

INQUIRY BOARD SEEKS MOTIVES IN BANDIT RAID

Military Commission Headed by American Studies Possibility of Political Plot in Shantung Outrage

TIENTSIN, June 8—Whether the bandit attack on the Shantung Hai-Peking express May 6, in which a number of foreigners were kidnaped, was the result of a political plot is the point on which the international commission of inquiry, headed by Brigadier General W. D. Connor, U. S. A., now is concerned.

The commission is seeking to determine first whether the train crew had previous knowledge of the bandits' plans to attack the express and secondly whether the train made any effort to resist the bandits in the Chinese army still is going to attempt to speed it up for fear of arousing the suspicions of the outlaws and creating a breach.

Bandits Gain Assurance. Bandits now are familiar figures on the streets of Tientsin. As first when the parties were opened, they entered the city only in great uneasiness. Now, however, their manner has changed. They face cameras and moving picture machines with a bravado, and even throw their hats and spray their fans in truly approved picture style.

It is understood that at the request of the brigadier chief, the international commission's airplane, which has been reconnoitering the outlaw stronghold on Poutauk mountain, has ceased its flights in that district.

Missionary Re-Admitted. Father Potts, German medical missionary, who a few days ago was ordered out of the outlaw camp under suspicion of spying there, has been permitted to return following his explanation in need of his care at the express instructions of the pope.

GERMAN AREA IN TURMOIL

Outbreak of Outlaw Strikes Among Farm Laborers in Other Workmen Bring Back of Terror

BERLIN, June 7. (AP)—Terrorism prevails in the Ruhr. In the north and northeast of Liegnitz, where a number of outlaw strikes have broken out among the farm laborers and other workmen, according to newspaper dispatches from Breslau. The Lokal Anzeiger's correspondent reports that in the Steinau district bands of from 30 to 400 men each are going about, and that they are to chase from the field those laborers who are willing to work. Disturbances also are reported at Jauer. The socialist farm laborers association plans to call a general strike according to the correspondent.

GERMAN TELLS AIM OF OFFER

Foreign Minister Says Nation Choses Risk of Higher Payment to Insincerity

BERLIN, June 7. (AP)—Germany concluded a hazy way was preferred to insincerity when she dispatched to the entente capitals the memorandum published today and therefore she refrained from fixing a total for her reparation obligations, although she proposed securities for them, according to a statement made by Baron von Rosenberg, minister of foreign affairs, at a conference with newspaper men tonight.

France Sees Nothing in New Reparations Offer to Justify Negotiations

Plea of Inability to Pay, Falls on Deaf Ears; Latest German Note Is Declared Unsatisfactory for Four Main Reasons; Lack of Definite Total and Ignoring of Resistance Factors

BRUSSELS, June 7. (AP)—The German reparations note was delivered to the Belgian government shortly after 5 o'clock this afternoon. Unofficial information tonight was to the effect that its terms were unacceptable.

PARIS, June 7. (AP)—The German reparations offer, contained in the note delivered to the entente allies today, remains entirely unacceptable to France, it was declared in government circles tonight. It makes no appreciable advance over the previous offer and France cannot even discuss it with Germany, for as was decided at Brussels yesterday, the passive resistance in the Ruhr must be abandoned before any negotiations can begin.

The note was characterized as unsatisfactory for four main reasons. First, because it makes no mention of abandoning the passive resistance which is the first of the Franco-Belgian conditions. Second, Germany offers no definite sum as the total reparations. Third, in suggesting an impartial international commission to fix the reparations total, Germany ignores and seeks to violate the Versailles treaty, which created the reparations commission for exactly that purpose. The French see no reason why the reparations commission should be supplanted. Fourth, the suggestions for guaranties might be open to discussion if Germany proposed their administration by the allies, but if the German administrator the guarantee, the French expect no result.

France Still Unconvinced. The French are still unconvinced, they say, when Germany pleads inability to pay. They declare they have seen her living sumptuously and that they know she can meet her obligations. Premier Poincare had a lengthy conversation with President Millerand this afternoon and gave him a report of his meeting with the Belgian statesmen at Brussels. The question of how the German note is to be answered, it is said in official circles, depends on the other allies. France would be glad to join in a collective answer, but the terms must agree with the French views.

