on the Sawtooth park road. The gravel road cost will be \$100,000. The bitulithic road cost will be \$100,000. The gravel road cost will be \$100,000. The bitulithic road cost will be \$100,000.

Of the work done last year there are 12 miles of gravel surfaced roads and 10 miles of highway. The gravel road cost will be \$100,000. The bitulithic road cost will be \$100,000. The gravel road cost will be \$100,000. The bitulithic road cost will be \$100,000.

Considerable comment has been engendered among the highway engineers of the district in connection with the highway district in constructing roads in what has been designated as a "patchwork" system. On this point Engineer Johnson has the following explanation to the public:

When the highway board found that it was unable to let contracts for the penetration macadam satisfactory, they were forced to let contracts for the penetration macadam at that time, to build Blue Lakes south while getting the spur line and material at Hansen ready to go to Hansen to take advantage of better conditions before the best and grain hauling started. The railroad company decided to move its tracks and long dikes to its tracks or any of the sidings there, but would have to have our own spur, which matter was tied up by the railroad company.

Additional avenue, immediately joining the highway district last year's building program, for the reason that we fully expected and should have had the state highway under construction east of town. The highway district is required to carry the traffic. The state highway was delayed on account of federal and state highway departments, who have the supervision of the work, and the letting of contracts.

L. D. S. CHURCH STAKE TO HAVE TWO WARDS

Growth of Mormon Sect Here Necessitates Additional Administrators

Action taken at a meeting of the officers of Twin Falls stake, L. D. S., contemplates the dividing of the single ward now forming the stake into two wards. For some time the congregation of the church has been so large to be widely and at a meeting attended by Judge Clawson of Salt Lake, and L. G. Kirkman, president of the Twin Falls stake, was reached to create a new ward.

The dividing line begins at the Snake river on Blue Lakes boulevard, and extends east to the intersection of the highway and the shore line street to Rock Creek, then a half mile east and straight south to the foothills. The eastern section will be known as Twin Falls ward, and the western section will be known as Grover ward. Bishop, with Grover Arrington, first counselor.

George Wood has been named bishop of the new ward, Charles D. B. first counselor. The new ward authorities will proceed at once to find a location for chapel. Building plans for ward No. 1, will continue as planned.

GREEN BUG AGAIN HELPS TO BOOST WHEAT PRICES

Quotations Advance Rapidly after Hestimating Start, Closing 3-4 to 5-1-2

CHICAGO, (AP)—Quickness with which offerings were taken brought about an advance in wheat prices today after a hesitating start. Bids contended that from this time forward the course of wheat would be governed largely by the attitude of the producer and that domestic instead of export conditions would be the chief factor. Talk was current that country roads were generally in too bad shape to allow of a free movement of any kind of grain.
