

MAYOR DENIES LIABILITY FOR WRECKED AUTO

Injured Traffic Policeman Says Car Seemed to Stop in His Path, and Owner's Damage Claim is Refuted

Liability of the city of Twin Falls for repairing a light touring car owned by J. W. Roberts of Murtagh, that was damaged when it crossed the path of W. H. Green, traffic policeman at the intersection of Shoshone street and Fourth avenue east Sunday evening, August 29, was denied by Mayor J. E. Tucker at a meeting of the city commission Tuesday evening, on the grounds that Green, although traveling on his motorcycle at a rate of between 30 and 35 miles an hour, was estimated to be at an excessive rate of speed for an officer in pursuit of his duty, and that it would require evidence to remove the mayor's responsibility for the damaged car had not been brought to a halt in front of the oncoming officer.

Green Tells Story
The mayor's pronouncement came after Mr. Roberts told the commissioners he came before them to see about getting the car fixed or to \$400 what was the amount of the damage bill at between \$75 and \$100. Heavily swathed in bandages covering wounds received in the encounter with the car, Green came before the commissioners and told the story of the collision. "I started after a speeder on Shoshone street," he said. "I was going between 30 and 35 miles an hour. I expected to catch the speeder between the intersection of Shoshone and the Roberts' car coming down Shoshone street. It appeared to me that it made the right turn and then stopped. I sounded my horn and the car moved, but didn't have time to sound it again. I just held on and waited."

World Expertise Sought
Commissioner E. S. All asked if there was any city ordinance governing the speed at which an officer might travel through the streets. The question was referred to the city attorney, who reported for a week's time to investigate. Mr. Roberts said that he had had a new day for the car and would like to have it repaired as soon as possible. The mayor replied in the affirmative.

License Problems Figure
Problems growing out of municipal licensing requirements occupied the attention of the commission throughout a considerable part of the session. As attorney for Mrs. Florence Squibb, operator of the Lyman rooms, W. F. Guthrie called for an immediate decision on the part of the commission relative to the application of Mrs. G. Hickman, a prospective purchaser of the restaurant for a license. The attorney failed to get a decision which was postponed on motion of Commissioner S. G. McAuley in line with the suggestions of Commissioner J. E. Roberts and the city attorney. The city commissioners to read letters of recommendation written by C. W. Simpson, A. J. Fix, W. A. McKinster and P. O. Ellis that recommended the issuance of a license together with the adverse report made by the chief of police.

Lawyer Retorts to Mayor
"I contend that the conditions and requirements of the ordinance," Mr. Guthrie said, "have been fulfilled by the applicant." Mr. Guthrie said that the commissioners had not satisfied themselves in the premises and were unable to take action. The attorney retorted, "you could break any man in the country. If you got it in for me, for instance, nobody could satisfy you. How can you know beyond a trial whether a person is immoral?" Discussion between the mayor and Commissioner Roberts as to the antecedents, capability and character of Mrs. Guthrie, continued, who recently paid \$25 for an auctioneer's license, was cut short when Mr. Montgomery, standing with a group of spectators called for a vote on the license. "I am Mr. Montgomery. Some time ago I paid \$25 for a license as an auctioneer. I supposed that I would be protected against unlicensed competition. I am not here urging you to enforce the ordinance but to demand the return of my money."

Question Anticipated
The question presented by Mr. Montgomery had been anticipated by members of the commission and the mayor had a reference to it in his notebook. It was brought out that H. B. Lee, a

CONSIGNMENT OF SPUDS DENOUNCED BY GROWERS

Cassia County Producers Are for Cash Market; Will Oppose Free Diversion of Cars

BURLEY, Idaho, Sept. 6.—(Special to The News)—Cassia county potato growers who combined crops this season will aggregate approximately 1800 acreloads, at a meeting here Saturday evening, voted unanimously against consignment of the crop and in favor of establishing a cash market. A committee of nine growers was named to confer with other growers of the state with a view to obtaining similar action in this district. The committee also is considering the "tramp car" proposition with a view to opposing free diversion of potato laden cars, on the grounds that it results in the use of cars by consignors for storage purposes and stimulated the rolling of unsold potatoes. Numerous growers here, it was stated, have consigned their potatoes through operators in the local field, and the returns to the growers have proven generally disappointing. Proceeds of the sale price, it was said, have been absorbed by freight and consignment charges, leaving the growers practically nothing for their crop. Victor Smith was elected chairman, and L. H. Phillips, secretary of the organization formed by the growers which was designated the Potato Growers of Cassia County.

ROSEWORTH TRACT FARMS SELLING AT ABOVE PAR

One of Original Brooklyn "Caravaners" Receives Full Compensation for Outlay on Land

Buhl, Idaho, Sept. 6.—(Special to The News)—David Hillman, one of the original Brooklyn "caravaners," today sold his 40 acre farm on the Roseworth project to Thomas Daly, a veteran ranchman of irrigated Idaho, who expressed surprise over crops produced on the project the first year from sagebrush. Mr. Hillman received in payment for his property the entire original purchase price together with the market price for his crops of wheat estimated to yield 30 bushels per acre and corn to yield 60 bushels per acre, together with compensation for his labor and improvements. A somewhat similar transaction was recorded about 10 days ago when Mr. Hunt, owner of an 80 acre farm on the Roseworth project on which he has resided for three years, purchased for his son an adjacent 40 acre farm owned by Mr. Leavitt of Astoria, Ore. All of the improved land under the Roseworth project has been sold and purchasers of land on the project have no choice except to buy improved farms. This condition is believed to be exceptional in the history of western reclamation projects.

Officer Declines to Work for More Than Single Boss

Presence of E. F. Walton During Commissioners' Discussion of Appointment Policy Deal for P. O. Herriman

P. O. Herriman, former deputy sheriff, plans to formally decline appointment to the Twin Falls police force, he said Wednesday evening, adding that he was considering acceptance of appointments on the police force of Denver or San Francisco.

Chief of Police J. E. Cross Tuesday afternoon said that he still hoped that Mr. Herriman would reconsider his decision and accept the position offered here. "I never have worked for more than one man at a time," Mr. Herriman said in explanation of his refusal of the offer here, "and I don't believe I want to start now." Mr. Herriman said that he was called to Tuesday afternoon by Chief of Police Cross to discuss the appointment, and that J. E. Roberts, police commissioner, was present at the police station when the conference opened. A little later, he said, Mayor Tucker arrived, and was followed by Commissioners S. G. McAuley and E. L. Cogswell. The arrival of E. F. Walton seemed to complete the party, Mr. Herriman said, and soon afterward Walton, Tucker, McAuley, Cogswell and Roberts entered into a private conference in an adjoining room. Commissioner Roberts later rejoined the police chief and Mr. Herriman and began to explain that some objections had developed to the proposed appointment of a man who had previously served as an officer here. Mr. Herriman cut short the explanation with the statement that he did not believe that he cared to work for more than one man at a time.