The Germans were careful not to ignore the reparations commission, and delivered a copy of the note to the commission today as they did when their earlier proposals were made early last month.

GERMANY SEEKS DIRECT PARLEY

Declaration For Oral Discussion of Reparations Claims Attention in Washington

WASHINGTON, June 7. (AP)—An official text of the new German proposal to the allies on reparations today was before the state department officials, transmitted by the German ambassador, Dr. Otto Wiedefeld, as a matter of information. While official comment was withheld, there can be no doubt that the clause in the German note declaring that a method of payment could be determined only by "direct consultations with those who are to receive payments," attracted wide attention in official circles.

The note was handed to the state department by Dr. Wiedefeld in the same way as it was presented by German diplomats at all foreign offices, and its receipt does not call for acknowledgment of diplomatic correspondence. In view of the position taken by the American government before the occupation of the Ruhr, the German declaration for a direct, oral discussion of methods of reparations payments could not fail to attract attention here.

Official Reserve Comment. The American suggestion to the French government prior to the occupation of the Ruhr was that a conference of the interested nations be called to seek a business like solution of the problem. The German suggestion contained in the current reparations proposal from Berlin is in line with the theory that impelled the American government to make its formal suggestion for such a conference.

No official would discuss details of the German proposal and the official text received at the state department does not make public there, although copies were made available to the press at the German embassy. It was obvious, however, that the flat declaration of German authorities that they saw no way of arriving at a permanent adjustment of the reparations tangle except through the medium of direct

SEVERE STORM TRAILS TWISTER IN WASHINGTON

First Tornado in State's Annals Hits District Southwest of Davenport; Heavy Rain Follows Wind

DAVENPORT, Wash., June 7. (AP)—What is said to have been the first tornado experience in this state went through the district southwest of Davenport, today. Destruction of a barn about four miles from Davenport was the only damage reported. Heavy rain followed in the wake of the wind. A cloudburst was reported late today from Inlakee lake, north of Davenport. A severe electrical storm accompanied it.

NEBRASKA LANDS FLOODED

Rising Waters Drive Farmers on Flats Between Spaulding and Blaine From Homes; Crops Suffer Damage. OMAHA, Neb., June 7. (AP)—Low lands between Spaulding and Blaine, Neb., are flooded as the result of heavy rains which caused a creek to overflow, and many farmers in that section have been forced to leave their homes, according to a special dispatch received from Spaulding today. There was no loss of life. The crops have suffered considerable damage. At Madison, Neb., it was reported damage from heavy rain, wind and hail storms in that vicinity, but gave no estimate of the loss. A tornado car blown yesterday followed by heavy rain wrecked small farm buildings in that neighborhood.

LOCUST PLAGUE ARRIVES

New York and New Jersey Fruit Growers Report Visitation of Seventeen Year Pest. NEW YORK, June 7. (AP)—A plague of 17-year locusts has arrived, according to reports from New York and New Jersey fruit growers received today by Dr. George H. Engelhard of the department of natural science of the Brooklyn museum. Unmolested by the pests since 1906, fruit growers, said Dr. Engelhard, now are making preparations to save their crops from the visitation. No great permanent damage will be done, according to Dr. Engelhard, but this year's supply of fruit probably will be short.

Twelve Year Old Illinois Girl Becomes Champion Dish-washer of Three Townships

CHICAGO, June 7. (AP)—Twelve-year-old Gladys Rubin, of Bellwood, who "never did the dishes at home," today became the champion dishwasher of three townships, and won a \$10 gold piece when in competition with 27 other school girls, she washed, wiped and stacked two plates, two saucers, two knives, two forks and four spoons in two and one-eighth minutes. Another girl washed the same number of articles in one and seven-eighths minutes, but one of her plates was fouled by the judges to be damp. Gladys explained that she never did the dishes at home, but that her teacher picked her because I'm so fast at addition."

