Contract for an audit of the city accounts for the year ending May 1 and installation of a new set of books were awarded to John Wolfenden on his bid of \$250...

The proposition of making the audit was mentioned by Commissioner J. E. Roberts. H. L. Alexander, city treasurer, stated he had checked over all accounts carefully but he believed that an audit for the past year would still be of much benefit...

The permit of the Independent Gas & Oil company, the House Oil company and Oint Nelson.

ADDITIONAL OBJECTS

"It is not in favor of having an audit made and I believe it should be left to the new administration," said Commissioner S. S. All.

The Home Oil company withdrew its application for a permit to erect tanks on the lots near the Sterling creamery and applied for a permit for localities northeast of the Pilgrimage planing mill site.

The permit of the Independent Gas & Oil company, a new entry in the local field, was refused and rejected because of its proposed location near the Lincoln Produce company.

FEAR CONTAMINATION

Commissioner Roberts stated that the poultry yards in that vicinity are as objectionable as the oil tanks could be from a strictly health point of view.

The application of Olf Nelson to erect oil tanks on Third avenue south near the Nibby-Channel Lumber company, was discussed and the permit granted on the objection of Mr. All.

Persons who registered or voted in the last city election are legally entitled to vote in the coming election without registering, but others must register and must meet the residence qualifications.

The Laving and the clerk's office at the city hall have been selected as polling places and the polls will open at 9 a. m. and close at 7 p. m.

Floyd Fowler, arrested with Mrs. Ellison, was arrested on a complaint sworn to by Chief of Police Jess. Bond of \$500 was guaranteed by J. H. Dierka and W. O. Sawyer.

The budget for the ensuing year is fixed at \$11,000, a slight increase over the budget of last year. It will cover the general administration of the church.

Officers elected were as follows: Elders, E. P. Dunlap, Frank Brown, M. G. Kitchell and H. T. Blake; Deacons, Mrs. E. M. Simpson, C. E. Rowcliffe and Will T. Sells; trustees, Harry Cowling and J. S. Hall.

FOSTER DENIES GIVING AID TO REVOLT PLOTS

Admits Attending Conclave of Organization Alleged to Have Aimed at Overthrow of the Government

ST. JOSEPH, Mich., March 29 (AP)—William Z. Foster of Chicago, charged with criminal syndicalism for assembling in the Michigan sand hills with an organization alleged to have been formed to advocate the overthrow of the United States government by force and violence, took the stand in his own behalf today and, admitting his presence at the communist convention, denied all connection with the organization.

He denied that he had filled out a questionnaire at the convention in which his occupation was stated as industrial organizer of the communist party of America, and he denied he had been issued a portfolio containing radical documents.

Documents in Evidence. Both the alleged questionnaires and the portfolio said to have been assigned to Foster had been introduced in evidence by the state.

Foster admitted on cross-examination that he had sat in on the convention, the presidium or governing body of the convention.

There was nothing in Foster's bearing to indicate he was nervous. He organized more than 200,000 steel workers and led the great 1919 steel strike or who, according to his own statements, has been an active revolutionary leader for nearly 10 years.

His story, on both direct and cross-examination, was one of years of radical and union activities. At various times in his career, he said he has been a member of the I. W. W., secretary of the Syndicalist League of North America, student radical movements abroad, leader of many anti-war delegations to radical meetings and correspondent in Russia, member of the Seaman's union, railway carmen and other organizations and for the last year a subscriber to the Marxian communist school of radical thought.

Assistant Attorney General Smith attempted to show in the testimony that in unseating E. F. Grable, former head of the Railroad Maintenance of Way men, who was defeated for reelection last fall after he had convinced his men out in sympathy with the railroad shopmen's strike. Foster denied that he had attended the union convention in Detroit in which Grable was ousted, although admitting he had opposed Grable's stand.