COUNTY'S STATE TAX BILL GIVEN

Assessment Totals \$172,355 as Against \$170,820 Last Year, According to Figures Given Auditor

Twin Falls county's state tax bill this year amounts to \$172,355.05, as compared with \$170,820.32 last year, according to certificate of assessment received Tuesday from the state board of equalization at the office of C. C. Higgins, Twin Falls county auditor. The total amount includes various special levies authorized by the legislature. The total for general state purposes being \$117,738.35 as compared with \$108,402.08 last year, and for general levies \$54,616.70, as compared with \$62,418.24 last year. With the certificate of assessment there were delivered certificates showing a reduction of five per cent ordered by the state board in the valuation of the county's agricultural lands, and a total valuation of all property in the county assessed for purposes of taxation at \$23,163,492.77, as against \$21,099,980.40 last year. The reduction in the valuation of farm lands amounts to \$741,170.50, the valuation in 1921 having been \$1,819,349.10 and being this year \$1,098,239.50. Valuations of public utilities and car companies in Twin Falls county were fixed by the state board as follows:

Table with 2 columns: Item and Amount. Includes Oregon Short Line, Telephone Company, Telegraph Company, Idaho Power Company, Pullman and private car, and various public utilities.

WARRANTS OUT FOR ARREST OF GUILTY DRIVER

Sheriff's Office Operatives Learn Name of Man and License Number of Car Believed Responsible for Crash

T. M. Moore, driver of a Nash roadster of blue color bearing Colorado license No. 19833, is accused, in a warrant for arrest issued Wednesday at the instance of Deputy Sheriff V. H. Ormsby, of willfully oversteering a light car on the road west of here Sunday afternoon and causing the injury of A. K. Mulliner, Twin Falls district farmer, and seven other passengers.

An Associated Press dispatch from Denver Wednesday night said police records there show that automobile license No. 19833 was issued to T. M. Moore of Denver. His address was given as a Denver hotel, but the clerk at that hotel said Moore had not lived there for some time and nothing was known about him.

The warrant for arrest was issued after the officers had investigated the story told them Tuesday by Moore when they overtook Moore on the highway near Kimberly. They declared Wednesday evening that Moore's story was largely fabrication. Confidence was expressed that Moore would be in custody within a few hours.

Worked on Farms Here
The officers' investigation, they said, indicated that Moore had come here some months ago from his former home in Denver and that he had been employed since as a farm laborer on the farms of William Newman and of Homer Hudson in the Berger district. It was learned that Moore had worked Friday and Saturday for a thrasher named Sigel in the vicinity of Knoll and that on Sunday he had visited the home of Mrs. Hall near Knoll, leaving there at about 1 o'clock in the afternoon.

The collision with the Mulliner car, which was coming from the vicinity of Knoll, occurred on the road from that place at about 1:45 p. m. No marks on car
Moore told the officers Tuesday that he had not been in the vicinity of Knoll Sunday and that he had not driven his car that day. He told them that he would go to work today for William Newman.

There were no marks on Moore's car when it was observed Tuesday by the officers, and they did not feel justified in detaining Moore at that time. Inquiry today at the William Newman home showed the fact that a man who gave the name of T. M. Moore and who drove a car of the type described by the officers, had been employed there during the months of July and August, but that he was not expected to return.

Woman Keeps Record
Mrs. Hall at Knoll gave a description of Moore which tallied with the officers' description of the man, and she had made a note of the license number of his car which corresponded with the number on the car driven by Moore when he was interviewed by the officers Tuesday. Mr. Sigel said that Moore had worked for him two days but that he was not expected to return.

The driver of the car which oversteered the truck today included pursuit after the collision which occurred on the paved road about two miles west of South Park. Without halting to ascertain the extent of the injury done or to offer assistance, he gathered speed and turned south at South Park, going around the town.

Work on Meagre Cues
Officers had only a meagre description of the car and the statement that it bore a black and white license plate to guide them when they set out to capture the guilty driver. The search was hampered by the fact that several of the men who sustained severe cuts and bruises, were A. K. Mulliner; Mrs. A. K. Mulliner; their daughters, Mrs. Lester Blackburn, Miss Julia Mulliner, and Miss Mildred Mulliner; Lester Blackburn; Vera DeLia Blackburn, nine months old child of Mrs. Mulliner; Carl Elyshoven, and Miss Helen Heap. Mrs. Bole, sister of the wife of a son of Mr. and Mrs. Mulliner.

LICENSE IS CHECKED UP. DENVER, Sept. 6.—Police records here show that automobile license No. 19833 was issued to T. M. Moore of Denver. His address on the license was given as a local hotel, but the clerk at that hotel said Moore had lived there for some time and nothing

MRS. SCOTT AND McGLAIN NAMED

Race of Woman Candidate for Re-election Outstanding Feature of School Election

Results of the Voting
Lincoln Bicket Total
Ward Ward
McClain 225 257 482
Scott 153 154 307
McKinley 133 133 266

Mrs. Irene Cross Scott, president of the Twin Falls school district board of education was re-elected Tuesday with a margin of 62 votes over John C. McKinley, third candidate in the race for two positions for which Mrs. Scott and C. E. McClain sought re-election. Mr. McClain was returned with the largest vote polled by any of the candidates.

Soon after the voting began in the afternoon it became plain that the race was between Mrs. Scott and Mr. McKinley, and that Mr. McClain was running far ahead. Several other candidates bent their efforts to obtaining the largest possible expression of the voters and the total of ballots cast, 647, was one of the largest ever polled in a school district election here.

Rolling places were provided at the Lincoln and Bicket schools, and the voting was in progress between the hours of 1 p. m. and 6 p. m.

BUHL CHILD VICTIM OF CAR WRECK

Nine Year Old Rosie Berenter Instantly Killed — Several Others Injured in Auto Accident Near Mountaintop

ROSE, Sept. 6.—One person was killed and five others injured when the car in which they were riding turned turtle one mile west of Cliff and the Boise-Mountain Home road. ROSIE BERENTER, 9 years old, Buhl.

