

DISORDERS ARE GENERAL OVER JOHANNESBURG

South African Mining Center is Scene of Ugly Encounters Between Sympathy Strikers and Policemen

LONDON. (AP) — South African workers have rallied in a fairly wide response to the call for a general strike issued by executive committees of the industrial federation and trades unions in sympathy with striking miners, says an Exchange Telegraph company dispatch from Johannesburg.

Many shops in the business section have been closed their proprietors fearing violence. Waiters and waitresses have been forcibly taken from their jobs in the few restaurants that are open. All public vehicles have stopped and delivery wagons have been forbidden to do business. Slaughter house workers have ceased work and mechanics at Dimsdale and Germiston, railroad centers, have gone on strike. Workers affiliated with other unions have been removed from their jobs.

BLANK CARTRIDGE USED BY POLICE

Disorders occurred in different sections of the city, says a Reuter dispatch from Johannesburg. During the afternoon police fired blank cartridges in attempts to scatter strikers who had tried to object a group of transport workers. The ugliest incident so far, connected with the strike occurred in Vanbranda square which revolves about were fired on the police by the strikers. Police supported by reinforcements in lorries pushed forward with fixed bayonets and dispersed a great crowd.

Later in the evening Drixton, a suburb of Johannesburg, was the center of fighting around a negro church. Only one casualty was reported. Groups of special constables and strikers also came to blows near Robinson.

CHAPLIN OBJECTS LEGALLY TO IMITATION OF HIMSELF

Comedian Brings Suit to Restrain Use of Two Films Featuring His Particular Stunts

LOS ANGELES, Cal., (AP) — Charles Chaplin is the plaintiff in a suit on file in superior court here yesterday against the Western Feature P. Pictures, seeking to restrain the latter concern from producing two motion picture plays which Chaplin alleges contain a character seeking to imitate him.

The actor involved in the suit is Charles Amador, billed, according to the suit in two plays as "Chas. Applin" and making use of mannerisms and customs which the comedian charges are wholesale imitations of acting by which he is known. Certain ways and mannerisms, costume, facial expressions and characteristic movements of the body are mentioned as points of issue in the suit.

POLITICAL DESTINIES WELL TAKEN CARE OF

Soviet Interests in Turkestan in Hands of Signer of Brest-Litovsk Treaty

TASHKENT, Turkestan, (AP) — The political destinies of the soviet governments here are controlled by Adolph A. Joffe, signer of the Brest-Litovsk treaty by which Russia withdrew from the world war and former Russian soviet ambassador to Berlin. (It was recently announced officially that he would be one of the Russian soviet delegates to the Genoa conference.)

Joffe is the chief of a central committee of five. One of his duties is to put into effect Moscow's instructions regarding relations with Amanullah Khan, the young and active Emir of Afghanistan and pretender to the Moslem Caliphate, now held by the sultan at Constantinople.

WOULD HELP OUT SMALL LANDLORDS

The Emir of Bokhara has fled to Afghanistan, the Khan of Khiva is in prison at Moscow and the soviets are strengthening their power by attempting to fill up the small landlords at the expense of the old and wealthy class which has well nigh disappeared. Despite the absence of medicines and the ravages of a severe typhus epidemic, Turkestan is, barring the Ukraine, the richest of Russian provinces or subsidiary governments and efforts are being made to increase the cotton crop, which formerly supplied half the mills of Great Russia.

The rice and wheat crops were fairly good last year and if good this year large supplies may be sent to Russia's famine regions.

SHEEP ON THE INCREASE

REGINA, Sask., (AP) — "In spite of the fact that the prices for mutton, lamb and wool are much lower than they were immediately after the war, the sheep population of Saskatchewan is slowly but steadily increasing," J. G. Robertson, secretary of Saskatchewan Sheep Breeders' association, reports in his annual statement.

"The increase is not due to any new purchase of sheep to any great extent, but to the fact that the increased demand in earlier years has not yet lost its momentum," he says.

"It is also possible that many farmers are realizing that, taking all things into consideration, there is just as much profit in maintaining a fair-sized flock as there is in producing any other farm product."

