# CLASS OF 1922 COMPLETES WORK IN HIGH SCHOOL

## Commencement Exercises for Class of 116 Young Men and Women Beautiful and Im- pressive Event

Parents, relatives and friends of the 116 young men and women composing the Twin Falls high school graduating class of 1922, filled the Loring theater to the limit of its capacity Friday evening at commencement exercises marking the completion of the graduates' work in the Twin Falls schools.

**Makes Eloquent Appeal**

Dr. Alfred H. Upham, president of the University of Idaho, speaking on the subject of "Education and Human Values," delivered an eloquent and convincing appeal for appreciation of mental and spiritual factors. Dr. Upham, as the principal speaker for the occasion, was introduced by M. C. Mitchell, superintendent of Twin Falls schools.

Diplomas were presented to the members of the graduating class by Mrs. Jane Oraven Scott, president of the board of education.

Invocation and benediction were offered by the Rev. W. W. Burks.

Mrs. I. H. Masters sang a group of songs and instrumental numbers were given by the high school orchestra under direction of J. T. Bainsbridge.

### In Colorful Bower

The graduates were seated during the exercises on the stage which had been made beautiful by use of spring blossoms and the class colors of purple and white.

Announcement was made of the members of the class attaining the highest grade average during their high school course. Named in the order of their rank the first five are Helen Honsold, Marcus Ware, Violet Molderson, Lillian Lind, Raymon Dunahoo.

## Caldwell and Twin Falls High School Teams Battle for Supremacy

**CALDWELL TEAM**—Left to right, standing—Eldred Ansell, Coach; Lyke, Third Base; Hanley, PITCHER; Field (Captain), Pitcher; D. Lowell, Catcher; Jensen, Center Field; Nickle, Utility; J. J. Rao, Superintendent Caldwell Schools.  
Sitting, left to right—Bardaly, Pitcher; E. Lowell, First Base; Kim, Second Base; Lawson, Right Field; Lancaster, Shortstop; Hurr, Left Field.

**TWIN FALLS TEAM**—Left to right, standing—Clinton Evans, Coach; Atkinson, Utility; L. Jarman, Pitcher; Thomast (Captain), Left Field; Hammond, First Base; Jamison, Pitcher; Fix, Pitcher; Pustier, Catcher; Nyo, Right Field; G. Jarman, Shortstop; Chester, Carr, Manager.  
Sitting, left to right—Harper, Second Base; Cron, Third Base; Siggins, Utility; Puckett, Catcher; Mussell, Center Field; Sears, Pitcher.

## CALDWELL TEAM TAKES LAST GAME OF SERIES

Lincoln field battling for supremacy. Ideal weather conditions prevailed, and many fans from neighboring towns were present to help Twin Falls bring the championship to this section of the state.

Mention should be made of the surprising of the series by Bart Woolmans. Not once during the three games was there as much as a murmur against his judgment of balls and strikes.

The Caldwell high school baseball team won the state championship yesterday afternoon when they took the odd game from the local high school team by the score of 4 to 2. A crowd estimated at 2000 witnessed the battle, and saw their favorites go down to defeat at the hands of a better team. The Caldwell team are the undisputed champions, having the best high school team that ever appeared in Twin Falls.

**Putzier Does Good Work**

Another feature of the game was the hitting of Bob Putzier, the local's stocky catcher. Bob had a perfect day at bat, making four hits out of four trips to the plate, one of them being a two-bagger.

Lawson stopped a rally in the eighth, when, with two men on the bases, he speared Fix's hot liner to right, getting the ball with one hand and again the Caldwell team was saved two scores.

**Errors Pave the Way**

Errors paved the way for all of Caldwell's runs, not an earned run being made by the visitors. Twin Falls scored one run.

The pitching duel that was promised when Field and L. Jarman tangled, asserted itself yesterday, but the errors here won for Caldwell.

