Property Loss. Estimated at \$6,000 Is Involved in Destruction of Landmark; Defective Flue Is Blamed

FILER, Idaho (Special to The News)—Fire, originating in a defective flue about 6 o'clock Tuesday morning, destroyed the old Filer Hotel building at the corner of Yakima avenue and Front street, involving a loss estimated at \$6,000.

There were only a few guests in the hotel when the fire was discovered and all made their escape. The blaze, which originated on the second floor of the building, was discovered by the proprietress, Mrs. Bertie Lapp when she went to the kitchen.

The Filer fire department employed its new pressure engine to advantage in saving surrounding buildings from damage.

The building was owned by N. A. Jackson, proprietor of the Filer bakery.

It was built in 1905 by Antonio G. Lemmers in what was then called East Filer. It was known as the Antonio Hotel, and was the first hotel in the county west of Twin Falls. In 1906 the building was moved to the townsite of Elburig, but with the establishment of the townsite of Filer in 1907, it was moved again to the site on which it stood until destroyed by fire today. In 1910 it was enlarged to twice its original size.

Inability to convince Police Judge Paul A. Taler of the accuracy of the story accounting for their possession of a horse blanket which they sold on Monday afternoon to a second-hand dealer here for 50 cents, cost William Lowe, 21, and Edward Frazelle, 20, fines in the sum of \$25 each Tuesday morning.

The accused youths told the officers they had bought the blanket from a "tall man" who was selling "stolen" goods. They said they had bought it for \$1.00 and they paid 50 cents for it as an investment, thinking they could sell it for more.

## COUNCILMEN CONSIDER RE-NUMBERING HOUSES

Street Commissioner Points Out Errors and Dissatisfaction with Present Scheme

Suggestions looking toward assignment of new numbers to residences in certain sections of Twin Falls and correction in numbering existing elsewhere in the city. He asked authority to purchase from a map maker for fire insurance underwriters a map which, he said, gives the correct number in each instance. Use of such a map, he said, would prove economical because it would reduce the labor and expense incident to re-numbering.

The question was raised by J. J. Piller, street commissioner, who said that the existing system of numbering houses in sections east of Blue Lakes boulevard is confusing and that inaccuracies in numbering existed elsewhere in the city. He asked authority to purchase from a map maker for fire insurance underwriters a map which, he said, gives the correct number in each instance. Use of such a map, he said, would prove economical because it would reduce the labor and expense incident to re-numbering.

Discussion of the question brought out the suggestion that numbering of houses on avenues east from the boulevard should begin with 1000.

## ELECTORS LIST IS CHECKED FOR COMING BALLOT

City Officials Make Preparations for Special Elections for Submission of Proposed Government Changes

## OPPORTUNITY TO REGISTER

Persons who registered for the last city election will not be required to register again for the special elections, Mr. Taber advised. Others will be given an opportunity following the publication of an official notice of election to be made between March 5 and 18.

More than 3000 names are contained in the registration lists for the last city election.

On April 18, question of the adoption of the city manager plan of administration, which was advocated by former service men in the last city election, is to be submitted to vote of the electorates.

Municipal officials estimate the cost of both elections will be somewhat less than \$400, which is the amount set aside for the cost of the election expenses of the city manager election.

## FRUIT GROWERS ENTER MARKETS

Orchardists Name Committee to Arrange for Purchase of Supplies

Members of a committee composed of George F. Sprague, Joe Day and C. Fahney, appointed at a meeting here Thursday orchardists and fruit growers, to arrange for purchase through the Twin Falls County Horticultural society of spraying materials for members this season, Friday sent out letters to fruit growers of the county, pointing out advantages of purchase of supplies in quantity through the county organization, inviting membership and inquiring as to individual requirements for supplies this season.

As soon as replies are received to these letters, the committee expects to be in position to deal with dealers in spraying materials and other orchard supplies. It has requested all growers who were represented at yesterday's meeting of the fruit growers to submit sealed bids for supplying the organization's membership with supplies. These bids are not to be opened until the committee is in position to place orders for the society's membership.

Decision to appoint the committee to continue negotiations with dealers with a view to quantity of purchase of spray material and orchard supplies was reached at the fruit growers' meeting yesterday after several hours had been given over to hearing dealers' representatives present claims for supplies handled by them.

## MEXICAN IN CUSTODY AS WHISKEY MANUFACTURER

City Police Raid Dwelling and Seize Still with Suspected Operator

A. Albrecht was arrested and a copper wash boiler converted into a still, with two 50-gallon barrels of "mash," a pint of home-made whiskey and several glass containers were seized by city police officers in a raid Thursday upon a dwelling at 727 Second avenue south, owned by Albrecht and his wife and baby.

Albrecht and his wife deny proprietary interest in the still or its product, and say that it belongs to an "other person" who was absent when the officers made the raid. The still was discovered on the second floor of the story and one-half building. A stairway divided the rooms occupied by the Albrechts from the room in which the "mash" was found but a fire was burning in that room.

The raid and arrest was made by Chief of Police Ben J. Brown and Patrolmen A. E. Austin and J. F. Patton.

