

## LOW PRICE FOR WOOL FOUND IN CLOTHING COST

Department of Agriculture Gives Results of Study of Paradoxical Situation; Supplies Short; Price Low.

WASHINGTON, July 10 (AP)—In its effort to determine the reason for the present low price of raw wool in the face of reduced wool supplies and decrease in the number of sheep in the principal wool producing countries of the world, the department of agriculture has found clothing prices too high.

"All branches of the textile and clothing trade regard clothing prices as too high," says the department. "But each feels that domestic can best be affected by the others. Retailers feel that any reductions must take place in the manufacturer's selling price. The clothing manufacturer contends that the present wage-scale makes it impossible to effect economies in production costs. Some of the clothing manufacturers and wholesale dealers feel that more efficient organization in the retail trade would bring about lower clothing prices."

### Raw Wool Minor Factor

Raw wool is a comparatively small factor in the price of clothing. Department adds an all wool suit averaging about five pounds of wool, and the difference between a high priced and a low priced suit being mostly in the quality of the linings and bindings and the labor cost in making the cloth and the suit.

"The present low price of raw wool can not continue in the face of reduced supplies, unless a radical change takes place in the consumption of woolen clothing by the American public," the department states. "American wool growers are receiving 30 cents a pound less for their wool now than a year ago, despite low world stocks, decreased imports during the last ten months and a decrease in the number of sheep in the principal wool producing countries of the world."

Many Regulations Given

Curtailed buying of woolen goods and clothing because of high prices, backward seasons, high rents, changes in style of women's wear, two part suits, and increased use of silk and cotton goods have been advanced by the trade as the reasons why the prices of raw wool are under those of a year ago, despite the American import tariff on wool.

"The price of raw wool in Boston is approximately 18 cents a pound lower than the London price plus import duty resulting in decreased exports and the reexporting of large quantities of foreign wool imported into the United States and held in bonds. Total wool imports into the United States in the ten months ended April 30, 1924 were 200,000,000 pounds as compared with 430,000,000 pounds the corresponding months a year ago."

### Runaway Cashier Fatally Wounded by Posse Member

Wyoming Coal Company's \$6,000 Payroll Found Near Where Fugitive Fled.

ROCK SPRING, Wyo., July 10 (AP)—Clyde N. Fisher, cashier of the Gunn Quosley Coal company here, who disappeared yesterday morning at the time the semi-monthly payroll of the company was cashed, was shot and fatally wounded early this morning by J. Walker, mine foreman and friend of Fisher. He died a few hours later without making a statement.

Walker, who was one of several who had been searching for Fisher soon after the disappearance of the mine payroll, encountered the cashier a few miles from town about 1 o'clock this morning. Called upon to throw up his hands, Fisher is said to have complied by raising one hand. The other, in which he carried an object, remained at his side. Walker, declaring he believed Fisher had a revolver, opened fire, and the cashier fell to the ground. Walker approached and found that the object in the man's hand was a water bottle. Fisher was taken to a hospital where he died.

Search of the vicinity where the shooting occurred revealed a cache of food, water and blankets, also the entire amount of the payroll, less than \$6000, with which Fisher is alleged to have fled, after obtaining it from a bank.

Fisher, according to police and mine company officials, dashed from the bank with the payroll and escaped in an automobile shortly before noon yesterday. Posse and horseback and in automobiles were soon in pursuit. Two airplanes from a flying circus here were pressed into service and for several hours they circled overhead in an unsuccessful effort to locate the fleeing cashier. Early last night Fisher's abandoned automobile was discovered several miles from town.

Fisher had been in the company's employ six years. He leaves a widow and two children, who, acquaintances here say, live in Iowa.

WALLA WALLA, Wash., July 10 (AP)—When Dr. Stephen B. L. Penrose, who celebrated his thirtieth anniversary as president of Walla Walla College here, took over the school, only two students attended it.