On the other hand, the worse things looked for Field the cooler he got. Pitches were by far the best high school pitcher seen here this season, having all the essentials he needs to make a real chucker. This is not said to take away from Jarman's performance, as the chances are that with the same kind of support accorded Field the two teams would still be at

Trial in cases involving alleged violation of prohibition laws entered upon its second day in district court here Wednesday when a jury was impaneled to determine the guilt or innocence of Charles Willis, charged with illegal possession of liquor. On the witness stand in his own defense Willis testified that he said that he went to Tiffany's house after clothing that belonged to his sister-in-law. Tiffany who was charged jointly with Willis with illegal possession, pleaded guilty and was sentenced to serve 90 days in jail and pay \$100 fine.

Their lack of a container when they went to a residence at 449 Addison avenue on Easter morning to buy a pint bottle and while he was away Willis in the back of the prosecution in the case of Percy Beckstead and Babe Hutchings, who were last evening acquitted by a jury in district court on a charge of illegal possession of liquor. The accused men offered evidence to show that the house in which they were arrested by the police on that occasion, had been rented shortly before to a man named Doyle. Doyle, they said, was in the liquor business and was the owner of the still which the police seized. Doyle, however, was short of pint bottles and while he was away Willis and Hutchings ordered the police arrived and took the prospective whiskey buyers in custody.

## RELIEF WORKERS ADOPT THEORY THAT FER- ROUS WOULD RATHER PAY SOMETHING THAN ACCEPT CHARITY

This is a reiteration of the muscles of the back. It comes on suddenly and is quite painful. Every movement aggravates the disease. Go to bed, keep quiet, and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. P. J. Dunn, Brookport, N. Y., writes: "Can honestly say that Chamberlain's Liniment cured me of lumbago a year ago last summer. When I began using it, I was flat on my back in bed and could not turn to the left or right. I had a bottle of Chamberlain's Liniment in the house and this was applied to my back. It promptly drove away the pain and aches."

## REGISTRATIONS ARE CONFUSING TO ELECTORATE

### County Authorities Point Out Difference in Requirements to be Met by Voters in City and General Elections

County authorities today said that considerable confusion exists in the public mind relative to requirements for registration at forthcoming elections.

Since May 1, they said, books for the registration of voters in the primary and general elections next August and next November have been open in every voting precinct in the county, and all persons voting in these elections must register prior to the date of the elections regardless of whether they registered or voted two years ago.

This registration, county authorities pointed out, has nothing to do with requirements for registration for Twin Falls' first commission term election June 6. Registration for the city election can be made only at the municipal building at the corner of Second avenue and Second street north. Registration books for the city election will close Saturday, June 2. It has been determined that persons who registered and voted in the city election last spring or in the special election of March 28 are not required to re-register again for the election of June 6.

Registration for the city election will not relieve citizens of the necessity of registering for the primary and general election this fall, nor will registration for the primary and general elections this fall be sufficient to qualify a citizen to vote in the city election June 6.

## FARMERS' PLEA HEARD BY COURT

### Claim for Exemption from Jury Service Based on Farming Proves Effective

Farmers who urged their claim for exemption from jury service in district court here this term on the grounds that farming operations demanded their time and attention, were in practically every case excused from such service by Judge W. A. Babcock on Monday when the citizens listed on the regular venire for the term appeared in court. Because of the lateness of the spring, Judge Babcock and the court felt it incumbent upon him to excuse farmers generally from jury service this term.

Out of the 80 citizens whose names appeared on the regular venire for the term 18 responded when their names were called in court today. Nine asked and were granted exemption on the grounds that they were farming. Others previously had been excused by the court for the same reason.

With only nine prospective jurors remaining on the regular venire, Judge Babcock ordered a special venire of 10 citizens before entering upon trial of the first case on the criminal calendar, and declared a recess until 1:30 o'clock this afternoon at which time persons named on the special venire were to report.

