

5000 CELEBRATE AT KIMBERLY ON PIONEERS' DAY

Witness Stirring Episodes in Experience of Western Pioneers at Celebration Thursday; Big Entertainment.

Stirring episodes in the experience of western pioneers were re-enacted Thursday to bring to a climax Kimberly's celebration of Pioneers' Day. Approximately 5000 persons, including numbers from many neighboring towns and communities, gathered in Kimberly to attend the celebration which was launched at 10 o'clock with a thrilling holdup of an old-time stage coach by a band of half-naked savages, stage drivers, guards, passengers and Indians being kidnapped and impersonated by Kimberly citizens. The Indians staged a war dance following the holdup.

The old stage coach and Indians, fleet of covered wagons and "hand-cart company" were picturesque features of the parade that marked a high point of the celebration. The parade extended over six blocks. It included, in addition to the pioneer section, an imposing array of floats entered by the business concerns of Kimberly, the hospital float of the Kimberly L. D. S. juniors, Twin Falls Bee Hive girls, national guard hospital unit, commanded by Captain George O. Hailley of Kimberly, boy scouts, children's bicycle section.

Hand Cart Wins Prize. First prize for the "most appropriate and best represented" exhibit in the parade was awarded by a committee of five judges to Mrs. Andrew Glenn of Kimberly for the "hand-cart company." Second prize went to the Kimberly L. D. S. hospital float, and honorable mention was accorded the Twin Falls Bee Hive girls.

In imitation of pioneer social affairs, hand carts and covered wagons following the parade formed a circle within which many persons indulged in an old-time square dance to fiddlers' accompaniment.

Significance of the occasion observed in commemoration of the indomitable courage of the pioneers was expressed by Shady B. Hodge, Twin Falls mayor, in the principal address of the occasion, delivered in connection with a program of speaking and music that was presented on the high school campus immediately following the Indian raid on the stage coach. W. P. Whitaker, former mayor of Pocatello, also was to have been a speaker, but word that he had been detained unavoidably. C. E. Leavett of Twin Falls introduced the speaker and announced the various numbers on the program, which opened with the singing of "America" by the entire assemblage. Thereafter prayer was offered by E. M. Guest of Twin Falls. Musical numbers were given by a Murtaugh women's quartet and by a Twin Falls male quartet, with vocal solos by Mrs. Deaham and Miss Iris Burkhalter. Mrs. True of Murtaugh gave a reading and Clifford Tolman of Murtaugh presented "Uncle Josh." An instrumental solo was given by Miss Eva Burkhalter.

Basket Dinner. Pioneers and celebrators at noon sat down to a basket dinner spread on the campus, opportunity being improved by the other persons with reminiscence of

SILVER TO HEAD GRAIN CONCERN

Farm Bureau Federation Agent President of Farm Marketing Agency.

CHICAGO, July 24 (AP)—Gray Silver of West Virginia, Washington representative of the American Farm Bureau Federation, today was elected president of the \$26,000,000 grain marketing company, representing a merger of five of the largest grain companies in the country which eventually is to be farmer owned and controlled according to plans. Other officers elected by the board of directors are Harry L. Keefe, Wash. Neb., first vice president; G. M. Price, Seward, Neb., second vice president; J. W. Coverdale, Ames, Ia., secretary-treasurer. The executive committee is composed of President Silver, Secretary Coverdale, Clifford Myers, Chicago, chairman of the board of directors; Mr. Keefe and Mr. A. Mudge of Peru, Ia. The officers and board will serve until the second week in February, 1925, when the first annual meeting of the grain marketing company will be held.

Australia Places Ban on American Cattle Shipments

Commonwealth, Fearful of Plague, Imported 13 Cows Last Year From U. S.

WASHINGTON, July 24 (AP)—Because of a fear of foot and mouth disease, the governor-general of Australia has issued a proclamation banning all cattle shipments from the United States. Records of the commerce department reveal that 13 cows were shipped from the United States to Australia in 1923.

CATHOLIC DIGNITARY DIES CHARLOTTE, N. C., July 24 (AP)—Right Rev. Leo Hald, bishop of North Carolina, dean of the Catholic hierarchy of America since July 1885, abbot of Belmont cathedral abbey, near here, died at the abbey tonight following several weeks' illness.

REBELS FACING NEW ONSLAUGHT

Brazilian Troops Extend Operations to West of Sao Paulo; Occupy Sorocoba.

BUENOS AIRES, July 24 (AP)—Activities westward of Sao Paulo by the Brazilian federal forces is reported for the first time in today's official communication by the Brazilian government. It tells of the occupation of Sorocoba, which lies 46 miles west of the besieged state capital. It is believed here that two forces mentioned consist of troops assembled in southern Brazil who are marching northward to close the circle around Sao Paulo and cut off the communications of the rebellious forces in the region to the west and northwest, whence they are deriving provisions.

MERRICK, DEMOCRAT Elected J. H. MORTON FOR GOVERNOR

LINCOLN, Neb., July 24 (AP)—John H. Norton, of Polk, was nominated tonight by the democratic state central committee for governor on the seventh ballot. He will succeed Governor Charles W. Bryan, selected at the April primaries, who today declined the nomination to make the vice presidential race.

RAILWAY LABOR LEADERS DEFY BOARD'S ORDER

Government Agency Meets Rebuff in Attempt to Intervene in Dispute Between Carriers and Employees.

CHICAGO, July 24 (AP)—The United States railroad labor board today heard its jurisdiction challenged in the wage and rules dispute between carriers and employees of western roads; and went into executive session "to determine what action it would take against approximately 90 employee chairmen who refused through counsel to answer summons and testify.

The board sought in a hearing set for today to take testimony under its functions and prepare to settle the controversy. Donald R. Rieberg, counsel for employees and two officers of the brotherhoods of locomotive firemen and engineers and locomotive engineers, asserted the board had illegally attempted to assume jurisdiction and that the witnesses, while present, would not testify.

Ask Direct Conference. The employees made another plea for direct conference with the individual carriers but it brought no immediate comment by representatives of the management committee appointed by the railroad. Hope was expressed in some quarters that before tomorrow an understanding might be reached whereby the dispute would be reopened between the committees of the two parties. Arguments today indicated there were differences as to power and responsibility of members of both committees which possibly could be clarified for further negotiation.

FROST TOUCHES WYOMING

Mercury at 33 Above, Within Two Degrees of Lowest on Record for July at Sheridan.

SHERIDAN, Wyo., July 24 (AP)—A light frost was experienced here last night in the lower parts of the city. The temperature of 33 degrees record at the United States weather bureau here was within two degrees of the lowest on record here for July, according to Will L. Wyland, weather observer.

Indian Patriarch of Spring Dance Dies at 90 Years

Famous Californian Redman Membered for All-Day Dance of Gratitude.

HANFORD, Cal., July 24 (AP)—"Indian Bob" Baptista, patriarch of the Tache tribe of Indians, famous for his "spring dance," died here last night. He was about 90 years of age and was born in the Sierra Nevada foothills.

For many years on the first day of March "Indian Bob" danced from sundown to sunrise, in expression of his gratitude to the "Great Spirit" for the blessings throughout the year ahead. "Indian Bob" foretold his death at the conclusion of his all night dance on March 1 last, saying that before another year he would "go to his fathers."

LONDON PARLEY AWAITS FORMULA

Deadlock Between Herriot and Financiers Over Safeguard for Loan Unbroken.

LONDON, July 24 (AP)—Although Premier Theunis of Belgium and the American representatives at the international conference are continuing to exercise to the utmost their powers of conciliation, the deadlock remains unbroken between Premier Herriot of France and the British and American financiers over the formula by which to safeguard the proposed loan to Germany. Before the king's garden party at Buckingham palace today, conferences and informal conversations were carried on in an effort to discover a formula which, as a member of the French delegation said tonight, certainly would be found.

Another long conference between M. Theunis and Thomas W. Lamont of the J. P. Morgan & Co., was typical of the efforts being made and the resources being expended in an effort to restore the unanimity which characterized the earlier work of the conference. An American commentator who sought to view the situation with detachment said that although there was a certain

Bloodstains, Chisel and Rope Figure in Evidence Against Frank's Slayers

Defense Offers Few Objections as Prosecutors Review in Detail Story of Crime for Which Lives of Leopold and Loeb Are Demanded; Defendants Maintain Stoicism.

