

HENRY FORD IS WILLING TO BUY 400 U. S. SHIPS

Detroit Auto Manufacturer May Purchase Shipping Board Vessels if Price Is Right, According to Story.

DETROIT, May 13 (AP)—Henry Ford will not buy the 400 ships of the United States shipping board if the government will fix what he considers a fair price, according to a story which will appear in the Detroit Free Press tomorrow morning. The announcement was made this afternoon by Mr. Ford, following a conference with T. V. O'Connor, chairman of the shipping board, the story said.

O'Connor is quoted as asking Mr. Ford to take over 200 ships in his original suggestion, the story says. However, when Ford informed him that he would only buy the ships to scrap them for junk, Mr. O'Connor suggested that the ships be sold for not cost much more to construct dismantling apparatus to handle the 400 ships, than it would, the lesser number.

Might Use Some Mr. Ford agreed to this, saying that he might think of using the ships for use by Ford industries. If any ships were put in operation they would be reconstructed and equipped as oil burners, the article states.

Despite the tentative agreement, the price of the sale of the ships to Mr. Ford will not be fixed for several months, it is estimated. The shipping board has been very making any agreement with Mr. Ford as it felt that if the ships were sold abroad to be scrapped, that promise might be broken and the ships might require a large amount of money in connection with American ships.

Built During War The ships were built during the war when everybody was crazy, Ford was quoted as saying. Most of the boats were thrown together in a haphazard way, he said. The emergency and consequently many of them were not strongly built and some of the engines had in them were junk.

We have already purchased three vessels from the shipping board, he said. I took the three boats for pioneering and we know their limitations. Two of the boats are of the 400 class, the other is a smaller Indian, is slightly larger and is now being put into shape for service.

ATLANTIC RUM FLEET MOVING TO WEST COAST

Blockade Believed to Be Driving Purveyors of Liquor to Pacific Side of Dry America; Ships Are Busy

LOS ANGELES, May 13 (AP)—Federal officials here, commenting on the presence of a rum fleet in southern California waters today, voiced the belief that the night blockade of the Atlantic coast was driving the rum fleet from there to the California coast with prospects of making the Pacific seaboard from Santa Barbara to San Diego, the leading theater for America's supply of booting liquor.

These federal officers frankly admitted that liquor in large quantities was being placed ashore in this territory despite their best efforts to prevent it.

"But said one of them, 'what can we do about it? We have not the fast craft nor the men to cope with the rum runners.'"

As tangible evidence of glutting of the bootleg market in Los Angeles, Scotch whiskey, or what sells for illicit illicit beverage, was reported as retailed here last night at \$4 per quart, compared with previous quotations ranging between \$5 and \$10.

There is declared to be so much whiskey on the market that the bottom has dropped entirely from the bootlegging trade.

Two federal vessels, the Tamoran and the Vaughn, are at sea today in a heavy haze and rain attempting to block the maneuvers of the rum fleet, said to consist of at least six ocean going craft, which are returning up and down the coast awaiting their chance to land further consignments of liquor.

SAN PEDRO, Cal., May 13 (AP)—Liquor value conservatively by federal and city police officers at \$100,000 was landed from the rum fleet off southern California coast today in a snugly under cover in secret caches of liquor.

PROPER TARIFF ONLY NEED OF FARMER, REPORT

Agriculture Will Be Able to Solve Its Own Problems if Protection is Given Delegates Believe.

DES MOINES, Ia., May 13 (AP)—Agriculture will be able to solve its own problems if it is given proper tariff protection and equalization with other industries, representatives of 24 farmers organizations declared here today in the closing session of a conference called for the purpose of reaching an agreement on measures that promise relief of the prosperity of the farmers.

The one specific legislative request for which the conference went on record was the creation of an export corporation to handle the export of farm products. The corporation would not have a government subsidy, the council declared, but the opportunity of working out the terms of the agreement with proper legislative remedial measures.

"The council was authorized to bring about joint action of all farm organizations with respect to economic and legislative proposals both state and national.

It was proposed to effect market control methods, but will guarantee a profit to the farmer and to extend cooperative movements to all branches of the industry.

No proposal for agricultural price fixing was brought out, but the nearest approach to this subject being the request that congress create an export corporation to be under the control of the farmers and through which surplus products might be marketed abroad to maintain "objective" prices.

The cooperative movement, under the program adopted, will be extended if possible, to the cotton growers of the south and an effort also to be made to "join hands with the cooperatives of New England."

