

## AVOID STRIKE OF WORKMEN ON RAILROADS

Labor Board Takes Jurisdiction of Wage Dispute; Brotherhood Heads Claim Traffic Will Not Be Stopped.

CHICAGO, May 14. (AP)—The United States railroad labor board assumed jurisdiction today over the wage question which was considered in conference with the firemen's and engineers' brotherhoods. A general manager's committee representing virtually all class one carriers operating west of Chicago. The concerned conference terminated yesterday. Representatives of the employers declared that it signified their intention to return to their former policy of negotiating with individual systems.

David B. Robertson, grand president of the brotherhood of Locomotive Firemen and Engineers, and Harry P. Daugherty, vice president of the Brotherhood of Locomotive Engineers, were on record as saying that no interruption of traffic was threatened and that separate negotiations by systems were to be resumed forthwith.

The action of the board was in response to an appeal made by W. M. Jeffers of Omaha, chairman of the western general managers conference committee. Mr. Jeffers asked the board to take jurisdiction now or be prepared to take jurisdiction later to prevent possible interruption of traffic. The board is empowered to assume jurisdiction when interruption of traffic is threatened.

## MAN OF MANY ALIASES IS HELD FOR ROBBERY

NEW YORK, May 14. (AP)—Henry Edman, an Englishman of a half-dozen aliases and a suspect of several of this city's most sensational unsolved crimes, was in custody tonight on an alleged confession that he had robbed Mrs. Edward Johnson, wife of the playwright, and robbed her of \$6000 worth of gems at the Hotel Alhambra last Monday night.

Witnesses were summoned to his cell tonight to see if they could identify Edman as a participant in the drugging, robbing and murder of Dorothy Johnson, and the murder of Dr. Lawrence. Police declared they also had clues linking him with a Broadway shop silk robbery two weeks ago.

## NO WORD FROM FLIER

CORDOVA, Alaska, May 14. (AP)—Wireless messages received here from St. Paul Island in the Aleutian group gave no word as to whether three United States army air cruisers circling the globe had left Attu Island for Paramushiro Island, in the Kuriles of Japan, at 3 o'clock today.

## WOULD INCREASE SALARIES

WASHINGTON, May 14. (AP)—Salaries of supreme court and other federal judges would be increased under a bill introduced today by Chairman Graham of the house judiciary committee.

## Foley Is Elected To Succeed Murphy as Tammany Chief

Only Two of 70 on Executive Committee Vote Against Surrogate; New Leader Is Contrasted with His Predecessor.

NEW YORK, May 14. (AP)—Surrogate James A. Foley tonight was elected successor to the late Charles F. Murphy, as head of Tammany hall. Only two of the 70 members of Tammany's executive committee voted against him.

Tammany men say Surrogate Foley is a model of the "new era" type of politician which the hall has been moulding in recent years.

His predecessors were mostly men of humble parentage and lowly environment; men born in the city's teeming tenement and waterfront districts who, by sheer force of physical prowess and inherent political acumen, fought their way to place and power.

The new chief is 42 years old, a graduate of the local public schools, and with honors, of the College of the City of New York and the New York Law school. At the age of 25 he entered politics and straightaway was elected to the assembly. Six years later he was elevated to the state senate where he remained until, in 1919, he was elected to the surrogate's bench at a plurality of 15,000 when every other democrat on the ticket went down to defeat.

His record of legislative achievements covers a wide field. He sponsored in the senate the first comprehensive bill providing a living wage for women.

## O. S. L. Net Income in 1923 Placed at \$5,467,440, Total

Decrease of \$41,000 Under Previous Year Shown in Report to Commission.

SALT LAKE CITY, May 14. (AP)—The net income of the Oregon Short Line railroad for 1923 was \$5,467,440, or a decrease of \$41,000 compared with the preceding year, according to the annual report filed today with the state public utilities commission.

Of the earnings \$4,000,000 was paid as the regular four per cent dividend on capital stock, and \$17,780.80 was applied to sinking and other reserve funds. The balance of \$1,467,440 was transferred to the profit and loss account. At the beginning of the year there was \$13,650,753.81 in this account, and the balance after receipts and disbursements had been made was \$14,109,978.75.

## WHEELER GETS CLEAR BILL IN SENATE PROBE

Borah Committee Finds Montana Senator Did Not Accept Money for Influence in Obtaining Federal Oil Permits.

WASHINGTON, May 14. (AP)—Senator Burton K. Wheeler, democrat, Montana, is "wholly exonerated" in a majority report filed today in the senate by Senator Borah, republican, Idaho, chairman of the senate committee which investigated charges that Senator Wheeler accepted a fee from Gordon Campbell, a Montana oil operator, to prosecute oil land claims before the interior department after his election to the senate.

The vote in the committee was four to one. Senators Borah and McNary, republican, Oregon, and Swanson, Virginia, and Caraway, Arkansas, democrats signed the majority report, but Senator Steiwer, republican, South Dakota, reserved the right to submit separate views. He expects to do so within the next few days, and meantime, said he did not assume to pass upon either the guilt or innocence of Senator Wheeler.

The charges investigated by the committee previously had been made the basis for an indictment returned against Senator Wheeler by a grand jury sitting in his home state. There was mention of that indictment in the report, but there was reference to the activities in Montana of Blair Coan, who testified he had been sent there by Secretary Lockwood of the republican national committee, and had gathered information which was used in obtaining the indictment against Wheeler.

The majority report held that the committee was authorized to inquire into the sole question of whether Senator Wheeler agreed to receive or had in fact received money for prosecuting claims before a government department in violation of the statute. The majority found that he "neither received nor accepted nor agreed to receive or accept any compensation whatever, directly or indirectly, for any service rendered or to be rendered, to any person, either by himself or another," in relation to any proceedings before any department of the federal government.

## DISCUSS CAMPAIGN PROBE

WASHINGTON, May 14. (AP)—Details of campaign expenditures were considered today by the senate Mayfield committee. The exact form in which the matter is to be presented is yet to be determined, but an official investigation may be proposed. Should this course be taken there are indications that a general inquiry, such as that which preceded the 1920 national political conventions, would not be unlikely.

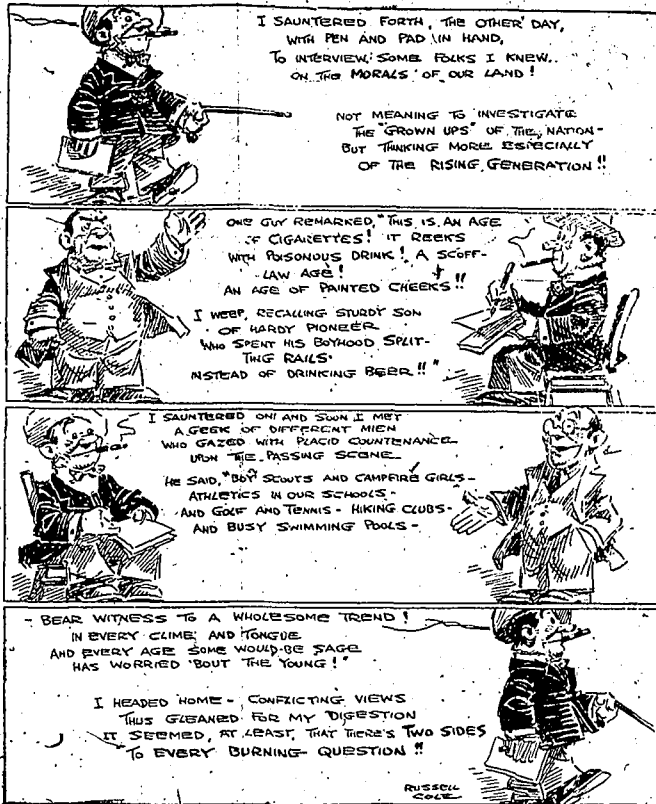

## LANGLEY REPORT IS READY

WASHINGTON, May 14. (AP)—The report of the house committee authorized to investigate criminal charges against Representative Langley of Kentucky, and Chairman of Maryland, both republicans, will probably be submitted tomorrow to the house. It will cover both phases of the inquiry, committee members said, but they declined to give up anything as to the findings.