## COST OF SCHOOLS TOPIC AT TRUSTEES' MEETING

Board Members Confer with Chamber of Commerce Tax Committee

Trustees of Twin Falls independent school district at a special meeting Monday evening conferred with members of the Twin Falls Chamber of Commerce tax committee with respect to the committee's suggestions for reducing the cost of operating the schools for the coming year.

Discussion of these suggestions was incidental to consideration of plans for the coming year for which purpose the meeting convened. No action was taken finally on any suggestions made.

Recommendations of the tax committee have not been made public but it was announced Tuesday matters discussed by the school board with the tax committee included the salary scale for employees of the district, further contraction or elimination of some lines of study, transportation of pupils, purchase of supplies and equipment for the school and provision for a sinking fund.

Members of the board and the superintendent are seeking to arrive at conclusions which will effect economies and preserve the efficiency of the schools, it was announced at the conclusion of the meeting.

## EAGLESON HAS PLAN TO REVIVE INSURANCE FIRM

Former State Treasurer Seeks to Complete Organization of Idaho Concern

Suggestions for completion of the organization of the Idaho Fire Insurance company and arguments for withdrawal of a suit for dissolution of the concern are to be presented by John W. Eagleson former state treasurer, who has lately assumed the presidency of the concern, at a meeting of stockholders here Friday afternoon.

Mr. Eagleson today said that he had received assurances from the state insurance commissioner that a charter would be granted to the company as soon as \$200,000 had been paid into its treasury. More than \$100,000 already has been paid in, Mr. Eagleson said, and he intended where it is drawing satisfactory rates of interest. The balance might be raised by comparatively light assessment against outstanding subscriptions for stock, he said.

He indicated that the stockholders by making up this deficiency now would place the concern on a basis where it would make profits, whereas dissolution would involve considerable losses.

The company was formed about two years ago at Pocatello, and was later moved to Boise. Because of financial depression organization was never effected, and within the past few months suit for dissolution had been instituted by several stockholders here.

In the Twin Falls district there are 55 stockholders and in the territory between Rupert and Hagerman there are 114 stockholders.

## TWO MOONSHINE STILL ARE SEIZED BY OFFICERS

Experienced Whiskey Maker Is Taken as Operator of Plant at Buhl

One of the best home made devices for manufacture of moonshine whiskey that has yet come into the possession of authorities here together with product of four and five gallons of its product, was seized by officers here before a Deputy Sheriff V. H. Ormsby and H. S. Hamilton on a farm about two miles south of Buhl.

The officers took in custody William Holland who is held as the operator of the plant. Holland is said to have been engaged for several years by a liquor manufacturer at Buhl, La. in the days before the Volstead act.

Operation of the still's office and city police seized a "still" Monday also at the residence of Fred Green in South Park addition to Twin Falls. Sheriff E. R. Sherman today indicated that Green would be held before a United States commissioner in proceedings providing for prosecution of persons in possession of apparatus for the manufacture of liquor.

The raid on Green place was made by Deputy Sheriff V. H. Ormsby, H. S. Hamilton and Sheriff E. R. Sherman.

Admitted to Citizenship—Soren Jens, a Danish-born carpenter, resident of Twin Falls for several years, and a native of Denmark, was admitted to citizenship of the United States following a hearing in naturalization proceedings before Judge W. A. Babcock.

## COAL SUPPLIES IN GOOD SHAPE

Figures of Recent Survey Indicate that Strike Will Come at a Good Time

CHICAGO, (AP) — There will be no immediate suffering if coal operators and miners fail to reach an agreement, and a strike is called April 1 by the United Mine Workers of America, according to figures compiled by the United States Geological survey and bureau of census.

The survey, as of January 1, 1922, showed 31 days supply of bituminous coal on hand. Production has slightly exceeded consumption since January 1, according to operators' figures, and they indicate the country will have something more than a forty-day supply by April 1.

The government figures show the distribution to the principal industries and dealers. Artificial gas plants had the biggest supply of all January 1, with enough fuel on hand to keep them running 89 days. Retail dealers were at the foot of the list with a 33-day supply. The other principal soft coal users were supplied as follows:

By-product coke plants, 45 days;  
Steel plants, 48 days;  
Other industries, 51 days;  
Electric industries, 51 days;  
Railroads, 35 days.

The government report estimated the total available supply at 47,500,000 tons. No figures are available on the available supply of anthracite, but the government report says it increased after November 1, 1921, when storage yards held 1,768,000 tons of domestic sizes and 2,719,000 tons of steam sizes.

### STRIKE WILL COME AT GOOD TIME

While the soft coal held by retail dealers January 1 was figured at 33 days supply, the figures were based on the rate of consumption at the time the stock was taken, in the middle of winter. Coal dealers point out that if a strike is called it will come at the opening of the spring and summer seasons, when dealers' sales for domestic consumption are practically negligible, and hence the supply could be spread over a much longer period.

They also call attention to the fact that in the last coal strike, in 1919, 24.4 per cent of the country's mines, representing the non-union fields, continued production. Under normal conditions the non-union fields can produce from 3,500,000 to 4,000,000 tons a week, operating at maximum capacity, operators say, and this supply also would be available, in event the union fields strike.

### PUBLIC JOB NOT WANTED

Judge Landis Will Not Even Consider Running for Post of Mayor of Chicago

CHICAGO, (AP) — Judge K. M. Landis, baseball commissioner who retired Tuesday as federal judge, will not go into politics, although a number of admirers have suggested that he be a candidate for mayor of Chicago.

