

DAVIS WILL ADVISE BIG RESERVOIR

Assistant Secretary of Interior, Idaho's Former Governor, Talks Here on American Falls Project

"I shall recommend and vigorously urge that the government build the American Falls reservoir...

The foregoing statement was made here Wednesday by Assistant Secretary of the Interior D. W. Davis...

Railroad Connection Secretary Davis stated that in talks with Union Pacific and Oregon Short Line officials he found them interested...

"I was asked about the prospects of the success of the reservoir project, and I replied that the bill there was no doubt the people of this district would give their approval to it at the first election as they had at the first election when the district was organized."

"I based my reply on the theory that the people of the district, having so overwhelmingly organized it, had decided to carry the bill through the legislature of the opportunity presented to them."

"My observations since only serve to strengthen the view I expressed at the time."

"Recently I was asked again about the matter, and again gave my opinion as expressed here."

"I am sure the two propositions are indirectly connected, there is a strong line of interdependency, for no new railroad construction would be completed."

Dancing Girl Says Purnell Broke Bounds

Entertainer Employed at House of David Amusement Park Makes Charges

ST. JOSEPH, Mich., May 10 (AP)—A hula-hula dancer from the House of David amusement park told the special grand jury investigating the cult today that "King" Benjamin Purnell, 30-year-old leader of the colony, made improper advances to her in the pantry of Shilo, the home of Purnell...

Four House of David members followed the girl tonight when she slipped out the back door of the St. Joseph city hall Judge Harry Dingman, who is sitting as a one-man grand jury, dispatched a squad of state troopers in pursuit with orders to arrest the cult members if they attempted to speak to her.

Mrs. Hegner was reported to have told the grand jury that she was called to the cult merely to "keep faith."

Mrs. Hegner, who was born in Honolulu of American parents, came to the colony five years ago and because she could dance Hawaiian dances became a attraction in the amusement park operated by the House of David.

Censors See Motive for Crime in Bared Male Leg in Films

NEW YORK, May 10 (AP)—The question whether a man, whose opportunities to display his own bared legs have been drastically limited in motion pictures, can be exploited on a New York state movie screen with his legs unshaded, is to be settled by the supreme court of the commonwealth.

The appellate division of the court granted a writ today requiring the state to show evidence where trousers are pulled by dog at dance."

The commission ordered the movie corporation to "eliminate all references to the exposure of male trousers are pulled by dog at dance."

The movie people's reply that "the state has no power to require the elimination of a like or similar exposure of a woman's leg" was filed with others papers in the court today.

OIL FIRE'S TOLL PUT AT 18 LIVES

Workmen Bend Efforts to Extinguish the Cone of Flames Shooting from Big Gusher

CORSIKANA, Texas, May 10 (AP)—The Hughes-McKie well, the explosion of which yesterday cost at least 18 lives, continued to gush forth its giant torch of fire tonight, fed by the constant flow of 15,000 barrels of oil and 5,000,000 feet of gas.

For more than 24 hours the flames have leaped high in the air, and the red streaks of fire soar on from a mighty nozzle, disappearing in huge clouds of black smoke, which drift with the wind in a swirling haze.

The wind whistled from the southward to the west, early this evening, the huge smoke stack releasing its flow in the direction of Powell, leaving dark, oiled elements in its wake.

Men are working like Trojans to get the fire extinguishing equipment in place in the Powell well, and the use of all available boilers. It will be necessary to use fire foam and steam from a dozen boilers.

Various Estimates of Dead. The burned bodies of at least six men remain in the fire zone, according to DeWitt Hawkins, one of those in charge at the well today. He said five bodies could be seen near the well and that of at least another workman was missing. One or two spectators have perished, he believes. Jim Ball, foreman in charge of the work, estimated the final death toll will be 18.

LASKER SUCCESSOR NAMED

Appointment of Edward P. Farley of Chicago as New Head of Shipping Board is Announced at White House

WASHINGTON, May 10 (AP)—Appointment of Edward P. Farley of Chicago, former vice president of the Emergency Fleet Corporation, to succeed Albert D. Lasker, as chairman of the shipping board, was announced today at the White House.

The appointment will become effective June 12, when Mr. Lasker will resign, after two years' service as chairman of the board. The announcement of Mr. Farley's selection said he was in full accord with the policy of the administration for the maintenance of an American merchant marine.

Mrs. Hughes, although relinquishing his duties June 12, has been asked by the shipping board in a resolution unanimously adopted to act as its special representative in charge of the giant liner Leviathan, both on its trial trip to New York and Southampton, and on its return to New York.

The request was made by the board because the Leviathan was recommended under Mr. Lasker's regime.

