

TWIN FALLS GIRL VISITS SCENE OF SUNKEN REGION

Miss Verna Bates of Twin Falls Says Guard Declared that Fifteen Acres Had Sunk from Sight

That a section of land comprising approximately 15 acres actually had sunk into ground some ten or twelve miles east of Burley and that she visited the scene of the occurrence and saw the great depression on Sunday, June 19, is the statement of Miss Verna Bates, daughter of Mr. and Mrs. H. B. Blue of 637 Second Avenue West.

In an interview this morning Miss Bates said: "I am not very familiar with the Burley country but during a visit there in June, to be exact, on June 19, some friends asked us to go for an auto ride. We drove out the main road some miles beyond Rupert, then turned off on a road through the sagebrush, struck a well traveled road again and shortly afterward reached a point, just about dark where red lights were strung about and a man acting as a guard came to our car and warned us not to come closer because of possible danger. This man talked freely about the matter. He told us that such efforts as had been made to find the bottom of the pit had been unsuccessful, and that the sunken area comprised about 15 acres. We stayed only a few minutes and then left for home."

Well known at Burley

Miss Bates says that many people around Burley know of the phenomenon which is discussed freely. She referred to an article on the occurrence in the Burley Bulletin of a few days prior to her visit to the scene.

Efforts to secure definite confirmation of the circumstances must with little success in and around Burley. The disposition appears to be to make light of the matter although there is again and again some sort of land disturbance actually taking place, probably much as described by Miss Bates.

BIELER IS SELECTED SPORTS CLUB'S HEAD

Protective Organization Chooses Officers—Fish Fry Shipments are Coming

Dr. Hal Bieker was elected the first president of the newly organized South Idaho Fish and Game association. The organization meeting, well attended, was held with J. R. Taylor, in the office of the Browning Auto company Friday night. Enthusiasm during the meeting was displayed, presaging unbounded success for the fish and game protective organization.

Prior to the election of officers, the primary purpose of the convention, O. A. Bailey, rules committee chairman, presented a draft of the constitution and bylaws. The temporary secretary, E. R. Dooley, read the draft, which was accepted without change.

Other than Dr. Bieker the organization officers are: Secretary, H. R. Grant, treasurer.

The meeting received official information of the purpose of the state fish and game wardens to send a contingent of 20,000 trout fry to the club, the fish to be planted far up in Rock Creek for stocking purpose. It is expected this shipment will be received about the first of next week, and complete arrangements have been made to care for the young fish. A pneumatic tire motor truck will be requisitioned to carry the shipment to a designated point in the creek for planting. Transportation will be in charge of S. Glend Stewart, county assessor. Shipments to be made on a scale extended for stocking the lake back of the Salmon dam.

At the next meeting of the local fish and game association a board of directors, consisting of five members, will be chosen.

Strings of Fish Ample Evidence of Great Sport

Local Waltons Return with Rare Catches Made on Sunday Trips Outside

Fishing was a popular sport with local anglers Sunday, a number of parties being made up for Sunday trips to outlying places where game fish play. All returning parties report successful engagements along the streams.

W. G. Thompson, assistant postmaster, and Byron Lawrence spent the day on Flat creek and returned with good string of speckled beauties. Frank Kieffer, C. E. Wright and C. C. Coggriff were on Flat creek, above Carrer, and brought back ample material for dinner, that biting was satisfactory. John R. Taylor spent the day at Malibud and brought back enough fish to make those who remained at home envious of the catch.

Call to Classes Will Be Issued on September 6

New Year of the Public Schools Will Open on Heels of Labor's Celebration

The first bell calling pupils to classes for the school year of 1921-22, will ring on the morning of September 6.

That date has been definitely fixed by the trustees of Twin Falls Independent School district No. 1, on order of official promulgated at a regular meeting of that board Monday night.

The time for school opening was settled upon to follow immediately the Labor Day holiday, which is scheduled for the first Monday in the month of September each year.

Chairman D. V. Updegraff, of the board of trustees, last night reported having received a number of inquiries from anxious parents and guardians of school-age youngsters, anxious to know when the new year of school will open so that they may be enabled to definitely fix their holiday schedules to conform with the school session inauguration.

So the morning of Tuesday, September 6, books must be gathered together and packed to grades and high schools for on that date educational activities of the new year get underway.

GREATEST SPUD CROP KNOWN IN STATE ANNALS

Outlook for Yield Surpasses Any Other Condition in Territory History

Idaho has in sight the largest potato crop in the history of the state, says Julius H. Jacobson, agricultural statistician in a general report of crop conditions. He adds:

Yields have planted 63,000 acres, which in 1920 acres greater than any previous year and 30 per cent greater than the average harvested last year. In addition, particularly good stands in 1920 the condition is 92 per cent of normal. This is higher than for many years back and promises a yield of 170 bushels per acre or a production of 9,500,000 bushels. This exceeds the record production of last year by 2,150,000 bushels.

The forecast for the United States crop is 377 million bushels or 53 million bushels less than last year. The average production of the five years 1916-1919 is 372 million bushels.

The wheat crop showed little improvement during June and the promise for Idaho is 55,275,000 bushels. This exceeds the record of 1920. Last year's record crop was 53,600,000 bushels.

Winter wheat entered the last stage of the season with 100 per cent condition. That means a yield of 20 bushels per acre or a 9,542,000 bushel crop. Harvesting has already commenced in northern and western counties.

Spring wheat never looked better on irrigated land but the hot dry weather was severe on the non-irrigated crop. The forecast is 16,737,000 bushels.

Stocks of wheat on farms July 1st amounted to 7 per cent of last year's crop, or 1,652,000 bushels. This carry-over is larger by far than any previous year.

Oats and barley suffered from heat and drought to some extent. The oats forecast is 8,941,000 bushels which is 81-821,000 bushels above last year. Barley forecast is 1,831,000 bushels as against 3,468,000 bushels last year.

There are 48,000 acres seeded to corn this year compared with 45,000 acres harvested in 1920. If all were left to mature, there would be 1,831,000 bushels of corn, but the practice is to cut about 50 per cent for silos, fodder, etc.

The hay crop continues to improve and there is now promised 3,355,000 bushels compared with 2,850,000 bushels in 1920. Many sections reported the first crop as the largest ever harvested and only a little of it damaged by rain.

Due to large crops of alfalfa, timothy and clover in the northern counties, much less grain than usual will be cut for hay up there.

The apple crop fell off 153,000 bushels from last year due mostly to frost in local hill towns in Twin Falls and Nez Perce counties. The loss was particularly severe in the Lewiston orchard district. There was a normal June drop. Production is placed at 5,314,000 bushels. Last year it was 5,460,000 bushels.

