

## BUREAU'S AIMS GIVEN APPROVAL BY GOV. DAVIS

Efforts of Idaho Reclamation Service Sanctioned by the State Executive

BOISE, Idaho, (Special).—Governor Davis, just back from highly important conferences at Washington bearing on reclamation work, said Friday that unless something unforeseen prevented, he would be present at the state convention of the Idaho Reclamation association, to be held in Pocatello on June 15.

"The efforts and aims of the Idaho Reclamation association have my heartiest approval," Governor Davis said, "and they merit the support of the people of Idaho and more especially those living in the southern part of the state.

"Official and commercial bodies should get solidly behind this association and aid in maintaining a body that will give concrete expression to the desires of the people themselves in this vital question.

**Mighty Voice.**

"With Idaho and other western states solidly organized, and with the Western States Reclamation association as a general representative of all,

**S. E. BRADY**

President of Idaho Reclamation Association, which is doing a big job for the reclaiming of arid lands in this state.

a mighty voice can be raised in behalf of reclamation work, and one to which congress will give heed.

"Individual effort is never to be disregarded, but however, enthusiastic it may be it is impotent contrasted to the voice of organized effort. There must be some means of expression that will be recognized as representing the dominant thought and wishes of the people.

Meetings in Washington.

Governor Davis reports that the conferences in Washington stimulated interest in reclamation matters.

"We met with Secretary of the Interior, Mr. Clegg, and Mr. E. A. Tamm, and with former Governor Shreve of Utah, now commissioner of the general land office. They went with us to the White House, to interview President Harding, who gave us every encouragement.

The governor said the meetings with congressional committees were most satisfactory and that he found many evidences of interest in reclamation on the part of eastern members of the senate and house who heretofore have been indifferent and, in some cases, openly hostile.

## DATE IS DECIDED FOR RIVAL CLUBS TO PLAY BASEBALL

Rotarians and Kiwanians to Measure Strength on Diamond June 14

Plan, day, Tuesday, June 14, has been set aside for the day of the Rotarian-Kiwanian baseball game. All the proceeds of this game will be given to the Twin Falls Boy Scouts for the purpose of providing funds for a summer camp soon to be established in the hills and to help defray the general expenses of organization of troops in Twin Falls.

The sale of tickets for the game will be handled entirely by the Boy Scouts themselves. The contending clubs have decided that the troop of scouts selling the highest number of tickets for the game will receive a large \$1000 as a reward.

Both the Rotarian and the Kiwanian club number many former professional ball players in their roster and it is expected the proposed game will be most interesting affair.

## CEMETERY DRIVES GRAVELED

During the present week forces engaged by the Twin Falls Cemetery association have been busy graveling all the driveways in the cemetery grounds. The work was done under contract.

## RACE RIOT VICTIM'S SISTER RESIDES HERE

Mrs. J. E. Hill Has Telegram Saying Tulsa Relative Not in Serious Condition

That Mrs. S. A. Gilmore, who was shot during the race riot in Tulsa last week, was not dangerously injured, is word received by a sister of the injured woman, Mrs. J. E. Hill, of 335 Second avenue north, Twin Falls. Mrs. Hill received a telegram from her sister in Tulsa assuring her that the wound although painful, would not result disastrously unless unexpected complications arise.

Mrs. Gilmore was shot early on Wednesday morning as she stepped on the front porch of her home. The missile from a rifle passed through the fleshy part of her left arm and lodged in the side. Mrs. Hill and Mrs. Gilmore met about a month ago at the home of their parents, Mr. and Mrs. J. B. Butler, in Jennings, Kan., where they visited some time. Mrs. Gilmore engaged in carpenter contracting in Tulsa.

## RAILROAD SEEKS BOOKLET MATTER

Passenger Department of U. P. System Sends Publicity Men to This District

On Monday A. L. Craig, F. V. Wagner and A. V. Peterson, all officials of the Union Pacific Railroad system, were guests of the Twin Falls Chamber of Commerce, and in special charge of President Arthur B. Wilson, of that organization.

Mr. Craig is general passenger agent of the Union Pacific at Omaha, and Mr. Wagner is general advertising agent for the railroad. He, too, has headquarters in Omaha. Mr. Peterson is publicity and advertising man for the O. S. L. at Salt Lake.

The purpose of the call in Twin Falls was to get a glimpse of the scenic points hereabouts and to gather material for descriptive matter to be contained in articles printed in railroad publicity booklets.

Announcement of the coming of these railroad officials was made Saturday by Dan S. Spencer, general passenger agent of the U. S. L. at Salt Lake, who was in Twin Falls Saturday and yesterday. Mr. Spencer indicated the purpose of the visit and asked the chamber of commerce to assist the visitors in procuring such material and pictures as they might require in this vicinity.

President Wilson, chairman of the chamber of commerce is heading a party which this afternoon is devoting all attention to providing the information and matter required by the railroad men. The party took lunch at the Hotel Peltine immediately after arrival this afternoon.

## SOUTHERN IDAHO IS FAR ADVANCED AGRICULTURALLY

University Professor of Husbandry Lauds Farmers of This Section

UNIVERSITY OF IDAHO, Moscow, (Special).—Agriculturally, southern Idaho is farther advanced than ever this year, a large acreage is devoted to wheat and many sections are giving more attention to dairying, said Prof. H. P. Davis, professor of dairy husbandry, today following his return from a trip to south central Idaho.

"No one hopes for the high prices of a year ago," said Professor Davis, "but an upward trend is evident and all probability a fair price will be received for farm crops and produce. There is no sign of discouragement in the section I visited and considerable new ground is being put under cultivation."

"Daytime seem to be weathering conditions favorably. On account of the present price of hay, many farmers are turning to dairy husbandry as a means of securing a steady income."

"An increase in the sugar beet acreage in south central Idaho is evident."

## FIRST BAND CONCERT ATTRACTS LARGE CROWD

Good Program is Given on Initial Appearance of Players This Season

The first of the season's open air band concerts held last week in the city park, attracted a large attendance. The program proved popular throughout, with many and the organization, conducted by J. G. Thorpe, receiving much applause.