DAIRYMAN SEEK EQUABLE RATES

Industry in Mountain and Pacific States at Stake, Commission's Agent Is Told

SALT LAKE CITY, June 7. (AP)—The future of the dairy industry in the mountain and Pacific states depends to a great extent on the adjustment of alleged discriminatory railway express rates on cream, it was declared before Attorney Examiner E. L. Gaudes of the interstate commerce commission during the hearing yesterday on the petition of the Mutual Creamery company for reduced rates. The company alleges that the schedules average about 17 per cent higher than those in Colorado, Kansas, Nebraska, North and South Dakota, Texas and Iowa, and that there are discounts in the charges made because of points in the territory.

Would Benefit Producers

W. F. Jenison, president of the Mutual Creamery company, was the first witness. He testified that his company operates fifteen creameries in Utah, Idaho, Wyoming, Montana, Colorado, Washington, Oregon and Nevada. The producers, he said, would benefit directly from the adjustment of rates, the cream being paid for on delivery to the creameries. He explained that the charges expected to benefit in an indirect way by obtaining a larger volume of business, by expanding its territory and by being able to reduce manufacturing expenses.

H. W. Prickett, manager of the traffic service bureau of Utah, who is representing the Mutual Creamery, introduced several exhibits in support of his case showing that there is no justification for higher rates in mountain and Pacific territory than in the prairie states.

Compares Rates

The intrastate and interstate rates are generally higher than they are elsewhere, but the rates in Idaho and Utah are perhaps more discriminatory than others in effect in this territory, he contended. Operating several western railroads compared with those of the prairie states do not justify the difference in rates, the traffic bureau manager declared. Oliver O. Hays, attorney of Boise, Idaho, appeared in behalf of the Idaho Dairy Products association, intervenor. He said the association was comprised of about 100 creameries and cheese factories which compete with the Mutual Creamery company.

Washington Judge Sees Cruelty In Steer Wrestling

Admonishes Participants In Rodeo Not to Transgress Laws of Humane Treatment

WASHINGTON, June 7. (AP)—Participants in an old-fashioned western "rodeo," which is showing here during the Shriners convention week, were admonished by Judge J. Edgar Harrison today not to transgress the laws of humane treatment in their exhibitions of "steer wrestling."

A case brought by the humane society against one of the employees of the show was dismissed for want of evidence, but the judge told the prisoner and his employers that as he had seen "steer wrestling" demonstrated in other instances, he regarded it as a cruel and painful treatment of dumb animals, punishable under the law. He indicated that he would act if proper evidence of such treatment were laid before him.

GIANT PROJECT STRIKES SNAG IN CONFERENCE

Commissioner Raises Question of Right to Sell Indian Lands That Will be Inundated by American Falls Dam

SALT LAKE, June 7. (AP)—A special to the Salt Lake Tribune from its correspondent at Washington, which will appear in that paper tomorrow, says:

The American Falls dam project, which means so much to southern Idaho, struck a snag at the very beginning of a conference held today at the office of the secretary of the interior, and how serious may be the delay on this undertaking cannot be determined until after a second conference is held next week. Mr. McLaughlin, secretary of the interior, and his special assistant, Secretary Davis, Director Davis of the reclamation service, Indian Commissioner Burke, Receiver of the American Falls Dam, Commissioner of Idaho, and H. S. Shepard, president of the Greater American Falls Irrigation district.

The meeting had been called to lay before Secretary Wood the facts relative to the recent bond issue voted by the water users of Snake river valley and to get his approval of the contract between the government and those settlers in order that work might begin on the American Falls dam. After Mr. Shepard had made a preliminary statement it was developed that one of the first steps to be taken after the project is approved is to acquire lands that will be flooded by the reservoir. Included in this area are some 40,000 acres of tribal lands belonging to the Fort Hall Indians in what is known as Fort Hall bottom.

Calls for Act of Congress.