In the case of C. T. McCormick, charged with petit larceny, summary judgment rendered by Kennedy Park, justice of the peace, involving 60 days imprisonment, was the first to be tried before a jury at this term of court.

# COMMUNICABLE DISEASES ARE TO BE FOUGHT

American Relief Administration Seeks by Inoculation to Prevent Spread of Maladies in Russia

LONDON (AP)—A sanitary spring of fensive drilling for the inoculation of 10,000,000 people against five communicable diseases has been undertaken by the medical department of the American Relief Administration in Russia, says a cable reaching the London office.

Typhoid, paratyphoid (A and B), smallpox and cholera, which latter has now begun to appear in several regions, are the epidemics which the A. R. A. hopes to eradicate in this way. The vaccines are now arriving in Russia and are being distributed to the districts, and the assistance of the central government and the local health authorities has been enlisted in order to secure the co-operation of the people themselves.

The A. R. A. is also trying to revive such native sources, as that of the laboratory at Roux which was known as "the second Pasteur Institute." This has been practically closed owing to lack of materials and food for the staff. Now, however, the A. R. A. officer in Samara has induced the government to guarantee water, fuel and forage for animals needed for experimental purposes. The A. R. A. is giving laboratory supplies and food packages for the personnel.

### Teach Russians Sanitation

An educational campaign instituted by the government showing the dangers of the house, the mosquito and the fly and the necessity for removing all rubbish and the way prepared the way. As many of the people to be inoculated are receiving American ration, this prophylactic offensive is expected to be successful.

Already the A. R. A. physician in Samara, Dr. Foucar, has enlisted the aid of the refugee adults now being fed by the A. R. A. in removing trash and keeping public places clean. At children coming to the kitchens are required to take baths in the public bathing house. At first they were reluctant to indulge in even a weekly wash, but now they like it and come two and three times a week. While they are bathing their clothes are sterilized.

Repeating sewage systems, improving housing conditions, installing chlorinators to purify the water supply in the towns, are other means by which the A. R. A. hopes to make Russia safe from the sanitary standpoint. Funds for this campaign were provided by the American Red Cross, which contributed \$300,000 in cash and \$800,000 in stocks. An additional \$4,000,000 worth of supplies from surplus army stocks contributed by the United States government is yet to come.

## INTERNATIONAL RACE FOR DIMINUTIVE BOATS

Contest is Planned for Crafts Too Small to Carry a Helmsman

NEW YORK, (AP)—Much more thrilling and amusing than the periodic international yachting races for the America's cup, for which Sir Thomas Lipton challenges frequently, an international yachting race would be held June 8, 9 and 10 in the deep water of Manhasset bay, off Bay Side, between miniature craft measuring only six and seven feet from stem to stern.

It will be the first international miniature yacht racing in which the United States has ever participated. Selection of the boats which will represent America in the challenger race will be announced within a few days by a jury of yachtsmen who witnessed the trials recently held by the leading forty-eight craft were built for the tests, some in Detroit, Cleveland, Seattle, as far inland as Denver, and in the port cities of the eastern coast. The boats which are limited to a length of 48 inches on the water line are too small to carry a helmsman, so the skipper trundles along in an especially built cockpit, from which he steers. ## WALSH, FORMER PITCHING IDOL, NOW UMP IN LEAGUE

CHICAGO, (AP)—Ed Walsh, the pitching idol of the American league a decade ago when he was the "big mace" of the Chicago White Sox, returned to Comiskey field today as a participant in a ball game for the first time since 1916.

The old iron man, who usually needed only one run a game to win, was not a player, however. He was one of the umpires assigned to the game between the Sox and the St. Louis Browns. Walsh is working his first season as a major league umpire. Released at the end of the 1916 season when the strain of pitching 40 to 50 games a season had worn out his arm, Walsh tried a comeback with the Boston Braves. He started a game against the Chicago Cubs and blanked them for five innings.