The program concluded with the Star-Spangled Banner and a complaint has been made that many in the throng failed to give respectful response when the national anthem was being played.

## TO MAKE EASTERN TRIP

P. H. Smith, Louis Haffer and F. White started on Saturday by automobile for points in states east of the Rocky mountains. Mrs. Smith and Mr. Haffer will go to Boston to remain some time, while Mr. White will leave the party at Omaha, where he will enter upon his duties as a carpenter whose home in South Park addition recently burned down.

## COMMERCE ATTACKS PROBLEMS THROUGH CHAMBER OF COMMERCE

Dinner for "Farmer" Smith is Made Occasion for Consideration of Plans for Welcoming the New York Homeseekers; and Fourth of July Celebration—Visitors Give Inspiring Messages

Arthur B. Wilson, president of the chamber of commerce, Saturday announced the appointment of committees to arrange for dinner for the New York homeseekers en route to the West End project and to investigate the feasibility of holding a Fourth of July celebration here.

Members of the entertainment committee are C. E. Wright, O. E. Booth, F. W. Mumme, Howard E. Sablin, Donald McLean.

The celebration committee is composed of John W. Graham, F. J. Phelan, C. L. DeLong. This committee is to meet Monday and canvas the situation. If sentiment is deemed favorable the celebration committee will proceed with arrangements.

The Chamber of Commerce dinner at the Rogers hotel Friday evening, which was announced as a reception for C. L. (Farmer) Smith, agriculturist for the Oregon-Washington Railroad & Navigation company, and his wife, was held on Saturday morning at 10 o'clock on an occasion for consideration of community questions covering a wide range of subjects and definite action was taken with respect to several of them by nearly 100 representative men in attendance.

A suggestion looking toward entertainment here of the party of New York homeseekers en route to the West End project was made following the reading of the letter of O. H. Barber, state immigration commissioner, to the chamber of commerce relating to the modern caravan, and Arthur B. Wilson, as president of the chamber of commerce, was authorized to name a committee to investigate the feasibility of such entertainment.

Similar action was taken with respect to a proposal for holding a celebration here on the Fourth of July.

Visiting speakers in addition to "Farmer" Smith included T. E. Galloway, of Salt Lake, assistant general freight agent for the Oregon Short Line Railroad company, who declared that "we hope as sincerely as you do that some day we will be able to enable us to lower freight rates," and stated that while not in position to give definite information on the subject, promised that "if any specific rate is found to be out of line it will be given careful consideration, and closed with the prediction that "the sun is going to shine with respect to freight rates and market conditions."

A. Smith of Omaha, superintendent of agriculture for the Union Pacific system, spoke briefly, recalling previous visits to Twin Falls and saying that he had been very much interested in the market conditions of his department to assist in securing markets for potatoes and hay produced here.

C. E. Munson and Donald McLean, who as representatives respectively of the chamber of commerce and bean growers' association, attended a recent freight rate hearing conducted at Boise by the interstate commerce commission, reported on their activities at the hearing and expressed the belief that their efforts had been of some benefit.

Mr. McLean announced that an application had been made by the railroads for permission to increase the freight rate on peas and beans 6 cents a hundredweight, and suggested that the bean growers' association should be invited to the hearing on the application in Twin Falls.

Opposition on the part of Utah and Idaho to the proposed program of the Twin Falls Chamber of Commerce, including its purpose to seek a federal appropriation of \$100,000,000, was suggested by E. R. Johnson of the chamber of commerce of the latter state. He presented that a large delegation be sent from here to a meeting of the association in Salt Lake this month to voice opposition and to seek the amendment of the program to provide for inclusion of Utah and Idaho points on the proposed route.

Desirability of a large Twin Falls delegation at the meeting of the Idaho Reclamation association to be held in Pocatello June 13, also was pointed out by Secretary N. S. Wright of the chamber of commerce.

Introduced a veteran of the Civil war and a pioneer in agriculture, "Farmer" Smith made a plea for the adoption here of diversified methods of farming and recommended specifically that the dairy industry be developed here to make Twin Falls county the leading dairy county in the state.

"It is my purpose," Mr. Smith said, "to interest some of the farmers in the established fact that the only satisfactory and successful farming in any region is one of diversified farming, with the masses, and the organic factor in that system. The only exception to the rule is in the case of temporary success attending the production of some one crop, but that is a gamble and always after a short period comes disaster, bringing disastress and business depression."

Mr. Smith recalled that in the early days of the Twin Falls country, he had cautioned the people of this region that it was unsafe for any man to commit to put more than one-half acre of corn, one single crop or article no matter how profitable that crop or article might be.

"Conditions here and now are not new nor different than they have been since the first settlement of this region," Mr. Smith said. "You are having it very

## WHEAT GROWERS WILL ELECT FOR STATE BOARD

Letter Notifications of Election Here June 11 Sent Out by Donald McLean

Notifying all persons concerned of a primary election of state directors for the Idaho Wheat Growers' association, a letter has been sent out by Donald McLean, secretary of the association. The primary meeting, according to the letter, will be held in Twin Falls on June 11. The letter of notification reads as follows:

"The primary election for state directors of the Idaho Wheat Growers' association from this district will be held the 11th of June, and a preliminary meeting will be held at 7:30 p. m., to elect delegates for this primary election. We will probably have one of the state men from America to talk to us at that time. The reason for this notice being sent so hurriedly is that we were just notified Thursday evening.

It is very important that we have a good business man, as well as a farmer—to represent us on the state board this coming year.

There is just one member allowed on the state board from this district, and it is very important that we have a man representing us who will see that our district gets fair consideration, and that the affairs of the association now being so hurriedly, so, please take special pains to attend this meeting if possible, and bring your endorsements for the best man."

## SETTLERS OFFER NEW PROPOSAL

Endorse Alternatives for the Terms of Salmon River Bondholders

A meeting of 23 Salmon River project landowners assembled Friday afternoon at the county court house to endorse the terms proposed by E. B. Shepherd for the construction company's bondholders for settlement as to the 35,000 acres in the area excluded from the project under the Whiffnir report and those whose property is retained within the project, and endorsed detailed counter proposals to the bondholders for their acceptance within 30 days.