Gives Speech From Memory. Under examination by Frank P. Walsh, his attorney, Foster repeated as much as he said he could remember of the speech he delivered at the communist convention. He said he had taken the delegates there of a trip taken through the west to address striking shopmen, from which trip he had returned just before the convention.

On cross-examination Mr. Smith brought out that Foster was in Ogden, Utah, about the latter part of July of the first of August when he had heard him if he was accompanied on the trip by Joseph Kowalski.

Foster denied knowing Kowalski. "Don't you know who was your party and that a federal agent followed him directly from a meeting which you addressed in Ogden and followed him back to New York where he had arrested and sent to prison for slipping back into this country after being deported?" Mr. Smith asked.

"I never met Kowalski, never heard of him and never knew he was at any meeting I attended," Foster replied. Kowalski is a Russian who was arrested in Chicago in the January, 1920, raids and deported to Russia.

CROP PESTS CAUSE LOSS OF BILLION EACH YEAR

Imported Parasites Constitute Heavy Drag on American Farming and Fruit Growing

WASHINGTON, March 29 (AP)—A billion dollars a year is the board bill of uninvited farm and fruit pests which come to the United States from foreign lands, according to Chairman C. L. Marlatt of the Federal Horticultural board. Two hours of every day's work on the farm or in the garden and orchard goes to feed these guests, Dr. Marlatt says.

There are at least 100 major plant pests and many hundreds of minor pests which have been reported. There are thousands of other pests, insect and plant, that have not gained entry into the United States and which the Federal Horticultural board is endeavoring to keep out.

Fifteen quarantines are being enforced now, and in connection with these, efforts are under way to eradicate the pink bollworm, the citrus canker and the Parlatiora date scale. The other recently established pests, including the European corn borer, the Japanese beetle, the pine blister, etc., are recognized now as permanent factors in the agriculture of the country and for these, eradication of spread is the only hope left. This eradication and control work is being conducted by the Federal Horticultural board and involves an annual expenditure of upwards of \$2,000,000.

Tribute Paid to Bernhardt Rivals Rites for Kings

Thousands Attend the Funeral Services and Join in Vast Procession to Last Resting Place

PARIS, March 29 (AP)—The divine Sarah lies quiet and alone tonight under her mountain of flowers. As the sun went down last farewells were taken of her by that Paris and the world through which she had moved so long under a halo all her own.

It was at the end of ceremonies which had lasted Paris for days, and tribute was paid to the memory of the great actress in a manner such as the queen of cities so rarely bestows except on its most beloved. This last day was as free of incidents as her life had been full of activity, work and storm.

Bernhardt was laid to rest in the cemetery of Pere in Champs, the funeral service being conducted at the church of Saint Francis de Sales.

Triumph Over Death. It was commonly commented that there was nothing sad about the funeral, nor did the majority of the vast crowd which witnessed it take the event as one of sadness. The general note, as expressed by the newspapers, was that she had triumphed over death with her vigorous work and her motto, "no rest for the weary."

The ceremonies lasted throughout the day, beginning early in the morning with the transfer of the body to the cemetery. The church was crowded and thousands of spectators had gathered. The church regulations governing Holy Week, which allow only prayers in churches, was slightly altered to permit the singing of the mass by the artists. When the church ceremony was over a vast one began; it was the procession to the cemetery. No crowned king ever received a greater tribute from the people.

Heaped high upon the grave are vast masses of flowers. They had been sent either to the house or the church and later were shown in the procession, but the vast quantities were not all. This evening thousands continued to file past the grave and cast flowers upon it. Bouquets and clusters of blossoms are mounting high under the green branches of the willow, aspen and poplar.

All of Bernhardt's friends, known and unknown, aware that she loved lilies above jewels and silks and glory," as she once said, selected lilies as the principal flower of their offerings.

These humble thousands who had no position in the church ceremony, brought to the cemetery a few handfuls until the air itself was steeped with the odor of her favorite flower. The route taken by the cortege from the church to the cemetery was about five miles, and along all the way the people were massed in solemn silence. Bernhardt on her way to her last resting place passed by the theater Sarah Bernhardt, where she had often appeared.