## FLIGHT PROGRESSES

ALLAHABAD, British India, May 14. (AP)—The British aviator, Stuart MacLaren, engaged in an attempted flight around the world, arrived here today from Nairabab. He plans to hop off for Calcutta tomorrow.

## Forest Fires Gaining; Report New Outbreaks

Reclamation Head Endorses New Plan for Water Charges

Director Mead Urges Passage of Bill Proposed in House by Chairman Smith.

WASHINGTON, May 14. (AP)—Director Mead of the reclamation service told the house irrigation committee today that water charges to settlers in irrigation districts should be based on crops rather than the cost of supplying the water.

He endorsed the report of Secretary Mead's fact finding commission and urged passage of a bill proposed by Chairman Smith to carry out the commission's recommendations.

## EXPECT ORCHARD-BOISE ROAD TO OPEN IN FALL

SALT LAKE, May 14. (AP)—In addition to the Rogers-Wells branch, now under construction, which will give the southern Idaho counties an outlet to the Pacific coast, it is expected that the Orchard-Boise road will be ready September, according to General Manager H. V. Platt of the Oregon Short Line. Excellent progress is being made on the roadbed and the tracklayers are following closely behind the grading crews.

A feature of the construction of the road in the boring of a tunnel 950 feet long about ten miles from Boise. The grading crews have made their way more than two-thirds of the distance through the mountain and no difficulty of any consequence have been encountered. The tracklayers are expected to catch up with the grading crew about the latter part of July. The opening of the Orchard-Boise section will mean much to the Idaho capital in its development and will aid greatly in the marketing of the products of that region to both eastern and western markets.

## KLAN OFFICIAL CLAIMS ISSUE BEING EVADED

ATLANTA, Ga., May 14. (AP)—Nathan Bedford Forrest, grand dragon of the Ku Klux Klan in Georgia, declared in a signal statement issued here today that the statement issued by the Underwood committee in Washington was inspired by an effort to divert attention from their candidates' record and obscure the real issue in the campaign. "The real issue in the campaign for the democratic presidential nomination is the prohibition question," the statement said.

## DEATH OF SUN IS CONFIRMED

Situation Rapidly Growing Serious in Pend d'Oreille and Flathead Districts; Flames Spread in Kootenai area.

MISSOULA, Mont., May 14. (AP)—With receipt of reports of two large fires in the Flathead forest and of four configurations hitherto not reported from the Pend d'Oreille forest, the fire situation in district No. 1 became more serious today.

A complete report of the Pend d'Oreille forest fires was received in a letter this afternoon giving the status of eight of these in the forest and one of 600 acres in private timber.

They all were reported spreading before a high wind in dry territory. Seven new fires broke out in the Kootenai forest Tuesday, reports to say, two of these being large and dangerous and consuming valuable timber. One 500-acre blaze is cutting its way through the Callahan creek timber which was recently purchased by a Sand Point lumber company.

On the north fork of the Yank river another fire has covered 200 acres of virgin timber in that section of the Kootenai. Thirty men are fighting this blaze, while 125 men, 65 of whom belong to the forest service, are battling the Callahan creek fire. In the Pend d'Oreille territory, a 600-acre fire is burning a valuable stand of privately owned timber of the Rogers-Wells Lumber company at Leona. This blaze, while it is outside the national forest, is threatening a fine stand of timber on the federal reserve. A large force of men has been put to work combating the flames.

## PROPOSE AMENDMENTS

DENVER, May 14. (AP)—Discussion of proposed amendments to the constitution and acceptance of the report of M. H. Welch, treasurer of the union, occupied all sessions today of delegates to the triennial convention of the Switchmen Union of North America, which opened here Monday. The nature of the proposed amendment was not given out.

## MUNDELEIN SPEAKS

CHICAGO, May 14. (AP)—Ignorance, not viciousness, is what creates anti-Catholic atmosphere, Cardinal Mundelein declared tonight at a dinner of the Catholic church extension society. And for that ignorance he blamed "the Catholics."

## RAIL RATES SUBJECTED TO DEBATE

Senator Gooding's Long and Short Haul Plan Is Topic for Long Discussion in Senate; Transportation Act Argued.

WASHINGTON, May 14. (AP)—Transportation rates questions came to the front today in both ends of the capitol. The senate devoted its entire session to debating the proposed modification of the long and short haul action of the interstate commerce act, while in the house the rate making sections of the transportation act came under attack. Continued discussion in the senate for the second day of the proposal to attach the Gooding long and short haul bill to the pending army appropriation measure as a "rider" brought an open charge of a filibuster and when a recess was taken proponents of the legislation refused to enter into any agreement to limit debate. "Suggested" as an amendment to the army bill, the Gooding proposal has not been offered as such, it was charged, because it would at once be subject to a point of order as general legislation, a question which would be determined under the rules without debate.

## Books Signatures

In the house Representative Shallenbarger, democrat, Nebraska, continued his efforts to obtain signatures to his petition seeking discharge of the commerce committee from further consideration of the Gooding bill which would repeal the rate making section of the transportation act asserting its passage would result in freight charges being reduced one billion dollars a year. Tonight he had obtained 27 signatures of the 150 required to make the petition effective.

Representative Leo, democrat, Alabama, opposing discharge of the committee, contended freight rates were now relatively lower than general commodity prices when compared with prior levels and Representative Hoch, republican, Kansas, said the rate making section had been "grossly misrepresented" by those seeking its elimination.

## Favors Gooding Bill

Senator Pittman, democrat, Nevada, led the transportation bloc on the floor of the senate in the fight for the Gooding proposal, which would modify the long and short haul clause, especially in restricting exceptions which may be made, notably in the matter of railroads meeting water competition. Chairman Warren of the appropriations committee, the senate majority leader, said the rate making section had been "grossly misrepresented" by those seeking its elimination.

## McAdoo is Certain to be Nominated Rockwell Believes

Campaign Manager Says His Forces Will Not Oppose Motion by Brennan for Abolition of Two-Thirds Rule.

LEXINGTON, Ky., May 14. (AP)—If a motion is offered in the democratic national convention for George E. Brennan, Illinois democrat leader, for the abolition of the two-thirds rule in the national meeting it will be unopposed by the McAdoo forces, David Ladd Rockwell, national McAdoo campaign manager said in a statement here tonight.

