WORDS OF HIGH PRAISE SPOKEN FOR G. L. DAVIS

Gustave Kunze Says Head of Idaho Central is Man of Integrity and Ability

"If the people of this district have any doubts concerning the integrity and ability of G. L. Davis, president of the Idaho Central Railroad company, let them come to me for reference. I have known Mr. Davis since 1910 and have had many business dealings with him. He is square and all man; a capable railroad builder and a man of his word."

The foregoing statement was made by Gustave Kunze, pioneer dairy man and prominent Idaho business sponsor for the man who proposes to give the Twin Falls district a rail outlet to connect with trunk lines east and west out of Walla, Wyo.

Mr. Kunze was in Twin Falls Friday on his way to Buhl, his home, from a trip to Wisconsin and Iowa, where he represented the Arco, Idaho, chamber of commerce in matters pertaining to the stimulating of the dairy industry in the south end of Idaho. The dairy man reports Wisconsin farmers having entered the dairy industry on a large scale in past years. He says the failure of the corn market both Wisconsin and Iowa cattle men are planning intensive programs for still further widening the scope of the industry in those states.

WHEAT RATE REDUCTION PROFITS-LOCAL FARMERS

Total Sum of \$186,039 Comes to District Through Commission's Action

Taking the sum total of acres planted to wheat this year and allowing an average of 33 bushels to the single acre in yield, farmers of the Twin Falls north and south districts will have a lump sum aggregating \$186,039 through the operation of the freight reduction on wheat shipments ordered last Saturday by the interstate commerce commission.

ALVORDS BEAT ROBERTS' ELEVEN BY LARGE SCORE

Youths Put Up Stealing Battle on Ferris Field, Victors Scoring 31 to 0. In a scrimmage contest staged Saturday on Ferris field, the Alvords defeated the Roberts 31 to 0. The defeated eleven was outclassed from the start and only once threatened the Alvord goal. On that occasion the ball was recovered by the Alvords and kicked into the end zone.

FARMERS TO MAKE ROAD

Farmers along the line of road from the town of Buhl to the Ferris field, a quarter of a mile southeast to a junction with the sugar factory highway, will donate all the work for the construction of a rock and gravel surface street of highway. The district is to provide the material for surfacing the road. Work will be started immediately.

MUNICIPAL WATER DEPARTMENT BUSINESS SHOWS BIG INCREASE SINCE OPENING OF YEAR 1920

Statement of Revenues and Consumption Gratifying in Showing of City's Important Utility Institution—Cash Receipts in Past Year Nearly \$67,000; Greater This Season

According to actual figures and official estimates consumption of water, passing through the Twin Falls municipal filtration system, will be 2,181,584,000 gallons. Revenue for the 21 months, ending September 30 this year, was \$103,561.11. Consumption figures for the last three months of the year are estimated by John J. Pilgerim, superintendent of the water plant, at 218,000 gallons. These figures are based on consumption in the same months last year, adding a sufficient amount to represent what is considered normal increase.

The plant has shown a steady increase in business each month, with one exception, since the closing of 1919. The exception is found in May of the present year, when, due to heavy rains, demand for irrigation purposes was lighter than in the corresponding month in 1920.

FRIDAY HORROR NIGHT FOR HOME MOTORISTS

Municipal Ford Cast Up on the Parking in Collision; Two Other Accidents Occur

A municipal Ford driven by Officer Ray Brown was Friday night struck by a heavier machine owned by Fred Spencer and badly jammed in the collision. Neither driver was hurt to any extent. The city car was being driven east on Second street north, Spencer's car coming along Sixth avenue toward Shoshone street. In the collision the city car was thrown from the pavement on the parking, crashing against a tree. Responsibility has not yet been fixed, but in police circles a statement is made that Brown had right of way over the Spencer car.

DAIRY INDUSTRY STIMULUS PLAN IS CONSIDERED

Local Businessmen Propose Association to Take Advantage of Loan

Plans for purchasing and importing from 1,000 to 3,500 high grade, products-tested dairy cows...

White interest consideration has been given during the past few weeks to a proposal to form an association...

Use Government Funds

The plan worked out by the north side business men in this project involves a loan of sufficient government money to guarantee the purchase and transporting of 3,000 dairy stock to the north side.

Mr. Shephard, who has just returned from a trip to certain central states, has indicated a guaranteed dairy stock to investing purchasers...

Price Reasonable

Statistics submitted by Mr. Shephard showed that mature, high grade milk cows selling by all methods...

Mr. Shephard's research also developed the fact that the present railroad company will transport the stock by express freight in 60 hours time between consignment place and point of unloading.

The plan for taking advantage of the War Finance corporation's offer here is to form an association with a capitalization of from \$30,000 up, this stock to be made up by subscriptions.

The cattle purchase proposal is to be given further and probably final consideration at the annual meeting of the Twin Falls Chamber of Commerce next week.

HANSEN-BLISS HIGHWAY SOON WILL BE READY

Only Two Short Pieces Remain to be Finished in the Long Stretch of Highway

J. H. Shoemaker, federal inspector for government projects, is in Twin Falls to inspect the section of concrete highway from Curry to a point about three miles west of Pler which has just been completed.

With two strips yet to be finished, a hard surfaced road will extend from Hansen to Bliss. The first of these in complete sections is one and eight-tenths miles between the end of Buhl highway and the Filer highway.

The second uncompleted section lies three miles west of Buhl. This will be gravelled and should be finished about the same time as the first section mentioned. Funds for the completion of this strip will be forthcoming from the sale of the state highway bonds.

USERS' ASSOCIATION ENGINEERS REDUCE POWER COMPANY FIGURES

Mayor Sherman, of Boise, Tells of \$4,200,000 Reduction in Inventory Valuation Filed with the Public Utilities Commission - Urges Twin Falls Representation at Hearing November 1

Urging payment of the final installment of pledge for the support of work planned by the Southern Idaho Light & Power Users' association, and also urging upon the municipal governors the necessity of sending a local delegate to attend an important meeting in Boise on November 1.

The primary purpose for which the users' association was formed several months ago was to conduct an investigation of an inventory of physical valuation of property owned by the Idaho Power Co., filed with the public utilities commission some time ago.