CHICAGO, July 24 (AP)—Prosaic things—trousers, boots, a rectangular robe, and a junky-looking bundle of boards—were added today to the evidence with which the state seeks to obtain the death sentence for the confessed murderers of Robert Franks. Commonplace in themselves, the articles with many others offered as people's exhibits today by State's Attorney Robert E. Crowe, were viewed by the prosecutors as tightening the web of incontrovertible detail which they expect will send Nathan Leopold, Jr., and Richard Loeb to the gallows.

The cold chisel with which young Franks was strangled, the rope with which he was bound, the acid bottle from which acid was poured the fluid that stained his trousers, and the wrecked and water-soaked typewriter on which was written the ransom letter sent to the boy's father also figured in the day's proceedings.

Bloodstains Everywhere. On the clothing, the chisel, an automobile robe, floor boards, and paint of the automobile, expert chemists told Judge John W. Caverly.

One pair of trousers which, it was claimed by the state, was worn by Loeb, the other pair of trousers, a coat and the big boots by Leopold on the night of May 21 when young Franks was slain and his body deposited in a water-filled culvert near the southern limits of the city. Also introduced today were the specially designed tortoise shell spectacles found near the body and described as the first tangible clue connecting Leopold with the crime.

Three Doctors Testify.

The remnants of an automobile robe, partly consumed by fire and identified by several witnesses as the robe worn by Leopold, also yielded signs of human blood under the microscope, in the test tube and in biological tests. Dr. William B. McNally, Cook county's coroner's physician, testified. Dr. John Weisner and Dr. Ralph Weiss corroborated the testimony. The expert qualifications of all three being admitted by the defense. Presentation of this evidence was planned for the last half of the afternoon session but it was disposed of so rapidly as the defense admitted the outstanding points and declined to

POWER COMPANY TAKES RATE ISSUE TO COURT

Asks Review of Public Utilities Commission's Decision and Orders; Claims \$4,000,000 Over-Valuation.

BOISE, July 24 (AP)—The Idaho Power company filed Thursday with the United States district court a bill of complaint, asking the court to review the valuation rate decisions and orders of the public utilities commission of Idaho affecting the company. The utilities commission and A. H. Conner, Idaho attorney general, made joint defendants in the action. Relief of three kinds is sought by the company. The charge is made that its property has been undervalued by approximately \$4,000,000. The company holds the rate of return on its investment allowed by the commission to be too low. It is further asserted that relief should be given from certain non-compensatory rates, such as those for irrigation power and heating purposes.

BRITISH-AROUND WORLD AVIATOR IN KAMCHATKA

Fog Halts First Attempt and Causes One Day's Delay in Reaching Present Destination.

TOKYO, July 23 (AP)—A. Stuart MacLaren, the British aviator, and his companions, who are on a flight around the world, has reached Petropavlovsk, Kamchatka. MacLaren attempted to fly to Kamchatka yesterday from Paramashir, Kurile islands, but after two hours the air was compelled owing to a dense fog to return to the Japanese island, said a wireless from the Japanese destroyer Hamakaze, which is assigned to assist the British aviator. Fog have greatly handicapped the British party since it left Kamigata, the Japanese naval air base north of Tokyo, on July 12. The aviators have been compelled to fly at high altitudes and to make several forced landings.

IDAHO WEATHER Friday: Fair.

INVOKES AID OF WOMEN TO STIR LAGGARD VOTER

Former Kentucky Governor Appeals to Business Women in Fight Against Political Indifference.

WEST BADEN, July 24 (AP)—Likening this "motion picture age in America" to the decadent hippodrome present in Rome, former Governor Edwin P. Morrow of Kentucky, speaking at the annual banquet of the National Federation of Business and Professional Women here tonight urged women to do their part in stemming the flood of political indifference.

Oliver Joy Wright of Cleveland, Ohio, first vice president of the federation, presided at the banquet which was designed to climax the gala night of the convention.

Time Fears for Foundation.

Former Governor Morrow said in his speech: "It is apparent that we are reaching a time feared by both Washington and Hamilton. Indifference and neglect of interest on the part of people will threaten, if not destroy, orderly government. Out of 50,000,000 million voters in 1920 only 20,000,000 asserted the franchise. In 1923 the percentage was much less, only one voter out of every two apparently taking sufficient interest in government and those who serve to go to the polls and vote.

"The indifference of the electorate of the nation listless and indifferent to welfare, corruption can not be rebuked, demagoguery can not be prevented, communism can not be forestalled and folly can be expected everywhere.

The voter that does not vote should not be penalized, but should be denied any further exercise of the blood-bought privilege which we have too indifferent to fight. We will never have government in business until business gets into government, that is, into what produces government in the long run, a healthy, intelligent and active interest in politics."

The nominating committee was submitted to the convention by Margaret Stewart of Ogden, Utah.

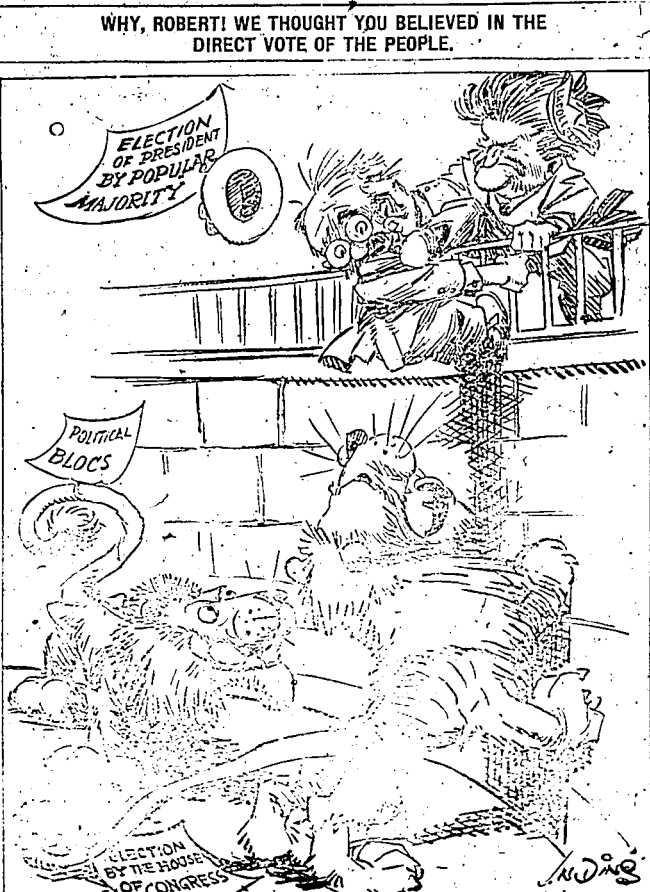

The committee recommended the reelection of Adella Prichard of Portland, Ore., as president.

CITIZENS MOURN OFFICER'S DEATH

Killing of Detective S. Garbett Shocked Pocatello; Wounded Chief Recovering.

POCATELLO, July 24 (AP)—Pocatello is shocked today at the tragic death of City Detective Sam Garbett, who was shot and instantly killed last Wednesday afternoon on East Wyeth street by George Rives, a West Indian. The West Indian, who fired upon Chief of Police L. A. Lehrs and Detective Garbett, was killed by bullets fired by the chief after he himself had been shot in the face and seriously wounded. According to Mrs. Artie Smith, Rives came to her home and after making improper promises to her, drew a revolver and threatened to kill her if she refused his proposal. Mrs. Smith ran out of the back door and went to the sheriff's office where she reported the affair. Chief Lehrs and Detective Garbett drove to the locality in the chief's automobile and found Rives walking east on East Wyeth street. Chief Lehrs

SWEDISH PRINCE MAKES FIND IN OLD GREEK TOMB

Uncovers Heirlooms That Were
Ancient in Days of Homer, in
Burial Place Undisturbed for
3000 Years.

STOCKHOLM, July 24 (AP)—The discovery of 250 gold ornaments that were ancient heirlooms even in the time of Homer, the opening of a Greek tomb that had not been disturbed for more than 3000 years, and the discovery that the so-called saddle roof was not unknown in the architecture of that early day, are some of the important results, just reported here, of the Swedish archaeological expedition, headed by Crown Prince Gustaf Adolf, which is excavating the ancient city of Assos, Greece.

The latest discovery of the Swedish experts came somewhat as a surprise when, after having explored a tomb as big as a house and finding nothing of unusual interest, they turned to a tomb less than five feet wide. This proved to be a treasure store, dating about 1150 B. C., in the Mycenaean, or pre-Hellenic period.

URNS Hold Glass Beads.

It contained numerous earthenware vases of rare design and decoration, eight beautiful bronze urns and other vessels, of which one was 20 inches high. One of the smaller bronze urns contained four necklaces of gold and iridescent glass beads, and curiously enough the strings were sufficiently well preserved to show the arrangement of the beads, so that the necklaces can now be restored to their exact appearance 3000 years ago. The necklaces contained 600 beads and other ornaments, of which 250 were of gold.