The statement commenting upon the outcome of the Kentucky democratic convention today, concluded thus:

"Before leaving Kentucky I wish to make a statement by Mr. George E. Brennan, Illinois democrat leader, for the abolition of the two-thirds rule in the national meeting it will be unopposed by the McAdoo forces, David Ladd Rockwell, national McAdoo campaign manager said in a statement here tonight.

"The Kentucky democratic convention today, concluded thus: 'Before leaving Kentucky I wish to make a statement by Mr. George E. Brennan, Illinois democrat leader, for the abolition of the two-thirds rule in the national meeting it will be unopposed by the McAdoo forces, David Ladd Rockwell, national McAdoo campaign manager said in a statement here tonight.'

Thursday: Fair and continued warm.

## PARTY LEADERS WOULD ADJOURN EARLY IN JUNE

Organization in Both Houses  
Striving to Call off Sessions  
in Time for Conventions;  
Much Work Remains.

WASHINGTON, May 14 (AP)—Adjournment of congress by June 7 is the goal toward which the democratic and republican organizations in both the house and senate are striving, President Coolidge was told today by a group of house leaders. They expressed confidence that the legislative program would be in shape to permit a get-away despite increasing talk, particularly in the senate, that this is a remote possibility.

During a White House conference Representative Garner, the democratic leader, and Representative Garner, Texas, ranking democrat on the ways and means committee, agreed to do their utmost to bring about adjournment before the June political convention. Their views on the wisdom of such a policy coincided with those previously expressed by President Coolidge and Representative Longworth, the republican leader, who participated with several other house republicans in the discussion.

The president was informed that senate leaders, democratic as well as republican, were in sympathy with the June 7 adjournment program and were hopeful that it could be carried through. It was admitted, however, that demand is growing for action on certain legislative proposals and that a last minute hitch in plans might keep congress in session through most, if not all, the summer.

On the floor of the senate today several senators declared that Henry Ford's offer for Muscle Shoals must be left to a vote before the adjournment of the session, while Chairman Norris of the senate agriculture committee asserted he saw little prospect of a windup early in June. Chairman Warren of the senate appropriation committee, urging a speeding up of the legislative program, suggested the congress either "fish or cut bait."

Tentative plans of house republican leaders for the remainder of the session call for action on a variety of miscellaneous bills and for action on the McNary-Haugen farm relief bill, the postal salary measure, and the McAden bill, to amend the national bank and federal reserve acts.

The McNary-Haugen bill will be given right of way either the last of this week or early next week, with probably three days devoted to general debate.

Several additional days, it is agreed, will be required for consideration of the measure under the five-minute rule with amendments in order.

Brickmaking is Ancient Art.—Brickmaking was one of man's earliest pursuits. Babylon was acquainted with the art, and it is recorded that the Israelites baked bricks from clay mixed with chopped straw, much in the same manner that has come down to the present day.

Peanut is Native of Brazil.—The peanut is considered to be a native of Brazil, whence it was introduced into Europe shortly after the discovery of South America. From there it has been carried by man to nearly all warm climates throughout the world.

Tremendous Lady Killer.—There goes Colonel Potty. I heard daddy say that he was a tremendous lady killer when he was young. "I spec' they died of fright!"—London Humorist.

Least Government is Best.—Government, which governs least governs best, for one reason, because it doesn't cost so much.

### Chief Figures in News of the Day.

ABOVE: BABE ADAMS AND THOMAS I. BLANTON.  
BELOW: MRS. MAUD BALLINGTON BOOTH AND ALBERT J. BEVERIDGE.

EX-SENATOR ALBERT J. BEVERIDGE of Indiana, mentioned as the republican vice-presidential candidate, is a guest at the White House. Congressman Thomas I. Blanton, democrat of Texas, was the target for a chair and a book when he engaged in a fight with Congressman William O. Hammer, democrat of North Carolina. Mrs. Maud Ballington Booth, "little mother" of the Volunteers of America, of which her husband is head, went to her summer home on Fire Island, 60 miles from New York, to write a lecture on prison reform. Receding tides left her boat high on the beach. She set signals of distress, and coast guardsmen, believing she had found a run runner's nest, burst in on her with drawn pistols. Embarrassed, they took her to the mainland, while her husband was organizing a searching party. "Babe" Adams, for 16 years the pitching ace of the Pittsburgh Pirates, broke down in the middle of a game on Forbes Field, and will never pitch again.

### "POODLES" HANNFORD IS ROMEO AND BUFFALO BILL

"Poodles" Hannford, as a combination Romeo and Buffalo Bill, is providing laughter in wholesale lots in his new Educational-Tuxedo comedy, "The New Sheriff," at the Idaho the balance of this week. "The New Sheriff" is a "western" where the men are all "hard boiled." "Poodles" is the new sheriff in the town, and from reading dime novels, imagines himself a great lover and a great sheriff. His romantic disposition gets him into trouble when he tries to serenade the Mexican beauty of the town with a trombone.

"Poodles" is best known as the famous clown of the New York Hippodrome, where for years he was a stellar attraction. However, he does not appear in the familiar grotesque make-up of a clown. He is an expert horseman and his clowning at the Hippodrome was done as a bare-back rider. He is, in addition, a dancer, tight-rope walker, and juggler, and a pantomimist of rare ability.

### PICTURE AT THE ORPHEUM IS REplete WITH THRILLS

At last a picture that is absolutely different. Wonderful thrills! Tremendous dramatic! Beautiful romance! And a climax that will literally lift you out of your seat with excitement! It is more than a great picture—it is a life of life, vibrant with realism, brought to the screen.

"Judgment of the Storm" has every quality that goes into making a fine production. It is filled with dramatic T. N. T. with a punch in each reel big enough for the climax of several ordinary photoplays. It is an example of how good a picture can be. This picture is at the Orpheum today.

### Oysters Must Have Salt

Oysters cannot live in the Baltic sea. The reason being that it is not salt enough. They can only live in water that contains at least 37 parts of salt to every 1,000 parts of water.

## IMMIGRANT BILL WINS MAJORITY

Measure Fixing July 1 as Effective Date to be Ready for Signature This Week.

WASHINGTON, May 14 (AP)—President Coolidge, was informed authoritatively today that the immigration bill, fixing July 1, 1924, as the effective date of Japanese exclusion, in all probability would be ready for his signature before the end of this week.

Leaders of both parties in the house were understood to have reported at a White House conference that so large a majority of that body were in favor of the conference report as now drawn that when it was presented tomorrow the opposition would be no more than perfunctory. At the same time the president was told the report would be presented to the senate as soon as acted upon at the other end of the capitol and that the outlook was for immediate adoption.

The White House conference was attended by Representatives Longworth, Ohio, and Garrett, Tennessee, the republican and democratic leaders; Chairman Sull of the rules committee, and Representative Garner, Texas, ranking democrat on the ways and means committee.

While the legislative situation generally was discussed the president was understood to emphasize his continued interest in the immigration problem, his inquiries being directed toward determining beyond question the impossibility of further efforts to obtain a compromise on the conference date meeting with success in the house.