The injured: Mrs. Dora Berenter, mother of the dead girl; dislocated wrist and collar cuts and bruises. Mrs. Theodore Glauber, Buhl; collar bone broken, back injured, cuts and bruises about the face and body. Leonard Detrick, Buhl; cuts and bruises about the head and body. David Berenter, Buhl; cuts and bruises. The injured were found alongside the road by Mr. Peterson and were taken to the hospital where medical attention was given them. The infant daughter of Mr. and Mrs. Berenter was the only member of the party who was not injured.

Car Moving Rapidly
According to meager details of the accident, the party was returning to Buhl after spending a short vacation at Boise, when the accident occurred. The car was moving at the rate of 35 miles an hour, Mr. Berenter, who was driving, said, when something went wrong with the steering apparatus. The car was under control, zigzagged for a short distance and turned completely over. All the occupants were thrown from the car. The little Berenter girl was instantly killed, the top of her head being severed from her body. LIPSTICK CASE UP AGAIN

DEBTS SHARING STICKING POINT IN BIG DISTRICT

Aberden - Springfield Project Settlers Have No Wish to Incur Responsibility for Twin Falls' Liability

Some Twin Falls district landowners are dissatisfied with the proposed American Falls irrigation district because it involves liability of payment for American Falls water that may be defaulted by other included areas, while owners of approximately one-half of the land under the Aberdeen-Springfield canal system have applied for exclusion of their lands from the proposed super-district because they are fearful of being called upon to meet Twin Falls' defaulted payments.

This was made evident Tuesday at the hearing before the board of Twin Falls county commissioners on the petition for inclusion on the creation of the proposed American Falls district to include all of the lands under Snake river valley canal systems which have contracted for American Falls water. No decisions were reached at the conclusion of Tuesday's session and the hearing will be resumed Wednesday.

Do Not Ask Exclusion
Objectors to the formation of the super-district among landowners under the Twin Falls canal system presented a remonstrance against the calling of the election. The remonstrance was signed by about 300 persons representing approximately 30,000 acres out of the total of 221,000 listed as Twin Falls district lands in the petition under consideration.

Signers of the remonstrance did not request exclusion of their lands from the boundaries of the super-district, but asked that the remonstrance be filed with the election "for the reason that it will require us to become common debtors with other irrigation systems throughout the district and for the further reason that "we do not deem it to be the best interests of the landowners of this project to join in said irrigation district but to remain in the position under consideration. Signers of the remonstrance did not request exclusion of their lands from the boundaries of the super-district, but asked that the remonstrance be filed with the election "for the reason that it will require us to become common debtors with other irrigation systems throughout the district and for the further reason that "we do not deem it to be the best interests of the landowners of this project to join in said irrigation district but to remain in the position under consideration. Signers of the remonstrance did not request exclusion of their lands from the boundaries of the super-district, but asked that the remonstrance be filed with the election "for the reason that it will require us to become common debtors with other irrigation systems throughout the district and for the further reason that "we do not deem it to be the best interests of the landowners of this project to join in said irrigation district but to remain in the position under consideration.

Aberdeen-Springfield Situation
Protest on the part of landowners of the Aberdeen-Springfield irrigation system bore signatures representing ownership of approximately 20,000 acres or about 10 per cent of the project, according to D. H. Blossom, Idaho Falls, by whom it was presented. In addition to their aversion for assuming liability for Twin Falls' indebtedness, signers of the protest offered their reasons for their request for exclusion of their lands the argument that they are "already provided with an adequate water right existing in the land and water company."

Proceedings Tuesday were rather informal, a running fire of debate and questions continuing until the close of the afternoon. The case for the proposed district was represented by F. A. Banks, reclamation service engineer; J. E. Shepherd, Jerome, president of the Twin Falls water company; Guy Finner, managing director of the Idaho Reclamation association; L. L. Evans of American Falls; Ivan G. Lincoln, president of the Twin Falls water company; J. A. Cron and others. T. J. Costello and J. T. Wandle were prominent spokesmen for the Twin Falls objectors.

Other Counties Represented
Frank L. Stephan, prosecuting attorney, was occasionally consulted by the board during the proceedings, and other counties were represented by Commissioner A. F. McCleod, D. F. Keith and C. N. Dilworth of Gooding county, and Commissioner E. E. Zaring of Power county. In reply to an objection raised by Twin Falls landowners, Mr. Shepherd said that the principal advantage to the Twin Falls project was the inclusion of the proposed district would be a saving of approximately two per cent a year in interest charges on bonds that would have to be floated either by the Twin Falls company as a separate rate or by the super-district at a lower rate. Mr. Evans urged the commissioners to submit the district's formation to a vote without material change in its boundaries, for the reason, he said, that the petition complied with all legal requirements and for the further reason that undue complications and expense would result from postponing the water supply to lands under the proposed district.

SENATE PASSES FIRST BILL FOR COAL CONTROL

House Measure Designed to Check Profiteering and Provide for Equitable Fuel Distribution Goes Over

WASHINGTON, Sept. 7 (AP)—With only seven negative votes recorded, the senate today passed the first of the emergency coal bills, the house measure designed to check profiteering and control the distribution of coal. The vote was 40 to 7 and the measure was amended to conference for adjustment of differences with the house.

Passage of the bill was followed by consideration of the fact finding measure, but final action on it was deferred by a sudden and at times heated debate over provisions which would direct the commission to study the question of nationalization of the mines along with other phases of the industry.

Before quitting for the day the committee bill was amended to direct the agency to make a separate and distinct investigation of the anthracite industry and to inquire into any "organized relationships" between miners and operators if they exist.

The change was a direct result of the recent settlement of the anthracite tieup and Senator Borah, republican, Idaho, sponsor of the bill in the senate, previously had withdrawn the measure from consideration in order to await developments of the anthracite peace negotiations.

Report Provided For.

The commission is ordered to make its report on the anthracite inquiry not later than July 1, next year, which would be one month in advance of the expiration of the wage contract for that industry. A report of the bituminous study is due, under the bill, in six months from its inception.

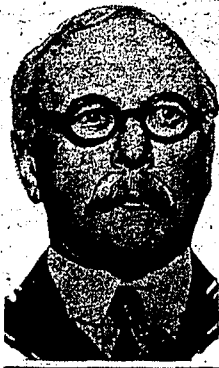

An effort by Senator Shields, democrat, Tennessee, to amend the bill so that representatives of both miners and operators would be specifically prohibited from membership on the commission was rejected, but only after Senator Borah had said he agreed with it, but desired "in no interest of harmony" not to inject that feature into the bill.

The fight on whether the commission should be directed to inquire into the advisability of nationalization is expected to be resumed tomorrow as a result of an amendment to strike out that section. Senator Keating, republican, South Dakota, opposed the provision because of the extra work which he said it would require of the commission in studying a "speculative" proposition.