There is keen demand for Idaho apples this year. Middle western and eastern states have about 115,775,000 bushels, less than half of last year's crop.

JURY DISMISSED FOR TERM

The heaviest work of the present district court term is ended, and from this morning the court will be closed until the next term. Judge Rabeck will command attention of the jury. The last jury case was disposed of Tuesday with settlement of the J. H. Wise action against the Twin Falls ferry. The jury was dismissed for the term.

The heaviest work of the present district court term is ended, and from this morning the court will be closed until the next term. Judge Rabeck will command attention of the jury. The last jury case was disposed of Tuesday with settlement of the J. H. Wise action against the Twin Falls ferry. The jury was dismissed for the term.

SHOSHONE FALLS POWER PLANT RAPIDLY NEARING COMPLETION, IMPORTANT ELECTRICAL WORKS

One of Largest Jobs Undertaken by Company in Intermountain Country for Generation of Electrical Energy will be Finished This Fall—Has Taken a Year in Construction

When the Idaho Power company completes its Shoshone Falls power plant extension an institution having a maximum capacity of 11,300 kilowatts will be added to the electrical energy force developed on waterways of Idaho.

The old plant of the big institution had a total capacity of 11,000 kilowatts. The extension adds 10,000 kilowatts and when complete will have the capacity of 21,300 kilowatts. Energy, it is expected, will be distributed from the new institution considerably before the first of the coming year, while the two generators of the old plant, which was shut down when extension operations were opened some months back, have started operating again and are throwing "juice" into the company's general system daily.

An Important Plant

The Shoshone Falls plant is a conspicuously important and large affair as electricity development works go. It is situated at one of the most tremendous water force sites in the intermountain country and is said to be susceptible of still further extraordinary developments. Construction work of extension has been in progress since August 1, last year. At times as high as 250 men have been employed on the work. Above the plant a settlement of considerable proportions has been established, with construction workers and their families comprising the population. Until February 1 two shifts of men were engaged in the work. At present there is but one shift with 120 men on the payroll. Up to the middle of June the mess house, maintained for the accommodation of workers, had served more than 40,000 meals.

Harvesting the water power needed for developing the 11,300 kilowatts of electrical energy has been in charge of the Phoenix Construction company. Dams have been constructed to conserve the water and the rock dam of the falls providing a diversion for a flow of water through a great steel tube, or penstock, 10 feet in diameter and 452 feet in length. This penstock connects with a tunnel drilled through solid sandstone rock and by which the upper river is tapped to carry water to the turbines in the power house below. The turbine is set on a steel shaft which is connected to a generator. The generator is connected to a capacity of 240 revolutions to the minute. The generator sits at the top of the turbine, the whole being 10 feet from the top to the base. The foundation is constructed of steel. The contractors were compelled to drill and blast a huge excavation for the turbine and the generator. The rock was unfractured and the foundation was reached. This hole was filled with concrete, thus forming an absolutely solid foundation for the institution. The excavation is 100 feet in diameter and 45 feet in depth. In filling this hole the construction company used 8,000 yards of concrete, for which between 25 and 30 cars of Portland cement were shipped. There is also a steel reinforcement steel employed in the foundation, the plant and the dam. For building and other purposes 20 carloads of lumber were employed. The penstock is constructed entirely of fireproof material. The new plant will have a total capacity of 16,000 horsepower, that of the old institution being 17,000.

Neely Makes Statement

In connection with this stupendous piece of construction Charles Neely, local manager for the Idaho Power company, makes the following statement:

The preliminary work was begun in July, 1920. The largest force was employed from August 1st to along in December of last year when from 250 to 375 men were employed. As the work has neared completion this force has been reduced as fewer men could be employed to advantage until at present about 140 men were employed. Except during one month two shifts have been employed—an 8 hour night shift and a 9 hour day shift. It is expected that this amount will be fully completed by early fall this year.

"Much of the work and hence the result of much of the money expended, will not show—will not be seen—when the plant is completed and the plant in operation."

"One item of this was filling a large crevice in the rock bed of the river in the forebay with concrete. This crevice was six feet deep and of considerable length and tons upon tons of concrete was poured into it in clodding it and making leakage or loss of water impossible. Much of the river work, this amounting it was done last July and August."

"After figuring both ways, the management decided that the most feasible route from the railroad to the site was by way of Twin Falls and the Shoshone Falls ferry, from the other side of the river, rather than from Falls City on this side of the river. This involved the complete rebuilding of the Shoshone Falls ferry, which had been in use for many years. The rebuilding would carry a twenty-ton load safely. One piece of the machinery dismantled and stripped to the greatest extent possible still weighed twenty tons. This was not only transported over the road but over the ferry, down the dug way to the top of the skip and by the latter lowered to where wanted at the site of the plant at the level of the river or below the falls."

Heavy Loads Handled

"In order that the large and heavy trucks and large teams and wagons necessary to be used in transporting this heavy material and machinery might be used, much of the road had to be rebuilt, some of it shot out of solid rock."

For the purpose of handling the immense, heavy machinery required in the operation of the Shoshone Falls power plant a road has been blasted from the upper ground to reach a point where the material could be safely handled. The roadway is built on a fairly easy grade and is carried to the extreme edge of a precipitous declivity down which a heavy skidway has been constructed over which machinery and material is run on a tramway, controlled by a derrick at the top. Steel cranes and derricks handle all the machinery in the plant itself.

When the power institution is completed a force of three experts will be placed in charge of operation. There is a possibility that the plant will be generating "juice" by October 1, or before.

Tax Delinquencies Reach \$319,333.22 Out of \$1,517,862

County Treasurer E. L. Warren Issues Statement Concerning Payments for Year

Out of a total of \$1,517,862.63 taxes against property-owners of the district for the past year, a sum totalling \$319,333.22 has been declared delinquent by County Treasurer Emma L. Warren.

On the first installment of taxes, due and payable the first of the year, amounting to \$738,518.61, delinquencies amounted to \$109,000.77. The second installment was \$779,344.02. Of this amount \$455,347.35 has been collected, the remaining \$323,996.67 being declared delinquent and so marked on the books of the county treasurer. An extension of credit has been asked on \$4,500.45 in taxes.