The great tomb near by, which contained few treasures, is nevertheless of great archaeological value, since it is built in the form of a house, and its top, hewn into the rock, is the exact shape of the familiar "saddle roof," with sloping sides and gables at both ends, thus proving that this architectural detail was known in Greece more than 100 years B. C.

At Work for Two Years.

The Swedish expedition has been at work on the excavation of Assos for more than two years and has already unearthed and classified more than 500,000 treasures and fragments of value, some of which date back as far as 3500 B. C. Yet the experts say that the work has only just begun, and that still more important discoveries may be expected in the near future.

All the portable finds of the crown prince's expedition are being studied in the University of Lund, Sweden, to which they have been shipped by special permission of the Greek government. As soon as the examination has been completed by archaeological experts the finds will be returned to Greece.

PUBLIC UTILITIES TO EXAMINE INTO RATES

Charge on Coal from Teton Coal Mine
Appears Excessive, Says Utilities
Commission; Hearing at Pocatello.

Oregon Short Line freight rates on coal from the Teton coal mine at Talbot to various points within the state will be investigated and a hearing held by the state public utilities commission at Pocatello on August 4, it has been announced in a circular letter sent out by the utilities commission.

"It appearing," says the letter, "to the commission that the rates contained in said tariff are unreasonable and excessive, and for the purpose of investigating the same, a public hearing will be held at Pocatello, August 4 at 10 o'clock in the morning at which time all parties interested are requested to appear, either in person, or by counsel, and present evidence bearing upon the reasonableness of said rates."

Among the rates quoted in the railroad company's tariff on lump coal from the Teton coal mine is that from Talbot to Twin Falls, a distance of 253 miles for which the railroad company asks \$4.10 a ton. To Idaho Falls, a distance of 90 miles the rate asked is \$2 while to Pocatello a distance of 147 miles the rate asked is \$2.60. To points around Boise, such as Nampa, Caldwell, Parma and Emmett the charge is \$4.75.

JOSEPH FORD & MISS ANNE MORGAN
VINCENT RICHARDS

IT IS REPORTED IN New York financial circles that Edsel Ford, son of the automobile manufacturer, is to start one of the biggest banks in the world in New York City.

FOR HER WORK on the American Committee for Devastated France, Miss Anne Morgan, daughter of the late J. Pierpont Morgan, of New York, has been made an officer in the Legion of Honor by the French government.

JACOB GOULD SCHURMAN, American minister to China, is returning to America in August, according to Peking reports, to urge that the Peking legation be raised to the rank of an embassy.

VINCENT RICHARDS, youthful Yonkers, N. Y., tennis star, won the Olympic tennis singles, defeating Henri Cochet, the French champion, three sets in five.

INSTRUCTOR COMING HERE

U. S. Army Sergeant Transferred from
Boise to Twin Falls; May Mean
Battalion Headquarters.

Sergeant O. D. Guffey, United States army, assigned to duty as instructor of Idaho, national guard infantry units, has been transferred from Boise to Twin Falls, effective October 1, according to word received Monday by officers of Company L, local national guard company. National guard officers here interpreted the order as indicating that Twin Falls "would be headquarters for a battalion, or perhaps, a regiment of national guard in infantry to be formed in Idaho."

Sergeant Guffey spent Sunday in Twin Falls and left Monday returning to Boise. He expects to arrive with his family as soon as he is able to arrange for a residence here.

CONSTIPATION Easy to take, thoroughly cleansing CHAMBERLAIN'S TABLETS

Never disappoint or mislead—See
What My Neighbor Says

Is of Interest to Twin Falls Folks.

When one has had the misfortune to suffer from headache, dizziness, urinary disorders and other kidney ills—and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Twin Falls resident. Who could ask for a better example?

Ang. Welner, carpenter, R. F. D. No. 2, Twin Falls, says: "I had a lame back and a soreness over my kidneys that made me miserable. When I got down, I could hardly get up on account of the sharp, stabbing pains. My kidneys acted too often and the secretions scalded in passage. Doan's Pills cured me entirely and I have had no trouble since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Welner had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

TOURIST PARK NOTES

A. E. Allison and family came from Los Angeles via Elko, Nev., and proceeded on their way to Mandan, N. D.

E. Krusa and family from Chicago are enroute to California.

E. Keown and family from Chicago, visited the park on the way to California.

L. E. Scott and party from Toledo, Oregon, have been to Yellowstone, and are now on the road home.

J. E. Smith and friend from Orlando, Cal., arrived from Elko and departed for Rupert.

G. A. Toby and family, former residents of Twin Falls have had quite enough of California, and have come back to stay.

Mr. and Mrs. Dan Nielsen are journeying from Emmett, Idaho, to Salt Lake.

George Williams and family are returning to Salt Lake from California.

George Bettner and party of Platteburg, Pa., came from Denver, and left for the coast.

L. W. Welch and family are returning to Long Beach, Cal., from the Yellowstone park.

Mr. and Mrs. Virgil Argo have just begun a long journey from Walla Walla, Wash., to Ithica, N. Y. where Mr. Argo has a position as instructor in Cornell University. Before assuming his duties, they will visit New York and then go to Washington, D. C. where Mr. Argo will spend some time in the Smithsonian Institute studying the entomological collection.

Mr. and Mrs. Lyman Kelly are returning to Smith Center, Kan., from California.

J. Longcraft and family of Des Moines, came from Salt Lake via Snowville and left for Los Angeles.

S. E. Sanders and family are going to Des Moines from Portland.

Pat Sullivan who hails from Butte, Mont., has been looking over the mineral region about Contact and Jarbridge and is undecided as to his future movements.

Mr. and Mrs. A. Sheppard from Chicago, are going to Boise.

Ray Peterson and family are enroute to Boise from Brazil, Indiana.

Mr. and Mrs. F. K. Stratton who have been touring the west are now going to Salt Lake.

SONS OF REVOLUTION MEET KENTUCKY MAN PRESIDENT

SALT LAKE, July 24 (AP)—Marvin E. Lewis of Louisville, Ky., was elected president general of the Sons of the American Revolution at the closing session of the organization's thirty-fifth annual congress here late Wednesday. He succeeds Arthur Preston Sumner of Providence, R. I.

Boston, Mass., was chosen as the 1925 convention city, the sessions to start the third Monday in May.

HOME TO COON RAULDS, IOWA.

Frank Gardiner and family from Leitchfield, Ky., have finished California, and are now going to Salt Lake and the Yellowstone park.

ED SLEDSON AND FAMILY FROM MINNEAPOLIS, ARE GOING TO BOISE.

Ed Sledson and family from Minneapolis, came through the park and are going to Seattle.

E. C. BILB AND FAMILY FROM BANCROFT, IDAHO, ARE HERE, LOOKING AROUND.

H. McDonald and family are returning to Seattle, from a trip to the eastward.

O. F. ERICKSON AND FAMILY ARE JOURNEYING FROM ILLAWATHA, KAN., TO SEATTLE.

M. F. Chase and family from Roseville, Cal., are traveling eastward.

G. R. QVERTON AND FAMILY HAVE BEEN UP IN THE PARK, AND ARE RETURNING TO SEATTLE VIA PORTLAND.

C. H. McDonald and family from Denver, are going to somewhere, on the Pacific coast.

MR. AND MRS. C. H. RICHARDS FROM SAN FRANCISCO, CAME FROM SALT LAKE AND LEFT FOR HOME.

BLINDNESS IN EGYPT.

The prevalence of blindness in Egypt is probably traceable to the fact that the fly is sacred in that country. It is said that a mother will not kill a fly nor even brush it from the eyelid of her child. Infection is often carried from one child to another, and in the case of diseased eyes the malady is spread in this manner.

MONUMENT PETRIFIED FOREST FOUND IN CRATERS OF MOON

BOISE, July 24 (AP)—An extensive area of petrified wood, equaling in grandeur the petrified forests of Arizona, is reported by Robert W. Lambert, Boise, to lie in the Craters of the Moon country, near Arco, although not included in the national monument. Mr. Lambert, who has returned from a trip to the Craters of the Moon and a journey through some of the scenic wonders of Utah, said Wednesday that an effort will be made to have the petrified forest included in the national monument, set aside recently by order of President Coolidge. The area, according to Mr. Lambert, contains from 150 to 200 petrified trees, mostly stumps, a large number redlining, but others standing as they were when trees, ages past.

