

# SEES JAPANESE MENACE TO U. S. RULE IN HAWAII

## Senate Committee Urges Enactment of Measure to Permit Restricted Immigration to Relieve Labor Shortage

WASHINGTON, March 1 (AP)—Urging enactment of the Dillingham resolution to permit restricted immigration of otherwise inadmissible aliens into Hawaii to relieve the present labor shortage, the senate immigration committee in a report today declared American control of Hawaii and the center of the Pacific ocean to be endangered by the Japanese.

The situation with respect to the preponderant Japanese population of the Hawaiian islands was shown at length in the report which said the Dillingham resolution should be adopted as an emergency measure, and conditions more completely remedied by permanent legislation.

### Strike Reveals Need.

Calling attention to the 1921 strike of Japanese plantation workers as illustrating the need of removing the Japanese monopoly of the unskilled supply, the report declared that strikes had been "marked by unusual animosity on the part of the Japanese language press and by many un-American demonstrations of violence."

The shortage of labor now existing in the islands, the report said, is the result of the restlessness of the field laborers, who received, in addition to their regular pay in 1920, a total of \$20,000,000 in bonuses and gifts. "The larger part by the particular racial solidarity of the Japanese who constitute 43 per cent of the population of the islands."

"American industrial and political control," the report added, "is seriously threatened by the preponderance of the Japanese among those who normally perform the vital labor of the territory and by an actual shortage of such labor."

### Must be Met at Once.

"The situation in Hawaii must be met at once. It is not merely a question of saving Hawaiian industries from bankruptcy. The commanding fact is that the industries will inevitably pass into the hands of the Japanese instead of merely going out of existence. Such a transfer of economic control would result in the destruction of the American control of Hawaii and in effect transfer to Japanese control of the center of the Pacific ocean. Certainly such a result would be of serious consequence to the American naval and military control of the mid-Pacific."

# JAPAN SEES EFFICIENCY DECLINE AS WAGES RISE

## Crippling of Necessary Industries to Supply Export Trade is Attributed to Rising Production Costs

TOKIO, Feb. 1 (AP)—Sanji Muto, President of the Kanagafuchi Spinning Co., in an article contributed to the Osaka Asahi, shows a gloomy picture of the future of Japan's economic life. "Japan is the third country in the world as regards the density of population," says Mr. Muto, "and since her population is increasing at an annual rate of something like 600,000, the country is more and more becoming dependent on foreign countries for the supply of food and raw materials. "As all the possible outlets for her surplus population have been closed, it will be necessary for Japan to develop industries so that money with which to buy food can be obtained. But Japan is lacking in raw materials, the cost of fuel is high and, in addition, the rising cost of production tends to retard the growth of industries and the development of export trade. Taking 100 as the index figure for prices and wages in 1900, these figures now are 264 and 415.

"The remarkable rise in prices as noted above is due," Mr. Muto said, "to the heavy burden of taxation, adoption of a protective policy, inflation of currency, rising wages and increase of consumption. In recent years wages have made a tremendous advance, but the efficiency of workers has been falling in inverse proportion, while the consumption of commodities, especially articles of luxury, has been increasing at a remarkable rate. In other words, the consuming classes have been steadily increasing, but the producing classes are declining. "Herein lies an economic crisis that is impending. Unless the people are awakened to this important fact and strive to ameliorate the existing state of affairs, Japan will be plunged into a very grave crisis."

Chamberlain's Cough Remedy Nothing So Good for a Cough or Cold. "Everyone who has used Chamberlain's Cough Remedy speaks well of it," writes Edward P. Miller, Abbotstown, Pa. "People who once use this preparation are seldom afflicted with another. It is excellent to allay a cough or break up a cold.—adv.

# Congresswoman to Ask Inquiry Into Primary Election

## Mrs. Winnifred Mason Huck Charges Illegal Expenditures on Part of Her Opponent

CHICAGO, Mar. 1 (AP)—Mrs. Winnifred Mason Huck, Illinois congresswoman at large, Wednesday announced that on her return to Washington she would ask a congressional investigation of the primaries yesterday when Morton D. Hull defeated her for the republican nomination to succeed the late Representative James H. Mann, of the second Illinois district.

Mrs. Huck declared that Mr. Hull spent "large sums of money, far more than the \$5,000 limitation for congressmen."

Mrs. Huck said she will lay her case before Secretary of War Weeks and possibly before President Harding. She will be a member of the house only until its adjournment March 4. Mrs. Huck, although not the first woman, was the first mother to be a member of congress.

# ANNOUNCES PROGRAM FOR INLAND EMPIRE TEACHERS

## Idaho Commissioner of Education Outlines Arrangements for Sessions of Spokane Convention

SPOKANE, Wash., Mar. 1 (AP)—The preliminary program for the annual convention of the Inland Empire Teachers' association, to be held in Spokane from April 4 to 6, has been announced by President E. A. Bryan, educational commissioner of Idaho.

The general sessions of the convention will be held in the mornings while sectional meetings will occupy the afternoon. The convention will open Wednesday, April 3, with the annual president's address by Dr. E. A. Bryan. The second address will be given by Dr. E. B. Bryan of Ohio university, the principal speaker of the convention, Dr. W. J. Spillman of the United States department of agriculture will give the concluding address of the morning session.

The session April 5 will be opened by Dr. William W. Owen, president of the Chicago Normal college and of the National Educational association. Dr. A. C. Leonard of the University of California, will also give an address, as will Dr. E. B. Bryan of Ohio. The annual business meeting and election of officers will take place on the second morning of the convention.

Friday morning's session will be opened with an address by Dr. J. E. Englemann, field agent of the National Educational association, Miss Julia Spooner, president of the Portland Grade Teachers' association, will speak in the afternoon. The convention will be closed with an address by Dr. E. B. Bryan.

### NOTICE OF SALE

I will sell at public sale at Hansen on March 10, 1923, at 2:30 p. m. a 1921 Ford car, 1915 model, Motor No. 412-210, License No. 47724, 1921 issue, held for storage. J. F. GODDWARD, adv. Hansen Transfer Co.

## Loads of Pretty Things to Make Up

Many ladies are making classy little gowns at home and it's really so easy to do if you use the new Deltor System included in Butterick Patterns for sale here. It seems impossible to go wrong and the new materials make up so nicely and they are so charming that with home making every woman can have a much larger wardrobe.

# New Ratines

Ratine is to be *much* used and for sport wear it's most practical. Colors are bright and cheerful. They are in different shades of green, rose, blue, lavender, red and yellow.

Priced, in 36 inch patterns, at 50c yard, 75c to \$1.50. It also comes in fancies, too, up to silks, at \$2.50 to \$5.50.

# and New Voiles

After a few months of rest voiles are back again, prettier than ever. You can easily have more than one with the Butterick Patterns to help you, and at our prices the cost is so small. *New Voiles, 40 inches wide, in extraordinary patterns of different colors, are priced in a large range at 35c per yard. At 50c per yard and 75c per yard you can get most remarkable patterns.*

# Tissue Gingham

Nothing can replace them. Our selection of Scotch and French Gingham, including Peter Pan, exhibit the best and newest. So easy to make up. So crisp and dainty after made.

Tissues priced 50c to 85c yard.

# Maisonette House Dresses

Another shipment just in. So popular have these become that frequently they sell out on day of receipt. Every shipment entirely different. Maisonettes are dainty house dresses of better gingham and percales. Always good patterns and always new, neat styles. Some distinguishing feature, some little dainty trimming that just finishes the dress. Get acquainted with Maisonettes—you will watch for them each month as many do. Reasonably priced, \$2.00 to \$4.50 only.

# Spring Gloves of Kid

Real French kid gloves are not easy to get. We have new ones just here in 2-button, 12-button and 16-button lengths. You will want them before Easter.

# Blouses Are Rich

Rich silks, rich colorings, carrying an air of the Orient. Some in patterns, some plain.

# Latest in Jewelry

Our business is growing, and growing in this department. It's a part of every lady's costume. We choose only the latest and most exquisite for you.

# Ear Drops Popular

More new ones. You will want a pair to match each costume. The new ones seem to be prettier than ever. Fair—

50c to \$2.50

# Bracelets

The East seems crazy about bracelets. They wear two or more. They are in jet and colors. Also Sterling Silver.

75c, \$1.25, \$2.50

# Combs Are Fashionable

Another big lot of the most handsome combs, set with stones in blue, green and gold. Priced

\$2.00 to \$15.00

# New Bags

Spring styles and still they include vanity cases. All are pretty. You will like these new ones—

\$2.00 up

# Farm Loans

LOW rate of interest. A ten-year loan with easy prepayment privileges—no bonus or previous notice required. No waiting for inspector. Money is ready when title is clear.

# Another Package From Booth's

PAVEMENT FAIR, BUT CURBING FAULTY, SAY SALT LAKE ENGINEERS

Results of McGonagle and Ullrich Investigation of Street Improvement Work Done in 1920 by Warren Company Laid Before City Commissioners; Approve Murtaugh Report

That quantities of material used in pavement constructed in Twin Falls in 1920 were sufficient, and that the workmanship is "on a whole, of a fair quality," but that the design of the light standard Warrentite-Bitullithic pavement is "too light to successfully resist the impact of modern traffic, and that there is evidence of insufficient use of original wearing surface and not containing sufficient bituminous binder," are conclusions reached in a report on investigation of Warrentite-Bitullithic pavement laid in 1920 by the Warren Construction company in Twin Falls, prepared by McGonagle and Ullrich, Salt Lake city engineers, and before members of the city commission immediately prior to their meeting Thursday evening.