Crabberries Most Profitable.—Crabberries are the most profitable crop an acre in the United States. Farmers cultivating crabberries last year earned an average of \$250 an acre.

I will open up the Public Market May 10, with a full line of garden plants and early seed spuds. D. K. Frost, Public Market.—adv.

### BERGER

BERGER—Mrs. Everett Griggs delightfully entertained the Loyal Neighbors club Friday. Mrs. Whitehead and Mrs. Robert Griggs assisted the hostess. The afternoon was spent in sewing, music and social conversation. The next meeting will be May 23 with Mrs. E. E. Lathrop.

Neal Daugherty, who has spent the winter and spring in Los Angeles, returned to his home Thursday.

Herman Griest who spent the winter at Lava Hot Springs, was down for a

visit last week. He will be back soon to resume his work at the T. S. Hayes ranch.

Mr. and Mrs. Richard Lincoln of Filer were visitors at the C. Cliver home Sunday.

Miss Mae Griggs returned to her home Friday from Albion State Normal school.

Mrs. C. V. Daugherty is confined to her bed with the flu.

Mrs. Fred Stone is visiting with her mother, Mrs. C. D. Christianson while her husband is in Kansas.

## THE GUMPS—BOUND FOR LOVELAND

COOLIDGE BUSY  
ON BONUS BILL  
VETO MESSAGE

No Attempt Being Made to Conceal President's Intentions of Opposing Soldier Measure; Expect Action Soon.

WASHINGTON, May 14 (AP)—President Coolidge today began preparation of the message he will send to the house in explanation of his veto of the soldier bonus bill.

While no official announcement has been made that Mr. Coolidge will veto the measure, persons close to the executive have made no attempt to conceal his intentions. The fact that he began preparation today of a message to the house, was considered positive proof of his decision to return the measure without his signature.

The president's message may be sent to the house tomorrow or it may be delayed until Friday. The ten day period during which the executive may act on the bill will expire midnight Friday.

The message is expected to be somewhat similar to that sent to the senate by Mr. Coolidge in vetoing the Bureau pension bill, in that it probably will cite the drain the measure would impose on the treasury. Director Lord of the budget in a report submitted to the president along with reports from the treasury department and the veterans' bureau is understood to have presented an estimate that the bill would cost \$152,000,000 the first year \$146,000,000 for cash and insurance payments and \$9,500,000 for administration.

The treasury in its report is understood to have presented an estimate as to the total cost of the measure, figuring this cost at \$6,700,000,000 over a 60-year period. The veterans' bureau report dealt merely with administrative provisions of the measure.

## TWO BASEBALL GAMES TODAY

High School Team to Meet Caldwell Nine; Cosgriff's Men Play Factory Outfit.

Coach Ray Berry and eleven members of the Caldwell baseball team arrived Wednesday for their scheduled two-day skirmish with the Bruins. On the ill-fated trip in which the Bruins lost three games of the four played last week, Caldwell and Twin Falls divided honors, each winning a game by a single point, insuring fast games for the next two days when the superiority of the two outfits will be decided.

Final workouts have been held and the blue and white squad finishes its season with two games.

In the city league an opening game is also scheduled for the other ball park.

The sugar-factory team, after winning a five-inning game at Hansen Saturday, will meet Cosgriff's nine for a six- or seven-inning game at 6 o'clock this evening.

For the batteries on the sugar factory team, Cole and Silvers have proved to be a good combination, while Phil Ellis, Caplan Lavelle and Richard played last week, Caldwell and Twin Falls team which will make its first appearance in the new suits which are creating favorable comment.

With the arrival of the pitcher from Salt Lake, for whose services Manager Cosgriff has arranged with the university club of the Coast league for the summer months, the local club will get its season started, it is thought, about May 30.

In spite of the large turnouts, much of the real material for the summer months is being held by the university players who will be in Twin Falls for the summer months.

Gold Beating an Ancient Art. Gold beating is one of the most ancient arts in the world, having been known to the early Romans, Greeks and Egyptians. Although powerful machinery is used for gold beating in these days, the final process is still done by hand, as it was centuries ago.

## BEANS TAKE ACTION UNDER LICENSE PLAN

Meeting of Growers, Shippers and Bankers Here Approves Regulations for Government Warehouses.

Bean growers, shippers, warehouse operators and bankers of this district, at an all-day session here Thursday, heard officials of the United States department of agriculture, and provisions for government licensing of bean warehouses; indicated their approval of this measure, and reached an agreement as to basis for bean grades soon to be promulgated by the Idaho department of agriculture. The occasion for the meeting which was regarded as highly important to the state in view of the possibilities involved for advancement of Idaho's rapidly developing bean production industry, was one of a series of five public hearings scheduled by the federal department of agriculture in connection with the extension of provisions of the warehouse act, authorized by congress in 1923, to include bean warehouses.

Proposed regulations and procedure under which already established warehouses may be licensed by the federal government, and under provisions of the warehouse act were explained at length at this hearing by H. S. Yoho, in charge of the warehouse division of the department of agriculture. Mr. Yoho, Paul M. Williams, also of the warehouse division.

Interest was indicated on the part of participants in the hearing and answers were given by the officials in connection with covering many phases of the subject.

Plans for Idaho bean grades agreed upon by participants in the hearing received the approval of the federal officials, who stated that while grading in connection with operation of government bean warehouses, bean grades have been established.

Question of grades was introduced into the hearing by L. C. Schuch, federal supervisor of inspection co-operating with the Idaho department, and M. L. Dean, director of the Idaho bureau of plant industry. Suggested Idaho bean grades approved at this meeting. Mr. Yoho, in charge of the warehouse division of the department of agriculture, gave the approval to four suggested grades for Idaho beans, namely: Choice hand-picked, Number 1 hand-picked, choice selected, and Number 1 selected.

In opening the hearing which was held in the postoffice building, Mr. Yoho stated that the hearing here was arranged at the instance of Representative Adair, and that the hearing was held in the department of agriculture officials the growing importance of Idaho bean production.

Tails of Advantages. In explanation of the advantages expected to result from extension of the provisions of the warehouse act to bean warehouses, Mr. Yoho said: "To encourage proper storage of agricultural products and to develop a warehouse receipt which will be acceptable to bankers generally as security for loans on agricultural products, congress passed the limited state warehouse act in 1916.

"Originally the law applied only to cotton, grain, wool and tobacco. Growers of other products saw the benefits which growers of the four products mentioned secured. They saw how the cotton grower, the wool grower and the grain grower secured hundreds of millions of dollars of loans through the use of the warehouse receipt which a warehouseman who operates under the federal law must issue. The result was that financial centers at great distances from heavy producing centers sent large amounts of money into the agricultural areas.

"Seeing this economic change, growers in agricultural areas producing crops other than cotton, wool, grain and tobacco, began to file request with congress to extend the law to other products. In answer to this demand congress in February 1923 authorized the secretary of agriculture to extend the law to such products as he might consider proper.

"Among the first request for an extension of the law to other products was one to extend it to beans. The department of agriculture in answer to the demand, has drafted proposed regulations for bean warehouses. However, before actually putting the regulations into effect the department decided it should hold public meetings in the heavier producing areas so that those interested in the bean industry might have a chance to discuss the regulations and offer any suggestions they may desire."