TEXAS SWINDLER CONVICTED.

TEXARKANA, Texas, March 29 (AP)—J. W. Healdy, alias J. H. Carter, convicted here Saturday night of using the mails to defraud, today was sentenced to five years in the federal prison at Atlanta, Ga. Healdy was accused of swindling Carl Westcott, Colorado farmer, out of \$25,000. Walter Byland, co-defendant in the case tried here, was one of the 20 men convicted in Denver last night on similar charges.

STUDY EARLY CHRISTIANS

Sunday School Students of High School Ago to Trace Zeal and Persecutions of Founders

A most interesting department of the Methodist Sunday school is that composed of the junior high school students and the high school students. Their attendance is 145, and the superintendent of their department is Mrs. Marshall P. Brown.

During the ensuing six months this group of students will be studying the doings and teachings of the first century Christians, the world they worked in, the persecutions they endured, their zeal and courage in carrying the gospel to the ends of the world. It promises to be a most fascinating study, all based on the Book of Acts, studied not only from the spiritual standpoint, but as history and literature.

Students not in any other Sunday school will be welcomed to these classes, the work beginning Easter Sunday.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears and after another application or two, it becomes beautifully dark and glossy.—adv.

PRESS REPORTS INTRODUCED IN MURDER TRIAL

News Writer's Account of Massacre Brings Out Facts in Connection with Operations of Associated Press

MARION, Ill., March 29 (AP)—Only two witnesses were called to the stand by the prosecution at the resumption today of the trial of Hugh Willis, state executive board member of the Illinois mine workers, and five other defendants, charged with murder in connection with the Herrin riots, most of the session being taken up by a legal battle which was won by the defense.

The first witness was J. C. Hook, of Louisville, Ky., who formerly was manager of an insurance office in Marion, which specialized in working men's compensation insurance. He was called to tell of an alleged admission made by Phillip Fontanetta, the youngest of the defendants, for whose family he had handled a compensation claim.

Donald M. Erving, a Chicago news paper man, testified that he had arrived in Marion from Chicago the morning of the riots, had taken an automobile to the mine where the trouble started and then had gone on toward Herrin, where he found six men lying in the road surrounded by a crowd of about 150 persons.

Act of Morye Balked.

The witness said three of the men were dead, one was still breathing and two were conscious and begging for water. He declared he had tried to give one a drink, but had been prevented by a man he identified as Bert Green, a defendant.

Erving testified that he was acting as a staff correspondent of the Associated Press and had gone on to Herrin and dictated his story over the long distance telephone to St. Louis. In answer to questions, he described the Associated Press as a cooperative association composed of more than 1400 newspapers in all parts of the country.

Rufus Neely, of defense counsel, on

cross examination read a story carried in the New York Times of Friday, June 23, and distributed by the Associated Press. After reading a section telling of the shooting down of six men, he asked:

"Did you write this sentence, 'Hundreds of men, women and boys laughed at their pleas for water?'"

"No, sir, I did not put that into the story, the witness answered.

"Did you put into your story that you saw a young woman there?"

"Yes, sir."

"Did you say that this young woman had her face in his hand before you got any water?"

"Substantially that."

Associated Press Rules.

"Didn't you write that these men had been dragged behind an automobile and gravel imbedded in their flesh?"

"Yes, but what I thought was gravel afterwards found was spots caused by blood."

"Is it true that reputable newspapers were not allowed to change or garble news matter supplied by the Associated Press?"

"The Associated Press has eight or ten instances of newspapers doing that every week."

"Is it not true that the Associated Press does not present rumors as facts?"

"We are not allowed to carry rumors but we can give stories without revealing the source."

"Now, is it not true that members of the Associated Press are not allowed to change material received from the Associated Press?"

"It is not true."