Poincare Sees Victory for France Near at Hand

VICHY, France, May 10 (AP)—Premier Raymond Poincare, in an address at the congress of the National Union of War Veterans. He declared that the latest German proposition falls far short of the German government's purpose of disavowing the Versailles treaty and willful failure to fulfill her agreements. He added, however, that the combat now being waged by France to obtain her due courage, patience and confidence were needed only a little while longer.

HITCH APPEARS IN PARLEY'S FREE CAPTIVES

Suchow Bandits Grow Skeptical and Fear Trap when Peking Government Promptly Accepts Demands

PEKING, May 11 (AP)—Ray Anderson, American agent of long experience in Chinese political affairs and a persona confidant of several important suchow, or military leaders, has announced that he will personally try to bring the suchow bandits in their present stronghold at Paotaku for the purpose of negotiating an early release of the captives now being held by them for ransom.

PEKING, May 10 (AP)—A hitch has developed in negotiations for the release of the captives held by the suchow bandits in Shantung, according to a report carried today by the Asiatic News Agency, a Chinese news service.

The news agency declares that the government's hasty acceptance of the bandits' preliminary demand that the pursuing troops be called off has made the brigands skeptical of official sincerity and has led them to fear that Peking is laying a trap for them.

Wu Yu-lin, minister of communications, the agency says, has telegraphed General Tien Chuang, governor of Shantung, informing him of the indignation of the foreign legations at the Suchow outrage and of the demands made by the foreign diplomats on the Peking government.

Wu added that the Chinese government would be held responsible for the safety of the kidnapped foreigners and promised the Shantung governor that any financial assistance necessary in the event the bandits required a heavy ransom.

WOMAN REFUSES LIBERTY

PEKING, May 10 (AP)—The best available information indicates that only one woman is held by the Suchow bandits, Sonora Verea, wife of Manuel A. Verea, of Guadalajara, Mexico, who is held a captive. She refused to leave her husband although offered her liberty, according to reports received here.

Through traffic has been established again between here and Shantung on temporary tracks laid around the wrecked right of way torn up by the bandits, who raided the Shang Hai-Fong express last Sunday morning. However, no trains are run through the bandit infested region at night.

ASSURES AID TO MID-TAUGH PLAN FOR PUMP UNIT

Federal Commission Secretary Says He Will Recommend Allowance of Permit for Project's Construction

Aid toward the success of the Murtaugh irrigation district is represented tonight by the federal commission. S. L. Hodgkin, from Commissioner of Reclamation Sweden in which was enclosed a letter from the executive secretary of the district and the Murtaugh Twin Falls reclamation project.

The letter from the executive secretary stated that he would present to the commission the application of the district for a permit to establish a hydro-electric power plant at Augur falls for the pumping of irrigation water for the district. He stated that he would recommend to the commission that the permit be granted.

The Murtaugh district embraces more than 37,000 acres in the vicinity of Murtaugh, Idaho, and was originally a Twin Falls reclamation project. It was released by the land and water company and taken up by settlers who took up the project and worked toward its completion. Plans were formulated by H. T. Henderson of Murtaugh, engineer for the district.

The district has been voted by the Murtaugh district and it is understood that Denver interests have been waiting to take up the bonds, their action being dependent largely upon the outcome of the federal permit application. The action of the federal commission on the permit to establish the power plant.

The bill would prevent future street parades and ceremonies of such organizations as the Ku Klux Klan. Exceptions are made in the case of carnivals or masks worn in compliance with any health order.

SHORT LINE READY TO BEGIN WORK PROMPTLY

Union Pacific Executive, Reporting Approval by Board of Directors of Plan for Constructing Rogerson-Wells line, Reviews Conditions to be Met by Twin Falls Citizens

PLATT EXPRESSES GRATIFICATION OVER PROSPECT FOR DEVELOPMENT

HERE IS UNION PACIFIC'S CONFIRMATION OF AGREEMENT TO CONSTRUCT SOUTH LINE Salt Lake, May 10, 1923.

Arthur L. Swim, Twin Falls, Idaho. Am authorized to advise the Twin Falls committee of which you are chairman that the Oregon Short Line hereby confirms its oral understanding with your committee as follows:

"If the committee will acquire all of the capital stock of the Idaho Central Railroad company and thereupon accomplish the cancellation of the existing certificate of public convenience and necessity issued to that company by the interstate commerce commission and in addition will provide free of cost to the Oregon Short Line the necessary right-of-way, including grounds for terminals at Wells, Nevada, the said Oregon Short Line will coincidentally apply to the interstate-commerce commission for a certificate of public convenience and necessity to be issued and when granted will promptly begin the construction of the line from Rogerson to Wells, prosecuting the same with proper and reasonable diligence to completion."