Following is the text of the McGonagle and Ullrich report: Pursuant to a resolution of the city council and a letter from J. L. McGonagle, dated October 27, 1922, we have made an investigation of the pavement constructed by the Warren Construction company in 1920 in Salt Lake city, and report thereon March 1, 1923, and submit the following as our report of said investigation.

History The contract for constructing the pavement in a certain local improvement districts was let to the Warren Construction company on November 27, 1920. The work was started shortly thereafter and completed by the latter part of October of the same year. The contract called for 100,000 square yards of Warrentite-Bitullithic pavement of which the extensions on Main street and Shoshone street and 1-1/2 blocks on Sixth street were to be of standard Warrentite-Bitullithic pavement and the rest of the Light Standard Warrentite-Bitullithic pavement. In our understanding of the contract, it was intended that the entire pavement with the exception of two or three blocks was laid by the Warren Construction company, and that Salt Lake city was to have the contract west of Sixth avenue, north and east; The Helmecke Construction company was awarded a contract for the construction of curb to the east of Sixth avenue, north and east.

Field Investigation A field examination of the premises involved in this report was made by Mr. C. J. Ullrich, of this firm, during the time that the city engineer, J. L. McGonagle, was in Salt Lake city. In making this investigation Mr. Ullrich was assisted by Mr. M. Murtaugh. He was also furnished with information by members of the present city administration. All office records pertaining to the pavement in question were examined. All samples cut from the surface of the pavement by the city engineer before resurfacing was done by the Warren Construction company, which had not completely deteriorated, were examined by the city engineer and the thickness of the bitullithic wearing surface measured. In addition, eight samples were cut from the pavement in different parts of the city and shipped to Salt Lake City for examination and analysis. Samples of curb were also taken in different parts of the city and shipped to Salt Lake City for examination and analysis.

Standard pavement. Five samples 4 inches thick. Three samples 4-1/2 inches thick. Two samples 4-3/4 inches thick. Three samples 5 inches thick. Fourteen samples 5-1/2 inches thick. 4-1/2 inches average.

Light Standard Pavement. One sample 3-1/2 inches thick. Eleven samples 3-3/4 inches thick. Eleven samples 4 inches thick. Three samples 4-1/4 inches thick. Fifteen samples 4-1/2 inches thick. One sample 4-3/4 inches thick. One sample 5-1/4 inches thick. Forty-three samples 180 inches thick 1-1/2 inches average.

Summary. The report shows that the average thickness of rock base for the 57 samples taken exceeds the required thickness of 1-1/2 inches under the weight of 36 of an inch. We also call the city council's attention to the fact that the thickness of the bitullithic mixture spread as provided for in the specifications will compare to 1-1/2 inches under the weight of 36 of an inch.

Back Easo. The specifications provide that the rock base in the case of the standard Warrentite-Bitullithic pavement shall consist of a 4 inch layer of the light standard Warrentite-Bitullithic pavement of a 3 inch layer of crushed rock, both to be composed by the Warren company. A 3 inch layer of this rock would only compress to 1-1/2 inches and a 5 inch layer to 3-1/2 inches under the weight of 36 of an inch.

Summary. The report shows that the average thickness of rock base for the 57 samples taken exceeds the required thickness of 1-1/2 inches under the weight of 36 of an inch. We also call the city council's attention to the fact that the thickness of the bitullithic mixture spread as provided for in the specifications will compare to 1-1/2 inches under the weight of 36 of an inch.

Three samples—1-1/2 inches to 2 inches; (1-3/4 inches average). One sample—1-3/4 inches to 2 inches; (1-7/8 inches average). One sample—1-1/2 inches to 2 inches; (1-3/4 inches average). One sample—2 inches to 2-1/8 inches; (2-1/8 inches average). One sample—2-1/8 inches to 2-1/4 inches. Three samples—2-1/4 inches. One sample—2 inches to 2-1/2 inches; (2-1/4 inches average). One sample—2 inches to 4 inches; (3 inches average). One sample—2 inches to 2-1/2 inches; (2-1/2 inches average). Light standard Warrentite-Bitullithic wearing surface, 1 inch to 1-1/2 inches; (1-1/4 inches average). One sample—1 inch to 2 inches; (1-1/2 inches average). One sample—1-1/4 inches. Nineteen samples—1-1/2 inches. One sample—1-1/2 inches to 1-3/4 inches; (1-5/8 inches average). One sample—1-1/2 to 2 inches; (1-3/4 inches average). Six samples—1-3/4 inches. Five samples—2 inches. Three samples—2-1/4 inches. Forty-three samples—17-8/5 inches; 1-07 inches average.

The foregoing shows that before any resurfacing was done the average thickness of the wearing surface on the standard pavement was 2-00 inches or .09 of an inch above that called for in the specifications, while on the light standard pavement the average was 1-03 inches or .13 of an inch above that required by the specifications.

The samples taken by Mr. Ullrich were carefully examined and three of them, Nos. 58, 59 and 60, were submitted to the city engineer, J. L. McGonagle, for his examination and report. His report follows: February 12, 1923. Amphol analysis of Twin Falls city paving samples.

Table with columns: Sample No., Per Cent, No. of Gr., No. of Gr., No. of Gr. Asphalt analysis results for samples 58, 59, and 60.

The above are the averages of six separate determinations in each case. Each determination was made on from 250 to 300 grams of the sample. The specifications under which this pavement was constructed do not set out the physical and chemical properties of the aggregate and the mineral aggregate shall conform. Standard bitullithic specifications require from 7 to 9 per cent bitumen. It will be noted that the other chemical properties of the bitumen were made to conform to the specifications.

The granulation of the mineral aggregate in the three samples tested averages 58 per cent coarse aggregate and 42 per cent fine aggregate. This agrees very closely with the standard requirements. The finished bitullithic wearing surface reflects workmanship of a quality which is well above that called for in the specifications. While there are patches now and then that show inferior workmanship, it may be said that, on the whole, the workmanship is of a quality.

The concrete curb on practically all streets paved under this contract was inspected by Mr. Ullrich and samples taken at 100 foot intervals on the west of Salt Lake City for further examination. The report follows: January 29, 1923.

On Blue Lakes boulevard above Addison avenue. On North avenue east, 50 ft. west of Second street east. On Second street north, between Fourth and Third street west. On North avenue east, 50 ft. north of Fourth street east. On North avenue east, 50 ft. north of Fourth street east. On Main street, 50 ft. south of Eighth street east.

Table with columns: Crusher Sand, Natural Sand, Sieve Analysis results for various samples.

From the foregoing we deduce the following conclusions: (a) That the bitullithic wearing surface is of the required thickness called for in the specifications. (b) That the bitullithic wearing surface is, on a whole, of a quality.

ing, would give a very poor concrete. Respectfully, LEVI MUIR, JR., Chief Inspector Utah State Road Commission.

The foregoing report is self-explanatory and we do not wish to call your attention to the fact that the crusher sand contained 20 per cent of bitumen in excess of the amount which is over 100 per cent more than called for in the specifications. We also call your attention to the fact that the strength ratio of the Burley sand briquettes ran only 60 per cent of the strength ratio of the standard sand briquettes.

All curb west of Sixth avenue north and east was constructed by the Warren Construction company and that to the east of the aforesaid street was constructed by the Helmecke Construction company. The field examination showed a marked difference in the appearance and quality of curb constructed by these two companies. In fact the curb itself under both conditions was of a quality considerably inferior to that of the curb of the Warren Construction company. An inspection of the curb samples in all cases shows a lack of proper bond between the mortar and the rock or gravel aggregate. The mortar in many cases shows a very poor appearance such as one would expect from the use of dirty materials or sand containing a large percentage of dirt. The general appearance of the curb, also the samples, indicate poor workmanship and improper curing. Most of the samples taken were so friable that a screen could be broken off them by hand.

There are no ordinary chemical tests by which the amount of cement content of the concrete can be determined. It is therefore impossible to state definitely at this time whether the amount of cement called for in the specifications was in excess of that required for the Street Drainage.

Mr. Ullrich noted on several streets poor surface drainage and found this to be due to a lack of proper street grades and improper design of cross-roads at street crossings. This is solely an engineering error and cannot be attributed to improper construction.

Causes of Pavement Failures. The ordinary causes of pavement failures are as rule: inadequate design, unavailable materials and faulty workmanship. From our investigation we are forced to the conclusion that the contractor is in part responsible for the condition of the pavement as originally constructed.

From the standpoint of design a 1-1/2 inch bitullithic wearing surface on a 3-1/2 inch crushed lava rock base will not stand up under modern traffic. Crushed lava rock, unlike lime stone, has no binding qualities and is liable to disintegrate to cement the rock base into a rigid mass. Therefore the top wearing surface must be of a thickness sufficient to absorb the impact of modern traffic without causing or tending to cause any movement of the rock in the rock base. In our opinion it requires a facing of 2 inches of mortar or concrete to prevent such movement.

The report of the city chemist of Salt Lake City shows sample No. 65 to be 50 per cent below the amount of bitumen required in the specifications. This sample represented the original wearing surface as put down in 1920. Since either two samples were taken at the parties to the contract that had been either resurfaced or flush coated, no determination could be made of the amount of bitumen in the original or resurfaced surface.

Of the 57 samples of wearing surface taken by Messrs. Allen and Berg, last June, over half had disintegrated following the heavy rain of the latter part of the month. The remainder should not have disintegrated within so short a time and the only conclusion that we can come to in this respect is that the samples taken had contained insufficient bituminous binder.