Mr. Neely then read from a copy of "The Herrin Conspiracy," a pamphlet issued by the National Coal association, but the witness denied that he was responsible for any of the statements contained in it.

"You are now longer with the Associated Press?" Erving was asked.

"No," he answered, and added that he was now with the Chicago Tribune.

Good Work Bowed.

"Now, isn't it true that you left because of stories regarding Herrin you had written?"

"No, I received a vacation and a raise when I got back to Chicago from Herrin."

"Oh, you received a vacation and raise for your stories, then?"

"Well, not exactly; I got them for general news."

"They didn't give you a medal, too, did they?"

"No, sir."

The session ended with the witness still on the stand, the defense announcing that it wished to continue the cross examination tomorrow.

Veterans Hope to Put Idaho in Lead

Seek More Members for Twin Falls Post as Aid in Boosting State Into First Place

The Twin Falls post of the American Legion is working toward an enlarged membership as a means of assisting in placing Idaho at the head of the list of states as regards the percentage of membership out of the total number of veterans of the National.

As a result of the efforts of various posts throughout Idaho this state now ranks second among all states in the ratio of membership with the number eligible, according to Dr. W. P. Passer, Americanization officer of the local post.

"The posts at Boise, Nampa, and numerous other points in Idaho have made big gains and it now remains for Twin Falls to do its share," said Dr. Passer. "Last year Idaho ranked thirty-sixth from the head of the list, and the fact that it is now second shows what has been done. With continued efforts the Idaho boys can win the honor of leading the parade at the national convention at San Francisco, proving that this state is 'on the map.'"

Local ex-service men who have dropped out of the post and others who have not joined are missing a great deal and they will realize the fact if they will only get in the game and do their part."

SPORTSMEN TURN TO TRAP

With the fishing season off the list for a couple of months, the sportsmen of this section will turn once more to the more strenuous sport of trap shooting.

Last Sunday's telegraphic shoot with Boise brought out the fans in gaudy numbers, and even more are expected out this coming Sunday.

Several of the beginners, or rather those who claim to be beginners, have signified their intention of being out and seeing if there is a chance of raising their average.

The shoot with Boise will start at 10 o'clock sharp, and all shooters are requested to be at the "Happy Hunting Grounds" on time.

HOW WOMEN CAN SERVE

Good times, it is often said are not an accident, but are man-made. They are woman-made too. The housekeeper, like the wage and salary earner, is a worker in the prosperity factory. It is to her interest to keep home industries running to capacity.

In a world recovering from war, nimble hands must continue their tasks. Moments must be put to use; work must be done. The world may seem to be at the home doing its share of the work.

How agreeable such service is, with the array of fabrics and the smart and easy patterns of today. Sewing is no longer a complicated mystery. It is the simple art which spells economy for the woman and prosperity for the nation.

LAUNDRY TEAM TRIMS WRIGHTS

Low Scores Figure in League Bowling Contest Between Storemans and Cleaners

Giving the worst exhibition of bowling yet seen during a league game the Wright's store men lost two out of three to the Troy laundry bowlers last night. The first game went to the soft soap artists by the score of 734 to 624. Art Fink took the high honors in this game with 181. Figuring that 604 was not low enough to establish a record, the Wright's store men went to the second game, and after missing so many spares and running into so many splits that their efforts became pathetic, they finally succeeded in rolling 626, which will not doubt stand as a low record. The Troy boys got as far as 765 in this game. Bill Bailey cut loose in this game with 222. The last game of the evening went to the Benoit wrecking crew, 774 to 766, with Art Fink again taking high game with 196. Bill Bailey led the pin busters for the evening with an average of 181.

AS IT WAS. Wright's Store 1 2 3 Totals. Benoit 139 125 110 380. Troy Laundry 132 222 100 544. Boyd 165 146 143 454. King 149 137 118 404. Tritt 131 107 138 376. Cubit 157 143 177 477. Totals 734 755 768 2255.