(Signed) C. R. GRAY. I am gratified, as I feel sure the people of your section will be, with the direct prospects of fuller developments for the Twin Falls and Southern Idaho district.

This outlet by transportation for the greater productivity of the entire section by reason of your intention to conserve the waters of Snake River will tend to justify to some degree the expenditure for railroad construction. (Signed) H. V. PLATT.

The Rogerson to Wells road will be built by the Oregon Short Line under certain conditions which would not be difficult to comply with, according to a message received in Twin Falls Thursday evening from Howard V. Platt, vice-president and general manager of the road, and embodying a definite assurance of the fact by C. R. Gray, president of the Union Pacific.

The message followed confirmation of the plan by the board of directors of the Union Pacific, meeting in New York, and was forwarded by a telephone message from Mr. Platt some hours in advance to the effect that the matter would be brought before the directors and that a message embodying the plan would be expected at any time from President Gray.

The securing of the certificate of convenience and necessity previously issued to the Idaho Central Railroad by the interstate-commerce commission is here on route to San Francisco.

RAILROAD MEN CELEBRATE

Victory in San Francisco's Observance of Central Pacific Building

SAN FRANCISCO, May 10 (AP)—Victory Southern Pacific employees joined in a celebration here today to commemorate the sixtieth anniversary of the beginning of the construction of the Central Pacific railroad. They also celebrated the fifty-fourth anniversary of the driving of the golden spike at Promontory Point, Utah, which completed the first transcontinental railroad.

Those who attended came from Nevada, Oregon, Utah, Arizona, New Mexico, California and from points as far east as Louisiana. Eleven employees who attended the celebration boasted of having been in the company's employ for at least half a century.

The bill would prevent future street parades and ceremonies of such organizations as the Ku Klux Klan. Exceptions are made in the case of carnivals or masks worn in compliance with any health order. (Continued on Page Four.)

NEW CALLS FOR SOLIDARITY IN PARTY'S RANKS

Postmaster General, Representing President at Ohio Celebration, Sounds Rallying Cry Against Minority Rule

MANFIELD, O., May 10 (AP)—Admission that there is a division in republican party ranks was made by Postmaster General Harry E. New, in an address at a round table which he pleaded for party solidarity against "bloes, individuals with pet theories and fragmentary factions, and asserted that a result of accomplishing the Harding administration, 'the unexpected may happen in the form of an early reduction of federal taxation.'"

"I freely admit the division in the republican ranks, but the state of our democratic adversaries is no better," Mr. New said. "The trouble from which both parties suffer today is lack of cohesion."

The postmaster general was the principal speaker at the centennial celebration of the birth of John C. Breckinridge, the most noted citizen, and represented President Harding at the affair.

Describing the administration's part in bringing better times Mr. New said: "I happen to know that it is the belief that the administration—certainly it is the hope—that all of these prosperous conditions will permit the unexpected to happen in the form of an early reduction of federal taxation. If our country is to continue to prosper like the present rate, and if better business brings to the treasury a surplus which it is at least temporarily difficult to get rid of, the success of the democratic party Mr. New said."

Mr. Justice Clark, speaking as the principal speaker for the Wilson democracy, says that the league of nations is to be the issue of the next campaign, while Senator Hitchcock, who was the leader of the Wilson administration, says that the center of the stage, says it is not to be an issue. Mr. William Jennings Bryan says the party must be dry or wet, but that it is not to be an issue. Mr. Bryan says the party must be dry or wet, but that it is not to be an issue. Mr. Bryan says the party must be dry or wet, but that it is not to be an issue.

What Do You Want? "What do you want?" was the way the postmaster general started his address.

"There are some things that an administration cannot do. It cannot guarantee that you shall be married happily. It cannot guarantee that the children shall not have the crop or even make the most respected citizens immune from physical ills."

Predicts Good Year for Crops in Idaho

Union Pacific Representative Points Out Marketing Prospects for Year 1923

"Agricultural prospects throughout the state are 50 per cent better than this year than they were last year at this time," said C. C. Gignoux of Salt Lake, assistant supervisor of agriculture for the Union Pacific system.

Mr. Gignoux, who arrived here on Wednesday, expects to remain for a day or two on business connected with the trip through California for the purpose of "sounding out" that district as representing an outlet for Idaho products. His trip was not made, he stated, in connection with the announcement concerning the completion of the Rogerson-Wells road.