All of the land owners taking part in Friday's meeting are holders of property within the retained area. The counter proposal provided for payment for water rights of \$42.50 per acre with interest from April 1, 1921, in lieu of the bondholders proposal for payment of \$45 an acre with interest from the date of the original contract price of \$40 an acre.

In consideration for this additional payment the counter-proposal stipulated that the project must be completed in conformity with the lines laid down in the Whiffnir report; that title must be quieted to the lands retained and that all water of the project must be applied permanently and exclusively to the lands retained. Failure to comply with these conditions within two years time limit would result in forfeiture of the bondholders' privileges under the county proposal.

E. B. Carter was chosen as chairman of Friday's meeting and J. E. White secretary. Others in attendance were H. Ray, T. J. Douglas, R. Glavin, E. J. M. Pierce, E. Ingraham, Dan Ryan, Charles McMaster, Nick Smith, E. J. Finch, J. C. Bentley, C. H. Robbins, E. A. Reynolds, Curtis Adams, Max Smith, Hugh Swain, J. M. Thietzen, J. R. Diebold.

## Water Level Climbing at Salmon Reservoir

Indicating a rise during the week past of 5.6 feet and a gain in storage water of 18,000 acre feet, a reading of the gauge at the Salmon river reservoir, Thursday afternoon showed the water level at 70 feet above the floor of the outlet tunnel and a total of 150,000 acre feet of available storage water.

## TO CLOSE ON SATURDAY

Members of the Twin Falls County Bar association, having offices in Twin Falls, have agreed to close their offices each Saturday afternoon throughout the month of July and August.

## DEATH REPORTED

Louis Munson left Thursday for Marysville, Kansas, in response to telegraphic summons telling him of the death of his mother. The following day he was a guest at the home of her parents in Marysville for a son and daughter aged seven years.

## SMITH ADDRESS ATTRACTS LARGE FARMER THROGS

Parish Hall Crowded to Hear Speech on Diversified Farming

Seating space at Parish hall was at a premium for the C. L. (Farmer) Smith lecture on diversified farming on Saturday. While the convention was primarily for district farmers, scores of people engaged in other lines of business in this section seized the opportunity to hear the veteran agriculturist, who is representing the Union Pacific Railroad system among the farmers of the west.

Farmer Smith spoke on a number of agricultural topics, including diversified farming with dairying as a leading factor, with pigs and chickens as an important supplement.

In connection with the general subject he stated that any student of the history of agriculture in this and other countries is familiar with the fact that any given piece of land where a single crop system has prevailed it has usually been only a question of time when the individuals and the community engaged in that line of production began to suffer as a result of disastrous market conditions, plant diseases, or exhaustion of soil fertility.

Crop rotation is recognized as one of the most important factors in the system of farming, and a check against the increase of such insects as prey upon particular plants.

Another well recognized fact is that the most profitable and satisfactory method yet devised for the continued maintenance or increase of the productive capacity of the soil has been to make livestock a considerable factor in the system of farming, and the intelligent application of manure and the like to the land.

Referring to dairying and the dairy cow, he said:

"The profitable dairy cow is an individual, not a breed. There is just as wide a variation between individuals of the same breed as between the various breeds. In the selection of individuals it is, however, true that those breeds that have been fed, handled and bred for any specific purposes, will show a tendency, more general adaptation to that specific purpose, than individuals from families fed and bred for other purposes.

"The building up of a dairy herd breed, of course, with the selection of individuals for the foundation. The order runs something like this:

First—Selection.

Second—Care; which includes feed, shelter, water and method of treatment.

Third—Testing, sorting and weeding out.

Fourth—Breeding.

Fifth—Feeding, handling and developing of calves and heifers.

Carelessness, negligence, or ignorance on the part of the dairyman in regard to any of the factors mentioned above seriously impair the measure of profit.

The ideal dairy cow of today is a highly perfected machine for the manipulation of food. She takes the large amount of food and converts it all into one of the most important and valuable of food products. As this milk machine is nervous, sensitive, delicately constructed, with tastes, habits and instincts that are almost human, it requires skill and judgment on the part of the operator to successfully run the machine to its maximum capacity without injuring the machine or wasting raw material.

In speaking of pork production, Farmer Smith stated that a very careful investigation of the methods practiced by the most successful and profitable men are always being made. The following conclusions based upon the methods and results of many of the most successful are worthy of thoughtful consideration of every feeder and breeder.

The largest measure of profit is secured by feeding grain to the young pigs while on pasture.

With pasture alone the growth is too slow to secure the full measure of profit.

Tons of grain fed to pigs on pasture will produce more than double the amount of meat that it will if fed to sows in fall and winter.

And the entire list of subjects treated the speaker announced that the average man is much more numerous than the specialist. The methods that produce the best results are those that are most accurate and are most reliable under average conditions. The history of agriculture for 300 years demonstrates that these are the methods that have made possible manure, brains and hard work—a combination that wins 99 times out of 100, losing only when one of the factors is left out.

## KUNKLE WILLIS

Grant E. Kunkle and Lena G. Willis, both of Twin Falls, were united in marriage on Friday at the home of Mr. and Mrs. R. A. Grant, 712 Broadway, by the Rev. E. L. White of the Methodist church. Mr. and Mrs. Kunkle left immediately by automobile for the coast. On their return they will reside at home at 504 Fourth avenue north.

## ASSOCIATION PREPARES TO FIGHT RAISE

Bean Growers' Organization Lobbies Attack Against Railroad Demand

Nine cents per hundredweight is the amount of increase asked by the railroads for handling dry beans and peas, according to an application filed with the state public utilities commission, announcement of which has been received at the headquarters of the farm service, Donald McLean, manager of the service, is preparing a schedule of detailed information on freight matters, in which bean and pea growers of this district are interested, to be presented to the members of the utility board.

According to a letter just received by Mr. McLean, the members of the commission have entered vigorous protest against the demand for the carriers in this respect, and an appeal has been made to the interstate commerce commission for a hearing of the matter.

Manager McLean has addressed a letter to all growers of the commodities in this district asking for every scrap of information on the question of the growing and production of a questionnaire has been enclosed with every letter and the person to whom it is addressed has been urged to answer every question propounded in the schedule.

