

AGREE TO URGE ACTION ON NEW SOLDIER BONDS

Measure Is Ordered Sent to the House Where Discussions and Vote Are Expected to Take Place Next Week

WASHINGTON, March 13 (AP)—The new soldier's bonus bill was ordered to the floor today by the way and means committee and a plan was generally agreed upon to push the measure forward next week under a provision of the rules which requires that a vote be taken in one day and prevent amendments.

Three committee members opposed the bill—Representative Mills, New York; Treadway, Massachusetts; and Tilton, Connecticut, all republicans, and Representative Oldfield, democrat. Aided, however, the right to object on the floor to omission from the bill of an option for full cash payments.

Provides Insurance. The new measure, differing materially from the bill vetoed by President Harding, limits the bonus to paid up 80 per cent of the insurance policy, but provides cash payments to veterans entitled to more than \$50.

The same basis of adjusted compensation allowed in the old bill, a 50 per cent of the insurance policy, but provides cash payments to veterans entitled to more than \$50. Revised estimates show the maximum total cost of the measure would be \$2,110,000,000 spread over a period of 20 years.

Loans Can Be Made. Loans after the first two years would be allowed on the policies up to 80 per cent of the paid-up value. Estimated estimates show the maximum total cost of the measure would be \$2,110,000,000 spread over a period of 20 years.

England Intends to Raise Efficiency of Dominion Navy

Plans for World-Wide Fueling, Increase of Personnel and Ship Construction Draw Interest of Americans

LONDON, March 13 (AP)—Great Britain's policy of encouraging dominion navies, of carrying out world-wide fueling plans, the increase of the navy personnel and construction of five cruisers and two destroyers are points in the 1924-25 naval estimates presented to parliament today which have attracted the attention of American naval observers here.

Estimates call for an expenditure of \$5,880,000 pounds, a reduction of \$2,000,000 pounds compared with the estimates of 1923-24. In all points the estimates conform to the Washington treaty, it being explained that the control ships to be scrapped under the treaty terms are in the hands of ship breakers with the exception of one, which is not fit for further war service and will be used for experiments before final destruction.

As for the Singapore base, an all important item in navy circles, the estimates for its construction are not mentioned, but funds for fueling purposes will continue to be available. "There is believed to be a possibility of a supplementary estate for the whole project if the labor government does not announce its abandonment."

Folks in Home Town Come to Defense of Daugherty's Regime

Thirty Leading Professional and Business Men Pledge Faith in Their Friend

WASHINGTON, March 13 (AP)—Thirty leading professional and business men of this city, the home town of Daugherty, today in the way and means committee and a plan was generally agreed upon to push the measure forward next week under a provision of the rules which requires that a vote be taken in one day and prevent amendments.

BRITISH VESSEL IS HELD BY U. S.

Government Demands \$1,000,000 Bond Before Orduna Sails; Order Officers to Trial

NEW YORK, March 13 (AP)—The government, which yesterday seized the Royal Mail liner Orduna, today demanded \$1,000,000 bond for permitting her to sail next Saturday, according to a trial tomorrow. An hour and narcotic smuggling charges and accepted pleas of guilty from two members of her crew.

The two who pleaded guilty were Ship's Storekeeper, Charles Daw, and his first assistant, Harry Osmann. They confessed to smuggling into the United States liquor and narcotics, confiscated by federal district attorneys and special customs agents aboard the ship yesterday.

Federal Judge Garvin remanded the two for service next Wednesday, saying he would then consider any disposition the prisoners might show "to tell the whole truth and enable the government to prosecute to apprehend the men higher up."

Assistant District Attorney Clark later declared Daw and Osmann had made no confession which would facilitate his efforts to prosecute ship officials and confiscate the Orduna for violation of his country's laws governing the importation of narcotics and the evasion of legal revenues.

While the cables were hot this morning with messages of explanation and instructions flashed between representatives of the Royal Mail line here, in London, and Washington, D. C., Mr. Clark appeared, before Federal Judge A. N. Ham to file a libel suit against the Orduna and demand her confiscation.

WILBUR ACCEPTS OFFER TO BECOME NAVY HEAD

SAN FRANCISCO, March 13 (AP)—Curtis D. Wilbur, chief justice of the California supreme court, announced that he had received from President Coolidge a communication tendering him the office of secretary of the navy, made vacant by the resignation of Edward Dendy and that he had accepted.

Justice Wilbur said he telegraphed President Coolidge that he would arrange to come to Washington as soon as his appointment was confirmed by the senate.

BELIEVE VESSEL IS LOST

NANTUCKET, Mass., March 13 (AP)—The fourth ship of Nantucket island was found today to be strewn with wreckage. A nameplate picked up by a coast guard boat bore the name Wyoming. No bodies were found.

The fishermen believed the wreck to be the six-masted schooner Wyoming, which sailed from New York March 1 for African ports.

PETER HELD TO COURT FOR MINE SWINDLE

Activities of Idaho Mining Company President Left Trail of Suicides and Destitute Homes. Witnesses Claim

NEW YORK, March 13 (AP)—Charles Peter of Salt Lake, president of the International Mining company of Pocatello, Idaho, was held in \$25,000 bail today on a charge of grand larceny in connection with alleged stock swindles. His operations were said by witnesses to have covered a period of nine years, to have extended from New York to California and to have caused suicides, insanity and destitute homes.

The specific complaint against Peter was filed by Peter Roder of Brooklyn, who said that he had paid \$1500 for stock and that women relatives had invested \$10,000 on Peter's representations that silver worth \$50,000,000 was ready to be shipped.

Charges that Peter had defrauded residents of San Francisco, Texas and St. Louis were made by John Chente, a Manhattan attorney who said he had practiced law in Oklahoma and other western states.

Assistant District Attorney Walter Hart said that, among many conflicting statements, admitted that the stock had paid no dividends in the nine years he had been selling it and that shipment of \$4000 worth of ore in 1918 was the sole output of the mine whose assets were represented in equipment worth \$12,000 and the development value.

Mrs. A. W. Barnes of Wippany, N. J., who testified that she had invested \$1500 among seven persons who appeared before Magistrate O'Neill and told of buying stock amounting in the aggregate to \$17,700.

ORDER CAP PISTOLS TAKEN TO STOP YOUNG BANDITS

PHILADELPHIA, March 13 (AP)—An order for confiscation of toy cap pistols was issued today by Captain of Detectives Souder, acting superintendent of police. Many complaints of juvenile "bandits" in which children have been robbed of small sums of money by others, armed with toy pistols, were said to have been responsible for the order. All of the pistols in stores will be seized, as well as those displayed by children on the ground that their sale is forbidden by law.

Full Payments Must Be Made on Income Taxes Due March 15

House Fails to Effect Proposed Cut in 1923 Rates; Reduction May Come Later

WASHINGTON, March 13 (AP)—Full payment must be made on income tax installments due Saturday, the house failing today to take any action on the proposed resolution to make effective immediately the proposed 25 per cent cut on income taxes payable this year.

The provision of the 25 per cent cut is in the revenue bill, already passed by the house, and if enacted into law, the reduction can be made on later installments. Refunds will be given for excess amounts paid on this installment.

GIVE EVIDENCE IN BRIBE CASE

Grand Jury Investigation of Charges Against Congressmen Begun by House

WASHINGTON, March 13 (AP)—Grand jury investigation of criminal charges involving two members of congress were begun today as a house committee attempted to get its hearing and chart a course of procedure.

Unknown to members of the committee, Assistant Attorneys General Seymour, Willebrandt and Davis appeared before the jury to present evidence developed before the Chicago grand jury which investigated alleged veterans' bureau frauds. With them was John W. H. Crim, special assistant, who was in charge of the government's case in Chicago.