Although sheep men have to accept lower prices, Mr. Robertson states that they can at least secure the very best prices obtainable if they will cater to market requirements.

JAPANESE GIRLS WOULD LIKE TO BE DETECTIVES

Extraordinary Percentage Select Sleuth Business as Chosen Means of Earning a Living in Land of Mikado

TOKIO, (AP) — Many progressive young Japanese women aspire to become detectives, says the Yamato in a recent resume of activities of self-supporting women. On the average two dozen women apply at a certain local detective bureau each month seeking employment as "sleuths." The bureau points with pride to two shining exponents of the profession, Miss Yukiho Nakahara and Miss Tsuruko Sato, through whose efforts many difficult cases have been solved.

The majority of employed girls are in factories, about 40,000 of them working in Tokio. Out of 317 factories investigated by the city social bureau, in 28 the girls were found working more than 12 hours a day. The average wage is 7.25-16 a month.

About 2000 women make a living teaching "nagauta" singing to Japanese music of the shamisen. These make an income of about Y.100 a month.

But conductors are those most noticeable to foreigners in Tokio. They number about 150. Others better educated gain the better positions in the company as office clerks or inspectors.

ALWAYS SHORTAGE OF TELEPHONE GIRLS

There is always a shortage of telephone girls, 5000 being required by the 15 exchanges in the city, and where girl employees have proved of great usefulness is in the railway offices as ticket sellers. They get up to Y. 80 salary. Those employed as shop girls in big department stores receive Y. 30. The largest department store employing as many as 500.

The largest income is commanded by the hair dressers. Those in high class geisha quarters receive as much as Y. 1000 monthly and those of the poorer districts Y. 200.

About 1500 girls are employed as ushers in theaters and moving picture shows.

There are teachers, doctors, seamstresses, nurses, professional musicians graduated from the foreign music academy, journalists, magazine writers and painters. To those may be added in the country, the woman horse conductor and the girl who dives for shell fish.

TODAY'S MARKETS

CLOSING PRICE IS LOWER

Wheat Fluctuates in Unsteady Market with General Tendency in Downward Direction

CHICAGO, (AP) - Although wheat opened higher in price today, increased selling soon led to decline. The initial gain was due to bullish speculations placed upon the report on farm reserves of grain and to higher quotations at Liverpool. Sellers based their action, however, on reports of snow in the northwest and denial of the high yields yesterday had done any serious damage. The opening varied from 3-8 to 1-1/2c higher, with May \$1.42 1/2 to 1.43 and July \$1.21 to 1.21 1/4.

Subsequently as a result of closing out of spreads between May and July deliveries the price of May dropped as low as one time as \$1.35 7/8, a fall of 6 to 8 1/4c over night and 14c a bushel lower than recent top figures for that month. Other deliveries showed loss of values but fluctuated rapidly with trading on a large scale. The close was unsettled, 3c to 6 1/8c net lower, with May \$1.30 to 1.36 1/4, and July \$1.17 1/4 to 1.17 5/8.

Corn and oats followed the action of wheat. After opening 3-8 to 1 1/4 to 3-8 higher, May 94 1/2 to 95c, the corn market underwent a material setback. Liquidating sales on the part of holders caused a sharp down-turn in values later. Shipping demand was slow. The market finished heavy, 3 1/2 to 2 5/8c to 3 1/4c net lower with May 90 7/8 to 91c.

Oats started a shade off to 3-8c advance, May 41 3/8c to 41 1/2c and then scored moderate general losses. Lack of support weakened the provision market despite higher quotations on hogs.

CONTACT POWER LINE BUILDING PLANS PENDING

Power Company Official Here Says Negotiations are Continuing but No Definite Action is Taken

Negotiations looking toward construction of a power transmission line from Snake river stations of the Idaho Power company to the Contact, Nev., copper mining district are in progress, but no contract covering the work has been signed nor has there been any definite understanding reached, to this end.

This is the present status of the proposed enterprise as disclosed by the statement of Chas. W. Neely, district manager for the power company, made Wednesday when he was asked to confer or deny reports current here to the effect that a contract for construction of the line had been signed.