The following report covering all of these items has been issued by the county treasurer:

Total amount charged to tax collector on the 1920 assessment rolls	\$1,517,862.63
Amount collected on first installment	738,518.61
Amount delinquent first installment	109,000.77
Amount collected on second installment	455,347.35
Amount delinquent second installment	323,996.67
Total delinquencies	\$319,333.22

Second Installment

Amount extended \$779,344.02	
Amount collected	455,347.35
Amount delinquent	323,996.67

LOWER TARIFF GOVERNS WATER AT NATATORIUM

Heavy Consumption at Public Pool Warrants Consideration by Council

Business ups and downs of the local natatorium with respect especially to expense involved in filling the pool with water delivered through the municipal waterworks system, were discussed at Monday night's session of the city council. The upshot of the discussion was the adoption of a new and lower rate to be charged for water delivered to the swimming pool operators. The new rate is set at 15 cents a thousand gallons for the first 200,000 gallons, a minimum and 10 cents for each thousand gallons in excess of the minimum. The former rate was 25 cents a thousand gallons for water delivered in excess of the minimum of 4,000 gallons.

Heavy Consumption

It was brought out in the discussion that the natatorium operators, who are the heavy consumers of water outside the city limits, last month used in excess of a million gallons of water and that their water bill for the month ended about \$150, or more than the amount paid for heating the water after it was delivered into the pool.

Popularity of the resort was indicated in statements to members of the council that during the three day period ending Sunday evening, more than 1000 persons indulged in plunges in the pool.

In explanation of the basis of fixing water rates in conformity with the conditions outside the city area charged 50 per cent more than residents of Twin Falls, John J. Pilgerim, water commissioner, said that the purpose was to make it possible for the city to have bonds interest burden as between users within and without the municipal limits. He said that interest payments on this account amount to about \$4,000 which is a tax of rather more than a dollar a month against each of the 2200 water users.

Routine Matters

The council referred to Mr. Pilgerim, as street commissioner with power to act, the request of E. C. Bartlett, who owns the city area for street lighting, to have the city purchase the Continental Oil company, for permission to move certain water mains in the progress of construction of a spur track to serve the oil company at its location about a half mile east of the passenger station.

Further time also was granted Mr. Pilgerim for his investigation of the street pavement and curbing which was recently ordered by the council.

Pursuant to recommendation of the public library board, the council appointed former Mayor W. H. Edridge, as a member of the library board to succeed Hal G. Blue, former superintendent of Twin Falls schools, resigned.

Upon request of City Attorney Taylor, the council appointed his assistant, a local attorney to assist in the absence of Mr. Cummings, in the absence of, and designated Harry J. Benoit for this position.

COMMISSIONERS MAY ADOPT ANOTHER PLAN

Heating Plant—Scheme Dismissed; County Board Considers Joint Institution

In rejecting contractors' bids covering the proposed installation of a larger heating plant for the county hospital, the commissioners expressed the view that it was decided to reject the bids in order that another plan of operation might be fully considered. It is expected that later on a call will be issued embracing the new scheme.

According to T. E. Moore, of the board of commissioners, the plan now is to construct a separate building in which to house the boilers of the heating plant and also to serve as a laundry for the hospital. The present laundry department is inadequate and much of the washing has to be sent out. The new scheme is considered most feasible as a matter of economy, as well as efficiency.

CELEBRATION COMMITTEE SENDS SCOUTS PRESENT

Lads are Provided Medium to Proficiency in Art of Self-Defense

Boy Scouts have been provided a vehicle to proficiency in the many art of self-defense through the courtesy of the July 4 celebration committee. A set of boxing gloves, valued at \$15, was donated to D. D. Boyd, one of the scout council executive officers, for the scouts. The gloves were accepted with gratitude and thanks in the name of all the Boy Scout troops in the city.

The gloves were purchased to be used during the fistic program last Monday, and were presented to Mr. Alvord unopened and ready for service.

LAD OF GLOVER DISTRICT DIES WHILE BATHING

Young Hoover, Farm Worker, Attempts to Swim Canal; Is Drawn Under

While attempting to swim the high line canal yesterday evening a young man named Hoover, aged 18, a farm worker, was drowned. The body was recovered from the canal and is now at the mortuary chapel of Corner P. J. Grossman.

Deceased has been a resident of Glover some years and was the son of a rancher of that section. The lad himself has been employed this summer on the Herzinger ranch.

With two companions, about his own age, Hoover was out to the canal to bathe. Hoover had only recently learned the rudiments of swimming and after his companions had left the stream he attempted to swim to the other side. About midway he gave a cry of alarm and went down. Attempts of the companions to reach him failed as the current, which seemed to pull him under, drew him body down the stream. An alarm was given to neighboring ranchers and efforts to locate the body were carried on until dark. The search was then given up again at the break of morning, resulting in the finding of the body a mile and a half below the place where the body went under. The remains were recovered by means of a crane and operated from both sides of the canal.

BULL JERSEY COW MAKES NEW PRODUCTION RECORD

Belzora, Owned by Carl Middlestadt, Enters Classic List During Year

Producing 8,200 pounds of milk, with 460.33 pounds of butterfat Carl Middlestadt's "Belzora" of C. P. Jr., established a new junior two-year-old record for the state.

The Middlestadt place is near Burley and is noted for its Jersey herd. Record of Belzora's production was made during the year just closed and for purposes of entry into the Registry of Merit of the American Jersey Cattle club. She exceeded the requirement by 200 pounds of butterfat in that period.

This record is considered more remarkable in view of certain adverse conditions under which it was made. The Middlestadt herd was brought to the district from Oregon, and Belzora lived under the most adverse conditions during a period of two months while the record was being compiled. This situation naturally precluded possibility of procuring food other than that of a cost of one cent per pound.

The cow in question is of Golden Glow blood lines and gives every evidence of improving as a producer as she ages.

FAIR PREMIUM LIST INTERESTING BOOKLET

Official Publication of Exposition Contains Much Matter for the Reader

The premium lists for the 1921 Twin Falls County fair are ready for distribution. A postal card to the secretary, J. M. Markel, at Elmer, will bring you to any interested party.

The booklet is the best ever put out by the fair. It contains no paid advertisements and much information that is not usually found in such publications. It is wholly devoted to promotion of the biggest fair in southern Idaho.

The grounds are in excellent condition and will be kept so until after the big event, September 13-16. Some added improvements are contemplated and will add to the comfort of exhibitors and patrons.

Premiums have not been materially reduced and the prices have not been raised. Former exhibitors are already engaged to bring their material and so great this far in advance of the fair. Attractions have already been contracted for and a week of clean, educational diversion is assured.

The following little poem entitled, "The Only Way," from the Sunspot, Phoenix, Ariz., has the spirit:

If you think your fair's the best,  
Tell 'em so.  
If you'd have her head the rest,  
Help her grow.  
When there's anything to do  
Let the fellows count on you,  
You'll feel only when it's thru,  
Don't you know?