Through the medium of this inquiry the association managers and directors expect to obtain accurate information concerning the kind of product, average yield, number of acres, value of land on which grown, interest on investment and the gross cost of production in the years from 1916 to 1920 inclusive. Armed with this data, the association will enter the fight against the proposed increase of freight rates on the bean and pea commodities.

## STARTS MOVEMENT TO REORGANIZE TESTING

Cammack Here from Boise to Re-Start Important Association of Dairymen

On May 1 this year the district cow testing association contract expired, and thus necessitates reorganization of the association's affairs. For the purpose of conducting this reorganization, F. B. Cammack, field dairymen of Boise, has been in Twin Falls several days. Saturday afternoon he met with farmers and dairymen at the district at the Parish hall room meeting.

Speaking with respect to the testing association H. E. Powers, county farm bureau agent, makes the following statement: "No association work has been done in the county since the first of May when the contracts expired, and the tester, H. A. Anderson, severed his connections with the association. It is anticipated that the organization will be completed and the new tester on the job so that work may be done, the first of July."

"With the reorganization completed it is believed that we shall have the largest number of herds under the first test of any county in the state. While Twin Falls county does not, at present, have quite as many dairy herds as some other counties in Idaho, we have much interest in doing enthusiastic in dairying, especially within the last few months and those who are in the game recognize the importance now in the imperative need of cow testing. It is the only way whereby they are enabled to know definitely just what their animals are doing."

"The slogan, 'Test Don't Guess' is of more meaning and significance to the man with a few or a large number of dairy cows." Mr. Cammack conducted a meeting of dairymen and farmers at the Parish hall, the topic being the reorganization of the association. He reports a strong sentiment favorable to the movement.

## WALTER BROSE IS HELD TO THE DISTRICT COURT

Charge of Illegal Possession of Intoxicating Liquor is Sustained on Plea

Late Saturday Walter Brose was arraigned before Judge O. P. Duvall in the district court to answer charge of illegally having intoxicating liquor in his possession. Brose pleaded guilty and was held under bond of \$500 to the district court for trial.

Brose and William Trotter were stopped when they drove into the city one day last week and their car searched by members of the sheriff's force. A jug of liquor is said to have been found in the car, test of the liquor having shown an alcohol content of 32 per cent. The analysis was made by County Chemist E. R. Dooley, copy being returned to the sheriff and the prosecuting attorney. The liquor is said to have come from the Conroy place.

## 18 STUDENT PRESIDENT.

S. G. Diehl, living four miles north of Filer, has received word that his son, E. J. Diehl, has been elected president of the student body of the Agricultural college at Logan. The young man won the honor by a lead of 164 votes. He served with the American forces against the Germans and was wounded in the chest in a battle, entering him permanently lame.

## BELIEVE MEXICAN'S MIND TO BE UNSOUND

Police Authorities Pick Up Duran and After Watching Queer Performances

After being released Monday morning from police custody, Forus Duran, Mexican, was re-arrested that evening and is held in the county jail pending an inquiry into his mental condition. Duran, with Pote Flores, was arrested on Sunday on a drunkenness charge. He was released yesterday after a fine was imposed by magistrate Paul R. Taber. Last night police at Filer were attracted to the man through extraordinary actions in the Brunswick poolroom and his apprehension followed.

According to Chief of Police John M. Beck, Duran exhibited an odd sort of program throughout the afternoon, dividing his time between transferring matches wherever obtainable to his pockets and to examining his appearance in a mirror he carried. The parting of his hair and the condition of his nails seemed not to suit him. He spent much time combing the hair, only to ruff it up impatiently with his hands. A certain place in a blank wall attracted a lot of Duran's attention. He stood for many minutes at a time with his eyes fixed on one spot in the wall, through seeing some scene of great importance and interest.

From scrutiny of the wall Duran invariably returned to a quest of matches. The behavior of the man sticks being found in each pocket. This quest was followed by the booting performance, being, in turn, displaced in favor of wall gazing. The man is believed to be unbalanced, but is not deemed dangerous or harmful.

## ENDORMOUS CROWD ON HAND TO GREET BOISE SHRINERS

Minstrel Show and Dance at Buhl is Pronounced Great Success

Nobles of the Mystic Shrine from far and near gathered at Buhl on Saturday for a general reunion and complimentary entertainment for patrol and band of El Kharo temple of Boise. Around 20 cars conveyed the Boise visitors to the West End city, the entire cavalcade reaching the county boundary via the new bridge at Oway's which was temporarily put into shape for the crossing by Engineer Idle, himself a member of the order.

The Boise crowd reached Buhl just in time for lunch, after which the customary parade was held, followed by the performance of the minstrel show by the minstrel troupe of the Boise Shriners. Later a banquet was served to all the Shriners, followed by a second minstrel performance and dance at the ranch of Mr. and Mrs. Frank Buffington, the facilities taking place in the mammoth Huntington barn, the biggest building of the kind in the entire county.

Weather conditions contributed their full share toward the success of the entertainment. Work of the committees was thorough and complete and no pains were spared to ensure a good time to everybody. The dance and minstrel performance at the evening constituted perhaps the main feature of the day, an enormous crowd being present to welcome the Boise players and to participate in the dancing, which was kept up until a late hour.

The return trip to Boise was made on Sunday.

## Legion Ball Club Out-Classes Buhl in Return Contest

Moreley Effectively Checks the West Enders after They Rout Pitcher Fossem

Twin Falls Legionnaires, as a ball team, showed evidence of the decision obtained by the Buhl team a week ago and, incidentally, outclassed the West Enders in the great national sport. The score at the end of play was 12 to 6 for Twin Falls.

Manager Paul Taber started Pitcher Fossem against the Buhl men, and he lasted four rounds yielding all the runs the opposition wanted in the first and fourth frames. Fossem was hit hard as well as displaying a tendency to wildness. At the end of the fourth round Moreley took the job and effectively stopped the Buhl men's rampage. Moreley was found for but one hit in five innings, nothing like a run being scored off him. "Pat" Patton, however, was the real hero of the game, as well as in general backstopping lines. In addition "Pat" closed for a circuit with a couple of blows.