In a letter to a friend he says: "I note what you say about the majority of Chicago and I thank you for your kindly sentiments, but don't get it into your head that I have it in my head ever again to be interested in holding a public office."

## SCOTT TO LEAD ANOTHER CARAVAN INTO THE WEST

This Time Spokane Country to be Objective of Party to be Gathered in East

SPOKANE, Wash., (AP) — William D. Scott, who last September arrived at Buhl, Idaho, from New York, with a caravan of 28 families of homeseekers, is to bring a second party west this year for settlement in the Spokane valley.

The new expedition will contain more than 50 families and number over 200 persons. The caravan will leave New York late in July and reach Spokane in September as the journey, like last year's, will be made by automobile.

Mr. Scott was an advertising man in Brooklyn for many years. On a trip west he was impressed with an idea of coming to this region by motor caravan, as the pioneers travelled in their prairie schooners. He discussed his idea with Governor Davis of Idaho, and learned desirable land for farming was available near Buhl, in the southern part of the state.

So many people, friends and friends of friends of Mr. Scott, wanted to make the trip, that Mr. Scott was forced to set up a standard of eligibility—\$3000 in cash and an automobile per family. Even then hundreds of applications were received. From the list 128 families were chosen, and 28 selected to make the journey.

The trip was an entire success, so much so that Mr. Scott looks forward to this year's caravan with considerable confidence. The caravan left New York July 23, and reached Buhl, 3093 miles away, in late September.

### WOULD EXCLUDE SHEEP IN GAME PRESERVES

State Warden Otto M. Jones Will Make Effort to Induce Deeded Action

BOISE, Idaho, (AP) — Request that sheep be eliminated from the game preserves in Idaho, made to Henry C. Wallace, secretary of agriculture, by Otto M. Jones, state game warden, has provoked considerable discussion here. Mr. Jones told Secretary Wallace he thought the time had come for making the change, as sheepmen of the state had indicated that there are great unutilized grazing lands across outside the game preserves, and because the number of sheep in Idaho is less by a million and a half than it was a year ago.

B. H. Rutledge, district forester, has conferred with Mr. Jones regarding his recommendation, but the details of their conference have not been announced. It is understood that the forestry service does not favor the proposed transfer because of the loss of revenue from grazing rentals. Mr. Jones has declared his intention of being present at the grazing lands allotment meeting at Ogden, March 16, to oppose allotment of game preserves. Hugh Sprout, president of the Idaho Wool Growers' association, claims Mr. Jones' recommendation is not being taken seriously by either the sheep men or the forestry service.

## UKRAINE WINS CONTROVERSY

Diplomatic Victory Over Soviet Government Result of First Passage at Arms

MOSCOW, (AP) — The Ukraine has scored a diplomatic victory over the Russian soviet government which made it necessary for the American relief administration to sign a separate agreement with the Ukraine before it could legally open food draft warehouses and general relief work in that southern republic.

American workers were distributing food packages at Kiev, Odessa and Kharkov for some time without any agreement other than that entered into with the Moscow government.

The Ukraine insisted that it was an independent republic, fully competent to conduct relations with foreign powers and entitled to be dealt with as an autonomous nation wholly free from Moscow control. President Rakovsky, of Ukraine, recently conferred in Moscow with American relief administration officials and made his position clear.

The Ukraine wanted food packages and relief from America but it wanted to sign agreements with the Americans just as the Moscow government did. Furthermore it wants to negotiate with Americans for a loan to relieve its economic distress.

### NO IMPORTANCE WAS ATTACHED

As the American relief administration is in no sense a diplomatic or official organization, its signature of a separate agreement with the Ukraine was not regarded as an official recognition of the Ukrainian government, although there seems to be a general impression in Russia that the American relief organization is the forerunner of diplomatic relations.

The Ukraine seems to be to the soviet federated republic of Russia what Bavaria is to the German republic and there is the same delicacy in Moscow about handling the Ukraine that Berlin shows in dealing with the Munich government. Ukraine is the granary of European Russia, just as Bavaria is the granary of the German federation. The Ukraine has two very flirtatious neighbors in Poland and Rumania. It also has valuable assets in Odessa, Nikolseff and other loc-free ports. All in all, Moscow is facing many of

the interesting problems in federation which the United States confronted after it cut loose from England and found it necessary to harmonize the interests of its varied states.

## COCKFIGHTING MUST GO IN INTERESTS OF PUBLIC GOOD

Methodist Episcopal Church in Philippine Islands Takes Strong Stand

MANILA, P. I., (AP) — The licensed saloon, cock fighting, commercialized boxing, public dancing and unlicensed picture films were condemned in the report of the public morals committee of the annual conference of the Methodist Episcopal church which is now in session here.

The report described cock fighting as one of the greatest corruptors of public morals and asserted that it "must go." The report declared that because the accessories of the "prizing" are the licensed bar, gambling and brutality, it too must be prohibited.

Dancing in the public schools was designated as a bad influence conducive to immorality. The committee reported that movie films are now shown by one man only, a policeman, and recommended "an adequate censorship" for the protection of the morals of children.