Secretary of Agriculture Declares Rules Must Be Adopted if Fluctuations in Exchange Are to Cease.

WASHINGTON, May 13 (AP)—Adoption of rules by the grain exchange limiting the spread in daily quotations was recommended by Secretary Gardine in a report on the grain market. The report also recommended reasonable fluctuations and manipulation of grain prices.

The recommendations were contained in a report on the preliminary investigation by the department of agriculture in the grain futures and exchange fluctuations in future grain quotations on the Chicago board of trade beginning in 1925.

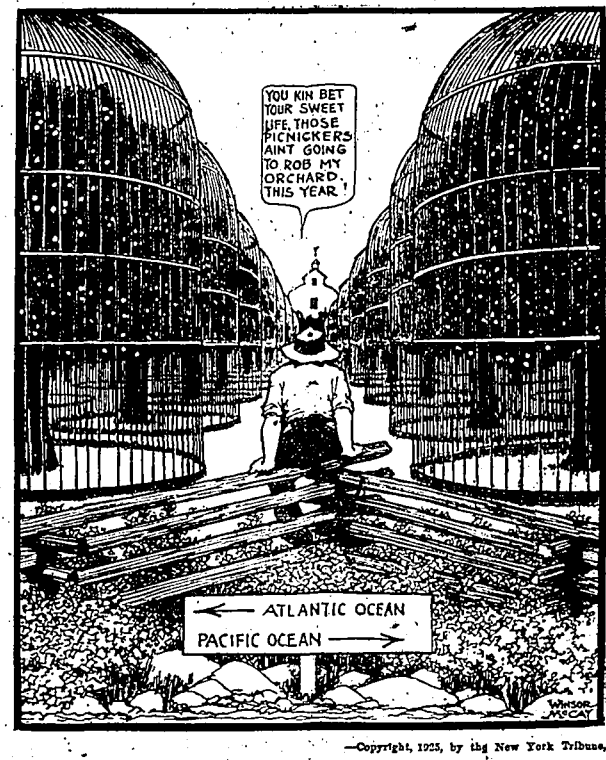

Must Control Prices Secretary Jardine declared in the report that unless some effective action he would be obliged in the public interest to suggest legislation giving to the department in case of the results of the investigation.

The investigation so far, he said, has brought out indications that evidence did exist which would show an attempted or actual manipulation of the market by means of the purchase and sale of contracts for the purpose of securing a profit.

Method Developed He added, however, that he was concerned that the investigation should develop some method by which a prevention of "such erratic and detrimental" price changes may be obtained.

It is the secretary's purpose, the report said, to undertake by the exercise of such authority as to confer with him by the grain futures act to bring about a condition where the quotations in the future will be more stable and reflect the prices incident to supply and demand.

HENRY FORD WILLING TO BUY 400 U. S. SHIPS

to Denmark, which we hope will be built. August 17. Mr. Ford indirectly refused a statement which O'Connor is alleged to have made to newspaper men in Buffalo, that Ford would become the greatest shipowner in the world's history by making the vessels that the U. S. and United States would buy of the ships, scrapping the remainder. Mr. Ford estimated the cost of canceling appropriations to eliminate the ships would amount to about \$100,000.

WASHINGTON, May 13 (AP)—Members of the shipping board in Washington said tonight they had no knowledge of any proposal from Chairman O'Connor to Henry Ford for purchase of the government's merchant vessels by the manufacturer, but that they "welcomed the news" of his reported willingness to buy the ships at a fair price.

The board members here said the new Mr. O'Connor's confidence with Mr. Ford and the latter's attitude on the matter came to a complete stop when Mr. O'Connor left Washington last week. It was understood he planned merely to spend the week-end at his home in Detroit for a conference with Mr. Ford.

Price No Object. BUFFALO, N. Y., May 13 (AP)—Informed that Henry Ford would buy 400 of the United States shipping board vessels, provided the price was reasonable, T. V. O'Connor, chairman of the board, said tonight: "The price will not stand in the way so long as the boats are being turned into American hands and will fly the American flag."

Mr. O'Connor explained that the price would be fixed by negotiations. The first inkling of the conference with Mr. Ford was given by Mr. O'Connor Tuesday night.

In an address, Mr. O'Connor said that he was not concerned over the price to be received for the boats. It might be but \$1 or \$2 a ton. The essential thing, he said, was to have the boats in American hands to be operated under the American flag.

He did not mention Mr. Ford by name but remarked that he had conferred with prominent Detroit citizens whose identity might be guessed.