Senator Borah denied insinuations that the proposition would lead to open issues, but added that even if it did, "there can be no interest of any question by dodging and evading." "It can be decided," he went on, "only by ascertaining the facts and dealing with them in the establishment of a policy."

New Irish Cabinet to be Considerably Smaller with Closer Co-ordination

LONDON, Sept. 7 (AP)—The Dublin correspondent of the Times says that there will be fewer members of the new Irish cabinet, the machinery of which will be simplified by closer co-ordination of officers. The probable makeup of the cabinet is given as follows:

- Chairman and minister of finance, William Cosgrave.
 - Defense, Richard Mulcahy.
 - Local government, Ernest Blythe.
 - Home affairs, Kevin O'Higgins.
 - Labour and trade, Joseph McGrath.
 - Agriculture and economics, Patrick J. Hogan.
 - Education, Finian Lynch.
 - Postoffice, Walsh.
 - Publicity, Desmond Fitzgerald.
- The correspondent says Ireland retains its confidence in the movement, but is discouraged and alarmed over the continuance of disorders. The government, he added, is expected to make a firm statement of policy and announce its definite program of protection, construction and reform.

RULES ON IDAHO SCHOOL SPORTS

Plans for Interscholastic Athletics in State Announced by Secretary Mitchell

Naming of specified dates at the start of the season to do away with school being able to take advantage of the other side of the features of Idaho interscholastic football, basketball and track rules made public Thursday by Secretary Mitchell of the state board of control for interscholastic athletics.

Mr. Mitchell's announcement follows:

The following statement sets forth the outline of plans for conducting Interscholastic Athletics in Idaho in 1922-1923. These plans have been formulated by the Board of Control which board is composed of Superintendent B. H. Snyder of Idaho Falls, president; M. C. Mitchell of Twin Falls, secretary; treasurer, and Superintendent Cherry of St. Maries. Coach Matthews of the University of Idaho has also assisted the board.

First: The main attention of the conferees was directed toward making arrangements for conducting football in the fall of 1922. The following points were considered:

A. Districting of State.

The plan of districting the state into districts which will be conducted in the fall of 1922, is modified for conducting football so that districts one and two in northern Idaho become a single district, viz: District A; District Three (the Boise valley district) remains the same and is designated as District B; District Four (the Burley-Gooding-Twin Falls district) remains the same and is designated as District C; Districts Five and Six in southeastern Idaho become a single district, viz: District D. The state is thus divided into four districts for playing football.

B. Schedule of Games as to Time and Place.

The state championship game shall be played Friday immediately preceding Thanksgiving, November 24. The interscholastic championship games shall be played on Friday, November 17. The district championships must be determined on or before Saturday, November 11. The districts shall make their own schedules and shall decide the championships at places and in a manner determined by the district organizations. District schedules must be reported to the secretary of the State Board of Control at noon, November 17, 1922, and not later than November 1, 1922.

The two interscholastic games shall be played between Districts A and B, and C and D respectively. The winners of the competing schools winning the toss in 1922, which toss is conducted by the board of control. In succeeding years these games shall be played between the two districts concerned in each case. The understanding is that A and B shall continue to be paired together from year to year and similarly with districts C and D.

The state championship game shall be played by the winners of the interscholastic games, at the residence of the board of control, providing that a school shall be allowed to have the state championship game on its home grounds in two consecutive years, away from any school, and the state championship games away from its home grounds two consecutive years.

No provision in these regulations shall be construed as interfering with individual schools in securing games with schools from other districts or outside the state.

No school will be recognized as a district champion by the Board of Control which has not paid its annual dues or in its regular district schedule has competed with teams whose dues for the year have not been paid.

Any provisions in Section B relating to "schedules" may be modified by the Board of Control in the midst of the football season for reasons arising due to financing of games as considered in Section D.

C. Officials
Lists of competent and satisfactory officials from each district shall be filed with the State Board of Control by November 1, and the said board shall appoint officials for inter-district and state championship games.

D. Financing the Games
The burden of financing a game naturally falls on the home school. The home team guarantees the visiting team all the latter's expenses, such as advertising, officials, etc. The net receipts of inter-district and state championship games shall be divided, giving 75 per cent. to the home team and 25

per cent. to the visiting team. The State Board of Control is the final auditor of all accounts of inter-district and state championship games. In case the winner of the loss cannot finance the game, the loser of the game has the right to the game on their ground guaranteeing the finances. If neither team can finance the game the Board of Control shall divide the field and the two competing schools shall each receive half the net receipts. The school refusing to abide by this arrangement forfeits to the other school.

Second: The plan for conducting Interscholastic Basketball will be practically the same as in the spring of 1922.

Third: The plan for conducting Interscholastic Football will be practically the same as in the spring of 1922.

Fourth: The board of control will not supervise interscholastic baseball, wrestling, track and other sports, but will leave that to the individual schools and districts as in the past.

PUNTS AND PASSES

By FULLBACK.

Although the fans are still busy trying to figure out who is going to win the National and American League pennants, the baseball fans' attention must be turned to the oncoming football season.

Wednesday evening at the local school, Coach Evans issued a call for students wishing to try for the football team this coming season, and no less than 110 lunkheads stepped in line with the crowd asserting that they were going to "make" the team. It was most gratifying to see so many out for places that but 18 men will be able to take care of, and a condition of this kind means that Twin Falls High school is on the way for a real snappy team this year.

Several of the old-timers were out last evening and looked fit as a fiddle. Len Scott has taken on a few extra pounds, and will put up a hard fight for his old position in the back field. Old reliable John Larson is another likely looking candidate. John is in perfect condition, and is anxiously awaiting the start of next training.

Old reliable John Larson is another famous rock that has the insurance sold on it, for Merrill is just about as solid as the Rock of Gibraltar. Puckett means that Twin Falls High school is to be hoped, but this year, and it is to be hoped, that he will be able to make the grade this year.

Will Make Strong Bid.
Walter Selck is another backfield man that is going to make a strong bid for a back field position. "Sliek" as he is more commonly known, finished his prep work at the summer camp, and if looks count for anything, the training did him a world of good.

Clarence King, another of last year's backfield men, is out for the team. Months of ranch work didn't hurt his physical condition any.

Alton Denton was also among those present last evening and will try out for center.

Pat Flynn was also out in a suit, and tells us that he feels husky enough to play in the backfield, and he has a touchdown all by himself. Go to it, Pat, and good luck to ye.