### TWENTY-FIVE MILLIONS WILL BE SPENT BY TOURISTS

SAN FRANCISCO, (AP) — Approximately \$25,000,000 will be spent in San Francisco during the summer of 1922 by visitors and delegates to the many conventions scheduled for this city, according to Robert L. Webb, secretary of the San Francisco Convention and Tourist League.

Close to 100 conventions are to be held here, Mr. Webb said. Probably the most important will be the national gathering of the Order of the Mystic Shrine. This year will be the biggest convention yet in San Francisco has had since 1915, when the Panama Pacific International Exposition brought scores of meetings here.

### BANKRUPTCY DECREASING

BERLIN, (AP) — There is a huge decrease in the number of bankruptcies in Germany. For the whole of 1921 the number was only 3,100 compared with 12,700 in the prosperous year of 1913.

## DRY FORCES ARE ACTIVE ABROAD

Polish People in Midst of Heated Discussion with America Frequently Cited

WARSAW, (AP) — The "wets" and "drys" are having a hot conflict over proposals to restrict the use of intoxicants in Poland. The movement for more rigid control over the use of liquor is becoming more active. Newspapers are full of discussions of the question and there are numerous lectures on alcoholism while moving pictures are shown to promote the reform. The example of America is continuously cited with heated arguments as to whether prohibition is effective in that country.

The "drys" advocate a regulation cutting down the number of places where liquor is sold by restricting them to one for every 2500 of population. Another proposal would abolish all places where liquor alone is sold but grant permits to cafes and restaurants.

### MOVEMENT IS NO NEW THING

A steady dry movement has been going on for some time in the national parliament and the debates there have lately been made more heated by enforcement of an ordinance establishing a dry Sunday in Warsaw. It forbids the sale of liquors from Saturday noon to Monday noon and is being enforced by the Warsaw police with an iron hand, despite the protests of cafe and restaurant proprietors.

One of the active figures in the campaign is General Joseph Haller, president of the Polish Red Cross and Polish Boy Scouts, who organized and commanded the famous Haller army in which thousands of Americans of Polish blood fought in 1917 and 1918.

General Haller is now leading a fight against raising the percentage of alcohol in beer. This is now fixed at 1.2 per cent. The brewers have consented to this restriction.

Poland has just put a tax of 20 per cent on all retail liquor stocks. Polish law makes a liquor dealer assume the responsibility for drunkenness by providing that when an intoxicated person is arrested, the proprietor of the place in which he purchased his intoxicants must go along with him to jail.

## BRITISH LABOR PARTY IS IN SYMPATHY WITH INDIA

Favors Real Self Government Under Native Handing, and Egyptian Independence

LONDON, (AP) — Recognition by Great Britain of the independence of Egypt and genuine self-government for India are planks of the policy of the British labor party as just defined in an address delivered by Arthur Henderson, secretary of that party and member of parliament.

Mr. Henderson's statement is regarded as important because of the growing strength of the labor party and the plans to hold a general election next spring or summer.

Mr. Henderson declared that labor was out for a new international policy founded on the principles of justice, co-operation and good will.

The chief objects of the labor party's foreign policy were, he said, international peace, the building up of stable economic and political conditions in Europe and the re-establishment of friendship and confidence between nations.

Labor also stood in favor of a comprehensive league of nations, a disarmament and progressive reduction in armaments, prohibition of the export of instruments of war by private manufacturers and against secret treaties and the economic boycott.

### UNEMPLOYMENT IS NATIONAL PROBLEM

On the unemployment question, he said, that the policy of leaving localities to bear the burden of unemployment was indefensible because it converted a national duty into a local responsibility.

A labor government would not tolerate the semi-starvation of thousands of British people—which he called the fruits of a disastrous international policy, aggravated by the failures of private enterprise—but would endeavor by legitimate means to break down all forms of monopoly and put an end to exploitation and profiteering.

Labor would see that the land was put to socially productive uses and confer on the people the power to control the licensing system in their respective localities.

The party would also, by constitutional means, secure for the community a larger share of the fruits of national production, much of which, Mr. Henderson said, went to enrich the waste, idlers and parasitical elements in society of today.

## INDIAN GIRL IS TO BE DELEGATE

Seventeen Year Old Y. M. C. A.  
Worker Will Make Proposed  
Trip to China

LAWRENCE, Kan., (AP) — Ruth Muskrat, a Cherokee Indian girl from Oklahoma who is a student at the University of Kansas here, will visit China this spring as a delegate to the World's Student Christian Federation conference at Peking, April 4.

The hope of the conference, Miss Muskrat explained recently, is to get students of various parts of the world in vital touch with each other and, among other things, solve the problems confronting Chinese students who have become imbued with Occidental ideas.

Miss Muskrat, who is 17, has done Y. W. C. A. work in New Mexico and work among her people in religious and educational work.

"The primary need of my people," Miss Muskrat declared, "is trained native leadership—Indians, themselves, who understand the peculiarities of the tribe and can work with them."

### INDIAN WOMEN MOST CAPABLE

"Indian women are more capable in most respects than the men. They know better how to barter—they are shrewder. This is an outgrowth of the time when women raised the crops. The men go in more for social activities. If I have a party, I can always count on the men attending. But if I want to put on a financial drive, I appeal to the women."