Our Wills

Our wills are queer things. They are like plaster of paris; for after they have been melted into liquid form they tend to "set." They do thus preserve the contour of that about which they have been molded. If it is a good cast, well enough; we make a cast for a permanent possession. Here it is—fixed and final! Is the lethargy of a standard pattern, no matter how excellent it may have been at one time, to prevent any future change and growth—the Living

An Ancient Anesthetic

In prehistoric times, Zulus and other tribes of North American Indians used a substance obtained from the Jimson weed as an anesthetic during surgical operations.

IDAHO FOREST ROADS GET AID

Fund of \$413,000 Approved for Roads in State by Federal Department.

OGDEN, Utah, July 24—Expenditures totaling \$113,056 of forest road funds for the construction of roads within or adjacent to the National Forests of Idaho have been approved, according to announcement from the Forest Service, United States department of agriculture.

One of the projects involves the construction of three and a half miles along the Elk City highway within the Nezperce national forest. The sum of \$75,000 has been allotted for this work. This road is expected to be especially beneficial to the mining community around Elk City as well as highly desirable for the better protection of Nezperce forest.

\$100,000 on Lolo Pass

Six miles in the Lolo Pass section of the Selway forest will be built at a cost of \$100,000. For improving nearly seven miles of highway along the North Pacific road in the Cœur d'Alene forest, the sum of \$45,000 has been allotted, with \$5,000 additional offered by the State. This road is a link in the Yellowstone trail.

For the extension of the Ketchikan-Chayton road to the town of Ketchikan, a distance of about seven miles, the sum of \$50,000 has been set aside. To complete the road from Lowman to a point six miles east the sum of \$20,000 has been allotted.

Fayette Highway

The North Fork-Payette highway within the Payette national forest will be extended from Gardnerville to Horse shoe Bend, a distance of about five miles, at an estimated cost of \$97,000. In the Caribou national forest an addition of five miles to the Freedom-Soda Springs road is to be made, for which \$15,000 has been allotted. The sum of \$25,000 will also be spent on this project by local authorities.

The sum of \$3,500 from federal funds and \$6,000 from local funds will be spent on the construction of 22 miles along the Victor-Irwin highway within the Targhee forest. An additional \$39,900 has been set aside for maintenance of the highways heretofore built or which are under construction.

Diet Changes Bird's Color.

Varying the diet of birds has been demonstrated by a Berlin naturalist to result in changing the color of their feathers. Certain foods will cause red and green parrots to turn yellow. The experiments tend to show that a bird's plumage depends largely on the diet it consumes. Dyes put in chicken feed affects the hue of eggs to a considerable degree. Caterpillars fed exclusively on walnut foliage become dark butterflies. Indians have long understood the art of changing the color of living birds through the diet method.

Candidates of Independent Party

HERE ARE PICTURED U. S. Senator Robert M. LaFollette of Wisconsin and U. S. Senator Burton K. Wheeler, democrat, of Montana, who headed their parties and are running independently for the presidency and vice presidency on a progressive platform.

PRESIDENT'S CAT MISSING

White House Rules Against Second Radio Search for Animal That Prefers Other Society.

WASHINGTON, July 24 (AP)—"Tige," President Coolidge's pet cat, is lost again, has been lost for a month and has been virtually given up as lost forever. Tige, a Siamese cat, was several months ago and was found only after notice that he was missing had been broadcast over the eastern half of the country by radio. The cat then was given a collar to keep as a souvenir, and Tige began again his nocturnal wanderings. Finally he left for good. Mr. Coolidge ruled against another radio search on the ground that Tige plainly had indicated his preference for society other than that found around the White House.

BUDGET OFFICER AT WORK

G. W. Lewis Starts Compiling Figures for Presentation to Idaho Lawmakers at Coming Session.

BOISE, July 24 (AP)—Signs of another legislative year already begun to make their appearance around the state house, as George W. Lewis, state budget officer, starts to get his budget together to present to the lawmakers when they meet here in January. Mr. Lewis is now in the course of compiling figures showing the amount of money expended by each department and institution of the state government during the 13 months period ending June 30, 1924. This information will be tabulated on special charts opposite the names of the institution and departments.

CAMPERS CAUSE ELEVEN FIRES IN BOISE FOREST

Forestry Office Reports Half of 22 Blazes This Season Are Man-Made; Lightning Starts Others.

BOISE, July 24 (AP)—The Boise National forest has had 22 fires this season, 11 caused by persons camping or otherwise on the forest, and 11 by lightning, according to a report issued by the forestry office. Of the man-made fires, said the report, six were caused by cigarettes, cigars or matches carelessly thrown into flammable material, and five by unextinguished camp fires. The man-made fires, declares the report, burned over 253 acres of forest land and were extinguished at a cost of \$1124.97.

Paper That Can Be Washed.

A Japanese inventor has patented a paper that can be crumpled up and washed with soap and water. So durable is this paper that it can be used as a covering for umbrellas, and when soiled, can be easily cleaned at home. The inventor says that as wrapping paper, it could be used over and over, being washed when soiled. It is said that the product can be made at a reasonable price. It has a texture somewhat like cloth, and is not to be confused with oiled paper.

Pitch-Blende.

Up to the time of M. and Mme. Curie's discovery, pitch-blende, the jet black mineral in which radium is found, was regarded as being almost valueless. Mining companies actually paid large sums to have the residue of its pitch-blende supplies from which other minerals had been extracted, carted away to the destructor. In this manner many millions of dollars in radium was lost forever.

RAILROAD FROM BOULDER TO BOISE NEW OBJECTIVE

Mayor Tells Kiwanians Outlets For Branch to Boise of O. S. L. Now a Major Point of Chamber of Commerce.

Extension of the Oregon Short Line railway west from Boulder to furnish a direct connection between Boise and Twin Falls is one of the major objectives now being considered by the Twin Falls Chamber of Commerce, Shad L. Hodgins, Twin Falls mayor and a director of the chamber of commerce, told members of the Kiwanis club at a meeting Monday in the course of discussion of recent achievements and projects of the chamber of commerce. The second major undertaking, he said, is the building of a rim-to-rim bridge across Snake river canyon north of Twin Falls.

It is the present purpose of the chamber of commerce, Mr. Hodgins said, to take up with Oregon Short Line officials the extension of the line to Boise as soon as the Rogerson-Wells line, which will furnish direct rail communication with California and the southwest, is completed.

The chamber of commerce assisted in raising \$18,000 to a fund for purchase of the right of way for the Rogerson-Wells line, on which construction now is being pushed.

On recommendation of M. J. Sweedley the club voted to inquire into advisability of erecting a suitable marker at the intersection near here of the original Old Oregon trail with the state highway which now bears that name.

With view to stimulating interest on the part of members of the local club in the Utah-Idaho Kiwanis district convention, to be held August 21-23 in Provo, Utah, a committee was appointed consisting of L. H. Masters, district trustee, and two other members to be named by him.

Guests at the meeting were Dr. H. J. Smith of Moscow and the Rev. J. E. Elmer of Oberlin, Kans.

In Both Hemispheres
Ginger is a native of both the East and West Indies.

Theatres

ALL COMEDY SHOW AT THE IDAHO THEATRE TODAY

An uproarious mirthful comedy of a trio of unmanageable kids with no one to manage them, is the theme of the picture announced by the Idaho Theatre management for today and tomorrow. It is "The Country Kid," Wedgie Barry's latest picture, a Warner Brothers' Classic of the Screen. The parts of the other two kids are played by "Baby" Bronx Guerin, four years old and a wonder; and "Spec" O'Donnell.

The story was specially written around "Freckles" Barry by William Beaudine.

The balance of the program consists of "The Cradle Robbers" one of the famous "Our Gang" comedies, "Felix Gets Broomstick," a Felix Cartwright and the International News Weekly.

"BAD MAN" ON SCREEN AFTER THREE YEARS ON STAGE

Holbrook Blinn, star of Edwin Carver's "The Bad Man," a First National picture at the Orpheum Theatre today, is the original "bad man" of both stage and screen. Blinn, up to the time of the release of "The Bad Man," was the only actor who had ever played the role. This is a unique achievement in itself, because seldom is a stage actor as good in the films as he is on the stage and vice versa.

Blinn began playing the role back in 1920 when the play was first presented in New York City. For three years without cessation he played the role of "Pancho Lopez" before Broadway audiences. Then he followed this with a short tour of the country, playing in all the principal cities, returning to Chicago for a solid year. This was followed by another tour which ended in Los Angeles.

EIGHTH INNING
RALLY WINS FOR
KIMBERLY NINE

Thompson's Crew Takes Long
End of 5-to-3 Score Before
Crowd in Pioneer Day Game
With Wendell.