In his letter, which his general chairman, Mr. Sherman, tells of strenuous efforts to make good showing in fixing a valuation of company property, will show a reduction of \$4,200,000 over the figures given by the company.

Following is the Sherman letter: "The work of the Southern Idaho Light & Power Users' association is now drawing to a crisis. On November 1, the company is making good showing in fixing a valuation of company property, will show a reduction of \$4,200,000 over the figures given by the company."

His figures on the tangible properties of the Idaho Power company are not yet given but on the intangible assets the reduction will show a reduction of over four million dollars in value.

"Please give this matter your earliest attention so that a full settlement of bills may be made and a full account filed at the time of this hearing on November 1."

EMPLOYMENT OF VARSITY CADET POLICE MATRON BATTALION HAS COUNCIL'S PLAN FOUR COMPANIES

Curfew and Dance Hall Law to be Rigidly Enforced, Officers Declare

For the purpose of regulating juvenile attendance at public dance the city department of public safety has decided to add a matron to the police department.

Decision to engage the services of a woman in whom to vest police powers with special jurisdiction over juveniles attending public dances, and otherwise violating the curfew law of the municipality, was arrived at after discussion at Monday night's session of city administrators.

The council members had in mind engaging Miss Alice Johnson, principal at the high school, as police matron, and although no definite arrangement has been made with Miss Johnson for this position, the council has been given to understand that if the proposal is agreeable to the school board and consistent with Miss Johnson's contract with that board, she will take the position more as duty to the welfare of the young people of the community, whether or not they are in schools.

In connection with the proposed appointment of a police matron the city council issues a mandatory order to all city officers of the law to immediately start operations of enforcing the curfew ordinance as written in the municipal statute book. This law requires all youngsters 16 and under to be at home by 9 o'clock in the evening, and prohibits such from attending public dances unless under the guardianship of parents or some other responsible person.

Halloween of Pagan Origin. Halloween, or All Hallow's eve, is clearly a relic of pagan times, for there is much superstition, but little of the exorcising of evil spirits, which have originated such extraordinary notions as are connected with this celebrated festival, or such remarkable practices as those by which it is distinguished. In Roman Catholic countries, Halloween is the occasion for visiting the graves of friends and relatives, but in parts of Scotland and elsewhere the night is devoted to merry-making and divination of the future.

EXPANSION OF BUILDING SEEN ON WEST COAST

Federal Reserve Agent's Report Notes Easier Credit Conditions Resulting from Marketing of Crops

SAN FRANCISCO, Cal. (AP)—Expansion of building trade activity is noteworthy in the industrial field in the Twelfth Federal Reserve district, John Ferris, Federal reserve agent here, declared in his report for September, made public here today.

September building returns from 20 principal cities reached the highest point since 1917, with the number of permits 19 per cent and their value 17.6 per cent greater than the corresponding totals for September, 1920, the report said.

Active cargo buying and large seasonal orders from domestic consumers during September produced a volume of new business for the reporting lumber mills of the district greater than the amount reported for any month since May, 1920. Lumber production in the first week of October was reported 80 per cent of normal.

Continuing declines in prices of materials have operated to encourage silver and gold mining in the district, particularly the deep, as distinguished from placer, gold mines and a moderate increase of activity is noted in these fields.

Crop Marketing Eases Credit

Prompt marketing of the abundant crops of this district was reflected during the past month in an easier credit condition, particularly in the rural sections of this district. For the first time in more than a year and a half the customary rate charged customers by banks in the leading financial center of the intermountain states, Idaho, Utah and Nevada, is reported to be 1.5 per cent greater than last year. Combined discounts of all country banks in the district show a steady decline since August 1st, and the total of \$60,000,000 under rediscount for country banks on October 4 was less than the total at any time since early summer. Funds received have apparently supplied the credit need which in normal years is met by an increase of bank borrowings at the seasons.

The statement of the 65 reporting members in this district as of October 3 last shows that their borrowings during the past month from the Federal Reserve bank have not increased, despite a small expansion, \$3,723,000, in loans to their customers.

Petroleum production in California during September on account of a strike, was the smallest monthly production in two and a half years, and for the first time this year consumption exceeded production, with a resultant decrease in storage stocks.

Trade Increasingly Active

Both retail and wholesale trade experienced the increased activity customary in September as compared with August. Sales of 30 representative departments during September were 4.7 per cent less in dollar value than in September, 1920, whereas similar percentages in the 10 lines of whole trade reported to this bank were from 1.6 per cent in the case of automobile tires to 52.7 per cent in the case of agricultural implements.

Having regard for the greater percentage of decline in wholesale than in retail prices, it is probably true that the physical volume of goods now moving at wholesale, with the exception of agricultural implements and perhaps

stationery, is about the same as that of September, 1920, while the volume of retail movement is appreciably larger than it was a year ago.

Slightly increased employment in the four largest cities of the district during September scarcely counterbalanced the cessation of harvest activities in many rural districts, and the net change in employment conditions during the month has been negligible.

The heavy marketing of grain observed in August has continued during the month of September. Receipts at seaboard cities in the Pacific Northwest thus far this season have been 114 per cent greater than those of the corresponding period of 1920. Activity in flour milling has increased substantially, 64 reporting mills now operating at 63 per cent of capacity compared with 43 per cent a month ago and 44 per cent in September, 1920. Receipting mills assign as a reason for this activity an increase in both domestic and foreign demand for flour.

Other Seasonal Crops Moving

Other seasonal crops of this district now moving to market are apples from the Pacific northwest, cotton from Arizona and southern California, rice from northern California, and California specialty fruits such as raisins, prunes, almonds and walnuts. The early maturity of the apple crops of the Pacific northwest has permitted shipments so far this season 200 per cent greater in amount than those of last year at the same date, and at prices which have averaged approximately the same as those received in 1920. Cotton growers in the district have been particularly benefited by the recent increase in cotton prices, inasmuch as there has been no loss of crop due to the weevil, this pest not having infested the cotton growing areas of this district.

In California the substantial entry over of their 1920 crop, which a few months ago was disturbing the producers of raisins and prunes in California, is now reported to have been sold and demand for the new crops is steady at opening prices. Almonds and walnuts, of which commodities California grows over 90 per cent of the United States production have been bought rapidly at opening prices and growers have now practically sold out.