"I do not know of a single Idaho farm product or crop that will not be in demand this year," said Mr. Gignoux. "My recent trip to California proved to me that Idaho products are going to find a ready market there. The trouble in Idaho had the lettuce, sprouts, cattle and dairy products of all kinds, poultry and eggs. It is a fact that the Idaho potato outlets all other crops in California and the Pacific markets today. I recently talked to James A. McNaughton, vice-president and general manager of the Los Angeles stockyards. Mr. McNaughton has the trouble to attend the lettuce crop at the completion of the Filmore branch and he was very much interested in Idaho and the prospects of getting more livestock from this state."

Mr. Gignoux expects to confer with E. E. Brossard, county farm agent, on Thursday in an effort to get the prospect for obtaining seed potatoes from this district for planting in California.

# GIRL FRIEND OF MOUNT SAYS HE TALKED SUICIDE

### Doris Fuchs Tells Investigators Missing Student Expressed Purpose to Disappear on the Night of Hazing

CHICAGO, May 10 (AP)—Leighton Mount, Northwestern university student, who disappeared following a class rush in September, had expressed his intention of disappearing the night of the rush, Miss Doris Fuchs, a friend of the youth, today testified before the grand jury in Chicago. She said she had seen the student several days ago of a skeleton believed by the authorities to be Mount's under a pier at Evanston.

Miss Fuchs, who has said she received a letter from Mount the same day he disappeared, asserted that she at first believed he had made good his threat to disappear, but since the finding of the skeleton she told the jury she believed he had been a victim of class hazing and that his body was hidden.

### Restive Under Restraint

"Leighton confided to me about his family affairs. He said he was not allowed to go out anywhere and he came to me for mental aid and comfort. The night before the class rush, while we were out riding, he told me that I would not see him again. He said that he would disappear during the class rush, but I paid no attention to him because he had said those things before. The night of the rush it began to worry me, so I went and told his mother."

### Advised Use of Detectives

President Scott said he told Mrs. Mount at that time that he did not think her son had committed suicide and said he promised to start a search for the boy and that the search was carried out without result. He said he advised Mr. Mount, the boy's father, to employ detectives and to watch Miss Fuchs as he believed the youth would try to get into communication with her if he had run away.

### TRIAL BRINGS NO VERDICT

NEW YORK, May 10 (AP)—After deliberating for nearly 11 hours the jury in the case of Edward M. Fuller, stock broker, charged with bucketing orders, was discharged at 1 o'clock this morning when its foreman announced a verdict had not been reached. This was the third trial of the case.

# MASKED INVESTIGATORS ACCUSED OF KIDNAPING

### Friend Says Hooded Men Threatened Led to Obtain Confession of Theft of Klan's Gift to Mother

ASBURY PARK, N. J., May 10 (AP)—Three white masked men, investigating the theft of \$50 given to Mrs. Ella Titus of West Belmar, by the Belmar branch of the Ku Klux Klan, entered the home of William Radman, a contractor of West Belmar last night, and with drawn pistols kidnaped Mrs. Titus, 18-year-old son, George, it was asserted by County Detective Charles O. Daventon.

Radman had befriended the boy since his mother and father separated several months ago, the county detective said. Radman told the authorities the masked men placed Titus in an automobile and carried him to Shunk river, where they threatened they would compel him to admit the theft of the money. The men threatened to hang the boy with a rope which was dangling from a tree, the county detective said, if he did not tell the truth. The boy said the men also menaced him with a large knife.

# IDAHO FAVORED, DAVIS DECLARES

### Assistant Secretary of Interior Tells Buhl Rotarians of General Demand for Water

BUHL, Idaho, May 10—Assistant Secretary of the Interior D. W. Davis, former governor of Idaho, was a guest of the Rotary club at luncheon today. Previously he had spoken to a crowd at the Masonic hall. The secretary is on a tour of inspection of government projects, which brought him to this section. He said he had not intended to make any talks but was glad to meet the people here again and to give them any information in his possession.

"I am not here to tell you what to do about the American Falls project," said the governor, referring to the forthcoming election. "That is a matter for you to settle, but if anything I may say will be instructive to you I shall feel well repaid." The secretary said the west was fortunate, had the whole country as well, in having a man of the constructive and development ability as Secretary Work at the head of the interior department. "He is a western man," Secretary Davis said, "in full sympathy with development. President Harding is also, and it is believed the president in his forthcoming address at Portland will devote his remarks to reclamation."

### Pay High for Water

Secretary Davis told of the reclamation activities elsewhere in the west, where people were clamoring for storage reservoirs. In one place, he said, they were willing to pay \$60 an acre foot for water. The Strawberry project costs the people \$40 an acre

### DANGER STILL IN TROUBLE

NYACK, N. Y., May 10, (AP)—Evan Barrows, Fontaine, Oriental dancer, and her mother, Mrs. Florence Fontaine, were reported to have been indicted on a charge of perjury by the Rockland county grand jury today as the result of her recent unsuccessful \$1,000,000, breach of promise suit against Cornelius Vanderbilt Whitney. The grand jury which was in session all day will not report until Monday. Both women had previously been indicted by the Rockland county grand jury on perjury charges. The case recently was thrown out of court on a technicality. Miss Fontaine, it was said, is in Chicago.