WHY IS A BOWLER

It wasn't a question of not trying, as the store men did the best they could. They just couldn't make the grade, and that's all there was to it. That second game showed how far a tub can get off color and still win games. Emery Benoit, who went through the first game last week without making a strike, kept up the good work in the first game, and it wasn't until the 48th consecutive frame that he sent them all down on the first ball.

Ralph Boyd had an off-night, slipping several points in his average. Ralph could pass 454 for a total.

Art Boone, who claims that he visited King "Tut's" tomb to get a few pointers, showed in the first two games that they didn't bowl very well 3,000 years ago.

Phil King had a lot of trouble picking up his spares the result being that he slipped to 404 for the evening.

Charley Hill took a tumble in the average column, rolling a total of 347 for the night. Charley couldn't locate the head pin.

Jack Tritt had a grand old time trying to pick up spares and spares. Jack said the change in the weather had something to do with it.

"Pop" Klefner rolled 153 in the second game, which was high for his team. Now that the fishing season is over "Pop" is bound to do better bowling.

Boy Cubit dropped one point in his average, but had a touch of hard luck. Roy had but one strike in the game with only one error, splits doing the dirty work.

Art Fink had a bad game in the second, but made up for it in the other two. Bill Bailey set the pace last night with 644, after having 412 in the opening. Bill had four splits in his first game.

Lawyers Clean Up on Bankers' Team

Legal Lights Roll 1507 in Two Games Against Total of 1430 for Money Counters

Rolling 1507 pins in two games, the lawyers howling team won from the Bank and Trust timber clouters on Thursday afternoon at the Twin Falls bowling alley. The best the bankers could do in the two games was 1430. The features for the afternoon's entertainment go to the law firm of Porter and Witham. These two reliable were the boys who brought home the bacon for the legal department. Witham rolled the high game of the day with 179 in the second game, with Porter having a total of 330 for the two games.

LAYING DOWN THE LAW. Bankers 1 2 Totals. Patrick 305 346 651. Benoit 187 108 295. Peck 130 110 240. Fix 144 164 308. Lindville 153 145 298. Totals 750 671 1420.

Lawyers 1 2 Totals. Chapman 102 151 253. Witham 103 170 342. Porter 144 168 312. Benoit 145 121 266. Bailey 168 150 316. Totals 740 787 1527.

FROM THE BLEACHERS

The lawyers led a meeting after the first game to see where the trouble was, and after arguing for several minutes, it was discovered by Captain Harry Benoit that the team wasn't knocking down enough pins.

The lawyers are waiting for the league to end so that a team of lawyers to play them for the championship of Main street.

Harry Benoit had a few allis for his 121 game, the best one being that the allis were too long.

Wilton Peck allowed his heart to get the best of him, and dropped to 110 in the second game. Peck's scores keep wilton, and wilton.

O. W. was Witham in both games, having an average of 171 for the afternoon.

Ryan was high man in the first game and low man in the second. Guy used to run on elevators so the ups and downs don't bother him very much.

Orr Chapman sallied forth in the first game with 102, and when told that a few strikes would help him score he got busy and finished up the day with 151.

Or Chapman sallied forth in the first game with 102, and when told that a few strikes would help him score he got busy and finished up the day with 151.

Bill Bailey went through the two games with a total of 626, but several bad splits kept his score down.

Bill Scillely of the sugar factory team was present, and challenged the lawyers to a two game tilt for next Thursday afternoon. Harry Benoit accepted the challenge.

LINE-UP FOR OPENING GAME PUZZLES MENTOR

Evans in Quindry as to Personnel of Team that Will Meet Jerome Nine in First Contest of Season

Jerome's baseball team will make its first appearance of the season here this afternoon at Lincoln field when it will cross bats with the Beal high school nine. Perfect baseball weather the last week has given Coach Evans of the Blue and White a chance to give his cohorts some real workouts, but after a week the focal mentor is still undecided as to who will be used during the game.

Having enough material to pilot three teams Evans is in a quandry and at a late hour Thursday evening could not make up his mind as to the lineup for today's game.

