RURAL CARRIERS TO COUNT PIGS

Another Census of Swine Population of U. S. Ordered by Postmaster General

WASHINGTON, Nov. 14 (AP)—In addition to their regular duties which range from weighing hables to administering first aid, rural mail carriers have been given the job of counting the pigs in the United States again next year.

The carriers have counted them before and they did such a good job and the department of agriculture found the figures so valuable that Postmaster General New has ordered another census of the whole swine population to show how many pigs will be ready for the market next spring and summer.

Postmasters are being supplied with questionnaire cards designed to show not only the number of pigs on farms but also the number which will be kept throughout the winter as well as the amount of field corn and other stock food raised on the individual farm for feeding them.

IMPORT RATES ON WHEAT TO BE ANALYZED

Preliminary Hearing to be Held by Commission November 26; Experts to Probe Present Schedule at Office.

WASHINGTON, Nov. 14 (AP)—The tariff commission has decided to investigate the import duties on wheat. A thorough study of the whole question of wheat rates, it announced today, has been ordered and a preliminary hearing will be held November 26.

The commission's machinery is to be set in motion in advance of the first public hearing, a committee of its agricultural experts and representatives of the department of agriculture beginning immediately the assembling of information as to whether the present tariff duty of 30 cents a bushel is adequate to protect the interests of the producers in this country.

Although the work is scheduled to go forward speedily as possible, commission members asserted tonight that they could not hope to complete the task in less than three months. The order for the hearing was issued in the hope, it was said, that a preliminary meeting of all interested parties might result in expediting final action.

It was during his cross-examination that Forbes said Dr. Sawyer had "lied" on the witness stand. General O'Bryan asked if Forbes believed that

ANOTHER CLOUD IN GRID SPHERE

Californians See Red on Northern Horizon; Maroon Cyclone Descending

UNIVERSITY OF IDAHO, Moscow, Nov. 14.—There is another sinister cloud looming up to the north of California and dimming somewhat the rosate hue of football in the country of the Golden Bear, the Cardinals and the Trojans. Two weeks ago a purple Washington tornado struck the Oregon Aggies at Corvallis and recorded such a decisive superiority that even Andy Smith had a right to fear the strength of his northern opponent.

On the northern horizon the Californians now see red—it is the maroon of Idaho a maroon cyclone completed the tearing asunder of the Aggies' tall club at Boise Saturday before a crowd of approximately 7000, gathered to witness the annual Armistice day gridiron contest.

Neither team scored a decisive victory over the Aggies, but in both instances the superiority was evident in every department of play. Coach Ruthersford had a much further advanced team to oppose than the one which faced Washington, but even then the Idaho maroon is quite comparable to that of Washington.

Both northern invaders go south this week and play on neighboring campuses Saturday. California entertains Washington at Berkeley, while Stanford greets the Vandals in which was scheduled as a "light practice game" preceding the big game with California. This "practice game" remark was accidentally dropped by a Stanford faculty member at the coast conference meeting last fall and has caused the Cardinals considerable embarrassment.

That little remark is certain to have its psychological effect. The Vandals began priming for Stanford immediately after the Aggie game and this innocent slip of the tongue was the first thing thought of in connection with the Stanford game.

Idaho is the only conference team against which no scores have been made. That honor was shared with Washington and California until last Saturday when Montana scored upon the Huskies and Southern California burst through the Golden Bears for a touchdown.

**Tough Schedule.**

Of the schedules remaining for the championship contenders Idaho's is the hardest. The Vandals made the first lap of their three-game closing trip without injuries, but after Boise they will be alone in foreign territory.

With the two big games of the day coming so close together, for Californians consider California and Stanford as neighbors, the gate receipts are not likely to come up to the fondest hopes. Idaho's spectacular rise this season and her being the only team not second upon forecasts a good crowd for Palo Alto, but this Washington-California game, with both teams at their high ebb, will no doubt overshadow the other.

If Idaho should upset Stanford, which seems probable after the Coast Conference whirling victory over Oregon at Portland then a new attendance record is likely to be established when Idaho goes into her last game at Los Angeles November 24 against Southern California. Fans remember the Vandal-Trojan game of last year and would travel many a mile to see another thriller like it.