Elias H. Mortimer, who offered testimony before the senate veterans' committee several months ago and before the Chicago grand jury, was one of the witnesses. Late in the day adjournment was taken until tomorrow, when it was indicated Herman Goetz, of Newark, N. J., might appear.

Involves Daugherty in Deals in Oil, Stocks, Fight Films and Rum

MELLON TAKES STAND ON TAX

Opposes Senatorial Plan of Curtailing Debt Reduction in Order to Lower Taxes

WASHINGTON, March 13 (AP)—Protest by some members of the senate finance committee that the program of public debt reduction be curtailed to permit further reduction of taxes was opposed by Secretary Mellon.

The treasury secretary appearing before the committee, pointed out that such action could not be taken without changing the law and expressed further objection on the ground of its effect on government bonds.

Committee members favoring the idea suggested at the committee's executive session that the payments made by Great Britain and other nations on loans might be applied either to tax reduction or a soldier bonus, when it was explained the law specified that such payments must be used to buy up bonds from which the loan money was obtained. It was suggested the law might be changed.

Chairman Snoot supported the proposition of Secretary Mellon that no change should be made in the program of retiring the public debt and in the end no well defined opposition to this stand developed.

The committee will proceed with consideration of the revenue bill with Under Secretary Winston of the treasury giving data on the condition of the treasury with a view to determining the exact amount of revenue the bill must provide.

TWELVE TOWNS IN RUINS

SAN SALVADOR, March 13 (AP)—Twelve villages in Costa Rica are in ruins and the inhabitants are living in tents owing to numerous earth shocks during the present week. Altogether 420 schools were felt. The village of Quezaltenango has been abandoned.

Woman Springs More Sensational Charges Against Attorney-General; Mentions Huge Sums Paid in Cash

WASHINGTON, March 13 (AP)—More "deals" of a highly sensational nature—all represented as involving Attorney-General Daugherty—were alleged today before the senate investigating committee.

Again Miss Roxie Stinson, divorced wife of the late Jess W. Smith of Washington, testified, Ohio the attorney general's "bumper and friend" was the witness relating with accompanying indignation and inference, stories which she said she had confided to her about "deals" in which Smith and the attorney general were engaged.

She was accompanied by bodyguards. "The little" according to Miss Stinson's testimony, ran the gamut from oil to shares, and included prizefight films, whiskey, various stocks, and a pile for a federal convict.

Was "Go-Between." "The most specific allegation in her tale" on which Smith had told her he was acting as a go-between for Attorney General Daugherty and certain motion picture companies seeking to buy the Carpenter-Dempsey fight pictures without incurring prosecution under the law which forbids transportation of such films in interstate commerce.

Smith told her, she testified, that the "deal" proposed that Daugherty would see to it that there was no prosecution and in return "we" (Daugherty and Smith) would receive \$180,000.

"Whether that was consummated or not I do not know," she said. "From Smith's testimony I jumped to another deal," Smith, she said, told her he was on with Daugherty and Colonel James G. Darden, who had been president of the Mutual Oil company. Darden's name also has figured in the Teapot Dome inquiry.

Darden told Miss Stinson, had been, according to Smith, "trying to give some letters some way through Washington to this administration. Paid \$2400."

As a result of conferences at the mysterious "little house" on "C" street," Washington, and the "back" near Washington Courthouse, owned jointly by Smith, Daugherty and Darden, Smith and Daugherty each gave Darden \$2400 for investment, according to the story which Miss Stinson said Smith related to her.

Then, according to the same story, details of which she did not know, "they" dropped Darden with whom, Smith swore to her, they had a deal in an oil proposition out west. Smith, she said, was present.

Thousands Greet 'Denby With Cheers as He Comes Home

DETROIT, March 13 (AP)—"Ned" Denby, one time gunner's mate on the U. S. S. Albatross, who served as a gunner, three years secretary of the navy, a veteran of two wars and now a major in the marine corps—came home today.

Thousands swarmed the concourse at the Michigan Central station as the former cabinet officer arrived from Washington and the great white hall where the Denby party was welcomed by Acting Mayor Joseph A. Martin, was lined with people. An afternoon of reception during which thousands gathered to greet Denby in his honor at which representatives of all political parties were present.

It was "more like a launching than a going into drydock," as one speaker said, noting the enthusiasm that greeted Denby as he came ashore. "It was more like a launching than a going into drydock," as one speaker said, noting the enthusiasm that greeted Denby as he came ashore. "It was more like a launching than a going into drydock," as one speaker said, noting the enthusiasm that greeted Denby as he came ashore.

PROPOSED FARM LOAN PLAN HITS SNAG IN SENATE

Refuse to Authorize Credit of \$50,000,000 to Spring Wheat Farmers, Despite Endorsement of Coolidge

WASHINGTON, March 13 (AP)—The senate, despite President Coolidge's endorsement, refused today to authorize the proposed loan of \$50,000,000 to farmers of the spring wheat belt to finance their start in the poultry, swine and livestock industries.

"In disposing of the proposal carried in the Norbeck-Burness bill as the first of several special agricultural relief measures, the senate divided along geographical rather than party lines. The result showed 23 democrats and 18 republicans opposing and 50 republicans, 10 democrats and two farmer-labor members supporting the bill.

Leaders Reply. Leaders of the farm bloc insisted that the result of the fight for the Norbeck-Burness bill did not indicate the senate's sentiment toward relieving relief bills. Many opposing members were based on the opinion expressed by Senator Glass, democrat, Virginia, and others, that it was "an attempt to put the United States treasury in the mercantile business," and further on the objection that it was designed to assist sharply delinquent areas.

The McNary-Haugen bill, scheduled to be the next considered, was expected by the farm bloc to escape criticism raised against the loan bill. It proposes the creation of a \$200,000,000 corporation to purchase the domestic surplus of every staple farm product when it falls below its market price, and to sell such surplus abroad.

Debated for Seven Days. The final vote on the Norbeck-Burness bill came after more than a week of continuous debate and attempts from both sides of the chamber to amend it in important details. A committee amendment, sponsored by Senator Hiram, democrat, Missouri, which added \$25,000,000 for loans to other one-crop sections, was the first to go. Today an amendment by Senator Burton, republican, New Mexico, which would have added \$20,000,000 for loans to banks in distressed agricultural sections, was defeated without a record vote. It was also a substitute measure by Senator Howell, republican, Nebraska.

Wood Many Field Men. Senator Howell had recognized that the Norbeck-Burness bill was "only a make-shift," but insisted that the emergency relief be attempted to lift. Senator Wadsworth, republican, New York, asked if anyone considered it possible to organize a corps of government inspectors "which would be able to keep track of this livestock, scattered over five or six states."

"We recognize that difficulty," agreed Senator Howell. "And the substitute is intended to throw every precaution around the government funds."

Senator Walsh, democrat, Montana, endeavored to again amend the bill so as to require the secretary of agriculture to use existing agencies to supervise the loan, but his motion lost, 31 to 36. As when first presented, a tie vote was had on this proposal, but Senator Gooding, republican, Idaho, changed his ballot from affirmative to negative after the roll call.

PLAN SETTLEMENT. EUGENE, Ore., March 13 (AP)—A Czech-Slovak settlement may be established somewhere in southern Oregon in the near future, probably in the Rogue River valley, according to B. T. Hladik, field representative of the American Czech-Slovak chamber of commerce, who has been inspecting sites for a colony in that part of the state. He also viewed conditions in Klamath county.

GERMANS FIND HUMOR IN FIRE

NEURUPPING, Prussia, March 13 (AP)—German cartoonists and humorists were provided with a new subject recently and worked it for some time. It was the destruction by fire of a factory where fire extinguishers were made.