Manager Paul Taber started Pitcher Fossem against the Buhl men, and he lasted four rounds yielding all the runs the opposition wanted in the first and fourth frames. Fossem was hit hard as well as displaying a tendency to wildness. At the end of the fourth round Moreley took the job and effectively stopped the Buhl men's rampage. ## ELECTRIC OVERTURN FRATERNAL FOLKS TEAM BY 14 TO 12 SCORE

Fifth Game Played in Twilight League is Jammed with Errors and Sundry Boots, with Light Hitting Throughout — Darkness Compels a Halt in the Hostile Demonstration

WITH the single exception of the I. D. store all teams in the Twilight Baseball league now warring for the championship of the league this season, the Electric team defeated the Moose Fraters 14 to 12 in a thrilling contest. The game was called at the end of the fifth frame because of darkness.

The contest itself was one of the woody sort, errors and boots outnumbering hits by a wide margin, and being more numerous in the aggregate than the total scores made by both teams combined. Of course the official score does not take into account all the misplays committed, because the rules do not provide for charging simple "boners" in many instances. There was a fair-sized gathering of rooters.

## Sparkers Show Pop

The Electric started off like sure enough winners, gathering four counts in the initial round. Not a hit was made off Davis, Moose twirler, that second round. Three walks, wild pitch and three bobbles made the counters. In the second inning three more tallies were chalked up, with but one hit. Three passes, a wild pitch and a brace of loose balls, however, scored this time. The third frame was a riot and a rout. Four healthy blows were struck, one being a triple, with boots too numerous to mention. A couple of passes helped keep Davis in hot water. Seven runs were tallied before the eleventh man at bat was disposed of. Davis yielded a couple of hits in the next two innings, but let no man get past second base.

For the Moose counting was recorded in four of the five innings played. Two were chalked up in the first on a passed ball, a wild pitch and a bobbled ball. In the second the Fraters continued to whittle away at the lead their opponents had compiled, gathering three more tallies. A single, fol-

lowed by a hit by pitched ball, and five errors gave the fraternal mon their runs. Attempting to follow the example of their worthy opponents the Moose made three base hits, but in the sixth they reduced the lead one, making the final count 14 to 12.

Box Score		AB	R	H	PO	A	E
Electric—	12	2	3	0	1	0	0

Game called at end of fifth inning account of darkness.

Summary of game hits, Rodenbach; sacrifice hit (fly) Davis; base on balls, by Lyons 3; Davis 6; struck out, by Lyons 2; Hobson 2; Davis 3; wild pitch, Lyons 1; Davis 1; hit by pitched ball, by Lyons 1; error, on passed ball, Rodenbach; left on bases, Electric 5, Moose 6; runs batted in, Gall, Roberry 2; Rodenbach 2, Ashton. Time of game—1:30; umpire, McGriff.

## LEAGUE'S LEADER SHIP WON BY BANKERS AS ELKS GO DOWN TO 5-0 DEFEATING GREAT GAME

"Phil" Fix Holds Rampaging Purple and White Fraters Well in Hand Except for One Round when Four Counts are Tallied — His Own Mates Play Almost Perfect Ball Back of Superb Pitching

ITTING "Blim" Cree furiously and consecutively in a brace of rounds the Bankers on Monday night won a Twilight game of baseball on Lincoln a score of 5 to 0.

It was the best game of the season, and the Bankers' team proves that the team of the neutral circuit are rounding into real playing condition.

Cree's fatal innings were the third and fourth, and in each the men of means slammed him for four runs. In the third inning the Bankers, mixed with the hits, three of the misuses counting as many errors. Prior to and after these two bouts Cree was almost unhit. Proving that it is not the pitcher who is the real hero of the game, in a row in the fifth. In the sixth he looked a bit wobbly, but got by safely. In that session he started off on the wrong foot, walking Bush, Yeohem sacrificed the right hander but Bush was picked off third base on a ground-er. Linville shot a punch out to Chapin in who spread-eagled and let the ball roll away. Newman was at second base on a force by Fix. Thus ended the round and the rout.

Gwinn led the attack in the third with a ringing single to center. Larson fanned but Bush cracked out a one-base error. Newman was at second base on a force by Fix. Thus ended the round and the rout.

## Phil Fixes Perseverely

It was Shifty Gwinn who started the merry doings again in the fourth, leading off with a hit to right of center field. Larson followed, the ball being slowly along the line, the half way third base. Both Captain Patton and Pitcher Cree took a lot of interest in the rolling pellet but declined to touch it. Gwinn, however, was not so foolish. It decided to stay in fair territory, however, and when this decision was reached and Cree took up the perverte globe Larson was on first and Gwinn on second base. Bush's long fly to center field was taken care of for an out but Jake Yeohem cut a hit past third scoring Gwinn. An error in left field on the hit let Jake down to second, while Larson romped home. Newman's hit a grass cutter to left, Chapin bobbling again, Yeohem counting on the hit and

the batter coming through on the bobble. Fix singled to right, but Thumetz was tossed out at first base.

The Elks made a good start in the second inning getting three healthy blows off Fix, on which four runs were scored. Bailey led with a single and Kinney sacrificed, Taylor fanned but Chapin sent a long single to center counting Bailey. Whitelz hit a three-run homer and scored home runs. Newman was at second base on a force by Newman when the latter shot the pill over the right barrier for four bases. Chapin scored on Whitelz's good elout.

Bob Whitelz added another hit to his batting average in the fifth, putting on hit over the right wall. The bases were scored. That ended all the scoring, for Fix tightened and their attack on purple and white holed up. Newman was at second base on a force by Newman when the latter shot the pill over the right barrier for four bases. Chapin scored on Whitelz's good elout.

## TWIN FALLS MERCHANTS INVITED TO SALT LAKE

Retailers are Asked to Attend "Market Week" in Utah Capital During Week

All the retail merchants of Twin Falls have been invited to attend Salt Lake City Market week, June 6-11, which is being conducted by the Salt Lake Commercial club and Chamber of Commerce. The invitations were received recently and thus far no definite action has been taken toward sending a delegation.