The inspection of the samples of concrete curbs conclusively shows the use of dirty materials and inferior workmanship in the curing of the concrete. Mr. Hoffeltz in his letter of August 31, 1920, to the mayor analyzing the contract, stated that he required the contractors to use crusher sand and in order to get a concrete of maximum density. The lava rock used at the crusher is of a fissured character with the fissures filled with all clay and other earthy materials washed into them by the rain. The use of such a sand in concrete crushed will yield a large percentage of clayey silt, and other earthy matter, making the crusher run sand or dust, which is not suitable for use in concrete. That such was the case is verified by the report of the testing material department of the Utah state road commission. These samples should have been permitted.

FAST GAMES OPENERS IN CAGE MEET

Jerome, Oakley, Filer and Burley Win in First Round of the High School Basketball District Eliminations

WHAT THEY DID LAST NIGHT. Jerome 30 Gooding 27. Oakley 53 Carey 28. Filer 36 Halley 25. Burley 35 Twin Falls 25.

Jerome, Oakley, Filer and Burley won their games in the opening round of the south central Idaho district basketball finals which started last night at the Jerome High school, and which will continue until Saturday evening.

The first game of the evening, between Jerome and Gooding, went to the wire, with Jerome leading for most of the game, but Gooding pulling back to tie the score at the end of the first half. Jerome won the game by a score of 30 to 27.

After getting away to a slow start the Jerome-Gooding game turned into a battle royal, although Jerome held the lead throughout the game. The score at the end of the first half stood 10 for Jerome and 9 for Gooding. Gooding came back in the second half and got within three points of tying the score at the end of the second half. However, Jerome held on to win the game by a score of 35 to 25.

After getting away to a slow start the Jerome-Gooding game turned into a battle royal, although Jerome held the lead throughout the game. THE GUMPS—ANDY GUMP IN PERSON, NOT A MOVING PICTURE

TODAY'S SPORTING NEWS

**DECISION GIVES VILLA'S CROWN TO NEW YORKER**

**Filipino Loses Flyweight Championship to Genaro in Sensational 15 Round Mill Before Demonstrative Crowd**

NEW YORK, March 1 (AP)—The American flyweight boxing championship title returned to its native shores tonight in historic Madison Square Garden where a capacity crowd saw Frankie Genaro take it from Panchito Villa, the Filipino, who won it from Johnny Buff in Brooklyn last summer. The decision was of the hair-splitting variety. Newspaper critics at the ring-side were divided in their opinion. Those who favored it were not enthusiastic and those against it were bitter in their denunciation.

The crowd became demonstrative and squads of blue coats had difficulty in clearing the aisles. It was evident when the men entered the ring that Genaro's friends were in the majority and they booed Villa when he was escorted to his dressing room.

For two-thirds of the way the fight was not of championship calibre and the fans, to whom Villa always showed an untiring aggressiveness, were surprised when he chose a strategy of defence. For ten rounds the bout lapsed on sloth, but in the last five the mixing was so furious that the spectators were in almost constant uproar.

Villa Is Winded

Villa seemed the more aggressive and his punches seemed as steaming as his challenger's, but he was warned more often than the winner for objectionable tactics and once or twice the crowd booed him.

Besides a left hook to the jaw and two-handed digs to the ribs, Villa employed towards the end of the bout, the "rabbit" punch. He used it with his back hand once when Genaro was not exactly facing him and it caused loud disapproval.

On the whole Genaro was more constant than his opponent and in the constant exchanges the Filipino seemed at an advantage. But the New Yorker was not so tired as he showed the effects of punishment that Villa did. Genaro used his right effectively and though he missed frequently his accuracy was greater than Villa's.

The last round probably gave Genaro the title. Twice he hit and caught the Filipino squarely on the point of the jaw and the champion's knees sagged. Rex Panchito came back and after a clinch was in a furious exchange when the bell rang.

**Auto Men Defeat Rogerson Bowlers**

**Rendahl-Wright Team Runs Up More Than 800 Points in Each of Three Games**

Bowling three games over the 800 mark the Rendahl-Wright pin busters took the odd game from the Rogerson cafe crowd last night at the Twin Falls bowling alley in the last scheduled game of the week.

The feature of the evening was the bowling of 906 in the second game by the Cafe men, coming within three pins of the record held by the Frog handy men. The Mechanics rolled 895 in this game. Kennedy of the "feed department" knocked over 228 pins for high game.

The first game was the closest of the evening, the Auto men winning by 13 pins, the final reading of the score being 815 to 802. Percy Thompson took high game in the opener with 213.

The last game of the evening showed the Rogerson team suffering a relapse after their 906 game, their best effort being 775. The vice-skipper rolled 806. Bill Towan rolled 203 in this game for high.

McCracken had high average for the night with 179.

The box score:

Rendahl-Wright	157	147	141	445
Self	131	205	191	527
Atbury	170	152	170	594
Whitzel	107	169	201	477
McCracken	184	192	157	533
Thompson	815	805	890	2546
Totals	176	157	203	536
Town	150	170	156	476
Yoga	140	220	147	507
Kenned	156	177	144	477
Logan	160	170	155	491
Larsen	802	900	775	2483

**POCATELLO, WESTON, AND MALAD LEADING IN EAST**

**Three Teams Favored for Final Rounds of District Basketball Tournament in Progress at Gate City**

POCATELLO, March 1 (Special to The News).—Basketball finals for the Pocatello section opened Wednesday afternoon with Bennett defeating Blackfoot, 31 to 20, Paris losing to Pocatello, 45 to 24, Malad vanquishing Challis, 50 to 8, and McCammon winning from Meridian by the score of 17 to 28. Weston, last year's intermountain champs, drew a bye the opening day.

Thursday afternoon Weston trampled the Hancock team 50 to 19, and Pocatello hung up the high score of the tournament by beating Challis 80 to 8, thus eliminating Challis.

This evening Paris eliminated Montpelier, winning by a score of 50 to 23. Malad had an easy time with McCammon, scoring 50 to McCammon's 21.

With Challis and Montpelier out of the race, another drawing will be held Friday morning to arrange the Friday and Saturday games.

Early indications point to Pocatello, Weston and Malad to fight it out Saturday.

**ENTERTAINS THREE QUEENS**

LONDON, Mar. 1 (AP)—Mrs. E. C. Tilden, of Sandringham, was the proudest woman in all England recently when she celebrated her hundredth birthday and had as her guests three queens. Queen Mary called first to offer her congratulations, and later in the day Queen Alexandra, and Queen Olga of Greece, honored her with a visit.

To mark the celebration Mrs. Tilden, who owns considerable property, returned a portion of the cost paid by each of her tenants.

**Titled Heiress Is To Wed Jockey**

Lady Ursula Grosvenor, daughter of the Duke of Westminster, is shown here with the Countess of Lynton. Lady Ursula, just 21, has a considerable fortune in her own name. From London comes the report that she is soon to become the bride of Jack Anthony, prominent and successful jockey of steeplechase races.

**Illness Interrupts Trial of Oregon Night Riders Case**

**Alleged Victim and Star Witness for Prosecution Stricken with Hemorrhage**

MEDFORD, Ore., March 1 (AP)—J. P. Hale, alleged victim of night riders in a kidnaping and hanging episode, and star witness in the present trial of Dr. Juliette P. Bray, J. F. Hittcox, Howard Hill and the 16 John Does who are accused of participating in this episode, was stricken with hemorrhage of the stomach today during the trial and tonight was said to be in a serious condition.

Late today the jury was finally selected and accepted by both sides for the trial of Bray and co-defendants, but at the suggestion of the defense two alternative jurors will be drawn in the morning to hear the evidence in the case. The opening statements of the state and defense will then be made and the taking of evidence will be begun unless the serious condition of Hale prevents.

**GIVES AMERICAN STAND ON RHINE ARMY'S COST**

PARIS, March 1 (AP)—The position of the American government regarding its claim for reimbursement for maintenance of the army of occupation on the Rhine was explained by Elliot Washworth, assistant secretary of the treasury, at his first conference with financial representatives of France, Great Britain and Italy here today.

The American views had already been fully set forth in various notes to the allied governments prior to November 2, last, when the allied ambassadors' council, finding it difficult to conduct the four-cornered correspondence, suggested the present conference.

The delegates today decided to defer further consideration until next Monday, to afford them time to think over matters and consult their various governments. It was also decided to observe secrecy, except for official communications to the public.

The costs of maintaining the American military forces on the Rhine were estimated in Washington February 19 as approximately \$265,000,000.

**Senate and House Conferences Begin Work on Measure Passed by Lower Body**

WASHINGTON, March 1 (AP)—Senate and house conferences began work today on the agricultural credit bill, passed today by the house. Two meetings were held and it was said prospects were bright for an early agreement.

The bill includes portions of two senate bills—the Capper and Leontoff-Anderson measures—both of which went through the senate by overwhelming majorities, and before the conference began house conferees expressed the opinion that quick location would be had.

House opponents of the measure indicated today that they did not have high hopes on material changes in the conference.

**HERRIN JURY COMPLETED**

MARION, Ill., March 1 (AP)—The opening statements to the jury in the second Herrin mine riots trial will be made tomorrow morning, following the completion of the jury today, attorneys in the case announced tonight. Six men are on trial charged with the murder of Antonio Mulkovich, of Erie, Pa., one of the 25 persons slain in the riots last June.

The jury contains two union miners. It was announced that the presentation of evidence will not begin until Monday.

**HORSE DRAWN HEARSE IS CURIOSITY IN KENTUCKY**

LOUISVILLE, Ky., March 1 (AP)—The unique sight of a horse-drawn hearse heading a funeral procession of mourning automobiles appeared on the streets here recently.