The enrollment now is 500, the institution having set that limit two years ago. Dr. Penrose is one of the oldest college presidents in the country in length of service. He was graduated from Williams College at 21 and was elected president of Walla Walla three years later.

# 3 1/3¢ a meal for Electric Cooking

Isn't it almost unbelievable that an average meal for an average family can be cooked electrically for 3 1-3 cents?—yet this was the average amount paid during the month of May, 1924, by the 5098 Idaho Power customers who use electric ranges for cooking.

The Average Amount Paid for Electric Cooking During the Month of May by 5098 Range Customers Was \$3.14

This was even lower than the average amount paid by 4990 customers during the month of April, which was \$3.23. The average rate per Kw. H. of 2 1/2 cents is a much lower cooking rate than that which prevailed in more than 6000 other communities in the United States.

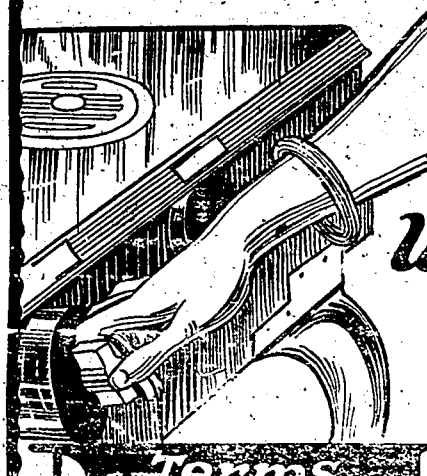

## Why Dread Warm Weather Cooking

There is every possible advantage to Electric Cooking and none of the objectionable features connected with other methods. Your kitchen is as clean and cool as any other room in the house. All the work and nuisance of handling coal, ashes, matches and kindling fires is eliminated. Just a snap of the switch gives you instant heat.

Actual figures prove beyond doubt that Electric Cooking is also MORE ECONOMICAL than other methods, as well as being more efficient. Once you have used an electric range, you will wonder how you ever did without it.

Come in today and see the many beautiful models we feature. There's a style, size and price to meet your requirements.

## FISH AND GAME OFFICIALS HERE

R. E. Thomas, State Game Warden, and W. M. Kaell, Fish Commissioner, in City.

R. E. Thomas, state game warden, and W. M. Kaell, state fish commissioner, arrived in Twin Falls Tuesday evening on their way overland from Boise to Henry's Lake where they will aid in getting a field station for the transplanting of outbreast trout fish eggs from there to the fish hatcheries near Ashton.

Mr. Thomas and Mr. Kaell, who was appointed the first of the year by Governor Moore to succeed George J. Fossell, who resigned, arrived too late to attend a meeting of the Southern Idaho Fish and Game Association held at the chamber of commerce Tuesday evening.

It was at the instance of a letter sent out by Mr. Thomas that action of voting to close the saghen and grouse season in southern Idaho was taken. Speaking of the damage that has been done this year through the shortage of water and through the small amount of snow which fell last winter, Mr. Thomas declared that not only has the shortage of water been here for game birds, but also for other game.

Fish, too, have suffered this year from the shortage of water, said Mr. Kaell, and many letters have been received asking for the closing of more than 100 streams to fishermen. The condition is only that in many instances so little water is available that fish may be gathered in all sizes.

Speaking of the necessity for saving saghen and grouse from slaughter this year, due to the large numbers which will surround waterholes, Mr. Thomas declared that the season was not closed and a wet spring should come on next year, the saghen and grouse would be almost entirely exterminated, where if the season is closed this year, there will be plenty of birds.

The situation this fall will be good for duck hunting and for pheasant hunting, said Mr. Thomas, lack of water will make better duck hunting and should result almost in a hunters' paradise and still not do great damage to this class of birds. Pheasant too are in evidence in numbers, promising plenty of good shooting.