FREDERICK HOPES TO SEE GERMANY REBUILT

Former Crown Prince Appears Overboard at Berlin, Gives First Interview

OELS, Silesia, Nov. 14 (AP)—Former Crown Prince Frederick William is overjoyed at his return to Germany after five years of exile in Holland. He spent the morning strolling about the garden of his estate, accompanied by his wife, Princess Cecilie, and later received the newspaper correspondents to whom he made the following statement: "I am glad to be back with my wife and children after nine years absence (this apparently including his years on the war front); happy again to be among my fellow citizens and to be able to share with them the grave burdens of the fatherland."

"It is my intention to devote myself to my personal estate in Oels and to help in the task of building up the fatherland, which I have reason to believe will regain its former greatness."

He wore a sport suit and was bareheaded. Cecilie was attired in a brown leather motor coat with a traveling hat to match and carried a walking stick. Two Polish janitors accompanied the garden and Frederick William at times stopped to play with them, tossing sticks for them to retrieve.

His good humor seemed unbounded and he visited the garage of the estate, where he visited with the chauffeurs who accompanied him from Holland, their conversation being punctuated by jokes and laughter.

# SEEK TO CUT MOVIE COSTS

### Salaries of Stars Present Stiff Problem in Attempt to Lower Expenses.

HOLLYWOOD, Cal., Nov. 14 (AP)—Salaries of leading or feature motion picture players who are not under contract that have skyrocketed in the past two years from a range between \$100 and \$1200 a week to from \$1000 to \$3500 a week, present one of the stiffest problems in the current reorganization of the industry to a firm business basis, according to heads of production here.

Executives of the film world today are boiling down their cost sheets. The entire business is in the throes of readjustment, they assert. It is described as the second phase in the revolution of the industry that commenced under the advisory direction of Will H. Hays. The first chapter opened two years ago. That was the moral crusade. Now comes the economic mopping up in the upward progress of the film.

Cost of a playing cast for a standard feature production soared from a few thousand dollars to \$60,000, the figure for a recent picture. The cost of a feature is said to average \$100,000 to \$175,000.

### INVOLVE STUDENTS IN REBELLION IN MUNICH

Plan Is Made Public to Enroll at Least 50,000 Young Men in March Against Armed Soldiers

MUNICH, Nov. 14 (AP)—The centers of the organized rebellion are now among the students of which there are 30,000 in Bavaria's technical and high schools and the university. The plan is to enroll at least 50,000 young men willing to march unarmed against machine guns and willing to die as long as they were fired upon, but with enough left alive to overpower the soldiers or until the soldiers refused to fire upon them.

Some hundreds of ardent upper class men, government agents report, have for two days been hurrying about among their fellow students, pleading or urging them to join. Similar propaganda is also being among the more conservative members of the student bodies.

CARRIZO, N. The first turn of the car came at a sharp curve and the two occupants were thrown out. Landing on the wheels the motor car continued its wild flight until a second somersault landed it on its side on the edge of the precipice.

CHANGE COLOR OF SCHOOL BLACKBOARDS  
LOS ANGELES, Nov. 14 (AP)—Blackboards are no longer as black as they used to be painted, at any rate, not in Los Angeles city schools.

The old blackboard is turning gray, following the verdict of eye specialists that the latter color is easier on the eyes of the rising generation than the Stygian tint that used to form the contrast for the chalk.

## GERMANY REPUDIATES VERSAILLES TREATY

(Continued from Page One)

unemployed men and women in the Rhineland and the Ruhr will amount to 200,000,000 gold marks in the next few days.

An autonomous state in the present stage of occupation and under prevailing economic and social conditions is viewed in Berlin circles as inexpedient and not feasible and the inclination in government quarters to favor a plan to hold the occupying powers responsible for getting the local populace fed and back to work and otherwise readjusting completely the desolation in all lines.

If the latter solution is adopted the Berlin government will invest the local German authorities with plenary powers, authorizing them to deal with the French, Belgian and British authorities, thus making the occupied zones temporarily wholly independent of intervention by the central or Prussian governments.

There is an apparent desire to pass along the buck to France and Belgium, leaving the German populace to make its peace with the occupying powers for an indefinite period and permitting the central government to wash its hands of the legacy bequeathed it by nine months of passive resistance.