For pitchers there are Laval Jarman and Gus Garrity. Hodgins is lined up with a sore side and will not be seen in action. Behind the bat, the weak part of the team, there will be Mussel and Garrity. Mussel played at the outfield last year, and did great work, and this year Evans is trying to make him feel at home with a mask on.

At first base "Slim" Hammond looks to be the choice, with Walter Soek at second. Captain Jerry Ryan will be seen at short, and Stan Crom will be stationed at the hot corner.

The outfield is another unknown quantity, as there are several likely looking chaps out for a job in the outer gardens. Chet Jamison, Atkinson, Len Scott and Jon Nyro may be used today.

Jerome comes over here unknown, but reports from the northside metropolis stated that Jerome's team will bear watching. The game this afternoon will start at 3:30 and will be played at Lincoln field. Season ticket will be honored.

BOWLERS SET NEW RECORD

Nelson Mitchell Five of Milwaukee Rolls into First Place at Tournament with Score of 3141

MILWAUKEE, March 29 (AP)—The Nelson-Mitchell bowling five of Milwaukee set a world's record for tournament competition when the team rolled a total of 3141 pins in the event of the American Bowling Congress tournament tonight and shot into first place. Their scores were: 991, 1055, 1023. The Claman Dairy Lunch five also shot world's record with 3,115, moving into second place.

YANKEES CONCLUDE GAMES

GERMAN INTERNAL LOAN SHORT OF SUBSCRIBERS

Public Absorbs Only 25 Per Cent of \$50,000,000 Issue; Private Banks to Shoulder Huge Deficit

BERLIN, March 29 (AP)—Only 25 per cent of Germany's internal fifty million dollar loan has been covered by popular subscription, according to returns made public today, and while this result is designated as meeting of official expectations under the prevailing political and economic conditions, financial experts frankly concede that the showing is anything but flattering.

The extent to which the loan is underwritten by the public through the mediation of private banks leaves the banks with a deficit of fifty million gold marks which they now are obligated to assume, in keeping with their promise to the government and the reichsbank. Whether the reichsbank will succeed in disposing of all or the major portion of the unsubscribed balance is highly doubtful, although the odds are expressed that the loan will be listed on German bourses and will consequently find added takers.

KU KLUX KLAN CANDIDATES PLAN TO CONTEST ELECTION

BATON ROUGE, La., March 29 (AP)—Judge Robert S. Ellis and Columbus Field, of Amite, defeated candidates for associate justice of the supreme court in last Tuesday's primary election. Judge J. P. Brunot of Baton Rouge won, according to unofficial returns, by a majority over both of his opponents of approximately 600 votes, are planning to contest the election, it was reported here today.

Judges Reid and Ellis had the support of the Ku Klux Klan and Judge Brunot ran as an anti-klan candidate.

LAWMAKERS BAN SMOKES WHEN GOVERNOR SPEAKS

California Legislature Defers to Neighbors' Law and Extends Courtesy to Utah Executive

SACRAMENTO, Cal., March 29 (AP)—The rule against smoking in the assembly of the California legislature, suspended for a time today, was reinvoked while Governor Charles R. Mabee of Utah, addressed the body, as a courtesy to him because public smoking in his state is against the law. The action was taken after considerable debating some members arguing that the Utah law had been repealed. When it was brought out that the Utah law did not cease to be effective until May, the windows were opened so the smoke could blow out by the time Governor Mabee arose to speak.

ENTHUSIASM OUTBOUNDS FUNDS

NEW YORK, March 29 (AP)—New York City's proposed half million dollar jubilee, which the citizens' union contends in a court action is \$400,000 too much, looked for a short time today as if it would be celebrated with a whoop and a bang. Controller Craig received a check for the much needed \$400,000, apparently from a public spirited citizen. At the bank on which the check was drawn it was found the citizen, a manufacturer, had a balance of only \$120.00.