Mr. Thomas and Mr. Kaell expect to be gone from Boise for two weeks and to stop for a brief time in the cities of Idaho Falls, Pocatello, Blackfoot and Malad. At Blackfoot they will attend a meeting with the fish committee of the K. of P. lodge there concerning the distributing of fish.

BUHL GRAYS  
TAKE FIRST  
GAME, 12-0Cosgriff's Men and Westenders  
Have Off Day; Blues Use  
Three Pitchers Without Suc-  
cess; Batting Features.

Griswold's Buhl Grays took the opening of the Twin Falls-Buhl series Wednesday in a nine inning battle on the Buhl grounds by a score of 12 to 0.

The Blues started strong, but two bad innings in the fourth and fifth drove the Twin Falls club to shelter while Buhl piled up a count that the Blues were unable to overcome in rallies during the seventh and eighth innings.

Heavy swarms on the part of both clubs were a feature of the game. Home runs on three occasions, regardless of the fact that one of the Buhl home runs failed to count and two base hits coupled with singles in practically every inning sped for batters on both clubs.

Pix and Flynn were both knocked out of the box for Twin Falls and Jim Seely, the Blues' pitcher, was knocked out of the box for the visitors.

Boston, who opened the game on the mound for Buhl found Twin Falls men too hard to handle and retired in favor of Paix in the fourth inning.

Promptly at 6:30 a fair sized delegation from Twin Falls, swelled the Buhl numbers and the matter of the first two innings was the matter of the first two innings in quick succession by Lebrass and Seely followed by an error in the field sent in the first two innings for Twin Falls in the first inning and a single batted by wobbly fielding brought the fourth Blue score across in the second inning, while Buhl was busy getting two runs for the two innings making the score 4 to 2 for Twin Falls for the two innings. The third was eventless and in the fourth frame driving out three singles taking advantage of Twin Falls errors Buhl took a 5 to 4 lead.

Flynn had hard going in the box for the visitors and in the fifth he was found for four singles and a walk before getting a strikeout, then with the bases filled, Volget swatted out a home run which heaved the Blues into the lead. The batsman as he failed to tag the initial sack. A strikeout finished the inning and Buhl held the top end of the score at 6 to 2.

Flynn's daydreamed in the sixth inning when he allowed Buhl a home run and Seely took the box and held Buhl scoreless for the last two frames.

The Blue batters were powerless before the Buhl moundman Paix until the seventh inning when Lebrass connected up with a nice one for Glenn and Barlogi, the new first sacker got a single. Three more hits for Twin Falls in the eighth inning made two more scores but no more to beat the Grays who will cross bats again next Wednesday on Twin Falls' field.

Buhl had the better of the pitching end with 14 strikeouts to 8 for Twin Falls.

GRISWOLD POSTPONES  
GAMES INDEFINITELY

For reasons which he said will be given later, Cal Griswold announced Wednesday that the remainder of the Pocatello-Buhl series will be to continue for two more weeks has been definitely called off.

The Bears and Grays have won and lost a game each in the two games played, with single run margins in each frame.

For Sunday the Buhl Grays will meet the Caldwell team of the Boise Valley league which closed its season there last week. The game is called for 3 o'clock on Pocatello field in Buhl and the Caldwell team, according to Griswold, is a top-notch, whose ambition is to beat Buhl.

SENATOR BORAH  
TELLS KANSANS  
OF HIS BELIEFSSpeaks at Kansas Day Celebration,  
Wednesday at Artesian  
City; Between 300 and 400  
Present.

Between 300 and 400 former citizens of Kansas took the Kansas day celebration held Wednesday at Artesian City, according to Judge O. P. Duvall, who with Mrs. Duvall attended the celebration. The principal speaker of the day was Senator William E. Borah of Idaho, who in his address told of the closing days of congress and of the matters that came before the senate for action.