Mrs. Lucy Rust, 72, died at Fairmount, Ky., and her body was brought here for burial. During the last years of her life, Mrs. Rust had steadfastly refused to ride in an automobile. She requested before her death that a horse-drawn hearse be used at her funeral.

After much effort a hearse was found at Mount Washington, Ky., and brought here bearing the body of Mrs. Rust from Fairmount. Completing the cortege were the machines of relatives and friends.

**Five-Year Span**

The average life of an automobile in the United States is estimated at five years.

Man Needs Much Air.  
The average human being consumes 267 cubic feet of air every 24 hours.

Gigantic Potatoes.  
Potatoes the size of our watermelon grow in Peru.

**INCREASES RAILMEN'S PAY**

**Railroad Labor Board Awards Higher Wage and Overtime Pay to Clerks, Freight Handlers and Station Men**

CHICAGO, Mar. 1 (AP)—The eight-hour day with time and one-half for overtime after the eighth hour was granted another class of railroad employees Wednesday by the United States railroad board in its decision on the dispute between the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees and a number of carriers.

The rule providing for one day off each week also was granted to this class of employees, both provisions of the decision being effective March 1 as was an increase of two cents an hour in the rate of pay freight employees and common labor employed about stations. The eight hour day ruling is similar to that recently granted steamship men.

Approximately 65,000 employees are affected to the extent of about \$3,000,000 annually by the increases in pay granted.

Involved in the new rules of overtime and Sunday work are about 320,000 employees, many among those being of the Brotherhood of Railway Station employees.

Convincing.

# TIME SCHEDULE IS CHANGED BY SMITH MEASURE

### Victory is Practically Won Through Efforts of Chamber Board to Make Mountain Time Official

"Southern Idaho will be placed in Mountain time zone under the provisions of legislation which passed the house this afternoon. Addison T. Smith, M. C."

The above telegram received here Thursday night from Congressman Smith represents a virtual victory for the Twin Falls chamber of commerce, after three years spent in an endeavor to establish Twin Falls and southern Idaho officially in the mountain time zone.

The bill mentioned by Congressman Smith has been passed by the senate and now needs only the approval of President Harding to make the present city time the standard. Local business men are confident the president will sign the bill.

Begin Action in 1920

The action to secure the change was first started by the local chamber of commerce by an act of the board of directors on March 1, 1920, petitioning the public utilities commission and the interstate commerce commission.

When no action was obtained through this source, popular demand of the Twin Falls tract caused the chamber of commerce board to join with other commercial organizations and recommend on June 16, 1920, that all clocks be moved ahead one hour, leaving standard time an hour later.

The advantages of the faster time were quickly seen by all communities and the practice was adopted by the territory north to Boise and Caldwell and Halley and south to Wells, Nevada. Since that time two schedules of time have existed.

Smith Enters Fight

Congressman Smith then began the fight at Washington. The proposal had been refused by the interstate commerce commission. Congressman Smith introduced a bill in the last congress but the bill "died" when congress adjourned last year.

In the present session it was again introduced and the telegram from Congressman Smith announces the victory of the bill which is expected to be a bill.

Chamber of commerce officials regard this accomplishment as a landmark in the history of constant cooperation between the people, commercial organizations and congressmen toward securing a needed change.

## HELP KIDNEYS BY DRINKING MORE WATER

### Take Salts to Finish Kidneys and Help Neutralize Irritating Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief many times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is not serious, it is annoying and sometimes very painful. This is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jalt salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acid in the system and they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jalt Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folk who are subject to urinary ailments caused by bladder irritation. Jalt Salts causes no bad effects whatever.

Here you have a pleasant, effervescent, acid-water drink which will quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.—adv.

## Pola Negri Breaks Her Engagement to Comedian of Films

### Actress Says She Is Too Poor to Marry Charlie Chaplin; Has Other Reasons

LOS ANGELES, March 1. (AP)—Pola Negri, motion picture actress, has broken her engagement to Charlie Chaplin, comedian of the films, according to an interview in the Los Angeles Times which will be published tomorrow.

Beyond remarking that there "were a thousand reasons why I should not marry Mr. Chaplin," Miss Negri avoided explanation following her announcement that the engagement was off and confined her explanation of the break to a written statement, the text of which follows:

"I consider I am too poor to marry Charlie Chaplin. He needs to marry a wealthy woman, and he should have no difficulty in finding one in the United States—the richest and most beautiful country in the world.

"Therefore, I give Mr. Chaplin his freedom and release him from his engagement. I wish him the best of luck and I will always be his devoted friend."

"Please don't ask me any questions," she warned, after her statement had been read, "I am not able to answer them."

## Sale of Cigarettes Under Regulation Proposed in Utah

### New Measure Would Make Traffic Legal on Payment of Heavy Tax

SALT LAKE, March 1. (AP)—A measure designed to permit the sale of cigarettes in Utah, under strict regulation, and providing heavy penalties for unlicensed sales or for sale to minors, was introduced in the Utah senate this afternoon by the senate committee on public affairs. The new bill is a comprehensive measure and in some respects is more sweeping than the Southwest law, which it seeks to amend. Whereas advertising of cigarettes is prohibited, the committee measure aims to prevent the advertising of tobacco in any form in newspaper, on bill boards or elsewhere.

The bill would make it possible to sell cigarettes legally in Utah only on payment of heavy license and stamp taxes.

## Miner Caught Under Twenty Tons of Rock Has Chance to Live

### Complete Recovery Promised Workman Crushed for Four Hours Under Avalanche

SPOKANE, Wash., March 1. (AP)—Crushed under 20 tons of rock for four hours, Andy Sorby, aged about 15, and a former Alaskan miner, was in a hospital here tonight with every chance of a complete recovery, barring sickness from exposure.

Sorby was working at the top of a chute at the International Portland Cement company's plant, at Irwin, seven miles from Spokane. Crashed rock, ranging from dust to chunks two inches in size, was dropping down the chute into a traveling belt for transportation into the plant.

Falling into the chute, Sorby was pinned down from all sides by the falling rock. Fellow workmen rushed to his aid, but the best they could do was to prevent his face being covered. Fifty men were summoned. The sides of the chute were timbered, to prevent further rock falling, and after four hours of work Sorby was pulled out, with his arms and legs in the ice-cold rock. He was rushed at once to the hospital.

Painting, kalsomining and paper hanging and sign painting. All work guaranteed. Phone 410.—adv.

## To Clean Eyeglass Chains.

The thin chains which are worn with eyeglasses are rather difficult to clean because they are so small. The best plan for keeping a chain of this kind bright is to give it an occasional bath in a saucer of soapy water. If very tarnished, it should be laid on a soft piece of flannel and scrubbed with a stiff toothbrush. It can then be rinsed in a tablespoonful of methylated spirit and dried on a piece of leather.

## CERTIFIED DICKLOW SEED WHEAT

Prize Winner State Seed Show. I have 6,000 bushels for sale at \$2.50 per hundred, re-cleaned and sacked. ERNEST EGAN, Kimberly, Idaho. Wheat may be seen at Farmers' Grain & Milling Co.

# DAIRY BILL IS ADOPTED BY SESSION

### Idaho House Concurs in Senate Approval of Measure to Regulate Competition and Fix Standards

BOISE, March 1. (Special to The News)—Regulating competition and establishing grades in the sale of dairy products, senate bill 207 passed the house this afternoon by a vote of 43 to 20.

The bill is an outgrowth of a meeting of dairymen, general farmers, fruit growers and stockmen called by Agricultural Commissioner Miles Cannon shortly before the meeting of the legislature at Boise. At that time Mr. Cannon divided the general meeting into groups and legislative programs were decided upon. The dairymen's resolutions culminated in senate bill 207 just passed, which has not had the approval of the state department of agriculture.

Representative Sanborn of Gooding county fought against its passage today on the ground that the first grade was so high that it would be detrimental to the ordinary dairyman and profited much litigation as a result of its administration when competitors would strive for business.

To List Auto Owners

Indefinite postponement of a senate bill in the house this afternoon, which would have provided for the removal of the surplus stock from state land, was accomplished shortly before adjournment.

A house bill passed by the senate requires assessors to report on or before the 20th of each month all individual names of persons subject to motor vehicle tax.

Attempts by Senators Clark of Elmore and Crook of Ada to eliminate their counties from the terms of the terminal warehouse senate bill before that body today, resulted in failure when the senate voted on the theory that no counties being definitely named in the measure it was impossible to drop them.

A strong fight was made in the committee of the whole against the bill which will distribute the state and provide for the handling of grains through quasi-public corporations and allow the warehouse to issue receipts which could be used in financing grain growers prior to sale of grain. The committee finally sent the bill for third reading with a favorable recommendation.

## Remodels Education Board

The state board of education would consist of the presidents of five state institutions: University of Idaho, Lewiston and Albion normals, Penetlon Institute and Industrial Training School, and the board as now constituted abolished as each member reached the end of their terms, according to amendments made to house bill 211, in drastic action taken by the house committee of the whole at the afternoon session.

Predictions from Representative Congdon of Ada county, that the amendment would place the entire control of education in the hands of the schools are located and precipitate much difficulty failed to change the attitude of the house which voted 29 to 25 to recommend the bill for passage. The measure includes a provision to abolish the office of commissioner of education held by Dr. E. A. Green, and if passed amended will allow the presidents of the schools to direct their own activities and fill vacancies made by the death or resignation of any of their own number. An effort by Representative Whitehead to indefinitely postpone the bill failed.