GET GOOD BEET PRICES

President of United States Manufacturers' Association Sees Favorable Prospects for Coming Year

SALT LAKE, March 13 (AP)—Prospects for the beet sugar industry in 1924 are exceedingly bright, as good harvests are being received and manufacturers are optimistic, according to Stephen H. Love, of this city, president of the United States Sugar Manufacturers' association.

"Production in 1923 was about 775,000 tons," he said, "and the 1924 tonnage should be around 850,000 tons."

BODIES OF 33 STILL IN MINE

Rescue Work Still Hampered by Fires; Archbishop on Hand to Offer Solace

CARLETON, Utah, March 13 (AP)—Archbishop Peter Fumasoni-Biondi, apostolic delegate of the Catholic church in the United States, with headquarters at Washington, D. C., left today for the little coal mining town where last Saturday three explosions in Utah Fuel company mine took the lives of 173 miners.

The announced purpose of the archbishop's visit is to offer solace to dead miners' families and alleviate the suffering of all found in dire circumstances. With him are his secretary, the Rev. George Leach, and the Right Rev. Joseph S. Glass, bishop of the diocese of Salt Lake.

A special committee appointed by Governor Charles R. Mabey of Utah also is here to conduct a survey of conditions. This committee will report and make recommendations for the handling of cases of those found in the mine.

Rescue workers accomplished very little today because of several fires in the ill-fated mine, and up to early tonight only 138 bodies had been recovered. On the basis of official figures giving 173 men in the mine when the blasts occurred and on the accepted theory that all are dead, this leaves 35 bodies yet to be found.

The cause of the explosions has not been determined and in the opinion of many it never will be. It is considered quite improbable that the task of thorough exploration of the entire mine will be completed before next Saturday night at the earliest.

There were more funerals here today of victims of the disaster. Yesterday 41 dead miners were buried at Park, Utah, seven at Helper, Utah and seven in the local cemetery located at the very mouth of the mine in which they met death.

"Moshi Moshi" Girls. Six thousand "hello girls" are employed in the telephone exchanges in Tokyo. The Japanese call them "moshi moshi" girls.

Backache Is a Warning!

Twin Falls Folks are Learning How to Heed It.

Are you miserable with an aching back? Do you get up lame and stiff; drag through the day feeling tired, weak and depressed? Then you should help your kidneys. Backache is often the first sign of failing kidneys. Urinary troubles quickly follow. Neglected, there's danger of gravel, dropsy or fatal Bright's disease. Don't wait for serious kidney weakness! Use Doan's Pills, a stimulant diuretic to the kidneys, before it's too late. This Twin Falls resident tells an experience:

Mrs. F. A. Taggart, 340 Third Ave., West, says: "I was troubled a good deal with backaches and my kidneys acted too frequently. I felt badly all over and also suffered with headaches. Doan's Pills gave me a cure and I haven't been troubled since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Taggart had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

COURT BLOCKS WORK AT DOME

Temporary Injunction Granted Government; Halt Called at Leased Oil Properties

CHEYENNE, Wyo., March 13 (AP)—All drilling operations of the Mammoth Oil company on the Teapot Dome oil reserve are halted and the operation of existing wells is reduced to a minimum deemed necessary to prevent loss or damage under the terms of a temporary injunction granted today by Federal Judge T. Blazo Kennedy at the request of the United States government.

Judge Kennedy appointed Rear Admiral Joseph Strauss of the United States navy, and A. E. Watts, vice president of the Sinclair Consolidated Oil corporation as joint receivers to take charge of the properties and all oil from producing wells, pending the final settlement of the government's suit for annulment of the lease of the reserve to Harry F. Sinclair and the Mammoth Oil company.

The injunction and receivership were granted by Judge Kennedy after a preliminary hearing which followed the filing of the bill of equity in which the government alleges false representations in the transfer of the Teapot Dome reserve from the navy to the interior department and also charges fraud in the execution of the lease to the Sinclair interests.

JAPAN DROPS 53 GENERALS. TOKIO, March 13 (AP)—The final list of Japanese army officers dismissed as a part of the army limitation policy adopted by the government in 1922 has been published. It includes 13 lieutenant generals, 40 major generals and 180 colonels.

These are the last of the 1800 officers dropped in the reduction of the land force, the discharge having spread over nearly two years. The reduction also decreased the standing army by 55,000 enlisted men. The peace strength of the Japanese army is now approximately 250,000 men.

A Banker's Grace. A gentleman in the banking line was asked to say grace, and this is what he said: "Dear Lord, we thank Thee for all Thy favors of recent date. Permit us to express our heartfelt gratitude: We trust that we may continue to merit your confidence and that we shall receive many more blessings from you in the future. Amen."

CARD OF THANKS. We wish to express our thanks to our friends and neighbors for their kindness and for the floral offerings which express their sympathy in the loss of our husband and father. MRS. ETNA KERR, VICTOR KERR, CLELL KERR, CHESTER KERR.

Attention, Beet Growers

The success of the Factory is dependent upon the success of the grower. These few remarks are offered in the interests of both, and in pursuance of a policy designed to offer every assistance in our power to the men who grow the beets.

JAMES SOLLEY, District Manager.

NOW is the time to get busy on the land.

Fall plowed land or potato ground should be gone over and seed bed prepared by spring-tooth harrow, or disc, then floated so that low places in field where dry ground has been dragged will have a chance to get soaked up with any moisture we may get, thus insuring an even germination of seed, also to start weeds, then worked again before planting to destroy weeds.

Experience has proved that beets planted the latter part of March or early in April has made the best tonnage.

Drills should be examined to see that each shoe is depositing at the same depth. Each time a turn is made in the field see that shoes are not clogged up. Do not plant more than one and one-half inches deep. A good seed bed well packed and seed evenly deposited at the proper depth will go far to insure a satisfactory crop. All spring plowed land should be worked down, corrugated and irrigated before planting.

Clover and alfalfa ground should be crowned as shallow as possible to cut off crowns properly, then harrow and leave long enough to get crown dried up, then plow about seven inches deep, irrigate and plant as above.

This work should be done so beets can be planted by the 20th of April, and if possible by April first. Do not plant on smooth surface. Always harrow ahead of planter.

ROOSEVELT PUT UNDER FIRE OF OIL COMMITTEE

Walsh Criticizes Acting Secretary's Order for Marines to Clear Teapot Dome of Trespassers in 1922

WASHINGTON, March 13 (AP)—Theodore Roosevelt, acting secretary of the navy, came under fire again today because of the oil committee.

His order sending a detachment of marines to Teapot Dome to clear it of "trespassers" in the summer of 1922, four months after the reserve had been leased to Harry F. Sinclair, was characterized by Senator Walsh, of Montana as an "outrageous use of the military power."

Secretary Roosevelt also was asked about the circumstances under which he requested Sinclair to give employment to his brother, Archie, whose startling story to the oil committee led to the most sensational disclosure of the long investigation. He explained that when Archie returned from the war in 1919 he either saw or telephoned Sinclair asking that he employ Archie.

Salary \$15,000.

"What was his salary?" asked Senator Dill, democrat, Washington.

"Ten thousand dollars a year at the start," said Secretary Roosevelt. "I think that was increased to \$15,000 later on."

Secretary Roosevelt told the committee that his order for the marines to clear Teapot Dome had been issued at the request of Albert B. Fall, then secretary of the interior, under what he understood was an agreement between Fall and President Harding.

Questions Leases.

This brought from Senator Walsh the charge that Fall and Sinclair wanted the marines used because if they resorted to civil action the validity of the Sinclair-Fall lease would come under review by a court.

"The thing in my mind then was the protection of naval property," Secretary Roosevelt said in explaining why he ordered the marine detachment under Captain George K. Shuler to Wyoming. He confirmed this by a reference to an entry in his diary made the

COLLEGE MEN HEAD GOLD RUSH OF '40, EXPERT SAYS

"The pioneer of western pioneers was no rude sort of folk, but a man of thought, trained mind and arts and letters," P. Parkman.