Merchandise prices are said to be nearly adjusted to present conditions and stocks of goods are ample. As an inducement to inspect their merchandise personally, the Salt Lake manufacturers, wholesalers and jobbers will refund railroad and Pullman fares, based upon the distance from Salt Lake City and the amount of purchase.

In the advance literature for Market week, the commercial club and chamber of commerce points out that Salt Lake City is more interested in the growth and development of the inter-mountain west than eastern dis-tricting centers and that retail merchants should buy near home. This will keep inter-mountain dollars in the inter-mountain country.

An extensive automobile program has been arranged for the visiting merchants each day of the week, ending with fast automobile races at the State Fair grounds, Saturday, June 11. Between 200 invited retail merchants are expected to attend.

## KIWANIS CLUB ENDORSES PROPOSED CELEBRATION

Members Vote in Favor of Observance Here of Independence Day Anniversary

Proposals looking toward the celebration of the Fourth of July in Twin Falls were endorsed by vote of members of the Kiwanis club in attendance at the district committee meeting Monday at the Hagerston hotel.

In presenting the proposition for consideration of the club, John W. Graham, chairman of the chamber of commerce committee, proposed to inaugurate the celebration by having a parade of the club members to offer an entertainment as enjoyable and as elaborate as circumstances would permit.

Whitish baseball game for the benefit of the Boy Scouts were discussed by Secretary Newell S. Wright, the proposed parade for the contest being given as Tuesday, July 4, and the members of the club were urged to take part in the parade preceding the game and to be prepared to take part in the contest itself.

Dr. Hal Bieler, Taylor Cummins and Carl DeLang were received into membership in the club. The attendance prize, which was awarded by John E. Taylor of the Browning Automobile company, was won by Fred W. Ingraham of the Idaho Power company.

## TRAVELING MAN DIES FROM HEART DISEASE

F. G. Rockel, of San Francisco, is Victim of Long-standing Ailment in Hospital

F. G. Rockel, aged 50, died early on Monday at a local hospital from an affection of the heart, aggravated by an ailment which demanded an operation. The body is at the DeWitt mortuary establishment awaiting word from a son of deceased relative to disposition.

Mr. Rockel was a traveling salesman for the Ingersoll Watch company, and had been in Twin Falls for some time. He reached Twin Falls Saturday and complained of being unwell at that time. He was removed to the hospital from his headquarters at the Hotel Perrine and operated on immediately. The operation proved eminently successful and Rockel was cheerful and seemed headed for recovery. Heart troubles from which deceased had suffered some time, became aggravated last evening, death occurring at about 1 o'clock a. m. Monday. The dead man held membership in the Elks' lodge at San Francisco.

## "Try It Out Yourself"

says the Good Judge

And you will find how much more satisfaction a little of this Real Tobacco gives you than you ever got from a big chew of the ordinary kind. The good, rich, real tobacco taste lasts so long you don't need a fresh chew nearly as often. So it costs you less.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

W-B CUT is a long fine-cut tobacco

RIGHT CUT is a short-cut tobacco

NEW YORK, N. Y.

## ALWORTH GIVEN A NEW HONOR BY GRAIN GROWERS

Filer Resident Endorsed for Office of Director of Wheat Association

W. F. Alworth has been endorsed by the farmers of this immediate section of the Twin Falls district for the office of director of the Idaho Wheat Growers' association.

The nomination of Mr. Alworth, who is director of the farm bureau, was made at a general meeting of the association members Saturday evening in Parish hall. Two directors are to be endorsed from the entire district. The second will be chosen at a similar meeting soon to be held in Jerome.

## State Re-districted

Saturday's meeting was called to order about 8 o'clock by W. W. Parish, who took the chair and introduced Mr. F. T. Filer, the manager for southern Idaho. He explained that the whole state had been re-districted in June and that the primary election would be held June 11.

Relative to Saturday's meeting, and the results obtained, Donald McLean of the Wheat Growers' association, makes the following announcement: "It is the custom in these counties to send out a list of all members, which amounts to around 400 in this district, and ask them to vote for two. Chairman Parish explained that this had been unsatisfactory, as it didn't concentrate on a few good men, but the votes were scattered over a great number. So, he asked this delegation to endorse a man of their preference for the district, and when the list was sent out, he would include this name. In this way, the district would have a much better chance in getting the man they want. Mr. Alworth nominated Mr. Parish. This was seconded by D. F. Clark. Mr. Atkins of the Buhl delegation nominated W. F. Alworth of Filer, and Mr. Atkins was also nominated by a member of the Buhl delegation. When the Buhl delegates explained that they would like to unite with the delegates from other parts of the county on Mr. Alworth that they wish withdrew in favor of Mr. Alworth, and he was unanimously endorsed.

## Four Directors

"The association has four directors from southern Idaho, one from Twin Falls county, one from the district comprising Jerome, Gooding, Blaine, Minidoka, Latah and Cass counties, and two from the south of southern Idaho. Buhl, Hazelton, Eden, Murtagh, relative to Twin Falls were well represented at the convention. G. A. Fisher addressed the convocation concerning the United States Grain corporation, and explained its operation and its effect and asked the delegates to ratify the work of the committee of 17 at Chicago. S. L. Wikson of American Falls, explained warehousing agreement.

Arrangements have been made for the primary meetings to be held June 11. The board of directors of the Wheat Growers' association will meet July 1 and canvass for votes of the primaries and set up a permanent office in southern Idaho.

## STANGLE SUFFERS ODD INJURY IN ACCIDENT

Gow's Horn Penetrates Eyelid and Passes Into Nose of Butcher-Stockman

A. M. Stangle, a Buhl butcher and cattle dealer, is in a local hospital being treated for an injury received in a recent accident. The injury affects the right eye and right nasal cavity.

According to information obtained from Dr. George Caldwell, surgeon in charge of the hospital, Stangle was cutting for some cows on his place Sunday and was working near the head of a cow when the accident occurred. The Michler was struck in the eye by the cow's horn when he passed in front of the animal, the horn passing through the eyelid and into the nose. It is not believed the eye had been permanently damaged.