The house also amended the vocational educational appropriation bill, cutting it from \$40,000 to \$25,000. It is believed it will now pass.

## HUNTING TRESPASS BILL GIVEN APPROVAL OF HOUSE

BOISE, March 1. (AP)—The hunting trespass law passed the house by a vote of 22 to 12. The bill is designed to regulate the operation of automobiles and trucks used in public service under the direction of the public utilities commission, the Idaho house of representatives passed a legislative bill today prepared by the various auto transportation organizations of the state.

Ability to redeem property on which there are back taxes would be given owners under the terms of a house bill passed today. Property owners whose property has gone to tax deed for 1920, 1921 and 1922, may redeem it at any time by paying the back taxes which caused the property to be confiscated, together with interest and penalty, if the property has not been sold by the county, according to the terms of the bill.

## LEGAL ADVERTISEMENTS

### Notice of Writ of Attachment.

In the District Court of the Eleventh Judicial District of the State of Idaho in and for Twin Falls County, J. B. Russell, Plaintiff

Stewart V. Dunn and Emma Dunn, his wife, Defendants.

Notice is hereby given that on February 14th, 1923, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant for the sum of \$500.00.

In witness whereof, I have hereunto set my hand and the seal of this court this 14th day of Feb., 1923.

(SEAL) C. C. SIGGINS, Clerk of District Court.

By C. L. BOWEN, Deputy. Hodgins, Stephen & North, Attorneys for Plaintiff, Twin Falls, Idaho.

## NOTICE TO CREDITORS

Estate of John B. Norris, Deceased. Notice is hereby given by the undersigned executor of the estate of John B. Norris, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with supporting vouchers, within ten months after the first publication of this notice, to the said executor at the office of Hodgins and North, attorneys, at 136 Shoshone street east, in the city of Twin Falls, County of Twin Falls, State of Idaho, this being the place fixed for the transaction of the business of said estate.

Dated February 5, 1923. RAY Q. NORRIS, Executor of the Estate of John B. Norris, Deceased. Hodgins, Stephen & North, Attorneys for Executor.

Estate of M. N. Pomeroy, Deceased. Notice is hereby given by the undersigned administrator of the estate of M. N. Pomeroy, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with supporting vouchers, within four months after the first publication of this notice, to the said administrator at the office of Messrs. Bothwell and Chapman, attorneys, Woods building, Twin Falls, County of Twin Falls, State of Idaho, this being the place fixed for the transaction of the business of said estate.

Dated February 21, 1923. ALBERT HUNTSMAN, Sr., Administrator of the Estate of William Harrison Huntsman, deceased. Bothwell & Chapman, Attorneys for Administrator, residing at Twin Falls, Idaho.

## A WELL-KNOWN RESIDENT

There are few men in Twin Falls better known—none whose opinion would better be respected than Mr. Tarr. He is only one of many Twin Falls people who have given Doan's Kidney Pills their entire endorsement. Surely News readers cannot ask for more convincing evidence.

W. Tarr, retired farmer, Twin Falls, says: "I was troubled with my kidneys while in California and my back was aching. I had rheumatic pains through my limbs and arms and I couldn't work for over three years. My kidneys acted too frequently and I had to get up often at night to pass the secretions, which were scanty. After using one box of Doan's I was greatly relieved and two more boxes completely cured me of the trouble."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Tarr had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

signed administratrix of the estate of M. N. Pomeroy, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to the said administratrix at the office of E. L. Ashton, First National Bank building, Twin Falls, County of Twin Falls, State of Idaho, this being the first place fixed for the transaction of the business of said estate.

Dated February 21, 1923. E. L. ASHTON, Administratrix of the Estate of M. N. Pomeroy, deceased.

## NOTICE TO CREDITORS

In the matter of the estate of William Harrison Huntsman, deceased. Notice is hereby given by the undersigned administrator of the estate of William Harrison Huntsman, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to the said administrator, at the office of Messrs. Bothwell and Chapman, attorneys, Woods building, Twin Falls, County of Twin Falls, State of Idaho, this being the place fixed for the transaction of the business of said estate.

Dated February 21, 1923. ALBERT HUNTSMAN, Sr., Administrator of the Estate of William Harrison Huntsman, deceased. Bothwell & Chapman, Attorneys for Administrator, residing at Twin Falls, Idaho.

LAND FOR THE VETERAN

The action of the house, in passing the Sutherland bill providing soldiers and sailors homestead entries in Alaska, recalls the fortunate fact that there are still spots on the American map which beckon the spirit of the pioneer. Twenty years ago this measure would have provoked mirth in Washington. As we add to our information on living conditions in Alaska and its incalculable natural wealth the proposition of staking one's life there loses its outlandish air and appears today to be a unique opportunity for any combination of youth and enterprise.

Several states have made land available to service men. There is something, however, in homesteading near the traveled way that does not completely satisfy the hunger for excitement on virgin ground. Until last July more than 200,000 former service men had made homestead inquiries at the department of the interior, yet fewer than 500 of the thousands of applicants have been settled on homesteads in two years.

Alaska, once the foolish legend of its forbidding nature is exploded, extends to the settler immense areas of fertile ground, cleared by nature and well watered, with wood and unlimited coal close at hand, railroads, including the government's \$55,000,000 system, for transportation, and a climate, not by any means too severe. One district in particular, the Sushitna valley, of the size of Iowa, is described by government agents as being potentially the finest dairying country in the world. Undeveloped, its grass grows to lacredible heights. Winters there are such that unattended horses have lived and fattened through them. A railroad parallels the Sushitna river to the sea.

Today the valley lies fallow awaiting the pioneer's wand, the plow. It is close to a great placer mining region now unworked simply because necessities of life that might be raised in the Sushitna valley, are not available at reasonable cost. A settlement of independent miners, which placer miners are, and farmers with a market, both with these miners to the north and in the world to the south, indeed, could hardly avoid prosperity.

Men familiar with the north have devoted themselves for years to combatting erroneous impressions concerning Alaska entertained in the ordinary imagination. Not only has our northern possession greater latent possibilities than any vacant territory in the states; it provides, too, those natural attributes which lure the traditional American spirit for conflict with the soil, a soil which in Alaska's case is claimed to be open-handed with the adopted son.

A PARTY WITHOUT ISSUES

The availability of candidates for the democratic presidential nomination depends on the party's issues, says William Jennings Bryan, who hopes, presumably, that the issues will be of just the right cut to fit him, or vice versa.

This is an admission of lack of partisan ammunition. It is significant that, after more than two years of republican control and with that half-year mark, the congressional election, some months behind, this party spokesman admits the absence of definite issues in the democratic locker.

If political developments since the republican party came into power have not enabled the democrats to determine their issues, it looks as if they must be fashioned out of nothing. The promptness with which suggestions that the league of nations be revived as an issue have been rejected by party strategists and the division in the democratic camp over the tariff make it difficult to revamp old issues, while the prosperity of the nation under republican control makes the invention of new issues hafflingly difficult.

415 SECOND AVE. N.—TWIN FALLS, IDAHO—PHONE 234-B

Son Is Born To Princess Mary

This photograph shows the crowd outside Chesterfield House, the London home of Viscount Lascelles, watching the arrival of members of the royal family who called there to congratulate Princess Mary upon the birth of a son and heir. Dr. H. J. P. Simpson was the attending physician.

NO PLACE LIKE HOME

Splendid testimony that home is the best place is offered by Sergio Essauin and Vincenzo Cosmano. Sergio is making tracks for Moscow as fast as his hanger will let him. Vincenzo, after roaming amid the pleasures and palaces of sunny Italy, is back in the United States, sailing broadly over the prospect of six years in Leavenworth prison.

Essauin, a poet by profession, has been on tour with his wife and means of livelihood, Isadora Duncan. In the borough of the Bronx, New York City, he participated in a rough house from which Isadora emerged with a black eye. In Paris, homeward bound, he was ejected from the Hotel Gillion, after another wild night. Isadora, loyal, blames it all on American prohibition, whose white mule kept kicking for 3,000 miles afterward. She says Sergio will be all right when he is home in Russia, where the alcohol can be treated.

Cosmano, under conviction for robbing a Chicago postoffice, came back of his own free will. Besides, he paid out his own money in cablegrams to the consul in Chicago and sundry federal officials, before he could prove he was an American citizen entitled to six years' residence in Leavenworth. But he's back at last, in his own country.

It's a great thing to get home.

The Author of "Ulysses"

It has been maintained by a recent critic of Swift that the caricature of humanity in Gulliver was suggested by Swift's observation of the "Wild Irish." Swift, however, bore the Tergivers of his time no ill will; but Mr. Joyce is so minutely personal in his mockery that the doubt arises whether his original intention—to catch in a word of art the whole phantasmagoria of a day of life in Dublin—has not been prejudiced by something short of good humor. Thus A. E. passes by, and Mr. Joyce sets us all scolding him. It is extremely well done, and we cannot help joining in, but it is not—still I say—very high class. I except all that relates to Bloom in this epic work. In the philosophic Bloom Mr. Joyce has added a new character to that company of real imaginary personalities whom we know better than our nearest acquaintances, perhaps better than ourselves.—John Eglington, in the Dial.

Found a Cure for Indigestion

"I use Chamberlain's Stomach and Liver Tablets for indigestion and find they suit my case better than any dyspepsia remedy I have ever tried and I have used many different medicines. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now."—Walter G. W. Emory, whom we know better than our nearest acquaintances, perhaps better than ourselves.—John Eglington, in the Dial.