Mr. Neely said that construction of the line had been the subject of a conference at Salt Lake Wednesday of last week between R. B. King, general superintendent for the power company, and Conrad Wolfso of San Francisco, formerly a mining operator in the Spokane district and now at the head of the Riverside Mining company of Contact.

Mr. Wolfso left the conference it was reported, with an expression of optimism over his ability to finance the undertaking.

Construction of the line, according to the power company's estimates, would involve an expenditure of approximately \$200,000. The line, under present plans, would be built from Filer, along the highway to Rogerson near there on a direct line to the country contact. The total distance to be covered is about 72 miles.

SALMON PROJECT ISSUE SETTLED OUT OF COURT

Claimants for Water for Extended Land Reach Agreement with Company

Settlement out of court of litigation instituted by Thomas Sanderson and H. Crookham to compel the Salmon River Canal company to deliver water to their lands which were excluded from Salmon River project by provisions of the Whiffen report, was announced Saturday by Murray Brookman, representative of the Peoples Savings and Trust company of Pittsburgh, trustee for the Salmon River project bondholders.

The settlement is regarded as an important advance in negotiations toward settlement of all questions pending between the investors and operating interests and the landholders of the original project.

Sanderson and Crookham are said to be the only landholders outside the segregated area who were in position to raise the questions raised by them in the litigation that has been settled.

Terms of the settlement were withheld at the request of both parties to the transaction.

The suit is pending on appeal from the state supreme court's decision to the federal circuit court of appeals. The state supreme court reversed the decision of Judge T. Bailey Log in district court, ordering the canal company to deliver water to the complaining parties.

WESTON FIVE HAVE GLASS

Elimination Games for Final Honors at Pocatello Among Fastest Ever Seen

GAMES CANCELLED.

POCATELLO, Idaho (Special to The News).—With three Driggs basketball players threatened with pneumonia their team has been ordered home by a physician. No games will be played tonight, and as Nampa has been defeated twice already, Oakley and Weston will represent southern Idaho at Moscow this week. This decision was reached after a meeting of the coaches Saturday afternoon.

POCATELLO, (Special to The News).—The opening game of the finals to determine the right to two teams to go to Moscow to play in the finals for the state championship started here Friday afternoon at the Idaho Tech gymnasium.

The first game between Nampa and Driggs resulted in a victory for the Driggs five, with a score of 29 to 14. Driggs played rings around their opponents. For the Nampa squad, Compton and Hostetler did the starring.

The second game of the afternoon resulted in Weston beating Oakley by a score of 38 to 11. Weston has perhaps the best high school team ever assembled in the state, and Gasman, guard, is by far the state's best all around player. The team work of Weston five was too much for the Oakleyites although they were in the game every minute. Oakley seemed to be working under a strain playing on a large floor, and missed a great many baskets. Hunter, forward, and Hardy, guard, played the stellar game for the Oakley team.

The opening game of the evening brought out the Oakley team again against Nampa, and Oakley won that game by the score of 21 to 17. It was exciting from start to finish, and a winner was not decided upon, until the last two minutes of play.

The last game of the evening between Weston and Driggs proved beyond doubt that Weston is the class of this section. They defeated Driggs by the score of 33 to 18. This game was the fastest ever seen in this city, and the score doesn't start to tell how close the game really was. For the Driggs five Griggs and Blackstone did the starring.

FILER DEFEATS LOCAL BOYS

Eighth Grade Players Put Up Splendid Exhibition in Fast and Active Game

For the second time this season the Filer eighth graders took the local eighth grade hoops to a spanking when they won a hard fought game Friday afternoon at the high school gym.

The game itself although showing a score of 29 to 9 in favor of the visitors was a dandy to watch, and Miss Casey's gang gave a good account of themselves. The locals were handicapped through the illness of Howard Berg.

Guy E. Baum, representative here of a life insurance company, in probable court today pleaded not guilty to a charge of obtaining money under false pretenses, and was admitted to bond in the sum of \$500. The charge against Baum was filed by the prosecuting attorney at the instance of H. M. The price paid was \$275. Subsequently it was disclosed, the complaining witness alleges, that a third person holds a title note to the car.