## LIVESTOCK EXCURSION PLANNED FOR JUNE 17

District Farmers Will Tour  
Section of County to View  
Flocks and Herds

June 17 has been set apart by livestock men of this district for a "Livestock Excursion." On that occasion a number of farmers, breeders and livestock men in general will take a junket across a portion of the county.

The purpose of the excursion is to provide persons interested in livestock development in this section an opportunity to see the herds and flocks of "better animals" being raised on district places. The idea of the tour will be necessarily contracted from the initial plan because of the inability of many of those who would like to join the caravan to leave their farms at this time of the year. The original plan contemplated a three-day trip, but that length of time proved too long for the great majority of the farmers, and a condensed form was adopted.

H. E. Powers, farm bureau agent, one of the inspiring geniuses of the plan, announces that the trip will be started at Buhl at 8 o'clock Friday morning and will finish at the Twin Falls ranch east of Twin Falls, in the evening. On the tour the company will stop at the principal ranches en route to inspect swine, cattle, horses, herds and sheep flocks. The noon hour will be spent at the fair grounds in Florio, when luncheon will be served and an interesting program given on subjects of livestock husbandry. There will be some prominent speakers with the company.

## Local Brevities

Vernon Bybee Is Here—Vernon Bybee of Idaho Falls is a visitor in the city.

From Filer—J. D. Kessler motored over from Filer yesterday for a brief visit.

Mining Man Here—Pat Donaghue is in the city from Jarbridge for a brief visit.

## OWNERSHIP OF THEATRE BUILDING IS CHANGED; GILBERT PURCHASES

Business Structure on Shoshone Street North  
Passes from Anderson who Will Move Fixtures—F. F. Varney to Install Second Confectionery and Lunch House in New Place

Sale by A. R. Anderson to A. Gilbert of the Gem theatre building on Shoshone street north, was officially announced today by George F. Sprague, of the Irrigated Lands company through which agency the negotiations were conducted and brought to a successful conclusion.

The building is to remain the home of the Gem theatre until August 1, when the theatre fittings and fixtures will be moved. Mr. Gilbert will remodel the place throughout and has arranged to lease it to F. F. Varney for a period of years.

Some time ago Mr. Anderson sold the theatre business to the Twin Falls Amusement company and when the fixtures are removed they will be stored in the building. The new theatre building to be opened soon on Main avenue north. Sale of the Gem theatre building in no way affects the Orpheum theatre or its business.

Spotting today with reference to his purchase of the Shoshone street business building, Mr. Gilbert stated the deal had been made for purely business reasons. He some time ago sold the Model shoe building on Main avenue north to the Twin Falls Amusement company, the latter taking over that property in order to acquire exit facilities for the new theatre, which is next to the Model structure.

Although he will occupy the new Gilbert building on Shoshone street, Mr. Varney, candymaker, confectioner and caterer, announced that he does not contemplate the closing of the Main avenue store, which he has operated for a number of years. This business, Mr. Varney says, will be continued with the theatre in connection.

The place in the Gem theatre building will be equipped with the most modern fittings and fixtures and stocks necessary to a first class confectionery and lunch business.

Mr. Varney recently made a trip to the Pacific coast, to get ideas of the newest things in this line, and has arranged to institute an establishment on the order of the best of the sort to be found in the large cities of the coast. He expects to be operating in house No. 2 by September 1.

The deal just closed has been pending for the past two months. The transfer price will not be made public.

**SAMUEL FOUTS, FARMER,  
HEARS OF SON'S ESCAPE**

Parents of Burlington Line Engineer,  
Reside on Outskirts of Twin Falls

Samuel Fouts, a farmer, residing on Harrison avenue north of Twin Falls, this morning was advised of the narrow escape from death experienced by his son, George Fouts, on Tuesday night near Union, Colo. The son is an engineer on the Burlington route, and when his train went through a bridge, weakened by high water, his fireman, Elmer Suedeker, was drowned. For managing to escape death by swimming under the wrecked engine.

George Fouts is known in Twin Falls, having visited his parents several times in the past few years. He spent the summer vacation here last year. He is 49 years of age, and said to be an expert swimmer. His fireman was caught under some wreckage and was drowned before aid could reach him. The accident occurred at a crossing of the Platte river.

# BUILDING COSTS ARE \$300,764.20

Accountant Makes Detailed Report of Expenditures to the School Contractors

A total bill of \$300,764.20 was expended in construction of school buildings, additions, repairs to school buildings, and their general upkeep from July 1, 1919, to January 31, 1921. The cost for architectural supervision, amounting to approximately \$47,500, is not included in these figures.

The cost total has been compiled by Accountant Edwin A. Wilson, who last night read a report at a special meeting of the board of trustees of Independent School District No. 1 detailing item by item the expenditures made to contractors employed on school structures in the period named.

## Many Contractors

Eight contractors participated in the expenditures, these being: Ernest White, general contractor; C. H. Mull, excavating contractor; E. P. Swank, plumbing; C. A. Stiphens, installing mechanical equipment for the heating plant at the intermediate school; E. A. Moon, construction of one-room school buildings; American Electric company, installing and electrical equipment; Holmes Brothers, construction of cement walks and steps.

Expenditures made are: Excavation, \$14,618; buildings, etc., \$14,618; electric wiring, \$12,027; plumbing, \$15,789; concrete walks, \$2,514; frame one-room buildings, \$3,540.05; mechanical heating and ventilating equipment, \$17,114.49; installing heating and ventilating system, \$20,115.36.

The report was officially accepted by the board following Mr. Wilson's reading of its paragraphs, and his explanations of many features requiring elucidation. The report is now understood, will be prepared for publication in its detailed form in the near future.

## Scouts to Use Gym

A committee composed of D. D. Alvin, Dr. G. H. Jones, J. J. McMillan, representing the executive board of the Boy Scout movement in Twin Falls, presented an oral request for the use of the high school gymnasium four or five evenings each week throughout the summer for the purpose of the Scout troops. The petitioners were assured that at the next regular meeting of the board the petition would be considered. The idea using the quarters will be supervised by a scoutmaster at all times.

M. C. Mitchell, superintendent-elect, reported on the leasing of Lincoln field to the Twilight Baseball league for the summer.