NEW ENGLAND'S FARM PROBLEMS WIN ATTENTION

Northeastern States Aroused Over Drift of Population to City, Seek to Build Up Agricultural Prosperity

BOSTON, Mar. 1 (AP)—New England, thoroughly aroused over its abandoned farms and the drift of population from the country to the city, which has been more marked than ever since the war, is making a determined effort to build up an agricultural prosperity which shall rest on a firm foundation. Cooperation is being stressed as the great necessity, and not merely cooperation among the farmers themselves and between the farmers and the agricultural colleges and the state experiment stations, but between all these elements and the industrial interests of this section of the country. At a recent agricultural conference in Boston the interdependence of agriculture and industry was emphasized, and means of making New England more nearly self-sufficing in its farm products were discussed. It was brought out that such products to the value of approximately half a billion dollars were being brought into New England annually from other parts of the country.

Fares Comparatively Well.

Under present conditions the New England farmer is well off as compared with those of other sections, according to state and college authorities. President Ralph D. Litzel, of New Hampshire College of Agriculture and Mechanic Arts, said in a recent address that the old-time trend to the west had been reversed, and that western farmers were now coming to New England because they saw a bright future for agriculture here, due to the nearness of markets. The Massachusetts department of agriculture, in one of its publications, said it could be proved that the average Massachusetts farmer was more prosperous and got more out of life than the average farmer in any of the wheat-growing western states. "Farming in Massachusetts," said this publication, "has changed from extensive to intensive crop production. The importance of a state agriculturally is usually rated according to her production of grain, beef cattle and swine, with little attention to

such crops as potatoes, onions, market garden vegetables, orchard fruits and berries. It is in these agricultural specialties that Massachusetts and the other New England states excel." In a survey of the whole farm crop, farm costs and production in Massachusetts and in a certain western grain growing state, the publication sets the general value of the whole farm crop acre here at \$50.10 and in the western state at \$19.20. Various methods to bring about the desired result are being worked out. Farmers are being encouraged to do vast thousands of acres of land, which have been proven too barren for raising crops, to the creation of new forests to replace those cut down by timbermen. Dairy farmers, livestock owners, and fruit growers are forming cooperative associations for buying feed, fertilizer and other supplies, and for marketing their products.

Potato Grading Urged.

In Aroostook county, Maine, which leads the country in potato raising, a campaign is in progress to increase the yield by bettering the crop, grading it properly for market, and selling it to the best advantage. In Vermont it is a "better sires, better stock" effort.

In New Hampshire the extension service of New Hampshire College has mapped out a program of assistance to farmers which includes detailed studies of selected farms in different parts of the state in order to point the way to a better organized unit; surveys of the best methods of crop rotation in order to promote soil fertility; and examination of production and cost records to determine the most profitable farm methods. Pruning and spraying demonstrations are being arranged for fruit growers. Professor John C. Graham, of the Massachusetts Agricultural College, thinks that New England should go a little more extensively for poultry raising. "A great and growing agricultural production," he says, "can be based upon the hen as it can not upon any other element in our New England farming."

REMITTANCES TO JAPAN FALL

TOKIO, Mar. 1 (AP)—Remittances from Japanese residing abroad appear to have fallen last year to less than one-third of the total of boom years. The amounts handled by the Yokohama Specie Bank may be taken as a fair index. In 1918 the homeward remittances through this bank amounted to 1,834,200 yen, in 1921 they dropped to 945,000 yen and last year to 453,500 yen. The largest decrease was in the sum sent from the United States, but the trend was the same elsewhere.

VOLCANIC ACTIVITY IN ALASKA CAUSES CONCERN

Recurrence of Conditions of 1906 when New Islands Were Created and Then Disappeared Is Feared

ANCHORAGE, Alaska, Mar. 1 (AP)—Volcanic phenomena on the lower Alaskan peninsula where another great peak, Mount Pavlov, located opposite the Sumnagh Islands and north of the Umanak Bay, blew out on December 30, may bring about conditions similar to those of 1906, in the opinion of residents here, when the crews of the revenue cutter plying along the Alaskan coast feared the reaction and disappearance of new islands. Pavlov is located on a narrow neck of Aleutian peninsula and protracted eruption may cause its separating the active peak from the remainder of the peninsula. So frequent have become the earth tremors, due to volcanic activity, that residents of southwestern Alaska pay little heed to them unless something spectacular occurs. When Katmai blew up, carrying away its top measuring two miles in area, Kodiak and surrounding islands were submerged beneath a blanket of volcanic ash, which later developed into fertile soil. The next outbreak occurred a year ago when Mount Redoubt burst into mild activity after years of quiescence.

One of the rare sights accompanying the eruption of Pavlov is the vivid reflection cast against northern mountain peaks as far north as McKinley, 20,000 feet elevation, and several hundred miles from the scene of action. During the most active period of Pavlov's eruption, the entire Aleutian range of towering peaks were radiant with marvellous glow, changing into iridescent colors of awe-inspiring splendor.

FOREIGN LEASES PRESENT PROBLEM FOR YOKOHAMA

YOKOHAMA, Mar. 1 (AP)—The question of perpetual leases held by foreigners in this city is likely to be brought up in the Diet in the form of a proposal that the government should purchase them. Under the decision of the Hagu court the holders of these leases are exempt from taxation. As a result the municipality's income is considerably curtailed, so the government has a moral claim to buy them, contributing 80,000 yen a year, to partially offset this loss. The area of these leases exclusive of the foreign consulates is 257,000 tsubo, a tsubo being about 36 square feet. The value is enormous, as the land is in the center of the city and much of it faces the harbor, where foreign firms have erected substantial buildings.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

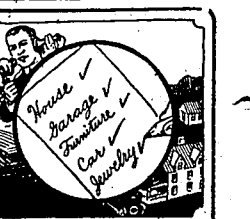

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home with a famous old recipe. Now, nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does not even leave a trace. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.—adv.

Classified advertising is the cheapest thing you can buy—measured by the profit it may bring you.

FIGHTS FIRE WITH SNOW

SPIRIT LAKE, Idaho, Mar. 1 (AP)—Snow took the place of water for fire fighting purposes during the recent snow storm here. While returning from work late at night, Evan Jones, a railroad employe, discovered the rent out of a store building in flames. He called for help and then turned his energies to throwing snow on the fire, which was making rapid progress toward nearby oil tanks. His method of fire fighting quickly gained control of the flames and little damage was done.

If your property is desirable and is advertised in the classified—you'll find your buyer.

Let this agency check up on your insurance requirements. It is wise to check over your insurance requirements at regular periods.

Property values change, you make improvements and purchase new things. These all represent money—an investment that fire may wipe out.

It is the job of the agency to know property values and insurance, and to help you to insure against fire loss in the Hartford Fire Insurance Company.

A phone call today may save you loss tomorrow.

PILES

Do Some Investigating

M.R.J. of Walla Walla, Wn., had been a sufferer from Piles 25 years. Read HIS letter and the many others in the FREE illustrated book which tells the true facts about such cases as yours—and about my non-surgical, painless, harmless treatment. Investigate my remarkable work as a highly specialized physician before subscribing to so-called "home" and "quack" cures.

Remember, my treatments are guaranteed to completely and permanently cure your Piles. Send today for FREE book.

DR. CHAS. J. DEAN 212 AND 214 WASHINGTON PORTLAND, OREGON

"YOUR SUCCESS" IN THIS WORLD— Depends a great deal on your ability to save money— The difference between the successful man and the failure in financial matters is usually the fact that one is systematically thrifty of his energy, his time and his money, while the other is not. Besides the actual amount of money you store up, thrift teaches you lessons of self-restraint, industry and businesslike methods of inestimable value to you as long as you live. Even bad luck and failure may be stepping stones to success if you have the right stuff in you. This has been the experience of thousands of ambitious men and women everywhere. You need the power which comes from saving money and putting it away safely. There is a two-fold benefit from the practice of economy—you develop character and you accumulate capital. "HAVING IS THE SECRET OF SUCCESS" The trouble with a good many people who don't succeed as well as they might is that they have more "wishbone" than "backbone." Successful people say that thrift is one of the virtues which lies at the root of human progress. These are sure rules for success—work hard and honestly, save part of your income regularly. Start a savings account today. TWIN FALLS BANK & TRUST COMPANY TWIN FALLS, IDAHO "Member of Federal Reserve System"

THE MARKETS

CHICAGO, March 1 (AP)—Passage of the farm credits bill tended to lift prices in the wheat market today, and the food did dry weather complaints as well as a bullish estimate of the amount of corn held on farms. Despite a reaction due to profit taking sales, wheat closed firm, 7 1/2 to 1 1/2 cent lower, with May \$1.18 3/4, 1 1/2 cent lower, with \$1.15 3/4 to 1 1/2 7/8. Corn gained 7/8 to 1 1/8 to 1 1/4 c., oats finished unchanged to 1/4 cent and provisions unchanged to an extent of 1/4 cent.

PORTLAND LIVESTOCK. PORTLAND, Ore., March 1 (AP)—Cattle—Steady; receipts 48; choice steers \$7 to 7.65; medium to good \$6.25 to 7; fair \$5.25 to \$5.50 to C25; common to fair \$4.25 to 4.50; choice cows and heifers \$5.25 to 5.75; medium to good \$4.50 to 5.25; fair to medium \$4 to 4.50; common cows \$3 to 4.00; canners \$2.50 to 3.00; hogs \$4.50 to 4.75; sheep \$5 to 5.50; dairy to good \$4 to 5.00; choice dairy calves \$5 to 5.50; pig light \$3 to 3.50; medium light \$2.50 to 3.00; hogs \$4.50 to 5.00.