THIRTY-FOUR COUNTIES IN ANNUAL SEED SHOW

About \$1500 Offered to Producers of State in Premiums at Idaho Falls

BOISE, Idaho—The Eleventh Annual Idaho State Seed show will be held January 10-13, at Idaho Falls, Idaho. The show is held at a different city in the state each year, in order that the results of the pure seed movement may be brought home to the producers in the various sections. It is a seed growers' meeting place, where problems peculiar to the seed growers can be thoroughly and intelligently discussed.

Seed from 34 counties in the state was entered in competition last year. The premiums were offered to the three best samples in each class. This year there are from five to seven prizes in each class. Approximately \$1500 is offered to the growers of the state in prizes, besides the advertisement received as a result of preparing samples of grain, small seeds, potatoes, corn, peas, grasses and sheaves for the state seed show.

The quality of Idaho grown seed has an equal last year. Idaho received the distinction of taking first, second, fourth and sixth on alfalfa; first on red clover; first and second on clover and sweet clover; second, third and fourth on Dickel's wheat and tenth on Turkey Red wheat at the International Grain and Hay show at Chicago, in competition with the entire country and Canada.

This year the state has been granted a 25-foot space for an educational display at the International Grain and Hay show, November 26 to December 3, at Chicago. The highest quality of seed produced in the state will be put in competition, and used in this educational display. The entire exhibit will be returned to Idaho Falls and set up at the seed show.

C. B. Ahlson, acting field agronomist and state seed commissioner, has been appointed to care for the collecting and arranging of this exhibit at the International show at Chicago.

Information concerning the state seed show can be obtained through the farm bureau offices.

EGYPT'S MARKET TRADERS' PRIZE

Americans Fight to Retain the Foothold Developed During War

CAIRO, (AP)—American business men in Egypt are fighting to retain the trade between America and Egypt which was developed during the war when the nations of Europe were too busy to attend to their foreign trade. This war-time trade gave American exporters a foothold, but since the war American competition has been resumed.

The establishment of an agency in Egypt of the United States shipping board, followed closely by the opening of branches of the American Express company, tax concessions and encouragement of the American colony here. Individual Americans have created local American firms in association with Egyptian business men to promote trade with America and have created the organization necessary to handle the interests of American manufacturers and shippers.

Exerts Every Effort

The recently organized American Chamber of Commerce is exerting every effort to assist American business interests to meet the keen European competition and to maintain the enviable position secured during the past few years.

Prior to 1914, the United States was comparatively a small factor in Egypt's trade. During the war when Egypt was cut off from the manufacturing centers of Central Europe and the Egyptian importer turned to American and Japan, American goods flooded into Egypt and the buying public became familiar with American products. This marked the first step in the development of America's trade with Egypt.

War prices for cotton greatly enriched the country and America benefited by the increased importations of luxuries, especially of automobiles and by a good business in wheat and flour. The enormous increase in business compelled the American tire manufacturers to buy large quantities of the long staple Egyptian cotton, importing in 1919 over 250,000 bales. The English coal strikers brought big coal contracts to America. Thus in a few

One King That Does Not Want a Throne

King Alexander refuses to return to his throne in Belgrade, Jugoslavina, and all persuasive powers used upon him are of no avail. Alexander fears the dislike of a few of his countrymen, and prefers the pleasures of Paris and the comforts of peace in polite society to the nightmare of revolution, republicanism and anti-dynasticism. Hence his decision to stay where he is in Gay Paree.

Interest Is Aroused

By 1919 American exporters realized somewhat the importance of the Egyptian market, and some export houses established branches in Alexandria and Cairo. Inexperience and the world crisis combined to defeat these attempts of the American exporters in many cases, but interest has been aroused and American trade is active in keeping its foothold.

SHANGHAI COUNCIL WILL NOT LOWER HIGH RENTS

Decision Displeas Hopes of Tenants for Relief from Landlord's Heavy Exactions

SHANGHAI, (AP)—Hopes of effecting any reduction of inordinately high rents in Shanghai, through legislative action have been dashed by an announcement of the municipal council holding that the council has no power to act on the question. This announcement was made in response to various proposals that have been made in recent months urging compulsory limitation of rental charges.

"It would appear," says the announcement, "that the remedy, sooner or later lies in the operation of the law of supply and demand since if rents are set too high as to make building operations unprofitable, the building of more houses will be speedily induced until the supply is equal to or overtakes the demand."

At Varney's

THE LIVE CANDY MAN

A Mystery Cake

Can you name it?

Here is another new Royal Cake, so delicious and appetizing that we have been unable to give it a name that does justice to its unusual qualities. It can be made just right only with Royal Baking Powder. Will you make it and name it?

\$500 for the Best Names

For the name selected as best, we will pay \$250. For the second, third, fourth, and fifth choice, we will pay \$100, \$75, \$50, and \$25 respectively.

Anyone may enter the contest, but only one name from each person will be considered.

How to make it

Use level measurements for all materials

1/2 cup shortening	2 tablespoons orange juice
1 cup sugar	2 eggs white
1/2 cup milk	1/2 cup white
1 egg and 1 yolk	1/2 cup white
1/2 cup flour	1/2 cup white
1/2 cup Royal Baking Powder	1/2 cup white
1/2 cup milk	1/2 cup white
1/2 cup milk	1/2 cup white
1/2 cup milk	1/2 cup white

Put batter, sugar, orange juice and rind into bowl. Beat all together until smooth. Fold in beaten egg whites. Spread this layer on layer used for top of cake. While filling is soft, sprinkle with unsweetened chocolate shaved in fine pieces with sharp knife (use 1/2 square). To remaining layer add 1/2 square unsweetened chocolate which has been melted. Spread this thickly between layers and on sides of cake.

Introducing "Captain Bill," Licensed Pilot

Here is "Captain Bill," in private life Mrs. Hannah Schuyler, of Far Backaway, N. Y. who has the distinction of being the second woman to receive a pilot's license from the New York Board of Steamboat Inspectors. Mrs. Schuyler passed the examination with flying colors. Explaining her desire for the license, "Captain Bill" said: "My husband takes out fishing parties of men and, in addition, is often asked to take out parties of women who want to fish. But he has often complained that when he takes out women he finds that they talk too much about everything in the world but fishing. Now he will take out the men and I will take out the women. Simple, isn't it?"