Mr. Yoho and Mr. Williams left Thursday evening for San Francisco where a meeting is to be held May 13, and the series of five hearings will be scheduled May 15 at Los Angeles. Hearings prior to the one held here were held at Rochester, New York; Lansing, Mich., and Denver, Colo.

Participants in hearing. Bean growers of this region were represented at the hearing here by T. M. Beld and Dr. H. C. Gifford, officials of the Southern Idaho Bean Growers' association. Bankers in attendance included J. E. Maxwell of the First National bank, Twin Falls, and L. T. Wright of the Twin Falls Bank and Trust company. Warehouse operators who participated in the hearing included Wilfred Olson and O. J. Childs of Elmer; E. D. Kinney, C. P. Bowles, W. T. Leal, J. H. Seaver, Alvin H. Hunsaker, Fred of Twin Falls.

Art of Lacquer Work. While the art of lacquer work was first known to the Chinese and taught by them to the Japanese, this latter nation has so far excelled all others that authorities have said that lacquer in all its uses and decorations is a truly Japanese belonging.

Highest Tides in Maine. The highest tides in the United States are Eastport, Me., where the average rise and fall is eighteen feet and two inches.

## SOCIETY

Edited by Mrs. R. W. Williams Telephone 396

Mrs. D. E. Regan presented her music pupils of the senior high school in a fine program of classical selections on Tuesday evening at the Parish hall. Instrumental duets were given by Viola and Boush Selck, Valine and Elma Rowberry, Ruth and Lawrence Turner, Eugene and Betty, and Betty Bowers and Vera Wynn and Irene and Zola Bawlsby. Piano solos were played by Floyd Holquist, Irene Bawlsby, Rialto Steele, Thelma Erickson, Bertha McCleary, Dahlia Rockwitz, Phyllis Hoggan, Nellie Galloway, Viola Selck, Thelma McKinney, Vera Wynn, Mary Ray, Lawrence Turner, Raymond Bald, Mary Virginia Hart and Ruth Snowhill.

There also was a reading by Miss Dorothy Barger, a vocal solo by Miss Marie Brady of Elmer, a musical reading by Miss Cora Jensen and two readings by a string quartet composed of Miss Teresa Peltz, Felix Adriani, Zenna Smith and Mrs. Regan.

The M. S. S. club was pleasantly entertained by Mrs. David Brown and Mrs. C.W. Griggs at the home of the former in the Reed apartments Wednesday afternoon. The meeting opened with a string quartet and roll call was responded to with quotations in honor of "Mothers' day." After a brief business session the following program was given: Vocal solos "Little Mother of Mine" and "Little Dutch Garden," by Mrs. Glen Sturdevant; piano accompaniment by Mrs. H. H. Blinn; a poem, "The Origin of Mothers' Day," by Mrs. Hamilton. The Altia string quartet gave three numbers, "Serenade," by Drigo, "Whispering Flowers" and "La Saceret," all of which were greatly enjoyed.

A paper by Mrs. C. R. Shipman on "Mother's day" was read by Mrs. C. W. Griggs. A guessing contest was then enjoyed with Mrs. Concanen winning the favor. The program closed with a piano solo played by Ruth Griggs. Delicious refreshments were then served by members and the following guests: Madeline Simons, Snook, G. L. Berg, Sturdevant, Shotwell and Ray Brown. The hostesses were assisted in serving by Audra Griggs and Fay Hertz.

### PROSPECTS ARE PLEASING

A talk on Rotary ideals by Judge A. Walters for the benefit of Dan Cavanaugh, recently elected to membership, featured the regular weekly luncheon meeting of the club held Wednesday.

A number of visitors from outside points were present, including one or two from Boise both of whom in brief talks touched upon the splendid prospects of the Twin Falls country and offered congratulations to southern Idaho in connection with the announcement of the letting of the contract for the grading of the new Wells-Rogerson line.

Virgil Laird and J. H. Barker, members of the Buhl club, were in attendance. Joe Madsen, a former member, also was on hand. C. C. Boe, president-elect, served as chairman.

One-fourth off on all pneumatic tires 34x4 and larger until May 15th, at the Idaho Auto & Supply Co.—adv.

## COUNTY BOARD MAKES CUT IN OFFICIALS' PAY

Salaries of Eight Elective Officers Trimmed \$1800 by Action of Commissioners; Auditor Raises Question.

Twin Falls county commissioners Thursday fixed salaries of elective county officials for the two-year period beginning January, 1925, ordering reductions ranging from 10 to 50 per cent and effecting an annual saving in the aggregate of \$1800 on account of salaries paid to eight county officials.

Protest was made by C. C. Higgins, clerk of the district court and county auditor and recorder against the commissioners' action for reduction in his salary from \$2000 to \$1800 a year. Mr. Higgins argued that he had been elected two years ago for four-year term and that the commissioners could not legally change the salary before the expiration of that term. The commissioners stated that they would seek legal advice and invited Mr. Higgins to present his protest again next Saturday.

Outgoing Officials Not Affected. Terms of all other county officials will expire before the new salary schedule becomes effective. Salaries of commissioners and of the county attorney being fixed by statute, were not considered by the commissioners in fixing the other salaries.

The present schedule of annual salaries which was fixed four years ago and the new schedule for each office as fixed Thursday by the commissioners are as follows:

	Present.	New.
Auditor	\$2000	\$1800
Treasurer	2000	1800
Recorder	2000	1800
Assessor	2000	1800
Probate judge	2000	1500
Supt. of schools	1800	1500
Coroner	200	100
Surveyor	200	100

### Members of the board of commissioners stated that they had been advised in reducing salaries of county officials by consideration of economic depression prevailing particularly in the farm industry.

Each of the three members of the board prepared a suggested schedule of salaries, the final action representing the consensus of the board's opinion on the subject.

### Commissioners' Pay Fixed.

Twin Falls county commissioners have received annual salaries of \$900 each since the county was reduced from first to second class by the 1921 session of the state legislature, commissioners' salaries being fixed by statute in accordance with the grade of the county. Effort was made following the election of the present board of commissioners, to restore the county in the last legislative session, but was defeated. Under first class rating the county commissioners would receive annual salaries of \$1500 each.

### AUDITOR TAKES TIME TO ANSWER

Cross-Examination by Counsel For Peters and Lechleiter Involves Resummary of figures.

Defense counsel in the trial of K. S. Peters, former manager, and Frank G. Lechleiter, former secretary of the Mutual Building and Loan association, charged with embezzlement of \$18,442 of the association's funds, early Wednesday afternoon began cross examination of Edwin W. Wilson, Twin Falls accountant, whose testimony for the state relative to the figures of the association has occupied most of the three days since the trial in the case was opened Monday in district court here.

Questions propounded by Homer C. Mills of defense counsel, required, Mr. Wilson stated, a new summarization of figures contained in the audit he had made of the association's books and records, and recess was taken at 1:30 o'clock to give time for this work.

At 4:30 o'clock the work had not been completed and the jury was excused at that hour until 9 o'clock this morning.

