Daughter of Jazz Who Killed Mother Spends Seventeenth Birthday in Criminal Court; Hears Life Dissected.

SAN FRANCISCO, April 1 (AP)—Dorothy Ellingson was 17 years old today. Her birthday was celebrated by scores of strangers who peered curiously at her, who held in their hands the life she had dissected before her eyes. It seemed to her, the recital of the brief recollection of disordered years that led her to court and jail, that she had finally placed her in the shadow of the man.

The girl whose irregular life culminated, she said, in a sudden impulse to kill her mother, seemed to suffer an others told her story. She heard her mother's story, told by him, world fellows of their home life. Finally, he said, he believed her. He said he believed her. He said he believed her. He said he believed her.

Parents Separated

The attorney related how the girl's father and mother separated, about a year before Mrs. Ellingson's death. The child, he explained, had a hard time of it.

FLOODS MENACE PRAIRIE REGIONS

Warm Weather Melts Snow and Ice and Causes Serious Trouble in Provinces.

WINNIPEG, Man., April 1 (AP)—Floods which have menaced the prairie provinces for 48 hours increased in violence today. Workers have been busy removing Manitoba supplies at Regina and other Manitoba points.

A continuance of warm weather throughout the week will result in much snow melt.

Indian Accused of Baby's Death Kills Mexican Cell Mate

Ancient Redskin Resents Chiding by Prisoner Over Burying Infant Alive and Slays With Table Leg.

CORTEZ, Colo., April 1 (AP)—Another death was charged late today to Indian vengeance when Mormon Joe, medicine man of the Ute tribe, slew a redskin in the Cortez jail, who had chided him for the killing of an Indian infant—alleged to have been buried alive last week in accordance with sacred tribal rites.

Angered by the taunts of the cellmate, a Mexican, the ancient redskin took a leg from a table in the corridor of the jail and backed the prisoner to death before the sheriff could intervene. It is alleged that the Mexican was being held on a bootlegging charge.

Only a few hours before the killing in the jail a customer's inquest had returned a verdict declaring that the 18-day-old daughter of Plat Nay, Mormon Joe's son-in-law, "was buried alive by Plat Nay under the coercion of Mormon Joe." The jury also decided that the infant's dead mother, with whom the living child was buried, came to her death of natural causes.

Both Plat Nay and Mormon Joe are in jail, awaiting the arrival of federal officers from Denver, who will take charge of the case.

A defense firearms expert, William James, former captain of New York police, cross examined by State Attorney Hugh M. Alcorn, admitted the bullets introduced in evidence by the state, "apparently were fired by the same gun."

ELLINGSON GIRL HEARS LIFE HISTORY DISCUSSED

(Continued from Page 1)

Some life with no moral or religious training. "This unfortunate mother," he added, "I frequently tried in a friendly way to restrain her. The girl never understood her mother. There were no quarrels between them. The girl's only threats were that she would run away from home."

Mr. Mooslin finally said that the girl was a week before the fatal happening Dorothy had been persuaded to stay away from parties, and she seemed content to be at home.

The mother was found dead, according to the account, without apparent reason, and the girl ever had any serious differences. Later the girl was arrested and charged with the murder. In the "meat" in which she admitted that she had shot her mother.

Tells of Running Away

Karl Ellingson, who is seven years Dorothy's senior, said she would run away from her mother when her mother told her she was in trouble, and that she was in trouble.

NEW YORK GETS GIBBONS-TUNNEY 15 ROUND BOUT

Veteran St. Paul Boxer to Meet Light Heavy Weight Champion on the Night of June 12; Articles Signed.

NEW YORK, April 1 (AP)—Tom Gibbons, veteran St. Paul boxer and Gene Tunney, American light heavy weight champion, were signed today for a 15-round decision bout at the Polo Grounds on the night of June 12.

Since they will fight at catch weights Tunney's title will not be at stake. Matchmaker Jimmy D'Forest of the Polo Grounds, at Chicago, has made the stipulation in view of the New York state athletic commission's action in returning his \$2500 forfeit for a match with Dempsey.

Legal Champion

"Tom is the legal champion of the world because Jack Dempsey refused to meet him after he had challenged," said Eddie Kane, Gibbons' manager, who with Billy Gibson, Tunney's representative, signed the articles for the bout. "Tom will defend the title against all comers. Dempsey, now, must retire."

Gibbons asserted that Tunney had "the fact as much right to claim the title as I do," and he "will retire" and that he "contested Tom's claim."

Ready to Fight

"If there is going to be a scramble for the heavy weight title, we will fight Gibbons for it and will defend it against anybody else, or fight Jack Dempsey on my own terms," he said.

The match is subject to the approval of the New York state athletic commission, which recently placed Dempsey on the ineligible list in this state, for his failure to answer satisfactorily the commission's demand that he fight Billy Williams.

Negotiations for a Williams-Gibbons bout at the Polo Grounds on the night of May 19 collapsed yesterday when Kane decided that because he had not received Williams' signed agreement for the match he would negotiate for a bout with Tunney.

How seven words saved the reputation of the most famous hotel in the old south

ANTOINE, the French chef from New Orleans, was almost in tears. Complaints had come from the dining room. It was unheard of!

Back in those days when our grandmothers were wearing bustles, the old Maxwell House of Nashville was already celebrated throughout the whole South for its delicious food.