Tries for Old Position.
Moroni Jamison will try for his position at end and although there are a number of lads that think they are good ends and will be trying for Moroni's place on the team, there isn't a doubt but that Moroni will be there when the ball rings.

Stewart Robinson is another member of last year's team that will try out for a back field position.

Following is a partial list of those that were out last evening. The approximate weight of each also given, some names were omitted as it was impossible to get a line on all of the 110 athletes. The latter men of last year: Len Scott, 137; John Linder, 173; Merrill Puckett, 163; Walter Selck, 142; Clarence King, 167; Alton Denton, 163; Pat Flynn, 173; Moroni Jamison, 160; Stewart Robinson, 141.

OIA Members Report.
The list of those who stayed with the team all of last season: Paul Laartz, 162; John Ambery, 144; Arthur Peavey, Jr., 149; John Nye, 171; Walter Weaver, 166; Jerome Frantelle, 176; Randall Victory, 170; Walton Swin, 170; Cecil Glah, 148; Chester Kerr, 131; Don Crow, 145; Marshall Bonarville, 152; Albert Frank, 153; David Alford, 141; Edward Walters, 135; George Harrison, 160; Joe Sawyer, 156; Stanley Crom, 140; Forrest Wiley, 150; James Ryan, 165; Charles Baker, 201; Frank Powers, 160.

A partial list of men that have had some football experience: John Riley, 148; center, Albert Fodgen, 153; played tackle; Clarence Garrity, 174; played fullback; Chester Jamison, 159; played fullback and end; Theodore Haley, 167; played guard.

It was announced at practice last evening that the Peters Shoe Repair Shop will put cleats on the shoes free of charge for players who have the sanction of Coach Evans.

LEONARD SIGNS FOR MATCH

World's Lightweight Champion to Face Charley White of Chicago for 12 Rounds

NEW YORK, Sept. 7 (AP)—Benny Leonard, world lightweight champion, and Charley White of Chicago, have been matched for a 12-round contest in Boyle's Thirty Acres, Jersey City, on the night of October 6. Promoter Tex Rickard announced today.

The pugilist will be expected to make the lightweight limit—135 pounds—at 2 o'clock the afternoon of the contest.

Dying Villages.

But is it the American village that most betrays the impulse of our civilization? The pugilist that perpetually overreaches itself, only to be obliged to surrender again and again to nature everything it has gained. How many thousands of villages frost-bitten, pained, full of morbid, bloodless death-in-life, villages that have lost if they ever possessed, the secret of self-preservation. He scattered across the continent! Even in California I used to find them on long cross-country walks, villages often enough not half a century old, but in a state of essential decay. Crammed in a southern paper the enormous difference between housing a ferry-boat then and now, especially for ladies. It was an old custom of the region for lady passengers to wait to be escorted on and off the steamer. When the boat made a landing the ladies would gather in the saloon on the main-deck and wait until the captain came down from the pilot house to lead them to the dock. He would approach the "pleased lady of the waiting group and walk with her down the stairway to the landing, lace, she leaning on his arm. The rest of the ladies would follow, servants with luggage bringing up the rear.

Rush for Ferry Once Grand March.

Capt. Philip Reynolds, who operated a passenger steamer—the Admiral—on the York river: between West Point, Va., and Baltimore, following the Civil war period, described in a southern paper the enormous difference between housing a ferry-boat then and now, especially for ladies. It was an old custom of the region for lady passengers to wait to be escorted on and off the steamer. When the boat made a landing the ladies would gather in the saloon on the main-deck and wait until the captain came down from the pilot house to lead them to the dock. He would approach the "pleased lady of the waiting group and walk with her down the stairway to the landing, lace, she leaning on his arm. The rest of the ladies would follow, servants with luggage bringing up the rear.

Once Slums, Now Park.

The Five Points, once a most dangerous part of the New York "slum" is now the site of Paradise park. It is at the crossing of Worth, Baxter and Park streets, near the Junction of Park and the New Bowers and Chatham squares, and practically adjoins Mulberry bend. In 1740, 14 negroes were burned here during the negro insurrection. Here the Dead Rabbits had their headquarters and fought the Bowery Boys. The Seventh regiment was called out July 8, 1867, to quell a riot here. The Five Points mission was incorporated in 1850.

NEW PRAYER IS ADOPTED

House of Deputies of Episcopal Convention Accepts Change in Presidential Supplication

PORTLAND, Ore., Sept. 7 (AP)—Adoption by the house of deputies of the Protestant Episcopal convention of a new prayer for the president of the United States to supplant the one in the prayer book, which was declared to have been an adaptation of the prayer for the king of England, and a rejection by the house of bishops of a constitutional amendment which would have given suffragan bishops the right to vote for the house of bishops, were the outstanding developments of the afternoon-session of the convention today.

Action in each case followed sharp debate. The house of deputies this afternoon laid on the table an amendment to article seven of the constitution which would have made it read "Glorious and victorious" here Wednesday into provinces in such manner, under such conditions and with such powers as shall be provided by canons of the general convention." The deputies took up and after debate rejected a series of amendments to the book of common prayer adopting certain changes in wording and rubrics. The house of deputies then rejected the proposed changes in these vestments and responses. The house concurred in a resolution of the house of bishops discharging the commission on the holding of the convention in only one city.

MRS. HARDING INDISPOSED

Wife of President Under the Care of Family Physician—Condition is Not Serious

WASHINGTON, Sept. 7 (AP)—Mrs. Harding, wife of the president, is ill and under the care of Dr. Sawyer, the family physician. She has been confined to the White House for several days. Her illness is described as an ailment neither alarming nor serious and she is expected to be up and about soon.

Mrs. Harding's illness is said to be one to which she has been subject and is not regarded as giving any cause for alarm. No official statement has been issued and until today the illness of the president's wife was known only to a very few close friends.

Reward Offered for Return of Runaway Young Girl if Effectuated Prior to Marriage

GLASGOW, Kentucky, Sept. 7 (AP)—Police in all cities of Kentucky, Indiana and Tennessee Thursday were searching for Miss Carolyn Shuster, pretty 18-year old daughter of W. Morgan Shuster, president of the Century Publishing company, New York, who is believed to have eloped from the home of her grandmother here Wednesday night with William Morris, son of the proprietor of a general store.

Immediately after the girl's disappearance was noted, members of her family offered a reward for her return until married.

Tin Can.

An old lady was crossing the street the other day. A dog ran into her with such force that it knocked her down. Just then a light auto ran over her. A gentleman witnessing the accident came to her assistance. He said: "Lady, did that dog hurt you?" She looked at him a little dazed and replied: "No, the dog didn't hurt me. It was the tin can tied to its tail."