Fifty-seven nations will be represented at the student conference in Peking, and will represent more than 200,000 students throughout the world, she said. After the conference, delegates will visit the principal universities of Japan and China.

Miss Muskrat, who says her father is Cherokee and her mother Irish, will be the second Indian ever elected a delegate to an international student conference. She goes as a guest of the national board of the Young Women's Christian association.

### NEW LEAGUE IS ORGANIZED TEAMS TO START TRAINING MOSCOW STARTS FOR EAST

Pacific International and Western Canada Will Join Forces for the Future

TACOMA, Wash., (AP) — Another baseball league, the Western International has been organized to take the place of two organizations, the Pacific International and the Western Canada, which operated last year.

Six clubs are in the new league. Five of them represent the western Canadian cities of Vancouver, Edmonton, Calgary, Regina and Saskatoon and the sixth will play for Tacoma. The schedule has not yet been announced but it is believed the first game will be played around May 1.

The Tacoma club, which is to be a "farm" for the Portland team of the Pacific Coast league, will be managed by Ted Raymond. William Kloppe, president of the Oregon team, is at the head of this city's organization.

Bill Rodgers, who managed the Sacramento Coast league team last season, will be the pilot of the Calgary team, which won the Western Canada championship in 1921. Gus Gleichman is again manager of the Edmonton Equippers, and Bob Brown, is president of the Vancouver team. The Regina and Saskatoon teams are also in getting started but have a number of players signed.

### CHICAGO NATIONALS READY

Hard Work-Outs About to Commence at Training Camp at Catalina Islands

CHICAGO, (AP) — The Chicago Nationals were ready for another hard workout today at Catalina Island, Cal., where March came in like a lamb yesterday and brought sunny skies.

Manager William Gleason's Chicago Americans at Seguin, Texas, were waiting for respite from the cold of the last few days.

Manager Killifer of the Cubs, who has been giving undivided attention to his hurlers the last two days, was optimistic today. He believes that his pitchers will come out in first class shape unless something unforeseen comes up.

The Dark Cloud.  
It is not surprising that clouds come in for more or less criticism. They live high, are often dissipated, and can usually be chased with the wets.

New York Players Begin Spring Grind Wherever Weather Conditions Permit

NEW YORK, (AP) — The city's three baseball squads, the Yankees, Giants and Superbas were familiarizing themselves today with the southern training camps. The Superbas were working a little; the Giants were hoping for suitable working weather and the Yankees waiting for their boss, Miller Huggins, to report from Hot Springs.

"Yesterday the Brooklyn squad had a lively workout at Jacksonville. Manager Robinson sent his men through batting and fielding practice, then a six inning game in which the regulars trounced the Yannisians, 5 to 0."

The Giants ran into unusual below freezing weather at San Antonio and had to listen to a McGraw lecture while the Yankees at New Orleans, most of them recruits, were compelled by rain to stay in their hotel.

### "INDIANS" NO GOOD NAME

Stanford Athletes Object strenuously to Any Gophers Other Than "Cardinals"

STANFORD UNIVERSITY, Cal. (AP) — Stanford does not want its varsity teams called the Indians, according to a recent editorial in The Daily Palo Alto, a student newspaper.

For several months, sport writers have been referring to the Stanford teams as the Indians, probably because the Daily Palo Alto says, it is planned to erect an Indian statue in the new Stanford stadium and because there is an Indian head design on Stanford blankets.

The paper sticks to the old name of the Cardinals, the school color. "We are not 'Indians,'" the editorial said, "but Stanford Cardinals, and as such will win athletic contests with a good old Cardinal team."

The Daily Palo Alto said that a paper published at the University of Nevada has started a campaign among western colleges to choose nicknames for the varsity teams.

### WILL MEET TONIGHT

CHICAGO, (AP) — Johnny Meyers of Chicago, claimant of the middleweight wrestling crown, and Helme Engel of Dubuque, Ia., will meet here tonight in a 15-minute wrestling match. The rounds will each be of ten minutes duration with two minute rest periods.

University Basketball Champions Ready to Leave on Tour of Eastern Cities

MOSCOW, Idaho (Special to The News). — The University of Idaho basketball team, winners of the Pacific Northwest conference basketball championship, will leave Saturday for Indianapolis, where they will play with winners of other collegiate conferences for the national championship.

Idaho has an exceptionally strong team this year, and feel confident that they will bring the championship back to the northwest.

### HANDBALL IS POPULAR

ST. LOUIS, Mo., (AP) — Handball and hunting are sports occupying the time of the St. Louis Nationals while they are awaiting baseball weather at Orange, Texas. Cold weather has put a crimp in the spring training so far.

Dave Danforth, veteran hurler, has not yet reported at the American's camp at Mobile, Ala. Danforth and Claude Noel, a recruit hurler, are the only absentees of the battery.

## LLOYD GEORGE MAY QUIT POST

Early General Election or Resignation of Premier Anticipated in England

LONDON, (AP) — Either an early general election or the resignation of Prime Minister Lloyd George will be the upshot of the present political crisis, it is generally believed.

The apparently widening breach in the conservative party together with the consistent gain in strength of the liberals under former Premier Asquith and the laborites, as evidenced in the recent by-elections, have forced these alternatives on the premier.