OMAHA LIVESTOCK. OMAHA, Neb., March 1 (U. S. Department of Agriculture)—Cattle—Receipts 12,000; fairly active; beef steers and most killing classes trade spotty; beef steers and most beef heifers firm to 1 1/2 c. lower; spots off more on heifers, top matured steers \$10.40, weight 1,200 lbs.; several head \$10 to 10.25; several head Nebraska steers averaging 1,200 lbs., \$9.75; best long yearlings in lead lots \$10.10; few head \$10.25; several head \$9.50 to 10.00; grade beef steers \$9.25 to 9.75; good to choice light heifers steady; other grades fat stock, canners and cutters weak at Wednesday's decline; veal calves to heavy age top \$8.10; stockers and feeders firm; desirable grades \$7.25 to 7.50; top 88. Sheep—Receipts 5,300; lambs steady; early top \$14.00; steep strong; one top \$9.50; feeders steady.

CHICAGO LIVESTOCK. CHICAGO, March 1 (U. S. Department of Agriculture)—Cattle—Receipts 12,000; fairly active; beef steers and most killing classes trade spotty; beef steers and most beef heifers firm to 1 1/2 c. lower; spots off more on heifers, top matured steers \$10.40, weight 1,200 lbs.; several head \$10 to 10.25; several head Nebraska steers averaging 1,200 lbs., \$9.75; best long yearlings in lead lots \$10.10; few head \$10.25; several head \$9.50 to 10.00; grade beef steers \$9.25 to 9.75; good to choice light heifers steady; other grades fat stock, canners and cutters weak at Wednesday's decline; veal calves to heavy age top \$8.10; stockers and feeders firm; desirable grades \$7.25 to 7.50; top 88. Sheep—Receipts 5,300; lambs steady; early top \$14.00; steep strong; one top \$9.50; feeders steady.

123 lb. clipped wethers \$7; three decks 72 lb. feeding lambs \$17.15.

NEW YORK STOCK MARKET. Day's total sales 1,286,000 shares. Twenty industrials averaged 104.23; net gain, 33; high 102.5; low 100.00. Twenty railroads averaged 89.37; net loss, 10; high 102.3; low 97.53.

NEW YORK, March 1 (AP)—Heavy profit-taking failed to halt operations for the rise in today's stock market. The market for the advance had little difficulty in selecting new leaders when the old industrial favorites began to falter. Several new high records were made at the close of the session on sugar, copper and motor accessories groups and by American Woolen at 107 3/4; American Can at 104 1/2; U. S. Steel at 100; and California Petroleum at 90 1/2, the last mentioned up 7 3/8 points.

Several commission houses sounded a note of warning during the day. It was pointed out for the advance that approximately 75 per cent of brokers' loans, now estimated in excess of \$2,000,000,000, represented funds of interest being withdrawn from the local market in order to meet the increased demands for commercial credit at home. This was counteracted by one large house that called attention to an indication of higher call money rates, which would likely involve a decline in quoted values.

While there were reports of expanded public buying for the advance, the trading was still being done by institutional interests. Wall street pools being particularly active. The chief items of new high price of 17 cents a pound for copper metal, as compared with 10 1/4 a round the first of the year; the doubling of the Utah Copper dividend, placing it at \$4 a share; and sales of Cuban raw sugar at 5 5/8 a pound, the highest price since 1920. After the market closed the American market was active and the price of lead from 8.10 to 8.15c.

HOUSEWIFE'S GUIDE (Retail Prices) Potatoes, cwt. 75c @ \$1.00 Cabbage, per lb. 1 @ 2c Celery, bunch 7 @ 20c Beans, 1 lb. 8 @ 2c Carrots, lb. 8 @ 2c Butts, lb. 2 @ 12c Turnips, lb. 2 @ 12c California, head 1 @ 20c Peas, lb. 1 @ 20c Apples, lb. 5 @ 50c Grapes, Tokyo, lb. 20 @ 25c

favorable January earnings statements Southern Pacific dropped more than a point, but most of the other active issues only fractional changes. Call money opened at 1 1/2 per cent, dropped to 1 1/8 within an hour and then advanced again to 3/4 where it closed. Time money continued firm. Cash loans made at 3 1/2 per cent for the longer maturities. The ruling rate on prime commercial paper is 5 per cent with a few exceptions names commanding 4 3/4. Only a limited amount of new paper is coming in.

LIBERTY BONDS. NEW YORK, March 1 (AP)—Liberty bonds closed: 3 1/2's 98.00 4 1/2's 97.75 5 1/2's 97.00 6 1/2's 96.25 U. S. Treasury 4 1/2's 99.40

# CALL FOR MORE REPAIR WORK ON PAVEMENT HERE

## City Commissioners Instruct Attorney to Notify Warren Company to Meet Contract Terms; Engineer Reports

Through a resolution presented by Commissioner P. L. Cogswell and adopted at a special session of the city commission Tuesday night the city attorney was instructed to notify the Warren Construction company to repair local paving and curbing in accordance with contract made for the work done by the company in 1920. The resolution was presented after the report of Mark M. Murtaugh on the preliminary investigation had been read, and notification given of the receipt of the report of McConagle & Ulrich of Salt Lake, consulting engineers, who made the final investigation.

All Declines. Commissioner S. B. All declined to vote on the resolution stating that he had not been shown a copy of the Murtaugh report and that he was not sufficiently familiar with the situation. His position was taken following a brief tilt with Mayor J. D. Tucker and which resulted in a roll call being taken. The motion had been made and seconded to adopt the resolution when Mr. All asked that action be deferred. Mayor Tucker urged the adoption of the resolution.

Now, just a moment, Mr. Tucker; don't go at it so fast, said Mr. All. Roll call is in order, replied Mr. Tucker. Mr. Moo, call the roll.

Paving Is Urged. Mr. Murtaugh's report was to the effect that the paving seems to be of the required thickness but that it shows signs of being brittle in some places. He also refers to some question of the thickness of the bedding and spots were found on Kimberly road, just east of the boulevard, and at one alley approach, where plant growths had penetrated the concrete. These places, he stated, can be repaired, according to the maintenance clause of the contract.

Curbing Is Urged. The curbing is of a generally inferior quality, due to the use of too much foreign matter and failure to cure properly after laying, according to Mr. Murtaugh. His report also states that it is unfortunate that the report made by the city engineer should have been installed on streets where water pipe was used in the water distributing system, and that it is to be regretted that perfect drainage lines had not been provided for by installing a proper storm drainage system.

The special session was called for the purpose of approving a number of warrants for employees. Total bills of \$5121.31 were allowed, Commissioner All voting for the allowance of warrants, except those for the street department. After the session Mr. All stated that he questioned the validity of the transfer of the money out of which street warrants are being paid.

RURAL CLUBS FEDERATION HONORS FORMER PRESIDENT. Mrs. E. B. Corey, former president of the Rural Federation, who is leaving for California, was the recipient of a beautiful token of friendship from the federated clubs, the gift, a set of silver teaspoons, being presented at the regular meeting of the M. S. club on Wednesday afternoon at the home of Mrs. F. A. Darling. Mrs. C. E. Jones, who presented the gift, spoke most pleasantly of Mrs. Corey's work and association with the club women. Mrs. Corey responded, expressing her thanks to the Federated clubs for their kind remembrance. The M. S. club, of which Mrs. Corey is a member, gave her a shower of written missives to read while on route on her overland trip. Fifteen members were present and the guests included Mrs. J. M. Stetley, Mrs. James Fitzgerald, Mrs. W. D. Dwight, Mrs. I. H. Masters, Mrs. H. L. Alexander, Mrs. L. J. Miller and Mrs. Marshall Brown.

HIGH SCHOOL NOTES. A short business meeting of the student council was held Thursday. There was a pep meeting in the gymnasium Thursday at 11:50.

The senior class held a meeting Thursday to vote upon the announcements. The rings and pins have been decided upon and will be sent for shortly. The costumes for the class have not been decided on as yet.

The sophomore Blue Triangle girls held a candy sale Thursday evening at the basketball gymnasium. The proceeds will go into the camp fund. School will be dismissed at 1:30 Friday so the students may attend the tournament games.

There will be a special meeting of the social committee in Miss Joy's office Monday immediately after school. This will be held to discuss the plans for the party.

# Finish Survey of Road to Rogerson

## Mining Associate of Wolfe Says Little Difficulty Expected in Buying Right of Way

The survey of the Idaho Central railroad from Wells to Rogerson has been completed and the crews will shortly begin work at the divide between Wells and Rogerson in an effort to cut down the percentage of the grade at that point, according to V. T. McArdle, associate of Corning Wolfe in mining property at Corning. The last lap of the survey was completed late Thursday, he said.

Mr. McArdle stated he was unable to verify reports that financiers of the road have been advised but he stated that Mr. Wolfe had requested him to obtain a list of all outstanding accounts to be presented for payment. Mr. McArdle predicts that little trouble will be encountered in obtaining the right of way and that construction could be started by April 1. Western Pacific equipment will be used on the new road, he said.

# Personal

On Business Trip—S. Strauss was a business visitor to Buhl Thursday.

To Attend Court—M. J. Sweeley went to Rupert Thursday to attend court.

Back from Burley—C. R. Robinson returned from a short visit to Burley Thursday.

Makes Brief Stay—Mrs. W. R. Wilson was in town from Piler between trains Thursday.

To Move to Hollister—W. A. Fowler went to Hollister Thursday to make arrangements to move his family there soon.