Senator Borah in his address explained his stand on the bill in congress which would have permitted free toll for American tonnage through the Panama canal. In this manner, he declared, the freight rates of the country could be reduced inasmuch as water competition would then come into play against railroad transportation. He declared he voted for the bill and that he believed that was the only way that the United States was such general opposition to it by the lobbyists maintained in Washington by the railroads that it failed to pass, he said. He also told of his stand on the recognition of Russia by the United States. He declared that the main issue in the coming political campaign would be on the economic situation in Europe and the necessity for American establishing credits for these countries. He told of reclamation relief legislation before the senate at the time of adjournment and of the fact that he was such general opposition to it by the lobbyists maintained in Washington by the railroads that it failed to pass, he said. He took up national issues in general in his address and answered a number of questions asked him by former Kansans concerning various measures in congress. Senator Borah explained that his home in Kansas was at Lyons and that he had graduated from the Kansas University school of law. He was greeted with acclaim by the crowd.

The celebration opened during the morning with athletic games. At noon a picnic luncheon was spread on a long table in the grove at Artesian City. As features of the picnic were songs sung by Mrs. O. P. Duvall, among which was the "Star Spangled Banner." Mrs. Roy Palmer of Burley gave a reading, "The Passing of the Old China." In charge of the celebration was Roy Palmer, cashier of a Burley bank.

## TO ENGLAND FOR LAW

Four hundred members of the Ameri-  
can Bar Association have left for En-  
gland to attend an international bar con-  
vention in London.

It is a good thing for those lawyers  
to go and talk things over with their  
professional brethren in England. It may  
be a good thing for their country, too.  
They will undoubtedly be impressed  
with the simpler, more direct and more  
effective court procedure of England,  
especially in criminal cases.

The two countries started even in the  
theory and practice of law. Our Ameri-  
can law is based upon the English com-  
mon law. There was a time when Ameri-  
can administration of justice was much  
improved over the British system. Court  
procedure was pretty effective and sat-  
isfactory in this country when England  
still had its Star Chamber delays. There  
was a time when each country seemed  
to develop in the opposite direction. In  
the last century England has greatly  
simplified its judicial methods and ex-  
pedited justice, by emphasizing essen-  
tials, while America has developed a  
judicial system that is complex, tech-  
nical and dilatory beyond any in his-  
tory.

It is an old maxim that "justice de-  
layed is justice denied." Thousands  
of Americans have justice thus denied  
right along, in civil suits, because they  
lack money or patience to see them  
through the long series of trials, re-  
trials, appeals, reversals, etc. Com-  
munities over and over again have just-  
ice denied because technical and friv-  
olous objections are allowed to inter-  
fere with the punishment of guilty  
criminals. In this matter, at least,  
America should not be too proud to  
learn from present-day England.

## TREE PLANTERS

If the whole country had the tree  
planting zeal of a few individuals, there  
would be no fear for the future of the  
forests or the timber supply of the  
United States. Legislators would feel  
the urge of that real and would enact  
constructive laws for reforestation and  
conservation. Farmers would feel the  
urge and would restore growing trees  
to their cut-over woodlands. City dwell-  
ers would see to it that streets were  
lined with trees and that park trees  
were carefully guarded against destruc-  
tive insects or fire hazards.

The head of the American Tree As-  
sociation, as part of its effort to in-  
crease public interest in tree-planting,  
has been hunting for the champion tree  
planter of the United States. He has  
discovered T. C. Luther of Mechanical,  
N. Y., who plants about four  
hundred thousand trees a year. Far  
from resting on his past accomplish-  
ments in this line, Mr. Luther seeks  
to improve his record and plant five  
hundred thousand trees this year.

If five hundred thousand individuals  
who have never planted a tree in their  
lives would agree to plant one apiece  
this year in appreciation of Mr. Lu-  
ther's larger efforts, real progress  
would be made in spreading the gospel.  
A little girl, not so many years ago,  
found a tiny maple seedling with the  
little wing not yet fallen from the  
sprouting seed. She took it to her  
mother, who planted the wee thing near  
the back porch. The child is a young  
woman today and the little maple has  
grown into a graceful and shade-giving  
tree which reaches well up toward the  
top of the house and is a lovely addition  
to the yard.