JAPAN'S STAND CLEARS WAY TO CONGLAVE GOAL

State Department Indicates Satisfaction with Ex- pressions of Officials from the Oriental Monarchy

WASHINGTON, (AP)—Manifest satisfaction was expressed today at the state department with such expressions in regard to the Washington conference on arms limitation and Pacific problems as have been made public by the Japanese officials already arrived, and by members of delegations from the United States or soon to leave for Washington. The expressions, it was said, were regarded here as going far toward assuring in advance a large measure of success to the conference.

Conference Scope Settled.

It was also made clear today that there is no purpose on the part of the Washington government to extend the scope of the discussion beyond what has been mapped out in the agenda. The purpose of the major conference is to clear the way for an agreement on limitation of national armaments and it is intended to hew to the line of this purpose as closely as possible.

It may be said authoritatively that appeals which have come from Hebrew sources for consideration of questions of racial equality and religious freedom will not come before the Washington conference. The American cardinal principle of religious liberty is held not to be involved.

No Invitation for Germany.

It also may be said definitely that there is no purpose to invite official or unofficial German representation at the conference. This, it was indicated, does not imply that the United States is unwilling to talk with Germany or with any other power on any subject of mutual interest at any time.

Today's Markets

WHEAT MARKET DECLINES BUT MOVES AHEAD AGAIN

CHICAGO, (AP)—General commission house selling brought about material declines in the wheat market today. British factors included talk of export offers at Winnipeg and assertions that Germany would be out of the market until spring. Besides, the Argentine wheat crop was officially estimated at 7,000,000 bushels larger than last year's total. Opening quotations, which varied from unchanged figures to 1-1/8 lower, with December \$1.06 1/2 to 1.07 and May \$1.10 1/4 to 1.11 1/4, were followed by setbacks all around.

Subsequently the market scored a temporary advance, predictions being current that there would be no rail strikes. An elevator fire at Montreal counted also as a transient bullish influence. The close was unsettled at 3-8 to 1-1/8 net decline, with December \$1.06 1/2 and May \$1.10 3/4 to 1.10 7/8.

Corn and oats descended with wheat. Corn opened a shade to 3-8 to 1-1/2 lower, May 53 1/4 to 53 1/2, and then rose 1/2 further. Subsequently, corn rallied when best developed strength. The close however, was weak, 1-2 to 5-8 net lower, with May at 52 7/8 to 53 to 53c.

Oats after starting 1-8 to 1-3/4 off, May 38 to 38 1/2, underwent additional downturns. Provisions were steadied by strength in the hog market.

New York Stock Market

NEW YORK, (AP)—The railroad labor problem imposed further restrictions on the stock market in the first half of today's session, but prices of many issues, including rails, strengthened substantially later. Sales approximated 600,000 shares.

Overnight developments in the railroad labor situation invited extension of the short interests in the early stages of today's stock market. Railroad shares were less affected than those of other industries and specialties which featured the recent rally. Oils, steels and equipments gave way fractionally to a full point. Pressure was most marked against Mexican and Pan-American Petroleum, Royal Dutch, Bethlehem and Crucible Steels, Baldwin Locomotive, Great Northern and Northern Pacific. National Clark and Suit preferred, Famous Players and United States Realty also were heavy. A moderate reversal in German marks featured the early dealings in foreign exchange.

Call money rose to six per cent in the last hour, but gains of the mid-session were held when, not only the Pacific oils and steels and utilities were in especial demand at gains of 1-1/8 to 3 points. The closing was strong. Bonds were firm. Victory 3 3/4's making a net high record for the year.

HIGH SCHOOL NOTES

R. H. Smith, state entomologist, conducted a field trip for a group of agricultural students at the high school last Wednesday forenoon. The class that made the trip was Warren E. Crabtree's "Farm Corps." An economic study was made of injurious insects on common crops of Twin Falls tract at the stage of entrance to winter quarters. The students brought back many specimens to the agriculture laboratory for identification and further study.

Work is going on steadily in preparation for a freshman reception to be held in the high school on Friday evening.

SCOUTS PREPARE TO HELP LEGION AGAINST ICE DAY

Disciplinary Drills Mark Evening Practice—Many Leads Pass High Test

Disciplinary and parliamentary drills games of team work practice, reception of new members and refreshments comprised the weekly meeting program of Troop No. 4, Boy Scouts of America held last night. The outdoor exercises were conducted in front of the Farm Service headquarters on Second avenue south, with Walter Weaver, who has had considerable military training, in charge. This young man served in the absence of Sidney Gray, who is official drill master of the scouts.

Flood Is Planned

Troop No. 4 is composed of 23 boys ranging in age from 12 to 18. Donald McLean is scoutmaster. Last night's drilling was especially in preparation for scout exercises in connection with the Legion celebration on Armistice day. The scouts of the city and district are to have a prominent part in that festival. They have planned a float demonstrating scout camp activities. Last night's parliamentary drill was held in the Farm Service rooms in the basement of the Coberan block at the corner of Second avenue and Shoshone street south, with Vernon Murray acting as chairman. Carl Hanu acted as secretary of the meeting. The new members, received in Troop No. 4 last night, are: Nowell H. aged 15, Ross Cole and Carl Dickford, aged 16.

Pass Muster

At a recent test, conducted by officers of the Boy Scout order here, the following scouts took their first class swimming test at Hambury natatorium: David Alford, Vernon Murray, Wilton Jackson, Wilford Wilson, Kenneth Renshall, Ross Cole, Robert Anderson, Wayne Grover, Wallace Caldwell, Harold Ellsworth, Lewis Jain, Clark Beebe, Arthur Venzky, Verne La Motte, Charles Brown, Howard Brown, Edward Bantler, George Winstler, Edwin Siggins, John Robertson, Bernard Marilyn, Leonard Mee, Wayne Johnson, Donald Lenz, Edward Martin, William Ginnis, Clyde Westfall, Dean Tracey, Vance Sheffer, Wallace Wilkinson, Ralph Ormsby, Monroe Austin, Newell Hall, Holman Gray.