The Pneumonia Month

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter the system grows much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.

SEIZURE OF VINEYARDS CREATES STIR IN RUHR

German Populations Manifest More Concern Over Loss of Wine Crop than Over Appropriation of Mines

COBLENZ, March 29 (AP)—The seizure by the French of the Prussian state-owned vineyards along the Moselle has created more stir in the occupied territories among the German population than the appropriation of the coal mines and coke ovens in the Ruhr. It was announced today that confiscation of state-owned vineyards, which cover thousands of acres, will be ordered at an early date to the Rhine river on the banks of which the Prussian state has vast tracts devoted to grape growing.

RESERVE BANKS EXCHANGE VIEWS

General Economic and Financial Conditions Are Discussed in Three-Day Sessions

WASHINGTON, March 29, (AP)—The semi-annual conference of the governors of the 12 reserve banks was concluded here today after more than six hours had been spent in discussing general economic and financial conditions with members of the federal reserve board who participated in the final session. Much of the more than three days taken up by the conference was occupied in general exchange of information concerning bank operations.

Acting Governor Platt of the reserve board, issued the following statement at the close of the session, covering the reserve board's part in the meeting: "During the semi-annual conference of governors, which closed today, the federal reserve board, as usual, discussed with the governors many conditions of operations, including the amendments to the reserve act contained in the agricultural credits act, changes in the board's regulations made necessary by these amendments, the open market operations of the system and many matters of a routine nature.

"The board also discussed with the governors general economic and financial conditions, the conditions of reserves, open market rates for various classes of paper, the demand for credit and the volume of credit in use and gold movements present and prospective.

Although there was no reference to reduction rates in the formal announcement, it was admitted generally that the phase of reserve banking operations was covered and that the mention made in the formal statement to the conditions of reserves, open market rates and the demand for credit constituted the substance of the saying that attention was given to possibilities of a need for increased rates should the present tendency toward inflation continue. The governors themselves declined to discuss that phase of their deliberations. Whether anything in the nature of rate increases on rediscounts results from the discussion, obviously will not be known for several weeks since applications to the board for permission to increase the rates must originate with the banks.

CHOOSES H. M. DAWES AS CURRENCY COMPTROLLER

President Announces Purpose to Appoint Brother of Former Budget Director to Success Crisinger

ST. AUGUSTINE, Fla., March 29, (AP)—President Harding let it be known that upon returning to Washington he would appoint Henry M. Dawes, of Chicago, a banker, and a brother of Charles G. Dawes, former director of the budget, to be comptroller of the currency.

Mr. Dawes will take the office filled by D. R. Crisinger, prior to his appointment to the governorship of the federal reserve board. The selection will be the next member of the Dawes family to be comptroller of the currency, his brother Charles having served as comptroller in the administration of President McKinley.

PORTLAND, Ore., March 29, (AP)—John Keller, aged 24, was hit on the head by a batted ball here today and may die.

He was taken to a hospital where it was said he was suffering from a fractured skull.

Keller was watching a ball game near a school when the batted ball struck him.

EXONERATED BY INQUEST

CHICAGO, March 29 (AP)—Harry Peterson, who with his two-year-old son in his arms, fell over a banister and lit on a pavement two stories below without sustaining injury, but causing the death of the child, was exonerated of blame by a coroner's jury today. The police had claimed that he was intoxicated when the accident occurred.

THE MARKETS

CHICAGO GRAIN MARKET
CHEATING, March 29 (CP)—Confounding a holiday tomorrow, the wheat market failed to furnish any decided incentive to buyers today and prices averaged lower. Closing quotations were unsettled at the same as yesterday's finish to 8-8s-down, May \$1.18 7-8 to 1.19 and July \$1.15 1-2 to 1.15 3-4. Corn gained 1-4 to 38c, with close closing at a shade decline to a like nativity, and provisions off 10 to 17c.
 Downturns in values at Liverpool port bulls at a disadvantage from the outset in the wheat market here, especially as Canadian wheat in the United States ports was being offered at the lowest provisions of the season. Besides, without shipped from various domestic centers appeared to be accumulating here for delivery on May contracts. Commission houses but in the face of a little increase of support developed as a result chiefly of efforts to even up for the holiday.
 Bullish at the last in the wheat market were aided by asserted extension of dry area southwest and by reports of crop damage from green bugs in Texas. Besides, no rain or snow of importance was reported anywhere in the principal sections of the winter wheat belt, and the forecast was for a cold wave no farther.