And now its reputation was at stake. Criticism had been aimed at the one thing nearest Antoine's heart—his coffee. What was wrong? Mr. Black, manager of the Maxwell House was waiting for an answer.

A reply that has made history

"Zee ozer coffee you bought was better," said Antoine to Mr. Black.

And with these seven words, Mr. Black began to see light. The "other coffee"—of course! The special blend, wonderfully rich and mellow, which he had agreed to try! He had forgotten to reorder it. And now the guests had missed it and were complaining.

Mr. Black acted promptly. From that day on, this one blend of fine coffees, which the guests had liked so well, was always served at the Maxwell House.

As the fame of this fine old hotel spread through the country, the reputation of its coffee grew also. In city after city, those who most

appreciate the best things of life have secured this blend for their own tables.

And the same man who perfected it years ago, Joel Check himself, still supervises with his associates the blending and roasting of it today. The same coffee that roused the enthusiasm of the old South years ago, is now on sale in sealed tins at all better grocery stores.

Its rare flavor and rich aroma are offered to your family. Don't wait longer before trying it. Ask your grocer today for one of the blue tins of Maxwell House Coffee.

It is easy to understand why France should be opposed to taking any very prominent part in a movement designed to bring about a limitation of her forces. France depends upon her army more than her navy as a means of protection against possible German aggression and as long as any remote possibility of German military rehabilitation remains, France may be expected to hold back.

Six Affidavits Filed by Defense in Typhoid Germ Case Against William D. Shepherd Accused of Murder.

CHICAGO, April 1.—Attorney for William D. Shepherd, foster father of William Nelson McClintock, millionaire orphan, and accused of murdering McClintock by administering typhoid germs in order to get a fortune, today filed six affidavits before Chief Justice Jacob Hopkins of the criminal court in a further attempt to gain Shepherd's release on bail.

All affidavits attacked statements of Charles O. Falman, proprietor of a scientific school whose confession that Shepherd offered him \$100,000 for typhoid germs and information about administering them, resulted in Shepherd's indictment on charges of murder. Falman has never been arrested formally.

By City Officials. One of the affidavits was made by Dr. Norman N. Dundesen, city health commissioner, and two others were by officials of the city bacteriological department. All were to the effect that typhoid cultures were very closely guarded and were issued only to persons after careful investigation. All said that Falman had never obtained typhoid cultures from the health department as he claimed.

Another affidavit was made by Oscar McAdams, said to be a former husband of Mrs. Falman. He alleged that he was had been interested in the operation of disorderly houses in St. Louis and Detroit and had been in jail in St. Louis in 1922, charged with murder by abortion.

Mother of Associate. A fifth affidavit was made by the mother of Earl Clark, the latter formerly associated with Falman. She said her son had told her that Falman had implicated Shepherd while under threat of prosecution for illegal practice in his school. The hearing to gain Shepherd's release was postponed tomorrow morning after Judge Hopkins has considered the affidavits filed today.

CHANGE SCHOOL ORGANIZATION

District Trustees Abandon 3-Year Junior High School; Return to Former System.

Twin Falls junior high school organization, including seventh, eighth and ninth grades, which was established four years ago under the administration of J. C. Mitchell, former superintendent, is to be abandoned next year, according to decision of the Twin Falls school district board of trustees announced Wednesday.

The former plan of organization is to be resumed with six classes in grade schools, two in junior high school and four in high school.

Attempt made this year to combine the offices of principals of junior and senior high school has not proved satisfactory. It was stated in explanation of the decision to remodel the plan of school organization. Duties of the two offices, it was stated, were too arduous to be performed by one person.

Re-establish Position.
The board decided to re-establish the position of junior high school principal which was abolished last year and Mrs. Vera O'Leary of the high school mathematics department was named to fill that office. Miss Mary Ruth Fisher is to continue as principal of the high school.

Principals of the three grade schools have been retained for next year. They are Miss Clara Bihler of the Washington school, Miss Fannie Perkins of the Lincoln school, and Mrs. Ethel Gray of the Hickel school.

BEING a candidate for the office of Commissioner at the City Election next Tuesday, April 7, I wish to make this statement, that the Citizens of Twin Falls may know the principles for which I stand, and to which I pledge my support if elected.

Every City owes its first duty to its own home folks:

FIRST—Our own safety requires that those who recklessly hurt automobiles along our streets should be dealt with strictly and consistently enough to compel a reasonable safety for the rest.

SECOND—Our City rests on the homes of those who live here. To make those homes beautiful and comfortable requires water. So far as it can be legally done, the water rates should be adjusted so as to lighten the burden on the home maker, and to make the vacant property of the speculator carry a fair share.

THIRD—Laws have a purpose. A level-headed, straight backed and consistent observance and enforcement of laws is an important part of the City's business, with neither persecution nor favoritism. The new law recently enacted at the last session of our State Legislature, making it a felony (and punishable as such) to give or sell liquor to minors, is a step in carrying out our most important purpose; that of protecting our young people from unlawful temptations. City officials can go just as far as they have effective backing to go, and our Commissioners should back our officials to the limit in this matter.

FOURTH—Tax dollars represent a hundred cents of hard work on the part of those who pay them in. Every one of those dollars spent by the City ought to show a hundred cents of value received.

These principles state the policy which I will do my level best to carry out if I am elected; and if you consider them worthy, I shall appreciate your support at the election next Tuesday.