VANDAL BASEBALLERS TO MEET WASHINGTON

MOSCOW, May 13—(Special to The News)—With one victory out of three starts in the Pacific Coast conference, the Vandals' baseball team will meet the University of Washington nine on the Idaho diamond Thursday. The Vandals' lone victory came from the University of Oregon, while Washington and O. A. C. "Drub" them.

Idaho dropped games with the College of Puget Sound and the remaining non-conference games with Gonzaga, was taken by Max Gilliam's team.

The recent trip to the coast showed several things in the first place. It brought out Water Field, Huston, a twinner. Field has been known as a consistent man on the Idaho grounds for a couple of years and he has his letter in baseball. He twirled the game against the Wolfrosters and the Vandals won. He has a fast ball and

an easy delivery. And he can put the ball on the ball.

Although the Vandals are a bunch of fielders, they are a little weak on hitting. It is said by sport writers that they will come with the ball was one of the outstanding reasons for the lack of victories on the tour.

Following the Washington game the Vandals have six other conference games, all of which will be played on MacLean field at Moscow. The following are the dates: University of Washington, May 14; University of Montana, May 15; Washington State college, May 16; University of Oregon, May 22; Oregon Aggies, May 20; Pacific university, May 27 and Whitman college June 2.

YANKEES SEARCHING FOR PLAYERS TO BRING TEAM OUT OF SLUMP

NEW YORK, May 13 (UP)—Search for material with which to bring the former world champion New York Yankees out of the second division of the American league has taken to the business manager Ed Barrow and the pilot of the team, Miller Huggins, to St. Paul, it was learned today.

A deal with the Chicago White Sox had been anticipated but the departure of Huggins and Barrow from Chicago indicated they found nothing available there.

Members of the victorious Twin Falls high school track team, headed by Coach Felix Platino, were the guests at the regular weekly meeting of the Twin Falls Rotary club at noon Wednesday.

CLYDELAND 6 TO 4 The Indians drove Ray Francis, recently obtained by Boston from New York from the field in the first inning here this afternoon, scoring five runs which helped them to defeat the Red Sox 6 to 4.

He pitched well in the pinches except in the eighth when he walked two batters and hit another. Boons and Spiker made home runs, Spiker's coming with a man on base in the first inning.

MUST MEET GRAPPLER AGAIN DECISION RESULT

NEW YORK, May 13—Stanislav Lozaya, Chilean lightweight who received a questionable decision over Low Blush of Salt Lake City, in a 12-round bout here May 2 must meet the wrestler again according to recommendation of the New York state athletic commission.

In the opinion of many critics Lozaya captured nine rounds of a battle and the crowd loudly voiced its disapproval when the verdict went to Lozaya. The referee and one of the two judges voted for Lozaya. This is the first time the boxing authorities have taken such action since the Walker law went into effect, four years ago.

SPORTSMEN WOULD OPEN ROCK CREEK FOR FISHING

Southern Idaho Fish and Game association will recommend to the state fish and game department that Rock creek from its mouth to the fork about 25 miles south of here, be opened for fishing during the season that opens June 1, next, officers of the association stated Wednesday.

RECOMMENDATION TO THIS EFFECT was made to the association at its meeting here Tuesday evening by a committee that had been named to inquire into conditions of fishing streams in this district.

What's What in The Sport World

What's What in The Sport World

Golf is classified as the most nerve wracking of all the outdoor sports. Yet eminent medical folks recommend it. It is said to be moving his hands in the shop from the Sealey brothers pool hall to the Graves building, across the street.

And how I will explain. "The charming old human system is cluttered up with a great number of nerves, yes, indeed, they function sort of separately, of course, but they are in different groups. Now let's see how his nerves that are used for solving mental riddles are all bung and everything like that."

"Go then and golf and forget all about finance." "We need to give the advice but the man goes golfing—and he comes afflicted immediately with golfitis. He goes golfing, then, and he gets no suggestion from the doctor. As far as forgetting about finance is concerned, well, after a man goes a golf club in his hands and his caddy has assisted him in yelling 'fore', that man is absolutely immune to anything that he might apply to 'how much do we play a hole.'"

"The impression that golf is a nerve wracking game is quite correct. Men of calm, placid dispositions, who live clean and noble lives can go onto a golf course for a few shots—and then slow eagerness to commit at least 15 different murders. They get nervous during the game, and sometimes in a mood where they would find joy in trampling upon flowers, frightening prettiness in the forest, taking away athletic activities by the people of Twin Falls."