Leaves for Buhl—W. B. Allen of Portland, Ore., who has been in the city for some time, left for Buhl Thursday.

Called to Burley—Mrs. L. E. Wald was called to Burley Thursday evening on account of the sickness of her mother, Mrs. John Croner.

Back from Yakima—Mrs. A. C. Wood returned Thursday from Yakima, Washington, where she had been called by the sudden death of her only sister, Mrs. Andrew Lee.

New Officer Joins Force—Neal McCracken has been appointed a member of the city police force to succeed W. C. Griffin, who has resigned to become merchant police officer.

Returns to Nevada—Mrs. Lewis Robertson of Virginia City, Nevada, who was called here by the death of her father, C. T. Burr, returned to her home Wednesday, accompanied by her mother.

Come from New York—Mr. and Mrs. Webster Harris from Newport, N. Y., arrived Thursday. They were met by J. H. Glander of Castleton. They will all be here and Mrs. Glander for some time, and if they are suited with conditions will make this section their future home.

Relatives Missing—Ralph Rowley came from Hammett, Idaho, on the noon train Thursday. He expected some one to meet him and take him to the ranch of his grandfather, S. P. Sorrens, but there was no one to meet him, and up to 6 o'clock he had found no one who knew where the Sorrens live.

# Deaths

Mrs. Lina Becher, 57, died Thursday afternoon at her home, 515 Fourth avenue east. Death followed a period of ill health covering the past four years. The immediate cause was dropsy from which she had been confined for the past six months.

Mrs. Becher was a member of the Lutheran church and had resided here five years. She is survived by four sons and four daughters, Mrs. Rudolph Hartens, Mrs. A. List, Albert, Thomas, Edmond and Dorinda Becher, and her husband, all residing here, Henry Becher of Orange, Cal., and Mrs. E. Reidel of Lincoln, Ill.

Funeral services are awaiting the receipt of word from relatives and will probably be held Sunday afternoon. Mrs. Becher's death followed her seventh birthday five days before her death.

FUNERALS. John J. Peters. The funeral of John J. Peters, age 93, who died at the home of his son here Wednesday, will be held at 2 o'clock Friday afternoon from the Grossman chapel, the Rev. W. H. Tolliver officiating.

# Society

Edited by Mrs. E. B. Williams. Telephone 308.

The Presbyterian Ladies' Aid society held its annual meeting in the church parlors Thursday afternoon. The president, Mrs. H. J. Youngs, presided and the reports of the secretary and treasurer were given. There were interesting and flattering reports from both a social and financial standpoint. Mrs. Youngs was presented with a gift in token of appreciation of her efficient work for the past two years and was re-elected president. Mrs. M. C. Mitchell was elected vice-president, and Mrs. W. E. Nixon and Mrs. David Brown were re-elected secretary and treasurer, respectively. Mrs. H. B. Cowling sang two delightful vocal solos after which refreshments were served, the tea table being decorated in the green and white, symbolic of St. Patrick's day, and presided over by Mrs. Youngs and Mrs. Mitchell. Hostesses for the afternoon were Mrs. E. R. Dooley, Mrs. D. P. Sweet, Mrs. William Scilly, Mrs. Katherine Brown, Mrs. W. M. Edridge and Mrs. S. C. Wyatt.

The Episcopal Guild met in the social room of the Parish hall Tuesday afternoon. There was an informal business meeting during which plans were completed for a dinner which the Guild will hold Saturday evening in the storeroom formerly occupied by the Western Male society. The members spent the time sewing.

The Baptist Missionary Circle met at the temple Thursday afternoon. The usual business was transacted with the president, Mrs. Effie Watkins, in the chair. Miss Alice Gibbs was in charge of the program, the study for the day being the second chapter of the book "The Trend of the Race," the following ladies assisted: Miss Gibbs in presenting the subject; Mrs. Emma Shaw, Mrs. Pearl B. Smith, Mrs. M. C. Mitchell, Mrs. D. Whelan. Refreshments were served by the hostesses, Mrs. H. C. Gutter, Mrs. Walter Turner and Mrs. G. C. Mahaffey.

The Woman's Progressive club met Wednesday afternoon with Mrs. J. B. Kirkman. Mrs. Smith of Berger, and Mrs. Carrie Harpaz were the guests. Fifteen members were in attendance. After the transaction of business Mrs. White gave an interesting and instructive talk on some of the important bills introduced in the state legislature during the present session. A delicious luncheon was served by the hostesses at the close of the afternoon. The next meeting will be held with Mrs. Charles Penrod, March 14.

# ANNOUNCEMENTS

Professor Paul G. Hanft will give an organ recital in the Presbyterian church this (Friday) evening, presenting classical and modern composers. He will be assisted by Mrs. Hanft with vocal selections. A silver offering will be taken.

# WEATHER STATISTICS

HELENA, Mont., March 1 (AP)—Maximum and minimum temperatures at the following cities during the 24 hours ending at 6 o'clock tonight, reported by the United States weather bureau:

City	High	Low
Chicago	52	30
Edmonton	24	14
Hayward	38	40
Kalamazoo	42	22
Miles City	68	40
New York	42	20
St. Paul	42	20
Salt Lake	50	30
San Diego	60	50
Seattle	42	40
Twin Falls	52	43

Idaho forecast—Friday: Cloudy and unsettled.

The City Man's Garden. The city man's backyard garden is an inherited expression of the crop-growing instinct. What of the man who lures gardening and flower planting? He probably likes to roam in the woods and fields—a throwback to ancestors who lived by fishing and hunting. They were roamers, unlike the soil tillers. Another type in spring goes crazy on sport. If they could trace their family trees far enough, they'd probably find gladiators and professional soldiers at the roots. Nature intended all men to be tillers of the soil. Wandering therefrom, we have economic and health problems that result from congestion. From these we revolt in springtime—revert to type—fish, roam, plant vegetables, trees, grass and flowers.

Musical Study Valuable. "If I had as many children as Johann Sebastian Bach had, I would wish to have as many of them study music as my bank account would permit," said a prominent speaker lately. "I would wish them to study music, not to make music, of them, but mainly for the development of their lives that would come from an intimate and direct acquaintance with the noble and beautiful thoughts of music-literature. For I believe that there is no branch, not excepting literature itself, that can contribute more abundantly and more richly to the wholesome development of a child's emotional life than does music, when rightly approached and studied. Quite apart from any special gift which they might possess, I would wish them to reap the tremendous advantage of this cultural influence."

The Pneumonia Month. March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ-laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.—adv.

Salvador's Riches. Gold and silver rank high among Salvador's products. Up-to-date methods in gold mining were introduced 20 years ago, when an energetic American engineer obtained a property of high grade ore and put in place, with British capital, a most complete equipment. Later, acquiring a large tract of low-grade ore, he agreed to permit government students to complete their studies in mining and metallurgy at his properties. Thus Salvador obtained without expense, a mining school.

# DETAILS OF SHOOTING AT RANCH ARE LACKING

No News Received from Authorities Investigating Death of Man in Big Creek District

No report had been received early this morning relating to the shooting of Otis Acton, whose body was found Wednesday afternoon at the ranch of the Utah Construction company, 25 miles northwest of Rogerson, by P. J. Grossman, county coroner, and deputy sheriffs left Rogerson about 3 o'clock Thursday morning with a team and wagon to make the trip to the ranch, but no news of them had been received at Rogerson shortly before last midnight.

Acton seems to have had no intimate acquaintances at Rogerson and the details surrounding his death were not known there late Thursday night, according to reports from Rogerson residents.

BANDITS ROB JEWELERS. NEW YORK, March 1 (AP)—Three armed bandits tonight held up and bound two jewelers in a Delaney street store on the lower east side, and escaped with \$60,000 in gems.

SEED WHEAT. For Sale—250 bushels of Dicklow seed wheat. This wheat in competition with thirty different exhibits of this variety won first prize at the Idaho State Seed Show recently held at Burley. Thoroughly cleaned and sacked with certification tags attached. While it lasts only \$5.00 per hundred pounds. C. H. HEMPLEMAN, Rt. 1, Twin Falls, Idaho. Phone 5108; adv.

Excellent Remedy for Constipation. It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They are easy to take and mild and gentle in effect. Give them a trial when you have need.—adv.

FOR RENT. 100 acres in 1 1/2 miles from Twin Falls. All in crop. Apply J. L. Daube, Perrine Hotel, Saturday, Sunday, Monday and Tuesday.

**Naturally We Think So**  
Knowing it as well as we do, it is easy for us to believe that the **New Ball-Bearing Primrose** is the very highest development in Cream Separator construction.  
But we don't ask you to take our word for it. Just let us prove it by a practical demonstration.  
Some distinctive features: Ball-Bearings, Easy Turning, Slow Crank Speed, Long Life, Sanitary.

**Announcement**  
Change in Management of  
**The Big White Store**  
We are pleased to announce to the public that we have secured the services of Charles L. Hart as manager of this institution to succeed Ben R. Firman, resigned.  
Mr. Hart needs no introduction to the people of this community, having been manager of the Idaho Department Store for about four years.  
Many changes will be made in our store, in the way of merchandising, which will be of benefit to the buying public. We trust Mr. Hart's old friends and strangers as well, will visit him at his new location.

**Before Packing Away Those Winter Clothes**  
Be sure that they are clean, free from soot, grease and dust.  
Most of all, be sure you're not packing away tiny, almost invisible moth eggs, which will hatch out soon into destructive little grubs.  
Our modern method of Dry Cleaning will give you this assurance.  
Have us call today—we'll have everything back promptly.  
**ROYAL Cleaners and Tailors**