# UTAH CONSTRUCTION COMPANY AWARDED CONTRACT FOR GRADING NEW RAIL LINE

## Track Laying Gangs Will be at Rogerson Within Fourteen Days

General Manager Announces Short Line Plans to Complete Entire Stretch of Rogerson-Wells Railroad by June 30, 1925; Heavy Steel Will Carry Weight of Main Line Traffic.

### LATEST ANNOUNCEMENT RECALLS EFFORTS ON BEHALF OF PROJECT

BY THE ASSOCIATED PRESS

SALT LAKE CITY, May 13.—The Utah Construction company has been awarded the contract for the grading in connection with the construction of the Rogerson-Wells line which runs in a southerly direction from Rogerson, Idaho, and connects with the Southern Pacific at Wells, Nev., according to an announcement made today by H. V. Platt, general manager of the Oregon Short Line railroad.

The cost of the grading was not made known, but the estimate for the construction of the line was placed at \$5,094,000.

Mr. Platt stated that he hoped to have the line completed to Wells, Nev., by June 30, 1925, the date scheduled for completion in the railroad company certificate of convenience and necessity. The engineering force is already on the ground at Rogerson and within two weeks rail-laying gangs will be transferred to that place.

The railroad from Rogerson to Wells will consist of one track laid with 90-pound steel, according to Mr. Platt. The heavy steel will allow for as heavy traffic as on the main trunk line of the Oregon Short Line.

#### Recall Early Days

The history of the Rogerson-Wells project began with man's first realization that copper in the Jarbidge district was marketable. To be exact, it was in 1902 when the first prospectors in that district proposed the construction of a railroad and approached the Oregon Short Line railroad.

But railroad building was slow in those days. Capitalists were not venturing their wealth on immature projects, and it was not until 1908 that a girder of steel was swung from Twin Falls to Rogerson, Idaho. This branch line was completed by the Oregon Short Line in July, 1910, and may be called the parent of the proposed new line which pivots at Rogerson and

was to be completed on December 31, 1923. Surveys were run, but little actual planning was discussed, and on May 24, 1923, the holders of the outstanding stock, at least 80 per cent of them, adopted a resolution asking to cancel the certificate.

Five days previous to that—on May 19, 1923—the Oregon Short Line railroad, apparently sensing the failure of the Idaho Central, applied for a certificate of convenience and necessity to construct a line running from Rogerson to Wells. It was granted by the interstate commerce commission and approved by the public service commission of Nevada and the public utilities commission of Idaho. In fact, the two state commissions urged the interstate commerce commission to grant the certificate, claiming that the road would be much safer financially if connected and constructed with a trunk line. The commissions, in their letter, stated that greater safeguards of the road would be gained by a trunk line than if the line was constructed by an independent company.

#### Specifications Given

The certificate of convenience and necessity granted the Oregon Short Line declared that work on the railroad must be commenced before January 1, 1924, and completed by June 30, 1925. It was proposed to begin construction of the road on September 1, 1923, and to have it completed by December 31, 1924.

The cost of the line, which is 97.7 miles in length, 21.1 miles in Idaho and 76.6 miles in Nevada, is estimated at \$5,094,000. The financing of the construction is to be done from the current funds or advances made by the Union Pacific railroad, which owns all the Oregon Short Line railroad's capital stock. The estimate includes the construction cost alone and does not include the equipment, which will be furnished by the railroad from its Rogerson-Twin Falls branch.

#### Local Men Active

Under the certificate the chambers of commerce of Twin Falls and Wells agreed to provide a free right of way, including land for a terminal at Wells, Nev., which is estimated at \$80,000.

Due to weather conditions and construction causes, the actual work on the Rogerson-Wells line did not begin until December. There was some uncertainty at times during the past winter whether the road would be started before the certificate expired. Then, after it was under way, the Twin Falls chamber of commerce met with difficulties in arranging for the right of way at various points, which slowed up the work. Finally, in April, 1924, the last obstacle was cleared, and the Oregon Short Line began moving its engineering forces onto the ground. The completion of the railroad to Wells will be a great factor in the development of southwestern Idaho. It will not only tap the great Jarbidge copper district and develop the vast agricultural areas, but will be a direct route to the Pacific coast for the marketing of Idaho products.

#### ANNOUNCEMENTS

The Episcopal Guild will meet with Mrs. James H. Bothwell and Mrs. W. Orr Chapman at the home of Mrs. Bothwell, 128 Tenth avenue north, this evening at 7:45. All women of the church are cordially invited.

The Ladies of the G. A. R., Dan McCook circle No. 3, will hold a business and social meeting at the home of Mrs. Paul Smith, 412 Fourth avenue east, Friday, May 16. At this business meeting final arrangements will be made for the convention to be held at Weiser, May 4, 5, 6. It is hoped that all members will make a special effort to be present.

## MANY REQUESTS MADE TO BOARD

### Directors Hear Petitions for Sod on Lincoln Field and Employment of Nurse.

Twin Falls independent school district board of education at a regular meeting Monday night referred to a special committee a request that Lincoln field and the junior high school playground be sown to grass, tabled "for the present," petition for the employment of a public health nurse in the schools, and took no action on petitions presented at this time for retention of Chilton W. Evans as coach and director of athletics.

Request in regard to providing sod for Lincoln field and the playground was made by a delegation composed of Arthur L. Swift, Sidney H. Graves, O. P. Duvall, Burton E. Moore and R. J. May. On motion of James Fitzgerald, the request was referred to a special committee as members of which Chairman C. E. McClain appointed W. H. Weaver and S. D. Perrine.

Employment of a public health nurse in the schools was urged on behalf of the Parent-Teachers' association by a delegation which included Mrs. J. A. Walker, Mrs. I. E. Joslyn and Mrs. J. D. Whelan. Motion to table the request was offered by J. N. Flegg.

Petition for retention of Mr. Evans who previously had communicated to the board his wish not to be considered for re-election, was presented by T. M. Robertson and A. H. Colwell.

Twin Falls high school has been recommended for accredited lists by the

Northwestern Association of Secondary and High Schools and by Miss Ethel Redfield, Idaho inspector of high schools, according to communications received at this meeting.

Superintendent M. C. Mitchell reported that more than two-thirds of the teachers re-elected to positions in Twin Falls schools next year had expressed their desire to return, and the board authorized Ernest D. Bloom, superintendent-elect, to secure teachers to fill the remaining vacancies.

Completion of negotiations continuing over a period of about a year for refunding of \$52,000 worth of the district's bonds was reported by the secretary.

Surplus in the general fund amounting to \$34,803.77, and in the transportation fund amounting to \$3,408.82, to meet expenses of the balance of the present school year closing next week, was shown in the bookkeeper's report.

The transportation committee was authorized to proceed with inquiry looking to determination of whether wagons now in operation should be repaired and additional wagons purchased or whether trucks should be obtained for use in some sections for carrying pupils to and from school next year.

### AMERICAN FALLS ISSUE ATTRACTS BOND BUYERS

Representatives of three bond concerns with principal offices respectively in New York, Chicago and Salt Lake, arrived here Wednesday to make preliminary investigations with view to submitting bids for purchase of the American Falls reservoir district's \$2,700,000 bond issue, proceedings in connection with which were approved Tuesday by Idaho's supreme court.

Honeymooning is smekmound. The Swedes have a pretty word for the phrase "honeymooning." They call it smekmound, or the caressing mpm.