Tree-planting need not be expensive  
or arduous work, as Johnny Appleseed  
and Mr. Luther and the seedling maple  
tree indicate.

evening dress, just arrived)—Oh, mam-  
ma, how lovely! Will you wear it

come to dinner.

Edna—Oh, mamma, let's pretend  
just for once that papa's a gentleman.

 sheds a copious shower of pure water

DEATH TRAP  
IN ORCHARD  
TAKES LIFE

Roy Callahan, 21, Dead, and  
B. W. Woods, Hagerman  
Rancher, in Jail as Result  
of Fatal Shooting.

Roy Callahan, 21, was instantly killed  
Sunday evening at 10 o'clock one quar-  
ter of a mile west of Hagerman when a  
shot was fired by B. W. Woods, the  
apple orchard of B. F. Woods of  
Hagerman discharged and filled the  
young man's chest and face full of  
bullet shot. Woods, as a result of Cal-  
lahan's death, is in the Gooding county  
jail and a charge of murder will prob-  
ably be placed against him. It was  
learned Monday following the report  
of a coroner's jury in an inquest held  
Monday at Hagerman. Callahan lived  
at Hagerman with his mother, Mrs. R.  
Reed.

According to the two sons of Henry  
Atterburn, Hagerman valley farmer,  
who were with Callahan, they had stop-  
ped to get a few cherries from the or-  
chard near the road. As they entered  
the orchard there was a loud explosion  
and Callahan fell. The two boys drop-  
ped to the ground and remained quiet  
for five minutes or more when they  
picked up Roy Callahan, placed him in a  
car and rushed him to the doctor in  
Hagerman. He was dead when they  
reached there and from the nature of  
the wound it was thought to have died  
instantly.

Woods, according to the story he  
told the Gooding county sheriff, had  
been bothered with persons stealing  
cherries. As a result he loaded his shot  
gun and placed it in the orchard, tied  
a string to the trigger and arranged it  
so that it would discharge when the  
string was pulled. He heard the shot  
and rushed to the orchard, where he  
saw the string and wrapped it, and a  
forked stick used with it, together and  
threw them in an irrigation ditch.

Deputy Sheriff Barlog, acting for  
the Gooding county sheriff who was  
called to the scene, found the body of  
Callahan lying on the ground. He was  
early Monday morning and placed  
Woods under arrest. He was brought to  
Gooding and locked up. He has con-  
fessed, officials say, to owning the gun  
and to having set it to protect his cher-  
ries in the orchard.

A coroner's jury went to Hagerman  
Monday and after hearing all of the  
evidence obtainable in the case brought  
in a verdict that Callahan had shot him-  
self as the result of a gun shot wound  
caused by a gun belonging to B. F.  
Woods. Members of the jury were  
Burg, Tim Terry, F. O. Frost, Charles  
Sweetland, Emerson Boyer and William  
Colthrop.

Woods is said to be about 50 years of  
age and to have a wife and son and  
daughter. According to the sheriff he  
resided at Hagerman for many years  
this spring. He had between 10  
and 12 acres of cherries and apples.

Woods, according to the sheriff, has  
shown little signs of remorse over the  
killing. It was the sheriff's opinion  
that probably charges of murder would  
be filed against Woods, although no  
charges had been filed at a late hour  
Monday.

The body of Roy Callahan is at the  
Hagerman undertaking parlors and no  
funeral arrangements have yet been  
made. The mother is said to be almost  
broken down by the death of her son.  
Whether the young man is survived by  
any other relatives besides his mother  
could not be learned Monday evening.