## Swiss Kills Vorovsky Outright and Severely Wounds Two Russian Companions While at Lunch in Hotel

LAUSANNE, May 10 (AP)—M. Vorovsky, an unidentifiable guest from soviet Russia at the Lausanne conference, lies dead tonight, slain by a Swiss, formerly an officer in the Russian service, and two of his Russian companions were wounded, each with two bullets in his body.

One of the wounded is Herman Abraham, a Bolshevik secretary, who was the Russian press agent at both the first and second Lausanne conferences, the other is J. Didilkowski, Vorovsky's young business secretary.

The assassin, whose name is Maurice Alexander Conrad, and whose home was in the Canton of Gironde, was seized immediately after he shot the three Russians while they were dining at the Hotel Cecil, headquarters of the Russian delegation.

Most of the guests in the dining room had finished dinner when the assassin drew his revolver and, advancing quickly, fired on the Russians. The first bullet struck Vorovsky behind the ear; he fell and was instantly killed. The second bullet struck Herman Abraham in the chest; he was wounded but not seriously. The third bullet struck Maurice Alexander Conrad in the arm, but before he could use it a waiter seized his arm, apparently fearing for the safety of the guests now crowding the doorway.

Alrains, who is always armed, drew his weapon after being shot twice, but before he could use it a waiter seized his arm, apparently fearing for the safety of the guests now crowding the doorway.

Conrad told the police tonight that his uncle and brother had been tortured and murdered by the bolsheviks during the terror in Russia. His act in shooting the Russians, he declared, was one of vengeance.

### CONVICT CAMP PROBE ENDS

TALLAHASSEE, Fla., May 10 (AP)—The joint legislative committee which for the last several weeks has developed a mass of testimony relating to brutalities in convict camps in this state, concluded its work today. A formal statement by Senator John P. Stokes, chairman of the committee, to the effect that the committee had gone the limit of its authority and could serve no further useful purpose, was issued after an executive meeting into today.

### Whooping Cough

This is a very dangerous disease, particularly to children under five years of age, but when no paragonic, codina or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.—adv.

## Planning for tomorrow

IN addition to meeting your needs today, a part of the unseen service of your electric light and power company consists of planning for your needs of tomorrow.

Service must be ready whenever a new home, a new hotel, a new school, a new theatre, a new store, a new church or a new factory is built. And that service, once installed, must be at your command every second during twenty-four hours, every day, every year. No time off—no vacations.

Your company must anticipate the growth of your community by the continuous investment of new capital in generators and distribution systems.

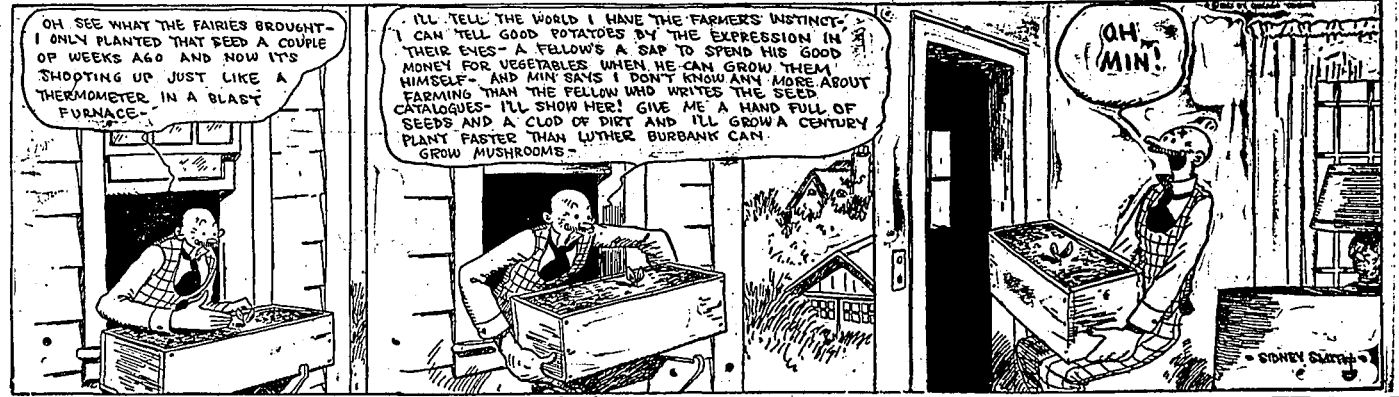

That capital—\$750,000,000 a year for the country as a whole—can be attracted to live communities that wish to grow and will to grow.