This adequately and eloquently describes the pioneer who blazed the trail to the west and made possible the building up of this great nation. These men, many of them college graduates, who left their homes in the east when gold was discovered in California in 1849, and braved the dangers of the prairie with its desert sands and Indians to build up a new country, are worthy of consideration.

A few of them have been made famous by the thousands who gave their lives in the mud-crushed, those few days remain unused save in the most sensational literature. It was to honor these and present that period in its true colors that Vitaphone pictured "Pioneer Trails," a David Smith production, which will be shown at the Orpheum theater today.

NOTED PLAYERS IN PICTURE.

The featured players in George Melford's Paramount production, "Pioneer Trails," which comes to the Idaho theater today, are Jacqueline Logan, Antonio Moreno, and Walter Hiers. The cast also includes Charles Ogilby, Robert McKim, Luke Cosgrove and Wayne Rogers. The scenario was prepared by Harvey Thew from the original screen story written by Byron Morgan.

"THE WHITE SISTER" TO BE SHOWN HERE.

"The White Sister," Lillian Gish's greatest success, will be shown at the Idaho theater, beginning Monday. "The White Sister" was made publicly in Italy, in the exact location designated by E. Marlon Crawford in his famous novel from which the picture was adapted. It was produced by Henry King for Inspiration Pictures and is released through Metro.

day of the order, July 29, 1922.

Senator Walsh in several statements to the gentlemen of the committee declared the property had passed out of the possession of the navy department to Sinclair, and that in any event resort should have been made to the courts.

LEWISTON READY FOR REPUBLICAN STATE CONCLAVE

Plans Complete for Convention March 25 to Name Delegates; Extensive Entertainment Program Outlined

LEWISTON, Idaho, March 13.—(Special to The News).—The plans are complete for the republican state convention to be held here on March 25 to name delegates to the national convention.

Reports received indicate the republican leaders are planning on making this first convention one of the important party gatherings of the year to discuss issues and formulate plans for the later nominating convention and it is not improbable that the question of state candidates will receive considerable consideration at the Lewiston meeting.

The Lewiston State Normal school of having this party meeting called here and while they will have no suggestions to make relative to the convention program, the Lewiston people hope to provide entertainment and diversion for the delegates that will make their visit to this part of the state well worth while.

Arrangements. A special committee is busy with the organization of a banquet program to be given during the dinner hours at the Lewis-Clark hotel, where the convention will be held, and another committee is busy in organizing side trips that will be of interest to delegates from removed sections of the state.

The Lewiston State Normal school has extended a very cordial invitation for delegates and party leaders to visit that institution during their stay here and the Lewiston people are co-operating with Moscow to the end that the delegates may have the opportunity of visiting the University of Idaho while that institution is in session.

ADOPT NOVEL METHOD TO GET LIQUOR EVIDENCE

BELOIT, Wis., March 13 (AP)—The old fashioned medical stomach pump was responsible today for the arraignment of two local men charged with selling intoxicating liquor. Bonds of \$1000 were furnished for each man. The stomach of an operative working under the direction of the police department, was pumped before and after the alleged sale of intoxicating liquor took place.

SWISS ELECTRIFYING RAILWAYS

BERNE, March 13.—The electrification work of the Swiss national railways has passed the halfway point. About 300 miles have been completed with about as much more to be electrified.

KENYON PASSES CABINET OFFER

Federal Judge Turns Down Coolidge's Tender of Secretaryship of the Navy

WASHINGTON, March 13 (AP)—President Coolidge's tender of the navy secretaryship was declined today by Federal Judge William J. Kenyon and the chief executive prepared to offer the portfolio to Chief Justice Curtis D. Wilbur of the California supreme court.

Judge Kenyon himself, announced the declination, declaring in a formal statement that he could not "escape the conclusion that he did not possess the essential qualifications or training for the office."

The statement was issued after the president had indicated to the tendered that his reply to the tender would have to be a declination and then had reconsidered his decision and the earnest request of Mr. Coolidge. The reconsideration brought the former navy secretary to the same conclusion.

Should Chief Justice Wilbur accept the naval portfolio and the office of attorney general become vacant within the next few months, it is believed here that Judge Kenyon will be tendered the latter place.

Some of his close friends feel that he would accept the attorney generalship. In addition to Chief Justice Wilbur President Coolidge also has on his list of those being considered for the navy place James E. Davidson, republican national committee man from Michigan, and George E. Post, former representative from Illinois.

Is a Gland Operation Necessary?

By a new discovery the life giving gland, substances which is sometimes administered by expensive operations may now be supplied in tablet form. This treatment is highly recommended by European and American scientists, who have proved that the internal administration of gland extracts has a very marked effect upon the corresponding glands of the human body, often rebuilding them to normal activity.

Such a treatment is now offered to the public in the form of Glandogen, a highly concentrated glandular tonic, in convenient tablet form, prepared from the glands of healthy young animals and compounded with other valuable ingredients. Glandogen is obtainable at Schraun-Johnson Drug company. Mail orders given prompt attention.

TROY DEFEATS TIMES SQUAD

Record Shattered for Single Game by Printers; Bailey Places High

The moral to be learned from Thursday's game of the bowling league is that it takes more than one good game to win a tournament. The Times unquestionably smashed a record in the first game, but the effects wore off in the last two and they ended the evening with scores ranging from 135 to 160 with a total of 721.

The first game was the feature. The News' former record of 970 pins for a single game fell for good before the onslaught of the final printers, three of them well above 300 and the others not far in the rear, with the final count reading 1020, just 44 pins better than the News' record.

The laundry count of 903 was far from poor in this game, but it was in the second encounter that the cleaners showed their stuff. The Times' score was 1020, just 44 pins better than the print shop count. In this one Thitt celebrated by nabbing the high score for the evening with 329. The Times' stock sank to still greater depths in the final game, which also went to the laundry, where it was nicely taken care of by a simple little count of 923-721, which King and Bailey predominated.

Bill Bailey was not so much for this seasonal stuff, but his consistent bowling being high with 379 for a set when the final reckoning came, with Thitt's 233 game placing him high with 571.

The honors were well divided in Thursday's game, with leaders four teams well in the running for the championship. The teams with good chances are the Troy Laundry, Times, Idaho Theater and Sugar Factory. All around the wood taken Thursday will be something to furnish the local bowlers with hopes for a victory against Idaho Falls and for a good cup until next season and the balance of this one.

Team totals were: Times 2387, Troy Laundry 2017. The averages: Troy Laundry 174, Times 175.

The Scores		Totals	
Troy Laundry	912	185	181
Bailey	104	138	112
Schick	164	169	291
Tritt	163	233	175
Cabell	200	188	153
		903	912
Times		Totals	
Druggman, C.	183	183	187
Anderson	183	183	187
Druggman, H.	177	177	181
Illin	203	184	180
Larsen	227	176	144

FAST GAME ON SCHEDULE BETWEEN GIRLS' TEAMS

Van Patten Reports Everything in Readiness for Session Friday Evening Between Jerome and Buhl

Buhl, March 13 (Special to The News)—Everything is set for the Jerome-Buhl girls' basketball game Friday evening, announces M. M. Van Patten, who states that already the Jerome high school has reserved a seating section for 200 with every prediction for a crowd that will fill the Buhl gym to capacity.

The district declamatory contest is held immediately after the game and promises to draw a large crowd to the affair, which is scheduled as a state championship engagement for the crowd team.

Thursday the Buhl squad with Coach Barry were guests of the Buhl Rotary club at the weekly luncheon. The Buhl basketball men who are actively supporting the fair basketball-tossers.