Addison T. Smith  
Elected Director

Idaho Congressman Gets Place  
on Board Loan Company Vac-  
ated by Parish.

Congressman Addison T. Smith of  
Twin Falls was Monday evening elect-  
ed to the board of directors of the Mut-  
ual Building and Loan association of  
Twin Falls to take the place left vac-  
ant by the death of a member.  
The election of Congressman  
Smith to the board and the selection  
of James S. Hall as general manager  
of the association were the principal  
matters of interest at the meeting.  
Congressman Smith, it is said, has  
been a heavy stockholder for a number  
of years and it was felt that he should  
have a place on the board. He also  
owns the building in which the com-  
pany has its offices. Congressman  
Smith was written today by the general  
manager apprising him of the action  
taken by the board. At a meeting held  
the latter part of last week the board  
also accepted the resignation of E. J.  
Fisch and elected E. A. Walters to fill  
his place.

With these two changes it is probable  
that the association board of directors,  
which reported at a meeting of sales of  
stock made, will remain unchanged. Mr.  
Hall will have complete charge of stock  
sales. The board agreed to give Mr.  
Hall a guarantee on salary and a com-  
mission on stock sales.

# DELINQUENT TAX INCREASE, CAUSE OF CUT, DEFENSE

## County Commissioner Tells Why Board Would Reduce Salaries of Officials; Appeal Case Up in Court

Inability of farmers to pay their taxes and the steadily mounting delinquent tax list caused the county commissioners to take drastic steps and reduce taxation to the lowest possible degree through reducing the salaries of county officials. O. E. Carlson, a member of the board, testified Wednesday afternoon in the hearing being held before Judge H. F. Ensign in the district court in an appeal from the commissioners' order taken by O. M. Etter and others to prevent this reduction. Mr. Carlson took the stand late Wednesday afternoon following the testimony of 12 others and when court adjourned at 5 o'clock to reopen at 10 this morning he was being cross-examined by Mayor Shad L. Hodgins, attorney for the plaintiffs.

During the day, Mr. Hodgins called a number of witnesses who testified to the salaries paid at the time the United States entered the world war, which were the same as now paid. Efforts were made by the prosecution to show that a reduction from \$800 to \$500 a year proposed in the salaries of these officials would not only bring about a condition where such officials could not live on the salaries they received, but would undermine and demoralize public service to such an extent that officials worthy of holding office would be unobtainable.

Mr. Carlson, called by the defense, declared that the board in deciding upon the reduction did not only after a careful survey of the financial condition of the farmers as indicated through the number of delinquent taxes during the last year or two which he said were continually mounting. The commissioners also took into consideration, he said, the present cost of living, which he asserted had been reduced approximately 20 per cent below that of war times.

Following the testimony of Mr. Carlson in response to questions from the defense attorneys, Prosecuting Attorney W. Taylor and Judge James R. Bothwell, Mr. Hodgins cross-examined as to the exact amount saved through the reduction of salaries. He also inquired as to the number of employees who have been dismissed in order to reduce expenses. Four have been relieved from duty, Mr. Carlson said, and between \$13,000 and \$15,000 saved by reductions.

Whether the reports of Twin Falls county banks which show larger deposits this year than last was taken into consideration in surveying the financial condition of the county was also inquired into. While reports drawn up show that approximately three quarters of a million dollars in debts had been paid off during the last year in Twin Falls county, Mr. Carlson declared he did not know whether this would have any direct bearing on the amount of delinquent tax receipts. Savings made by heads of departments in their departments was also brought out by the plaintiffs.

First to take the stand was Probate Judge O. P. Duvall, who declared that he had handled 205 civil and 200 criminal cases as well as 60 estates and 10 guardianship matters, or more than one case a day for the year. Fear of the court amounting to \$40025 had been taken in during that time, he said.