Mr. Lloyd George is understood to have served notice in his letter to J. Austen Chamberlain that Sir George Younger, leader of the conservative reactionists who recently attacked the premier in the house of commons, must go or he will step down from office.

Sir George Younger's tactics have met with disfavor among a considerable section of the party, especially with Mr. Chamberlain and Lord Chancellor Birkenhead, the latter publicly voicing his disapproval in a recent speech. In this connection some significance is attached to a report that Sir George may resign from the house and be elevated to the peerage.

Meanwhile the government leaders are giving much time to the problem, and an early meeting of the whole conservative party is expected.

### FAMILY MIX-UP LAID BARE

Two Divorce Suits Tell Strange Story of Tangled Skeins of Domestic Life

MARYVILLE, Ky., (AP) — Two divorce suits are pending in the Mason county circuit court here because Carl Kellum, 21 years old and his mother, in-law, Mrs. Addie Gallagher, 45, ran off together, according to the petitions filed by Mrs. John Gallagher Kellum, 18, against her husband, and John Gallagher, 45, against his wife.

Mrs. Kellum says she was married two years ago and was very happy on her husband's farm, four miles from here. A short time ago, she alleges, her mother, who lived on an adjoining farm, ran off with Kellum and never returned. Gallagher's petition unfolds the same story.

Kellum and Mrs. Gallagher are living in this county now, the petitions charge.

**FIRST WOMAN TO SUE.**  
LONDON, (AP) — The petition of Lady Rhonda to sit in the house of lords was granted by the committee on privileges of the house of lords today. If she takes the seat awarded her by the ruling she will be the first woman to sit in the upper house of the British parliament, as Lady Astor was in the lower chamber.

Official of Veterans of Foreign Wars Points Out Effects of Delay

WASHINGTON, (AP)—The hope that the administration will not continue to procrastinate very much longer and will fulfill the promise made in the last national election, and pass the veterans' adjusted compensation bill without further delay, is expressed by Edwin S. Bettelheimer, Jr., chairman of the national legislative committee of the Veterans of Foreign Wars in a letter to President Harding, made public today.

Bettelheimer said that he was just in receipt of a report showing that 12,000 of the 30,000 former service men in Cuyahoga county, Ohio, who applied for the adjusted compensation voted by the senate were unemployed.

"It is indicative of the condition existing throughout the country," the letter said, "it would mean that approximately 2,000,000 of the ex-service men are out of employment. How many of these are in destitute circumstances would be hard to tell."

### NEGRO HEAVIES IN BATTLE

Harry Willis and Kid Norfolk Match May Develop Contender for Championship

NEW YORK, (AP)—Harry Willis and "Kid" Norfolk, two heavyweight boxers, will meet in a 15-round bout tonight in Madison Square Garden.

Willis, whose muscles were developed heaving cotton bales down in New Orleans, is called the "black panther." He stands six feet four inches in his socks, weighs 210 pounds and reaches 70 inches.

Norfolk, known as the "Darktown Thunderbolt," is seven and a half inches shorter than Willis, weighs 185 pounds and reaches 67 inches.

He has pounded his way to pugilistic fame and the colored light-heavyweight championship by more than 90 knock-outs.

The meeting of the Panther and the Thunderbolt may develop an opponent for Jack Dempsey, as Willis has been considered by many as one of the most "like" of the heavyweights. But he has never before met Norfolk.

## TODAY'S MARKETS

### WHEAT RECOVERS QUICKLY

Average Low During Early Hours of Trading but Sharp Uprun Features Close

CHICAGO, (AP)—Wheat averaged lower in price today during the early transactions. Downturns in quotations at Liverpool tended to weaken the market here and so, too, did reports that British milling requirements appeared to be filled up temporarily. Bulls, however, still contended that world imports of wheat are short of actual requirements more than 100,000,000 bushels. Opening prices, which varied from unchanged figures to 1-5c lower, with May \$1.47 1/2 to 1.48 3/4 and July \$1.29 1/2 to 1.30 3/4, were followed by a moderate setback all around, then by a rally that in some cases went slightly above yesterday's finish.

Signs of a revival in European demand brought about a good advance later which heavy profit taking sales failed to offset except in a more or less transient manner.

Corn and oats were governed chiefly by the action of wheat. After opening unchanged to 3-8c lower, May 66 to 66 1/4c, the market underwent a further rise and then recovered.

In later dealings the corn market went up grade, helped by the fact that the movement of corn from rural sources appeared to be falling off in volume and that export business was said to be under way at the seaboard. The close was firm 3-4 to 7-8c to 1-18c net higher, with May 67 1/2c to 67 3/4c.

Oats started unchanged to 3-8c down, May 41 3-8c and declined a little more but later scored a trifling gain.

Scattered selling on the part of commission houses sent provisions downward in price notwithstanding an upturn in the value of hogs.

Rails, motors, equipments and sugars were substantially higher in the final hour. Weakness was shown by Standard Oil common and preferred, the latter losing six points on the passing of the dividend. The closing was strong.

A few selected or special issues were substantially higher at the opening of today's stock market, but leaders reflected further selling pressure based in part on the trend of tax legislation at Washington. Chandler's Bank and 1-3 and General American Tank and Hartman averaged one point advances but secondary steels, equipments and foreign oils eased fractionally to 1-1/2 points with tobacco and motion picture shares. Early quotations for the principal foreign exchanges were lower.