## AMUNDSEN'S SCHOONER IS NOT UNTRIED CRAFT

Has Bucked the Ice in Polar Regions and Proved Her Worth

SEATTLE, Wash., (AP)—Roald Amundsen's 293-ton power schooner Maudo, not being provisioned here for a seven year drift in the Arctic ocean which the explorer believes may take him and his crew of nine men across the north pole, is no novice in bucking ice floes. The staunch little ship proved her mettle on a previous excursion into the far north. When the Maudo leaves Seattle on June 1 for the Arctic drift it will be her second venture on polar exploration.

On the recent trip, if the Maudo can do her work in four years, Amundsen will be well surprised and pleased. The little boat is 120 feet long, 42 feet of beam, draws 16 feet and her bottom is only curving with a special keel. She is constructed of wood, and because of her shape it is believed ice will not crush her heavy timbers, but instead lift her bodily.

## Can Use Power or Sail

The boat can proceed either under motive power furnished by oil-burning engines or under sails. With her wireless she is expected to keep the explorers in touch with the inhabited portions of the world. Two airplanes will fly from her deck over the vast white stretches of the frozen northern ocean and facilitate the charting of that little known region. One of these planes is capable of carrying nine passengers, and the other three persons, so that in case of accident to the Maudo it is believed the machines could be used to bring the party back to civilization.

The captain of the Maudo will be Oscar Wisting, one of the four men who accompanied Amundsen to the South Pole.

Amundsen himself, in addition to being director of the expedition, will be ship's cook.

## HOME OF WALT WHITMAN WILL BE MADE SHRINE

CAMDEN, N. J., (AP)—Walt Whitman's home here is to be preserved for posterity. A committee appointed by Camden city council has decided that a shrine shall be made of the modest frame dwelling where the "good gray poet" passed the later years of his life and where he died March 29, 1892. The committee, which is headed by Councilman Frederick S. Von Nieda, will seek funds from the city for restoration purposes. It has been suggested that the house be allowed to stand on its original site, and not mov-

DEANSON IN JAIL PRAYS FOR MOB

Captured by Posse Who Did Not Believe in Lynching and Given to Sheriff

MADON, Ga., (AP) - Jim Denison, negro, prayed unusually long in the Bibb county jail last night before he threw himself upon his bunk for his first real sleep this week. He prayed for the members of the mob that broke into the jail at Irwinton, Tuesday, dragged him out and lynched him, and prayed for his ultimate release.

Denison is under sentence to hang on June 10 for alleged assault upon an aged white woman some three years ago. His case went to the supreme court of the United States.

Believing that Denison's escape from the mob was an act of defiance, there are numerous persons of this and Wilkinson county, it is reported, who will ask Governor Harlow to commute his sentence to life imprisonment.

Denison was lynched yesterday morning by a posse who did not believe in lynching. They turned Denison over to Sheriff L. P. Player, at Irwinton, who a few hours before had declared his belief that Denison was dead.

As soon as the negro could get food and clothing, he was rushed to the jail here. "Jawly, boss, looks mighty good, jail, sho' do," said Denison, as the car in which he was riding swerved into the gateway of the local jail.

Proud to be Behind Bars. "I sho' mighty proud to be here," and he smiled until his big white teeth glistened.

"They tied a rope around my neck," said Denison. "Then they dragged me into the car. I asked them to let me pray, and they replied that they had no time."

"I heard them say they would shoot me just out of town. The knot on the rope around my neck was choking me. I crawled up on my hands in the dirt and felt the rope knot. I untied it. The car was speeding 30 miles an hour. I says to myself, 'Jim, jump or be killed. I jumped. First I flew 'fo' my feet. Just like that, I hit the ground and crawled and then on my hands and then I must have flopped over four times and rolled into the ditch.

"When I got out of the ditch shots were fired at me. I crawled and they kept on firing. I got up and ran. I was barfooted, my clothes were torn off me, and the gravel cut my feet."