Indian Commissioner Burke said those lands had recently been appraised at \$775,000 on an average of \$12.50 acre, the appraised value ranging from \$5 to \$30. The Indian agent at Fort Hall has questioned this appraisal and thinks the price fixed is too low, but the commissioner has not yet had opportunity to go over the appraisal and could not pass upon its reasonableness. However, at one point in the hearing of June 25, 1910, under which these bottom lands were withdrawn for reservoir purposes two years ago, seemed to have been developed that the secretary of the interior could not buy the lands from the Indians without specific authority from congress. Mr. Shepard pointed to the fact that congress had authorized the building of the American Falls dam, and, inferentially at least, had given the necessary authority.

Secretary Wood, after the matter had been discussed for some time, said the American Falls project was a very important undertaking, and one on which the government could not afford to make a mistake at the outset, so he adjourned the conference until Tuesday in order that the solicitor of the interior department and the legal department of the interior may determine whether the secretary has authority, without specific authority from congress, to acquire these bottom lands.

If it be the opinion of the legal authorities of the department that these lands can be bought without referring the whole question back to

Contracts Awarded for Work on School

Local Board Accepts Bid of \$4,340 on Furnaces; Next Year's Supplies Purchased

The contract for installing four special school furnaces in the Lincoln school building was awarded by the school board at a special meeting Monday night to H. A. Briscoe, the only bidder, whose offer was \$4,340. Mr. Briscoe appeared before the board in connection with his bid. A call was issued for bids on the cost of supplying the district with coal for next year. Bids are to be submitted at a duly meeting of the board about 700 tons, or about 30 tons more than was used during the year just closed, will be required. The district stayed well within its budget of \$5600 appropriated last year for coal, the total expenditure having been \$5300.

Monday evening a meeting of the board selected for the opening of school for the fall term. Directors who made an inspection of the school property in the district last week reported on repairs needed and the matter was referred to the property committee composed of Mrs. Stanley Mitchell, James Fitzgerald and O. R. Keith. The only repairs needed are small ones, such as carpentering, painting and roof repairs. Repairs to the school wagons will be looked after by the wagon committee.

The special meeting was called mainly for the purpose of acting on the bid for the school furnaces and for transacting business while Mr. Mitchell was still in the city. Mr. Mitchell leaves Saturday, accompanied by Mrs. Mitchell, for Pocatello, where he will join the board of the summer school at the Technical Institute. He will be gone several weeks, but will return to Twin Falls at various times during the summer. The regular meeting of the school board will be held next Monday night.

STATE SCHOOL MEETING WAS NOTABLE SUCCESS

County Superintendent Highly Praises Efficiency of State Official; Important Plans Are Arranged

The annual state conference of county school superintendents held at Pocatello, Idaho, during the summer school was a notable success and the interest shown was evidenced by the fact that out of a total of 14 superintendents only one failed to attend, according to Miss Charlotte Pond, county superintendent, who returned from the conference.

The five days were filled with interest to the superintendents, and the highest praise was given to Miss Elizabeth Felt, the newly elected state school superintendent, for the efficient manner in which she presided at the sessions, Miss Pond stated. Among the few changes recommended for study by the superintendents was the decision to conduct grade school examinations at various times up to the end of the term, instead of holding all examinations at the annual time. The superintendent decided on county gatherings or meetings to be left in the hands of the individual superintendents as a substitute for the county teachers' institutes, funds for which were discontinued by the last legislature, according to Miss Pond.

The meeting was well conducted and all the state delegates were shown the greatest assistance and were welcomed on their arrival at Pocatello. Coeur d'Alene was selected as the meeting place next year.

MILLER IS HERO AGAINST GIANTS

Strong Man of National League Swats In Enough Runs to Give Cubs Series

CHICAGO, June 7 (AP)—Hack Miller, the strong man, was the hero of a hard fought, nip-and-tuck game today in Chicago, emerged victor in the seventh, and won the series from the world's champions, two games to one. Miller's home run, smash into the bleachers in right center, a terrific drive, tied the count in the seventh after the lead had alternated, and his crashing double in the eighth sent two runs home with the deciding run. Charley Hollock led the attack for Chicago with five hits in as many times up. "Irish" Mousel was the batting star for the visitors with a brace of home runs.