One million, seven hundred and fifty thousand Americans have invested their money to furnish electrical service to the country. Other thousands will join them and the plans of today will become the realities of tomorrow.

DAVIS WILL ADVISE BIG RESERVOIR

(Continued From Page One)

considered at this time, in my opinion without some more or less pronounced development showing future prospects. Would Clinch it? "I feel confident, therefore, that the American Falls project has had an important influence upon the minds of railroad executives in connection with the proposed reservoir south of Twin Falls at this time, but my opinion is that success of the American Falls reservoir project would elicit a railroad south for your people. "What the result might be if the election failed on Saturday I could not say, of course, but it might be logically assumed by anyone, as the reservoir project had an influence on the railroad matter from the beginning, and as negotiations and agreements have been based on the extent of the reservoir project, that the reservoir would be built, through favorable action at the polls, that defeat of the reservoir project might cause a delay, pending further investigation, of a more or less serious nature, if not abandonment. "Understand, of course, that I am not speaking with any special information as the basis for my statement, but merely reaching, or trying to reach, a logical conclusion the same as if it were a business problem of my own."

Heavy Crop Losses Secretary Davis said that heavy crop losses had centered all over the irrigated west because of the failure to provide storage for waste water in the rivers. "In the Snake river valley alone, in 1922 he added, "the crop losses, due to water shortage were enough to have built several American Falls reservoirs. "At various points the people are clamoring for storage reservoirs and have their money ready to put into the pot with the government any time it is found practical to proceed. "In one case the cost will be \$60 an acre foot. Think of that, as against \$6 an acre foot for storage in the American Falls reservoir. The Strawberry reservoir project, in fact, has more acre foot and the people are paying it gladly and find it a fine investment. "Other states in the west are jealous of Idaho because of the amount of money expended on reclamation. It is unquestioned that they would not shed any tears if the American Falls project should be abandoned, so they could get the government appropriation that will go to it if the election carries. "It must be remembered, however, that in some cases these states are short on water, although long in land. Idaho has both. The only question is whether the people want the water stored instead of running waste into the Pacific ocean."

Outlook for Crops Secretary Davis voiced an optimistic note as to general conditions, particularly as to agriculture. "The people have entered upon an era of development," he continued, "and are grasping every opportunity to improve the present and assure the future. "It is my belief there will be very fair markets for our produce this fall. The new tariff will bring a great deal through sympathy with the importation of cheap foreign competition. The big industrial activity all over the nation increases the purchasing power of the consumer. It must be remembered here we need the fullest possible water conservation, such as is proposed on Snake river at American Falls. We need smaller farm units and diversified farming. We need more compressed crops, such as dairying, etc., provides. The small acreage farmer is the one who is making the money here and who is also need standardization of our produce." Value of Western Man Secretary Davis said the west was particularly fortunate in having a western man, Dr. Work, as secretary of the interior. "A man who is in thorough sympathy with western development and needs and who is constructive, a developer."

type—a developer," the secretary added. "I feel confident that in his forthcoming speech at Portland he will devote his time to reclamation. "The president is working hard for greater efficiency and economy in government, and in line with his policy is supporting a bill in congress—a bill having no political significance whatsoever—to reallocate the governmental departments and bureaus so as to avoid duplication of effort and expense and put them all on a substantial business basis. The present system is absurdly top-heavy and a bar to efficiency. I hope you people will urge Idaho's representatives in congress to support that bill."

PRESIDENT GRAY

(Continued From Page One.)

reference to the American Falls reservoir project, on which a vote will be taken in this district next Saturday. This confirms the statements unofficially made of the important bearing of the reservoir project on the proposed railroad construction. In an interview here some time ago Mr. Platt stated railroad construction would depend to a large extent upon the future possibilities of the territory to be served and referred to the American Falls project as a strong factor in development in this territory. "Eliminates Efforts of Decade The successful culmination of the negotiations marks the end of an era to secure the building of a railroad outlet for Twin Falls to the coast which began more than ten years ago. To George D. Alken of Twin Falls and the late Robert M. McCollum belongs the credit for the first definite effort along these lines. In the fall of 1912 these two made a trip to Oakland, Cal., where a week was spent in an effort to interest California capital in the building of the line. There was no lack of interest, during the visit and for a period of years following, but at no time was the encouragement of a nature sufficiently definite to warrant full confidence in the outcome. A year or two later, however, a company was organized in Twin Falls with the object of constructing the line. This was known as the Twin Falls, Oakland and San Francisco Railroad, and was headed by Dr. T. O. Boyd, president, George D. Alken, vice-president; Ed J. Roberts, secretary, the balance of the offices being filled with other well known Twin Falls men. "Western Pacific Interested President Bush of the Western Pacific visited Twin Falls a year or two later and again there was a definite wave of effort to put over the project. From that time until up to a year or so ago the proposed line has lain dormant. As a part of the general railroad