KIMBERLY, July 24.—(Special to The News).—Breaking a 3-to-3 tie in the eighth inning with a brief rallying rally which brought in two runs, Kimberly took the large end of a 5-to-3 score in a hotly contested baseball game with Wendell Thursday afternoon. The game was one of the big features of the Pioneer Day celebration here.

The opposing teams were well matched, but an edge in fielding ability turned the tide in favor of the home team, which also demonstrated a better brand of base running than did the visitors.

Venemon was hit hard for the opening innings and only good field support kept Kimberly from scoring until the third inning when the Wendell infield took a vacation, allowed four errors and three Kimberly runners crossed the plate.

In the fourth frame, with the score 8 to 0 for Kimberly, Myers started things for the visitors with a single, scoring on Hansen's triple. Hansen, too, scored when Barlogi sent out a neat double and in an attempt to stretch the hit into a three-bagger the lengthy shortstop was trapped out at third. This checked the Wendell batting rally and allowed Thompson to collect his forces and hold the north-siders to two runs for the inning.

In the fifth Wendell sent over another score when Critchfield reached first on an error and scored on Cook's single. Both teams lightened up after this brief start and the game became a duel between "Jimmy" Thompson and Venemon, with the latter holding a slight edge.

The eighth inning all but passed with the score still tied when, with two men out, Venemon gave Shove a pass for a steal and the home team came on the game of which they took advantage when Calabrese broke the tie with a two-bagger. The grandstand applauded and the applause became an uproar when the second run was driven in by Lowry before the locals were retired.

In the ninth Barlogi sent his batting average to .750 for the game by a neat single to right field, raising the Wendell stock. Showeller lined out a base drive down the third base line which was credited as a foul by umpire King, who drew a pass to first. With two men on base Wendell was unable to score the necessary runs to tie the score.

AUTHOR OF BROWNIE STORIES
TO BE BURIED AT HOME TOWN
NEW YORK, July 24 (AP)—Palmer Cox, author of the "Brownie" stories for children, who died today, will be buried at his home town, Granby, Quebec, where he was born 84 years ago, friends here learned tonight. The funeral plans have not yet been completed.
Mr. Cox was 84 years old. He illustrated his own works with humorous drawings. He went to San Francisco in 1863 and for 12 years engaged in literary work there.

Inter-Church League
Agrees on Schedule

A schedule officially adopted for the inter-church league of the Pioneer Day season, which will close the last of the next month with the present four teams composing the league participating will allow each team to play once each week and will end with each team having played nine games, three with the members of the league.

Each team will play a league game once a week and additional games with the various other teams which are being organized is optional with the managers of the teams.

For the benefit of the increasing number of spectators to the games a complete schedule is given out as follows:

July 25—Baptists vs. Presbyterians.
July 26—Christians vs. Presbyterians.
August 1—Methodists vs. Baptists.
August 5—Baptists vs. Presbyterians.
August 8—Methodists vs. Christians.
August 13—Christians vs. Baptists.
August 15—Presbyterians vs. Methodists.
August 16—Methodists vs. Baptists.
August 22—Presbyterians vs. Christians.
August 26—Christians vs. Methodists.
August 29—Presbyterians vs. Baptists.

TIGERS REGAIN
TOP OF LEAGUE

Detroit Wins Final Game From
Yankees; Senators Make It
Four Out of Five.

WASHINGTON, July 24 (AP)—Washington made it four out of five in the home series with Chicago by taking the final game today, 7 to 5. The White Sox forced Johnson to retire after the fifth inning, but Loretto was barred for a tie score by the Senators, who continued to victory after Craggs rolled him.

The score: R. H. E.
Chicago 5 10 0
Washington 7 9 1
Batteries: Loretto, Craggs, Lyons and Craggs, Schalk; Johnson, Russell and Ruck.

TIGERS TAKE FINAL GAME.
NEW YORK, July 24 (AP)—Detroit ousted New York from first place today, winning the last game of the series by a score of 9 to 4. The victory gave the Tigers a 3-1 record in the last four games of the series. The game was called at the end of the eighth inning to permit the New York team to catch a train for the west.

The score: R. H. E.
Detroit 9 5 11 2
New York 4 9 9 2
Batteries: White, Holloway, Wells and Bassler; Mann, Gaton, S. Jones, Hoyt, and Hofmann, Schang.

ATHLETICS SCORE SHUTOUT.
PHILADELPHIA, July 24 (AP)—Ray K. Kellied to repeat his triumphs of last Monday and Tuesday today, winning the last game of the series in Philadelphia, 5 to 0. Baumgartner, eased out of three ticklish situations in the opening innings but thereafter was complete master of the visiting batsmen. Kell knocked out of the box in the fourth with 60-60 home in the fifth and accounted for four runs.

The score: R. H. E.
St. Louis 0 0 9 1
Philadelphia 5 0 0 0
Batteries: Kell, Wingard, Lyons and Severid; Baumgartner and Perkins.

BOSTON WINS IN TENTH.
BOSTON, July 24 (AP)—Boston made it three out of four from Cleveland today by winning, 10 to 9, in the tenth inning. Clark's single off Uble to right with the bases full scored two runs. With two out in the fifth and ninth, Boston scored four runs and two runs, respectively.

The score: R. H. E.
Cleveland 9 10 0
Boston 10 12 1
Batteries: Shantz, Uble and Myatt; Flacey, Murray, Ross, Fullerton and O'Neill.

DOUBLE PLAYS HELP
PITTSBURGH TO WIN

Pittsburgh, July 24 (AP)—Sharp fielding by both clubs featured the last game of the series with Brooklyn today but the Pirates kept their bats barking and won handily, 8 to 1. Yde led the visitors down with four hits. Six double plays were made, Pittsburgh having four of them.

The score: R. H. E.
Brooklyn 1 4 2 1
Pittsburgh 8 13 0
Batteries: Roberts, Ehrhardt and Taylor; Yde and Smith.

No other National league games.

SUGAR FACTORY TAKES
FAST GAME AT BURLEY

Local Nine Defeated Burley by Toss of 8 to 12; Home Run by Finks Lets in Four.

Burley's baseball team suffered a severe drubbing Thursday at the hands of the Twin Falls sugar factory team on the Burley field in a game which ended with the score 12 to 8 in favor of the factory nine. Anderson of Burley, who blew up in the sixth, led the local team in nine runs, four of which were the result of a home run made by Finks, first sacker for the sugar factory.

More than a thousand fans witnessed the game which until the sixth inning looked dark for Twin Falls. The game was fast throughout and the work of Jim Selley for the sugar factory, who pitched seven innings and allowed but five hits, and Flynn, who pitched two innings and allowed but one hit, were features of the game. Patzler caught for Selley and Selley for Flynn.

TUNNEY WORSTS
CARPENTIER IN
GRUELLING BOUT

Frenchman Sinks to Floor at
Beginning of Final Round and
Referee Awards Technical
Knockout to American.

NEW YORK, July 24 (AP)—Gene Tunney, American light heavyweight champion, won a technical knockout over Georges Carpentier of France in the fourth round of a fifteen-round match in the Polo Grounds tonight.

Carpentier was unable to continue after coming up for the fifteenth round. A blow which Carpentier's handler said was low, at the termination of the fourteenth round, sent Carpentier to the mat in a writhing pain.

The Frenchman came out but sank to the floor, unable to continue. The referee awarded the fight to Tunney by a technical knockout, terminating the match after 14 seconds of the last round in which not a blow was struck.

The conclusion of the match, one of the most confusing and unsatisfactory endings in local ring history, came when Carpentier, doubled up from apparent pain, attempted to renew the battle from a semi-crouched position. He groped around the ring, attempting to find Tunney. Referee Griffith, uncertain whether to allow Carpentier to continue, waved Tunney to his corner with the idea of stopping the match.

Carpentier rolled to the floor of the ring, unable to stand. The ring was a bell of confusion. Handlers of both fighters rushed to the ring. Francis Duggan, Carpentier's manager, with arms waving, rushed to the referee yelling "Foul! Foul!" Griffith waved him away while Joe Humphries, official announcer, lifted Tunney's arm in token of victory.

Crowd Cheers Frenchman
Many of the spectators thought the blow which terminated the bout was foul and booed the decision. They cheered Carpentier to the echo as the French idol was assisted through the ropes by his handlers and several patrolmen.

Tunney made his big bid for victory in the tenth round when Georges was felled twice, once for a count of five and again for a count of nine, but he staggered to his feet each time and with wild swinging fists rushed to Tunney and managed to hold on until his head cleared.