Coach Barry, under whose guidance the Buhl team has made such an enviable record, announces that the line-up against the Jerome girls will be: Hayes (captain) and Baker at guard; Ralph at center, and the forward positions still to be decided between Cox, Dingman and Metz. The Jerome coaches will arrive Friday morning.

FIRPO BOUT POSTPONED

Battle Between South American and Luis Buffers Eight Months At Belch Is Put Off Until April 5

BUENOS AIRES, March 13 (AP)—The 15-round boxing bout between Luis Angel Firpo and Al Belch of New York has been postponed until April 5. The postponement was at the request of Firpo who is suffering from soreness in the muscles in the left arm, developed after his recent fight with Erminio Spalla.

Firpo today said he considered Belch a more dangerous man than Spalla, and that he desired time to put himself in the best of condition.

REDS' CHANCES GOOD

NEW YORK, March 13 (AP)—The death of Pat Moran, "miracle man" of the Cincinnati Reds, of the National league is unlikely to jeopardize the chances of the Reds in the opinion of John A. Hendrix, president of the league. If the league view today before departing on a two weeks' tour of the six National league camps in Florida.

Remember Your Friends. "Forgive you enemies," said Uncle Sam. "Don't do it, so enthusiastically about it that you forget your friends."

Dog Driver Missing 25 Hours; No Fears Held for His Safety

St. Paul Entry in The Pas Event Falls to Show Up at Starting Point of Race

THE PAS, Man., March 13 (AP)—B. L. Baker, St. Paul, Minn., entry in the St. Paul derby, had not returned to the starting point today, 25 hours after the winner and other contestants had crossed the line.

Sharly Busick, winner, stated that he passed Baker late Tuesday night near Camp 11, the halfway mark. Being outdistanced, race fellows came believe Baker is taking his time coming in.

DRIVE FOR OLYMPIC FUND

Organizations Set Up in 51 Cities Throughout the United States to Raise Expenses for Yankee Teams

NEW YORK, March 13 (AP)—Organizations in 51 cities throughout the country have been set up to aid the American Olympic committee's effort to raise \$500,000 to defray the expenses of transporting, equipping and housing the team of 500 athletes which will represent the United States in the Olympic games at Paris this year. Quotas have been assigned nearly all of the countries, with New York leading the list with \$100,000. Chicago has been asked to raise half that amount while Boston is assigned \$35,000 and Philadelphia \$25,000.

GAMES SCHEDULED

SAN FRANCISCO, March 13 (AP)—The San Francisco baseball club, Pacific Coast league champions, will meet the Kansas City Blues, American Association champions, in the first of a series of games between the two clubs here tomorrow.

CAUTION CAROLIS CLAIM

LONDON, March 13 (AP)—Howard Carter and the excavators of Lord Carnarvon's estate have given the Egyptian government a written undertaking to the Daily Mail's Cairo correspondent, announcing any claim now or in the future to anything found in the tomb of Tutankhamen.

Steel Bells 500 Years Ago

Steel bells were invented before the destruction of Pompeii, A. D. 79, for in the Museum of Naples there is a pennant made of bronze, still after the manner practiced today, which was found in the ruins of Pompeii, but they were first commonly known in the fifteenth century, says the Detroit News. Barrel pens were first made in 1780 by a splitting maker of Birmingham named Samuel Harrison. A blacksmith of Sedgely, Worcestershire, made the invention, improved the method of making, and improved the use of the nib or pen-point before the barrel pen was perfected. In 1883 Bryan Donkin made barrel pens with pen-points of steel, brass, silver, gold and platinum. To him was granted the first English patent for making steel pens.

Weather Shows Day

The late afternoon and early evening hours are the wettest of the day. Investigation by weather bureau observers in different parts of this country show that in some sections twice as much rain falls off the average between 5 and 8 p. m. as does between 9 a. m. and noon. This peculiarity of the weather is more pronounced in warm than in cool weather and is due to the rising temperature during the forenoon which enables the atmosphere to hold an increasing amount of water vapor, a condition which is reversed in the late hours of the day and complicated also by the frequency of summer thunderstorms during those hours.

Seth Thomas Had Monopoly

The first important clock factory in America was established by Seth Thomas, who long held a practical monopoly of the clock-making industry in the United States. Among the prized heirlooms of many American families are old Seth Thomas clocks, and many of them, are still ticking away. The earliest ancestor of the clock was the sun dial, and this was supplanted by the water clock, which was invented in Rome about 2,000 years ago. The next improvement was the substitution of a weight for the water, and about the year 1000 the pendulum was invented.

To Prevent Fog

It is reported that in Lyons, France, a plan has been adopted to prevent fog by covering the waterways about the city with a film of oil. Scientists have figured out that it is feasible to suppress the great banks of vapor that follow the lines of the streams by preventing evaporation at a daily cost of about \$2. For two months of the year Lyons is besieged and business suffers greatly as a result of fog. Fog in most places rolls in from the sea and cannot be so treated.

BETTER HEALTH SERVICE

Public Health Is Public Wealth
Issued by the Public Health League of Idaho

THE BABY AND THE SAFETY PIN.
Many a baby has swallowed a safety pin. Some of them have swallowed a tack or a nail or an unwhipped nickel or penny. Fish bones, chewing gum, pieces of broken toys, pencil stubs, toothpicks and pins appear to be favorites with the little tot who has the desire to put things in his mouth and find out what he can about them. Once he gets a pin or some such object in the mouth and it reaches the back of the tongue, down it goes. A small object like a pin or a pen is often inhaled into the mouth. If of the right size and swallowed, it is stopped in the gullet and the child chokes. If inhaled it reaches the windpipe or lungs. A suffocating condition results and serious danger to the child's life is imminent. By illumination of these accidents, however, recent developments of this phase of surgery have been remarkable. By illumination of the interior of the body and the use of cleverly devised instruments and delicate manipulation of them, it is possible to pull the instrument down through the windpipe and seize and remove the object. This calls for the highest and most delicate skill and experience. The bronchoscope is the important instrument. It reaches down with a life-saving light into the lungs, stomach, or esophagus and provides a tube through which the surgeon may look to see the pin, pennies and other things which have been swallowed and have lodged in places difficult of access. Don't for the mother include: Don't give fragments of bones to children. Don't leave the stones of plumage cherries and peaches in the child's fruit. Don't leave any foreign bodies in the food. Don't carry an assortment of needles and pins in the waist when handling the baby. Don't let the baby play on the floor where he will have access to small objects that he may put in his mouth. Don't let the child play with pins or beads or small objects, and don't let him have peanut candy or nuts.

INVOLVES DAUGHTERY IN MANY CHARGES

(Continued from Page One)
[Certified, had told her. From that point the testimony jumps to an alleged "deal" to get a parole for a "Mr. Solomon" a brother-in-law of Joe Weber, the actor. Miss Stinson testified that she was in New York with Smith when the most Weber, Smith and the actor, she said, discussed the possibilities of getting a parole for Solomon. The conversation, she said, was "about fixing it with Daugherty."

"Was there any reference to any money transactions in it?" asked Senator Wheeler. "He (Weber) is awfully cheap. He wants something for nothing. I don't know whether we will do anything for him or not. Had \$75,000. From that point the testimony turned to meeting Smith at Washington Courthouse, where he had just arrived from Washington with 75 one-thousand dollar bills in his belt around his waist. Where he got it he didn't tell her, she said, and she couldn't fix the date.

LOSES SHAMROCKS.

NEW YORK, March 13 (AP)—The Rev. Father J. M. Robinson, of Wexford, Ireland, arrived on the Saxon today, carrying six little pots of Irish soil in which grew "the green" he planned to wear March 17.

Representatives of the department of agriculture confiscated the shamrock, explaining there was a stringent law forbidding importation of vegetables with roots.

"Did you ask him about them?" "No. That was after I started wondering to know this." "Where had Smith come from when he brought money with him?" "From Washington."