SPORTS

BRUINS FACE HARD ROW

Pocentello's high school baseball team will arrive in town today on the noon train for a three-game series with the Twin Falls high school baseball terrors, starting this afternoon at 8:30. On Saturday morning starting at 10 o'clock the second game will be played, with the final clash of the series being played Saturday afternoon, beginning at 2:30. That Pocentello will give the locals a real brace of games, is the opinion of Coach Evans, who has been working hard during the week getting his men into shape. The accident to Walter Selck, second baseman of the team, at the senior picnic didn't brighten the hopes of the local mentor, as he will be forced to use a pitcher to fill in at the keystone spot. "Overnight entries point to Garrity and Mussell for the blue and white with Ericson, Cox the main points for the invaders. Pocentello has practically the same program in this section, some six or seven years ago a project to build a railroad from Twin Falls into Castlerock was launched here with M. J. Sweeley of Twin Falls as the moving spirit. This road was intended to connect with a similar project then under way on the North Side in the vicinity of Hagerman. The plan as at that time outlined was regarded and is still regarded as feasible but a number of local movements tended to interfere with its success and it was finally dropped.

NEW CALLS

(Continued From Page One.)

Harding administration were listed by the speaker as follows. "Helping to bring back prosperity in business with a consistent reduction in unemployment," bringing "prosperity back to the railroads," doing away with the "shadow of war on the Pacific," and establishment of amity between the United States and Europe, reduction of the public debt, and interest and principal payments on war loans to other countries. "What do you want?" he concluded. "If you will never fail to answer my own question, I would say that what we want is more faith and less criticism—faith in this country of ours; faith in the party to which we belong."

Bill Bailey and Epler were the winners last night in the double elimination three-cushion tournament at McAnuley's billiard parlor. Bailey dismantling "Sad" Sam Epler, 2 to 13, and Epler won his first game of the tournament from "Keen Eye" Larson, 25 to 17. Bailey went out in 46 innings, which is the best average so far, and should have clipped off several more innings, as it took him 14 innings to make his last point. Larson, the banking billiardist, went 18 innings without a tick on the ivories and in the nineteenth counted 2, the Rocky mountain eagle, chilled from the night air, showing the exhilaration of a 150-mile auto journey from Boise, leading to a shut-out of 8 to 2, thus far in the game. In the 48 innings the marvel of the average took a spurt, bringing his average within two of the erstwhile champion, but he was unable to clip the wings of the famous three-cushion eagle and the final score stood 25 to 27 for the wide-spread bird, amidst the greatest upheaval of applause yet noted in the tournament. This evening there will be two more games, the first between Epler and Logan, and the second between Larson and Toolson. The last game will eliminate another of the contestants, as both players have lost one to date.

FILER BEATS HAGERMAN

FILER. May 10.—(Special to The News)—Filer's baseball team ended its season here this afternoon with a victory over the Hagerman team, 8 to 2. In one of the best games of the season. For six innings it was a pitchers' battle between Jack Schaeffer of Filer and Peterson of Hagerman, the score at the end of this frame being 2 to 0 in favor of the home team. Up to this time but 19 men had faced the Filer hurler. Aside from his wonderful exhibition of pitching, Schaeffer turned in a clean score in the hitting department, making three clean blows out of three trips to the plate. Ralph Love was another who had his batting eye with him, making four out of four, while Lapp registered two out of three.

SIX TEAM MANAGERS TO CONFER ON SCHEDULES

A meeting will be held this evening at 8 o'clock at the Jerguson hotel for the purpose of getting together on a baseball schedule for the coming season with the Jerome, Shoshone, Gooding, Hansen, Kimberly and Twin Falls teams as a league for Sunday and holiday baseball. The managers of the six teams will be present to discuss plans for a schedule and according to Manager Bills of the Jerome team, the north side clubs are ready to start on May 20. Whether the local grounds can be put into condition as early as the 20th remains to be seen, but one thing seems certain, and that is that the league should be formed and play started as soon as possible, as an early start will mean an early finish and then the different teams will be able to play a few extra games with outside teams before the cold weather sets in. TWIN FALLS WEEKLY NEWS

Established 1904
Twin Falls News Publishing Company, Ltd., Publishers
Issued on Thursday of every week
Entered as second class matter December 12, 1904 at the Post Office at Twin Falls, Idaho, under the act of Congress of March 3, 1879.