If you're used to giving knicks,  
Change your style;  
Throw bouquets instead of rocks  
For while;  
Let the other fellow rove,  
Shun him as you would a ghost,  
Meet him hammer with a beast  
And a smile.

CORNER LOT ASSESSMENT MATTER HEARD IN BOISE

Four State Justices Seated when Case is Presented to Decide Moot Matter

The corner lot assessment case, sent from the local district court to the supreme court, was heard by four state justices, Justice R. H. Dunn, Mr. Carthy and Lee, Judge Dodge being absent. Arguments were presented for the contending Twin Falls property owners by Taylor Cummings and Asher W. Brown, and L. L. Taylor, appearing for the city of Twin Falls, against which municipality the action was originally started.

The case was argued Saturday morning before Justice R. H. Dunn, Mr. Carthy and Lee, Judge Dodge being absent. Arguments were presented for the contending Twin Falls property owners by Taylor Cummings and Asher W. Brown, and L. L. Taylor, appearing for the city of Twin Falls, against which municipality the action was originally started.

BOY'S ARM IS BROKEN TWICE IN SIX WEEKS

While at play Wednesday night Bolin, small son of Mr. and Mrs. T. E. Hunter, 166 Maple street, fell and broke his right arm immediately above the elbow. This is the second of this nature occurring in the past six weeks. The break was about mended when the second accident happened.

ar, loss of a friend. To have him cut  
off or disfigured, a friend will prove  
also.

## FRENCH PEOPLE OBSERVE EVENT

Celebration of the Bastille Day  
Claims Attention Through-  
out Nation

PARIS, (AP)—France today celebrated Bastille day, the anniversary of the fall of the ancient prison which symbolized the oppression which brought about the French revolution. Observance of the holiday was begun last night, when vast crowds gathered in the streets of the city and danced for many hours. There were, in addition, great torch light parades along the boulevards. The people had prepared to celebrate the day in the historic manner.

In connection with the observance of Bastille day, it was recalled that three years ago tomorrow morning the Germans launched their futile attempt to break the allied lines and reach Paris.

### Apple Price Being Held at Low Point

Farm Bureau Agent Warns the  
Growers to Stick for High-  
er Figures from Buyers

Seeking contracts with growers of apples a large number of agents for eastern commission houses have recently invaded this district. The influx results from failure of the apple crop in other states, while Idaho promises to have a bumper yield.

H. E. Powers, farm bureau agent, who has recently returned from a tour of the district, announces that current reports to the effect that the best price obtainable for district apples on contract is \$35 per ton is untrue. Mr. Powers declares that while this figure invariably constitutes the first offer made the grower by the eastern agent, it seldom is the last. He says \$50 per ton is the price usually obtained for standard varieties, such as Delicious, Jonathans, Winesaps and Rome Beauties, after some dickering with the commission man.

"Reports of contracts at low prices results from the activities of these eastern commission agents who are pursuing a plan of campaign to hold the market down. The first offer is ridiculously low for standard apples, and should never be accepted," Mr. Powers warns.

The farm bureau agent says he knows of 23 carloads of apples contracted at \$50 per ton and 10 \$41 per ton to an agent who told all over the district and in town that he procured the contract at \$35 per ton. Mr. Powers also asserts that commission brokers are advancing as high as \$100 per carload on the contracts.

The apple crop of the entire country is about 50 per cent that of last year. Idaho will have a good yield, according to reports made by experts in crop statistics.

### SCHOOL BOND ELECTION CASE IS BEFORE COURT

In the district court today, Judge W. A. Babcock presiding, the action brought by R. C. Smith against the Castleford School district, is being tried. Homer C. Mills is conducting the case for the plaintiff and J. B. Bethwell for the school district.

The complaint in this action alleges fraud in connection with a school election last spring at which bonds were voted by a small majority for the erection of a high school building. The plaintiff alleges that legal votes against the bonds were thrown out in the counting, while illegal votes were allowed to remain if they were in favor of the bonds.

MOSES JONES,  
Administrator.

# JULY CLEARANCE SALE!

## Ladies' and Children's Ready-to-Wear

The time has come for every remaining coat and suit to depart. Therefore original values have been ignored and new selling prices substituted in an effort to effect a quick clearance.

Only two prices on the remaining coats—

## \$15 and \$25

### Beautiful Jaunty Coats of Polo Cloth,

Bolivia and like materials, silk lined and in the late wanted shades of tans, greens, browns, etc., are all included. No reserves. Just two lots. All sizes. You surely need a sport coat at such reductions which amount to less than half price on most of them.

Four long taffeta silk coats to close out \$7.95.  
These were \$25 to \$35 coats.

### Children's Play Suits and Rompers

These have been prettier in style, material and color this season than any previous season. Gingham, crepes and chambrays they come in. One lot peg top Darling Romper, seams button style. In pink, blue and pink and combinations. To close out—\$1.00.

10 per cent Off all other Rompers and Suits.

### Special Wash Dresses for Children \$1.00

Little girls' dresses, 1 year to 6 year sizes, and including some little boys' suits, sizes 1 to 5 years, in wash fabrics. Some very pretty dresses and suits in these.

### Silk Sweaters 1/3 Off In Price

### Voile and Organdie Dresses, Special \$7.75

We received a large shipment this week of \$15 to \$30 new voile and organdie dresses from New York, a close-out of one of our manufacturers. We have had nothing to approach them. They are exceptional values.

### All Skirts One-Fourth Off

Including Sport Silks and Woolen Plaids

Plaited models and plaid sport models. The sport silks are in white, black, navy and bright colors, and the plaids are remarkably pretty. Your choice during this clearance—ONE-FOURTH OFF.

### Pongee Blouses, \$3.50

Our regular \$5.00 pongee blouses are offered at \$3.50. These are nice tailored models in two or three styles, all sizes, and an extra good pongee.

### Silk Sport Suits Half-Price

The very latest from New York. Made of the fanciest high grade silks and pongees. They were sold to us at half price. We will hand them on to you at a like saving. They are in pongee shade, navy and high shades. See them.

### Misses' Embroidered Smocks \$2.50

In rose, green, white, etc., and a silvery finished linene, embroidered in colors. Only a few left.

### All Suits Cut In Price That Make Each One a BARGAIN

Bungalow Apron  
Sale, \$1.50  
See them

Another Package From Booth's  
Booth Mercantile Company

Bungalow Aprons  
and Ladies' Porch  
Dresses, special \$1.50  
to \$7.50. Extra pretty  
numbers.