OPEN FIGHT TO LIFT OIL TAXES

Various Branches of Industry From Producer to Distributor, Unite in Campaign

CHICAGO, June 6 (AP)—A campaign to free the oil industry from what is described as discriminatory and oppressive taxation was outlined today by representatives of various branches of the industry before a special meeting of the directors and officers of the American Oil Men's association here.

The petroleum industry is being "literally drained of its life's blood by the deluge of taxation recently thrust upon it," declared a spokesman of the association. "Thirty states already have gasoline sales taxes in effect and several others have the question pending in legislatures. It was pointed out, in addition to which, taxes on the output of the industry are assessed by federal and municipal governments in various sections.

Fourteen Different Taxes. In some localities, oil and gasoline distributors are taxed in as high as 14 different ways when they obtain city licenses are considered. The epidemic of taxes, oil men said, robbed the industry of funds which should be directed toward the expansion and development of new oil fields. In addition, the ever increasing tax burden on the motorist was pointed to as a menace to the industry. To arouse public sentiment against the craze of taxing the oil industry will be one of the aims of the association during the next year. Gasoline sales taxes alone will reach a total of approximately \$200,000,000 during 1923, a statistical statement made public at the convention said.

PRESIDENT LI VOICES WISH TO QUIT OFFICE

Chinese Executive Declines to Accept Resignation of Premier Chang's Cabinet

PEKING, June 7 (AP)—President Li Yuan-Hung has declined to accept the resignations of Premier Chang Shao-tung's cabinet and is continuing his overtures to the premier who is at present in Tien Tsin. The cabinet resigned Wednesday. Every effort is being made by President Li to consolidate the self-deposed ministry. It is understood he will not undertake to form a new cabinet until he has exhausted every argument at his disposal to prevail upon the Chang officials to return to office. The cabinet crisis has emphasized the recent declaration made by the president that he wishes to retire from office as soon as the Chinese constitution has been completed.

PURNELL ELUDES PURSUIT

Authorities Determine to Make World Wide Search For Accused Head of House of David Colony

ST. JOSEPH, Mich., June 7 (AP)—The search for Benjamin Purnell, missing House of David leader, will go into far corners of the globe, it was learned tonight. The cult "king" is wanted to answer to a statutory charge made by Gladys Bamford Rubel, who alleged numerous assaults while she was inmate of Shiloh, Purnell's colony residence. Andrew B. Dougherty, state attorney general in care route here to confer with Colonel Roy C. Vandercreek, head of the state constabulary and with Bergen county officials, who yesterday raided Shiloh in their search for Purnell. It was indicated tonight that the state will prosecute the search vigorously aiding local officers and taking steps of its own through the department of public safety. Judge Harry E. Dingeman, sitting as the one-man grand jury investigating the colony today adjourned hearing until after June 10, but said tonight hearings may be resumed before that date if witnesses are available.

Experts Can't Cure Hog With Taste For Corn Liquor Mash

College Men Confess Inability to Help Animal Over Effects of Modern Moonshine

MANHATTAN, Kansas, June 7 (AP)—The "alcoholic hog," with a fastidious disposition noted by corn liquor mash, has presented a problem that is perplexing experts from the Kansas State Agricultural college here, who are touring the wheat belt of Kansas on a special demonstration train. Dr. C. W. McCampbell, one of the animal husbandry experts of the college, said today the institution has no experimental data indicating a practical method of getting a hog over the effects of modern moonshine. The question was asked by a woman in southwestern Kansas, who explained to the demonstration. Experts said she recently had purchased such a hog from a man who operated a still.