JURY IN DISTRICT COURT SAYS LUE WAS NOT DRUNK

Returns Verdict Upsetting Conclusion Reached by Police Court Jurors

H. H. Lue, auto-driver, on appeal to the district court from conviction on a charge of having been intoxicated, returned by a jury in police court, was acquitted by a jury in district court. Lue was twice tried in police court, the first trial resulting in failure of the jury to agree upon a verdict.

Testimony introduced by the defense in the police court trial served to show that Lue was the victim of a conspiracy and spite work on the part of the police who, it was intimated, were disappointed over the result of the election of March 23 resulting in adoption of the commission form of government for Twin Falls, was excluded at the trial in district court.

Lodging House Operator and Husband Resist Seizure of Contraband in Bucket

Police officers, in a raid on the Lyman rooms, corner of Third avenue and Second street east, last night wrestled with W. R. Squibb and Florence Squibb, his wife and operator of the place, for possession of an open bucket of moonshine whiskey which was found in the kitchen. The police were successful in salvaging something more than a quart of liquor out of the gallon measure which the bucket contained when the contest began. Squibb and his wife were placed under arrest and charge of illegal possession of liquor when they preferred against them by prosecuting Attorney Frank L. Stephan.

The police Wednesday night searched the Lyman rooms without discovering any contraband. They returned last night for a second search. Mrs. Squibb was coming down the stairs as the officers entered the building. Squibb was in the kitchen and when he saw the officers in an attempt to pour the contents of the bucket into the kitchen sink. In the struggle for possession of the bucket, the officers, Squibb and his wife, who joined in the fracas, were liberally drenched with the bucket's contents. The wall was carried out by Patrolmen W. R. Patton and W. G. Shipman.

Without prejudice and in the interests solely of public information, here are the facts surrounding the arrest and conviction of E. F. Walton on the charge of selling intoxicating liquor without a license, in Ada county in 1909:

Seventeenth Idaho Reports of the Supreme Court, Page 171.

November 2, 1909.

In re E. F. Walton, Application for Habeas Corpus (104 Pac. 609)

Opinion by Justice Stewart, concurred in by Chief Justice Sullivan and Justice Albright.

The petitioner in this case was charged with the crime of selling intoxicating liquors without a license and was tried before a justice of the peace in and for Ada county. He was convicted in the justice's court and fined in the sum of \$200.00 with costs taxed at \$69.44, and ordered imprisoned in the county jail until such costs and fine be paid, the time of imprisonment not to exceed one day for each \$2.00 of such costs and fine. From this judgment he appealed to the district court and was thereupon remanded to the county jail for non-payment of the costs and fine. On appeal from this judgment the district court was divided 2 to 1 in favor of the defendant. The majority opinion was delivered by Justice Stewart and is as follows:

"It is therefore ordered, adjudged and decreed that the said E. F. Walton is guilty of selling intoxicating liquors without a license and that he is hereby imprisoned in the county jail of the county of Ada, state of Idaho, for the term of 50 days or pay a fine of \$100.00 or \$5.00 for each day of such term not so served."

"The defendant was then remanded to the custody of the sheriff of the county of Ada, state of Idaho."

The decision rendered by this court upon the petition of Sir Alzaman Lucas, for a writ of Habeas Corpus is declarative of this case and for the reasons stated in that opinion. The judgment rendered by the district court in this case was in excess of the jurisdiction of such court and the defendant must be discharged.

The punishment prescribed by Revised Code, Sec. 1618, for selling or giving away intoxicating liquors without first procuring a license is a fine in any sum not less than \$100.00 and more than \$200.00. Under this statute imprisonment cannot be made a part of the punishment by the district court, upon appeal from a conviction in a justice's or probate court where a surety bond is given as provided for in Revised Code, Sec. 8324, and the district court is without power or jurisdiction to imprison the defendant. The petitioner is discharged.