## Social Notes

Mrs. Ed S. Larned entertained at a prettily appointed luncheon on eight covers Wednesday afternoon commencing Mrs. J. A. Givens of Portland, Ore. The table was decorated with a low bowl of delphinium and shades of pink and purple were suggested to Mrs. Ostrander and Mrs. Givens. The guests were Mrs. W. H. Greenhaw, Mrs. A. J. Peavey, Mrs. Leonard Smith, Mrs. E. A. Walters, Mrs. E. J. Ostrander, Mrs. C. A. Booth, Mrs. C. E. Booth, Mrs. C. N. Beatty and Mrs. Givens.

One of the most delightful parties of the summer season was the picnic given by Mrs. Givens and Mrs. Ostrander at the Blue Lakes last evening for Mrs. Givens of Portland. A delicious supper was served under the trees at the base of Bridal Veil falls, the latter part of the evening being spent on the banks of the lake. Those present were Messrs. and Mesdames Walters, Smith, Asher Wilson, T. J. Woods, A. J. Peavey, E. S. Larned, C. E. Booth, J. Ostrander, J. M. Maxwell, R. A. Booth, and Miss Barger, Mrs. Perrine and Mrs. Givens, and Mr. H. Larned of Laramie, Mich.

The R. N. A. club met at the home of Mrs. John Peters on Third avenue west, Wednesday afternoon. A short business meeting was held and the remainder of the afternoon was spent socially. Decorations of sweet peas and roses were used and refreshments were served to 12 members and nine guests.

The Baptist Sunday school picnic will be held in the city park on Friday afternoon at 2:30. Members of the primary department, beginners and cradle roll and their mothers are invited.

Ladies of the G. A. B., Dan McCook circle, will meet at the home of Mrs. Jessie Yechem, 928 Fourth avenue east, on Friday, for a quilling party. Members are asked to bring a picnic lunch with them.

The Octo club was most charmingly entertained yesterday at the country home of Mrs. Schroeder. Motoring out in time for a delicious one o'clock luncheon, the party spent the afternoon playing bridge, in which Mrs. A. W. Husted won the prize for high score. The rooms were decorated with bowls and baskets of fragrant sweet peas and nasturtiums. The club members present were Mesdames P. B. Coe, H. P. Barger, J. C. Moore, H. W. Sawyer, E. M. House, A. W. Husted and Ernest White, with Mesdames M. O. Putnam, W. F. Edwards, Francis Halden and C. C. Dickerson were guests. The hostess was assisted by Mrs. Husted.

Mrs. J. A. Barrett entertained yesterday at her home on Shoshone north in observation of the tenth birthday of her son, Lloyd. The afternoon hours from 3 to 5, were spent in games that appeal to boyish hearts, including a fishing pond which yielded strange but valuable catches. The pleasurable event terminated with delicious refreshments which included a beautiful cake bearing the name of the guest. Those present were Bob Nixon, Bob Delis, Clair Houghtaling, Paris Kahl, John Hahn, Billie Babcock, Tim Robertson, George Sprague, Jr., Jimmie Bothwell and Lloyd Barrett.

The W. C. T. U. will meet at the home of Mrs. J. N. Chas. 104 Seventh avenue east on Friday afternoon at 2:30. Mrs. J. C. Porterfield will have charge of the program. Mesdames C. E. Linn, Henry Heartfield and Joseph Blake are assistant hostesses for the afternoon. All ladies interested in the work are invited to be present.

The War Mothers will hold their annual picnic at the country home of Mrs. Burt on Friday, July 15. Cars will be at the park to take all those who have no means of transportation at 10 o'clock. Let all the members come and enjoy a day's outing.

## W. J. ALLEN IS ELECTED OIL COMPANY EXECUTIVE

At a special meeting of the board of directors of the Idaho general oil company, W. J. Allen was elected president and general manager to succeed H. F. Allen, deceased.

The business will continue to be operated under the same general policy as have heretofore governed and which have proven so successful in the up-building of this local industry.

**CASE UNDER ADJUDICATION**  
In the case of Roy S. Hart and wife, against E. L. Turner and others, heard by Judge T. Bailey Lee in the district court chambers yesterday, the court, after all testimony taken, advised a decision could be rendered after making a review of the evidence introduced.

## Deaths

The body of Mrs. Ellen Colbert, aged 70, is at the Grosman mortuary chapel awaiting making of final arrangements for the funeral. Mrs. Colbert died early today at the home of her son, E. J. Colbert, one and a half miles south of Knoll. Funeral arrangements are in abeyance, pending word from relatives in a distant state.

## FUNERALS

Funeral services will be held at 9 o'clock tomorrow morning in St. Edward's Catholic church for Mrs. Carl A. Laris, whose death occurred here yesterday. Burial will be in Twin Falls cemetery.

## Today's Markets

## WHEAT STILL ADVANCING

Preponderance of Crop Reports Favor Bulls in Chicago Grain Pit

**CHICAGO, (AP)—**Reports of rains in Minnesota and elsewhere in the grain belt gave some advantage today to the bears in the wheat market. On the declines, however, buying increased, and the market rallied. Conditions in the northwest were reported as of a kind likely to promote the spread of black rust. Opening quotations, which varied from unchanged figures to 1 3/4c lower, with September \$1.28 3/4 to 1 1/2c and December \$1.29 1/2 to 1 1/2c, were followed by a moderate general advance, and then by rallies to about yesterday's finish.

Forecasts of cooler weather and of rains led to renewed selling, but the latter were more than offset by word of much black rust in Manitoba and of irreparable crop damage in the domestic spring crop belt. Prices closed strong, 3 1/4 to 4 1/4c up, with September \$1.31 3/4 to 1 1/2c and December \$1.35 to 1 1/2c.

Corn was easier with wheat. After opening 5/8 to 3/4 to 1 3/8c lower, including September at \$1 7/8 to \$2 1/2c, the market showed but little power to recover.

Subsequently selling on account of rains in Illinois brought about a sharp decline. The market closed steady, 1 1/2 to 1 1/2c lower, with September \$1 7/8 to 62c.

Oats underwent a setback at the opening, but hardened later when wheat rallied. The start was unchanged to 1 1/2c lower, September 40 to 40 1/8c.

Higher quotations on hogs strengthened provisions.

**Cash Quotations**  
**CHICAGO, (AP)—**Wheat No. 2 red \$1.27 to 1.28 1/2 to 1.30.

Corn No. 2 mixed 62 to 64 3/4c; No. 2 yellow 62 3/4 to 63 1/4c.

Oats No. 2 white 38 to 39c; No. 3 white 35 to 37c.