## Good News

IF A FOUNTAIN pen or a furniture polish is worthy, sooner or later you are likely to hear of it. Even if you never read the advertisements, the good news may trickle down to you in time.

Meanwhile, perhaps, you have tried and discarded many an unworthy polish or pen. Yet if you read the advertisements, you can know of the best—be enjoying it from the first.

Advertisements keep you alert to the new—and to the best. Advertised goods cost less, because they sell in greater quantities.

Moreover, the advertisements tell you of wares that justify your faith. You can buy them, confident of satisfaction. They can't be widely advertised unless they please.

Don't overlook the good news in these advertising columns each day.

To buy advertised goods is to travel with the leaders.

# DELAY RULE TO LIMIT USE OF RIVER'S FLOW

Committee of Nine in Special Session Here Discusses Ways and Means of Meeting Season of Water Shortage.

Snake river water users, through their committee of nine in charge of operations and study of Snake river water, at a special meeting convened here Wednesday for consideration of problems incident to the present season of water shortage, decided for the present against restricting water users to use of actual amounts of water to which they are entitled under decrees of filing rights. It was the consensus of opinion that such regulation should be deferred for a few days until it was determined whether the river flow has reached its peak for the season.

Under regulation of this nature at this time, it would be necessary to release from storage some water sufficient to maintain normal flow and it was recognized by holders of storage water rights that advantage might be gained by them by such regulation at this time might be obtained at cost of reduction in storage supply that would be even more valuable later in the season.

Various suggestions were advanced for making the best possible use of the available supply in the interests of all the district's water users. In the connection F. A. Wilton, who suggested that an alternative for proposal of limiting distribution of water, that a trade might be effected to mutual advantage between water users of the Twin Falls projects and those on the North Fork. Three canal systems on the North Fork, he suggested, may be in position to divert water down the stream, a total of 1500 second feet of water beginning late in July.

Reports made and statistics quoted in the course of the committee's session indicated that the situation this season may be more serious than in 1919, the year of the last water shortage. Stored water in Jackson lake on May 3, last, amounted to 323,000 acre feet, according to figures verified at this meeting by E. B. Darlington of Burley, reclamation service engineer, whereas Jackson lake storage on the corresponding date of 1919 was 300,000 acre feet. Precipitation is about the same for both years.

Water delivery to the "Twin Falls North Side project at the present time, according to R. E. Shepherd of Jerome, is less than 50 per cent of normal for this season, while Mindoka projects are maintaining normal deliveries by means of heavy draft on waters of Lake Wolcott.

Delivery through the Twin Falls canal system yesterday was 90 per cent of normal for this season and today, according to Manager Burton Smith, the delivery will be reduced to between 60 and 70 per cent of normal. Such reduction, however, he stated, probably will be for only a day or two, at the end of which time larger deliveries may be resumed.

Protest was made at the committee's meeting by Mr. Shepherd against use by the Idaho Power company of floodings on its dam at American Falls to divert water through the turbines of its new plant there. Effect of such diversion, it was asserted, was to cause fluctuation in the flow of the stream interfering with measurement of water to holders below. The committee decided that the situation complained of did not constitute a serious interference in the normal flow of the stream.

The committee authorized dispatch of a letter of protest to the Milner Low Lift Irrigation district against its diversion of 100 second feet of water at Milner to its own lands. Such diversion on the part of the district, the committee declared, is wholly without justification.

In connection with the report of a

# DELANO NURSE TELLS OF WORK

Miss Janet Worthman Brings Interesting Story to State Association Meeting.

Miss Janet Worthman, one of four public health nurses endowed by the late Jane A. Delano, formerly a director of the American Red Cross, for service in isolated regions of the United States, told members and guests of the Idaho Nurses association at a banquet meeting in the Rogers hotel here Wednesday evening something of the work in Valley county, Idaho, where she was recently assigned.

The banquet followed a regular business meeting of the association held in the afternoon in the Business Women's club rooms and attended by about 40 members and visitors representing Boise, Gooding, Shoshone, Buhl and other southern Idaho cities.

Mrs. R. A. Haller of Twin Falls, and Miss Reicher of Boise, were elected as delegates to the national association at the national convention to be held in Detroit next month; and announcement was made that the North Idaho section of the national association will hold its annual meeting in Twin Falls in June of next year.

Dr. W. P. Pike of Twin Falls, addressed the nurses at their business session, and the Rev. A. G. Pearson, pastor of the Presbyterian church, spoke at the banquet meeting.

Entertainment program at the banquet included an interesting interpretive reading by Mrs. Thorson of Hazelton, formerly a member of the faculty of the state school for the deaf and dumb at Gooding, and a solo by Mrs. O. P. Duvall.

Sessions were provided over by Miss Barbara Williams of Boise, president of the state association.

The committee composed of G. Clyde Baldwin, Snake river watermaster; W. O. Cotton of Idaho Falls, and Lynn Cranford of P. A. Wilton, who suggested that an alternative for proposal of limiting distribution of water, that a trade might be effected to mutual advantage between water users of the Twin Falls projects and those on the North Fork. Three canal systems on the North Fork, he suggested, may be in position to divert water down the stream, a total of 1500 second feet of water beginning late in July.

Reports made and statistics quoted in the course of the committee's session indicated that the situation this season may be more serious than in 1919, the year of the last water shortage. Stored water in Jackson lake on May 3, last, amounted to 323,000 acre feet, according to figures verified at this meeting by E. B. Darlington of Burley, reclamation service engineer, whereas Jackson lake storage on the corresponding date of 1919 was 300,000 acre feet. Precipitation is about the same for both years.

Water delivery to the "Twin Falls North Side project at the present time, according to R. E. Shepherd of Jerome, is less than 50 per cent of normal for this season, while Mindoka projects are maintaining normal deliveries by means of heavy draft on waters of Lake Wolcott.

Delivery through the Twin Falls canal system yesterday was 90 per cent of normal for this season and today, according to Manager Burton Smith, the delivery will be reduced to between 60 and 70 per cent of normal. Such reduction, however, he stated, probably will be for only a day or two, at the end of which time larger deliveries may be resumed.

Protest was made at the committee's meeting by Mr. Shepherd against use by the Idaho Power company of floodings on its dam at American Falls to divert water through the turbines of its new plant there. Effect of such diversion, it was asserted, was to cause fluctuation in the flow of the stream interfering with measurement of water to holders below. The committee decided that the situation complained of did not constitute a serious interference in the normal flow of the stream.

The committee authorized dispatch of a letter of protest to the Milner Low Lift Irrigation district against its diversion of 100 second feet of water at Milner to its own lands. Such diversion on the part of the district, the committee declared, is wholly without justification.

In connection with the report of a

# SCHOOLS' WORK AND LIMITATION TOLD ASSEMBLY

Parent-Teacher Association Convention Hears Inspirational Talks at Close of Second Day's Sessions.

Assertion by Miss Elizabeth Russum of Boise, Idaho superintendent of public instruction, of present need for cooperation of home and school in attainment of the modern ideal of training for service, and challenge made by Mrs. J. Sweeney of Twin Falls, president of the Western Federation of Women's clubs, to citizenship of the west to educate and take care of western boys and girls "if the west is to become the great west it can be" were outstanding features of an evening meeting that marked the close here Wednesday of the second day sessions of the nineteenth annual convention of the Idaho Parent-Teacher Association.