AIR CIRCUS CULMINATES IN TRAGEDY

Thirty Thousand Witness the Deaths of Four Flyers, Vic- tims of Accidents During Balloon and Plane Program

BUTLAND, Va., Sept. 7 (AP)—Before a crowd of 30,000 people assembled at the Butland fair grounds this afternoon, a "flying circus" staged with aeroplanes and balloons was turned into a tragedy, four participants meeting death. An airplane crashed today in a height of 2000 feet, carrying to their deaths the pilot, mechanic and a passenger. A few hours later an accident leading to a balloon 1000 feet in the air was killed when his parachute failed to open. The dead: Lieutenant Edwin V. Maynard, known throughout the country as "Flying Fox", pilot of the airplane; Lieutenant L. W. Wood of Concordia, N. Y., passenger with Maynard; Mochanie Charles Mollette, of Cambridge, N. Y., and Henry A. (Dare Devil) Smith of Boston, aeronaut. Lieutenant Maynard and his companions, who had been making daily flights over the fair grounds, crashed about 1 o'clock in a field near the grounds. Hardly had the crowd recovered from the shock and thrill of this tragedy when the second accident came. Smith, a professional aeronaut, had already made two successful parachute jumps at various altitudes during the afternoon. On the third attempt, the parachute was seen to open slightly, then close up tightly.

Dropie Like Plummet.
Then the aeronaut dropped like a plummet, falling just outside the fair grounds. Smith was 43 years of age, had been giving parachute exhibition at fairs throughout the east for the past ten years and was regarded as one of the best in his line. Two years ago while attempting a parachute drop, from an airplane at Lynn, Mass., he fell 800 feet and was severely injured.

Lieutenant Maynard and his two companions crashed to almost instant death when their plane went into a nose dive at an altitude of 2000 feet, and fell to earth. Both Passengers Killed. Lieutenant Wood and Charles Mollette, who, with Lieutenant Maynard comprised the personnel of a flying circus, had that evening taken a flight over the fair grounds with flying stunts, went up today as passengers. Both were instantly killed. Lieutenant Maynard, who pilot of the plane, was breathing when spectators rushed to the wreck, but died on the way to the hospital.

Midweek Altitude
The three aviators, using Maynard's machine, took off the air at 10 o'clock for an exhibition flight. They had performed several of the stunts on their program, when at an altitude of 2000 feet, Lieutenant Maynard tried a fall jump, apparently believing that it was at a greater altitude. The plane refused to respond and fell into a nose dive, landing in a corn field at the edge of the fair grounds, a mass of wreckage.

Confession of Murder by Seattle Woman Not Accepted as Covering Entire Details

OAKLAND, Cal., Sept. 7 (AP)—The Oakland police have begun searching for a man whom they believe must have been involved in the slaying of Ferdinand Hochbrun at Seattle last December, and Mrs. Winborn told Lieutenant William B. Kent of the Seattle detective force yesterday that she shot him in defending herself against his advances.

James L. Drew, chief of the Oakland police, said he believed Mrs. Winborn was trying to shield some man, and stated he was trying to learn the motive for her remaining in San Francisco and Oakland for many months despite the danger of being recognized. She was arrested here Sunday.

Many Obscure Points.
Several things you have to be explained about the affair, according to Drew. One is the fact that relatives received letters after Hochbrun's death apparently in a man's handwriting and signed with Hochbrun's name.

For a considerable period of time after Hochbrun's killing, rumors from his property were collected by some one, Drew said. Another unexplained detail, he stated, is that Hochbrun's body was found lying across a desk while Mrs. Winborn was he fell to the floor when shot. Drew expressed the belief that the heavy body could not have been raised by the woman alone.

Seattle authorities are expected tomorrow night to take Mrs. Winborn back north.

DEMONSTRATIONS OF STRIKERS ARE ILLEGAL

Federal Injunction Against the Shoppers and Brotherhoods Attacked in Suit Filed by Electrical Workers

WASHINGTON, Sept. 7 (AP)—Legality of the demonstrations by the government from Federal Judge Wilkerson at Chicago, restraining the striking railway shop craft and the railroad companies from interfering with transportation in prosecution of the shopmen's strike was assailed today in a suit filed in the supreme court of the District of Columbia by the International Brotherhood of Electrical Workers, one of the organizations on strike. The question of jurisdiction of the Chicago court also was raised by the petition, which stated that the strikers had been guilty of an illegal act "before or since" July 1.

The electrical workers asked a permanent injunction to prevent the United States Attorney Gordon and United States Marshal Snyder from enforcing legally the provisions of the Chicago order. They also asked that the filing of the suit—which was for hearing next Saturday—Mr. Snyder had served formal notice of the Chicago injunction on Mr. Noonan, president of the electrical union, and the other local leaders named as defendants before Judge Wilkerson, and was a writ of habeas corpus for William H. Johnston, president of the strikers' association, who was said to have "disappeared again" after visiting his office.

The mechanics' leader, according to some of his associates, however, had left for Chicago before Marshal Snyder started out with the official copies of the restraining order.

Will Have Wide Scope
While the electrical workers' petition was filed, it has been filed for their own behalf and without reference to the other six unions on strike, Mr. Noonan said they expected both the strikers and the government would be issued Saturday, and the permanent writ to have a nationwide scope.

Officials of the department of justice would not comment for publication on the recourse of the strikers to the courts, but unofficially they expressed the opinion that the injunction of the District of Columbia should grant the temporary restraining order, it would open up wide avenues leading to possible appeals by courts of other jurisdictions. Injunctions and restraining orders granted by the district supreme court, such as those in various parts of the country, are not binding on the Chicago Circuit Court.

While references to alleged "secret negotiations" and various unnamed places looking to separate settlements of the strikers' case, Mr. Johnston said that the Chicago court had developed since Attorney General Daugherty appeared before the Chicago court and left with an order which, union leaders stated, was the most sweeping ever granted.

Prospects Improving
Some administration officials who have kept in personal touch with one or both sides in the transportation controversy throughout its progress, reiterated today that they had no objection to the prospect for settlement of the strike on several individual roads appeared to be improving. It was stated that M. J. Jewell, leader of the striking shopmen, had been in touch with several of the roads and, while officially the department of justice was not advised of Mr. Jewell's activities, it was believed that administration officials had a well defined idea of the situation.

After a conference between Mr. Daugherty and Senator Borah, it was reiterated that the government would be made to remain in the Chicago injunction, and that if granted, the provisions which have been interpreted as tending to interfere with "free speech" now in the government's hands would go on in agreeing to a modification of the temporary order.