CAUSALITIES OF PEACE

War destroys life and property and for that reason wise and good men everywhere want to do away with war. But if war were ended forever men would still be killed and maimed and property would continue to be destroyed. Good and useful forces sometimes get out of control and do harm; men make mistakes; accidents will happen.

Every great enterprise takes its toll in human life. Men are killed and injured daily in mines, factories and in the fields of the farmers. And besides these accidents there are conditions incidental to many industries that injure the health of workers and often temporarily or permanently disable them.

These facts in general are known to everyone but not many know that the losses from such causes are appalling; that they are more terribly continual than are the casualties of war which occur only at intervals. There is no guesswork about the figures. The reports of state compensation commissions show that the number of persons disabled or suffering industrial disease is not less than 1,000,000 annually. In the state of New York alone there are 350,000 cases every year of industrial disease and disability, more than all the soldiers of the United States disabled in the war.

The unfortunates do not receive the public sympathy which is accorded soldiers though they are in a sense, casualties of public service. They are seldom adequately compensated; they are rarely pensioned; they frequently suffer great loss in earnings and in many cases never find suitable means of earning a living afterwards. They become a charge upon the public.

There will be various ways of meeting the obligation but probably the first need is to bring home to every industrial community a genuine conviction that the obligation exists. All the forces of education, of community conscience, of industrial efficiency, or business management should be directed to lessening this huge waste and mitigating this pitiable volume of human misfortune and suffering.

AMATEUR SPORT

Organization of the National Amateur Athletic Federation of America at a meeting held in Washington is a matter of more importance than appears on the surface. When it is realized that nearly 6,000,000 athletes will come under the control and supervision of the

probable the influence that it will exercise becomes readily apparent.

The basic reason for one central organization, having general supervision over all amateur sports, while leaving the existing organizations in direct control of the sports they specifically represent, is the still higher cultivation of the amateur spirit in athletics, the maintenance of physical education on an equally high plane and the standardization of the rules of all amateur games and exhibitions.

By electing the president of the United States honorary president and secretaries of war and the navy honorary vice-presidents, the federation indicates to the people of the country, not only those who are active in sports of some kind, but to such as are not, the far-reaching importance of the purposes that are in view.

An Eastern Seed Company. contemplates entering the Idaho field this year with highest cash prices based on Eastern distributive markets. The company paid in 1921: \$15.00 for Airda, \$10.00 for Red Clover. Its plan of operation was so successful on the 1921 crop that the acreage already signed up for 1922 is five times that of 1921. Acreage signed 1921 crop: 6,200 acres. Acreage signed 1922 crop: 29,200 acres. This is growing every day. Each grower gets the full price in cash for his seed any day he wants it and the seed is not shipped from the grower's station until entirely paid for. The plan also covers the most systematic field service and many features including the following: (1) Expert experienced seed men with a history as actual seed raisers who call on each grower regularly to give advice based on field examination at the time. (2) Loans on seed are made before harvest at 6 per cent. (3) Bags are furnished free for the Grower's use. (4) Seed is selected before cleaning and carefully sorted by test made on each bag in the lot separately. This prevents mixtures of noxious weeds (which may be only in some parts of a field) with the main lot. (5) The seed is then cleaned in a modern plant located at the country point where the seed was grown. (6) A certificate of the grade and test is issued which grade may be accepted or rejected by the grower at his pleasure. (7) A market service is provided which insures the highest possible market price with the full amount paid in cash to each grower immediately. Our plan is now operating at the following towns in Utah: DELTA, PILLMORE, LEAMINGTON, ABRAHAM, DUCHESNE, CEDARVIEW, NEOLA, UPALCO, BLUEBELL, LA POINT, SANDLETT, WYMEROCES, YERNAL, JENSEN, GUISHER, MIDVIEW, MT. EMMONS, ROOSEVELT. GROWERS OF IDAHO SHOULD LEAVE THEIR SEED FREE. Full Information May Be Obtained by Letter From The J. G. Peppard Seed Company KANSAS CITY, MISSOURI