"Then, after telling to illustrate the devotion of Smith to Daugherty, he had 'cried like a baby' when Daugherty first refused to come to his aid and finally did so to prevent at Smith's operation for appendicitis, the subject of whiskey came into the inquiry.

Senator Wheeler wanted to know if Miss Stinson knew of any specific deals in whiskey in which Daugherty and Smith were engaged. She said she knew of no specific deals, knew "just generally," but added: "They had plenty of liquor at their disposal." Smith, she said, brought "large quantities of it" to Washington.

Daugherty for his own use; that in fact, Daugherty had been with Smith when he arrived with suitcases full of it and that Smith had given some to the attorney general, to himself and to other friends.

"Why, he brought it in a case large as this table," said the witness, indicating a small table before which she was seated.

"Just a week-end supply," observed Senator Moses.

The miser. The man who enslaves himself to his money is proclaimed in our very language to be a miser, or a miserable man.

U. P. PLANS TO BRING SETTLERS

Big Rail System Cuts Fares and Announces Intention of Inducing Westward Move

OMAHA, March 13.—A plan to place desirable settlers on the large areas of fertile land tributary to the Union Pacific system was announced today by H. M. Adams, vice-president of the Union Pacific in charge of traffic. "Selective Colonization" is the name given to the plan, according to the announcement, as only read home seekers with some means will be encouraged to select. Reduced round trip rates of one fare plus two dollars are being established tickets to be sold on specified dates from March to November. Liberal appropriations are being made for advertising and inquiries will be thoroughly investigated and followed by field representatives of the railroad. Helpful co-operation will be given in meeting the wishes of the prospective settlers as to the kind of land and type of home surroundings desired, and in assisting in the movement of household goods and livestock from the old homes to the new.

Land Assistance. Arrangements will be made to put the new settlers in touch with county agricultural agents, superintendents of schools, home demonstration agents, ministers, and any agencies which may be formed to give the newcomers a welcome to assist them in getting started and to keep in touch with them through the formative period. "The Union Pacific system is entering upon this work with confidence and enthusiasm," said Mr. Adams. "In the belief that many useful citizens will come to our communities and become permanent residents, and that the states, counties, cities and towns will supplement our efforts with their own. We must make the settler feel that the move means as much to him as to us. Tributary to our lines are millions of acres of improved and improved lands which should be converted into farms where diversified farming, dairying, hog and poultry raising can be successfully carried on. Says Idaho Should Profit.

"Made by reason of its advantages in the way of a long growing season, rich soil and abundant water, should profit greatly by this joint effort of the railroad and the communities. The railroad has no land to sell, nor will its representatives make sales of any kind. The work will be under the direct supervision of Robert A. Smith, supervisor of agriculture at Omaha, and C. C. Gignoux, assistant supervisor of agriculture, who will devote his entire time to field work. Established traffic representatives of the company will also assist settlers at both ends of the journey."

If your property is desirable and advertised in the classified—you'll find your buyer.

SCHOOL OFFICIAL RESIGNS

Superintendent at Buhl Notices of Intention to Leave Position; Successor Not Selected

BUHL, March 13.—(Special to The News.) J. Henry Allen, for the past five years superintendent of the Buhl schools, has tendered his resignation, effective next June when his present term expires.

No reason for Mr. Allen's resignation was given. The new superintendent has not yet been named.

FUNERALS

SHRIVER—Funeral services for William R. Shriver, whose death occurred Wednesday at his home, 230 Ramage street, will be held at 2 o'clock Saturday afternoon in the J. E. DeWitt chapel and will be conducted by the Rev. W. B. Burks of the Christian church. Mr. Shriver was 71 years of age and had been a resident of Twin Falls for 15 years. Besides his parents, Mr. and Mrs. Owen Shriver, Mr. Shriver is survived by one son, Leo Shriver, Portland, and three daughters, Mrs. Lola Curtis, Portland; Mrs. Marie Constance, Buhl, and Mrs. Clyde B. Monroe, Lava Hot Springs.

ONE-ROOM SCHOOLS

Contrary to a widespread opinion,
the little old country school-house is
far from the vanishing point. Fur-
thermore, for the benefit of those
who, for sentimental or other reasons,
prefer it to the modern school-house,
it may be stated that the one-room
country school as it exists today is in-
efficient and expensive.

Three facts were brought out clearly
in a discussion at the recent conven-
tion of the National Education As-
sociation. A state commissioner of edu-
cation who had been studying the mat-
ter reported that one-fourth of the
school children in the United States are
still "housed in one-room schools of
the crudest sort," and that nearly one-
half of all rural teachers still teach
in such schools. Many of the build-
ings, he declared, are forty years old
and without any modern conveniences.
As for the one-room school teachers,
only about one of them out of fifteen
is as well trained for the work as the
average teacher in the city schools.

The remedy proposed in the obvious
one of consolidated rural schools, mod-
ern in construction, equipment and
teaching force, which provide for the
country children as good educational
facilities as the city school systems.
This innovation has made great head-
way in progressive states, and in pro-
gressive sections of some of the more
backward states. The sooner all com-
e to it, the better for the rising genera-
tion and for the future of the coun-
try.

"QUESTION HOURS" FOR
CABINET

The United States Senate has so
loaded itself with investigations that
it has hardly enough members to con-
duct them and hardly any time to
transact ordinary business. It has also
demanded large quantities of infor-
mation from various cabinet officers, re-
garding matters of special senatorial
interest, imposing a burden on the ex-
ecutive departments to furnish the ma-
terial as well as upon the senators
who will have to digest it when fur-
nished. The House is in a similar
plight, though not quite so overbur-
dened by its inquiries, because it has
more members to share the work.

It is pointed out that this labor
could be avoided by the simple pro-
cess of bringing cabinet members and
their subordinates before Congress
regularly for discussion of any mat-
ters of mutual interest. An adminis-
trative head could often tell the Sen-
ate or House in five minutes what it
takes an investigating committee
weeks to find out under the present
system of separate action.

More co-ordination between the ex-
ecutive and legislative branches of
government is urgently needed. It
exists in nearly all other governments.
The lack of it is responsible for
large part of the slowness and ineffi-
ciency with which our government
functions in these latter years.

POINTS FOR SPEELBINDER.

One of the political parties, finding
that women are really taking an in-
terest in politics, and with a little ex-
perience make good stump speakers,
has established a "political Platte-
burg." It is named for the first
school for the military training of vol-
unteers during the war, and it is en-
gaged in preparing women to take a
speaking part in this year's campaign.
Pointed down by one of the in-
structors, herself a woman, at the open-
ing session, deserve all the publicity
they can get. They are these:
"Don't yell at your audience."
"Don't talk to the front row."
"Don't refer to your lack of time."
"Don't knock the other party; tell
the good things about your own
party."

This is sound advice for any speaker
of any party. Men as well as women
must profit by it. It is doubtful,
though, whether the last bit of advice
will be much heeded on either side of
the campaign now opening.

Weak in Theology.

At the end of a certain "Sunday
school treat the children were singing
the verse which includes the words,
"Weak and sinful though we be," one
youngster with a quick divination
became aware of the fact that he was
singing with all his heart and
voice: "We can sing, all though
we be."

Dreamland Adventures

DR. JACK
BY DADDY

Jack and Janet play doctor and
nurse. They are called upon to
attend Lonesome Bear, who has an
awful toothache.

CHAPTER IV.

The Dentist Who Ran.
"YOU must come at once to the
office of Dr. Pullum, the den-
tist," said Jack to Lonesome Bear.
"Dr. Pullum will pull your aching
tooth and make you all better."
"Aw-ugh! Will he hurt?" moaned
Lonesome Bear, following Jack out of
the cave.