SMITH WORKS FOR LOANS ON SALMON TRACT FARMS

Congressman Asks the Federal Agency to Investigate Irrigation Project Status

WASHINGTON, D. C., (Special to The News).—Congressman Smith of Idaho has requested the federal farm loan board to have an investigation of the Shoshone irrigation project, with a view of ascertaining the sufficiency of the water supply, and the stability of the irrigation system, with the hope of enabling the farmers on this tract to secure loans from the federal farm loan bank at Spokane. Applications for loans heretofore filed have been rejected because of the lack of information, and Mr. Smith states that he believes on investigation it will be found that there is an ample supply of water and that the system is substantially constructed, and that the farmers on this tract meet the requirements of the federal farm loan act. The federal government has issued patent to the state for about 35,000 acres within the project, and the state has issued patent to the individual settlers.

REJECT MINERS' PEACE PROFFER

West Virginia Coal Operators Refuse to Deal with Union Organization

WASHINGTON, (AP).—Peace proposals of the union miners in West Virginia were cast aside today by counsel for the coal operators at the hearing before the senate investigating committee. Proposals of a settlement, put forward by Frank P. Walsh, miners' counsel, and Philip Murray, vice president of the United Mine Workers, were met with a declaration from the operators that they had no dealings with the United Mine Workers.

Mr. Walsh called the committee's attention to the settlement plan, submitted Monday by Mr. Murray, involving use of the committee's mediatory offices. Hardly had Mr. Walsh finished when Z. T. Vinson, the operators' chief counsel, was given the floor with a reply. "The committee knows our attitude. We will not have anything whatever to do under any circumstances with the United Mine Workers of America, or their representatives," he said. "We will have conferences with a lot of outsiders under any circumstances, either separately, through this honorable committee, through the president of the United States, or anybody else."

IRISH PROBLEM HAS NEW CLAIM UPON PREMIER

Possibility that Lloyd George May Have to Abandon Visit to Washington is Suggested by Developments

LONDON, (AP).—Prime Minister Lloyd George today proposed to the house of commons that it set aside next Monday for a discussion on the motion of unionist members of parliament condemning the present negotiations with representatives of Sinn Fein Ireland. He said he hoped there would be a vote on the question.

LONDON, (AP).—Prime Minister Lloyd George probably will have to abandon his visit to Washington, or at least postpone it until the closing sessions of the conference there, because of the critical situation in the negotiations with Sinn Fein Ireland, it was asserted by several well-informed newspaper here today.

Rumors Prevail

Various reports concerning the Irish negotiations were current here today but they carried little weight, owing to the contrary observed by both sides. The Daily Graphic printed a rumor that the negotiations had been suspended. It was said the Daily Evening representatives were insistently urging the claims of the Catholic population of the counties of Tyrone and Fermanagh for inclusion in southern Ireland.

In the meantime, the restiveness of the English unionists was manifestly increasing, and although many unionist members of parliament still refused to subscribe to the proposed vote of censure of the government, their suspicions toward the negotiations were said to be growing. Newspapers which at first minimized the importance of this unionist "revolt" are treating it more seriously today.

State of Siege is Declared in Sofia

SOFIA, (AP).—A state of siege has been declared in this city and in governmental departments along the frontier between Jugo-Slavia and Macedonia. Premier Stamboulisky yesterday attributed the assassination of Alexander Dimitroff, minister of war last Saturday to agents of Macedonian elements endeavoring, despite the Bulgarian government's prohibition, to form revolutionary units to be sent into Serbian Macedonia.

Wright's A GOOD PLACE TO TRADE

Other Friday Specials

We expect Friday to be a very busy day for we are offering some exceptional values in the Ready-to-Wear Department. In addition to those advertised before we want to call your attention to some other very-out of the ordinary values that may be had Friday and Saturday. The store fairly teems with new Fall stocks at very reasonable prices.

Novelty Sweaters

Yes, they are here again. We had sold so many that we hardly dared to order them again. But so many calls came in that we wired for them, just 24, and they are here for your selection. Brushed wool, tuxedo fronts, a good range of colors. Come early.

\$2.95

Prunella Skirts

This particular assortment that just came in made necessary the marking down of a number of skirts in stock. They are the same quality, styles and color combinations that we had at \$10.50 just a few weeks ago. The price is the result of a "buy" of 1,000 of them. Our allotment was 50. You will be delighted with them.

\$7.50

Jersey Silk Vests

We are glad to offer this good weight, all silk jersey vest at a price lower than usual. They have the bodice top with ribbon shoulders. It would pay to buy some of them as gifts for your friends.

\$1.95

Flannel Jumper Dresses

The ideal school suit. These little dresses are made of red and navy flannel trimmed with white. Most any kind of waist may be worn with them. They match the middies that are being worn. Three of them came in last Saturday and were gone by noon. We have 15 more of them for your approval.

\$7.50

Umbrellas

The little rain of yesterday reminded us that we had just received some very exceptional values in umbrellas. We offer a good, strong umbrella with an attractive handle at the lowest price we have had in years. There are 15 of these, so come early.

\$1.39

Jap Crepe Kimonos

We bought a big line of them in a number of assorted patterns. They launder beautifully and the colors are fast. Just the thing to slip on of a morning. The colors are old rose, jade, lavender, blue, pink, etc.

TWIN FALLS WEEKLY NEWS

Established 1904

SEED GROWERS' OPPORTUNITY

Opportunity is presented to Idaho seed growers by a situation in respect to dealers' marketing practices that apparently was wholly bad.

In past years, according to H. K. Wiley, president of the Idaho State Seed Growers' Association, the highly-colored Idaho seed has been blended with the poorer grades of seed produced in the eastern states.

There are just two things that the Idaho grower can do about it. He can sit and hope and wait until the market itself, or he can go ahead and enter the market himself.

Indications point to disposition to adopt the latter course, and opportunity lies this way. There is abundant precedent in this direction among the activities of growers of other products.

Apparently one way or another by hook or by crook the railroad strike is going to be scotched.

Not that public sympathy is with the railroads—far from it. The railroads of America today are being tolerated by the public in the hopes that if given time enough they will eventually succeed in gathering their shattered energies and organizing themselves into real public servants and public conveniences.

But if the strike has been actually decided upon and leaders and workers really figure that a walkout is inevitable by all means let it come and the sooner the better.