## FAILURE LIST REACHES FIFTY

Two More New York Brokerage  
Houses on Rocks of Finan-  
cial Distress

NEW YORK, (AP) — The list of Wall street brokerage house failures climbed toward the fifty mark today.

Scott and Stump, a Consolidated Exchange house, went into bankruptcy shortly after the market opened and a short time later Alphons Deschamps, successor to Friedman, Markelon and company, announced an assignment. Friedman, Markelon and company recently suspended operations and the three partners were arrested on charges of grand larceny proffered by Deschamps, who also instituted civil action to recover \$10,000.

Deschamps in Montreal, had brokerage office under the name of Deschamps and company, and it is said that Fred Deschamps, co-respondent in the Stillman divorce case, was in his employ as office man.

An involuntary petition in bankruptcy without an estimate of liabilities or assets, was filed against M. E. and J. W. Deschamps, Broadway stock brokers.

### BOOKS AND RECORDS ARE SEIZED.

DETROIT, Mich., (AP) — Books and records of Raymond White and company, stock brokers, were seized by Prosecuting Attorney Voorhies today for examination. The White firm is the first to have been investigated since the campaign against alleged bucket shops was begun last week.

Mrs. William N. Duke  
Alfred E. Lindsay

THROUGH PROMISES of big profits in stock transactions, Alfred E. Lindsay, of Nyack, N. Y., is accused by numerous persons of having swindled them out of \$700,000. Included among those who claim to have been victimized by Lindsay are Mrs. William N. Duke, widow of the millionaire tobacco manufacturer, and Garlotta Wilson, winning actress. Mrs. Duke, shown in this picture, has filed suit to recover \$375,000, her entire personal fortune, of which she alleges, Lindsay (shown in the inset) swindled her.

# COURT'S STAND IN OUSTER CASE IS NOT CHANGED

Idaho's Supreme Tribunal Re-affirms Decision in Support of Removal of Twin Falls Highway Commissioners

Idaho's supreme court, in a decision handed down late Wednesday afternoon, re-affirmed its decision in support of the judgment rendered by Judge W. A. Babcock in district court here, providing for the removal of C. B. Channel, A. M. Steadman and A. E. Larson from office as commissioners of the Twin Falls highway district, and requiring the payment of \$500 by each of the ousted officials, to E. F. Walton, instigator of the ouster proceedings.

The supreme court's decision Wednesday followed a re-hearing in the case held some weeks ago.

**HELD ONLY ON ONE CHARGE**

The court, it is reported, has reached unanimous agreement that charges of negligence against the deposed officials on the grounds that they had failed to file certain reports as to condition of highways and financial condition of the district had not been sustained.

Three of the five justices are reported to have agreed that the deposed officials were relieved by acceptance of their attorneys' advice of any blame for failure to require bond in excess of \$5,000 from the secretary and treasurer.

Charges that the deposed officials were culpable for paying claims against the district before such claims had been considered and allowed by the board were sustained in the opinion of three of the justices, it is reported, and the general effect of the decision to sustain the trial court's judgment is said to hinge upon this interpretation of the evidence.

Adverse received here quote Justice Rice, Dunn and Lee to the effect that they "adhere to the facts heretofore expressed by themselves in the case."

**Two Dismiss in Part.**

Justices Budge and McCarthy concurred in part and dissented in part from the majority opinion.

Justice Budge in his dissenting opinion is quoted as saying, "The president and treasurer of the highway district board have no right to pay out money until accounts have been audited and payment allowed."

**REASONS FOR JUDGMENT.**

In entering judgment in the case May 5, 1921, after a trial before the court that continued from April 27 to 30, Judge Babcock held that the officials removed were guilty as charged by Walton of failure to file certain reports as to the condition of roads and financial condition of the district; that they had failed to consider and allow claims in the aggregate of \$1,000 \$4.46 before payment was made; and that they had failed to require the secretary and treasurer to provide a bond in excess of \$5,000 although sums of money largely in excess of the legal limit under such bond passed through his hands.

**AFFECTS SCHOOL DISTRICT OUSTER.**

The supreme court's decision brings to a focus a similar case instituted by Walton for removal of W. W. Parlah, G. W. Blee and D. F. Clark, trustees of Twin Falls independent school district. In this case the district court ordered the removal of the accused officials and proceedings for appeal from the judgment were instituted. The case is now pending on motion for new trial which, by agreement of counsel, has not been urged prior to the supreme court's decision in the highway district case.

Attorneys for the deposed school district trustees, today said that they were not prepared to state what action would be taken by them.

# DETWEILER DEFENDS HIS ACTION IN LIBEL SUIT

Declares Letter on Which Action for Damages is Based Was Privileged

Declaring that a letter which is made the basis for complaint is privileged matter, D. F. Detweiler, through his attorney, T. K. Hackman, has filed in district court here his answer to the complaint in a libel suit brought against him by H. G. Brown and R. E. Brown of the Brown Brothers Sheep company, involving a claim for \$80,000 damages.