FITZKE TO JOIN INDIANS.
University of Idaho Athletic Star Signed as Pitcher by the Cleveland Americans.

SPOKANE, July 24 (AP)—Bob Fitzke, all around University of Idaho athlete, has been signed as a pitcher by the Cleveland Americans and will leave Monday to join the club at Cleveland, according to word received here today from Coach d'Alone, Idaho, where Fitzke has been playing ball this summer.

Fitzke was a ball North-west football halfback, played center on the University's basketball team and was the school's mainstay on the pitching staff. He is a right hander.

REPUBLICAN TREASURER NAMED.
CHICAGO, July 24 (AP)—Colonel Bernard Eckhart of Chicago has been appointed assistant treasurer of the republican national committee, William M. Butler, chairman of the committee announced tonight.

Surgical Operation
Proves Efficacious
for Angina Pectoris

Recovery of Patient, Under
Knife for Heart Disease,
Stirs Professional Interest.

VIENNA, July 24 (AP)—The complete recovery of a patient operated upon here for angina pectoris by the American surgeons, Dr. Walter B. Coffey, and Dr. Brown of the Southern Pacific Hospital, San Francisco, has aroused the keenest interest of a conference of three groups of physicians from various parts of the world, who have been directing their efforts to the relief of angina pectoris by surgery.

The patient was called by Professor Wenckebach, a well known heart specialist of Vienna university, who delivered a course of lectures on that subject in the United States last year, and included in addition to doctors Wenckebach, Coffey and Brown, Professors Spengler, Hofer and Winterberg, of Vienna and Professor Nests of Bucharest. Professor Wenckebach's visit to America, did much to further his efforts to promote the idea of international co-operation in medicine and surgery.

MACHINE PROVIDED FOR
LAFOLLETTE'S CAMPAIGN

Ten Out of Eleven Members of National Committee Named; Spreckels and Frazier Included.

WASHINGTON, July 24 (AP)—Senator LaFollette's presidential campaign was given organized machinery today by the appointment of 10 out of 11 members of a national joint executive committee with wide powers.

These members within reach of the city were summoned to attend a conference here tomorrow, to grapple with the problem of getting their candidate before the voting population and his electors upon the LaFollette ticket. 48 states with as great a degree of uniformity of position as may be practicable.

Men and women designated for the leading positions in most cases were those who have participated prominently in campaign preliminaries, but there were two notable exceptions. Rudolph Spreckels, a San Francisco banker, who has been engaged in independent politics since before the Roosevelt campaign in 1912, and Senator Frazier, North Dakota, listed as a republican, were additions to the LaFollette crew. Representative John M. Nelson of Wisconsin, now managing the campaign out of Chicago, was named as chairman of the new body.

Not So Funny.
An insurance salesman is looking for the practical joker who gave him a fracture line along the coast of Japan and another along the coast of California. The crust of the earth is constantly in motion, up or down, sideways or twisting. Millions of years may pass before bringing a strain so severe that the strata will slip or crumble, and any great fault in the earth's crust, but when that slip comes there is an earthquake. Usually it is only a fraction of an inch, or a few inches. In Yakutat, southern Siberia, a slip of forty feet was once recorded, and the quake was felt all over the world.

Lonesome.
Once upon a time I prayed that I might be delivered from all my troubles, but when my prayer was answered I was the loneliest man in the world; there was nobody to sympathize with me—Atlanta Constitution.

Joe-K says:
Some people regard life as a travesty not seeking to find the tangible and pure soil that lies beneath the surface.

SUPREME COURT ORDER
FREES ARIZONA EDITOR

Carl K. McGee, Sentenced for Contempt and Fined by Governor, Is Released on \$2500 Bond.

SANTA FE, N. M., July 24 (AP)—Carl K. McGee, Albuquerque editor, was released on \$2500 bond by order of the state supreme court here tonight at the termination of a hearing instituted on a writ of habeas corpus. Release of the editor was for duration of the court's deliberation on the question of the governor's power of pardon in the case of direct contempt for which McGee is under sentence in the San Miguel county jail at Las Vegas.

WHEAT PRICES HELD DOWN

Reports on Crop Conditions Cause Fluctuation Throughout Trading Session; New Gains Fall to Hold.

CHICAGO, July 24 (AP)—New high prices for wheat for the year were established in trading here today although the new gains did not hold at the close of the market which dropped to near the low point for the day. July wheat, which reached \$1.33 1/2 a bushel, closed at \$1.31 3/4. September wheat which went to \$1.31 3/4 closed at \$1.26 3/4 and December wheat, which went to \$1.24 1/2 closed at \$1.31 3/4. Cross currents in the news kept wheat prices fluctuating most of the time.

Cause of Earthquakes.

The usual cause of earthquakes is dislocation of the crust of the earth along fracture lines. There is a fracture line along the coast of Japan and another along the coast of California. The crust of the earth is constantly in motion, up or down, sideways or twisting. Millions of years may pass before bringing a strain so severe that the strata will slip or crumble, and any great fault in the earth's crust, but when that slip comes there is an earthquake. Usually it is only a fraction of an inch, or a few inches. In Yakutat, southern Siberia, a slip of forty feet was once recorded, and the quake was felt all over the world.

CROPS GROWING WELL IS REPORT

Weekly Summary of Weather and Crop Conditions; Rains Fall in North.

Conditions were generally favorable for the satisfactory progress of crops in the irrigated districts during the week ending Tuesday, according to the regular weekly summary of weather and crop conditions in Idaho received from Clinton E. Norquest, meteorologist at Boise Thursday. From the physical standpoint it was a delightful week in southwest Idaho, says the summary.

"Temperatures were moderate throughout the week in southwest Idaho," says the summary. "Sunshine was abundant. Light showers fell around the outskirts of the district, but for the most part the drought continued unbroken. Conditions were generally favorable for the satisfactory progress of crops in the irrigated districts. Corn, potatoes, beans and sugar beets are reported advancing very rapidly, although beans have been damaged by blight and beats by the fly in some portions of the Twin Falls district."

"Harvesting of second cutting alfalfa is well under way and weather conditions being ideal for the work the crop is being secured in prime condition. Grain harvest is making good progress and threshing has begun in the earlier sections."

"Apples and prunes in commercial orchards are doing well, but growers are uneasy of the shortage of irrigation water, many ditches being now dry or very low. Pastures are short and range feed, while still sufficient, is not abundant. Much livestock is being shipped because of feed."

"The week was cool and dry until Sunday when good rains fell beneficial to all crops, occurred generally in southeastern Idaho. Frosts in Fremont county damaged seed peas in some of the higher sections. Fall wheat is ripening fast and in some sections harvesting has commenced. Spring wheat, oats and barley are generally short and poor, but they are reported as doing well in parts of Bingham county."

"The first cutting of alfalfa is completed in some sections and progressing in others; the second crop is making fair to good growth. Potatoes are making good growth and setting well. Beans are growing slowly. The range is generally poor and dry. Cattle are being fed their own, but they have been removed from some forest ranges on account of shortage of feed."

North Idaho.

"It was a week of moderate temperatures somewhat below normal during the last half. Copious rains fell Friday and Saturday and were of benefit to pastures, corn, beans, garden truck and fruit. They also helped the irrigation situation measurably. Wheat, barley and oats harvest is getting well under way, but the work was checked somewhat by the rains. Lettuce growers are getting ground ready for planting the fall crop. The harvesting of peaches, apricots and plums continues. The tomato crop has suffered much damage from blight and the supply is unusually short. All stock continue in good condition."

Buhl.

"Buhl, Twin Falls County—Winter wheat and barley cut and ready for spring wheat maturing rapidly; farm crops looking good except beans, which are very poor and in many instances a total failure."

"Pocatello, Bannock County—Temperatures were somewhat lower, especially the last of the week; 58 inch of rain fell on Sunday which was beneficial to crops; wheat and oats heading out; second crop alfalfa is slow; potatoes are fair; beets are growing slowly; the range is dry, but fair in this vicinity and poor in southern part of county."

Twin Falls.

"Twin Falls, Twin Falls County—A clear cool week, all crops growing rapidly; blight in beans stopped; all crops but beets look excellent; cutting alfalfa, some threshed; barley and wheat ripening nicely; beans, corn and potatoes advancing very rapidly; 45 percent irrigation water; crops not suffering much; second crop of alfalfa being cut; apples doing fine; apricots ripe."

"Caldwell, Canyon County—Moderately warm, some clouds, a northwest wind and a sprinkle of rain; grain harvest well on, wheat, oats and barley; second cutting of alfalfa going up in excellent condition; peaches from Emmett in local market; prunes and apples generally promise well; rather large planting celery looks well; water in this immediate region yet sufficient."