A general railroad strike would be a calamity but it would also be one of the greatest factors in the equalizing of costs and the readjustment of the financial situation now confronting the country which it would be possible to bring about.

THE WORLD'S WHEAT CROP

Leaving Russia out of the calculation, the world's wheat crop this year is, according to government estimates, just 4,000,000 bushels less than the five-year annual production before the war began.

The pre-war five-year average of our wheat production was 680,000,000 bushels. Last year we had a crop totalling 787,000,000 bushels and this year it is estimated American fields yielded 754,000,000 bushels of wheat.

The apparent world shortage, exclusive of Russia, is accentuated this year by a seeming return to normal consumption of wheat in all the countries.

SOCIETY

About 30 young people enjoyed a "backyard" social at the parlors of Methodist church Thursday evening arranged by a committee from the Christian Endeavor society.

The Episcopal Guild met at the home of Mrs. J. H. Holtwell of 723rd avenue north Thursday afternoon with about 30 members present.

The Presbyterian Aid society met at the home of Mrs. Fred Spencer on Sixth avenue north Thursday afternoon.

A Halloween party for the children of the Beginners' department and the Cradle Roll department of the Methodist Sunday school given Thursday afternoon at the parlors of the Methodist church under the direction of Mrs. E.

the purpose to have wheat. The demand continuing, prices naturally would be bid up even though we kept the usual surplus within our borders.

THE SILVER LINING

There is no getting around the fact that the times are hard for some, and, perhaps, a great many of those who are engaged in the primary industry of agriculture.

Banks, under pressure of the federal system, are calling in loans made last spring to finance this year's farming operations and are collecting in some instances every dollar that the crop brings on the market and handing back to the producer only enough to provide for his living during the winter and to permit him to resume his farming operations in the spring.

Conditions for the average farmer are bleak to a bread and butter basis with a vengeance. Coming on top of a situation last year that brought the farming industry generally to the verge of ruin, developments in their relation to agriculture this year have brought about a condition that few industries could survive.

But even so dark a cloud cannot be without its silver lining; and particularly is there ground for optimism and confidence in the final outcome for the farmer in the Twin Falls country.

It is a pretty generally known fact that any real farmer who started in this year without financial incubance made wages and better even with wheat selling at the lowest price in a decade; hardly worth the cost of setting a match to it, and serious inroads on sugar beet and seed production.

And it is upon this fact that hope for the future rests securely. If the man on the land can break even in the face of all these adversities with which he is confronted this year, there can be no question about his success when a normal relationship between agriculture and other industries shall be restored.

AN UNCOMPLETED OBLIGATION

Because the American Red Cross received unusual attention during the war, is no reason for believing that in these less spectacular times it is doing no work, or work of less importance.

Last year the national Red Cross spent approximately \$10,000,000 in serving disabled service men and their families in ways that are not embraced within the scope of government activities, but which are no less necessary.

Statement made through the office of the Surgeon General that the number of disabled would not be known before 1925, is being demonstrated each year. The office of the Twin Falls chapter has served several hundred cases, and work is not decreasing.

On Armistice Day the fifth annual roll call will be initiated. The registration of membership will be begun on that day and carried on until Thanksgiving when every man, woman and child will have been given an opportunity to help with the most effective form of relief work yet devised.

L. Hughes and Mrs. B. D. Stover was a very enjoyable affair and largely attended by the little people and their mothers.

Church business and recreational diversions occupied the members of the Baptist Ladies' Aid society at the parlors of the church Thursday afternoon.

The "Cheerful Workers" class of the Baptist Sunday school, Mrs. C. L. Conrad, teacher, held a local social at Baptist luncheon Thursday evening to which all the young people of the church were invited.

The installation of officers and discussion of plans for the work of the year occupied the time at the meeting of the War Mothers in the parlors of the Presbyterian church Friday.

Harvey on Visit—Joseph Harvey, formerly of Twin Falls, editor of the East Oregonian, Pendleton, is in Twin Falls for the week.

Mothers will take an active part in the Legion Fall festival if determined and plans were laid toward that end. The usual social hour was omitted because of a press of business.

The dramatic art and literature department of the Twentieth Century club met at the home of Mrs. H. J. Young Friday afternoon, in charge of Mrs. H. J. Young.

Return to Twin Falls—Mr. and Mrs. Carl Hafer, former residents of Twin Falls, returned Friday to make their home here again.

Miss Norma Schaff and B. T. Logan were married at 3 o'clock Saturday afternoon at home of the bride's sister, Mrs. H. J. Young.

Mrs. Logan, who is a graduate nurse, has lived in Twin Falls for the past three years having made her home with Mrs. H. J. Young.

Mrs. W. R. Amshary entertained with three tables of bridge Tuesday afternoon. Mrs. George Sprague was the guest for high scores.

Miss Marian Farrar and Joseph Harvey were married at the home of the bride's parents, Mr. and Mrs. H. W. Farrar, at 337 Second avenue north, at 11 o'clock Saturday afternoon.

The bride, who was attended by little Helen Child as flower girl, wore white satin and carried an arm full of bouquet of roses.

Miss Louise Patrick entertained a family party at her home on 7th avenue Monday evening complimenting Miss Marian Farrar.

Business women held a regular meeting Monday evening at the club rooms. Following the regular business meeting, the afternoon was spent with games.

Return in Spring—Mr. and Mrs. G. A. Duffin who have been the guests of their daughter, Mrs. William Stoddard, have gone to California to spend the winter. They are expected to return in August, and announce their intention of making another visit here in the spring, before returning to their home in Wisconsin.

Born—To Mr. and Mrs. D. A. Salmon of 372 Tenth avenue east, October 25, a daughter.

HANSEN BUTTE WATERING PLAN DINNER THEME

Fiscal Agents Give Favorable Report of Survey Findings on Project

While no definite announcement assuring the financing of the Murtough irrigation project at Hansen butte, was made, the Twin Falls business men assembled last night at a dinner at which representatives of a Denver fiscal company were guests, heard these agents express opinions of a gratifyingly optimistic character both of the project especially and the Twin Falls district in general.