"Not very much," said Jack.
"And even if he does hurt a bit
a minute that is better than the pain
all the time," added Jack encourag-
ingly.

Jack and Janet mounted their ponies
and Lonesome Bear trotted on behind
them as they rode toward the office of
Dr. Pullum. Hopfully Hop Rabbit
scurried along, too, for he was anxious to
see what was going to happen to Lone-
some Bear.

Jack was glad he was not going to
Dr. Pullum's office to have his own
tooth out. The last time he had been
there the dentist had hurt him so that
Jack was not very fond of him. Jack
had run away as the dentist had
started to pull his tooth, and Dr. Pul-
lum, brandishing his forceps, had chased
him, finally catching him and get-
ting the tooth.

"Now Jack always wanted to run
when he saw Dr. Pullum. For this rea-
son he hung back a bit when they
came to the door of the office.

"I'll ring the bell, and then you
go right in and sit in the dentist's big
chair," said Jack to Lonesome Bear.
"Just show Dr. Pullum your aching
tooth and he will pull it out."

Lonesome Bear was in such pain
that he just nodded his head. Jack
rang the bell at the door of the office.
"Come in and shut the door!"
roared the voice of Dr. Pullum. The
voice was very cranky for that is the
kind of a dentist Dr. Pullum was.

It was funny to see Dr. Pullum
scared!

Jack opened the door and shoved
Lonesome Bear inside.

"What's the matter? What do you
want?" snapped the dentist, not look-
ing around.

"Wuu-ugh, my tooth hurts," growl-
ed Lonesome Bear.

At the sound of the growl the den-
tist looked around, his eyes nearly pop-
ping out of his head. He had expected
to see some unlucky small boy with a
swollen face. Instead he saw a huge,
fierce-looking bear.

Dr. Pullum was startled. Dr. Pul-
lum was scared. He gave one wild yell
then out he went through the window,
smashing and glass and all. He ran
faster than Jack had run when the
dentist chased him.

Jack was surprised to see the dentist
run. Then Jack began to laugh. It
was funny to see Dr. Pullum scared.
He had scared many a small boy into
fleeing, and now he himself was being
scared into a fit. Jack was so tickled
at the sight he tumbled on the floor,
rolling over and over as he howled
with laughter. He forgot all about
Lonesome Bear's aching tooth in his
delight at seeing the dentist run.

(How Jack turns dentist will be
told in tomorrow's chapter.)

THE FORUM

THE EGG MARKETING SITUATION

Just now there is an effort to make
a marketing arrangement for eggs in
this part of Idaho by assembling suf-
ficient eggs at Pocatello to grade,
brand and place on the markets of the
United States in carload lots. The plan
will require the assembling of the eggs
from 75,000 boxes at minimum that
could be undertaken to justify a grading
station.

Their plan for this locality is a part
of the Caldwell or Idaho-Oregon Egg
Marketing plan, operating at Caldwell
and marketing in connection with the
Utah Egg Producers, where they now
have 400,000 hens in the marketing
arrangement.

Their plan for us is the same as used
in California in the Potaluma district,
where 6,000,000 hens are in the mar-
keting arrangement. It is the same
plan as that used in the Puget Sound,
Washington, district and the Pacific
Egg Producers operating in Oregon.
This is the same plan coming into use
all over the United States.

Their effort being made here in Twin
Falls county is not the effort of any
one person, but of a number of pro-
moters or combination of promoters,
but is a plan that carries full en-
dorsement of our own Idaho university
extension force and our own Pocatello
Meat is one of the directors. Such
as Arthur Lamm, Mr. Shearer of
Pocatello, Williams. It is the same
plan as that used in the Puget Sound,
Washington, district and the Pacific
Egg Producers operating in Oregon.

Now the question is, are we in Twin
Falls county, do we want to go on
with poultry production, or do we want
to go back? If we go on some well-
known marketing plan, we will have the
product of our own better reared
our stocks. If this goes over it will
take your eggs along with mine to
make it go and we must decide this
week. There are enough eggs on the
Twin Falls track now to pack at Twin
Falls. They were all put together,
and when we put enough together on
the track that is what will be done, but
the only thing we can do at present
is to get in the Pocatello movement.

If I go on I must have it and so must
you. Let's take the opportunity
I can get to all of you separately,
but will meet personally in groups
and explain the entire plan, for
if you will arrange the groups, I be-
lieve, cash for your eggs will buy
the things you can now trade there
for, and some other things that the
money will not buy.

L. S. OTTO.

"What is Meant by 'Truce of God.'
In the Middle Ages private warfare
was very common and the church
stood in order to limit what they could
not wholly suppress. In the eleventh
century and later, the church had passed
decisions that there should be no such
warfare during certain holy seasons
and on certain days. By the end of
the eleventh century only about 80
days were left free of private warfare,
but almost all of these days came in
the summer when the fighting would
naturally be most common. These holy
seasons, when fighting was not allowed,
were called the 'Truce of God.'

TAXING BODIES
PAY \$198,700
ON BOND ISSUES

County Auditor's Report Shows
No New Obligations Incurred
and Substantial Debt Reduction
During Year.

Bonded indebtedness of Twin
Falls county and all taxing units
amounted to \$1,000,000 at the close of
the year, and was reduced to \$800,000,
and no new bond issues were floated
during the year, according to
figures compiled by the county
auditor's office to form a part
of the auditor's annual report for the
year 1923.

The reduction brought the total
bonded indebtedness of the county and
all taxing units down from \$1,000,000
to \$800,000 at the opening of the
year to \$602,181.50 at its close, the
records show. The statement includes
bond issue of one irrigation district,
the Miller Low Lift, with a bond in-
sue of \$400,000.

Bonded indebtedness of the county
was divided during the year by \$200,000,
leaving a balance of \$105,000.
Continued retirement of county bonds
in the ratio of last year will put the
county out of debt September 30, 1931,
it was stated.

Twin Falls Pays \$80,000.

Twin Falls city during the year paid
on account of general bonded indebt-
edness \$150,000, and on special im-
provement bonds \$30,000, for a total
of \$180,000.

Paid \$45,000 on general bonds
and \$25,000 on special improvement
bonds.

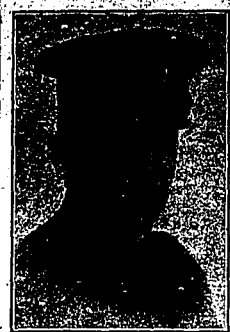

Paid \$40,000 on general bonds.
Twin Falls independent school dis-
trict paid \$40,000 on its bonded in-
debtedness, and all common school dis-
tricts retired \$9,200 worth of bonds.

State Taxes Computed.

Report as to state taxes assessed
against Twin Falls county taxpayers
during the past year also has been
completed for inclusion in the audi-
tor's report showing an aggregate of
\$101,423.38, which amount \$14,141.
37 was charged under the state tax
law, other items being accounted for
as follows: Horticultural inspection
tax, \$20.00; inheritance tax, \$20.85;
state and county license tax, \$1,141.38;
billiard rooms and similar establish-
ments, \$147.50; motor vehicle li-
censes, \$1,000.00; traffic tax, \$1,000.00;
recognition of fees in all court
cases, \$1,200.

Cruise Isle's Bleak Sisters.

The Chilean Islands of San Ambro-
sio and San Felix are mere pinpoints
of rock in the Pacific ocean, and are
not inhabited by man. About
the only life which the islands support
is that of a few stunted, desert shrubs
and a few seals and sea birds, says a
bulletin of the National Geographic
society. These islands were discovered
in 1521 by the same Juan Fernandez
who discovered and gave his name to
the equally desolated land that later
became "Robinson Crusoe's Island,"
300 miles to the south.