S. Clard Stewart, county assessor, was the second witness. He told of salaries paid by Twin Falls business concerns as compared with the salaries of county officials. Sheriff M. E. Finch told of the work of his office in which he and his deputies had traveled 47,000 miles and collected \$9000 in fees. C. C. Higgins, county clerk, and Miss Charlotte Pond, county superintendent, were among county officials to testify. Those who testified in addition to these were L. H. Griffin, R. O. Letch, O. M. Etter, B. P. Buffington, Frank Hall and James Fitzgerald.

## Plan Band Concert For Thursday Eve

First Concert of Season to be Given at the City Park at 8 o'clock; Municipal Band to Play.

The first band concert of the season will be given Thursday evening at 8 o'clock in the city park by the Twin Falls band. A program consisting of 10 numbers has been prepared by the band and it is expected that an exceptionally large crowd will hear the program.

No regular band concerts will be held this summer, according to Orrin Fuller, band secretary, due to the failure to make an appropriation to pay members of the band for their services. The offering Thursday evening will be a free will offering of the band and such other concerts held will be likewise.

The program follows: March, "Bene of Valor"; Klaxon Selection, "Red Widow"; Gobet, Popular numbers; "Adagio Ahlue"; Rag, "I Love You"; Archer, Selection, "Army Chaplain"; Miller, Popular songs; "Tripping Along"; Sullivan, "A Smile Will Go a Long Long Way"; Davis, Extraneous from the popular light opera, "Maytime"; Bombardier, March, "Our National Heritage"; Woods, "Star Spangled Banner."

## WOOD CHARGED WITH MURDER OF CALLAHAN

Preliminary of Hagerman Valley Man Set for Saturday Morning at 10; Employs Lawyer to Fight Charge.

First degree murder charges were filed Wednesday afternoon by Prosecuting Attorney M. F. Ryan at Gooding against B. F. Wood, who a coroner's jury Monday afternoon said was responsible for the death of Harry Callahan, 21, when a shotgun set in Wood's cherry orchard exploded and sent a charge of heavy buckshot into the chest and face of the young man, causing almost instant death.

Preliminary hearing for Wood has been set for Saturday morning at 10 o'clock before Probate Judge E. Z. Brandt at Gooding. Wood, it is understood, has retained a Gooding lawyer, W. T. Stafford, and will fight the charge. It will be the claim of the defense that Wood set the loaded shotgun in the orchard and tied a clothesline to the trigger and then to a cherry tree to frighten away persons stealing his cherries, and that the gun was set so that it would not endanger the life of the person who entered the orchard.

Wood, when informed of the charge that has been filed against him, was undisturbed, officials said, and obtained a lawyer to prove his innocence of the charge. He is being held in the Gooding county jail where he was taken Monday morning following the shooting. Wood is said to be a widower with three children who range in age from 11 to 20 years who are taking care of his Hagerman valley ranch during his stay in jail. The two Ardenburg boys who were with Callahan on the night of his death will testify at the preliminary hearing to be held Saturday.

## FUNERAL FOR MRS. REDMON.

"MARINE OIL CORPORATION."

Mr. Wilson states that Fisher well, No. 2, is but 200 feet east of Marine No. 7, one of the properties in which stock is held locally. This well is still the largest producer in the district, the present output being 3100 barrels per day.

Precautions against fire risk by all the oil companies are most elaborate, and no expense is spared to minimize the hazard, Mr. Wilson says.

## Cooler Wednesday Is Report Weather Man

The highest point reached by the mercury, Wednesday was 83 degrees, according to United States government readings. This was a decided slump over Monday, when the highest part of the day pushed the mercury to 97 degrees. During the coolest part of the 24 hours covered by the readings Wednesday the temperature was 42 degrees which was 10 degrees cooler than for Monday. Cool weather interspersed by hot days has almost entirely eliminated bean blight which for a time afflicted Twin Falls farmers. Very little of this disease, said by pathologists to have been brought on by the extremely hot dry weather, is now in evidence.