Great Decisions.  
If this solution is adopted by the central government it will incidentally preclude a complete reversal of procedure with reference to reparations and while no statement is forthcoming in this respect, it is presumed the creditor powers would have to enter into separate agreements with the industrialists regarding deliveries, while the question of gold payment would be protected by Germany on the ground that she was deprived of an interrupted disposition of her complete economic organization, or a demand would be made for a postponement of cash payments until the country's financial situation has sufficiently recuperated to warrant them.

## REPUBLICANS TO PICK CONVENTION CITY

(Continued from Page One)

In 1920. Definite limitations on room rates for convention visitors are to be demanded and are to be given according to Mr. Upham if Chicago is selected.

Financial inducements including all expenses of the national committee, are to be offered by all of the bidding cities. The Des Moines boosters are to urge the political effect of holding the convention in the heart of the "corn belt" together with 6,000 rooms available for hotel accommodations and a new auditorium seating 15,000 persons.

Influence of the west is to be urged by the Denver and San Francisco delegations as a factor which the Republican party should consider together with ample auditorium and hotel accommodations. Ohio's position as a pivotal state in the next campaign as well as the central location, railroad, automobile and hotel facilities of Cleveland, are prospective arguments in that city's behalf.

Republican leaders here expect the national convention to be held early in June. June 2 or 9 were tentative dates discussed today with sentiment apparently favoring the latter date. Some committeemen are urging a May convention, but any considerable support for such an early meeting it is said has not yet developed.

All Armenians Wanted to Know.  
Here is a Turkish story! An angel came upon a Christian, a Jew and an Armenian (the classification is Turkish), and offered each a boon. The Christian asked for power, and received it. The Jew asked for money and received it. The Armenian said "All I ask for is the information: which one has the money?"

ELECTION RED FIRE

Where are the red fire and the torchlight processions that marked election night when middle-aged voters were boys?

General Apathy rather than general excitement appeared to be in command, writes the political reporter of the last election night, in a city once famous for its stirring campaigns. It was really an important election, involving a change of governmental system as well as official personnel. The vote was heavy, too. But everybody took things calmly. There were no fights at the polls, no brass bands parading the streets, no vast throngs of citizens gathered around the bulletin boards after the polls had closed.

For one thing, the personal element was largely absent. That is natural when the choice of a head for the city government is geared down to the choice of non-partisan councilmen who, at their own discretion, will choose a city manager, and when the voting is by a complicated, scientific system.

Not every city has yet succumbed to modern political methods, but the tendency everywhere is in this direction. Personality, oratory and fireworks play less and less part in our municipal affairs.

It may be unfortunate from the viewpoint of those who like the dramatic and spectacular—and most people do. But it is fortunate from the viewpoint of good government. It means that, more and more, sober thought is replacing prejudice, passion and machine influence in municipal politics—that city government is coming at last to be handled in a business-like way.

Recalls Visit Here Twenty Years Ago

C. H. Likens, Who Came to Twin Falls First as Salesman, Returns as High Lodge Official

Twenty years in the Twin Falls country has transformed one of the wildest of desert regions into a fruitful and fertile surrounding the most cosmopolitan city in Idaho, according to C. H. Likens of Berkeley, California, deputy supreme dictator of the Royal Order of Moose, who returned here Friday after an interval of 20 years, to address members of the order and their friends.

Mr. Likens recalled that on his former visit to Twin Falls he had found here a frontier town of tents and shacks. Today, he said, you have here what I consider the most cosmopolitan city in Idaho. "I came here 20 years ago," Mr. Likens said, "as a traveling salesman for an independent tobacco firm in Kentucky. It was the picking for the independents in those days. I had just finished a discouraging day in Pocatello. A traveling companion advised me, if I had the nerve, to go to Twin Falls, assuring me that I would do more business here than I had in Pocatello. I found here only two firms handling tobacco but my friend's assurance proved accurate, and I had a satisfactory day."

"When I was scheduled to visit Twin Falls again, the other day, my first impression of the town persisted, and it was a real and gratifying surprise to me to discover the marvelous advance that had been made here."

"Coming to Twin Falls 20 years ago, I left the railway at Shoshone and traveled by stage, crossing the river at Shoshone falls. The stage changed horses three times on the way. On either side of the canyon between Shoshone and Twin Falls there was nothing to be seen but sage brush plain extending interminably on every hand. I am sure that I counted more than a hundred rattlesnakes on the trip. It seemed to me the wildest country imaginable."