WEALTHY PUBLISHER IS JAILED BY WIFE

MRS. CORTLAND YOUNG, former Folliott girl, of New York City, has caused the arrest of her husband, a millionaire publisher, from whom she is separated, charged he forced an entrance into her home, intoxicated, and attempted to "kidnap" their three-year-old daughter.

BLOODSTAINS AND CHISEL FIGURE IN EVIDENCE

(Continued from page one.)

cross-examine, that even an extra room did not serve to prolong the proceedings to the usual adjournment time.

Defense Wants Speed.

At one point Clarence S. Darrow, chief counsel for the defense, offered to let Dr. McNally's conclusions go in without detail of the "chemical, optical and biological examinations" by which he had arrived at his findings. On the insistence of the state's attorney, however, Judge Caverly admitted a full description of the tests by which he determined that human blood was on the cold chisel.

Progress Bets Expectation.

The day was one of great progress 25 witnesses contributing what they knew of the story of the movements of the defendants during the days immediately preceding the crime and on the day which saw the execution of the carefully laid plans, vainly designed to defy detection.

As a result, Mrs. Crow said tonight it appeared that the prosecution's case would be concluded, he hoped, Saturday or surely on Monday. Of less than 100 witnesses on the state list, 47 had been examined at the conclusion of the second day's hearing.

Defendants Undisturbed.

Though they twice affirmed their plea of guilty to both the kidnapping and the murder of young Frank, the two young men did in court today with consistent aplomb. Sometimes they appeared only casually interested but during the expert testimony of the chemists fraught with scientific terms which gave the court the atmosphere of the classroom, the two students sat in postures suggesting absorption in their study.

Loeb, his eyes fastened on the witness and watched McNally handle the bloodstained boots and clothing he had worn that fateful night. Loeb leaned forward at the same time, seeming to follow the technicalities with absorbing interest.

CITIZENS OF POCATELLO MOURN OFFICER'S DEATH

(Continued from page one.)

drove his car to the south curb and Detective Garbett started out of the car and he did as called to Biven asking him to wait a minute. With a muttered reply the West Indian turned, drew a revolver and started firing.

Chief's Condition Favorable.

The first bullet went through the wind shield and struck Chief Lechbas in the right chest while the second struck Detective Garbett a little under the right eye, killing him instantly. Reports from the hospital this morning said the chief had a good night and his condition was favorable.

Although considerably dazed by his wound Chief Lechbas said he realized the seriousness of his predicament, drew his revolver and started firing at his assailant. Two of the four shots fired by the chief hit the mark and Biven lay to the ground, almost instant.

By Chief Lechbas then removed the revolver from the hand of Biven, took

CHAMBER OF COMMERCE TRYING FOR AIR ROUTE

Congressmen Will Mail Petitions Can Not Be Fixed Except by Authority of Congress; Has Good Chance.

Efforts are being made by the Twin Falls Chamber of Commerce through its secretary, Charles F. Dwight for the selection of Twin Falls as a fueling station and stopping place of a proposed air mail route between Salt Lake and Seattle. Attempts of several upper Snake river valley cities to obtain the air mail route caused inquiries to be made as to the necessary provisions for obtaining an air mail route.

A wire was received Thursday from Congressman Addison T. Smith of Twin Falls, who is at present in the east and expected home shortly. Congressman Smith in his wire to the chamber of commerce in response to inquiries about the establishment of Twin Falls as a fueling point said:

"Additional air mail routes require special authority from congress and appropriation. Matter can not be considered until congress meets in December."

It was the fear of Twin Falls citizens that perhaps some action could be taken as to what cities would be placed on the route before proper representation could be made of the Magic city's advantages which, officials say, are many.

LONDON PARLEY AWITS BREAK IN DEADLOCK

(Continued from page one.)

deadlock, there was no reason for pessimism. He emphasized that the Dawes report was Europe's hope no less than it was a week ago and he predicted that realization of the forces of economic and political disorder which would be released from control if the Dawes plan were rejected would yet reconcile the opposing interests and re-unite the conference in launching the "sports" scheme.

The bankers maintain that they fully understand and sympathize with Mr. Herriot's political position. Bold recourse to action on his part, they are inclined to believe would bring the conference to an early successful termination and would produce the much-needed reparations for France.

5000 CELEBRATE AT KIMBERLY PIONEER DAY

(Continued from page one.)

early-day experiences on the western frontier.

Muscle throughout the day was furnished by a fair band.

Fifty dollars in prizes was distributed among winners in a program of races and athletic sports and games conducted immediately after the Wendell Kimberly baseball game, under supervision of R. H. Denton.

Open-air dancing on the street and dancing in Legion hall afforded amusement during the evening and brought the celebration to a close.

Charge of the revolver carried by Detective Garbett, got back into his hands and had a bystander drive him to the general hospital.

Detective Garbett is the second Pocatello police officer to have been killed in performance of duty.

Archbishop Hurls Shaft at Clothing Affected by Women

Denies Wisdom of Letting Individual Conscience Decide What Constitutes Modesty.

NEW ORLEANS, July 24 (AP)—Archbishop Shaw of the Catholic diocese of Louisiana, commenting on the campaign against women's immodesty of dress recently launched by the pope, told the New Orleans item that the clothes worn by many women were an invitation to insults.

"What women do not seem to take into consideration is the fact that to be scantily clad is far more shocking and immodest than to be clad at all. The one admits the facts of nature, the other hides them in a suggestive and hence indecent manner." The item quoted the archbishop as saying, "I do not think it could be safely left to each woman's conscience to decide what constitutes modesty of dress for it is a sad fact that in such matters many women are without conscience. Let the high minded women decide for the rest—through some such scheme as proposed in pledge, curbs to be distributed by the national council of Catholic women."

"I do not think it from me to try to explain or design women's clothes but I do think women should dress."

SOCIETY

Edited by Mrs. E. B. Williams Telephone 396.

The Presbyterian Missionary society met in the church parlors Thursday afternoon. Mrs. D. F. Sweet presided over the business session. The program was in charge of Mrs. M. F. Gamble and consisted of interesting reports of the recent convention at Bellevue. Those were given by people who were delegates at the convention and were Misses Gans, Marianne Dunn, H. E. Wall, M. Hall and the Misses Edgardo Shortt and Grace Schade. An entertaining feature of the afternoon was a vocal duet by the little Misses Walker and Dunn. Delightful refreshments were served by Mrs. L. O. Evans and Mrs. O. F. Dwight who were hostesses for the afternoon.

Complimenting her mother, Mrs. W. E. Mosner, of Los Angeles, Mrs. Kenneth Clyde Beach was hostess at a charming tea Thursday afternoon at her home on Sixth avenue east. A variety of the flowers of the season decorated the rooms. The tea table was covered with an exquisite set of antique Venetian lace, a large silver vase filled with summer flowers, with shades of pink predominating, formed the centerpiece and on the four corners of the table stood beautiful silver candlesticks holding lighted pink tapers. During the first hour Mrs. A. Dygert sang two numbers, the second hour Mrs. Morlin Batley played an instrumental selection and the last hour Mrs. O. P. Duval sang four solos. Mrs. Batley accompanied both soloists. Assisting in serving were Mrs. Walter Beller of Eden, Mrs. W. I. McFarland, Mrs. A. Dorman Johnson, Mrs. Frank Magel, Mrs. John W. D. Smith, Mrs. Morlin Batley, Mrs. H. O. Lauterbach, Mrs. C. G. Hamon, Mrs. T. O. Boyd, Jr., Mrs. S. H. Graves and Mrs. J. L. Hodgins. One hundred invitations were issued. In the evening Mrs. Beach was hostess at a supper party for Mrs. W. E. Mosner, Mr. and Mrs. W. I. McFarland, Mr. and Mrs. Walter Beller and Mr. and Mrs. A. Dorman Johnson.

Miss Marguerite Finch entertained the Tri-C Bridge club Tuesday evening. Miss Jean Emery won, high score and Miss Bess Duke low. After the games dainty refreshments were served.

Twenty-two members of the Mentor club and six guests attended the regular meeting Wednesday afternoon at the home of Mrs. Earl Lewis. Response to the roll call was given in the form of current events and plans were laid at the business meeting for a picnic of the members to be held in the Buhl park Sunday, July 27. Mrs. C. J. Schroeder had charge of a class in parliamentary drill which was followed by refreshments served by the hostesses, after which the club adjourned to meet August 6 with Mrs. Walter Miller.

ASKS \$24,250 JUDGMENT.