OUR OPPORTUNITY

If the people of Twin Falls will do certain things, none of which is difficult of accomplishment, the Oregon Short Line will build the much talked of railroad from Rogerson to Wells, Nevada. So much is made plain in the message from President O. R. Gray of the Union Pacific, and Howard V. Platt, vice-president and general manager of the Oregon Short Line.

The news is the best received in Twin Falls in a decade and with the successful conclusion of the American Falls Dam election on Saturday, this whole section may be said to have acquired a new lease of life with possibilities in the way of development which can hardly be over-estimated.

THE FAITHLESS TURK

The way the Turks have been treating the French lately is rather amusing to the casual onlooker from this side of the water. France, it will be remembered, started all the trouble by helping the Turks to get on their feet again after the Allies had put them thoroughly out of business. The Turkish defeat was richly deserved. It looked like the opportunity, desired for centuries, for European civilization to get rid of the Turkish peril. But France, for her own purposes, supplied the Turks with arms and money, got their riddled armies into fighting trim again and backed them against Greece. France hoped to get profit out of it through business concessions, and a firmer grip of her own on Asia Minor, and wanted to strengthen Turkey against the British.

Everybody knows what happened. The Turks, under Kemal Pasha, came back so vigorously that, having annihilated the Greeks, they decided they had not been licked by the Allies in the World War, after all. So they demanded Constantinople and a lot of other things, and have been demanding ever since—and getting most of what they demand.

LEGAL ADVERTISEMENTS

ALLAS SUMMONS. In the District Court of the Eleventh Judicial District, State of Idaho, in and for the County of Twin Falls.

No. 6435. ALLAS SUMMONS. In the District Court of the Eleventh Judicial District of the State of Idaho, in and for Twin Falls County.

E. Jay Hanford, Plaintiff, vs. Lenore Hanford, Defendant.

The State of Idaho sends greetings to the above named defendant, Lenore Hanford. You are hereby notified that a complaint has been filed against you in the District Court of the Eleventh Judicial District of the State of Idaho, in and for Twin Falls County, by the above named plaintiff, and you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within said judicial district, and within forty days, if served elsewhere; and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

This notice is brought to obtain a decree of divorce by the plaintiff, against the defendant, upon the ground that on or about the month of May, 1920, the defendant, the said Lenore Hanford, voluntarily and of her own free will and without cause desert and abandon the plaintiff, and she has ever since said date and with intent to desert and abandon plaintiff, and to live separate and apart from him, without any sufficient cause or any reason and against his will and without his consent.

Witness my hand and the seal of said District Court this 25th day of April, 1923. (SEAL) C. C. SIGGINS, Clerk.

BELIEVE BUDGET PROBLEM SOLVED

Accountant Claims City Has \$25,000 Surplus in Delinquent Tax Interest

Interest and penalties due the city of Twin Falls on back taxes for the past five years have created a surplus of approximately \$25,000, which can be used as an additional item of financial resource in completing this year's budget program, according to information given city officials by J. D. Radcliff, accountant.

This turn in the problem of financing of the city for this year places the proposition in a more favorable light, and, if the claim is proven correct, it will mean that the 1923 appropriations can be made without the necessity of an additional tax levy, according to Mayor Hodgkin. The matter will be taken up at the meeting of the commission on Monday night.

Through a duplication, it has been discovered the amount of warrants issued by the last administration which were termed illegal are reduced to something over \$5,000 and the surplus this year from taxes and miscellaneous receipts the city's budget, it is said, can be arranged at the same figure as that of last year.

Society

Edited by Mrs. E. B. Williams, Telephone 596.

Mrs. Hugh Amshary and Miss Mildred Amshary entertained at the home of the latter on Seventh avenue north Thursday evening in honor of Miss Edna Stover. A social hour was enjoyed at the close of the program and refreshments were served by Mrs. Benton's division.

Mrs. F. W. Dumka entertained at a delightful bridge party Thursday afternoon complimentary to her sisters, Misses Nora and Flora Both of Los Angeles, Cal. A profusion of apple blossoms decorated the room. The prize for high score was won by Mrs. I. H. Taylor. Mrs. Lem Chapin received the general prize, and the consolation was awarded to Mrs. Joseph Keefe. At the conclusion of the game a delicious two course luncheon was served. Those invited were Mesdames A. Moore, Squires, J. A. Keefe, L. T. Moore, Dorothy McMill, Mrs. Spalberg, Ernest White, H. F. Sheehan, Howard Sabin, J. B. White, I. H. Masters, F. F.