Rye No. 2 \$1.20 to 1.23 3/4.

Barley 60 to 70c.

Timothy seed \$4.50 to 5.

Clover seed \$15 to 16.

Pork nominal.

Lard \$11.42 to 11.47.

Hibs \$10.02 to \$10.50.

**Minneapolis Flour and Grain**  
**MINNEAPOLIS, Minn., (AP)—**Flour \$8.85 to 10.15.

Bran \$13.

Wheat receipts 128 cars, compared with 180 cars a year ago.

No. 1 Northern \$1.23 to 1.28; July \$1.35; September \$1.37 3/4; December \$1.38 1/2.

Corn No. 3 yellow 35 to 36c.

Oats No. 3 white 35 to 35 1/2c.

Barley No. 2 \$1.23 1/2 to 1.25 1/2.

Flax No. 1 \$1.01 1/2 to 1.02 1/2.

**Chicago Produce**  
**CHICAGO, (AP)—**Butter higher; creamery extras 39 1/2c; standards 39 1/2c; firsts 34 to 38 1/2c; seconds 30 to 33c.

Eggs unsettled; receipts 7,047 cases; firsts 28 1/2 to 29 1/2c; ordinary firsts 25 to 27c; at mark, cases included, to 28 1/2c.

Poultry alive higher; fowls 28c; broilers 28 to 30c.

**Omaha Livestock**  
**OMAHA, Neb., (AP)—**Hog receipts 8,000; mostly 15 to 25c higher; bulk better grades \$9.25 to \$9.50; packing grades \$8.75 to \$9.00.

Cattle receipts 3,000; good beef steers steady; others 10 to 15c lower; top weights steers \$8.80; butcher stock steady to strong; other classes steady.

Sheep receipts 15,000; mostly 15c to 25c lower; natives \$10 western \$10.50; other classes steady; feeding yearlings \$7.50; ewes, top \$4.85; feeding lambs \$6.65.

**Chicago Livestock**  
**CHICAGO, (AP)—**Cattle receipts 11,000; yearlings strong; beef steers steady; prime yearling steers and heifers \$9.50; bulk beef steers \$7.25 to 8.75; sho-stock 15 to 25c lower; bulk fat cows and heifers \$4.75 to 5.75; bulls \$5 to 5.50; butcher grades largely \$5.75 to 6.50; valid calves steady to out-riders; big packers bidding lower; stocker and feeder steady; fat lambs \$9.00 to 10.15; bulk packing sows \$8.40 to 8.85; pigs 10 to 15c higher; bulk desirable \$9.90 to 10.10.

Sheep receipts 17,000; sheep, c and w, steady; fat lambs around 25c lower; native lambs, top \$10; culls mostly \$8; four loads Oregon lambs \$10.75 sorted; Oregon 2 year old wethers \$6.40.

**New York Stock Market**  
**NEW YORK, (AP)—**Selected issues, particularly utilities, equipments, oils and tobaccos featured today's dull and reactionary stock market. Sales approximated 350,000 shares.

The strength of oils and chemicals and the heavy capitalization of equipments were the contrasting features at the opening of today's stock market. Mexican Petroleum, which enlivened yesterday's late dealings with a sudden advance of 7 points, was in further demand with Pan-American and Houston oils. Virginia Carolina Chemical preferred, Atlantic Gulf, Central Leather and American Tobacco saw considerable gains. Studabaker, Chandler, General Electric and American Sugar comprised much of their advance within the first half hour.

Mexican Petroleum, Gumatra Tobacco, General Electric and Western Union showed extreme losses of 2 to 5 points in the more general reversal of the last hour. The closing was heavy.

**Liberty Bonds**  
**NEW YORK, (AP)—**Liberty bonds closed 3 1/2's \$86.04; first 4's \$87.14; second 4's \$86.04; first 4's \$87.14; second 4's \$87.05; third 4's \$87.14.

\$91.10; fourth 4's \$87.15; Victory 3's 4's \$93.52; Victory 4's 4's \$93.54.

**Sugar**  
**NEW YORK, (AP)—**A local refiner bought 6,700 bags of Santo Domingo raw sugar this morning, now due, at \$11-10c ctf, basis 90 test, which is 1-10 above the last previous price paid by a local refiner. Owing to their desirability for export refined purposes, this does not change the local market which remains at \$4.37 for centrifugal.

Raw sugar futures were steadier on a little West Street covering and the steady feeling in raws, and the market at midday was about 4 to 6 points net higher.

The market for refined was steadier, with one refiner advancing \$5.75, the range now being \$5.50 to 5.75 for fine granulated.

Refined futures were dull and entirely nominal in absence of transactions.

**ORDINANCE NO. 12.**  
An Ordinance of the Village of Hansen, Idaho, Declaring Certain Acts to Be Public Offenses and Providing Penalties Therefor.

Be it ordained by the Chairman and Board of Trustees of the Village of Hansen, Idaho, as follows:

Section 1. Any person who shall commit an assault or battery on the same as defined by the statutes of the State of Idaho, within the limits of the Village of Hansen, shall, upon conviction thereof, be fined in any sum not to exceed one hundred dollars.

Section 2. If two or more persons assemble for the purpose of disturbing the peace of the Village of Hansen or for the purpose of committing any unlawful act within said Village and do not disperse on being commanded so to do by any policeman, marshal or chairman, the persons so offending shall, upon conviction thereof, be severally punished by a fine of not more than one hundred dollars.

Section 3. Any person who shall commit a breach of the peace within the limits of the Village of Hansen, by hawking or noisy acclamations, or by tumultuous or offensive language or by doing anything that shall be offensive to the senses or dangerous to the peace of the inhabitants of said Village, shall, upon conviction thereof, be punished by a fine not to exceed one hundred dollars.

Section 4. Any person who shall torture or cruelly beat or otherwise ill treat any horse, ox, or other animal within the limits of the Village of Hansen, shall, upon conviction thereof, be fined in any sum not to exceed one hundred dollars.

Section 5. Any person, excepting peace officers, who shall carry any concealed deadly weapon, without the permission of the Chairman and Board of Trustees of the Village of Hansen, shall, upon conviction thereof, be punished by a fine not exceeding one hundred dollars.

Section 6. Any person who shall be in a state of intoxication in any of the streets, alleys, public places, or any other place within the limits of the Village of Hansen, except his private residence, shall, upon conviction thereof, be fined in any sum not exceeding one hundred dollars.

Section 7. It shall be unlawful for two or more persons to engage in a fight within the limits of the Village of Hansen, and the persons guilty thereof shall, upon conviction, be fined in any sum not exceeding one hundred dollars.