The letter in question, Detweiler asserts, was written to R. S. Binette, president of the American Hampshire Sheep association, of which both the Browns and Detweiler were members. It was written at the request of Binette and related to the conduct of the Browns as members of the association and in their business as breeders of Hampshire sheep. Detweiler denies that it was written with malicious intent.

# ROAD DISTRICT MOVE DELAYED

County Officials Send Petitions for Rock Creek District Back for Revision

Because of insufficiency of petitions for formation of the Rock Creek independent road district, presented on Wednesday afternoon at the office of C. C. Higgins, county recorder, for the consideration of the board of county commissioners, no action on the proposal will be taken at this time, but the petitions will be returned to the petitioners with suggestions for their revision. John F. Hanson, deputy county recorder, said today.

The petitions are held insufficient because they do not set forth the purpose for which they were presented. Under the heading, "Petition for Rock Creek Independent Road District," is set forth the description of land to be included in the proposed district, followed by the names of the signers.

The insufficiency is said to be merely technical and may be corrected with due effort.

The petitions bear the names of E. U. McKee of Kimberly, who presented them, and of 60 other residents of the proposed district which includes Rock Creek school district and portions of the Pioneer Valley school district and School District No. 60. The total area is approximately 70,000 acres.

Advocates of the proposed district point out that they are not seeking to create an independent highway district, but, under other provisions of state law, are endeavoring to form an independent road district.

Tax Committee's Report and Reclamation Project Topics for Luncheon Meet

Recommendations of the Twin Falls chamber of commerce tax committee and plans for instating construction of the American Falls reservoir project are topics to be presented for consideration at a public luncheon meeting to be held at Tom's cafe here Friday evening, under auspices of the chamber of commerce. The banquet room will accommodate only a limited number of guests and persons desiring to attend the meeting are urged to make reservations immediately.

Special invitations have been sent to officials of the county, municipality, school district and highway district, to whom are addressed the recommendations of the tax committee, based upon its study of replies to 600 questionnaires sent out to urban and rural taxpayers.

Following presentation and discussion of the tax committee's report which has not heretofore been made public, R. E. Steffen, of Boise, attorney for the United States reclamation service in Idaho, and Barry Dibble of Burley, project manager of the American Falls reservoir and Minidoka irrigation project, will discuss legal engineering phases of the plan for construction of the big reservoir.

Guy Plasse, managing director of the Idaho Reclamation association, which is directing the campaign for formation of the big irrigation storage district as a means of aiding in the financing of the American Falls project, has indicated his purpose to attend.

Mr. Steffen and Mr. Dibble will address a public meeting in the Parish hall here at 3 o'clock Friday afternoon on American Falls project plans.

# GIRL RUNAWAYS CAUSE ANXIETY IN TWO HOMES

Night Long Search Ends With Discovery of Wanderers Asleep in Haystack

Search for two Twin Falls junior high school girls, aged 12 and 13 years, whose names are withheld by the police, last night almost monopolized the attention of police officers and volunteer assistants and was attended with much anxiety in Twin Falls homes. The girls had set out after school on a journey about to Shoshone. They were found by the father of one of the runaways at about 4 o'clock this morning asleep in a haystack on a farm near Blue Lakes ranch about three miles north of here.

The girls had in view they said, only the purpose to visit the neighboring town. They had underestimated the distance and the rigors of the trip and overestimated their own capability to make it. In spite of the cold night and the fact that they were wholly unprepared to withstand hardships of the undertaking, the two youngsters today are no worse off for their experience.

K. Hackman, has filed its answer in the suit instituted by the Twentieth Century Mill and Machinery company to recover \$435.95 for equipment of the plant. The Independent concerns denies validity of the machinery company's claim in its answer and presents a counter claim for \$108.57.

# MARY PICKFORD WINS CASE

Film Star Will Not Have to Give Up Any Part of Earnings, Says Federal Jury

**NEW YORK, (AP)**—Mary Pickford does not have to pay Mrs. Cora C. Wilkenson any part of the \$108,000 which Mrs. Wilkenson claims was due her as commission for getting the film star's name to \$100,000 a week. This was the verdict of a federal jury returned last night and unseated today before Federal Judge Mack.

Neither Mary nor her husband, Douglas Fairbanks, were in court when the verdict was announced. Her counsel rushed to the telephone to acquaint her with the news at her hotel.

Counsel for Mrs. Wilkenson filed notice of an appeal.

In her hotel suite where she had been informed of her victory, the screen star said she had spent \$300,000 in fighting Mrs. Wilkenson's effort to obtain \$108,000 of her money. The trial here this week was the third in the case and it appeared probable that Mrs. Pickford would have to make further disbursements before she heard the last of Mrs. Wilkenson, as an appeal to the circuit court is considered likely.

**FEELS SORRY BUT WILL NOT PAY.**

"I feel sorry for Mrs. Wilkenson," said Mary, "but I never have settled a claim when I was in the right and I never will."

"I would fight her ten times because I know I am just a baby," she continued, speaking faster and more firmly.

"Well, what are you mad about?" broke in her husband, Douglas Fairbanks.

"Nothing," replied Mary, "but it is all so silly. I haven't had an agent since I was 11 years old. When I want a raise I go ask for it myself and when I want a new job I look for one."

The new year means new letter and invoice files. We have them. Close Book Store—adv.