The fiscal company representatives are Mr. C. G. Munson and Mr. Cullerton. They are delegated by the Denver concern to thoroughly investigate the project embracing 45,000 acres of land on the east side of Twin Falls county and on the west side of Cassia county with a view to furnishing funds to carry out the irrigation scheme for the reclamation of these arid acres.

In addition to the Denver representatives was the dinner and subsequent meeting was attended by H. T. Henderson, engineer in charge of the project, and T. D. Nash, a business man of Murtough, together with the project commissioners.

Most of these gentlemen are today continuing their survey of the project started yesterday, over the Twin Falls irrigation section for the purpose of gathering data relative to development of lands which years ago were in a similar state of aridity, and are under the impression that such embraced in the Murtough irrigation project, proposed for reclamation.

With this trip completed the fiscal agents will return to Denver and make something of an assessing nature to offer concerning plans for financing the East Twin Falls project through the deposit of bonds.

Mr. Clarkon explained that while he and his colleague, Mr. Collibron, had been in the southern section of Idaho, they were especially interested in the project and were highly pleased with the character of the territory embraced. Investigation of statistics showed that the cost of sales of water rights will be below \$60 per acre.

BRUISES SCORE POINTS ON JEROME TEAM

Twin Falls Gridiron Warriors Accumulate Further Laurels in Overwhelming Defeat of North Side Players

(By PULLBAEK.) Twin Falls used the laurels to their high school when they took the football team from Jerome down the hills Saturday afternoon by the overwhelming score of 111 to 0.

In the first place, our neighbors from across the river, were not in what could be called first class physical condition, which is a football game means half the battle. Early in the first quarter, the Jerome boys began to show signs of weakness.

The game was late in starting, owing to a foul (trouble), and it was 3:30 before Referee Benoit blew the opening whistle. Twin was a little slow in getting started, fumbling the ball when a goal was in sight, but after five minutes of play, they woke up, and from then on things began to move.

O'Rourke and Weiss started for Jerome while the local lads were all in the twilight.

MERCHANDISE STOCKS WILL LAST 8 WEEKS

In Case of General Strike Twin Falls Would Be Out of Necessaries in 21 Days

Wholesale merchandise stocks would be depleted in 21 days and coal would last about 15 days were the proposed general railroad strike take effect on November 1. Retail stores are fairly well supplied with goods, considered necessities of life, but under normal conditions these would rapidly run out.

Statement with reference to the merchandise situation is made by Robert F. Clark, secretary-manager of the Southern Idaho Grocery company and refers to the fact that the demand for household purposes. It does not include sugar, flour, meat or such products as are obtained in this district.

The Home Lumber and Coal company submits the estimate on coal supplies adding that although city bins are supplied to the extent of 75 per cent, counting on the amount of coal in the city bins. The public schools have sufficient coal to last to about February 1 under normal weather conditions. The city has its winter supply of fuel on hand and the amount of coal in the city bins is fairly well fixed, according to reports.

In case the strike order is carried out to the letter and a complete lock out of the Rogers and Co. employees, workers in various unionized crafts will be thrown out of employment should they all strike. These crafts include: train and engine men, telegraph and telephone men, electric men and miscellaneous employees of the Oregon Short Line railroad.

Naturally all shipments of goods, both in and out of the county, figured on a basis of business, moved through the local situation in November, 1920, this would mean 923 carloads of incoming freight and 376 outgoing. The outgoing freight, however, would be more than double that of October last year, according to General Agent D. E. Sullivan, who states that outward movement has passed its peak for the season. Incoming freight, however, amounted to 383 carloads in November last year, would be stopped completely, thus causing a probable shutdown at the Amalgamated Sugar works. In October the mill received 133 carloads of coal and 120 carloads of necessary merchandise.

How Better Than Pills?

The question has been asked: Is there any other remedy so quick and so effective as the Chamberlain's Colic, Cholera and Diarrhoea Pills? On answer is, they are easier and more pleasant to take and their effect is so quick that one hardly realizes that it is produced by a medicine. They not only cure the bowels but improve the appetite and strengthen the digestion. -adv.

A FAIR EXCHANGE

A New Back for an Old One. How It Can Be Done in Twin Falls. The back aches at times with a dull, indistinguishable feeling, making you weary and restless, bearing pains shoot across the region of the kidneys, and you are apt to complain that to sleep is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Twin Falls residents would do well to profit by the following example. One Mr. Mrs. W. McElrath, R. F. D. No. 2, Burley, Idaho, writes: "Several times my kidneys have been out of order and caused a lot of trouble. My back has been weak and ached and my kidneys have acted irregularly. Doctor Henry Pills have always completely relieved me. Others in my family have been helped by Don's Kidney Pills and I recommend them, especially for children." Dressed 60c at all druggists. Don't get a cheap imitation. Buy Don's Kidney Pills—the name that Mr. McElrath had. Price: Miller Bros. Co., Buffalo, N. Y.

HEYBURN BANK LAST VISITED BY BURGLARS

Robbers Get Nothing for Pains, Report Says—Carey Institution Entered

Information received here today indicates burglarious entry of the Bank of Heyburn last night. Manger details of the affair were received by Levin E. Meistrup, superintendent of the claims department of the United States Fidelity and Guaranty company of Salt Lake. Mr. Meistrup will investigate the report immediately.

Professionals at Work. In addition Mr. Meistrup has word of the burglary Tuesday night of the Carey State bank, Carey, Idaho. Manger of operation in this job suggests that the operatives are the same as recently broke into the Bank of Rogerson. At Heyburn, although considered a safe, no damage was done to the safe and other equipment of the bank, no amount of cash was carried off. At Carey Liberty bonds valued at \$2500 were stolen. Mr. Meistrup attributes the robbery to professionals.

In case of the Carey robbery the burglars entered the place by breaking a window. The vault door was opened by smashing off the combination knob. One hundred and twenty six safety deposit boxes were broken into and rifled of bonds, jewelry and valuable papers.

Mr. Meistrup, with W. F. Aylard, a field operative of the Bureau Detective agency at Salt Lake, were in Twin Falls today from Rogerson where, with Deputy Sheriff Ben J. Brown, they completed some of the investigations yesterday. Mr. Meistrup believes he has procured some information of value in tracing the culprits. The Heyburn bank burglary is said to be the ninth bank raid made in Idaho this fall.