But those in touch with the administration pressed tonight that it would be "very radically modified." The attorney general and his advisers were said to have come to the conclusion that the temporary order went unnecessarily far in its restrictions.

The question was understood to have been referred to the committee on General Daugherty and Chairman Cummins of the senate interstate commerce committee at the White House with President Harding tonight.

Criticized Order
Discussing his conference with the attorney general, Borah said he could not give Mr. Daugherty but that he had not given his criticisms of the restraining order.

"I told him that in my opinion certain clauses beyond the power of the court and were in violation of the constitution," said Senator Borah, "and I also told him that being there did not help his case any. On the other hand I told him that if he adjusted the matter of the real controversy, I called attention to the clause relating to discussion of the strike and those relating to interviews with the press."

Senator Borah today telegraphed John D. Rockefeller, chairman of the Federal Reserve committee of the Metropolitan district at New York for the shopmen, in reply to the latter's request that he be removed from the bench. He said he would support the removal of the bench from the bench, and would support the removal of the bench from the bench.

Return of Property Causes Sharp Shock to Burglars' Victim

Man Whose Coffer Was Robbed of Entire Stock Experiences Surprise of His Life

NYACK, N. Y., Sept. 7 (AP)—Louis J. Caha, who has an estate at Nyack, near here, had his cellar raided by burglars and about all his liquor removed. Today he is going away with a dazed look on his face because some time between midnight and this morning they had broken and left stacked on his big porch practically all of the goods they had taken in August.

Attached to one package was a note which said the gang had a portland cement change after seeing a man in a movie nearby die of thirst and decided that to rob a man's cellar was something of a self-respect. The note was signed Deputy Sheriff Jensen, who had been working on the first burglary, is trying to trace the note writers to the police by letting the matter rest where it is.

Clever Thief Robs Victims and Leaves Bouquet of Flowers

Enterprising Chicago Bandit Gains Entrance to Homes Disguised as Deliveryman

CHICAGO, Sept. 7 (AP)—A bandit who gives his victims a bouquet of flowers made his appearance at the home of Mrs. Lillian Fishman here Thursday, disguised as a flower shop messenger.

The thief entered the home and her three-year-old daughter into a clothes closet at the point of a revolver, then escaped with \$2000 worth of jewelry leaving his flowers behind.

THREE KILLED IN COLLISION

Fast Passenger on Northern Pacific Crashes Head-on In- to Work Train

SPOKANE, Sept. 7 (AP)—Three railroad men were killed and six injured when the Northern Pacific's fast Mississippi Valley limited train, No. 41, crashed head-on into a work train at Parkwater four miles from Spokane about 7:30 tonight.

The dead include O. W. Southern, engineer on the fast train; El Hodous, engineer on the switch engine; and the electrician on the limited. With one exception those injured were on the passenger train.

Two baggage cars were smashed and another baggage car and a coach on the through train derailed. The switch engine had just finished taking home Spokane and was on the Northern Pacific shops at Parkwater, and was putting three coaches on a siding when the collision occurred.

The injured, all of whom were taken to the Sacred Heart hospital here, are: Joe Carlson, fireman on No. 41; Joe Atkins, and G. Frank, on the switch engine, who were seriously injured, and Whitte Kerr, J. M. Corbett and E. H. Atkins, not so seriously hurt. Butts was unconscious when taken to the hospital.

QUASH TWO INDICTMENTS

Seattle County Commissioners Still Face Charges of Grand Larceny for Alleged Graft

SEATTLE, Sept. 7 (AP)—Two consolidated grand jury indictments charging the Seattle city commissioners and Thomas Dobson, King county commissioners, with grand larceny, were dismissed in superior court today on motion of the county attorney. The indictments still face two indictments charging grand larceny in connection with operation of the county ferry system and the retaining of the system to Captain John E. Anderson.

The indictments dismissed involved the alleged misappropriation of \$34,000 for repairs to the ferry Lesch. A similar indictment against Captain Anderson also was dismissed.

RECORD OF THE PAST

No Stronger Evidence Can Be Had in Twin Falls.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back, a reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement:

C. B. Blades, prop. Auto Livery, 440 Seventh Ave. E., Twin Falls, says: "I tried many kidney remedies before using Doan's Kidney Pills and Doan's gave me more relief than all the others put together. Doan's regulated my kidneys and rid me of the pains in my back."

NEARLY FIVE YEARS LATER
Mr. Blades said: "I am now a kidney remedy now but when I do I always use Doan's Kidney Pills. They always give me good results."

HONOR STUDENT DIES FROM SHOT THROUGH BRAIN

Frank A. Koch of Filer Is Found in Room Here in Dying Con- dition with Revolver Clutched in Hand

With a bullet wound through his head and a new .38 calibre revolver tightly clutched in his hand under his body, Frank A. Koch, 20, Filer, honor student of the University of Idaho and a member of its debate team in 1917, was found at 1:30 o'clock Wednesday afternoon on the floor of his room at a lodging house here where he registered Tuesday night under the name of Fred Yates, Hansen. Koch died four hours later at a hospital.

In the room the police found this note:

"This last act of mine is also the best. When a man no longer desires to live he should die. I have sinned and must die. Why do I fear? I seek eternal rest!"

Police Enter Room
Police summoned by the proprietor of the rooming house when the sound of the shot was heard by a maid, were the first to enter the room where the fatally wounded man lay. He was taken to the hospital and his mother, Mrs. J. F. Martin, Filer, communicated with. She was with him when he expired.

Dispondency resulting from ill-health is the reason given by relatives for the apparent suicide. Koch consulted Dr. D. L. Alexander here Wednesday forenoon and was at that time despondent. He left the doctor's office apparently more cheerful but he went almost immediately to a hardware store where he purchased the gun and a box of cartridges which were found in his room.

The bullet entered the right temple and ranged upward coming through the left side of the skull and fastening itself against the wall.

First Filer Graduate
Koch graduated from the Filer high school in 1918 and was the first graduate of that institution. Later he attended the Idaho Technical Institute,

competing auctioneer, has not paid for a license and had publicly announced that he did not intend to do so.

The question was shopped to the police chief who said he had first heard of it only last Saturday when it was brought to his attention by Commissioner Roberts and that he had not had time to "talk to Mr. Lee and see what he had to say."

The mayor advised the police chief to give the matter his attention at once and to say to Mr. Lee that it is the sense of the council that the license must be paid or he must quit business."

Upon recommendation of Commissioner Roberts, which he explained at the request of Commissioner All, the commission voted to deny the application of E. L. Carter for a taxicab operator's license.