NAZARINE PASTOR OUSTED

L. E. Burger, Walla Walla Minister, Unfrosted at Church Due to Unbecoming Conduct Is Alleged

SPokane, June 7 (AP)—The Rev. Lewis E. Burger, until last pastor of the Nazarine church at Walla Walla, was expelled from the ministry of the denomination at a church trial held last week at Colfax, which was announced here Wednesday by the Rev. William H. Nery, district superintendent. Burger was charged with unbecoming conduct and unbecoming conduct as a Christian. Mr. Nery said with "serious laxity in enforcement of the general rules of the church and also with friendship with a secret, oath-bound society." Although no mention was made of the Ku Klux Klan in the trial Mr. Burger, it was stated, Burger was engaged as a Klan lecturer. He now lives in Greeley, Colo., and has left the ministry of the church. The decision of the church trial will not affect Mr. Burger's standing as a member of the church, it was explained. The Rev. L. E. Burger appeared publicly in Twin Falls this year, first as a lecturer for the Ku Klux Klan and later as an evangelist in charge of union revival services for the Methodist, Presbyterian, Baptist and Christian churches.

BANKERS AND LEGION TO PLAY GAME THIS EVENING

Postponed Game of Thursday Will Be Taken Care of Tonight; Close Contest Looked For

The game scheduled between the Bankers and Legion teams for Thursday evening, will be played tonight at the regular time. Manager Ray Brown of the Legion team, figures that he has the best team in the league, and this evening the fans will get their first view of Brown's team in action. Hoels Livette of the Bankers, has but little to say, but as Hoels has a pretty nifty bunch, the game this evening will not be a walkover, notwithstanding Ray Brown's wild assertions. Rainy weather and wet grounds have caused several games in the Twilight to be postponed, all of which will be played at a later date. The opening crowd was very poor, and if the fans want to have twilight baseball they will have to at least come to the park and let the players know that their efforts are appreciated. All twilight games start at 6:15.

MYERS-TRAMBITAS BOUT PROVES DRAWING CARD

Local's Sensational Welterweight and Portland Pugilist to Mix For Elks' Entertainment

POCATELLO, June 7 (AP)—Boxing fans throughout the intermountain country are looking forward with much interest to Thursday, June 14, when Young Myers, Pocatello's sensational junior welterweight, and Johnny Trambitas of Portland, Ore., meet in a 20-round boxing bout as a special entertainment feature of the Idaho Elks state reunion which will be held in Pocatello June 14 and 15. The bout, which is expected to be the greatest boxing classic ever staged in the northwest, will be held in an open air arena at Brady park, and will start at 6 p. m. Special bleachers have been constructed and the arena will have a seating capacity of 5000. The Elks reunion will bring into Pocatello approximately 15000 lodge members. Boxing fans from every section of the state, as well as from Salt Lake, Ogden and Lewiston, Utah, will be here for the ring event, which, in this section of the intermountain states, is creating more interest than the Dempsey-Gibbons world heavyweight championship in Shelby, Montana, on July Fourth. Portland Well Pleased. Myers and Trambitas fought a ten-round draw in Portland, Ore., during the early part of March this year, and the Portland press termed the battle as the greatest ever held in the Boss City. Portland, Seattle, Tacoma, Spokane and Vancouver, B. C., put in a bid for a return bout between the two, but the Pocatello offer was the largest submitted and the event was awarded to this city. The preliminary events at the Myer-Trambitas 20 round bout will include a six-round bout between Howard Hall of Pocatello and Emmett Danner of Dubois; and a four-round bout between Tommy Garrity of Pocatello and Frankie Heagon of Salt Lake.

The News is read in the permanent evening classes.

RAIL SHIPPING SHOWS HEAVIER BUSINESS HERE

Record Show Increase in Amount of Commodities Received in Past Months; Autos in Big Demand

Notwithstanding the approach of the seasonal decline in freight traffic, local receipts and shipments of goods and commodities of various kinds have been unusually heavy for this time of the year and the records of shipments for April show an appreciable increase over those of the same month last year. Freight received during May was somewhat heavier than that of May, 1922, while the outgoing shipments remained about the same.

Probably the most notable feature in freight receipts this year is the fact that the total number of automobiles shipped into Twin Falls has reached a record. At the same time automobile dealers report an increase in the number of buyers this year who are paying cash. During the entire year of 1922 there were 37 carloads of automobiles received here. For this year there have been 45 carloads received. Of this total, 14 carloads were received during last month, an average of about a carload of automobiles every second day. The big majority of the autos received this year were the smaller cars, although there were 11 carloads of moderately expensive automobiles received since January 1.