Sheriff E. R. Sherman has advised all bank officials in his jurisdiction to adopt extraordinary precautions in the protection of their institutions at night.

At Heyburn the combination turn was blown off the safe but the burglars failed to open the door. W. T. Moore, an expert locksmith of Twin Falls, has been called to Heyburn to assist in opening the safe door.

MISS JOHNSON TAKES POLICE MATRON OFFICE

School Preceptress to Assume Job of Curfew Law Enforcement in City

Following a meeting yesterday with Mayor P. W. McRoberts and Alderman C. P. Bowles, Miss Alice Johnson, high school preceptress, consented to assume temporary position as police matron. Authority to tender Miss Johnson the police matron position was voted by the council in meeting last Monday night. In this position Miss Johnson is to have supervision over the juvenile population, particularly with respect to observance of the curfew law. She will regulate attendance of juveniles at public dances, and will otherwise supervise evening activities of young people as far as the curfew law empowers her. The police matron has agreed to carry on the work of the office under a temporary agreement in order that the council may determine the advisability of making the office permanent.

NO ROOSEVELT PROGRAM

The sixty-third birthday of Theodore Roosevelt is today receiving no formal notice in Twin Falls, though some classes of the public schools have given attention to his writings and the leading facts of his biography for the past few weeks. Proclamation from Governor D. W. Davis, received earlier in the month, asked for such observance might be arranged by a local committee.

HEARING ON INVENTORY SCHEDULED FOR TUESDAY

Issue on Which Depends Future Power and Light Rates Soon to be Heard

Next Tuesday, the much discussed question of the Idaho Power company, the outcome of which is said to depend the future rate schedule for that company's service to Idaho power and light consumers, will be considered at a public hearing to be conducted before the same commission, some time ago, and postponed on November 1 to give consumers an opportunity to gather data in protest.

Continuance Not Protested.

This continuance of the hearing was taken on order of the commission after a showing that the commission's own records, and those of the Southern Idaho Electric Light and Power Users' association, interposed at the hearing, would be unable to present arguments and evidence at the meeting then being held. Attorneys for the power company, Hawley & Hawley, of Boise, and John P. McLean of Salt Lake, offered no protest against the continuance.

Since that time interests opposed to the power company's inventory of valuation, which sets the property worth of the company in Idaho at \$22,000,000 have conducted a campaign of particular interest. The campaign has been gathering physical data relative to the value of the company's holdings in Idaho. Henry J. Henric, of Kansas City, engineering expert in matters of property valuation, has had charge of this survey and, according to word sent to Twin Falls by Mayor Sherman of Boise, has compiled an official statement showing a reduction of at least \$4,000,000 from the company's inventory.

No Municipal Delegates.

The Twin Falls municipal government has been requested to send a representative to the hearing, but this expense is assumed not to be warranted since the case for the consumers, in expert hands, it is believed. It is possible that corporate and personal interests from this district will be represented at the meeting.

REPORTS COME OF TWO BANKS BEING CLOSED

State Institution at Bellevue and National at Halley Said to Suspend

Reports, reaching Twin Falls today indicate suspension of operations by the State Bank of Bellevue and also the Blaine County National bank at Halley. Report says the banks were both closed by state and government authorities yesterday.

Definite information relative to the alleged closing of these two banks has not been received by bank operators in Twin Falls, but rumor has been so persistent all day that heads of the local finance institutions express opinions that there is doubtless truth in the reports.

TRAFFIC ASSOCIATION OFFICIAL BOARD MEETS

The executive board of the Southern Idaho Traffic association met in regular monthly session at association headquarters last evening. The business of the session was mostly routine, with a discussion of future plans of the institution.

Those attending the session were: C. A. Robinson, chairman; John W. Gram, C. E. Munson, all of Twin Falls; R. E. Shepherd of Jerome; W. L. Barton of Burley; L. H. Walden, Kimberly.

NOTES BASIS OF SUITS

Three suits, designed to recover judgment on amounts due on promissory notes, were filed last yesterday in the district court. Ben Glasscock brings action against R. P. Fall and others for \$677.50; the Twin Falls Bank & Trust company against D. T. Atherton for \$1,016.88 and the same plaintiff against W. H. Miles for \$520.

CONFERENCE OF BOYS PLANNED

Delegates From All Eastern Section Coming to Twin Falls Meeting

Plans have been completed and programs arranged for holding what is known as the "Older Boys" conference in Twin Falls November 4 to 6, inclusive. The convention will be conducted in the auditorium of the First Methodist church with an executive committee in supervisory charge. This committee is composed of M. C. Mitchell, chairman; the Rev. E. L. White, the Rev. W. W. Burke, the Rev. Charles Glenn Baird, D. D. Alford, E. N. Flory, I. H. Munster, C. E. Munson, E. L. Ashton, Ray Beauchamp.

Committee from Classes.

A boys' committee will direct operations throughout all sessions. This committee is composed of the three upper high school class presidents. They are: Dale Starr, of the senior class; John McMartin of the junior class, and Mervin Jamison of the sophomore class. A larger committee with subordinate powers is taken from the various classes of the high school.

The Twin Falls conference will bring delegates from all points east of Nampa. It is expected several hundred persons will attend. A similar convention

is to be held in Boise, and will embrace the remainder of the state as a district. Banquet on Program.

The first session of the local convention will open on Friday afternoon, the second during the evening of that day. On Saturday three meetings will be held with a banquet and feature in the evening. The conference will close on Sunday.

The conference is held under the auspices of the Interstate Young Men's Christian association of Oregon and Idaho. Four boys' conventions are to be held in Oregon this fall.

Deaths

Walter, the 4-year-old son of Mr. and Mrs. J. A. Woodland, of Hazelton, died last evening at Marzough of diphtheria. The body is at the Grossman mortuary chapel where private funeral services will be held tomorrow at 2 o'clock p. m.

ANNOUNCEMENTS.

The children of St. Edward's church will be entertained at a Halloween party at the home of Mrs. Owen Buchanan, 147 Eighth avenue east, on Friday evening, from 7 until 9.

CARNIVAL.

The Iphigen Sisters will hold a carnival on Friday, October 28, in the Packard store building, next to Grossman's chapel. Fun for the children. Everybody is invited. No charge for admission.—adv.