NEW POSTMASTER FOR
TWIN FALLS

WORD was received here Saturday
of the confirmation by the United
States senate of the nomination by
President Coolidge of Captain P.
W. McRoberts as Twin Falls post-
master to succeed M. A. Strunk.

M'ROBERTS GETS
SENATE'S O. K.
FOR POSTAL JOB

Word is Received Here of Con-
firmation of Local Man for
Postmaster; Date for Trans-
fer Not Fixed

Nomination by President Coolidge
of Captain P. W. McRoberts, suc-
ceeding M. A. Strunk, was con-
firmed Saturday by the senate, ac-
cording to telegram from Representa-
tive Addison T. Smith, re-
ceived by Captain McRoberts.

The date for the transfer of the
office was not designated, but it is
expected that two or three weeks
time will elapse while Captain McRoberts'
official bond is being perfected, and
that the transfer will be made
about April 1.

Is Well Known Resident.
Captain McRoberts has been a resi-
dent of Twin Falls for about 15 years,
coming here from Iowa, where he had
been employed as a railroad fireman
and later engaged in mercantile busi-
ness. He was manager of a mercantile
establishment here for several years,
giving up his position in 1910, when
he served on the Mexican border as
commander of the Twin Falls unit of
the Idaho national guard regiment.
Since his return from military service
overseas he has been district manager
of a local insurance company.

He is a veteran of two wars, having
served in 1898 in the war with Spain
and in 1917 in the war with Germany.
He was elected mayor of Twin Falls
in 1920 and served one year term.
Veteran of Wars.

M. A. Strunk will retire at the ex-
piration of almost nine years as Twin
Falls postmaster, serving in that po-
sition in a manner which has given
general satisfaction. He is a pioneer
of the Twin Falls county and is the
owner of a well improved fruit and
general farm out of town. He was
elected in 1910 as a member of the
board of county commissioners, serv-
ing a two-year term.

COURT TO DECIDE.

CAIRO, Egypt, March 12 (AP)—A pre-
liminary judgment in the controversy
between the Egyptian government and
the representatives of the Countess of
Carnarvon, over continuation of the
work in the tomb of Tut-mikh-amun,
recognizes the expert court competency
to decide the case. It admits the right
of counsel for the Countess of Carnarvon
of the estate of Lord Carnarvon, who
began the excavation operations in the
pharaoh's tomb to fight the case, and
orders the parties to appear before the judge.

Eden Rancher Buys
Bickel School Bell

The big bell that summoned
children of pioneer days in Twin
Falls to school in the Bickel school
building, has been sold for \$10 by
the Twin Falls school board to a
man of the Eden district,
who expects to put it to use on his
ranch, according to report made
to the board of education Monday
evening by W. H. Weaver, member
of the board, to whom arrange-
ment for sale of the bell had been
delegated. The Bickel school bell
was the first and only bell ever
purchased for use in Twin Falls
schools; and its use was discon-
tinued several years ago when a
system of ranges was installed in
all local school buildings.

Seeks Feed Here for
California Livestock

Southern Pacific General Agent
Asks Chamber of Commerce
to Give Advice

Anticipating increased demand for
livestock feeding grounds elsewhere
in view of "unsatisfactory feed con-
ditions in some parts of California,"
Fred S. Bancroft, general agent of the
Southern Pacific line, has requested
the assistance of the Twin Falls Cham-
ber of Commerce in obtaining infor-
mation as to where feed is available
for large numbers of cattle and sheep.

The chamber of commerce will be
pleased to communicate with the agents
in the region who have surplus pasture
or feed with a view to submitting this
information to the Southern Pacific
general agent, Secretary Charles F.
Dwight said Thursday when Mr. Ban-
croft's letter was received.

Mr. Bancroft's letter was as fol-
lows: "In view of unsatisfactory feed con-
ditions in some parts of California,
it is more than likely that we will be
called upon for information as to
where feed is available for large num-
bers of cattle and sheep."

"If you can give me with feed con-
ditions in your territory and advise
of any available pasturage, giving
name and address of party controlling,
number of acres, class of feed and
how many head of cattle and sheep
can be handled, we assure you this
information will be greatly appreciated."

Fountain of Bubbles.

A fountain of bubbles has proved a
great attraction in England. A ma-
chine is so arranged that 20,000 soap
bubbles a minute may be blown with
air and sent up into the air. The
beautiful effect is even more when the
bubbles on this fountain may well be
imagined. At nightfall artificial light-
ing and the use of colored dyes add
to the beauty and interest. The soap
bubble is also suggested as a substitute
for plexiglass or glass balls in
marksmanship contests.

LEGAL ADVERTISEMENTS

NOTICE TO CREDITORS

Estate of Charles T. Hurt, Deceased.
Notice is hereby given by the un-
dersigned administratrix of the estate of
Charles T. Hurt, deceased, to the cred-
itors of said estate, having claims
against the said deceased to exhibit
them with the necessary vouchers, with-
in four months after the first publica-
tion of this notice, to the undersigned
administratrix, at the office of Porter & With-
am, Twin Falls, County of Twin Falls,
State of Idaho, this being the first place
fixed for the transfer of the business of
said estate.

Dated March 3, 1924.

EMMA M. BURTT,
Administratrix.

NOTICE FOR PUBLICATION OF

TIME APPOINTED FOR PROV-
ING WILL, ETC.

In the matter of the estate of Ulrich G.
Taddiken, Deceased.

In the Probate Court of Twin Falls
County, State of Idaho.

Pursuant to an order of said Court,
made on the 4th day of March, 1924, a
notice is hereby given that Friday the
21st day of March, 1924, at 10 o'clock
A. M. of said day, at the Court Room
of said County, at the Courthouse in the
City of Twin Falls, Idaho, has been ap-
pointed as the time and place for proving
the Will of said Ulrich G. Taddiken,
deceased, and for hearing the application
of Albert Taddiken for the issuance to
him of letters testamentary when and
where any person interested may ap-
pear and contest the same.

Dated March 4, 1924.

(SEAL) O. P. DUVALL,
Probate Judge.

plaint has been filed against you in the
District Court of the Eleventh Judi-
cial District of the State of Idaho, in
and for Twin Falls County by the
above named plaintiff, and you are
here

THE MARKETS

BRIEF RALLY FOLLOWS
DROP IN WHEAT PRICES

Lowest Prices Recorded Since Last August 7. Abandonment of Belief of Shortage Is Bearish Factor

CHICAGO, March 13 (AP)—Wheat today fell to the lowest price since August 7, but rallied somewhat when it was learned that 2,000,000 bushels of Canadian wheat had been bought for shipment to Europe. Abandonment of belief of a shortage of wheat supplies east of the Rockies was a leading bearish factor. Wheat closed unsettled 1-2 to 7-8 net lower, May \$1.09 and July \$1.08 5/8. Corn finished unchanged to 3-8 off, oats varying from 3-8 decline to 1-4 advance and provisions 2 to 20c down.

Liquidating sales on the part of holders of wheat outweighed every other consideration in the wheat market during the first half of the day. Evidence was at hand in this connection that disappointment over government reports failing to sustain the domestic shortage theory, which for months has been one of the big propellers of the price of wheat.

As a result of adequate support for prices developed until May delivery had touched as near as nearly \$1.05, a level within 1-8 of the season's low point and 7c higher last week's high point.

In addition to the large purchases of Canadian wheat for Europe, a little export business was done here in the same time. Crop complaints from states east of the Mississippi also were noted, but for at least the time being were treated as of only passing moment.

Vigorous buying rallied corn and oats from moderate declines in sympathy with wheat. Reports of delay to oat seedling were current. Traders virtually ignored talk of substituting rye for corn, though rye was selling here at the lowest price this season.

Packers selling weakened the provision market.

Wheat—	Open	High	Low	Close
May	100 1/2	100 3/4	100 1/4	100 1/2