The convention will be brought to a close following receipt of reports of the resolutions committee and further reports of local associations.

Unanimous Election.

With only one candidate placed in nomination for each of the offices to be filled at this time, election of officers was effected yesterday under suspension of rules. Mrs. C. E. Roberts of Gooding was chosen as president to succeed Mrs. B. J. Ewen of Boise, who has served as head of the state organization for four years, and other officers being elected as follows: First vice president, Mrs. C. H. Doud, Pocatello; second vice president, Mrs. Frank Hoadley, Burley; vice president at large, Mrs. J. Kohl, Boise; treasurer, Mrs. M. B. Yeaman, Idaho Falls.

Curriculum "Thin in Spots."

Speaking on "Home and School," Miss Russum Wednesday traced development of the American school system social and economic evolution resulting from and attributed to development of machinery and factories the shifting of responsibility for training from the home to schools. "Formerly," she said, "schools undertook only cultural training, and daily tasks in the home or apprenticeship supplied the training that now has been assumed by the schools to such an extent that curricula have been broadened and broadened till they have become thin in spots."

Education has not changed, Miss Russum said, but the means of gaining education have changed. The school system, she explained, is only a part of the educational system, since education implies "our contact with the entire world and the schools bring in only a little."

Pays Respects to Supervision.

"It is no wonder that the schools have been taxed to keep up," Mrs. Sweeney declared, "pointing out that the past 50 years have witnessed greater material progress and more phenomenal happenings in scientific research than in hundreds of years before."

"No one dares forecast the development of the next five years in any line," she asserted, declaring it a duty and privilege to assist in preparation of boys and girls of today for the tasks of the future.

In the course of her address, Mrs. Sweeney paid her respects to modern tendency toward supervision as well in governmental affairs as in the schools. "The supervisors are a help," she said, "let's keep them, but let's do a bit of supervising ourselves. If conditions in our schools are faulty, we are to blame because we are not living up to our responsibilities. We should select our boards of education with the care we give other serious affairs of life."

Little Folks Stage Cantata.

The evening session was opened with a cantata, "Milk Fairies," presented by Twin Falls school pupils. Musical numbers included selections by a quartet composed of Miss Edna Graham and Mrs. G. C. Wiley, Mrs. Westcott and Mrs. Benson.

Is of Interest to Twin Falls Folks.

What My Neighbor Says

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills—and has found relief from all this suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Twin Falls resident. Who could ask for a better example of the value of Dr. Williams' Pink Pills for Pale People? "I have had a sore throat and a soreness over my kidneys that made me miserable. When I got down, I could hardly get up on account of the sharp, stabbing pains. My kidneys acted too often and the secretions acid in passage. Dr. Williams' Pink Pills cured me entirely and I have had no trouble since." Price 60c at all dealers. Don't simply ask for a kidney remedy. Dr. Williams' Pink Pills—the same that Mr. Wellner had. Foster-Milburn Co., Mrs. Buffalo, N. Y.

day were given over largely to round table discussions on organization and efficiency, led by Mrs. Doud; home service by Mrs. J. H. Backus of Ashton; education by Mrs. J. E. Browning of Idaho Falls; health by Mrs. G. E. Duke of Twin Falls; and public welfare by Mrs. E. J. Payne of Boise. An hour in the forenoon was devoted to reports of local associations. An interesting exhibit of health posters drawn by Idaho school pupils was exhibited on the walls of the high school auditorium in which the sessions were held.

Invocation at the opening of the day's sessions was offered by the Rev. A. G. Pearson. Musical program for the day included vocal solos by Mrs. W. H. Dwight and Mrs. J. A. Dyar and piano solo by Mrs. M. G. Batley. Convention sessions recessed at 3:30 o'clock in the afternoon when delegates and visitors were taken in automobiles on sightseeing trips to Shoshone falls and other points of interest.

# Fame of Twin Falls Streets Carried Far

Redding, California, Seeks Advice Here as to Method of Keeping City in Order.

Tourists have carried to California the fame of Twin Falls as a "spotless town" according to "advice received" Tuesday by the Twin Falls Chamber of Commerce from Amy W. Wallace, secretary of the Redding, California, Chamber of Commerce, containing request for information as to "methods used to keep your city in its perfect order."

The letter of the California chamber of commerce secretary, which has been turned over to Mayor Shad L. Hodgkin for reply is as follows:

"Twin Falls is often spoken of by tourists as being such a clean city. Would you mind giving us any available data you may have on the methods used to keep your city in its perfect order?"

"Redding is just now having a great deal of trouble with its street cleaning and garbage systems and will appreciate hearing of the problems, now apparently solved, of other cities."

# BREVITIES

Conclude Visit—Mrs. W. H. Sawyer, who has been visiting her parents, Mr. and Mrs. Henry J. Wall, left for her home in Reno, Nevada, Wednesday.

Take Marriage License—Henry F. Hosteller of Ellier and Leella V. Peterson of Twin Falls, obtained a marriage license Wednesday at the office of the county recorder here.

State Treasurer Visits—Captain D. P. Banks, Idaho state treasurer, with his brother-in-law, James Moore, and Homer Elder of Boise, arrived here Wednesday on an automobile trip for a brief visit in Twin Falls.

Use Wrong License—F. R. Knowlton, in police court here Wednesday, was fined \$15 for using on his Buick car a license plate issued for a Ford machine. Knowlton was arrested on Main avenue south by Chief of Police P. O. Herriman.

Returns for Summer—Miss Georgia McMaster returned for the summer months Wednesday from Mills college, Oakland, California, where she has just completed her senior year. She will spend the summer with her parents, Mr. and Mrs. C. A. McMaster.

On Business Here—J. E. Madson, formerly manager of the Idaho theater, now traveling representative of a film syndicate, with headquarters in Salt Lake, left Wednesday evening for Rupert and Burley on his way home after a business visit to Twin Falls.

ANNOUNCEMENTS

The board of directors of the Rural Federated clubs will meet on Saturday, May 17, at 2 o'clock, in the Business Women's club rooms. A good attendance is desired.

The Neighbors of Woodcraft will hold a regular business meeting Friday at 8 p. m., in the Business Women's club rooms. A class of four will be initiated.

The Catholic Women's league meets Thursday evening, May 15, in the Business Women's club rooms. There will be election of officers and all members are urged to be present.

The News is read by the permanent evening classes.

# One Day's Showers Equal April's Total

Showers in the Twin Falls region Tuesday brought four one-hundredths of an inch of precipitation, which is precisely the amount of precipitation recorded here during the entire month of April, according to the government weather observer's station here.

Temperature Wednesday was a high of 83 above, an advance of five degrees over the maximum of the preceding day, and was low at 42, a decline of nine degrees.

ANNOUNCEMENTS

The Women's Missionary society of the Christian church will present their jubilee tea on Thursday afternoon in the church parlors. A splendid program has been arranged to which the public is invited.

The W. G. T. U. will meet Friday, May 16, in the Methodist church parlors at 2:30 p. m.