Continued rural offerings and the meagerness of receipts here gave something of a lift to prices of corn and oats. In addition, cold weather was said to be delaying field work on farms and to be prolonging heavy feeding of livestock.
 Despite firmness of the hog market, provisions were weak as a result of selling on the part of smaller packers.

POTATO MARKET

NEW YORK STOCK MARKET
 Day's total sales 791,000 shares. Twenty railroads closed 102.77; net loss 68; high 1923, 105.38; low, 96.06.
 Twenty railroads averaged 87.26; net loss, 67; high 1923, 99.63; low, 84.53.
NEW YORK, March 29 (CP)—Pro-holiday dullness characterized today's stock market, which displayed a nervousness. Except in a few isolated issues, however, the net losses among the active stocks were held to fractions.
 Closing out of speculative commitments over the holiday, combined with an apparent lack of fresh buying power at current levels, caused prices to sag throughout the list.
 Marking up of the call money rate to 6 per cent, after an opening rate of 5 1/2 also tended to restrain trading, while the disappointing showing of some of the most favored railroads and earnings statements brought some selling in that group.
 Revival of speculative interest in United States Steel occurred, which crossed 108 and then fell back to 107 3/4, up 8-8, was based on unfounded rumors of the formation of a big financial pool in the issue. The other steel lost ground, Republic dropping below 101 1/2, Bethlehem B below 66 and Quif States Steel below 59.
 Heaviness also was noted among recent speculative favorites as Pan-American, off 3-4; American Woolen, off 1-3 1/4; American Can and Studebaker, each off 1/4; Baldwin, off 1/2; Chemical, each off 3-4; Cuba Cane Sugar preferred and Texas Company, each off 1/2, and American Locomotive, off 1/2.
 The Virginia-Carolina Chemical issues, weakness of which contributed

materially to yesterday's late reaction, made partial recovery today, the common advancing 8-8 to 19 5/8, and preferred 2 points to 57-1/4. Buying was based on publication of an official statement declaring that while current earnings are disappointing, the financial position of the company shows marked improvement over that of a year ago.
 Canadian Pacific, Texas and Pacific, Rock Island, Great Northern preferred, Union Pacific, Franco common, New Haven and the Chesapeake preferred issues were the outstanding weak spots of the railroad group, each showing a loss of a point or more.
 Little activity was reported in the time money market, with all loans being made on a 5 1/2 per cent basis. Out-of-town banks continue as the principal sources for commercial paper, the prevailing rate for prime names remaining at 5 per cent.
 The reaction in German marks to below 2004 cents after apparently having remained "pegged" for several weeks around 2045 cents was the feature of the foreign exchange market, trading in which was quiet. Demand sterling held steady just above 4.68. French francs were firmer, 6.60 cents. Italian lire were stronger, rising above 5.08 cents for a net gain of nearly 10 points.

Many Varieties

"I never know when to stop when I get going on corn. Minnesota No. 13 is the best to grow here, but Reid's Yellow Dent did mighty good last year for some. There is quite a difference in growing conditions and soil here, but you can't get any variety locally. If you were to apply the entire income that can be made in feeding the crop it would come very near to paying for the cost of the land on which it is grown. It will pay you to figure on this. Get good, tested seed, thoroughly manure and carefully plow the land. Plant in rows on part of the acre have a chance to produce three or four good cuttings and two irrigations if it is a normal season—and you have it."