Judgment in the sum of \$24,250, with \$1500 attorney's fees, \$321.50 water maintenance charges and \$187.50 in taxes is asked in a suit filed Thursday in the Twin Falls county clerk's office by Anna Beachy against Herman Frederick Voss, et al. It is alleged in the complaint that 17 promissory notes were issued December 31, 1919, of which amount but a small part has been made.

ANNOUNCEMENTS.

The Drama and Literature department of the Twentieth Century club will meet with Mrs. E. V. Parker, 638 Elm street, Friday 3 p. m.

TWIN FALLS IS BEST IN WEST, SAYS VISITOR

Alex McPherson Back From California Declares This Region Favored Section of West for Sure This Year.

There is no place in the west today as safe and sure as the Twin Falls south side, according to Alex McPherson, who returned Wednesday from a visit of several weeks in California, where he has property holdings and where Mr. McPherson is living. California, through its lack of water, hoof and mouth disease and its other troubles is going through a period of hard times that it should have gone through two years ago, said Mr. McPherson, who represents investment interests and consequently made a thorough survey of the conditions in California while there.

There has been practically no rains since March in southern California, according to Mr. McPherson, and at the present time the situation is so serious that power plants which formerly had plenty of water for power are now using gas and oil generating power in substitution being built in an effort to furnish customers with service. Not only has the lack of water and the hoof and mouth disease served to puncture the boom existing there but probably as important in the Los Angeles district has been the diminishing of the oil wells. Since the spring all production has been cut in two and with the exception of one or two districts which are still on the upward trend all other districts are diminishing.

Real Estate Out.

This condition, said Mr. McPherson, has resulted in real estate prices being out. While there still remains plenty of money in the country and property offered right can be sold, the day of speculation and high real estate prices is over. Farmers in California this year are much worse off than in Idaho, he said. Citrus growers during the last two or three years have made nothing and this year they will lose money. Apricot and peach crops generally are of inferior fruit and in a district where 16 canneries formerly were running but one is operating at present.

There is no dry farm crop this year because with the spring all production out the state towards placing California in poor condition. Conditions are such in the power situation, he said, that in each town conservative measures have been found necessary. Houses are asked to cut down lights 25 per cent and stores and homes are asked to use 10 per cent. As a result the streets are dark at night and little power is used.

Southern California is getting what it should have had some time before and in the long run will be much better for it, he said. It will be a year or two before conditions can right themselves. While it is still being hit with the hoof and mouth disease and the epidemic is by no means yet over.

RAIN AT IDAHO FALLS RELIEVES IRRIGATION

Judge Bothwell of Twin Falls Tells of Rain Saturday and Sunday: Conditions Somewhat Better.

Rains last Saturday night and Sunday at Idaho Falls and in the upper Snake river valley helped crops in that region considerably, according to Judge James R. Bothwell, who was one of those who spent several days in Idaho Falls during the first of the week attending the "committee of five" hearings on storage water difficulties between the upper and lower Snake river valleys.

Officials at Idaho Falls, said Judge Bothwell, conservatively estimate the good done by the rain at half a million dollars to crops in that region. The situation so far as the use of irrigation water is concerned in that region has been relieved considerably by the rain, according to officials, and about four-tenths of an inch fell.

The rain extended north throughout the Yellowstone park section where there was snow and south and east as far as American Falls where the fall was light. It rained considerably at Lava hot springs. Idaho Falls farmers and business men, according to Judge Bothwell, are optimistic over the prospects of good crops this fall and good business conditions generally.

CHICKEN DINNERS.

Can Now Go Ahead and Call for Bids on District Bonds

Attorney for American Falls Project Says Court Action Last Step Necessary.

Nothing stands in the way now of selling the bonds amounting to \$2,700,000 for the American Falls dam and the beginning of work in the near future on this project, according to Judge James R. Bothwell Thursday evening in commenting upon the action of the state supreme court which Wednesday evening passed favorably on certain constitutional questions concerning the bonds.

GAME WARDEN HIGH IN PRAISE OF AID GIVEN IN REGION

Chief Deputy Warden Salisbury Says Sportsmen and Farmers Helping to Prevent Law Violations.

Sportsmen and farmers of the Twin Falls project and the region in south-west Idaho are complimented for the co-operation they have given the state game department in holding down violations of the game laws, in a statement issued Thursday by John T. Salisbury, chief deputy game warden of Twin Falls.

"Sportsmen and farmers in the region covered by this office," said Mr. Salisbury, speaking for the state game department, "have given excellent co-operation in enforcing the game laws of the region and in preventing the breaking of the state game laws. I believe the public in general is getting a much better idea of just what observing the laws of the state on game means to them."

"During the last few days there has been an arrest and I take this to mean that through the aid of sportsmen and the farmers and public generally the game laws of the state are being observed as they should be. Comparing the two-month period this year with the same time last year there have been 120 more licenses issued."

"Four counties are included in the region over which Mr. Salisbury has control. They are Twin Falls, Jerome, Minidoka and Cassia counties. His office also is covering at the present time Goshute county in addition and East Owyhee county from the Brunson river and a part of Owyhee and Powell counties on the Raft river side."

VALUATION IS REDUCED

County Commissioners Grant Relief to Salmon River Project Lands in 10 Per Cent Valuation Reduction.

Twin Falls county commissioners, sitting as a board of equalization last week, ordered 10 per cent reduction in the assessed valuation for the current year of Salmon river project land upon which valuation of \$20 or more per acre had been placed.

The reduction, according to the commissioners, is in effect an abrogation of a higher valuation placed on these lands this year by the county assessor, and, as a result of the reduction valuations in most instances will stand practically the same as last year.

Zeke Hawkins Says:

While Miranda said we was taking breakfast this morning, she says to me, she says, 'Zeke, I see this fellow Wyckoff, and them Shipman Bros. has bought that Twin Falls Hardware Store. 'Bout six or seven other stores o' hardware in town too, adds that, ain't they?' 'Yep!' I says, 'but I knew a feller once who rolled a peanut from Boston to New York; He used up something over seven thousand peanuts, BUT HE GOT THERE. They tell me they are keepin' busy and doin' a heap more than they expected.'

FORMER CITIZEN SHOT BY HOLDUP

Rex Buck, Horse Dealer Twin Falls, Wounded by Highwayman Near Casper.

Rex Buck, a horse dealer, who formerly made his home in Twin Falls and is now living at Idaho Falls, was held up on the road west of Casper, Wyo., the other morning and shot as he emerged from a tent at the command of the highwaymen, according to an article printed in the Casper newspapers.

Mr. Buck, who with his two brothers, Ray and Bud, also former residents of this city, was taken to a Casper hospital immediately following the shooting and, according to the paper, was not seriously injured, although only the position in which he emerged from the tent saved his life in all probability.

Mr. Buck and his brothers were camped on the road seven miles out of Casper and were leaving camp in the morning the two brothers left camp and went into Casper for some cigarettes. While they were gone Mr. Buck busied himself by packing a suitcase. While he was busy inside the tent at this a voice coming from outside the tent commanded Mr. Buck to come out and put up his hands. He came out of the tent in a stooping position and as he came through the tent door the highwayman, about six feet away, shot him.

The bullet went through a fold of flesh in the stomach and into his leg where it lodged. Following the shooting, the highwayman took \$55 in bills from Mr. Buck's pockets, tied a blue handkerchief over his eyes, bound his hands behind his back and then left after warning him that a false move would result in being killed. The highwayman declared that he had a partner near by who would watch his every move.

DEPUTY GAME WARDEN GIVES SCOUT TESTS

John Salisbury Tells of Tests Given to Scouts at Salmon River Project Lands.

Tests in safety first work and in conservation were given by John T. Salisbury, chief deputy game warden with headquarters in Twin Falls at the scout camp in Shoshone basin Wednesday according to Thursday morning. Eight boys passed the safety first tests while six passed the tests on conservation.

Boy scouts at the camp, approximately 50 of them, this week are busy and having the time of their lives, according to Mr. Salisbury, who was high in his praise of the work that is being done by the boys and the good time they are having. The camp, he said, is in the Minidoka forest at the head of Rock creek and in the timber.

In his opinion it is one of the best spots that could have been selected for a camp of that kind. The camp is to be held for six weeks during which time every boy scout in the Snake river district should spend a week at least there. Accommodations are the best and besides the fun the boys are having they are passing tests which are well worth while to them, he said.

PURE

According to Webster. Undeified, clean, unadulterated, real—that describes our ice cream, fully and perfectly.

Why let your children have any other? Served in any style and sold at the fountain at 50 cents a quart.