Section 8. Any person who shall interfere with, resist, molest or threaten to molest any officer of the Village of Hansen, in the exercise of his official duty, shall, upon conviction thereof, be fined in any sum not exceeding one hundred dollars.

Section 9. Any person who shall utter or speak any obscene, lewd or profane language, or make any indecent or obscene exposure of his or her person, in the streets or in other public place of said Village of Hansen, shall, upon conviction thereof, be punished by a fine not exceeding one hundred dollars.

Section 10. Any person who shall commit petit larceny, as defined by the statutes of the State of Idaho, within the limits of the Village of Hansen, shall be deemed guilty of an offense, and, upon conviction thereof, shall be fined in any sum not exceeding one hundred dollars.

Section 11. Any person who shall injure or impair or mark or deface or cause to be injured or impaired or marked any public utility, street, or alley, or any building the property of another, within the limits of the Village of Hansen, shall, upon conviction thereof, be fined in any sum not exceeding one hundred dollars.

Section 12. Every person without any visible means of living, who has the physical ability to work, and who does not for the space of five days seek employment, or labor, or place, other than is kept for lodging purposes, without the permission of the owner or party entitled to the possession thereof; and every person who is idle and contented, or a vagrant, and, upon conviction thereof, shall be punished by a fine not exceeding one hundred dollars.

Section 13. This ordinance shall be in force and effect from and after its passage and publication.

Passed by the Board of Trustees of the Village of Hansen, Idaho, this 10th day of June, 1921.

J. E. SHAEFER, Chairman.

J. R. HALL, Village Clerk.

## OFFICERS FIND SLIM KENDRICK HIDING AT BUHL

Young Man who Made Dramatic Escape at Prison Gates, Run Down on Farm

After several weeks as a fugitive from justice O. R. (Slim) Kendrick is a prisoner. Kendrick was arrested yesterday afternoon by Sheriff E. B. Sherman and Deputy Sheriff H. C. Van Ausdalen at the home of his parents, near Buhl, Kendrick is alleged by authorities of Jerome county, to be a member of an organized gang of tire and auto accessories thieves, said to have been plotting the notorious vacation all over the extent of southern Idaho. Kendrick is the seventh man arrested on this charge. All are in the Jerome county jail. Kendrick was taken to that place yesterday following arrest near Buhl.

Kendrick, with Harold Smith, an alleged accomplice, was arrested several weeks ago at Hansen. The two men were brought to Twin Falls late at night by Constable Martin Arum of that place to be lodged in the county jail. No handcuffs or other detaining impediments were used in controlling the actions of the prisoners, and while the constable was opening the southwest door of the jailhouse to let his wards enter Kendrick made his escape.

Yesterday the county authorities got a whopper that Kendrick was working on a farm near Buhl. Sheriff Sherman and the deputy drove out to the farm. The people on the place explained that while Kendrick had done some work there he had left and was staying with his parents on a farm a short distance away. To this place the officers drove, finding the young man's mother and a sister in the yard. Questions concerning the fugitive elicited responses from both parent and sister that the man sought was not on the place.

Protection Falls.

While the sheriff cross-questioned the mother the sister broke away and started for the house. She was immediately followed and entered the house immediately after the girl. The officer explains that his suspicions were aroused by the girl's actions, and he investigated a door locked and the girl proved to be the entrance to the cellar and as Van Ausdalen peered into the basement he observed the legs of a man struggling toward an outside door. He caught the man by the leg and the fugitive continued in flight and succeeded in making his way outside before the deputy caught full sight of him. With the young man making preparations to run the officer pulled his gun and commanded Kendrick to stop. This time the fugitive obeyed and he was placed under arrest.

Sheriff White of Jerome took charge of Kendrick last evening.

**East is Looking to Idaho for Its Supplies of Seed**

Intimation is Contained in Letter from Michigan of Demand for Alsike

Alsike as well as clover and alfalfa seed promises to be in heavy demand through this district this fall. Inquiries are already reaching the office of the farm bureau executives relative to this seed. Agent H. E. Powers explains.

Indication of the demand is found in a letter written by W. F. Nicholson of the Michigan State Farm bureau, inquiring concerning the prospective crop and the probable chance of making purchases of the seed in this district.

Nicholson was in the Twin Falls section several weeks ago and made a thorough inspection of all fields. He demonstrated a special interest in alsike while here, his letter, received yesterday, resulting.

The Michigan authority intimates that alsike and clover seed, from heretofore, will be shipped in large consignments to his state this fall.

Now is the time to do it. Supply and quality are at their best right now. Raspberries for canning, 1 crate or 100 crates, \$3. Mail orders promptly filled. Ed Vance, Public Market.—adv.

Drive over to Filer Friday night. American Legion dance at Reybrock. Blue Bird orchestra.—adv.

## CHERRY BUSHES BEAR CLUSTERS OF RIPE FRUIT

J. A. Waters Has Unusual Variety of Producing Trees Imported from Orient

Bush cherries are to be seen growing at the J. A. Waters place north of town. The fruit is an entirely new variety to this district and more or less a novelty to horticulturists hereabouts.

Scientifically the new cherry is known as prunus tomentosa or oriental bush cherry. The fruit is slightly smaller than the ordinary pie cherry and grows in clusters, somewhat after the fashion of the chokecherry, instead of in groups of two and three. In flavor it is exactly like the common cherry, except that it is slightly sweeter.

Mr. Waters obtained and planted the first bushes of the oriental cherry four years ago. Last year he received the first fruit, a small but luscious cherry, more pit than meat. This year the fruit demonstrates the effect of greater maturity, being of greater volume and larger variety.

This season an unusual incident is noted in connection with the fruit crop. This being the production of a "sport" or variation from the regular order. The sport is a water white cherry having about the general appearance of a large white currant than a pit fruit. The "sport" is found on the same bush with the regular red cherry and lacks none of the flavor essentials found in the original. Mr. Waters planted 50 of these three cherry bushes, and only one bears anything other than the usual fruit.

## BAND CONCERT

The following program will be rendered at tonight's weekly band concert in this city park:

March, "Tuscarora" King  
Selection, From the Greenwich Village of 1920 Herbert  
Fox Trot, "Feather Your Nest" Vientner

Waltz, "Autumn Smiles" Bagley  
March, "El Capitan" Sousa  
Star-Spangled Banner.

## RETAIL PRICE FACTS ABOUT MEN'S WEAR

(From an analysis made by the National Association of Retail Clothiers through its 6200 members.)

One year ago men's and young men's clothing in the average retail store sold at \$37.50 to \$52.50.