Ship Out Poultry.
Poultry and egg shipments have also increased considerably this year. A carload of poultry will be ready for shipment Saturday morning to the San Francisco market, and a car of eggs will be billed out in the next few days.

Potatoes constituted the heaviest increase in outgoing shipments during April, 160 cars having been shipped during that month as compared to 147 during the same month a year ago. A car of onions and five cars of ice were included in the traffic forwarded during April. Receipts of merchandise during the month totaled 130 carloads, an increase of 15 carloads over the merchandise receipts in April, 1922. A slight increase in the number of cars of oil received is shown in the amount of flour shipped out during the month.

Outgoing potato shipments showed an increase of 19 cars in May over the shipments of the same month last year. A heavy shipment of livestock was recorded during the month. Merchandise shipped during a heavy total and wheat and oil again increased over the total receipts of the same commodities in May, 1922. Six cars of eggs were included in the outgoing traffic during May.

Details Are Given.
The comparative totals of freight traffic in April, 1922 and 1923, are as follows:

In regard to future shipments it is expected that about 50 cars of lettuce will be shipped out of Twin Falls in June and July and that probably 200 will be shipped by the end of the year, thus setting a record for lettuce shipments from this district. With a large increase in the acreage of lettuce, a big increase is expected in this commodity. A total of 200 cars of beans were shipped out of Twin Falls during 1922, and the total this year is expected to be in the neighborhood of 600 cars.

MEDAL GIVEN "BRAVEST GIRL IN AMERICA"

MISS MARY BUHER of New York, is recognized as the "bravest girl in America." She has been awarded the Red Cross "bravest" valor honor and the bravery medal of the Red Cross for her heroic deed in making a valiant fight in Tampa Bay, Florida, last year to save Miss Dorothy McClatchie, a friend, who had been attacked by a barracuda while swimming. The girl was half a mile from shore when Miss McClatchie's leg was almost severed by the sea tiger. Swimming in a pool of blood, Miss Buher towed the ailing girl to shore, while sharks broke the water all about them, drinking in the victim's lifeblood.

GERMANY SEEKS

(Continued From Page One)

consultations with the governments which are entitled to receive reparations payments under the treaty of Versailles, impressed official observers here as many of the most advanced in the treatment of the situation.

Allied reactions to the German suggestion that the problem be attacked in a business like way will be awaited with interest here. Hope is entertained that it will lead to discussions which may bring about initiation of conferences between Germany and her creditors or nations that might lead to an ultimate agreement and help stabilize European conditions.

The Washington government, however, has no part in the reparations matter at present, and the question of whether the United States would be a participant in such conversations as the German note suggests could not arise until there had been an agreement to hold the consultations outlined.

GIANT PROJECT

congress, there will be ample government funds to buy such of the bottom lands as will be flooded by the reservoir. There also will be funds available to make partial settlement with the power company who are to finance the town of American Falls.

Because of the uncertainty centering on the lands of the reservoir, the conference today did not reach a determination as to the capacity of the reservoir that should be built. Secretary Work was told that if a reservoir to store 800,000 acre feet is built it will cost the government \$4,000,000, of which half a million has been spent. A million and a half is now available, and two million additional will yet have to be appropriated by congress. This is in addition to the \$2,700,000 to be raised by the bond issue. Director Davis of the reclamation service explained that under such a dam water could be provided for 120,000 acres in addition to the Minidoka project, at a cost of \$100 an acre."

TWIN FALLS WEEKLY NEWS

Established 1904

Twin Falls News Publishing Company, Ltd., Publishers

Issued on Thursday of every Week

Entered as second class matter December 12, 1904 at the Post Office at Twin Falls, Idaho, under the act of Congress of March 3, 1879.

GOING UP!

There will be building in Twin Falls within the next twelve months, perhaps a good deal of it. If the announced development program of Southern Idaho goes through, and there is no slightest ground for supposing that it will not, Twin Falls will take on a local development program commensurate with the city's needs.