In the absence of Mrs. C. R. Scott, clerk of the board, who is on the coast at present, G. W. Blue was elected acting clerk, with authority to sign such warrants as are required issued pending the return of the regular clerk. F. C. Lynch, the district's bookkeeper, was appointed clerk, pro tem, to keep the minutes of meetings until Mrs. Scott returns.

The acting clerk read a communication from Attorney H. C. Mills, demanding payment of costs accrued through recent mandamus proceedings against members of the board. The amount is \$18.00, with discount added. Mr. Mills explained that were a warrant not issued within a week's time further expenses would be incurred in action to force collection.

## PARISH MEETING CALLED

The semi-annual meeting of the Church of the Ascension parish will be held in Parish hall Monday evening. The pastor, the Rev. Charles Glenn Baird, will discuss the new organization of the Episcopal church in America. Delegates attending the recent convocation in Boise will make reports. There will be a program of music and the ladies of the guild will serve refreshments.

## FORMER COMMANDER BOMBERS OF GRAND ARMY IS DEAD

KOKOMO, Ind., (AP)—Oscar A. Somers, aged 78, former national commander of the Grand Army of the Republic and one of the most prominent civil war veterans in the country, died at his home here yesterday, following an illness of several months.

# RILEY MILLER'S HARD SMASH SNATCHES VICTORY FROM ASHES OF DEFEAT FOR THE MERCHANTS

Waiter-Twirlers Hooks Up with Joe Henefer in a Wicked Pitching Duel with Breaks in Favor of the Former—Winning Tally Rung Up when Henefer Gives Three Hits in a Lone Inning

RILEY MILLER, catcher and expert thrower of baseballs to batters twirling for the I. D. S. against the Electric last night won his game with a sturdy clout where it did most good, or damage, according to viewpoint.

Miller's punch came in the last moment of the last inning, the seventh, when, with Hammerath on third base he poked a single past third, scoring "Ham" and broke a 1-1 tie that had existed since the first part of the inning. Miller was a two-ply hero, for in addition to delivering the right wing at the right time, he pitched a superb brand of baseball. The game was won, 2 to 1, by the I. D. S.

## Game Worth While

The seventh inning—which is always the last in this league—was an auspicious and momentous one for the contending teams last eve. Each out had gone along in brilliant style during the six rounds preceding, neither side getting a man across the pan.

Henefer had pitched a little steadier than Miller, but his support had not been quite as steady as his. Up to the opening of the last frame he had allowed only four bingles, none being worth more than a single bag. He had set down five of the opposition on strikes, and had walked only one man. In pinches he was particularly effective, while his worthy opponent of the mound seemed to keep himself in mope or less hot water.

Miller, by the way, showed a world of steam, and some good benders, but lacked control. He walked four men, will pitched an error to second base, and on occasions looked wobbly enough to start worry. But he got support, and that helped him through.

This first six frames were of no particular consequence, except that they brought forth some great baseball. The seventh, however, proved a real thriller.

## Winning the Game

For the Sparks, Gale opened the seventh, sending out Boone. Lewis cracked a single over second and stole the keystone bag. Miller wobbled seriously here, walking Gee, who hit the single over the second, and when Catcher Flako grounded down to S. H. Kieffer, Gee was forced at second, but there were runners on first and third by that time. Joe Henefer hit over second, counting Lewis, Joelyn tied to right, ending the inning for the Electric.

It was a dubious situation that confronted the mercantile representatives when the I. D. men came up for the last half of the closing frame. Henefer had been looking like a big league twirling prospect up to then. He was steady as a clock, and had the opposition between anything but confident of ever solving his delivery.

But things do break sometimes, and though Riley Miller, the waiter, had weakened in the first of the seventh, Henefer, city electrician, frayed out almost completely. Joe permitted the opposition to ring out three hits, and to ring up two runners in the last half, thus giving the Merchants their first win of the year.

## The Break

Centerfielder Kennedy, opening the frame, sent a ripping single past third, but was forced out by Boone on a grounder to Henefer. "Lon" Lewis stole second and third successively, and was left standing on third when Jarvis captured a short centerfield fly by Boone. Hammerath, blue rooked second baseman for the Merchants gathered his third hit of game, it being the only distance clout the I. D.'s registered. The pill shot over Jarvis' head in centerfield and was associating with the burned lava debris when it was retrieved. Boone, meanwhile, had counted, and the batter was on third. Riley Miller here herded himself into the hearts of the I. D. fans. He caught one of the Electrician Joe's fast hot

pers on the seam, for a single past third, scoring Hammerath. F. Kieffer did not need to go to bat; the game was done gone.

# SUIT PAPERS REMOVED IN OLSEN COURT CASE

Dorothy Olsen of Filer Brings Divorce Action Against Wilfred Olsen

Two divorce actions, a suit on alleged unlawful detainer, and an action for the foreclosure of a mortgage given to secure a promissory note, constitute the gist for suit filings in the district court in the past 24 hours.

Seeking a divorce Mrs. Dorothy Olsen has entered action against Wilfred Olsen. The papers in the suit were filed by Attorney J. W. Taylor, of Filer, and were immediately withdrawn to conceal their charges. It is understood one of the charges preferred in the bill of particulars is cruelty. The plaintiff is a resident of Filer, and an instructor in dramatic art.

Mabel B. Condie alleges desertion and failure to support in her application for divorce from Robert Condie. The pair married in Idaho Falls on September 27, 1917. Defendant is said to have deserted his wife on May 15, 1920.

Charge of unlawful detainer is made by B. J. Bean against D. M. Whited, doing business under the firm title of The Farmers' Garage and Machine company, against whom judgment for \$240 damages is asked, or payment of \$400 for the detainer car.

Alvin Hess brings suit against William H. Hess and the Twin Falls Canal company for the foreclosure of a mortgage securing a promissory note for \$500.

# SLAGLE TRIAL IS SET FOR THE COMING WEEK

Trial of Edwin L. Slagle, for the murder of G. H. McCullum, will be started in the district court next Tuesday, Judge W. A. Babcock presiding.

Date for this criminal trial was set down by Judge Babcock this morning prior to the setting of a motion calendar for the June term of court. W. P. Guthrie has been retained by the defense. Frank L. Stephan will be prosecutor.