Today that same clothing is selling at \$27.50 to \$42.50.

One year ago today boys' clothing in the average retail store sold at \$12.50 to \$22.50.

Today, that same clothing sells at \$7.50 to \$17.50.

One year ago today knitted underwear in the average retail store sold at \$2.00 to \$10.00.

Today, that same underwear sells at \$1.00 to \$7.00.

One year ago today felt hats in the average retail store sold at \$5.00 to \$17.50.

Today, the same hats can be bought at \$3.50 to \$10.00.

One year ago today silk hosiery in the average retail store sold at \$1.25 to \$3.00.

Today that same hosiery sells at 75 cents to \$2.00.

One year ago today the rent in the average retail clothing store cost \$3.92 for each \$100.00 of gross business.

This year the rent is \$4.25.

One year ago today it cost the average retail store \$2.16 to operate for each \$100.00 of gross business transacted.

This year it costs him \$25.21.

Expenses have climbed 14 per cent—adv.

## BODY TAKEN TO BUHL

The body of the young man, Hoover, taken from the high line canal, near Buhl, on Wednesday after drowning, is at the Buhl Undertaking establishment at Buhl awaiting completion of arrangements for the funeral.

Just Living in Hopes.

Just Tomkins says he's looking forward to a parade whose importance would be estimated by the number of hours it takes to pass a given point.

Fifty-cent cleaning special all this week. Idaho Cleaners and Dyers.—adv.

## TEAMS OF STARS TO PLAY TONIGHT FOR BOY SCOUTS

Main Avenue Championship Game Will Provide Fund to Assist City Lads

Two teams of star players will line up in battle formation tonight for the championship of Main avenue. The teams are composed of the best players of the Twilight league and have donated their services for this contest in order that benefit might accrue to the Boy Scouts of the city.

The contest is scheduled to get under way at 6:30 tonight, an hour when all Twilight league contests start on Lincoln field. The game itself is promoted by the two newspapers, The News for the south and the west side, The Times for the east and the north side. The men in the lineup are employed on the sides of the street they represent, and are not chosen with respect to their place of abode. Sid Kliefner, star shortstop of the Twilight league, has chosen the lineup for The News, and will manage the club and captain it during this game, while Ray Brown, of the Legion club, is in charge of The Times team.

An admission price of 25 cents will be charged all persons admitted to this game, all receipts, except what is needed to defray actual expenses, such as government tax and groundkeeper, being paid to the executive board in charge of the Boy Scout movement in Twin Falls. The fund thus acquired will be devoted to the rebuilding of Boy Scout purposes and practices and to aid the youngsters in endeavors of recreation.

**District Drawing Upon Water Store Held at Jackson**

Canal Company Manager Issues Interesting Weekly Statement of Condition

The total amount of water taken from the Jackson lake storage system, to date, is 5480 acre feet. Water diverted from the Snake river natural flow and from stored water at Milner, during the week just ended, amounts to 3000 second feet for the former, and 530 second feet for the latter. Seepage amounts to 22 second feet.

These figures are contained in a weekly report just issued by J. C. Wheeler, general manager of the Twin Falls Canal company, who adds, in his statement, that the Twin Falls system storage supply at Jackson is 5913 acre feet.

The weekly report reads:

Water diverted from Milner dam, 3520 second feet; water diverted from natural flow, 3000 second feet; water diverted stored water, 530 second feet; water passing Milner dam as waste, 22 second feet (seepage only).

Our total capacity in Jackson lake, 97,513 acre feet; our total draft on Jackson lake to date, 5480 acre feet, plus 3 per cent loss, 438 acre feet, or total of 5918 acre feet; our portion in Jackson lake to date, 51,262 acre feet.

## AGRICULTURAL EXPERT WILL INSPECT WHEAT

B. F. Sheehan to Spend Three Days on District Farms Beginning Friday

To conduct an inspection of wheat fields in this district, B. F. Sheehan, state agronomist of Boise, is expected to reach Twin Falls this evening. With H. E. Powers, agent of the Twin Falls county farm bureau, Mr. Sheehan will spend three days going over the district, concluding his work on Monday night. The examination is to be conducted for purposes of grain certification.

Following is tomorrow's itinerary for Mr. Sheehan and Powers:  
Leave farm bureau office 7 a. m.  
Harvey brothers, Elmhurst avenue, arrive 7:10; leave 7:30.

Young & McMillan, Addison avenue—Arrive 7:35; leave 8:05.

C. D. Irwin, Addison avenue—Arrive 8:10; leave 8:30.

J. D. Barnhart, Addison avenue—Arrive 8:35; leave 9:05.

Burnice Wolfley, east and north of Irwin's—Arrive 9:15; leave 9:35.

E. S. Wood, northwest of Kimberly—Arrive 10; leave 10:30.

Forbes Larson, east of Rock Creek school—Arrive 10:30; leave 10:50.

William N. Goodman, southwest of Murtagh—Arrive 11:30; leave 11:50.

William Silvers, southeast of Murtagh—Arrive 12:10 p. m.; leave 1:20.

Boss Decker, southeast of Murtagh—Arrive 1:30; leave 1:50.

Nephri Larsen, Rock Creek—Arrive 3; leave 3:30.

Forbes Larson, east of Rock Creek school—Arrive 3:50; leave 4:10.

Russell Larson, southwest of Rock Creek school—Arrive 4; leave 4:20.

Donald Kist, northwest of Excelsior—Arrive 4:40; leave 5:00.

John Baisch, south of Kimberly—Arrive 5:30; leave 5:50.

C. D. Brown, northwest of Baisch—Arrive 6:20; leave 6:40.

W. H. Turner, east of Kimberly—Arrive 6:50; leave 7:10.

## Day Proves Hot but Not Maker of New Record

THE mercury yesterday flitted to a fairly high point, but fell four marks short of the record.

Top for the day was 94, as against 98 for the season. Low at night was 51.

The weathermaker predicts fair weather for tomorrow, except for probable thunderstorms in the southeastern portion of the state.

Warrants have been issued on request of the county prosecutor, Frank L. Stophan, for the arrest of three Buhl district farmers, who are accused by neighbors of larceny of water.

The warrants were signed this morning by Judge W. A. Mallory, temporary presiding officer of the probate court; against Frank Sample, Work West and Ed Harding. In the last two cases Leo Shaver, a farmer, is named as complaining witness, while M. L. Jones makes accusation against Sample.

The three men are said to have tampered with official canal headgates, through which the canal company supplies water service to various farming districts in the Buhl neighborhood. The offenses are all said to have been committed on July 14.