Recently, that is to say within the last sixty days, two hundred million dollars worth of building has been cancelled or postponed to Chicago and New York. This action was brought about by the withdrawal of financial support from the various projects on the ground that, at the prevailing cost of labor and material, there would not be anyone in the country with enough money to be able to afford to pay the rents which the buildings would have to charge.

Wages of all kinds went skyhigh some four or five years ago throughout the entire east and middle west and right here in Twin Falls the same movement got well under way. But labor and material costs in these days now appear insignificant when compared to present conditions. Now York leads in point of wage costs which run from ten to twenty-seven dollars a day for carpenters, painters, plasterers and bricklayers, with the workmen taking their pick of the jobs and letting the least desirable go hang.

Of course with living costs high in proportion twenty-seven dollars a day would not be too much, but here is a translation into terms, not of dollars but of farm products, compiled by a Virginia farmer for the New York Herald:

—It takes 63 1/2 dozen, or 762, eggs to pay a plasterer for one day of eight hours work.

—It takes 17 1/2 bushels of corn, or a year's receipts from half an acre, to pay a bricklayer on day.

—It takes twenty-three chickens weighing three pounds each, to pay a painter for one day's work in New York.

—It takes forty-two pounds of butter, or the day's output from fourteen cows, to pay a plumber \$14 a day.

—It takes a hog weighing 175 pounds, representing eight months feeding and care, to pay a carpenter for one day's work.

Labor for years has devoted its almost exclusive attention to its rights and privileges; when labor begins to pay a similar degree of attention to the responsibilities of labor this sort of thing will be unknown.

FRENCH HOPE.

Premier Poincare has got a vote of confidence from the French Parliament, but got it by compromising. He has quit saber-rattling. He announced that he does not intend to increase the French army in Germany. He pleaded that he had done the best he could, and that he hoped for the best. So the French law-makers, also hoping for the best, upheld him. Like Poincare, they are committed to the Ruhr adventure and do not know what else to do.

The collecting expedition has brought France, so far, only expense and disillusionment. There is no promise yet of Germany yielding to military coercion. French expectations are based on the feeling that France can stand the deadlock better and longer than Germany can, and that sooner or later the Germans will decide to pay in order to get rid of their conquerors, as the French did after the Franco-Prussian war. That may be the result, but nobody knows.

If the yielding is long delayed, however, there will be no continued vote of confidence for Poincare. There will be a new government in France, ready perhaps to take disinterested advice from England and America and adopt a policy of conciliation not because Germany deserves it, but for the sake of Europe's future and France's future. Otherwise German hatred and the German birthrate, in the long run, will be more than a match for French military preparedness.

Release on Bond Is Sought by Defense

Case Taken Under Adversement Following Preliminary Hearing of Melvin Blackburn

Efforts on the part of Attorney J. W. Porter, counsel for the defense, to establish the charge against Melvin Blackburn, filer boy held in connection with the recent death of his wife from poisoning, as one of less degree than first degree murder, featured arguments in prolate court Thursday afternoon following the preliminary hearing of Blackburn in the forenoon.

There was no testimony given for the defense. The state, represented by Prosecutors George A. Hill and placed on the stand Mrs. W. H. Hurst, mother of the dead girl; Dr. F. A. Dwight of Filer, the attending physician; E. E. Dealey, chemist; Sheriff John Gubhart, and Miss Nellie Hunter, a filer girl, who testified to attending dances with Blackburn after his marriage to Miss Cecil Hurst.

Address of Expert to Be One of Value

L. S. Otto Gives Highest Praise to Farm Bureau Official Who Speaks Here on Friday

Telegraphic information received Thursday night by K. E. Brossard, county agent, from L. S. Otto at Pocatello, advised that the address to be delivered at Pocatello hall Friday afternoon at 3 o'clock by Walton Poteet, director of cooperative marketing for the National Farm Bureau, will without doubt be one of the most notable of its kind to be delivered in Twin Falls and one that deserves the heartiest support of local business men in all lines as well as farmers.