Disposes of Sidewalk Issue

Construction of a sidewalk along M. M. Murtaugh's property on Ninth avenue east, which has been the topic for debate at two previous meetings of the commission, was dismissed by the mayor with the statement that the city attorney had determined the walk could not be ordered in without formation of an improvement district and also may, or a further statement that no improvement district would be formed at the present time. "Later," he said, "if it is deemed advisable we will set the necessary legal machinery in motion and have a district."

In connection with a bill for \$23.33 for supplies for John Wolfenden, auditor, who is now engaged in making a five year audit for the city, Commissioner All suggested the desirability of delegating the duties of purchasing agent to some city official or employee in order that advantage might be taken of possible savings.

Commissioner All also suggested that extra compensation be voted to the city clerk and his assistant for their work in making up tax assessment rolls, and referred to the facts that the work is outside the routine of duty of the office and that previous administrations have granted extra compensation for the work. On motion of Commissioner Roberts action on the suggestion was deferred until after completion of the work.

TO EXPAND FARM CREDITS

Bernard M. Baruch in Conference with Members of Senatorial Agricultural Bloc

WASHINGTON, Sept. 7 (AP)—Suggestions for expansion of farmers' credit were made by Bernard M. Baruch, New York financier, to the farm credit committee of the senate agricultural bloc.

A plan for cooperative credits, through securities endorsed by groups of farmers, and for issuing bonds based upon agricultural production and marketing were presented by Mr. Baruch to a dozen senators headed by Senator Capper, republican, Kansas, chairman of the bloc.

Mr. Baruch opposed use of facilities of the federal reserve banking system to provide long term agricultural credit on the ground that federal banking system's assets should be liquid and should not be tied up for longer than a six months' period.

Mr. Baruch said he favored having a separate branch institution of the federal farm loan board to have charge of short term credit expansion for farmers, but he said that agricultural production and marketing loan activities should not be mixed with the farm loan features of the board.

INSTRUMENTS OF PEACE

The ingenuity with which the tremendous amount of war paraphernalia has been converted into peace-time uses is as interesting as it is admirable. The spirit, if not the letter, of the Bible injunction about swords and plowshares has been carried out to an extreme degree.

Bomb-proof guards used in the war for the protection of soldiers in the trenches are now doing duty as efficient storerooms for dangerous explosives like dynamite and TNT. War motor ambulances are being used in several instances to carry convicts to work outside the prison walls. In one case in New Jersey, a clever device has been installed in a powerful motor for the purpose of whitewashing poles along highways for the benefit of motorists. Much pipe used in the war has been turned over to peaceful employment. The portable bridges belonging to war equipment also have been put to good use and reinforced to withstand long rather than temporary wear.

It is not the American way to stack away this vast amount of war implements against a future conflict. The supplies were made to meet a grim need, and they efficiently met it. Now that the war is over, this equipment is being put to immediate use in far different but quite as important pursuits, in a sane and practical manner quite in keeping with the progressive American spirit.

There has been a lot of comment over the recent announcement that hardly any of the physicians being turned over by the colleges of today are finding their way to country practice. With the professions, it would seem, as with the trades, the city offers a quicker, more inviting pace.

We pause for a moment to regret the passing of Doc. Nobody knew him by any other name, and he was especially an intimate in every family because of the occasions of joy and sorrow and tension at which his face was a constant and familiar one.

Girls Enter Beauty Contest

Beautiful girls from all over America are gathering in Atlantic City, N. J., for the Beauty Tournament. Miss A. Adelo Smith represents Wilmington, Del., as a "peach" from the Peach State. She isn't going into the movies, but will remain "an old-fashioned school teacher." Pretty Miss Irma Kramo will represent Baltimore, Maryland. Miss Elsie Blumenstock will be "Miss Lancaster," Pennsylvania. She is a dark-haired beauty.

The devotion of the country physician was proverbial. He is not entirely passed, indeed, and yet we cannot help realizing that there are not many of the kindly and capable species left. But after all, the modern days offer their compensation. A doctor who locates in any town outside a metropolis is certain to include some country practice in his ministrations, particularly if, like Doc of fond memory, his practice is so general as to include all the hills of every member of the family.

In his auto, he can cover many times the distance Doc used to plod along in his buggy. His tendency, too, is to specialize, and he has a far better equipment of education than his forerunner of a generation ago. All he needs is practice—and folks seem to have just about as many babies and the babies seem to have the measles and the whooping cough about as regularly as over they did.

FUNERAL DATE IS FIXED

Colonel Robert E. Lee, Victim of Heart Disease, to be Buried in University Mausoleum

ROANOKE, Va., Sept. 7 (AP)—Funeral service of Colonel Robert E. Lee, grandson of General Robert E. Lee, who died today at Virginia college, will be held Saturday morning in the Episcopal church at Lexington and interment will follow in the Lee mausoleum at Washington and Lee university. Colonel Lee, who was 53 years old at the time of his death, became ill last March and went to Hot Springs, Ark., in an attempt to regain his health. After his condition had showed improvement he went to Virginia college. At the time his recovery seemed probable, but due to the condition of his heart little hope was entertained during the past month. Heart disease was given as the cause of his death.

Hint to Speakers. When you don't know what to talk about, talk about three minutes.

Painter's Secret. Use wood alcohol to remove old paint or varnish when about to re-decorate surface. Apply with soft brush, and after a few minutes rub off with old cloth. If paint is very thick and dry more time must be given to "soak," and a putty knife may be needed to remove the worst of the old paint. This will remove old finish exactly as well as the prepared varnish removers, at much less cost. Be careful not to inhale the alcohol, nor get it in the eyes when using.

Greatness in Patience. He who walks through life with an even temper and a gentle patience—patience with himself, patience with others—has an everyday greatness beyond that which is won in battle or chanted in cathedrals.—Orville Dewey.

Whence the Pope's "Bull." The popes of Rome used to seal their decrees in lead instead of wax, which gained for them the name of papal bulls, from bulls, lead. The first English king to use a seal was Edward the Confessor.

The Key that Unlocks the Door to Long Living. The men of eighty-five and ninety years of age are not rotund, well-fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.—Adv.

THE fact that practically a day and night service is provided by The News to users of Printed Matter is only one of the claims of The News to recognition as the home of Good Printing.

Users of News Printing as a rule tell the story which gives The News Job Printing Department its volume of business, and The News itself has nothing to add, except this:

News Printing must be Right-it must satisfy the customer or the transaction is not a satisfactory one to The News.

And we solicit an opportunity to make good on this statement.
